

1151 WHAT A COINCIDENCE

When someone actively approached Lu Shu, he would not treat them as an unrelated stranger. He would subconsciously think that they belonged to a slave owner and tried to deliberately approach him.

It would be easy to recognize them if the mark of a slave was on their necks or hands, but some were hidden. They could not be seen when one was clothed. Lu Shu knew that some marks of a slave were on the buttocks... of course, he had not confirmed this with anyone...

Lu Shu could not be blamed for being overly suspicious. He had a cautious personality. Recently, many people deliberately approached him. In the past, many people he thought he had met by chance all had their own aims. No matter whether their aims were good or bad, he felt uncomfortable.

But this was also one of the reasons why he wanted to solve this problem once and for all. He could not be on guard his entire life. It would be very tiring.

He longed for a day when he could finally relax. He would not have to worry about anything.

Everyone in the campsite looked over due to the lady's sudden bold actions towards Lu Shu. Lu Shu did not like this feeling. Who were you? Why did you mysteriously come over?

The lady saw that Lu Shu did not react. She smiled broadly. "Aren't you going to shake hands? How ungentlemanly."

Lu Shu looked up at her. "There are so many people here. Why did you come and

greet me?"

At this moment, Lu Shu had realized that the people behind the lady had started to surround them. They had secretly started to defend themselves against Lu Shu.

This meant several things. If Lu Shu had been suspicious, he now completely understood what was going on. There were no real coincidences in the world. He was being targeted!

Lu Shu had gotten straight to the point. He did not plan to interact with these people. Although he was cautious, he was not afraid.

Chen Zuan and Cheng Qiuqiao sensed that there was something wrong with Lu Shu's tone, but they did not move. Under these circumstances, Lu Shu would be able to control the situation alone. If the lady had certain aims, she would not be able to run away.

Before the lady could reply, a secret practitioner said, "Don't you know what organization they are from? She wanted to shake hands with you, but you haven't moved at all!"

This sudden bashing shocked Lu Shu. It seemed like over the past year, this organization of elite secret practitioners won the hearts of the people. The overseas Practitioners highly praised these "cool" actions. It was like how hackers were highly sought after when the calculator was first introduced.

The surrounding secret practitioners all felt that Lu Shu was shameless, but Lu Shu did not care too much about them. He continued to look at the lady. "I will ask and you will answer. Why did you come to shake hands with me in particular?"

To Lu Shu, this wave of people was ordinary. They did not seem like particularly ferocious Practitioners. All their back-ups had arrived.

In reality, there was a period of time when the murderous intent off Lu Shu's body was very strong. However, after he advanced to the master realm, he recollected his aura. Nie Ting had named it Shen Cang Jing as such for a reason. Once a person had advanced to this realm, they would return to their true nature and conceal their aura.

Moreover, Lu Xiaoyu looked very innocent as she hugged her pet. Chen Zuan and Cheng Qiuqiao were slightly upset. This group of people did not seem to have much combat power...

Lu Shu silently looked at the secret practitioners. Were they about to find...

He glanced around. Most of the secret practitioners were Rank Five or Rank Six. The strongest was probably a Rank Three or a Rank Four. Lu Shu was too lazy to deal with them.

However, the lady turned and smiled at the secret practitioners. "Please do not be angry. There's no need to do so. I might have been too abrupt."

But this did not stop them from wanting to fight. On the contrary, it made the secret practitioners feel that Lu Shu and the rest were too much.

Chen Zuan was happy. He softly said to Cheng Qiuqiao, "This is interesting."

If the people behind the lady had not surrounded them, everyone would not have thought much about it. But now, it was obvious that they were not welcoming to

strangers. The secret practitioners were riled up. This was a disdainful move.

But at that moment, there was a sudden movement in the forest behind Lu Shu. Everyone in the campsite was dumbfounded and looked at the forest. Then, a large group of people on horses suddenly appeared. Coral was in the lead.

The moment she walked out of the forest, she sat down beside Lu Shu by the bonfire. She remained silent, as if she did not know what to say. She was aggressive when she had arrived, but the moment she sat down, it seemed as if this aggression had disappeared. A ferocious tiger had become a white rabbit.

Suddenly, Coral said, "What a coincidence to bump into a neighbor here."

Her cousin expected better from her. She had said that she wanted to be strong and let Lu Shu know that being liked by the leader of the Deities was a pleasant thing. However, all of this disappeared after she saw him.

The secret practitioners in the campsite were speechless. They were all too familiar with this girl. How many people did not know about the leader of the Deities, Coral? There were few public videos of Lu Shu, but there were many of Coral. After all, Coral had represented the Deities in many high-ranking meetings. These were all covered by the media.

Lu Shu did not know what to say either. "Yes, what a coincidence..."

He subconsciously put his hand in his pocket. He wanted to hide the tab on his finger, but saw that Coral was still wearing the tab on her finger as well.

For some reason, he suddenly relaxed. His expression was more natural.

But before Lu Shu could say anything else, Coral suddenly stood up and left with the rest of the people from the Deities. She did not even say hello!

Lu Shu and the rest looked at one another helplessly. The secret practitioners in the campsite were speechless.

They had been planning to launch a group attack on Lu Shu and the rest when the Deities interfered. Now, were they planning not to attack at all? What relationship did the Deities have with these four people?

None of this made sense!

Lu Shu was dumbfounded. He had been waiting for the secret practitioners to attack. He would kill them once he felt that it was justified. But now, everyone was suddenly quiet. Lu Shu did not know what to do either!

He looked at the forest. His mouth was agape, but he did not say anything. Were the Deities just here for a stroll?

Coral's cousin chatted to Coral as they walked back to their campsite. "You can't let him get ahead of himself! Think about it. He had been hiding among the secret practitioners at the Koh Chang Island remains. Now that he is a master, he is still hiding among them! He might be up to something! You can't allow him to be too comfortable!"

1152 DREAMS AND POLAR LIGHTS

Lu Shu did not know what to do with the Deities. They were allies. Even if their allies had complaints against them, or played pranks on them, it would not be much...

"Lu Shu, you've changed," said Lu Xiaoyu as she added firewood to the bonfire. In

the past, he would not have been able to stand this. But once the leader of the Deities teased him, he was able to stand it?

Of course, Lu Xiaoyu knew the reason behind this!

"Ahem." Lu Shu turned and looked at the lady. "Where were we? Were you going to attack me? Cut the wait. Hurry up and do it."

Both the secret practitioners and the lady were scared. Lu Shu suddenly understood. They had targeted him, but they probably did not know his true identity. If not, as long as they knew that he was a master, they would run far away.

The lady smiled. "I just came to shake hands with you. There's nothing else."

They were not that brave. Lu Shu did not know whether to laugh or to cry. This group of people had surrounded him. Clearly, they had been targeting him.

Suddenly, Lu Shu was puzzled. If this group of people were not underlings or slaves, then why would they target him? According to the secret practitioners, this group of people caught thieves. Why did they target him?

"Why did you target me just now?" Lu Shu asked them directly.

"Someone shared information that you are a brat who plays with the feelings of others on the basis that you are rich," one of the people in the organization carefully said.

"Whose feelings did I play with?" Lu Shu was unhappy. "Who shared this information?!"

