

1051 NEW LIFE OF THE WEI WU ARMY

After Lu Shu finished giving out 63 black armor and over 5000 tridents, he felt satisfied. For some reason, he felt an unprecedented sense of satisfaction when the items he had been storing for so long were finally useful in battle.

Yes. He had to use what he had saved. Saving brought about the delight of having gains, but being able to employ limited resources where they were needed most brought about another sense of achievement. Lu Shu felt that he was slowly learning how to serve.

In the past, he was scared of poverty. He wanted to take everything, because he wanted to be prepared against the rest of the world.

But throughout the process of training, he had met many people and experienced many things. He had slowly reconciled with the world.

Perhaps this was what everyone had to face in the end. The loneliness that a young man possessed while treating the world as his enemy had to give way to responsibility.

When the Wei Wu Army charged into the palace without regard for their own safety for Lu Shu's sake, and when the Wei Wu Army went past the limestone road, Lu Shu had made a decision.

He looked at the delighted Wei Wu Army. But before he could say anything, Liu Yizhao suddenly weakly interrupted him. "Great Lord, what about my armor? I have advanced to Rank One as well..."

"Hm?" Lu Shu awkwardly and politely smiled. "Ha ha ha, have you forgotten? I

wanted to leave you to the last as a solemn act..."

Thus, there should be 64 Rank One experts in the Wei Wu Army, including Lu Xiaoyu... Lu Shu was puzzled. His mathematics scores were good. Why was he always wrong when adding numbers above ten?!

Lu Shu felt that it was not his responsibility. He was not wrong. It was the world that was at fault...

Liu Yizhao earnestly said, "Thank you, Great Lord."

Li Heitan instantly chimed in. "Great Lord, I want the black armor as well..."

"No." Lu Shu rejected him. "There is a limited number of black armor. Those who advance to Rank One first will receive the armor. Furthermore, there are only 100 sets of the armor!"

The rest of the Wei Wu Army were restless. The Great Lord meant that... whoever first advanced to Rank One first would be able to receive the black armor. They even had to compete for their position!

Almost 100 people in the Wei Wu Army had advanced to Rank Two. Advancing to Rank One would not be impossible.

But there was a problem. There was only a limited number of armor. First come first served!

Lu Shu was about to continue speaking, but saw Li Heitan and the rest sit on the ground. They began to train. Lu Shu did not know whether to laugh or to cry. "Stand

up, all of you! This will not do. Go forth at once! If you want to train, you have to pick a good location as well!"

Li Heitan and the rest stood up and brushed the dirt off their bodies...

Furthermore, they had followed the Great Lord for a long time. If they were able to wear the armor that represented the core of the Wei Wu Army, how wonderful would it be?

Before the various forces from the palace could arrive, the Wei Wu Army had started to advance to the north. They wanted to first reach Nangeng City for repair and maintenance. Then, they would head to the West Region!

The palace obtained information very quickly from the cities along the way. The Wei Wu Army was returning to Nangeng City. Everyone could finally heave a sigh of relief. It was as if the amount of mischief caused in the palace had dropped once Lu Shu was gone.

Hm? Why did everyone have a misconception? Duanmu Huangqi was the one behind this, right? Why did it feel like Lu Shu was the one behind everything...

What was this?

Zhang Weiyu rode on a horse while wearing his new armor. He looked back at the lofty palace.

He had told Lu Shu to go to the Wei Wu Army, but Lu Shu had become the commander of the Wei Wu Army. When Lu Shu said that he wanted to go to the palace, Zhang Weiyu had started to look forward to what Lu Shu was capable of. Lu

Shu had dyed an entire stretch of the palace red with blood, and done something that no one had dared to do for 1000 years...

Fate was a strange thing. Zhang Weiyu felt that there would be many rare and odd events waiting for him in the future.

It was as if the curtains were being pulled to reveal an even greater era.

No. Zhang Weiyu felt that the metaphor of curtains being pulled was not very accurate. Lu Shu had burned the curtains, revealing the ferocious scene on stage.

He had suggested to Lu Shu that while they were marching, he should not take out the black armor. It would be better for them to keep them. Furthermore, Zhang Weiyu and the rest had to hide within the Wei Wu Army to prevent being discovered by spies along the way.

Since Zhang Weiyu and the rest had recovered their strength, they had also begun to regain their youthful appearances. If someone realized this, they would realize that it was not a coincidence for so many Imperial Palace Soldiers to be gathered together.

Furthermore, they had to use their most effective attack where they needed it most.

Lu Shu accepted this suggestion. He also felt that concealing them would be better and more stable...

Little Fury's army of mice returned to the mountains. To the army of mice, they belonged in the mountains. Furthermore, the mice dispersed themselves around the Wei Wu Army, forming a natural barrier.

While they were marching, Lu Shu realized that Li Heitan and the rest maintained their training position while on their horses. It was as if everyone was determined to wear the black armor!

At first, while the Wei Wu Army marched, some people accidentally fell from their horses. Such things could still happen in the Wei Wu Army, who was experienced in battle. When Lu Shu saw this, his expression darkened.

But very quickly, Li Heitan and the rest got used to this rhythm.

After all, back then when the Azure Study Group had been pushed by Zhang Weiyu, they had to train while carrying a massive boulder on their backs. Riding a horse was already very comfortable. They did not have to do homework either...

When they set up camp halfway, Lu Shu occasionally ran to the kitchen. The soldiers in charge of cooking were slightly puzzled. Why did the Great Lord come so often?

They did not think much of it then. When they ate, they realized that the soup they had cooked was slightly strange. Every time they drank the soup, a warmth seeped into their limbs and bones!

Zhang Weiyu and the rest were most familiar with this, as it was the refresher fruit they had eaten! Thus, the moment, they drank the soup, they knew that Lu Shu had included refresher fruits in the soup!

Wait. This seemed familiar, but Zhang Weiyu was not too sure...

There were some things where the more you expected of it, the more you did not dare to make a conclusion.

Before this, some people in the Wei Wu Army did not like to drink soup. But as they returned to Nangeng City, Lu Shu ordered everyone to drink the soup.

They were not foolish. This order was slightly excessive. The moment they drank the soup, they knew about the benefits of the soup. That day, there was not enough soup to go around. Some people had to be deployed to distribute the soup!

But when they started to train, they realized that their progress of training was much faster than before! It would add up as the days passed. If they drank the soup everyday, how far would their training progress in the future?

It was as if everyone in the Wei Wu Army was on fire. They were full of passion for training. They did not need the supervision of anyone!

Zhang Weiyu suddenly felt as if the Imperial Dragon Soldiers were about to appear in the world again.

1052 YOU HAVE ASKED THE RIGHT PERSON

The Wei Wu Army headed north. The cities they passed by all closed off their entrances. Lu Shu was rather curious. Although he had killed many people in the palace, they did not have to close off their cities when he came, right?

Later on, Lu Shu realized that every time he passed by a city, he would mysteriously earn a wave of distress points. What was happening?

When Lu Shu curiously asked Liu Yizhao and the rest about this, they did not know whether to laugh or to cry. Coupled with this was the trouble that the Wei Wu Army had caused earlier. They had stolen far too much grains from others...

But when Li Heitan, Liu Yizhao, and the rest talked about this, they did not feel stressed. They knew what their Great Lord was like. As long as they paid the cost price and not actually steal the grains, their Great Lord would not mind. After all, the Great Lord was the true bandit...

Along the way, Lu Xiaoyu curiously asked, "Didn't you say that we would give them refresher fruits when we return to Earth? Why have you given them the fruits in advance?"

"Haven't you guessed why?" Lu Shu laughed cheerily.

Lu Xiaoyu glanced at Lu Shu. She knew that Lu Shu had changed his plans when the Wei Wu Army charged into the palace.

At first, they had discussed that they would leave the soap factory and some refresher fruits to them before they left. Then, Lu Shu and Lu Xiaoyu would return to Earth and never come back.

