

291 DRAWING AN IOU

I wonder if the old priest would be angry or not...

I wonder if the old priest got eaten by a wild animal...

In Lu Shu's mind, many possible instances that flashed past in a moment. His hand trembled and his lance almost slipped off and fell. He kept all the lances into the seal of lands before returning.

He had heard from Jiang Shuyi mentioning about the old priest being responsible for guarding the country. Even if he despised the other party's extremely polite method of asking whether he wished to be his apprentice when his real intention was to get Xiaoyu to be his apprentice.

However, Lu Shu's heart was still full of respect for him... After all, if there were no one protecting the country, how could there be peace and harmony within the country right?

After returning back to the open space, Lu Shu was taken aback for a moment. When he left, the old priest was fine as he regulated his breathing cross-legged. Now, he was lying on the ground.

292 THE ROOT OF THE INJURY

Lu Shu originally intended to leave with Chen Bai Li as Chen Bai Li said, but he later found out that Chen Bai Li was overly optimistic about his injury.

The old Taoist priest now donned ragged clothes. Upon seeing the holes in the clothes, Lu Shu knew that the old Taoist priest faced the same situation as he did.

At that time, the other party should have been in a state of full power. The seriously injured Class B master defeated him and penetrated his celestial cloak. One can imagine how powerful the Class B master was.

"Come, I will help you up," Lu Shu took Chen Bai Li's body and wanted to lift him up. As a result, Chen Bai Li was overwhelmed by fatigue. Chen Bai Li sighed and his roots were more severely damaged.

If this was not the case, he could have tried defeating Class A after his regaining his magical energy. Unfortunately, he no longer had the power to do so..

293 MEETING LITTLE FURY COINCIDENTALLY!

After Lu Shu confirmed that Chen Bai Li was still breathing, he concentrated on preparing to fight. The magical energy on the left felt rich and overwhelming, and Lu Shu was worried that he might not be able to fight what might be coming.

However, nothing came after waiting for half a day.

Lu Shu felt that something was off. That magical energy didn't move a single bit, it didn't come nearer neither did it go further... This place is not a holy site, right?

Lu Shu had faced too much danger in the relics. Now that he was facing the magical energy, he unconsciously thought that it is offensive, and concentrated on preparing to fight it.

It was only now that he suddenly thought of an issue, there were not only offensive living creatures in the relics, there were also treasures!

294 THE DISAPPEARANCE OF MAGICAL ENERGY

Lu Shu pondered.....should I say that I was afraid my head would catch a cold, so I used a shirt to keep myself warm?

I guess not....

Should I say that I was afraid I would be blinded by the midday sunlight?

This should not do either...

What should I do right now to not be hated by the Heavenly Kings?

At this moment, Lu Shu suddenly thought, even if he managed to explain why he was using a shirt to cover his head, how should he explain about the three bare green branches?

In a split second, Lu Shu suddenly got an idea and exchanged for three refresher fruits from a shop. However, on second thought, he was never a generous person. He threw a refresher fruit to Little Fury and gave him a look to be quiet about it.

Life still has to go on, every savings count, giving Little Fury a refresher fruit was better than giving an outsider one.

295 I CAN'T HAVE IT!

To be honest, Lu Shu had never thought that a single Refresher Fruit could actually have such great effect. It promoted Chen Baili straight up to a Class A. Is he...the first Class A in the world?

From Chen Baili's words, one could deduce that he had been having the bottleneck for a great many decades. It was all due to the damaged foundation. Now that his foundation was restored, all breakthroughs were assured.

Li Xianyi once said, the bottlenecks in this world were like a ceiling. When everyone was stuck at that level, it would seem impossible to break through. However, when the first person break through the ceiling, it would be like a revolution in history and the standards of all human would rise once again.

According to what Lu Xian said, to break through into Class A would no longer be the issue of simply an individual.

