

Tales of Herding Gods Chapter 1246-1250

Chapter 1246 – The Strongest In The World

In the vast land of the Great Void, in the boundless land of the masters of creation, the gods and devils of the celestial heavens, Carefree Village, the gods and devils of the masters of creation, and even the devil gods of the Great Void and Youdu all raised their heads to look at the same place.

An incomparably terrifying throbbing came from there. It was as if a heaven-destroying and earth-destroying behemoth was recklessly releasing its energy, shattering the Great Void and destroying the world created by the masters of creation!

That power was so powerful and terrifying that it filled their hearts with fear and reverence.

They could feel the heaven-destroying and earth-destroying fluctuations rapidly approaching and surging towards the Land of the Great Void. The speed at which it spread was so fast that it was eye-opening.

Even those on Emperor's Throne Realm had a drastic change in expression. That wave was simply too strong and too fast, surpassing their understanding. There was no divine art that could reach such speed!

At this speed, there was only one possibility—the Great Void was disintegrating!

In the main camp of the celestial heavens, on the top of the city wall of the East Descent God City, the second heavenly master, Meng Yungui, raised his head to look at the void beyond the heavens. His face was pale, and just like the soldiers under him, there was only fear left in his heart.

“Wisdom is no match for divine arts, wisdom is no match for divine arts...” he muttered.

Suddenly, the soldiers of the Western Sect became restless. Meng Yungui hurried to stabilize the army's morale. At that moment, he saw the sky split open as giants rushed into the Great Void.

“A walking corpse! It's a walking corpse in the crumbling void!” someone cried out in astonishment.

Those walking corpses were the masters of creation that had died in the previous invasion by the Grand Emperor. Although they were dead, the lingering obsession in their corpses allowed them to continue walking in the crumbling void, searching for their hometown.

However, the walking corpses were unable to enter the Land of the Great Void. They would only cycle over again, walking back and forth in the crumbling void.

And now, the walking corpses had actually rushed into the Land of the Great Void!

Those indomitable giants descended from the sky with flames. They crashed onto the ground and collapsed the mountains, ruthlessly crashing onto the ground. They didn't move for a long time.

These walking corpses were scattered all over the Great Void. Some had fallen into the territory of the celestial heavens, while others had fallen into the territory of Carefree Village.

After a moment, Meng Yungui got a group of scouts and ordered, “Go to the nearest place where the walking corpses have fallen to investigate and report back to me!”

The group of gods and devils received their orders and immediately flew forward. Before they could reach the fallen walking corpses, they suddenly saw the four limbs of the walking corpses lying on the ground in a strange posture. They squatted among the mountains, their eyes pale, and their mouths wide open as they let out mournful cries!

The group of gods and devils became muddle-headed from the impact of the cry, and they saw countless ownerless consciousnesses pouring out of the mouth of the walking corpse like a tide!

‘It’s the consciousness and grudges from the crumbling void that are hidden in these walking corpses!’

The scouts panicked and hurriedly turned to flee. Many scouts couldn’t escape in time and were caught up by the tide of consciousness. Instantly, countless heart devils were born and tore them into pieces!

On the other hand, the walking corpse’s limbs were sprawled on the ground, and his joints were twisted. The other scouts quickly chased after him, and there were sinister and terrifying heart devils everywhere.

This scene could be seen everywhere in the Great Void.

The walking corpses that were crawling on all fours carried countless heart devils as they rushed towards the impregnable pass created by the masters of creation, Carefree Village, and the celestial heavens.

In the sky, the corpses of the masters of creation leaped into the Great Void.

They dragged long flames and smashed into the mountains and rivers. They then opened their mouths and let out mournful cries.

The Land of the Great Void was like a demon realm.

The impact caused by the battle between the Grand Emperor and Celestial Venerable Hao had yet to reach the Great Void, but the impact they had on the Great Void was already there.

“Qin Fengqing—” Founding Emperor Qin Ye’s voice traveled into the Great Void and Youdu.

