

Tales of Herding Gods Chapter 1236-1240

Chapter 1236 – Grand Emperor Shang Pinying

Celestial Venerable Xu was dressed in black, and her long black robe was like a black waterfall. When it reached her waist, it contracted and spread out like a skirt, covering the ground. The two horns on her head were tall, and they were like rivers of lava. They curved in all directions, making her very eye-catching.

Her eyes swirled as her gaze landed on Meng Yungui. She asked softly, “Why do you say that?”

Meng Yungui gently swept his hand across the air, and portraits of Qin Mu flew up and floated in front of Celestial Venerable Xu.

“Celestial Venerable, please take a look.”

Meng Yungui showed these portraits one by one and analyzed Qin Mu’s character. “In this painting, I said I had gone to meet Son of Heaven Yin, and Son of Heaven Yin was full of praise for him. He was humble and said it was a small matter, but the corners of his mouth were slightly raised, and the pupils of his eyes were slightly bigger. This was his proud expression.”

He took out another painting and continued to analyze it. “This is the painting he heard me asking about how to deal with the situation. His gaze flickered as he diverted the topic.”

He analyzed the paintings one by one, and everything made sense.

Celestial Venerable Xu listened quietly. Suddenly, Meng Yungui waved his hand, and all the portraits burned into ashes.

Celestial Venerable Xu was stunned.

“However, they are all fake!” Meng Yungui said coldly.

Celestial Venerable Xu tilted her head to look at him. “Why do you say that?”

“The minute expressions in these paintings and any psychological expression are all fake! Even if I exposed his motive and said that his idea was to steal the Primordial Tree to steal the divine weapon Celestial Venerable Yu, he was actually faking it by pretending to laugh loudly!”

Meng Yungui said in a low voice, “He only said those words to deceive me and create an illusion for me, making me feel that he isn’t shrewd and unfathomable. No expression on his face can be trusted at all! He has never revealed his true thoughts in front of me! To be able to do this, he must have started training from a young age, making him develop a habit of being good at disguising himself!”

Celestial Venerable Xu asked, “In that case, why do you say Celestial Venerable Mu must die?”

Meng Yungui's eyes shone brightly. "Celestial Venerable Mu is definitely not someone who can be changed. Not only that, he is even changing the situation in the celestial heavens. After the divine weapon Celestial Venerable Yu was created, did Celestial Venerable think that the world was going to be peaceful?"

Celestial Venerable Xu nodded gently.

"And?"

Meng Yungui continued, "It's precisely because Celestial Venerable Mu went to the celestial heavens that the ten Celestial Venerables didn't get along. Although they didn't split up on the surface, I could see that there was already a huge gap between the ten Celestial Venerables. Other than that, it was Celestial Venerable Qin's comeback. Without Celestial Venerable Mu, Celestial Venerable Qin wouldn't have come back! If Celestial Venerable Qin didn't come out, the Great Void wouldn't be in its current state. The celestial heavens wouldn't have been split apart by Celestial Venerable Qin's sword! Even the ancestral court wouldn't have appeared!"

"What's even more astonishing is that the Dao hearts of all the gods in the world are defective because of the split of the celestial heavens! It's Celestial Venerable Mu who started the current situation!"

Meng Yungui said loudly, "Without him, Heaven Duke and Earth Count wouldn't have joined forces, and the Grand Emperor wouldn't have revived! Celestial Venerable Yue would have continued to sink into oblivion, and she wouldn't have the heart to move again! Thus, Celestial Venerable Mu must die! With Celestial Venerable's command, I can do this. I will do it beautifully, and I won't leave any traces behind!"

Celestial Venerable Xu frowned slightly and said, "Let's put this matter aside for now. Regarding Celestial Venerable Qin, Heaven Duke, and Earth Count, the celestial heavens have plans. Heavenly Teacher Meng, let me ask you. If I want to survive, do you think I should agree to Celestial Venerable Huo's marriage?"

Meng Yungui's body trembled slightly, and he lowered his head. "I don't understand."

Celestial Venerable Xu said indifferently, "How could you not understand? You understand very well. You are greedy for money just to give others something to use against you. With something against you, the Celestial Venerables won't touch you. Meng Yungui, you are my man, you don't have to be so careful. Just say it."

Meng Yungui bowed even lower and said in a low voice, "To marry Celestial Venerable Huo, Celestial Venerable should be interested in Celestial Venerable Hao's power, right?"

Celestial Venerable Xu nodded gently.

Meng Yungui secretly tilted his head and raised his eyelids to observe her every move. Seeing her nod, he continued, "In that case, may I ask, Celestial Venerable, if you marry Celestial Venerable Huo, would Celestial Venerable Hao value you more, or would he value Celestial Venerable Huo more?"

Celestial Venerable Xu smiled. "Continue."

Meng Yungui mustered up his courage and said, "Naturally, we will value Celestial Venerable Huo more. However, Celestial Venerable Huo is a human, so how could Celestial Venerable Hao trust Celestial Venerable Huo without any reservations? In the future, if Celestial Venerable Hao really unites the world, he will definitely lay his hands on Celestial Venerable Huo. If Celestial Venerable marries Celestial Venerable Huo, you will also be harmed."

"When a cunning rabbit dies, the hunting dog will be cooked. I understand this logic," Celestial Venerable Xu said with a nod.

