

## Tales of Herding Gods Chapter 1056-1060

### Chapter 1056: Exploring the Ancestral Court for the First Time

“Void beast?”

Qin Mu frowned, and so did Gu Xiao and Da Hong.

Qin Mu had received the entirety of the masters of creation’s wisdom and knowledge from the ancestor spirits of the Ancestor Spirit World. Within it, there were records of the void beasts.

A void beast was a type of ancient primordial beast in the ancestral court. These void beasts could traverse through the void, appearing and disappearing mysteriously. They were one of the strongest predators of the ancient primordial era!

Only the masters of creation’s powerful consciousness could control these void beasts. Other races in the ancient primordial era were unable to fight against these beasts!

They could traverse through the void, even swallowing the stars and heavens!

If one was to summon a void beast, what catastrophe would it bring?

Da Hong’s gaze flickered as he revealed a faint smile.

Gu Xiao sighed and had a stupefied expression.

Qin Mu shuddered as he felt killing intent coming from Gu Xiao’s body. He knew that if Luo Xiao insisted on his way, Gu Xiao would definitely kill him!

Gu Xiao’s objective was to find the remaining survivors of the masters of creation. However, if Luo Xiao managed to find the ancestral court and summon the void beast from it, it would mean that Luo Xiao had already lost control.

At that point, killing Luo Xiao would be the best option!

Suddenly, Qin Mu said with a calm expression, “Brother Luo, is there a way to check if this is the ancestral court of the masters of creation without summoning a void beast? I heard that void beasts are difficult to control and subdue and that they consume everything. If you are unable to control it, wouldn’t we bring a disaster upon the world?”

All along, he wanted to protect Luo Xiao and see if he was able to change history. This was another attempt at saving him.

If Luo Xiao had walked out of the Great Void without meeting Qin Mu, he would long be dead and wouldn’t be able to return to the Great Void with the three prophecies. Qin Mu had gone to great lengths to protect the life of this master of creation.

He had to fulfill this piece of history.

Luo Xiao hesitated and thought it over carefully. He then blushed. "My consciousness is indeed not strong enough to restrain a void beast. However, for this trip, my chief only taught me how to summon a void beast. They didn't teach me how to summon the other ancient primordial beasts."

Qin Mu suggested, "Since it's a summoning technique, it must be two-way, meaning that our consciousness can establish a connection with these void beasts. While we can summon them, we can also rely on this connection to determine their location."

Luo Xiao appeared to be confused.

Da Hong and Gu Xiao, however, were able to understand. Da Hong asked, "Reverse summoning?"

Qin Mu nodded. "Consciousness will be established with the void beasts' senses. Hence, we can sense each other. In that case, consciousness can execute the consciousness divine arts in the heads of these beasts. Therefore, setting up a reverse summoning isn't entirely impossible."

Luo Xiao finally understood after hearing his explanation, but he hesitated. "There's no such consciousness divine art among our race..."

"Hence, we need to create it."

Qin Mu could feel that the killing intent from Gu Xiao's body was gradually dissipating, and he was secretly relieved. He smiled and said, "You should know that my consciousness isn't inferior to yours, and modifying divine arts is my forte. Why don't you impart the technique of summoning the void beast to me, and I'll set up the reverse summoning."

At that moment, he suddenly felt killing intent faintly emitting from Da Hong's body.

Qin Mu was alarmed. The killing intent from Da Hong's body wasn't targeted at Luo Xiao but at him!

Clearly, his words had triggered Da Hong to develop killing intent against him.

He had managed to dismiss Gu Xiao's killing intent against Luo Xiao but had stirred up Da Hong's killing intent against himself!

'Maybe I have performed too well.'

Qin Mu blinked his eyes and thought, 'I said I could modify the masters of creation's consciousness summoning, establishing a reverse summoning. I believe that he never thought of it before. I have come across as smarter than him, causing him to be fearful. Hence, he wants to kill me. I should act a little stupid...'

Luo Xiao's consciousness trembled, transferring the void beast summoning technique into Qin Mu's head. He said, "Brother Mu, give it a try."

Qin Mu glanced at Da Hong, who gave a faint smile and encouraged him, saying, "Brother Mu, feel free to give it a try."

Qin Mu looked at Gu Xiao and said, "When I'm trying this reverse summoning, there could be unpredictable dangers. Big Brother Gu, you must ensure my safety."

Gu Xiao glanced at Da Hong and smiled ambiguously. "Celestial Venerable Mu is renowned for establishing the path through divine arts, and I would also like to witness Celestial Venerable Mu's attainments in the art of divine arts. Don't worry, we are both of the human race and are brothers. I won't let you get into any danger."

Qin Mu let out a sigh of relief.

Da Hong chuckled and hugged himself with his hands in his sleeves.

Gu Xiao also laughed as he took a small file out of nowhere and started filing his fingernails.

Luo Xiao felt that the atmosphere was a little off. However, he was unable to pinpoint the cause.

Qin Mu studied the Void Beast Summoning Technique several times and soon understood its principle. After all, he had received the knowledge and wisdom of the masters of creation, so comprehending their consciousness techniques wasn't a difficult task for him.

He deconstructed the Void Beast Summoning Technique and blended in the later generations' runes of Great Dao. After some time, he created a new summoning technique from this. He then used algebra to deconstruct the summoning technique that was evolved with the runes of Great Dao, establishing a new summoning technique in reverse.

Finally, he completed it all. He stretched his back and went to the sacrificial altar that Luo Xiao took out. He then carefully examined the structure of the altar.

Qin Mu released a long sigh and immediately began to alter the sacrificial altar. Gu Xiao, Da Hong, and Luo Xiao walked over to watch him bustle around, engraving rune formations on the altar. They looked at it in detail and realized that they were unable to understand the rune formations used by Qin Mu.

Some of the rune formations contained era-crossing runes created by Qin Mu using the Dao of the later generations to deconstruct consciousness, while some were created by him using consciousness to deconstruct the Dao of the later generations. Also, there were many runes of Postcelestial Great Dao inside the formations. They were totally clueless upon seeing all of it.

Qin Mu set up a smelting table and started producing pieces of divine weapon components. He then asked the dragon qilin to modify the sacrificial altar with those components.

The dragon qilin didn't need any guidance from him and mounted the divine weapon components onto the sacrificial altar.

"Celestial Venerable Mu, who established the path through divine arts, is indeed of great renown!"

Da Hong and Gu Xiao couldn't help but quietly sing praises in their hearts. 'Even his mount is proficient in paths, skills, and divine arts, and his talents are by no means insignificant!'