The big-headed weird infant Qin Fengqing raised his head and looked at the chaotic scene in the Great Void excitedly.

His childish voice echoed in the Land of the Great Void.

“Wherever I am, Youdu is!”

“The grievances of the masters of creation from the primordial era are my most delicious food!”

At the same time, Celestial Venerable Xu raised her left hand and unfurled the cloak of darkness on her body. The horns on her head grew larger and longer, transforming into two long rivers of magma that suppressed the devil nature of the Great Void!

When Qin Fengqing saw this scene from afar, he stuffed his thumb into his mouth and sucked on it. “Why didn’t mother give me two horns? How awe-inspiring... This woman is pretty! If I beat her to death, I’ll take her horns off and put them on my head. She’ll definitely look good!”

Founding Emperor invited Divine King Lang Wo, the leaders of the masters of creation, the four great heavenly teachers, and the four great heavenly kings. He said, “The current plan is to first shrink our forces and prepare to retreat to the Paramita Void at any time.”

Divine King Lang Wo asked, “What Founding Emperor means is that the Great Void might collapse?”

Founding Emperor said calmly, “I know who is fighting in outer space. It’s Celestial Venerable Hao, the Grand Emperor, and the divine weapon Celestial Venerable Yu. The Grand Emperor is about to lose.”

Divine King Lang Wo’s expression changed slightly. She could sense that there were three strong practitioners fighting in outer space. One of them was the Grand Emperor, which was without a doubt.

She could also sense that the Grand Emperor was about to lose!

The Grand Emperor was an existence that she looked up to. He had never been defeated in the ancient primordial era, and even the ancient Celestial Emperor had used some underhanded methods in his battle with the Grand Emperor.

He didn’t expect Celestial Venerable Hao to have the ability to defeat the Grand Emperor!

Founding Emperor saw a trace of fear in her heart, and his Dao heart was unstable. He said, “Celestial Venerable Hao is my opponent. I saw this long ago during the first year of the Dragon Han Era. If Celestial Venerable Yu is the one ruling the world, I will bow my head and submit to him. If it’s Celestial Venerable Hao, I can compete with him for the orthodoxy of heaven and earth. There’s no need for Divine King to be afraid of him. What he’s good at is merely being born nine hundred thousand years earlier than me.”

Divine King Lang Wo was slightly relieved.

Founding Emperor suggested, “When Celestial Venerable Hao fights with the Grand Emperor, the reincarnation of the Grand Emperor among the ten Celestial Venerables won’t be able to sit still. Now that Celestial Venerable Hao is suppressing the Grand Emperor, if that Celestial Venerable makes a move, the outcome will be fifty-fifty. This might be a chance to wipe out the two strong enemies.”

Lang Wo nodded, and the two of them left side by side.

On the other side, Celestial Venerable Xu found Celestial Venerable Huo and said, “Celestial Venerable Hao must have been the one who caused the Great Void to collapse in the battle beyond the heavens.

The other person is either Celestial Emperor or the Grand Emperor. Although Celestial Venerable Hao is sure to win, there might be other variables. We need to make a trip there!”

Celestial Venerable Huo said, “Now is the best time to flatten the Great Void. Why don’t we take the chance to destroy Carefree Village?”

Celestial Venerable Xu smiled and said, “Celestial Venerable Hao is victorious, and it will be easy for him to flatten Carefree Village. There’s no need to rush.”

The two Celestial Venerables immediately left the Great Void and came to the crumbling void beyond the heavens.

Countless corpses of the Great Void’s masters of creation escaped from the crumbling void. Their bodies were stiff as they jumped straight into the Land of the Great Void and fell to the ground.

‘No wonder these masters of creation are going extinct.’

Celestial Venerable Huo shook his head and said, “They have great power and can destroy the nature of heaven and earth without permission. Even after death, they don’t stop. They are inhumane.”

Suddenly, the expressions of the two Celestial Venerables changed. They sensed that Celestial Venerable Hao and the divine weapon Celestial Venerable Yu had another celestial palace!

