

Tales of Herding Gods Chapter 1191-1195

Chapter 1191 – Tai Shi's Divine Ability and unchanging Divine Ability

The ghost ship leaped out of the water surface, and the instant it broke through the surface of Surging River, the river water flowed like jade, welcoming the light of the rising sun. Rainbow after rainbow hung above the ghost ship.

The ghost ship sailed through the wind and waves towards Qin Mu.

Qin Mu rose into the air and landed on the deck of the ghost ship.

“Senior brother.” Qin Mu bowed.

“Junior Brother.”

Emperor of Endless Clouds Wei Suifeng returned the greeting. When he got up, there were tens of thousands of black coffins behind him.

The black coffins stood quietly on the ghost ship, and the black coffins opened up one after another. Inside, the god and devil soldiers of the Feathered Forest Guards walked out.

Qin Mu revealed a smile and said loudly, “I’m here today to fulfill my promise and free everyone from the state of unchanging substance!”

Wei Suifeng was excited, and so were the soldiers on the ghost ship, but none of them spoke.

Suddenly, the phoenix flapped its wings and flew over. With a loud bang, a stone coffin landed on the ground.

Wei Suifeng frowned slightly. That phoenix was Feng Qiuyun, the subordinate of Mother Earth, God Qiuyun. In the coffin was the ancient corpse of High Emperor which had also been assimilated by the ghost ship.

At the same time, a hen dragon with a huge physique also popped its head out from the back of the palace on the ship, looking around excitedly.

It was Lin Xiao, an expert under Mistress Yuanmu.

Other than that, the crazy King Dragon Count of Dragon Count Country had also quietened down. Meanwhile, in the hall that was suppressing Celestial Empress' corpse and Jue Wuchen, the eight Dragon Counts also seemed to have heard these words and slowly turned their heads.

Wei Suifeng turned back to take a glance and said indifferently, “There are so many demons and monsters on this ship. I’m afraid it won’t be peaceful for Junior Brother to solve the ghost ship.”

Qin Mu sighed ruefully. "That's right. There are many demons and monsters on this ship, but they aren't strong. Celestial Venerable Ling sealed the celestial river herself and assimilated with it. The demons and monsters there are truly terrifying. Senior Brother, can we begin?"

Wei Suifeng hesitated for a moment before nodding.

Feng Qiuyun was extremely excited. Flames blazed in the eyes of the petrified Dragon Count Wang Long, ready to escape at any moment.

Qin Mu focused his mind and executed the Dao of Tai Shi. Great Dao runes flowed out from the heart of his brows, gradually increasing in number.

Everyone could only hear the calls of gods and all living beings chanting the same name. That was the name of the Grand Prime!

This was the Dao voice of the Dao of Tai Shi, and it was very strange. When Wei Suifeng tried to chop the ancient god egg, this Dao voice had exploded before.

Wei Suifeng couldn't hide his excitement. 'Looks like Junior Brother found the letter I left for him, Celestial Venerable Ling. He completely analyzed Celestial Venerable Ling's unchanging divine art and broke through the Great Dao contained in the egg from the unchanging divine art! He's saved!'

He knew how difficult it was to comprehend Celestial Venerable Ling's unchanging divine art.

He had received Celestial Venerable Ling's letter for a long time and studied it for a long time, but he still couldn't solve it.

The ten Celestial Venerables of the celestial heavens had received Celestial Venerable Ling's letter for an even longer time, so they didn't gain anything.

Qin Mu solved the marvel of Celestial Venerable Ling's letter in a short time. Such talent was hard to find in the world!

It was even more difficult to solve the Great Dao of Tai Shi contained in the egg. The difficulty was even higher than Celestial Venerable Ling's letter!

He didn't know that Qin Mu was able to comprehend Celestial Venerable Ling's letter not entirely because of his own intelligence. If it wasn't for Old Buddha's Boundless Calamity Sutra, even if he could solve the marvel of the letter, he would still need hundreds of thousands of years.

In terms of intelligence, Qin Mu wasn't a top-notch figure. He was only good at using all kinds of techniques and divine arts to improve himself.

There were more runes of the Great Dao of Tai Shi, and the different runes of the Great Dao arranged themselves and began to suppress the ghost ship.

Everyone and everything on the ghost ship was assimilated into an unchanging substance, neither increasing nor decreasing. Now, Wei Suifeng and the rest felt that the unchanging substance was gradually changing!

At this moment, Qin Mu felt something in his heart. He felt a few forces invading this place silently from the unseen world. It was like the wind blowing on the river, making him shiver.

He looked at Wei Suifeng, and Wei Suifeng also noticed it. He revealed a puzzled expression.

Both of them were astonished.

Someone had targeted the ghost ship.

There were too many secrets buried in the ghost ship. Not only was there the corporeal body of the Celestial Empress, but there was also Jue Wuchen. The people who were most concerned about this were none other than Celestial Empress, Mistress Yuanmu, Celestial Venerable Hao, Celestial Venerable Xiao, and the other people who had participated in that disgraceful history!

The demons and monsters on the ghost ship weren't much, but the ones that came were the big shots!