Qin Mu forged even more divine weapon components and combined them together into a smaller sacrificial altar, placing it beside the existing sacrificial altar.

The structure of the big and small sacrificial altars were reverse images of each other.

Qin Mu moved to the bigger sacrificial altar, sweeping his gaze across everybody's faces. "Everyone, when on this sacrificial altar, I'll mobilize my formation, and we can then try to enter the ancestral court. I have placed another type of rune on the other sacrificial altar. The ancestral court has been sealed, and I'm unable to break that seal by my power alone. Hence, I have a second sacrificial altar. We can use the reverse summoning technique to summon us back from the ancestral court. This second set of runes requires me to mobilize them. Does everyone understand me?"

Da Hong chuckled and said, "Brother Mu has thought of everything. I understand."

Gu Xiao nodded and said, "I understand as well."

Qin Mu heaved a sigh of relief. Based on the words of those two, his life could be considered safe.

At least they wouldn't kill him before leaving the ancestral court.

The Heavenly Dragon Treasure Carriage also arrived on the sacrificial altar. The six heavenly dragons, the dragon qilin, and Yan'er were all present. Yan'er was guarding the lantern that was given to them by Wei Suifeng.

Qin Mu released a soft shout and executed the Void Beast Summoning Technique. The countless runes on the sacrificial altar instantly exploded, transforming into infinite light rays. The light rays slowly rose and gathered at the heart of his brows. Suddenly, a ray of light shot out from the heart of Qin Mu's brows, piercing into the void!

The void trembled slightly. Immediately, Qin Mu sensed giant lifeforms in the void, one after another. They felt extremely savage and full of bloodlust!

He chose a powerful lifeform and attacked it with his consciousness.

Weng.

He sensed a gentle tremor rippling over. He felt that he had established a faint connection with that powerful lifeform.

On the sacrificial altar, Qin Mu's eyes were blank, but his hands were dancing around. The divine weapon components that were mounted around the sacrificial altar suddenly become extremely bright. The imprints that Qin Mu had placed on these runes looked as though they were alive, swimming above the divine weapon components like snakes!

Pillars of light shot up into the sky, and above their heads, they formed an image of a sacrificial altar that appeared to be made of runes. It then crashed into the void!

Boom!

Everyone on the sacrificial altar heard the violent tremor. Suddenly, the entire sacrificial altar felt like it was being hauled up by a powerful force as it flew towards the void.

At that moment, Qin Mu suddenly saw a giant eye opening in the darkness of the void, exposing a weird-looking eyeball that rolled around.

‘This type of eye, I seem to have seen it somewhere... in the Paramita World!’

He was shocked. When he was in the Paramita World, as the masters of creation were summoning the Ancestor Spirit World, he had seen an eye that looked like that. It was the apparition formed when the Ancestor Spirit World appeared.

However, what Qin Mu didn’t know was that, in the supreme consciousness realm in the land of Great Void, the earth, mountains, rivers, and sky all had similar eyes!

Only, at that point in time, he didn’t notice it. However, the divine dragon created through visualization had seen that eye!

‘Could it be the eye of a void beast? In that case, the Ancestor Spirit World was built by the void beasts?’

Just as he thought until there, the sacrificial altar had already charged towards the center of the giant eyeball.

The sky suddenly brightened. The giant eyeball looked as though it got a shock and hurriedly retreated, and the sacrificial altar gave chase at full speed.

In the next moment, violent tremors came rippling over. The sacrificial altar came to an abrupt stop, and piercing light rays shone into everyone’s eyes.

The eyeball of an ancient primordial beast appeared beside the sacrificial altar. Its pupil narrowed as it focused on the sacrificial altar that had suddenly shown up. Even when its pupil was narrowed, it was still much bigger than the altar!

Everyone on the sacrificial altar wanted to get a full view of the owner of the eyeball. However, they were unable to see its actual body, as the eyeball blocked out half the sky.

‘It’s a void beast!’

Cold sweat appeared on Luo Xiao’s forehead. He hurriedly opened the eye at the heart of his brows, and his consciousness surged forth into that eye. He shouted, “The void beast consumes everything. Be careful, everyone! I’ll try to subdue it!”

His consciousness charged into the eyeball, and the giant eyeball gave off a miserable shriek. It was extremely piercing, causing the six heavenly dragons, the dragon qilin, and Yan’er to roll about on the ground in pain.

The consciousness cultivation of Qin Mu and the rest was extremely high and wasn't injured by the shrill scream of the eyeball. However, the consciousnesses of the dragon qilin and Yan'er weren't as powerful.

The giant eyeball retreated, its eyelid flipping upwards as though it was trying to cover up the eye. The terrifying thing was that beneath the eyelid was a giant mouth that looked like an abyss, one without any lips!

It looked like a giant eyeball, but when its eyelid flipped upwards, the eyeball became a mouth!

Qin Mu had never met such a strange creature before.

The giant mouth looked like a bottomless black hole. A terrifying force of attraction surged forth as a long tongue coiled and picked up the sacrificial altar. The force of attraction held onto the people on the sacrificial altar, pulling everyone into the abysmal mouth!

"Don't panic!"

Luo Xiao shouted, "Trust me! My consciousness will definitely subdue this void beast!"

He mobilized his consciousness, trying to control the void beast with all his might. Qin Mu hurriedly turned his head to look back and saw that the abysmal mouth was closing!

Qin Mu executed his Overlord Body Three Elixir Technique and mobilized the Great Overarching Supreme Consciousness, attacking the void beast with it.

Just as his consciousness began to stir, the void beast suddenly stopped swallowing them. The abysmal mouth also stopped closing up as the giant tongue sent the sacrificial altar out of the mouth.

Everyone on the sacrificial altar was bewildered. Qin Mu retracted his consciousness and heaved a sigh of relief.

Luo Xiao wiped away the cold sweat on his forehead and said delightedly, "Initially, I thought that my cultivation was insufficient and was unable to subdue the void beast. Fortunately, at the last moment, my full power exploded and managed to overcome the void beast."

The tongue, which measured countless miles, unfolded and put down the sacrificial altar.

Qin Mu looked back and saw that the void beast had a strange appearance. On its head were rows of spurs that resembled mountain ridges. They were so huge that they looked like rows of bone mountains.

The void beast looked as though it had experienced countless battles. Many of the bone mountains on its body were broken, revealing sharp bone stubbles.

He flew up and created some distance between him and the void beast so that he could take a better look.

It had a total of six legs. Two of its hind legs were crouched among the giant mountains behind, while its four front legs supported itself off the ground. Its head exceeded the towering mountains of the ancestral court by a huge margin.

