

**good evening 721**

**Chapter 721**

"You have time to come to our hospital for a comprehensive examination."

When Feng Yan left, Su Yan stood there looking at the man's back. Naturally, they knew what happened before Feng Yan came back, but

Is it really hypnotic?

Because Fengyan had been in conflict with it before, it was not easy for Su Yan to judge.

At this time, Su Yan's phone rang.

"Dr. Su, a patient came to the hospital and had a car accident. Now you can't find the right blood type. You come here as soon as possible. It seems that you are your friend."

"I'll be right there."

Su Yan rushed to the hospital and saw the woman lying on the head, bloody.

If the nurses had not boarded the plane with their ID cards, they would not have been able to identify who it was.

Because the nurse couldn't find the accompanying person, after all, there was a traffic accident, and there were no relatives around at the moment, so she needed the dean to sign in person, first treat, and then continue to make up if there were any expenses.

Su Yan saw the name above, just know what happened is Chen Xiaoxiao.

He thought he had seen it, but when she saw the bracelet on the woman's hand, it suddenly became clear.

"How did it happen?"

"I heard that it was because the young lady had an accident on her way home from the night shift. The driver drank a lot of wine, so he dragged the person for several meters. If she didn't get treatment in time, she might..."

Su Yan looked at the words on it, he could come over. He never thought that many things just happened.

When Chen Xiaoxiao abandoned him at the beginning, he thought that he would not wait for that day. This man appeared in front of him miserably. He must take revenge.

But now, he forgot to take revenge.

"Dr. Su --!" The nurse didn't notice anything wrong with the man's expression. She just urged.

After all, it's a race against time. If something really happens, it's too late.

This young woman may be the pillar of her family. If something happens and she dies, it's really

The nurse was also full of sympathy for the woman.

Most of them are for the sake of life, but who ever thought that an accident would bring disaster.

Just now the doctor has done a comprehensive examination, the patient's injury is very serious, in addition to visceral damage, there are also multiple fractures.

Because the drunk driver really didn't realize it at all, he didn't realize it when he dragged people for so many meters. Finally, if it wasn't for passers-by to see it, he stopped it.

This just saved the girl's life from the wheel.

But when they were sent to the hospital, there was only one breath left.

Now I'm hanging the bottle like this. I don't know when. If the girl doesn't breathe, she can only

It's up to fate.

Nurses have been working in this hospital for many years, and many things have become commonplace. For life, life is fragile, calculated by points.

When death comes, it will lose its life.

But now, they want to try to hold that person's life.

Even if it's just... A little effort, it doesn't help her a little now.

Su Yan's face changed, and his eyes became abnormal for a moment, but he still passed the pen.

He signed neatly.

The nurse took the signed list and went to the door of the emergency room.

Su Yan founded this hospital in the first place, just for one day, if they really encounter such things, as medical staff, they really want to save lives.

It's not that I lost my life in vain in order to wait for the money to arrive.

"Hurry to save people, Dr. Su has signed..."

At this time, Su Yan had changed his clothes, and now he went in wearing sterile clothes.

"I'll do it myself."

Su Yan's operation, which many people have seen, is very exquisite.

The craftsmanship is absolutely superb.

No one knows what the relationship between the woman lying there and Su Yan is. They just watch him move quickly and calmly.

.....

It was a few hours later that Yan knew about Su Xiaowan.

When he got to the hospital, the group was pushing her into the operating room.

It was first discovered by a cleaning aunt who changed the garbage, and then the doctor came to the other end.

But at that time, the heart was still in the weak stage, and the doctors were afraid of the patient's death, so they called experts.

We did cardio resuscitation.

However, the effect is weak.

If it goes on like this, it will become a vegetable.

The situation is critical.

Fortunately, this hospital is still a major hospital, just a few minutes, experts have come.

At the moment, Su Xiaowan was sent to the emergency room.

The door is tightly closed. The man standing outside now has a deep face. He stares at the door and wants to break it open to see what's going on inside.

"Young master, we have invited the best experts to come here..."

The man's face at the moment with bloodthirsty anger, she naturally know that at this moment, if you don't hurry to find someone, facing the scene in front of you, you will die.

The doctor stood there, and they never thought that such a thing would happen.

This period of time, because other hospitals have also made such a thing, because of infusion, leading to a middle-aged man died suddenly in the hospital, was found, has died.

The leader also issued a notice, so they all paid great attention to this aspect one by one.

If it wasn't for this, the woman in it would have just had a high fever. If there was no accident, she would be discharged after hanging up this bottle of liquid medicine.

But now... I'm lying in it. I don't know.

In front of her, the girl had an angel face, but there was a kind of strong anger on her body, which made people feel like suffocating in an instant. Standing in front of her, he was afraid.

But this matter is also related to the glory of their hospital. Naturally, they can't forget it.

But the time delay is too long, and they all know it.

But I can't talk much now.

After all, no one dares to jump to a conclusion until the last moment.

"If she can't be saved, you'll all be buried with her."

The doctor touched the cold sweat on his forehead and looked at the woman's bloodthirsty eyes. The woman was tall and tall. At this moment, it was really difficult to regard her as a weak woman.

It's like a man guiding the country.

"We'll try our best."

"If you dare just try your best, you'll have a try."

And the people who came to the hospital with Yan, as well as a Li, a Li looked at the person at that end, she wanted to go up and talk to him, but she couldn't find any chance for a moment.

She seemed to see the worry on her face.

What is she worried about? Is someone injured, in the rescue?

A Li naturally didn't know what had happened. From the moment she came in, she was afraid that she would expose her whereabouts, so she hid while walking. Apart from looking at him from a distance, she didn't know anything else.

Moreover, if he knew, they would be farther and farther away.

There's no reason. I just want to get close to her.

Is it because she is so beautiful that she can't forget it?