Qin Mu made a prompt decision and dispersed Tai Shi's divine art. He said solemnly, "Senior brother, two chances!"

Wei Suifeng shuddered and understood. The two chances that Qin Mu had mentioned were two chances to return to the past!

There was only one way to avoid these ancient existences, and that was to break Celestial Venerable Ling's divine art!

Only by returning to the past would these Celestial Venerables be wary of taking action and not dare to return to the past with them.

If they returned to the past, they would disappear.

Wei Suifeng's aura trembled, and he executed the divine art of the ghost ship.

The ghost ship suddenly set sail, and the fog on the river surface gradually rose, becoming thicker.

The ghost ship sailed through the fog. Suddenly, lightning flashed and thunder rumbled in the fog as it struck randomly outside the ship.

Qin Mu and Wei Suifeng's expressions changed slightly. The ghost ship had entered the fog, and it wasn't easy for the people and things on the ghost ship to start flowing back. However, the terrifying existence that had followed them didn't give up and actually took the chance to follow them!

"They didn't board the ship and followed the fog in!"

Wei Suifeng's heart sank. He had already assimilated with the ghost ship, becoming one with it. No matter who boarded the ship, he could easily sense them.

The people that had entered the fog were afraid of Celestial Venerable Ling's divine art, afraid that they would be assimilated. Thus, they didn't dare to step onto the ghost ship. However, the person who had entered the fog was too strong. When they entered the fog, their own power actually started to change the composition of the fog!

Qin Mu and Wei Suifeng didn't know how many people had entered the fog. However, the magic power of the intruder wasn't as simple as changing the structure of the fog. The true goal of the intruder was to prevent the ghost ship from passing through and pull them back to reality!

The divine art of the ghost ship wasn't a perfect unchanging divine art executed by Celestial Venerable Ling. Instead, it was created by Celestial Venerable Ling. Qin Mu and Wei Suifeng worked together to complete this divine art.

Of course, their comprehension back then was limited, so they couldn't perfectly recreate Celestial Venerable Ling's unchanging divine art.

Now that there was a flaw in this divine art, the person would have a chance to pull the ghost ship back to reality!

"Junior Brother, you solve the unchanging divine art, I'll execute it!" Wei Suifeng shouted.

Qin Mu's heart stirred slightly. What would happen if he executed unchanging divine art and Tai Shi's divine art at the same time?

He didn't dare to imagine.

Because the complete unchanging divine art was created by Celestial Venerable Ling, she had only used it once.

The divine art of Tai Shi was a divine art that Qin Mu had comprehended by comprehending the Tai Shi divine egg. He had never executed this divine art before!

Both kinds of divine arts were extremely peculiar. One was that it wasn't easy to materialize, while the other was that it had a form but no substance. They were both mysterious and hard to describe with words.

In the fog, lightning flashed and thunder rumbled. One could faintly see the sun rise and set outside the ship. The mulberry fields and the vast sea changed continuously. The mountains rose and the mountains fell. It was indescribably strange.

Suddenly, the fog became fainter, and a huge human-shaped shadow stood in front of the ship, pressing down on them. The terrifying pressure caused the ghost ship and fog to quickly retreat!

This person was actually powerful enough to drag the ghost ship back from the past to the present!

Outside the ghost ship, the sun rose from the east and set in the west. The blue sea turned into mulberry fields, and mountains rose.

Wei Suifeng was already executing the unchanging divine art of the ghost ship, and he shouted, “Junior Brother!”

Qin Mu no longer hesitated. With a furious shout, he gathered all of his strength to execute the Tai Shi divine art!

Chapter 1192 – Don’t Be Excited

The unchanging divine art and the Tai Shi divine art burst forth at the same time, and the two divine arts collided. Wei Suifeng’s magic power surpassed Qin Mu by countless times, while Qin Mu’s Tai Shi divine art countered the unchanging divine art.

The two clashed, and in that instant, time and space seemed to become completely chaotic, no longer existing!

Everyone on the ship seemed to have fallen into a strange state where they were neither alive nor dead. Even the fog that filled the Surging River was changing violently!

The mysterious expert who had tried to drag the ghost ship back to the present couldn’t help but cry out in alarm. He increased his magic power and tried his best to drag the ghost ship back to the present.

At this moment, the collision between the two kinds of divine arts became even more intense. Even an existence like this couldn’t help having a huge change in expression. He hurriedly let go of the ghost ship and sprinted along the fog, trying to return to the present.

That mysterious strong practitioner only saw the heaven and earth outside the fog become extremely unreal, becoming distorted like layers of whirlpools, trying to pull him into them!

He escaped frantically, but the whirlpool spun faster, forcing him to muster all his strength to run faster.

He looked back and saw a strange sight in the center of the whirlpool.

Over there, the substance on the ghost ship was disintegrating, and time and space were collapsing!

On the ghost ship, Qin Mu, Wei Suifeng, and the thousands of Feathered Forest Guards seemed to have transformed into human-shaped energy bodies. They no longer existed, but they existed at the same time.

“The ghost ship is finished, the corpse of Celestial Empress on the ghost ship is also finished...”

