

Tales of Herding Gods Chapter 1196-1200

Chapter 1196 – Plucking Phoenix Feather

The dragon scales on King Dragon Count's body were plucked until they were bare, and even the reverse scales were plucked clean. There were no more dragon scales to be plucked, and Qin Mu even plucked out quite a number of his whiskers before finally shutting his mouth.

"I'm only a fine line away from success!"

Qin Mu was delighted and waved at Feng Qiuyun with a smile. "Sister Qiuyun, I need to borrow something from you!"

Feng Qiuyun's face turned ashen, and she braced herself to walk forward. Gritting her teeth, she plucked out a phoenix feather and said, "This phoenix feather of mine has been tempered a thousand times, and every single one of them is an extraordinary treasure. If I take them out, the people of the Primordial Realm will break their heads!"

King Dragon Count said angrily, "The dragon scales on our Dragon Count's body are a hundred times more valuable than your phoenix feathers. We have already been plucked clean, yet you still want to keep your hair?"

Feng Qiuyun ignored him and handed the phoenix feather to Qin Mu.

Qin Mu consoled him, "It's almost done, it's really almost done."

Feng Qiuyun said, "That's what you said when you plucked out the dragon scales of the third Dragon Count."

Qin Mu said with a smile, "It's different this time, I'm really about to succeed."

Boom—

Wei Suifeng shook his sleeves, and a seven-colored sun appeared in the sky. Feng Qiuyun raised her head to look at the colorful sun with a bitter expression.

The phoenix feathers on her body gradually decreased. Unknowingly, half of them were pulled out by her and handed over to Qin Mu for experimentation. However, it was still the same as before. Qin Mu's previous experiments had always been very smooth, but they always failed at the last moment, causing the phoenix feathers to reverse and explode on the spot.

Every time Qin Mu's experiment failed, he would spend more time thinking.

Unknowingly, another half a month had passed. Even Wei Suifeng was tortured by him until he had no temper. He couldn't help but feel despair, but he forced himself to endure.

As the famous Emperor of Endless Clouds, he had experienced many storms and witnessed the rise and fall of countless heroes. He knew very well that what destroyed him was not the external factors, but his Dao heart.

There were many heroes whose Dao hearts collapsed from defeat, never to rise again.

Even though he understood this logic, he still couldn't help but feel despair when things came to a head.

"Yet junior brother seems to have always maintained his original intention. Logically speaking, failure after failure has the greatest impact on him, yet he seems to be fine... No, he should be a heartless person, as though he didn't suffer any setbacks!"

He was puzzled, but he was also full of admiration for Qin Mu. 'To fight to the bitter end, this might be the reason why he could be honored as Celestial Venerable Mu. It's also why I'm inferior to him.'

Suddenly, Qin Mu said calmly, "Success."

Everyone became excited and hurriedly looked at Qin Mu's hand. He was indeed holding a complete phoenix feather!

Qin Mu gently shook his phoenix feathers, and they shone with seven-colored light. They sparkled with dazzling divine light and had their own divine power.

Qin Mu didn't seem to be excited at all, but the light in his body gradually became brighter. However, it was soon suppressed by him.

"Everyone, calm down."

Qin Mu consoled everyone and said, "Be careful of the explosion. Sister Qiuyun, I still need to test a few more times to stabilize the success rate."

Feng Qiuyun gritted her teeth and plucked out another dozen feathers. She asked hurriedly, "Is that enough?"

Qin Mu had a troubled expression and said, "Just using the Taiji Divine Stone as an experiment should be enough. Even if there's a failure, the chances of failure aren't high. However, I still need to use the Taiji Origin Stone as an experiment. The power of the Taiji Origin Stone is much stronger than the Taiji Divine Stone, therefore..."

Feng Qiuyun was expressionless as she plucked out a hundred feathers and gave them all to him. She turned to leave and said indifferently, "I'll find a piece of clothing to cover my body. When you succeed in your experiment, call me."

Qin Mu nodded and put away the phoenix feathers.

Wei Suifeng whispered, "Junior Brother, are we not going to use phoenix feathers? I think we can use our hair to experiment."

“Shit! I forgot!” Qin Mu exclaimed.

Far away, Feng Qiuyun stumbled and fell to the ground. She then got up and left without looking back.

Qin Mu used the Taiji Divine Stone to experiment over ten times and finally stabilized the success rate. He then took out the Taiji Origin Stone and continued to try using it.

The path of yin and yang transformation contained in the Tai Chu Origin Stone was even more complicated, and understanding was even harder. Qin Mu had experienced dozens of failures, and after every failure, he had to summarize and comprehend the path of yin and yang transformation from the Grand Primordium Origin Stone.

Even though he hadn't succeeded yet, his understanding of the path of taiji was even deeper and his comprehension was even deeper.

“It's a pity I can't enter the path in the dream and use the world in the dream to deduce the path of taiji. Otherwise, it wouldn't take long for me to completely comprehend the logic contained in this taiji stone.”

Qin Mu sighed to himself. There were many profound truths in the Grand Primordium Origin Stone. It wasn't as simple as the conversion of quality energy. It also included the evolution of the Great Dao, which was profound and mysterious. It wasn't something he could solve in a short time.