The person from the organization was about to cry. "We don't know either. We received information that there are four Asians in this campsite. They also described your clothing... we obtained this information from the Internet. We have a website where ordinary secret practitioners can seek help from us to attack evil forces..."

Had he become an evil force? Lu Shu thought about it. Suddenly, he felt that Coral's cousin could have been behind this.

He had been nervous for nothing. Lu Shu furrowed his eyebrows. Had he been too tense?

Suddenly, Lu Shu looked at Little Fury. He asked, "Are you able to make all of them fall asleep without them noticing? How much area can you cover?"

Suddenly, Lu Shu thought of something. Would the person behind this be hiding nearby because of his arrival? If he made Little Fury put everyone to sleep, they might be able to find this person in their dreams!

This was the power of dreams. It would not harm the innocent, but it had miraculous effects.

When Lu Shu discovered that Little Fury had obtained the ability to create dreams after receiving the golden piece of paper, he knew that Little Fury would be useful in the future.

Little Fury took out a small notebook from its bag and wrote on it. "I can only cover two kilometers now."

"From Little Fury's distress, +777!"

Little Fury looked at Lu Shu's shocked expression. It felt as if it had been humiliated...

"Ha ha, that is normal." Lu Shu knew that he had hurt Little Fury and returned to the main topic. He realized that the weakest link in the group was not a Rank One. It was Little Fury, who was stuck at Rank Two.

He had given Little Fury two refresher fruits previously, but he did not expect Little Fury to require so many refresher fruits to advance. Little Fury had not advanced to Rank One.

"Ahem." Lu Shu suddenly thought of a problem. "Although you are not human, there would be a heavenly vision when you advance to Rank One. Would that make everyone in a five kilometer radius fall asleep? Or will the range be even wider?"

To be honest, Lu Shu had never seen how it was like when an animal advanced to Rank One. Chaos had advanced before, but Chaos was a higher being in myths.

The campsite was silent. Lu Shu did not actively talk to them. These people did not even dare to cough.

Now, there were four Rank Ones in the Deities, including Lu Shu. They were a first-rate organization only second to the Heavenly Network. Thus, when they realized that Lu Shu and the rest seemed to have a close relationship with the Deities, they were not as strong-willed.

Suddenly, Lu Xiaoyu said, "Hurry up and advance. Create a dream realm to play in."

Suddenly, everyone was interested. What would it be like if a few thousand people within a five kilometer radius fell asleep at the same time? It was interesting to think about.

Little Fury swallowed the refresher fruits. It was on the verge of advancing to Rank One. Suddenly, it let off massive waves of energy.

Lu Shu looked at the sky. It was as if the clear, starry sky had been covered in purple silk. It was as if curtains of polar lights had passed by.

The curtains in the sky looked especially beautiful. The wind blew, and the curtains swayed in the wind.

Lu Shu felt drowsy, but he immediately activated his celestial powers and fought the drowsiness. He turned and looked at the secret practitioners in the campsite. To his shock, they were all asleep. Chen Zuan, Cheng Qiuqiao, and Lu Xiaoyu were asleep as well. But Lu Shu had to keep awake. What if someone took advantage of the situation.

Lu Shu's senses were all activated. He estimated that the heavenly vision had a radius of eight kilometers. Was Little Fury a genius? He did not know what it was like in the dream realm.

If the dream realm was realistic enough, the people in the realm might not be able to discern whether they were in their dreams or in reality.

In the past, Lu Shu had told Little Fury to be careful when controlling the dream realm. If people felt that the dream realm was the reality, they would not feel conflicted.

At that moment, everything in the dream realm was exactly the same as in reality. The polar lights in the sky were still present. The trees were still there. The campsite was still there. It seemed as if nothing had changed.

Of course, if a giant white squirrel was not in the campsite, it would be too real...

When Chen Zuan and Cheng Qiuqiao saw the enlarged Little Fury, they were dumbfounded. Little Fury looked around at the people in the campsite. Then, it said, "Brothers, do you want digital coins?"

But the language was different. Little Fury could not speak English...

When the girls in the campsite saw Little Fury, they could not bear it. "How adorable! Where did this squirrel come from?"

As they spoke, they ran up and tried to hug Little Fury. The enlarged Little Fury was like a giant doll.

Little Fury had been selling digital coins, but was interrupted by these girls. It used its claws to push them away. "Go away, go away! Are you members? How dare you hug me!"

Chen Zuan and Cheng Qiuqiao suddenly had the desire to tease Little Fury. Suddenly, Chen Zuan realized that something was wrong. "Where is Xiaoyu? Where did she go? Didn't she fall asleep?"

"No. She was still beside me when we fell asleep," said Cheng Qiuqiao, confused.

1153 I AM ON YOUR SIDE!

After Chen Zuan and Cheng Qiuqiao realized that Lu Xiaoyu was missing, they felt that something was strange. Where could Xiaoyu have gone? Lu Xiaoyu had suggested that they visit the dream realm. Now, she had disappeared.

"Wait." Chen Zuan suddenly turned and looked at the forest behind him. Little Fury had created a very realistic dream realm. Even if Little Fury had not seen some actions, it had created realistic reactions in the dream realm. For example, it had created footprints on the ground.

This was a complicated project, but someone who created dreams needed to have this ability. It was like a formula. The consciousness of everyone present would be gathered in the dream realm, making the dream realm more realistic.

But it did not have to be as complex all the time. It was like a mathematical formula. As long as you could create it, you could make use of it again when creating models in the future.

Chen Zuan looked at the footprints on the floor. Suddenly, he gasped in shock. "The campsite of the Deities is there. Did Xiaoyu go there..."

"It can't be." Cheng Qiuqiao was dumbfounded. "She won't fight in her dreams. Would Little Fury be able to withstand their waves of energy..."

"No wonder Xiaoyu suggested to enter the dream realm. She knew that Brother Shu would be concerned about our safety and not enter the dream realm. Thus, she came here to secretly find Coral." Chen Zuan analyzed. "Let's go and observe..."

To Chen Zuan, a war might break out at any time. He was not afraid that the situation would blow up. After all, he was single.

"You are really not afraid of death." Cheng Qiuqiao's expression darkened. "Let's settle the important things first. See if there are any slave owners hidden among the secret practitioners. Furthermore, have you thought about it? Rank Ones can resist entering the dream realm. After all, Little Fury just advanced to Rank One. Its realm is not stable yet. Coral advanced earlier than the two of us. What if she did not enter the dream realm?"

"Sure. Let's settle the important things first." Chen Zuan said to Little Fury, "Stop selling digital coins. Let's begin."

Little Fury recalled that it had created the dream realm not to sell digital coins. It was supposed to find the people hiding in ambush.

How would they do so? They would kill!

They would kill them in the dream realm and discover who experienced stress when facing death.

The curtain in the sky slowly disappeared. Soon after, shooting stars fell from the sky. The meteorites was about to cover the entire Yellowstone National Park!

Chen Zuan and Cheng Qiuqiao flew to a mountain. They would stand at a high point and observe whether anyone was behaving strangely. They would find the hidden experts.

They knew that Lu Shu was observing who was able to resist the dream realm outside as well.

A Rank One with the code name "Giant" from the Phoenix Society was on the Heavenly Network's list. Lu Shu was not worried about this person. The Heavenly Network had planted someone beside Giant. There had been no strange happenings recently.