When the mysterious strong practitioner saw the terrifying light bursting forth from the ghost ship, he hurriedly turned his head and escaped in a panic.

Boom—

The dazzling light drowned and swallowed everyone and everything in the fog!

At the same time, the mysterious expert finally escaped from the ghost ship when the light reached his body.

He had yet to recover from his shock when everything in front of his eyes returned to normal. The world and time were no longer warped.

He let out a sigh of relief and looked around. He saw Heavenly Lady Yan carrying the white cat and standing by the riverside, smiling at him.

“Your Majesty.” Heavenly Lady Yan smiled as she looked at the white cat’s head. The white cat, on the other hand, had its fur standing on end and was purring while staring at him.

The mysterious strong practitioner dispersed the divine light that shrouded his face, revealing Celestial Venerable Xiao’s face.

Heavenly Lady Yan’s gaze flickered as she consoled the white cat in her arms. “Your Majesty seems to be very concerned about my corporeal body. How ironic. When I was alive, Your Majesty didn’t care about me at all, but after I died, you acted so hypocritically and even risked your life to obtain my corporeal body.”

She suddenly sneered. “That’s right, Your Majesty doesn’t care about me. You just want to take my corporeal body to threaten me.”

Celestial Venerable Xiao revealed a smile and said, “Zi Tong, I missed you, so I risked my life to barge into the ghost ship to meet you. Don’t you understand my feelings for you?”

Heavenly Lady Yan sneered and said, “Transforming into a human and sleeping with my sister is also my intention? When a slut kills me, others won’t be able to tell, but you can’t? Yet? You went to sleep with Jue Wuchen again! That’s right, you even slept with the new Mother Earth, the girl born from the Primordial Tree. You can’t control your lower body!”

Celestial Venerable Xiao said gently, “Zi Tong, I just made a mistake that all men would make. Aren’t you the same? You and Celestial Venerable Yu...”

“Shut up!”

Heavenly Lady Yan’s face was as cold as ice, and she said coldly, “There’s no love between me and Celestial Venerable Yu! You aren’t a gentleman, he is! I supported him because I saw the future of the ancient gods, but I didn’t expect you to kill him! Yet you couldn’t save the fate of the ancient gods! Your brain has grown into your lower body!”

Celestial Venerable Xiao looked slightly embarrassed.

Heavenly Lady Yan’s anger turned into joy, and she said with a smile, “Even though I have nothing to do with Celestial Venerable Yu, in order to take revenge on you, I have raised some male companions. Little Seven, come and meet Celestial Emperor.”

The white cat in her arms dispersed its fierce aura and lazily licked its paws before meowing.

Celestial Venerable Xiao's expression instantly became extremely ugly.

"Meow." The white cat lazily snuggled into Heavenly Lady Yan's embrace.

Celestial Venerable Xiao's expression became even uglier.

Heavenly Lady Yan chuckled. "You schemed to seize my corporeal body in order to control me firmly once again, right? What a pity, what a pity. I have already used this death to escape the restraints of the ancient gods. The me now is even stronger than before."

Celestial Venerable Xiao's expression returned to normal, and she said gently, "Zi Tong, you and I are both ancient gods after all. This world can't tolerate us. If my identity is exposed, I will die, and so will you. Therefore, we should give up our prejudices and support each other."

Heavenly Lady Yan said leisurely, "When you meet that slut again, will you kick me away?"

Celestial Venerable Xiao's expression froze.

Heavenly Lady Yan left with the white cat in her arms and said with a smile, "Men—no matter what, this corporeal body is my corporeal body. Even though I'm not in a hurry, it's still mine. I'll take it back myself! Don't think of having any crooked ideas!"

Her voice turned cold. "Don't forget, your desire to kill you with that slut's precious son is even higher than killing me! Be careful of me joining forces with him to get rid of you completely!"

Celestial Venerable Xiao's expression wavered.

The light on the ghost ship dispersed, and Qin Mu, Wei Suifeng, and the rest stood on the deck. Suddenly, a hoarse voice rang out. "Have we gotten rid of the ghost ship?"

Qin Mu looked toward the source of the voice and saw that the person who had spoken was King Dragon Count. He had already broken free from his petrified state and turned into a pure glowing body.

He still maintained the form of Dragon Count.

Dragon Count was a huge dragon race during the Dragon Han Era. He had the head of a dragon and the body of a human, and he could transform into a huge dragon. His bloodline was extremely ancient, and it was rumored that he was the descendant of a divine dragon transformed from the dragon's vein of the ancestral court.

In the palace formed by light, eight Dragon Counts walked out in human forms.

Just like the King of Dragon Count, they were freed from their petrified state and turned into purely glowing bodies.

Not only them, but everyone on the ship, including Wei Suifeng and the emperor's corpse, also became balls of energy.

Even the ghost ship maintained this strange form. There was only energy and no substance.

This was the state of Tai Shi.

"This situation isn't good!"

A Dragon Count looked at his hands in fear and excitement. He hissed, "My flesh, my body... I don't have a corporeal body anymore. Where's my primordial spirit?"

The more he spoke, the more excited he became, and the light in his body became brighter!

Qin Mu's expression changed drastically, and he shouted, "Don't be agitated—"

Boom!