However, by using the Taiji Origin Stone to change its quality energy, he already had an eighty to ninety percent chance of success.

Using the Grand Primordium Divine Stone to transform everyone's energy bodies into living beings was enough for him to be completely confident. However, the Grand Primordium Divine Stone could only restore everyone's corporeal bodies and divine power, but it couldn't restore everyone's Dao techniques.

However, the Taiji Origin Stone was different.

Using the Taiji Origin Stone to transform could allow everyone to recover to their most perfect state, even becoming stronger and more perfect than before!

Of course, the fur and scales of a person who had all their hair and scales plucked out couldn't be recovered. They could only grow out by themselves.

Qin Mu used the remaining phoenix feathers to continue experimenting and finally succeeded. After the recovery of the Tai Chu Origin Stone, this phoenix feather shone with a seven-colored brilliance. The divine power inside was abundant, and it was even filled with the Dao runes of the phoenix race!

Qin Mu gently waved his phoenix feathers, and seven-colored light shone. With a whoosh, the huge mountain in front of him shattered!

‘This phoenix feather is even stronger than Feng Qiuyun's original feather!’

He nodded gently. Wei Suifeng, King Dragon Count, and the rest looked at him expectantly, waiting for him to speak.

Qin Mu continued to experiment and strived to succeed every time.

Unknowingly, he experimented with the remaining phoenix feathers, and the success rate became higher. There was rarely any possibility of failure. Only then did he let out a sigh of relief and said with a smile, "Everyone, I can recover everyone."

Feng Qiuyun walked over with an excited expression.

Qin Mu muttered to himself for a moment and threw a glance at Wei Suifeng. Wei Suifeng understood and said, "Recover a few soldiers of the Feathered Forest Guards first so that we don't fail. After that, we'll be restored."

Qin Mu said with a smile, "These few soldiers of the Feathered Forest Guards sacrificed themselves for righteousness, it's admirable."

Feng Qiuyun and King Dragon Count knew that the reason why Qin Mu and Wei Suifeng said that was because they were worried that the two of them would rebel and take the chance to kill everyone.

The officers and soldiers of the Feathered Forest Guards were different. The Feathered Forest Guards only listened to the orders of their commander. Wei Suifeng was their commander, the leader in their hearts, and he had long subdued them.

Their loyalty to Wei Suifeng even surpassed their loyalty to Celestial Emperor!

Wei Suifeng summoned a few soldiers over, and Qin Mu immediately executed the Grand Primordium Origin Stone. The energy in the body of the first Feathered Forest Guards soldier gradually transformed into a heart, and a heart slowly formed.

It was a divine heart!

Blood vessels spread out in all directions in the heart of the god, covering every part of his body. With these blood vessels, his bones and organs were also slowly forming!

When they came to the places where all the great divine treasures were, divine treasures were actually being formed!

Suddenly, Wei Suifeng cried out in astonishment. He saw that the Divine Bridge Divine Treasure of this Feathered Forest Guards soldier hadn't been restored. Instead, it had transformed into a Celestial River Divine Treasure!

"Junior brother is modifying him! This fellow is still so daring, what if he makes a mistake?"

Chapter 1197 – Modifying The Divine Treasure

The soldiers of the Feathered Forest Guards transformed into energy bodies, and everything in their bodies was energy without a corporeal body. Now was the most convenient time to transform his Divine Bridge Divine Treasure.

Thus, Qin Mu immediately started to modify it.

However, this was also extremely dangerous. Qin Mu had never tried to modify other people's divine treasures before.

From Qin Mu's previous experiment to transform the phoenix feather and dragon scales, the chances of failure were extremely high!

The previous failure had only resulted in the loss of phoenix feathers or dragon scales. Now that they had failed, the loss was the lives of the Feathered Forest Guards!

However, Qin Mu felt that he had full confidence.

He didn't have any confidence in transforming the celestial palaces for others because the celestial palaces had different attributes, and the attributes of the different techniques and celestial palaces were different.

However, he was one of the earliest founders of the Celestial River Divine Treasure. He might not be as early as Xu Shenghua, but Qin Mu had made dozens of mistakes in order to open up the Celestial River Divine Treasure. He had a deeper understanding of the seventh divine treasure of the human body than anyone else!

He was very confident in transforming the seventh divine treasure of the Feathered Forest Guards.

Wei Suifeng was extremely anxious, but he didn't dare to disturb him. He watched him reconstruct the corporeal bodies, primordial spirits, and even souls of the Feathered Forest Guards bit by bit.

Not long later, Qin Mu used the path of evolution of the yin and yang qi and used the power of the Grand Primordium Origin Stone to reconstruct this soldier of the Feathered Forest Guards!

Qin Mu let out a sigh of relief, and the rest were also full of joy and encouragement.

"Junior Brother, the next soldier of the Feathered Forest Guards mustn't modify his divine treasures!" Wei Suifeng suddenly said.

Qin Mu was astonished. "Senior brother, when the Feathered Forest Guards return to the future, they definitely won't be able to return to the celestial heavens. They can only merge into Eternal Peace. The technique they cultivate is too ancient, and opening the celestial heavens is also extremely difficult. Not everyone can do it."