At that moment, Lu Shu suddenly saw someone fly into the sky. There were no meteorites in real life. Thus, the curtains were still in the sky!

Lu Shu, who had been standing still, suddenly flew into the sky, kicking up a storm of dust!

Over 2000 people from the Phoenix Society had come to the Yellowstone Park relics. To the Phoenix Society, there were still many things to do in terms of the national training order. After the battle at the Tiger's Back fortress, some people in the organization wanted to eliminate the Jingoists. The Saint's warlike personality had caused the Phoenix Society to suffer heavy losses.

But back then, the Saint was still in his position and had massive combat power. After they returned from the battle, no one dared to voice their unhappiness, until an assassin appeared one day...

In the past, they had heard that the First Heavenly King liked being an assassin. But when they faced an assassin who was of the Master Realm, they truly felt how frightening it was when an expert suddenly became an assassin.

Back then, Practitioners all over the world were speechless. It would be over if you just killed the Saint, right? Was there a need for an assassination?

But the Conservatives in the Phoenix Society received a rare opportunity. After they

rose to power, they amended their strategy.

Giant had advanced to Rank One. Thus, he became the new leader of the Phoenix Society.

The opening of the relics made the Phoenix Society feel helpless once again. Giant's final decision was to not prevent any Practitioners or organizations from entering North America. They did not plan on monopolizing the relics.

If the Phoenix Society, who had suffered heavy losses, wanted to oppose the entire world, they would be done for. They did not have Nie Ting's confidence to face the rest of the world. They did not have the strength of the Heavenly Network either.

Back then, Nie Ting had said that he was willing to face the rest of the world for Lu Xiaoyu at the Tiger's Back fortress. This had become the most famous quote in the cultivation realm. When people heard this quote, they pondered. Why did they train? They trained so that they would have their dazzling moment as well.

Suddenly, Giant realized that the members of his organization were falling asleep. He felt drowsy as well, but resisted it.

Giant looked at the curtain of polar lights in the sky. He did not realize that someone had advanced to Rank One. He flew into the sky to see what was happening. Before he could take a good look, he suddenly saw a young man flying towards him like a bullet!

Giant was about to wet his pants. The young man was far too fast. If his speed was 1, the flying speed of the young man was probably more than 10 times his speed.

What was this gap? Giant suddenly realized that they were on completely different levels!

There was two kilometers between them, but Giant could already feel massive pressure. He wanted to run away, but he knew clearly that he would not be able to run...

Lu Shu arrived in front of Giant in the blink of an eye. Giant stood in the sky, trembling in terror. After Lu Shu stopped, he instantly recognized Lu Shu. "Boss, I... I am on your side! I am a planted agent!"

Lu Shu was dumbfounded. Of course, he had recognized that this was the current leader of the Phoenix Society, Giant. But...

"Wait. Let me confirm this." Lu Shu called Nie Ting to ask whether this was true. Nie Ting's reply was positive...

Lu Shu gasped in shock. No wonder he had said that they did not need to be afraid of the Phoenix Society's leader. They had made the leader of another organization their planted agent!

It looked like Nie Ting had suddenly killed the Saint when the Phoenix Society was divided. It was all planned...

When Lu Shu thought about how ferocious Nie Ting was, he relaxed...

He looked at Giant with a kind expression on his face. "Yes, you are on my side. Don't fly in the sky at night. Got it?"

"Yes, yes." Giant quickly flew back to the Phoenix Society campsite. He suddenly had an unpleasant premonition towards this journey to the relics. Why had someone like the Ninth Heavenly King come as well...

1154 FOUND THE SLAVE OWNER!

Lu Shu watched as Giant flew back. No wonder Nie Ting wanted to find the slave owner who might be hiding in the Phoenix Society. The Phoenix Society was like a department of the Heavenly Network. They would definitely be concerned about what was happening to their own organization...

He did not care about how Nie Ting did this. During the battle at the Tiger's Back fortress, You Mingyu had sent the overseas intelligence personnel to infiltrate their forces and deliver a report. During this period, many overseas Practitioner organizations had their authority overthrown. But Lu Shu had not expected them to reach the Practitioners.

The Phoenix Society was also considered a first-rate Practitioner organization in the world.

But this was good as well. It would be interesting if the cultivation realm came under the Heavenly Network.

Of course, the leader of the Heavenly Network would have to face counterattacks from the respective organizations. Supporting their leader would be the best. There would be the least injuries and the most profits.

Although they would have to prepare themselves for possible opposition, it would be good if they were able to reach this level.

Lu Shu looked down. He was puzzled. Only Giant had displayed unusual behavior.

Were there no slave owners within an eight kilometer radius? The entire Phoenix Society was within this radius.

Lu Shu was still waiting. He knew that Little Fury, Chen Zuan, and the rest had definitely made their move in the dream realm to find those who were hiding.

At the next moment, someone in the Phoenix Society campsite suddenly awakened. Then, he flew out of Yellowstone National Park.

Lu Shu had been waiting for a hidden Rank One expert like this. A lightning aurablade shot out and flew towards the Practitioner.

The Practitioner, who was still flying, took out a blunt sword to defend himself against the lightning aurablade. The sword energy dispersed with this attack!

Lu Shu understood. It was definitely a slave owner. A blunt sword like this was a Eastern weapon. No one in the Phoenix Society would use such a weapon!

Lu Shu stepped into a void. When he reappeared, the person was running away. He threw a clean punch, creating a loud crashing noise.

A massive amount of heat was produced when the air was rapidly compressed. The slave owner felt as if his hair and eyebrows were burning.

This only happened for an instant. He did not have the time to think about anything else. He knew that he was facing a master. Only masters were able to step into voids and suddenly appear!

The slave owner could only use his arms to protect his chest. Then, he felt a massive

force exploding at the point where his arms crossed each other. The impact spread through his bones and body.

There were many complicated flower patterns on the arm braces. When Lu Shu punched them, the flower patterns shone with a purple light and started to move. They were like flowers in full bloom.

But before the flower petals could open up, they withered. Even the braces had begun to break!

He had relied on this weapon to save himself for 100 years. He did not expect it to be this weak when facing a master. The slave owner fell from the sky. His consciousness was hazy. Even his cranial cavity was trembling.

Practitioners were very strong, but they were still human.

It was once said that the Practitioner's final route should involve the release of their soul. Their material body would rot, but their soul would live forever.

But Lu Shu did not think so. He felt that the material body was the home of the soul. A soul without a body had no foundation.

Lu Shu carried the slave owner and walked back to the campsite. He kept the slave owner alive, as he wanted Xiaoyu to capture his spirit and obtain memory fragments. Lu Shu would not have any sympathy towards these slave owners who destroyed the Earth for their own gain.

But Lu Shu was puzzled. The dream realm could end once the slave owner was found, but why had the dream not ended?

He saw that everyone in the campsite was in a deep sleep, including Lu Xiaoyu. Chen Zuan and Cheng Qiuqiao would occasionally laugh foolishly, while Lu Xiaoyu furrowed her eyebrows.

Little Fury was more exaggerated. It closed its eyes and danced for joy...

Lu Shu walked around the campsite. He realized that everyone looked as if they were drunk. What was going on?

This dream had lasted for a long time. Lu Shu waited for three hours, but did not see any signs of the dream ending.

