

## Chapter 2547

The Land Cruisers stopped at the courtyard domineeringly and then someone kicked the car doors open.

More than twenty young men and women walked down at the same time.

They all looked arrogant and cold with swords hanging around their waists.

The leading one was a long-haired beauty with a height of nearly 1.7 meters.

She had a pretty face, with a cold aura, as if she could look down on everyone in the world.

She held a tablet in her left hand, glanced at Harvey at this moment, and sneered, "Branch Leader York, you left Mordu without authorization and came to Hong Kong to commit a crime!"

“It’s the first time for me, Carrie Kennedy to see such an arrogant branch leader of Longmen like you!”

“But since you’re here, don’t leave!”

“If you don’t want to die, put down your weapon and kneel!”

“You may be exemptible from the death penalty, but hardly from punishment!”

Harvey glanced at these people and said indifferently, “Who are you?”

“The Law Enforcement of Longmen!”

Carrie spoke frankly.

“Our head has already received a report, stating that you disregarded the safety of the branch of Longmen and you provoked the distinguished guest from the Island Nation!”

“And now you are here in Hong Kong to commit a crime!”

“The Hong Kong government can tolerate a villain like you!”

“But we, the Longmen can’t!”

“Oh?” Harvey slightly nodded. “The Law Enforcement Hall that has the support of the Longmen’s Four Elders!”

“No wonder you act so arrogant.”

Harvey looked indifferent. He took over the position of the branch leader for Samuel Bauer’s sake.

Otherwise, even if he was offered to become the master of Longmen, he was not interested in it.

Just a bunch of disciples of the Law Enforcement of Longmen, they did not have the right to act pretentiously in front of him.

“Well, you guys came just right. Remember to clean the ground and clear up the place after I kill Maki.”

“After all, this is the Grand Hotel. It’s quite inauspicious if someone dies here.”

Harvey’s words were indifferent. He was about to step forward to finish Maki at this moment.

After all, finishing them off was his goal tonight.

“Harvey!”

Carrie was furious after hearing Harvey’s words!

“Presumptuous!”

“Do you know who you are talking to?!”

“Did you know that we, the Law Enforcement Hall are just below the master and supervise the branch leaders?!”

“You should behave yourself in front of the Law Enforcement Hall!”

“If you dare to act so arrogantly, I can kill you. No one in Longmen will dare to come forward and stand up for you!”

“Besides, do you know where this place is?”

“Do you know what Mr. Takei’s identity is?”

“He is the Elder of the Shinkage Way!”

“Who gave you the guts to kill him?!”

“Hong Kong was also a territory of the great Country H! Hong Kong is also a law-abiding city!”

“Someone has already reported to the Law Enforcement Hall that you killed Naoto Takei!”

“Now you even break into the mourning hall, wanting to kill the victim’s family?!”

“Who gave you the confidence to defy the law?!”

“Who gave you the right to go against the Law Enforcement Hall?!”

Carrie’s face turned cold.

In the past, when she acted on behalf of the Law Enforcement Hall, the thirty-six branch leaders of Longmen, none of them dare to disrespect her.

Everyone knew that Elder Kennedy of Longmen was her grandfather.

Now, Harvey, a brat who came out of nowhere had become the branch leader of Longmen.

He did not come to the Kennedy family to pay tribute immediately after that. So be it!

Now, he even dared to act boorishly in Hong Kong in the name of Longmen!

It was certainly intolerable!

## Chapter 2548

Carrie pointed out at Harvey and said coldly, “I’m telling you on behalf of the Law Enforcement Hall, put down your weapon, kneel and beg for Mr. Takei’s forgiveness. After that, just wait for the result from the Law Enforcement Hall!”

“If you dare to act recklessly, don’t blame me for not giving you face and taking you down on the spot!”

“After all, you have killed both Naoto Takei and Makoto Takei!”

“The evidence is very strong and the facts are clear. Killing you, there’s nothing wrong!”

Carrie waved her hand while speaking. Then the disciples of the Law Enforcement of Longmen took out their bows and aimed at Harvey with a look of disdain now.

Harvey turned around with great interest and looked carefully at Carrie.

He could feel that this woman seemed to be very unpleasant to him, and she seemed to aim at him a little deliberately.

However, Harvey came to understand a little bit more while he thought of the three words “Law Enforcement Hall”.

He must have affected a lot of people’s gains after he became the branch leader of Longmen.

Previously at the meeting of the branch leaders, the senior disciple of Law Enforcement Hall was defeated by him, and the waddy was ruined.

In this case, it was impossible for the people of Law Enforcement of Longmen to have a good impression of him.

