

Tales of Herding Gods Chapter 1181-1185

Chapter 1181 – Subduing the mother beast

Qin Mu thought about it and endured patiently.

The nine elders of Disabled Elderly Village were also like this with him. Even though they were worried about him, they let him roam the martial world and rarely intervened.

He was worried about the younger generation of Eternal Peace, but the younger generation also needed experience to grow.

Mute lowered his head to search again and found a few more rocks. He said in astonishment, “The mine here is too ancient. Even these divine metals have spirits and formed natural divine weapons! There must be something big in this mine!”

He knocked on a few more rocks, and they split open. Different treasures flew out from within, and there were beads, tiles, cauldrons, knives, and even a golden bull that grew as soon as it came into contact with the wind. It transformed into a huge monster and barged forward, knocking Apothecary over and swaggering off!

Jiang Yunjian and the rest of the younger generation cried out in excitement. Even though some of them were injured, their injuries weren’t serious.

Mute let out a sigh of relief and said solemnly, “Blind, your eyesight is the best. Come and see where this mine leads to. Can you see the big guy in the deepest part of the mine?”

Divine light burst forth from Blind’s eyes and penetrated the ground, searching along the vein of ore. Suddenly, his body trembled, and he gave a loud cry before jumping back.

However, a divine light broke through the surface and almost pierced through him!

Everyone was shocked. The divine light pierced through the outer heavens of the Glassy Sky Pagoda and flew outside, transforming into a long rainbow that was very gorgeous!

Qin Mu’s gaze was slightly dull. The divine light just now was a phenomenon caused by Blind’s divine eyes prying into the treasure in the depths of the mine. The treasure automatically counterattacked.

That treasure could actually pierce through the outer heavens of the Glassy Sky Pagoda. Its power was truly terrifying.

Divine King Shu Jun was also stunned. He scratched his head and muttered, “Isn’t this the most dangerous and poorest place in Ancestral Court? Why are there so many treasures here?”

He was puzzled.

The masters of creation had lived in Ancestral Court for billions of years. All of them knew that the most dangerous places in Ancestral Court weren't the five primordial mines, but the Big Black Wood Mountain Ranges!

Although the five primordial mines had all sorts of strange phenomena, they paled in comparison to the Big Black Wood Mountain Ranges.

The masters of creation dared to mine the five primordial mines, but they didn't dare to touch this place.

"There's a bow inside!"

Blind had yet to recover from his shock when he said, "It's an extremely huge and strong bow. I only saw it for a split second and multicoloured light filled up my divine eyes! If I was slightly slower, I would definitely have died!"

Qin Mu's heart stirred slightly, and he asked, "How's the power of that bow?"

Blind shook his head. "I'm not sure yet."

Mute found another divine stone and knocked it open. A small flying knife flew out from the stone, and Qin Mu's five fingers opened up. With a gentle motion, he grabbed the flying knife.

The throwing knife jumped around in his palm like a silver fish, but it couldn't escape his control.

Qin Mu poured his vital qi into the flying knife. Swoosh—

Knives flew out in all directions, and everyone hurriedly dodged. Only Apothecary, who had a shallow cultivation, was stabbed by dozens of knives on his body.

Qin Mu jumped in shock and immediately treated Apothecary.

Apothecary's body trembled as he pointed at him, speechless.

Qin Mu's face turned slightly red, and he coughed, "The power of this flying knife isn't bad, and it can be compared to the divine weapons of gods and devils on the God Execution Stage Realm. However, the runes in the flying knife are all naturally formed, so they aren't very exquisite, and their power isn't too strong."

Mute said, "However, the foundations of the divine weapons is surprisingly high! I have been forging divine weapons in Eternal Peace for over ten years, and only Ancestral Court's divine metals that Mu'er brought is the best. However, compared to the divine weapons born in this mine, the quality is still slightly inferior."

His eyes lit up. "With a little refinement, these natural treasures can be imprinted with the Great Dao runes of Eternal Peace, and their power will be greatly increased! Mu'er, the divine metal you brought last time couldn't withstand your Great Dao runes, so the divine sword exploded and became a broken sword. If it was forged with the divine metals found here, it wouldn't have exploded."

Everyone exclaimed in admiration, “Mu’er, you have indeed found a good place!”

Divine King Shu Jun finally couldn’t take it anymore and said, “This place is definitely not a treasure land! Not only is it not a treasure land, it’s the most dangerous place in Ancestral Court! We can’t stay here for long, let alone build a stronghold here!”

Qin Mu said with a smile, “Divine King, you have also seen it. We have only found a single mine, yet there are already so many strange treasures. If we search this place, there will definitely be countless treasures! How can it not be a treasure land?”

Divine King Shu Jun was flustered and exasperated as he shouted, “Even void beasts don’t dare to enter here, so it must be dangerous!”

Qin Mu shook his head and said with a smile, “I occupied this place. I killed countless of void beasts attacking the Big Black Tree.”

Divine King Shu Jun was stunned and said angrily, “Anyway, this isn’t a proper place! All the masters of creation are afraid of this place. They don’t even dare to mention it!”

Qin Mu patted him on the shoulder and said with a smile, “Don’t worry, I know what I’m doing. Grandpa Apothecary, there are still some plants on Big Black Peak, so there might be spirit herbs in Ancestral Court.”

