

Heavenly Saint Sovereign

Chapter 5

Mysterious Spirit Initial Stage!

As the Essence in his body surged, Bai Yuntian's face revealed a look of joy. With his vast knowledge from his past life, he could naturally discover that the miraculous changes in his body were definitely caused by the inheritance.

However, who did this inheritance belong to? It actually happened in such a strange way.

"This sovereign's inheritance actually allowed you to consecutively step across an entire great realm. This sort of talent is truly rare."

Suddenly, a strand of Spiritual Sense shot out from Bai Yuntian's body and rang out in his mind.

"It seems that I have obtained your inheritance. Who exactly are you?"

Bai Yuntian calmed himself down. A mere inheritance wasn't enough to cause him to panic and be at a loss of what to do.

"Who am I? This sovereign only remembers that your name is Luo Xiao, but you, a mere human, are able to accept this sovereign's inheritance.

Luo Xiao's voice was calm, causing Bai Yuntian to laugh out in anger. A person who was like a ghost dared to be arrogant in front of her.

"Do you think I like your inheritance? At most, I will just kick you out of my body, and you think I don't dare? "

Bai Yuntian sneered and began to circulate the Essence in his body. He planned to expel the soul in his body and also give up on his inheritance.

As a Dao Child in his previous life, how could the reincarnated Bai Yuntian lack a mysterious inheritance?

"As long as you accept my inheritance and allow me to be attached to your body, I can tell you a secret. A huge secret."

Luo Xiao fell silent for a moment. Her voice was no longer as indifferent as before. Her tone had already begun to fluctuate.

"Secret? "Tell me about it."

Bai Yuntian naturally did not truly want to give up on the legacy. She decisively calmed down the restless energy in her body and wanted to hear what this Luo Xiao soul had to say.

"You can't leave this Heavenly Ruins." As though she had made up her mind, Luo Xiao hesitated for a moment before her voice resounded in Bai Yuntian's mind.

Bai Yuntian, who had already prepared himself to hear the other party's secrets, staggered and almost fell to the ground.

You can't leave the Heavenly Passage Ruins? What kind of secret was this?

As a Dao Child, how could he not be able to leave the Heavenly Ruins? Even though he was only at the initial stage of the Mysterious Spirit Realm, there were plenty of ways to leave this place.

"Even if you want to fool me, can't you find a better excuse? Do you know that I came in from outside the ruins? "

Bai Yuntian's tone was filled with mockery. If the Heavenly Passage Ruins really couldn't leave, then what about the Li family members that escorted him here? Could it be that if he entered, he would not leave, and he would be with him for the rest of his life?

Moreover, according to the memories within their bodies, there were many extremely vicious people hidden within the ruins. If they couldn't leave, then why would they use this place as a refuge?

"Although I have lost more than half of my memories, there are already countless experts from the 12 realms that have come to the ruins you are in in order to find the gap between the heavens and the path to the world above."

Luo Xiao was rather anxious for Bai Yuntian to not believe her. Her tone was extremely solemn when she mentioned the Twelve Realms.

"Although I have unintentionally accepted your inheritance and allowed you to attach it to your body, why should I believe you?"

Bai Yuntian was still skeptical. In the cultivation world, everyone was deceiving themselves. If others said anything about believing others, they would have long been deceived to the point that there was nothing left. He had to be cautious.

"My main body is the Torch Dragon's Eye, and I can see through illusions. Since you do not believe me, then I will prove it to you!"

At the same time as Luo Xiao spoke, Bai Yuntian's body began to emit red rays of light in all directions. When the red rays of light dissipated, a reflection of the waves in the air appeared in front of him.

"A large group of people from the southeast have already found a treasure trove in the ruins. As long as you hurry there, you will be able to see the experts from the other powers."

Luo Xiao dispersed the scene in front of her and emphasized once again, "With the exception of a few factions, it's impossible for others to be allowed to leave even if they find an opening. As for why, my memories are incomplete. You can only check for yourself."

"Fine. If you dare lie to me, I'll have plenty of ways to kill you."

After weighing the pros and cons for a moment, Bai Yuntian decided to head to the location of the hidden treasure that Luo Xiao mentioned. After all, other than confirming whether what he said was true or not, the more cultivation resources he had, the faster he would be able to become stronger.

If he wanted to regain the strength he had when he was a Dao Child, he would have to think of every possible means to obtain cultivation resources. Even if he had to take the risk, he would not hesitate to do so.

After deciding, he no longer tarried. Even though he was still naked, he randomly picked a piece of beast skin from his surroundings and wrapped it around his lower body before flying towards the location Luo Xiao mentioned.

After walking for a distance, Bai Yuntian suddenly slowed down his speed and hid the Essence in his body. This was because he could feel a large amount of Essence gathering in front of him.

Needless to say, this was naturally the scene of Luo Xiao displaying the various powers that gathered together to explore the ruins.

Bai Yuntian, who had already completely restrained his energy, relied on his body, which had been transformed by the plate, to hide within a low slope of rocks. He narrowed his eyes and looked forward.