However, Carrie still dared to come and mess

with him even after he had destroyed the senior disciple of Law Enforcement of Longmen. This could only explain one thing, that was, her status was extraordinary. She was most likely a descendant of one of the Longmen's Elders.

Ordinary disciples of Law Enforcement of Longmen would not dare to even let out a fart in front of him.

At this moment, Harvey looked at Carrie indifferently and said slowly, "I didn't kill Naoto. The evidence is clear and I have witnesses to act as my surety. So what am I guilty of?"

"As for Makoto Takei, he knew I didn't kill Naoto, but still, he want to use this excuse to kill me. I was just trying to defend myself. What's wrong with that?"

"As for Maki Takei, he wanted to seek revenge from me. So, he rallied a group of masters to besiege me. So many people attacked me but

were knocked down by me in the end. How is that my fault?”

“Also, Rumiko Takei pretended to be a forensic doctor and want to assassinate me. This matter isn’t over yet!”

“The Takei family provokes me again and again. They want to kill me. This is self-defense. I’m just trying to protect myself.”

“Am I really acting recklessly? Why did you, the disciple of Law Enforcement of Longmen think of me like that?”

“Are you really Chinese? Or are you an Islander?”

“Since you are a disciple of Law Enforcement of Longmen, then why don’t you preside over justice for me?”

“Not being able to distinguish the right and wrong, and not treating cases unbiasedly. What’s the use of Law Enforcement Hall to Longmen

then?”

“Letting you act pretentiously above us?”

“Even if you don’t think it’s dirty. It’s very disgusting for me!”

Harvey looked indifferent. His words were sarcastic and he did not give Carrie any face at all.

Carrie’s pretty face became cold. She stared at Harvey at this moment and said, “York, I didn’t see the things that you mentioned. I didn’t see any evidence either!”

“Where are the evidence?”

“I only saw you holding your sword and acting unruly!”

“I’m telling you. I don’t believe in what I hear, I only believe in what I see. In my opinion, you did commit a crime. You are certainly outrageous!”

“Let me tell you. Even if what you said is true,

even if you have grievances, you can slowly appeal after you went to eh Law Enforcement Hall with me!”

“But you must put down your weapon tonight, turn yourself in and accept the rule of the Law Enforcement Hall!”

“Otherwise, you are a traitor of Longmen!”

Carrie looked at Harvey provocatively.

“If you have the guts, then just defy it in front of so many people!”

“In that case, even the King can’t protect you!”

## Chapter 2549

After listening to Carrie obviously taking his side, Maki snorted and said at this moment, “Ms. Kennedy, I can testify for you, this guy killed my children and destroyed the relationship between two countries. He killed them all!”

“This is a murderous devil!”

“You must bring him to justice!”

“If such a person doesn’t die, the friendship between the great Country H and the Island Nation will be destroyed!”

Apparently, Maki had already forgotten about the sacred Bushido spirit of the Island Nation at this moment.

Or it should be said that they themselves were the despicable ones. Thus, the so-called Bushido spirit was just a pretense.

A pretense for others to believe in them whereas they themselves did not believe in it.

Carrie slightly smiled at this moment and said after listening to Maki's sincere cry, "Mr. Takei, don't worry. The Law Enforcement Hall will certainly give you a satisfactory explanation and do you justice!"

"If we can't even manage our own people, how can Longmen find a foothold here?!"

Carrie's cold eyes fell on Harvey again while speaking!

"Branch Leader York, do you really intend to defy the order?"

Harvey smiled, shrugged, and said, "Defying the order?"

"You don't know right from wrong and keep helping the bad ones. If this is the way the Law

Enforcement Hall does things, then I might have to defy this order!”

“Presumptuous!”

“York, what impudence!”

“How dare you slander the Law Enforcement of Longmen? You’ll be even worse off!”

Carrie looked at Harvey proudly with her hands behind her back at this moment. “What you need to know now is that there is no redemption for you. You have violated everything regardless of whether it's the law or the rules of the organization!”

“You’d better turn yourself in now. If not, when are you going to?!”

He was just a branch leader. How dare he not show any respect to her? Instead, he even challenged her. Carrie’s heart was full of anger at this moment.

Which branch leader dared to disrespect her in the past?

Which branch leader did not bow and scrape to her?

It was the first time Carrie saw a branch leader with such an attitude as Harvey. Thus, she became even angrier.

Meanwhile, Carrie instantly pulled out a crossbow from her waist, pointed at Harvey's head, and said coldly, "Kneel, hold your head and turn yourself in!"

"Idiot!"

"You're hopeless!"