Apothecary’s eyes lit up, “If there are rare herbs, I won’t pursue the matter of being stabbed. If there aren’t...”

His face instantly darkened, and Qin Mu shuddered.

Jiang Yunjian and the rest of the younger generation went through a lot of hardships and finally caught a few divine weapons. Those divine weapons were subdued by them and only then did they become well-behaved. However, there were still some divine weapons that escaped. For example, that golden bull relied on its incomparably hard body and boundless strength to knock everyone over and escape.

Luckily, the Glassy Sky Pagoda was guarding this place, so it wouldn’t be able to escape to the outside world.

Everyone boarded the boat and sailed towards Big Black Peak. Before they even reached Big Black Peak, they saw a void beast with a huge physique coming towards them. Qin Mu was astonished and thought that the dragon qilin and Yan’er had been killed. However, wasn’t the one standing on the head of the void beast the dragon qilin and Yan’er?

He relaxed and was bewildered, “Was this void beast subdued by Dragon Pi or Yan’er? Yan’er didn’t seem to have cultivated her divine consciousness before, so it should be Dragon Pi. However, when did Fatty Dragon’s divine consciousness become so strong?”

The dragon qilin was abnormally excited as he jumped down from the back of the void beast, “Cult Master, you guys are finally back. A lot has happened recently!”

He quickly talked about the strangeness of the night in the Big Black Tree, and then he told them about the ever-changing elder who repaired the black mountains. He said, "I even listened to his advice and captured this void beast mother."

Qin Mu was astonished, "Could that elder be... Wait a minute, you mean this is the void beast mother?"

The dragon qilin's tail stood upright as he nodded repeatedly.

Qin Mu was dumbstruck. The incomparably strong void beast mother was actually captured and subdued by the dragon qilin. This was truly out of his expectations!

Even Qin Mu himself didn't think he had the ability to subdue the void beast mother!

The void beast mother was originally Grand Emperor's mount, and Qin Mu had spent a lot of effort to kill the previous void beast mother. The void beast mother, subdued by the dragon qilin, should have just been born. Even though it was weak, this feat was still extraordinary!

More importantly, no matter how strong or weak the void beast mother was, her greatest ability was to control the other void beasts!

Qin Mu had always been worried that the void beasts would escape out of Ancestral Court and wreak havoc under the control of Grand Emperor. He didn't expect the dragon qilin to settle it so easily!

Suddenly, Qin Mu laughed loudly, "The ten Celestial Venerables are in trouble!"

Chapter 1182 – Apothecary's Celestial Palace

Shu Jun was also dumbstruck.

In the history of the masters of creation, void beasts had always been the dream mounts of the valiant warriors of the masters of creation. With a void beast, one's status in the clan would rise exponentially.

Of course, Shu Jun never had a void beast. It wasn't because he wasn't strong enough. On the contrary, he was the strongest master of creation of his era and was honoured as a divine king!

Although the void beasts was very strong, they were under the control of Grand Emperor, so Shu Jun didn't subdue them. Instead, he subdued another extremely powerful beast called Sacred Tranquillity.

Sacred Tranquillity's battle prowess was very fierce: almost on par with the void beast mother. It was just that it didn't have the ability of the void beasts and cannot disappear into the void.

Later on, Ancestral Court changed drastically, and the primordial behemoths here were extinct. Shu Jun's Bodhi behemoth had also died in battle with him in the Blood Rust Zone.

"With the void beast mother, we can control the void beast to attack and harass the territories of other Celestial Venerables. If they covet our territories, we can attack and save them!"

Qin Mu laughed. "Pi, you did very well!"

The dragon qilin was very pleased.

Qin Mu's thoughts became active, and he calculated, "We can still strike first to gain the upper hand. First Ancestor, Second Ancestor, I'll bring you to the territories of the various Celestial Venerables to block on their gates!"

First Ancestor Human Emperor said with a smile, "Mu'er, you are already so big, and you are even Celestial Venerable Mu. You don't need our strength to block their gates."

Qin Mu shook his head and said, "It is I who will be bringing you guys to block their gates. To block their gates, there must be a strong practitioner overseeing it. I'll bring you to block the various mines of the Celestial Venerables and let you witness the divine arts of the strong practitioners of Celestial Heavens."

The past human emperors clenched their fists tightly with unfriendly expressions.

Human Emperor Yi Shan sneered and said, "If I wasn't unable to defeat you, I would beat you until Su Muzhe couldn't even recognise you!"

The other human emperors nodded, and First Ancestor also nodded repeatedly.

Qin Mu laughed loudly and said, "This matter is decided then. I'll settle the matters here first, then bring you guys to meet them."

He brought Apothecary to the dense vegetation of Big Black Peak and probed, "Grandpa Apothecary, are the plants here spirit herbs?"

Apothecary bent down and examined a flower carefully. His expression became weirder. After a long time, he straightened his back and took out a silver needle to carefully poke the tender green leaves.

The flower suddenly sank into the ground and escaped.

Apothecary frowned and thought about it. He took out a spirit pill and carefully placed it in front of the small hole that the divine herb had left behind after escaping. After a moment, the divine herb carefully poked out another leaf and tested it. After confirming that there was no danger, it grew out again and used its roots to pull the spirit pill into the ground.