The head was round with a giant eye sitting in the center. It only had an eye, which covered the entire face.

Under the eye, there was a crack that looked like a curved canyon, and a piece of rough skin with many wrinkles.

The crack should be its mouth, and the wrinkled skin, its eyelid.

When the eyelid was lifted upwards, the mouth would become larger and larger, finally, only leaving an abyss mouth full of sharp, jagged teeth on its round head, and a long tongue in the mouth!

### **Chapter 1057: Ancient Gods and the Golden Coffin**

'How could such a scary creature exist?'

Qin Mu couldn't help but shudder. At that moment, he noticed that there were actually flesh films between the four front legs of the void beast, meaning it could fly!

When it spread its flesh films, it could travel through the air like a bat!

An ancient ferocious beast that could fly, traverse through the void, and consume everything. It was an oddity that the masters of creation weren't wiped out by these beasts!

'Could it be that the masters of creation from prehistory could control these powerful lifeforms with consciousness?' Qin Mu was a little puzzled.

Luo Xiao was ineffably excited. He flew to the front and stroked the extremely rugged skin of the void beast, finding it hard to suppress his emotions as he spoke incoherently. "This is the void beast that our ancestors spoke of. According to legend, only the strongest warriors of the tribes are able to subdue this beast. I didn't expect that I would be able to do it..."

Qin Mu carefully examined the void beast and saw that there were many spiral markings on its skin. Those should be void patterns.

His heart trembled slightly. 'If we could do thorough research on these void patterns, perhaps we could sort out a set of void runes and establish a set of void divine arts. We could even establish a type of completely new Great Dao...'

With glowing eyes, he took out a mirror and flew up into the air, illuminating around the void beast as he circled it.

Suddenly, Yan'er's exclaimed, "Young Master, quickly look at your surroundings!"

Qin Mu looked around and was shocked. Cracks were appearing on the ground of the ancestral court as many giant eyeballs appeared on the surface!

They were of different sizes. Some of the eyeballs looked like they were grown within the mountains!

Even the circumference of the smallest eyeball was over a hundred feet long!

More giant eyeballs emerged from the ground, like bamboo shoots sprouting after a rain. They blinked and looked at them excitedly.

Not only that, he saw giant eyeballs popping out in the sky, their numbers growing rapidly. As he looked around, he realized that the sky of the ancestral court would soon be covered by the giant eyeballs!

Qin Mu felt a chill down his spine, but he couldn't help but copy down the void patterns of the void beast that Luo Xiao had captured. He then quickly flew back to the sacrificial altar and said hastily, "It's likely that there are no other beasts in the ancestral court as they were all eaten by the void beasts. It's dangerous to remain here. We should leave immediately!"

Luo Xiao hurriedly said, "I still have to make contact with the ancestors of the ancestral court. Let's wait awhile!"

Da Hong smiled faintly and said, "Old Brother Mu, aren't you curious about the Grand Primordium Divine Stone mine in the ancestral court? I would like to go there and take a look. I heard Celestial Emperor was born out of an egg that was harvested from that mine. Old Brother Gu Xiao, aren't you curious as well?"

Qin Mu took a glance at him.

Gu Xiao said plainly, "I heard that the Grand Emperor's Grand Primordium Origin Stone also came from that mine. Naturally, I'm curious too. Our trip will be wasted if we don't get to visit the mine."

The two stood on opposite ends of the sacrificial altar, staring at each other.

Cold sweat appeared on Qin Mu's head. He stepped back as his consciousness rippled. "Yan'er, prepare to extinguish the lantern at any moment!"

Yan'er hurriedly took down the lantern that was hanging on the treasure carriage. She flew and landed on Qin Mu's shoulder, saying into his ear, "Young Master, it's still daylight, so if we put out the lantern, I'm afraid we won't be able to return to the ghost ship."

Qin Mu's consciousness trembled. "I used to be Son of Youdu and Little Earth Count, so I'm able to darken the sky again. If they make a move, you will immediately put out the lantern!"

If Da Hong and Gu Xiao fought, it would be more dangerous than the void beasts!

He had some worries. The ancestral court was clearly sealed up jointly by the ancient gods, and they had used the reverse sides of Youdu, Xuandu, Yuandu, the celestial heavens, the Ruins of End, and the four poles to seal it. That kind of seal was simply too strong.

Whether they would be able to return to the ghost ship when they put out the lantern in the ancestral court, he was actually uncertain.

As Da Hong and Gu Xiao faced each other, one was folding his arms, while the other was filing his fingernails and giving off a smile that would put people at ease.

“Raaah—”

Heaven and earth shook violently. Gigantic void beasts slowly floated out from the ground, emerged out of the mountains, and materialized in the sky.

The incomparably huge creatures looked as though they didn’t have a fixed shape and could traverse through anything!

The cold sweat on Qin Mu’s forehead grew. He whispered, “Luo Xiao, did you manage to establish contact with your ancestors’ consciousness? If you’re done, we should leave immediately!”

Luo Xiao’s consciousness penetrated the layers of the void of the ancestral court, searching for the consciousness of his ancestors. His expression was blank as he muttered, “There are no signs of consciousness here...”

He suddenly became incredibly dispirited and chuckled. “Brother Mu, I’m unable to find my ancestors’ consciousness in the ancestral court. It’s likely that their consciousness has already been swallowed up by the void beasts. How do I go back and explain this to the chiefs?”

He sat on the ground in a daze, trying to support his collapsing beliefs.

There was no Dao heart during the masters of creation’s era. The Dao heart was only created after the system of divine treasures and celestial palaces was established. Hence, the cultivation of his frame of mind was substandard, far below Qin Mu and the rest.

More void beasts materialized. The void beasts in the sky had already begun to spread open their huge flesh films, which wavered as they flew over.

Qin Mu suddenly shouted, “No one will be able to leave the ancestral court if I’m dead!”

On the sacrificial altar, Gu Xiao and Da Hong separated their gazes. Gu Xiao stretched his body and smiled. “Since we plan to head over to the mine, why don’t we go together? What does Brother Hong think?”

Da Hong chuckled and said, “I’m thinking the same thing.”

Qin Mu pulled Luo Xiao up and yelled, “Most likely, the ancestor spirits of your ancestors are hidden in the higher voids. These void beasts are unable to reach there. Don’t blame yourself. Take control of your void beast and take us out of here!”

On the ground, countless void beasts pounced over like a huge torrent, surrounding them completely!