But now, it was as if Lu Shu was no longer thinking about this. When he took out the refresher fruits in advance, it meant that Lu Shu had decided to bring the Wei Wu Army back to Earth!

"You had better think carefully about it. We have over 5000 mouths here. They have to eat everyday," said Lu Xiaoyu. She knew how much they ate, since she was the one in charge of the accounts.

According to normal standards, the amount of food that the Wei Wu Army ate in one day was enough to feed another army of the same size for five or six days!

They could still support this rate. Lu Shu even took out grains from his Seal of Lands. He did not ask for anything from the cities they passed by in order to avoid unexpected trouble.

The large organizations who had surrounded Tiger's Back back then were very generous. The dozens of warehouses full of daily necessities, as well as the cargo on the sea, were enough for Lu Shu to feel secure.

Others said that grains should move before men and horses, but Lu Shu carried grains with him. It was enough for the Wei Wu Army not to return for another three to four years...

But three to four years were nothing to Practitioners. If Lu Shu wanted to bring the Wei Wu Army back to the Earth with him, he had to face the issue of earning money once again...

The Wei Wu Army trained as they marched. After everyone had eaten the refresher fruits, they started to advance. When they returned to Earth, there might not even be any Rank Threes.

Many Heavenly Kings in the Heavenly Network were Rank Twos. If he brought back over 5000 experts who were on the same level as the Heavenly Kings, would the organizations on Earth be afraid...

Of course, Lu Shu felt that the Wei Wu Army could not assert dominance, as the mission of the Heavenly Network was to protect their territory. However, the Wei Wu Army did not have the same intentions.

Thus, it would be a problem to integrate the Wei Wu Army.

Lu Shu did not feel that he would return to the Luniverse. He was tired of the battles here. He was tired of the vortex of authority here. Furthermore, the other side of the barrier between the two worlds represented Lu Shu's pleasant memories.

Lu Shu did not even know how many refresher fruits he had fed the Wei Wu Army with. Everyday, he thought about how to gain these distress points back. If not, he would feel discontent.

Thus, the Wei Wu Army started to train and do homework while they advanced. Li Heitan and the rest were dumbfounded. What was this?!

At night, they set up their tents.

"Great Lord, what do you think the world on the other side of the space pathway is like?" Li Heitan asked curiously.

"Have you done your homework? Why are you asking so much?" Lu Shu asked.

Li Heitan was confused.

"From Li Heitan's distress, +666!"

Suddenly, Li Heitan realized that back then, when he asked senior disciple Little Fury whether he would follow the army or the mice, senior disciple had said that he did not dare to follow...

Senior disciple was very wise...

Li Heitan said, "I don't think that the Great Lord knows nothing. You might know what is behind the barrier between the two worlds."

Lu Shu picked his eyebrows. "Let me tell you. You have asked the right person..."

"From Lu Xiaoyu's distress, +199!"

Lu Xiaoyu gave a look of disgust. When would Lu Shu stop being so childish?

At that moment, Yi Qian had bought information regarding the West Region. There were many Black Feather Army troops gathering outside the space pathway. Thus, the situation was hard to control.

Thus, the Wei Wu Army now knew that after Duanmu Huangqi had left the palace, he had gone there, but left because the space pathway had temporarily closed.

Now, the soldiers were waiting for the space pathway to open up again. This time, Duanmu Huangqi would personally go there!

But this was no longer uncommon to the Wei Wu Army. After all, when they had set off, they knew that the Great Lord would lead them to fight against the Black Feather Army. It was a matter of time before they had to face Duanmu Huangqi.

As for Li Heitan and the rest, they were curious about the new world beyond the space pathway.

People were innately curious. They wanted to know whether the people from that world looked different from the people in the Luniverse. They also wanted to know how the food tasted like there...

But they did not know that Lu Shu was from that world.

Lu Shu thought about it and said, "That place is called the Earth. They also have the four seasons, as well as night and day. In spring, children will go outdoors and fly kites. They will hold a string and run like the wind. The kite will fly higher and higher in the sky. In summer, the adults will bring the children to swim. The children who cannot swim will play in the water and have a lot of fun. In autumn, the sides of the roads will be filled with fallen yellow leaves. There are plenty of fruits to harvest as well. In winter, children will have snowball fights on the streets. They will stuff snowballs into their friends' clothes... there is a lot of good food, more than in the Luniverse..."

All the soldiers of the Wei Wu Army gathered around the bonfire where Lu Shu was at and listened quietly. Lu Xiaoyu sat beside Lu Shu and watched the fire.

She knew that everything Lu Shu said was what he had desired in the past. The kites in the orphanage were old and tattered. Some were even spoilt and could not fly at all.

In summer, the teachers would not bring them swimming. Occasionally, they would see adults carrying floats and walking past the orphanage with children. The children in the orphanage would clamor at the gates and watch them enviously.

The fruits in autumn had nothing to do with them. There was snow in winter, but Lu Shu had no friends.

Back then, Lu Shu was very lonely. Lu Shu had always been lonely.

But it was fine now. Lu Xiaoyu silently thought about it. She would definitely follow

Lu Shu until the seas were dried up and the sky collapsed, as long as Lu Shu allowed it.

1053 THE RETURN OF THE PUPPET MASTERS

In the fields, two people in black robes appeared with two iron-clad puppets in one of the croplands. After they looked at each other, one of them released the 18 wooden puppets in their sleeve.

The wooden puppets quickly bounced around the field, as if they were looking for something.

After half an hour, one of them suddenly said, "Cloud Yi, we've found a clue. The northwest."

Cloud Yi removed her black hood and looked in the northwest direction. "Let's go."

They did not fly there. Instead, they ran on the ground. They had just returned here. It was not much different from when they first came here. Thus, it was better to be more cautious.

Cloud Yi stood on a mountain creek. She suddenly furrowed her eyebrows. "There is no sign of life. No one has come here in a long time."

"Did anything happen to Zhang Weiyu and the rest?" Tiger Zhi observed their surroundings. "There are footsteps nearby, as well as horse prints. An army has passed by here. Look. The stones below the mountain creek are cracked. Someone used a weapon to do so."

"Let's go in and take a look." Cloud Yi jumped down the mountain creek. Then, she walked towards a small waterfall. When Cloud Yi approached the waterfall, the water naturally gave way. It was as if she had an invisible aura.

After they went in, Tiger Zhi took out a Night Pearl and lit up the cavern behind the waterfall. There was a tattered quilt in the cavern, as well as some rotten food, but it was a mess.

There were even weapon marks on the tattered quilt. It was as if someone had used a knife to explore this place.

"There are no signs of battle or blood. They probably escaped in advance," said Cloud Yi calmly. "Who was chasing them? How were they able to find this place?"

On the other hand, Tiger Zhi was very silent. "Look at what they ate. The bowl in the corner still has some distiller's dregs in it. The quilt is tattered as well. They must have lived a difficult life."

Cloud Yi looked at the bowl. If they were not in dire straits, would they eat such things?

Furthermore, the distiller's dregs did not seem to be very old. From the look of things, they did not spend more than one year here. Thus, this meant that Zhang Weiyu and the rest were still waiting, but had left the fields because of a sudden unforeseen event. They had no choice but to flee.

The 18 wooden puppets Tiger Zhi had released were used to find Zhang Weiyu and the rest, but they did not find them.

They had found some clues in this cavern, but the cavern was vacant.

When Cloud Yi thought about how the Black Feather Army fought the Heavenly

Network, Cloud Yi suddenly said, "I'm afraid Duanmu Huangqi's men have come here, but Zhang Weiyu and the rest obtained information in advance and left."

But how did Duanmu Huangqi know about the space pathway leading to Earth? Who gave him the courage to do so?

"Wait." Tiger Zhi suddenly said, "Do you think that Zhang Weiyu is together with that fellow? He would have passed by this place as well."

"That's not impossible." Cloud Yi nodded her head and calmly said, "If that is the case, we can only hope that he can be more normal."

