

Chapter 991: The Establishment of the Thug Academy

In front of the cube, even Ku Shui was a little dumbfounded. He probably couldn't enter unless he dismantled it.

However, the actual situation was that the cube itself wasn't anything special. It just had a strange shape. If someone really wanted to enter the cube, they would have to really want what's inside.

However, if they couldn't resolve the cube, they wouldn't be able to take the things inside. Therefore, even if Han Fei and the others weren't around, it didn't matter if someone tried to barge in. At most, the cube would be destroyed and he could build another one. How difficult would that be?

Ku Shui couldn't help but sigh. "Brilliant! It's no wonder Miss grew so rapidly with such an extremely brilliant genius. This wonderful idea is comparable to the Monument of Gods!"

Only Luo Xiaobai's eyes flickered. "That's not right. The cube's library has infinite changes. The outcome is different every time it spins. Therefore, it's impossible to spin the cube like this even using the exact same way just now."

Han Fei grinned. "There's a code. However, this code can only be known to members of the Thug Academy and not outsiders."

"Phew!"

"Oh~"

Zhang Xuanyu and Le Renkuang heaved a sigh of relief. It was good that there was a passcode! Otherwise, they could forget about entering it for the rest of their lives.

Li Luoluo looked at Han Fei curiously. "How did you work the cube out?"

Han Fei sneered. "Who am I? You won't know how talented I am until you know me well enough."

Luo Xiaobai rolled her eyes. "Alright, stop bragging. How long do you think it will take before it's done?"

Han Fei thought for a moment. "The difficulty doesn't lie in the construction, but in the arrays. I need to fill every cube inside with killing arrays and connect every component. It will take another three days."

Zhang Xuanyu curled his lips. "Just three days? Then build it quickly."

Han Fei took out a drawing and said, "Xiaobai, follow my drawing and use spiritual plants to set up a maze. Arrange these pieces of wood according to the drawing."

Luo Xiaobai took the drawing and looked at it. She was dazzled. Was he building a school or setting up a grand array?

On the map were squarish vegetation walls filled with roads. In the middle of the map was the cube.

And the square on the map had a diameter of more than 300 kilometers. Who the hell was this trial for?

Even Luo Xiaobai couldn't help but curse. Who could walk in here? If it wasn't for a teleportation array, flying ability, or perception, they would probably have to rely on luck to enter.

Luo Xiaobai said leisurely, "Isn't this too much?"

Han Fei waved his hand and said, "Not at all. We have too many enemies. We have to take some precautions."

Luo Xiaobai rolled her eyes. "If an Explorer really comes, the arrays you set up won't be able to stop him, right?"

Han Fei said with a smile, "I may not even be able to stop a peak-level Law Enforcer, but we can slowly perfect it. With more and better arrays, I'm afraid the day we become Law Enforcers, even an Explorer won't be able to break in."

Luo Xiaobai gave Han Fei a deep look. "You're quite thoughtful."

The other three hurriedly came over.

Zhang Xuanyu muttered, "Let me see. What's new?"

Then...

Zhang Xuanyu covered his eyes. "Damn! Forget it. I'll pave the floor... Yes, I'll just do it."

The dried fish in Le Renkuang's hand dropped. "... I'll help to trim the plants. I'm familiar with this. I've done it at the plantation of the Blue Sea Town."

Li Luoluo was dumbfounded. "I, I... Ah, I heard that you have the habit of farming. There's still hundreds of kilometers of soil outside that hasn't been loosened. I'll loosen the soil..."

...

Five days had passed...

Luo Xiaobai and the others each held a fish skin map with formulas drawn on it.

Le Renkuang rubbed his head. "Clockwise, clockwise, counterclockwise, counterclockwise, clockwise... Alas, where am I? Forget it, let me start again."

Li Luoluo decided to try. "Clockwise on the right, clockwise on the top, clockwise on the back, clockwise on the right... Ah, how annoying!"

Luo Xiaobai broke the fish skin without a word. "Where did Han Fei go?"

"Miss, Young Master Han Fei is setting up a huge Spirit Gathering Array. There are more than thirty medium-sized arrays in each array, and more than thirty small-sized arrays in each medium-sized array... Young Master Han Fei is really a genius."

Luo Xiaobai rolled her eyes. "OK! Then let's wait a little longer..."

It wasn't until this afternoon that Han Fei flew over from midair. At this moment, the maze hadn't been covered with seals. This was something Han Fei couldn't do with his current abilities. He decided to wait until he became a Law Enforcer before doing it.

Han Fei smiled and said, "Hello... How's it going? Have you all memorized the code? If you have, we can go out. I have a feeling that people will be waiting for us outside our school every day..."

In fact, it wasn't just a few people waiting outside every day. There were dozens of people waiting outside every day.

Or rather, those people weren't waiting for them... They were looking at the maze.

As the cube was a little far from them, most people couldn't see it. However, this huge maze attracted their attention.

However, no one dared to enter without Han Fei's permission. If they were beaten out again, they would lose face.

As soon as Han Fei asked them, he saw Zhang Xuanyu, Le Renkuang and Li Luoluo looking at him aggrievedly.

Li Luoluo was pouting off to the side. "My head hurts. I only remember half of it."

Zhang Xuanyu chuckled. "I've already memorized seventy to eighty percent."

Han Fei looked at Le Renkuang, who was stunned for a moment. "Ah! I... Give me a few more days."

Han Fei: "..."

Fortunately, Han Fei didn't need to ask Luo Xiaobai. She had probably already memorized it!

At this moment, he patted Le Renkuang on the shoulder and said, "Eat a mouthful of hotpot on the left and a mouthful of red braised pork on the right. Memorize it this way... It'll be easier."

Le Renkuang's eyes lit up. "Good idea. It's much more interesting this way."

As for Ku Shui, Han Fei naturally didn't give him the code. After all, this was a secret of the Thug Academy. Ku Shui was from the Luo Family after all.

Han Fei said, "Alright, let's go. Follow me through the maze. Let's go to the banquet tonight."

Luo Xiaobai nodded. "Alright."

Zhang Xuanyu was puzzled. "Feifei! I have something that I can't understand."

"Huh?"

Zhang Xuanyu said, "Why do you often stop laying the floor halfway?"

Han Fei smiled. "It's a trick. You'll know what it's for when school starts."

...

In the evening...

When Han Fei and the others appeared outside the maze, the Su Family people immediately welcomed them. "Our family head invites the young masters and young ladies to attend the banquet."

Han Fei nodded. "Okay, one moment."

Han Fei took out a large sign and stabbed it into the ground. On it were the words: "There's a killing array inside. Don't barge in, or you might die".

When the group saw the sign, they immediately gasped. Such a huge array?

Someone immediately asked, "May I ask if the Thug Academy is recruiting?"

Han Fei smiled and said, "Everyone, don't panic. Let's attend the banquet at the Su Family's residence first. When the time comes, I'll announce the recruiting standards of the Thug Academy. Everyone will have a chance."

Upon hearing that everyone had a chance, many people's eyes lit up.

Recently, the elders in the family had been talking about how powerful the former Thug Academy was and how talented the students were...

They originally believed that they would only accept disciples from large families, but they never expected everyone to have a chance. How could they not be happy?

Han Fei looked at the Su Family member and said, "Lead the way!"

...

The Pure Sun Island was actually very large. It took up more than 2,000 kilometers and was comparable to the Wind Thunder Town. Of course, it wasn't circular, but in an irregular shape.

However, the Thug Academy took up about a third of the total.

When everyone was passing by their plantations on fishing boats, they all discussed how to build a few spirit gathering arrays in their plantations.

After a moment...

On a river, they saw a residential area spanning tens of kilometers. The entire residence was brightly lit.

The scene was like the palace courtyard that Han Fei knew. There were groups of houses and colorful lanterns. It was very lively!

Of course, Han Fei and the others knew very well that it wasn't because of them, but because of the reputation of the Thug Academy and the big shots behind it.

There were countless guests waiting in front of the house. As it was a welcoming banquet, they didn't need to prepare any gifts.

It could be said that many famous people had come to the Pure Sun Island. They had long heard of the reconstruction of the Thug Academy. It was said that five top geniuses at the peak of the Hidden Fisher realm could fight a thousand enemies without being defeated. There was even a young man who fought

five Law Enforcers alone. Upon hearing this, many people were dumbfounded. Who wouldn't want to come and take a look?

At this moment, Han Fei and the others had just landed.

Someone who looked like an old butler came forward as if he had been waiting for a long time. The butler was also quite powerful and had reached the Law Enforcer realm. Clearly, he had come specially to welcome Han Fei and the others.

The butler hurriedly went forward and said with a smile, "Are you the five young masters? You're finally here. The family head has instructed us to receive you. If you don't mind, allow me to take you in."

Han Fei looked at Luo Xiaobai, who bowed slightly. "There's no need to trouble yourselves. You're already a Law Enforcer, we can't let you serve us like a servant. Just send someone to follow us. That way, it won't expose our identities. When the banquet starts, we can go there ourselves."

Just as the butler was about to say something, he heard Ku Shui say with a smile, "Miss is right. You can rest assured."

Han Fei nodded. "We can walk by ourselves."

Luo Xiaobai glanced at Ku Shui. "Grandpa Ku, you don't have to follow us. Otherwise, it will be too eye-catching."

"Of course, Miss."

Chapter 992: B*stards With No Future

Han Fei and the others blended into the crowd at the door.

Although some people found them unfamiliar, they didn't see that Han Fei and the others had come, so they only thought that it was a gathering of youths.

Han Fei and the others also kept a low profile. In fact, although Luo Xiaobai was very polite just now, she was actually saying that they needed to see the Su Family's original appearance themselves, not the way they were going to be shown...

This was the way descendants of large families spoke. Amidst their tactfulness, there was a forcefulness.

Luo Xiaobai had always been a meticulous person. Since they were coming to the Su Family to accept disciples, they had to see what the Su Family was like. Therefore, after entering, they pretended to be incognito.

Of course, this didn't stop the Su Family from hiding the truth well.

Behind Han Fei and the others was a Su Family's servant at the Hanging Fisher realm. At this moment, the man took a glance at Han Fei and the others secretly and said cautiously, "Young masters, do you need me to take you around?"

Luo Xiaobai shook her head. "No, just follow us. You don't have to make a sound."

The servant hurriedly lowered his head and said, "Yes, Miss."

In fact, there was nothing interesting about the elegant landscape of gardens. Usually, rich families would pursue something entertaining for fun.

Han Fei and the others quickly left the crowd and walked to a remote place. After all, the Su Family was very large. Even though it had declined, the house was still like an imperial palace. There were small bridges, flowing water, pavilions, ornamental rocks, and other scenery.

But enjoying the scenery wasn't Han Fei's goal. In Luo Xiaobai's words, to see what a family was like, one had to see what the ordinary members of the family were like. Then, one had to see what the low-level members of the family were like. Finally, one had to see what the high-level members were like.

This way, they could compare and perhaps figure them out.

Along the way, Han Fei and the others encountered many people. Of course, there were guards in many courtyards. These people weren't difficult to communicate with. After knowing their identities, they just let them walk freely.

In fact, in such a family, the guards were not needed. If someone really dared to break in, it would be impossible for them to be discovered by the guards. Therefore, the guards were more like a display of splendour.

After they completely left the crowd, Han Fei suddenly said, "Wait for me."

Li Luoluo asked, "What's wrong?"

Han Fei closed his eyes and listened. He ignored the noise at the front door and only listened to the silence.

...

The imperial palace had 9,999 rooms, but there was also a place like the Cold Palace.

In the Su Family, it must be the same case.

Although Han Fei's perception range was large, he didn't pry too closely. However, through the sounds coming from everywhere, he could locate a member of the Su Family.

About twenty kilometers away from Han Fei, in a courtyard, a woman's voice was arguing about something.

The voice said angrily, "Why can't my son, Sanqian, attend the banquet? Sanqian is already twelve years old this year. His talent isn't bad."