He smiled and said, "There are only one in ten thousand divine arts practitioners who can destroy the Divine Bridge Divine Treasure and open up the Celestial River Divine Treasure! I shall take this chance to reconstruct their seventh divine treasure. Their future achievements will be limitless!"

Wei Suifeng shook his head and said, “Junior Brother, the soldiers under my command are more than one in ten thousand. One in a hundred million is a small number. During the Dragon Han Era, the Ninth Celestial Venerable established the realm of divine treasures and celestial palaces. The divine treasures and celestial palaces were all opened up by himself, and they rarely inherited it. Especially the ten guards of the celestial heavens, they relied on their own abilities to open up divine treasures and celestial palaces. It’s very dangerous for you to help them reconstruct their seventh divine treasure. When they reach Eternal Peace, they can completely destroy the divine bridge and open up the celestial river.”

Qin Mu’s eyes shone as he stared at the fifty thousand Feathered Forest Guards.

The Dragon Han Celestial Heavens had selected the ten guards of the celestial heavens for hundreds of thousands of years, and they were all elites among elites. The cultivation of every soldier of the Feathered Forest Guards was extremely high, and they were basically all in the Jade Capital Realm!

Furthermore, these fellows had relied on their own abilities to open up their divine treasures and celestial palaces. With such talent, even in Eternal Peace, they wouldn’t be able to gather fifty thousand of such existences!

What kind of monster was this? What kind of heaven-defying existence was this?

Of course, the reforms of Eternal Peace had lasted for too short a period of time. Even though all kinds of geniuses had emerged, the time was too short and the foundation was too little. It was hard to see anything.

“Senior brother, can you guarantee that every Feathered Forest Guards will be loyal to you?” Qin Mu asked quietly.

Wei Suifeng said indifferently, “I couldn’t guarantee it in the past, but after they were assimilated by the ghost ship, I’m sure they won’t be loyal to Celestial Emperor anymore. I’ll assimilate with them, and in their hearts, I’ll be their leader.”

Qin Mu revealed a smile and continued to transform the quality of the Feathered Forest Guards, transforming them from energy into corporeal bodies.

He became more proficient, and soon, he restored the hundred Feathered Forest Guards.

Qin Mu looked at Wei Suifeng, and Wei Suifeng understood what he meant and stepped forward. Even though Feng Qiuyun and King Dragon Count knew their place, they might not submit to him wholeheartedly. They had to have strong practitioners like Wei Suifeng and the Feathered Forest Guards to intimidate them so that they wouldn’t dare to move.

Wei Suifeng was too strong, and it was much harder for him to recover than others. Qin Mu had to put in a lot of effort to barely recover him from his energy state.

“Junior Brother, you should recover first. Your condition is very unstable. If you continue to exhaust yourself like this, you won’t be able to cultivate and replenish your vital qi. Sooner or later, your cultivation will be exhausted,” Wei Suifeng said.

Qin Mu nodded his head.

The energy body was indeed very dangerous, and the slightest carelessness would cause it to explode. Furthermore, activating the Taiji Origin Stone required the energy in his body to be exhausted. If he couldn't cultivate, he could indeed exhaust all of his energy and be unable to revive.

He rested for a moment and started to recover.

When the Grand Primordium Origin Stone was activated, Qin Mu's heart suddenly stirred, and his thoughts became active. 'Big Senior Brother doesn't want me to transform his comrades, so I can still transform myself!'

His eyes lit up, and when Wei Suifeng saw this, he couldn't help but worry that the kid's eyeballs would suddenly explode and send his skull flying.

"Junior Brother, stop tormenting yourself."

Wei Suifeng said earnestly, "I'm not worried about other people, but I'm worried that you're courting death and messing around."

Qin Mu smiled. "Don't worry, senior brother, I know what I'm doing."

"No way!"

Wei Suifeng was flustered and exasperated, and he said angrily, "When have you ever known your limits? Not only are you torturing others to death, you're also torturing yourself to death! You should just obediently recover yourself and stop messing around!"

Qin Mu nodded his head repeatedly and thought to himself, 'My cultivation system is different from others. I only have the Spirit Embryo Divine Treasure, and the seven realms of the celestial heavens are just a small realm. In terms of realms, I don't have much space to change. However, the system of Dao Realm that Founding Emperor created requires one's own comprehension, and it can't be cultivated by relying on quality. What I can change now is the Spirit Embryo Divine Treasure.'

His eyes were shining again, and Wei Suifeng's heart was pounding.

'When I opened up my Spirit Embryo Divine Treasure, I didn't have a deep understanding of the path of yin and yang evolution, therefore, I was greatly lacking. This time, after reconstructing my corporeal body and primordial spirit, I can try to incorporate my comprehension into my Spirit Embryo Divine Treasure. Other than that, it's the Tai Su Dao!'

Qin Mu thought to himself, 'The Tai Su, the beginning of the substance. It has form but no substance. It has form but has yet to form a body, therefore, it can transform into thousands of things. However, my understanding of the Great Dao of Tai Su isn't deep enough... What if I can fuse the egg liquid of the Tai Su Divine Egg into my body?'