"Since Celestial Venerable is interested in Celestial Venerable Hao's power, why do you have to make a wedding dress for Celestial Venerable Huo? Just lower yourself and admit Celestial Venerable Hao's leadership position. When Celestial Venerable Hao cleans up in the future, Celestial Venerable won't be implicated by Celestial Venerable Huo."

Meng Yungui said in a low voice, "Celestial Venerable Hao can't contain Celestial Venerable Huo of the human race, but he can contain the half-god Celestial Venerable Xu. This is the path of survival for the future Celestial Venerable."

Celestial Venerable Xu looked at him, and Meng Yungui's body became even lower, almost falling to the ground.

Suddenly, Celestial Venerable Xu laughed and said, "What if Celestial Venerable Mu wins in the future?"

Meng Yungui's bent body couldn't take it anymore, and he knelt on the ground with a plop, not daring to speak.

"Rise."

Celestial Venerable Xu said indifferently, "There's no need to be so cautious in front of me. No matter how much you calculate, you didn't calculate what changes the Grand Emperor's revival would bring. The Grand Emperor is the biggest threat. He definitely won't settle down after his revival."

Her figure gradually faded away, and her voice rang out. "Whether or not to kill Celestial Venerable Mu will be put aside for now. The Grand Emperor is the most important thing now. He still hasn't left the Great Void and is still hiding here."

Meng Yungui carefully got up and said in a low voice, "Celestial Venerable Mu is here to see my abilities. I wonder what he saw..."

"Grandmaster Meng is truly extraordinary."

Qin Mu came to the divine city of the number one heavenly master, Shang Pinying, and walked through the main camp of the celestial heavens. The soldiers of the celestial heavens came and went, and they were all majestic.

"There are many celestial heavens' painters in the courtyard behind him. These painters have yet to enter the path of painting, so they are observing me and painting me. However, they aren't skilled in

painting, so they can't hide it from me with just a brush. Heavenly Teacher Meng is borrowing their brush to paint me, using this to deduce my character and weakness."

Qin Mu looked around and checked the formation of the celestial heavens' army. He thought to himself, 'But he can't see anything. Celestial Venerable Huo has already seen me, so the person behind Heavenly Teacher Meng should be Celestial Venerable Xu.'

His gaze flickered, and a soldier of the celestial heavens suddenly stopped beside him. He smiled and said, "Celestial Venerable Mu, we should have a good talk."

Qin Mu's heart stirred slightly as he looked at the soldier of the celestial heavens. That soldier was an unfamiliar face that he had never seen before.

That soldier followed him forward with a weird smile. "You have spoiled my plans time again, but you never expected me to revive, right?"

"Grand Emperor!"

Qin Mu's expression changed slightly, and he saw the soldier stop. He scratched his head in confusion and continued to patrol.

At this moment, another god of the celestial heavens who had passed by Qin Mu looked at him and said with a smile, "Celestial Venerable Mu, we aren't mortal enemies. There's no need for you to always target me."

The god walked past Qin Mu without turning back.

Qin Mu continued forward, and a goddess walked past him. She smiled at him and said, "My power is beyond your imagination!"

Qin Mu walked forward quickly. Every god that passed by him in this god city would smile at him. The Grand Emperor's consciousness was too terrifying. It could shift from one god to another at any time, always whispering beside him!

At this moment, Qin Mu saw the number one heavenly master of the celestial heavens, Shang Pinying, who was tidying up the army.

He walked forward, and Shang Pinying turned around with a strange smile. "Celestial Venerable Mu, how do you plan to compensate me?"

Qin Mu's mind was blown.

A strong practitioner of the Emperor's Throne like Shang Pinying actually had no resistance against the Grand Emperor's consciousness!

At this moment, in the entire divine city, the million soldiers and generals turned their heads to look at Qin Mu and said in unison, "Compensate me—"

Chapter 1237 – Injuring Shang Pingyin

The entire god city, with millions of soldiers and generals, had become the voice transmission tube of the Grand Emperor!

Qin Mu couldn't help feeling scared. The Grand Emperor's consciousness was so strong that even Shang Pingyin was under the control of the Grand Emperor, unable to retaliate!

Even a strong practitioner of the Emperor's Throne like Shang Pingyin didn't know that he had been invaded by the Grand Emperor's consciousness. He wouldn't have the memory of being parasitized by the Grand Emperor!

Qin Mu tried his best to stabilize his mind and smiled. "Dao friend Grand Emperor, do you want to have a talk? In that case, let's have a talk. What do you want to talk about?"

Shang Pingyin smiled faintly. "Celestial Venerable Mu, you are a smart person, you should know what I want to talk about."

Qin Mu's expression became serious, and he said seriously, "Master of creation of the Paramita Void, we can't talk about this! If Dao friend comes to talk about this, you can go back. My bottom line is not negotiable!"

Shang Pingyin laughed loudly. "Good! Then let's not talk about the masters of creation. I'm here to talk about the Tai Chu Origin Stone in the heart of your brows!"

The corners of Qin Mu's eyes twitched. The vertical eye in the heart of his brows was usually closed. Other people could only see a slight bulge in the heart of his brows, but they couldn't see that he had an eye.

He would only open the vertical eye at the heart of his brows when he needed it.

However, the Grand Emperor had seen this eye many times. The power of this eye was also astonishing, and it even used the Tai Chu Origin Stone as its pupil.

As the first master of the Tai Chu Origin Stone, the Grand Emperor's eyes naturally couldn't fool him.