As she spoke, Cloud Yi ordered a small wooden puppet to go out of the cavern and go into a tiny hole. If one did not look carefully, they would not have realized that there was a secret in this small hole. It seemed like an ordinary hole that had been naturally constructed. It was very deep.

Not long after, Cloud Yi displayed a puzzled look.

"What's wrong?" Tiger Zhi asked curiously.

At that moment, the small wooden puppet held a black stone. There was a note tied to the stone. There was nothing else strange about the stone. It had been used to store the note in a deep place. The wooden puppet jumped on Cloud Yi's hand. Cloud Yi took out the note and saw Zhang Weiyu's words. "The Black Feather Army has infiltrated the boundary. Those who have been waiting here have been forced to leave. There are 56 of us left. We have not forgotten our origins."

Tiger Zhi looked at the note and sighed. "They have been suffering."

Cloud Yi said calmly, "Third Brother has merged his body with the tree to pay for his sins. Their sins should have been forgotten as well. But finding them will be difficult. Let's attend to more important matters first."

"Sure." Tiger Zhi nodded his head. Although he empathised with Zhang Weiyu and the rest, in the face of greater matters, he could only cast this empathy aside.

Before they returned, they had promised that the first thing they would do was to confirm whether the head of the Puppet Masters was dead. If he was dead, where was his corpse? Had it been placed in a coffin?

Many strange things had happened that year. Dream Chooser, whom they thought was dead, had suddenly "revived". Thus, Cloud Yi and Tiger Zhi had another spark of hope. They had not seen their Older Brother die with their own two eyes. They simply felt that he had no reason to continue living.

If he was really dead, they had to find his body and place it in a coffin. Even this was not worthy of their relationship as brothers and sisters.

Tiger Zhi knew that Arcane's return and reconciliation caused Cloud Yi to desire for affection among family members.

They had followed the old King of Gods when they were young. The old King of Gods was like their father and the eldest brother of everyone. Every single Puppet Master was a member of the family.

Later on, they grew distant due to power and authority. The bonds between them weakened.

Cloud Yi was still a young girl then. Everyone doted on her and gave in to her. Now that Cloud Yi had grown up, she wanted to try and find the things she had lost.

The two of them walked out of the cavern to the northwest direction. 18 years ago, they had been chased from there as well.

Tiger Zhi was suddenly hesitant. "Should we find the king first? What if he is in danger?"

Cloud Yi looked at Tiger Zhi. "If the king needs your protection, then he is not a king. Look at when he was on Earth. Even without our protection, he was full of vigor."

"You're right." Tiger Zhi was instantly convinced by Cloud Yi...

They were the only Puppet Masters left. Many outsiders knew that Tiger Zhi was brutal, but was obedient towards their Older Brother. After their Older Brother was gone, he listened to Cloud Yi. He was not willing to make any decisions on his own. He was only willing to be a follower.

While Cloud Yi walked, she asked, "What do you want to eat for dinner? Hotpot or barbecue?"

Tiger Zhi thought about it. "Barbecue?"

"All you know is how to eat! Find that place, eat the fruit, and go through the heavenly punishment before talking about food!" Cloud Yi gave him the cold shoulder.

Tiger Zhi was confused.

You were the one who asked what I wanted to eat for dinner, right?

1054 THE NEW WEALTHY FAMILY, LU SHU

When the Wei Wu Army returned to Nangeng City, the civilians of Nangeng City stood by the sides of the road. They had heard the news of what had happened in the palace from traveling businessmen.

Thus, the Wei Wu Army had rushed to the palace. Furthermore, the news that the commander of the Wei Wu Army had single-handedly killed 12 patrons from the West Region spread like wildfire.

Lu Shu had not been alone. Lu Xiaoyu had been there with him too, but outsiders did not know about this.

Lu Shu did not know that everyone had stopped calling him the commander of the Wei Wu Army. Instead, they had started to call him the head of the Wei Wu Army.

It was similar to the head of the Sword Hut. It was as if this name was to distinguish him from the 11 other armies in the North Region. He was on a completely different level from the rest of the commanders.

No, there were only ten other armies, since the Qing Sai Army had disbanded. The commander of the Qing Sai Army, Liu Yizhao, had become a scout in the Wei Wu Army. Many people could not believe this.

The horses of the Wei Wu Army slowly made their way into Nangeng City. This was Lu Shu's territory. He was the lord here.

Lu Shu originally pondered whether the civilians of Nangeng City would be afraid of

him when they learned about this. Perhaps Duanmu Huangqi would take revenge and bring about danger to Nangeng City.

But to his surprise, not only did the civilians dare to approach him, they seemed excited as well.

This was the difference in concepts between Lu Shu and the civilians. Everyone knew that masters were not able to attack during battles. This was a rule established by the old King of Gods. Thus, since Lu Shu was able to return safely, this meant that Nangeng City was unassailable.

But they did not know that Duanmu Huangqi had started a war on Earth. They did not know that the next time the space pathway opened, there were soldiers waiting for war at Longmen Mountain.

It was the same in North America and in Northern Europe.

They did not know that the Wei Wu Army was only stopping here for one day. They would set off immediately after and go to the West Region to kill.

Lu Shu had just returned to his mansion when Li Heitian informed him that several traveling businessmen were looking for him. After listening to them for a while, Lu Shu understood. These traveling businessmen without owners were backing his business!

They were like the traveling businessmen under the Sun family. Businessmen who sought refuge with major powers would live a better life.

But there were many small businessmen in the Luniverse who dreamed of doing the

same!

They did not have any better training techniques. Thus, they could not complete the transition between ranks. They would only wish for experts!

Lu Shu was the strongest person besides the masters. Even if he entered the palace, he was able to play mahjong with the wealthy families there. Moreover, Lu Shu had the Wei Wu Army!

He had single-handedly killed 12 patrons. These patrons were the top experts among Rank Ones in the Luniverse. Who would dare to face Lu Shu head-on? No one!

Furthermore, if the Rank One experts from the lower nine wealthy families in the palace did not work well together, Lu Shu might be able to kill them himself...

Thus, Lu Shu was now a wealthy family with deep roots.

However, the traveling businessmen were puzzled. Lu Shu asked Li Heitian to chase them away. He did not even take their name cards.

The traveling businessmen were confused. The Wei Wu Army loved doing business, right? The Wei Wu Army loved money, right? Why did they reject money that had come knocking on their doorstep?

They did not know that Lu Shu had made a decision. In the past, he loved money, but there were things in this world that were more important than money.

Lu Shu was suddenly amused. This was probably what the world had taught him after he had trained.

Just as Lu Xiaoyu had said, Lu Shu had always been lonely. But now, he felt that this loneliness was getting better.

The next morning, there was the sound of horses and metal in Nangeng City. The civilians of Nangeng City walked out of their houses, puzzled. Then, they saw the Wei Wu Army walking out of the military barracks and towards the entrance of the city.

Lu Shu and Lu Xiaoyu were right in front of the Wei Wu Army.

The civilians of Nangeng City were shocked. They had just come home. Why were they going out again? Everyone slowly understood that the Wei Wu Army had mobilised to save their head in the palace. What were they doing this time?

Many traveling businessmen were willing to seek refuge with Lu Shu as they had been shocked by how the Wei Wu Army had saved their head in the palace.

Their motto was to eliminate bandits, but they had gone all the way to the palace. Furthermore, they had brought Lu Shu back as well. What was this cohesion?

How many armies in the Luniverse had this kind of cohesion? One? Two?

The Black Feather Army had many military achievements, but when this clashed with belief, it was hard to justify. They were on two completely different planes.

The traveling businessmen were wise. When they thought about it, they understood. Why was the Wei Wu Army willing to risk their lives for Lu Shu? If Lu Shu was a harsh person, would the Wei Wu Army pledge their allegiance to him? Definitely not.

It was hard to find a wise leader. This was the reason why the traveling businessmen could not help but clamor towards him.

But now, the Wei Wu Army had set off once again...

"Wait. Isn't that the west?" Someone said, "Weren't the aristocrats there eliminated by the Black Feather Army and forced to retreat? What is the Wei Wu Army going to do?"