The 35th celestial palace!

“Celestial Venerable Hao is truly a peerless wise ruler...”

Celestial Venerable Huo muttered, “This is the reason why I assist him wholeheartedly. It’s a pity Celestial Venerable Yun, Celestial Venerable Yue, and the rest don’t understand my good intentions. Only by relying on such a wise ruler can the human race survive in this world.”

He shook his head.

Celestial Venerable Xu’s gaze landed on him. “Celestial Venerable Huo, you imparted your technique to Celestial Venerable Hao? Otherwise, he wouldn’t be so powerful and cultivate the 35th celestial palace so quickly!”

Celestial Venerable Huo said seriously, “He asked me for it, but I can’t not give it to him.”

Chapter 1247 – Mother’s Figure

Celestial Venerable Xu sighed. “You are quite loyal to him.”

The two Celestial Venerables rushed to the battlefield together, only to see the void crumbling and shrinking. The soldiers guarding the void passageway were forced to retreat to the Great Void.

There were quite a number of gods and devils stationed here. The celestial heavens had built numerous god cities here, and at this moment, even the god cities were crumbling, shattering into powder.

Thousands of soldiers of the gods and devils sprinted towards the Land of the Great Void in a frenzy. People were caught up by the annihilated void, and their bodies suddenly exploded into fine powder. After that, even the powder couldn't be found.

They were still resisting and trying to control West Deity's divine weapon to resist the aftermath of the divine art from the crumbling void, but they couldn't block it at all. The main general guarding this place saw that the situation wasn't good and immediately escaped with West Deity's divine weapon. Countless gods of the celestial heavens tried to catch up to this divine weapon and climb onto it, but they were bombarded by numerous gods and devils on the divine weapon, resulting in heavy casualties.

The two Celestial Venerables came here and shook their heads. Celestial Venerable Huo was about to block the aftermath of Celestial Venerable Hao and the Grand Emperor's divine arts for them when he noticed Founding Emperor and Divine King Lang Wo flying over. He was astonished, but he didn't rescue the soldiers of the celestial heavens.

The void collapsed. Although it was powerful, it couldn't hurt Heavenly Venerate level characters like them.

Founding Emperor and Lang Wo also noticed them and slowed down.

The four of them were wary of each other and didn't make a move. Instead, they looked at the battle between the Grand Emperor and Celestial Venerable Hao.

The four of them noticed a string that was constantly moving in the collapsed void. However, their attention was currently focused on this unprecedented battle, so they didn't pay much attention to that string.

At that moment, the Grand Emperor, the strongest existence in the ancient primordial era, suffered a crushing blow. His incomplete Great Overarching Consciousness Heaven was no longer invincible against Celestial Venerable Hao and the divine weapon Celestial Venerable Yu.

"The Dao Realm is still a small path, and it can't be compared to the celestial palaces and celestial heavens," Celestial Venerable Huo said indifferently.

Founding Emperor heard it and smiled. "The Grand Emperor's refinement is off, but that doesn't mean the system of the Dao Realm isn't good. I'm not off."

Celestial Venerable Xu said indifferently, "Only a few people can cultivate to the Dao Realm. The system of the Dao Realm can't benefit all living things. Divine treasures and celestial palaces are the systems that benefit all living things."

Founding Emperor said leisurely, "This is why I'm inferior to Celestial Venerable Yu. However, I'm the pioneer of the Dao Realm, while Celestial Venerable Hao is only learning from Celestial Venerable Yu. This is why he's inferior to me."

Boom—

In the void, incomparably gorgeous light burst forth. Celestial Venerable Hao and Celestial Venerable Yu, the divine weapon, one executed the Connate Qi while the other executed the Great Dao of the Ruins of End. They attacked from both sides, piercing through the Grand Emperor's chest and even a huge hole in the back of his head.

The Grand Emperor fell to his knees. His consciousness was hard to destroy, but when he encountered the Great Dao of the Ruins of End, he couldn't withstand that kind of pressure.

