

Tales of Herding Gods Chapter 1231-1235

Chapter 1231 – The World Is Peaceful

However, in the next moment, Jiushang Yin actually brought the Reincarnation Bell into the Great Void's Youdu, and the bell went straight for Qin Mu.

Qin Mu unleashed his divine treasure realm and was once again shaken into a huge eyeball. He grew legs and started running. He ran from Youdu into the Land of the Great Void and towards the opening of the city wall.

Jiushang Yin followed closely behind and threw out the Reincarnation Bell. The huge bell spun and blocked the opening of the city wall with a clang!

“Hahahaha—”

Laughter came from the huge eyeball, and it went straight for the huge bell. Soon, it grew into a complete Qin Mu. He opened his arms to hug the Reincarnation Bell, but a shadow flashed, and the headless body of Jiushang Yin had already landed on the bell nose. His clothes fluttered in the wind.

“Celestial Venerable Mu, you can't escape...”

Just as the voice in the bell reached this point, a white jade-like palm suddenly pressed down and smacked Jiushang Yin into a pile of mud.

That white jade palm flicked the flesh on the nose of the bell and lifted it gently.

Qin Mu stopped and let out a sigh of relief. He tidied his clothes and said with a smile, “Heavenly Teacher, you are finally willing to make a move.”

The owner of the white jade palm was Bai Yujing. She picked up the Reincarnation Bell with one hand and shook it gently. The clone of Son of Heaven Yin in the bell had already been killed by her, and the Reincarnation Bell turned into a small bell.

Bai Yujing put away the Reincarnation Bell and looked at Qin Mu with a hint of alertness. She said softly, “What kind of demon is so daring to chase after Celestial Venerable Mu? Luckily, Celestial Venerable is fine, otherwise, Yujing would have committed a grave crime.”

Qin Mu laughed loudly and walked into the god city from the broken wall. He said leisurely, “There are many rebels in the Great Void. Maybe some rebels know that I, Celestial Venerable Mu, am here to assist the celestial heavens in battle, so they laid in ambush to kill me. I was thinking that I didn't alert anyone when I came to the Great Void, but these rebels know my location...”

.....

Killing intent flashed in his eyes. “Who leaked the news?”

Bai Yujing understood and said with a smile, "Luckily, the heavens help the worthy, Celestial Venerable. There are no injuries."

Qin Mu said with a smile that wasn't quite a smile, "It's not necessarily true that the heavens will favor the good. In this Great Void, even Heaven Duke and Earth Count can't come here, so where did the heavens come from?"

Bai Yujing knew that he was implying something.

Bai Yujing had already recognized Qin Mu and the Reincarnation Bell. She knew that it was Son of Heaven Yin who was controlling the Reincarnation Bell, but she didn't make a move. She still hoped that Son of Heaven Yin could kill Qin Mu.

She was the reincarnation of South Deity Zhu Que, but she didn't want to become South Deity.

She believed that after she becomes South Deity Zhu Que, Bai Yujing would die.

On the other hand, Qin Mu knew her true identity. He also had methods to revive her South Deity's soul and awaken all her previous lives. At that time, she would die and South Deity would be reborn.

Even though she admired Qin Mu and was grateful to him for helping her when she was still Que Feiyin, no matter how much she appreciated him, it wasn't as important as her own life.

That was why she wanted to borrow Son of Heaven Yin's hand to get rid of Qin Mu before seizing his Reincarnation Bell.

However, it was obvious that Qin Mu had seen through her plan, which was why he had purposely lured Son of Heaven Yin to attack the god city and break the city walls. If Qin Mu and Jiushang Yin had brought the Reincarnation Bell into the city, the heavenly soldiers and generals of the Western Sect Army would have suffered heavy casualties!

It was also because of this that Bai Yujing, who was one of the four great heavenly teachers of the celestial heavens and the commander of the Western Sect Army, had no choice but to suppress the Reincarnation Bell.

This was a very short battle of wits. Others didn't know, but Qin Mu and Bai Yujing both knew.

With their level of intelligence, they didn't need to be explicit to know what the other party was thinking and doing.

Bai Yujing invited him into the city and smoothed out her sideburns. This woman still liked to be dressed in white, very plain, and very elegant. She said, "Isn't Celestial Venerable Mu afraid of death? You have many enemies. Some of them aren't your enemies, but killing you will be very beneficial to them. They will also lay their hands on you for benefits."

Qin Mu looked into the distance in a daze and said in disappointment and frustration, "I have no choice but to take risks for my country. I also know that the Land of the Great Void is a barbaric place. Those rebels want to get rid of me..."

Bai Yujing rolled her eyes at him and said plainly, "Celestial Venerable Mu, there's no need to be so cautious in front of me. I understand your intentions, and I've seen what you've done. Why are you putting on an act?"

Qin Mu laughed and said, "In that case, I'll be straightforward."

His smile vanished. "Who dares to kill me in the celestial heavens?"

