

## 1161 SUPERNATURAL

Many remains had opened, and many secret practitioners had participated in them. They would definitely discuss their experiences after getting out.

Even an ordinary person like Israel knew that strange things would occur in the remains at night. Lu Shu did not need to remind her.

Israel was also curious why nothing had happened after a night, but she could not say this. She had to find an opportunity to humiliate Lu Shu...

Israel and the rest were afraid for the entire night, but Lu Shu slept very well. Israel and the rest could not help but open their eyes and look around at their surroundings. When they saw Lu Shu sleeping soundly, they felt that it was not fair.

But they did not know that although Lu Shu was asleep, the best thing about being a master was that his senses were heightened. Even if he was asleep, as long as an unfamiliar creature appeared within a one kilometer radius, he would be awakened.

But no danger had appeared.

The campsite that Lu Shu had found last night was within a sheltered mound on a hill. It was sloped such that their heads were sheltered. He stood up and walked out to take a look at their surroundings.

He had not noticed anything at first, but now, he was shocked!

He lowered his voice and said, "Hurry, hurry, come with me!"

Israel laughed coldly. "Are you deliberately causing trouble?"

She looked around. There was nothing wrong. What was this young man up to

"If you're not going, then I will!" Lu Shu chose a direction and went downhill. Israel and the rest had no choice. They could only follow after him.

After Lu Shu went downhill, he quietly walked for a few minutes. Suddenly, he stopped and turned around. Israel finally dared to speak. "Is there any danger?"

Lu Shu paused for two seconds. Then, he said, "No."

"From Israel Moore's distress, +666!"

"From..."

Israel was about to cry. Her feet were full of blisters from yesterday. Her legs ached.

Thanks to Lu Shu, all her blisters had popped.

"I thought that there was danger." Lu Shu glanced at them. "But I realized that it had no intention of attacking us. To be honest, if it had such plans, we might not have been able to sleep so soundly last night. Look at the hill we slept on. Doesn't it look like a sleeping tortoise..."

Israel and the rest slowly turned and looked. The hill, which had a radius of one kilometer, was a sleeping tortoise!

They had not seen it as it was too dark last night. They only just realized that something was wrong!

Furthermore, this sleeping tortoise had even escaped Lu Shu's senses!

Lu Shu was sure that it was alive. It just did not want to move...

What in the world was with this remain?!

For some reason, this was the first time that Lu Shu felt that masters could not be prideful here. If not, they might encounter something strange...

Lu Shu was 80% sure that he could defeat this tortoise, but there was a 20% possibility that he could not... if it was lying down, then forget it. It was best not to provoke it.

Lu Shu suspected that they had not sensed anything strange last night as they had been on the shell of this tortoise.

Would the creatures on Earth mutate to this level? It was far too frightening...

Not every single species of tortoise was kind and genial. Furthermore, would whales mutate into a kun[1]... wait. Why had he not seen such strong creatures in the Luniverse?

"Let's hurry up and leave this place," said Lu Shu.

"How will we resolve the issue of food?" Israel suddenly asked, "As a Practitioner, won't you carry any rations when you explore the remains?"

Israel and the rest had wanted to ask this question for some time. Why did Lu Shu not

even have a backpack?

Lu Shu waved. He helplessly said, "My backpack was stolen?"

Israel and the rest were dumbfounded. They finally understood. This made sense. It was known that the cultivation realm was not fair. It was common for things to be stolen in the remains. Furthermore, this young man was only a Rank E. Anyone would be able to rob him.

"Let's hurry up and find other Practitioners." Lu Shu continued walking forwards. He wanted to find someone else to hand over Israel and the rest. Evidently, Israel and the rest did not know what Lu Shu was planning. They thought that Lu Shu wanted to find others for food.

Lu Shu thought that if the remains were very vast, it would take a long time to find the relic. Practitioners without invisible storage equipment would definitely run out of rations. They would definitely run out of water, especially in this dry wilderness.

Of course, there were definitely water sources in the remains. If not, how did the creatures here survive?

Israel asked Lu Shu, "Have you entered remains before?"

"Yes," said Lu Shu as he walked. "I have entered many remains."

First impressions were the strongest. Israel felt that all the truths Lu Shu had said felt like he was boasting.

Practitioners would definitely sense something wrong with Lu Shu, but Israel and the

rest had not even experienced living outside. Thus, they could not determine whether Lu Shu was telling the truth.

As they walked, Lu Shu suddenly heard the thunderous sound of galloping. It was not thunder. There were wild creatures running in the wilderness!

Israel, who had still been arrogant, was not afraid. "What is that? What is heading towards us?"

Lu Shu furrowed his eyebrows and looked at the source of the sound. To his shock, he discovered that... it was the herd of wild cows he encountered when he had just entered the remains!

Israel shouted, "Should we run?"

"Can you outrun them?" Lu Shu was speechless.

Soon after, the herd of wild cows approached Lu Shu and the rest. Israel was in despair. It was as if her life was about to come to an end. They subconsciously hid behind Lu Shu and closed their eyes. They did not even dare to look!

But when the herd of cows came to Lu Shu, they stopped. They no longer looked up to the sky. They quietly looked at Lu Shu. "Where was the lightning? Where is our lightning?"

"What in the world..." Lu Shu suddenly felt that this herd of cows were relying on him. What kinds of cows were these? What kind of habit was this?!

He looked at the cows. "There is no lightning today. Maybe next time."

The cows seemed to understand his gaze. They looked at him again. "We do not care. Where is our lightning?"

### **1162 INTERVIEWER OF DEATH**

Lu Shu was about to collapse. He had come to a strange remains. Furthermore, he had encountered an odd herd of cows that chased him to eat lightning...

No one else in the remains would have had such a bizarre encounter, right? Even if he told others about this, they might not believe him!

Furthermore, he realized that the communication between them was definitely not through gazes. It was as if these cows had the ability to communicate with his spirit.

Lu Shu knew that Little Fury had gained the ability to speak after advancing to Rank One, but other creatures he had encountered did not have this ability. For example, the creatures that belonged to Gu Lingfei and Duanmu Huangqi could not speak. Lu Shu had asked the Imperial Dragon Soldiers. They had said that even Rank One creatures could not speak.

This was also why Lu Shu felt that something was very strange when he heard Little Fury speak. What breed was Little Fury?

Now, although these cows could not speak, they had the ability to communicate with his spirit. Were they special, or was there something else?

Israel and the rest shivered behind Lu Shu. Lu Shu looked at the cows, and the cows looked at Lu Shu. They quietly stood. After ten minutes, the cows realized that Lu Shu had no intention of calling lightning for them. They waved their tails and ran away...

Hm? Lu Shu was somewhat shocked. He wanted to see whether these cows would attack him because they could not eat lightning. But it seemed like they were rather meek!

Would he be able to make use of Lu Xiaoyu's talent of controlling beasts? Lu Xiaoyu felt that although these cows had no intention of attacking now, if they did attack, Lu Shu would be at a disadvantage.

