Chapter 981: Sky Ladder

To go to the Sky Ladder, they must first go to the tiny floating island where they originally appeared.

And no one knew the way there better than the Cloud Whale.

Perhaps it was a coincidence or something.

Anyway, when the four of them came to the big river, the Cloud Whale was flipping and moving in the clouds.

They directly flew to the sky and came to the Cloud Whale's side in a moment.

The Cloud Whale seemed to remember Han Fei. At the first glance when he saw Han Fei, it opened its mouth and rubbed its head against Han Fei. Caught off guard, Han Fei was sent flying by the Cloud Whale.

Han Fei laughed. "Big guy, I'll treat you to crabs!"

With that said, Han Fei took out a 20-meter-long crab and threw it into the Cloud Whale's mouth.

"Woo~"

Crack~

Crushing the crab in one bite, the Cloud Whale circled around happily and pushed them up.

Li Luoluo lay on the Cloud Whale's forehead and turned to look at Han Fei. "Han Fei, you seem to be on better terms with the Cloud Whale than others!"

Qing Chen smiled and said, "This is the benefit of feeding him."

Han Fei laughed. "Sure, I feed him every time I meet him."

As he said this, Han Fei patted the Cloud Whale and said, "Big guy, please bring us to the Sky Ladder. Do you know where it is? It's next to that floating island."

"Woo~"

The Cloud Whale flicked its tail, dispersing a white cloud, and its body was submerged in the clouds.

Han Fei looked at Li Luoluo and Qing Chen. "Why do you two want to go to the Thousand Star City? Are you not happy on the Scattered Stars Island?"

Qing Chen was chewing dried fish. "After I became a Law Enforcer, there's no more challenge for me here. Sea demons have suffered heavy casualties since the last war, and I don't think they will attack us soon."

Li Luoluo added, "I heard that the Thousand Star City is interesting. There are many ancient things there, so I want to have a look."

Han Fei curled his lips.

Regardless of whether the two were telling the truth or not, anyway, there was no competition between them. Besides, he couldn't stop them from going there, right?

Zhang Xuanyu approached Li Luoluo and said, "Girl, do you remember me?"

Li Luoluo glanced at Zhang Xuanyu and raised her eyebrows. "No."

Zhang Xuanyu didn't mind at all and said with a smile, "Then let's get to know each other again, OK? Girl, look at me and look at yourself. We have something in common."

Li Luoluo looked Zhang Xuanyu up and down and said, "What's that?"

Zhang Xuanyu chuckled. "We're both good-looking... I... Hey, who is dragging me?"

Whoosh!

A vine caught Zhang Xuanyu and threw him directly into the air. Luo Xiaobai couldn't stand him anymore.

The Cloud Whale also gave a "woo" and tilted his body, trying to catch Zhang Xuanyu. But then seeing Zhang Xuanyu flying back himself, he continued to fly forward.

Coming back on the Cloud Whale, Zhang Xuanyu sighed in frustration, sat beside Le Renkuang, and began to eat sea melon seeds with him.

Luo Xiaobai said, "The Sky Ladder is not easy to climb. Anyone who enters the Thousand Star City through the Sky Ladder will have permanent residence right in the Thousand Star City. Besides, the Sky Ladder is also a kind of assessment."

"What assessment?"

Luo Xiaobai said, "The seven major sects will issue an invitation to those who enter the Thousand Star City through the Sky Ladder. Therefore, on the Sky Ladder, there will be tests set by the seven major sects along the way. Of course, it is not mandatory."

Li Luoluo questioned, "How do you know this? Aren't you from a town?"

Luo Xiaobai paused and then said, "I read it from a book."

Han Fei asked, "Are the tests difficult?"

Luo Xiaobai shrugged. "I don't know."

Qing Chen smiled. "I heard that they're relatively difficult! However, not extremely difficult. People from the Emyrean Waterfall have mostly passed the tests."

Han Fei raised his brows. "Mostly? Not all?"

In Han Fei's view, none of the people who could go to the Emyrean Waterfall were weak. How could there be anyone who couldn't make it?

Luo Xiaobai continued, "As far as I know, of the seven major sects, the Sea Cloud Tower is the most low-key but the assessment they set is the most difficult. If someone from the Empyrean Waterfall failed to pass the tests, he must have been stopped by the Sea Cloud Tower's test."

Han Fei was slightly surprised. Indeed, as a major sect, the Sea Cloud Tower was too quiet.

The Heavenly Sword Sect was the most high-profile. The Jade Fairy Palace was all women, so it was like paradise for Zhang Xuanyu and the like. Therefore, it was the most famous. The Grand Void Academy, Mountain Sea Pavilion, Origin Returning Peak, and Death Door Sect each had their own strong points.

But the Sea Cloud Tower was the most low-key. Although it belonged to the seven major sects, Han Fei had met very few people from the Sea Cloud Tower.

The only person from the Sea Cloud Tower he had met was Yu Xian. However, his strength didn't seem to be strong and there was nothing special about him.

The sword of the Heavenly Sword Sect, the girls of the Jade Fairy Palace, the gate of the Death Door Sect, the virtual sword of the Grand Void Academy, the physique of the disciples of the Mountain Sea Pavilion, and the comprehensive strength of the Origin Returning Peak were all impressive, but the Sea Cloud Tower seemed to have nothing.

Han Fei asked, "What kind of a sect is the Sea Cloud Tower?"

Luo Xiaobai shook her head slightly and said, "I'm not familiar with the seven major sects. We'll find out when we climb up."

...

The Cloud Whale's speed was very fast, and it only took them three hours to arrive.

They jumped off the Cloud Whale, and Han Fei put a big octopus into its mouth and said, "Thank you, big guy."

"Woo~"

The Cloud Whale's voice was ethereal, resounding between the heavens and earth. He turned around and sank into the clouds again, swimming lonely in the sky.

Turning around, the six of them looked at the so-called Sky Ladder.

When they saw it for the first time, they thought it was just a hanging ladder, and people needed to climb it with their hands and feet.

In fact, it was not true. Only now did they discover that the so-called Sky Ladder was more like flaming steps hanging in the air.

However, looking from the hanging island, only one side of it could be seen, so it looked like a hanging ladder.

The Sky Ladder was like a bunch of burning chains of fire. In fact, except for the burning part, the rest of it was blank. One could only move through the chains of flames.

Han Fei tried to stand in a blank space outside the flames. However, his body immediately began to fall. Only by standing on the invisible flame chains could he stand.

However, once standing on the flame chains, his whole person turned into a burning man. This flame not only had the heat of flame, but also seemed to have a slight impact on his soul.

Li Luoluo immediately shouted, "Just stand on the flame chains!"

Li Luoluo tried to stand on the second chain of fire, only to find it was air underfoot and she couldn't stand on it at all.

Luo Xiaobai suggested, "We should walk step by step. Otherwise, we can easily fly to the Thousand Star City along the fire chains. Then what's the use of the Sky Ladder?"

Le Renkuang nodded and said, "It can't be that simple."

At this moment, Han Fei was stepping from the first chain of fire to the second one. The moment he stepped on the second chain, however, he disappeared.

Qing Chen screamed, "Oh! There is a problem with space here."

Zhang Xuanyu shrugged and said, "Yes! We can only walk the chains layer by layer."

When they walked to the second floor one after another, Han Fei appeared. At this moment, they had turned into six burning people.

"I don't know exactly how many layers of the Sky Ladder there are, but the intensity of the flames and the influence on our souls seems to be stronger and stronger. Hey, Xiaobai, are you going to climb the Sky Ladder too?"

Luo Xiaobai said calmly, "Yes, I'll be with you guys."

Yes, Luo Xiaobai certainly wouldn't want to go back through the teleportation array alone.

Le Renkuang had stepped out, muttering, "Since I came back from the ancient battlefield, my soul has strengthened greatly. Let's go. Hurry up."

They walked up 4,000 steps, and all of them had already put on low-quality Divine battle suits.

If not, they would have been burnt naked by the fire.

At this moment, Han Fei seemed to see a fist light, whose power equaled that of a punch of a peak-level Hidden Fisher.

Han Fei casually punched out, easily shattering the fist light, and the others did the same thing.

Perhaps the Sky Ladder was difficult for others to climb, but they had all reached the realm of a Law Enforcer, so they were not afraid of this level of an attack at all.

On the 5,000th floor, a sword light swept over but was blasted to pieces.

On the 6,000th floor, it was still sword light, but the speed was extremely fast. Han Fei recognized at a glance that this was the Jade Fairy Palace's combat technique, but it was still easily shattered.

On the 7,000th floor, it was a door.

On the 8,000th floor, it was a sea of swords.

On the 9,000th floor, the attack was a weird demonic sound. Le Renkuang felt slightly uncomfortable but still walked over. This should be thanks to the Pure Soul Beads he ate.

Han Fei smiled and said, "It's only a Hidden Fisher-level assessment. Although the flame temperature is high, we can still handle it."

Luo Xiaobai nodded. "The influence on the soul is not that strong. Let's see the last assessment."

Han Fei was thinking how the Sky Ladder had 9,999 floors. If it wasn't set here by the Thousand Star City, it must have been set by the Yin-Yang Palace.

When Han Fei stepped onto the 9,999th floor, his heart suddenly did a flip and he fell into a short illusion. He saw Lin Miaomiao attacking him.

"Huh? Inner Demon?"

Chapter 982: People From The Seven Major Sects

Han Fei frowned. Why was his inner demon always Lin Miaomiao?

This was not the first time.

Although Lin Miaomiao died because of him, he didn't expect that she had become his inner demon.

Although he felt very guilty about Lin Miaomiao's death, he had avenged her. Was his revenge not enough?

He thought that it was enough to kill Sun Mu. But although Sun Mu had already been killed, Lin Miaomiao's figure still haunted his heart.

He tried to remember what Lin Miaomiao told him in the days when she served as his guide. She must have told him something, which he remembered so well deep down in his heart that he couldn't forget even now.

But he couldn't remember what she said to him.

At this moment, feeling the shock of his soul, Han Fei closed his eyes. A ray of gold flashed across his body, and he punched out, shattering his inner demon to pieces.

At this moment, Han Fei decided to go back to the level-three fishery someday and bring back the corpse of Lin Miaomiao.

Suddenly, Han Fei felt his heart turn lighter. When he stepped on the last chain of fire, his vision changed and he found himself standing on a circular platform.

There were three stone pillars around the platform, which were smooth and had no carvings. On the top of the stone pillars, however, unique exquisite patterns of Spirit Swallowing Fish were carved.

This platform was independent and suspended, about 10 kilometers away from the closest floating island.

And at this moment, in the midair, seven people were standing in the air. They were wearing different costumes. It could be seen that they were the disciples of the seven major sects.

They were all Law Enforcers.

In addition to these seven people, at the edge of the floating island 10 kilometers away, there stood a person, who didn't seem to be from the seven major sects, looking arrogant and hostile.

"Are you waiting for us here?"

With a thought, Han Fei changed his clothes and put away his battle suit.

Among the seven people, the person from the Heavenly Sword Sect asked with a smile, "Han Fei?"

Han Fei nodded. "It's me."

The man said softly, "Although I know the relationship between you and Tang Ge, you're still from the Thug Academy. Are you choosing to enter the Heavenly Sword Sect, or do you have other plans?"

Swish, Swish...

At this time, the other five appeared one after another, and the flames on their bodies had just disappeared.