Only one of the three great god kings of the primordial era had died completely, and that was Sun God King Bo. He had died under the Ruins of End divine art of Celestial Empress' sister!

Other than the unchanging divine art, the Ruins of End divine art was also the Grand Emperor's nemesis. However, it wasn't as direct as the unchanging divine art.

The divine art of the Ruins of End required a strong realm and magic power to support it, while the unchanging divine art sealed the consciousness directly, preventing it from changing.

Celestial Venerable Hao and the divine weapon Celestial Venerable Yu flanked him. One suppressed him with the qi of the heavens, while the other obliterated him with the Ruins of End divine art. At the same time, they attacked the kneeling Grand Emperor.

This strike could kill the invincible Grand Emperor!

Just as the Grand Emperor was about to die from the power of this attack, another tiny figure suddenly rushed over at lightning speed, heading straight for the back of Celestial Venerable Hao's head.

Compared to the huge bodies of the Grand Emperor and the divine weapon Celestial Venerable Yu, this tiny figure was like a speck of dust, insignificant.

Although this figure was small, the power it gave off was incomparable.

The power of the divine weapon Celestial Venerable Yu could be said to be unmatched in the world. It was easy for him to crush an existence on Emperor's Throne Realm with just his power. However, when this tiny figure made a move, the surging power wasn't any weaker than the divine weapon Celestial Venerable Yu. It was even stronger!

Celestial Venerable Hao revealed a smile, as if he had already expected this. The divine art that was attacking the Grand Emperor easily changed directions to meet the tiny figure!

"Both of us are Celestial Venerables, and both of us have been hiding our abilities. Grand Emperor, it's time to see who's better in the last million years!"

His magic power surged, and his innate one qi controlled ten thousand paths. The Great Dao and magic power gathered from the thirty-five celestial palaces were already invincible!

That tiny figure had originally hidden her true appearance and used divine light to cover her face to prevent him from seeing through her origin. However, under the attack of Celestial Venerable Hao's Ten Thousand Dao Heavenly Wheel, her protective divine light crumbled!

Celestial Venerable Hao was stunned when he saw her face.

What he saw was actually the face of Mistress Yuanmu!

‘Crap, it’s consciousness divine art that’s covering my consciousness!’

Celestial Venerable Hao shouted, “Break—”

At the same time, the Grand Emperor laughed loudly. The celestial palaces behind him expanded, and new celestial palaces appeared continuously!

Celestial Venerable Hao was waiting for this chance to heavily injure the Grand Emperor hidden among the ten Celestial Venerables. The Grand Emperor was also waiting for this chance. Heavenly Lady Qiang was using Mistress Yuanmu’s appearance to disrupt Celestial Venerable Hao’s consciousness, giving him a chance to attack Celestial Venerable Hao!

There was always someone stronger among the strong, and there was always someone stronger!

He borrowed Heavenly Lady Sheng Qiang to hide in Celestial Emperor’s chambers of concubines and interacted with other Celestial Venerables, so he knew everyone very well.

As the number one consciousness, the Grand Emperor’s powerful consciousness allowed him to easily grasp everyone’s weakness, and he had long figured out Celestial Venerable Hao’s weakness.

Celestial Venerable Hao loved his mother!

This was Celestial Venerable Hao’s weakness.

Heavenly Lady Qiang used her consciousness to disturb Celestial Venerable Hao, making him think she was Mistress Yuanmu, giving him a chance!

Meanwhile, behind the Grand Emperor’s head was a celestial palace that formed the celestial heavens. Although the number of celestial palaces wasn’t as many as Celestial Venerable Hao’s, there were still as many as thirty celestial palaces. This made the Grand Emperor, who looked like he was about to die, instantly look energetic.

Boom—

The divine weapon Celestial Venerable Yu’s palm covered the Grand Emperor’s head, transforming into a huge abyss that swallowed the head. The Grand Emperor didn’t even bother to defend himself.