Luo Xiao roused his spirits. "Right! The cultivations of the ancestor spirits of my ancestors were much stronger than mine. They must have deposited their consciousness in the higher voids! This must be the case!"

Qin Mu's magic power exploded, picking up the sacrificial altar as it rose through the air with a whoosh. It landed on the head of the void beast that Luo Xiao had subdued, anchoring itself among the bone mountains.

Luo Xiao immediately focused on driving the void beast. As its six legs strode forward, its speed grew faster and faster. Suddenly, it leaped out of the void just before the rest of the void beasts pounced onto them!

The surrounding space suddenly became strange, and the bodies of Qin Mu and the others on the sacrificial altar slowly became transparent. Qin Mu raised his palm and could see the veins and muscle fibers across the skin.

Among them, only Gu Xiao and Da Hong's corporeal bodies didn't experience any changes.

The void beast leaped into the first void, avoiding the attacks of the other void beasts. At that moment, a sharp claw suddenly emerged from the void, swiping at the void beast and the people on the sacrificial altar!

The claws of that void beast glowed with the cold gleam that only divine weapons possessed, tearing the first void as it swiped over.

Luo Xiao hurriedly took control of the void beast to evade the attack. Its huge claw swept over their heads, leaving rows of cuts in the void.

More claws of the void beasts appeared in the void, wildly swinging around. As Luo Xiao was controlling the ancient beast for the first time, he couldn't dodge those attacks in time. The void beast released an ear-piercing cry, and there were many wounds on its body.

Whoosh—

Many void beasts broke into the first void, one after another. There was excitement in their eyes as they pounced at them.

They raised their eyelids and opened their gigantic mouths. Their mouths occupied half of their heads, squeezing their eye pupils into a faint line.

Luo Xiao quickly controlled the void beast. Suddenly, it shrunk its body and managed to escape through the perimeter of void beasts. It leaped again, entering the second void.

In the second void, everyone was able to see their bones. They were like transparent shrimps in the ocean, their internal organs clearly visible.

However, the rest of the void beasts had entered the second void, lunging over.

The void beasts could change their sizes, becoming bigger or smaller, being extremely elastic.

Qin Mu emitted his consciousness, pouring it into the void beast nearest them as he tried to control it.

Even though that void beast had shrunk its size, it was still extremely humongous. It immediately gave off an ear-piercing shriek when it was attacked by Qin Mu's consciousness.

Suddenly, Qin Mu felt dizzy. The beast's shriek was able to penetrate his consciousness and disrupt his thoughts, catching him by surprise.

The shriek wasn't exactly a real shriek. When the void beast detected danger, it would use its consciousness to create an ear-piercing shriek, penetrating into the enemy's consciousness and disrupting their movements.

Clearly, the void beasts had learned something from their battles with the masters of creation.

'Great Overarching Supreme Consciousness!'

Qin Mu's consciousness underwent a transformation, turning into layers and layers of heavens that blocked the shriek of the void beast. Afterward, he imprinted his Great Overarching Supreme Consciousness into its mind.

The void beast was so powerful that it could use its shrieks to forcefully resist his Great Overarching Supreme Consciousness, even attacking and defending with it. Its defense was on point, and Qin Mu was unable to overcome its consciousness within a short span of time.

'My consciousness attainments are about the same as Luo Xiao. Even if he's stronger than me, he couldn't be much stronger. I have the Grand Emperor's Great Overarching Supreme Consciousness. My consciousness divine arts also surpass his by several times over. How was he able to subdue that void beast so quickly?'

Qin Mu felt a chill down his spine. Luo Xiao had subdued the void beast too quickly. Could it be that it wasn't Luo Xiao who subdued the void beast, but someone else?

Luo Xiao drove the beast and traversed through the void continuously, leaping through the third, fourth, and fifth voids.

When they reached the sixth void, everyone could basically only see their primordial spirits. They were unable to see their corporeal bodies anymore.

The only difference was that the eye at the heart of Qin Mu's brows wasn't assimilated by the void. It remained floating in front of his primordial spirit.

Of course, Gu Xiao and Da Hong's corporeal bodies didn't experience any changes.

'Gu Xiao and Da Hong are indeed Celestial Emperor and the Grand Emperor!' Qin Mu was astonished.

Behind, there were still countless void beasts chasing after them. Some of the younger void beasts were unable to penetrate deep into the void and were blocked at the fifth void.

Qin Mu was still trying to control the void beast. However, the beast continued to use its ear-piercing shrieks to resist his Great Overarching Consciousness.

Qin Mu raised his eyebrows. 'The one controlling the void beast isn't Luo Xiao, but the Grand Emperor!'

Luo Xiao was feeling a little uneasy. He shouted, "If we continue to go deeper into the void, our corporeal bodies and primordial spirits will get assimilated!"

The void beast leaped into the sixth void. On the sacrificial altar, Qin Mu, Yan'er, and the rest immediately felt that their primordial spirits and corporeal bodies were getting assimilated by the void. The only thing that could resist the void's assimilation was consciousness!

Qin Mu continued to battle with that void beast with his consciousness, trying to see if he could control it. He could also feel his corporeal body and primordial spirit getting assimilated by the void. Fortunately, he was able to endure the assimilation coming from the sixth void since it wasn't that intense.

The void beast was already having trouble with his Great Overarching Supreme Consciousness. Soon, he would be able to control it.

Luo Xiao controlled the void beast and leaped into the seventh void, with plenty of void beasts pursuing behind. All of their corporeal bodies started to have trouble coping.

At that moment, Qin Mu finally took control of the void beast. He quickly retracted his consciousness, using it to engulf the dragon qilin, Yan'er, and the six heavenly dragons.

The pressure on them was greatly reduced.

Luo Xiao controlled the void beast to continue penetrating into the void, traversing through it ceaselessly. Qin Mu didn't have the void beast that he had tamed follow him, allowing it to escape back into the void instead.

He made use of the eye of that void beast to observe the world of the ancestral court. Under his control, the void beast galloped non-stop as it flew through the air, burrowed into the ground, and dove into the ocean.

He was observing the geography of the ancestral court. However, the more he saw, the more frightened he became.

There were no other lifeforms in the ancestral court. They were all exterminated, leaving only countless void beasts!

That place was extremely desolate, with no other lifeforms. One couldn't even see a tiny bit of greenery. There were only large-scale battlefield remnants, abandoned cities of the masters of creation, and run-down tribal areas with bones scattered everywhere.

Their group was possibly the only lifeforms that had entered the world of the ancestral court for countless years.

At that moment, Qin Mu, through the eye of the void beast, saw a touch of green.