Hearing that person's question, Luo Xiaobai said directly, "We are going to rebuild the Thug Academy."

Li Luoluo let out a sigh of relief. "It turns out that the last pass is our inner demons. Fortunately, it's me in this body. Otherwise, Li Luoluo wouldn't have been able to make it."

Han Fei shivered slightly and looked at Li Luoluo. "Brother Kuang?"

Li Luoluo nodded sternly, and then looked at the people of the seven major sects. "Are there any other assessments? Show me!"

Qing Chen was stunned. "Li Luoluo, what's wrong with you?"

Li Luo raised her chin and looked at Qing Chen. "I'm Li Kuang, not Li Luoluo."

Qing Chen was about to speak when Zhang Xuanyu put his arms around his neck. "Brother Chen..."

The Law Enforcers of the Heavenly Sword Sect, or to be exact, the Law Enforcers of the seven sects, had no animosity towards the Thug Academy, especially the Heavenly Sword Sect, because Tang Ge and Mu Ling were about to get married.

As for Venerables, in this era, in today's Thousand Star City, they were more like a deterrent and were very unlikely to take any action. But Han Guanshu was special because he was still so young. Therefore, his existence would be a greater deterrence.

Therefore, influenced by the Heavenly Sword Sect, the seven sects didn't take the Thug Academy as an enemy.

At this time, the man from the Heavenly Sword Sect looked at Li Luoluo and Qing Chen.

Before that person could speak, Qing Chen said directly, "I heard that the Mountain Sea Pavilion is famous for physique training?"

The Law Enforcer from the Mountain Sea Pavilion was somewhat surprised. He had thought that these people would not choose the seven major sects. He didn't expect Qing Chen to ask him this question.

He smiled and said, "Yes, among the seven major sects, only our Mountain Sea Pavilion is professional when it comes to physique training. You're already a Law Enforcer, so if you choose to join us, you can directly become a core disciple. Of course, if you want to teach in our Mountain Sea Pavilion, you'll need to reach an agreement with us. During the agreement period, most of the resources and information in the Mountain Sea Pavilion can be shared with you."

Qing Chen glanced at Han Fei. "You know, this is my way."

Han Fei nodded. "It's up to you."

Qing Chen stepped forward and smiled. "I'm going to the Mountain Sea Pavilion. By the way, do you have enough food for me?"

"Huh?"

The Law Enforcer from the Mountain Sea Pavilion was dumbfounded. *What kind of a problem is this? You're a cultivator. You don't even need to eat!*

However, the man still grinned. "Sure, we will get you whatever you'd like to eat."

Qing Chen looked back at Han Fei. This guy was the best cook he had ever met. However, compared with the temptation of food, cultivation was more important.

Then, the Law Enforcer from the Jade Fairy Palace looked at Li Luoluo and said, "Girl, you've already become a Law Enforcer. If you enter our Jade Fairy Palace, we'll provide you with the same treatment as the Mountain Sea Pavilion. Different from the Heavenly Sword Sect, our Jade Heavenly Palace has as many hunters as manipulators, as well as many powerful soul warriors. Would you like to join us?"

Li Luoluo scowled. "Why did you call me girl? I'm a man. Why am I going to stay with a bunch of women? No way..."

Everyone: "???"

The seven people were all dumbfounded. You're a man? Are you sure you're not a girl?

Han Fei and the others were all speechless. You're talking to Li Kuang, not Li Luoluo. He would probably choose to join the Mountain Sea Pavilion, Origin Returning Peak, or Sea Cloud Tower.

However, Li Kuang suddenly looked at Han Fei. "I heard that you are going to build a school, right?"

Han Fei's eyelids twitched. "Uh! Not really. Our benefits package is very poor, and it's very troublesome to clean up the old site... Kuang... Uh, Brother Kuang, our school is not a good choice for you."

The Law Enforcers: "???"

The seven people couldn't help but doubt if they were blind. Why did Han Fei call this girl 'Brother'? Zhang Xuanyu seemed to want to say something, but Luo Xiaobai gave him a stare and stopped him. Obviously, there was something wrong with Li Luoluo. Her soul probably had something wrong.

However, the female Law Enforcer from the Sea Cloud Tower said, "You can come to our Sea Cloud Tower. In our sect, men and women are evenly divided. I bet you'll feel at ease in our sect."

Li Kuang paused. "Only if you can beat me."

With that, Li Luoluo took a step forward, and a long stick appeared in her hand. She swung the stick, and a seven-color light appeared behind her. Seeing this, the female Law Enforcer from the Sea Cloud Tower's face suddenly changed.

She frowned, and behind her, an undead creature appeared, dressed in black armor, looking hideous, and blocking Li Luoluo's stick barehanded.

BAM!

At that moment, a cyan light burst out of the seven-color brilliance. The Law Enforcer from the Sea Cloud Tower was shocked and hurriedly drew back. And the undead creature was devoured by this cyan light in an instant.

"Power of Life?"

In this brief confrontation, the person from the Sea Cloud Tower obviously suffered a defeat. Of course, it was mainly because she was caught off guard.

Even Han Fei didn't know that Li Luoluo had such a skill. What was that seven-color light? And that cyan light seemed to contain vitality and directly devoured the undead creature, which seemed a bit strange.

Li Luoluo put away the stick and said arrogantly, "Humph, I'm not going to your sect."

Suddenly, her body stiffened in midair.

Han Fei was dumbfounded. "It seems Li Luoluo is coming back."

Seeing the return of makeup on Li Luoluo's face, Han Fei knew that the master personality was back.

Li Luoluo landed directly on the platform and looked at Han Fei. "I'm going to the Thug Academy."

Luo Xiaobai was shocked. "Why?"

Li Luoluo smiled and said, "You are more interesting, and have fewer people."

Zhang Xuanyu hurriedly said, "Welcome, welcome. Let me tell you, the biggest benefit of our Thug Academy is that we have many delicious foods for you."

Le Renkuang nodded repeatedly. "Yes, I can prove it."

The people from the seven major sects were speechless. What's wrong with this person? Is she crazy? Her soul obviously has a serious problem. She is not a good choice!

The Law Enforcer from the Heavenly Sword Sect bowed to Han Fei. "Well, in that case, we're leaving. This Sky Ladder is meant to be prepared for ordinary and slightly talented people. I know you are all extraordinary talents. See you later..."

Han Fei nodded and suddenly asked, "By the way, when will be the wedding of Tang Ge and Mu Ling?"

The Law Enforcer from the Heavenly Sword Sect smiled. "In three months. We'll send an invitation to your school then."

Just when the people of the seven major sects were about to leave, the person on the edge of the floating island 10 kilometers away suddenly sneered. "Is this your seven major sect's 'assessment'? What makes you guys think you can just walk into the Thousand Star City so easily?"

Hearing this, Han Fei frowned. *Who is this guy?*

Chapter 983: Chu Sect's Sounding-Out

This time, the four of them had come to claim territory and rebuild the Thug Academy. Besides, Old Bai had emphasized that they should fight back hard if anyone dared to provoke them.

Therefore, at this moment, Han Fei certainly wouldn't flinch.

Han Fei sneered. "Which family are you from? I guess you're not from the Cao Family, right? So, who the f*ck are you?"

With Old Han behind him, Han Fei wasn't afraid of anyone.

Le Renkuang took a breath. "Believe it or not, I can blow you to death!"

Zhang Xuanyu smiled contemptuously. "Humph, is the Thousand Star City yours?"

The Law Enforcer of the Heavenly Sword Sect said indifferently, "Chu Xiao, they've passed the Sky Ladder, so you have no reason to stop them. The Chu Family has no say in this matter, right?"

The young man named Chu Xiao chuckled and shook his head. "It depends on what they are going to do! We all know what they came here for. Isn't it ridiculous that a village boy thinks that he can do whatever he wants and even become a king in a few years just because he got the Sea Quelling Painting?"

Stepping in the air, Chu Xiao pressed on, looking at Han Fei. "Our Chu Sect didn't go to compete for the Sea Quelling Painting because we don't think that the painting is of any real significance. If one can become a king just because he gets a painting, why do we bother to work so hard to cultivate?"

"Hoop!"

The Phantom Glass Wings spread, and Han Fei stepped into the sky step by step. "You're right. One can't become a king just with a painting, but since the Chu Sect doesn't want the painting, what are you nervous about? Besides, do you really think you could get it if you competed for it?"

That being said, Han Fei's mind was racing. *Why has the Chu Sect challenged us twice? They seem to be targeting the Thug Academy instead of me.*

But why? What was the relationship between the Chu Sect and Thug Academy?

Seeing the two go head-to-head, Li Luoluo was very excited. "I like teaching a lesson to this kind of idiot. Let me help..."

She wanted to go over when Luo Xiaobai stopped her.

Luo Xiaobai said, "One-on-one, it's fair."

Li Luoluo could only raise her small fists. "Han Fei, come on, kill him."

Han Fei grinned. "So are you going to stop us from entering the Thousand Star City? And do you think you can?"

Chu Xiao looked Han Fei up and down. "So conceited. You're only a peak-level Hidden Fisher, OK? Do you think you are as strong as your father?"

Han Fei sneered. "I rarely mention my father. I don't know if I'm conceited or not, but I really don't think it's a big problem to beat someone like you."

Chu Xiao grinned, and suddenly the void shook, as a soul power fell and burst open.

Zhang Xuanyu frowned. "Damn, it's a soul explosion."

The people of the seven major sects were also horrified, and the Law Enforcer from the Heavenly Sword Sect frowned, ready to rescue Han Fei and the others if they couldn't handle the attack. After all, Han Fei wasn't even a Law Enforcer yet.

But they felt ashamed at the same time: Chu Xiao was really shameless. At least he should reduce his strength to that of a Hidden Fisher. How could he attack a Hidden Fisher with the strength of a Law Enforcer?

However, in the terrifying soul explosion, Han Fei didn't even blink his eyelids.

Han Fei sneered in his heart: these people simply had no idea how strong his soul power was!

He immediately activated the Devil Change and disappeared. In the void, three sharp spikes darted out of the void and went straight to Chu Xiao.

Han Fei's voice resounded in the air, "Is this all you've got?"

Swoosh!

Chu Xiao jumped into the sky. It was easier to cause damage when fighting in close quarters. His fast speed reminded Han Fei of the Ye Family's unique skill.

Swish! Swish! Swish!

Both of them jumped up quickly, attracting many people's attention. Except for Luo Xiaobai and the others, many people were watching this battle elsewhere, including some strong masters.

Until they both reached the altitude of 8,000 meters, they began to fight. The three Demon Slaying Spikes, like three cloud-piercing arrows, revolved around Chu Xiao.

Chu Xiao didn't use the power of his law and seemed to be testing Han Fei's power.

Clink!

The crisp sound vibrated in everyone's ears.

Chu Xiao sneered. "Your strength is not bad. But, are you sure you want to fight with me with a Semi-Divine weapon?"

Boom! Boom! Boom!

As soon as Chu Xiao finished speaking, the three Demon Slaying Spikes exploded at the same time, like a thunderbolt in the sky.

Standing on the clouds, Han Fei cocked his head and smiled. "For me, Semi-Divine weapons are no different from disposable items. But their explosion didn't feel that comfortable, right?"

Seeing that Chu Xiao was sent flying for dozens of kilometers by the explosion, Han Fei cracked a bright smile and shook his head. "Tsk, I had thought that the Chu Sect was very powerful. It turns out I am wrong."