The energy in Dragon Count's body went out of control, and an incomparably terrifying energy burst forth!

Everyone hurriedly flew in all directions, and the violent power drowned everyone on the ghost ship!

The celestial river exploded and was sliced into two by this terrifying power!

Just as Qin Mu and the rest escaped from the celestial river, they were blown away by this uncontrollable energy. Qin Mu only heard Wei Suifeng's voice and shouted, "Steady your mind, don't be agitated! If you are agitated, the energy in your body won't be able to maintain its form!"

Just as he said that, the ghost ship was also lit up by the explosion of Dragon Count. Everyone looked at the huge ship that was over a hundred miles long in fear.

If this ship exploded...

Boom—

The energy that could annihilate everything exploded, and the ghost ship completely transformed into energy that was out of control. It was ten thousand times stronger than the energy fluctuations created by Dragon Count's explosion!

Everyone felt despair in their hearts. At such a close distance, they had no way of dodging.

Right at this moment, a peach blossom floated and appeared on the broken celestial river. The branch spun, and the petals fell. One petal was like a world, and the pink petals separated the energy.

Chapter 1193 – Blossoming Peach Blossoms

The divine art of that peach blossom was extremely intricate, and its petals sliced through the air. It seemed to grow larger, gradually filling up heaven and earth, making everyone see nothing else.

The ghost ship's energy completely exploded, but the incomparably violent impact couldn't break through the worlds formed by the peach blossoms.

However, everyone outside the peach blossom petals felt the incomparably terrifying fluctuation, and their expressions changed drastically.

If this ripple were to reach their bodies, the energy time and space in their bodies would completely explode and cease to exist!

Finally, the ripples subsided.

"Celestial Venerable Yue..."

Qin Mu looked at the swirling peach blossom petals in a daze, and his heart trembled with excitement. He hurriedly tried his best to stabilize his mind.

Right now, they couldn't have any emotional fluctuations. After all, they didn't have corporeal bodies and were just energy bodies. Emotions were energy fluctuations.

Energy fluctuations meant that the energy was unstable and could explode at any time!

There was no substance binding energy in their bodies. If they exploded, they would be completely annihilated. Everything would be gone, including the black soul sand!

'This might be another divine art that completely destroys the soul...' Qin Mu thought to himself and was slightly puzzled. He was actually still in the mood to ponder about divine arts in such a situation that was neither life nor death.

At this moment, the rotating peach blossom petals became smaller as they contracted continuously. A woman with long hair fluttered in the wind as she flew over. She was like a goddess in the moon palace. She gently stretched out her hand and guided the two celestial rivers.

She connected the celestial river together and stretched out her thumb and middle finger to pinch the bare peach branch.

The swirling petals flew over one after another and landed on the peach branch, forming another peach blossom. The stamen gently swayed.

The woman lowered her head to sniff the peach blossom, but the peach blossom shattered into pieces.

The peach blossom was just an ordinary peach blossom, and it was her divine art that had blocked the energy explosion of the ghost ship. However, how could the peach blossom withstand such a terrifying impact? Thus, it was still destroyed.

"What a pity..."

The woman revealed a look of pity, and her expression was slightly sorrowful. However, she soon became happy again and said with a smile, "Falling in love isn't a heartless thing. Turning into spring mud will protect the flower even more. If I plant you, you will transform into a peach tree next year, and the peach tree will transform into a peach forest. It might even grow throughout the heavens and ten thousand worlds."

She put away the peach branch and looked at Qin Mu and the rest with curiosity.

Qin Mu flew forward and bowed. "We meet again, Celestial Venerable Yue."

This woman was Celestial Venerable Yue. The astonishment on her face became more intense.

"Celestial Venerable Mu?" She was surprised and delighted.

Qin Mu nodded his head helplessly and said, "It's me."

Celestial Venerable Yue hurriedly went forward and wanted to grab his hand, but she grabbed nothing. She was stunned, but when she tried to grab again, she still grabbed nothing.

Qin Mu said helplessly, "Our current situation is a little special, it's hard to explain in a few words. Over there is my senior brother, Wei Suifeng, and a few friends..."

Wei Suifeng hurriedly walked over to pay his respects. Feng Qiuyun saw Celestial Venerable Yue from afar and didn't dare to go forward. However, the High Emperor's corpse recognized Celestial Venerable Yue and couldn't help becoming excited. It roared, and the emperor's corpse became brighter.

Everyone's expression changed drastically.

Celestial Venerable Yue frowned. She plucked a leaf from the peach branch and threw it out.

The leaf grew larger, and with a whoosh, it came to the side of the High Emperor's corpse, wrapping him up like a dumpling.

Boom—

Another world-shaking explosion rang out, and a terrifying beam of light shot into the sky from the top to the bottom of the dumpling. It pierced through the sky and left an incomparably deep hole in the ground.

"I lost another leaf..."

Celestial Venerable Yue sighed and frowned. "The person who exploded just now seems to be a fake emperor of the North High Emperor Celestial Heavens. Isn't he dead?"

She was puzzled.

