

Heavenly Saint Sovereign

Chapter 4

C4

"Impossible, this is impossible! How could this be?"

The tight-uniformed man was already somewhat flustered. He continued to fumble around on the cold ground beneath the teleportation array, which had completely disappeared. Compared to his arrogance from before, he was like a completely different person.

On the contrary, Bai Yuntian, who was standing behind him, had a calm expression. He even had the time to observe his surroundings.

As a Dao Child, he had seen quite a few ruins in his past life. In fact, some of them had been left behind by him. Therefore, even if he didn't have a way out, he had nothing to worry about.

The Yuan Qi pill that he had just consumed was gradually increasing the Yuan Qi in his body. As long as he could reach the Mysterious Spirit Stage, he was confident that he could escape from the hands of the tight-uniformed man in front of him.

"That... Senior, let's think of a way to explore this relic first, there should be other exits. "

Bai Yuntian could not bear to watch any longer. He coughed lightly and took the initiative to remind the other party.

"Cough cough, that's right. You're right, then let's explore to the front."

After being reminded by Bai Yuntian, a nobody in his eyes, the tight-uniformed man immediately stood up in embarrassment and pretended to cough as he pointed towards the entrance to the valley in front of him.

Bai Yuntian nodded his head but didn't mind. He turned around and walked forward. With the strength of this tight-uniformed man, if he was still a Dao Child in his previous life, he wouldn't even be fit to carry his shoes.

"This kid's heart is really big. Stupid to this extent is really rare."

The tight-uniformed man muttered to himself as he watched Bai Yuntian's back figure steadily move forward. If Bai Yuntian hadn't truly reached the Awakening Realm, he might have even thought that he was mistaken and caught some great character pretending to be a pig to eat the tiger.

Bai Yuntian's expression was simply too calm.

The two of them entered the valley one after the other. Bai Yuntian's pupils constricted. The floor of the valley was actually covered with countless scattered bones. With just a glance, it seemed to be limitless.

"I've been here before!"

The tight-uniformed man behind them let out another cry of shock. Although they had been transported to another location when the man who had just died had arrived, they had also traveled to this valley before.

He just hadn't thought that there would actually be a teleportation array outside the valley.

"Just what is this place? So many lives have fallen. "

Bai Yuntian's face also became serious. He casually picked up a tiny bone from the ground. With just a slight force, the bone had already shattered.

If he remembered correctly, this bone belonged to a vicious beast. Even as a Dao Child, he had to avoid ten or more berserk beasts.

However, there were so many corpses of vicious beasts here. There were even many obviously cultivators.

"That's not right, that's not right. As a Dao Child, I don't even know anything about this place."

Bai Yuntian lowered his head and mumbled to himself. Although he had never been here before, there was no reason for him to bury the lives of so many experts here.

Unless, there was a huge secret hidden here!

As he thought of this, Bai Yuntian's spirit shook. He raised his head and discovered that his surroundings had suddenly become a bit foggy. It caused the scene in the huge valley to become hazy.

"The Heavenly Road... Broken... "Resume the Heavenly Road ..."

Within the faint fog, a jumbled sound could be heard by Bai Yuntian. However, it was so indistinct that it was hard to tell what it was.

Following the sound, the fog also became thicker. The tight-uniformed man behind Bai Yuntian had a drastic change in expression. This was because two tall figures slowly appeared from the fog behind Bai Yuntian.

Bai Yuntian was originally just a stone he had prepared to scout for the enemy. Even if he died, he could take the opportunity to see what was attacking the enemy from the fog to prepare for the fight. The last person was tricked to death by him just like that, so he planned to do the same thing again this time.

Boom boom boom!

The two tall shadows suddenly raised their hands in the fog. Under the tight-uniformed man's gaze, two three feet square black rocks broke through the fog and crashed down on top of Bai Yuntian's head, pressing him down below.

The tight-uniformed man turned around and ran without a word. Using the cover of the fog, he quickly escaped. As for Bai Yuntian, in his eyes, being attacked like this meant certain death!

"It hurts, what is it!?"

Bai Yuntian, who was hit by the two stones, had stars in his eyes. Waves of pain came from his head and he couldn't help but curse out.

Even if he was only at the fifth level of the Awakening Realm, based on his experience and insight from his past life, he could naturally tell that the skeleton that had just ambushed him with a rock did not have any elemental energy fluctuations.

They were simply inanimate objects!

How could an inanimate object raise a stone to attack him? And it was two of them!

If the skeleton was a cultivator's puppet, then it was even more impossible. No one could control a skeleton without using their Essence.

After knocking Bai Yuntian to the ground, the two skeletons stopped moving at the same time and stared at him with empty eyes.

Bai Yuntian didn't dare to move recklessly. His strength was too weak and he didn't have any confidence in facing these two skeletons. He could only allow himself to be slaughtered. However, he couldn't just sit there and wait for death.

