

good evening 801

Chapter 801

"As the young master of the Mo family, it's time for Mo nanjue to learn to take responsibility. You can't let a Yan wipe his ass for everything. Besides, don't you leave the temporary CEO to him? I believe Mo nanjue can do it well. Feng Yan, don't you think so? " The man's face was covered with an unbelievable light.

The lawyer gave them a look, though it was not unexpected, as Mo always thought.

But anyway, Su Xiaowan has made a decision.

I hope she doesn't regret it.

"Second master, Miss Su, let's go first."

After several people left, Su Xiaowan looked at Feng Yan and said, "you don't seem very happy?"

"Do you think I didn't choose you, so you're not happy?"

"I look like such a mean person?"

"Then how do you look like that?"

"I just didn't expect that you would hand over the consortium to Mo nanjue."

"Didn't you expect that? I thought that's what you thought

Su Xiaowan hugged him, "ah Yan, when things here are settled, we'll go home. It's so cold in winter here."

The man's broad palm fell on her, "OK."

In the distance, a pair of envious eyes just stare at their every move.

She stood at the door and heard the words clearly.

How did he not expect that this Mo Lao had given such a big group to a yellow haired girl.

Her fingers pinched the palm of her hand, trying to calm her down. If she hadn't come here early and wanted to find Feng Yan, how could she know such a big news.

And this woman easily gave the group to Mo nanjue.

If you want to know how many people dream of this position and power, she should... The more she thinks about it, the more angry she gets.

Her lips were clenched tightly, and there was a strong sense of killing in her eyes.

The woman in a black dress stood there for a long time before she left.

She went back to her room.

The more you think about it, the more angry you are.

Just then, the phone rang.

It's her mother.

"Liang Liang, what happened when the Mo family asked you to go there? Is Mo really dead? And left you a legacy? "

Of course, Chen's parents have heard such a big story.

"Well."

"What's the old man up to? What's the money for you. By the way, when your father went to the consortium yesterday, someone said that the Mo family consortium was going to change its owner? What about leaving a huge legacy to a woman? Is it true or not? "

"Mom, it's true, and I don't know what Mo always thinks. It's surprising that such a big group should be handed over to a little girl who doesn't know anything and let her choose her successor."

"What? Then she... "

"She gave the consortium to Monsignor."

"What..." the woman was very surprised, "this Mo family is really going to change owners. We have a little friendship with the Mo family. If we are really in the hands of that girl, then Mo Er Ye has nothing. What do you do? "

"The marriage has not been settled, and I don't know if the Mo family will go back on it." What Chen's parents are most worried about is the marriage.

The status of their family is not as good as that of Mo's, so it's a matter of great prosperity to be able to go up with them.

Now, there are so many rumors.

Naturally, she was worried, and although this old Mo General Chen Liangliang took over, who knows, she died in a few days.

The marriage that had been decided was delayed because of the death of Mr. mo.

How dare they say it.

After all, the bones are not cold.

"Mom, I must marry Mo Erye."

Chen Liangliang has never seen such an outstanding man, no matter in appearance or ability, he is one of the best.

"Liang Liang, if Mo Er Ye has no status and nothing, I advise you to think about it."

"Mom, I think it over. I want him. This Mo Nan Jue is just a playboy. He can't be a success. Maybe the consortium will be completely defeated in a few days in her hands. However, Mo Er Yeh is different. He is born with business materials. Even if he doesn't have anything, he can make a comeback. "

Mrs. Chen has also met Feng Yan. If she is a son-in-law, he is really suitable.

"Liang Liang, I wish you had an idea in your heart. Mom supports you anyway. You should be careful when you are in Mo's family. This Mo family is a place to eat people. Although you have tormented the old man and passed away, you should be careful. By the way, please Mo Heng when necessary. This man can be chosen to replace mo, It's also a great character... "

Mrs. Chen is not sure about Chen Liangliang.

After all, it's her daughter. How could she not be worried at all.

"I see, Ma. Don't worry. I'm measured."

They whispered and hung up.

Chen Liang Liang suddenly saw a piece of news on his mobile phone.

Her eyebrows were originally tightly wrinkled, and at this moment, they stretched out.

She seems to have found a way.

.....

In the villa, the candle flickers.

A Li slowly wakes up in the bathtub. She is awakened by the thunder outside. It's stormy outside. Now she is pounding the window and making a clang sound.

She found out that she had fallen asleep in the bathtub.

Back pain, the whole person seems to have been crushed, Ali want to stand up, suddenly listen to the voice of that end.

She was startled.

The bathroom is very big. There is a frosted glass outside the bathtub to separate the bathtub from the bathroom outside. The frosted glass can't see the people inside, but it can completely see everything outside.

Her eyes stopped.

Look at the people coming in.

It's the words.

She wanted to stand up, but her legs were numb.

Then, she was shocked by the scene in front of her. Suddenly, her mind was confused. When she recovered, she found that her cheeks were all red.

The man just turned his back on her and was taking a shower.

Every inch of skin, every inch of

She Shua of low head, to in front of the scene, completely don't know how to react.

With a dull pain in her head, she knew she had a cold and seemed to have a fever.

However, she was absolutely right about the scene just now.

He... Turned out to be a man.

Her head was against the frosted glass, and for a moment, she forgot what she was going to do.

She never thought that Yan was a man.

In such a moment, the brain seems to explode. In a moment, the hot cheek seems to burn up.

At that moment, her mind was blank.

Even, even after all, all forgotten.

Chapter 802

Ali has been working here for two days.

However, she did not see that speech once, except that the assistant came once, and the rest never showed up again.

She felt as if she had chosen the wrong way.

After all, she has sent people to inquire for a long time, but she has not found the track of this person's life in Hong Kong City before, except for the recent period.

It seems that she is not from this place.

But when I saw him there, although he was wearing a sweater, his beautiful face was too much for people to look away.

But now

She wished she had the magic of instant escape.

A Li closed her eyes, but what lingered was the man taking off his clothes just now

Although a Li is a doctor, as a medical staff, she has seen the body structure of men and women for many times, and she has no boundaries between men and women.

She had thought so, but when she saw the naked man in front of her, she knew that there was no limit to what was, because she had never seen a man naked.

A Li is stiff. At the moment, she wants to be a wood, but her legs are numb, and her clothes behind her are all wet because of the tension of her whole body.

She still had the towel in her hand.

Because when I came here, my aunt specially took care of the owner. The owner has a habit of cleanliness. If his assistant finds out that there is something wrong with him, he may not be able to stay in this place, or even implicate the aunt.

So, ah Li did it herself, even if she had never done it before.

But today she suddenly fell asleep, which she had never thought of.

She touched her forehead, probably because she had a fever.

She looked left and right. She didn't know how to get out now. After all, she couldn't get out even if she tried hard.

The sound of running water continues.

Fortunately, the man did not open the door, otherwise, she would have no escape, maybe at this moment, she would like to die of shame.