"It's not enough for them to kill 1000 underlings and 12 patrons. They have to continue killing the Black Feather Army as well!"

"How much hatred do they have..."

"Hey, haven't you heard? A space pathway has opened up in the West Region. There is a new world beyond the space pathway!"

"New world? What new world? Is it the mystic land that the old King of Gods talked about?"

"Ha ha ha, stop causing trouble! Don't you even dare to think about that!"

"I was just joking..."

A traveling businessman calmly watched the Wei Wu Army walk out of the palace. They sensed the ferocity in their hearts. The Wei Wu Army was invincible!

He returned to his room and took out his messenger mirror. He relayed the

information about the Wei Wu Army back to the palace.

There were crooks among the honest folk in Nangeng City. Various stakeholders wanted to have all the information about the Wei Wu Army.

But they had not expected the Wei Wu Army to be up to more mischief!

The news spread in the palace. Some went to the gambling dens in the palace to see whether they could place bets on the Wei Wu Army's victory.

But when they went to the gambling dens, they realized that there were no bets regarding the Wei Wu Army. It was as if the wealthy families in the palace had ignored the Wei Wu Army.

No one dared to speak up. No one dared to be the sacrifice.

No matter whether it was the Wei Wu Army or Duanmu Huangqi, they could not provoke them.

This was probably the reason why Sun Xunwen had gone into seclusion. He understood that in the face of strength, calculations and plans were all simply fabrications.

1055 THE HOPES OF THE ARISTOCRAT ARMY

The Wei Wu Army headed to the west. As Nangeng City was located at the borders, they set off at sunrise and had reached the border between the North Region and the West Region when the sky was completely lit up.

The Wei Wu Army did not stop as they were about to reach the first barrier of the Black Feather Army that night.

The barrier was not set up because of the Wei Wu Army. It was set up to block the Aristocrat Army who was sent by Wen Zaifou to attack the West Region.

Initially, when Lu Shu heard that Wen Zaifou wanted the aristocrats to take down ten fortresses in the West Region, he gloated at their misfortune but did not overthink. Apart from Lu Shu, the aristocrats also did not overthink. They thought that Wen Zaifou's purpose was to reinforce their memory.

However, they underestimated the determination of the Black Feather Army to fight back. Nobody expected such a great scheme on the borders of the West Region. It was regarding a whole new world!

At that time, the Black Feather Army had already planted many soldiers at the borders. A few years ago, the Black Feather Army had already started to plan for this but did not act. That was probably related to the time when the space pathway opened.

Wen Zaifou requested for the Aristocrat Army to take down ten fortresses of the West Region. However, they were at a loss of what to do after the third fortress. They could not possibly retreat. If they retreated, Wen Zaifou would definitely not let them off.

They were unable to advance either. They could only try their best and guard the third fortress. The Black Feather Army attacked the fortress continuously, leaving them with no time for respite.

They were asking Wen Zaifou for assistance but there was no response.

Thinking about it, Wen Zaifou sent them over to disgust Duanmu Huangqi. Perhaps, Wen Zaifou had known about Duanmu Huangqi's plan long ago!

During this period, they had kept in contact with the outside world and wanted to know about what was happening. That was so as to help them analyze their current situation.

The aristocrats knew that they had become the pawns on the chessboard. They had no choice but to continue advancing. If they wanted to live, they had to depend on themselves.

At this moment, they heard about how the Wei Wu Army sent help to save Lu Shu, as well as how the Wei Wu Army had returned to the Nangeng City the day before. Then, news regarding the advancement of the Wei Wu Army to the West Region arrived this morning!

The aristocrat army was extremely happy. All of them knew that Lu Shu were enemies with Duanmu Huangqi. Duanmu Huangqi wanted to suppress Lu Shu but over a thousand of his underlings and 12 patrons were killed. He had to fight to his death.

At this moment, nobody dared to underestimate the Wei Wu Army. The name of the person, Lu Shu was sufficiently terrifying, the Wei Wu Army's powers was way more terrifying.

Therefore, the Aristocrat Army sent out their slaves to welcome the Wei Wu Army. If the Wei Wu Army was willing to come to an agreement, they were willing to pay a heavier price!

However, while they were waiting for the Wei Wu Army, something unexpected happened... The Wei Wu Army disappeared!

Their slaves went for the Wei Wu Army, but they did not see the Wei Wu Army at all during their journey to the Nangeng City!

For some reason, the aristocrats were unsurprised by this. In fact, it would be surprising if the Wei Wu Army followed the rules.

At this moment, everyone's excitement had died down. Suddenly, they began to worry that the Wei Wu Army would go against them too... Everything was possible...

The Aristocrat Army wanted to negotiate with the Wei Wu Army regarding the battle. They were willing to pay but they could not even find the Wei Wu Army now!

Moreover, they received news that the Wei Wu Army abandoned the soap factory in the Nangeng City. It was as though a money-face stopped eyeing over money overnight.

In fact, Lu Shu had asked the Wei Wu Army if anyone wanted to stay back the night they had returned to the Nangeng City. If they left, the chances of living was very little.

There were still two masters supporting Duanmu Huangqi on top of the three masters originally. This was an unimaginable power that Lu Shu was unable to defeat. Moreover, Nie Ting was also unable to help.

Even if Duanmu Huangqi lost 12 Rank One soldiers, he still had more than 20 Rank One soldiers under his rule. The detailed number was unknown.

Moreover, waves of Black Feather Army troops rushed over from the West Region

continuously. The small troops of army disbanded and merged into the Black Feather Army, forming a terrifyingly huge force.

As compared to the Black Feather Army, the Wei Wu Army's powers were limited.

Lu Shu had to go as he had no choice, but he did not need to get the rest of the Wei Wu Army involved. Therefore, he told the Wei Wu Army that anyone who wanted to stay back would take over the soap factory in the Nangeng City.

The position of the ruler of the Nangeng City was unable to be passed down. That depended on Wen Zaifou. However, the soap factory was a private company owned by Lu Shu and it had almost monopolized the Luniverse...

The Wei Wu Army had a premonition that they probably would not be able to return to the Nangeng City if they left. This could be inferred from Lu Shu's words and actions.

They thought that Lu Shu knew that he would not be able to defeat the Black Feather Army and Duanmu Huangqi and would probably die on the battlefield. However, everyone's morale was extremely high and Zhang Weiyu and the rest just regained their power as a Rank One. The 12 patrons in clothes adorned with patterns of flowers and pythons were extremely powerful, yet Zhang Weiyu claimed that he could fight three of them at once...

Therefore, everyone thought that the situation was not as pessimistic as what Lu Shu had imagined. Even if they were unable to return alive, none of them wanted to flee.

They had been to the palace, so why would they be afraid of the West Region?

Therefore, nobody chose to stay back in the end. Lu Shu felt helpless but had no choice but to give up the soap business he had owned... If this happened on Earth, Lu Shu would be the creator of the toiletries industry.

Therefore, other people thought that the Wei Wu Army had suddenly lost interest in profits. The businessmen were stunned. Who could they approach to make business if the Wei Wu Army left? Although there were ordinary people working in the soap factory, they did not know the critical stage of "harvesting minerals" of the soap manufacturing process.

Therefore, this meant that the entire manufacturing process would come to a halt!

At this moment when everyone was fearful, the Black Feather Army attacked the Aristocrat Army again. This time, their force was way more than before, as though they wanted to re-attack the North Region!

At this moment, movements were suddenly seen behind the Black Feather Army. The aristocrats stood at the fortress and saw a wave of red appearing behind the Black Feather Army. It was none other than the red tassels on the armor of the Wei Wu Army!

1056 CELESTIAL TROOPS AND GENERALS

Suddenly, the Wei Wu Army started to kill the Black Feather Army from behind. No one knew where they had appeared from. They abandoned their horses and rushed towards the Black Feather Army. They did not even know where their horses had gone.