Bai Yujing looked at him with a smile that was not a smile. "If I didn't make a move just now, would you have been able to escape from Son of Heaven Yin?"

"If you don't make a move, your Western Sect and all the soldiers in this city will die."

Qin Mu's face sank, and he said calmly, "No matter what, you have to make a move. Que Feiyin, I can understand that you are doing this for your life, but I also need South Deity, and I hope you can understand. I can understand you, and I hope you can understand me."

Bai Yujing raised her eyebrows but didn't say anything.

Qin Mu felt a hint of killing intent from her body and continued, "The world has a perfect dual technique? However, I happen to have a perfect dao technique and divine art that can perfectly solve the problem between you and South Deity. I have a technique that can transform the black soul sand into three souls and seven spirits. You just need to extract the soul from your soul and give it to me. I will transform that soul into South Deity and use spells to patch your soul. What do you think?"

Bai Yujing fell silent.

Qin Mu's words did give her some things, but a large portion of her achievements were on her primordial spirit. The strongest soul in the primordial spirit belonged to the three souls.

If she drew out her soul, even if a new soul was born, she probably wouldn't be able to cultivate to her peak state.

Furthermore, in her heart, she didn't trust Qin Mu.

She always felt that Qin Mu would take the chance to kill her so that she could reincarnate and awaken South Deity's memory.

Qin Mu said sincerely, "Que Feiyin, you are the reincarnation of South Deity, and you only reincarnated time again because of Son of Heaven Yin's scheme. If I hadn't given you that jade pendant, you would have long become a fool because of the confusion in your womb. Not to mention becoming the current Bai Yujing, even divine arts practitioners would find it hard to do so. I also have a method that doesn't require you to die once. I can just break Son of Heaven Yin's reincarnation divine art and awaken the vermilion bird soul in your body. However, I don't want Bai Yujing to die just like that, so I found such a method."

He stopped and looked straight at Bai Yujing. He said solemnly, "If you can't even accept this offer, I have nothing to say."

Bai Yujing felt the faint killing intent coming from him.

Earlier, Bai Yujing had revealed her killing intent to show her determination, and now Qin Mu was showing it to show his determination.

If she didn't agree, Qin Mu would immediately make a move and break apart Son of Heaven Yin's divine art that was binding her soul, awakening South Deity's soul and restoring all her memories!

Bai Yujing hesitated for a moment and was about to agree when a heavy voice suddenly rang out. "Yujing, the soul in your body is South Deity's soul. Son of Heaven Yin had reported this to me before. It wasn't easy for me to kill South Deity Zhu Que, so I won't allow South Deity to revive."

Bai Yujing's body trembled slightly, and she bowed. "Greetings, Celestial Venerable Huo!"

Qin Mu turned around and saw Celestial Venerable Huo's incomparably bright eyes!

Chapter 1232 – The More Powerful You Are, The More Evil You Will Do

Celestial Venerable Huo had come to this god city and appeared behind them. He had clearly heard their conversation!

What shocked Qin Mu even more was that Celestial Venerable Huo had long known that Bai Yujing was the reincarnation of South Deity Zhu Que!

Celestial Venerable Huo raised his hand, signaling for Bai Yujing to stand up. However, he didn't look at her. Instead, his gaze landed on Qin Mu, his expression indifferent.

Qin Mu's expression turned cold.

"I know that Heavenly Master Bai Yujing is the reincarnation of South Deity's soul, but because she's a human, I don't mind."

Celestial Venerable Huo said indifferently, "I killed South Deity, and her soul was suppressed in the Hall of Fragrance. Celestial Venerable Mu, your actions have made me despise you even more. I could have killed Bai Yujing because of South Deity's soul, but I didn't. You, on the other hand, killed an Emperor's Throne practitioner of my human race just because of an evil ancient god!"

Qin Mu walked away and said indifferently, "I'm not Celestial Venerable Yun, nor am I Celestial Venerable Yue. Celestial Venerable Ling, they believed you, so they died. People who walk different paths cannot work together."

Celestial Venerable Huo said coldly, "Stop!"

Qin Mu ignored him and continued to leave.

Celestial Venerable Huo's voice came from behind him, and he sneered. "Do you know how many times I've advised Celestial Venerable Yun? I've advised him no less than a hundred times! I advised him not to go against heaven's will, not to go against the general trend, and not to disregard the lives of humans because of his ambition!"

"What about him?"

"He's stubborn! He must resist and make the human race the supreme ruler of all races! However, he also agrees with me!"

"When I went to kill him, he told me that he understood what I had done!"

Qin Mu stopped in his tracks and turned his head over with a smile that was yet not a smile. "What about Crimson Emperor and Celestial Venerable Ling? What about Celestial Venerable Yue and Celestial Venerable Ling? When you killed Celestial Venerable Yun, you were at the front. When Crimson Emperor killed Celestial Venerable Yue and Celestial Venerable Ling, you were at the front."