"The spirit herbs here are all rare and strange. I've never seen them outside."

Apothecary looked around and said solemnly, "As for their medicinal effects, I still need to examine them in detail... Eh, strange..."

He came to the front of another spirit herb, and that spirit herb was actually strong that its medicinal energy actually transformed into Dao markings: forming the apparitions of all kinds of runes.

Apothecary's heart trembled violently as he carefully examined the structure of each section of the medicinal plant. After a long time, he let out a shaky breath and muttered, "My path is about to be formed..."

He couldn't help tearing up yet Qin Mu was ecstatic with joy. Qin Mu raised his head to look at the sky and muttered, "My Path is also about to be formed..."

Apothecary kicked him away and said angrily, "You only know how to gnaw on your elders every day. If you had put in more effort, this path would have long been formed already!"

Qin Mu rubbed his buttocks and said righteously, "I'm busy with even more things every day. I have to run around and comprehend all kinds of divine arts, paths, and skills, so how would I have the time to comprehend the Path of Medicine? Of course I will gnaw on you elders!"

Apothecary saw that he still dared to talk back and wanted nothing more than to stuff poison into his throat.

Qin Mu immediately left and saw the dragon qilin, Yan'er, helping the people of Eternal Peace to settle down. When they were settled down, Qin Mu called them over and asked about the elder who didn't have a fixed appearance.

After a long time, Qin Mu's gaze flickered, and he said, "He seems to know everything? He actually knows that I taught you the Three Enclosures Higher Knowledge, the Great Overarching Supreme Consciousness, and also about the birth of the void beast mother... Before this, Ancestral Court had always been sealed, and it was only when we came here that the seal was lifted. However, it wasn't completely unsealed. In that case, this mysterious elder can only be the god born from that mysterious and unfathomable chaos mine."

Yan'er said, "He has been carrying buckets of water to repair the shattered divine mountains. These divine mountains are terrifying!"

"This is the Dao of Exchange."

Qin Mu said with a calm expression, "The total sum of the universe is forever constant. The process of the universe's destruction is the process of turning matter into energy. The birth of the universe is the process of turning energy into matter. Even though these terrifying creatures came from their past universe that had already been destroyed, they still have to follow this principle. With this black tree, a passageway between past and future is formed."

He paced back and forth as he pondered. "They used the void beasts to steal a part of the substance from our universe and move it into the past universe. Then, when there's less substance here and more substance there, they can take the chance to swap over and come into our world."

"In other words, in the previous universe, right beside the roots of the Big Black Tree, they held a reverse summoning ritual to steal the substance here. That's why you saw the piles of void beasts corpses quickly decaying: losing their blood, muscles, and even bones in just a few days."

Qin Mu raised his head and looked into the distance. He clenched his fists and said, "That ancient god handled things very badly. He sealed the mountains of this big black tree, but our universe still lacks a part of the substance. That universe of the past still has another part of the substance. They will come back sooner or later!"

"Sealing the black mountains is only treating the symptoms, not the root cause!"

"Well said!"

Just as Qin Mu finished speaking, he heard a voice exclaiming in admiration, "Celestial Venerable Mu is right. As expected of the title Celestial Venerable Mu."

Qin Mu looked towards the source of the voice and saw a person who looked like a scholar had appeared behind them at some point in time. He was holding a folding fan and had a graceful bearing. His appearance was handsome, but also held a feminine charm.

Qin Mu looked at the dragon qilin and Yan'er, and they hurriedly shook their heads. He said in a low voice, "Every time he comes, the gender is uncertain, the face is uncertain, and the race is uncertain. We also don't know if it's him."

Qin Mu greeted him and said, "May I ask how I should address Dao brother?"

The scholar clapped his hands with his folding fan and returned the greeting. "People of the later generations call me Grand Derivation. Celestial Venerable Mu also took the eggshell I was born with!"

Qin Mu's face turned slightly red, and he said, "When I see a treasure, I can't help being tempted. Dao brother, do you plan to take it back?"

The scholar shook his head. "It's useless to me."

Qin Mu let out a sigh of relief. He had never planned to return it to Grand Derivation.

Scholar said too easily, "Celestial Venerable Mu, we have actually met before."

Qin Mu was astonished and asked, "May I ask where we have met before?"

"A million years ago, I was the huge Kun that carried Celestial Venerable Mu, Celestial Venerable Qin, and the rest to roam Dragon Han Celestial Heavens."

Grand Derivation, with a scholarly appearance, opened his folding fan and smiled, "Six hundred thousand years ago, when Celestial Heavens split and Great Sun Sovereign released the Heavenly Roaring Dogs in search of Celestial Venerable Gong; I was one of the dogs who ran past you. When Celestial River crashed down, I too was a mortal that was running for his life under Celestial Venerable's feet."

Chapter 1183 – Scholar Is Too Easy

Qin Mu stared with his eyes wide open and said with a smile, "I didn't expect Dao brother to pay so much attention to me."