It was a mine that stretched for thousands of miles. Within it, there were plants and flowers engulfed in a strange colorful glow.

Qin Mu controlled the void beast, arriving in front of the mine. Suddenly it stopped moving. No matter how he urged it, the giant beast was unwilling to enter the mine.

At that moment, Qin Mu noticed that there were piles of bones of countless void beasts around the mine!

He looked in front and saw an even more frightening scene. Below the plants in the mine, there were countless white skeletons whose skulls were embedded with the Grand Primordium Divine Stone!

Qin Mu was shocked. As his gaze penetrated deeper, many skeletal giants appeared in his eyes.

There were eight of them, giants that were only left with bones and covered in light. They stood in the forest, their postures looking as though they were walking forward. On their shoulders was a huge golden coffin. They looked like they had died on their way to the depths of the mine!

'Those are... eight ancient gods!'

Qin Mu's heart shuddered. 'I wonder, who's inside the golden coffin?'

Suddenly, he felt that his body was being pulled up sharply, which was an optical illusion caused by his entry into a deeper void.

Luo Xiao controlled the void beast and led them into the nineteenth void. There, Qin Mu had difficulty controlling his own void beast. The void beast was freed from his consciousness, and it shook its huge head. As it looked into the mine, terror appeared in its eye. It hurriedly ran away and quickly disappeared without a trace.

### **Chapter 1058: I Can't Die**

In the nineteenth void, the void beasts that were chasing them stopped their pursuit. Instead, they looked in from the eighteenth void, roaring faintly.

Luo Xiao heaved a sigh of relief. "These void beasts are unable to enter here. It seems that we have managed to escape. How is everybody? Is everyone fine?"

Qin Mu mobilized his consciousness to resist the assimilation coming from the nineteenth void while at the same time still providing protection to Yan'er, the dragon qilin, and the rest. Without his protection, they would be unable to resist the assimilation of the void.

Even so, their corporeal bodies could no longer be seen, and their primordial spirits had gradually become blurred.

As for Da Hong and Gu Xiao, naturally, they were safe and sound.

“Brother Luo, the void beast you control can enter this place, so why can’t the other void beasts enter the nineteenth void?” Qin Mu asked.

Luo Xiao was stunned. “Is it that the void beast I control is too strong? The most powerful existence among these void beasts?”

“I’m afraid so.”

Qin Mu’s face changed greatly as he looked at the nineteenth void. There were white glows everywhere, which were shaped like spheres. They looked like eggs that were 100 feet tall, sitting neatly in the void.

The nineteenth void of the ancestral court turned out to have millions of those white eggs, possibly even more!

The eggs were emitting white light, and they could vaguely see a huge eye in each egg, as well as a thin and delicate body curled inside.

The dragon qilin hurriedly said, “Cult Master, these eggs...”

Qin Mu lowered his voice. “These should be the eggs of the void beasts. This place should be a nest for its offspring. That’s why those adult void beasts didn’t dare to give chase after we broke into this place. It seems that they’re afraid we might destroy their offspring.”

“Cult Master, what I wanted to ask was, who produces these neatly placed eggs?” the dragon qilin said.

Qin Mu felt a chill in his heart. The dragon qilin had asked the crucial question. The other void beasts didn’t dare step into the nineteenth void, so who came to the nineteenth void to lay so many void eggs?

Just as he thought until there, suddenly, towards the back of the nineteenth void, it felt as though a great canyon was slowly splitting open as an unimaginably large eye appeared and covered the entire nineteenth void!

When the eye opened, everyone instantly felt that the void was being turned upside down. The owner of the eye was too big. Just by opening the eye, it had overturned the nineteenth void of the ancestral court!

“Void beast mother...” Da Hong raised his head, muttering as he stared at the incomparably enormous eye.

“Run!” Luo Xiao roared as all of his consciousness exploded and surged into the mind of the void beast he had subdued.

The void beast was shaken by the void beast mother. It laid down and was afraid to move.

Luo Xiao was furious and was about to mobilize his consciousness again. Suddenly, the void beast stood up and leaped, jumping from the nineteenth void into the eighteenth void. It flew through the air as though it was flying, charging towards the outside of the void!

In the nineteenth void, the gigantic void beast mother finally woke up. Its extremely shrill voice stabbed out from the depths of the void. Luo Xiao's consciousness was suddenly disrupted. His void beast seemed as though it was drunk, stumbling left and right.

Even Qin Mu's consciousness collapsed, unable to protect Yan'er and the rest.

Fortunately, the cry of the void beast mother shook the other void beasts into a dazed state, saving their lives.

The cry of the void beast mother subsided. Luo Xiao immediately drove the void beast and charged towards the outside. It was difficult to enter the void, but it was easier to escape. The void beast galloped non-stop, fleeing towards the outside.

All of a sudden, Qin Mu looked back and saw a huge claw that covered half the sky sweeping at them!

"I can't die!"

Qin Mu suddenly shouted, "If I die, no one will be able to leave this place!"

Luo Xiao didn't understand what he meant. Just as Qin Mu's voice fell, the huge void beast mother claw seemed to have knocked into an invisible barrier, and it was beaten away from its original trajectory, swinging into the empty air above them!

Layers of void were torn apart fiercely, looking incomparably terrifying. If one was to look up in the ancestral court, they would look through the nineteen voids at a glance and see the void beast mother clearly!

Luo Xiao seized the opportunity and drove the void beast outside with all his might before the void closed. Suddenly, the roar of void beasts traveled over, and the countless void beasts that were pursuing them suddenly fell from the depths of the void like rain!

The roar of the void beast mother reached the ears of Qin Mu and the others on the sacrificial altar. Almost everyone's internal organs trembled so badly that they were bleeding from their orifices. Their consciousnesses shook until they felt like pots of paste, and it was extremely hard for them to coagulate!

The void beast under the sacrificial altar was shaken until its giant body began to collapse. It would soon die amongst the roar of the void beast mother!

"I can't die!"

Qin Mu was in a daze. He forcibly tried to hold out as he shouted, "If I die..."

Before he could finish speaking, the roar of the void beast mother stopped suddenly, as if something had blocked her mouth.

The void beast was knocked out and fell from the sky, together with the sacrificial altar and the people on it. Everyone grabbed the altar with everything they had, but they were thrown off. They frantically grabbed onto the bone mountains behind the head of the void beast instead.

Qin Mu's vital qi picked up the dragon qilin, while Yan'er protected the six dragons. She spread her wings and covered the lantern so that it wouldn't go out.

Luo Xiao wasn't far from Qin Mu. He asked, "Brother Mu, what spell is this?"