Ridiculing enemies was another unique skill of Han Fei.

However, he didn't try his best yet. After all, the Thug Academy would accept disciples in the Thousand Star City! He'd better stay low-key.

However, weapon explosions were really cool. Seeing his enemy so flustered, he finally understood why Yue Shier liked using weapon explosions so much in a battle.

Chu Xiao's face had darkened. How could he have thought that Han Fei would blow up three Semi-Divine weapons so easily? As far as he knew, Semi-Divine weapons were still scarce in human society.

The explosion power of Semi-Divine weapons was comparable to an attack by a Law Enforcer. Therefore, if he wasn't physically strong enough, he might have been severely injured.

Chu Xiao didn't wear a battle suit, so now his clothes were riddled with holes, and there were more than 10 bruises all over his body.

It was certainly impossible to kill him with a single explosion. However, seeing him in such a mess, Han Fei felt it was definitely worthwhile.

Chu Xiao's face was twisted. "Now you've really pissed me off. Go to hell!"

Hum!

Chu Xiao's body suddenly turned into a cloud, and the large expanse of white rolled towards Han Fei.

Seeing this, Han Fei frowned slightly.

There were some people who could turn into sand, shadows, or some other special things, which Han Fei hated most because these people were very difficult to fight.

Of course, it was not that there was no way to solve these kinds of people.

For example, Han Fei was confident that he could beat the hell out of the opponent as long as he used the Yin-Yang Divine Eyes and the Void Lines.

He knew there was a way, even if Chu Xiao could turn into a cloud.

Besides, he could also use the law of gravity, but he didn't want to expose these skills. After all, he was sure he wouldn't be able to kill Chu Xiao this time because he felt that there was a terrifyingly strong master watching this battle.

Perhaps Chu Xiao was just sent to sound out his real strength.

As for the Invincible Fist Technique, it would be like hitting mosquitoes with anti-aircraft guns if he used it, and it would alert his enemies.

In that case...

Han Fei grinned and said, "This is your law? I just want to describe it with one word, rubbish."

No one responded, but Han Fei felt that the cloud contained great lethality. If he hadn't finished practicing the third level of the Indestructible Body Art, he would definitely not have chosen to confront Chu Xiao head-on.

However, at this moment, Han Fei didn't move, allowing the cloud to wrap him up.

Below.

Qing Chen said in surprise, "Why doesn't Han Fei attack?"

Li Luoluo said, "This Law Enforcer's law is very weird. Although Han Fei's physique is very strong, the other party is still a Law Enforcer."

The Law Enforcer from the Sea Cloud Tower said, "Chu Xiao's law can corrode enemies, be it body or soul. What is Han Fei going to do?"

The Law Enforcer from the Grand Void Academy smiled. "Although I don't know what Han Fei's purpose is, from what I know of him, he is certainly not stupid."

Hum!

Just as the others were talking, a pillar of fire descended from the sky and Han Fei activated the Void Fishing Technique.

He knew that in this way, someone would doubt his combat technique.

But compared to combat technique, what would attract more attention would be his physique. After all, most of the combat techniques, when operating under the scorching sun, would draw from the sun's fire.

Hum!

A large array emerged, and Han Fei trapped the cloud with a Coiled Turtle Array.

When the terrifying sun fire fell from the sky, in an instant, a scream broke out.

“Han Fei, you are looking for death.”

An angry roar erupted above the clouds. Without a strong enough physique, no one could stand this power, but Han Fei could hold out for five seconds with his current strength and physique.

Only a second later, Chu Xiao had to resume his original body.

Below, the people of the seven major sects were all stunned.

Someone exclaimed, “Is he crazy?”

Someone sighed. “There is a problem with this combat technique. This combat technique will hurt Han Fei too although it can hurt Chu Xiao!”

The Law Enforcer from the Mountain Sea Pavilion grinned. “No, it can’t hurt Han Fei. Look, he’s alright. Han Fei’s physique is, gee... Very strong.”

As for Luo Xiaobai and the others, they were very calm.

In their view, Han Fei was at his peak. Ordinary Law Enforcers wouldn’t be able to defeat him. This had been proven countless times.

In the next second, Chu Xiao’s whole body was cracked. Although he had put on a Divine battle suit, he still couldn’t resist this terrifying heat.

Chu Xiao tried to break through the large Coiled Turtle Array, but Han Fei’s Phantom Glass Wings and Agility of Wind stopped him from breaking through.

Han Fei smiled and said, “Aren’t you here to test me? Don’t flinch. Come on.”

On the third second, Chu Xiao bled all over. His hair was all burned out, his skin all over his body was scorched and he was almost roasted.

Suddenly, there was a muffled hum from the sky. Someone broke the large Coiled Turtle Array with one hand and grabbed Chu Xiao.

However, Chu Xiao was already dying. If he were not a Law Enforcer, if he hadn’t had a Divine-level battle suit, he would have been burnt into ashes.

But Han Fei was almost unscathed.

When he came down from the sky, his hair was growing, his clothes were changed, and he casually threw himself a Divine Healing Technique. The thin cracks on his body were recovering at a speed visible to the naked eye.

This showed how horrifyingly strong Han Fei’s physique was!

Chapter 984: Lifespan

Han Fei landed on the ground and looked at the person who was holding Chu Xiao in his hands. He was throwing a healing technique on Chu Xiao, and the latter was also recovering at a speed visible to the naked eye.

Han Fei's eyes narrowed slightly. This person was probably a peak-level Law Enforcer. Otherwise, a spirit gatherer who was only an ordinary Law Enforcer wouldn't be able to treat a person so quickly.

At the same time, Han Fei was aware of a problem that Old Jiang once told him: the higher the realm of a spirit gatherer, the more powerful he would be.

A low-level spirit gatherer was the object of protection of the whole team.

But when a spirit gatherer became a peak-level Law Enforcer, he could both launch an attack and gather energy, and wouldn't easily run out of spiritual energy.

Once a spirit gatherer became an Explorer, he would be even stronger. And it would be very difficult for his enemies to beat him.

Han Fei looked at the person and said, "A peak-level Law Enforcer? Don't you feel ashamed to fight us?"

The middle-aged man took a deep look at Han Fei. "The people in the Thug Academy are all the same, humph..."

With that, the middle-aged man grabbed Chu Xiao and flew away without a word.

The Law Enforcers of the seven major sects glanced at each other. The arrogance of the Thug Academy was simply passed down from generation to generation. They made a salute and said, "OK, we're leaving."

...

When the four of them boarded the island of the Thousand Star City, they looked around and found that a large area of this place was unoccupied. The floor was paved with carved sapphire bricks, and there were several human-shaped statues not far away as if they were welcoming people coming up from the Sky Ladder. In the distance, the outline of the buildings could be seen, which seemed to be quite tall.

Qing Chen had already left with the people of the Mountain Sea Pavilion.

Everyone looked at Luo Xiaobai. It was the first time they were here, and they were completely unfamiliar with the Thousand Star City.

For now, they hadn't flown to the sky to get a bird's-eye view, so they didn't know how big this so-called Thousand Star City was... How many islands were there? And what was the layout?

Luo Xiaobai said, "I don't like it here very much! The Thousand Star City is mainly composed of 36 floating islands and several mini-floating islands. It should be... Five or six times larger than the Scattered Stars Island."

"Puff!"

The others were all dumbfounded. What? The Thousand Star City was five or six times bigger than the Scattered Stars Island?

Li Luoluo was surprised. "Are you from the Thousand Star City?"

Zhang Xuanyu asked, "Huh? So where should we fly? Where is the former site of the Thug Academy?"

Le Renkuang silently counted and said, "So, the city has an area of about ten thousand kilometers?"

At this moment, an old man in gray flew over.

"Miss, sorry I'm late. Miss, are you okay?"

Luo Xiaobai leaned slightly and said, "Grandpa Ku."

The old man smiled brightly and said, "Miss, Master asks for you, are you going to take your companions back to our family to live several days, or what?"

Luo Xiaobai shook her head slightly. "No, we're going to the former site of the Thug Academy. Grandpa Ku, you can just tell us where it is, and we'll go over by ourselves."

The old man smiled and said, "No, since I'm already here, I shall lead you there..."

Then he looked at the others with a smile. "I'm Ku Shui. Nice to meet you. The former site of the Thug Academy is already dilapidated. If you want to live there, you may have to clean it up first."

This old man was obviously a very strong Law Enforcer. However, since Luo Xiaobai's father was already an Explorer, it was normal for him to have such a servant.

This was the benefit of the big clans. Even if Luo Xiaobai said that her family had declined, it wasn't something an ordinary family could be compared to.

Han Fei made a salute and said, "Then please lead the way, Senior."

Ku Shui waved his hand and a fishing boat appeared.

Han Fei was surprised. "Can people take fishing boats in the Thousand Star City?"

Ku Shui smiled and said, "Sure, or you can fly with wings. After all, the Thousand Star City is too big. Even local residents will get lost sometimes."

Le Renkuang said, "Senior, would you tell us about the city?"

Zhang Xuanyu echoed, "Yes, tell us about the seven major sects and the big clans in the Thousand Star City. Are they all on the most central island? Where is our Thug Academy? What's new here?"

They didn't ask Luo Xiaobai these questions because as the young miss of the Luo Family, she probably didn't go out very often.

However, Luo Xiaobai was very knowledgeable and had a good memory. Even though she wasn't familiar with the roads, she must be familiar with some things.

Luo Xiaobai said, "Grandpa Ku, please bring us a copy of the materials and ancient books about the Thousand Star City in a few days."

"Yes, Miss."

Ku Shui said with a smile, "In fact, the Thousand Star City is a bit different from what you think! Neither the seven major sects nor the big clans are on the central island. You can imagine this place as a large circular island. The most central part, called the Central God's Seat, is also called the city of sacrifice and

is said to be the place where the gods lived. It is blocked by terrifying killing arrays, and even Venerable experts dare not step into it.”

“Enclosing the Central God’s Seat are the three sacred sites of the Thousand Star City, which are the Monument of Gods, the Sky Meditation Garden, and the Ideal Palace. The three sacred sites occupy an island each.”

“On the periphery of the three sacred sites, there are 6 floating islands, where the most powerful clans in the Thousand Star City live. In total, there are 18 clans. On average, there are 3 big clans on each island.”

Han Fei suddenly asked, “Where are the Cao Family and the Chu Sect?”

Ku Shui smiled and said, “They live respectively in the south and north of the Thousand Star City. And we are currently in the north of the city, so the Chu Sect people came just now. The Cao Family and the Chu Sect are also the only two families occupying an entire island in the Thousand Star City. That is because the two families both have Venerables, but that doesn’t mean other families don’t have Venerables. They just can’t come out.”

Li Luoluo asked curiously, “Why?”

Ku Shui smiled. “I don’t know if you have ever heard about the lifespan of a cultivator? After becoming a great fishing master, a cultivator will have a lifespan of 200 years. Hidden Fishers have a lifespan of 800 years. Law Enforcers are the transition from Hidden Fishers to Explorers and haven’t formally stepped on the way of cultivation, so their lifespan is only about 1,200 years, not much longer than a Hidden Fishers’. But Explorer’s lifespans surge to around 2,000 years.”

They asked, “What about Venerables?”