In reality, horses were typically used as tools to replace walking for the Wei Wu Army. Rank Two experts in the Wei Wu Army were faster than horses. Horses were just used to allow them to save energy.

Although riding horses saved their energy, horses restricted their speed when they fought.

A Rank Two's speed was terrifying when they were at their peak. Thus, the Wei Wu Army did not need horses while fighting. A cavalry troop made up of over 5000 boorish soldiers in magical armor was scarier than a cavalry troop made up of plain horsemen.

This was true for Rank Twos like Li Heitan, but Lu Shu realized that Rank One experts like Liu Yizhao fought this way as well, as they felt that this was more exciting...

Furthermore, the Wei Wu Army was able to suddenly appear behind the Black Feather Army as they depended on Lu Xiaoyu.

When an earth-type Metahuman reached Rank Five, they were able to bring people underground. When Lu Shu randomly thought about this, he asked Lu Xiaoyu how many people a Rank One like Anthony could transport underground. Her answer was 7000 people!

This number of people would cause a market to feel crowded. Furthermore, a peak Rank One earth-type Metahuman was able to transport them along long distances.

Of course, if the journey was too long, Lu Xiaoyu would have to use her celestial powers to make up for the lack of Anthony's strength. But short distances of less than 20 kilometers would not be a problem.

In the past, Lu Shu had thought about it. As a Rank One earth-type Metahuman, if

Anthony were to fly into the air and fight others, they would be at a disadvantage. Even earth-type Metahumans who were strong in the past would grow weak when they reached Rank One. After all, even if you raise the ground to the sky, the enemy could change the location of the fight, right? You would have to spend a lot of energy changing the landscape.

It would not be impossible to fight, but they would be at a disadvantage.

But now, Lu Shu suddenly realized that there was no difference between the strongest or the weakest in this world. It completely depended on how you used it.

For example, Anthony's ability to transport people underground was a beneficial weapon to launch a surprise attack in battle!

When the Black Feather Army was fighting at the city, the scouts had created a massive barrier on the outskirts to prevent attacks from behind. But now, the Wei Wu Army had appeared out of nowhere. It was impossible to defend themselves!

How were you supposed to defeat the Wei Wu Army if there were 5000 soldiers who were on par with that of commanders?

At this moment, three Rank Ones from the Black Feather Army tried to stop the Wei Wu Army, but just as they flew over the Wei Wu Army, the soldiers of the Black Feather Army watched in despair as dozens of Rank Ones from the Wei Wu Army flew into the air...

Zhang Weiyu and the rest had been hiding in the Wei Wu Army formation. Some of them had been in the vanguard to lead the way. They pretended to be Rank Twos who destroyed the enemy formations. Their enemies could not defeat them no matter what.

The rest had been waiting for their enemies to fly over.

Would you be afraid of over 60 Rank Ones? Last night, Lu Shu brought Lu Xiaoyu underground back to the secluded place in King Lu Mountain. Only Zhang Weiyu and the rest knew about this. Furthermore, Lu Shu and Lu Xiaoyu had gone there to allow Lu Xiaoyu to advance to Rank One safely!

Zhang Weiyu and the rest were puzzled. Why did they have to go so far away? That night, when they were chatting with the traveling businessmen in Nangeng City, they discovered that Twinkle Twinkle Little Star was not the peak Sound of Dao that they had heard several times. It was clearly something that their Great Lord had come up with...

Thus, they thought that Lu Shu had brought Lu Xiaoyu to King Lu Mountain to advance as he was worried that an even more appalling Sound of Dao would be produced!

But they could not understand. If Lu Shu's Sound of Dao was that amazing, then so be it. Was Lu Xiaoyu's Sound of Dao so amazing as well? Why was Lu Shu worried?

That night, when they returned, Li Heitan realized that Lu Xiaoyu's expression was very frightening...

Due to the catchy tune of Twinkle Twinkle Little Star, some people in the Wei Wu Army started to hum the song. Typically, when Lu Xiaoyu heard this, she was cheerful. But last night, Lu Xiaoyu established an order that the singing of Twinkle Twinkle Little Star was banned...

Now, Lu Xiaoyu had advanced to Rank One as well. Her skills after she had advanced to Rank One became a mystery. Lu Shu treated this as the most classified secret he would not tell anyone about.

Now, the Wei Wu Army had started to kill the Black Feather Army. They were like ferocious tigers that had entered a herd of sheep. No one could stop them.

The aristocrat armies in the city were overjoyed. It felt as if celestial troops and generals had come. They had been saved!

When the three Rank One patrons from the Black Feather Army saw over ten Rank Ones from the Wei Wu Army fly into the sky, they were in despair. The Wei Wu Army had four Rank Ones in the past, right? Even if someone had just advanced, they only had five Rank Ones. How did they suddenly have so many Rank Ones?

Suddenly, they saw Lu Shu laughing at them from among the Wei Wu Army. When they thought about the legends surrounding the head of the Wei Wu Army, the three Rank One patrons turned and ran!

Occasionally, there were roars from the sky. Zhang Weiyu, Dong Ye, and the rest flew in the sky like shooting stars. They did not give the three Rank Ones the chance to escape!

The Wei Wu Army was like a scalding knife that had come into contact with wax. They pierced into the core of the Black Feather Army without any obstacles in their way.

If they were simply ordinary enemies, then so be it. The Black Feather Army was not an army with weak willpower. But when they realized that they could not win, they

would grow more and more pessimistic!

Thus, the aristocrat armies saw the Black Feather Army slowly disperse. No one was in the mood to continue attacking. Even if they protected their city, so what? Would they be able to stop the Wei Wu Army?

Definitely not!

Li Heitan charged forward. He felt that it was very satisfying to be fighting with their Great Lord. It felt as if they would not lose!

The red current surged forward. They went from the back of the Black Feather Army to the city. It was as if the Black Feather Army, who had been one whole, had been cut open with a knife. They started to disperse towards the sides.

They had killed their way through. This was the current situation!

While the aristocrat armies were celebrating, Li Heitan had started to lead people to climb over the city walls. The aristocrat armies suddenly realized that these celestial troops were too used to killing. They were about to kill their own people!

The aristocrats panicked. "Dear friend, we are your allies!"

Li Heitan was clearly dumbfounded. "Proof? My Great Lord said that he left something with his allies."

"... yes, yes, yes. We just remembered about it. Your Great Lord left something with us. We will send people to pass it to you..."

"From Wu Yan's distress, +666!"

"From Zhu Yingtai's distress, +666!"

"From..." '

1057 FIND THE WEI WU ARMY WITHIN THREE DAYS!

How were the aristocrats supposed to help the Wei Wu Army find what they had "left" here? They were fighting on the battlefield, but suddenly told them that they had forgotten something here. If it were not for the fact that they wanted to survive, the aristocrats would have rejected them.

After replying to them, the aristocrats wiped the sweat off their heads. They felt as if they had just brushed past the Grim Reaper, but they had another problem. What had Lu Shu left with them? What should they give them?

Li Heitan raised his trident. "Let me tell you, if you have no way of proving that you are an ally, we will not hold back!"

Wu Yan was truly speechless[1]. He pushed the trident on his head away, turned, and shouted, "Bring my notes here! Hurry up!"

When he turned around, he realized that the trident was back. Li Heitan did not look kind. "Whose notes?"

"... hurry up and bring the notes that the Great Lord left here!"

Li Heitan finally calmed down. That was right. This way, it was not considered stealing...

It would not be good if the news that the Wei Wu Army had stolen money from their

allies spread, although Li Heitan felt that it would be more threatening if such news did spread.

Li Heitan looked as a soldier brought a box of notes. "Don't worry. We will only take what is ours. We will not take more than necessary."

The aristocrats heaved a sigh of relief. It would be fine as long as they were not particularly greedy. There was no harm working together with the Wei Wu Army. They would feel bad having to take away all of these notes.

Wu Yan looked at Li Heitan and said, "Which boxes have you left behind here?"

Li Heitan thought about it and said, "The Great Lord said that he had left behind two of those boxes."

