

151 BE ON GUARD

Jiang Shuyi was curious, "You're insisting that he would go back on his word, but what if you're wrong? This is 50 thousand dollars."

Lu Shu then stared at the spy who had infiltrated within their group and laughed coldly, "The philosopher Tsang always said to be on guard against the wrong people..."

Jiang Shuyi, "??? Where did this proverb come from?"

"From Jiang Shuyi's distress, +166!"

After the distribution of the fruits, the heavenly network held another meeting comprising people who could battle and this time Jiang Shuyi was included as well.

Zhong Yutang explained the situation to Li Yixiao and as he explained, he noticed that Lu Shu's spears had decreased from 5 to 4. Didn't they agree on not selling anymore?

"From Zhong Yutang's distress, +211!"

Of course, he didn't know that Lu Shu gave Jiang Shuyi one of his spears. Lu Shu did not understand the distress points at all. What's wrong with this guy, was he annoyed at seeing me

152 YOU'RE PISSING ME OFF!

Lu Shu said sincerely in a low voice, "Can you bring me?! How about this? You bring me, and we split the relic 70% to 30%. You'll have 70 and I have 30!"

The other party stared at Lu Shu spouting nonsense. How could he split a physical

relic? What if it was like that mythical sword 'Xin Ting'? Someone take the tip of the sword and another the body?

His body was camouflaged in the middle of the night and no ordinary person would creep silently behind him. This Lu Shu must have seen through his team's plans earlier on!

"From Ohashi Miku's distress, +599!"

The spy thought for a moment and decided to stall him. He continued to spout some nonsense with Lu Shu while looking serious. He lowered his voice, afraid to awake other people, "Alright, 7-3!"

After he finished, the two of them stared at each other without a single movement. Lu Shu asked curiously, "What's wrong?"

153 AN UNRELIABLE PLAN

When Lu Shu shouted loudly, his voice reverberated throughout the entire core of the remain but no one knew what exactly was happening.

Even if he asked specifically if the spy wanted to steal the relic, most people would doubt it. After all, even the class C expert ran into problems when he sent his sword down to explore. Apart from Li Yixiao, probably no one had the ability to obtain the relic.

But no one expected that at this moment, this heavenly king Li Yixiao actually made his move without any hesitation and without holding back at all!

Everyone knew that Li Yixiao was a heavenly king but they had a deeper impression of him as a person running everywhere with two trees in his arms. Even the higher management of the heavenly network had trouble seeing him as a legitimate heavenly

king...

Moreover, everyone including the higher management of the heavenly network had heard of his antics as the principal of daoyuan.

154 GENEROUS-LI

Li Yixiao looked at Zhong Yutang suspiciously but Zhong Yutang's undisturbed demeanor showed that he had no fear of this fatty.

The final number of people going down was a little over 300, which was to say that a large portion of the heavenly network was staying to protect the daoyuan students. After all, not anyone could obtain a weapon.

Based on Zhong Yutang's words, one could not even protect himself without a weapon down there.

Just when Jiang Shuyi was about to follow Lu Shu to the group which was going down, Zhong Yutang suddenly said, "Student Jiang Shuyi, your class is too low, it's better for you to not go. Stay up here to protect the other students. Follow instructions."

Jiang Shuyi was stunned and stayed silent. He then went over to the other group rather unwillingly.

155 INTO THE POTHOLE

"You're taking too much if we split 5-5. You can't even enter the remains without me," Li Yixiao was very much against the notion of a 5-5 split.

Lu Shu spoke candidly, "Truth to be told, I already earned enough from this remain alone. What's the point of risking my life in other remains? There were already so many dead people this time, who knew what would happen next time? What if there were spies who could kill me easily?"

As he said this, Lu Shu thought that he could be closing his doors to the potential money he could earn in other remains and his heart ached at the thought... but when it came to negotiations, he couldn't reveal his weakness!

156 MYSTERIOUS POTHOLE

The stone wall was dry and smooth, different from what Lu Shu had in mind. Under normal circumstances, such stone holes gave the impression that they would be ominously damp and cold, full of growing moss.