A Li is a simple person. She has never been in love. Even in school, she was once a goddess in many people's hearts because of her beautiful appearance and good academic performance. However, she has a low-key temperament and doesn't like publicity. Sometimes there is no one after class, so we won't focus on him all at once.

Slowly also forget.

So, until she graduated from University, she never fell in love, and even more never secretly fell in love with others.

But she was the only one. She thought it was just because the girl was so beautiful that she couldn't forget it after looking at it. She was slow to reflect what was hidden, and once thought it was

Of course, in such an open environment abroad, the gender of men and women is no longer the boundary of love, but she still thinks it's strange.

When I think about it now, this person didn't feel like

His eyes are cold, even if the face is good-looking, but also inclined to feminine.

With the clothes she wears, it seems that she can really disguise his sexual orientation.

However, why should a good person hide his sexual orientation?

A Li's heart gave birth to a lot of doubts, but at this moment, suddenly heard that the sound of the water stopped, she focused on the wall in front of her.

I'm so nervous that I can't even breathe out loud.

I don't know how long it took, but the door still didn't open. Ali's legs were all dead. He wanted to knock, but he was afraid that his movements would disturb the man at that end. At this moment... She was hiding here to peep at other people's baths. She really couldn't tell how many mouths she had.

Her eyes returned to the cold before, at this time, she suddenly realized her purpose here.

Suddenly, a flash of lightning exploded.

Ali has always been afraid of thunder and lightning. She has always been like this since she was a child.

Because I don't know why the thunder and lightning gave him the feeling that his relatives were leaving.

She didn't know why she always had such a dream. She was struck by thunder and then died

Boom!

A ray just came through her eyes.

A Li subconsciously raised her hand, so easily. Suddenly... She heard the footsteps approaching.

She was so nervous that she didn't know what to do?

Is it about to be discovered?

"Young master, have you finished washing?" He was called at the door.

Ali heard the name clearly.

Little master.

This person has a special status. At least, people in this place will not be called Shaozhu.

Where on earth did he come from?

Where did you come from with Su Xiaowan?

Ali listens to the sound of the door opening next second, and then the door is closed.

A Li's heart was relieved.

But at present, they are in trouble again.

How can she get out at this time?

She pulled the mask on her face, and when she came in, he was thrown out to avoid being recognized, so he was fully armed.

Now, even if she appears in front of Yan, she can guarantee that the man will not recognize him.

doorway.

I don't know how the door was blown open again. Now the man standing at the door talking with a man fell into the eyes of Ali.

Men are tall and their hair is dripping with water. They look sexy.

But she soon realized a problem.

This place is his bedroom. If she wants to go out, she must go through his bedroom. But just because she wants to go through this bedroom, she feels that... Just now, she really has no face.

"Mo Lao died. This is what happened to Mo's family these days... Young master, what do you want to do with this? The Mo family can't fight with us. "

These days, they don't know why they still don't go back. These brothers want to go home because of the new year.

But the young master said he wanted to stay here and find out what Mo family was.

"There seems to be a dispute within the Mo family recently. It's said that there is going to be a replacement. Fortunately, the second master of the Mo family has been in charge of the company for such a long time. It seems that he is going to give up his hand."

Said the man at the other end.

The news about Mo's family has no way to report, so Yan has no way to know Su Xiaowan's whereabouts. But these days, he knows that Mo is dead.

The man took a hand of the information, for the rest of the Mo family, he has no interest, just want to know about Su Xiaowan.

It seems like a whirlpool. The closer you get, the more you want to know.

The man took the information he was good at and listened to the sound of a bang inside.

Just as Ali frowned and looked at the cat running in, a cold voice came from that end.

Chapter 803

The door was opened so heavily.

A Li's heart clattered.

Of course, she would not be so stupid as to think that he would take a bath again.

In fact, just now he should have noticed that, yes, such a man is very cautious about everything. How can he just

Can you hide easily?

She really thinks of people too simply.

That's the truth. It's as difficult as Auntie said.

A Li feels that she has been killed for eight generations. How can she be caught at this time.

Ming Ming is going to

"Meow The cat ran out in a hurry.

"Cough --!"

The voice of a man coughing with warning, can feel his anger.

A Li was silent for a moment, but at this moment she knew that she couldn't go any more. Fortunately, her legs were not very numb. Now she stood up and opened the moving door.

Just looking at the tall man standing there, as if at the moment, his eyes were fixed on him, motionless.

I'm going to eat it.

He didn't say a word. Ali knew that he was dumb.

To put it better, he is a handsome mute.

This is probably the only difference between him and those who can't speak.

And the man wearing a robe, that solid figure can be called the male model of the magazine, but also she rarely see, how can such a man be a woman?

Such a tall woman? How can it exist!

Ali's eyes were fixed on her.

Can feel the man's eyes staring at him, very strange.

It's even colder than the feeling of Mo Sheng.

A Li lowered her head and looked at the man at that end at the moment, "little Lord, I'm a part-time worker in... Villa. Aunt Lian asked me to come. Aunt Lian is not very well these days, so I come to clean up instead of her."

Ali was dressed as a maid, but she was very fat.

In order to work here, she is well prepared, just to cope with such a moment.

It seems that the man did not recognize him.

At the moment, the man's eyes are angry, like the beast in the rage.

The eyelashes quivered.

"I didn't mean to peep. I was not very comfortable just now. I slipped and couldn't move my leg. So... But... I didn't mean to hide here. I really need this job."

Ali's plump figure now looks like 200 Jin.

The man stares at her coldly. Obviously, he doesn't want to hear any explanation from her at all.

"I'm... I'm willing to punish myself for the whole day's salary." A Li felt that he was struggling to communicate.

With that kind of effort, she could only rely on her own guess to know what was on his mind.

But just because of this, she was not very familiar with him. How could she master all his emotions and what thoughts he contained.

I just think it's too difficult to figure out people's psychology at that moment.

The man walked up to her, and Ali bit her lip. "If you think one day's salary can't ease your anger, I won't pay you this month, OK? First of all, sir, I just made a mistake. Everyone should have a chance to make up for his mistake. In the future, I will work hard to make up for it... "

"I really need this job."

"Come out!"

A Li's eyes alert of lift Mou, think oneself hear wrong.

Just now, he said... Come out?

Can he talk?

But why pretend to be dumb?

However, it has nothing to do with him.

She thought of the purpose of her coming here, and there was firmness in her eyes.

A Li looked at the man's back, feeling slightly closed, she pursed her lips, followed her out, of course, before going out, he still began to clean up the bathroom which was chaotic by the cat.

As soon as I came out, I saw the man leaning against the crimson sofa. Different from what I had seen before, his big bathrobe was loose and loose, revealing his tight and strong chest.

In the wine glass, red wine and vinegar, the color of the shaking is as attractive as his lips

She just looked at it and immediately lowered her head. She was almost addicted to his beautiful appearance.