He could no longer wait. On one hand, they were in the relics. Any strange happenings could result in the loss of lives. On the other hand, the slave owner was on the verge of death. Although the powerful recovery abilities of a Practitioner would keep him alive, Lu Shu's punch had been very powerful. His brain had been knocked out. He could die at any time. What if they could not capture his spirit?

Lu Shu picked up Little Fury and shook it. Little Fury suddenly opened its eyes and looked at Lu Shu. "What's wrong, fatty?"

Lu Shu's expression darkened. "You'd better change your tone... wait. You can speak now?"

"Yes." Little Fury was dumbfounded as well. "I can speak now!"

"Heh heh, don't talk. My head hurts." Lu Shu expressionlessly threw Little Fury on the ground. He felt that Little Fury's tone could not be changed. He did not know

where it had come from, and how it had entered the remains.

There were two mascots at home, Little Fury and Chaos. None of their tones were normal.

Little Fury waking up meant that the dream ended. Without the dream creator, the dream realm would start to collapse.

Lu Shu observed the expressions of the people. He was not sure whether any trouble had happened after Little Fury had maintained the dream for such a long time.

The first thing a secret practitioner did when he woke up was to excitedly ask his friend, "What member level did you reach?"

"Level 7, yay!"

"Ha ha ha, I am Level 8!"

Lu Shu was dumbfounded.

Lu Shu suddenly felt that he could not understand the situation. He had lost control!

After listening to them for a while, Lu Shu suddenly realized that these people had not awakened after the meteorites struck. Instead, Little Fury made all of them die and enter another world. It had opened a new world!

In this world, they could reveal their secrets in their "previous lives" in exchange for money. They could use this money to turn strong and become members...

Lu Shu's expression was dark. He realized that after these people had woken up, they seemed rather reluctant. It seemed as if they wanted to return to the dream realm!

After they died, the world was very relaxing. As long as you were a member, everything would be pleasant!

Lu Shu suspected that if possible, these people would pay money to Little Fury in real life to create dreams for them!

1155 DEEP IN DREAMS

Initially, Lu Shu thought that in order to trap one using dreams, he had to make the dream become a reality.

Yet this time, he was not as good as Little Fury. Little Fury's dream was not realistic and when he woke up, he could tell that the dream was an illusion as everything was perfect in the dream.

However, such perfect dreams were what made one fall. Lu Shu looked over and saw most of the practitioners discussing about the content of the dreams. Some people were extremely excited while some looked lost. They had figured out the origin of the dream when they saw Little Fury but they did not dare to comment.

A squirrel which managed to make a group of people fall deep into their dreams was definitely not an ordinary squirrel!

There were too many troubles in the world, such as losing advantage in the workplace, complicated relationships in the workplace, familial conflicts causing the husband to rather stay in his car than return home to face his wife.

Parents' white hair, the pain and suffering they felt because of betrayal.

All these were things that one had to face with no exceptions.

Lu Shu knew that he was probably in the wrong. In the past, he thought that the real world could trap people but that was not the highest level in reality. The highest level was to cause one to be unwilling to leave their dream, and would pay any price to return back to their dream.

In dreamland, there was no pain. It originated from everyday life but was much better than that.

It was no wonder that so many people were addicted to games and the internet. That was because a game was like a dream, some people liked games where they could gain power from purchasing credits, while some people preferred tournament games where they could minimize the differences between their statuses. It was generally similar, but it was easier to find happiness in games.

Lu Shu smiled and looked at Little Fury, "You have potential."

Little Fury's eyes lit up. "What do you think if I develop this into a payment mode?"
[1. Little Fury's pronunciation was not accurate, so Lu Shu did not understand what he meant at first.]

Lu Shu took a long time to understand what Little Fury was saying.

"Go and correct your pronunciation." Lu Shu did not know whether to laugh or to cry.

At this moment, Chen Zuan and Cheng Qiuqiao came over. The first thing Chen Zuan did was to tell on Xiaoyu, "Brother Shu, be careful, after Xiaoyu entered the dream state, she went to find the person in North Europe..."

Lu Shu was stunned for a moment. He saw that Lu Xiaoyu had woken up and could not tell anything wrong from her expression. After a while, Lu Shu asked, pretending that he did not know anything, "What did you experience in your dream?"

"Nothing much, I strolled around," Lu Xiaoyu shrugged and said.

Hold on, did Little Fury notice that?!

Usually, Little Fury had the ability to figure out everything in the dream state. However, he would not remember everything as his brain capacity was limited. That was the intention of his model, his brain was not a super powerful calculator.

However, if he had noticed the conversations between Lu Xiaoyu and Coral, then he should know everything that happened in the dreams.

However, before Lu Shu could ask Little Fury, Lu Xiaoyu moved Little Fury away... F*ck, he seemed to have lost the last measure too.

In comparison, Little Fury was more obedient to Lu Xiaoyu.

At this moment, someone walked over and said to Lu Shu, "Although I don't know how to address you, but I was wondering... if I can pay to dream again, just once!"

Hearing this, Lu Shu was shocked as it sounded like the lines of gambling and drug addicts.

The money lover Lu Shu shook his head and rejected, "That's only a dream. Be realistic."

The other party was stunned. "Alright, thank you."

At this moment, the practitioners in the campsite realized that they were afraid of Lu Shu because of the Deities, but today, they realized how powerful Lu Shu's team was.

They felt as though they were being ruled. The Practitioners did not understand how Lu Shu and the rest managed to make so many people dream.

At this moment, some people who had sharp eyes noticed the tab on Lu Shu's finger as it was not at a hidden spot. Then, they felt suffocated. What the f*ck, it was really the Ninth Heavenly King!

The news spread like wildfire in the campsite. Over 200 practitioners in the campsite felt a sense of despair. Did the people in the Heavenly Network still care about humanitarianism?!

They deployed such a large-scale weapon of mass destruction as they wanted to?

'What did we do wrong, didn't we agree that Lu Shu would not be used on us if we are obedient?'

Of course, the Heavenly Network did not make such promises. However, everyone was in despair as what they feared for actually happened.

However, some of the candidates came over to join in for fun. It would be for the best if they could find something but even if they did not manage to, it was fine. At this moment, these people had begun to gossip.

After the wedding in Europe, there were not much gossip regarding Lu Shu and Coral. Would anything happen after the two of them met?

In the past, their fast-progressive love story was considered as a classic love story. However, nobody expected them to part ways after their wedding... It was so confusing.

Thinking of how Coral took the initiative to go to the campsite, some people were ready to watch the "show"...

The change in attitude from one of despair to one of an onlooker was extremely fast...

At this moment, a strong wind blew throughout Yellowstone National Park. Lu Shu immediately noticed that the strange phenomenon of the leaking of remains had happened.

The Practitioners scrambled to hold onto the trees nearby. Those who were unable to hold onto the trees on time were blown away by the strong wind and was only able to grab onto something after being dragged against the floor for tens of meters.

After all, as everyone were practitioners, the wind was not able to cause many injuries.

In the strong wind, Chen Zuan shouted at the top of his lungs while hugging the tree, "What's going on, why are there two strange phenomena?"

Lu Shu frowned and stood in the campsite. At this moment, the Practitioners also realized that only Lu Shu was able to stand upright without needing any external support.

That was probably due to the difference in realms.