A Li doesn't know what's wrong with her, just like looking for the devil. It seems that at that time, she can always dream about her.

Before and after those months, ups and downs, even dream, are this girl.

She also went to see a psychologist for this, but the doctor did not say anything else, and she had no psychological problems.

It's probably obsession.

After that, I went to that place to wait for her, but I haven't seen this person since that time.

It's like a dream.

If it wasn't for his appearance once, maybe she would take it as a dream.

"What to do? I really don't know... How this happened. " A nurse stood there and stamped her feet. Just now, the leader had said that if there was an accident, they would all suspend their duties for investigation.

It's a small matter to suspend investigation. I'm afraid that at that time, I will be dismissed directly.

Today, it was actually her class. She was also under her own arrangement to change the potions. However, because there were many things today, she was in a mess.

"Well, you can't change the result by crying." Xiaoling stood there. She was called back just now. She was dating her boyfriend. Now she was called back, and she was not happy.

The nurse was touched by Xiaoling's cold words. Now she stepped forward and said, "you changed this bottle of liquid medicine. You are not worried about such a big thing?"

"What? I changed it. I was just outside."

Xiaoling has no idea what happened. All she knows is that a woman hanging water in an ordinary ward suddenly gets air into the infusion tube when hanging water. She is in a coma due to untimely discovery

The doctors were short of staff, so they called themselves back.

The nurse glared at her eyes. She didn't expect that she would deny it. If she hadn't just met Xiaoling coming out of the ward, she would be really unreasonable now.

As medical staff, they don't want to encounter such things. After all, those who encounter are unlucky.

In fact, it's also her fault. If she hadn't been careful, it would not have come to this stage.

The nurse hung her head, hoping that the Bodhisattva would bless her and let the woman live in peace.

Just then, a woman rushed out of the bathroom with the dress in her hand.

"I found this in the garbage can in the toilet..."

"My clothes?"

Xiaoling took that dress. Today, she took it off in her own lounge, but

"... how could my clothes be in the trash can in the bathroom."

Xiaoling murmured to herself, looking at the fat nurse at the moment, "did you just say that I changed the bottle?"

"Yes, around three o'clock, you talked to me."

"I asked for leave today. I only made a report to the leader, but I didn't tell you that at three o'clock, my boyfriend and I were out watching a movie..."

"..." the three men looked at each other and immediately realized that something was wrong.

I thought it was just a medical accident, but now

## **Chapter 722**

Xiaoling and the fat nurse just feel like they are being held in a net and calculating them tightly.

All of a sudden, neither of them knew what to say.

"And now what?"

"Wait until the director comes out." Now this matter, where the two of them know the consequences,

can only wait for the person to save again, and, in this case, it is not a matter for the two of them to bear the consequences, we must wait to inform the leadership.

It depends on what the leaders think.

Three people's dialogue, at the moment attracted the attention of a li of that end.

"Just now Dr. Wang said that if the wis expert is here at this time, he will surely be able to save people."

Wis is an expert in this field, and they have heard a little about it, but this expert is mysterious and never shows up.

Many people who come to see her will not disclose his specific address, so his name is only circulating in the market. As for whether he is male or female, no one knows.

A Li stands there, listening to their conversation at the moment, frowning.

wis? They're talking about her?

A Li is very talented in this field of medicine, and she is really lucky. Because of her heart disease, Mo Sheng took her to many doctors, some of whom are famous in hospitals, and some of whom are hiding in the city. Anyway, she saw a lot of doctors and knew a lot of people.

Her master is one of them.

Her master is a folk master with excellent medical skills and exquisite techniques.

She didn't know what the relationship between Mo Sheng and the old man was, but the old man was really powerful and very old. When she saw her, her hair was gray and she could be his grandmother, but she was like a child.

Because of her help, she cured her heart disease and let her live.

During the period of contact with the old man, a Li was impressed by the old man's conscientiousness and hard work.

I didn't expect that old man was so old, and he was still learning.

The notes she wrote were piled up to the height of a room.

She is involved in all medical things, and she is not only familiar with them, but also familiar with them. Even if there is a complicated disease, it can be cured.

Ali saw with her own eyes that her master had saved a child with only one breath left.

However, the old man has no offspring. According to her, it was her son and daughter-in-law who went out to see a doctor when the plane crashed into the sea. Up to now, no one has found it.

But more than ten years have passed, and the old people know that there must be more bad luck than good.

The old man's ability was not willing to be brought into the coffin, but there was no one who could learn from her. So, a Li became the old man's favorite student.

He passed on all his life's unique knowledge to her.

A Li is very grateful to the master, just like Mo Sheng. If she doesn't meet Mo Sheng, she will probably die in the orphanage and leave the world quietly.

If she hadn't met the master, she would not have lived so long.

The old man gave her the name of a Li.

Because in the old man's yard, there is a big pear tree, which is her life's favorite and her husband's favorite

However, Ali didn't learn a lot of essence. The master just taught her some diseases by hand, but a lot of difficult and miscellaneous diseases were only seen from the master's books, and there were no real examples.

Master's health has been worse year by year, so he is so worried that no one can inherit his craft. She began to write her notes at a very early age.

Until his death, the book was not finished.

Too many diseases can't be explained clearly in a few words.

What she wrote down is just the basic of the basic

On her deathbed, Shifu told her to dedicate everything she had learned to the society, because Shifu was rescued by a kind-hearted person. She has done good deeds all her life.

When the master left, a Li promised her that she would inherit it well.

However, a Li was still young at that time, and she was only a teenager. She didn't know how to see others. After all, she was an unknown teacher, and she didn't have a license. People didn't trust her at all.

Reading has become the only way for Ali to go this way.

Mo Sheng did not interfere in her professional choice, so she was admitted to the medical department without hesitation.

After that, a Li, through her own efforts, got her doctor's license and got her professional qualification.