Back then, Lu Shu and Lu Xiaoyu had discussed this. In the past, Lu Xiaoyu was not able to control many creatures. When she advanced to Rank Two, she was able to control more creatures. Now that she was a Rank One, and might advance to the master realm in the future, how many creatures would she be able to control?

The remains seemed to be very suitable for Lu Xiaoyu.

When Israel and the rest heard the sound of the cows leaving, they finally dared to open their eyes. They poked their heads out. "Are they gone? Did they leave just like that?"

Lu Shu thought about it and said, "Do you want me to call them back?"

"From Israel Moore's distress, +666!"

"From..."

Israel's expression changed. "Why would you call them back?"

"You sounded rather disappointed," said Lu Shu.

"I just don't understand why they would come and leave just like that. Why didn't they attack us?" Israel was upset.

Lu Shu smiled. "Not being attacked in the remains is a cause for celebration. There is no meaning in chasing the reason behind this. Curiosity will kill you."

"I am a reporter. I have to maintain my curiosity!" Israel defended herself.

"The Saint. Have you heard of him?" Israel was very proud.

Lu Shu almost said that he had defeated him... he resisted the urge and nodded his head. He asked, "Who else?"

"I have been to Northern Europe to interview the Bishop and Francesco from the Department of Faith Theory," said Israel.

Lu Shu was dumbfounded. "You are the interviewer of death..."

All the famous people who had been interviewed by her were dead?!

"From Israel Moore's distress, +666!"

"From..."

Israel felt awkward. "We cannot determine the outcomes of the battles in the cultivation realm. Even if they are dead, their names will remain in the history of cultivation."

"Yes, yes." Lu Shu was not paying attention. These three people had died under the

hands of the Heavenly Network. He suddenly asked, "Have you interviewed anyone from the Heavenly Network?"

"I wanted to, but they rejected my requests!" Israel was indignant. "The Heavenly Network is the most mysterious existence in the entire cultivation realm. I secretly took a picture of someone from the Heavenly Network, and he confiscated my memory card! He refused to be interviewed too!"

Lu Shu felt that this was normal. Her memory card would definitely be confiscated. You were the interviewer of death. You were a walking flag!

At that moment, Israel was suddenly interested. "I heard that the Ninth Heavenly King from the Heavenly Network has come to Yellowstone National Park as well. He is definitely in the remains. If I can interview him, I will be world famous!"

Lu Shu suddenly had a strange expression on his face. "Do you know what the Ninth Heavenly King looks like?"

Israel looked disappointed once again. "No. He is far too mysterious. People yearn for strong and mysterious men." Israel glanced at Lu Shu. "You will never be as strong as him in your entire life!"

"Yes, yes, you are right," said Lu Shu politely.

"But even if we cannot interview him, we can communicate with their office of foreign affairs. Yesterday, I got into contact with the office of foreign affairs from the Heavenly Network. I asked them why they decided to send the Ninth Heavenly King here. After all, the rest of the cultivation realm seems to be very afraid of this Heavenly Network," said Israel. "Someone even said that sending the Ninth Heavenly

King to the remains is an inhumane thing to do!"

Lu Shu's eyes lit up. "How did the Heavenly Network respond?"

Israel said, "He said that, they could not stop him..."

Lu Shu did not know whether to laugh or to cry. Who said this? Hao Zhichao? You Mingyu? Zhong Yutang?!

You Mingyu was in charge of the office of foreign affairs now!

In the afternoon, Israel and the rest had not eaten for a day. They had not drunk any water either. There were blisters all over their feet. Israel popped her blisters over and over again.

At that moment, they suddenly saw people in the distance. it was as if a group of people were walking towards them.

Israel was suddenly excited. It was like finally seeing land after drifting at sea for over 20 days!

But Lu Shu furrowed his eyebrows. He was a master. He was able to see their expressions clearly.

Israel and the rest had not realized who was approaching them, but Lu Shu had seen that out of the seven people in the group, four of them were women. There were three Practitioners behind them.

The three Practitioners were Class C's, but the women were ordinary people. Only one

of the women was a Rank Four Practitioner.

Lu Shu had understood their plight. He did not find this strange, as he had seen this in the past.

But he was curious. Why were there so many ordinary people in the remains?

Israel had said that the range of the remains had suddenly expanded, but Lu Shu did not know how much it had expanded by!

There was no social order here. Humans could become beasts that were even more dangerous than the wild cows they had encountered.

People would not be able to differentiate who was human and who was a beast.

At least the herd of cows did not attack humans.

### **1163 CHASE AWAY LU SHU**

When Lu Shu realized that there was something wrong with this group of people, he quietly stood where he was. On the other hand, Israel and the rest excitedly shouted and waved. "Help us, please help us! We are here!"

This call for help was like disaster survivors on a deserted island waving to a passing ship.

Israel and the rest detested Lu Shu. On one hand, Lu Shu was very weak. He would not be able to protect them in this kind of place. On the other hand, they felt that Lu Shu's attitude towards them was very poor. She was a famous and beautiful reporter from North America. She was rather well-known in the cultivation realm. However, when they were with Lu Shu, Lu Shu treated them like any other ordinary person.

Israel and the rest knew that the remains were very dangerous. Someone had exposed the darkness of the remains. However, they had also interviewed many people who entered the remains and made it out alive. They felt that the darkness was only an exception. Their interviewees had been very positive.

But they did not know that no one would reveal the difficulties they had faced in an interview. They would be crazy if they did so.

The group of seven people saw Israel and the rest. Then, they hurried over. Lu Shu looked around. He wanted to see if any creatures had been provoked by Israel's shouting...

To be honest, the weakest creature he had encountered in the remains was a Rank Two. One of them could easily eliminate this group of people.

Luckily, this place was vast. The creatures were not crowded together...

The expressions of the four women in the group were complex. They secretly observed Lu Shu and Israel's other companions. On the other hand, the three men were excitedly looking at Israel.

Israel suddenly turned and looked at Lu Shu. She said, "You can go now. I didn't like you from the very beginning. You are simply a Rank Five Practitioner. Why do you act like an expert? I don't want to see you ever again."

Lu Shu said, "... are you serious?"

They did not know who Lu Shu really was. What gave them the right to make this decision? Lu Shu had been kicked to the curb after he had outlived his usefulness.

This was the dissatisfaction they had accumulated towards him...

But Lu Shu was genuine in his actions. He waved at the rest. "Then I will take my leave."

When the other four women heard Israel say that Lu Shu was simply a Rank Five Practitioner, they seemed disappointed. They knew that Lu Shu was different from the three Practitioners who oppressed them. If not, as an ordinary person, Israel would not have been so harsh in her tone towards Lu Shu. But a Rank Five was of no use. They could only keep their thoughts to themselves. They did not dare to speak.

Although Lu Shu was infuriating, he had stood in front of them when the wild cows came.

But Israel thought about it. What use was there standing in front of them? He was just a Rank Five Practitioner.

In the end, Israel did not stop Lu Shu.

He turned and looked at the three male Practitioners. They were all Caucasians. One of them carefully observed Israel. Suddenly, he said, "You are the famous female reporter!"