"You want the Tai Chu Origin Stone?"

Qin Mu said with a smile, "It's not impossible. What can you use to exchange?"

"Use the lives of the Great Void's Carefree Village and the masters of creation in exchange."

Shang Pingyin said, "As long as you give me the Grand Primordium Origin Stone, I'll leave immediately and stop being enemies with Carefree Village and the masters of creation of the Great Void. Our past grudges can be written off!"

Qin Mu gave a smile that wasn't quite a smile. "Using the illusory future to exchange for the benefits of the present, the Grand Emperor has planned well. You're trying to gain something without risking

anything of your own. Unless you have the fate of Carefree Village and the Great Void's masters of creation in your hands, I will only trade with you. Now that Carefree Village and the Great Void's masters of creation are fine, unless I'm a fool, I will use these to trade with you. Change your condition."

Shang Pinying stared straight at him. "Aren't you afraid that I'll kill you and take away the Tai Chu Origin Stone?"

Qin Mu smiled and said, "If you could make a move, you would have done so long ago. Shang Pinying and Northern Sect Army are powerful, but if you control so many armies at the same time, it will definitely be inconvenient for you to mobilize them. I just happen to have a flaw in your Great Overarching Supreme Consciousness. If you want to kill me, you will have to kill me in one strike. Otherwise, if you alarm Celestial Venerable Huo and Celestial Venerable Xu, you won't be able to take it."

Shang Pinying was silent for a moment before asking, "How do you want to exchange?"

"The celestial heavens will definitely send a third Celestial Venerable. I want you to intercept this Celestial Venerable and prevent him from descending into the Great Void!"

Qin Mu said resolutely, "You do it and I dig out the Tai Chu Origin Stone from the divine eye and give it to you!"

Shang Pinying pondered for a moment and said, "In that case, the third Celestial Venerable must be Celestial Venerable Hao. Celestial Venerable Hao is the leader of the ten Celestial Venerables, and his abilities are immeasurable..."

Qin Mu said indifferently, "Furthermore, Celestial Venerable Hao might bring a divine weapon Celestial Venerable Yu over. With Celestial Venerable Hao and the divine weapon Celestial Venerable Yu, his abilities are even more terrifying. As the number one ruler of the primordial era, the Grand Emperor probably doesn't have the ability to deal with him."

"Don't goad me, I won't fall for it."

Shang Pinying said leisurely, "My consciousness ensconced in the Ultimate Void and transformed into the Great Overarching Consciousness Heaven. I'm undying and indestructible. I'm the number one person in the Great Dao. Celestial Venerable Hao is powerful, but he's not invincible. I can intercept him, so prepare the Tai Chu Origin Stone."

Qin Mu smiled. "The Grand Emperor trusts me so much?"

Shang Pinying said indifferently, "If you don't, I will parasitize everyone in Eternal Peace."

Qin Mu shuddered.

Shang Pinying laughed loudly. Suddenly, all the soldiers in the city regained their consciousness and continued with their work.

Shang Pinying also came back to his senses. He seemed to have sensed something strange and looked around in confusion. However, he soon noticed Qin Mu's arrival and was astonished. He greeted, "When did Celestial Venerable Mu come?"

Qin Mu said politely, "I just came here and saw Heavenly Teacher in a daze, so I didn't disturb you."

Shang Pingyin smiled. "Celestial Venerable, are you here to probe my formation?"

Qin Mu couldn't help but smile. "I've already seen Heavenly Teacher's formation 600,000 years ago. It's truly extraordinary. If Heavenly Teacher still wants to compete, I'll invite Dragon Mountain Sanren over to spar with you."

Shang Pinying's expression changed drastically, and the internal injuries in his Dao heart relapsed. He recalled the terrifying sight on the celestial river 600,000 years ago.

Qin Mu patted his shoulder and left the god city. "It's been 600,000 years, you should have thought of a way to deal with it, right? Unfortunately, it's already outdated."

Shang Pinying's expression flickered between dark and clear as he watched Qin Mu leave. His gaze was fierce, and he wanted to kill him, but he had no choice but to endure it.

Six hundred thousand years ago, Dragon Mountain Sanren, the Glassy Sky Pagoda, the Black Tortoise Celestial Palace, that battle was the biggest defeat in his life, the shadow of his life!

He clenched his fists tightly and suddenly shouted, "Celestial Venerable Mu, I won't lose again!"

Qin Mu stopped and turned around, revealing a radiant smile. "Really?"

"Indeed!"

Shang Pinying's clothes fluttered in the wind, and he looked like he was about to leave with the wind. He said solemnly, "Even if Dragon Mountain Sanren returns, he won't be able to withstand a single blow from me! My 600,000 years isn't a complete failure! Celestial Venerable, don't underestimate me!"

Qin Mu returned and smiled warmly. "I met Dragon Mountain Sanren and saw him and the Glassy Sky Pagoda. Because of our friendship, I've seen his attainments in formations. Since the first heavenly master has the heart to defeat the enemy, I'll leak his formation to you."

His vital qi burst forth and transformed into the 28 heavens of the Glassy Sky Pagoda. All kinds of gods surrounded the strange treasures and laid down formations. The 28 heavens transformed continuously, and the formations were extremely intricate, containing the ability to transform.

