

Her Destined Alpha chapter 15 by Moonlight Muse

Two Weeks

RAYHAN

I smirked as I looked at the menu of a restaurant nearby . " What are you doing , Oh Mighty Alpha ? " Chris said slumping onto the couch opposite . I raised an eyebrow at him . Damn , Lola had done a number on him .

His cheek was still bruised , although it was fading . It meant she had broken something bad for i t not to be healed until now . Well , he deserved it .

" This mighty Alpha has found the way to his kittens ' heart . " I said . " Oh ? " Chris said , now curiously leaning forward . " Diamonds , pink stuff , wait I know , shopping ? " Ok , I loved the dude , but he was really going to get killed by Lola .

" You know , there's a lot more to women than materialistic stuff . Don't let Lola hear you being a prick again . " I advised . " I know , but what is it ? I really don't get

11 women . " Really ? I would never have guessed . " I remarked . " Alright then , tell me what's the way to our Luna's heart ? " " Food . " I smirked confidently . I had seen how she had looked at the tray .

If only she'd look at me like that . I almost pouted at that . But I had to be realistic . As much as I wanted to go Alpha mode and claim her as mine , she didn't deserve that ... Nor was it the right way . She was like a cracked ornament made of glass ; one that might break if I handled her roughly . " Shame your sex appeal isn't working .

You know , I know my food better than you do . Give me the phone , let me order some good food ... " Chris took my phone and I let him , lost in thought .

I couldn't leave her alone , and Mom kept texting to ask when I was returning , Liam had gone on to some extra training , I knew he was just avoiding going home but I was meant to go back , that was the plan I had told Mom that too . But now I needed to think of everything . I couldn't keep Chris here either , as dumb a s he could be .

He was an excellent Delta and it was his job , something he needed to return to . Lola and Rose would have to go back at some point ... But I couldn't go , not until I had won her over .

I needed to make sure she trusted me because I knew back home that not everyone would be ready to accept her and that would be another hurdle ... " Sizzling lamb chops , grilled chicken tikka , steak fries with peri spice ! Oh , and

we can't forget the spicy rice Maybe some pitta in- " " Chris . " I cut him off , frowning thoughtfully .

" Yeah ? " He asked , now seriously as he carried on adding items to the basket .

" You and the girls will need to head back , but I need to tell Mum and Dad a reason I'm not coming back ... I'm not ready to tell them about her yet .

" I said He frowned , " Say you've gone for the extra training , I can set up a fake email and make it look official enough . If your Dad wants proof . I mean , ask Liam for the form and I'll just edit it . And we can get Rose to break the news , she's a smart one and probably the smoothest of us three . Don't worry , Ray , do what you need to do here .

I and those two Amazonians will handle it all . " He said confidently . " Thanks . " " Raihana's looking cute . " He smirked , holding my phone up .

I snatched it from him to see she had tagged me in her social media post , and she was just pouting . Why did girls do that ? Three years had passed since I left , and each time I returned for the holidays I swear she was changing .

I don't think it was a good thing . She looks more like a woman now than a girl . " Don't call her cute , man . " N " " Why not ? I always did . " " Yeah , she's an adult now , so ... # " She's still our little princess

" He said , snatching the phone before frowning , 11 M You're right , she's actually grown a lot ... " " Chris . " I growled . Just then , the girls came into the lounge area . " Is he being a sexist pig again ? " Lola asked .

" No ! I was just saying , Raihana's grown- " Lola threw a cushion at him with all her strength , and he let out a plaintive moan . " No fair , Lola I was complimenting the Alpha princess ! " HE " You talking about women is banned . Lola growled , yanking his ear and making him howl in pain . It sucks to be Chris . " On another note , she's sweet .

" Rose said to me , motioning to the bedroom as she tugged Lola away from Chris . " Glad you can see that . " I replied , with a smirk . Just thinking of her sitting there and eyeing the food made me smile .

She really was a cute little kitten " Ok lover boy , before getting ahead of yourself , you definitely need to do a lot of work . " Lola remarked . " Yeah , and I need you guys to head back one of these days .