Maybe she is really gifted in medicine. She learns things very quickly and can remember them at a glance. She can remember things that others may have to digest for a day or two.

When she entered the University, she was the first. She was very popular with the professor. She also followed the professor and gained a lot of clinical experience.

She successfully passed many professional courses in the medical field, but she didn't want to be known by the public.

So I went to some remote villages in silence to see those people who had no money and could not get sick.

In her hands, all the difficult and miscellaneous diseases were cured, and many people came to see her one after another.

There are even some people who come to her specially.

In this way, a Li became more and more famous in that shabby village.

So many people know about her.

Wis, it's her master's surname.

Wang.

In memory of his master, but also to carry forward the master's medical skills.

"What did you say?" Just at this time, a shadow came.

Ali watched the woman at that end go not far away.

She turned her body nervously.

I'm afraid I'll be discovered.

When she turned around, she didn't know why she was afraid. After all, for her, she was just a stranger.

"I..." the chubby nurse was scared by Yan's action. Looking at Yan at the moment, her lively and lovely face clearly seemed to have no offensive power at all, but at this moment, she couldn't say a word.

She hesitated for a long time, and the word stuck.

The man on one side, with his eyebrows fixed, came forward and explained.

"Little Lord, what she said is Wis. It's said that she is very powerful. Even if someone who is about to die comes to see her, she will come to an end the next day."

A Li listens to the man at that end praising her there, eyebrow tip slightly lifts.

With a look of pride.

In fact, she is not so powerful... It's all the teachers who teach her well.

A Li quietly thought, she is only in her early twenties, for other people's praise, of course, she can't resist, especially someone said in front of her.

She felt that her tail was going up a bit.

"Little Lord, little Lord..." there came a man in a hurry and ran into a Li. At the moment, he didn't even say sorry.

A Li was such a building, the original happy end was completely disturbed by him.

She frowned, knocked the man and ran to the woman at the other end.

"Little master." The man was out of breath. "Just now the doctor said... Miss Su may not be able to do it."

No, those two words make everyone's face look ugly.

If Su Xiaowan has an accident, first of all, the hospital can't get rid of it. If the hospital can't get rid of it, it's bound to find someone to block all the blame.

And the responsibility is naturally borne by these nurses.

I don't want to hear that.

When everyone was at a loss, a girl stood up.

"I'll try."

Everyone's eyes looked at the other end of the people, she was like a ray of light, dressed towards them.

It was the first time Yan had seen her.

Her appearance tends to be more lovely, probably because she is young, so there is still some baby fat on her face.

"Miss, are you kidding --"

### **Chapter 723**

When the doctor at the other end came over, he heard such a sentence.

try?

It's not like children playing around. How can we try? It's life there. If you touch it, it will die.

It's really a girl who doesn't know the height of heaven and earth.

Just as if she was joking, not really.

But the little girl was standing there.

"I have a doctor's license."

The Dean looked at the weak girl and couldn't help saying.

"Nonsense, it's not up to you as a child to tell me what to do here."

The person who came was the president. Because of this incident, the president came back from a business trip overnight.

It's not a trivial matter. Although life and death are inevitable in the hospital, this time it's a medical accident.

During this period of time in the hospital he is in charge of, the last thing he wants is medical malpractice.

The Dean didn't know the identity of the person in front of him.

But the woman standing in front of him was tall and tall.

Much higher than him.

It has a head.

For a moment, it didn't look like a little bird depending on people, but there was a sense of oppression.

Because of the close distance, so at the moment of coming, the Dean clearly saw the woman's... Adam's apple.

This is not a woman?

The man stares at his vision slightly to show some deep, at the moment speech looks at him, the man this just shifted the vision to other places.

Speech in order to cover up, so come out to now, as long as it is out, it is still dressed as usual.

In the past, she would take a specific drug to control.

But during this time, he did not take it.

By the Dean, he didn't have much anxiety.

After all, since he didn't take that drug, he was going to be himself.

This period of calm, for him, is effective.

He also understood his heart more clearly.

He was regarded as a stand in, as Lian Yan's stand in to protect Su Xiaowan. In fact, he didn't have much anger.

Maybe it's her.

If it were someone else, he would probably kill the person who gave him so much haze.

But she's su Xiaowan.

The girl who will care about whether he hurts or not and take care of her carefully.

Perhaps some people meet, is predestined.

He couldn't be cruel to her.

That little thing sprouting from the bottom of my heart.

He didn't know what it was.

I only know that when I see her, my heart will accelerate unconsciously.

He'll be happy when she talks to him.

There is a sense of happiness in her heart when she protects herself.

When he learned that she was dying in the hospital, he gave up everything and rushed to her.

.....

These, he has never experienced, never felt in anyone.

It's amazing, it's strange.

So he had to save her.

A Li is a doctor. She tries to save people every minute.

Just now I heard that person's meaning, it means that the patient has encountered difficulties.

She saw the man's expression when he said that the patient's condition was not very good.

The people inside must be very important to him.

Just at this time, a doctor came out, "Dean, patient... No way."

The Dean paused. "I'll see for myself."

Before the Dean left, "little... Sir, we will definitely give you an account of this matter.

## **Chapter 724**

Pear flower see that Dean even a redundant eyes did not give her, the whole will she ignored completely.

But the matter of human life, a Li promised his master, can't stand by, especially this thing is known by her.

She was anxious to catch up, so she didn't pay attention to what the dean said just now.

"This is my doctor's license. Although I'm young and I'm not a doctor in your hospital, it's normal that you don't trust me, but the doctor's parents are worried. Can you let me follow you? Maybe one more person will have another way? "

The doctor urged, "Dean, it's too late."

The president saw the doctor's license in Ali's hand. It turned out that it was a famous hospital in the imperial capital. You should know which hospital you want to enter, and only one doctor will be recruited every year.

Moreover, the level by level selection must be the first in the world.