A few distinct groups of people stood facing each other. In the center of the group was a green fruit that continuously emitted a faint glow, emitting a rich fragrance.

"It's a good thing!"

Smelling the sweet fragrance in front of him, Bai Yuntian couldn't help but lick his lips. This fruit had a huge benefit to raising one's cultivation. It could be said that this fruit was meant for someone like him who had no accumulated Essence.

"Looks like there are quite a few good things in this heavenly ruins."

With this thought in mind, Bai Yuntian had a completely new understanding of the Heavenly Ruins. If he ignored the problem of being locked down by the 12 Realms people, then this place was truly suitable for him to accumulate cultivation resources.

If not, once he left this place, it would not be easy for him to obtain large amounts of cultivation resources in a short period of time.

While Bai Yuntian was thinking, one of the people in the crowd suddenly frowned and looked in his direction.

"What a sharp spiritual sense!"

Bai Yuntian was shocked. He immediately withdrew his gaze and completely retracted all of his aura. It was like a rock that no longer had any aura.

After a while, the other party withdrew their gaze with some hesitation. After all, right now, several groups were fighting over the treasures, so they didn't have the energy to check their surroundings.

"We can't stay here any longer. We have to leave. First, we have to think of a way to capture the living humans of other forces to verify what Luo Xiao has said."

Bai Yuntian let out a breath of relief and did his best to slow down his movements, using the cover of the rocks to get away from the battlefield. With his current strength, it was impossible for him to snatch the fruit from the hands of so many people.

Only when he could no longer see the other forces did Bai Yunlai let out a sigh of relief. However, before he could explore the surrounding area, a young man dressed entirely in black and with a haughty expression came towards him.

Judging from his age, he was only fifteen or sixteen years old. However, his cultivation base had already reached the third level of the Mysterious Spirit Stage. He was worthy of being called a heaven's pride expert.

However, for some reason, there was no one by this side for such a talented young man.

"What a great opportunity. As long as we capture this person, we might be able to force the truth out of him!"

Bai Yuntian narrowed his eyes and quietly gathered the Essence in his body. He prepared to make the first move so that he could minimize the commotion.

"Who?" "Come out!"

However, he had never expected that this young man's spiritual sense would be so strong. He immediately discovered the subtle changes in his elemental energy. His eyes focused, and the elemental energy around his body began to fluctuate violently.

Seeing that his sneak attack had failed, Bai Yuntian could only walk out from behind the huge rock he was hiding behind.

"Hehe, a mere Xuan Spirit Initial Stage trash dares to sneak attack me?"

When the young man saw Bai Yuntian's stage, he immediately lost his previous dignified look and his eyes were filled with contempt.

"And what power did you come from? If you don't want to die, then obediently answer my question. "

He didn't expect Bai Yuntian to ask about his origins before he even opened his mouth.

"I have a question for you. Which power do you belong to in the Twelve Realms? Have they already completely sealed off the Heavenly Calamity so that we can't leave? "

Bai Yuntian didn't waste time on useless words. He directly asked the question that he wanted to know about. If the young man didn't know, then he would rob him and then find another target.

"How do you know all this? Who exactly are you? "

The young man's expression immediately changed. It was clear that Bai Yuntian's question was very clear to him.

"It's actually real! The people from the 12 Realms actually sealed off the Heavenly Ruins and used those who came to explore the gap as cannon fodder. What a ruthless move!"

He didn't expect that he would be drawn into a big secret right after he had reincarnated. Even Bai Yuntian had not expected this to happen.

"Answer my question! Before I attack! "

As the young man spoke, a long sword that radiated cold light appeared in his hand. Judging from the violent elemental energy waves flashing on the sword, it was definitely a treasure.

"Looks like if I want to leave the Heavenly Ruins, I'll have to think of another way."

Bai Yuntian didn't seem to care about the young man's threat at all. After seeing the young man's sword, his body suddenly became blurry and turned into a shadow that appeared behind the young man.

His hands were covered in condensed Essence Qi as he reached towards the back of the young man's neck in an attempt to completely restrain him. However, the young man was indeed a Heaven's Pride; his reaction was extremely swift.

In the blink of an eye, the long sword had already passed through the gap between the ribs.

"Heh, this kid has some skill, but it's not enough!"

Bai Yuntian's eyes lit up. Just as his hand was about to collide with the sword, his palm turned into a claw and he forcefully took the sword.

"You ..."

The young man was shocked when his sword was taken away, but before he could react, a huge force came from his back, forcing him to lie flat on the ground.

The two of them had only exchanged blows for a few short breaths of time. Bai Yuntian had already stepped on a young man, who was three realms higher than himself, with the help of his Initial Mysterious Spirit Stage cultivation.

"Brat, hand over everything you have on you now, or else I'm afraid you won't be able to keep your life!"

Bai Yuntian looked at the struggling young man and the corner of his mouth raised into an evil smile. Before he thought of a way to leave the Heavenly Calamity Ruins, he decided that he might as well grab all the treasures of the people who entered.