Ku Shui said, “Venerable’s lifespans are at least 5,000 years, but vary from person to person. But if a Venerable has lived for 5,000 years, his overall strength will slowly decline. So the Venerables older than 5,000 years have to be very cautious to be engaged in a fight. It can be said that they are burning their lives in every battle they fight.”

Han Fei’s eyelids twitched. Really?

Ku Shui said with a smile, “Some Venerables have exhausted their lifespan in advance; some have increased their lifespan through special treasures; some seized others’ bodies and regenerated in others’ bodies. However, it’s said that a king can live tens of thousands of years. I don’t know much about it... It’s even said that some strong master has turned into a god, and his life is as long as the heavens and earth, but it’s just a legend.”

Zhang Xuanyu took a breath. “So, the Venerables don’t engage in fights because they want to live longer?”

Ku Shui nodded slightly. “Yes, some people even seal themselves to a certain extent. However, it’s not absolute. For example, if a Venerable attacks you, it won’t consume their life, unless you’ve become Explorers.”

Han Fei asked, “What about a Venerable who hasn’t lived 5,000 years?”

Han Fei asked this question because of Old Han. He thought Old Han should be still young.

Ku Shui smiled and looked at Han Fei, knowing why he was asking this question. He said, "Then he has nothing to lose. He can keep fighting and can even burn his life when necessary."

No wonder people were so scared of Old Han. Other Venerables had to consume their remaining vitality in a fight, while he could keep fighting.

Of course, Han Fei didn't believe that all the other Venerables in the Thousand Star City had lived for 5,000 years or more. There must be some younger ones.

Otherwise, from what he knew of Old Han, he would probably keep fighting them until their lifespan was exhausted.

Li Luolu's eyes were firm. "I want to be a Venerable."

The others looked at her speechlessly. Everyone wants to be a Venerable, OK?

Luo Xiaobai said, "So once one's lifespan is over, he won't have any hope. Therefore, we must try to become a Venerable within a thousand years."

Ku Shui chuckled and said, "Miss, you're right. Many Heavenly Talents may become Explorers or even Venerables in a few hundred years. But, becoming a king is extremely difficult... Some people once said that due to various limits, the Thousand Star City cannot produce a king. But no one knows what the truth is."

Han Fei gasped. Wow, no one can become a king among the hundreds of millions of people! Could he really make it?

Han Fei suddenly smiled secretly. *I have got all these precious resources, and even the Yin-Yang Heavenly Palace is going to be mine. If I can't become a king, who else can?*

Chapter 985: Old Site Of The Thug Academy

The information about a cultivator's lifespan made Han Fei's mind wander. They really knew little about the world of cultivation!

After all, no one had mentioned this information to them before.

Han Fei thought for a moment and asked, "Senior, I have a question. Are there any grudges between the Chu Sect and the Thug Academy?"

Ku Shui shook his head. "I don't know. After all, things between the strong are usually only known to the strong."

Han Fei frowned. "What kind of a family is the Chu Sect, and what are they usually up to?"

Ku Shui smiled. "The Chu Sect's history is relatively short, which is only a few thousand years. They have a special interest in the Thousand Stars Proving Ground because they believe there is a big secret in it."

Han Fei's heart did a flip. Thousand Stars Proving Ground? Did the conflict between the Chu Sect and the Thug Academy originate from the Thousand Stars Proving Ground?

Thinking of the Sea Swallowing Seashell that Old Bai gave him before they left, Han Fei decided to go to the Thousand Stars Proving Ground first when he settled down.

Han Fei nodded. "Senior, please go on."

Ku Shui paused for a while and then said with a smile, "Except for the big clans, the other islands are around the central island. The weak families may be scattered on any floating island. Except for the big clans, other people's residences won't be divided according to their level of strength. The strong may live with the weak. This is normal. And there are many small markets, at least thousands of them. There is a large-scale business center on each floating island... On top of that, there are the seven major sects."

The five of them listened, like kids listening to stories around the campfire. Sitting next to Le Renkuang, Han Fei had already taken out snacks and fruits while listening intently.

Seeing this scene, Luo Xiaobai rolled her eyes. They were like kids!

Ku Shui was speechless too. Was he some sort of storyteller?

However, he just smiled. After all, they were still kids.

He continued, "The seven major sects are located on the outermost seven floating islands. They've slowly turned these floating islands into their own territory. Although there are many ordinary people living on these islands, they're more or less related to the sects. After all, the people of the sects also need resources. Where do these resources come from? Of course, obtained through various transactions."

Han Fei interrupted, "Where about our Thug Academy?"

Ku Shui paused, and his face stiffened slightly. He had paid special attention to the Thug Academy after Miss became one of their students.

Ku Shui said, "The Thug Academy has been vacant for many years. Since that war, the site has been deserted... And the plantation seems to have been occupied by several big families. However, you should be able to take it back. There are some people living on the site, but it's mostly deserted because ordinary people dare not to occupy it due to the influence the Thug Academy used to have."

Han Fei said, "So you mean, except for the old site, our Thug Academy has nothing left?"

Ku Shui nodded slightly and stroked his long beard. "But since you've returned, you should be able to rebuild the academy!"

Somehow, Han Fei felt that something was wrong.

Because the Thousand Star City was too large, Ku Shui couldn't introduce it to them in detail.

God knew how this island extending tens of thousands of kilometers could be suspended in the air. The ancient strong masters were really powerful!

So it was actually not a big deal that Chun Huangdian moved the sea demon mountain that was as large as 800 kilometers. The ancient masters had even moved an entire island that stretched for tens of thousands of kilometers.

Zhang Xuanyu asked, "So, Senior Ku Shui, is our Thug Academy's old site on one of these 36 floating islands? It's not on those negligible small islands, right?"

Ku Shui nodded. "Of course not. The Thug Academy was once comparable to the Heavenly Sword Sect and the Jade Fairy Palace. Although the academy doesn't have many disciples, each of them were exceptional talents."

The group of them breathed a sigh of relief. Nice! Otherwise, they didn't know how to claim their own territory!

From the north to the east, they had passed by several floating islands, and also encountered many fishing boats. In the sky, there were birds flying, but the birds didn't fly too high and were mainly relatively ordinary birds.

Occasionally, some perceptions swept over. That was just because Ku Shui was with them. Otherwise, nobody would have paid attention to them.

They crossed the mountains and rivers and flew all the way to the rising sun.

After half an hour, they arrived on a floating island with mountains, rivers, and waterfalls. Flying past the crowds, markets, woodland, and mountains, they finally saw a ruin-like building in the east end.

Regardless of what the Thug Academy was like before, half of the site had been covered by woods now.

The site was overgrown with weeds, some of the buildings had collapsed, and some only had pillars left. And the slabs on the ground and the paths were all destroyed, and the crevices were filled with weeds.

As soon as they saw this academy, they all nodded. This was exactly the style of the Thug Academy. Behind the school were mountains, and in front was a plantation. The only difference was that there were rivers connecting inside and outside the old site of the Thug Academy. At this moment, there were some people sitting on the broken rocks and fishing.

Luo Xiaobai frowned and said, "How come there's only so little left? The area is even smaller than a hundred kilometers, and the left and right sides have been occupied."

Le Renkuang pointed to the front and said, "Look, almost all of the plantation has been occupied. There are many houses built on it. The one to the left is not even half the size of the one in the Blue Sea Town!"

Zhang Xuanyu said, "This place is not the gate of the school. The gate is over there."

The others looked in the direction of Zhang Xuanyu's finger and saw that there were two super tall stone pillars erected dozens of kilometers away.

Li Luoluo said, "But even if that's the gate, it's still not big! The area is 100 kilometers at most, not including the mountains and forests, and about 300 kilometers if the mountains and forests are counted."

Han Fei said seriously, "It's at least 500 kilometers including the plantation."

Ku Shui said with a smile, "To be precise, there should be 800 kilometers. Although there weren't many people in the Thug Academy before, as you know, the Thug Academy likes the idyllic feeling. So, including the plantation, the area should be more than 800 kilometers."

The four of Han Fei were silent.

Le Renkuang said slowly, "But there are only 50 kilometers left."

The corner of Zhang Xuanyu's mouth twitched. "The entire plantation has been occupied, so has half of the area inside the gate."

They all looked at Han Fei, including Luo Xiaobai.

When fighting and adventuring, Luo Xiaobai was always calm and witty. However, she had no idea how to claim territory at all. Should they fight their way through or just reason with people?

Han Fei's face was changing and he said after a long silence, "Let's go to the old site. Demolish all the buildings that shouldn't be there, clean up the site and rebuild our school."

Zhang Xuanyu said in surprise, "Will those people allow us to do that?"

Han Fei grinned. "Don't panic. Let's clear up the unoccupied areas first and keep moving. Demolish those unauthorized buildings along the way until a peak-level Law Enforcer shows up."

Le Renkuang trembled, "What if a peak-level Law Enforcer does show up?"

Han Fei sneered. "We fight."

Zhang Xuanyu's eyes widened. "Who will fight him?"

Han Fei looked at Ku Shui and grinned. "Senior Ku Shui."

Ku Shui: "..."

But in fact, Ku Shui didn't mind. Han Fei said this because he didn't treat him as an outsider. Besides, because of Luo Xiaobai, Ku Shui wouldn't refuse to help them.

But he would only come forward if necessary.

Luo Xiaobai had no problem with it. After all, the Thug Academy was her school.

Li Luoluo said, "What if an Explorer comes?"

Han Fei smiled and said, "No, Explorers won't reduce themselves to come to fight us."

Han Fei suddenly looked at Li Luoluo. "Li Luoluo, if you want to join our school, you'll be our Junior Sister."

Li Luoluo protested, "Why? Can't I just be a part-time teacher? I am the only Law Enforcer among you!"

Zhang Xuanyu smiled. "As long as you don't become Li Kuang. Luoluo, I agree with you wanting to be a teacher."

Luo Xiaobai was pondering. Now the power of the Thug Academy was too weak. They did need teachers because they would enroll students soon.

Le Renkuang had no objection. As long as there was enough food, he would be fine.

Han Fei nodded. "Okay, then you are the first part-time teacher in our school. Now, please clean up the site with us, Miss Li."

Li Luoluo: "..."

When they landed on the ground, they were all shocked. The battle marks on this ground were too obvious. Some places were full of bumps and hollows; in some places, the slabs were broken; in some places, there were residual sword marks and knife lights, which hadn't disappeared even after 38 years.

It showed that the battle that took place at the Thug Academy was even more terrifying than what they had imagined.

With a thought from Han Fei, Nine Tails rolled out.

Han Fei instructed, "Xiaobai, can you be responsible for clearing the plants? Kuangkuang, cut trees, Zhang Xuanyu, quarry stones, and Li Luoluo, manipulate the insects to turn the soil... Nine Tails, demolish the buildings, all of them..."

Li Luoluo asked, "What about you?"

Han Fei smiled and said, "I'm going to drive those people away..."

Chapter 986: The Return of the Thug Academy

It was a little overkill to have Luo Xiaobai and the others do the cleaning, but their cleaning speed was really fast.

When they got started, the people who were fishing in the Thug Academy all stood up and looked at the group of uninvited guests in surprise.

When these people saw them walking over, they yelled, "Hey! Brats, what are you doing? Don't trespass on our property!"

Boom!

As soon as he said so, Nine Tails whipped his tail and shattered a dilapidated building in the distance.