Qin Mu had a kind expression and said, "Heavenly Teacher, think of a way to break the formation first so that you won't be flustered when Dragon Mountain Sanren arrives. I shall take my leave." After saying that, he turned to leave.

Shang Pinying stared at the formation of the 28 heavens, and cold sweat broke out on his forehead. He thought hard about how to deploy troops and lay down formations, how to break the formation of the 28 heavens.

This formation was different from the Glassy Sky Pagoda he had seen before. All the treasures in the Glassy Sky Pagoda had been refined, and they were even more intricate and powerful!

Not only that, but even the Glassy Sky Pagoda's only weakness was taken care of by Dragon Mountain Sanren!

The only weakness of the Glassy Sky Pagoda was discovered by Heavenly Teacher Yue Tingge, which was the central heaven ball. It could break the formation from the center of the heaven ball and use a wedge to nail the heavens. It could break the Glassy Sky Pagoda.

And now, this weakness was gone!

He fell into an endless array breaking.

After an unknown period of time, Shang Pinying's face turned incomparably pale. He suddenly spat out a mouthful of blood, and his face turned sallow. However, he still stared at the formation of the 28 heavens and deduced frantically.

After dozens of days, he still couldn't walk out of the formation, and his aura became more exhausted.

Another half a year passed, and Shang Pinying described himself as withered and dying.

When Celestial Venerable Huo received this news, he immediately came forward and destroyed the vital qi formation that Qin Mu had left behind. However, Shang Pinying still couldn't walk out of the formation. The formation of the 28 heavens that Qin Mu had left behind was deeply imprinted in his mind and couldn't be erased.

Celestial Venerable Huo looked at the exhausted Shang Pinying, who was vomiting blood. He frowned and said coldly, "Celestial Venerable Mu has spoiled a great general of mine!"

'This isn't Celestial Venerable Mu's fault...'

Shang Pinying grabbed his clothes and said weakly, "He's doing this for my own good. He wants me to see Dragon Mountain Sanren's formation in advance. I'll pull myself together..."

Chapter 1238 – Qin Mu's Great Scheme

Celestial Venerable Huo couldn't hold back his anger. Because Shang Pinying's Dao heart was lacking, his Dao heart was severely injured by Dragon Mountain Sanren in the early years. Even though it was patched up later, the cracks in his Dao heart were still there.

Now that he was trapped by the formation of 'Dragon Mountain Sanren', even if he was healed by the heavens, the formation of 'Dragon Mountain Sanren' would still linger in his mind, and he would always think about how to break it.

In such a state, it was very difficult for Shang Pinying to deal with Founding Emperor's master.

Celestial Venerable Huo frowned and summoned a god. "Where is Celestial Venerable Mu?"

"Celestial Venerable, after Celestial Venerable Mu left this place, he went to meet the fourth heavenly master, Zhu Shaoping. After that, he went to meet Heavenly King North, Yi Luo."

Celestial Venerable Huo frowned. "He went to see South Heavenly Teacher Zhu Shaoping? How is he now?"

That god hesitated and said, "Heavenly Teacher Zhu is very good, chatting and laughing with Celestial Venerable Mu. When Celestial Venerable Mu left, Heavenly Teacher Zhu even sent him off politely."

Celestial Venerable Huo let out a sigh of relief. If even Heavenly Teacher Zhu was defeated by Qin Mu, the four great heavenly teachers of the celestial heavens would probably lose two great battles!

He then looked at Shang Pinying. After being treated by the Heavenly Physician, Shang Pinying's complexion had recovered a lot, but he would still be distracted from time to time.

"To destroy the number one heavenly master of the celestial heavens without drawing blood, this Qin Mu..."

Celestial Venerable Huo felt a headache coming on. Now, he just couldn't catch Qin Mu's weakness. Even Shang Pinying felt that Qin Mu wasn't harming him and was giving him advice. Even if Celestial Venerable Huo wanted to lay his hands on Qin Mu, he couldn't find an excuse.

"The purpose of his trip is to pay a visit to the four great heavenly teachers and pay a visit to the four great heavenly kings. It's hard to guarantee that one of the four great heavenly kings will be bewitched by him and won't let him continue to do as he pleases!"

He came to Zhu Shaoping's god city, and Zhu Shaoping hurriedly welcomed him. "What is Celestial Venerable here for?"

Celestial Venerable Huo asked, "Did Celestial Venerable Mu do anything when he came here?"

Zhu Shaoping smiled and said, "Celestial Venerable Mu came to check on my situation and see the formation of my army. However, what Heavenly Teacher is seeking is the situation of the world. The changes in the formation that he saw are merely small paths."

Celestial Venerable Huo exclaimed in admiration and asked, "How do I get rid of Celestial Venerable Mu?"

Zhu Shaoping wasn't used to him being straightforward. He hesitated for a moment and said, "No matter who kills Celestial Venerable Mu, they will have to bear the infamy. In that case, why not give the infamy to someone else? I have a plan. When we attack the Great Void in the future, we will let Celestial Venerable Mu charge at the front."

Celestial Venerable Huo said unhappily, “Qin Ye is working with him, he won’t kill him!”

Zhu Shaoping smiled and said, “Celestial Venerable, are you sure Founding Emperor won’t kill him? In the chaotic army, knives and spears have no eyes. Celestial Venerable Mu died on the battlefield and was killed by Founding Emperor. It’s natural.”

Celestial Venerable Huo pondered for a moment and asked, “How many troops do you need to make Celestial Venerable Mu die in the chaos?”