Scholar Tai Yi shook his head and said, "I'm not only paying attention to you. In fact, I'm paying attention to many people. One of the little bamboo horses that examined Celestial Venerable Ling's manuscript was me. I'm also a peach in Celestial Venerable Yue's peach forest. I'm also a fish that Founding Emperor Qin Ye fished up, a ghost beside Earth Count. Or a star that floated past Heaven Duke's eyes, or a white hair of Celestial Venerable Hao. He plucked it out and threw it away."

He said with a smile, "I've been to too many places, seen too many people, and left a heavy mark in the history of the boundless universe. I've met all of them. I even saw you giving up your own Dao and returning to the Dao of the celestial palaces and celestial heavens. That was why I sighed. At that time, I was a tear that fell from your eye."

Qin Mu's body trembled slightly. He remembered that after he consulted Shu Jun, he had abandoned his original path and chose to cultivate the celestial palaces and celestial heavens. At that time, he couldn't help but cry as he heard a faint sigh.

He composed himself and asked curiously, "Dao brother has remarkable abilities, yet you returned here. What is the reason?"

Tai Yi smiled too easily. "I've always been here, so I can't say if I'm coming back or not."

Qin Mu knew that the realm was too easy, and he couldn't figure it out or understand it. Maybe if he didn't give up on that path back then, he could still cultivate to his realm, but it was no longer possible now.

Scholar Tai Yi looked around and said, "This tree is a very dangerous place. It runs through every universe era, and the strong practitioners of that era all want to crawl here from the past to avoid death. You chose this place as your territory, so we can be considered to be fated."

Qin Mu smiled. "It's all thanks to the guidance of those two ancient gods in the Taiji mine. Otherwise, I wouldn't have been able to obtain the number one treasured land of the ancestral court."

Scholar Taiyi had a weird expression, but he didn't say much. "This was originally my place, but since you treat this as your territory, you have to do something to protect the ancestral court."

Qin Mu said with a straight face, "Dao brother, please instruct me."

Scholar said too easily, "As you said, I can only delay sealing the black mountain for a period of time. I can't prevent any future troubles. In the future, the black mountain will still collapse, and those past eras will still try to invade. What you want to help me with is this."

"Of course!"

Qin Mu agreed readily and smiled. "If an enemy invades my place, I'll have to rely on Dao friend!"

Scholar Taiyi didn't expect him to make such a request. He thought about it and smiled. "I'll do as you say."

Qin Mu let out a long sigh of relief. He knew that his abilities and power couldn't be compared to the ten Celestial Venerables, and he had always been treading on thin ice. Now that he had obtained the 'number one treasured ground of the ancestral court', he was always worried that he wouldn't be able to defend it.

However, with Tai Yi's words, even if the ten Celestial Venerables personally make a move, they probably wouldn't be able to take away this' number one treasured ground of the ancestral court '!

Little did they know that the ten Celestial Venerables also didn't take a fancy to this' number one treasured ground of the ancestral court '.

'With Tai Yi here, I can bring First Ancestor and the rest to block the door with ease!'

Qin Mu rubbed his palms together and was inexplicably excited. "In the past, Dao Ancestor brought Lin Xuan, Rulai brought Fozi, and all of them went to block Imperial College. Chancellor Ba Shan also brought me to block Rolan's Golden Palace, but it was all the elders giving encouragement to the younger generation. When the elders sat there, they didn't look impressive at all! The other party could only obediently follow the rules, or else the elders would flip out! This time, I, a junior, will bring my elders to block the territories of the ten Celestial Venerables. If anyone dares to not follow the rules, I will flip out!"

"In any case, if I create a huge mess, I'll just hide in the black mountains. Even if the sky collapses, Tai Yi is here to prop it up!"

Ancestral Court, Grand Primordium Mine.

The celestial heavens couldn't be defended without a Celestial Venerable. The Xiao Sect sent his proudest disciple, Gao Huaitong, to guard this mine. As a human Celestial Venerable, Celestial Venerable Xiao treated all races equally, but he hated the ancient gods.

Gao Huaitong wasn't a human, but a half-god with outstanding talent who had cultivated to the Emperor's Throne Realm.

Gao Huaitong had just settled down and ordered his subordinates to enter the mine to mine the divine stones when a god came to report, saying, "Celestial Venerable Mu brought over twenty odd people and said that they are here to pay a visit. They want to block the gate according to the rules and challenge the disciples of Celestial Venerable Xiao."

"The rule of blocking the door?"

Gao Huaitong was bewildered. "When has our celestial heavens ever had such strange rules?"

He invited Yan Qiling over and asked, "Little Junior Sister, you stayed in the lower bound before, and this Celestial Venerable Mu came to block the gate. Do you know the rules of the lower bound?"

Yan Qiling said, "There's an unwritten rule in the lower bound. When elders bring juniors to block the gate to challenge, they have to fight on the same realm. Both sides can't break this rule, or else they will lose face. However, there's actually a rule in this rule, and that is that elder must have the power to intimidate the other."

Gao Huaitong said with a smile, "The people of the lower bound are all hooligans, ignorant and incompetent. They actually created such a weird rule. There's no such thing as blocking the gate in the celestial heavens. However, even though Celestial Venerable Mu's abilities aren't good, his reputation is well-known, so we can't neglect him. Little Junior Sister, your abilities are outstanding, and you rarely meet a worthy opponent in the same realm. Go and send him away."