After thinking for a while, Lu Shu suddenly said, "The remains is not as simple as I thought it would be. I have a feeling that... This is probably going to be the last remains to be opened on Earth."

Cheng Qiuqiao and Chen Zuan looked at each other. Last?! They did not know how Lu Shu came to this conclusion and Lu Shu did not explain either.

1156 OPENING OF THE REMAINS!

Without exception, the remains that Lu Shu and the rest encountered would display a strange phenomenon. That was because the source of strength of the remains conflicted with the current world.

Yet now, Lu Shu and the rest realized, to their horror, that there was more than one strange phenomenon for this remains.

Magma, daylight flames, and now, wild wind. Initially, Lu Shu thought that the daylight flame and magma came from the same source and so did not pay them much attention. Now, it seemed like it was not as simple as what he had imagined.

The powerful daylight flames appeared from the strange remains.

Lu Shu thought, if the remains was a treasure that was intentionally buried, then the appearance of the daylight flames indicated the end of the remains. That was because the remains had a limit and could not be opened indefinitely.

The wild wind blew for a long time. While struggling, everyone in the campsite watched Lu Shu stand in the center of the campsite as he pondered, seemingly unaffected by the wind.

It felt terrible to suffer while watching how someone else was unaffected.

When the wind finally stopped, Lu Shu said, "Let's pack up and walk further into Yellowstone National Park."

Actually, he was not planning to look for anything inside the park. He needed to discuss something with Chen Zuan and the rest and it was not convenient for him to do so with a lot of people around.

Moreover, many people in the campsite had already figured out his identity. He did not like to be the center of attention.

The four of them continued trekking in the park. Chen Zuan, after keeping silent for a while, suddenly said, "Aren't we informing that person that we are leaving?"

Lu Shu suddenly stopped and the silence was deafening. Lu Shu slapped the back of Chen Zuan's head and said, "I told you to wash the dishes!"

Chen Zuan was stunned. Why was Lu Shu bringing this matter up after such a long time?!

Cheng Qiuqiao empathized with Chen Zuan. "Brother Zuan, after we go back, I will buy you life insurance and put my name as the beneficiary. In that case, your sacrifice won't be in vain."

Chen Zuan was mad. "Cheng Qiuqiao, I didn't expect you to have your eye on a dead person's money."

Cheng Qiuqiao casually said, "So you do know that you will become a dead person if you continue being like this..."

"Stop it." Lu Shu waved his hands speechlessly and continued walking. "I need to tell you two something serious. The remains is extraordinary. In fact, I feel like it is a mistake bringing the both of you along with me."

Chen Zuan and Cheng Qiuqiao looked at each other. Was it that exaggerated? Although the lifeforms in the remains were powerful, they seemed to be very powerful initially and was at the peak of recovery.

"Brother Shu, don't scare us," mumbled Chen Zuan.

"I am not scaring you." Lu Shu shook his head. "I am not worried about Xiaoyu since she has the spirit of two masters. However, the two of you are different. Don't forget, the position where one entered the remains is randomized and we were not together when we first entered. Moreover, as the area of the remains enlarged, it had been almost a year since the remains were opened. Who knows how the interior of the remains look like?"

"Unfortunately, we are not able to enter and contact each other immediately," said Chen Zuan, "Or else, the four of us don't have to be afraid of anything."

Lu Shu looked at Chen Zuan with a serious look. "Don't let your guard down. After overcoming so many challenges, we can't afford to let a mishap happen now."

Lu Shu did not mention about how he felt as though there was something waiting for him in the remains. It was either a creature or an unimaginable treasure.

If Cloud Yi and Tiger Zhi were around, Lu Shu could ask them if they knew what was hiding in the remains. However, both of them went back to the Luniverse and brought 5000 packs of hotpot soup base with them...

At this moment, he heard footsteps behind him. Lu Shu turned around and saw Coral walking over with the Deities. Coral's cousin and some others were carrying bags and they looked like they were trekking too.

Lu Shu and the rest did not know how to react. Then, Coral's cousin said rudely to Lu Shu, "Move, why aren't you moving, we are following you guys!"

Lu Shu was speechless.

He looked at Coral, only to realize that Coral was enjoying the scenery and acted as though she did not see Lu Shu.

At this moment, the only thing in Lu Shu's mind was, "What did Lu Xiaoyu and Coral talk about?"

What were the Deities planning...

Lu Shu looked at Lu Xiaoyu suspiciously before turning to Coral. He felt that something was amiss.

With a large group of Deities following him, they were extremely eye-catching. Since the morning, they had walked for over 100 kilometers.

Lu Shu's destination was the core sector near the strange phenomenon of the remains. Since he had to enter the remains anyway, he would rather take the initiative and enter

first, so as to secure a superior position.

They witnessed many commotions along the way. The Practitioners made a commotion everywhere they went. Some of them were brazen in the Yellowstone National Park. Some large organizations also had ulterior motives.

Within the span of two hours, Coral's cousin and Chen Zuan had already stopped two instances of assault on female practitioners.

Lu Xiaoyu said indignantly, "These people deserve to be chemically castrated. Am I right, Lu Shu?"

Lu Shu said after a while, "No, they should be physically castrated."

Hearing this, Chen Zuan and Cheng Qiuqiao had goosebumps. One was more cruel than the other.

Coral smiled and kept silent behind them. Behind Lu Shu, she suddenly felt that things were going pretty well.

At this moment, it began to fog up.

Everyone had been to the remains and knew that the fog was the door that led to the remains.

Everyone looked at Lu Shu. At such moments, their innate reactions reflected who they thought had the most authority.

A commotion broke out in Yellowstone National Park and the Practitioners rushed

over towards where Lu Shu and the rest were.

Lu Shu smiled. "Everyone has been in the remains before, let's not waste time. I hope that everyone can return safely."

After that, Lu Shu walked into the fog. Everyone followed his footsteps. Meanwhile, Lu Xiaoyu turned around to look at Coral and without any words, they seemed to have reached a common understanding.

Lu Shu did not turn around to look at anyone. It was a solo journey through the remains. Everyone had to experience the unknown by themselves. To Lu Shu, he had to face some things by himself.

He wanted to cut open the layer of fog by himself.

1157 STRANGE PHENOMENON OF THE REMAINS

A huge cloud of fog spread open across Yellowstone National Park. Someone made a live broadcast of this scene on a helicopter. They were ordinary people and did not dare to get too close to the remains. However, the camera captured everything.

A beautiful, young female reporter said to the camera, "The Practitioners have gathered in Yellowstone National Park for the opening of the remains. Below, we can see the Practitioners rushing towards the fog the remains have produced. That is where the door leading into the remains is located."

The blades on the helicopter made loud noises but the reporter continued, "Based on our understanding, there hasn't been any opening of remains for the past nine months. In the past, the opening of the remains always creates a huge commotion for the Practitioners as there was believed to be a sea of treasures in the remains. Initially, we thought that the Phoenix Society would refuse to allow the Practitioners from the rest of the world to enter, however, evidently after the battle on the Tiger's Back, they no

longer have the ability to do so!"

"We tried to interview Nie Ting, the person-in-charge of the Heavenly Network, to find out if they would send anyone over. However, the Heavenly Network rejected our interview," the reporter roared in the wild wind, "However, we have received news that the Ninth Heavenly King Lu Shu has appeared in Yellowstone National Park. His power cannot be underestimated! We believe that the Heavenly Network would be the biggest winner this time!"