Numerous Feathered Forest Guards dragged over a coffin that had transformed into light. There were two women lying side by side in the coffin, and one could see them clearly without opening the coffin.

One of them was extremely beautiful and captivating. It was a pity that she had already transformed into an energy body.

The other one was Celestial Empress. She was an ancient god. Even though she was dead, she still maintained her corporeal body and hadn't been transformed by the Grand Prime's Dao.

Qin Mu relaxed. Other than the lives of everyone on the ghost ship, the corporeal bodies of Celestial Empress and Jue Wuchen were the most important.

"Celestial Venerable Yue, our condition is very unstable. Can we find a secluded place?"

Qin Mu said, "I need to calm down and think about it, to see if I can solve the problem we are currently facing."

Celestial Venerable Yue smiled and said, "Follow me. I happen to have a place in the Primordial Realm for you guys, so you don't have to worry about being disturbed. Speaking of which, Mother Earth is also afraid of me. She definitely won't dare to provoke me there."

Qin Mu let out a sigh of relief and was slightly curious. 'Mother Earth? What era is it now?'

"Of course it's High Emperor Era."

Celestial Venerable Yue turned back and smiled. "It's been more than 19,000 years since High Emperor Nan ascended to the throne. In a few more years, it will be High Emperor's 20,000th birthday."

She was very happy and couldn't contain her joy. "What a coincidence that you are here. These few years, Sister Ling and I have controlled the Primordial Realm and developed it very well."

Qin Mu let out a sigh of relief and thought to himself, 'South High Emperor has lived for three hundred thousand years, and it's still twenty thousand years since the High Emperor Era. There's still some time before that huge change...'

Celestial Venerable Yue continued, "This High Emperor is the fifteenth High Emperor, and he has been sitting on the throne for almost twenty thousand years. The previous High Emperors are usually the saints of the human race and other Postcelestial races. The races of our Primordial Realm are developing so rapidly that even the Heaven Han Celestial Heavens couldn't compare to them!"

When she said this, she looked a little sad. She must have thought of Celestial Venerable Yun who had died in battle.

"The fifteenth High Emperor?"

Qin Mu felt a chill down his spine and immediately felt the energy in his body becoming unstable. He hurriedly controlled his emotions.

The fifteenth High Emperor had been in power for almost twenty thousand years. Didn't that mean he was very close to the High Emperor Calamity?

Celestial Venerable Ling and Celestial Venerable Yue were both killed during this period. Celestial Venerable Ling fell into an eternal cycle while Celestial Venerable Yue lost both her legs and became disabled!

Celestial Venerable Yue examined him curiously and secretly stretched out her hand to poke his body.

Her hand passed through Qin Mu's body, but she didn't touch anything. What she touched was an extremely terrifying energy.

"Sister Yue, stop fooling around," Qin Mu said helplessly.

Celestial Venerable Yue retracted her hand, and after a moment, she couldn't resist poking him again. Qin Mu said helplessly, "Stop fooling around, it's true. Even though it doesn't hurt, I still feel weird."

Celestial Venerable Yue was no longer mischievous. She looked back and saw Wei Suifeng leading tens of thousands of Feathered Forest Guards to carry Celestial Empress' coffin as they followed behind. In the distance, King Dragon Count, the seven Dragon Counts, and Feng Qiuyun looked from afar.

"Aren't they coming?" Celestial Venerable Yue asked curiously.

Qin Mu waved his hand and shouted, "King Dragon Count, Sister Qiuyun, come over together. Only I can solve this divine art. Without me, you guys could explode at any time."

King Dragon Count was helpless and said in a low voice, "Let's follow!"

Feng Qiuyun also hesitated and looked at the sky of the Primordial Realm. To the north, a celestial heavens made of pure divine metal floated above the Primordial Tree. That was Mother Earth's North High Emperor Celestial Heavens.

"I'm in that celestial heavens."

Feng Qiuyun followed the group, and a strange feeling rose in her heart. Her other self also existed in this world. 'However, I can only betray Mother Earth and follow Celestial Venerable Mu all the way to the underworld. What a hopeless situation...'

Chapter 1194 – High Emperor Era

Qin Mu and the rest followed Celestial Venerable Yue to the land of the Primordial Realm. Their group was simply too eye-catching. They were all glowing energy bodies, attracting attention.

Thus, Celestial Venerable Yue used her space technique to distort the space around them so that people couldn't see them.

On the other hand, Qin Mu and the rest could go outside and see that the people of South High Emperor were rich. There were god cities of all sizes, and the gods protected the people of a region.

The gods of South High Emperor weren't just humans, but a mix of thousands of races. There were many sacred races in the Postcelestial races, and many of the people were from other races. Humans were just a part of them.

Humans and other races lived together, and on the streets and fields, there were scenes of all races getting along harmoniously.

When they passed by a god city, they even saw a stone tablet outside the city. On it were the words 'human life is greater than heaven'.

"The people here aren't just referring to humans, but all lifeforms and races with intelligence are humans."

Celestial Venerable Yue smiled and said, "This is the philosophy of the current High Emperor. He has a lot of ideas and is a very powerful person. Furthermore, he has done quite well."