Israel's eyes lit up. "You know me?"

She was about to explode from happiness. She was finally recognized!

When celebrities encountered difficult situations or people, they would unconsciously ask, "Do you know who I am?"

They hoped that people would recognize them and give them better treatment.

When Israel encountered Lu Shu, she was unhappy. Yesterday, she realized that Lu Shu really did not recognize her! She did not know which distant mountainous village he had emerged from to come to the North American remains...

Since someone had recognized her, it would be very easy. Israel said, "I am Israel, a reporter from TSS. We entered the remains by accident during an interview. I hope that you will be able to help us escape the remains. Oh yes. Do you know what the range of the remains is this time? Why did the remains suddenly expand?"

Everyone knew that leaving the remains now was not realistic. She wanted these people to protect her until the remains ended.

One of them smiled and said, "This time, the remains have engulfed the entire Yellowstone National Park. These people were in the city just outside Yellowstone National Park. They were brought here when they were sleeping at home."

Israel was dumbfounded. She did not expect the surface area of the remains to be so large!

Everyone knew that the surface area that the remains occupied had expanded, but if it had expanded to cover the city outside Yellowstone National Park, how much would it cover the next time it opened?

The next time the remains opened, all the ordinary people would have to evacuate.

This time, the number of ordinary people in the remains was uncountable!

Israel suddenly looked at the three Caucasians. "Can you help us get out of the remains?"

She was still very optimistic. After all, these people had helped four others. It would not be much to help another four people.

But one of them smiled and said, "We can take you in, but forget about your companions."

"Are you saying that you can only take me in?" Israel could not believe it. "Why?"

She finally realized that something was wrong. Her excitement slowly disappeared. She realized that the excitement had gotten to her head. She had lost her power of judgment.

She observed the four women behind the Caucasians. She looked at their untidy clothes, and their bitter and fearful expressions. She thought about what the person had said. Did he mean that he only took in females?

Even an idiot would know that the three of them were up to no good. Israel panicked. She suddenly felt that although the young man was only a Rank Five, and it would not be safe to travel with him, it was still better than traveling with three Rank Four beasts!

At this moment, Israel missed Lu Shu dearly!

"Then what about my companions?" Israel suppressed her fear. "We can't abandon and ignore them."

The three Caucasians silently surrounded Israel and the rest. One of them smiled. "We will definitely not abandon and ignore them. They will die here. Then, the scorpions will lay eggs on their bodies. Their bodies will become nutrients for the young scorpions."

### **1164 DESPAIR**

Thus, three people had wanted to kill Israel's three companions to prevent them from leaking their secrets!

Although the original social order had collapsed after entering the remains, everyone knew that the remains would eventually disappear. When outsiders knew what they had done inside, their reputation would be ruined!

If they let Israel's companions go, and Israel disappeared after the remains ended, they would definitely put the blame on the three Caucasians. Thus, how could they let them go?

They would not even let the women with them and Israel leave the remains! They had wanted to kill Lu Shu, but the three Caucasians were mediocre. Furthermore, Lu Shu's expression was far too calm. Israel and the rest of the ordinary people could not tell, but the three people could sense that there was something wrong with Lu Shu.

They felt that it was best to avoid trouble. In the end, they decided to let Lu Shu go. They did not want to provoke him.

Unlike Israel, they did not feel that Lu Shu was as simple as he seemed.

Israel suddenly felt that the most frightening things in this world were not the creatures in the remains. People with boundless ambition were.

The darkness in people's hearts would emerge after they felt that they would not be punished for their actions.

Israel suddenly felt she preferred being with Lu Shu. Although she viewed Lu Shu's strength with disdain, she knew that even a Rank Five Practitioner would be able to protect the four of them.

But from the very beginning, he did not have any ulterior motives. He had moral conduct!

No. He had moral conduct, but was very infuriating!

Israel took the opportunity before the three Caucasians could approach her to suddenly run towards Lu Shu. While she ran, she shouted, "Help!"

In times of danger where her life was at risk, Israel pinned her hopes on Lu Shu.

But the three Practitioners were much faster than her. Before long, she was caught by the three Practitioners. Her companions stood by the side. They did not dare to speak. They even wanted to abandon Israel and run.

Israel knew that her three companions were useless. At least Lu Shu had reminded her when she walked in high heels. Her colleagues had never offered to help her.

But Israel knew that they were in the remains. She could not blame anyone. However, in her situation where she might be humiliated and bullied, she was in despair.

Israel desperately wished for the young man to suddenly return and defeat the three Practitioners like a superhero.

However, it was a pity that Lu Shu had no intentions of becoming a superhero. She was not a princess or the female protagonist of a movie.

Israel was not foolish. She did not threaten that she would expose them when they got out of the remains. She knew that she might not be able to escape if she did so.

At that moment, Israel suddenly saw a gray thread on the ground. She was dumbfounded. What was this? Was this a strange creature in the remains?

She could not be blamed for doing so, as the gray thread moved as if it was alive. it was like a poisonous snake, except that it was much thinner!

In an instant, the gray thread flew towards the three Caucasians like a snake raising its head. Blood erupted from their necks at the same time!

The gray thread did not stop. Instead, it went underground and disappeared!

No one understood what had happened. The three Caucasians clutched their necks and slowly crawled to the ground. They could not even speak. They could only bend down and panted heavily.

Only they knew that something had cut through their carotid artery and their necks!

If only their carotid artery had been injured, they would not die with their recovery skills as Practitioners. If their blood flow was forcibly stopped, the recovery skills of their blood vessels were very strong!

But now, they could not do anything. They could only wait for their deaths!

Israel looked at the three people in doubt. But she turned and ran towards the direction Lu Shu had disappeared in without any hesitation!

Everything that had happened today eliminated Israel's hesitation. She only wanted to seek protection!

She did not even care about her companions. She only wanted to run towards Lu Shu. She even considered whether the gray thread was Lu Shu's.

At first, she had thought that it was a creature from the remains. But she thought about it. If the creature was that strong, why had it only killed three people?

Israel determined that Lu Shu might be nearby, waiting for an opportunity to attack. Furthermore, he might not be a Rank Five Practitioner!

Israel ran, and the others followed suit. The more Israel ran, the more she fell into despair. She could no longer run, but she could not see Lu Shu anywhere.

The group of people slowed down in disappointment. They walked for another hour before something suddenly happened. Israel furrowed her eyebrows and asked, "Do you smell something?"

They looked at one another helplessly. It was the smell of barbecued meat!

They walked faster. After all, they could not control their hunger. After they crossed a hill, they realized that a pond had appeared. There was even a spring where fresh water flowed from. Lu Shu sat by the pond and broke some branches. He hummed while eating the barbecued meat... beside Lu Shu was a fallen antelope. The meat

from its leg had been cut away...

When Israel saw Lu Shu, it was as if she had seen hope. She wanted to ask him whether he had saved her.

When Lu Shu saw Israel, he was alarmed. "This is the barbecued meat I cooked!"