He punched through Celestial Venerable Hao’s 35 celestial palaces, and his Great Overarching Consciousness Heaven exploded in the celestial heavens, throwing Celestial Venerable Hao’s primordial spirit into it.

His other attack pierced through Celestial Venerable Hao’s back and shattered his heart.

At the same time, Celestial Venerable Hao's attack landed on Heavenly Lady Qiang's body. She didn't dodge and took the blow head-on. All her bones shattered, and she flew backward.

Heavenly Lady Qiang's consciousness divine art stabbed into Celestial Venerable Hao's brain, and it exploded!

On the other side, a loud crack rang out. The divine weapon Celestial Venerable Yu's Great Abyss of Ruins divine art had forcefully twisted the head of the Grand Emperor and swallowed him.

The Grand Emperor had no head, but he seemed to be unaffected. He stretched his hand out to grab Celestial Venerable Hao's primordial spirit that had fallen into the Great Overarching Consciousness Heaven.

The divine weapon Celestial Venerable Yu took out a 10,000 Heavenly Wheel from the abyss and swung it down. The Grand Emperor had just grabbed Celestial Venerable Hao's primordial spirit when his arm was severed.

At that moment, Heavenly Lady Qiang's consciousness burst forth and rushed into the heart of the divine weapon Celestial Venerable Yu's brows. The hand that was slashing at the Grand Emperor's corporeal body stopped.

With a crack, the Grand Emperor's single arm pierced through the chest of the divine weapon Celestial Venerable Yu.

Chapter 1248 – A Catastrophe Is Coming

The celestial palaces behind the four of them exploded, and countless buildings in the celestial heavens' celestial palaces collapsed. Dazzling divine light covered a radius of a hundred thousand miles, and even Qin Mu and Bai Yujing could only see the shadows flickering in the light. They rose and fell like falcons, changing at lightning speed, but they couldn't see what was happening inside.

"Third divine eye!"

Qin Mu immediately opened up the vertical eye in the heart of his brows and used all his strength to execute this eye to look at the center of the divine light. He was so excited that his whole body was trembling, and his fists were tightly clenched.

Bai Yujing couldn't see the details in the light and stopped watching the battle. She carefully controlled the lantern to control the strings of light. When she saw Qin Mu like this, she couldn't help but shake her head and think to herself, 'Why is Celestial Venerable Mu so curious? He's like a moth flying into the fire... No, he's like a silly roe deer in the snow. He'll die of curiosity sooner or later!'

She decided to tell him this weakness once Qin Mu satisfied his curiosity.

When Bai Yujing thought of this, she was suddenly stunned. 'Celestial Venerable Mu is clearly my enemy, so why should I tell my enemy his weakness? Wouldn't it be better for me if he dies?'

She was flustered. This could only mean that her position was slowly changing.

In the past, she had treated herself as a heavenly master of the celestial heavens and thought of everything for the celestial heavens. Even though she was a mortal enemy of Black Deity and Son of Heaven Yin, she had never thought of betraying the celestial heavens.

Ever since she met Qin Mu, she had wanted to kill him more than once, but she never made a move.

However, ever since she found out about Celestial Venerable Huo and Qin Mu's fight and ran to Southern Heaven, she gradually understood Qin Mu.

Because of her understanding, she unknowingly stood on Qin Mu's side.

Regarding Celestial Venerable Huo's Southern Heaven and Qin Mu's Eternal Peace, she had never made a judgment on who was right and who was wrong. However, in her heart, she had long made a judgment.

She didn't think she was the reincarnation of South Deity's soul, but she had always recognized herself as a human.

She stood on the side of the human race and decided to stand on Qin Mu's side.

When she understood all of this, she suddenly felt relieved and smiled.

As a heavenly master, she was a heavenly master of the human race and not a heavenly master of the celestial heavens.

Qin Mu opened the vertical eye in the heart of his brows and finally caught the change in the center of the light. Together with Celestial Venerable Yue's zither strings, many small Qin Mus worked hard in the dream realm to break the Dao voice and perfect the First Heaven Qi to break the runes of the Tai Chu Dao.