Han Fei grinned. "I'm Han Fei, from the Thug Academy. Well, you can call me the acting president of the Thug Academy in the Thousand Star City. From today on, I have the final say on this land."

The faces of those people changed slightly, and someone asked in surprise, "The Thug Academy is back?"

Someone narrowed his eyes and said with disdain, "Boy, who are you bluffing? The Thug Academy no longer exists. How can you prove you are from the Thug Academy?"

Han Fei took a look at these people. "Well, among the five of you, only one is an intermediate Hidden Fisher, but you yelled at me. I'll give you three minutes to leave... Otherwise, I don't mind throwing you out."

Indeed, these people were not strong.

Of course, Han Fei was still surprised to see a Hidden Fisher among them. This showed that there were many Hidden Fishers in the Thousand Star City.

At this moment, the Hidden Fisher looked at Han Fei, and Luo Xiaobai who was controlling spiritual plants in the distance, and he frowned. He could tell these people were stronger than him.

He immediately sneered. "Good! You do know this is the Thousand Star City, right? Brat, let's wait and see... Let's go!"

In fact, on the Thug Academy's land, besides these people fishing, there were also people cultivating and training their bodies on the two sides, and there were also some people in the mountains and forests.

Han Fei had decided to drive all these people away and would solve them one by one.

Looking at the five people who left in anger, Ku Shui appeared next to Han Fei. "Young Master Han Fei, although this place is deserted, it is close to mountains and rivers and is in a great location, so it's full of spiritual energy, and every morning, many people will come here to cultivate."

Han Fei looked up at the sky. "In other words, we are late? Most people have already finished cultivating and left?"

Ku Shui nodded.

Han Fei grinned. "It's okay. They won't be allowed to enter from tomorrow on..."

...

After a while, Han Fei came to a place overgrown with weeds on the left side of the academy. A boy was cultivating there, and spiritual energy was gathering around him.

The boy probably knew that Han Fei had come, but he didn't stop cultivating.

The corners of Han Fei's mouth were raised slightly, and he stomped, forming a Spirit Gathering Array. The spiritual energy that was supposed to enter the boy's body was easily taken by Han Fei.

The boy opened his eyes, frowned, and stared at Han Fei. "A spirit gatherer? What are you doing? Why are you interfering with my cultivation?"

Han Fei smiled. "Is what I just said not clear enough, or did you not take it to heart at all? I said, the Thug Academy is back, and everyone here needs to leave."

The boy looked calm. "How can you prove you're from the Thug Academy?"

Swish!

As soon as the boy said this, in the next second, he was lifted to a height of 100 meters.

Han Fei grinned. "Do you think I'm joking with you?"

Looking up and seeing this scene, Luo Xiaobai and the others knew that they couldn't reason with these people and would still have to throw them out.

Han Fei shouted, "Everyone within a hundred kilometers, leave within half an hour... Otherwise, don't blame me for being rude."

The young man held in Han Fei's hand said angrily, "Let me go! Do you know who my father is?"

Han Fei swung his arm and threw the boy dozens of kilometers away.

Then he shouted in the sky, "I don't care who your father is? Today, you all have to leave."

But as soon as Han Fei finished speaking, a few kilometers away, someone also flew to the sky. "Stop bluffing. You're just a peak-level Hidden Fisher. How dare you drive us away?"

Boom!

A golden fist mark blasted out, and the person who spoke was shocked and hurriedly summoned a big turtle to protect his body. At the same time, a turtle shield flew out of his armor box.

BAM!

Crack!

The turtle shield shattered, and the man spurted blood and was sent flying by Han Fei.

Han Fei grinned. "You're not qualified to talk to me unless you can take my punch. Now... Within ten minutes, if anyone is still here, I'm gonna beat the hell out of them."

BAM!

In the forest, a man was sent flying, and Zhang Xuanyu cursed, "Cut the crap and get the hell out of here, understood?"

In a few moments, within hundreds of kilometers, dozens of people left one after another cursing and yelling angrily.

"Good! I didn't expect that someone would dare to mess around on our Pure Sun Island. Let's wait and see."

"Great! I swear you'll regret this and beg for our mercy!"

"Don't leave. We'll be back in half an hour."

"No one ever dared to treat me like this! You guys are really something!"

But none of them dared to curse Han Fei. That was because Han Fei's punch just now was too frightening, which even sent a peak-level Hidden Fisher flying!

If they provoked Han Fei, he would probably beat them hard. They certainly didn't want to see that happen.

However, all of them were very angry and went back to get reinforcements.

Li Luoluo said, "Wow! Han Fei, you seem to have offended a lot of people all of a sudden!"

Han Fei said carelessly, "Currently, in the entire Thousand Star City, how many forces are there that we haven't offended? Since we've even offended the big clans here, I don't mind offending some ordinary people. Let's solve them all at once."

Boom... Boom...

The dilapidated buildings were torn down by Nine Tails one by one. On the ground, weeds were being pulled out, and countless mounds appeared on the ground.

One hour passed...

Weeds piled up, gravel became mountains, and the area within about 30 kilometers was emptied out, and nothing was left.

As for Zhang Xuanyu and Le Renkuang, one was carrying and piling up big trees, and the other was arranging huge boulders into several rows.

Han Fei was busy pressing the cleared land with the law of gravity, and wherever he passed, the land was flattened.

Ku Shui was watching with interest.

He had to admit that the students of the Thug Academy really had a strong practical ability. And was Han Fei using the power of a law? He had felt the fluctuation of a law. How could a Hidden Fisher master the law of gravity!?

Suddenly, Han Fei sensed that hundreds of kilometers away, thousands of people were rushing over.

Han Fei was a little surprised. *Wow, these people came really fast!*

Han Fei shouted, "Put the work in your hands down for a moment! Let's go welcome our guests."

...

"Which b*stard beat my son? Come out!"

"How dare you Hidden Fishers mess around on our Pure Sun Island? Are you all out of your minds?"

"If you don't pay a price today, you won't be able to get out off the Pure Sun Island."

"The Thug Academy disappeared nearly 40 years ago. Let me see who is pretending to be from the Thug Academy!"

After a while, the five of the Thug Academy lined up in a row and confronted the thousands of people, who were headed by as many as 8 Law Enforcers and included a lot of Hidden Fishers.

There were old people, children, women, and strong middle-aged men among these people, all of who looked angry and fierce.

For them, the old site of the Thug Academy had long become their daily cultivation place. Although this place was deserted, it was full of spiritual energy.

When the Thug Academy was still here, there was a large array. The concentration of spiritual energy here was one of the highest in the entire Thousand Star City.

Now, the Thug Academy was destroyed and the big array was wiped out, but it was still much better than other places. Since this site was ownerless, everyone could use it.

But these people claimed they were from the Thug Academy and wanted to take this place back. How could they let them?

When seeing Han Fei and the others, the boy who was thrown out by Han Fei just now pointed to Han Fei and shouted, "Dad, that's the guy!"

And the man who was sent flying just now and was still a little pale said to a middle-aged person next to him, "Uncle, this is the guy who beat me!"

"Okay, son, he will pay the price today."

Then the middle-aged man pointed at Han Fei. "You, kneel down and beg for my son's forgiveness. Otherwise, you won't be able to walk off of the Pure Sun Island today."

Another person sneered. "Only kneel down? No! He must provide compensation."

An old man shouted, "Brat, who allowed you to trespass in this place?"

A woman laughed. "Humph, how dare these brats claim to be from the Thug Academy? They must be out of their minds!"

A young man stared at Li Luoluo and said with disgust, "Look at this woman. What the hell is she wearing? She looks like a witch."

Li Luoluo shouted, "Say that again... I will rip off your tongue!"

Chapter 987: A Bunch of Monsters

Han Fei glanced at Li Luoluo. "A quarrel won't solve the problem. Even if your voice is loud, you can't beat more than a thousand people. You'll have to fight."

Li Luoluo rolled her eyes and thought to herself, *How are we supposed to fight? Unless Old Man Ku Shui takes action, there are dozens of peak-level Hidden Fishers among the eight Law Enforcers, in addition to the others... This group of people is definitely not weak.*

Han Fei was also somewhat amazed. The Thousand Star City was much stronger than he had imagined.

If the Scattered Stars Island and Ten Thousand Demon Valley were considered the front lines, then the existence of the Thousand Star City was probably equivalent to the so-called "king city" of the sea demons. There were many strong masters.

If all the strong masters here were to be dragged to the Scattered Stars Island to fight, if the other party only had the Ten Thousand Demon Valley, the sea demons would have long been wiped out.

However, Han Fei wasn't flustered at all.

He took a step forward and pointed his knife at the crowd. "Since you're all here, that's good. I'll make it clear that from today onwards, you are not allowed to come within 50 meters of the Thug Academy. The territory of the Thug Academy that has been occupied shall be returned within three days... If you don't return it, you will be forcefully pushed away."

"Haha!"

"Is this person crazy? Does he know what he's saying?"

"Is there something wrong with his brain?"

"Return? Return what? Who do you think you are?"

Amidst the mockery, Han Fei walked forward with his knife. "Li Luoluo, solve one Law Enforcer."

Li Luoluo looked at Han Fei speechlessly. "Will you solve the rest?"

Han Fei grinned. "Let me try."

Luo Xiaobai said, "I'll solve one."

Zhang Xuanyu licked his lips and said, "I'll solve one too."

Le Renkuang was speechless. "Then I..."

Han Fei said, "The people below are all yours."

Le Renkuang was about to roll his eyes. *Each of you are dealing with one? But I'll... Deal with a thousand? Are you kidding me?*

Suddenly, Luo Xiaobai said, "Forget it. I'll swap with Le Renkuang. If he really attacks, I'm afraid blood will flow like a river."

Le Renkuang was an armorist, and now that he had learned the True Martial Demonic Saber that Old Han had given him, it would be impossible for him not to injure anyone if he went berserk.

As for Luo Xiaobai, although she could also kill people as a manipulator, she was relatively gentler in group battles.

The five of them lined up and walked forward. Fight with these people? Who knew how long it would take!

Han Fei said as he walked, "You're asking us how we can prove that we're from the Thug Academy? Today, I, along with the other five people from the Thug Academy, challenge all of you..."

The thousand-plus people opposite him were dumbfounded.

Countless people were rendered speechless. They had seen lunatics, but they had never seen one that was this crazy. Just five of them wanted to challenge more than a thousand of them?

Opposite him, the middle-aged man in the lead shouted, "Kid, do you think killing is really forbidden in the Thousand Star City? Do you think anyone will say anything if you, a Hidden Fisher, really dies here?"

Han Fei and the others walked faster and faster, their figures flickering.

First, the Bloodthirsty Shark appeared behind Zhang Xuanyu. Then, he took another step and activated the Tertiary Body. Three identical Zhang Xuanyu clones appeared in front of everyone, each of them holding a Divine weapon.

Following that, an orange-red glow erupted from Le Renkuang's body as he activated the Violent War Body. Behind him, a dark blue and invisible phantom entered his body.

This was the Deep Blue Roar.

Even Han Fei and the others rarely saw Le Renkuang use the Deep Blue Roar. It was a legendary contractual spiritual beast.

Li Luoluo waved her hand as a large number of seven-colored worms appeared. Her aura was rapidly rising.

“Hoop!”

Han Fei's Phantom Glass Wings spread out, and the colored glaze-like wings stunned everyone.