Celestial Venerable Huo snorted. "Crimson Emperor, I didn't kill him. Light Emperor overestimated his own abilities! After Celestial Venerable Yun's chaos, the human race in the Primordial Realm has already suffered a huge blow to their vitality. It wasn't easy for them to recover, but Light Emperor still wants to rebel. He deserves to die! I was the one who saw his weakness and let Son of Heaven Yin kill him! As for Celestial Venerable Yue and Celestial Venerable Ling..."

His expression dimmed, and he shook his head. "Although they are my Dao friends, they also made the same mistake as Celestial Venerable Yun. They actually wanted to overturn the heavens, and their crimes deserve death! However, I still left Celestial Venerable Yue alive. Celestial Venerable Ling's death was an accident, and I didn't want to kill her."

Qin Mu laughed loudly, and his laughter sounded like he was crying. "What a good idea to leave Celestial Venerable Yue's life behind. How sanctimonious and compassionate! When you went to find Celestial Venerable Yue to discuss how to deal with Mother Earth, I was there! Your plan with Celestial Venerable Xiao was instructed by Celestial Venerable Hao, right? When you got rid of Mother Earth, you attacked at the same time to get rid of Celestial Venerable Yue and Celestial Venerable Ling!"

His face was as cold as ice as he said coldly, "Celestial Venerable Yue and Celestial Venerable Ling were able to survive because I used countless dreams to enter the path and simulate it. Only then did I choose the only way out! You actually dare to flatter yourself in front of me, saying it's your credit!"

He fell silent, and after a moment, he said bitterly, "You are no longer the Celestial Venerable Huo of the past."

Celestial Venerable Huo was expressionless as he said woodenly, "You don't understand me. Celestial Venerable Yue, Celestial Venerable Ling, and the others also don't understand me. Hehe, only Celestial Venerable Yun understands me and knows that I'm doing this for the human race..."

"If Celestial Venerable Yun sees your Southern Heavenly World, the sight of the human race would make him jump out of the coffin by you."

Qin Mu raised his head with a bleak expression. "You're wrong, he doesn't understand you. From the start to the end, he couldn't see that your so-called doing this for the human race is actually for your own position and your own life."

The flame wheel behind Celestial Venerable Huo's head swayed, and his mind was in a mess. He suddenly smiled and said, "It's fine if Celestial Venerable Yun doesn't understand me, I don't need his understanding. There's only one person in this world who understands me, and that's Celestial Venerable Yu."

Qin Mu gave him a cold glance and turned to leave.

'Only Celestial Venerable Yu will understand me!'

Celestial Venerable Huo's voice came from behind him. "Only heroes of the human race like him, the most outstanding existence of the human race, can understand me! If he doesn't die, the person who supports me the most is him! I don't need the understanding of you selfish people. As long as he understands me, that's enough!"

Qin Mu sneered and walked away.

Celestial Venerable Huo watched him leave and sneered. "Only Celestial Venerable Yu is my Dao friend... Bai Yujing, you can be at ease. With me around, Celestial Venerable Mu won't dare to mess around."

With his hands behind his back, he said solemnly, "Even though he is reckless, he still knows his limits. It's best if he doesn't touch you. If he dares to touch you, I will definitely kill him!"

Bai Yujing frowned slightly and said softly, "Celestial Venerable Huo, is it worth it to kill a human Celestial Venerable for a nobody like me?"

"Of course."

Celestial Venerable Huo turned to look at her and said seriously, "Celestial Venerable Mu is indeed talented, but the more such a person is, the greater the harm he will bring. You are different. Even though your divine soul is South Deity, you are dedicated to being a human and the celestial heavens. You are more at ease than him."

Bai Yujing smiled calmly. "Is it because I don't know how to reform or rebel?"

Celestial Venerable Huo nodded and said calmly, "If Celestial Venerable Mu doesn't lay his hands on you, I have no reason to lay my hands on him. However, from his actions, this person will definitely rebel in the future and put our human race in a life and death crisis. I can't let him do that, so I have to find a reason to get rid of him."

Bai Yujing nodded. "Therefore, his attempt to awaken the South Deity soul in my body was the reason why the Celestial Venerable killed him."

Celestial Venerable Huo revealed a smile. "As expected of Heavenly Teacher, you figured it out with just a hint."

He walked away.

Bai Yujing shuddered.

Celestial Venerable Huo looked straightforward, but he was actually very scheming. He had always known that he was the reincarnation of South Deity, but he had kept him around to deal with Qin Mu!

The reason he had kept him alive was to give Qin Mu a chance to ‘make a mistake’ and give him a reason to kill Qin Mu!

‘Celestial Venerable Huo killed Celestial Venerable Yun, Light Emperor, Celestial Venerable Ling, and Celestial Venerable Yue for his ideal ideals. Could it be...’

Her gaze was complicated. Celestial Venerable Yue was her master. Even though she had lived for so many lifetimes, she had always treated Celestial Venerable Yue as the person closest to her. And Celestial Venerable Huo had actually laid his hands on Celestial Venerable Yue for his philosophy!