He then shook his head, and his eyes dimmed.

Wei Suifeng let out a sigh of relief.

“The Tai Su egg liquid can only be catalyzed by Tai Su divine stone. If I forcefully fuse it, I’m afraid I will become a pool of egg liquid and be eaten by others.”

Qin Mu had another idea. ‘If I break the runes of the Dao of Tai Shi, I can add them into this qualitative change! That’s right, there are also the runes of the Great Dao on the eggshell of Celestial Emperor Tai Chu. Even though I don’t know much, I can copy them down and imprint them into my Spirit Embryo Divine Treasure. This is still possible!’

He became excited again, and his eyes became brighter. Wei Suifeng became worried again.

Qin Mu walked around the Taiji Origin Stone and thought to himself, ‘I can also incorporate the Tai Yi Chaotic Eggshell into my Spirit Embryo Divine Treasure and use these two halves of the eggshell as the cornerstone of my Spirit Embryo Divine Treasure! That’s right! I should forge my Spirit Embryo Divine Treasure according to the standards of the ancestral court and not based on the universe’s dry kun! I’ll use the taiji diagram as the center point and expand to both sides... No, I should use the huge black wood and the hundred thousand mountains as the center point!’

The more he thought about it, the more excited he became. Wei Suifeng immediately shouted, “Junior Brother, calm down! Your eyeballs are about to explode!”

Qin Mu hurriedly composed himself and calmed himself down. He thought to himself, ‘The one hundred thousand black mountains are the divine tree that connected the sixteen universes together. I might be able to use the big black tree to recreate the divine tree in my Spirit Embryo Divine Treasure! I can also use the five precelestial paths to transform into the five great ancient mines in my Spirit Embryo Divine Treasure! That’s right, let’s do this!’

Chapter 1198 – One Tendon

Wei Suifeng saw how excited his junior brother was, but he suddenly quieted down. He knew that his junior brother was done for.

“He must have come up with some rotten idea and decided to be stubborn, the kind that ten thousand Kui Dragons can’t pull back.”

Wei Suifeng lamented in his heart, ‘Teacher even said that my temper is stubborn, that I don’t have a brain in my head, that there’s a ball of stubborn tendons inside, and that my actions are extreme. However, how can I be compared to Second Junior Brother? Not only is his brain filled with stubborn tendons, his entire person is a stubborn tendon!’

Qin Mu immediately started to carry out his plan. However, transforming himself this time was an extremely grand project.

He could only calm his heart down and slowly comprehend the Tai Shi egg of Tai Chu and the Dao of Tai Su. He recorded all kinds of Great Dao runes that he didn’t understand.

As for the Chaotic Mine and the Dao of Tai Yi, Qin Mu decided to ignore them. He buried Tai Yi's eggshell in his divine treasure, not caring if a Chaotic Mine would be born.

He made detailed plans and designs. When he was done, Celestial Venerable Yue finally returned and was in a hurry to visit them. Before she could say anything, a maid came over and said, "Celestial Venerable, Celestial Venerable Huo is here to visit."

Celestial Venerable Yue was astonished. "What is Celestial Venerable Huo doing here?"

She frowned deeply and said to Qin Mu, "Celestial Venerable Huo was one of the people who surrounded Celestial Venerable Yun back then. I hated him for a long time, and it was also because of him that I retired and lived in seclusion for more than a hundred thousand years. However, it was Celestial Venerable Huo who persuaded me to come out of seclusion back then."

Qin Mu said resolutely, "Celestial Venerable Huo can't be trusted!"

Celestial Venerable Yue smiled. "Don't worry, I know what I'm doing. I'm also wary of Celestial Venerable Huo. However, among the eight Celestial Venerables of the human race, Celestial Venerable Yu and Celestial Venerable Yun are dead. Celestial Venerable Qin and Celestial Venerable Mu are in the future, and Celestial Venerable You has retired from Youdu, leaving only Celestial Venerable Ling, Celestial Venerable Huo, and me. If we don't work for the human race, no one will work for the human race."

She got up and left.

.....

Qin Mu couldn't help becoming anxious. The energy in his body became unstable, and his body became brighter.

Suddenly, Wei Suifeng pressed down on his shoulder and said solemnly, "Junior Brother, the past can only be recalled, but the future can still be done. History is history. You can participate in it, but you can't change it. What you should do now is to maintain your heart. Don't be impatient, do what you can to the best of your abilities without any mistakes."

Qin Mu took in a deep breath and calmed his chaotic heart. "You're right, you're right..."

He calmed down again and checked the plans he had made.

He had to seize this chance to transform into an energy body and perfect his Spirit Embryo Divine Treasure.

He checked a few more times and didn't find any mistakes. Only then did he activate the Taiji Origin Stone and slowly transform his Spirit Embryo Divine Treasure.

Not long later, Celestial Venerable Yue returned and saw Qin Mu recovering his corporeal body. She didn't dare to disturb him and was about to leave when Wei Suifeng came forward and asked, "Celestial Venerable, why has Celestial Venerable Huo come to find you?"