As for Luo Xiaobai, she was even more intimidating. With every step she took, the plants around her grew. The vines were weaving, and man-eating flowers appeared. All kinds of thorns began to fill the area.

Old Man Ku Shui sighed as he watched from afar. It was no wonder the big clans thought so highly of these students from the Thug Academy. They were all monsters!

Especially Han Fei. He had obtained the Wind God Pearl and was a powerful refiner.

Even the young lady who joined midway was extraordinary.

As for the thousands of people opposite him, they were also somewhat dumbfounded. The strength of the five youths opposite them was rapidly increasing. Furthermore, none of them looked simple. Especially the glaze-winged one in the middle. Why weren't they white wings?

A Law Enforcer's expression turned ugly. He took a deep breath and enunciated, “Wind! God! Pearl!”

The expressions of the few Law Enforcers turned solemn. A person who could obtain the Wind God Pearl was definitely not a nobody. If he was from a big clan in the Thousand Star City, his name would have long spread.

This meant that these youths might have just come from the Scattered Stars Island.

The leading elder said, “Young man, your talent is indeed outstanding. It's not that we can't admit that you are from the Thug Academy. However, we have already settled down outside. Why don't you just use this undeveloped area to rebuild your school?”

The Old Man knew how the Thug Academy had declined.

Under normal circumstances, the Thug Academy would never return to this place in his entire life. But now, Han Fei and the others were here, and there were no big clans in the Thousand Star City to stop them. This already explained some things.

This meant that to a certain extent, some big clans had tacitly agreed.

If it were just Han Fei and the others, they wouldn't have had the ability or the strength to make the big clans agree to their return.

Therefore, behind Han Fei and the others must be a strong master who could speak in the Thousand Star City.

Such a figure was definitely not someone ordinary families could compare to. At the very least, he wasn't someone they could afford to offend.

Han Fei said indifferently, "If I say you have to return it, I mean you have to return it all. There's no room for negotiation."

The elder immediately said angrily, "Punk, don't push us too hard."

"Then let's fight!"

At this moment, Han Fei was extremely domineering. Some things could be resolved with fists, so there was no need to reason with them. After all, it was extremely difficult to beat a thousand people with five mouths.

This wasn't a war of words.

And now, this was a squabble. It was more like a family squabble. How could they argue?

Swish!

Han Fei disappeared and reappeared hundreds of meters high in the sky. He shouted, "Law Enforcers, come up. Otherwise, don't blame me for not warning you if you accidentally kill someone."

Swish! Swish! Swish!

Everyone flew into the sky.

Instantly, Luo Xiaobai was the only one left. Her pupils were pure white as she stared coldly at the thousands of people in front of her.

The young man who had been thrown away by Han Fei was still in a state of shock. They were all Hidden Fishers, so why were these people so arrogant and domineering?

In midair...

The three of them each held down one person and left.

The remaining five faced Han Fei.

Someone said, "Kid, no matter how talented you are, you're only a Hidden Fisher. How can you be a match for the five of us?"

“If there were advanced Law Enforcers among you, I certainly wouldn’t challenge you... Unfortunately, you don’t have one.”

As he spoke, he activated the Devil Change and Agility of Wind.

Han Fei was like a flickering illusion in the void. With a dragon roar, he threw a golden punch at the five.

BAM, BAM, BAM...

The sky exploded as the void trembled.

In just ten seconds, the five Law Enforcers were all sent retreating by Han Fei. Some were even smashed into the mountain, their hands bleeding.

At that moment, someone on the ground was shocked. “How is that possible? He’s only a Hidden Fisher!”

Even the five Law Enforcers were alarmed. “Not good. This child is a genius in body refinement. We have to use the power of laws.”

Of course, these Law Enforcers didn’t want to use the power of their laws in the beginning. But once Han Fei attacked, his strength and speed suppressed them in all aspects. If they didn’t enforce their laws, they would be beaten up.

“Fire Tide!”

The sky was crimson, and flames covered the sky. Han Fei was instantly enveloped in flames.

However, to the senses of the Law Enforcers, Han Fei was completely fine. The golden fist marks still erupted.

Someone shouted, “Terror Demonic Sound.”

A strange sound rang in the sky. Han Fei stuffed a mouthful of mint leaves into his mouth and slashed at the person without even looking.

“Berserk Electric Current!”

Sizzle!

Han Fei resisted the terrifying electric current and even twisted his head twice, producing cracking sounds. With a wave of his hand, the Infinity Water transformed into ten thousand sabers that swept out crazily.

“Poison Cloud!”

“Triple Berserk.”

Unfortunately, although the five Law Enforcers were all powerful, what left them dumbfounded was that Han Fei didn’t even f*cking retreat.

They had no idea that Han Fei had been drinking poison for two years.

At this moment, the Heaven Spirit Detoxifying Insect was a level-47 insect. What kind of poison hadn't he tasted? Han Fei had already tasted 80% of the poisons that could be bought on the market.

However, the middle-aged man whose law was Triple Berserk was actually stronger than Han Fei.

BAM!

Han Fei punched three times in a row to shatter the man's punch. However, this wasn't a big deal. Han Fei's figure flickered in the air at an extremely fast speed, and he delivered more than twenty punches to the man in an instant.

The battle in the sky was intense.

As if he had been deviled, Le Renkuang controlled more than a thousand Semi-Divine weapons and dozens of Divine weapons to wreak havoc.

In his hand was a pitch-black saber. Behind him stood a black phantom that was more than fifty meters long. His saber could tear apart the heavens and the earth. The other party's law happened to be gravity too, but when it landed on Deep Blue Roar, it was completely sucked away.

Therefore, after 30 seconds of fierce fighting, Le Renkuang slashed the person until his body was covered in blood.

Zhang Xuanyu's physique wasn't that strong, but he could use the Momentary Time from afar. Even Law Enforcers couldn't withstand it!

Li Luoluo controlled countless flying insects. She was a Law Enforcer, so she didn't flinch at all.

On the ground, flowers bloomed everywhere. The gigantic Blue Cannibal Flower bloomed into thousands of flowers. The Great Spirit Summoning Art summoned more than 50 different types of spiritual plants. All sorts of toxins, smoke, and spirit-devouring spiritual plants entered the crowd. With one person in control, the surroundings became a dead end.

Ku Shui sighed from afar. "What a monster!"

Chapter 988: Recruitment Before Opening

It wasn't almost impossible for a Hidden Fisher to defeat Law Enforcers. On rare occasions, there were always geniuses in the seven major academies and the big clans who had such abilities.

After all, the Law Enforcers only controlled a law, not a Great Dao. If this law happened to be unable to suppress the other party, or if the other party happened to be able to suppress this law, the only difference between the Law Enforcer and Hidden Fisher was the upper limit of spiritual energy, the strength of their physique, and the strength of their soul.

However, Heavenly Talents and ordinary people could be considered two different creatures. One couldn't use the strength of an ordinary person to measure a Heavenly Talent. If that happened, the outcome would definitely be tragic.

However, no one expected Han Fei's strength to be so great that he could fight five alone. The four laws were almost useless against him, and the only law that was effective against him was the most ordinary power law. Who wouldn't panic?

At this moment, under the continuous bombardment, because the five Law Enforcers couldn't suppress Han Fei, and their full strength was much weaker than Han Fei, they could barely resist Han Fei in the sky.

A golden fist mark filled the sky as it struck. None of the five Law Enforcers could withstand the domineering power of the Invincible Fist.

Apart from the strength-type enforcer, the other four had their skin cracked and their bones fractured. Blood spewed out of their mouths as they barely managed to remain in midair without falling and injuring the people on the ground.

Below, the young men and women who were only there to make up the numbers were stunned when they saw this scene.

On the ground, Luo Xiaobai was controlling more than fifty strange spiritual plants within a thousand meters. She had already knocked out more than twenty of these people. As no one knew what these spiritual plants were, they had no way to deal with them.

How could these people know about the spiritual plants from the underground city? They were easily knocked down one after another.

In the sky, Le Renkuang's opponent couldn't resist him at all. Even his strongest attack couldn't penetrate the dark-blue illusory carapace. Furthermore, the demonic saber in Le Renkuang's hand was awe-inspiring and filled with a murderous aura. Even if the enemy was a Law Enforcer, he wouldn't be able to take the upper hand.

If it wasn't for the fact that Le Renkuang wasn't fast enough, he would have long been beaten to the ground.

Zhang Xuanyu's opponent had already been defeated. Although Zhang Xuanyu usually didn't seem to show his combat strength, it was because he was in a group battle or a complicated battle situation.

In a one-on-one battle, his Momentary Time was extremely terrifying. Even Han Fei couldn't dodge his Momentary Time. Furthermore, he had now created the Triple Firmament of the Furious Sea. When he shattered the void and attacked, the power of the Triple-Layered Waves in Furious Sea far exceeded the Nine Layered Waves of the Furious Sea.

Furthermore, Zhang Xuan was holding a high-quality Divine weapon! His opponent, the Law Enforcer, had five to six holes in his body as he lay on the ground.

As for Li Luoluo, her figure was ethereal. Rainbow-colored insects flew everywhere as all sorts of illusory realms appeared. She was a Heavenly Talent of the Empyrean Waterfall, so what problem could she have to fight against an ordinary Law Enforcer?

At that moment, his opponent had already fallen into an illusion and was tearing at his own skin.

As for Han Fei, needless to say, his figure flickered crazily in the sky, completely treating the five Law Enforcers as sandbags. With every punch of his, their flesh and blood spewed out.

Someone below was suspicious. "Is he from the Ye family?"

Someone shook his head. "No, maybe... He's really from the Thug Academy."

A woman was horrified. "How can he be so strong? Is the Thug Academy that strong?"

An elder's expression changed. "The former Thug Academy was indeed impressive. However, it's unheard of to fight five people at a higher level."

"Stop!"

Suddenly, a figure swept across the sky and reached out to grab Han Fei.

At the next moment, Old Man Ku Shui stood in midair. "The young masters said that these people shall return the land of the Thug Academy. If you want the young masters to stop, you have to make these people agree to this."

The person's expression turned ugly. "A peak-level Law Enforcer?"

Ku Shui smiled and said, "I'm Ku Shui. You should be from the Su family, right? Hi, Mr. Su."

The man's expression changed drastically. "The Divine Manipulator family, Moon Gazing Island's Luo family. Are you Master Ku Shui?"

The man immediately shouted, "Everyone, step back! Return all the land to the Thug Academy."

Hum!

Han Fei's wings swept out in an arc and he stood beside Ku Shui. He said with a faint smile, "That's how it should be. Don't worry. The Thug Academy has its rules. We have returned to establish a new school. If no one offends us, we won't offend anyone. Since there are rules here, we will follow suit."

Han Fei smiled faintly. "You can stop now."

Zhang Xuanyu had finished his fight long ago and was watching the show with a stick in his arms. It had to be said that Li Luoluo's fight was rather fancy and pretty.

"Hoooooo!"

The Deep Blue Roar vanished as Le Renkuang landed on the ground and stood beside Luo Xiaobai.

Luo Xiaobai extended her hand and the spiritual plants around her quickly vanished. Moments later, there was only a battlefield that looked like ruins.

Li Luoluo snorted. "If it weren't for the fact that we're not allowed to kill here, I would have killed them long ago."

In the sky, Ku Shui smiled and said, "You can talk."