Another female voice shouted, "You should know that this is a matter that concerns the rise and fall of the Su Family. There'll be only two people who can enter the Thug Academy. How many people in our family have quarreled over this? How many people have been suppressed? Su Sanqian's talent is average. It's fine if he doesn't go to the banquet, but if he goes, do you know how many people he will offend if he isn't chosen?"

In the courtyard...

A woman dressed in plain clothes was arguing with a maidservant dressed in relatively luxurious clothes. Beside her stood a youth with an expressionless face.

“Mom, I’m not going.”

The woman hurriedly said, “Son, this is our only chance. You must go even if we have to risk our lives.”

However, the maidservant sneered and said, “Risk your lives? So what? Don’t you know how many branches there are in our family? Is any one of them something you, an orphan and a widow, can deal with? I’m doing this for your own good... Su Sanqian, you have to be sensible. You can’t go to this banquet. Otherwise, you will be harming yourselves.”

The maidservant looked like she was consoling them, but in fact, her expression was contemptuous. She wasn’t kind to the mother and son at all and was even a bit bossy.

The woman suddenly turned serious. “Su Sanqian, I’m your mother. Instead of being depressed in this courtyard, why don’t you give it a try? Your father didn’t have any say when he was still alive. Now that he’s dead, are you willing to live under someone else’s roof for the rest of your life?”

As the woman spoke, her eyes turned red and tears flew down. She stared straight at her son.

The youth clenched his fists tightly, his heart filled with grief and indignation. He looked at his pained mother and then at the indifferent maidservant. Finally, he gritted his teeth and said, “I’ll go.”

“No way!”

The maid servant’s expression immediately turned cold as she looked coldly at Su Sanqian and his mother. “You’d better know your limits. Although you are a b*stard son, you still have a chance to stand out. However, once you leave this door today, humph... Only death awaits you.”

Outside, Luo Xiaobai and the others had already arrived under Han Fei’s lead.

In fact, Han Fei heard people discussing the Thug Academy along the way.

After all, everyone had already received the news. Many of the older generation knew how glorious the Thug Academy used to be, so the discussion never stopped.

However, there was really no one like Su Sanqian and his mother who would risk their lives to attend the banquet.

Luo Xiaobai looked at Han Fei and said with a frown, “There are actually many collateral branches in the big clans. These people usually don’t have high statuses. Furthermore, there are many factions within the large families. The bastard children almost never have a chance to make a name for themselves.”

Zhang Xuanyu said angrily, “I hate such bossy people the most. I want to see why a maidservant is so arrogant...”

Just as Zhang Xuanyu was about to walk in, he was stopped by Han Fei. Han Fei gave Zhang Xuanyu a strange look. This guy didn’t seem to have a noble birth, so he probably couldn’t bear to see this happen.

Han Fei said, “No rush. Let’s take a look first.”

The Hanging Fisher behind Han Fei and the others broke out into a cold sweat. The head of the family had already forbidden them from causing trouble during the banquet. Why didn't these people listen? Were they out of their minds?

In the courtyard...

Su Sanqian's mother refused to give in and said stubbornly, "My son will definitely go today. You don't want to cause a commotion here, right?"

The maid servant's expression changed slightly. "Why? Do you want to fight us?"

At that instant, the maidservant used a strange footwork technique. With a flash, she grabbed the woman's neck.

"Don't touch my mother!"

Su Sanqian shouted, but he was too weak. How could a junior fishing master be faster than a peak-level Hanging Fisher? With just a shock wave, he was sent flying.

"Sanqian!"

As the maidservant didn't really want to hurt anyone, Su Sanqian only flew out. At that moment, a spider silk hit the ground. Su Sanqian twisted his body and a long stick appeared in his hand as he attempted to counterattack.

Li Luoluo said in surprise, "Ah! This child is cultivating both as a manipulator and a soul warrior!"

Su Sanqian's mother tried to use her finger to block, but she was too weak. The maidservant grabbed her by the neck.

Then the maidservant casually grabbed Su Sanqian's long stick and said coldly, "Are you refusing me only to be made a fool? How dare you not give your Third Madam face? Just wait till you're kicked out of the Thousand Star City! In fact, Yang Qing'er, if it weren't for the head of the family, do you think you could remain in the Thousand Star City with your little strength?"

"Let go of my mother!"

The maidservant sneered. "If you really care about your mother, you should stay here obediently. Don't have any improper thoughts. I'll teach you a lesson today. If you dare cause trouble again, no one will be able to save you."

"What bold words!"

Just as the maidservant was about to teach the mother and son a lesson, a magnetic voice sounded behind her.

The maid servant's expression immediately changed. She hurriedly turned her head and saw an extremely handsome young man leaning against the wall, watching this scene indifferently.

The maidservant was stunned by the person's handsome appearance. She was sure that she had never seen this person before. Feeling that her current image wasn't good, she hurriedly retracted her hand and bowed slightly at Zhang Xuanyu. "Young Master, you are?"

Zhang Xuanyu curled his lips. "Didn't you want to teach them a lesson? Why aren't you attacking?"

Sensing Zhang Xuanyu's slight mockery, the maid servant's expression changed slightly. The visitor wasn't friendly.

Her expression immediately turned cold. "Young Master, are you here to attend the banquet? This is the Su Family's inner chambers. Young Master, you shouldn't be here."

Zhang Xuanyu smiled and said, "I'm standing here now. Is there a problem?"

Opposite him, the woman hurriedly ran in front of Su Sanqian and protected him behind her. Not just anyone could barge into the Su family's residence. The visitor's identity was probably not simple.

The maidservant frowned. "Young Master, this is a family matter of the Su Family. You shouldn't interfere."

Zhang Xuanyu sneered. "Is this how the Su Family treats their own family? Aren't b*stard children just kids? Can't even attend banquets? This is the first time I've heard of this."

With that, Zhang Xuanyu looked at Su Sanqian and his mother. "Go ahead. Don't mind her."

"Stop!"

The maidservant blocked his way and looked at Zhang Xuanyu coldly. "Young Master, aren't you being too nosy?"

Hum!

As the pressure descended, the maidservant staggered as blood seeped out of the corner of her mouth.

Who was Zhang Xuanyu? He had a powerful soul and was best at soul attacks. How could a peak-level Hanging Fisher withstand his pressure?

Zhang Xuanyu curled the corners of his mouth and smiled devilishly. "What can you do if I interfere? Why don't you get your master to come out?"

Chapter 993: Unorthodox Cultivation Methods

Why was it Zhang Xuanyu? Of course, he was the one who wanted to help the young man the most. Han Fei folded his arms and watched aside.

Luo Xiaobai said, "It's not uncommon to have two professions. There are even three professions. But this child's reaction speed is very fast. He should be quite talented."

Han Fei smiled and said, "If his talent is poor, I don't think anyone will stop him from attending the banquet."

Le Renkuang's face trembled as he said, "Well... Should we recruit him?"

Li Luoluo suddenly said, "Did you notice that there's something wrong?"

Han Fei and the others looked at Li Luoluo. "What's the problem?"

Li Luoluo said, "There's something wrong with that child's spider silk. It's poisonous. Besides, the power he unleashed just now exceeded that of a junior fishing master. He must have used some special secret technique. His mother is the same. Although she was captured by the maidservant just now, you definitely didn't notice that there was poison spreading on one of her fingers. She deliberately let the maidservant capture her."

Han Fei and the others were slightly stunned. Because the level of this battle was very low for them, no one observed it carefully. Hearing Li Luoluo's words, they couldn't help but feel speechless.

Luo Xiaobai said, "I remember now. In the Thousand Star City, there are actually many people who don't live well. They can't come into contact with high-level things, so they will accept and cultivate some unorthodox techniques. And these people are mostly hunters."

Han Fei frowned. "Unorthodox cultivation methods?"

Luo Xiaobai said indifferently, "It's just a form of address. It usually appears at the bottom of society. Someone once relied on this cultivation method to rise to prominence. Therefore, there are actually quite a number of people who take this path. It's even said that there are eight hundred unorthodox disciples and three thousand side sects."

Han Fei grinned. "Interesting!"

In the courtyard...

The maidservant glared at Zhang Xuanyu. "Young Master, do you know what you are doing?"

Zhang Xuanyu leaned against the wall and didn't even move. Instead, he looked at the mother and son and said, "Aren't you going to the banquet? Go!"

Yang Qinger hurriedly bowed to Zhang Xuanyu. "Thank you for your help, Young Master."

With that said, Yang Qinger pulled Su Sanqian out.

Although Zhang Xuanyu had helped, she didn't dare to trust him. This was because Zhang Xuanyu was too young and so strong. This meant that the other party had a powerful background.

After all, she was someone who had seen the ways of the world. She knew that many descendants of powerful families would only help casually. Some of them actually had more ulterior motives. Therefore, she didn't want to trust him easily. If this person had other motives, it was impossible for them to resist him.

Seeing the mother and son leave, Zhang Xuanyu clicked his tongue and said, "You actually don't look bad. Unfortunately, you're not my type."

Hum!

Zhang Xuanyu removed the pressure and walked out lazily. He didn't argue with the maidservant, but he knew what would happen next... He was a little expectant.

The maidservant naturally didn't dare to argue with Zhang Xuanyu. Seeing Zhang Xuanyu leave, she heaved a sigh of relief before rushing off.

Not far from the yard, Han Fei looked at Zhang Xuanyu with a faint smile and said, "I thought you would directly take him in. That child looks good!"

Zhang Xuanyu grinned and said, "Helping is helping, recruiting students is recruiting students. I know the difference. It depends on how he performs at the banquet later."

Han Fei and the others had high standards, so it didn't matter if they had the Spiritual Heritage-Measuring Stone. After all, all of them, including Xia Xiaochan, didn't have a high spiritual heritage initially, except for Le Renkuang.

Of course, in addition to the growth of spiritual heritage, reality proved that as long as one had enough opportunities, it was possible to obtain a way to improve one's spiritual heritage.

They continued to walk around. During this time, they secretly observed some children, but nothing special happened!

After half an hour, Han Fei and the others were about to continue to see the children of the Su Family's direct bloodline when a group of people suddenly came and blocked them in a garden.

Zhang Xuanyu smiled and said, "See, I know this trick. I knew it would come."

A woman appeared in front of them with an old servant and two maids.

The beautiful woman's face turned cold as she pointed at Zhang Xuanyu and said, "Lu'er, is it this person?"

The maidservant who had been sent away by Zhang Xuanyu raised her head. "Madam, it's him. He's the one who released Su Sanqian and his mother."

"Take him down!"

Without asking for the reason, the beautiful woman pointed at Zhang Xuanyu arrogantly. This was because she knew that there was no one on the Pure Sun Island that she couldn't afford to offend. Who cared about this young man's background? Just take him down.

She only knew that the Thug Academy was returning. Su Yang was about to introduce Han Fei and the others to the outside world.

This made the beautiful woman feel that anyone who could accept a disciple was definitely a middle-aged man or even an old man. How could it be a few young men?

In fact, as long as she went out to know what was happening in the outside world, she would definitely discover the uniqueness of Han Fei and the others.

However, as soon as she appeared, she was about to take Zhang Xuanyu away. Even Han Fei and the others were somewhat surprised.

The old man behind the beautiful woman appeared in front of Zhang Xuanyu in the blink of an eye. Zhang Xuanyu directly activated a soul explosion, and almost instantly, the corridor where Han Fei and the others were was destroyed. The beautiful woman and the two maids were sent flying, spewing blood.

As for the old servant who had attacked, blood oozed out of his eyes, ears, nose, and mouth. He was sent flying by a punch. A house shattered and the ground quaked.

Han Fei couldn't help but look at Luo Xiaobai and say, "Didn't you say that these people are very shrewd? Why..."

Luo Xiaobai was silent for a moment. "Perhaps this is an exception."