Celestial Venerable Yue hesitated for a moment and said, "Celestial Venerable Huo didn't let me say it out, but it shouldn't be a big deal to tell you. He's here for Mother Earth."

Wei Suifeng was astonished. "Mother Earth?"

"Celestial Venerable Huo means that as long as Mother Earth is around, the human race of the Primordial Realm won't be safe. The reason why North High Emperor is so cruel is because he has the backing of Mother Earth."

Celestial Venerable Yue said, "He wants to work with me to do something for the human race and get rid of Mother Earth."

Wei Suifeng frowned.

Celestial Venerable Yue said with a smile, "Although Celestial Venerable Huo is helping Celestial Venerable Hao, his character isn't bad. He abhors evil and hates the ancient gods. If it was to get rid of the ancient gods, he would be the first to rush to the front."

"After getting rid of the strong practitioners of the human race, he is also the first to rush to the front." Suddenly, Qin Mu's voice rang out.

Celestial Venerable Yue hurriedly looked at him and saw that Qin Mu's body was still an energy body. Only his head had grown out.

The first reason he had recovered his head was to open up his Spirit Embryo Divine Treasure. His spirit embryo was currently in the process of forming.

Celestial Venerable Yue said with a smile, "Mu, you look weird now. There's a huge head on the light, so it's best not to be distracted and cultivate harder. Celestial Venerable Huo's matter should be relatively stable, because other than Celestial Venerable Huo, our human race has another strong practitioner."

She was very happy. "This person is Celestial Venerable Yun's proud disciple, Xiao Weisu! He has already grown to become the strongest existence in the world, and he is also the first High Emperor."

Qin Mu frowned deeply. Xiao Weisu, the future Celestial Venerable Xiao, was the reincarnation of the ancient Celestial Emperor!

If Celestial Venerable Huo still had a shred of conscience to consider the human race, then Xiao Weisu was truly harboring evil intentions!

"Junior Brother!"

Wei Suifeng's expression suddenly changed, and he shouted, "Don't be distracted!"

Qin Mu was alarmed and immediately realized that he had almost failed to open his divine treasures when he was distracted. He hurriedly restrained his thoughts.

Celestial Venerable Yue saw that he was still in danger and hurriedly said, "Continue with your work. I'll go and discuss with Sister Ling and the other human experts. Celestial Venerable Huo and Xiao Weisu are still urging us to make a move..."

"Hold on."

Qin Mu called her back and said, "Even though I can't be distracted, I have at least recovered some consciousness cultivation. Yue, I'm proficient in entering the path through dreams..."

Celestial Venerable Yue was astonished. "Isn't this the ability of the great monk?"

Qin Mu said, "I'm still different from him using dreams to enter the path. When he enters the path in his dream, reality is his dream. When he experiences reality in his dream, he experiences the mortal world and sharpens his Dao heart. When I enter the path with dreams, it's a divine art of deduction. It's to simulate reality in a dream and find the best solution from thousands of possibilities."

Celestial Venerable Yue was about to speak when the world around her gradually changed. Qin Mu walked towards her.

She was astonished to see that Qin Mu's corporeal body had already recovered. He was handsome and full of wisdom.

The divine light behind his head was like a wheel, and his body was tall and sturdy.

"The me in your eyes isn't the real me."

That Qin Mu opened his mouth, and his voice became filled with magnetism and charm. "It's the me in your imagination. I might be different from the real me. This is already your dream."

Celestial Venerable Yue blushed slightly.

Qin Mu continued, "This is your dream. Even though my abilities have yet to recover, I can help you achieve your deduction in your dream. Look."

He waved his hand gently, and Celestial Venerable Yue saw the Primordial Tree and Mother Earth under it.

Mother Earth wasn't the only one. There were others, including Celestial Venerable Ling, Xiao Weisu, Celestial Venerable Huo, and his other self.

Right at this moment, she saw herself vanishing into another body.

They were currently attacking Mother Earth, and the situation was extremely fierce. All kinds of divine arts and divine weapons emerged endlessly.

Celestial Venerable Yue looked at those divine arts and saw that everyone's divine arts had also changed. Some divine arts were even ultimate arts that these people didn't reveal to the outside world!

She even had a feeling that she was experiencing the same thing. She was in a dream and seemed to have personally participated in this battle.

"No!"

Celestial Venerable Yue smiled and said, "High Emperor is also an expert, and there's also Dao Ancestor and the great monk. They are even experts!"

Just as she said that, the figures of High Emperor, Dao Ancestor, Brahma, and the rest appeared, but they were blocked by North Emperor Celestial Heavens.

There were numerous strong practitioners in the North High Emperor Celestial Heavens, and most of them were half-gods with terrifying abilities.

Even with so many strong practitioners working together and paying a huge price, they still couldn't get rid of Mother Earth.

This battle ended with everyone being heavily injured. Even though Mother Earth's injuries were extremely severe, she was still Mother Earth, so her injuries healed very quickly.

The result of this battle was that Celestial Venerable Huo died in battle, Celestial Venerable Ling died in battle, and Celestial Venerable Xiao escaped. Only Celestial Venerable Yue escaped unscathed.