Zhu Shaoping said, “Son of Heaven Yin sent Hu Mengdie, Jiushang Yin, and Yu Wufei to chase after him, but they were all killed by him. Celestial Venerable Mu has too many methods, and his realm is hard to measure. If we use the realms of divine treasures and celestial palaces, his strength will fluctuate between high and low, making it hard to understand.”

Celestial Venerable Huo frowned. Qin Mu’s cultivation was indeed a mystery.

Zhu Shaoping analyzed, “I think it’s because he has fused too many systems into his cultivation. If he’s divided by celestial palaces, his realm is that of a true god. If he’s divided by Dao Realm, he’s equivalent to 27 heavens and 28 heavens of the path. However, it’s hard to measure both of them accurately.”

He paced back and forth and said, “If the Numinous Sky Realm experts he met were to enter the path deeper, his abilities would be weaker. If he entered the path with just his techniques and divine arts, he would be very strong. He would only need to find a few Numinous Sky Realm experts that had a deeper comprehension of the path to kill him in the chaos. If there were existences of the 27 heavens of the path, or even on the Jade Capital Realm, they could kill him!”

He analyzed them one by one and continued, “However, this isn’t his full power. I’ve never seen him fight the Reincarnation Bell, but I’ve also heard of the battle. He should be proficient in Celestial Venerable Ling’s unchanging divine art.”

Celestial Venerable Huo frowned, and the flaming wheel behind his head suddenly spun faster. He wasn’t calm as he said, “Back then, the four of you studied Celestial Venerable Ling’s letter together, yet you couldn’t solve the marvel of the unchanging divine art. How disappointing.”

Zhu Shaoping said carefully, “Celestial Venerable Ling spent more than nine hundred thousand years to comprehend the unchanging divine art. We, the Four Heavenly Teachers, are poor, so we can’t comprehend it in just a few thousand years.”

“But Celestial Venerable Mu learned it,” Celestial Venerable Huo reminded him.

Zhu Shaoping’s face turned slightly red, and he said, “It was most likely imparted to him by Celestial Venerable Ling, so of course we can’t compare to her. Celestial Venerable, even though I haven’t fully comprehended Celestial Venerable Ling’s letter, I have comprehended some marvels. In addition, the other three heavenly teachers also have their own gains, so our four great heavenly teachers should be able to find a way to counter the unchanging divine art. Killing him shouldn’t be difficult.”

Celestial Venerable Huo nodded his head gently and said, “Shang Pinying’s Dao heart is broken, and only you three heavenly teachers are left. Can you design a method to deal with Celestial Venerable Mu?”

Zhu Shaoping smiled and was full of confidence. “We heavenly teachers specialize in wisdom, and our battle power isn’t the best. However, in the entire Founding Emperor Celestial Heavens, only Wen Tiange is worthy of being our opponent.”

Celestial Venerable Huo let out a sigh of relief and said solemnly, “Invite Bai Yujing and Meng Yungui over. Prepare immediately!”

Qin Mu left the god city where Heavenly King Yi Luo was stationed to meet Heavenly King Dong Qianxi.

Heavenly King Yi Luo was also known as Heavenly Lord Yi. Even though he was a smart person, he was only good at charging and breaking through formations. Qin Mu saw that the formation of his army was inferior to the four great heavenly teachers.

There were specialists in every profession. The four great heavenly teachers were known as heavenly teachers for their strategies. They advocated schemes, while the four great heavenly kings were good at charging into enemy lines and advocating martial arts.

Back then, the reason why Founding Emperor Celestial Heavens was defeated so quickly and miserably was because the four great heavenly kings couldn’t participate in the battle due to various reasons. They let the four great heavenly teachers charge and break through the enemy lines, resulting in their defeat.

“Heavenly kings are easy to deal with, but heavenly teachers are hard to deal with. Luckily, Heavenly Teacher Shangping Yin of the celestial heavens has a flaw in his Dao heart.”

Qin Mu came to the god city where East Heavenly King Huang Qianxi was stationed. Huang Qianxi had already heard the news and avoided him. A god said, “Celestial Venerable, you came at the wrong time. Huang Tianjun is going to Celestial Venerable Xu’s place to listen to your teachings.”

Qin Mu thought to himself, ‘Since Heavenly King Dong isn’t willing to see me, the other heavenly kings are probably the same. In that case, there’s no need to meet them.’

The four great heavenly kings of the celestial heavens all had the title of Heavenly Monarch, Heavenly Monarch Yi Luo Yi of the Northern Heavenly King, Heavenly Monarch Huang Qianxi of the Eastern Heavenly King, Heavenly Monarch Xi Muhong of the Western Heavenly King, and Heavenly Monarch Sang Geng of the Southern Heavenly King.

The power of the Four Heavenly Sovereigns was above that of the four heavenly teachers, but the ones with the highest abilities were still the four-colored great emperor, Black Deity, White Deity, Red Deity, and Green Deity.

Four Heavenly Kings, Four Heavenly Kings, and Four Deities were attacking the Great Void together, which showed how important Carefree Village was to them!

‘If the ten guards of the celestial heavens are added, it will be even more terrifying. Even with Fengdu’s support, the Great Void won’t be able to defend against it.’

He looked at Founding Emperor's camp and thought to himself, 'Founding Emperor, how long can you guys last?'