Han Fei was enforcing the law head-on, and the person opposite him was probably stronger. If he wasn't at a peak-level Law Enforcer, he was at least at an advanced one. He couldn't defeat such an opponent now. After all, there was a fundamental difference in strength.

Even if an advanced Law Enforcer didn't use any unique abilities, his strength alone would be above 10 waves. It was similar to when he encountered the Green Touring Flood Dragon. The Green Touring Flood Dragon's physical strength alone was 20 waves. With just a little strength, it was impossible for Law Enforcers at the same level to be a match for it.

Therefore, if the person in front of him really used a secret technique, his strength would be at least twice that of his, giving him an absolute advantage. Furthermore, the other party might be a peak-level Law Enforcer! Han Fei casually guessed that the pure strength of a peak-level Law Enforcer was more than twice that of his after using the Devil Change.

Of course, Han Fei wasn't afraid at all. He said bluntly, "The Thug Academy will return today. If we're not around, outsiders can use this territory. Now that we're back, we'll take over all the territory. No one else is allowed to enter."

The middle-aged man gave Han Fei a deep look. He had been shocked by the battle just now.

It was impossible for ordinary geniuses to fight five alone. In the entire Thousand Star City, there weren't more than ten people who could do this in centuries.

And Han Fei was one of them. Therefore, Han Fei was qualified to reclaim this territory.

The middle-aged man glanced at Han Fei and the others. "The Thug Academy is returning?"

"Yes."

The middle-aged man frowned. "Just the five of you? One Law Enforcer and four peak-level Hidden Fishers?"

Han Fei smiled. "So what? Do you think we dare to return to the Thousand Star City without any means or trump cards?"

The middle-aged man fell silent for a long time before suddenly saying leisurely, "There aren't any Explorers guarding the area, right?"

Han Fei tilted his head and waited for the middle-aged man to continue.

The middle-aged man sighed and said, "Although the Pure Sun Island has declined, if there are no Explorers guarding it, are you sure the big clans won't come looking for trouble?"

Han Fei said without hesitation, "The seven sects and the big clans already know that we've returned. Even if they come to cause trouble, it won't be the Explorers."

The middle-aged man looked at Han Fei in surprise and said after a moment of silence, "What about a declining family or a small family?"

Han Fei frowned. How would he know how many families there were in the Thousand Star City? However, there should be many families in this vast city, right? Those people probably didn't know the situation of the Thug Academy. Or rather... Would the big clans send those people to cause trouble?

Han Fei's heart skipped a beat. They all came to the Thousand Star City for a purpose.

They had to go to the three places in the God's Monument to find a way to enter the Heavenly Palace. He had to go to the Thousand Star Trial Ground to fight for territory. Once he left, what would happen if the small families came to destroy the Thug Academy?

However, although he thought of this, Han Fei looked calm on the surface. He looked at Ku Shui and said, "Senior, if those small families take the initiative to invade, can't we attack them?"

Ku Shui was slightly taken aback. This boy's style of doing things was really unyielding.

Ku Shui said with a smile, "It's fine as long as it doesn't affect the lives of ordinary citizens. However, there are also Law Enforcers in the Thousand Star City. There's a high chance that they will stand on the side of those small families."

Han Fei thought for a moment and looked at the middle-aged man. "How to deal with it is our own business, right? Why? Does your Su family have an idea?"

The middle-aged man smiled. "Since the Thug Academy wants to establish itself in the Thousand Star City again, you might not lack Law Enforcers, but you still lack Explorers. However, our Su family has Explorers."

Han Fei narrowed his eyes. "To what extent? What are you proposing?"

Han Fei and the others weren't here to offend anyone. He didn't know what the Su family's goal was, but it didn't stop him from listening.

The middle-aged man grinned. "Since the Thug Academy wants to be rebuilt, we certainly have to recruit students. My son is also extraordinary. Can you recruit five students from our family?"

Old Bai had given him power, and Han Fei was now the acting president. He certainly had the final say.

However, Han Fei shook his head. "That's too many, and we must pick the students ourselves."

This tradition couldn't be broken.

Otherwise, if all kinds of people were allowed in, what would the Thug Academy become? The tradition of the Thug Academy was to only accept geniuses. It didn't matter how many people there were, what mattered was the quality.

The middle-aged man didn't seem to expect Han Fei to agree to take in five people. He immediately said, "I won't beat around the bush. Three students. Our family has two Explorers. If necessary, they'll help you."

Han Fei smiled and said, "Two Explorers? Then we'll take in two. Otherwise, let's not talk about this matter. Since we can resolve the big families, do you really think those small families can overturn the sky?"

Chapter 989: First Step: Building a House

The middle-aged man was silent for a moment. He realized that something was indeed wrong with the return of Han Fei and the others. Logically speaking, any big shot from the Thug Academy could handle this.

But in the end, they sent the five kids back? This meant that there was a reason why those big shots couldn't return.

Although the strong masters of the Thug Academy couldn't return, the young ones could return, which meant that they had recovered to a certain extent and had the strength to challenge the big families of the Thousand Star City.

Under such circumstances, the former location of the Thug Academy had to be returned. After all, the land belonged to them. He also believed that these big shots could settle many small families here with just a little effort.

However, why not take the opportunity to recruit a few more people?

The Su family was considered an ancient family. Although it was currently a small family, it had once been powerful in history. They knew the standards of the Thug Academy for accepting disciples all too well. They only wanted geniuses.

Look at Han Fei and the others. They hadn't changed at all! Which one of them wasn't a genius? Even the Luo family had arranged for their juniors to enter the Thug Academy. Why didn't they take the opportunity to stand on their side?

At the very least, as long as the descendants recruited didn't perish, they might be able to protect the Su family for a hundred years in the future.

The middle-aged man blinked as though he had received a message. Then he immediately nodded. "OK, let's make it two."

Han Fei said, "We have to choose ourselves."

The middle-aged man laughed. "Of course. When your school is rebuilt, I'll invite you to a banquet at the Su family's residence. After all, since you have chosen to return, you have to get to know some people. It might not be convenient for you to go far, but you have to familiarize yourself with the Sun Yang Island first."

Han Fei thought for a moment and nodded slightly. "Alright! In that case, how may I address you, Senior?"

The middle-aged man sighed inwardly. *Only now is this kid willing to call me Senior? This is the pride of a genius!*

The middle-aged man smiled and said, "Su Yang, I'm the current head of the Su family but I'm only a peak-level Law Enforcer."

Han Fei chuckled inwardly. A peak-level Law Enforcer was pretty good. In the 36 Towns, this was already very terrifying.

However, in those wealthy families, a peak-level Law Enforcer was indeed not that strong.

It seemed that the two Explorers of the Su family were probably quite old. As for their strength, Han Fei didn't know, but they definitely can't become Venerables. Otherwise, they wouldn't have become a small family.

Han Fei didn't say anything. First of all, they had to accept disciples, and the descendants of big families did have their advantages, even if they were from declining families.

Secondly, he might be staying on the Pure Sun Island for a long period of time. It wouldn't be appropriate if he offended everyone now...

Today's battle was a declaration of the return of the Thug Academy. As for the rest... Well, let them rebuild the school first.

After landing, Su Yang shouted at those people, "You occupy this place because you like the abundant spiritual energy in the Thug Academy. Now that the owner has returned, you've seen their strength. This land should be returned to its original owner. Move out and find a place to settle down in the next two days!"

It was obvious that the Su family's prestige in this area was very high. Although many people were reluctant, no one retorted.

More importantly, Han Fei and the others were too ferocious just now. The four of them had taken down eight Law Enforcers, especially Han Fei, who had won against five. This made them feel helpless.

When the youths looked at Han Fei and the others again, their eyes were filled with awe and fear.

The young man who had been thrown away by Han Fei also fell silent.

They couldn't afford to offend such a genius. There was no saying that a powerful dragon couldn't suppress a local snake. He was very strong. Five of them dared to challenge a thousand people... Who else would dare to do so?

The elder who had participated in the battle sighed. "Everyone, disperse. Go back and move!"

"Wait a moment."

Suddenly, Luo Xiaobai pointed at the middle-aged man who was clamoring from Han Fei and the others to kneel down and beg for mercy. "You, apologize."

Han Fei and the others smiled. Although Luo Xiaobai was usually very rational, she was a woman! She couldn't bear to see herself being humiliated, nor could she see the people she cared about being insulted.

Luo Xiaobai cared a lot about Han Fei, Zhang Xuanyu, and the others. Over the years, it wasn't an exaggeration to describe them as childhood friends.

The middle-aged man's face flushed red. Now, he couldn't flare up even if he wanted to. He couldn't beat any of them, but he was an adult. How could he apologize to a few children?

Su Yang shouted, "Apologize! Apologize seriously."

The middle-aged man seemed to be slow to react. After hesitating for a moment, he finally took a deep breath and took a few steps forward. He bowed and said, "Liu Bing is ignorant and offended you, young friends. Please forgive me."

After a long while, Liu Bing didn't dare raise his head when he heard no sound. He bowed even deeper.

After a while, his son held him up and said, "Dad, they're... Gone."

Liu Bing looked up in surprise and found that Han Fei and the others had already walked hundreds of meters away without any sound. He didn't even hear them.

Liu Bing's face flushed red. He had disgraced himself in front of his son today. However, it was all that little b*stard's fault. Wasn't it him who provoked the other party first?

Several Law Enforcers bowed to Su Yang, and then someone asked, "Family Head Su, can the Thug Academy really come back?"

Su Yang looked at the departing figures of Han Fei and the others and scoffed. "He's already back. What do you mean can he really come back?"

The few Law Enforcers took a deep breath. "Then, then the children of our Pure Sun Island..."

Su Yang shrugged. "I can't interfere in this matter. You have to see how they arrange it... However, let me remind you that I believe you all know what the Thug Academy used to be like. If you don't have a genius in your family, don't send him to them. In terms of selecting students, the seven sects combined aren't as strict as the Thug Academy."

"Well..."

After everyone left, Su Yang sighed. He didn't know if he had made the right bet. The Su family was only a small family. It wasn't impossible for it to rise to prominence. However, there were only a few people in their family who could be considered elites. He really didn't know if they would take a fancy to them.

In addition, he had to remember another thing: although the Thug Academy was good, its style had always been domineering and even lawless. Otherwise, they wouldn't have been besieged back then.

He only hoped that the Thug Academy would be more low-key and wouldn't attract a huge disaster. Otherwise, the Su family would probably be implicated.

...

Su Yang had no idea what his decision represented.

If he had known the purpose of Han Fei's return, if he had known that it involved the game between Venerables, he probably wouldn't have dared to get involved in this matter.

Unfortunately, this was not the case. He only saw the strength of Han Fei and the others, and the return of the people from the Thug Academy but didn't know anything else. This was the limitation of a small family.

...

In school...

Zhang Xuanyu said, "There are quite a number of strong people here! Just the Pure Sun Island alone has seven to eight Law Enforcers, and there are two Explorers behind them. This doesn't include the ones who didn't come."

Le Renkuang nodded. "We still have to become Law Enforcers as soon as possible."

Han Fei said, "No rush! We're not familiar with the Thousand Star City yet. When the school is rebuilt, we'll go to those places to take a look."

Luo Xiaobai looked at Ku Shui and said, "Grandpa Ku, get someone to send over a pulse testing stone."

Ku Shui smiled and extended his hand. "Miss, here you are."