In this era, media coverage was everywhere because people were fond of gossip.

Ordinary people were definitely curious about the cultivation realm. Therefore, some media companies placed their focus on this group of people even though they were dangerous.

To the media, there were benefits at the center of attention. That was because the extent of outreach and sales of publications determined the salary of a media personnel.

The reason behind talking about Lu Shu was that Lu Shu was the center of attention...

Even Lu Shu was unaware about it himself, but he had many supporters and fans from all over the world. It was like a famous football or basketball player, as long as one was powerful enough, people would idolize them.

Moreover, Lu Shu was too mysterious. Not only did he own a dragon, but he was also the ruler of the battlefield. It sounded extremely charismatic... Moreover, there were too many events that involved Lu Shu...

Besides Lu Shu, Nie Ting also had a lot of fans overseas...

In the past, Lu Shu thought that there were no other ordinary people in Yellowstone National Park. However, he came to this conclusion based on the mindset of an ordinary individual in China. He neglected the possibility that foreigners might have a different mindset as they loved seeking thrills.

In fact, many ordinary people felt proud for returning safe and sound after entering the remains. One could only conclude that there were all types of people in the world. Lu Shu felt that this was a part of the series "why there was so little foreigners".

However, at this moment, the helicopter pilot suddenly pulled the cyclic of the helicopter and said, "Sit tight!"

The reporter looked out in shock and was stunned. The white fog had suddenly spread towards them!

The speed of the spreading fog was too fast. It was so fast that the helicopter was swept into the fog before it could avoid it! The live broadcast stopped!

Those who were watching the live broadcast were stunned. Did the reporter get swept into the remains? They could only see a white screen and loud noises on screen. It took two minutes for the screen to change to that of the broadcasting studio. Evidently, the broadcasting company did not expect this to happen too.

The news anchor in the broadcasting studio said nervously, "The fog at Yellowstone National Park continuously spread, we have lost contact with our reporter and none of us have any idea about what is happening in Yellowstone National Park. Please stay away from Yellowstone National Park!"

However, it was too late. Many ordinary people had already entered Yellowstone National Park and judging from the speed of the spread of the fog, it would be too late for them to escape after seeing the fog.

However, nobody knew how long the spread of the fog would last and how big the area would be.

In less than five minutes, someone posted on the internet, claiming that the fog had stopped but Yellowstone National Park had vanished!

That meant that the fog had completely shrouded the entirety of Yellowstone National Park, including some of the towns nearby!

Too many ordinary people were involved. This caused plenty of others to feel fear!

Up to today, this was the first time the fog of the remains had spread so far that it was beyond imagination!

Countless media reported about this live event as though the end of the world was near.

At this moment, in the Longmen Fortress, Hao Zhichao immediately passed the information to Nie Ting when he received it. Shi Xuejin read the news with Nie Ting and was astonished. "Such a big area? Did anyone calculate if the fog and the area of the remains were proportional to each other?"

"There's no accurate proportion, but this time, the size of the remains must be beyond imagination," said Hao Zhichao.

"Should we go over to assist?" Shi Xuejin turned and asked Nie Ting.

Nie Ting threw the report on the table. "Assist whom? Lu Shu? You are not even as powerful as him and you want to assist him? Forget it, stop worrying about it. He can manage it by himself. I think we should worry more about the overseas organizations."

Shi Xuejin thought that Nie Ting was right. He did not need to worry since Lu Shu was already a Master. Shi Xuejin asked, "What are we eating tonight, I am planning to make sour and spicy potato and mapo tofu."

Nie Ting thought about it and said, "Add a meat dish."

Hao Zhichao walked away silently, how did they suddenly end up on the topic of dinner?

Meanwhile, Lu Shu stood in the remains and looked around. He was surrounded by yellow barren land that looked as though there had been a 1000 year drought.

The sky was blue and clear. However, it was scorching hot like the desert!

Lu Shu slowly turned around. There was a huge scorpion staring at him. The scorpion was at least as big as a house.

In the blink of an eye, the stinger of the scorpion pierced towards Lu Shu, and Lu Shu casually held it with his hand. Then, he moved his wrist and the scorpion was flung over and landed on its back, letting out a loud groan.

The scorpion struggled to get back up but its stinger was held by Lu Shu. The Corpseudog flew out from the celestial map and penetrated the head of the scorpion.

1158 FEED ON THUNDERCLOUDS

Lu Shu was not careless. He broke the tail of the scorpion to prevent it from launching a counterattack when it was on the verge of death.

But Lu Shu had been overly anxious. The scorpion was already dead.

He stood on the cracked ground. Suddenly, he was puzzled. This scorpion had the strength of a Rank Two. Was this the average strength in the remains?

When Lu Shu was in the Luniverse, he was uncertain. The danger of creatures mutating on Earth still persisted. For example, Australia was badly affected. Massive kangaroos, spiders, and anacondas were lurking about. It was hard to keep track of how many people had died. Even Practitioners were not spared.

This was what was happening in the modern cities. It was much worse in remote forests. Why were such frightening creatures rarely seen in the Luniverse?

The most ferocious creature Lu Shu had seen was probably Gu Lingfei's black panther and Yu Fuyao's white tiger, as well as Duanmu Huangqi's Blazing Cloud Foals. They all had the strength of a Rank One.

But there was a similarity between these three creatures... they had all been domesticated!

What about the other creatures? Lu Shu had entered the remote mountains in the Luniverse. King Lu Mountain was an example. Why had he not seen any ferocious beasts?

The forests of the Luniverse were relatively safer than those on Earth!

A scorpion in the remains had the strength of a Rank Two. Lu Shu was puzzled. Had someone caught the scorpion and released it here?

If the magical items had been intentionally brought in by others, it would make sense that the same happened to these creatures.

The remains were more dangerous than he had imagined, but it was not yet a threat to Lu Shu.

Lu Shu wanted to fly into the sky, but when he did so, a thundercloud suddenly appeared in the clear sky and attacked him.

This happened very suddenly. Lu Shu did not even have the time to react. Lu Shu waved his arms. The Seizing Thief, covered in flames, appeared in his hands.

The Seizing Thief was a sword that had appeared above the fourth Nebula. It was the first close-combat sword that the celestial map had given Lu Shu. When Lu Shu waved the sword, a blazing flame flashed past and struck the thunderbolt!

Lu Shu's body felt numb. After the fire of the Seizing Thief and the thunderbolt clashed, it produced a massive recoil that sent Lu Shu flying to the ground. Before Lu Shu could land on the ground, another thundercloud appeared. Lu Shu tried to disperse the clouds as he landed.

He furrowed his eyebrows. When he recalled the power of resonance that allowed him to fly, the thunderclouds disappeared.

Something was not right! This time, Lu Shu did not use the power of resonance. He jumped into the air using his own strength!

This was very strange. Did the thunderclouds only target the power of resonance? Furthermore, it was very powerful!

What was this? Was he not allowed to fly? Lu Shu could not stand this humiliation. It had taken him great pains to train to this stage. What gave them the right to prohibit him from flying?

Huh? Who were you?!

I, Lu Shu, am furious!