Far away, Celestial Venerable Yue stood beside Qin Mu and looked at this scene in a daze.

"History can't be redone, but dreams can."

Qin Mu said softly, "Now, return to the place where the dream started."

The tragic scene changed, and Celestial Venerable Yue experienced this battle again. She was still Celestial Venerable Yue, working together with Celestial Venerable Ling, Celestial Venerable Huo, Xiao Weisu, and the rest to try and get rid of Mother Earth.

Chapter 1199 – Two Paintings

In this battle, Celestial Venerable Yue absorbed the experience from the previous battle and no longer fought alone. Instead, she cooperated with Celestial Venerable Ling, Celestial Venerable Huo, and Xiao Weisu.

She had astonishing attainments in the path of space, and no one could surpass her. No matter if it was used for battle or to coordinate with others, the art of space could play an extremely crucial role.

In the previous battle, the four of them didn't work together. However, in this battle, with Celestial Venerable Yue deploying everyone, the threat they posed to Mother Earth increased exponentially.

Mother Earth was severely injured. Just as everyone was about to take her life, her injuries suddenly healed. She pulled out her roots and fought them to the death.

In the end, Ling, Huo, and Xiao were all killed in this battle. Only Celestial Venerable Yue escaped unscathed.

“Scoundrel!”

Celestial Venerable Yue returned to Qin Mu’s side and said angrily, “This is clearly helplessness! How can there be a reason for a sudden recovery?”

“Mother Earth can.”

Qin Mu said, “Mother Earth is rooted in the ground, and her roots are all over the Primordial Realm. Almost every place has her roots. She can absorb nutrients from all parts of the Primordial Realm in an instant. Furthermore, she also uses primordial liquid. If she consumes it, she can instantly recover to her peak state!”

Celestial Venerable Yue held back her anger and said, “It’s really not easy to get rid of Mother Earth. Let me think about it.”

She pondered for a long time before saying resolutely, “One more time!”

This time, Celestial Venerable Yue separated the land of the Primordial Realm from the Primordial Tree, preventing the roots of Mother Earth from connecting to the Primordial Tree. She also assisted in the attacks of others, changing the space and allowing everyone to attack Mother Earth from all directions, appearing and disappearing unpredictably.

.....

In this battle, they had finally killed Mother Earth.

The four of them let out sighs of relief. At that moment, Celestial Venerable Ling’s head suddenly exploded, and Celestial Venerable Yue felt a chill in her heart. She hurriedly executed her space technique to avoid it.

She turned back to look. Celestial Venerable Huo had punched Celestial Venerable Ling in the head, and Xiao Weisu was holding a divine sword. He was the one who had tried to assassinate her.

The dream realm was destroyed.

“Celestial Venerable Mu!”

Celestial Venerable Yue returned to Qin Mu’s side and went to settle the score with him in a towering rage. She said angrily, “It’s fine if Mother Earth was able to recover instantly from her severe injuries, but why did Celestial Venerable Huo and Xiao Weisu kill us? Today, you have to be reasonable!”

Qin Mu's expression was gentle, and his gaze was gentle as he looked into her eyes. He said softly, "Yue, this is your dream realm. I'm only letting your dream realm circulate, I'm not interfering with your dream realm. What you are thinking will be reflected in the dream realm. Isn't Celestial Venerable Huo and Xiao Weisu's idea of killing you the same?"

Celestial Venerable Yue was mesmerized by his gaze, and she nodded repeatedly. Her voice became much gentler as she said, "I forgot that you are also the you I imagined. Handsome, handsome, gentle, much prettier than the real you."

Qin Mu looked at her with a smile and said, "However, the real me isn't as beautiful and tall as you."

Celestial Venerable Yue's heart pounded, and she was a little shy. She rolled her eyes at him and chuckled. "The you in my heart is still very similar to the real you. However, after you disappeared for so many years, my memory of you is becoming more blurry, so I don't look like you anymore. Don't you know how to paint? When you're better, paint me a painting of you. That way, I won't remember you as handsome."

She roused her spirit and another dream came.

At the end of this battle, Celestial Venerable Yue blocked Xiao Weisu's sneak attack, but on the other side, Celestial Venerable Huo killed Celestial Venerable Ling.

"Can I tell Celestial Venerable Ling that Celestial Venerable Huo and the rest are up to no good?" Celestial Venerable Yue returned to Qin Mu's side and asked.

Qin Mu nodded. "Sure."

Another dream.

Celestial Venerable Yue avoided Xiao Weisu's sword while Celestial Venerable Ling avoided Celestial Venerable Huo's fist. The two girls had just stabilized themselves when Celestial Venerable Hao, God Emperor Lang Xuan, Ancestral God King, and the rest suddenly appeared.

Celestial Venerable Yue watched this scene in despair. In the end, she was the one who escaped, while Celestial Venerable Ling was still killed by Celestial Venerable Hao, Celestial Venerable Huo, and the rest.

Celestial Venerable Yue returned to Qin Mu's side. This time, she didn't ask Qin Mu why Celestial Venerable Hao and the rest would appear so coincidentally. Instead, she fell into deep thought.

Qin Mu didn't disturb her and let her think hard.