Han Fei looked at the Hanging Fisher servant behind them. Because of their protection, this person was only standing in the ruins and wasn't injured.

This person was sweating profusely as he respectfully sent a voice transmission, *This is Second Master's Third Madam.*

This person was from the Su Family after all. He didn't want to die, so he didn't say much about this woman.

As for the beautiful woman, she was also a peak-level Hidden Fisher. The soul explosion wasn't targeted at her, so she only stood in place, unlike her two maids who were bleeding from their eyes, ears, noses, and mouths and had fallen to the ground.

At that moment, she was horrified. "Who are you?"

The moment Zhang Xuanyu dared to attack, she realized that she had missed something.

Zhang Xuanyu grinned and said, "Why? Where's your arrogance from before?"

As for Luo Xiaobai, she looked up into the sky. "Don't tell me the Su Family hasn't noticed what happened here?"

Just as Luo Xiaobai said that, she saw two elders appear at the same time. One was Ku Shui with a smile on his face, and the other's face was all dark.

When the beautiful woman saw the old man, her expression changed drastically. "Second Patriarch, why are you here?"

The old man snorted. "Why am I here? Usually, we just turn a blind eye when you throw a tantrum. But today, you offended the guests of the Thug Academy. What do you want?"

Upon hearing this, Han Fei and the others didn't panic. However, they were somewhat puzzled and somehow felt that they had been tricked!

The old man turned around and smiled at Han Fei and the others. "My young friends, our Su Family has been negligent in this matter. We will definitely punish this woman severely."

Then the old man swept his cold gaze at the beautiful woman and shouted into the void, "Su Cheng, get over here."

The next second, a figure flew over at an extremely fast speed. It was a middle-aged man who was a junior Law Enforcer.

The person swept his gaze and immediately berated, "Zhao Baobao, what did you do? Quickly apologize."

The old man snorted and said, "Your wife is usually willful and bossy. Humph, on this busy day, she actually offended our young friends from the Thug Academy. She has to be severely punished. From today onwards, Zhao Darling will no longer be the daughter-in-law of our Su Family. Get her back to the Zhao Family."

Zhang Xuanyu and the others were surprised. Holy sh*t, is the punishment that severe?

They looked at each other. Although it vented their anger, it didn't seem necessary, right?

The beautiful woman was dumbfounded. Although she was shocked by the identities of Han Fei and the others, had she really done so wrong as to be forcefully divorced?

Su Cheng's expression turned ugly as he slapped her twice and berated, "Alright! Are you trying to sow chaos in my Su Family? Alright, alright. Your Zhao Family is impressive to have raised a woman like you..."

As Su Cheng yelled, a magical divorce letter was thrown out.

Zhao Baobao shouted, "Su Cheng, you son of a b*tch. This is clearly a misunderstanding. Your Su Family bullied me. If you dare divorce me today, I'll fight you to the death..."

Han Fei and the others had become spectators. Somehow, they had become spectators.

However, Luo Xiaobai said via voice transmission, *We were tricked. The Su Family is waiting for us to come and investigate. They are waiting for us to have a conflict with this woman so that they can take the opportunity to chase her away.*

Han Fei and the others were dumbfounded. Why would this be?

Seeing their blank expressions, Luo Xiaobai explained, *From the conversation, it's obvious that the Zhao Family is stronger than the Su Family. The Su Family used us to chase this woman away because they needed this excuse. With the interference of the Thug Academy, the Zhao Family definitely won't dare to take revenge for the time being. To get us involved means that the Su Family is either far weaker than the Zhao family or is thinking about the future. Once their family's Explorer dies, the Su Family might be controlled by the Zhao Family... Then the outcome will be obvious. The Su Family will be completely annexed, and the Zhao Family will swallow the Sun Family's resources and rise up...*

Han Fei gasped. *Oh...*

Li Luolu was dumbfounded. *Are these people so calculative?*

Zhang Xuanyu sneered. *Nothing is impossible for these big clans.*

Le Renkuang stuffed some dried fish into his mouth. *It's so complicated. I don't want to understand!*

Chapter 994: A Test at the Banquet (1)

They didn't know if Luo Xiaobai had ever encountered such a ridiculous divorce predicament. In any case, they had never seen it before.

He just divorced his wife so easily? Clearly Su Cheng had known about this plan and even slapped his wife twice.

This scene was like a television drama.

This matter was resolved very quickly. In just half an hour, she had already been taken away cursing and kicking.

Han Fei and the others even sighed. The TV drama ended so quickly?

Only then did Su Cheng come to Han Fei and the others to apologize and leave.

As for the Explorer referred to as Second Patriarch, he stayed behind and smiled at Han Fei and the others. "My friends, I'm really sorry. Although we shouldn't air our dirty laundry in public, we had no choice."

Luo Xiaobai asked, "What compensation will there be for us?"

Luo Xiaobai was straightforward.

She had seen through this trick long ago. Furthermore, she was smart enough to know that since it had already happened, the Thug Academy was a part of it.

Although her impression of the Su Family had plummeted, this wasn't the time to fall out with them. Asking for compensation was the best choice.

Han Fei smiled and said, "Before that, there's something else we need to know. I just want to know if the mother and son in the yard were acting."

The elder shook his head with a smile. "That was definitely not an act. That mother and son took an unorthodox path, but that child's talent is pretty good. A level-six low-quality spiritual heritage might not catch your eyes, but that child has an excellent talent and can endure hardship."

Zhang Xuanyu frowned. "If you knew that he's talented, why did you place him and his mother in such a place? Letting him be bossed around by a maidservant?"

The elder sighed and said, "Our Su Family has long declined. Most of our descendants are useless. And my young friends, I think you know that if you need to tap into a person's potential, you'll have to suppress him, polish him, and even make his heart full of hatred. Only then might he have a chance in the future."

Luo Xiaobai said, "You've long taken a fancy to him?"

The old man nodded. "Yes, so we deliberately let the servants bully him. Of course, we will ensure that he and his mother are alive. He is one of the family members that our Su Family wants to send to the Thug Academy."

Le Renkuang muttered, "I really don't understand! It's so difficult to be a descendant of a large family!"

Li Luoluo snorted. "It seems it's better to stay in town. There's freedom in towns. There aren't so many schemes there."

Zhang Xuanyu curled his lips. "You just didn't see it..."

Han Fei nodded. "Alright, we'll see. However, Senior Su, we were used during our first ever time visiting you. That doesn't make sense, right? You'll have to make up for it."

The elder smiled and said, "Of course. The compensation is that from today onwards, our Su Family will completely stand on the side of the Thug Academy. Our Su Family can do anything for you that is inconvenient for you to do."

Luo Xiaobai asked in surprise, "What trouble do you have?"

The elder sighed slightly. "To be honest, the Su Family doesn't have many good descendents. Although the two Explorers of our family are only about 800 years old, we were once forced to expend too much of our vitality, leaving the two of us with less than ten years to live. If the two of us die, the Su Family won't be far from complete decline."

Han Fei took a deep breath. This old man is so bold! He's betting everything on the Thug Academy.

Han Fei said indifferently, "Are you sure you can get the corresponding reward for doing this?"

The elder smiled and said, "As long as one of the chosen children rises to prominence, the Su Family will be revived. As long as the two of them don't perish, the Su Family will not be wiped out. I won't lose."

Luo Xiaobai suddenly asked, "After learning that the Thug Academy has returned, you must have investigated the matters regarding the Scattered Stars Island, right?"

The elder nodded slightly. "I've heard of the news. My young friends, you are all legendary figures. Even the big families dare not mess with you."

Luo Xiaobai said, "Then why are you betting on the Thug Academy?"

The old man grinned brightly. "The people behind the Thug Academy are willing to put you in the Thousand Star City. How can our Su Family not take the bet?"

The old man's words rendered Han Fei and the others speechless.

After all, they were a family that had once been glorious, so they dared to stake everything they had on a single bet. It was a sink or swim deal.

But did the Thug Academy need it?

Of course.

With two Explorers protecting the Thug Academy branch in the Thousand Star City for ten years, even if they offended a small family and took in two students, they had nothing to lose.

Han Fei shrugged. "Alright, so be it. Anyway, the Zhao Family won't be stronger than the Chu Sect and the Cao Family, right? Since we've already met one child, where's the other?"

The elder smiled and said, "Young friends, please attend the banquet, but with me around, there will be suspicion, so I'm afraid I can't accompany you."

Han Fei and the others understood that the old man had his concerns. How could a dying man not have any concerns?

Luo Xiaobai said, "Alright! Let's go to the banquet."

...

But Han Fei didn't feel comfortable. As soon as they entered, they were tricked. Although the outcome wasn't bad, it left a poor taste.

Compared to these old foxes, he was like a piece of white paper.

Luo Xiaobai said, "Don't worry. The Su Family is betting on the Thug Academy. Besides, at this juncture, the sudden appearance of the Thug Academy is their straw to clutch at."

At this moment, the butler was already waiting on the way, smiling at Han Fei and the others as if he didn't know what had just happened.

The Su Family's welcoming banquet was held in the courtyard. It was brightly lit everywhere. The entire banquet venue was more than 2,000 square meters large with more than a hundred tables.

At the very front of the banquet was an arena-like clearing, and Han Fei's table was closest to the arena. Su Yang personally accompanied them, along with some famous people who weren't from the Su Family.

After Han Fei and the others sat down, Su Yang introduced, "My young friends, these are all from the famous families of the Pure Sun Island. This is Liu Chengzhi, an advanced Law Enforcer who is in charge of the Pure Sun Island's trade market... This is..."

In fact, Han Fei wasn't interested in these people at all.

Luo Xiaobai wasn't interested either, so she just said, "If anyone wants to enter the Thug Academy, he'll have to pass the test. Family Head Su, most of the people should be here. Please let all the children of the Su Family come out!"

Su Yang smiled and said, "My young friends, do you want to announce to the public that the Thug Academy is about to recruit students before the test?"

Han Fei nodded. "Alright!"

Immediately, Han Fei's figure flashed and appeared in the arena.

The moment Han Fei stood in the ring, everyone's eyes were focused on him. The voices of conversation also became quieter.

Han Fei declared, "My name is Han Fei. I'm the acting president of the Thug Academy in the Pure Sun Island of the Thousand Star City. I'm sure everyone here today knows about the return of the Thug Academy! I'll cut to the chase. The Thug Academy will start recruiting students from tomorrow on. However, heh... We'll only recruit three students. Why three? Because we'll recruit two students right

away. Anyone can participate. Those who want to come can gather outside the Thug Academy tomorrow.”

Wow!

Below, countless people were dumbfounded. What the hell? Your school will only recruit three more students?

Someone said, “They’ll only recruit three more students?”

Someone was speechless. “Isn’t this too few? Are they really an academy?”

Someone stood up and said, “My young friend, even the former Thug Academy wouldn’t only recruit this many students!”

Han Fei immediately said, “Don’t call me young friend. You can call me President Han. An acting president is also a president.”

The man rolled his eyes. You, a peak-level Hidden Fisher, are worthy of being the president?

Someone sneered. “Heh! Can a Hidden Fisher become the president of a school? Is it still the former Thug Academy?”

Han Fei certainly wouldn’t be afraid.

In fact, he didn’t care about anyone here. The Thug Academy never recruited disciples all at once. Apart from Qu Jinnan and Ling Yuan, which one of them was recruited amongst a crowd?

Han Fei sneered. “It’s up to you whether you want to come or not. The Thug Academy will admit any student meeting our standard. As long as you can enter our school, you will be successful. That’s all I have to say. The rest is up to you.”

Just as Han Fei was about to leave the stage, someone suddenly sneered. “What if you, the acting president of the Thug Academy, loses?”

Suddenly, someone flew over from the sky. It was clearly a Law Enforcer.

Everyone looked up and found that this person was actually an intermediate Law Enforcer. His aura seemed to be stronger than the intermediate Law Enforcers Han Fei had encountered before.