Qin Mu stopped and looked at the stone tablet for a long time before following her.

Celestial Venerable Yue led them for a long time, smiling happily.

She should have experienced a long period of setbacks. After Celestial Venerable Yun died, she announced her retirement and no longer appeared in the world.

Qin Mu could imagine how great the impact of Celestial Venerable Yun's death and the fall of the Heaven Han Celestial Heavens was on her. However, she still walked out of her defeat and supported the High Emperor Era with Celestial Venerable Ling, establishing the High Emperor Celestial Heavens.

The High Emperor Celestial Heavens was the work of Celestial Venerable Ling and her, but Celestial Venerable Ling was a research maniac. She focused all her energy on researching unchanging divine arts, especially in the later stages of the High Emperor Era. Celestial Venerable Ling's divine art was almost complete, so she wouldn't waste her energy.

Thus, she had to manage all the big and small matters of the High Emperor Era, handle the relationship between the High Emperor Celestial Heavens and the extraterritorial celestial heavens, and deal with the forces of the North High Emperor Celestial Heavens and Mother Earth.

Qin Mu could imagine how much effort she had put in.

Of course, it was also because she had taken care of everything properly. The High Emperor Era could be said to be the most resplendent era. Among them, North Emperor was more barbaric and overbearing. He followed the primitive rules of the ancient gods.

Crimson Light Son of God sent an envoy to the Primordial Realm to look for High Emperor. The person he had gone to should have been North High Emperor. However, when he saw an incomparably terrifying and barbaric sight, he was so scared that he didn't dare to come into contact with High Emperor Era.

On the other hand, South High Emperor's civilization was highly developed and had many achievements. He gave birth to many strong practitioners on Emperor's Throne that were much more powerful than the Dragon Han Era and left behind all kinds of Emperor's Throne techniques.

Not only that, but the spirit of this era was also passed down, affecting Founding Emperor Era and even the Eternal Peace Era!

Among them, Celestial Venerable Yue contributed greatly.

Qin Mu looked at the woman in front of him in admiration. She had sacrificed too much for this era.

However, the extraterritorial celestial heavens' harvest was imminent. The High Emperor Era was about to be wiped out along with Mother Earth's death, Celestial Venerable Ling's disappearance, and Celestial Venerable Yue's crippling!

His heart ached.

Celestial Venerable Yue was talking and laughing. Suddenly, she smiled mysteriously and said, "The place in front is where I live. There's still something here that terrifies you. You definitely didn't expect..."

She couldn't help herself and told Qin Mu directly. She giggled and said, "South Deity Zhu Que gave birth to a child with someone and hurriedly sent the egg to me before it was even born. She said that it was no longer safe at her place and asked me to raise this child for her. This child was born a long time ago and is a girl. Eat the eggshell..."

Qin Mu's eyes lit up.

Celestial Venerable Yue chuckled and said, "Her name is Yan'er! She's a considerate girl who knows how to stick to people! The people in my palace have all been fed by her until they are white and chubby. If I don't restrain myself a little, I will also be fed until I'm white and fat! I also have a disciple called Xiayu who is almost unable to fly after being fed by her..."

Qin Mu smiled and nodded. He couldn't help imagining Red Deity Qi Xiayu, the nine-headed phoenix, being fed until she was round and couldn't fly.

"We can't let her see you. If you explode in excitement, that would be terrible."

Celestial Venerable Yue revealed a worried expression again and said, "I'll keep a close eye on her and won't let her run to your place. This girl is clingy and likes to feed people with her mouth. Girls are good, but boys can't resist such temptation..."

When they reached her palace, Celestial Venerable Yue brought them into it and said, "I'll fold some space and let you guys stay temporarily. Yan'er won't come in. I'm staying here to suppress Mother Earth. As long as I'm here, she won't dare to be impudent. When you're free from this strange state, I'll bring you to the High Emperor Celestial Heavens. Sister Ling is there. When she sees you, she can't help but go crazy from excitement."

Qin Mu nodded with a smile.

“You can’t be excited, it’s really boring. You guys stay here first. If you can’t undo your current state, I’ll go find Sister Ling and drag her out of the study no matter what.”

Celestial Venerable Yue rolled her eyes and secretly poked Qin Mu’s body again. Qin Mu said helplessly, “Sister Yue, stop playing.”

Celestial Venerable Yue chuckled and turned to leave. “I still have some administrative matters to attend to, so I don’t have much time left in the palace. I’ll come back to visit you guys after I’m done. That’s right!”

She stretched out her hand and drew a door. She said with a smile, “Don’t run out of this door. If you run out, others will definitely be scared half to death when they see your forms. Also, the space here follows the sun, and there will never be night. You don’t have to worry about returning to your era.”

Qin Mu nodded his head gently. This place wasn’t bad. There were heaven and earth, mountains and clear waters, and there were no outsiders to disturb him. This allowed him to calm down and study his strange state.

Celestial Venerable Yue closed the door and left.

Wei Suifeng immediately went to settle the soldiers of the Feathered Forest Guards. King Dragon Count and the seven Dragon Counts also found a place to stay temporarily and didn’t disturb Qin Mu.