Clearly, the Luo family had long known that the Thug Academy would be rebuilt. Therefore, when they got Ku Shui to pick them up, they had already prepared everything they needed.

Luo Xiaobai threw the pulse testing stone to Han Fei. "Two?"

Han Fei said, "We'll see when we get there. If they're good enough, we'll take in two. If they're ordinary, we'll take as many as we want."

Luo Xiaobai said in surprise, "Take as many as we want?"

Han Fei smiled and said, "It's not a big problem. No matter how declining a family is, it's still a family. It's impossible for it to not have one or two decent children. Otherwise, this family would have been wiped out long ago and wouldn't have lasted until now. Even if they arrange it themselves, they will find two good seedlings. Otherwise, why would Su Yang mention this to me?"

Han Fei clapped his hands and said, "Alright, the people have been cleaned up. Continue cleaning up the uncleared areas. I'm going to start building the house."

He was almost a Law Enforcer. Building a house was even simpler than clearing the grounds.

The only thing Han Fei had to consider was how big a house he had to build. What type of house? What style?

Since he was the one building it, he naturally wanted to slack off. Maybe he should just build a school library? As for the five of them, maybe they could just build a treehouse and sleep in the trees?

As for the classroom, there was no need. How should he build the house? There was no need to consider this too much. It mainly needed to be grand and imposing. Only then could it match the temperament of the Thug Academy.

However, it wouldn't work if the house was too big. The Thug Academy had just returned to the Thousand Star City, so they were definitely in the eye of the storm. What if some people came to cause destruction? Therefore, they had to set up a killing array...

Finally, the Thug Academy needed to recruit students. If only this house could automatically access incoming students.

“Oh? There’s no need to build a house... Other things seem to work as well.”

It had to be grand, have a killing array, and can be used as an assessment tool. Han Fei only had two ideas, neither of them being a simple building: a maze and a dimensional killing array.

Chapter 990: Are You Building a House?

Han Fei had once seen a square-shaped maze of plants, which had plants as the walls. It could be moved and could be used to set ambushes or killing arrays, making it impossible to find an exit.

If he used the plant walls as array lines and used the Spirit Gathering Array to replenish the spiritual energy, he could seal the area above. This would become like the Deep Sea Stone Forest where the Rock-Holding Turtle was imprisoned in the level-two fishery, but it would be quite difficult to create.

As for the Dimensional Killing Array, it was a little difficult, but it didn’t seem difficult to make it into a cube.

He had to create a great cube and use it as a library. This way, he could set up a series of killing arrays in each cube. By rotating the cubes irregularly, he could ensure that nothing went wrong.

However, the cube didn’t seem to be simple either. It wasn’t that it was troublesome to build, but that it was troublesome to build arrays. With his current level of arrays, the killing array he created might not be powerful enough. At most, it could block Law Enforcers.

“Forget it. I can only create it first. I’ll slowly upgrade it in the future,” Han Fei muttered to himself.

As for the rest, the common rooms and dormitories could be installed at the back of the mountain. Just like before, they could live in treehouses. As for the training grounds for teaching students, they could be arranged in the maze.

With this in mind, Han Fei immediately felt that it was perfect. Now, not only could he solve the problem of the school’s construction, but he could also nurture the students. He didn’t have to build so many houses. It was great.

After flattening the ground, Han Fei had already flown into the sky and was studying how to set up the array formation.

He heard Le Renkuang shout, “What are you doing?”

Han Fei said impatiently, “Carry on with your work. I’m doing construction.”

Li Luoluo was flipping the ground with Luo Xiaobai. She muttered, “I think he’s just skiving.”

Luo Xiaobai shook her head. “No. Although Han Fei talked too much, he’s still very reliable.”

Li Luoluo grinned and waved at Han Fei. “I want to build a small villa like the one you built in the Emyrean Waterfall.”

Han Fei waved his hand and said, “What are you talking about? The Thug Academy doesn’t provide dorms. Later, go to the forest and build your own!”

Han Fei held the fish skin map in his hand and pondered.

“That’s not right. It should be able to move... No, it’s too troublesome to move. I can use a teleportation array... Yes, outside the killing array, I still have to create a defensive array to protect the plant walls... What killing array should I throw in? Forget it, I’ll throw them all in...”

Half a day passed in a flash.

In the evening, the group of people sat at the back of the mountain and ate hotpot.

Han Fei was still studying the fish skin map in his hand. Now, under normal circumstances, cooking was Le Renkuang’s job.

After years of experience, although this fatty was still a little inferior to Han Fei, he had mastered all the basic dishes and had a good palette.

Le Renkuang said, “Feifei! It’s dinner time. You should eat now. Only then will there be flavor.”

Zhang Xuanyu leaned over. “What’s all the fancy stuff you’re drawing?”

Han Fei pushed his head away and said, “I want to build a school that’s different from the seven sects. Now I’ve discovered why there are so many ruins and secret realms in this world... They were all developed by humans!”

Everyone: “???”

Even Luo Xiaobai was dumbfounded. What did building a house have to do with ruins and secret realms?

...

The third day...

Everything had been taken care of. The wood and stones that Zhang Xuanyu and Le Renkuang had gathered were already piled up into a small mountain.

At this moment, everyone was squatting on a log, watching Han Fei pacing in front of the pile of wood and stones. They all wanted to see what Han Fei was going to do.

Suddenly, Han Fei took out a large piece of wood from Forge the Universe.

Luo Xiaobai’s eyes narrowed. “The Big Red Trunk?”

Zhang Xuanyu’s eyes widened. “What! Didn’t it disappear?”

Le Renkuang muttered, “I don’t think it disappeared. It was actually uprooted by Han Fei. With his personality, it’s highly likely that he would do such a thing.”

Li Luoluo was dumbfounded. “So this is the tree from the middle of the Sea Grasslands?”

Old Man Ku Shui also saw this scene with interest. Although the ten-thousand-year-old Big Red Trunk wasn’t worth much to Han Fei and the others, no matter how worthless it was, one had to see how large the material was, right?

Swish!

A massive amount of spiritual spring energy surged out and instantly ignited. The spiritual fire soared high.

Han Fei's sudden action shocked everyone.

Even Ku Shui was dumbfounded. After a while, he said, "Young Master Han Fei... Are you refining?"

Everyone was stunned. The corners of Luo Xiaobai's mouth twitched. "This... Is so big? What are you going to do with it?"

Zhang Xuanyu gulped and swallowed his saliva. "This is crazy. How much spiritual spring energy is this?"

Le Renkuang had forgotten to stuff the dried fish into his mouth. He said in a daze, "Isn't he building houses? He's gonna refine the house?"

Under their dumbfounded gazes, a huge red ball slowly appeared. Its diameter was 50 meters. This was the diameter of the Big Red Trunk itself. Now, Han Fei had rolled it into a ball.

However, after the ball took shape, it gradually began to deform.

Up, down, left, right, front, back... At the back of the ball, a few more rods extended out. Then, they transformed again into a complicated circular screw shape.

In fact, Han Fei didn't really refine it, mainly because there was no need.

This was only the interior of an ordinary cube. As long as the external frame was constructed, it would become a fourth-order cube.

At first, Han Fei felt that the third-order cube was too simple and the fifth-order was too troublesome, so he made a fourth-order one.

Unfortunately, the interior was only 50 meters in diameter. Therefore, the entire cube was only about 80 meters long.

While everyone was dumbfounded, Han Fei began to refine the stone. This one was much faster. He added some scraps from the Big Red Trunk, and the quality wasn't bad. It was just as good as a mortal weapon.

Of course, it would be even better if Han Fei was willing, but it would cost a lot of spiritual energy! Besides, real spiritual weapons required a complete refining process. The cost was too high.

Four hours later, 56 strange components with different shapes appeared. All the components had one or two or even three square faces. This was because the fourth-order cube had a total of 8 corners, 24 sides, and 24 central blocks. Therefore, everyone was confused.

Han Fei shouted, "Xiaobai, Li Luoluo, come and help."

Luo Xiaobai and Li Luoluo walked over in a daze.

Han Fei divided the 56 pieces into several piles and wrote colors on them. He said, "Come, color these sides with the correct colors. There are six colors—orange, red, yellow, white, blue, and green."

Li Luoluo frowned and grinned. "Is this the house you were talking about?"

Han Fei said, "You underestimate me, don't you? Since you like the colors, you'll be responsible for coloring."

Le Renkuang and Zhang Xuanyu sat on a log, eating dried fish as they watched the three of them mess around.

Finally, they painted the cubes with the colorful colors.

After everything was done, Han Fei refined again...

Finally, a square six-sided object appeared in front of everyone.

Zhang Xuanyu finally couldn't help but say, "Feifei! What is this?"

Han Fei grinned. "The cube."

If it was only the cube, it wouldn't be able to form a true Dimensional Killing Array. Otherwise, it would be a total of 64 pieces without any internal components.

It wasn't that it couldn't be refined, but that the cost was too high. Without any connections, the final solution was to refine this thing into a huge spiritual weapon. Even if he drained all his spiritual energy, it wouldn't be enough.

However, Han Fei didn't need this giant spiritual weapon, as long as it was a mortal weapon.

Han Fei looked at the huge six-colored cube in satisfaction and suddenly grinned. "Arise!"

Suddenly, everyone saw the cube fly up and stop at a height of more than 30 meters.

Ku Shui was puzzled. "Young Master Han Fei, did you add a floating stone to this cube?"

Han Fei immediately grinned. "You have sharp eyes."

Ku Shui smiled faintly. *Sharp eyes? Without the floating stone, it couldn't fly!*

Le Renkuang asked in shock, "Is this a house?"

Zhang Xuanyu grinned. "How can a house look like this?"

However, Li Luoluo liked it. "No... I think it's pretty good."

Luo Xiaobai didn't say anything. She couldn't understand it. For the first time, she felt that her intelligence wasn't enough.

Han Fei chuckled. "Isn't it nice? There's something even better..."

With a thought from Han Fei, the entire cube began to spin. After a few spins, the originally beautiful six-sided cube of colours completely dispersed.

"Hiss!"

"Shoot..."

"What's going on?"

“It can spin?”

Luo Xiaobai’s expression changed drastically. “Han Fei, how can it turn back?”

Ku Shui’s pupils constricted as he took a deep breath. “It’s a work of art. Doesn’t that mean there are infinite changes?”

Han Fei smiled and said, “Not yet. There aren’t any arrays yet. When I set up all the arrays, this thing can automatically spin. When the time comes, I won’t even know what array I will encounter when I enter. How is it? Isn’t it magical?”

Everyone was silent.

After a long while, Le Renkuang said leisurely, “Then how do we enter it?”

Han Fei smiled and said, “Don’t panic. When I finish setting up all the arrays, I’ll add in the self-destruct array. Then if someone wants to open it by force, he won’t get anything. This is our school’s library. One has to combine all six colors into one and not make a single mistake before entering.”

Zhang Xuanyu said leisurely, “How do we connect this thing?”

With a thought, Han Fei said, “Just like that...”

The cube’s library began to spin and it spun countless times. Even Luo Xiaobai was dumbfounded. Only then did the cube slowly restore to its original state.

Zhang Xuanyu took a deep breath. “Well... How does it restore itself? I saw it spinning, but didn’t see anything clearly.”

Le Renkuang scratched his head. “It’s over. I probably won’t be able to enter the library for the rest of my life.”

Li Luoluo’s face stiffened. “I think it’s better to build a house normally.”