Qin Mu couldn't answer in time, as the void beast had already hit the ground. It tumbled several times and knocked down a few towering mountains.

The peaks of those mountains snapped and broke off, and the dazzling light of the divine metal unique to those mountains shot up into the sky. It was a gorgeous sight as the light was reflected over the entire sky.

Qin Mu's heart trembled when he saw this scene in the midst of the commotion. The bodies of those mountains turned out to be divine metal!

The void beast skid all the way, creating deep cracks in the ground. The gleaming light of divine metal burst out from the cracks, being extremely dazzling.

Qin Mu narrowed his eyes but was still blinded by the piercing brilliance of the divine metal. He couldn't help but tear up.

The soil that was kicked up by the void beast in the air suddenly expanded, transforming into pieces of floating land.

"Growth soil..."

Qin Mu forcibly opened his teary eyes and stared at the scene blankly. The extravagance of the ancestral court was beyond his imagination.

The void beast knocked into several mountains and tumbled for a while before falling into a huge deep pit. Its six legs sprawled on the bottom of the pit and stayed motionless for a while.

Everyone got up in succession. Qin Mu mobilized his Overlord Body Three Elixir Technique, recovering his corporeal body and primordial spirit rapidly to peak condition, full of vigor.

He looked at the dragon qilin, who had executed his Anasrava Creation Mysterious Technique and healed his injured corporeal body. He was now helping Yan'er with her injuries.

Qin Mu helped Luo Xiao up, who raised his only arm and wiped the blood off the corner of his mouth. He said hurriedly, "What about Da Hong and Gu Xiao? Are they all right?"

Gu Xiao's voice came from the top of the sacrificial altar. "We're fine and are guarding the sacrificial altar. We can't lose this altar."

Luo Xiao put his heart at ease and looked around. He saw that it was like a huge basin there, stretching for thousands of miles left and right. They were surrounded by towering mountains, which stood around the basin.

He suddenly revealed a delighted expression. "This place is the Primordial Tree Basin! In that case, the Jade Pool isn't far from here!"

"Primordial Tree Basin?"

Qin Mu blinked and asked, "What's the relationship between this Primordial Tree Basin and Mother Earth?"

Luo Xiao mobilized his consciousness to wake up the void beast. "I heard that Mother Earth was originally a Primordial Tree in the ancestral court. It was often watered by the masters of creation who used the water from the Jade Pool. The Jade Pool's water is remarkable. It can heal all kinds of injuries, even being capable of regenerating my arm. The Primordial Tree Basin is here. That means the ancient divine stone mine isn't far from here."

Qin Mu's heart trembled violently, and he felt a little dizzy. 'Mother Earth used to be a Primordial Tree here. Could the water from the Jade Pool be primordial liquid?'

Right after the void beast woke up, it dashed outwards under the control of Luo Xiao, galloping out of the Primordial Tree Basin.

Not long after, they saw a dry ocean ahead.

It was the Jade Pool of the ancestral court.

The primordial liquid in the Jade Pool had already dried up. The void beast flew over the Jade Pool as Luo Xiao looked around, trying to find any remaining primordial liquid. He explained to Qin Mu, "There used to be plenty of water in the Jade Pool. However, after the masters of creation used it to water all sorts of sacred objects, coupled with the consecutive years of war, the water decreased. When the masters of creation fled from here, they took away the remaining water. I'm not sure if a new water source appeared over these years... Look, there's some over there!"

His eyes sparkled, and his consciousness surged forth and picked up the primordial liquid that laid in a depression. He then raised his head to the sky and drank it all.

Qin Mu quietly sighed, feeling it a pity. The amount that Luo Xiao drank was much more than what Mother Earth kept as her treasure!

The big fella was recklessly wasting and misusing good things!

After he consumed the primordial liquid, his arm immediately regenerated. Soon, he grew out a strong and thick arm.

“Brother Gu Xiao, Brother Da Hong, don’t you want to go look for the mine?”

Luo Xiao pointed in front and smiled. “The mine is just over there!”

Gu Xiao and Da Hong both revealed a smile. “Thank you, Old Brother Luo, for your guidance.”

Luo Xiao smiled. “We are sworn brothers, why stand on ceremony?”

In front of them, dazzling colors filled the air like a fog. This was the mine that Qin Mu saw when he was controlling his void beast.

Qin Mu felt a little uneasy. If Gu Xiao and Da Hong were indeed the ancient Celestial Emperor and the Grand Emperor, their persistence in wanting to go there would be very suspicious.

‘They probably suspect each other’s identities in their hearts, so they wanted to come here to verify!’

Qin Mu’s gaze flickered, and the uneasiness in his heart grew. In the mine, there were eight ancient gods who died while carrying a golden coffin. Who was in the coffin?

‘The void beast mother was chasing us just now. Why did it not give chase after we escaped from the void?’

Qin Mu’s sweat rolled down his back from his neck. ‘Also, there were many void beasts in the ancestral court. Why did they disappear without a trace? Could it be...’

Luo Xiao brought them to the front of the mine. The void beast halted and didn’t dare advance.

Gu Xiao and Da Hong got off the sacrificial altar. They took a glance at each other but didn’t say anything.

Luo Xiao was abnormally excited. “This is the territory of Ju Yushi. He discovered the first Grand Primordium Divine Stone here. Only then was there the race of masters of creation! The Grand Primordium Origin Stone was also discovered here. The Grand Emperor used that to defeat the three divine kings, hence becoming the Grand Emperor.”

Qin Mu glanced at Gu Xiao and Da Hong and saw that they were still looking at each other with smiles on their faces. They didn’t seem to have heard Luo Xiao.

Luo Xiao was stunned as he looked at the Grand Primordium Divine Stone mine. He then cried, “Why are there eight ancient gods here? Why are they carrying a coffin?”

Right after he spoke, he unexpectedly broke into laughter. “Why am I asking you all this? You shouldn’t know...”

“Maybe we do.”

Da Hong chuckled and said, “Old Brother Gu Xiao, do you agree?”

Gu Xiao didn't agree or disagree. Instead, he said plainly, "A coffin carried by eight ancient gods. Apparently, they intended to bury a very important person."

Da Hong laughed coldly. "Maybe they were burying a piece of history that they didn't want anyone to find out, a dirty and despicable history."

Gu Xiao gave a sound of acknowledgment.

Da Hong suggested, "Since we're here, we might as well take a look and see who's in the coffin."

Luo Xiao quickly said, "This mine is very ancient. It's very dangerous, even for a master of creation. They are the only ones who could enter this mine, and most of those who entered perished! Look at these eight ancient gods..."