‘Does Celestial Venerable Huo not know that if they work together, even if they can’t overthrow the celestial heavens, they can still fight equally?’

She looked at Celestial Venerable Huo’s departing back and thought to herself, ‘Celestial Venerable Huo, you protect South Heaven and the humans there. Could your South Heaven be so perfect that even these few Celestial Venerables can’t compare to it? Have you really found a path to solve the problem of the humans not being bullied and growing stronger?’

She had an idea. She wanted to take a look at Southern Heaven.

“After quelling the Great Void’s chaos, I’ll go to South Heaven... No!”

With a thought, she took a step into the sky, and there was still Bai Yujing in the city, managing the battle.

Bai Yujing used her space divine art to hide herself and flew out. “Let’s go to Southern Heaven to take a look at Celestial Venerable Huo’s perfect world!”

Chapter 1233 – A Perfect World

A few months later, Bai Yujing returned to the celestial heavens. She hid her face and quietly entered Southern Heaven’s Spirit Energy Mutual Shift Bridge.

It was very time-consuming to leave the Great Void and return to the celestial heavens, but it was much easier to travel from the celestial heavens to Southern Heaven. Qin Mu had spread the Spirit Energy Mutual Shift Bridge throughout the various worlds, and the transportation was convenient. It didn’t take long for Bai Yujing to reach Southern Heaven.

In name, South Heaven was under Red Deity Qi Xiayu’s control, and there were numerous heavens.

Bai Yujing was the first to arrive at the Southern Heavenly Continent where Qi Xiayu's celestial palace was located. She transformed into a young girl and traveled around. She had learned a lot from fighting with Son of Heaven Yin and was very careful in her actions.

"Celestial Venerable Huo managed Southern Heaven pretty well."

When Bai Yujing first went on a tour, she saw that the people lived and worked happily. It was like a pastoral garden, and the people had no competitive spirit. There was a harmonious scene everywhere, and she couldn't help feeling happy. She didn't think much of Qin Mu's actions.

'Celestial Venerable Mu is indeed wrong. Celestial Venerable Huo is right. The people here can live in peace, cultivate, become divine arts practitioners, and even become gods of the human race. This is pure land. Celestial Venerable Mu is too extreme!'

She shook her head and planned to leave. However, she suddenly stopped and continued to travel around to see the lives of the people.

'After all, I haven't stayed here for long. I'm just a bystander, and it's hard for me to see the true life of this world. For Celestial Venerable Mu to be able to achieve what he has now, he must have something extraordinary about him. I need to stay a few more days to see why he's so hostile towards Celestial Venerable Huo.'

She calmed herself down and examined the human civilization in Southern Heaven as a bystander.

After a few days, her expression gradually became grim.

She saw the funeral of the Southern Heavenly Human Tribe and felt that it was absurd and inconceivable.

"However, Celestial Venerable Huo did this for a reason. After all, the half-gods are powerful now, and it's already remarkable for humans to live to sixty years old."

She consoled herself. In the other heavens, there was no such good thing. She had once been to the other heavens of the Primordial Realm, and because of the harsh living conditions, the people there could only live to forty or fifty years old.

In comparison, many people in Southern Heaven could live to sixty years old. Sacrificing them to half-gods after they were sixty years old was considered a longevity.

Of course, Eternal Peace was an exception. The lifespans of ordinary people in Eternal Peace were even longer now. Because of the better living conditions and the prevalence of martial arts in their youth, there were over a dozen elderly people in every village.

"Eternal Peace can't be kept overnight and could be destroyed at any time. Of course Southern Heaven is better!"

Bai Yujing had also seen Nantian's education. Although she felt that it was wrong to follow three principles, four virtues, three principles, and five principles, the people would not rebel. If they didn't rebel, the suffering would be even lesser. She felt that it was understandable.

She saw the funeral of divine arts practitioners again.

When a divine arts practitioner couldn't become a god at seven hundred years old, they had to sacrifice themselves to the half-gods.

"That's understandable."

Bai Yujing muttered to herself, "Compared to other places, it's already very good. After all, the divine arts practitioners of the human race have a very high status here. They can cultivate in peace and don't have to worry about mundane matters. If they can't become gods, they can take the initiative to be sacrificial offerings. After all, they only have a hundred years left..."

She saw the gods of the human race again. There was no war between the human gods and the half-gods here. Instead, it was peaceful. The gods attended banquets with each other, and there was no conflict between races. It was very rare.

This place wasn't like the other heavens.

In the other heavens, the gods of the human race would suffer because their clansmen had received unfair treatment. Thus, they would fight with the gods of the half-gods and cause rivers of blood to flow.

"Celestial Venerable Huo didn't do anything wrong," Bai Yujing said softly.

She escaped from the gathering of the gods and came to the mortal world of Southern Heaven. Everything here was good, and she could understand Celestial Venerable Huo's good intentions. However, all of this made her seem fake.

However, she couldn't tell exactly what was fake.

