foreword

1. First of all, thank you so much for opening this story! I really hope you'll like it! Before we start, though, you need to know a few things.

First, my first language is not English. It is very possible that I will mistakes or that I'll wrote a sentence that means nothing in English, so please tell me. I won't be o ended and I'll try to correct my mistake as soon as I can!

2. My updates are far from usual. It really all depends on my moods and inspiration, so it's possible that, sometimes, you won't hear from me for a really long time. For that, I apologize. I really try my best, but it's really hard for me to focus only on one thing. I'm doing my best, though!

3. MCU Fanfictions can be hard to write, because you never really knows what's going to happen next. I mean, the story of some characters are over, so it's easier to write a Tony Stark or Steve Rogers fanfic, but Eternals are rather recent, so it is possible that, in the future, there will be plot holes. This is why the entirety of the first Eternals movie (that in new scenes I wrote) will be in only one book. I'll then continue this story with a second book (hopefully), but it really all depends on what will happen in the movies.

4. Respect is very important to me. Please respect me, my story, my character and the other readers. I don't need some kind of ship war on my story, so if you want disagree with someone, please be polite about it. Also, there's no need to insult my character or his decisions. If you doubt what he's doing, believe me when I say that it's never without reason. And if you don't like him, then no one is forcing you to stay. I still love reading your comments, though, so don't be scared of saying anything (unless it's hateful, of course)!

5. Finally, this is not a Druig x reader fanfiction. You are free to replace the character with yourself if that is really what you want, but please refrain from co,meeting things such as "What are our powers?" or "We better not die!". There is no We or You or Me. Pollo is an OC whom I worked really hard on. I'm sure you can fin a Druig x Reader fic somewhere else!