Yan Qiling shook her head. "I fought him several times, but I never won."

Gao Huaitong's expression changed slightly, and he said hesitantly, "You can't beat him, and I can't beat him..."

The god that reported the news said, "This time, it's Celestial Venerable Mu holding the fort. He said he wanted others to challenge him."

Gao Huaitong couldn't help but laugh. "If Celestial Venerable Mu had challenged him himself, I would have been slightly afraid of him. I didn't expect him to have the guts of a bear and the guts of a leopard, to actually let others challenge him. Forget it, us senior and junior brothers will compete with the people he has brought, letting him know the immensity of heaven and earth."

He led over a dozen of Celestial Venerable Xiao's disciples out to welcome them, and they saw Qin Mu taking the small fast ship to the outside of the mine. There were indeed people of all shapes and sizes on the ship, some tall, some short, some fat, and some skinny. There were only two or three people that could still be seen.

The conflict between these people seemed to be very deep. They didn't like anyone and almost got into a fight when they were squeezed onto a ship.

The one they hated the most was still Qin Mu. Everyone on the ship looked at him with displeasure.

Gao Huaitong greeted Qin Mu and said with a smile, "Celestial Venerable Mu has come to visit, I was negligent in welcoming you, please forgive me. Celestial Venerable led these Dao friends to block the gate, so my Celestial Venerable Xiao's lineage naturally can't lose the name of master, so I agreed."

Qin Mu said politely, "Don't worry, Disciple-Nephew, my people know their limits. Speaking of which, they are all my elders. I'm also worried that they will neglect their cultivation and slack off. I want to borrow the hands of your disciples to train them."

Human Emperor Qi Kang, Human Emperor Yi Shan, and the rest were furious.

The two of them exchanged pleasantries, and Gao Huaitong invited Qin Mu to the seat of honor. Qin Mu said earnestly, "Grandmaster, ancestors, I've suppressed the situation, you can't embarrass me."

Human Emperor Qi Kang jumped out and said angrily, "Qin brat, you cheated your master and killed your ancestors. Let us fight first!"

Gao Huaitong looked at Qin Mu with a smile, and Qin Mu said apologetically, "Nephew, this is my grandmaster. He has a bad temper, but he also has some abilities. Nephew, choose an expert and beat him to death!"

Human Emperor Qi Kang was so angry that smoke was spewing out from his seven orifices. His body trembled, and multicolored light shone brightly behind him. Three celestial palaces accompanied by the sound of a bell leaped out from the multicolored light. "I have cultivated with First Ancestor all these years, and I have seen all kinds of Emperor's Throne techniques. In this life, I'm even more courageous and fierce! Qin, don't care about other people, let's fight according to the rules of Hall of Human Emperors!"

Gao Huaitong smiled at Qin Mu and said, "Celestial Venerable, look..."

Qin Mu said with an apologetic face, "My elders are unruly and hard to tame. Nephew, wait a moment, I'll teach them a lesson first."

He stood up, and Human Emperor Qi Kang was completely focused on guarding against him, waiting for him to attack.

Qin Mu took a step forward, and a deafening explosion rang out. Everyone's qi and blood churned from the tremors. When they looked at Human Emperor Qi Kang again, he had already been smacked into the ground of the ancestral court.

Qin Mu returned to his seat and said with a smile, "He's obedient now, we can start."

Human Emperor Qi Kang crawled out from the ground, and his face was covered in dirt. However, he was in high spirits and didn't take his failure to heart at all. He laughed loudly and said, "Who will be the one to enlighten me?"

Chapter 1184 – The Ancestral Court Blocks The Door

The eyes of the numerous disciples under Celestial Venerable Xiao lit up. Human Emperor Qi Kang had just revealed three celestial palaces, and his aura was like a rainbow. Even though he was powerful, Qin Mu's slap to Human Emperor Qi Kang's face revealed the true nature of this burly man.

The disciples of the ten Celestial Venerables of the celestial heavens only cultivated one celestial palace, which was considered mediocre. Only after cultivating two to three celestial palaces could they be considered to have entered the sect.

Many disciples had three to five celestial palaces, and some even cultivated more than ten.

To the disciples of the ten Celestial Venerables, it wasn't difficult to obtain Emperor's Throne techniques. The ten Celestial Venerables had collected two to three hundred Emperor's Throne techniques.

In order to cultivate to the Celestial Heavens Realm, one didn't have to rely on the number of Emperor's Throne techniques, but the variety. One only needed thirty-six Emperor's Throne techniques of different systems to fuse together and achieve mastery. By unifying them into one technique system, one could theoretically cultivate to the Celestial Heavens Realm.

However, finding thirty-six Emperor's Throne techniques of different systems was too difficult, and fusing them was even harder.

"I'd better pick a soft one."

A young god came forward and said with a smile, "Senior brothers, let me fight him. My abilities aren't high, so beating him is just right."

As soon as the two of them exchanged blows, the expressions of the disciples of Celestial Venerable Xiao, Gao Huaitong, and Celestial Venerable Xiao changed. When Human Emperor Qi Kang was smacked into the ground by Qin Mu, people had looked down on him. However, the battle power that Human Emperor Qi Kang had displayed was incomparably astonishing. When he fought with that young god, not only was he not at a disadvantage, he even had the upper hand.