She walked into a small town and planned to rest here for a while before leaving South Heaven. However, she discovered a strange phenomenon in this town. There were over ten thousand human residents in this town, yet there wasn't a single divine arts practitioner!

This was almost impossible.

Even though becoming a divine arts practitioner required aptitude, after so many years of development, becoming a divine arts practitioner wasn't difficult.

Bai Yujing asked in detail, and an old man who was sitting on the ridge with a louse in his arms told her, "Our ancestors didn't have divine arts practitioners, and our descendants naturally didn't have divine arts practitioners either. Divine arts practitioners are all influential families that have been passed down from the Dragon Han a million years ago. Which family would be willing to marry an ordinary person?"

Bai Yujing was stunned and smiled. "Can't ordinary people be called divine arts practitioners? You guys can also open up divine treasures and celestial palaces. Not to mention divine arts practitioners, even becoming gods is possible!"

The old man hurriedly said, "I don't dare to say that! Young lady, you are an outsider? What you are saying is disgraceful! The old masters of divine arts practitioners are all gifted gods and are the stars in the sky. They are destined to be high and mighty from birth!"

Bai Yujing was stunned.

The old man continued, "As laborers, we are destined to be laborers for the rest of our lives, planting crops. Our ancestors were destined to be farmers, so how would we dare to dream of becoming a divine arts practitioner old master?"

"But..."

Bai Yujing opened her mouth, but no words came out.

During the first year of the Dragon Han Era, Celestial Venerable Yu, Celestial Venerable Hao, and the rest of the seven Celestial Venerables opened up the cultivation system of divine treasures, allowing ordinary people to open up their own divine treasures and become divine arts practitioners.

Meanwhile, the divine arts practitioners of South Heaven had somehow become influential families, and the divine arts practitioners had inherited the seven great divine treasures of their descendants. They were high and mighty, and they had become the gods of their innate divine power.

A family without divine arts practitioners would never become a divine arts practitioner no matter how talented their descendants were. They would never be able to escape the fate of being fixed on the farm!

However, the reason why the seven Celestial Venerables opened up their divine treasures was to let ordinary people grasp power and become divine arts practitioners!

Why were the fates of the people here fixed forever?

Why was it that as an ordinary person, his descendants had no chance of making a comeback?

"This Southern Heaven is a pool of stagnant water, a pool of stagnant water that can't stir up any waves!"

Fear grew in Bai Yujing's heart. Even though she hadn't awakened her vermilion bird soul, she still remembered the Dragon Han Era more than a hundred years ago. Back then, ordinary people could open their divine treasures to become divine arts practitioners. The descendants of ordinary people could also become gods!

If the ancestors couldn't do it, the descendants would be smart and have a chance to rise!

Celestial Venerable Huo's Southern Heaven had no such possibility!

“Those families of divine arts practitioners are no longer humans! The gods of the human race are also no longer humans! They are completely different from humans because they live in completely different worlds!”

Bai Yujing’s heart was in a mess. What Celestial Venerable Huo had done was right. He didn’t impart the method to open up divine treasures and celestial palaces, allowing ordinary people to be at ease. They accepted the three principles, five principles, three principles, and four virtues, unable to resist.

To let divine arts practitioners become influential families and control power, even if they were in power, they wouldn’t resist.

The half-gods had enough ‘food’, so they didn’t want to change anything!

Everything here was so perfect that it made one’s hair stand on end!

Bai Yujing cried out and escaped from the South Heaven, running back to the celestial heavens.

The Southern Heavens made it hard for her to breathe.

Even though she knew that she was the reincarnation of South Deity Zhu Que, she had always viewed herself as a human after being reincarnated for nearly two hundred lifetimes.

Southern Heaven’s current situation made her, as a human, slightly fearful.

At this moment, she wanted to take a look at Eternal Peace.

She came to Eternal Peace.

Chapter 1234 – Picking Up Celestial Venerable Yu

Compared to South Heaven, Eternal Peace was countless times smaller.

When Bai Yujing came to Eternal Peace, it was time for the crops to be harvested. She saw numerous small divine arts practitioners of Five Elements Realm and Six Directions Realm helping the people harvest the crops. They were taking off the grains, plowing the fields, drawing water to irrigate the crops, and even executing rainfall divine arts or dispersing the clouds.

It was very lively here.

Bai Yujing traveled to many places and discovered that some places were suffering from disasters. The small divine arts practitioners went to report to the authorities, and the authorities sent numerous strong practitioners that were proficient in creation techniques and divine arts to use creation divine arts to spur the crops to grow rapidly. After working for over ten days, the crops had ripened, and the older divine arts practitioners were all exhausted.

After harvesting the crops, the leader of the divine arts practitioners called over the people who were suffering from the disaster and said, “Even though the art of creation can temporarily stop the urgent

needs, the fertility in the land has become thinner and needs to be fattened up. However, it won't delay the next season's harvest."

The refugees thanked them and paid some money to these divine arts practitioners.