Israel was about to laugh from anger. It seemed like she had thought too much. What about this young man looked like a superhero?

"How much is it? I will buy it from you," said Israel. She knew that this young man was greedy for money...

Lu Shu beamed with joy. "You are serious about this. Am I really someone who chooses money over my life? One piece of meat will be 100 thousand dollars. The water is free. My treat!"

Israel unkindly sat down. For some reason, when Israel sat beside Lu Shu, she felt very peaceful. Subconsciously, she felt that it was safer with him.

### **1165 FIRST-CLASS INGREDIENTS**

Lu Shu had been following a herd of antelopes for a long time. These antelopes were not as strong and tough as the cows, but they were quite fast.

When Lu Shu chased them, the antelopes were able to kick up clouds with their feet. It was hard to see them.

As expected, the creatures in the remains all had special characteristics. But it was not realistic for them to outrun a master. Lu Shu caught one and wanted to taste what a higher-leveled creature tasted like.

When the antelopes were chased, they only cared about running away. They did not try to attack Lu Shu.

No matter whether it was the cows or antelopes, they all made Lu Shu feel like he was living in the wilderness of the cultivation realm. There was a food chain and various species of animals. The animals were stronger, but they did not attack humans like imagined.

This was a post-evolution world. It showed Lu Shu how the Earth might become in a few decades, or even a few centuries. Humans could fly into the sky or go underground, but other creatures could eat lightning and create clouds!

But the antelope meat did not disappoint Lu Shu. He took one bite and could already taste the quality of first-class ingredients.

It did not melt in his mouth, but the smell of the meat was refreshing. The fat in the meat was cooked. When he took a bite of the meat, the outside was crisp, while the inside was tender!

This time, Israel did not complain about Lu Shu's fees. She was far too hungry and far too thirsty. But she thought about it and said, "I will only pay for my share!"

She had just encountered the most sinister people on Earth. When she thought about how her companions did not try to save her when she was in danger, she was upset.

Perhaps she would put aside her grudges after some time and calmly scrutinize others, but she was upset now. Every ordinary person would have this kind of feelings.

In the end, Israel was a layman. She was an ordinary person.

As for Lu Shu... Israel felt that he was a true layman...

But now, she only trusted Lu Shu.

"You can drink the water. This antelope had been drinking water here." Lu Shu smiled. "But I suggest that you boil the water for 20 minutes before drinking it. You've seen what kind of place this is. All the animals here are much stronger than on Earth. Bacteria would have evolved as well. They might have evolved to an unimaginable level. The antelope might be able to withstand it, but you might not."

Lu Shu knew that besides the new lay person, the rest of them were ordinary people.

Magical energy spurred the evolution of creatures. Bacteria were creatures as well. Many people felt that bacteria were not a threat, but reality would teach them otherwise...

It would be more than a correction of their beliefs...

Many people thought that foreigners were very rich. But a hundred thousand dollars was not a small amount for foreigners. Compared to Iron Man, The Pursuit of Happiness would allow more people to understand how the lives of the lower class in other countries was like.

But Lu Shu did not take them seriously. He knew that if they did not eat or drink, they would definitely die.

To Lu Shu, food was something he could easily obtain. Could he really watch these people die just like that? No.

Most people with moral values, compassion, and sympathy would not be able to do so.

When Israel took a bite, she felt the fatigue in her body rapidly disappear. Perhaps this was the miraculous element of high-leveled creatures!

It had been two days since they entered the remains. They were starving. They quietly ate and tasted the miracle of antelope meat.

Israel took off her shoes. The blisters on her feet had started to rapidly heal. Her scabs fell off even before she finished eating.

"What class is this antelope?" Israel looked at Lu Shu and asked.

"Probably a Rank Five," said Lu Shu as he happily ate the meat. However, he knew that this antelope was probably a peak Rank Two!

He cut another piece of antelope meat and cooked it above the fire. Israel was like a changed person. She asked Lu Shu many questions, while the rest looked on helplessly.

Israel was suddenly excited about the realm of cultivation, all because of a piece of antelope meat.

She was one of the first few reporters to dive into the cultivation realm. She liked supernatural worlds, but she could not awaken.

Now, a piece of meat had healed all her fatigue. She even felt full of energy. She felt

like a young child reading Harry Potter. All the magical spells attracted you, making you wish you could live in their world.

It was said that one would not feel regret, even if they did not receive offer letters from Tsinghua University and Peking University. The most sorrowful thing was not receiving an invitation from the Hogwarts School of Witchcraft and Wizardry.

Lu Shu felt as if there was a mosquito beside his ear while he was eating. Suddenly, Israel asked, "What kind of power did you want most as a child?"

Lu Shu thought about it and said, "Invisibility."

"What would you want to do after gaining invisibility?" Israel continued to ask.

Lu Shu paused for two seconds. Then, he said, "I want to quietly sit here and eat."

"From Israel Moore's distress, +666!"

Israel admitted that she relied on Lu Shu. She even enjoyed this feeling as it made her feel safe.

There were times when she thought, although Lu Shu was not very powerful, it was not bad being with a guy like him.

On the other hand, the female Practitioner was more active. She had entered the remains before. Thus, she was used to this kind of situation. She even used her advantage as a female to exchange for benefits from male secret practitioners.

Thus, while others were still recovering from their fright, the female Practitioner stuck

close to Lu Shu.

It was a pity that Lu Shu was not like those male secret practitioners. He knew how to properly reject such "acts of kindness" from female secret practitioners. The female secret practitioner also learned quickly that Lu Shu was not that kind of person.

Israel saw all of this. She suddenly felt that this young man was not bad. It was just that he was a few years younger than her. Would he be fine with the female being older... what was she thinking about?!

Lu Shu looked at the sky. "We have to leave this place and find another place to set up camp."

"Why don't we set up camp here?" Someone asked. "There is water here."

Lu Shu smiled. "The creatures here will find water too. You should be thankful that they have not come."

Everyone was shocked by this. They quickly packed their belongings. Lu Shu did not even have to pack the leftover antelope meat. Someone had already packed it.

Everyone tried their best to show their value as they wanted to survive.

The antelope was food for everyone. They could not throw it away.

But they did not know that the entire herd of antelopes was in the Seal of Lands... was Lu Shu the kind to only capture an antelope? Evidently not...

### **1166 SKELETON**

When Lu Shu saw a herd of antelopes, he was excited. He did not dare to approach the cows that ate lightning, but there was nothing to fear with these cute antelopes

jumping about. He caught all of them and stored them in the Seal of Lands.

During the battle on the Tiger's Back, Lu Shu had tested out the environment in the Seal of Lands. When he stored resources and people in the Seal of Lands, almost everyone had suffocated and died. Only three people had survived as they had oxygen cylinders.

Lu Shu realized that if he stored a large amount of air from the Earth in the Seal of Lands, animals could also survive in the Seal of Lands.

The Seal of Lands was much bigger than any invisible storage equipment Lu Shu had seen. For example, Lu Xiaoyu's invisible storage equipment only had the space of a small building. But Lu Shu's Seal of Lands had never been full.

