

Her Destined Alpha chapter 9 by Moonlight Muse

Blatant Dislike

RAYHAN

I'm seriously beginning to wonder if I'm speaking a different language or something . I had just explained to the three of them how I met her . Yeah , Chris went and got the girls too , so here we were sitting as I impatiently kept glancing at the time . I needed to go to her .

" So let me sum this up . You went for a walk , your mate ran into your arms , and then you killed some witches . Then she took you home , took care of you , and then told you to get out ? " Lola asked , raising a n eyebrow . " Why would she do that ... ? " Rose asked , frowning slightly .

" Wait , she's a human , isn't she ?! " Ok , time to tell them But ... I looked at Chris . Both his parents had died in Endora's attack . I still remember the day h e was told , the pain and denial in his eyes before he looked at Dad and asked what duties he wanted him to do first . Taking the spot as Delta first and mourning the loss of his parents second .

I suddenly realised , with a cold rush of clarity , that I needed them to see Delsanra for who she is first . " Yeah , a human . " I lied . It felt like swallowing a bitter pill , lying about my mate's truth as if I was ashamed – I wasn't . I had always been one of the rare few who agreed that not all witches were bad , and now I was going to prove that no matter what . I just hoped they came to like her without her identity as a witch making that decision for them .

" Wow ! A human ... that's super rare , especially for a Luna ... " Chris said with a whistle . " I'm sure she's perfect , there's a reason " Rose said with a Selene paired you . confident smile . Lola was observing me , and I knew she was gauging my reaction .

" Yeah , I'm sure there is a reason , and I'm sure she'll come around sooner or later . " I said smoothly . " So , what's the plan ? Are you going to go Alpha mode ; kidnap her , make her fall for you and all that rubbish ? " Lola asked , narrowing her eyes . Yeah , I know some idiots have done that , but neither was it allowed nor was I going to do something so stupid . " No , obviously not .

" " Good . " She sounded relieved , Rose smiled at her and kissed her cheek . " But I'm going to follow her , get up in her personal space and charm her . I'll have her falling for me soon enough . 31 Lola looked at me sceptically . " You're going to be a freaky stalker creep ?

" " Yeah , I don't think that's the smartest decision , babe . " Rose agreed . " I'm not going to be a stalker , I'm just going to be around , coincidentally ... " Rose

was about to protest , but Lola wrapped her arms around her . " Ignore him Sunshine , he's stubborn .

" Ok , so where do we go first ? We want to see our Luna too . " Chris added with a smirk . " WE are not going anywhere . I'M going to go see what she's up to . Alone . " I said , standing up . " Wouldn't it be better if you casually ran into her with friends , rather than alone ? " Rose reasoned . " No , I don't want to overwhelm her . See you ladies later . " I turned before Chris spluttered . " Wait , what ? Ladies ? Did you call me a lady ?

Or did you just forget I was here ?! Either way , that's an insult ! " I ignored him as I left , ready to see my little kitten again ... It took me twenty minutes to track her down . At a small diner not far from where I met her last night . " So , she's in there , huh ? " Lola's voice came from behind me . I sighed . Yes , I picked up their scent following me a while back and chose to ignore them . At least they thought they were doing a good job of hiding and I didn't have to hear them talk too much . One thing about my friends , they didn't really take no for an answer . " Yes , she is .

" So , let's casually go for brunch . " Lola said , placing her elbow on my shoulder . " She might be less overwhelmed , put it down to coincidence . " I doubt that . She knew what I was ... " Ok fine . But don't make it obvious .

" Umm ... I think you'll be the one gawking at her and making it obvious . " Chris added as I led the way to the diner . I had to lower my head at the door . Stepping inside , the bell tinkled and a round , older woman at the counter looked up .

" Morning ! Lovely day , isn't it ?! " " It's gloomy ? " Chris offered . " But seeing you made my day a whole lot brighter . " " He winked at her and she turned a bright shade of red .

" Oh , you kids these days ... Take a seat ! Someone will be right over ! " She chortled . I looked around , her scent was strong , and as much as I wanted to find her and bury my nose in her neck , I settled on finding a table with a good view of the entire diner .

" So where is she ? " Chris said . This time Lola did the honours of kicking him under the table . " Seriously ? We just got here . We will find out who she is . Just keep an eye on Rayhan . " She mocked . " He'll be panting the moment she steps out . " The rest snickered , and I frowned . After being called a dog by Delsanra , I did not appreciate that reminder . " Do you guys want to leave ? " " Lola said , not sorry at all ,

" Ok , ok , sorry . as she laughed and picked up the menu that stood on the stand at the centre of the table . " What are you guys getting ? " They began discussing the menu whilst I fixed my eyes on the back entrance . Just then , the door opened , and she stepped out .

In the morning light , her hair was literally glowing , pulled up into a sexy bun . She wore a fitted white top that emphasised her gorgeous figure and showed a hint of cleavage , paired with black fitted jeans and black boots . Damn , she was gorgeous ...

She hadn't seemed to have noticed me yet , as she tied an apron around her waist . My eyes fell on her breasts , the faint outline of her bra catching my attention . She tensed and looked up sharply , her eyes meeting mine , I could hear her heart racing from all the way over here .

" " Ana ! Go take our first customers orders . " The woman behind the counter murmured to her , urging her to hurry up . " Sure ... " Delsanra replied . ' So that's her , huh . ' Lola mind linked . ' She is pretty ... ' Rose admired , earning a slight pout from Lola . Lola was definitely the more possessive and jealous one . ' Not as beautiful as you , Sugar . ' Rose replied .

' She's tiny ! ' Chris added as we all watched Delsanra walk towards us . I tried my best not to lose myself in the sway of her hips ... ' She isn't that small . ' Lola added . ' Just very slender . She's coming over . '

I couldn't drag my eyes away from her , I saw the frown forming as she gave me a cold look , stopping in front of our table and turning towards the girls . Giving me a good view of her derriere . Oh , if only you knew what I want to do with you , kitten " What can I get you guys ? " She asked , clicking the back of her pen as she opened a new page of her notepad . " Can we get you ?

" Chris asked with a flirty smirk . A sudden flare of anger I had never felt before rushed through me as I slammed my foot on his . He jumped , his knee hitting the table loudly , hissing in pain as he looked at me shocked . He wasn't the only one , as all three women stared at me stunned . The familiar look of fear and hatred swam in Delsanra's eyes .

Shit . I needed to control my temper . " The menu is in front of you ... " She said in a clipped tone . ' Is it ok for our Luna to be getting our food ? ' Rose asked through the link . ' Not much we can do about that .

She looks like she hates us ... We need to change that . ' Lola added . The tension was thick , and I knew even Chris was too shocked to reply . I felt a little bad for overreacting ... when I knew that flirting was his second nature .

" I'll come back when you're ready to order . " She was about to turn away when I grabbed hold of her wrist . " Hey , I'm sorry . I didn't mean to scare you . " She raised an eyebrow , looking at me scornfully as she pulled free .

" You're apologising to the wrong person , aren't you ? Seriously , I don't know what you want , but just go away . " FF She turned and stormed off , the rejection and humiliation I felt was so fucking painful . Dammit . The table was silent , and I couldn't even look at any of them .

I guess now I didn't need to tell them just how much she hated me ... Lola reached over , placing her hand on mine , but I didn't even look at her . My Luna had just told me , upfront , just how much she hated me .