Harvey sighed. He then squinted at Carrie and said indifferently, "Are you saying that these Islanders are the witnesses that can prove that I violated the rules and law?"

“That’s right!” Carrie looked proud. “So, are you afraid now?”

“I’m telling you, in front of me, Carrie Kennedy ...”

Harvey suddenly stomped his left foot and then swung it before Carrie could finish speaking.

More than ten long swords flew out at the same time. “Pfff, pfff, pfff!”. They all pierced into the abdomen of those masters of Island Nation including Maki.

These masters of Island Nation were caught off. They looked incredulous and fell to the ground in great pain.

Their eyes were filled with grief, anger, and disbelief.

They never thought that Harvey would still dare to kill people under this circumstance.

Especially Maki, he was dead at this moment, but he seemed to be turning in his grave.

“Haih, the Bushido spirit of the Island Nation is indeed very touching!”

Harvey sighed with his hands behind his back.

“It takes a lot of courage to stab into the abdomen.”

“The Takei family has killed themselves. I think they can be anointed by the Emperor of the Island Nation as the courageous family.”

## Chapter 2550

Carrie and the others were completely stunned.

They had imagined many endings.

For instance, Harvey turned himself in.

For instance, Harvey stubbornly resisted.

For instance, Harvey asked a powerful backer for help and wanted to go against the Law Enforcement Hall.

However, no matter what the outcome was, at least the Law Enforcement of Longmen was in control.

As long as she could save Maki's life and take these witnesses away.

Even if she could not do anything to Harvey today, she would still have many ways to kill Harvey in the future.

However, Harvey actually killed all these witnesses at this moment!

This, this, this!

Without these witnesses, how could she prove his guilt?

Without these witnesses, how could she let Harvey go to jail his whole life?

Without these witnesses, how could she have an excuse to take Harvey, who was one of the thirty-six branch leaders down?

By force?

However, Harvey's move just now completely stunned all the disciples of the Law Enforcement of Longmen.

As the wind blew at this moment, everyone including Carrie felt that they were covered in a cold sweat.

They believed that in terms of Harvey's skills, killing them all would probably be very easy.

Harvey stepped forward and kicked Carol to the ground. He then smiled lightly and said, "Ms. Parker, the Takei family committed suicide to escape punishment. You've seen it with your eyes."

"Are you willing to testify for me?"

Carol swallowed her saliva with difficulty. She then looked at Harvey's smiley face and slowly said after a long time, "I do."

"Haih, the Takei family is an honored guest of Briewood. Since the eldest lady of Briewood can also prove that the Takei family has taken their own lives, then those charges just now have nothing to do with me, right?"

Harvey stepped forward, reached out his right hand, and patted Carrie's face twice.

“Since I’ve not violated the rules of the organization or the law, then my position as the branch leader is still higher than that of you, a disciple of the Law Enforcement of Longmen, right?”

Carrie’s eyelids twitched after seeing Harvey’s half-smile. She then said bitterly, “What do you want?”

“What do I want?”

Harvey smiled.

“You’re the benefactor of the Law Enforcement of Longmen. How dare I?”

“Remember to pack up the corpses later and wipe the floor clean. Then forget about this tonight.”

“If you can’t even settle this little thing well, I’m afraid I’ll have to teach you guys a lesson.”

“And you guys, it’s better not to let me do it.”

The corner of the eyes of the disciples of the Law Enforcement of Longmen twitched and their faces darkened after seeing Harvey leave.

They came here arrogantly, thinking that they could get something on Harvey, and took him back to avenge what happened in Mordu before.

However, they never thought that they would still fail this time and even had to help Harvey to clean the floor.

These disciples of the Law Enforcement of Longmen almost died, spurting out blood while thinking of this.

Harvey who left did not rush back to the hotel. Instead, he went to the Hong Kong and Las Vegas Police Station to give the police a statement. He then left after that.

Although Toby Clarke did not specifically give any orders, those inspectors only dared to act impartially and did not bend the law for personal gain while facing Harvey.

Toby did make a phone call to Harvey. Aside from a wry smile, he could only remind Harvey to be careful of the revenge of the Shinkage Way of Island Nation.

Harvey did not take it too seriously. Instead, he instantly fell asleep after checking into a presidential suite at the Three Seasons Hotel.

He had been busy in both Hong Kong and Las Vegas in the past few days and had never rested. It was just in time for him to take a nice bath and good rest after solving all the matters at once today.

Harvey slept until the next evening. There was a hurried knock on the door when Harvey woke up

from hunger and was about to find something to eat.

Leslie Clarke's voice came in the next moment. "Young Master York, are you there? Something happened!"