Suddenly, Lu Shu thought about it. If he could fill the Seal of Lands with conditions that would allow organisms to live, would he be able to create a new world?

But he quickly understood. It was easy to allow organisms to survive inside, but creating a complete food chain would be very difficult.

There were too many elements of life that could not be fulfilled in the Seal of Lands.

Wait. Lu Shu was dumbfounded. He had entered the celestial map before. Back then, he felt that the celestial map was vast and boundless. Could he create a new world from the celestial map?

When Lu Shu thought about this, he was excited. It was not impossible!

In reality, Lu Shu had never seen the celestial map as a space. He felt that it was a

system of techniques. But when he thought about, even the head of the Sword Hut could enter the celestial map. What else was impossible?

Lu Shu looked around, but did not display his excitement. But Israel and the rest suddenly felt the wind blowing. It was very weak, but mysterious.

Lu Shu was shocked. The celestial map was a space. Had he been able to explore a new space all along?!

But it was not the time to think about this. Lu Shu led the group of people away from the source of water. No one objected, as Lu Shu had scared them with the possibility that other creatures might come to drink water.

The group of ordinary people could not handle the creatures in the remains.

But they did not realize that when they left the water source, some creatures who had been hiding ran out. When they confirmed that Lu Shu had left, they finally came to the source of water. They harmoniously lowered their heads and drank.

They did not disturb one another when they drank water. Even the predators did not try to attack other creatures.

This scene was very interesting. It was as if they had lived here for a long time and established some form of chemistry.

They were very thirsty, but did not dare to go over when Lu Shu was sitting there.

Once they were done drinking, the creatures looked at one another and left. They did not head in the direction where Lu Shu had headed. It was as if they were avoiding Lu

Shu. Their gaze seemed to carry a message. "There is a new demon king. Be careful..."

The remains were very strange. Lu Shu did not know where these creatures had come from. He had not revealed the truth behind the remains either.

To Israel and the rest, no matter whether it was the scorpions or the cows, they were all beasts. It was very dangerous.

But to these creatures, Lu Shu was the true beast...

Of course, Lu Shu did not completely relax. He knew that there were definitely frightening creatures like the tortoise in the remains. Furthermore, 80% of these creatures would not be as docile as the tortoise.

At night, they hid in a cavern that was not very deep. It was more like a cave dwelling than a cave.

Lu Shu lifted up a torch. He looked inside the cavern. The boundless wilderness was engulfed in darkness.

This was their second night together. Lu Shu curiously asked the rest, "What other dangers have you encountered in the remains?"

They had slept on the tortoise on the first night. Dangers might not have dared to approach them, but it was different tonight.

When one of the girls heard Lu Shu, she looked shocked. "We did not encounter any danger on the first night, but we heard a rustling sound in the distance. It sounded like

densely packed shells hitting against one another. I think that some kind of insect is marching!"

Lu Shu was dumbfounded. It would be troublesome if insects appeared at night. If insects appeared in large groups in the wilderness, they were probably army ants. There were many ordinary people in the remains. If the girl had heard army ants, many ordinary people would have been dead.

Lu Shu thought about it and extinguished the bonfire. They had to be more cautious at night.

A weak ray of light shone into the cavern. Lu Shu sat by the entrance, thinking about someone. Suddenly, the female Practitioner came over and said, "I have an outdoor tent set in my bag. I've set it up for you. Go to sleep."

Lu Shu was dumbfounded. He smiled. "There's no need. You should go to sleep."

The female Practitioner was somewhat disappointed. She nodded and went back into the cavern. Israel laughed softly. "She is rather pretty. Aren't you moved? She took the initiative... do a lot of female Practitioners approach you in the remains?"

Lu Shu thought about it. "Quite a lot of them do. Not only do female Practitioners approach me, ordinary females as well..."

Israel's expression changed. According to what she knew, this was the only time so many ordinary people had appeared in the remains. Was he talking about her?

"From Israel Moore's distress, +748!"

"You're just a Rank Five Practitioner. Why are you so arrogant?" Then, Israel went into the cavern to sleep. But she looked at Lu Shu, who was guarding the entrance of the cavern, and could not sleep.

At that moment, someone in the cavern screamed. The sound of a female screaming at night was exceptionally clear. Lu Shu furrowed his eyebrows and asked, "What's wrong?"

"I... I think there's a skeleton here," said one of the females.

Lu Shu went in and took a look. As expected, there was a pile of bones in the cavern. It seemed like the bones had been buried here for a very long time.

But Lu Shu was shocked. Seeing bones in the remains was nothing new, but this was his first time seeing a human skeleton!

It was evidently a human!

Lu Shu brushed away the soil on the bones. When he saw the skull, he confirmed that the skeleton belonged to a person who had died in the remains.

The creatures he had encountered that were most like humans were the soldiers of the sea, but they were not as shocking as seeing a human skeleton... the creatures in the remains were complex and diverse. It was like a complete, ancient world. Had humans lived here as well?!

What kind of humans had lived in the remains?!

### **1167 SOUL HIDDEN IN THE SKELETON**

Lu Shu had never thought that native people would appear in the remains because they had never ever appeared in the past.

Beimang remains, Salt Lake remains, Lop Nur remains, Koh Chang Island remains, no humans had ever appeared in those remains which Lu Shu had been to.

The closest species to humans were the soldiers from the sea. However, the soldiers from the sea were extremely different from humans.

Lu Shu said to others, "Is anyone here medically trained?"

One of the female practitioners raised her hand weakly. "Before I became a Metahuman, I was a nurse."

"Can you tell if this is a human's skeleton?" asked Lu Shu curiously.

The female practitioner was about to cry. "It looks very similar to a human's..."

Lu Shu was stunned. "What do you mean?"

"When I was in medical school, I have learnt it before but I was not hardworking and hence went to urology after graduation..." explained the female practitioner.

Lu Shu was speechless. What on earth was urology?!

At this moment, Lu Shu was certain that the skeleton belonged to a human but he wanted to confirm it through an expert's opinion.

What made him curious was, if there were native people in this remains, how would they treat foreign humans? Would they view them as friends or enemies? How powerful would they be?

Lu Shu would not be worried if there were only creatures in the remains. However, when the word "humans" were mentioned, he was suddenly worried.

At this moment, Lu Shu realized that he was more afraid of humans than creatures.

By right, he should feel a sense of familiarity when he met humans in the remains. However, Lu Shu found it hard to do so as the most dangerous thing in the world were humans.

Israel and the rest got nervous after seeing Lu Shu's reaction. To her and the rest, the skeleton was nothing special. Although it looked frightening, it was normal for people to die in the remains, right?

At this moment, the mindset of the group of ordinary people had slowly changed. They had to get used to the cruelty in the remains to survive. However, they were not as experienced as Lu Shu and did not know that it was unusual for natives to appear in the remains.

Yet now, although in their minds Lu Shu was not that strong, everyone had unintentionally placed all their bets on Lu Shu. If Lu Shu was so nervous, how could they not be nervous?