Han Fei immediately looked at Su Yang. “You invited him?”

Su Yang stood up. “Who are you? It’s not appropriate for you to come uninvited, right?”

“Haha!”

The person smiled and said, “It’s none of your business. Since the Thug Academy has started recruiting, we have to see if they have the ability, right? If they just mess around here, isn’t that a joke?”

Han Fei immediately understood that this guy was here to cause trouble.

Su Yang shouted, “Sir, do you think it’s so easy to barge into my Su Family? If you don’t leave, don’t blame me for being rude.”

That person said disdainfully, "Family Head Su, what's wrong? These youths have just come to the Thousand Star City, but have already established a relationship with your Su Family? I'm just doubting their intentions. I haven't done anything rash. Why is Family Head Su pushing me away?"

Han Fei stepped into the air. "That's easy. You want to know if I, the acting president, have the ability? Okay. Let's have a life-and-death battle now. Do you dare?"

"Hiss!"

Everyone below was in an uproar.

Someone exclaimed, "He's indeed from the Thug Academy. Their people are always so arrogant!"

Someone sighed. "Although Han Fei seems to have a battle record of fighting five alone, junior and intermediate Law Enforcers are two different concepts."

Someone frowned. "That's not right! Why did I hear that Xu Li went as well? The power he unleashed is comparable to an intermediate-level Law Enforcer!"

On the other side, the youths who had been prepared all looked up into the sky as though they were listening to a heavenly book.

A peak-level Hidden Fisher challenging a Law Enforcer? Was this the strength of the Thug Academy?

Chapter 995: A Test at the Banquet (2)

Han Fei stood proudly in the air above the Su Family. When the Phantom Glass Wings appeared, it caused an uproar.

"The Wind God Pearl. It's definitely the Wind God Pearl."

Someone took a deep breath. "This is probably a peerless genius. He can even obtain the Wind God Pearl."

Someone said enviously, "No wonder he dares to be so domineering. He can even obtain the Wind God Pearl. It's not a big deal to challenge a person of a higher realm for him!"

Someone sighed. "It's the Thug Academy after all. If he's not a real genius, would he dare to show off with a few young Hidden Fishers?"

The person opposite Han Fei had a gloomy expression.

He was here to cause trouble, but he didn't expect Han Fei to be so straightforward. A life-and-death battle?

If he accepted it, even if he won, he probably wouldn't be able to kill Han Fei. But once he lost, not only would he lose face, but he might even die.

However, he frowned. Although Han Fei had a one-on-five battle record, those were all low-level Law Enforcers. As for him, he was already at the peak of the intermediate level. His strength was at the level

of 8 waves, and with his secret technique, he had nearly 20 waves of strength. It made no sense for him to lose to a peak-level Hidden Fisher...

It was said that this kid's strength wasn't stronger than Xu Li's. In other words, even if Han Fei unleashed his strength, it was only about 15 waves. Could it be that he was very fast? His law was speed enhancement, so there was no reason for him to be slower than him!

With this in mind, the person was immediately filled with confidence.

Even if Han Fei had any other extraordinary means, he could at most defeat him. It was impossible for him to kill him. And if he won, the Thug Academy would have a bad start and it would be difficult for them to advance in the Thousand Star City.

He said, "Alright, the acting president of the Thug Academy does have some spirit. Since you want to fight, I'll fight with you."

Below, Zhang Xuanyu curled his lips and said, "This person is doomed."

Le Renkuang was eating happily. He wasn't worried at all. He even smiled and said, "Before I become an Explorer, I wouldn't want to fight Feifei..."

Luo Xiaobai nodded slightly. "After the Explorer level, the effects of the secret technique will greatly decrease. You can give it a try then."

Li Luoluo looked at the three of them in shock. "Hey! Are you that confident? The other party definitely came prepared! You still don't understand Law Enforcers. The peak of the intermediate level is already very strong."

Luo Xiaobai shook her head. "No, you don't understand Han Fei."

...

Above, Han Fei grinned and said, "Then let's begin!"

Hum!

Both parties instantly flew into the sky.

Otherwise, if it was too close to the ground, any random strike would cause fatal damage to the onlookers.

In the blink of an eye, more than half the people below couldn't see the two of them.

The middle-aged man sneered. "You asked for it."

However, Han Fei didn't say a word. With a casual wave of his hand, a long saber instantly slashed through the void as if he had just done something casual.

"Puchi!"

In the sky, the corpse fell, and the long saber had already vanished without a trace.

Han Fei muttered as he flew down, "Cut the crap."

In the Su Family's backyard, the two elders' expressions changed.

One of them said, "The power of that strike just now equaled that of a peak-level Law Enforcer?"

The other person nodded hard. "That's right. A peak-level Law Enforcer. He easily tore through the void. His strength has already exceeded Su Yang's."

"More than Su Yang! I'm afraid that no one below the Explorer realm can defeat him. This... This is too terrifying! Do the disciples of the Chu Sect and Cao Family have this ability? A Hidden Fisher can kill a Law Enforcer with one strike?"

In the Su Family's backyard, the two Explorers were deeply shocked.

In the distance, an Explorer in the void narrowed his eyes and muttered, "Punishment Saber. It seems that it's impossible to shake them with such trivialities!"

With that said, the person vanished without a trace.

At the welcoming banquet, the people who were looking up felt a terrifying pressure descend. Then... Han Fei came down?

Someone was speechless. "Why did you come down? Aren't you going to fight?"

Someone was surprised. "Eh! Where's the Law Enforcer from before?"

A Hidden Fisher smiled bitterly. "Fight? The Law Enforcer is already dead?"

"What? Dead?"

"How is it possible? That fast? Didn't... Didn't they say that he's an intermediate Law Enforcer? He died so easily?"

BAM!

The next moment, the crowd saw a corpse fall. The Su Family's old butler's expression changed as he quickly put away the corpse, thinking, *Please don't affect the welcoming banquet...*

At the same time, the old butler was covered in sweat. It's too terrifying. There's no way to block that strike!

Even Su Yang had a faint sheen of sweat on his forehead. However, unlike others, he could tell that it didn't seem to be Han Fei's own power.

But even so, so what? It wasn't Han Fei's own power, but it could be used by him! Even he didn't seem to be able to withstand this strike, much less a mere intermediate Law Enforcer.

Su Yang couldn't help but sigh for that person. Why did he have to do this? Since Han Fei could come to the Thousand Star City, how could he not have some trump cards? Great, now the Law Enforcer died, not even having the chance to use his law. He probably didn't expect it himself...

As for the children, they were still confused. How did Han Fei win? Was that person a fake Law Enforcer?

Han Fei landed on the stage and smiled. "If there are still challengers, I don't mind."

The entire place instantly buzzed as everyone muttered softly.

“Challenge? Is that a challenge? That’s more like courting death.”

“Only a fool would challenge him! Is it easy to become a Law Enforcer? That guy was killed only with one strike.”

Someone thought to himself, *Although the Thug Academy has disappeared for more than thirty years, they are now back. When I go back today, I’ll get my kid to line up at the entrance of the Thug Academy. They will recruit five students in total. Let my kid have a try.*

Seeing that no one answered him, Han Fei returned to the dining table dejectedly. Everyone at the table looked at him differently.

Even Li Luoluo was dumbfounded. She had fought alongside Han Fei! When did Han Fei suddenly become so strong?

Su Yang said, “Everyone, eat and drink well. Let’s start the banquet...”

On the other side, Su Yang signaled with his eyes, and the old butler flashed to the back of the ring and urged, “Young masters, ladies, hurry up and go to the ring... Whether you can enter the Thug Academy or not depends on yourselves.”

For a moment, the group of youths were all nervous. If they hadn’t seen the domineering Law Enforcer being slashed by Han Fei, they wouldn’t have been so nervous. However, Han Fei had just killed a Law Enforcer in front of them. How could they not be afraid?

Many of the youths looked determined. The opportunity was in front of them. They just had to see if they could be chosen.

Su Sanqian clenched his fists. He wasn’t horrified by the scene just now but felt his blood boil. This was how a person should be, not submitting to others and having absolute confidence with absolute strength.

Whoosh!

He saw 52 youths enter the arena.

This was already a lot.

Twelve years old was the best golden age. If they could find a suitable candidate in this batch, they wouldn’t consider other age groups.

This was because people of this age were the easiest to mold.

Luo Xiaobai looked at Su Yang and said, “That’s all?”

Su Yang smiled and said, “I’m sorry, but the entire Su Family only has 52 twelve-year-olds.”

Zhang Xuanyu said, “There’s no age restriction. Call all the kids over.”

Su Yang nodded. “If this batch doesn’t have any suitable candidates, the children between the ages of nine and thirteen will come up.”

At this moment, all the children were looking at Han Fei and the others.

Su Sanqian looked at Zhang Xuanyu. *This person just helped me and my mother. Is he also a Senior of the Thug Academy?*

Su Yang stood up, picked up his glass, and downed it. "Today, I'd like to thank the Thug Academy for giving us the chance. Now President Han, please prepare your assessment."

Han Fei returned the toast and looked at the ring. "Remember, this is an assessment. Follow your hearts and maintain your true selves."

With that, Han Fei looked at Li Luoluo and said, "Do me a favor. Set up a bug illusion."

Li Luoluo said in surprise, "I'm here to give them the test?"

Han Fei smiled. "Yes."

Li Luoluo's bug horde illusion was something that even strong masters at the same level as her feared, much less a group of children.

Han Fei had already decided that if all of them failed, there was still another solution.

Li Luoluo waved her hand and a gorgeous seven-colored light scattered on the heads of the youths.

At the banquet, everyone forgot to eat as they looked at the youths in the ring.

However, in an instant, the group of youths fell to the ground.

Someone cried out, "Bugs! So many bugs! Father, save me!"

"Mother, Mother, save me!"

"Don't come over, damn worms. Don't come over... Ah..."

There were only three people who could last for one minute. This surprised Han Fei. These three must have had a very strong will.

Su Sanqian felt his soul tremble. The colorful, strange worms were crawling all over his body. There was a strange pink centipede searching for something on his mouth and nose as though it wanted to burrow into his body.

Su Sanqian shut his mouth tightly and tried to activate a spiritual-energy protective cover to shatter the worms. However, the spiritual energy protective cover instantly shattered and was useless.

"No! Su Sanqian, you must become a student of the Thug Academy."

He remembered what Han Fei had said: follow your heart and maintain your true self.

"If I succeed, I can live. If I fail, I'll die!"

Feeling that there were worms burrowing between his ears and nose, Su Sanqian roared and opened his mouth, biting the centipede and a few unknown worms with his mouth.

Below the stage, Li Luoluo said in surprise, "This child is prepared to die!"

Three minutes had passed.

Only Su Sanqian was still standing. The others were already crying for their parents. This was only an illusion, but it wasn't something a group of children could accept.

Su Yang sighed. "What a bunch of disappointments... You have experienced pressure and illusions before! It's just switched to insects. Why are you so scared?"

Li Luoluo looked at Han Fei. "Shall I continue?"

Han Fei shook his head. "No, remove it."

As the illusion vanished, some ran off the stage, some continued crying, and some randomly released spiritual explosions. It took a long while before these youths realized the situation.

In the crowd, only Su Sanqian stood still. His body was straight as he looked at Han Fei.

Han Fei looked at Su Yang. "You three, stay."

Han Fei pointed at Su Sanqian and the other two youths. Although the two youths had moved and were even sitting on the ground, they had been gritting their teeth and holding on, just not standing. Han Fei didn't doubt their will.

Su Yang was overjoyed. "The three of you, come here."

Su Sanqian and the other two were overjoyed.

At the same time, the three of them firmly believed that there would definitely be a second round. They definitely couldn't lose now.

Chapter 996: Wrong Name

Although a twelve-year-old child who had just had his spiritual heritage awakened was the most malleable, talent wasn't just about plasticity. Therefore, Han Fei and the others firmly believed that they should finish testing the other kids.