Qin Mu tried to execute his divine art, but he realized that it could still be used. Not only that, the speed at which it was executed was even faster!

“Divine arts are unique spells created by people using Great Dao laws to transform into powerful energy. We have become glowing energy bodies, so the speed of us using divine arts is even faster.”

Qin Mu muttered to himself for a moment and tried to execute Overlord Body Three Elixir Technique. What astonished him was that he could also execute Overlord Body Three Elixir Technique, but the energy in his body was unstable when the technique was circulating and could explode at any time.

He hurriedly stopped and said in a low voice, “The Overlord Body Three Elixir Technique being able to activate it shows that my primordial spirit, spirit embryo, divine treasures, and celestial palaces still exist. They are merely transforming into a state of energy and are no longer substances.”

Suddenly, Qin Mu was stunned. He suddenly realized that there was something in his body that hadn’t been assimilated by the Grand Prime’s divine art!

That was his third eye!

His eye wasn’t assimilated!

“In my eyes are the egg fragments of the Tai Chu Divine Egg, Earth Count’s Qin word land, Grand Primordium Divine Stone, Tai Shi egg, half of Tai Su egg white, as well as all kinds of treasures, Mistress Yuanmu’s coffin and corporeal body!”

Qin Mu’s heart pounded wildly, and he immediately felt that he was about to explode again. He hurriedly composed himself. “There’s also Taiji Divine Stone and Taiji Origin Stone! That’s right, Taiji Origin Stone!”

Chapter 1195 – Gathering Dragon Scales

The Dao of Tai Shi had a form but no substance, which was why Qin Mu and the rest had become glowing energy bodies. The Dao of Taiji was the Dao of Yin and Yang. Energy transformed into all things, and the Dao of Yin and Yang evolved into all the Dao in the world!

“The only way to solve our current predicament is the Taiji Divine Stone and Taiji Origin Stone!”

When Qin Mu thought of this, he immediately took out a few pieces of Taiji Divine Stone and Taiji Origin Stone.

He only had one Taiji Origin Stone, but he had over a hundred divine stones.

In the past, he had felt that he understood the path of yin and yang derivation of the Great Ultimate Dao very well. His Spirit Embryo Divine Treasure was the intersection of yin and yang. However, after coming into contact with the true Great Ultimate mineral vein and witnessing the strange events in the Great Ultimate mineral vein, he wasn’t so sure anymore.

The evolution of yin and yang allowed the substances and Great Dao to change in many ways. It even changed the species and the rules of Great Dao. It was truly marvelous and indescribable.

However, during that trip to the Taiji mine, he had also benefited greatly because he had absorbed a portion of the power of the Taiji divine stone and the Taiji mine!

His understanding of Taiji’s derivation of Yin and Yang was much deeper than before!

At that time, he was in the mine, and the Tai Chi mine controlled the masters of creation to kill him time again. However, he used the unchanging substance divine art to return to the origin time again, using it to comprehend the principle of solving the evolution of yin and yang.

At the last strike, the taiji mine controlled the yin and yang qi to tunnel into his body, trying to assimilate Qin Mu.

However, Qin Mu still relied on the incomparably mysterious paths, skills, and divine arts to swallow the yin and yang qi that had invaded his body. Thus, he also obtained a portion of the power of the mine.

“The two ancient gods in the Taiji divine egg gave me this Taiji Origin Stone, which could be said to have saved my life.”

Qin Mu first tried to mobilize the power of the Taiji Divine Stone. Even though he had a deep understanding of the Dao of Taiji, he wasn't an ancient god of the mine after all. He had to first try to control this power.

The Taiji Divine Stone slowly floated up in his palm, and Qin Mu felt the energy in his body merging into it, slowly transforming into yin and yang qi. This kind of situation was very marvelous, making people click their tongues in wonder.

From energy to yin and yang qi, yin and yang qi were also substances. When energy turned into substances, everything would flow naturally.

"However, pure yin and yang qi can't restore my corporeal body."

Qin Mu muttered to himself irresolutely. He had obtained the yin and yang qi in the taiji mine vein, which contained many complicated principles of yin and yang evolution. He wanted to enter the dream to deduce and organize them.

It was just that his current state was very unstable. Entering a dream relied on his powerful thinking ability to transform into thousands of clones. The amount of thoughts he could mobilize was extremely huge, and it was very likely that he would lose control of the energy in his body!

He could only give up on this thought for the time being and slowly organize the path of yin and yang evolution to comprehend the power of the Taiji Divine Stone.

From Taiji Divine Stone to Taiji Origin Stone, from shallow to deep, he could only take it slowly.

Unknowingly, more than ten days had passed, but Celestial Venerable Yue still hadn't returned. Qin Mu had also slowly mastered the power of the Taiji Divine Stone, and his understanding of the reason hidden in the mine had increased.

There was no one to disturb them, and it was very quiet.

The Feathered Forest Guards were a troop that completely obeyed the orders of their commander, and Wei Suifeng was the commander. With a command, the Feathered Forest Guards sat upright without moving. They had no other thoughts in their hearts, and their discipline was so strict that it made people fearful.