She warned herself in her heart to be sober.

But his aura was too strong to ignore.

"What can I do for you, sir?"

Under the light, the woman was dressed in loose jeans and a sweater, with a mask on her face. She stood a little far away and seemed to want to keep a safe distance from him.

The man's eyes are fixed on her. I don't know why. Those eyes are very similar to her.

She didn't know why she kept him, probably those eyes?

Make him a little reluctant?

When will he do good?

The man suddenly raised his eyebrows, the light and shadow of red wine reflected in the man's eyes, waving thousands of waves, at the moment no one knows what he is thinking.

"What happened today..."

"Today I will keep my mouth shut. I don't remember anything except this door, sir... Don't worry, young master."

Ah Li lowered her head and didn't get a reply from the man at the moment. She wanted to run out, but at this moment, she didn't dare.

She has to stay here.

After all, there won't be such a good chance next time.

"Young master, may I go now?"

The man's fingers gently buckled the table in front of him, his eyes darkened, and he stared at her with sharp eyes.

"Do you know how to make a midnight snack?" Men's voice with hoarse, probably because long-term do not speak, so it will appear precious.

Few people would make him speak.

Even Su Xiaowan did not get such a "special honor."

But I don't know why, he would talk to this woman.

"... yes." A Li swallows her mouth and opens her mouth with a guilty heart. In fact, she can't cook any food at all. Although she is studying outside, she is basically in the canteen at school. After she comes back, she always goes home to eat.

She doesn't like cooking and has no research on it.

After all, the aunt didn't say she wanted to cook when she came.

What's more, she hasn't come back for a few days, and she has cleaned the kitchen, which is brand new and unused.

Even in the refrigerator, there are no ingredients. It's empty.

Therefore, it is the most important thing at the moment to undertake first.

After all, there is nothing more important now than to leave this man first.

She can't stand standing in front of this man any more.

"What would you do?"

"I... what would you like to eat? I'll make some of the ordinary home dishes." A lie doesn't make a draft.

She thought that she could afford a scalpel, so she should be able to afford a kitchen knife.

Chapter 804

"Longevity noodles."

Noodles

A Li's brows tightly knit together, until a few minutes later, she stood in the empty kitchen, also still frightened.

It's hard to make a meal without rice. What's more, she's a novice.

A Li opened the cupboard. It was brand new and there was no dust in it.

Now... Run?

However, if he walked out of the gate, he would never have a chance to come in again.

A Li suddenly thought of something, but open the mobile phone take out, because the distance is too far, there is no way to deliver.

There is no other way, a Li can only call brother Chen to help her deliver it.

"Do you want longevity noodles in the middle of the night? Is this man ill? Where can I get him some longevity noodles now? "

Although the morning elder brother said on the mouth, but the body is very honest already dressed, ready to go out.

"Whatever it is, as long as it's noodles, brother Chen, please!"

"I'll get it to you in ten minutes."

"Thank you, brother Chen."

A Li hung up the phone, her heart is finally put down, a Li know that the room upstairs, there is no way to see the door, and there is no guard at the door of this place.

In fact, there are only two of them left in this villa.

A Li is holding a mobile phone, pretending to be in the kitchen clang clang of tampering with their own things.

Ten minutes later.

A Li then calls. They meet in a hidden place. Brother Chen looks at the villa. It's a real estate developed a few years ago, but because the developer owes a lot of money, he bought it and ran away.

But because the project has been shelved, until now, this place has not opened.

Originally, I thought this place was deserted. After all, although this place is close to the resort not far away, it is adjacent to the suburbs. There are no people. It must have been overgrown with weeds for a long time.

But, looking at this exquisite villa.

It's clean inside and out.

Inevitably, I was a little more curious about the woman inside.

"What is the identity of the woman who lives here? Li, have you really found out? "

A Li didn't know how to think of the man's naked body that she had just seen. For a moment, her cheeks were slightly red and she just nodded.

"Well."

"Then you should be careful and call me whenever you need to. Remember, life is the most important thing. Sir has gone. I don't want anything to happen to you."

"Don't worry, I'll be fine. I just want to get a statement back for my adoptive father."

A Li touched the hot face, "brother Chen, I went in first. I'm going to trouble you today."

"Come on in." The man looks at Ali and treats her like his own sister. He knows what happened to her. Over the years, he has seen her growth.

She was very tangled in her heart.

She wanted to avenge Mr. Mo, but she didn't want Ali to do it.

Ali ran into the room with the noodles he had brought with him.

And this scene, fell into the eyes of the man upstairs.

A Li poured the packaged noodles into a bowl, stirred them with chopsticks, and then ran upstairs with the noodles.

"Master, the noodles are ready."

When he went in, the man was holding a mobile phone and didn't know what he was looking at, but he had changed his clothes, not his previous nightgown.

Hearing this, the man put down his cell phone and looked at the mess in front of him.

"It's getting late. You eat first and I'll go home first."

A Li's original working hours have long been over.

But she just walked a few steps, suddenly the man's cold voice came.

"Redo it."

"... what's wrong with you?"

What does it mean to redo.

A Li's heart is more thorough than anyone else's.

He leaned on the sofa, his expression was more angry than evil.

He is tall, and he is forced to come step by step. He has a pretty face, but the arrogant evil spirit... Anyone will be shocked by the killing intention in his eyes.

"Young master... What's the matter?"

The man didn't say anything. To the eyes that looked like Su Xiaowan, there was a faint smell of noodles on the tip of his nose, as well as the... Body fragrance of this woman.

He came up to her and said, "no one dares to lie to me. You are the first one."

A Li's eyelashes trembled slightly. She reached out and touched her mask. I don't know why. Now she felt a little scared.

"Little Lord, I..." the woman's eyes fixed on the noodles in front of her.

Probably, he knows.

But there is no monitoring in this place, the hidden position is also all the dead ends... How could he?

However, if I didn't see it, how could I say such a thing?

Ali pursed his lips. He wanted to explain.

"Get out of here!" Men condescending toward her mouth, as if to see her ideas, straightforward.

"Young master, I really need a job. Today is my birthday. Can you... Don't fire me today?"

birthday.

The man's eyes were fixed on her.

She didn't seem to believe it.

Her chest was undulating. She knew it was hard to get close to this person for a long time, but she didn't think it would be so hard. "I didn't mean to, but you don't live here often, and there's nothing in the kitchen..."

"If you don't want to die here, get out of here."

Staring at the man, a Li's eyes trembled. He knew that what the man said was true.

I'm not kidding him.

"..." she didn't say a word. No matter how much she said at this moment, there was no reality that could be changed.

I'm so dizzy.

She knows. She must have a fever.

Every time she has a fever, her temperature will stay high. People like her usually don't get sick, but they are very serious.