Qin Mu tugged at his sleeve and said, "Brother Luo, it's not up to us to decide whether to go in or not."

Luo Xiao was slightly stunned and didn't understand his words. Qin Mu followed Gu Xiao and Da Hong, who were walking in front, and whispered, "Have you not been able to tell?"

"Tell what?" Luo Xiao didn't understand at all.

"You..." The dragon qilin walked to his side and shook his head. "Are so silly."

### **Chapter 1060: Unchanging Love**

Outside the mine, Qin Mu looked around hurriedly. Large eyes filled the skies and the land. They came from the surface, and with every blink, a large opening to the abyss would appear.

They were void beasts that surrounded and trapped them.

In the mine, Da Hong's body landed on the small void beast mother's body as he rushed to kill Gu Xiao.

His power grew exponentially as the void beast mother brought him through the void stealthily. Her power was strong as well, her sharp claws and flying tongues like heavenly weapons. They blocked Gu Xiao's imperial sword and licked it, and one of the Great Dao imprints on it went missing!

"Celestial Venerable Mu, you guys don't have to leave in so hurried a manner."

Da Hong's voice traveled over. "Wait for me to kill Gu Xiao and take my wife's body before we leave together. Brother Luo Xiao can't die either. I need him to find the other masters of creation. These void beasts will protect you guys!"

Luo Xiao fell into his seat in the carriage, his eyes soulless and devoid of spirit. After a while, he recovered and looked at Qin Mu. He gave off a pleading expression and whispered, "Brother Mu, kill me! I can't let him know where my people are hiding! Please kill me quickly!"

“It would be useless even if he killed you. Your consciousness and soul will still be here. I can search both of them for information.” Da Hong’s consciousness transmitted into his brain in an unrestrained manner.

Luo Xiao was in a daze.

Now, he couldn’t die even if he wanted to.

Qin Mu became enlivened as he said, “Brother Luo, now that there’s no void beast mother in the nineteenth void, we can attempt to establish a connection with the spirits of your ancestors.”

Luo Xiao tried to raise his spirits, but he failed. He said, “Even if we find them, what can we do? I’m dead. I have to die to not bring the chiefs a disaster. Kill me...”

“There’s still hope.”

Qin Mu’s consciousness pulsed. “I built two sacrificial altars. One is outside of the ancestral court, while another is inside. We don’t need the one within to leave. This is our only hope. As long as you can connect with your spirit ancestors, I can establish a connection with the sacrificial altar outside of the ancestral court and create a reverse summoning to get us out. You have to hurry!”

Hope flowed from Luo Xiao’s eyes again.

Qin Mu saw his gaze and was surprisingly touched.

It was a pair of clear and pure eyes that shone with Luo Xiao’s heart.

It was hard for one to find such clear eyes in the barren and corrupted world where people were treacherous. The masters of creation that left the ancestral court for the Great Void had experienced little of the treachery in the world, allowing them to keep a pure spirit. Thus, they could believe in others and dare to entrust their lives to others.

This was the master of creation Luo Xiao. Qin Mu had only seen such eyes on babies.

Even if Qin Mu’s eyes were as clear as his, he knew that he wasn’t someone like Luo Xiao. He had been trained to be cunning by Mute and Cripple since he was young and had been taught to use his pure and naive eyes to disguise himself.

‘However, I still have to have him take back the three prophecies.’

Qin Mu was determined. The prophecies protected the Great Void’s masters of creation and got rid of the Grand Emperor’s corporeal body. They gave the people of the Founding Emperor Era a place to stay and a place to build Carefree Village. In the future, it would allow him to become the masters of creation’s holy infant too!

He had to ensure that Luo Xiao went back to the Great Void alive with the three prophecies!

Yet, Qin Mu knew that when Luo Xiao saw his people, he would die after saying the three prophecies.

He couldn't bear seeing such a pure person die, but he had to in order to fulfill that part of history.

Around them, countless void beasts circled the carriage to shield them from the terrifying waves from the mine. Luo Xiao worked up his consciousness, which reverberated through the void. All of his consciousness rushed through the void layers and went straight to the highest point.

Not a single bit of consciousness was left in his corporeal body. All that was left was his pure wish to find the spirit ancestors of the ancestral court.

Qin Mu quietly sighed and utilized the Great Overarching Supreme Consciousness to push his consciousness into the void.

In terms of how large their consciousnesses were, Qin Mu paled in comparison to Luo Xiao. Luo Xiao was a master of creation and had a frightening talent in regards to consciousness.

He was a young master of creation that hadn't matured yet. However, after he did, his cultivation would be on the level of the three primordial kings.

Nevertheless, in terms of the quality of consciousness, Qin Mu's was way better.

Qin Mu used the divine treasures and celestial palaces system of the later generations to improve the masters of creation's consciousness cultivation technique. On top of that, he learned the Grand Emperor's Great Overarching Supreme Consciousness, which allowed him to attain a high-quality consciousness that Luo Xiao couldn't beat.

His consciousness reached the nineteenth and twentieth voids before Luo Xiao's despite being activated later, then continued upwards.

His consciousness reached an even higher level of the void. He found that it was empty. The consciousnesses of the masters of creation of the ancestral court had already been engulfed by the void beasts. None was left.

Every layer of the void was like that.

During that barbaric era, whether it was the Grand Emperor or the ancient Celestial Emperor, everyone wanted to wipe away the dirty part of their history.

Every trace of the masters of creation was to be wiped away.

The only difference was that the ancient Celestial Emperor was the victor, while the Grand Emperor was the loser.

Qin Mu's consciousness arrived at the twenty-eighth void, and his consciousness had almost run out by then. It was hard for him to continue climbing.

When Luo Xiao's consciousness reached the twenty-third void, it was even harder to go on. The young master of creation's consciousness was filled with endless sorrow. All that was left was his empty consciousness drifting in the void.

'It's gone, everything is gone...'

'The spirits of our ancestors have been wiped away...'

His consciousness was filled with despair as it drifted in the empty twenty-third void without any will to fight.

At that moment, a bizarre consciousness wave came from a void higher up. It flooded down as an old and majestic voice came into contact with his consciousness. It began to ring.

"Young master of creation, our descendant. You are finally here."

Luo Xiao was so excited that his consciousness trembled. His corporeal body cried at that moment.

"Our child. We have been silent since the primordial era. We experienced countless eras and observed the movement of thousands of worlds of the universe. We examined the faint principles in the void and saw into the past and future.