The hen dragon, Lin Xiao, was subdued by Wei Suifeng and didn't dare to make any moves.

As for King Dragon Count, Feng Qiuyun, and the rest, they couldn't sit still. As time passed, they became more restless. Luckily, they would always come to their senses when they were about to explode.

"King Dragon Count!"

Qin Mu finally got up and called King Dragon Count over. He said with a smile, "I need some energy bodies of Dragon Count to test if my gains over the past few days can solve our current state."

King Dragon Count's expression changed slightly, and he sneered. "Junior, you want to use us as a test? Who do you think you are..."

"What is a dignified Celestial Venerable to you?"

Wei Suifeng walked over and sneered. "King Dragon Count, aren't you too daring?"

The dragon skin on King Dragon Count's face trembled. He was fearful of Wei Suifeng. It was Wei Suifeng who had brought the Feathered Forest Guards to eradicate Dragon Count Country and suppress the chaos of Dragon Count. He had beheaded countless Dragon Counts and sacrificed them to the Dragon Han Celestial Heavens!

Even he was captured by Wei Suifeng.

"Celestial Venerable Mu is the ninth Celestial Venerable of the Dragon Han Celestial Venerable. He is indebted to the people of the world for imparting his teachings. From ancient times until now, anyone who meets him, even the ten Celestial Venerables of the celestial heavens, will have to call him Dao brother!"

Wei Suifeng said indifferently, "He saved your life, and not only did you not repay him, you even spoke rudely. You're impotent."

King Dragon Count's expression softened slightly, and he said, "I'm the ruler of Dragon Count Country, a god born from the dragon vein of the ancestral court. My status is a hundred times higher than that of the so-called Celestial Venerables! During the Celestial Heavens Meeting back then, Celestial Emperor invited me to a banquet. As for the Nine Celestial Venerables of Dragon Han, they were merely small fry playing in the Jade Pool, so I really didn't put them in my eyes. However, since the Feathered Forest Guards' Commander has spoken, I'll give you some face."

He muttered to himself for a moment, then summoned a Dragon Count and said, "Remove a dragon scale from you and let this Celestial Venerable Mu test it."

Dragon Count felt humiliated. King Dragon Count snorted coldly and pulled out a dragon scale from his body.

Dragon Count's face twitched as he stood at the side with a wronged expression.

Qin Mu took the dragon scales and immediately executed the Taiji Divine Stone to test his new achievements. He didn't take the sarcasm in King Dragon Count's words to heart.

Wei Suifeng and King Dragon Count looked at the dragon scale nervously. They were indescribably excited and hurriedly suppressed their emotions.

As Qin Mu executed it, the Taiji god stone statue lost its fixed form and transformed into black and white yin and yang qi that swirled around the dragon scales. A marvelous power burst forth from the divine stone and changed the physical structure of the dragon scales.

This dragon scale was just a body of energy in the shape of a dragon scale and had no substance. However, under the effect of yin and yang qi, the dragon scale gradually formed a substance!

Everyone found it hard to suppress the excitement in their hearts, but they had no choice. It was truly tiring.

When he saw that the dragon scales had already transformed by more than half, the process of the dragon scales changing from energy to matter rapidly reversed, changing from matter to energy!

The dragon scales quickly shone, and the light became brighter!

Wei Suifeng's expression changed drastically, and he hurriedly swept his sleeves to sweep up the dragon scale into the sky.

Boom—

Matter was annihilated, and energy erupted. It was as if there was an additional sun in the sky. It was incomparably terrifying and didn't disperse for a long time.

"One more," Qin Mu said with a slight frown.

King Dragon Count beckoned to that Dragon Count. That Dragon Count had a bitter expression and walked forward unwillingly, having another dragon scale plucked out by him.

After a moment, Wei Suifeng swept his sleeves, and another sun appeared in the sky. The sun in front of him had yet to completely dissipate.

"One more," Qin Mu said without raising his head.

King Dragon Count plucked another piece from that Dragon Count's body, and Qin Mu took it. He adjusted the strength of his hand techniques and tested it again.

"One more."

...

King Dragon Count plucked that Dragon Count until he was bald. He waved his hand and let that Dragon Count off. He changed into a new Dragon Count and continued to pluck the scales.

More than a month had passed, and the explosions in the sky came wave after wave. Qin Mu had failed countless times, but he had never succeeded once!

The green qi on King Dragon Count's face scattered, and he almost exploded on the spot several times. Luckily, he had seen the world before, so he endured it.

"One more," Qin Mu said.

This voice was like a curse that caused King Dragon Count to explode. He was unable to restrain his anger as his body became brighter.

Wei Suifeng coughed and said, "King Dragon Count, be careful not to explode."

King Dragon Count came back to his senses and suppressed the fluctuations of his Dao heart. He gritted his teeth and plucked a dragon scale from his body. He gritted his teeth and said, "Celestial Venerable Mu, you can't just take away our Dragon Count! The leader of the phoenix race over there also has quite a few feathers!"

Qin Mu said apologetically, "I'm about to succeed, I'm about to succeed. Once I'm done with you, I'll go get Sister Qiuyun."

Far away, Feng Qiuyun's expression changed drastically.