If he could completely solve the runes of the Great Dao of Tai Yi on the eggshell, it would be equivalent to him obtaining half of the Great Dao of Tai Yi. Even Celestial Emperor's Dao might not surpass more than him.

Not only that, his Precelestial Celestial Palace was also growing rapidly and taking shape. Buildings and pavilions rose from the ground, and countless bricks and stone pillars swirled in the air. Divine palaces and temples were taking shape automatically.

Furthermore, because of the battle between the Grand Emperor and Celestial Venerable Hao, the consciousness celestial palace became even more complete and extraordinary!

No one dared to say anything about the battle between the Grand Emperor and Celestial Venerable Hao, but Qin Mu was definitely the one who had received the most benefits.

The moment he saw the scene in the light, a few more figures suddenly appeared!

Qin Mu saw the sword light that filled heaven and earth in an instant. He saw the boundless holy flames that burned everything. He saw the cold and emotionless Lang Wo and Celestial Venerable Xu, who was shrouded in darkness and lava!

Founding Emperor's sword stabbed Celestial Venerable Hao, and the 34 heavens of the sword realm exploded. The sword light was piercingly cold, almost tearing Celestial Venerable Hao apart!

Celestial Venerable Huo attacked Founding Emperor, and the unprecedented fire domain was even more terrifying than the birthplace of South Deity. Even Carefree Sword was melted, and molten divine metal dripped down continuously.

Even Founding Emperor's corporeal body, primordial spirit, and even Founding Emperor's sword celestial palace were ignited by his unrivaled fury.

Divine King Lang Wo attacked the Grand Emperor, while Celestial Venerable Xu attacked Heavenly Lady Qiang. However, they were too close and were enemies, so they attacked at the same time.

The two girls were hit almost at the same time, hitting Heavenly Lady Qiang and the Grand Emperor at the same time.

Celestial Venerable Hao was severely injured, and he tried his best to escape from the Founding Emperor Sword. He flew into the body of the divine weapon Celestial Venerable Yu, but the one-armed Grand Emperor withstood all kinds of attacks and rushed over, smashing the divine weapon Celestial Venerable Yu into pieces with his remaining arm.

In the light strings, Qin Mu was dumbfounded as he clapped and cheered.

There were so many changes in this short period of time that it was dazzling. The changes in all kinds of divine arts were breathtaking.

"However, this zither melody is gradually becoming chaotic."

Qin Mu sighed in pity.

The Celestial Venerable level existences fought chaotically, and their divine arts fluctuated as they attacked Celestial Venerable Yue's zither strings, causing the music to become chaotic.

In the battle between the Grand Emperor and Celestial Venerable Hao, the consciousness divine art and the innate one qi were both from the Great Dao of Absolute Beginning. Even though there was the Great Dao of the Ruins of End interfering, the interference was smaller, but there was too much interference now.

Now that the tune was in chaos, it was already very difficult to distinguish which tune was Innate Qi, which was Sword Dao, and which was Divine Sense Dao.

However, Qin Mu was already very happy.

“The battle between the eight Celestial Venerables forced us to leave!” Bai Yujing’s exasperated voice rang out.

Qin Mu immediately said, “Look again...”

“Look at your big head!”

Bai Yujing was furious and scolded, “Go home and see your brother Qin Fengqing! The strings of the Moon Master can’t even handle the eight Celestial Venerables. If you don’t leave now, you will die here!”

Qin Mu hurriedly dispersed his dream and entered the path. He looked left and right and saw the fluctuations of the light strings becoming more rapid. The fluctuations of the light strings were also becoming more intense. It was indeed as Bai Yujing had said, the strings could no longer hold on.

Bai Yujing pulled back the light strings, and the shortened light strings vibrated continuously. She avoided the terrifying aftershocks and rushed towards the Land of the Great Void.

Qin Mu looked at Lan Yutian and saw little fatty still entering the path, comprehending something.