Israel was nervous. "Is there anything wrong? What happened to this human skeleton?"

Lu Shu frowned. "Something's wrong!"

Israel and the rest got even more nervous. "What is wrong?"

Lu Shu said calmly, "He is naked?"

Israel and the rest were astonished. What a lame joke to make at this point in time! His clothes had already decomposed long ago!

In the previous wave of distress points, Lu Shu suddenly realized that the helicopter pilot's name was not in the records.

Initially, Lu Shu could feel that there was a weak wave of energy when the skeleton was excavated. However, he did not manage to find out what happened in the end.

After confirming with the records, Lu Shu had confirmed that the helicopter pilot had lost consciousness, and the skeleton's soul had possessed the pilot's body!

Lu Shu had heard about spooky stories before. For example, when walking in the cemetery with a friend, the friend could possibly end up not being the original friend...

However, this was ineffective for Lu Shu as he could do a real-name verification!

Israel and the rest looked at Lu Shu shockingly. "Are you insane, he is George! Don't you know him?"

Lu Shu shook his head. To put it accurately, he was Lu Kongming!

"How did you find out?" The pilot was able to talk carefreely despite having his neck strangled by Lu Shu. However, his voice was no longer the original voice of the pilot.

Moreover, what shocked Israel and the rest the most was the fact that the pilot suddenly began to speak in Mandarin.

Initially, they were suspicious. However, when the pilot began to speak in fluent Mandarin, they realized that Lu Shu was not lying and trying to find an excuse to kill someone.

However, how did Lu Shu find out?

Israel and the rest could only credit this to the magical abilities of a practitioner. Meanwhile, the female practitioner did not speak as she knew about it. Both Lu Shu and herself were Rank E but she did not realize that anything was wrong!

In fact, the female practitioner looked up to Lu Shu because she found out that Lu Shu was not Rank E. How could a Rank E practitioner remain so calm in the remains?

"I am asking you a question, why are you asking me instead?" sneered Lu Shu.

Lu Kongming suddenly started laughing. "You don't seem to know who you are talking to."

Suddenly, he pressed his hands on Lu Shu's arm and started using strength from his palms, attempting to break Lu Shu's bones.

However, with that power... Nothing had happened...

"From Lu Kongming's distress, +666!"

Lu Kongming looked astonished. Lu Shu said calmly, "Hmm, then tell me, who am I

talking to?"

"Hehe, looks like I have underestimated you," sneered Lu Kongming again. Then, the skeleton suddenly stood up and using his bones as a knife, he aimed at Lu Shu's temples. Lu Shu, with his right hand holding Lu Kongming, used his other hand to disintegrate the "knife" into powder.

Lu Shu looked at Lu Kongming. "This?"

"From Lu Kongming's distress, +666!"

"Now, I am asking you a question. If you don't want to perish, speak the truth," said Lu Shu calmly.

Lu Kongming was polite. "You mean..."

Although Israel and the rest could not understand Mandarin, they realized that Lu Kongming's attitude suddenly changed and became nice to Lu Shu... Was this what was meant by "a rapid change in attitude"...

At this moment, Lu Kongming saw how Israel and the rest were about to cry. Why were they acting like that? Shouldn't he be the one who was surprised? How did he manage to randomly bump into a powerful practitioner?

He was observing this group of people while hiding in the skeleton. He realized that the group of people were afraid of the remains.

Therefore, Lu Kongming was confused. 'Since you are so powerful, why are you hiding in the cave with this group of ordinary villagers?'

Lu Shu glanced at the ordinary people and said after realizing that they did not understand Mandarin, "Why are you still able to keep your soul?"

"Because my master has a way to keep souls," said Lu Kongming honestly.

**1168 THIS IS TOO MUCH**

Lu Shu frowned. He had a master? So there existed many more humans in the remains?

At this moment, Lu Shu thought about another absurd possibility, perhaps there were a large number of humans in the remains and even towns?!

"Have you heard of the Four Lords of Heaven?" Lu Shu was becoming more brazen in his questions. Since Israel and the rest could not understand Mandarin, he asked everything he suspected!

Then, Lu Kongming was suddenly confused. "What Lord of Heaven?"

Lu Shu sneered, "You don't know? Then you can go and die."

"I know, I know!" Lu Kongming said anxiously.

"What's the name of the West Lord of Heaven, if you can't answer, you will die," said Lu Shu coldly.

Then, Lu Shu noticed that Lu Kongming was about to cry. "The West Lord of Heaven is called, Tom?! I really don't know! What do you mean by the West Lord of Heaven?"

Lu Shu laughed. He felt that Lu Kongming was not lying. In that case, when did the

remains get buried here? And where did these humans come from?

Lu Kongming was an easy target. Lu Shu managed to obtain quite a lot of information from him.

Lu Shu felt that he had finally met an easy target. Ever since he went to the palace, everyone who appeared seemed to be difficult targets and refused to say anything.

In the past, Lu Shu made use of Little Fury's dream to find a slave owner spy in Yellowstone National Park. He kept it for Lu Xiaoyu to obtain the memory fragments.

However, Lu Xiaoyu said that there was a layer of purple radiance surrounding the memory fragment and it broke apart upon touching. She could not read the memory fragments at all.

Lu Shu realized that his opponent knew him very well and perhaps had figured out that he was able to obtain the memory fragments of others.

He came prepared.

However, because of that, Lu Shu was even more determined to kill him. That was because he knew that his opponent would not give in unless he died!

Lu Shu looked at Lu Kongming, "What about this body's soul?"

"In deep sleep," said Lu Kongming carefully, "Because my mental strength is much stronger than his, he could not resist."

"You mean, in this world, apart from your clan, nobody else was able to use this

skill?" asked Lu Shu.

"Yes," asked Lu Kongming, "Do you want to learn? If you can give me an hour's time to kill this person's soul, I will teach you."

Lu Shu acknowledged and continued, "Then let me ask you another question, where are we?"

"This is the forbidden land. I accidentally fell in and got trapped in this place..." explained Lu Kongming.

Lu Shu was stunned. He suddenly realized that they were only in a small part of the remains. It was a place where people called it the forbidden land. In fact, there was another less dangerous area outside of this forbidden land whereby more people gathered!

Lu Kongming was a Rank Two practitioner and had pretty abnormal skills.

Lu Shu had already obtained the information he needed. He was wondering how he could force the spirit out of Lu Kongming's body?

"I will count to ten and you shall return to the skeleton," said Lu Shu. He wanted to force Lu Kongming back into the Seal of Lands. After all, on the one hand, he wanted to obtain information from Lu Kongming, on the other hand, he was afraid that he would be sabotaged when Lu Kongming could move freely.

"I refuse to go back!" Lu Kongming screamed, "My soul can't take this anymore!"

"Too bad, you don't have a choice," said Lu Shu meanly.

"You either kill this person together with me, or I will not leave him!" said Lu Kongming.

"Fine," said Lu Shu calmly before turning to Israel and the rest. "Can you all leave the cave for a while."