She is in a hurry. She just wants to leave this suffocating place quickly. This man who just looks at her will make her gasp

There was silence when the door closed.

The man stares at his back. The air is filled with the body fragrance of the woman just now. The smell overlaps with the vague figure in his mind

He grabbed the bowl and smashed it to the ground!

.....

Morning brother is not very at ease, so has not gone, she also knows the hours of a Li's villa, so, waiting in the distance.

Ali was dizzy when she ran out.

Outside, it's raining heavily.

I don't know what's going on. It seems that the rainstorm has never happened before. It has just stopped for a while, and now it's raining heavily.

The moment I ran out, I was almost hit by a car.

But she was still bruised, because as soon as she avoided, she hit the curb directly.

Chapter 805

Ali fainted on the road.

If chenge hadn't heard the news, she would have been caught in the rain that night. When chenge picked up Aoli, she just felt that her whole body was boiling hot.

Took the man straight to the hospital.

During this period, Ali didn't wake up at all.

It was not until the third day when the fever subsided that Ali woke up from her sleep. Of course, she was no longer in the hospital, but at... Home.

This place is the first adult gift that Mo Sheng bought for a Li.

But just after the decoration, Ali has never lived here.

"How many days have I been sleeping?"

A Li just felt dizzy, as if she couldn't sleep enough. She felt her head and didn't know how she appeared in this place.

Because she didn't have the memory of going back.

At this moment, brother Chen pushes the door in and looks at the girl who has wakened up.

"You are awake. You dare to work for others outside when you burn like this."

"Brother Chen." A Li looks at elder brother Chen and rolls the quilt. At this time, she seems to know why

she appears in this place.

It was brother Chen who brought her back.

"Fortunately, I haven't left, otherwise, no one knows where you died. Come and take your medicine."

Brother Chen is older than her and takes good care of her. Ali really treats her as her brother.

"What's the date today?" A Li very clever drink medicine, at the moment looking at the man.

"February 15."

Valentine's Day?

Of course, Ali has no feelings for these festivals, but he has been lying for three days.

"How did you do that? What did that woman do to you? "

Brother Chen saw a Li fall on the ground on the road. If it wasn't for his timely arrival, the consequences would have been unpredictable.

"He found out that I didn't make that bowl of noodles."

"Because of this? I'm driving you out? "

"... well."

"I've said for a long time that this woman looks neither male nor female. It's not a good thing."

Brother Chen spoke angrily.

In a Li's mind, the man's face came out unconsciously.

Actually

She discovered a secret.

"Well, you have to rest first. This matter will wait until you are well. Now the body is important."

"Well."

Ali lay down again.

At this time, she had a dream.

"Ali, Ali, you must avenge me. I'm not willing to..."

"Adoptive father."

"Ali, you must avenge me."

A low voice in her ear has been saying that a few words.

It wasn't until a few hours later that Ali pulled out of her original dream. At the moment, the quilt had already been soaked through.

She had a nightmare.

The adoptive father in the dream is terrible. In his bloodthirsty eyes, he is dying. Now he just stands there and shoots at the enemy.

It seems that everyone is the enemy in her eyes, and so is he.

In my dream, it seems that I really experienced the feeling of being shot.

She also finally understood that feeling, not good.

Ali got up and went to the bathroom.

At the moment, she took cold water to wash her cheek, this moment, just sober a lot.

She looked at the haggard person in the mirror. These days, because he was going to the villa, he was all dressed in disguise.

These clays were all found by Chen Ge.

Glued to the skin, can cause obesity vision, but also can help him block the man's interrogation.

But now, she doesn't know what to do.

Although there is a plan in my heart, I don't know whether to carry it out.

Maybe she should let go.

Ali took her cell phone and called the assistant.

It's the special assistant beside Shiyan. These days, it's this person who connects with himself.

"Hello, I'm sulixia."

"Miss Su, the young master has already told me about you. This job is not suitable for you. I'll settle your money for you."

The person they are looking for is not a liar.

"I want to talk to your little Lord. Is it convenient for him to talk to me?"

"Miss Su, our young master is very busy and inconvenient to answer the phone. If you have nothing to do, just send the card number and we will call your account."

"... I'm an outsider. I haven't applied for a card yet. I lost my ID card. I haven't had time to reissue it these days."

A Li blocked all the way back to that man. She had to see Yan.

He was not reconciled to such a failure.

"... in that case, come and get it yourself."

After all, they are not the kind of people who default on their wages.

.....

A Li drags illness and goes to the villa at that end.

The assistant stood at the door, obviously waiting for a long time, a little impatient.

"Here's your salary for the last few days."

It was a thick pile of money, heavy in hand, but Ali was in this place, working for a few days, at this time, with so much money to her, it was more like... Sealing fee.

A Li's face is not good, she did not make up, just a simple wash face, wearing a mask came in a hurry.

Fortunately, the mask has been covered, so Ali's pale face did not fall into the man's eyes, this man she did not know, also never seen.

"Thank you."

In fact, men are also a little puzzled. In fact, the young master is a gentle person, and will not face a little maid like this.

After all, it's rare to see a young master specifically targeting someone.

I should say I haven't seen it.

But I don't know what happened. Just yesterday, the young master suddenly found him.

He said he was going to be fired.

Of course, the money is not given by the minority owners, but is subsidized according to the people they are expelled from here.

The assistant had something to do with himself. He wanted to solve the problem and then left.

Just then, a man got out of the car.

When I saw Ali at that end, my expression stopped.

"Who is this man?"

"The maid in the villa."

"Why... So fat."

I'm used to seeing beautiful women. If I look at such women again, it's not good either.

First impression is often very important.

"What are you doing here?"

"The young master asked me to come and wait for him early!"

Young master!

A Li's eyes pause, looking at the window at that end, which is his study.

"It's said that I'm going to go back today, but I can finally go home..." the man whispered, but he was very excited, this excited feeling, very happy.

So the voice line is inevitably higher.

"Go back?"

"Yes, don't you know? It's said that his wife told him to go back, saying that it was... "

Chapter 806

The next sound, a Li did not hear.

But she heard it. She said go back.

Is he going to leave?

"I won't tell you. I'll go first." The man took a look at the time, and the young master didn't like someone to be late.

Many of them came here first, but some of them have already gone back.

What's left is just two stars.

He is one of them.

Before long, the man who watched that end pushed a box down.

Ali stood on one side, watching the luggage one by one loaded into the car.

"What are you still doing here?"

"Where are you going?"

"It's not your business. Take the money and leave."

.....

Dark pressure, do not know why, such a cold season, even every day drizzle hazy.

Because of the cold, Ali's body couldn't help shaking.

I heard it's raining all day this week.

When a Li came out, she didn't wear much. Because she came here, the car wouldn't come here, and she didn't drive. She came here by bus.

After all, on her resume, she was a poor woman with a sick old mother at home.

If you take a taxi, it's obviously not in line with her identity.