"From Wu Yan's distress, +748!"

"From..."

Zhu Yingtai's expression darkened. He turned and ordered people to bring another box filled with notes over. Li Heitan was now satisfied. "The Great Lord asked me to tell you, don't worry. We have the Wei Wu Army in front. The Black Feather Army has no time to trouble you. The Lord of Heaven has allowed you to take ten cities. You can find and sell magical armor to us!"

"Magical armor?" Zhu Yingtai was dumbfounded. He had heard that the Wei Wu Army collected magical armor in the palace and spent a lot of money on them. He asked curiously, "Why don't you just ask us for the armor?"

Wu Yan gasped in shock. He wanted to cover Zhu Yingtai's mouth, but he was too late.

Li Heitan was evidently dumbfounded. "That's right. Why don't I just ask you for the magical armor? I suddenly remembered that my Great Lord left some magical armor here as well..."

Furthermore, if the Wei Wu Army had not come, the aristocrat armies would all be dead.

The Wei Wu Army waited for Li Heitan below. The aristocrats suddenly felt a sense of desolation. It was not their state of mind. After all, they also knew that the Wei Wu Army had saved them.

They were in a state of desolation as all the magical armor had been taken away by Li Heitan...

The typical soldiers in aristocrat armies did not have magical armor. Only the aristocrats and some core soldiers could use them. It was usually used to conceal their identity.

But now, what use was there concealing themselves...

The Black Feather Army was running away, while the Wei Wu Army was chatting below while they waited for Li Heitan. The aristocrats felt that they had never seen such a strange battlefield in their entire lives.

It was as if the situation would become strange wherever the Wei Wu Army went.

Wu Yan and Zhu Yingtai looked down at the Wei Wu Army, who was happily chatting with Lu Shu. Lu Shu felt their gaze and looked over. Everyone on the city wall suddenly sensed a pressure that they had not felt before.

Then, the Wei Wu Army continued to kill the Black Feather Army. They did not plan on letting the defeated Black Feather Army off so easily.

"Is there a need to be so ferocious?" Zhu Yingtai was slightly doubtful. "There seems to be no need to do so. I feel like they are killing them with all their might."

Under typical circumstances, for example, when the Black Feather Army was completely defeated, there would not be a need for the winning army to kill all of them. On one hand, since they had won, they still had to preserve their energy. On the other hand, there was no rush to do so.

But the Wei Wu Army was different. The Wei Wu Army was killing with all their might. They were of the stance that they would not let the Black Feather Army off.

The aristocrats on the wall all gasped in shock. The Wei Wu Army was far too ferocious.

They did not know what Lu Shu was thinking. To Lu Shu, if they let off the Black Feather Army this time, they would have more Black Feather Army soldiers to face on Earth.

Thus, to the aristocrats, the Wei Wu Army seemed unusually brutal, even merciless.

There were times when Lu Shu would think about whether the soldiers of the Black Feather Army had families. But since they had stepped on the battlefield, they had no

choice!

After the Wei Wu Army had achieved victory, they continued their journey to the west. The stakeholders who had been observing the Wei Wu Army could not understand what the Wei Wu Army was doing at first. After all, they had just returned from the palace. Under the circumstance that Duanmu Huangqi could not fight on the battlefield, no one would be able to kill them in Nangeng City. After all, it would be embarrassing for a master to kill a lowly commander.

Duanmu Huangqi did not go to find Lu Shu, but the Wei Wu Army went to cause trouble for the Black Feather Army. Furthermore, it was likely that Duanmu Huangqi was there as well.

Now, the various stakeholders suddenly realized that the Wei Wu Army was taking revenge against Duanmu Huangqi. Did they have such a bad temper... this was a long-lasting hatred!

They had rushed back to Nangeng City and gone out to take revenge after just one day of rest... after they were done killing the Black Feather Army, they involved their allies as well. They were very efficient...

At that moment, the entire Luniverse knew that Lu Shu bore grudges. Some people even felt that Lu Shu would become an example of bearing grudges in the Luniverse. If you wanted to say that someone bore a grudge, you could describe them as being "very Lu Shu".

The Black Feather Army in the west must have received the news. Thus, many scouts walked in the mountains, looking for traces of the Wei Wu Army. The Black Feather Army, as a strong power, did not fear the Wei Wu Army. Instead, they wanted to

actively seek out the Wei Wu Army and eliminate them.

But it seemed as if the Wei Wu Army had disappeared overnight. No one could find them.

The Wei Wu Army, who had entered the battlefield in a forceful way, suddenly had a change of heart. They were lying in ambush and waiting for the best opportunity, as Lu Shu was preparing for the master of the West Region to suddenly participate in the battle!

The Wei Wu Army would not be able to kill several thousand people in one go. The scouts from the Black Feather Army looked for traces of the Wei Wu Army everywhere. Last night, when the defeated Black Feather Army troops returned, their leader killed over 1000 soldiers as a warning to the rest. This was the punishment for losing.

The bodies of these soldiers were hung at the entrance of the military camp. The scouts of the Black Feather Army had no choice but to put in their all. If they could not find the Wei Wu Army in three days, they would die!

[1] in Chinese, Wu Yan's name sounds similar to the word for "speechless"

1058 YOU'RE HERE?

A group of Black Feather Army troops were running through the forest in the night. Some of them walked on the uneven mountain roads and checked everywhere. They did not slow down because of the uneven roads.

They had a special characteristic. It was as if they would be able to sense movements in the forest despite the darkness. They seemed to have been trained to see things in the dark.

The scouts carried a bow and black feathered arrows. The five scouts maintained an equal distance from their teammates and advanced. This was their second day carrying out this mission. They only had one day left.

The scene of the defeated Black Feather Army troops being killed was still fresh in their minds. If they could not find the Wei Wu Army, they would face the same fate.

The Black Feather Army was a heaven for the ambitious, as everyone could find their own aspirations in the army. The Black Feather Army would give you plenty of advantages and opportunities as long as you were strong enough.

But it was merciless as well. The price for committing a mistake could be death.

These five scouts were the most elite out of all the scouts. They had just arrived with the rest of the army seven days ago. At that moment, half of the armies in the West Region were already gathered here. Everyone knew that something major had occurred.

The scouts had also heard about the space pathway from the rest of the soldiers. Although it was passed down in the form of legends, everyone was very sure that it was real.

One soldier from the Black Feather Army had disappeared. No one could determine what was beyond the space pathway. The other side was very strong, but was probably not as strong as the West Region. They definitely had a master as well, since one master from the West Region had disappeared.

In the past, there were three masters in the West Region, including Duanmu Huangqi.

Later on, one of Duanmu Huangqi's slaves also advanced to the master realm, bringing the total number of masters to four.

But now... there were only three left.

But there were no feelings of sadness in the Black Feather Army. It was as if the Black Feather Army soldier who had disappeared and the master had nothing to do with them.

Even the five scouts probably had no feelings towards one another.

They were not thinking about whether others would die. Instead, they thought about whether they would die if they could not complete this mission.

At this moment, they saw a flame in the distance. The flame was very weak, but the scouts stopped in their tracks and looked at one another helplessly.

It was definitely not someone from the Black Feather Army carrying a torch. With the strict rules in the Black Feather Army, no one would carry a torch in the wild!

They were excited. If it was the Wei Wu Army they were looking for, then they had succeeded.

This was the reason why the Black Feather Army attracted those who were ambitious. As long as you had achievements, you would have everything!

"Why do I feel like there are a lot of mice?" One of the scouts lowered his voice. He saw at least 100 mice. Furthermore, there was a tuft of black fur on their heads. They looked very strange.

But there were many strange things in the Luniverse. Creatures had experienced many changes throughout the process of evolution. Thus, it was normal not to have seen such creatures before.

"They are just mice," said someone in a small voice. "Let's be a bit more careful."

The five scouts rapidly traveled in the direction of the flame. The darkness in the forest was their greatest protection. But they had only ran a few hundred meters before suddenly stopped in their tracks... they realized that there was someone in front of them!