"Come on, you can follow."

Ali nodded with a smile and ran after her.

In the emergency room.

A Li saw the woman lying there without any vitality. She was very beautiful, with the most beautiful face she had ever seen.

Just, at the moment her face is too pale, and because of the operation, it seems a little embarrassed.

She was in shock because of lack of oxygen in her heart. She was found late, so the overall situation is not good.

The ECG is weak.

There's only one breath left.

A Li's eyebrows tightly wrinkled together, such a condition, basically against the clock, those doctors stood there hesitating.

I don't know if I should do it or not.

Maybe it's because this situation is too difficult, so it's the dean who is responsible for it.

"If only wis were here."

"It's your responsibility to save the dying and heal the wounded. You have to save people." The Dean glared at the doctor at the other end, holding a scalpel at the moment.

Now, the situation is critical, but there is no way. It happened in their hospital, and no one can get rid of it.

A Li looked at several doctors standing at the other end, and seemed to be wandering there for fear of failure.

She did not hesitate to take the tools in their hands, the doctor was robbed of things, rushed forward

and grabbed Ali's arm.

"Well, what are you doing?"

"Save people."

The girl said firmly.

"What are you..."

"Let her be my assistant, and you all go out!"

"Dean, you are not..."

"Didn't you hear what I said?" The Dean opens a way, the eyebrow is in the dew anger, looking at the woman of that end at the moment.

The doctors looked at each other, said nothing more, and went out one by one.

There are only two nurses left in the operating room, Ali, the dean.

"Thank you for choosing to believe me."

"I hope you don't betray my trust in you." The Dean took a look at her and continued to stare at the instruments beside Su Xiaowan.

Outside the corridor.

"I really don't understand what happened to the dean. He even believed that a strange woman was talking nonsense! And let her in the operating room for surgery? This is not... "

This word, let the speech of a head hear.

The expression on the man's face is more and more deep, and at the moment, the door of the rescue room at that end is opened.

"The operation was very successful. The patient's physical signs were stable and his life was saved." A nurse ran out.

When the doctor heard this, he showed his disbelief.

"What? How could it be so fast, Mingming... "

"How can the President let the patient have something to do? However, he has to be hospitalized for

observation for a few days, and the patient's family members can go through the hospitalization procedures."

Those nurses were originally carrying their hearts, but now they finally put them down. A fat nurse endured the fear and walked up to Yan.

"Miss, we suspect that this is not a medical accident, but a deliberate murder --!"

The fat nurse looked at Yan and stared at her face. She was more and more scared, but she still gritted her teeth at the moment. "I'm not making an apology for myself. I really think there's something strange about it. My colleague Xiaoling is not in the hospital today, but the person who changed the hanging bottle today is Xiaoling. And... This is the clothes Xiaoling found in the toilet trash can."

Just now, he only thought about Su Xiaowan's situation, but he ignored it.

The speech sees to the hand of that end, the hand immediately understood.

"I'll check it now."

Before long, Su Xiaowan was sent to the general ward.

Ah Li, who came out with the Dean, looked at Yan Yuan's back and thought that she had done something for her.

"You little girl, you can't see how many brushes there are." The president showed a smile of approval, "I just gave you the proposal, you might as well consider it."

"I appreciate your kindness, but I'll go back with my father soon."

"In that case, I won't force it, but you are always welcome here."

The president showed regret.

This little girl's skill is really good.

It's about the same time as the doctor said. Su Xiaowan woke up at ten o'clock in the evening. When she woke up, she was surrounded by a woman who was a nurse.

"You are awake, miss."

Su Xiaowan only felt that his head was a little heavy, as if he had been sleeping for a long time, but he had no impression. He only remembered that he was hanging water.

"Who are you?"

"The great young master asked me to take care of you." The nurse looked at Su Xiaowan and was mixing Chinese medicine,.

Master Mo?

"Monan Jue?"

"Yes, the young master came to see you today. Seeing you fall asleep, he didn't disturb you. He asked me to tell you that you don't have to worry about Miss Yu. He has arranged everything. During this period of time, the young master of the Mo family is very grateful for what you have done for Miss Yu. You can take good care of yourself here and don't have to leave the hospital in a hurry." Su Xiaowan didn't know what the nurse said.

Just, not in a hurry to get out of the hospital?

"Just now the doctor said that I can leave the hospital after hanging up this bottle of liquid medicine. I don't have to live here for long, and you don't have to take care of me. I'll go back later."

The nurse was immediately worried when he heard the words.

When the woman found her just now, she was paid 10000 yuan a day.

She hasn't been here for several hours, and she's going to miss ten thousand yuan?

"Your physical condition... Mr. Mo has listened to the doctor and asked you to take good care of yourself in the hospital. Mr. Mo's family is not bad at the hospitalization expenses. Mr. Mo has already paid for your hospitalization expenses."

"....."

Who has to let him be hospitalized?

Su Xiaowan felt that she had nothing but a little heavy head and difficulty breathing.

Maybe it's a little bit too much sleep, so it's hard to do it now.

The nurse took a pillow and put it on her.

"Come on, master Mo bought it specially for you. Drink it quickly?"

Suddenly, he was so kind to her?

Why does she always feel strange there?

Forced by the nurse to drink that tonic, Su Xiaowan doesn't know if it's because of the drip. She is in a dilemma.

It wasn't long before someone fell asleep.

The nurse watched Su Xiaowan fall asleep, took his mobile phone and sent a message to Yan.

About five minutes later, Yan opened the door.

"I've told Miss Su what you said. Miss Su has no doubt and has taken medicine. Now she's sleeping."

The nurse didn't know why the woman had been hiding there, but looking at the check at that end, many of the nurse's original ideas had disappeared.

"Then I'll go out first."

The nurse went out with great insight and closed the door.

