

Her Billionaire 603

Chapter 603 Skyler Is Jealous

“Thank you, Roni,” thanked Shirley. They continued the conversation and her mood brightened. “Look. What about this guy?” Veronica found a picture in her phone. “He’s Wade Yoder, a magazine model. I knew him in Starshine. He’s not bad.”

When Mia bullied her at the beginning of her career with Starshine, Wade and Rania stood up for her. Since then, Veronica got along with them and became good friends, especially Wade. He was a reliable man.

“Woah. He’s really handsome, but... he’s a model. Why doesn’t he have a girlfriend? Besides, he’s out of my league.” Shirley knew her place.

Wade was handsome and he dressed neatly, but Skyler could totally beat him out in terms of looks. Yet, there was already a huge gap between her and Skyler, rendering him a man she could not covet.

“That’s not all. His performance is decent, but not to the extent of shining his name in the company. The female models in the company have super high standards and they’re quite realistic. They will only hunt for someone better, so it’s natural for him to be left out.”

Veronica informed Shirley of Wade’s situation first before acquiring her opinion. Now that Shirley was up for it, she decided to talk to him tonight.

Veronica added, “Since you’re here, I think I gotta update you on the latest market of Esport. At least you know something.”