The person was wearing the typical Wei Wu Army magical armor. They might have encountered their scout!

This was very normal. It was impossible not to have any scouts or spies around while a large army was traveling. They would not be able to sleep well without them. They felt that something was wrong, but could not figure out what.

Thus, the leader of the scouts turned around and looked at the other four scouts. Then, they slowly inched forward. If they were not desperate, they would not have attacked, as the sound of bows and arrows in the darkness was very loud.

But as they slowly approached the Wei Wu Army scout resting on the tree, they suddenly realized that the scout was slowly opening his eyes. The scout looked at them and smiled. "You're here?"

Their muscles instantly tensed. They had never seen such an arrogant gaze in their lives. Not only was he not nervous when he saw the five scouts, he was very...

Then, they saw him fly into the sky...

The scouts from the Black Feather Army blankly looked at the scout in the sky. "What in the world..."

They did not know that the Wei Wu Army had a Rank One scout, as all those who knew this were dead...

They were now in a state of shock. They did not know what to do.

A Rank One expert as a scout? Were you a demon?!

Half an hour later, the five scouts lowered their heads and slowly followed Liu Yizhao to the flame. When they walked out of the forest, they suddenly realized that over 5000 soldiers from the Wei Wu Army were sitting around several bonfires. They were wearing their magical armor. They looked down at their notebooks and were writing something in them...

When the scouts from the Black Feather Army arrived, everyone looked very excited. Something had happened. This meant that they no longer needed to do their homework!

Liu Yizhao brought them to a bonfire. "Great Lord, I've brought them back."

The five scouts from the Black Feather Army watched as a good-looking young man held his bowl and ate. When the young man saw them, he put down his bowl and gestured for them to sit down.

The five scouts carefully sat by the bonfire. They guessed that this young man was the head of the Wei Wu Army, who had been making waves recently!

But why was he called Great Lord? This title was rather strange.

Lu Shu looked at the five scouts. Lu Xiaoyu, who was beside him, was frustrated over the accounts. She was calculating how much food the Wei Wu Army had eaten today.

"I will ask and you will answer." Lu Shu smiled. "How about it?"

The scouts did not try to fight back, as they knew how the Wei Wu Army killed others. They definitely did not mind killing these scouts!

"Please ask," said the leader of the scouts in a polite tone.

"Why is the Black Feather Army so desperate to find us? It is as if all you scouts have gone crazy. Are your lives at stake?" Lu Shu asked curiously.

The scouts lowered their heads. They said in a low tone, "We have received orders that if we do not find you within three days, we will die."

Lu Shu was dumbfounded. He paused for two seconds and said, "Won't you die even more quickly if you find us?"

"... that makes sense."

"From Lin Yu's distress, +999!"

It was not a matter of dying more quickly. If they found the Wei Wu Army, they would be able to live for another day!

1059 GREAT LORD XIAOYU

This time, Lu Shu had decided that he would not let any Black Feather Army soldier he saw off the hook. Thus, he would not even allow the scouts to live.

Recently, major changes had occurred among the scouts in the Wei Wu Army. In the past, Liu Yizhao brought a large group of people out. Now that they had Little Fury, there was no need to do so. When the army of mice was in Luo City, they had provided clear information to Lu Shu. After a long time, Little Fury's education had allowed it to fulfill unthinkable functions.

Not only could Little Fury read and write, its core mice were able to do so as well...

Back then, when Lu Shu provided Little Fury with the refresher fruits, Little Fury did not embezzle the fruits at all, as he desired for a group of underlings.

He was the Great Lord of the mice in the Beimang remains. When he came to Earth, he had fallen in rank. He was only number three in his family.

Although Little Fury saw Lu Shu and Lu Xiaoyu as family, and did not mind its third position, it also longed for the glory of the past...

Thus, Li Heitan and the rest could not become scouts. They had missed the opportunity to give up on homework by becoming scouts.

That night, when Li Heitan saw Little Fury beside Lu Shu, he almost cried while peaking. Back then, when Little Fury first came, he had thought that this senior disciple was their saving grace. Now, he felt that the soldiers of the Wei Wu Army had been tricked by this senior disciple!

When Lu Shu checked Li Heitan's work, there was a line of words on his homework. "Senior disciple has harmed me..."

But Liu Yizhao was different. First of all, Liu Yizhao was more civilized and did not need to do homework. Furthermore, being a scout was Liu Yizhao's greatest joy. Lu Shu was willing to do anything to help him.

Thus, Liu Yizhao was the only permanent scout in the Wei Wu Army. The mice were temporary staff.

Needless to say, Lu Shu rejoiced the fact that he had allowed Little Fury to nurture the army of mice. The army of mice was very handy. They were not easily discovered. Even if they were discovered, they would be ignored. Furthermore, they were large in numbers.

All the scouts from the Black Feather Army who entered within a 50 kilometer radius would die. The mice army would have eliminated them!

If Lu Shu had not wanted to ask the scouts some things, they would have died the moment they encountered the army of mice.

At that moment, the leader of the Black Feather Army sat in the military tent with a dark expression on his face. He wore the same clothes as the patrons in the palace, adorned with patterns of flowers and pythons. He looked at the rest of the people in the tent. "Have you found the Wei Wu Army?"

His subordinate said in a low voice, "Master, not only have we not found the Wei Wu Army, the number of scouts who have returned back to the camp has been decreasing

as well."

"Did they all run away?" The leader of the Black Feather Army asked in a ferocious voice.

"I don't think so," said the subordinate. "The Black Feather Army is famous for our methods to chase down soldiers who have escaped. Not many people have dared to run away."

The leader calmly looked at his subordinate. "Then what do you think is the reason?"

"I feel that they might have found the Wei Wu Army..."

All the scouts who had found the Wei Wu Army had died. All those who had not found the Wei Wu Army had been found by the Wei Wu Army instead.

When a large army passed by, not even the plants would survive. All those who had seen the Wei Wu Army did not survive.

Furthermore, the Wei Wu Army worked very quickly. The people they had sent out the day before had not returned. When they discovered the possible position of the Wei Wu Army and went to attack, the Wei Wu Army was gone.

Slowly, everyone realized that the Wei Wu Army was not hiding from the Black Feather Army. Instead, they were efficiently depleting the Black Feather Army's life force!

They knew that no matter how strong the Wei Wu Army was, they would still be in danger when they faced 200 thousand Black Feather Army soldiers. They were still

humans. Even if they were Practitioners, they would be fatigued as well.

Thus, while the space pathway had not opened, the Wei Wu Army chose the most energy-saving method. They decided to engage in guerrilla warfare in the mountains!

To the Wei Wu Army, this was very familiar. They had done the same when they were on King Lu Mountain. It was just that they did not have caverns this time.

Lu Shu felt that this was a huge pity. If they had caverns, the Wei Wu Army would be able to eliminate the Black Feather Army at a faster rate!

During this period of time, the Black Feather Army lost about 2000 people everyday. The leader of the Black Feather Army felt that something was not right. Why did it feel as if the Wei Wu Army clearly knew their deployment and formation? They were able to effectively attack their deployed forces and lie in ambush before they came.

In reality, they did not know that Lu Shu and the rest had even eliminated the process of obtaining information.

After Lu Xiaoyu advanced to the fifth level of Nebula, the fourth level of Nebula allowed her to capture a fourth spirit. She was definitely not willing to let go of her three existing spirits. After all, the Bishop was responsible for controlling the battlefield, Anthony was responsible for mass killings, and Johnson was responsible for helping Lu Shu create swords. They were indispensable.

Thus, the fourth black hole had appeared at a good timing, as every time she captured a spirit, she would be able to obtain their memory fragments!

Scouts served the army. Their actions represented the willpower of the army.

Furthermore, they would be able to obtain a first-hand account of the Black Feather Army. It was much better than obtaining oral information.

Thus, Lu Xiaoyu would be able to observe the trends of the Black Feather Army through their memories and attack accurately. They would not be ambushed either.