After Israel and the rest left, Lu Shu took out a box of stinky tofu and placed it under Lu Kongming's nose. Lu Kongming was instantly stunned. "This is too much?!"

After a few seconds, Lu Kongming suddenly shouted, "I will go back! I will go back!"

"From Lu Kongming's distress, +999!"

"What an easy target," Lu Shu mumbled.

If everyone on earth was like him, Lu Shu would have a much better life.

However, Lu Shu knew that some of the information that Lu Kongming gave him was false. For example, he was definitely lying when he said he accidentally fell in.

Who would randomly fall into the infamous forbidden land? Who was he trying to fool?

However, Lu Shu had his worries too. That was because Lu Kongming might be saying the truth when he said that he was trapped. Lu Shu did not even know where the border was.

Lu Shu walked out from the cave. The smell of stinky tofu was very strong outside the

cave. Israel and the rest looked at Lu Shu in shock. They could not imagine what had happened in the cave.

Meanwhile, George, the helicopter pilot woke up. After smelling the stinky tofu, he fainted again.

Israel asked cautiously, "How is he?"

"Nothing much." Lu Shu smiled happily. "Let's continue moving."

At this moment, he did not want Israel and the rest to fall back into the cave as he did not want them to see that the skeleton had disappeared.

While walking, Israel lowered her head and was deep in thought. She had definitely realized that Lu Shu was abnormal. She suddenly asked, "What rank was the owner of the skeleton before he died?"

"Rank Five," replied Lu Shu without thinking. No matter what, he should not exceed Lu Shu's current rank.

However, Israel pouted in disbelief. Lu Shu did not bother about whether she believed it or not. Then, Israel suddenly said, "You are actually an expert, aren't you, you are definitely not a Rank Five, you should be a Rank Three, right!"

Lu Shu's expression changed drastically. "Don't tell anyone!"

Israel smiled to herself. Indeed, she was right! Israel became much happier thinking about this!

They did not sleep for long that night. However, the special effect of the antelope meat had yet to subside and everyone was still extremely energized.

After walking for about three hours, Lu Shu was stunned when he saw what was ahead. He saw modern tents! Moreover, there were more than one tent, it was practically an entire campsite, he could even see the bonfire and people sleeping on the ground.

Someone built a wall using soil behind a mountain and seemed to have camped there for a long time. There were also people keeping guard behind the wall.

When the ordinary people beside Lu Shu saw this, they were extremely excited and ran towards the campsite. Lu Shu did not stop them and followed quietly behind them.

### **1169 CAMPSITE AND RANKS**

This time, everyone rushed over to the campsite. Israel, on the other hand, was not as rash. She followed them beside Lu Shu.

Lu Shu was curious as he saw the crowd rush towards the campsite. "Why aren't you rushing over with them, although you know that I am a Rank Three, the campsite probably has several hundred people there and there would definitely be more than one Rank Three inside."

The remains were exceptionally dangerous. Therefore, Practitioners were forced to stay together despite belonging from different organisations.

In fact, did humankind not live together to hunt and defend themselves from danger? As humans gradually ruled the world, their habit of living together did not change.

Like an army of ants, the city was like an ant colony and had clear role allocations.

A minority of the people thought that they could completely leave the group. However, that was only the minority.

The people in the remains seemed to have gone back in time. They had to stay together to be able to defend against the ferocious creatures.

The hard truth in the remains told them that they were not the rulers of the remains.

Israel looked at Lu Shu. "I feel that you are more reliable. Although you may not be as powerful as them, you have a good personality."

Lu Shu smacked his lips. Then, he said, "I think you should stay at the campsite."

The campsite looked as if it had been attacked by creatures as the walls were damaged. Lu Shu also saw several enormous footprints that belonged to the creatures nearby.

Therefore, the people in the campsite had experience dealing with creatures. Of course, Lu Shu felt that they had only met creatures who were Rank Two and below. Even a herd of wild cows could trample the entire campsite in minutes. After all, Lu Shu was afraid to offend the creatures who could eat lightning.

At this moment, Lu Shu suddenly saw how Israel became dispirited. Just as Lu Shu was wondering what had happened, Israel said, "Are you so desperate to get rid of me, do you think that I am a burden?"

Lu Shu said without thinking. "Yes."

Israel was speechless.

"From Israel Moore's distress, +748!"

Israel turned over and wiped her tears secretly. "Do you think I want to be like that? Everyone knew that the remains were dangerous, is there anything wrong to find someone to protect me? I am so famous in the outside world, is there anything wrong for me to make use of my skills to live?"

Lu Shu did not speak. He was slightly stunned. Why did she suddenly explode with emotion?

Israel continued, "The world is like so, in order to protect oneself, one has to learn how to make use of resources, how to choose one's friends and how to source external help, right? I am only an ordinary person, I only want to live happily, I only want to be better than others, what's wrong with that?"

"You make it seem as though you are very powerful with that tone of an expert, but you are merely a Rank Three," mumbled Israel. At this moment, she saw Lu Shu walking towards the campsite again and quickly followed behind him. "Do you think there are those types of people in this campsite?"

Lu Shu knew what Israel was referring to, practitioners who suppressed ordinary humans.

"I am not sure. After all, one's ambitions could inflate," said Lu Shu, "However, with such a big campsite, no matter how ambitious one was, one ought to keep it down a little. After all, everyone would make it out sooner or later."

In the past, the three practitioners were extremely brazen as they wanted to kill everyone who knew about the matter. In that case, even if the remains ended, there were no repercussions.

However, there were several hundreds of people in the campsite and it was impossible to kill all of them. Therefore, everyone had their guards up.

The people in the campsite were alerted by the crowd who ran over. They came out from their tents or got up from the floor.

"Oh no!" Lu Shu shouted.

Suddenly, Israel saw Lu Shu sprint towards the campsite. She looked at Lu Shu in shock and confusion before looking at the campsite. "What's wrong with the campsite?"

"There's nothing wrong with the campsite," replied Lu Shu, "Why are your colleagues carrying my sheep!"

Israel was speechless.

Just a while ago, he was calm, and yet now, he was worrying about his sheep?! What kind of person was he!

Israel definitely could not understand. Lu Shu knew very well about the personalities of the practitioners. The remains had already been suffering from a scarcity of food, the sheep would definitely attract their attention!

Although there was a flock of sheep in his Seal of Lands, Lu Shu thought that he

should be thrifty and could not afford to lose even half of his sheep!

Then, Israel saw Lu Shu run over and take back the sheep...

Someone walked out of the campsite. Just by taking a glance, Lu Shu knew that more than half of the people in the campsite were ordinary people! Lu Shu took a sigh, the remains was a catastrophe for the ordinary people. They had to depend on luck to stay alive.

At this moment, a black man with short black hair walked out and people around him made way for him. He stared straight at Lu Shu... To be exact, he was staring straight at Lu Shu's sheep and said, "Were the sheep hunted by you guys?"

"Yes," before Lu Shu could speak, someone took over. It was the colleagues of Israel acting as though they had captured the sheep.

"How many ordinary people are there in your group?" asked the man with short hair.