Bai Yujing asked an old farmer, and the old farmer chuckled. "The past few years have been pretty good. I still have some money left, so I can support myself even in disaster years."

"If you pay the divine arts practitioners, won't you have no money?"

Bai Yujing asked, "Won't the wealth be concentrated in the hands of divine arts practitioners? In the future, these divine arts practitioners will become influential families and control the wealth of the country."

"If you have some martial power, you can work at the mine."

The old farmer said with a smile, "I can also plant some herbs. There are more divine arts practitioners these few years, and the spirit herbs I need are also increasing. Planting spirit herbs is very expensive! Even though my aptitude isn't good and I'm old, my little grandson is very smart. He has already opened up his Spirit Embryo Divine Treasure and is currently seeking knowledge in primary school."

Bai Yujing was stunned.

The old farmer frowned and said, "After this little brat became a divine arts practitioner, he became another big spender! Luckily, he learned some pill refinement and forging techniques. At the very least, he could refine some spirit pills to forge spirit weapons to supplement his family's expenses. If he's successful and can become a god, that would be great. He could then become an official!"

He beamed with delight and said, "Even if I don't become an official, I can go to a primary school or university or open a manufacturing factory to bring honor to my ancestors! However, the imperial court is going to war soon, so if I join the army, I won't be able to bear it."

The auntie at the side smiled and said, "It's good to fight a war, you will definitely be promoted quickly!"

The old farmer said angrily, "People will die in battle!"

"A soldier of our Eternal Peace is comparable to ten soldiers of those heavens. Furthermore, he has a good reason to send his troops. With Earth Mother's title, who would dare not surrender?"

That auntie had extraordinary knowledge and said, "Going to war is all free military merits!"

Bai Yujing walked in Eternal Peace in a daze. She saw numerous divine arts practitioners repairing roads and constructing bridges under the lead of gods and devils. There were also some divine arts practitioners constructing buildings in the cities. There were many land ships on the roads, and there were also ships coming and going in the sky.

What she saw was completely different from what she saw in Southern Heaven.

This was simply a celestial heavens of the mortal world!

However, it was different from the strict hierarchy of the celestial heavens. Other than the ten Celestial Venerables, all the gods in the celestial heavens had to be careful, afraid of offending anyone if they said something wrong or did something wrong.

On the other hand, Eternal Peace was much livelier.

Bai Yujing finally made a decision and left Eternal Peace.

She rushed towards the Great Void. This trip took a year, but luckily, there was another her guarding the Great Void, so there shouldn't be any problems.

When she was about to reach the Great Void, she suddenly saw a flash of light in the starry sky. When she got closer, she saw a human youth in blue rushing through the starry sky.

The youth didn't look old, only about ten years old. He wasn't even twenty, but his cultivation was extraordinary.

He seemed to be in a daze as he walked in the starry sky. There were Dao sounds lingering in front of him and behind him, and there were ripples of light surrounding him.

There was still air around him, starlight, and fresh flowers growing from the void. The flowers bloomed and withered, and there was also a strange beast dragon sculpture carrying him, flapping its wings and soaring in the starry sky.

Bai Yujing was bewildered. That dragon statue was the mount of the celestial heavens' Feathered Forest Guards, so she didn't know why it was willing to listen to this youth.

She walked forward to ask. That youth was very kind and always had a silly smile on his face. He said, "Sister, my name is Lan Yutian."

Bai Yujing had never heard of this name before, so she didn't think much of it. She asked, "Did you guys get lost while roaming the starry sky? And this dragon condor, why are you following him?"

The dragon condor was puzzled. "I also don't know why I'm following him. I had originally planned to fly out and enjoy myself during the holidays, but just as I left the celestial heavens, I met him asking me for directions. In my muddle-headedness, I said I would lead the way for him and willingly become his mount. However, after flying for so long, I don't know where I've flown to."

Bai Yujing didn't know whether to laugh or cry. "We are already close to the Great Void. You should return to the celestial heavens quickly."

The dragon condor thanked him and asked Lan Yutian to get off his back. He immediately flapped his wings and transformed into a stream of light, disappearing into the starry sky.

Bai Yujing jumped in shock. Even though the dragon condors of the Feathered Forest Guards were fast, they weren't that fast!

It was obvious that the dragon condor had unknowingly gained many benefits from following this human youth called Lan Yutian.

Lan Yutian indeed gave people a strange feeling. Beside him, Bai Yujing felt that the Great Dao had become abnormally familiar. Many paths, skills, and divine arts that she had never come into contact with before and had never thought of before naturally understood and comprehended. It was very strange.

Presumably, that dragon condor wasn't bewitched by Lan Yutian, but was attracted by the Dao runes on this youth's body. It followed him in a daze, but it had also unintentionally obtained many benefits.

Bai Yujing had a good impression of him and smiled. "You're Lan Yutian? Should I call you Brother Lan or Brother Tian?"

She then shook her head and said, "Brother Tian can't do it. He has the same voice as Celestial Emperor and will be beheaded."