As Su Yang clapped his hands, a total of 123 children came.

Zhang Xuanyu said in surprise, "Why is there a little one off to the side?"

Han Fei and the others also noticed that in the crowd, there was a little girl who was holding a wooden toy fish in her hand. Her big eyes rolled around and she had a blank look.

Han Fei said with a smile, "Perhaps she looks tiny. I'm telling you, a girl changes eighteen times when she grows up. It's impossible to tell how tall she will grow in the future."

Luo Xiaobai and Li Luoluo looked at Han Fei strangely. A girl changes eighteen times as she is growing up? He spoke as though he was very experienced with girls.

Han Fei chuckled dryly. "Don't forget that you and Xia Xiaochan weren't that tall before."

With that said, Han Fei gestured and ignored the looks in their eyes. Instead, he looked at Li Luoluo and said, "The exact same test. Do it again."

Li Luoluo frowned and said, "They already know it's an illusion that they just need to overcome themselves. Shall I increase the difficulty?"

Han Fei shook his head. "No, there's still the next test."

Li Luoluo nodded and waved her hand, scattering the seven-colored fog again.

Indeed, this time, the kids' reactions weren't as exaggerated as before. There were only a dozen or so people screaming in horror. No matter how terrified they were, most of the kids just sat on the ground or took a few steps back.

However, the standards this time were different from before. Su Sanqian's group just needed to persist to the end. In this batch, anyone who moved would be eliminated, even if it was just a small step.

Han Fei looked at Su Yang and said, "This is the simplest test."

Su Yang nodded with a smile. The Su Family's decline wasn't without reason! If these kids experienced a real test, their daily training could be forgotten.

Luo Xiaobai said indifferently, "The people eliminated are basically children under the age of twelve. There are only five of them left. Only seven or eight thirteen-year-olds have been eliminated. They can proceed to the next step."

Zhang Xuanyu muttered, "That little girl is one of the five. That's strange. She seems to be the youngest."

Han Fei nodded and let Li Luoluo retract the illusion. After the eliminated children were taken away, he looked at Su Sanqian and the others and said, "The three of you, go on stage."

The three of them perked up as they knew that the second round of tests was coming.

However, apart from Su Sanqian, the other two felt that it was unfair.

After all, the same test wouldn't be as effective as the first time. Now, nearly fifty people were left on the stage. This way, their chances of being chosen decreased again.

However, Su Sanqian didn't think so.

He was already used to unfair treatment. He knew that the strong wouldn't care about such trivial matters. What he needed to do was do his best and successfully pass the second round of tests to get chosen.

While everyone was curious about how Han Fei would carry out the second round of tests, they heard Han Fei say to the crowd in the ring, "Cultivators can make up for anything they lack, but they can't lack perseverance. From now on, you must stand within a meter of your original spot and not fall to the ground. In the end, I'll choose two of you."

Han Fei gave a reminder, and his words were clear. Most people, including Su Yang, guessed that Han Fei would use the most ordinary pressure.

However, with a flip of Han Fei's hand, the arena erupted with banging sounds. At this moment, at least ten people suddenly sat on the ground.

"Huh! The law of gravity?"

Su Yang and the others at Han Fei's table were all Law Enforcers. How could they not tell what it was? Han Fei directly exerted gravity on everyone, eliminating nearly a dozen people in the blink of an eye.

The children who were already sitting on the ground looked blank.

Someone cried, "I just didn't react in time. I can withstand this gravity."

Someone begged, "Senior, give me another chance."

Without needing Han Fei to speak, Su Yang shook his head slightly and shouted, "Don't affect the others' assessment. All of you should leave."

Zhang Xuanyu suddenly said, "That girl is still here."

Han Fei and the others were speechless. "Why are you always paying attention to girls?"

Han Fei was a little disgusted.

It seemed that Zhang Xuanyu had the potential to become a pedophile...

However, Han Fei was also surprised. He looked at the little girl, who was still holding a toy in her hand and often raising her hand to fiddle with it.

"Eh! I have to say, she's a little special!"

Luo Xiaobai looked at Su Yang and said, "Was she born with great strength?"

Su Yang was somewhat surprised. "Uh, this child is a little special. Although her spiritual heritage is not quite good, her endurance is very strong. However, her cultivation speed isn't fast. She's only a level-eight fisher now."

Han Fei asked, "How old is she?"

Su Yang said in embarrassment, "This child was born petite. She's only nine years old."

Han Fei smiled. "Alright, let's see what happens."

This level only tested patience and perseverance. The gravity Han Fei exerted was different, but the gravity was slowly increasing. Almost every second, it increased by about ten kilograms.

Twenty minutes later...

Three to five people couldn't hold on and fell to the ground.

After about twenty-five minutes...

Nearly ten people couldn't hold on and fell to the ground.

At this moment, every increase in gravity might very well be the last straw that crushed them.

However, Han Fei didn't say anything until half an hour later.

There were only eight people left standing on stage.

Zhang Xuanyu added, "That girl is still here."

Han Fei nodded. "Wait a little longer."

This time, apart from the girl, even Su Sanqian's knees were bent as sweat poured down. Most people spread their legs apart in an attempt to make themselves stand more stably.

Han Fei didn't increase his strength that much. Every ten seconds, he only increased his strength slightly.

Below the stage, many members of the Su Family were extremely nervous.

A man sent a voice transmission, *Son, you must hold on. If you can make it, you'll surely have a bright future.*

Someone clenched his fists nervously. *Daughter, you mustn't admit defeat. If you win, you will have everything.*

One of them said, *Darling! Put down your toy. It's heavy.*

When Han Fei heard the voice transmission, he knew that the person was talking to the girl. However, the girl grinned at the audience and refused to let go of the toy.

Han Fei and the others looked at each other. Isn't this girl too tough? She's only a level-eight fisher...

Han Fei couldn't help but continue to increase her gravity until it increased by another thousand kilograms. The girl's face was red, but she didn't even look up.

Another half an hour later, there were only five people left on the stage.

Han Fei suddenly said, "Yes! Good. Let them stand for twelve hours in total."

"Puff!"

Thud...

Upon hearing Han Fei's words, two of the kids fell to the ground. What? Twelve hours? It had only been two hours, but they were almost dying! How could they make it to twelve hours?

Su Yang was speechless. *Are you stupid? Why did you believe him so easily? He was just bluffing!*

At this point, there were only three people left on the stage.

Su Sanqian, the little girl called Xiao Qiao, and an advanced fishing master who was gritting his teeth and holding on.

A thirteen-year-old advanced fishing master was definitely not bad. However, many people were in a higher realm than him. However, not many had lasted until now.

To be precise, the youth and Su Sanqian were on par.

Han Fei looked at Su Yang. "Who is that young man?"

Su Yang smiled faintly. "That's my great-grandson."

Han Fei understood. No wonder! He's a direct descendant! With that, Han Fei removed the gravity on the girl and waved. "Come here."

Below the stage, a couple was overjoyed. Their daughter had actually made it.

They had been feeling that their daughter's physique was a little special, but her spiritual heritage wasn't high. It was only level-three high-quality. Logically speaking, it was impossible for her to be chosen.

However, the truth exceeded everyone's expectations.

Han Fei said to Su Sanqian and the other youth on the stage, "Whoever lasts to the end will be a student of the Thug Academy. As for how long you can last, it's up to you."

With that said, Han Fei put on a mysterious air, held a glass of wine and leaned against the chair. He looked at the girl who was still holding a toy and asked, "What's your name?"

The girl looked around and saw her parents winking at her. She said honestly, "My name is Su Fei."

"Puff!"

Han Fei's eyes widened. He spat out the wine and almost fell.

Su Yang and the others looked at Han Fei in surprise. What's wrong? Have you heard of the name before?

Su Yang smiled and said, "Director Han, have you heard of this name? I gave her her name because I hope that when she grows up, she can become a normal woman."

"Cough, cough..."

Han Fei hurriedly sat up straight. "Well... I think it's not a good name. I think she should change it."

Everyone: "???"

Zhang Xuanyu said leisurely, "Feifei, can you calculate a person's luck from their name?"

Luo Xiaobai was also puzzled. "I think it sounds pretty good."

Han Fei's face stiffened. "No, a name carries destiny. This name is not appropriate. It has to be changed."

Su Yang laughed. "Hahaha, that's a small matter. As long as her surname is still Su."

Then Su Yang sent a voice transmission to Su Fei's parents. The couple hurriedly went forward and the woman said, "Yes, it has to be changed. I've always felt that Feifei's name doesn't match her temperament. President Han, you are a wise person. Please give her a name."

The man nodded as well. "Actually, Feifei is just a nickname. Yes, she's still underage. Her name can be changed at any time."

Su Fei was dumbfounded, thinking to herself, *Do I have to change my name to study in school?*

Han Fei said leisurely, "Ha, ahem... Let me calculate a good name for her."

Han Fei gestured for a long time like a little scholar. Su Yang almost rolled his eyes.

Finally, Han Fei said leisurely, "I think Su Daji should be good."

Everyone: "???"

Chapter 997: Picked Up a Treasure

Seeing that everyone was looking at him, Han Fei shook his head with a leisurely expression. "I gained enlightenment of the Heavenly Dao in my subconscious and gained an epiphany to bestow this name. I vaguely sense that the person with this name will become a king and have great blessings in the future..."

Upon hearing Han Fei's bragging, Luo Xiaobai and the others immediately lost interest.

Although they didn't know why Han Fei insisted on changing the girl's name, he often acted like a psychic. After so many years, they had gotten used to it. Let him be!

Su Yang smiled stiffly. "Oh... Oh, is that so? That's good, that's good."

At that moment, Su Fei's mother said, "Darling, remember your new name. Su Daiji, from now on, you won't be called Su Fei!"

His father nodded immediately. "Fei... Daji, in the future, you have to listen to President Han in school."

Han Fei waved his hand. "Alas! In school, you should call me Senior Brother. I'm just a student recruiting on behalf of my master."

Su Daiji clearly didn't care about her name. Instead, she extended her hand. "Toy."

Han Fei glanced at her. This girl is a little silly!

However, it didn't matter. The people from the Thug Academy had always been unique. But a toy? Why would he want a toy? With a thought, he summoned a piece of trash material and casually refined it. A moment later, a third-order Rubik's Cube appeared and he threw it to Su Daji.

Han Fei said, "Alright, since you're already a member of the Thug Academy, you can go to the table."

Su Yang glanced at the couple, signaling them to return to their table. As for Su Daiji, she was arranged to sit beside Han Fei.

However, the girl clearly wasn't interested in food. Instead, she spun the cube noisily. As for the wooden fish toy in her hand, it had fallen to the ground at some point in time. She didn't even have the intention of picking it up.

Han Fei smiled and said, "Senior Su, the other person you wanted us to pick was actually your great-grandson, right?"

Han Fei looked at the stage and saw Su Yang nod awkwardly. "Ming'er is actually not bad. His talent is already outstanding in this generation of the Su Family."

Su Yang actually had a lot of doubts about Han Fei's choice of Daji. In his opinion, the two on the stage should be their choices.

He couldn't help but remind him, "Fei... Daji's spiritual heritage is actually a little poor. It's only level-3, high-quality. We once suspected this, but after repeated tests, it's indeed only level-3, high-quality."

Han Fei grinned and said, "Spiritual heritage isn't a problem. If spiritual heritage can directly determine a person's achievements, then there should be strong masters everywhere in the Thousand Star City. The Thug Academy doesn't pay attention to this."

After a full hour, everyone who came to the banquet dispersed. Most people didn't want to wait to see which of Su Sanqian and Su Ming could last until the end.

Furthermore, the reason for the Su Family's banquet was that the Su Family had told everyone that they were standing with the Thug Academy.

The other was to announce the return of the Thug Academy and its start of recruiting students.