Yan's eyes stare at Su Xiaowan's sleeping face. She sleeps very deeply, but she is much thinner. During this period, she has gone through three times and almost died.

For a long time, the man's hand stroked the woman's face.

It's like I think of something, and I'm looking down.

The mobile phone suddenly vibrated. The man took the mobile phone out of his pocket and looked at the information.

Put the cell phone aside, and continue to concentrate on looking at her.

The next day, when Su Xiaowan woke up, she just watched the nurse come in with big and small bags of things, as if she wanted to stay here for a long time.

"What are you doing?"

"These are the daily necessities I just went to buy, and these are fresh fruits. Here is your laundry. Here... Master Mo is worried that you are not used to hospital things here, so he specially ordered me to buy them."

But is that a little too much?

I can't use up all these things for half a month, can I?

"You don't have pressure in your heart, just keep it here. Don't worry, I'm a professional nurse..."

"Has Mo nanjue done all the things behind sister Yu?"

The nurse didn't expect that she would ask this, and she didn't care about it. She nodded at the moment, "Miss Su, you can rest assured that you are here to recuperate. Master Mo will take good care of Miss Yu's affairs."

A black extended saloon car drove into a private hospital and stopped in front of them. After the car, it slowly lowered down the ramp track for the disabled to get on and off.

Feng Yan came to Suyan's Hospital and had a detailed examination.

Maybe Su Yan's words moved him.

"Second master, the inspection results will come out tomorrow at the latest."

"Well." Man's fingertips gently buckle in front of the table, do not know what to think.

Before long, Feng Yan's mobile phone rang.

"Second master, I have news about what you asked me to check."

"He said

"But this thing..."

"Temperature rise, when even you learn to falter, you can say anything."

"That... As like as two peas, two masters,"

Feng Yan knew that he was not raised in Mo's family, but in a farmer's family. It was only in recent years that he was found by Mo Liting

It's all in his head.

But I always feel that there is something missing. It seems that everything has been arranged. However, when I think about it carefully, the pictures are very empty and I can't remember anything at all.

It's like, for example, at the age of 20, she had no impression of what happened.

It's the same for other ages.

But listening to the words of temperature rise, the brown pupils are no longer calm.

Like a Pandora's box, it can't hold many things.

It's about to overflow.

He took the picture out of his pocket.

Feng Yan.

He seems to have heard the name.

"The second master of Feng family had a car accident some time ago and died."

Wen Shengjiang investigated the information and said word by word, "it's just, strange to say, the status of the Feng family in Jiangcheng, even the body of the second master of the Feng family has not been found. Although the funeral was held, the people of the Feng family have been looking for the second master, but they seem to have stopped looking recently. The family is really strange."

Wen Sheng said, "second master, do you want to continue to check?"

"That's enough."

That end Feng Yan hung up, at the moment Feng Yan looked at Su Yan.

"The results have to come out today."

"Second master, aren't you embarrassing me? In such a hurry, the final result may not be accurate. "

Su Yan just said a few complaints, but he did it obediently.

Feng Yan watched the car go back, but he didn't expect to see Chen Liangliang in the villa again.

It's just that Chen Liangliang is having dinner with Mr. mo.

"Don't you see the guests? What's the attitude? "

In fact, Mo Heng likes Chen Liangliang very much. She is beautiful and will please the elderly. Most importantly, she takes good care of her.

Such a woman, kind-hearted, will take good care of Feng Yan.

Although he did not know how the old man suddenly treated the little girl so well, in his opinion, Chen Liangliang was the most suitable wife for Feng Yan.

Feng Yan just took a look at Chen Liangliang, who was immediately frightened.

"Uncle Mo, the second master must have something else to do. Shall I have dinner with you?"

"Son of a bitch, look at them." Mo Heng looks at Chen Liangliang, and now he looks at Feng Yan again. He is glad that this is not really his own son.

Otherwise, I will be very angry.

"Since you like it so much, just marry yourself and let her accompany you every day."

"You..."

Mo Heng didn't vomit blood.

This poisonous tongue is just like master mo.

It's hard to see people.

"Uncle Mo, don't be angry... The second master didn't mean to say that." Chen Liangliang looks at the indifferent man, and at the moment he is staring at Feng Yan to leave.

Actually, she didn't want to come here.

But when I think about it, I feel that I have done this step. If I don't work hard, maybe I will fall short. So I want to please the master of Mo family first.

After all, it's all his business.

If he asked Feng Yan to marry her, he would certainly agree.

So, she tried to please the old man.

"Uncle Mo, you eat. I've made these for you."

Chen Liang Liang adds food to Mo Heng while accompanying his smiling face.

As a matter of fact, Mr. Mo is not as smart as what the outside world says. By comparison, he is very flattering, even a little silly.

Feng Yan didn't wait until Su Yan's appraisal result, because Su Yan had a car accident.

in

Feng Yan sees the man on the bed. Even if he wants to know the result, he can only wait for him to wake up.

"Second master, someone sent you an envelope."

"Who sent it?"

"It's a postcard from a scenic spot."

## **Chapter 725**

Feng Yan squinted.

Reach for the letter.

This is a simple letter, outside is a picture of a tourist attraction.

Valentine's bridge.

Feng Yan knows that in many tourist attractions, you can send postcards for tourism.

It's not signed. I don't know who sent it.

Feng Yan is surrounded by men of the same color.

Men don't care about this kind of thing at all.

He opened the envelope and a card fell out.

At his feet.

The picture on the card is a landscape.

It's different from the envelope outside.

He picked it up from the ground, looked at it, and saw the words behind it.

On it, Juanxiu's handwriting is not a man's note.

He looked at it hastily, and the content was written on it.

"Ah Yan, I may have to break my promise. I'm sorry... I said that I would help you to hold half the sky in the future. Now it seems that I'm talking big... You should promise me to have a good meal and sleep... Happy Valentine's Day! I knew you wouldn't have a good Valentine's Day! How can a girl like you when you are like this

Feng Yan didn't know why. He felt a little pain in his heart.