"Only two practitioners," someone answered, "However, their rankings are low, only Rank Five."

The person laughed. "If you give us the sheep, we will allow you guys to enter this campsite and be protected. However, the condition is, the practitioners have to hunt with us."

Lu Shu was displeased. "Why should I give you the sheep?"

"Because we found out about the secret of this remains and can keep you guys alive," said a practitioner beside the man.

Lu Shu was stunned for a moment. Secret of the remains?!

He realized that the campsite seemed to have formed cliques led by the Rank Two short-haired man. Others looked at him quietly.

However, Lu Shu did not care if the other party formed a clique or not . No matter what, they were still as weak as an ant. At least, that was what Lu Shu thought. He was only concerned about what secret the other party was referring to!

"I will give you the sheep and you shall let us stay," said Lu Shu.

Israel and the rest looked at Lu Shu gratefully, although they knew that the sheep were not hunted by them.

### **1170 BENEFICIARY**

Lu Shu saw how the practitioners took away the animals and suddenly felt a sense of regret. How could this group of starving people look like they knew the secret of the remains?

However, if they did not know about the secret, how could they lead these few hundreds of people to survive for days? Yesterday when Lu Shu was hunting for the antelopes, Lu Shu had already discovered many creatures watching them. In fact, some of them were waiting to capture the antelopes but were killed by the sheep.

If Lu Shu could make it in time, he would kill every single onlooker too...

Therefore, there were many large-sized creatures in this remains. How did the low-ranked practitioners and ordinary people survive?

Lu Shu followed them into the campsite in a low-profile manner. He discovered that although they were vigorously discussing about how to split the lamb, they did not let their guards down. The black man with short hair kept looking outside the wall as though he was worried that some creatures might barge into their campsite.

Judging from this cautiousness alone, he was definitely not someone who entered the remains for the first time nor was he an inexperienced candidate.

However, this had nothing to do with Lu Shu as he only wanted to know what the secret of the remains was.

The ratio of ordinary men to women was about 1:1. Everyone sat on the ground helplessly.

Ordinary people did not have tents to live in. Those who brought tents were practitioners who came prepared. On the other hand, the ordinary people were sleeping at home when the haze spread and they were completely unprepared.

Moreover, the ordinary people did not have much self-defense capabilities. It made things worse as they did not bring anything with them.

Lu Shu looked at a middle-aged man sitting beside him and asked, "How did you guys end up in the campsite?"

The middle-aged man said helplessly, "We made a promise that we will pay them after we go out and we have to listen to them and help them do their work."

"What if you are unable to pay them the amount they want?" asked Lu Shu.

"Then we will be chased out," said the man.

"Did they ever chase someone out before?" asked Lu Shu.

"Yes, about 20 people were chased out because they were unwilling to comply with their demands," explained the middle-aged man.

Lu Shu kept quiet for a moment. The people would die if they were chased out. How could the Practitioners bear to do that?

Lu Shu felt that he was not kind at all. In fact, he was a little selfish. However, in situations like this, he would help as much as possible.

That did not mean that he was very caring, but rather it was a form of respect for life. What could be more important than a life?

This was rather conflicting. Lu Shu did not want to dwell on it too much and just wanted to lead his own life.

When he turned around, he got a shock. Lu Shu looked at Israel in shock, "Why are you scaring people?"

Israel's face was covered in dust and she looked dirty. Israel said as though she was wronged, "I am afraid that someone would remember me..."

"You are pretty smart." Lu Shu's praise was sincere. When he first met Israel, Israel wanted the entire world to notice her beauty, but now, she realized that her beauty might bring her trouble.

Actually, this statement was not very accurate. Was there anything wrong with being pretty? The wrong was not in beauty but the person who made use of that beauty.

However, many people put the blame on beauty itself and called women names like "Helen of Troy". What was wrong with someone being pretty...

Israel smiled to herself. "I am definitely smart. Moreover, I think that those Practitioners are not good people."

At this moment, the antelope meat and mutton was grilled and cut. The black man said, "All Practitioners, come over and eat meat so you can work tomorrow."

Amongst the group who just arrived with Israel, a photographer suddenly asked, "Then what about us? We don't get to eat?"

The leader laughed, "The Practitioners should be the ones eating meat used for physical recovery. Why do you guys need it? We will find food for you guys tomorrow."

"Why, that mutton belongs to us," the photographer said indignantly and wanted to snatch the mutton back.

The leader punched him in the face and the photographer fell to the ground. The leader laughed, "Now, the mutton doesn't belong to you anymore."

As he said that, he looked at everyone in the campsite. "In this place, ordinary people have to serve the Practitioners. Every woman has to serve one Practitioner. I don't care about how you split the food. Men, on the other hand, have to work. Understand?"

The campsite was silent. The rule seemed to have been set a long time ago. The punch the leader threw was meant to scare the newcomers. However, Lu Shu did not pity them at all. After all, when they found the campsite, they abandoned Lu Shu immediately.

Lu Shu could not wait to leave the group. However, he was not a samaritan. 'If you decide to find someone else, then don't turn back.'

The famous relationship expert once said, "If you decide to part ways, then part ways..."

Some of the Practitioners went forward in joy to get their mutton. Then, Lu Shu saw one practitioner wave to a lady after receiving his mutton. He used a knife to cut a small piece for the lady and went back to his tent.

Lu Shu looked at the other Practitioners, all of them did the same thing.

Actually, the Practitioners had enough food. The extra was up to them to distribute. This was a hint for the Practitioners to treat the ordinary people as "slaves".

Lu Shu suddenly felt that the leader was very smart. He made the Practitioners loyal to him and he did not take all the benefits. Instead, he made everyone enjoy the benefits of "order" and protected the cruel "order"!

The leader waved at Lu Shu. "Come, get your mutton."

After Lu Shu got his mutton, the leader smiled to him. "You will easily assimilate with this group. We prepared an extra tent for you over there."

He was trying to rope Lu Shu in directly. He even made the effort to give Lu Shu significantly more mutton.

Lu Shu acted as though he complied but was sneering in his heart. 'You are f\*cking giving me my mutton. If I find out that your secret is not worth a sheep, I will beat you until your brain juices come out!'

'Don't ask why half the sheep became one whole sheep, the excess is to make up for interest!'

When Lu Shu turned and walked back, he suddenly realized that many of the women in the campsite were looking at him quietly. To put it accurately, they were salivating after looking at the mutton in his hands.

At this moment, Israel was sitting at a corner, feeling wronged. Lu Shu waved to her and Israel bit her lips before walking to the tent with Lu Shu..

After entering the small tent, Israel suddenly started to take off her clothes. Lu Shu stopped her quietly, "Eat your mutton. I will chase you out if you take off your clothes!"

As he spoke, Lu Shu lay down. The tent was not very small. Lu Shu maintained about half a meter's distance away from Israel after lying down. Israel looked at Lu Shu in anger, "Am I not good-looking enough? Do you have someone else you like, is she prettier than me?"

Lu Shu gave it a thought. "Yes, prettier than you..."