Human Emperor Qi Kang walked the path of entering the path with martial arts, and what he cultivated was fist skills. He used his body as a volcano and his vital qi as firepower to unleash great power.

After he reincarnated, Qin Mu sent Martial Arts Heavenly Teacher Guan Cha's Martial Arts Heavenly Technique to the various academies. Hall of Human Emperors also had a copy. In addition, First Ancestor Human Emperor had opened the treasure vault of Jade Brightness Palace's techniques. Jade Brightness Palace's treasure vault was filled with all kinds of techniques and divine arts from Founding Emperor Era, allowing Human Emperor Qi Kang and the rest to advance by leaps and bounds.

Qi Kang continued on the path of entering the path with his martial soul. His talent was high to begin with. After all, Hall of Human Emperors only had one successor in every generation, so almost every generation of human emperors had the highest aptitude and talent.

He was Village Chief's teacher and Village Chief's guide. His talent was also extremely high, and he had even walked further than Qin Mu in martial arts.

The explosive power of his fist skills was even more astonishing, forcing the young god to retreat step by step and scattering his primordial spirit.

Gao Huaitong saw that the situation was bad and made a prompt decision. He said solemnly, "Junior Brother, you've already lost. Come down!"

Suddenly, a loud explosion rang out, and the young god coughed up blood from his seven apertures. He fell to his knees.

Human Emperor Qi Kang retracted his fist and chuckled. "I've won. Old man, it's your turn next, don't embarrass me!"

Human Emperor Yi Shan cursed as he walked forward and scolded, "I'm your master after all, what do you mean by losing face?"

He was short and although he was Qi Kang's master, the path he took was completely different from Qi Kang's. He had entered the path with divine arts.

Yi Shan walked to the front of the formation, but he didn't immediately challenge Celestial Venerable Xiao's disciple. Instead, he looked at Qin Mu and sneered. "There's no point in fighting these disciples of Celestial Venerables. If you want to fight, fight the strongest one. Come down—"

Qin Mu apologized to Gao Huaitong, "My elders lack discipline, so I'll go teach them a lesson first. Everyone, please wait a moment."

Gao Huaitong and the rest had weird expressions. "Are they here to block the door or to beat up their own elders?"

Hearing this, Qin Mu shouted angrily, "Old man, are you very cocky? If you don't fight for three days, you will be exposing the roof tiles! Why don't all of you old fellows come at me together, I will teach all of you a lesson first!"

Gao Huaitong and the rest looked at each other in dismay.

On the other side, Qin Mu raised his hand and waved it down. With a move, Great Overarching Heavenly Completion Formation, he almost transformed Human Emperor Yi Shan into a plane without any thickness and hung him in the sky. Only then was Human Emperor Yi Shan convinced.

"This short fatty looks very weak..."

Everyone looked at Human Emperor Yi Shan, who was covered in dirt, and a thought popped up in their minds at the same time. 'Could they be playing a double game? This short fatty purposely lost to Celestial Venerable Mu in one move so that we would look down on him, and then he would use his full power to defeat us when we least expected it?'

They had misunderstood Qin Mu and the human emperors.

No matter if it was Yi Shan or Qi Kang, they had both used their full strength when facing Qin Mu. It wasn't because they were weak, but because Qin Mu's abilities were too terrifying, they still lost in one move.

As for challenging Qin Mu before beating up Celestial Venerable Xiao's disciple, it was related to the rules of Hall of Human Emperors.

The rule of Hall of Human Emperors was that disciples didn't learn their masters' techniques and had to work hard to walk a different path from their masters. Furthermore, disciples had to be stronger than their masters, so it was common for disciples to beat their masters when their masters cheated them.

The Hall of Human Emperors had also formed a peculiar tradition, which was the kinship between generations. Master and disciple would start fighting the moment they met, but they were very close to Patriarch Ancestral Master.

When it came to Qin Mu's generation, the rules changed again. When Qin Mu fought from Qi Kang to First Ancestor Human Emperor, the human emperors were naturally unconvinced and wanted to teach him a lesson when they had the chance. However, they were always taught a lesson by him.

When the various human emperors challenged the formation, there were winners and losers. The winners celebrated, while the losers were teased by the other human emperors. However, everyone had to challenge Qin Mu first before they could challenge him. They only went to challenge Celestial Venerable Xiao's disciple after being beaten up by him.

The disciples of Celestial Venerable Xiao looked at each other. They didn't know if they were here to block the gate or to be beaten by Qin Mu.

However, Celestial Venerable Xiao's disciples could also see how strong and strange these human emperors were. The number of celestial palaces that the human emperors cultivated wasn't much, so logically speaking, they couldn't be compared to them.

However, no matter if it was the thickness of the vital qi or the exquisiteness of the divine arts of these human emperors, they weren't inferior to them. They were even stronger!

This was the benefit of Eternal Peace's reform. The past human emperors were all people who had cultivated the Celestial River Divine Treasure. With the influence of the reform, their battle power wasn't inferior to the disciples of Celestial Venerables like them!

They finally reached First Ancestor Human Emperor.