Lan Yutian said, "Sister, you should call me Brother Yu."

"Jade Emperor?"

Bai Yujing burst into laughter. "You're going to be beheaded too! Your name is really weird. There's only a surname in your name that can be used. No matter if I call you Brother Tian or Brother Yu, I'm going to beheaded. Who gave you this name? It's a little impressive."

Lan Yutian shook his head and said, "I don't remember, I lost my memory. My brother also doesn't know who gave me my name."

Bai Yujing looked at him pitifully and asked, "Where are you going, Brother Lan?"

"I don't know."

Lan Yutian said honestly, "I also don't know where I'm going, and I'm also lost. Now I can only go wherever I go."

Bai Yujing didn't know whether to laugh or cry. She truly pitied him and said with a smile, "Since you have nowhere to go, follow me to the Great Void. It's not good for you to run around like this. When you reach the Great Void, at least I can protect you."

Lan Yutian nodded obediently.

Bai Yujing looked at his obedient appearance and felt both love and pity for him. She thought to herself, 'He looks like a human, but Celestial Venerable Mu is now overbearing in handling matters. However, his appearance is still somewhat similar to Lan Yutian.'

In the land of the Great Void, in the territory of the celestial heavens, Qin Mu had already left the god city that Bai Yujing was guarding and came to the place where another celestial heavens' heavenly master, Meng Yungui, was guarding.

Chapter 1235 – The Second Heavenly Teacher

The four great heavenly teachers and the four great heavenly kings of the celestial heavens led their armies to the Land of the Great Void. They each had their own camps, and each of them led an army.

Other than that, there were also four-colored emperors, each with a military horse.

Among the four great heavenly teachers, the first heavenly master is Northern heavenly master Shang Pingyin, the second heavenly master is Meng Yungui, the third heavenly master is Bai Yujing, and the fourth heavenly master Southern heavenly master is Zhu Shaoping.

Among the four great heavenly kings, Qin Mu had already met Shang Pinying and Bai Yujing. As for this second heavenly master, Meng Yungui, even though Qin Mu had never met him before, he had long heard of his name.

Meng Yungui was born in Ascension Heaven, and he loved to plunder treasures and wealth, so his reputation wasn't very good.

Cripple brought Lan Yutian for strict training. One of the most important tests was stealing the treasure vault of Ascension Heaven's Meng Yungui.

Old Ma, the previous Rulai of the Divine Constable Bureau, was also beside them. He was in charge of keeping a lookout for them and checking the traps of divine arts. He was also in charge of erasing their traces to prevent them from leaving any traces.

Of course, Old Ma wasn't greedy. He only wanted to guide and supervise Lan Yutian, this 'junior', to prevent Lan Yutian from going astray. Even though Cripple and Lan Yutian had also given him a share of the 'stolen goods'.

Qin Mu came to the god city where Meng Yungui's Eastern Sect Army was stationed and saw that Meng Yungui was in charge of the army. Even though his reputation wasn't good, he was indeed an expert in leading troops into battle.

"The four great heavenly teachers of the celestial heavens are all people that lead armies to war, but the four great heavenly teachers of Founding Emperor aren't capable people that lead armies to war. They are capable officials that govern the world."

Qin Mu muttered to himself and fell into deep thought.

Woodcutter, Scholar, Old Farmer, Fisherman. Woodcutter Wen Tiange was in charge of the general situation of Founding Emperor's reform and had the main direction. Scholar Yan Yunxi was in charge of the military reform, Old Farmer was in charge of the changes in the livelihood of the people, and Fisherman was in charge of the changes in the paths, skills, and divine arts.

The four great heavenly teachers of the celestial heavens, on the other hand, placed emphasis on battle power, so they had no need for any changes.

“The four great heavenly teachers of the celestial heavens are just four people who are good at training soldiers and fighting wars. They live up to their reputation as heavenly teachers. They don’t have much achievements in the big picture and the affairs of the heavens.”

Just as Qin Mu thought this, he heard a loud laugh. “Celestial Venerable Mu has come from afar, please forgive me for not welcoming you!”

Qin Mu looked towards the source of the voice and saw a middle-aged man walking over with a face full of smiles. The beard on his upper lip was very long, hanging down from both sides of his lips and forming the shape of a fork.

This person was the East Heaven Master, Meng Yungui.

Meng Yungui quickly walked forward and bowed in greeting. He said with a smile, “Celestial Venerable Mu, I’m not afraid. When I came back from Son of Heaven Yin, Son of Heaven Yin was full of praises for Celestial Venerable. He said that Celestial Venerable’s righteousness towards your own people is unrivaled and that you would help them in times of need. You are truly a role model for your enemies.”

Qin Mu smiled warmly. “What else did Son of Heaven Yin say?”

Meng Yungui said, “Son of Heaven Yin also said that he heard that Celestial Venerable was ambushed, so he was worried and couldn’t wait to rush over to apologize to Celestial Venerable. However, with a heavy responsibility on his shoulders, he didn’t dare to leave his post. Celestial Venerable, please don’t blame him.”