Chapter 1239 – The Strongest In The Primordial Realm

Not long later, the soldiers of the god cities of the celestial heavens were making preparations for battle. A murderous aura filled the air, and Qin Mu shivered. He knew that the celestial heavens was about to mobilize their army to attack Carefree Village and the masters of creation.

'It should be difficult to take down Founding Emperor and Lang Wo in this battle. Why is Celestial Venerable Huo and Celestial Venerable Xu in such a hurry?'

His heart stirred slightly. 'Celestial Venerable Hao is probably on his way!'

He felt a chill in his heart. Did Celestial Venerable Hao bring the divine weapon Celestial Venerable Yu?

If he had the divine weapon Celestial Venerable Yu and Celestial Venerable Hao's unfathomable battle power, could the Grand Emperor really stop him?

"Celestial Venerable Mu."

Suddenly, a god of the celestial heavens who had passed by him turned his head around and smiled at him. "Celestial Venerable Hao has already moved and is rushing to the Great Void. I'll go and intercept him now! Don't forget your promise, prepare the Grand Primordium Origin Stone! Otherwise, I want everyone in Eternal Peace to die, including your livestock and the ants in the ground!"

After saying that, the god shook his head and looked around in confusion. He then continued to work as though nothing had happened.

"Celestial Venerable Hao is here?"

Qin Mu couldn't suppress the excitement in his heart. 'The Grand Emperor and Celestial Venerable Hao are the strongest in history and the strongest in the present generation! I can't miss this battle no matter what!'

His blood boiled, and he wanted to see the battle between Celestial Venerable Hao and the Grand Emperor. However, at this moment, Celestial Venerable Huo walked over and said solemnly, "Celestial Venerable Mu, I will lead the army to attack the rebels in a few days' time. I would like to invite Celestial Venerable Mu to lead an army to attack the enemy camp. What do you think, Celestial Venerable Mu?"

Qin Mu was slightly stunned. "Celestial Venerable Huo is also a shrewd person. He probably chose the day when Celestial Venerable Hao came here. When that time comes, Celestial Venerable Hao will bring his divine weapon Celestial Venerable Yu to attack. He will definitely be able to kill Founding Emperor and Divine King Lang Wo. What a good plan!"

He revealed a smile. "Luckily, the Grand Emperor has come back to life. He didn't expect me to have an agreement with the Grand Emperor!"

Celestial Venerable Huo saw that he didn't reply and asked again.

Qin Mu's complexion was very weak, and he said weakly, "Celestial Venerable Huo, please forgive me. I haven't been feeling well these past few days, and I'm afraid I won't be able to fight on the battlefield. Even though I have the heart to repay the celestial heavens, I'm powerless."

Celestial Venerable Huo frowned, not expecting him to say that.

This brat's qi and blood were still vigorous just now, and he was so excited that he wanted to smash the main camp of the celestial heavens. Now, he suddenly became exhausted and said that he couldn't go to the battlefield.

If he didn't go, could he still kill him?

Celestial Venerable Huo frowned and left. He found Meng Yungui, Bai Yujing, and Zhu Shaoping and said, "What can we do now?"

Bai Yujing and Zhu Shaoping remained silent as they looked at Meng Yungui.

Meng Yungui pondered for a moment and said with a smile, "Although it's hard to see through Celestial Venerable Mu's character from his words and demeanor, I can deduce his character from his past actions."

Celestial Venerable Huo's gaze landed on him, and Meng Yungui continued, "Celestial Venerable Mu reminds me of a kind of animal in the mortal world, a roe deer, a kind of silly deer. It has an exuberant curiosity and often dies because of it. If it was in the past, when Celestial Venerable Huo invited him to the battlefield, even though he knew it was a trap, he wouldn't be able to resist his intense curiosity and agreed to it, wanting to see what tricks we have up our sleeves. Now, his refusal can only mean one thing."

Zhu Shaoping's eyes lit up, and he smiled. "This means that there's something else that makes him even more curious than us!"

Meng Yungui clapped his hands and smiled. "That's right! Actually, the simplest way to kill Celestial Venerable Mu is to arouse his curiosity and lure him into an ambush. Even though he knows there's an ambush, he will still jump in."

Everyone looked at each other in dismay. When they thought of how Qin Mu was usually shrewd and ruthless, they felt that it was inconceivable.

Celestial Venerable Huo looked at Bai Yujing, puzzled. Bai Yujing had always had an idea, but she was very quiet now.

Meng Yungui continued, "However, we don't know what has piqued his curiosity today."

Everyone frowned. No one knew what was going on.

Celestial Venerable Huo took a deep breath and said solemnly, "Observe his movements first. If there's a chance, get rid of him and report it to the celestial heavens. Celestial Venerable Mu has sacrificed himself to report to the empire."

The three heavenly teachers acknowledged. At this moment, someone reported, "Celestial Venerable, Celestial Venerable Mu is missing!"

Celestial Venerable Huo's heart stirred, and he immediately said solemnly, "He must have gone to the Great Void and Youdu! Go and find Son of Heaven Yin!"

Soon, news came from Son of Heaven Yin that Qin Mu didn't go to the Great Void and Youdu. Celestial Venerable Huo immediately ordered the Heaven Eye Race to search for Qin Mu.

However, the Heaven's Eyes searched for a long time, but they couldn't find any trace of Qin Mu in the Great Void.