"Child, we saw the difficulties the masters of creation of the Great Void are about to face. We also examined your heart.

"Child, return to the Great Void with these three prophecies. They will come true one by one."

...

In the carriage, Luo Xiao knelt down and choked on his tears. He couldn't speak.

In the twenty-third void, the spirits of his ancestors told him about the three prophecies. The prophecy of the invasion of the Grand Emperor and Celestial Venerable Yun, the prophecy of the Paramita World, and the prophecy of the holy infant.

They sank into silence after that.

"Child, work hard to survive. Go... now."

Luo Xiao recalled his consciousness.

Qin Mu did as well, and he looked at Luo Xiao, who was in a frenzy. Luo Xiao walked around in excitement, hugging the dragon qilin, Yan'er, and even the six heavenly dragons, which he also kissed.

Finally, he hugged Qin Mu tightly and said, while choking, "Mu, you are my real brother!"

Qin Mu smiled and patted his back, gently saying, "It's time to go, Brother."

Luo Xiao let go of him and wiped his tears. His smile was pure.

Qin Mu quietly utilized the formation of reverse summoning to sense the sacrificial altar outside of the ancestral court. At that moment, Gu Xiao was injured in the mine. He was in great danger due to Da Hong and the void beast mother's attacks. Da Hong's laughter could be heard easily.

"Tai Chu, you finally lost. You will die here, and your real body outside won't even know what happened! I'll slowly feast on you and take your power!"

He was like a cat who caught its favorite mouse. He didn't kill him quickly, instead choosing to play with, hurting Gu Xiao more while preventing him from escaping.

"I'll slowly occupy your celestial heavens and take away your power. I'll slowly destroy the era you built to make you feel despair. You won't be able to find the true enemy and will die in endless pain!"

Finally, Gu Xiao kneeled in front of Gong Yun's golden coffin. He could fight no more.

Da Hong stood in front of him, his eyes possessing a bewitching glow. He raised Gu Xiao's chin with his spear as he laughed and said, "I'll take your consciousness and the Great Dao in your body. I'll understand everything about you, while your real body will never know that I lurk around you."

Gu Xiao raised his head with great effort and laughed. His teeth were stained blood-red as he said, "Grand Emperor, do you know where Gong Yun's soul is?"

Da Hong's pupils contracted.

"It's with me."

Gu Xiao laughed in an unrestrained manner. "I'm carrying her soul. Although I killed her, I loved her, so I imprisoned her soul. Do you want to see her?"

The spear in Da Hong's hands trembled as he hoarsely shouted, "Let her soul out!"

Gu Xiao struggled to raise his hands and retrieve a jade pendant from his neck. He wanted to crush it, but he couldn't.

His injuries were too severe, and he was running out of time.

Da Hong used his spear to pry the pendant away. A lady's soul flew out of it and drifted towards the golden coffin.

Da Hong obsessively looked at the lady's soul. It was his wife, Divine King Gong Yun.

"Nü Xin..."

He moved to the golden coffin. In it, the lover that mesmerized him slowly opened her eyes.

Da Hong's body trembled. He extended his palm to the lady with a smile. The lady took his hand, and they held each other's hands.

Da Hong pulled her out and hugged the resurrected divine king. They couldn't help but cry. "Nü Xin, my lovely wife. I missed you all these years. I wanted to see you again. I have countless things to talk to you about..."

Behind him, Gu Xiao revealed a smile of mockery as he slowly raised the imperial sword in his hand and pointed it towards Da Hong's back.

A slender jade hand held its hilt, and it stabbed straight into Da Hong's back.

The lady that Da Hong was hugging let go of him as he kneeled in front of the coffin.

The void beast mother howled furiously as it opened its mouth to swallow the resurrected female divine king.

"Beast!"

Da Hong was furious. Blood gushed out of his mouth, which angered the void beast mother even more. He furiously shouted, "Leave!"

The void beast mother released a timid cry as it leaped into the void and disappeared.

Fresh blood flowed out of Da Hong's mouth as he looked up at his lovely wife. He still wore a smile as he said, "Nü Xin, I may have betrayed everyone and my people, but I will never betray you nor change my feelings towards you."

The lady in the coffin was expressionless. She rose and went over his head. She moved to his back and held the imperial sword's hilt, stabbing it in.

The tip of the sword came out of Da Hong's chest, and the Dao power hidden within destroyed his corporeal body functions and suppressed his consciousness.

"I still love you... until I die..." He smiled.

Divine King Gong Yun squatted beside him. Her long hair drooped down onto his chest, and her voice was filled with endless hatred as she spoke into his ear.

"I, however, have stopped loving you, Grand Emperor. Ever since you annihilated my people, I stopped loving you."

Her voice was like a bone-cutting knife as she twisted the hilt. She crushed Da Hong's heart bit by bit. "There is only hate between us. Endless hate. I can work with Tai Chu to use his power to kill you. I'll tell you now that I dropped our baby to its death, and I even had a baby with Tai Chu!"

The smile on Da Hong's face remained. "As long as you still live..."

Poof.

Divine King Gong Yun pulled out the sword with all her strength. Gu Xiao struggled to stand up as he said mockingly, "Dao Friend, you still can't beat me."

Divine King Gong Yun didn't turn around to look at him. She lifted the sword and sliced it backward, the sword light flashing through Gu Xiao's neck.

Gu Xiao's head fell off his neck as his corpse fell. His smile was gone as he revealed his disbelief.

Divine King Gong Yun adjusted the hilt and tossed it down. It went through the back of Gu Xiao's headless corporeal body, nailing him to the floor of the mine.

"The thing I hate the most is betrayal." She lifted her leg and crushed Gu Xiao's skull while plainly saying that.

Da Hong still hadn't died. He looked at Gu Xiao's headless corpse while on the ground, laughing as he said, "Good kill, good kill! Nü Xin, go out of the mine. There's a fellow called Mu Qing outside that can get you out of here! I'm disrupting his consciousness, but I can't do it for long. This is the only chance..."

Divine King Gong Yun held his neck to lift him up as she walked out of the mine. "I won't let you die like that. I still have to use your borrowed body to find your real body. I won't let you die until I find your real body."

Da Hong drooped powerlessly while keeping his gaze on her face obsessively. His eyes were filled with hope. "As long as you live..."

"I want to torture you, imprison you, and use countless ways to make you feel pain."

Divine King Gong Yun coldly said, "I want you to feel the pain of killing my people, a hundred times the pain! I want you to feel unimaginable amounts of torture!"

Da Hong powerlessly said, "As long as I have you by my side..."

"Shut up!"