He looked down and saw that more than half of the crumbling void had been destroyed. Numerous gods of the celestial heavens were fleeing frantically towards the Land of the Great Void.

The flying ships flew rapidly, and the chariots advanced frantically. On the way, they even crushed countless of their own people.

Other than that, there were also gods and devils that were riding on North Deity divine weapons and West Deity divine weapons. They rushed forward along the void passageway, and the soldiers that couldn’t dodge in time were crushed to death by the two divine weapons.

“When disaster strikes, the gods and devils that are high above are actually similar to ordinary people.”

Qin Mu couldn’t help but have a mocking mentality. “It’s laughable that all of you still think you are high and mighty, insufferably arrogant.”

Suddenly, the strings of light retracted and turned into a lantern in Bai Yujing’s hand. She carried the lantern, and the light shone on the three of them as they hurried forward. They were getting closer to the Land of the Great Void.

The fluctuations weren’t too powerful, but what was truly terrifying was the crumbling void.

The void was annihilated, and the energy that burst forth was extremely terrifying. Without the lantern, even Bai Yujing wouldn’t be able to last long.

Finally, Bai Yujing brought them into the Land of the Great Void and flew down from the sky.

“The Land of the Great Void might collapse as well. Let’s go to the Void Bridge first!” Qin Mu said solemnly.

At this moment, they saw numerous walking corpses jumping down from outer space. They transformed into blazing flames in midair and fell into the Great Void.

“These walking corpses contain a lot of consciousness from the crumbling void.” Qin Mu was stunned.

Boom—

The sky shook violently, and a planet-sized object fell from the sky of the Land of the Great Void.

Qin Mu’s eyes were sharp, and he couldn’t help being shocked. “The head of the divine weapon Celestial Venerable Yu! Wait a minute, that person is Celestial Venerable Hao!”

He saw Celestial Venerable Hao sprawled out on the tip of the divine weapon Celestial Venerable Yu’s nose.

Boom boom boom—

Another loud explosion rang out. Celestial Venerable Huo and Founding Emperor were both injured as they left. Celestial Venerable Xu and Divine King Lang Wo also suffered heavy injuries as they escaped. However, they didn’t see the Grand Emperor and Heavenly Lady Qiang.

Qin Mu was stunned and suddenly became excited. “White Heaven Master, I have a bold idea!”

“Don’t even think about it!” Bai Yujing rejected him.

Qin Mu didn’t seem to hear him and continued to say excitedly, “Let’s chase after Celestial Venerable Hao! We’ll take his life while he’s sick!”

Chapter 1249 – Rebellious Thieves

Bai Yujing jumped in shock. She had a good understanding of Qin Mu’s character, so she rejected him before he could say anything. She didn’t expect Qin Mu to be so terrifying when he said that idea.

“Who’s following us? You traitor!”

She couldn’t help but be angry, but her heart started to stir. Now that Celestial Venerable Hao was severely injured, and the divine weapon Celestial Venerable Yu only had his head left, Celestial Venerable Hao couldn’t move. Now was the best time to get rid of him!

It wasn’t just Celestial Venerable Hao, but also the chance to get rid of the Grand Emperor and Heavenly Lady Qiang!

If he could find them and kill Celestial Venerable Hao and the Grand Emperor...

Her heart pounded wildly. This temptation was too great. Even though she was a heavenly master of the celestial heavens, she couldn’t resist this temptation.

'Getting rid of the strongest of the primordial era and the strongest of the current era in one go...' She seemed to have heard her own thoughts, but she immediately reacted. This was Qin Mu whispering in her ear.

Bai Yujing pushed Qin Mu to the side and said, "I'm a heavenly master of the celestial heavens, so I can't do as you do. However, as a heavenly master of the celestial heavens, I have to treat Celestial Venerable Hao as my responsibility and not let him be in danger."

She said indifferently, "However, if someone kills Celestial Venerable Hao before me, I can only cry my eyes out."

Qin Mu laughed loudly.