'I should be able to catch up to the battle between the Grand Emperor and Celestial Venerable Hao!'

Qin Mu was already crumbling the void. He carried Celestial Venerable Yue's lantern and sprinted forward. The crumbling void had already been opened up by the celestial heavens. Every now and then, Vermillion Bird, Black Tortoise, White Tiger, Green Dragon, and the other four god artifacts would suppress the void, preventing the ownerless consciousness from approaching.

Other than that, the four god weapons were guarded by powerful gods and devils, and they were heavily guarded. They built god cities around the four god weapons, and the strong practitioners gave off overflowing flames. From afar, the god cities looked like torches in the darkness.

Celestial Venerable Yue's lantern distorted space, allowing Qin Mu to travel quickly. He had also used this lantern to avoid the eyes of the celestial heavens and leave the Great Void to come here.

Of course, there was no need for him to hide his tracks here, he just had to walk on the path created by the celestial heavens.

'Celestial Venerable Hao must have passed through this path as well. In that case, the best distance for the Grand Emperor to intercept Celestial Venerable Hao is actually the center of this path.'

He carried the lantern and walked for several days. When he came to the center of the crumbling void, he stopped.

Since the Grand Emperor had chosen to intercept Celestial Venerable Hao, he had to be further away from the entrance of the Great Void to prevent Celestial Venerable Hao from escaping. He also had to be further away from the Great Void, in case Celestial Venerable Huo and Celestial Venerable Xu came to reinforce him.

Thus, the center of the collapsing void was the best position.

Qin Mu used Celestial Venerable Yue's lantern, and his speed was extremely fast, not inferior to that of a Celestial Venerable. In fact, he was even faster than a Celestial Venerable. Even Celestial Venerable Huo and Celestial Venerable Xu would need at least four days to reach this place.

If Celestial Venerable Hao was defeated and wanted to escape from the Great Void, he would need four days to do so. The Grand Emperor only needed to chase after him. Four days was enough to get rid of him easily!

"The Grand Emperor should be here!"

Qin Mu sat high up in the sky above the road, his gaze shining brightly as he looked down. There was a mountain pass here, and it was a stone city that the soldiers of the celestial heavens had constructed on the road.

The city was huge, and there were tens of thousands of gods and devils guarding it. There were flying cars, flying ships, and cannon towers in the city, and the soldiers in the city were equipped with bows and arrows.

The city walls of Stone City were stained with blood. It should be some scattered heart devils that had wandered into the crumbling void to attack the roads and Stone City.

"If I were the Grand Emperor, I would choose to hide in the city."

Qin Mu opened the third eye in the heart of his brows and examined it in detail. However, what puzzled him was that he couldn't find any traces of the Grand Emperor even after looking at everyone in the city.

'Could it be that he still hasn't come? I wonder if he broke through the lotus landmass. If he didn't, his abilities wouldn't have reached their peak. However, from how he easily controlled Shang Pinying, his consciousness should have already recovered to its peak...'

Just as he thought that, the vertical eye at the heart of his brows suddenly saw two people walking over from the void path. He was stunned. One of them was Bai Yujing, while the other was a chubby boy in blue.

"Lan Yutian, Celestial Venerable Yu!"

Qin Mu almost cried out in shock. At that moment, an incomparably dazzling divine light came from behind the two of them. Qin Mu focused his gaze and looked around. He saw an incomparably gorgeous treasure carriage driving over. The divine light was boundless and shone through the void!

'Crap! Celestial Venerable Hao is here!'

Qin Mu's mind was blown, and his consciousness rushed out towards Bai Yujing and Lan Yutian. "Leave this place quickly!"

Chapter 1240 – Leg Hair

Bai Yujing laughed and chatted with Lan Yutian as they walked on the path of the crumbling void. "Brother Lan, there are four god artifacts here to suppress us. The consciousness that is crumbling in the crumbling void won't invade this place, so you don't have to worry about your heart devil becoming a reality. However, the only thing you have to be wary of is the heart devil that has already formed."

Lan Yutian looked around and asked curiously, "A heart devil that has already formed?"

Bai Yujing was rather helpless and pulled him back to the path so that this youth full of curiosity wouldn't run into the void. She said, "These heart devils were purposely created by the traitors of Carefree Village. There's a ruthless character in Carefree Village called Yan Yunxi. I once fought with her. She's ruthless, but she's loyal to the traitor Qin Ye. She chose thousands of playboys and sent them into the crumbling void."

Lan Yutian was puzzled.

Bai Yujing pulled him back again and said, "The Dao hearts of these hedonistic sons are very bad. When they came to the crumbling void, it was like pouring ink into a clear pool and boiling it. In an instant, countless heart devils surged out. At that time, we were constructing a void passageway and were attacked by these heart devils. Countless soldiers died before we could stabilize the crumbling void."

Lan Yutian blinked his eyes and said, "Have you guys never thought of pacifying the crumbling consciousness here?"

Bai Yujing smiled. "We've thought about pacifying the crumbling consciousness, but this is a void created by countless masters of creation using their consciousnesses. It was shattered by the Grand Emperor, but not many people in the consciousness celestial heavens do it. Left Assistant Minister Yan Shaoqing has the strongest consciousness, but he was sent to the Primordial Realm to guard the prison..."

Just as she said that, she suddenly sensed something and turned back to look. She saw a Heavenly Venerate Treasure Carriage shining with divine light as it sped over from the void passageway.