Lu Shu flew into the sky once again. He had barely left the ground when a thundercloud with a radius of a few dozen kilometers appeared in the sky. There was a thunderous crash from the clouds. It was as if the clouds were laughing at Lu Shu for overestimating himself.

Lu Shu calmly landed on the ground. Heh heh, sorry for disturbing you.

He looked around. If he could not fly, then so be it. What could he do against the rules? He was the most rule-abiding person!

There was a crash in the distance. Lu Shu was dumbfounded. A black line appeared on the ground. When the line approached Lu Shu, he realized that there was a herd of wild cows. They were as large as a two-storey building. They ran wildly towards him. Their stomachs were as big as drums.

Lu Shu was dumbfounded. How savage was this place? What was this? He could no longer enjoy playing catch.

There seemed to be 1000 cows in the herd. Even the cracked ground seemed to be flattened. Lu Shu wanted to give way, but the cows suddenly stopped and looked at the sky...

Lu Shu realized that there was a crashing sound in their stomachs. When he took a closer look, he realized that there was lightning flashing past their skin.

Wait. This herd of cows was not here to attack him. They had come for the lightning!

The cows quietly looked at the sky, as if they were worshiping statues. Lu Shu thought about it. Then, he flew into the sky. When the thunderclouds formed, the cows all opened their mouths and took a deep breath. The thunderclouds were sucked into the mouths of the cows.

The thunderclouds flowed backwards like a vortex. The cows ate everything!

When the thunderclouds entered their stomachs, the sound of thunder in their stomachs became even clearer!

Lu Shu landed on the ground. After the cows were done eating, they nodded at Lu Shu. Then, they ran away. Lu Shu looked at the cows. The nods seemed to be a gesture of appreciation. They were intelligent creatures.

No wonder this place was so dry. There was a herd of cows who fed on thunderclouds.

But Lu Shu could finally confirm that the creatures here would not attack humans upon sight.

The remains had surpassed Lu Shu's imagination, but suddenly, Lu Shu was interested. Once the thunderclouds were eaten, could Lu Shu fly? Lu Shu flew into the sky... the thunderclouds appeared, but the cows did not return...

"You have no conscience, leaving after you're full," muttered Lu Shu. If he could not fly, then so be it. He had accepted this reality...

He tried to feel for the concentration of magical energy. This time, he could not determine exactly where the concentration of magical energy was higher. In the past, he had successfully used this method to find the core of the relics. But this time, it had failed.

Lu Shu walked around aimlessly for three hours. Suddenly, he saw something familiar in front of him... it was a helicopter!

"Wait." Lu Shu did not know whether to laugh or to cry. "Why are there helicopters here?"

The feeling of seeing a helicopter in the relics was like seeing a mistake in ancient dramas...

Not only was there a helicopter, there were four people in the helicopter. Three men and one woman were beside the helicopter. They looked helpless.

Lu Shu saw a video camera on the helicopter. He walked over and asked curiously, "Are you reporters?"

The beautiful female reporter heard Lu Shu's voice and suddenly looked up. Then, she wildly nodded. "Yes, yes, yes, we are reporters!"

Lu Shu adjusted his hair. "Are you here to interview me?"

"From Israel Moore's distress, +666!"

"From..."

The female reporter, Israel Moore, was about to collapse. "Hello. Do you know how to get out of here? We were accidentally brought here. We are not here to interview you."

"Oh." Lu Shu waved his hand. "Do you want to know how to get out?"

"Yes!" Israel's eyes lit up.

"I want to know too," said Lu Shu with a smile.

"From Israel Moore's distress, +666!"

"From..."

Their expressions instantly darkened. Evidently, these people did not recognize Lu Shu.

1159 RIDING A MULE TO FIND A HORSE

Lu Shu was in no hurry to find the relic. The remains had exceeded his imagination. He would not be able to find the relic in only one or two days.

No matter whether it was the thunderclouds or the herd of cows, Lu Shu understood that he could not be rash inside the remains.

Being a master did not mean that one was invincible. At least, Lu Shu did not dare to fly into the sky.

Israel and the rest realized that the young Asian man in front of them was not decent. If you did not know how to go out, then so be it. Why did you have to play tricks on others?

Lu Shu observed the helicopter. "Were you in the sky then?"

"Yes," said Israel. "Are you a Practitioner?"

"Yes." Lu Shu nodded. There was nothing to hide. There were many Practitioners in the remains. He asked, "Can your helicopter fly into the sky?"

If he could not fly, but the helicopter could, it would be perfect. Speaking of which, Lu Shu had never ridden a helicopter in his life.

"No." The pilot shook his head. "We're out of fuel."

Lu Shu was slightly disappointed... wait!

Earlier, Lu Shu had taken Chen Zuan's phone and realized that electronic equipment could not be used in the remains. A helicopter had many electronic components. How was it still able to fly in the remains?

The pilot had said that they had run out of fuel, not that their electrical equipment had

failed!

Lu Shu took out his phone. Other than the fact that there was no signal, everything was normal.

Israel desperately, "What class are you?"

Israel observed Lu Shu. Asians were typical. Lu Shu had rather delicate features, but he was not particularly good-looking. He was rather normal.

Lu Shu looked very young. Israel felt that Lu Shu was not a high-level Practitioner.

Lu Shu laughed cheerily. "Class E. Amazing, right?"

Israel seemed somewhat disappointed. They were ordinary people. What did they need most now? Protection!

In the remains that was full of danger, the fear in the hearts of Israel and the rest was at its peak. Typically, they could seek their male colleagues for help when they encountered gangsters. But now, all of them were helpless.

Before Lu Shu came, they had seen massive cows running wildly. They were very frightening, even from a distance.

When Israel saw Lu Shu, she thought that they were saved. However, when Lu Shu said that he was a Class E, she was once again disappointed.

Even if they were ordinary people, they knew the Practitioner classes. A Class E Practitioner was the second from the bottom.

As a celebrity reporter, Israel had confidence in her looks and physique. This was her capital, but she felt that using it on Lu Shu had been a waste.

Although there was a gap between the cultivation realm and the world of ordinary people, males still focused on appearances, not on whether she could train.

Thus, beautiful ladies still had capital. As long as the social order did not collapse, they could still freely choose who they wanted and did not want to be with.

Israel also frequently received information and news about the cultivation realm as she had suitors from the cultivation realm. News about the cultivation realm was the hottest news among ordinary people. It was like the dramas aired during prime time and those aired in the afternoon. They were on completely different levels.

Of course, the information she received was limited. After all, she did not know that the person in front of her was the Ninth Heavenly King.

Footage of Lu Shu was rare. This was because the Heavenly Network had intentionally protected him.

At that moment, Israel was still disappointed. She did not expect her luck to be this bad. There were many Practitioners, but she had run into a weak Practitioner.

Lu Shu looked at Israel and the rest. "Wait and see if anyone else walks past. If someone else comes, ask them how to get out. I will take my leave."

Not long after, Lu Shu turned back and asked, "Are all of you ordinary people? Every one of you?"

"Yes." Israel absentmindedly nodded.

"Oh." Then, Lu Shu continued walking. He asked this question as he had realized that the four of them were together. They had not been randomly allocated.

Only Practitioners and Metahumans seemed to be randomly allocated.

Before he could walk much further, Israel suddenly ran to Lu Shu and grabbed his arm. "Please take us in. When we get out, we will thank you."

