

271 MEETING WITH THE MAIN UNI

Lu Shu left the clearing at dawn. He looked the Daoyuan Class students, who were all sound asleep, and gave a sigh. This bunch of students can still let down their guards and be so trusting of the environment after stepping into the remains.

Still, he must say that training soldiers is what the Heavenly Network should rightly do. The only thing is, only a truly well-trained unit can stand up to the forces outside. If not, such a large-scale cultivation of practitioners would only end up becoming a joke in this world.

Let's hope that they can mature speedily after going through setbacks. Even though they are only youths around the age of 16 to 18, nobody would let them go because of their age when during a war when facing life and death.

272 ROOTING OUT THE SPY!

Lu Shu looked at his back-end income recorder and frowned. He found this Japanese name extremely familiar... a spy!

Previously, he had not come across any spy when he met up with Gao Yi's group. As a result, Lu Shu had almost forgotten about this issue. He was only reminded once again when the name of the distress points' owner went into the record. There were surely still spies hidden in Qingzhou.

However, Lu Shu gave a shudder. There were more than 30 people here right now, to find the spy would take great effort.

Where should he start...

At that moment, a relief captain called Wang Xinkai asked resignedly, "I was asking you, which part of the remains did you come from. How's the situation there, why are

you without any visible sign of injury and also travelling alone?"

"Oh," Lu Shu nodded. "You're asking this..."

273 A SIMPLE POIN

In the night, at the border between China and India. The Yarlung Tsangpo River officially entered the flood season, fed by water dissolved from the mountain snow as temperature rose.

However, a group of seven men could still be seen standing at the spot despite the oppressive heat, wrapped in their thick jackets. They were all wearing goggles and were utterly unidentifiable. They seem more to be decked out for stealth missions than outdoor sports.

One of them looked at his watch, "The time has come, prepare to infiltrate."

"Haha, the Heavenly Network would never expect us to take a plane specially to infiltrate here. Chen Baili is probably looking for the Matrix Eye in a remains right now!" One of them guffawed.

274 SAYING IT TOO LATE!

"The new guy in the team, he doesn't seem exactly to be of sound mind..."

"I find it so too. He actually asked me where the Eighth Route Army is. How the hell would I know..."

"Oh, he asked you too..."

Lu Shu chuckled as he collected the distress points while tagging behind the group. It was now only ten thousand points away from three-hundred-and-twenty-thousand distress points.

The first layer of Nebula condensed into the Corpsedog. What would the second layer bring?

His level of power now is at the Class D peak of a pure power system Awakened one. Even an ordinary Class D practitioner would be no match for him.

A power system Awakened person's peak power is its purest pinnacle of existence. It was not necessarily the fact that the other practitioners were weaker than him, but Class C and below did not have any special means to be a match against him.

275 SECRET CODE

Li Li crept noiselessly into the forest. Once he was sure that nobody was tailing him, Li Li dashed into the forest depths. The spy had received a message from his superior earlier, to leave a secret code every time there was an opportunity to when in the remains.

Honestly speaking, with a remains this immense, it was hard not to be seen. All they could ensure was to do their best and leave the rest to heaven's will. Whether able to link up was ultimately up to chance.

He could only leave a code at every place he had been to, to increase the probability of the secret code being picked up. Now, there were no other communications means more technologically advanced upon entering the remains. He could only rely on this ancient method.

276 THE RELICS' MYSTERY

After a whole day, everyone was tired. Wang Xinkai built a fire pit in the middle of the empty ground which shone on everyone's faces.

Some's faces were blackened by dirt on their dirty hands while wiping off sweat as

there was nowhere they could wash them.

Some of their wounds started to recover. No matter how strong their body was, these practitioners of D and C-grade did not have the ability to recover within a day.

Everyone was extremely tired, sitting quietly around the fire pit in the empty ground while eating their hardtack and sipping water.

Wang Xinkai was extremely glad that this group which he led did not encounter any severe injuries, just that he did not understand one thing. This empty ground was definitely created by animals nearby for hiding at night.

The question was, why did the animals not turn up?

Someone else who had the same thought was Lu Shu...

277 LU SHU'S TACTIC

Lu Shu's voice was like a torch thrown into a field of dried grass, igniting it.

The originally quietened night became happening once more. Wang Xinkai and the rest were shaken awake and looked at Lu Shu, "What's happening?"

Li Li turned and smiled, "Nothing, please go back to sleep. Captain. Lu Shu said that the Royal Army had a message for me."

"Oh...", Wang Xinkai let out a sigh of relief thinking that Lu Shu was overreacting...

However, just then, Lu Shu laughed lightly as he looked at this group of awoken people who just provided him with a bunch of distress values and stood up with a smile, "Mr Li Li, I'm afraid that things are not as simple as you think."

Wang Xinkai and the rest originally already laid back down, preparing to go to sleep. When they heard what Lu Shu said, they froze for a moment.

Li Li's heart squeezed tightly, wondering if this student was really feigning ignorance usually?

278 THE FIERCE BATTLE IN THE FORES

Li Li lifted his head in shock and saw Lu Shu suddenly transformed into a shadow, pouncing towards him. This transformation was so sudden as no one thought Lu Shu would suddenly attack Li Li!

At this point in time, Li Li then suddenly realised... Lu Shu's was so fast! This definitely was not the speed an E-grade powerful metahuman would have. No matter how superb he was at strength-control, it was absolutely impossible!

Li Li pupil constricted at how Lu Shu concealed his abilities. Furthermore, ... he already knew Li Li's identity!

Although Li Li did not know how Lu Shu found out, he could not be bothered with hiding anymore!

The branches on the tree broke into two from the vibrations caused by Lu Shu's leap as he started laughing in the air, "Yesterday were you trying to kill me with the needle hidden in your hand?"

280 ACTING ALONE

In the glistening forest, Wang Xinkai and the rest continued to move deeper in as everyone except Lu Shu were doing their best to fight the weird trees.

Lu Shu looked around and thought that this would not do. If others realise that he was not attacked by the weird trees, wouldn't they drag him out to be experimented on?

He quickly wrung out a bunch of tree brunch from the weird tree beside him and wrapped them around himself as though he had just been attacked then help the rest escape.

Some of the students were quite touched as they saw the numerous broken branches on Lu Shu and thought that while he was attacked, he still wanted to help others so they felt they misunderstood him!

Although he was not right in his mind, the student had a good heart!

They recalled how Lu Shu protected everyone along the way, chasing away the wild animals, they almost shed tears. He is definitely Year 2010's Best Student!