As the three hundred people made their way down to more than 50 meters, the walls started showing some weird patterns, as if it was a drawing some sort of mysterious map but no one could interpret the meaning behind it. Initially, everyone thought that the pothole would be extremely dark but to their surprise, these patterns were emitting some light, lighting up the entire bottom of the pothole.

Lu Shu was rather curious. This pothole was a hundred meters deep and since there was already light here, why couldn't they notice the light from on top?

Something's amiss, something's amiss.

157 HIDDEN DANGER

Let's not talk about the uses of the pearl first. To Lu Shu, if there were any benefits to be gained, he would be especially enthusiastic...

Seeing that everyone was trying to hold their own ground and kill the ghosts, Lu Shu was already sprinting frantically along with the other Class D experts. The gold chains around his neck were emitting jingles and he exuded an air of extravagance, it was a sight to behold!

The rest were envious of Lu Shu's strength as a Class E strength-type. And on the

other hand, the sight of the gold chains around his neck was annoying them, those were originally theirs!

Everyone had been fighting for their lives ever since coming into this realm but this scum seemed to be on a holiday.

Wait, going on a holiday meant that a tour guide would bring you to shops and every time you visited a shop, your money would reduce while the tour guide would be earning loads of commission.

Lu Shu wasn't a tourist, he was a tour guide!

158 A FAMILIAR SIGH

Everyone stared at Lu Shu silently and felt that something was definitely not right. But they couldn't pinpoint what was wrong.

Logically, if Li Yixieo didn't have any way of making the spy reveal himself, what could the Class E strength-type do? And so no one really believed that Lu Shu could accurately determine the location of the spy.

But amidst all these was a very strange feeling...

Lu Shu was troubled. He couldn't explain himself after managing to hit this Zheo Heiping!

Li Yixieo was curious, "Was it really by luck?"

Lu Shu was speechless, "Yes, really. How can the Class E strength-type like me have a method of finding him?"

Lu Shu saw that Li Yixiao still had a doubtful look and casually pointed towards a direction, "Come, let me try again. There's no way it can happen again..."

Everyone stared at Lu Shu silently and felt that something was definitely not right. But they couldn't pinpoint what was wrong.

Logically, if Li Yixiao didn't have any way of making the spy reveal himself, what could a Class E strength-type do? And so no one really believed that Lu Shu could accurately determine the location of the spy.

But amidst all these was a very strange feeling...

Lu Shu was troubled. He couldn't explain himself after managing to hit this Zhao Haiping!

Li Yixiao was curious, "Was it really by luck?"

Lu Shu was speechless, "Yes, really. How can a Class E strength-type like me have a method of finding him?"

Lu Shu saw that Li Yixiao still had a doubtful look and casually pointed towards a direction, "Come, let me try again. There's no way it can happen again..."

159 LU XIAOYU'S COMPLAINS

Over a hundred armored soldiers were approaching and Lu Shu had already readied his spear but didn't throw it. This was because he wasn't sure of their strength and what if the spear did nothing to these armored soldiers, wouldn't that be awkward?

When the melee soldiers from both sides collided, it was Cao Qingci who stood out. For some reason, all the armored soldiers that came into close proximity of her were suddenly slowed down!

This was the first time Lu Shu saw Cao Qingci in battle and he felt a sense of admiration for her. Each and every move of hers was smooth and with ease and precision.

Lu Shu suddenly felt a tug at his hair as he turned over. It was the little squirrel which had woken up and was standing nervously on his shoulder, terrified. Pulling at Lu Shu's hair, the little squirrel buried its head in his hair...

160 TERRACOTTA SOLDIERS

After some time, the distress points from Lu Xiaoyu didn't contain the additional words anymore. It seemed like this depended on the amount of distress points.

Lu Shu felt that he should go back and investigate. If he found out the reason behind it, wouldn't there be more methods of communication?

So under circumstances when they couldn't speak in front of others, wouldn't this mean they could silently devise a plan? Lu Shu was absolutely delighted as he thought of this.

Just then, Zhao Haiping noticed that this teen he was tracking was standing in the middle of a room and laughing to himself. Just what was he laughing at...

This scene sent chills down Zhao Haiping's spine, what kind of indecent thing possessed him?!

Is he mentally unstable?!