As for the news that Han Fei had killed an intermediate Law Enforcer with one strike, it would definitely spread throughout the Pure Sun Island tomorrow. Everyone who needed to know would know. Those who didn't know wouldn't pay too much attention.

Everyone at Han Fei's table left early, leaving only Su Yang and the old butler to accompany them.

As for Han Fei, he was the only one who was still gobbling. He wasn't that picky about food, as long as it was edible.

As for Han Fei and the others, their gazes landed on Su Daiji. The girl spun the cube in her hand at a very fast speed, so fast that it produced afterimages.

Su Yang was dumbfounded. Is this... The big box in the air in the Thug Academy? He only knew that there was such a thing, but now it seemed extremely difficult to restore it after the colors were completely messed up.

And the one in Daji's hand was a third-order cube. The one in the Thug Academy was a fourth-order cube.

Su Yang could even imagine that it would be way harder although it was just one order more. Su Daiji had already tried countless times, but still failed to restore the cube.

From the moment she obtained the cube until now, she had never stopped. Up to now, she could only restore one side of the cube. How was the one from the Thug Academy going to be restored?

However, Han Fei and Luo Xiaobai didn't think so. They secretly exchanged looks. Is this girl a hardcore player?

Luo Xiaobai was even a little shocked. They had all looked at the drawings and learned the steps of the game before they could start. But Su Daiji? It seemed like she had only managed to restore one side, but she was only two steps away from completing the cube. How terrifying was her talent?

At this moment, Han Fei was more certain that there was something wrong with Su Daiji's spiritual heritage. She must be extremely intelligent. Otherwise, she wouldn't be that fast.

While Su Daiji was focused on playing the cube, Su Sanqian and Su Ming were almost at their limits in the ring.

Su Yang couldn't help but say, "President Han, actually, San Qian and Ming'er are both quite talented. Can you..."

"No!"

Luo Xiaobai answered the question directly. She said, "They are talented, but if we only choose one of the three, we will choose Daiji. In other words, their talent doesn't mean anything. In big families, there are plenty of people who can reach their level."

Su Yang sighed inwardly. It was true!

There were many people stronger than Su Sanqian and Su Ming in the top families. It was no wonder that Han Fei and the others were only willing to choose one between the two.

Su Sanqian's mother was standing in a distant corner. She didn't attend the banquet, nor did she have the right to attend. She had been here the moment Su Sanqian went on stage, gritting her teeth. She knew him well and knew that he wasn't the kind of person who would give up. He would definitely win.

On the stage...

Su Sanqian felt that he could hardly hold on, but when he thought of the years of oppression and torment he suffered, he knew that he couldn't afford to lose.

If Su Ming lost, he was still a direct descendant of the Su Family, the apple of the eye of the Su Family. But if he lost, his life was over. He couldn't accept it.

"Ahhhhh!"

Suddenly, Han Fei and the others noticed that the spiritual energy around them was slightly surging. Su Sanqian had made a breakthrough.

Han Fei was slightly surprised. "Interesting."

Luo Xiaobai said, "It seems that he won."

Zhang Xuanyu grinned and said, "Yes! He won."

Su Ming was competing in endurance. He wasn't much better than Su Sanqian. The moment Su Sanqian made the breakthrough, he sighed inwardly and thought to himself, *It's over.*

And once this competitive spirit was vented, Su Ming couldn't hold on any longer and fainted to the ground.

Su Ming's father sighed and carried Su Ming to the backyard.

However, he wondered if it was true that anyone could become so strong after entering the Thug Academy. He admitted that Han Fei was very strong. This was undeniable. However, it didn't mean that everyone could do what Han Fei could, right?

If that was the case, how could the Thug Academy have been defeated back then?

In the corner, Su Sanqian's mother was crying silently.

At this moment, she finally couldn't hold it in and wailed.

Furthermore, the moment Su Sanqian made the breakthrough, Han Fei patted Zhang Xuanyu on the shoulder and said to Luo Xiaobai and the others, "Let's go back to school!"

Luo Xiaobai wanted to hold Su Daji's hand, but the girl jumped off the chair and followed behind Han Fei. Her hands didn't leave the cube.

Li Luoluo said curiously, "I bet that it will take her at least three days to complete the last two steps."

Luo Xiaobai was silent for a while. "Tomorrow morning."

Han Fei wasn't too sure. "Uh... Who knows!"

...

The next morning...

When Han Fei got up, he sensed that there was a long line of hundreds of people outside the maze. It was only dawn!

Han Fei wasn't in a hurry. He found that Su Sanqian was fighting Zhang Xuanyu, and Su Daji was playing with the cube.

However, she no longer needed to look at it, as she was subconsciously spinning the cube at extremely fast speeds with both hands as she watched Su Sanqian fighting.

In less than three seconds, Han Fei saw Su Daji finish restoring the cube. Then, she continued to break it apart, glanced at it, and continued to spin it blindly.

"Wow! This girl is good! Is there something wrong with the Su Family's brains? How could they measure such a talent purely by spiritual heritage?"

In the training ground...

Zhang Xuanyu said, "Too slow. Don't use your messy unorthodox methods. They are full of loopholes."

Su Sanqian had already been fighting him for half an hour. In the end, he didn't even touch the corner of Zhang Xuanyu's clothes. He fell countless times, his face covered in dust.

After a moment...

Han Fei slowly walked over, and Zhang Xuanyu said, "Alright, that's all for the basic test."

Su Sanqian hurriedly said respectfully, "President."

Han Fei rolled his eyes. "Call me Senior Brother. Don't call me President in the future."

"Yes, P... Senior Brother."

Su Daiji extended her hand to Han Fei again. She didn't say anything, looking a little nerdy, but her expression was cute. She was short, so Han Fei couldn't help but smile and rub her head.

"Humph!"

Su Daiji shook her head and stared at Han Fei angrily.

Han Fei took out two fourth-order cubes and threw one to Su Daji and the other to Su Sanqian.

Su Daji received the fourth-order cube and carefully stuffed the third-order one into her pocket. She was already spinning the fourth-order cube in her hand.

Su Sanqian wore a blank look. He saw that Su Daiji was having a great time, but after a few spins, he was dumbfounded. How should he deal with the cube?

While he was pondering, Han Fei threw him a fish skin map. "Don't try to figure it out yourself. Just look at the steps!"

Han Fei didn't expect everyone to be like Su Daiji. This girl was literally a treasure that exceeded Han Fei's expectations.

Zhang Xuanyu asked indifferently, "Should we let them enter the library after they finish?"

Han Fei thought for a moment. "Train their bodies first."

With his previous experience, Han Fei knew that Zhang Xuanyu and Le Renkuang were examples. Not everyone had to refine their bodies, but it was definitely a foundation.

Since he was here to take in students, he had to teach them according to his standards.

With that, Han Fei glanced at the two of them. "Follow me."

A moment later, the group passed through the maze and arrived at the library.

The fourth-order cube in Su Daji's hand fell to the ground. The little girl hurriedly picked it up and stared blankly at the huge fourth-order cube above her head. She was completely stunned.

Su Sanqian also took a deep breath. He looked at the cube in his hand and then at the cube above his head. His heart trembled. *What is this? What is this place?*

Han Fei threw another jade slip to each of them. It was the demon-level, divine-quality 108 Spirit-Absorbing War Bodies, much better than the incomplete version he used to have.

Han Fei said, "Su Sanqian, Su Daiji, this is a body-tempering technique. I'm not asking you to walk the path of body-tempering, but body-tempering is the foundation of everything. When you can complete these 108 postures, you can begin class."

Then, Han Fei smiled and said, "Let's go! Let's continue recruiting."

Chapter 998: Maze Adventure

The maze that was hundreds of kilometers long was filled with countless twists and turns! Even if Luo Xiaobai and company walked in it, they would get lost without using the teleportation array, perception, or destroying the maze itself.

This was because there were many short-distance teleportation arrays set up here. If one wasn't careful and stepped into one, they would find themselves in an unfamiliar place.

Of course, not all teleportation arrays were problematic. Some mazes were an endless cycle. Once someone discovered that this was an endless cycle, the teleportation array would be the only way to the next maze.

By the time Han Fei and the others arrived at the front of the spiritual plant maze, there was already a line of more than a thousand people. Usually, it was adults with their kids.

Now, some people could still use their perception to enter the maze. After all, the maze had yet to be completed. At present, they only had the framework, but the arrays inside were almost completed.

As the seal above the maze hadn't been set up yet, those who were already Hidden Fishers could more or less put their perceptions in. They found that it was filled with giant spiritual plant walls piled up with spiritual plants.

Someone was still discussing, "This huge maze must have a time limit. If we don't fly over it, it will be quite difficult!"

Someone shook his head. "That's not right. Did you notice? This maze is especially rich in spiritual energy. Furthermore, the sign says that there are killing arrays inside. I'm afraid it's not as simple as a maze."

A parent said worriedly, "These children are so young, but they set up killing arrays for the test? Is that right?"

The moment this question was raised, many parents began to consider it. This test was probably accompanied by some danger!

"Look, they're out."

Someone immediately shouted, "President Han, can we take the assessment today?"

"President Han, what are the rules of the assessment? How long does it take to pass?"

"President Han, is this maze very dangerous? Is there any danger of perishing?"

"President Han..."

All sorts of questions erupted. It was obvious that everyone had accumulated many questions. The Thug Academy really didn't look like a school.

This was more like a secret realm.

Han Fei raised his hand and stopped everyone's voices. "Don't panic. Let me briefly explain the rules. The rules are very simple. First of all, this maze is also known as the Infinity Maze. Although there are killing arrays inside, as long as you don't barge in, you won't encounter any danger. But once you barge into the maze, you have to bear the consequences. Secondly, the maze is only open to children who are level-nine fishers and those who have just become fishing masters. If you are in a higher realm, you'll have to reduce your strength. Otherwise, you will trigger the killing arrays. If that happens, there will be danger. There's no time limit to this maze, but if you feel that you can't pass it, turn back to the starting point! Perhaps... The Thug Academy isn't suitable for you."

"Wow! There's no time limit?"

"But there are killing arrays!"

Someone shouted, "President Han, as long as we pass this maze, we'll be considered to have passed the test, right?"

Han Fei smiled and said, "Of course. As long as you can walk through the maze on your own, you'll pass. However, there are only three places left for the Thug Academy. If you want to enter, do so quickly."

Someone asked, "Can we enter now?"

Han Fei said, "Of course, but listen up, everyone. Don't try to resort to tricks. If you get caught, you'll be sent to the starting point to try again!"

Instantly, someone shouted, "Son, run! Charge!"

Someone pushed his daughter. "Quick, daughter, you have to make good use of your talent as a manipulator."

An old man shouted, "Grandson, don't act recklessly. We aren't in a rush. You have to find the flaws in this maze. Once you pass it, your future will be bright."

It was like a huge fish tide. At least a thousand children were rushing into the maze.

Han Fei grinned and said, "Alright, everyone else, please wait patiently."

Han Fei looked at Luo Xiaobai. "Can you watch over the test?"

Luo Xiaobai asked, "What are you going to do?"

Han Fei said, "I'll perfect the mobile maze while mixing things up a bit."

Li Luoluo immediately raised her hand. "I'll help."

Han Fei was speechless. "You can set up arrays too?"

"I'll plant some wormgrass."

Luo Xiaobai impatiently led Zhang Xuanyu and Le Renkuang to watch the exam. As an externally recruited student, Li Luoluo could do whatever she wanted. As long as she didn't transform, everything was negotiable.

...

After half an hour, Han Fei was standing on the wall of spiritual plants that was about ten meters tall and carving arrays. Of course, it was impossible for him to carve one small array over this area of about a hundred kilometers. Han Fei's plan was simple. He would directly turn the hundred kilometers into a large array. After that, he could carve countless small arrays inside.

To array masters, as long as they had enough patience and time and grasped the technique of arrays, they would eventually be able to create a large terrifying array. Rome was not built in one day.