At the moment, the driver staring at the woman standing there suddenly felt familiar, "have I seen you somewhere?" But after asking, he quickly rejected his idea.

"No, you look so unique. If I had seen you, I would have recognized you at the first sight..." the man

patted his forehead and said, "Damn, you're not the one I bumped into that day, are you?"

The driver's real name is Chen Li.

He was chosen by his wife in his twenties, so he always followed Yan. Because he was about the same age, Yan seemed to be very friendly to him and always let her follow him.

In fact, Yan is not many years older than them.

But the temperament is cold. The lady thinks that if she follows her, she can talk more.

However, he was so talkative that he didn't let her speak at all.

Only later did they know that speech has a language barrier, which means it sounds better. Only they know that the reason behind this is that speech is dumb because of its body

However, due to the lady's saying so, we only acquiesced at that time, and no one broke it down.

In fact, it's hard for the lady to live. It's said that the man she likes left behind their mother and daughter. There has been no news for so many years. The lady has eleven people to support such a big family.

domestic trouble and foreign invasion.

In fact, Lian's family is on the road. Because it's a woman who is in charge of the family, she can't help being pressured.

Over the years, the news of Madame has been circulating in the market, but Madame has not appeared in the public eye for a long time.

Madame is a low-key person, also is not easy woman.

Hit?

A Li's eyes stare at him. She can't remember many things that day. The one she was hit by was really impressive.

Because it's really painful, the ones that were directly knocked and skinned, now there are wounds on the knees.

"Are you ok? That day, I thought I was hallucinating. Later, I checked the surveillance and found out that I really hit someone. "

"It's all right."

Although a Li grows fat, no matter how to say, her voice is very nice, it's the kind that men feel elated, soft, like spring rain. At the moment, it's not like the cold and excessive environment of winter rain.

"You're fine."

Chen Li said this to her, after all, it was an age, so they didn't seem to have a sense of distance. Although Ali did grow a little fat, not to mention her good character.

Chen Li didn't know why Yan would drive her away.

After all, Shao Zhu is not a judge by his appearance.

It wasn't long before Ali saw the late comer.

Just like a few days ago, she was still wearing a neutral sweater and jeans. Her long hair covered the man's cheek, and her gender could not be seen at all.

"Little master --!"

The man took a look at them and didn't notice the man standing at the end. Ali was so ignored that she frowned, but soon put down the emotion.

"Our young master wants to be beautiful again today."

It seems that these people do not know the real identity of this man until now.

A Li thinks that what she guessed is right.

She boldly walked over.

The man at the other end had planned to close the door, but suddenly he appeared in front of him.

He frowned.

It's the woman that night three days ago.

Because of this woman, she has insomnia.

Naturally, he remembered it. He didn't forget it so soon.

At the moment, where Ali was standing, she didn't have the previous kind of submissiveness. She probably knew the man's handle, so she felt like she had opened the eyes of God.

Man's anger wanton, at this time, Chen Li quickly found the woman who ran there and stood there.

"What's the matter with this woman?" One didn't pay attention and ran to the little Lord.

"I have something I want to talk to you about." She said.

Yan looked at her with deep eyes. In those eyes that could not see through happiness, anger and sadness, it was like a deep water, which could directly absorb people. At this moment, Ali felt that there was no way to describe the man in front of her.

Very handsome.

It's the tough and handsome, not the coquettish he thought before.

"I only need one minute. Can you listen to me?"

The man's hand fell on the handle to close the door, but Ali's hand held the door frame tightly.

There was a stalemate.

At this moment, it seems that everyone did not expect that this woman should be like this

Chen Li ran over and grabbed her, but the woman didn't move.

Chen Li felt a little humiliated, but looking at the woman's figure, he thought it was the strange shape.

"If you want everyone to know about that night, you can't listen to it, but don't regret it."

The woman threatened.

He didn't want to beat around the bush.

After all, detour is not for everyone.

At the moment, the man at that end held the handle harder.

He suddenly let go of the door, because all of a sudden, Ali almost fell.

But fortunately, she held on.

Just looking at the paper in the man's hand, "get in the car --!"

Ah Li pursed her lips. Now she looked at the man at that end, and her cunning eyes flashed by.

She guessed right.

It's not the first time for Ali to sit in her car, but it's the first time for her to sit beside this man.

She was a little nervous because the exam was so close.

The man's eyebrows are dark and the outline is deep. In the eyes of a pair of stars, there is not a trace of temperature, but also a trace of chill. In this way, the author seems to have exhausted his patience.

The veins on the hands are all exposed.

A Li is not stupid. She knows that he is angry again. Yes, being threatened is a challenge to such a man's willpower. If she is threatened, she would like to kill the man in front of her.

He knew that camouflage must be an important secret, because it can't be said. Now it seems that the people under her hands don't know about it. Presumably, he has camouflaged for a long time. As for how long, it's not known.

And just because this is important, she can threaten her.

"I want you to marry me."

There seems to be a moment in the air, which is solidified.

A Li is wearing a thin down jacket, and her figure is very strong. At this moment, because she is fat, her whole face is very white and tender, but she just feels that a woman's decent fragrance is overflowing. In this not too small space, she looks very... Approaching.

"I said, you marry me. I'll keep a secret for you. "

Chapter 807

The man black with some kind of shrink, at the moment that pair of eyes revealed sarcasm.

Because there was no one else in the car, the man did not continue to pretend.

"I can't marry you."

That pair of eyes as if did not hear the same, brown eyes, like her very much... Because Zeng Jin, he is so close to her.

I don't know why, that look, too cold, no temperature.

If she hadn't seen his warm eyes, she felt that the person in front of her was not a person at all

"Why not? There are a lot of things in the world that can't be concluded so early. " She is not humble not overbearing of opening a way.

"I hate schemers."

It's hard work.

This is probably the first word that Ali heard to evaluate herself.

Looking at the man's deep eyebrows, she smile, "you are angry, it shows the importance of this secret to you, my purpose is very simple, you marry me, of course, our relationship can not be announced, you can continue to live your life, I am obedient, will not disturb your life, I promise."

With that, she felt as if the air had solidified again. Her tense face was magnified in front of her.

"Who gives you confidence that I will marry you?"

In front of this woman, wearing a mask, not clear face, but, in front of this woman sitting there, enough to have their own two people so thick.

The man's eyebrows are cold, and his face is full of some ironic smile.

That disdain is too direct, let that head sit on her side of a Li, there is a moment of embarrassment.

Indeed, it was hard for her to get into his eyes when she looked like this ghost.

After all, Su Xiaowan is so beautiful.

At the moment, Ali is biting her lips. She is not a cheeky person, and she has never chased other men. She doesn't know whether she really wants to come up with this idea for the sake of her adoptive father, or... There is her selfishness in it.

"But I'm the only one who knows who you are."

Man's eyes temperature disappeared, she is really very easy to make him angry very thoroughly, the fundus of the eye exposed the color of ridicule, for a long time did not disperse.