First Ancestor Human Emperor walked forward and looked at Celestial Venerable Xiao's disciple before looking at Qin Mu. He opened his mouth but didn't say anything.

Qin Mu understood and apologized to Gao Huaitong, "This is First Ancestor of Hall of Human Emperors, and he is also the hundredth generation Old Ancestor of my Qin Family. Even though I have been removed from the family register, he is still my senior, so I have to beat him up." After saying that, he stood up again.

Gao Huaitong was rather unhappy. Ever since Qin Mu came here to challenge him, his aura had been suppressed by Qin Mu, and Qin Mu had always held the initiative.

Without interacting with Qin Mu, they had no idea how strong his aura was!

In the past, he had been sent out by Celestial Venerable Xiao to be a vassal outside of the city. Although he had heard of Qin Mu's name, they had never crossed paths.

He was like the other disciples of the Celestial Venerables, thinking that Qin Mu was just a lucky young man who had coincidentally won the title of Celestial Venerable. However, after interacting with him, he realized that Qin Mu's reputation wasn't undeserved.

“Please wait, Celestial Venerable.”

Gao Huaitong stood up and said with a smile, “Since it’s this battle, let me do it. The competition between your fellow disciples can wait until this battle is over.”

He wanted to suppress Qin Mu’s aura, so his method was simple. He wanted to defeat First Ancestor Human Emperor in a straightforward manner!

As long as First Ancestor was defeated by him, even if he was defeated by Qin Mu, he wouldn’t be able to hide his sharpness!

Those who could cultivate to the Emperor’s Throne Realm weren’t people with undeserved reputations. His judgment was very accurate!

First Ancestor Human Emperor looked at Gao Huaitong who was walking over and gave a slight bow. His body then straightened up, and he stood upright like a mountain and a deep pool. He didn’t move and didn’t move. Standing there, he was like the center of a boundless world, and all worlds revolved around him!

Gao Huaitong’s heart jumped. First Ancestor Human Emperor wasn’t really motionless, but his Dao heart was!

‘Is this a person from Eternal Peace? In his Dao heart, this person’s frame of mind is the strongest! When I returned to the celestial heavens, my master, Celestial Venerable Xiao, mentioned Founding Emperor’s cultivation system of the Dao Realm, and he was full of admiration. This First Ancestor Qin Wu should have walked the Dao Realm system!’

Chapter 1185 – Connate Qi

Gao Huaitong was astonished. He didn’t look down on First Ancestor Human Emperor at all.

Celestial Venerable Xiao held Founding Emperor’s system of Dao Realm in high esteem, and he felt that the system of Dao Realm was the most crucial link to the system of celestial palaces!

The celestial palace system was created by Celestial Venerable Yu, and Celestial Venerable Mu and Celestial Venerable Hao deduced it. Countless people later on perfected it, and the celestial palace system had a huge flaw, which was the emphasis on power.

Every time the celestial palace system rose by a realm, its power would increase substantially. This kind of improvement was built on the foundation of the Dragon Han Celestial Heavens, which became the symbol of Dao in the hearts of the gods that had entered the god realm.

However, this cultivation method neglected his comprehension of the Dao.

Founding Emperor Qin Ye’s system of Dao Realm made up for this point. He advocated comprehension of the Dao and entered the Dao layer by layer, approaching the essence of the Dao. When combined

with the strong power of the celestial palace system, his abilities and cultivation would increase by leaps and bounds!

Gao Huaitong agreed with Celestial Venerable Xiao's words. This kind of agreement was based on Founding Emperor splitting open the celestial heavens with one sword.

That day, when Founding Emperor attacked the celestial heavens and split it apart with a sword, all the gods felt the shock and fear from the split of the celestial heavens.

Of course, the celestial heavens didn't completely split apart, so the shock and fear of all the gods only lasted for a short while. After that time, the shock and fear vanished, and most of the gods didn't take this matter to heart.

Gao Huaitong was a minority.

He deeply felt that his Dao heart was about to split open, and the shock in his heart was also incomparable.

If the celestial heavens really split open, what would happen to the gods of the world?

Would their Dao hearts crumble because of this?

Would their celestial palaces lose their divine power because of this?

This was the most terrifying!

He also realized that Founding Emperor's system of Dao Realm could make up for this point. They cultivated together, so even if the celestial heavens was destroyed, his Dao heart wouldn't collapse because of it.

It was just that he was still in the stage of fumbling and entering the Dao Realm.

He saw the temperament of First Ancestor Human Emperor and realized that this person was a great practitioner of the system of the Dao Realm. He didn't dare to be negligent and bowed. "May Dao friend enlighten me."

The two of them greeted each other before brazenly attacking!

Gao Huaitong had only executed his Numinous Sky Realm cultivation, but the first move he made was the great divine art of Emperor's Throne. Behind him, celestial palaces leaped out one after another, thousands of palaces and tens of thousands of palaces, towering like mountains!

He was well aware of the power of the realm system. One realm was the first heaven, and the other was the second heaven. If he probed carefully, when the other party executed a profound realm, he would probably end up with a grievance!

First Ancestor Human Emperor was still the same as before. He looked calm and collected, and with a hook of his hands, a scene of heaven and earth collapsing instantly appeared. He stood in the center of the crumbling heaven and earth like a pillar.