It's like being stabbed by a needle.

There is a sense of repression that can not be explained clearly.

The girl's words were like coquetry. He didn't feel disgusted. Instead, he felt

"Where did this come from?"

Looking at Feng's changed face, he said.

"It's from the post office over the west moon bay scenic area. It's just received today and put in the guard. It's already confirmed. It's from the owner of a famous hostel in the scenic area over there. There's a place with big red cards for tourists to take photos and send postcards. The boss doesn't remember the tourists very well, but this postcard is actually sent from her. We have checked his surveillance and the identity is being confirmed. "

The Mo family is very strict with letters and express delivery.

So you can't send anything you want to sleep with.

West Moon Bay?

Xiyue Bay scenic spot is very popular in recent years, with many tourists.

The man's face was dark and said nothing more.

"Second master, the master is not in good health these days. You have time to see him more."

Feng Yan just listened and didn't talk any more.

.....

Su Xiaowan lived here for two days. During these two days, she didn't see any mo nanjue or other people. Even doctors and nurses were rare.

It's only the nurse who's busy before and after.

"Miss Su, it's a fine day today. Shall I push you out for a walk?"

The nurse pushes in a wheelchair that Su Xiaowan has been sitting in these days.

These days, I don't know what's going on. Su Xiaowan's legs are very numb. It's not convenient to walk. Sometimes, her legs cramp, and then she can't move.

So, I can only sit in a wheelchair.

The doctor only said that it was because of long-term nutrition, resulting in muscle atrophy. After a few days, the body was undernourished, so there was no need for a wheelchair.

Su Xiaowan doesn't know anything about medicine, but what else can he do if he doesn't listen to the doctor?

Just listen to the doctor.

I'm quite familiar with nursing this hospital. Several previous employers are all patients in this hospital, so when I go out, many people say hello to her.

"What festival is it today?" Su Xiaowan has been busy with Yu Yin's business for several months and days.

But in today's Hospital, every girl has flowers in her hand.

"It's Valentine's day, Miss Su."

Valentine's Day?

It seems that the festival is far away from him.

.....

The sports car braked rapidly on the busy street.

## **Chapter 726**

"What did you say?"

"If I hadn't hacked the monitoring of the hospital in time, you would still be here to talk to me!" The man at that end changed his voice, and now he was angry. This woman was so stupid that she was ready to deal with her at this time.

That's the weakness of Mo's family.

I really don't know how such people live to the present.

"I..."

She thought that the woman's life would be so big that she was rescued at this time.

So, is she going to join him again?

The brow tip of the woman is tightly wrinkling. She is not relieved that she has not been infected with human life.

"I warn you, next time you continue to act rashly, then don't blame me for being ruthless." Mo Sheng warned over there.

Now, he doesn't want to appear in front of Mo Liting.

The hatred between them is not enough to reveal their identity.

So, he just wants to be behind his back and watch it change.

"Dudududu..." the person at the other end hung up quickly. Chen Liangliang didn't go to find out who the person was, because she knew that the person's identity was far above herself.

At this time, she can't believe the matter in front of her.

After all, she has been a doctor for many years, and she won't miss it. Besides, she has been waiting for some time to leave the hospital.

At that time, no one had ever been to that ward.

The woman turned and walked away to the other side.

Su Xiaowan here, coagulating eyebrows, looking at the originally cold hospital inside the fiery.

If it had been before, she would have been very grateful for this day.

Up to now

Aunt Gu saw that Su Xiaowan was not in a high mood, "Miss Su, what's the matter with you?"

"I'm fine. Let's go." For all the previous apologies, Su Xiaowan just wants to make up for it now.

Now she just wants to take good care of her body and go to find Feng Yan.

After all, he didn't take the initiative, so she had to stick to her.

But these days did not go to Mo's home, Su Xiaowan everything is seen from the news.

In recent days, she has been following the news of the Mo family. Fortunately, nothing big happened.

"Let's go down for a walk. It's a fine day."

"Well."

Su Xiaowan was pushed to the garden by Aunt Gu. The sunshine was very strong. She had been in the hospital for the past few days. Su Xiaowan felt that the breath of winter was very heavy, but now she came out to know that the sunshine was so warm.

"It's a lovely day."

"Yes, it's rare that winter is not too cold this year. In the past, it's not like winter without a few snowfalls." Aunt Gu is from here and has been born and raised here for many years.

He has a son in his family. He just went to university this year and went out to work because he wanted to share the family's economic situation and buy him a house when he graduated from university.

So both husband and wife are collecting the down payment. Fortunately, she worked as a nurse when she was young, so she was also handy as a nurse.

People in the hospital will also help to recommend several rich employers to her.

The couple's life is getting better and better, and their son is also promising. Now he is going to go abroad to be an exchange student.

"Look, Miss Su, how about we go there and have a look?" This hospital is quite big. Su Xiaowan has not been to many places.

It's a nice day today, so there's a surprise for Su Xiaowan, so aunt Gu is going to take people to the designated place unconsciously.

Just, haven't walked a few steps, suddenly came a few men in black suit.

A shoulder on the wheelchair of Su Xiaowan.

## **Chapter 727**

"What are you doing --!" Su Xiaowan was frightened, and the men picked her up like a gust of wind.

There was no use in her struggle.

"Miss Su, it's your husband who sent us to pick you up."

go back?

Aunt Gu first thought it was Yan, but she didn't stop him. Especially when the man said he was sent by his husband, she thought it was Yan's assistant.

"Who is your husband?"

Su Xiaowan looked at the man suspiciously, still struggling at the moment.

"You'll know when it's time."

The men insisted, "or do you want to get in the car by yourself?"

"Put me down."

"Good."