'This carriage is the carriage of a Celestial Venerable. Could a Celestial Venerable have descended into the Great Void...'

Before Bai Yujing could think about it, an incomparably powerful consciousness suddenly surged over and transformed into Qin Mu's voice in her and Lan Yutian's minds. "Leave this place quickly—"

When Bai Yujing heard that, she immediately warped the void in front of her with Lan Yutian. Her speed instantly reached its maximum as she flew forward.

She couldn't help but be bewildered. 'This is Celestial Venerable Mu's voice! He's clearly the leader of the traitors, a man of great sin. Why did I choose to believe him without thinking when I heard his words?'

They were about to reach the stone city that was guarding this place. Bai Yujing planned to bring Lan Yutian to hide in the city so that Celestial Venerable Hao wouldn't see them.

Although she could warp space and avoid the detection of other gods, Celestial Venerable Hao was the number one Celestial Venerable among the ten Celestial Venerables of the celestial heavens. He could definitely see through her.

The Land of the Great Void was still in a state of war. As the third heavenly master of the celestial heavens, it was a serious crime to leave his post.

'Celestial Venerable Hao is in such a hurry, he definitely won't stop at Stone City. I might be able to avoid him...'

Just as she was about to bring Lan Yutian into the stone city, the back of the stone city suddenly shone. The dazzling divine light expanded in all directions like the markings of a butterfly!

An incomparably terrifying wave came from the back of the stone city, shattering the crumbling void even more!

At the same time, a huge lotus flower expanded rapidly, growing larger. It pressed down on the stone city in front of Bai Yujing and Lan Yutian, causing it to distort and collapse. The tens of thousands of gods and devils in the city also distorted, and their corporeal bodies collapsed, turning them into a pile of mush in an instant!

Bai Yujing couldn't help but be shocked. She felt an unprecedented terror.

She saw a majestic figure rising up in front of her, and then she could only see the legs of this majestic figure. The speed of this figure's growth was too terrifying, and it soon grew to an immeasurable height. Furthermore, it was still growing frantically!

She saw that this person's leg hair looked like a forest of steel. The black leg hair streaked across the void and split it open!

The leg hair was very thick, even thicker than towering trees. However, the leg hair was smooth and sharp like a sharp spear.

She could even see the skin under the hair of the legs. It was like dry land, and there were thousands of ravines on the skin. There were even rivers flowing on it. The pores of this giant were like huge volcanoes that spewed out heat and steam!

Fear arose in her heart. In the muscles of this incomparably majestic giant, there were even incomparably thick roots that pierced through his skin, causing the area around his wound to rot, revealing his bloody flesh.

These thick roots were like huge dragons meandering, taking root in the lotus landmass.

The lotus landmass was also growing rapidly, growing larger. All kinds of magnificent runes covered the landmass, and it was incomparably gorgeous. It seemed to be restricting the movements of that giant.

These runes were all huge, and some of them were dozens of acres or even hundreds of acres in size. However, as the giant moved, countless runes broke out continuously.

Not only that, there was also a huge metal ball that was the size of a planet revolving around this giant. Countless runes on the metal ball changed and shone continuously, shining on the giant and the lotus land!

“Celestial Venerable Hao—”

The giant spoke, and the sound waves became corporeal. Even though it was whistling through the sky, Bai Yujing and Lan Yutian who were under his feet retched from the vibrations.

Whoosh—

The lotus landmass carried the giant and flew up. They followed the void passageway and headed straight for the Heavenly Venerate Treasure Carriage at an extremely fast speed. The moment the giant and the landmass flew over the head of Bai Yujing and Lan Yutian, their minds went blank.

Their consciousnesses seemed to have frozen, and all their thoughts froze. They didn't even have a single thought in their minds. Only when the lotus landmass flew past them could their thoughts circulate, and only fear remained in their minds.

At that moment, a light shone down from the sky and shone on the two of them. Bai Yujing wanted to resist, but her heart suddenly stirred. “The divine art of the Celestial Venerable Yue...”

She stopped resisting, and the light instantly swept up the two of them into the lantern.

There was a blazing sun inside the lantern, but it was folded up by a space divine art, making it look very small. They were in the lantern and seemed to be in a room with a radius of three hundred yards. It was very warm.

There was another door in this round room. Lan Yutian pushed open the door and stood inside to look outside. He saw Qin Mu's huge face.

“Brother!”

Lan Yutian was overjoyed. He hurriedly turned to Bai Yujing and said, “Sister Heavenly Teacher, you are indeed powerful. You really found my brother!”

Bai Yujing's heart jumped, and she followed him to the door. She raised her head to look at the giant holding the lantern, and it was indeed Qin Mu. Her expression changed slightly. ‘This Lan Yutian is actually Celestial Venerable Mu's younger brother. Their auras are similar in some ways, but they are also very different. Brother Lan is much more innocent than Celestial Venerable Mu, and he's not as bad as Celestial Venerable Mu... Strange, why is one of them surnamed Qin and the other Lan...’

Qin Mu raised the lantern and didn't have the time to look at the two people in the lantern. Instead, he was nervously watching this battle that could be said to be the strongest and most dazzling battle in a million years!

The Celestial Venerable Treasure Carriage was huge, but compared to the lotus landmass and the Grand Emperor's corporeal body, it was insignificant.

The lotus landmass came crashing over, and would collide in the next moment!