Sacred Secrets of Heaven and Earth Heart!

His divine art was the imprint of an era. That era was an era where courtesy collapsed and joy crumbled. It was an era where devils danced and devils danced. It was also an era where the heavens collapsed and the earth split.

He wanted to establish his heart for heaven and earth, to establish his life for the people!

Their divine arts collided, and Gao Huaitong immediately felt as if he was in the midst of a grand and magnificent calamity. The divine art he had attacked had become a part of the other party's crumbling heaven and earth, becoming the power to assist the other party's divine art!

First Ancestor's Sacred Secrets of Heaven and Earth Heart was such a technique and divine art. At that time, he was young and weak. In the chaotic world, he could only use the power of heaven and earth collapsing to fight his enemies. Any enemy's attack would become a part of his power!

This technique and divine art would become stronger and braver in battle!

Gao Huaitong was, after all, an existence on Emperor's Throne Realm. When he realized this, he immediately changed his divine art and gave a long roar.

"Connate Qi!"

His divine art changed drastically, giving people the feeling that all paths were converging. It went straight in, making First Ancestor Human Emperor helpless.

Qin Mu's expression changed slightly, and he looked at Yan Qiling.

Yan Qiling had once executed a similar divine art, and it should be a divine art transformed from Celestial Emperor's own Great Dao. This qi of the First Heaven gave Qin Mu the feeling that it was Celestial Emperor's true ability.

However, why would Celestial Emperor impart his true abilities to Gao Huaitong and Yan Qiling?

'What Celestial Venerable Xiao taught them should be incomplete! However, it's still extraordinary!'

Qin Mu thought to himself, 'If Celestial Venerable Xiao had personally executed the First Qi of Connate, this power...'

He was astonished.

Celestial Venerable Xiao was probably one of the strongest existences among the ten Celestial Venerables!

Gao Huaitong's divine art was incomparably overbearing, and it immediately broke through First Ancestor's divine art. At the same time, First Ancestor's divine art transformed, and he no longer borrowed the power of the collapsing heaven and earth. Instead, what replaced it was his Dao heart that was like a scorching fire burning the prairie!

His Dao heart changed, and his divine art also changed!

He was skilled in mudra skills, and he had already stepped into the path in the Founding Emperor Calamity twenty thousand years ago. Now, his realm was even deeper.

However, it was different from comprehending the divine art of entering the path in the great calamity twenty thousand years ago. His divine art of entering the path now revealed a kind of spirit, spirit, and spirit that could change heaven and earth. It was indestructible and could fight head-on with Gao Huai!

Gao Huaitong's divine art was like the wind breaking the waves, a long wind, ten thousand waves, and ten thousand waves. The area covered by the divine art was extremely vast, and its power was boundless.

First Ancestor Human Emperor's mudra laws were even more restrained. The range of his divine art's power was no longer than a square inch. However, when its power burst forth, it was extremely terrifying.

This was the style of the divine art of Founding Emperor Era.

The divine arts of Founding Emperor Era were usually reserved. They didn't seek to be big, only small. In an extremely small space, the power of their divine arts would explode to the extreme.

Qin Mu looked on with delight. He was also quite curious about First Ancestor Human Emperor's current abilities.

He hadn't seen First Ancestor for many years. Back then, First Ancestor was on the Jade Capital Realm. Even though his realm wasn't high in a place like the celestial heavens, his abilities were very strong.

The time when his cultivation rose the fastest was the end of the Founding Emperor Era. He had led countless races to escape with the humans to Eternal Peace.

At that time, he had leaped from an unremarkable prince to an expert of the God Execution Stage. His divine arts had established the path, and his battle prowess was astonishing. He was honored as the human emperor, and his future was boundless.

After twenty thousand years, his cultivation had stagnated. Without anyone to protect, he was immersed in sorrow and self-blame.

Only when he met Qin Mu and Qin Mu unraveled the knot in his heart did he walk out and become the human emperor that had led his people forward to seek hope.

In a very short time, he broke through to Jade Capital Realm.

Coming into contact with Eternal Peace's reform would only speed up his cultivation!

Gao Huaitong and First Ancestor Human Emperor fought fast, and in just a short moment, they had already reached the point where victory and defeat were decided!

At this moment, Gao Huaitong's aura suddenly rose drastically, and he reached the Emperor's Throne Realm. First Ancestor Human Emperor's expression changed slightly, and he immediately retreated. Gao Huaitong didn't give chase.

The reason he had raised his cultivation to the Emperor's Throne Realm was to make the other party back off.

The life and death battle between the two of them was extremely dangerous, and he could see signs of his defeat. Even if he and First Ancestor Human Emperor got injured, his face wouldn't look too good. Thus, he raised his cultivation to Emperor's Throne Realm to make First Ancestor retreat in the face of difficulties, leaving him some face.

Even so, he still couldn't maintain his face. Just as he was about to say something, First Ancestor ignored him and his gaze landed on Qin Mu's face.

Qin Mu laughed and stood up. He waved his hand and said, "Nephew Gao, you may leave. I still have to deal with him personally!"

Gao Huaitong felt a wave of depression in his chest that was hard to release, and he thought to himself, 'You sound like you're here to stand up for us! You're the one who brought them to block the door!'