When he was about to think of a way to escape, two ghostly, fiery lights suddenly lit up in the eyes of the two skeletons. They simultaneously threw away the stones in their hands, stretched out their claws, and grabbed Bai Yuntian's four limbs, pinning him to the ground.

"This is bad!"

Even with Bai Yuntian's calmness, a cold sweat broke out on his back. With his current strength, he had no ability to resist the two skeletons.

"Ai, forget it, forget it. My life is over. Pity me, a dignified Dao Child, for reincarnating and recultivating. To think that I would die at the hands of a skeleton."

Bai Yuntian saw another sparkling skeleton emerging from the fog. He sighed and prepared to close his eyes to accept his fate.

However, the imagined pain didn't come. He felt his lower body turn cold and the sparkling skeleton at the end tore off his pants.

Originally, the clothes on the upper half of his body had been completely torn apart by Chen Zhong's heavy punch. However, he was unable to find any replacement clothes. He had been completely naked all this time. She was naked, and now even her only pants were stripped clean.

Click, click, click.

The crystal skeleton's chin collided with each other, as if it was laughing out loud.

"Damn it, I am a dignified Dao Child. Do you think I will be violated by a skeleton?" This is ridiculous! "

Bai Yuntian was speechless. Could it be that this crystalline skeleton had some sort of special hobby? You like to strip people naked before killing them?

"A warrior can be killed but not humiliated! "If you want to make a move, then hurry up and kill me. I'm a dignified Dao Child, I won't hesitate to do so. If you want to humiliate me again, then I'll rather self-destruct!"

With a flushed face, Bai Yuntian raised his head and shouted a few words at the sparkling skeleton. Since the skeleton had such a bad taste, it meant that the skeleton must have some intelligence and could understand his words.

Sure enough, the crystal skeleton kept shaking its head, and its chin kept opening and closing, as if it was nagging something. The bone claw suddenly went straight for Bai Yitian's vital points.

Ow ow ow ow!

The tight-uniformed man had already escaped into the fog when he suddenly heard the wild roar of Bai Yuntian behind him. His entire body immediately shivered, and without even looking back, he sent all of his Essence flying forward.

At the same time as Bai Yuntian's pitiful howl, at the other parts of the ruins, a few men wearing the Li family's uniform raised their heads and looked in the direction of the sound at the same time.

"Wu Chen, it seems like there's someone out of luck in this ruins again."

A tall, straight-backed man coldly looked forward, and the person who spoke behind him was actually the Li family's eldest son, Li Qiufeng, who had stolen Liu Ruyan earlier. He never would have thought that he did not leave the Skypiercing Ruins but had instead entered this ruin.

Behind him were seven or eight Li family guards with strong auras. Obviously, they were Li Qiufeng's elite guards that were sent to protect Li Qiufeng.

But when he faced Li Qiufeng, this young man known as Wu Chen didn't have a single trace of respect in his eyes. He turned around and coldly looked at Li Qiufeng.

"Li Qiufeng, there are more than ten thousand people in the Heavenly Calamity Ruins, and there are even more that entered the ruins this time. Only by obtaining the inheritance will there be a chance to leave, so don't forget your purpose in being sent here."

Wu Chen jumped down from his high vantage point and his figure gracefully flew past Li Qiufeng, no longer paying any attention to him.

"What are you pretending to be an expert for? Isn't it true that you reached the peak of the Mysterious Spirit Stage two or three years earlier than me?" "Wait until this daddy gets the treasures from the ruins, when I dual cultivate with the little beauty, I'll definitely surpass you, then you'll have a good time!"

Li Qiufeng was furious, but regardless of strength or background, Wu Chen was stronger than him. Li Qiufeng could only swear to himself that one day, he would teach his opponent a lesson.

And in the fog, as he helplessly watched the crystal skeleton's bone claws move towards his lower body, Bai Yuntian couldn't help but let out a pitiful howl.

However, his lower body didn't feel any pain. When he lifted his head, he discovered that the sparkling skeleton had already completely scattered to the ground, but a ball of light was still floating above his dantian.

With a swoosh, the ball of light shot into Bai Yuntian's dantian. Accompanied by countless random sounds, the cultivation of the fifth level of the Awakening Realm suddenly rose.

Sixth and seventh level. The moment the Origin Energy Pill that he had swallowed earlier disappeared, the ball of light that had sunk into Bai Yuntian's body once again surged with large amounts of Essence Qi, pouring into his tendons and veins.

It was as if a bolt of lightning flashed through Bai Yuntian's head. The Essence in his body exploded as it gathered in his limbs and veins.

The moment the last strand of Essence returned to his dantian, Bai Yuntian's arms shook and the skeletal claws holding his wrist suddenly shattered.