Lu Shu was dumbfounded. He realized that Israel had a glorified identity. She had not realized this when she came to the remains.

But she did not understand that once she came to the remains, her identity in the outside world was not important. Even the social order was non-existent here. Once ordinary people entered this place, the countdown timer on their lives had started...

This was the end of the world for ordinary people.

Now, Israel's fear had beaten her pride. However, she wanted to follow Lu Shu only for now. When they encountered stronger Metahumans, she could ask them for help.

This was like riding a mule to find a horse.

But Lu Shu had come here to find the truth. He could not bring a group of ordinary people and walk around.

Israel saw that Lu Shu was deep in thought. She suddenly realized that the young man

had not looked at her appearance and physique. She panicked. "If you protect us, we will give you compensation when we get out!"

Lu Shu said with a sense of justice, "I cannot just leave you here. That is not human. Ha ha ha ha, you have misunderstood. Follow me, but I will not take breaks in between."

Israel was dumbfounded. Lu Shu was a few dozen meters away. He turned back and realized that they had not moved. He waved and shouted, "What are you doing there? Hurry up!"

Lu Shu would not abandon these people here. He was selfish, but not cold-blooded.

Lu Shu had decided that since they would definitely encounter other Practitioners, he would hand over Israel and the rest to them... would his compensation be shared? Or would Israel pay more?

Israel gritted her teeth and caught up. Lu Shu looked at her outfit. She was wearing a tight pencil skirt and 8cm high heels. Lu Shu shook his head and said, "Do you have any flats? If not, we will change out those shoes if we find someone dead. You won't be able to walk far in these shoes."

Israel could not stand it. "Why are you so cruel? Are you treating the lives of others lightly?"

Lu Shu laughed. "Is that cruel? Welcome to the remains."

1160 THE FIRST NIGH

Israel hated Lu Shu's tone as she felt that she had been treated lightly by Lu Shu.

If they were not in the remains, even Practitioners who were at a higher rank would

not dare to treat her lightly. Therefore, Israel had already made up her mind, she would leave Lu Shu alone once she finds new Practitioners.

She was secretly thinking if the class E practitioner needed protection from someone she had found.

However, as expected by Lu Shu, before Israel could find someone to protect her, she was tortured to death by her high heels...

The ground in the remains was uneven and they had to jump over some obstacles or ravines. She was committing suicide slowly by wearing an eight-centimeter high heels.

However, because Lu Shu had pissed her off earlier, she continued to bear the pain until now. Lu Shu thought that it was unnecessary as she was the one suffering.

Lu Shu was a pragmatic person. If others gave him suggestions, even if their tone was bad, he would choose the best option for himself.

Indeed, they saw two bodies on the way. The corpses had teeth marks and there were huge beastly footprints beside the corpses.

Lu Shu felt that the creatures in this remain was especially powerful. Goodness knew what creatures did the two of them meet in their past life.

"Their shoes are complete. Although they are males, the left foot is not too big. You should be able to fit into the shoe if you tighten the shoelaces, at least, it will be better than high heels," said Lu Shu.

Israel did not say anything. Her face was pale and her partner was gagging after seeing the dead bodies. Indeed, most of the people on Earth had never seen such a bloody scene before. Many people thought that gagging was a reflex due to disgust but instead, it was a reflex due to an intense emotional trigger.

Lu Shu shrugged. Too bad if she did not want to change her shoe, anyway, it was not Lu Shu who suffered. However, Israel was indeed stronger than her partner. Her partner had gagged but she did not, she was rather strong...

"Don't vomit too much," Lu Shu said emotionlessly, "After all, there's no food here. What happens if you vomit too much and feel hungry?"

Israel was stunned. How disgusting!

"From Israel Moore's distress, +666!"

"From..."

Lu Shu continued walking ahead. Israel's partner said softly, "Just change, if not, you won't be able to continue walking."

However, Israel still did not speak. She turned her head and took a few steps and suddenly sat down and started crying with her hands over her face.

While crying, she looked at Lu Shu's back. However, he did not turn back at all!

At this moment, a pile of black scorpions crawled out from the dead body and began to feed on the corpse. Israel and her partner were so shocked that they hurriedly caught up with Lu Shu.

In the past, he was wondering why the creatures did not feed on the human bodies after killing them. The reason was to leave them as food for their descendants.

"I give you money, take out your shoe and pass it to me," said Israel as she walked behind Lu Shu, "Do you not like money? I will pay you 100,000 USD for your shoes!"

Lu Shu was stunned. "You have too much money? You didn't want the free shoes but you have to buy mine?"

"Yes, I have too much money!" Israel said while gritting her teeth.

Lu Shu looked at Israel's partner. "Is she famous?"

Nobody knew why Lu Shu asked that question. Israel sneered, "Why did you ask, are you pretending that I am a stranger? Am I not famous enough?"

"Oh, I was afraid that you won't be able to pay," explained Lu Shu patiently, "If you are very famous, then I won't be afraid."

Israel whipped out her cheque book from her bag and wrote a cheque before passing it to Lu Shu. "As long as you can make it out alive, you can take the 2,000,000 USD for protecting us and 100,000 for your shoes!"

"Deal!" Lu Shu said immediately.

Israel suddenly felt that she had suffered a loss...

Before Lu Shu replied, she had always thought that she was at an advantageous position. However, after Lu Shu replied, Israel suddenly felt that it was the biggest mistake she had ever made in her life...

"From Israel. Moore's distress, +699!"

Lu Xiaoyu had once said, Lu Shu's most powerful capability was to be able to make dog shit regret after stepping on it.

Unfortunately, Israel had not heard this sentence before...

When Lu Shu took the cheque from Israel's tight grip, he suddenly realized that foreigners' habit with the cheque was pretty good. After confirming the other party's identity, one could immediately take the cheque and save the trouble. To be honest, Lu Shu was not very sure of how to use the cheque.

However, without hesitation, he still took the cheque and took off his shoes before passing them to Israel.

He had many pairs of shoes in his Seal of Lands, all prepared by Lu Xiaoyu. However, he did not intend to change into them. Firstly, he did not want others to know about his invisible storage equipment. Secondly, he did not want to ruin the shoes in the remains.

Israel changed into Lu Shu's shoes behind him. Lu Shu's shoe size was not big. Although it was size 40 and slightly big for Israel, it was way better than her high heels.

After taking off her high heels, Israel instantly felt as though she was in heaven. She

looked at Lu Shu and his bare feet and felt slightly better.

However, Israel felt that Lu Shu was really weird. He sold his shoes for money even though Israel's tone was rather insulting.

How shameless!

The sky darkened. Lu Shu said after looking up at the sky, "There could be changes in the night. Let's find a place to camp and make plans after the changes take place."

Israel and the rest did not stop him. After walking for a full day, they were exhausted.

At this moment, even Lu Shu did not know that the remains had shrouded an unexpectedly huge area. From the incomplete official calculation, the remains had shrouded tens of thousands of people and 99% of them were ordinary people!

If Lu Shu knew about it, he would be shocked. If so many people had entered the remains and they only bumped into two bodies after a day of walking, how big was the remains?!

Unfortunately, Lu Shu and the rest did not know.

After that night and the sky brightened up, Israel mocked while holding in her hunger, "Didn't you say that there would be changes in the night? Why wasn't there any changes? You only heard about it, right?"