" " Are you sure she'll be ok , to be here alone with you ? " Rose asked , uncertain . " Yeah , because she already wants to leave . " Lola added . My stomach twisted at that , I couldn't hold her here without her consent ...

" I'll talk to her . " I said , standing up . The girls hesitated but said nothing . I knew they were probably worried , but I wasn't a fool . I knocked on the bedroom door .

Her scent hit me , making me close my eyes and inhale deeply before I opened it . She was sitting on the bed , her head resting on the headboard . She looked so small on that huge bed , but also just so damn beautiful ... like a snowflake ...

She turned away from the window and her blue eyes met mine . Even though we were worlds apart , there was a connection . Her heart raced and I was sure it wasn't out of fear ...

My gaze fell to her rising and falling chest . She wasn't wearing a bra , and I tried my best not to look at the way my top clung to her breasts . This was hard .

She was my mate , and I wanted to do a lot more than see her naked . Ok . Get your head on straight . " So , the girls said you want to leave ? " " Is that something you even need to ask ? I was leaving town , as you probably figured ... I still intend to go .

" E " I get that , but hear me out ? " " Why ? So you can force me to stay ? " " I won't force you to do anything kitten , not unless you want me to . I just want to put forward my point of view .

" I said , taking a seat on the bed opposite her , our knees inches apart . It was the closest I could allow myself to her , hoping she didn't move away ...

It was hard to have your mate before you , with these strong emotions that were drawing me to her . There was no way I could explain the surge of emotions I felt when she was close .

I looked down , my gaze falling to her legs that were folded under her . " You have two minutes . " She said , crossing her arms . Don't do that , kitten ... I looked at the wall behind her head , trying not to look at her breasts .

Damn I was becoming a pervert . Was it : my fault that they seemed like the perfect size to grab completely ? Fuck , clear your head , Rayhan . " One minute and forty seconds ... " Oh , shit . " Ok , look . You're on the run , trying to stay safe , right ?

Well , how about instead of running , you stay here in this town ? Go to work , or do whatever you want . I'll make sure no one finds you , but please ... just give me two weeks ... Two weeks to prove that I'm not your enemy , Delsanra . " " Her heart thudded as our eyes met , I saw the conflict in them .

" Why ? Don't you realise that- " I placed a finger on her lips , making her take a sharp intake of breath .. " I know , seeing me is hard , right ? I know ... I'm sorry that I remind you of those bastards .

" I said , the pain of what I had witnessed still hurt so flipping much . I would be tracking them down and I will be killing them.co She moved her head away , so I retracted my hand . At least this time she didn't wipe her lips in disgust .

" Just please give me this chance ? " She frowned and I sighed . " Ok , how about this : In return , I'll treat you to food from all the best places to eat in the city ?

Every day . " I said . Her frown faltered , and I saw her look down . Damn , I was right ... My little kitty cat loved her food ...

" I can buy my own food . " " I know you can . The thing is , us wolves love food , so I know all the best places . I know you like to stay low key , I can collect the food and bring it straight here . You can save your money for when you leave . " " 1 " Wait , here ? " She asked sharply . " Yeah , you can have your own room here .

Just so we can spend a little time together . You're a witch , so you can sense if I'm lying . You know I won't hurt you . " I said softly , as I reached over and caressed her cheek . Her heart was pounding as she struggled to come to a decision , before she closed her eyes and took a deep breath , pushing my hand away .

My gaze dipped to her lips , but it was the words she spoke that captured my attention . " Fine , two weeks . If I don't change my opinion , you walk away .

" My heart raced at her words , but I knew it was all I had ... I had to do this , to win her over in that time ... " You have yourself a deal , kitten . " I held my hand out and she frowned before rolling her eyes and taking it .

Sparks shot through us and our hearts beat as one . The strength of the bond surged through me . Her heart was thundering , but the emotions in her eyes were ones I couldn't make out .

We both knew that these two weeks were going to be important ... and I swear by Selene herself that I would show my kitten that there was so much more to life than running .

That there was someone who would never let harm come to her and someone who wanted to give her every happiness that he could ... I will prove to you , that you were meant to be mine ...