After that, the Wei Wu Army would not just kill scouts. They would be able to kill commanders. The memory fragments of the commanders were much more detailed.

Recently, Li Heitan and the rest had suddenly realized something. When Lu Shu ordered them to kill, he had started to request for their armor to be left behind in one piece. Even the dumbest person would be able to guess what Lu Shu was thinking... they were going to blend in with the Black Feather Army!

Lu Xiaoyu was very familiar with Lu Shu's actions. The most dangerous place was the safest place. If they did not want to be chased and killed by the Black Feather Army, they would have to blend in with the Black Feather Army.

What Lu Shu feared most was not the Black Feather Army. It was the master from the West Region!

It was far too easy for the Wei Wu Army to preserve the armor in its complete state. A group of Rank Two experts was able to fight with ease, as they were more than qualified for the task.

Thus, very quickly, they had obtained over 5000 sets of Black Feather Army armor.

Lu Shu stood in the forest and looked at the Black Feather Army military camp in the distance. He said in an energetic tone, "Tomorrow, we will infiltrate their ranks! The

best soldiers use strategy. Heitan, you have to use your head when you fight. Have you learned this?"

"Great Lord, Great Lord Xiaoyu said that your plan will not work," said Li Heitan frankly.

Lu Shu started to panic. "Where is she? Call her here! My plan is flawless!"

"Great Lord Xiaoyu said that your plans have never worked," said Li Heitan honestly.

"From Lu Shu's distress, +888!"

1060 HIDE YOUR INADEQUACY BY KEEPING QUIET

Lu Shu looked at the Wei Wu Army behind him. They had changed into their Black Feather Army armor. All of them stood in formation, except for Li Heitan, who was still doing his homework.

Just now, Li Heitan had used Lu Xiaoyu's name to disapprove of Lu Shu's plans. Then, as a reward for his honesty, Lu Shu presented him a small hall for cultural classes.

Li Heitan asked why Lu Shu had done so. Lu Shu said that knowledge could change one's fate. He was taking Li Heitan into consideration.

Li Heitan felt that there was nothing wrong with the first part of the Great Lord's words. Knowledge had indeed changed their fate as carefree people...

This time, Lu Shu had obtained information from Lu Xiaoyu. This afternoon, 1000 Black Feather Army soldiers would pass by the mountains. They would head in the northwest direction and patrol the mountain range there. There would be a Rank Two commander leading the troop. To the Wei Wu Army, it was extremely easy for the

Wei Wu Army to eliminate them.

The Black Feather Army had realized that it was not realistic for them to rely on the scouts to find the Wei Wu Army. They had to deploy people to go on patrols.

If not, the number of scouts would decrease. Their scouts might be eliminated even before they found the Wei Wu Army...

A team of 1000 soldiers was not much to the Black Feather Army. Other troops were still present in the vicinity. This was to prevent an ambush by the Wei Wu Army. If the Wei Wu Army appeared, the Black Feather Army would be able to rapidly work together and buy for time.

Lu Shu decided to be on the safe side this time. First, they would eliminate one of their troops. If they were discovered, they would run away. If they were not discovered, they would pretend to be part of this troop and return to the Black Feather Army. Slowly, they would replace 5000 of their soldiers with soldiers from the Black Feather Army!

It was better to be safe. After all, Lu Xiaoyu could only obtain memory fragments. Thus, Lu Shu had to deal with the gaps in these memories with caution.

On the other hand, Lu Shu realized that Lu Xiaoyu's ability complemented that of his.

For example, back on Sardinia, he was frustrated about the fact that he would not be able to obtain aid from the Heavenly Network. He would not be able to go with the flow, like he did in the Collection of Gods. If you impersonated as someone else, you at least had to know who they were, right?

But with Lu Xiaoyu's ability, they would be able to obtain large amounts of information from their memory fragments. This information was what Lu Shu wanted.

Lu Shu led the entire Wei Wu Army and secretly set off. Although only 1000 people were to blend in with the Black Feather Army this time, they still needed the entire army to eliminate them.

But before he could think through it, the dirt underneath the feet of the Black Feather Army started to surge like a wave. In the blink of an eye, the Black Feather Army soldiers were buried underground even before they could react.

They screamed for help at the top of their voices, but their voices had been buried underground along with them...

Li Heitan was shocked. "Great Lord Xiaoyu is amazing. Are you sure that you are only a Rank One?"

Lu Shu looked at Li Heitan. "I can do that too!"

Lu Xiaoyu rose from the ground in front of Lu Shu. "The commander's name is Tang Mingyang. He is dedicated to patrolling. He lives in Hesheng Lane in the West Capital. He has 14 concubines at home and loves to gamble. He is a Rank Two and uses a long sword. Furthermore..."

After reading out all this information, Lu Xiaoyu passed a long sword to Lu Shu. "This is his long sword."

Lu Shu could not help but sigh with emotion. There were times when Lu Xiaoyu finished tasks very cleanly. Lu Shu said with confidence. "I will show you how I will

perfectly carry out this plan. I will make you surprised."

The weapons that Li Heitan and the rest held had been prepared in advance.

Lu Shu led 1000 soldiers, who were already disguised, to follow the Black Feather Army's original route and carry out the patrol. He assumed the role of the Black Feather Army commander.

He had put on his mask. Lu Shu had thought about this for a long time. There should not be any problems.

In the afternoon, Lu Shu even brought his troop to converge with another Black Feather Army troop. Lu Shu resisted the urge to eliminate them. He even praised himself for being able to resist doing so.

Their commander did not discover anything strange about Lu Shu. Just like that, the two troops passed by each other. No one realized that Lu Shu was not the original Tang Mingyang.

Lu Shu turned back and looked at Li Heitan. His gaze conveyed a message. "What did you say this morning?"

Li Heitan remained silent. He felt that he should conceal his wisdom. If the Great Lord discovered his potential, his knowledge might actually change his fate.

After being punished in the morning, Li Heitan cried and complained to Great Lord Xiaoyu. She had said something that remained in Li Heitan's head till this day. "In life, you often have to hide your inadequacy by keeping quiet."

Li Heitan could not understand. "How?"

"For example, you might know some things, but under certain circumstances, you must say that you don't know." Lu Xiaoyu felt that she had been too complex and Li Heitan did not understand what she had said. Thus, she simplified what she had said.

When Lu Shu saw Li Heitan keeping quiet, he could not quite understand. He casually walked beside him and asked, "Do you know how amazing your Great Lord is now?"

Li Heitan thought about it and said, "I don't know..."

"... is your head that rigid?"

"From Lu Shu's distress, +666!"

Lu Shu did not bother to explain this to Li Heitan. Time would prove everything!

In the evening, Lu Shu brought the Wei Wu Army back to the Black Feather Army military camp. Everything today had been perfect. Lu Shu hoped that there would be a perfect ending as well.

When night fell, Lu Shu brought his troop back to the entrance of the military camp. He realized that the leader in charge of the 5000 people was standing at the entrance. Lu Shu walked up to him and saluted. "Tang Mingyang has returned to deliver a report."

The leader observed Lu Shu. Lu Shu observed his expression as well. He had not realized anything wrong with Lu Shu!

Yes. His identity had not been exposed!

Heh heh. Lu Xiaoyu, what else did you have to say?

What was that poem? Those who are cold, thank you for looking down on me, forcing me to lift my head and lead a more exciting life...

Suddenly, the commander asked, "Have you found the Wei Wu Army?"

Lu Shu reported. "No."

"And you still have the face to return? All you do is take your salary, but you can't even do your job? It looks like I don't need a commander like you." The commander laughed coldly. "Kill yourself."

Lu Shu was dumbfounded.

Li Heitan, who was behind him, almost laughed out loud. Lu Shu suddenly looked at the stars in the distance. He was melancholic. Was he being targeted by someone?

Why?

Huh?

Would he ever be able to carry out his plans? Did the Black Feather Army even treat their people as humans?

"Kill them," said Lu Shu with a sigh.