Qin Mu waved his hand. “These are all small matters. Tell Son of Heaven Yin that I don’t blame him. I’ve killed all the enemies that came, so he doesn’t have to take it to heart.”

Meng Yungui sighed ruefully. “Celestial Venerable is magnanimous. If Son of Heaven Yin were to hear this, he would definitely be moved to tears and choke on his words.”

Qin Mu laughed loudly.

Meng Yungui smiled and changed the topic. He said seriously, “Celestial Venerable, I heard that the enemy has sent reinforcements. They are the direct subordinates of the traitor Qin Ye, and the army of Fengdu is also hidden among them. These few days, the two Celestial Venerables have been asking us if Son of Heaven Yin will be able to take down the Great Void and Youdu in a short time. Celestial Venerable Mu, do you have any countermeasures?”

Qin Mu muttered to himself and said, “I also received news that the Grand Emperor has revived and escaped from the realm of supreme consciousness. Compared to Qin Ye, the Grand Emperor is the biggest threat.”

Meng Yungui raised his eyebrows and muttered, "Celestial Venerable is right, the Grand Emperor is indeed a huge problem! However, how should I deal with Fengdu, the Great Void, and Youdu? Celestial Venerable Mu, please teach me."

"This is simple."

Qin Mu said with a pleasant expression, "My niece, Celestial Venerable Xu, the daughter of Earth Count. If she makes a move, it will be easy for her to break through the Great Void and Youdu, let alone Fengdu."

Meng Yungui laughed in a low voice. "If Celestial Venerable Xu goes to attack the Great Void and Youdu, the god kings of Founding Emperor and the masters of creation will have a chance to attack Celestial Venerable Huo together. Celestial Venerable Huo can't hold on by himself."

"In that case, send another Celestial Venerable from the celestial heavens."

Qin Mu pondered for a moment and said, "The three Celestial Venerables are enough to deal with the current situation."

Meng Yungui clapped his hands and smiled. "This is indeed a good idea! I wonder which Celestial Venerable Mu is thinking of recruiting?"

Qin Mu said solemnly, "I thought it must be Celestial Venerable Xiao. Celestial Venerable Xiao and Celestial Venerable Huo are both humans and best friends. With him, Thief Qin can defeat him."

Meng Yungui muttered to himself, "Celestial Venerable is right, what you said is right... Celestial Venerable, do you think that after Celestial Venerable Xiao leaves, the Primordial Tree and Celestial Venerable Xiao's divine weapon, Celestial Venerable Yu, will suddenly appear and steal it?"

Qin Mu clapped his hands and laughed loudly.

Meng Yungui also laughed loudly.

Qin Mu praised, "Heavenly Teacher Meng is a wonderful person. Which Celestial Venerable do you think should be mobilized?"

Meng Yungui said with a smile, "How would I dare to mobilize Celestial Venerable? However, if Celestial Venerable Hao could come to the Great Void, it would definitely be great. Since Celestial Venerable Hao didn't receive any territories, he wouldn't have to worry about the thieves taking advantage of him after he left and stealing the divine weapon Celestial Venerable Yu. Furthermore, Celestial Venerable Hao's martial power is strong. With him here, it would be enough to quell the Great Void's chaos."

Qin Mu sighed. "You are ranked second among the four great heavenly teachers?"

"Yes." Meng Yungui bowed.

Qin Mu looked at him faintly. "Are you very greedy?"

Meng Yungui laughed in a low voice. "A person can't have no weakness. Greed can prevent death."

Qin Mu nodded his head gently and walked away while saying leisurely, "You can't be underestimated."

Meng Yungui watched him leave. After a long time, he suddenly waved his sleeve, and the wall of a manor behind him collapsed, revealing a courtyard full of gods and devils.

Those gods and devils were all painters, and they held brushes in their hands. Beside them were brushes and ink, and they were painting on the shelves.

On the paper of these painters, they were actually drawing Qin Mu!

The painting skills of these celestial heavens' painters varied from high to low, but they were all vivid and lifelike. The Qin Mu in the painting was vivid and lifelike, and he could walk in the painting and even speak!

Not only that, those painters were even drawing out writings that were analyzing Qin Mu's character. Qin Mu's tone, mannerisms, schemes, expression, clothing, fine expressions, the circulation of his bloodline when he spoke, his heartbeat, and the slight changes in muscles at the corners of his eyes were all recorded by them.

Meng Yungui put away the paintings and waved his hand to dismiss the celestial heavens' painters. He held the booklet and flipped through them carefully without commenting.

Suddenly, a voice rang out. "Heavenly Teacher Meng, how's your psychological analysis of Celestial Venerable Mu?"

Meng Yungui turned around, bowed, and said, "Celestial Venerable Xu, I think we should kill Celestial Venerable Mu as soon as possible. Otherwise, we will be in big trouble!"