"Do you think people will believe what you say?"

"Hearing is believing, seeing is believing. I have the courage to negotiate terms with you. Of course, I came prepared."

Ah Li bit her lip. Now she is holding her knee tightly. She knows that she has no way back.

Now, since she has provoked him, even if it is a sea of fire in front of him, he can only rush through so hard.

"Just want to marry me?" The man's eyes are full of anger. His remaining light looks at the woman. At the moment, he doesn't see any other expression on the woman's face.

There was no fear, no fear.

His eyes are so watching, at this moment, in the air, are condensing tension.

Her hands clenched into fists.

"Yes."

The thunder outside is louder, the branches are swaying, and the water drops coming from the wind are hitting the glass at that end tightly.

Clang clang.

At this time, suddenly the man in the raincoat came to break the deadlock between them.

"Young master, the mountain has collapsed. We can't leave today!"

A Li lifts Mou, suddenly to go up in front of this man's dark Mou son.

It collapsed

I can't go.

Ali felt as if she had done something wrong.

In fact, she just wanted to keep him. If he didn't stay, she would take him with her.

Now all of a sudden, things are on the way she expected, but why is she so timid?

.....

So he stood in front of the French window with his back to the man.

"Shao Zhu, there are many landslides in several kilometers. The rainstorm came so suddenly that it interfered with the communication equipment. Now there is no way to contact the outside... Moreover, the supply inside the villa is less and less, if..."

It's a remote place where even takeout can't be delivered. Now, there's a landslide. The signal is

jammed, and we can't make a phone call. We can't contact people outside to clear the traffic.

The situation is very critical.

And downstairs.

A Li is holding an umbrella and is stopped outside by the bodyguard.

"I don't want to see you."

"You must have heard me wrong. He told me to stay here just now."

"Miss Su, it's no fun for you to do this. Although our young master is kind-hearted, he doesn't do charity. He has enough money for you. It's not difficult for you to go out and find a job. Why do you have to pester our young master?"

A Li just listened to the man's chattering words, eyelashes move, suddenly, fell to the ground.

The driver didn't expect that the girl suddenly fell on the ground. He just looked at the person at that end for a moment, and was stunned. He didn't know what to do.

When I lifted her up, I suddenly felt something was wrong.

"This wench looks at so much meat, actually not heavy... Puffy."

Chen Li carried her straight up the stairs. At this time, he suddenly saw the person at the end of the stairs, "little Lord, you haven't had a rest yet."

The man's eyes looked at the man in Chen Li's arms.

"This girl seems to have a fever. Now the road collapses. It's raining so much outside. Why don't you..."

"Don't worry, young master. I won't let her dirty the floor. I'll mop it up later, mop it up..."

Words turn to eyes.

At this moment, because of tearing, the girl's mask fell off long ago, revealing a chubby face.

I don't know how many times bigger than the palm of his hand.

Such a little girl dare to threaten him.

He had never met such a person.

Chen Li really didn't find something wrong with Yan's eyes. He was tense at the moment and just wanted to send the person to the room as soon as possible.

When he came out, he looked at Yan Zheng standing on one side, while someone around him was talking to him.

"Madam, I'm worried about you, young master."

madam.

When he mentioned that person, his face showed some disgust.

She's completely destroyed.

Now, when things happen, I want to find her in a hurry to continue to replace that person.

For more than 20 years, he didn't have his own life. He lived for her all his life.

But now that we know the truth, it's really ironic.

Those unwarranted gratitude and resentment never belong to him.

The man's eyes were heavy, the rain was heavy outside, his eyes were cold, his dark eyes were heavy, and the corners of his mouth were tightly pursed into a line. I don't know if I knocked on the windowsill intentionally or unintentionally.

There was a thumping sound.

The man standing there knew that he was angry now.

"Young master, madam, I really want to have a good talk with you this time. After all, madam has raised you so much. The grace of raising you is greater than heaven."

He tugged at the corners of his mouth with a cool look in his eyes.

Under the eyes, a sharp light flashed.

Maybe.

There's a way.

Just at this time, the man at the other end suddenly ran in, walking in a hurry, with moisture on his body.

"Young master, the communication equipment over there has been restored. Madam called."

The man had a phone in his hand.

Over the years, Yan did not have his own confidants around him. Even if he had them, they were few.

On this business trip, basically all the people I brought with me were my own, but I even came here for cigarettes.

So placed in his side of a few, where he can one by one one know.

"..." the man took the cell phone and did not speak.

But the people at that end don't know how to know. At the moment, her voice is like a loving mother.

"Yan, I'm mom!"

Mom, these two words are strange to him all of a sudden.

The man holding the mobile phone has no expression and his sight is cold.

She took her cell phone and walked aside.

"If you want to restore your identity, be yourself. I'm selfish, and I have to lead you to hell... And you should not refuse to contact with girls..."

"Slap a sweet date? Madam Lian, you are really good. "

"Yan, I know that no matter how much I say, there's no way to make up for the damage I've done to you over the years, but mom really didn't mean it."

"..." said nothing more.

"I asked you to replace Xiaowan's identity. I asked you to be her, which caused trouble to you. Now let you... I'm sorry, but I didn't think it well enough to hurt you and her... But I did it. I'm willing to bear all this alone. Xiaowan doesn't know anything. Would you let her go?"

Even the eyes and ears of Yan naturally knew Su Xiaowan and Yan's story during this period of time.

In his view, Yan suddenly ran to this place, now, is trying to appear in front of Su Xiaowan.

It's hard for her not to think about it.

This remark, for Yan, was no doubt toppling. It hit the softest part of her heart. It was clear that she was

invulnerable. But at this time, she felt that everything in front of her was so ethereal.

He is an abandoned baby.

This kind of cognition makes him feel that his life is like a joke.

Yan clenched his fist tightly, he is not a girl, naturally there is no way to shed tears bit by bit.

However, the heart of the pain, like unable to end, after all, more and more festering.

"... dudududu..." he didn't say a word more, but hung up the phone directly.

And a woman thousands of miles away, holding a cell phone.

In the brain, as if emerges the baby resounding cry.

That night, she gave birth to a full day and night, also in such a snowy night.

Outside, it's snowy.

When she woke up, the child disappeared.

For a mother who has just given birth to a child, the child is bigger than the day.

But she just disappeared.

She didn't mean to pull the boy into such a chaotic world, but life and death, it seems that only life is the most important thing.

But it's more difficult for people like them to survive and save their lives.

Su Xiaowan can't understand words.

No one will know.

"Madam, is he still unwilling to come back?"

Chapter 808

"Lao Xu, did I really make a mistake..."

Her protection is now like a knife.

She thought they would be good, but now, none of them is so good

"Don't worry, miss. She will be happy when she follows the second master of the Mo family. It will be sooner or later for him to think clearly. Don't worry too much. We can't help a lot of things."