Therefore, one shouldn't underestimate an array master. The things they could produce might far exceed their own strength.

At Han Fei's current limit, he couldn't kill a peak-level Law Enforcer just with an array map as large as thousands of kilometers like Old Jiang, but given enough time, he could trap a Law Enforcer. When the array was finally perfected, Han Fei felt that there was a chance of trapping even an Explorer.

At this moment, on the plant wall, a girl was walking around in the maze. This was the sixth time Han Fei had seen this girl.

Why did he see her so many times? It was because the girl kept walking on the wooden floor. Han Fei even wanted to ask her why she couldn't cross the wooden floor... She should at least try!

A moment later, Han Fei circled to the other side where three youths were running wildly.

Someone ran to the back. "No good. Those bugs are real."

Han Fei said, "Huh? Bugs? Where did the bugs come from?"

Han Fei's figure flashed and appeared hundreds of meters away. In the maze tunnel, a row of wormgrass extended out of the spiritual plant wall. A centipede was opening its mouth, and it was alive.

Han Fei's face darkened. *I've set arrays! What's Li Luo doing?*

"Forget it. They're just ordinary bugs with ordinary strength. Keep them!"

Hum!

He saw a large spiritual wave appear in a tunnel in the distance. Han Fei cursed, "Which son of a b*tch climbed the wall? I haven't finished setting up the arrays. Damn it!"

When Han Fei arrived, he saw a young man lying on the ground, groaning and his face swollen.

Han Fei immediately cast a healing spell on him. He extended his hand and carved out an extremely short teleportation array, sending him back to the door.

On the spiritual plant wall, Luo Xiaobai and the others appeared and disappeared unpredictably as they observed their surroundings.

Of course, there were also many youths who were looking at the text and patterns on the spiritual plant wall in surprise.

For example, when a girl saw the words: "Turn back to the shore" on the spiritual plant wall, she curiously extended her hand.

In the next second, she was sucked in.

Outside the maze, an old man said in surprise, "Linlin, why are you back?"

The girl was dumbfounded. "Ah! Why am I back?"

...

For example, a youth saw the words: "The path is beneath your feet" written on the wall. He extended his hand and slipped into an unfamiliar maze.

More importantly, from the youth's point of view, it was all spiritual plant walls. There was no difference!

However, when he turned his head, he found that there was another teleportation array on the wall behind him. However, the words: "Start anew" were written on it.

He was curious. Was this the way back? Therefore, he wanted to take the teleportation array again to take a look.

However, with a touch, he appeared at the entrance of the maze with a whoosh.

"Ah! Why am I back?"

As well as these temptations, there were many other strange words and phrases.

For example:

"Thank You for Your Patronage"... They would return to the entrance if they touched it.

"No Through Road"... Which was actually an entrance to the next maze.

"Danger Here"... Touching it would trigger a killing array.

"No Climbing"... But no one climbed. It was only two hours later that a youth became extremely frustrated and climbed it. However, the moment he climbed, he appeared in another maze.

On the second entry, most of the children seemed to guess that they had already found the trick to passing through the maze.

As long as they grasped the teleportation array's functions, they would definitely be able to pass.

Hence, after almost everyone had repeated it a few times, finally a youth passed the first stage of the teleportation maze.

However, as soon as he entered the new maze, sword lights swept over. The youth barely blocked three sword lights, but he realized that there was no need to block them. The sword lights were just a mechanism and all he needed to do was avoid them.

However, when he dodged seven to eight attacks. he suddenly realized that there were sword lights sweeping past him from all directions. He had to have the ability to block three sword lights at the same time or he would be hit.

As well as this, there was also a teleportation array behind him.

The youth was stunned on the spot. How was he supposed to pass this thing and move forward? Did he have to receive a slash from the sword lights?

After more than ten seconds of thought, he decided not to turn back. It wasn't easy for him to get here, so how could he turn back?

But suddenly, three sword lights slashed at him.

"Ah! Damn it!"

He shattered two in a row, but he failed to block the third one. His body accidentally left the safe zone and was struck by a sword light. A terrifying gash appeared on his back.

"Not good! Save me!"

In the end, the youth chose to go back. He had no choice! If he didn't, he would be struck to death.

When night fell, almost half of the children returned to the entrance.

Someone cried, "Mommy, I don't want to enter this maze. It's filled with scams."

A youth said in a peeved manner, "There's no way we can enter. The deeper we go, the harder it becomes. In the beginning, it's only teleportation arrays, but then there are all killing arrays. It's impossible for anyone to walk through."

A girl said sobbing, "There's an illusory array inside. It clearly says 'Congratulations on finding the entrance,' but just touching it makes you return to the outside of the maze."

The parents exchanged looks. Was it really that mysterious? What the hell was this maze? Was it really that difficult?

At this moment, Han Fei was still perfecting the maze.

At some point in time, Luo Xiaobai appeared beside him. "Isn't this too difficult?"

Han Fei shook his head. "Actually, it's not difficult at all. The first hundred kilometers test one's temperament and intelligence. The middle hundred kilometers test one's special abilities. Either one is extremely fast, has excellent adaptability, has special footwork techniques, or has a special contractual spiritual beast. In any case, only people with special abilities can pass. Basically, ninety percent of the people will be eliminated in the middle hundred kilometers. Those who can stay can be considered elites."

Luo Xiaobai said helplessly, "What about the last hundred kilometers? The spiritual plants I set up are already very difficult. What did you set up?"

Chapter 999: Here She Comes

"The last hundred kilometers?"

Han Fei grinned and said, "After we have the ability to adapt to danger and other special abilities, what else do we have to face?"

Luo Xiaobai frowned and said, "These are just external factors. Sometimes, relying on them might not be useful."

Han Fei nodded. "Therefore, the last hundred kilometers is the real selection. You are a manipulator, so your path is for the manipulator to take. As for us, we naturally left behind our own things. What I left behind is a Spirit Gathering Diagram. As long as anyone can copy it, they succeed."

Luo Xiaobai nodded. "What if they take the wrong path? It won't be easy for a spirit gatherer to enter the maze of a soul warrior."

Han Fei grinned and said, "How can everything be done according to plan? When we explore the secret realms, we also encounter unexpected situations!"

Luo Xiaobai nodded. That's true. This was only the entrance examination. If they really explored a secret realm, nothing was certain. They might encounter all kinds of dangers.

Han Fei grinned and said, "Don't worry! We'll just pick five people. There are always outstanding people among a hundred. Besides, there are thousands of people here. There must be one or two of them who will stand out and walk out of the maze."

The corners of Luo Xiaobai's mouth twitched. "I'm not sure about that. However, I think you should make long-term calculations. You should lower the difficulty of the first 200 kilometers. Otherwise, we'll have to keep saving them."

In response to Luo Xiaobai's words, Han Fei continued to perfect the maze.

In fact, Han Fei was only doing it out of boredom. Otherwise, he wouldn't have only recruited five people in a place like the Thousand Star City.

When they picked five students from these people, who cared if it was a perfect combination? They would first temper their body before going to the library to find cultivation techniques and combat skills. He would leave them to cultivate by themselves for a few months.

Of course, it would be best if it was a perfect combination.

At the very least, before Tang Ge's wedding, he wouldn't go to the Monument to God, the Sky Meditation Garden, or the Ideal Palace. If he caused any trouble, it would affect Tang Ge and Mu Ling's wedding. That would be a huge problem.

Han Fei lay on the wall of spiritual plants. "What gift should I give? Old Han gave Tang Ge an ultra-quality Divine weapon, the halberd, and the Sun Moon Concentric Rings. Should I give him a pair of rings? No, no, he already has the Sun Moon Concentric Rings. It's meaningless to give him a pair of rings. I might as well give him something else."

Han Fei's heart did a flip. "I can send fireworks. Yes, it's a big wedding. We have to celebrate... I'll get the Su Family to get some materials later. This should be easy."

Suddenly, Han Fei's heart stirred. He sensed that someone had entered the last hundred kilometer part of the maze.

Immediately, Han Fei turned around and flew away. In the end, the person had entered the armorer portion of the maze.

It was a youth in rags. There were many bloody marks on him. The youth had thrown a healing spell on himself.

“Huh? A spirit gatherer?”

Han Fei couldn't help but be surprised. This young man was only a junior fishing master, but he had already mastered the healing technique. It seemed that he was quite talented.

Furthermore, to be able to reach this stage as a spirit gatherer meant that the other party was likely involved in more than one profession.

Le Renkuang had also noticed the young man. He came to Han Fei's side and said with a strawberry in his mouth, “You're a spirit gatherer, right? This level isn't easy to pass. Although I didn't leave behind any offensive means, I left behind a shield, a Divine Turtle Shield.”

Han Fei asked in surprise, “How should he break it?”

Le Renkuang smiled foolishly. “In a few seconds, attack the same point a hundred times. If each time, the strength is the same, then he can break it.”

Han Fei looked at the youth in the maze, turned his head to look at the teleportation array beside him, and stepped over.

Although the tests left behind by the five of them were different, the difficulty was definitely there. For example, although in Le Renkuang's level, one didn't need to face sharp blades, it required the challenger's perfect control of strength, speed, and maximum performance. This was more difficult than the admissions test in the Blue Sea Town.

Similarly, the difficulty of his Spirit Gathering Diagram was rather high. If one didn't copy it properly, it would result in a spiritual energy explosion.

As for the tests of Zhang Xuanyu, Luo Xiaobai, and Li Luoluo, they were probably actual combat tests, which had to be very dangerous.

Soon, the youth circled in front of the invisible shield left behind by Le Renkuang.

At that moment, he was touching the armor-shaped wall with his hand. After a long silence, he asked, “An armorer's shield?”

He retreated three steps, and took out a long sword from his Sea Swallowing Seashell. After preparing for a while, his essence, vitality, and spirit were restored to their peak, and three sword shadows erupted at the same time.

Clank, Clank, Clank...

But the shield wall didn't change at all. The youth scratched his head gloomily. “I took the wrong approach.”

With that said, he didn't hesitate to turn around and quickly rush back to the teleportation array. He extended his hand and vanished.

Le Renkuang was dumbfounded. "He just gave up so easily?"

The corners of Han Fei's mouth curled up. "Interesting. He's a spirit gatherer and a soul warrior. This is the path most spirit gatherers take. It's the same for me. However, at this moment, as a soul warrior, he clearly couldn't break your shield, so he chose to leave."

Le Renkuang curled his lips. "I thought someone was going to pass the test? Forget it, I'm going back to sleep."

Outside the maze, there were still many parents waiting. However, the rescue efforts had been greatly reduced. This was because these children had discovered the trick to it. Wherever it was difficult to pass, there was usually a teleportation array to return.

Therefore, they had learned their lesson. They wouldn't force their way in, or if they failed, they would immediately enter the teleportation array. After all, there were so many parents outside. Any spirit gatherer could resolve the problem with a healing spell.

...

Three days later in the afternoon...

Han Fei had completed about half of the seals for the maze. Although there was still a lot of room for improvement, he couldn't be bothered. In a few days, when the maze was completely perfected, he would go back to sleep.

BAM!

At this moment, an explosion erupted within the last hundred kilometers.

Han Fei scanned the area with his perception and found that it was the young man from three days ago. Han Fei didn't know how many times he had searched before he finally found the path of a spirit gatherer. Just now, when he was copying Han Fei's spirit gathering diagram, there was an explosion.

Logically speaking, a spirit gathering array wasn't difficult.

However, what Han Fei drew was a Spirit Gathering Diagram, not a pure Spirit Gathering Array. Therefore, the lines were very irregular, and once there was a mistake, it would self-destruct.

Finding that the youth was bleeding from the corner of his mouth, he couldn't help but smile. "A spirit gathering array is actually powerful!"

President Han, I've brought you what you wanted.

Han Fei received a voice transmission. It was the old butler of the Su Family.

Han Fei flew over and looked at the nearly 5,000 parents outside the maze. He couldn't help but click his tongue. There were many more people than the recruitment in the Blue Sea Town.