The bodyguard at that end put her on the wheelchair smoothly at the moment, "our car is in front, please."

Su Xiaowan took a look at Aunt Gu, who also nodded her head.

Today, aunt Gu kept reminding her that it's Valentine's day. Anyway, she said something that she couldn't say before.

There is a super long RV parked at that end. Su Xiaowan has seen a lot of the world during the time when he was with Feng Yan.

The car is worth a lot at first sight.

After all, he doesn't like himself. He just arranges an aunt Gu, which is already an extra judicial mercy.

Especially, it's Valentine's Day

Just go and have a look.

Su Xiaowan sliding wheelchair, at the moment looking at the end of the bodyguard, these bodyguards face very, she has never seen.

"Miss Su, our husband is waiting for you."

Su Xiaowan pressed the wheelchair and headed for the RV at the other end.

Because the legs are not convenient, so the car is also equipped with a slow slope track.

It's convenient for Su Xiaowan to get on the bus by himself.

In the car, there are all kinds of facilities.

It was the first time that Su Xiaowan made such a car. When she sat in it, she found that Aunt Gu, who was outside, didn't get on the car.

The bodyguards are still outside. I don't know what they will say.

The door of the car closed quickly.

At the moment, Su Xiaowan twisted her eyebrows. In the car that was quiet for a moment, she felt that her eyelids were jumping badly.

The left eyelid jumps wealth, the right eye jumps disaster.

Unfortunately, it's the right eye.

Aunt Gu is out there, and the bodyguards are in a high spirited posture. But in the end, Su Xiaowan is the one who has to take care of herself. Moreover, the husband has told her that she has to get on the bus.

"Which car should I take?"

"Our husband didn't invite you." With that, the bodyguards quarreled with another car and left, regardless of Aunt Li.

I realized right away that something was wrong.

"You are not Sir's men. Who are you?"

Aunt Gu is more than 50 years old. Although her legs and feet are convenient on weekdays, how can she compete with these young bodyguards at this time.

"Miss Su, get out of the car!"

The car had started slowly, and aunt Gu was shouting anxiously.

At the moment, Su Xiaowan looked out of the window. Because of the excellent sound insulation effect, she only saw aunt Gu's greeting gesture.

But the mood of aunt Gu's eyes, she had a panoramic view.

The car was driving rapidly to the end.

Aunt Gu was directly left behind.

Su Xiaowan looked at the man at that end, and now he looked at the driver in a panic.

"Stop!" But the man turned a deaf ear.

It's just that the speed is getting faster and faster.

Su Xiaowan didn't expect that she was cheated into the car. At this time, she couldn't calm down.

The bottom of my heart is very flustered.

"Who are you? Stop the car now!" Su Xiaowan can't stand up. These days, her leg seems to be injured and she has no strength.

## **Chapter 728**

At the moment, there is nothing to support.

Sure enough, the eyelids jump, what bad luck will happen.

Su Xiaowan felt that he had enough bad luck, but he didn't expect that what was worse would always be behind him.

Su Xiaowan saw the strange man. She wanted to step forward, but it was not easy for the wheelchair to pass in the RV.

Looking at the figure of aunt Gu getting farther and farther away.

"Who is it, sir?"

"You'll know when you go." The man at that end was staring at the front.

Only he and Su Xiaowan were in the car. The man seemed to expect Su Xiaowan would not do anything else, so he was very calm.

Aunt Gu just watched the car leave, and no one stopped her.

This place is a secluded courtyard. Mr. Yan doesn't want to be disturbed, so he blockaded it today and left it to them alone.

At present, aunt Gu can't even shout.

The first few men have been on the car, the car quickly left the place.

Aunt Gu has only two feet. How can she catch up with the four wheeled car.

I twisted my foot because I took a few steps.

but.

Aunt Gu takes out her cell phone from her pocket. Regardless of the pain, she calls Yan's assistant.

"Miss Su has been taken away, sir."

When the assistant at the other end heard the news, his heart touched slightly, "I see."

Hang up the phone and go to talk to him immediately.

"I'll find Miss Su's whereabouts right now. You don't have to worry."

In fact, they are not familiar with this place.

But for Su Xiaowan's presence in this place, she would not have come.

The man's eyes seem to be filled with blood. At the moment, he put down the gift he had prepared and got up.

Towards the car at the other end.

.....

The car slowly drove towards a strange place. Su Xiaowan didn't know where the man was going to take her, but now she seemed to be bound and had no way to resist.

Zizi!

The car stopped in front of a luxurious villa.

It seems that the villa has been for some years, and the appearance has a sense of weathered vicissitudes. The car door at the other end is finally opened.

"Miss Su, please get out of the car."

Su Xiaowan was pushed out of the car by the security guard at that end.

The paint red door opened, and at the moment the people at that end welcomed him as if he were a VIP.

Su Xiaowan looked at the posture, but did not know who the master was.

She was pushed in and came face to face with a warm wind, which was quite different from the cold environment outside.

It's warm inside, like spring.

The big coat she was wearing made her feel sweating behind her. The room was really big. Su Xiaowan had no backhand ability, so she could only have those people pushing her through the door.

When these people are indifferent, even she likes to talk to them.

Su Xiaowan has no idea who that person is.

Soon, a woman came out.

A Li didn't expect to meet her here. When she saw her that day, she was still lying on the hospital bed, on the line of life and death.

But in just a few days, she looks better, like a little fat.

It's just, what's wrong with this leg?

That day, when she rescued people, she had nothing but physical problems.

Why do you need to be in a wheelchair now?

A Li in the heart takes slowly doubt, at the moment can't help but open a way.

"You..."

## **Chapter 729**

A Li some shocked looking at her, at the moment didn't see other people behind him, can't help feeling a little lost.

Did she come alone?

In this way, the eyes follow the man at that end, the man beside the adoptive father.