There was a bloody smell in the chest.

It soon filled her mouth.

"You find a few people and pay attention to her situation at any time. I don't want the last thing to happen again."

"Yes."

.....

It's actually Hailing outside in this season.

Beating the window, so constantly beating, wet air, there is a very wet smell.

The room was silent. Suddenly the door was opened, but it was soon closed again.

Ali was awakened by the heat.

The temperature of the room was too high. For a moment, she was sweating. When she woke up, she found that she was in a strange room. He touched his forehead, but it was not as hot as before, but the environment was too hot.

Because of sweating, the silicone adhesive on her body was about to slip off her cheek.

At this time, I just felt that the door was open, and Ali touched her cheek. This silicone material can't touch the water. Once it touches the water, it's easy to get rid of it. Brother Chen had a lot of effort to find this batch of materials. After finishing her whole body last time, there was not much left, because if it can be used properly, it can be used for a long time.

But she doesn't know why the air conditioning temperature here is so high.

It's as if it's going to heat people to death.

A Li suddenly directly retracted into the quilt, because she knew that she was not retracting into the quilt. When the light came on, everything would be late.

"Don't pretend." The man seems to have expected that when the woman wakes up, the cold voice penetrates the eardrum, and now it hits a Li's heart like a knife.

No one knows how Ali feels.

Maybe I've seen all her tenderness, but I haven't seen his indifferent attitude. Of course, tenderness is not because of treating her, but because of treating that person.

She was jealous, and she hated it.

The crystal light on her head is very bright. Ali knows that the man turned on the light. She pressed the silicone on her face with her hand. After finding that it was correct, she got out of the quilt.

But the darkness for a long time made her unable to see the person in front of her for such a moment.

As if I was only in a dream, I felt that everything in front of me was false.

It wasn't long before Ali got used to the environment.

The indifferent man's eyes, so pressing.

She didn't know why, probably because she was ill, but the person in front of her felt different. At this moment, there were many pictures in her mind.

For example, he is busy in the hospital for a woman.

And she saved this woman.

Finally, the adoptive father died.

Such a series of pictures, like a PPT demonstration, hit his heart hard again.

As if, want to forget can't forget.

"Little master."

The white fingers stretched out from the quilt. Ali's hand didn't use the silicone, but her own.

The next second, the man at that end suddenly held her tightly.

they hurt.

It's rampant.

They looked at each other, but Ali didn't say a word.

I can't recall it for a moment.

Before her eyes, the man's face appeared, which slowly changed, and finally, with disgust.

"I underestimated you."

The man's hand tightly pinched the woman's chin, forcing her to look at him like this.

"I... what's wrong with me?"

"What's the matter?"

The mobile phone is so lost in front of her. Ali looks at the words in the mailbox.

A slight frown.

"Dare you say you didn't do it?"

Chapter 809

Above, it turns out to be a report on gender.

But she never knew these things. Who sent this?

She didn't even tell brother Chen about it.

"I did it, I'll admit it, but I didn't do it."

Oh.

"I don't shed tears when I don't see the coffin."

"Young master, since I've come to talk to you in person, I won't do these sneaky things. I'm quite sure that I can come to an agreement with you. Why should I send you such a message? Besides, how can I know your email address? I don't even know your name. "

"I won't admit it, will I?"

"I really don't know. What do you want me to admit? Although I want you to marry me, I won't do anything that stabs others in the back. I have a bottom line. "

A Li also fell into the moment of brain confusion floating, empty eyes with firm looking at the man in front of her.

"Bottom line? Your bottom line is this shameless threat to a man to marry you? "

"I... what if I don't know shame because I like you?"

"Like it? Oh, who gave you the courage. "

"Although I'm just a humble servant, my heart is on me. I want to like who I am. Believe it or not, I didn't send this. Besides, I've been lying here and my mobile phone is not on me at all. Where can I send these things to you? If I had these things, I would have convinced you. I still need... "And I need so many words.

"Did you forget what you said? Do you need me to remind you? "

A Li is surprised. At this moment, if it's not because the person in front of her is very close, she can't think of anything, and can't be directly held by her. She can't do anything.

She hated her helplessness.

But at this time, she has no way to admit defeat.

If you admit it, it's even more

"I haven't done it. You can check it. I didn't do it. I won't admit it. If you can't find out that it's me, it's not too late for you to come back to me."

"You can continue to anger me without fear of death, but remember, I want you to disappear in this world easily, don't do stupid things."

A woman's hand is slightly tight.

"I'm going to recognize empty teeth? People come and go in your villa. Don't other people find out? Do you think everyone is stupid? After my observation over the past few days, in fact, your life habits tend to be more male. For example, the color system in the bedroom tends to be dark black. Where can I find a bright tone in your place? Girls all like pink and tender colors, no matter from one year old or 80 years old, they all like this kind of pink and tender color, but can you find this kind of pink and tender color on your side? I won't be the first to discover it, nor will I be the last to discover it. The things you do are too simple for you. With so many men, can't they find that you are different from others... "

The man's fierce eyes were staring at the woman, and then the next second, he slammed the door heavily.

I don't know why. At this moment, Ali feels that she has fallen into a trap.

But he didn't know who made the trap.

Ali is ill again.

Her illness is very serious. She has been feverish again and again. At night, she seems to be out of breath.

She can't die

In a word, it just sticks.

Until a few days later.

An old man appeared in front of him.

"Miss Su, the young master agreed to what you mentioned that day."

Pick it up?

A Li had a disease, and almost couldn't remember anything.

However, the old man's deep look reminded her all of a sudden.

"You mean... Marriage?"

"Yes."

Out of the ward, Ali felt that she was dreaming just now.

But why did you suddenly agree to this?

She didn't have much happiness, but felt that she had a long way to go. It seemed that she was no longer the one who took the initiative in this matter.

.....

On the dining table.

Chen Liangliang sat there, watching the two people at the other end kiss me, and I was more and more disgusted.

Su Xiaowan receives the woman's malicious eyes. She really doesn't like this woman.

Although Feng Yan said it was his sister.

But she didn't like her sister.

Chen Liang Liang looked at Su Xiaowan, who raised his eyes, and now lowered his head.

Anyway, she'll get this man back.

Su Xiaowan, she is nothing.

When Mo nanjue came in, he was decadent and his face was full of haze.

"Come out."

Su Xiaowan took a look at the letter and didn't know what Mo nanjue was going to do.

The man threw a steady look at Feng Yan, pushed the chair aside, and then followed him out.

outside.

"What do you mean by the things your men sent me?"

"Dare not even go to her?"

"... is she really alive?" When a man says it, his tone is unbelievable.

She clearly saw the cold body, that night, he excuse me for a whole night, that person is so real, even the temperature is abnormal, but now it has made such a thing.

She was drunk all day, but she found that the dead man was still living, living in a corner of the world.