296 WORSHIPPING HEAVEN

Lu Shu suddenly asked, "I'm a little curious. Before your magical energy was drained, who were you fighting with which led to the damage to your foundation?"

This had been a question in Lu Shu's mind all along. Previously, he had asked Li Xianyi, but the old man did not tell him. It should not be a problem to ask Chen Baili now.

Chen Baili shook his head, "I can't say."

Lu Shu was momentarily shocked, yet another person who could not say?

At this moment, a surprised scream was heard coming from above the creek, "Lu Shu!"

Lu Shu looked up towards the cliff wall, only to see Lu Xiaoyu's little face emerging from above the creek. Lu Shu's mood was instantly lifted. He held the soft fur of Little Fury and leapt up! The leap was over twenty meters wide, yet to him it was as effortless as traversing level ground!

297 HUMANITY'S DREAM

Now that the person whom Lu Shu and Chen Baili had been most wary of was confirmed dead, Chen Baili suddenly gave a sigh, "Initially, the first thing I planned to do upon my promotion into Class A was to capture him. Can't believe an impressive Class B master would come to such an end. The path of cultivation is indeed fraught with dangers and uncertainties."

Lu Shu chuckled, "If he had the guts to come, then the prospect of being killed should not be ignored. It was utterly his own doings."

Chen Baili looked at Lu Shu strangely, before reconsidering things and smiled, "You're right!" He said, "All of you can wait here. We can all leave after I get hold of the Matrix Eye."

To Chen Baili, he was now already a Class A. Some time may be required to locate the Matrix Eye of the remains, but the dangers here were no longer any threat to him.

298 ENDING OF THE REMAINS

Lu Shu had already given up contending for the Matrix Eye. This time he had given up completely. Now, other than the fact that one could fly, he knew absolutely nothing about a Class A.

Moreover, looking at Chen Baili's speed of flying, by the time Lu Shu sprint over, everything would have already been over...

The purpose of life was not to acquire everything we come across, and good fortune does not come by all the time. Lu Shu was already very contented.

"Brother Lu Shu, may I ask? Why did Second Master say our Chen family would have other good fortune when I mentioned my merits? Who is that white man? You

fought with him before?" While traversing the forest with Lu Shu and Xiaoyu, he still decided to broach this question.

299 EDGE OF THE STORM

In Lu Shu's heart, he thought that they gained a lot in the relics this time.

However, there were still a lot of cute little animals in there, and deals were not made...

However, he thought about it again. This time they managed to clinch the deal with Little Fatty and it alone already surpassed the rest of the individual deals, it didn't seem exceptionally regretful. Furthermore, there would definitely be increasingly more family disciples joining to explore the relics. During this period, this place was the easiest to attain honour.

Lu Shu thought till here and looked at Little Fatty who was beside him, "Next time when there are new relics, do you still want to go?"

"Of course!" Chen Zuan tasted the benefits. If he wanted to get a firm foothold among the disciples in the institution, he had to maintain his advantage in capability and military ranks.

"Coughs." Lu Shu unconcernedly said, "What did you say the previous time?"

300 GOODBYE, QINGZHOU

Lu Shu looked at the nine wild animals behind Lu Xiaoyu. As he did not think that Lu Xiaoyu is able to bring them out, so Lu Shu didn't even think of one question... how were they supposed to feed them?!

How much sheep or cows do they have to eat per day? Their sizes were gigantic, and their appetite would be the same. How was he going to feed them?!

Even though Lu Xiaoyu's side still had Little Fatty Chen Zuan's 420 thousand IOU, they couldn't waste all the money like that right? If all of them were in the size of Little Fury it would be fine, but the problem was they are not.

So when everyone saw that many wild animals, their first reaction would be fear or in awe. However, for Lu Shu, it was heartache...

Lu Shu held on to Lu Xiaoyu and whispered for a long time, "Xiaoyu, it wasn't easy for us to be here today. I feel that bringing these animals home would result in us being poor, should we...sell them?"