Different from brother Chen, this man reveals a kind of ruthlessness. For such a long time, he has never said a few words to him.

It's not invited at all. It's bound?

Su Xiaowan smell speech, lift eyes, in front of the girl is very beautiful, that pair of eyes big, like a shining star, just full of people can't tell the taste of unknown.

"Do you know me?"

There are many things in her eyes, which contain the feeling that Su Xiaowan can't see through.

"I don't know. I just look at you and feel like a friend of mine." A Li's brow tip slightly lifts, her remaining light looks at those people in front of her, see those people holding a kind of unclear so of eyes stare at her, her corner of the mouth opened Zhang, at the moment showing sweet smile.

A Li's eyes look at the men behind Su Xiaowan, who are the bodyguards of his adoptive father. At the moment, she pushes Su Xiaowan's wheelchair and doesn't move at all.

Recently, I lived here with my adoptive father, who seemed to know what happened that day, so I restricted her to go out.

Although she didn't say a word, how could she not know that she had been with her adoptive father for such a long time.

"Miss Ali, please get out of the way. This is Mr. Li's guest. We can't delay you any longer." The bodyguard looks at a Li who appears in front of him. Now he opens his mouth with a heavy complexion. These bodyguards only listen to Mo Sheng at home. Therefore, a Li doesn't say much when she sees them.

But today

What does the adoptive father want from her?

Is it a warning?

A Li can't help but think. After all, she can't do anything when she is locked up here these days.

A Li had seen the means of adoptive father a long time ago. Those people were in her hands, as if they were not human lives at all.

The adoptive father told him that cruelty to the enemy is cruelty to herself, and she would not be soft hearted to the enemy.

And the adoptive father will not save a person's life until tomorrow morning.

Miss Su was called by her adoptive father, who would not come to this place without any reason.

Aware of something, Ali's hand clenched into a fist.

A Li doesn't know the relationship between Su Xiaowan and Feng Yan. She only knows that Su Xiaowan is very important to Yan.

That day, she saw it with her own eyes.

If... She really upset her adoptive father because she was nosy that day, then... It's her fault and should not be borne by others.

Besides, saving people was her idea.

"Step back. I'll take her there." A Li looks at the bodyguard at that end and suddenly says.

"But... Miss Ali, you'd better not embarrass us. Sir is waiting for this young lady to come."

"I'm just going to my adoptive father's side. I'll just send her there."

The men were unmoved.

"It seems that I am a decoration in this house, and no one will listen to me."

"Miss Ali, this is really Mr. Lee's guest of honor."

"What else can I do to this young lady? Since I'm the guest of honor of my adoptive father, I'm sure I'll send people to my adoptive father safely. What are you worried about? "

### **Chapter 730**

"What? Don't you even listen to me? " A Li looks at those bodyguards with anger on her face.

The bodyguards looked at each other, at the moment looked at each other, a man who had pushed Su Xiaowan's wheelchair, thought about it, still could not help but release the wheelchair.

"There's Miss Laurie."

A Li's expression is still indifferent. After they left, a Li was relieved.

She was still thinking of other ways to persuade people, after all, these people do not enter the food, rice, oil and salt.

A Li just bowed her head. The coldness just now had gone, leaving only warmth.

She checked Su Xiaowan's condition.

"Miss Su, are you ok?"

"Do you really know me?"

"Of course. Last time I was in the hospital, I saved you."

Saved her?

Just as Su Xiaowan wanted to say something, ah Li frowned and thought about the current situation.

In front of them is the adoptive father's bedroom. Although the adoptive father is not there, there are surveillance cameras there.

"I'll get you out of here first."

Said, a Li pushed the woman's wheelchair, thinking about Su Xiaowan's situation, "can you stand up now?"

"No way."

Ali thought, "what did they do to you just now?"

"No, it's my own body."

Smell speech, a Li this just relaxed one breath.

She said, "it's my adoptive father who brings you here today. Most of my adoptive father thinks that I shouldn't meddle in my business that day, so he brings you here... My adoptive father is not very good tempered. He brings you here to teach you a lesson."

After all, Ali can't think of any other reason, but his adoptive father is bloodthirsty and indifferent, and has no feelings for others at all.

Now so much trouble to bring people into the house, presumably, not ready to let this woman live.

She can't watch Su Xiaowan die.

After all, I managed to save myself.

But Su Xiaowan's legs and feet are not good. At this time, the wheelchair is in the way.

Adoptive father?

When Su Xiaowan looks at the woman in front of her, she always feels like she has been hoodwinked and doesn't know anything.

So now, she has no idea what happened.

"I can't explain my adoptive father to you for a while, but don't worry, I'll take you out... If you believe me, I'll give you a needle for your leg first, so that you can escape?"

But I don't know why. He doesn't know anything about this, but Su Xiaowan chooses to believe her.

She nodded.

Comparatively speaking, the girl in front of her is simple and kind, and her eyes are not deceptive.

A Li pushes people to her room, where she lives alone and has many utensils.

At that time, in order to facilitate her own research, a Li begged Mo Sheng for a long time, and Mo Sheng agreed to make a small room in her room to put her appliances.

"You have to bear it for a while. It may hurt a little."

A Li took a needle tube, which she developed last year. Originally, it was specially developed to facilitate her adoptive father to walk.

Over the years, my adoptive father's legs have not changed. For various reasons, I can't find any special medicine. Especially when it's cold, I have a leg disease, and I can't even take those painkillers.

Therefore, it took a year for a Li to develop this special drug.

A Li checked Su Xiaowan's legs and found that her legs were stiff and her brows were wrinkled.

If she looks right, her legs

But now, it's not the time to talk about this. We should escape first.

A Li is a good pharmacist, and her situation is different from that of her adoptive father. Therefore, there are some differences in the dosage of the pharmacists.

But all of a sudden, the door knocked.