At that moment, he felt that he had not sobered up.

But after washing my face in cold water, it's still like this

He rushed to find Feng Yan and asked himself.

"I don't have to lie to you."

"What do you want to tell me?"

"The people you live are not like human beings or ghosts. I really can't go on watching them. The day after tomorrow, Su Xiaowan and I will return home. After that, things here have nothing to do with me."

"What do you mean?"

"She and I don't have much interest in those things. All she wants is a warm home. I don't want much, just have her."

Su Xiaowan came here for her and left his hometown. When he was also unfamiliar with the environment here, he probably had nothing to do with the place except the blood relationship.

He should do something for her, too.

In fact, they should have left long ago, but they are going to finish the first seven days of molting.

With that, the man turned and walked in.

And now, in the living room of the villa.

But in a hurry.

Chen Liangliang was pushed to the ground, and his hand was red, as if he had been poured directly by boiling water.

"What's the matter?"

Chapter 810

But Su Xiaowan, who was standing there, stood there with a cold eye.

Su Xiaowan's eyes fixed on the woman in front of her. She thought she had met many people, but she still didn't escape.

"Just now the little grandmother wanted to drink water, Miss Chen went to get the kettle..."

"I accidentally knocked down the kettle. It's nothing to do with Miss Su." Chen Liang Liang interrupted the woman's words at that end and was helped up at the moment.

"Miss Su, are you ok? I'm so clumsy just now. I'm sorry, I'm so stupid..." Chen Liangliang has been calling Miss Su Xiaowan. In fact, she is in the villa, because Feng Yan has already hinted

So those people basically call young granny.

Only she called Miss Su.

As if they had nothing to do with this person in front of them.

But in fact, they always hit men in the face.

Feng Yan is there checking Su Xiaowan's wrist, but has been ignoring his scalded arm.

Chen Liang Liang, is under the heavy this, that just was true, all sprinkled on his wrist.

At the end, Feng Yan saw the woman's bare arm.

"Go and ask the doctor to show Miss Chen."

"Yes.

Su Xiaowan took a look at the woman at the other end. She didn't know why. She seemed to see the secret joy from her eyes.

Then the woman was taken away.

Su Xiaowan was also brought into the bedroom.

In the episode just now, Su Xiaowan didn't pay attention to it. Only Feng Yan's concern remained in her eyes.

"By the way, what happened to Mo nanjue just now? I came to you all of a sudden. What's the matter? "

The man's hand so tightly to her, "it's OK."

"Don't lie to me. If you have anything, you must tell me."

The man looked at her with a smile, "are you worried about me?"

"Of course I'm worried about you. It's not easy for us to get together. I don't want you to be in..."

A man's overbearing kiss grabs a woman's lips.

The eyes reflect the woman's red face, full of satisfaction.

"This is our first new year. Su Xiaowan, we still have many, many years to spend together."

Feeling to the depth, the slender figure tightly grasp the man's wrist.

He went up to kiss the man's lips

"Feng Yan, we will not separate."

"Well."

.....

Chen Liangliang's hands, because they were scalded by boiling water, have already bubbled.

"Miss, during this period of time, you should not touch the water, and the blister should not be punctured, otherwise it is easy to leave scars..."

The woman doctor stood there looking after her.

Chen Liang Liang did not have a trace of interest, "go out."

"Then I'll go first. You can call me if you need anything."

The woman doctor went out and closed the door for her.

Chen Liang's hands hurt so much that he couldn't sleep at all.

She got up and went out.

The yard is very quiet. Now she is the only one left to pace. In recent days, the Mo family is in a mess, but she can't understand why she was left here?

Obviously, the death of Mr. Mo has nothing to do with himself.

However, those incense and so on, basically have her participation.

She became more and more confused.

"Did you hear that? Miss Chen, who lives here, is my wife's niece --! "

"What?"

"Shh... I heard that just now when housekeeper Mo and Mr. mo were chatting there."

"True or false?"

"Of course, it's true. I'm afraid I've heard it wrong. I've listened carefully! No wonder that Miss Chen wore a white belt on her waist when her husband was buried that day... I thought that her affair with the second master had come to an end! But these days, you can see that the second master and the little grandmother are inseparable, and they are very affectionate. "

"It's true that you said that. That day, I was also curious that the Chen family had nothing to do with the Mo family. How could miss chen suddenly be allowed to... Now, it seems that everything makes sense."

"Shh, keep your voice down. Only a few people in Mo's family know about it. Don't pass it around."

"Don't worry. I'm very strict. It seems that I have to be more respectful to Miss Chen in the future."

“.....”

“.....”

Chen Liangliang stood there, listening to the two women's detailed comments.

Niece.

There was a pause of a few seconds. The next second, a smile came from the corner of the woman's mouth.

These days, all the problems that can't be explained are solved.

She remembered the jade pendant Mo Heng had given herself that day.

I bought it through an auction house a while ago

The jade pendant didn't belong to her.

It's Chen Xiaoxiao.

She suddenly thought of something, went to the room, took things and drove away from Mo's house.

When I came back to Chen's house, the lights were bright.

When she went in, she saw Chen Xiaoxiao, kneeling on the ground, and at the moment there was Chen's father burning with anger.

"Who makes you so shameless? My Chen family doesn't have a daughter like you. Get out of here!"

Chen's father was very angry at the moment. When he saw someone coming, his anger didn't go away, but Chen's mother said, "Liang Liang, how did you come back?"

Chen's parents were worried about Chen Liangliang. During this time, Mo Lao died and suddenly let Chen Liangliang go to Mo's home. He was his own daughter, even though Chen Liangliang would talk to them at any time.

However, the daughter is not at his side, where is always wrong.

Now I see Chen Liangliang come in intact, and forget Chen Xiaoxiao kneeling there.

Two people gathered around her, asking questions.

Chen Xiaoxiao looks at the woman at that end and says that it's fake not to envy. No one does not envy

being loved by his parents. That kind of love is not given to you by all the people in the world.

She was on her knees.

I feel my stomach unconsciously.

She's going to keep the child.

Even if it was a child of unknown origin.

But it was the only child connected with her own blood, her only relative.

"What's the matter, mom and dad?"

Chen's father sighed, his eyes full of disgust, but Chen's mother stood there and secretly told Chen Liangliang about Chen Xiaoxiao.

Chen Liangliang knew that it was Chen Xiaoxiao who was pregnant.

Or a little bastard whose father doesn't know.

Chen Liangliang eyebrows slightly raised, originally, let Chen Xiaoxiao be driven out, is what she wants day and night.

But now, she can't let her leave the Chen family.

"Mom and Dad, you don't know who my sister is. My sister must have a hard time. Please forgive her."

Chen Xiaoxiao took a look at Chen Liangliang who spoke for her.

Seeing his provocative eyebrows, Chen Xiaoxiao's heart sank. She didn't know what she was going to do.