After some time, Celestial Venerable Yue smiled again. "Let's try again!"

This time, Celestial Venerable Ling was still dead, and she was the only one who had escaped.

She was a Heavenly Venerate that controlled the Dao of Space. It was simply too difficult to kill her.

“One more time!” Celestial Venerable Yue’s voice trembled as she forced herself to remain calm.

However, it was the same result. She couldn’t change the outcome of Celestial Venerable Ling’s death. No matter how many times she tried, after killing Mother Earth, Celestial Venerable Ling would still die under the attacks of everyone.

She experimented again and failed again, unable to save Celestial Venerable Ling.

“Let’s try again,” she said to Qin Mu with a slightly hoarse voice.

...

This time, she didn’t save him. Instead, she did her best to execute her divine art to send Celestial Venerable Ling away.

Her space divine art was marvelous. No matter how Celestial Venerable Hao, Lang Xuan, Ancestral God King, and the rest tried to stop her, they couldn’t stop her.

However, Celestial Venerable Ling was sent away while Celestial Venerable Yue was in danger. When she was escaping, Xiao Weisu’s sword sliced across her waist, and Celestial Venerable Huo’s fist landed on her face. Celestial Venerable Hao’s seal was imprinted on the back of her heart.

Lang Xuan’s consciousness bombarded her, causing her consciousness to become blurry. Ancestral God King’s attack shattered her skull.

“This result is already very good.”

Celestial Venerable Yue woke up from her dream and experimented again. After sending Celestial Venerable Ling away, she couldn’t avoid death. However, later on, she couldn’t avoid being severely injured, but she could still preserve her life. However, no matter how hard she tried, her legs would always be crippled by Xiao Weisu.

Her face would inevitably be destroyed by Celestial Venerable Huo.

“This is just my dream, all of this might not happen.”

She smiled at Qin Mu. “Let’s leave it at that. No matter what, Mother Earth must die! Mu, is this really a dream realm?”

Qin Mu nodded.

Celestial Venerable Yue suddenly tip-toed and planted a kiss on his face. She then ran away in embarrassment and giggled. “It’s just a dream anyway. Kissing a lover in a dream is nothing!”

She stopped and turned to look at him. “Celestial Venerable Mu is a great painter. Can you paint my current appearance? I want to imprint my current appearance in my mind so that I won’t forget when I become ugly in the future.”

Qin Mu raised his brush, and under the moonlight, the lady looked a little shy from secretly kissing her lover.

Qin Mu drew this scene.

This scene was exactly the same as the painting Celestial Venerable Yue had given him. The scenery in the painting was like a dream, and they were currently in Celestial Venerable Yue's dream.

Celestial Venerable Yue quietly ran to his side and looked at her in the painting. Her beautiful hair hung down, and she was as quiet and charming as the moon. However, there was a hint of shyness at the corner of her mouth.

Chapter 1200 – Dreamlike Fantasy

Celestial Venerable Yue was delighted. She saw that Qin Mu was painting very seriously, and he even stamped his seal as though he was painting.

“Man, this is a dream and not reality. Are you afraid that I will run away from the painting?” Celestial Venerable Yue snatched the painting over and rolled it up happily.

To her, this painting was the imprint of a dream, so she naturally couldn't take it from reality.

In the future, if she was really disfigured and became ugly, she could also take out this painting in her dreams to recall her appearance back then.

Qin Mu smiled and continued to paint. He drew the second painting of Celestial Venerable Yue and didn't tell her the truth.

There were some things that Celestial Venerable Yue would do no matter what. He couldn't stop Celestial Venerable Yue from killing Mother Earth.

For this girl to be able to support the High Emperor Era for three hundred thousand years, she had her own thoughts and opinions. Mother Earth had done meritorious service to the Primordial Realm, but she had also caused great trouble.

During the three hundred thousand years of battle between the North and South High Emperors, all lives suffered. Mother Earth had to die no matter what.

Whether or not Celestial Venerable Huo had suggested it, she would do it. Celestial Venerable Yue was such a person.

What Qin Mu could do was to leave hope for her future.

“I'll keep this painting.”

Qin Mu smiled. “One is imprinted in your heart, and the other is imprinted in my heart.”

Celestial Venerable Yue blushed and smiled. "Luckily it was in my dream. Otherwise, I would have thought you were teasing me."

Qin Mu laughed loudly.

Celestial Venerable Yue said in a low voice, "If this was a dream, everything that happened here would be beautiful memories."

Qin Mu seemed to not understand the meaning in her words and said, "Dreams are dreams after all, and you still have to wake up. Yue, look into my eyes."

Celestial Venerable Yue raised her head to look at him, her eyes were like limpid autumn waters. She slowly closed her eyes again.

However, she didn't receive a reply from Qin Mu for a long time. She secretly opened her eyes and realized that she was standing beside Qin Mu. Wei Suifeng was lecturing the Feathered Forest Guards from afar. King Dragon Count had brought seven Dragon Counts, and the remaining eight Dragon Counts were all stripped bare. They looked down and had no desires.

Qin Mu was still trying his best to execute the Taiji Origin Stone to recover his corporeal body. Everything was just her dream.