However, Han Fei ignored them and said with a smile, “Old Kan, do you have a map of the Thousand Star City? And information about the various factions in the Thousand Star City? If you do, give me a copy.”

Su Kan nodded immediately. “Yes, yes. I’ll go back and get it now. President Han, just wait here for a while.”

Han Fei took the Sea Swallowing Seashell from Su Kan and scanned it with his perception. It was indeed something like a saltpeter. He was immediately relieved. Tang Ge had a gift.

As the Su Family wasn’t too far away, Han Fei had nothing to do and was happy to wait here.

From time to time, a youth would suddenly appear at the entrance of the maze.

Many parents looked at Han Fei and couldn’t help but feel a little excited. However, they weren’t familiar with him and didn’t dare to talk to him.

Han Fei moved a chair out and began to eat spiritual fruit before people gathered around him.

Someone said, “President Han, have any children passed the test today?”

Han Fei shook his head. “No.”

A parent said, “President Han, isn’t this maze a little too big? From high above, it looks like it stretches for hundreds of kilometers!”

Han Fei smiled and said, “It’s not big. Only a few hundred kilometers. Have you forgotten the secret realms in the sea? They extend almost thousands or even tens of thousands of kilometers, let alone one hundred.”

A parent said, “President Han, other than this maze, do we have any other assessment methods?”

Han Fei grinned and shook his head. “Everyone, the Thug Academy has a tradition of only recruiting geniuses. I don’t mind telling you that someone is about to pass the test. If anyone feels that this maze is difficult, they can actually choose to give up. You have to know that in the past thirty years, the number of students who joined the school can be counted on two hands. Do you still think my request is simple?”

“Well...”

Many parents were dumbfounded. What kind of school was this? Although they had heard of it for a long time and knew that it was difficult for the Thug Academy to accept students, they didn’t expect it to be so difficult.

More and more people came after hearing the news. There were thousands of them. Nearly 5,000 children had entered the maze. Up to now, not a single one had passed the test. It was ridiculous.

Suddenly, Han Fei’s heart stirred. He pinched his fingers and felt trouble was coming.

Instantly, Han Fei got up and looked behind everyone.

A few seconds later, Han Fei staggered.

“Holy sh*t...”

Han Fei was about to run, but then he thought what was to come would come. After all, he had been caught by surprise.

After more than a year, Han Fei had almost forgotten about Jiuyin Ling.

But now, with a whoosh, she appeared.

Clearly, she had already experienced the mortal world. This was because she was wearing very ordinary clothes. Her hair casually dropped down on one side of her chest, and now she didn't look as unworldly as before.

If it weren't for her exquisite face, Han Fei wouldn't have been able to recognize her.

Chapter 1000: I'll Be a Teacher

When Jiuyin Ling landed outside the maze, many people were surprised. Where did this Law Enforcer come from? I've never seen her before...

Furthermore, this Law Enforcer looked a little too young and beautiful.

Even though her clothes were very ordinary, the temperament she had developed over the years couldn't be changed. Even though she wasn't as unworldly as before, her posture, expression, and the temperament she constantly emitted made her appear ethereal.

When she saw Han Fei, she clasped her hands in front of her and tilted her head slightly, revealing her white teeth and a bright smile.

“I'm back!”

“Ah... Oh, time flies! You've already experienced the suffering of the human world?”

Jiuyin Ling seemed to become more cheerful and lively. The corners of her lips curled up slightly as she smiled. “It's not over yet. This stage is much harder than I imagined. However, it's indeed beneficial. I'm already an intermediate Law Enforcer. With more experience here, I might be able to become an advanced Law Enforcer.”

Han Fei's eyelids twitched, and his heart sank. “That fast?”

In two steps, Jiuyin Ling was in front of Han Fei. “You're even faster. When I left, you had just advanced to become a Hidden Fisher. I haven't seen you for more than a year, but you've already reached the peak, while I've only advanced from junior to intermediate.”

“Hiss!”

The listeners were all shocked.

Instantly, countless people gasped. What did this mean?

It only took Han Fei more than a year to go from a junior Hidden Fisher to a peak-level Hidden Fisher?

Furthermore, the lady who spoke actually only used a year to go from a junior Law Enforcer to an intermediate Law Enforcer?

Was this world different, or was he already incompatible with it?

Many people were stunned on the spot as they thought to themselves how indeed, birds of a feather flock together. The people befriended by elites are often elites.

“Cough, cough!”

Han Fei said to the crowd, “Actually, you don’t have to stay here all the time! Don’t you want to go home for dinner?”

Many people were rendered speechless. Eat what? With his strength, what difference did it make if he ate or not?

Seeing that no one was willing to leave, Han Fei stepped on the ground and a soundproof array appeared.

Han Fei’s face sank and he said helplessly, “Why are you here?”

With a faint smile, she said playfully, “I’ve visited all the places in the Heavenly Water Village. I learned how to cook, buy clothes, eat at restaurants, and fish in ordinary fisheries... Just a few days ago, I missed you, so I knew I could leave. Later, I went to the Scattered Stars Island, but I heard that you had already come to the Thousand Star City. Then, I came back home and asked my family to look for you before I knew you were here.”

Han Fei blushed. This girl is really frank! Couldn’t you be more tactful?

Han Fei laughed dryly and said awkwardly, “Uh! Alright... As you can see, I’m recruiting students now. Why don’t you go in and wait for a while?”

She smiled. “Does the Thug Academy still want to recruit teachers? I want to be a teacher here.”

“Cough, cough...”

Han Fei widened his eyes and looked at her in surprise. “Ah! You want to be a teacher at our school? Why?”

In Han Fei’s opinion, more than a year ago, she was still a simple-minded girl. She might be good at fighting, but when it came to teaching students, she was still a student, right?

Furthermore, Han Fei had previously discovered that there was a huge problem with Jiuyin Ling’s Comfort and Nature Technique. He had to help her resolve her problems.

Han Fei paused. “Uh, how about this? Go to the school and wait there. I’ll come to you when I’m done here.”

Jiuyin Ling smiled and nodded. She looked at the huge maze and said, “Shall I fly over directly?”

Han Fei said, “You’re a Law Enforcer. Just fly over. Remember to be more than a hundred meters above the ground. Otherwise, you will trigger the seal and killing arrays.”

She got up and flew over, leaving the people outside dumbfounded.

Someone said in surprise, "She went in just like that? Could she be from the Thug Academy?"

Someone laughed and said, "It seems that President Han and that young lady have an affair! They are both young people and are in the right ages to fall in love. Don't you understand?"

Many people nodded in agreement.

Han Fei's heart sank. It wasn't a good thing that Jiuyin Ling was here. It wasn't because she liked him, but that there was something more serious.

Suddenly, a woman approached Han Fei. "President Han, may I ask you something? Do you have a girlfriend?"

Whoosh!

Han Fei shivered and jumped to the side, looking at the woman warily. "I do. I do!"

The woman looked slightly disappointed, but she immediately said, "Then what about the others? Does the handsome Teacher Zhang have a girlfriend?"

An uncle asked, "President Han, what about Teacher Luo?"

Han Fei rolled his eyes and said, "She's from the Luo Family of the Thousand Star City, you can try to propose."

Immediately, many people's expressions changed. From the Luo Family?

Someone asked, "Which Luo family?"

Someone immediately said as though he was looking at an idiot, "Who else can be called 'the' Luo family?"

"Hiss! Are you talking about the Divine Manipulator family?"

"Sure."

Instantly, many people shut up. Luo Xiaobai wasn't someone their families could make a proposal with.

Then, Han Fei saw a fatty say, "Your standards are too high. President Han, does Teacher Le have a girlfriend? My daughter is a first-class beauty with high strength and talent. Furthermore, she's about the same age as Teacher Le."

Instantly, many people looked at this person. His taste was quite heavy, but as long as his daughter could marry Le Renkuang, it was worthwhile! After all, he was a true genius with extraordinary talent.

Han Fei looked at everyone speechlessly. "Hey, hey, hey! Shouldn't you be concerned about whether your sons and daughters can pass the test? If not, take them home already!"

After chatting with these people for a long time, he finally saw the old butler return. Before the old butler could say anything, Han Fei took the map from the old butler and entered the maze.

...

Beneath the cube...

Su Sanqian was sweating profusely as he lay on the ground in a strange posture.

He felt his entire body spasm, and this spasm had been going on for days. Every cultivation was like torture.

If it were in the past, Su Sanqian would definitely be overjoyed when he got the 108 Spirit-Absorbing War Bodies manual. He would risk his life to cultivate it no matter the price.

But now, Su Daji was cultivating with him. This girl was in a super strange pose. It wasn't any of the 108 poses.

At that moment, Su Daji's two legs were twisted. Her body was twisted like a fried dough twist. Her head was on the ground as her two tiny hands circled around her body as she spun the cube.

From the first day of cultivation, Su Sanqian had been suffering. Su Daji's cultivation speed was too fast.

On the first day, this little girl actually completed 36 poses. She probably wanted to play with the cube, so whenever she maintained a pose, she would begin playing again.

It was already the third day. Su Daji had already completed 81 poses. At this moment, there was a high chance that she still wanted to play. Therefore, she placed her head on the ground and secretly played with the cube with her two small hands.

As for Su Sanqian, who had been persisting all this time, he had only completed 54 poses. He once suspected that there was something wrong with his talent.

He knew about Su Daji.

His status in the family wasn't high. However, because his father was a Law Enforcer, even if her status wasn't high, she was still a little princess.

He had always believed that he was extremely talented. Even if he took the unorthodox path, he could still rise to prominence as long as he endured long enough.

But now, his mentality was about to be destroyed by Su Daji.

At some point in time, Luo Xiaobai arrived under the cube. She glanced at Su Daji and said, "Daji, why are you playing with the cube again?"

Su Daji hurriedly stuffed the cube into her pocket and continued cultivating. She replied, "I'm almost done."

Luo Xiaobai's eyelids twitched. It was indeed inappropriate for her to say anything.

Su Daji's talent was far better than they had imagined. Her cultivation progress was extremely fast. She didn't look like a cultivator who only had a level-three spiritual heritage at all.

Suddenly, a figure fell from the sky. When Luo Xiaobai took a closer look, she frowned and said, "Jiuyin Ling?"

At the moment when Jiuyin Ling arrived, Zhang Xuanyu, Le Renkuang, and Li Luoluo were right behind her.

“Ah! Little Nine...”

Li Luoluo shouted and pounced forward like a tiger. However, with a tap of her feet, Jiuyin Ling dodged. “Luoluo, why are you here?”

She was a little surprised. Could it be that Li Luoluo had entered the Thug Academy?

Zhang Xuanyu warmly welcomed her. “Whoa! So it’s Miss Jiuyin... This is... Eh... Where’s Fei?”

As Zhang Xuanyu looked around, the teleportation array flashed and Han Fei appeared under the cube library.

Immediately, Han Fei looked at Luo Xiaobai and the others and explained, “Well, in fact, there’s a problem with her technique. I have to think of a way to help her.”

Luo Xiaobai asked, “How are you going to resolve it?”

Han Fei said, “Jiuyin Ling’s Comfort and Nature Technique is closely related to the Sea Quelling Painting. Do you understand? There’s something wrong with this path, so do you understand?”

Han Fei blinked. He didn’t know if Jiuyin Ling could hear him, so he blinked at Luo Xiaobai.

However, on second thought, Han Fei felt that something was amiss! *Why should I feel guilty? I’m an upright person. Why should I be afraid?*

Luo Xiaobai thought to herself that she didn’t understand, but no matter what, she had to watch.

However, she heard Jiuyin Ling smile and say, “Well, I want to be a teacher at the Thug Academy.”

Instantly, Luo Xiaobai and the others looked at Han Fei.

Su Sanqian and Su Daji had forgotten to cultivate not far away. They had a nagging feeling that something was up.