"It's a pity it's a dream..."

Celestial Venerable Yue was depressed. Suddenly, she saw the painting scroll in her hand, and she was shocked and embarrassed. She hurriedly unfurled the painting, but she saw that she had the shyness of a young girl in the painting, and the moon was round above her head.

Celestial Venerable Yue rolled up the painting and looked at Qin Mu. He was still trying his best to recover his corporeal body, and there was another painting beside him.

The world in front of her seemed to change from black and white to dazzling and colorful.

Celestial Venerable Yue left with the painting. This painting wasn't just a mark of her appearance, it was also a form of attachment.

Even though she was a Celestial Venerable, she was also a woman, and her emotions made her slightly drunk. However, when she came to the outside world, she quickly threw these feelings to the back of her mind.

She could see the deeper meaning behind Qin Mu letting her experience those dreams, but no matter what, she had to get rid of Mother Earth. She couldn't tolerate Mother Earth continuing to prey on the people of the Primordial Realm.

"In this battle, the worst outcome would be for me to break my legs and destroy my face. However, in exchange, Mother Earth would be beheaded and no longer cause any trouble."

She revealed a smile. "It's worth it. Sister Ling is the most important. As long as she's still alive, there will be a chance and hope for everything."

She walked towards the High Emperor Celestial Heavens with light steps, her heart full of fervor. 'As long as Sister Ling is here, with her divine art, no one in this world will be her match. As for Yue'er, Celestial Venerable Yue, she's just Sister Ling's little sister, just her shadow...'

Qin Mu gradually recovered his corporeal body, and his Spirit Embryo Divine Treasure was constructed according to his expectations.

He quietly put away Celestial Venerable Yue's painting.

This time, he was an energy body, and even Celestial Venerable Yue's portrait was for pure energy. He didn't hesitate to lose a portion of his energy to draw these two paintings.

One of the paintings would be brought to this era and transformed into an energy body with him.

As for the other painting, Qin Mu treasured it. In the future, he would use this painting to restore Celestial Venerable Yue's appearance.

The most important thing now was to fulfill his promise and restore the corporeal body and primordial spirit of the Feathered Forest Guards.

After experiencing this upheaval, he had recovered his corporeal body and was even stronger than before. The divine treasures that he had reassembled contained all kinds of strange power. The most peculiar thing was the Spirit Embryo Divine Treasure that he had reopened. According to the standard of the ancestral court, the marvel contained within was something that even Qin Mu couldn't imagine.

This was especially true for the five mines. The power of taiji, the power of absolute beginning, the power of taiji, and the power of primordial beginning had all begun to show signs of progress. Only the Chaotic Qi pervaded the mine, but no power was revealed.

Other than that, he used the ancestral court as the center of the Spirit Embryo Divine Treasure and used it as the origin. He opened up the universe of the Spirit Embryo Divine Treasure, established the Primordial Realm, opened up Xuandu, opened Youdu, and erected the four poles. The celestial river originated from the Jade Pool of the ancestral court and passed through Xuandu to the four poles. From Yuandu to Youdu, he entered the Ruins of End.

He then returned the Jade Pool from the Ruins of End, forming a huge cycle.

The celestial river was formed by vital qi, and the circulation path of the celestial river was the circulation path of Overlord Body Three Elixir Technique!

As for the places where the vital qi flowed, such as the spirit embryo under the divine tree, the Heaven Duke of Xuandu, the four deities of the four poles, Mother Earth of Yuandu, Earth Count Youdu, the Twin Lotus of the Ruins of End, and the ancient gods of the stars and constellations in the other forests, all of them had different paths of vital qi circulation that followed the Great Dao of the ancient gods in these places.

At this point, Qin Mu felt that this circulation system was close to perfection!

“If we are separated by realms, the ancestral court’s spirit embryo is the first realm, Xuandu is the second realm, Heavenly Cycle Star God is the third realm, and the four poles are the four small realms. Mother Earth of Yuandu is the fifth realm, Youdu Earth Count is the sixth realm, and the Ruins of End are the seventh realm.”

Qin Mu opened his eyes and thought to himself, ‘These seven realms are the Seven Realms of the Divine Treasures. After cultivating a perfect cycle, it will be the Celestial Heavens Realm. After the Celestial Heavens Realm, it should be the power to develop the five great mines of the ancestral court...’

His eyes became brighter, and he felt that he had found an extraordinary path!

This path was even more perfect than the current system of divine treasures and celestial palaces. It was even more complete than the system of Dao Realm!

Furthermore, at the end of this path, he saw the five great realms of Taiji, Tai Su, Tai Shi, Tai Chu, and Tai Yi!

Currently, he was the only one on this path, but after his realm was established, the future generations only needed to cultivate along this path, and they might even reach the peak!

It was true that Qin Mu’s path was extremely difficult to cultivate, but with the appearance of the ancestral court, there would be people who would realize the benefits of this path and the unreasonable systems of the divine treasures system and celestial palaces. There would still be people who would come to his path and walk forward diligently!

In the past, his path was too difficult, but now, this path had the possibility of others stepping on it!

He stood up and walked towards the Feathered Forest Guards.