Bai Yujing rolled her eyes at him, feeling both angry and amused at the same time. "Don't be happy so early, I won't work with you... The divine weapon Celestial Venerable Yu's head is over there, let's go that way!"

Lan Yutian was still comprehending the Dao. Qin Mu opened the lantern door and stuffed him into the lantern, allowing him to comprehend.

Although Lan Yutian's talent wasn't bad, his abilities were too weak to be of use in chasing after Celestial Venerable Hao.

Bai Yujing shook her head. "We can't use lanterns. If someone sees us, they will definitely guess our identity."

Qin Mu thought about it and kept the lantern.

The lantern belonged to Celestial Venerable Yue, and he had once traveled around with it. Furthermore, Bai Yujing had a lot to do with Celestial Venerable Yue. Celestial Venerable Huo and Son of Heaven Yin knew that Bai Yujing was Celestial Venerable Yue's disciple and the reincarnation of South Deity's soul.

The lanterns could indeed expose their identities.

In the main camp of the celestial heavens, Celestial Venerable Huo and Celestial Venerable Xu descended almost at the same time. They landed on the ground and staggered.

Celestial Venerable Huo grunted and turned his head to press down on his mouth, swallowing back the blood that had rushed to his throat.

The flaming wheels behind his head were tattered and almost extinguished. Dozens of sword wounds also appeared on his body, which were left behind by Founding Emperor.

Other than the wounds left behind by Founding Emperor, he also had injuries left behind by consciousness. Those were wounds left behind by the Grand Emperor.

These wounds looked like external injuries, but the internal injuries were even more severe. Within Celestial Venerable Huo's body, in his divine treasures and celestial palaces, countless sword lights were rampaging, accompanied by Great Overarching Consciousness Skies.

Celestial Venerable Huo quickly walked into his hall and raised his hand to ring the bell. Immediately, palace maids came over.

Celestial Venerable Huo instructed, "Invite Red Deity over."

Not long later, Red Deity Qi Xiayu came into the hall and bowed to Celestial Venerable Huo.

Celestial Venerable Huo suppressed his injuries and said, "Although the annihilation of the void will affect this place, it won't destroy the Great Void. You don't have to worry. Red Deity, Celestial Venerable Hao fought with the Grand Emperor and was severely injured. He fell into the Great Void. Don't make a fuss and bring some experts to find Celestial Venerable Hao. This is the best time for you to make a contribution."

Red Deity Qi Xiayu was astonished. She bowed to receive the order and planned to leave to find experts.

"Wait!" Celestial Venerable Huo called out to her.

Qi Xiayu stopped and looked at Celestial Venerable Huo in doubt.

Celestial Venerable Huo stood up and walked around unsteadily. After a moment, he made up his mind and said in a low voice, "Red Deity, if Celestial Venerable Hao's injuries are too severe, then, then..."

He raised his palm and slanted it downwards. "Do you understand?"

Red Deity Qi Xiayu's heart trembled, and she nodded solemnly.

"Go quickly." Celestial Venerable Huo waved his hand.

In another hall, Celestial Venerable Xu also suppressed his injuries and instructed his trusted heavenly king, Heavenly Lord Xi Muhong, to say, "Celestial Venerable Hao was severely injured by the traitor, the Grand Emperor. We don't know if he's dead or alive. Heaven Sovereign Xi, bring some of your trusted aides and don't make a scene. Go find Celestial Venerable Hao."

Heavenly Lord Xi Muhong was a handsome man, but his aura was a little sinister. "Celestial Venerable, I lead troops into battle. I should leave this to Meng Yungui and Heavenly Master Meng."

Celestial Venerable Xu took a look at him and said calmly, "Meng Yungui may be smart, but he has a lot of selfishness. He's not as pure as you. Go ahead, wait a moment!"

She looked at Heavenly Lord Xi. "If Celestial Venerable Hao is seriously injured and can't be treated, you should know what to do, right?"

Xi Tianjun was astonished and said with a smile, "Celestial Venerable, you should have done so long ago! I shall take my leave and settle this great matter. I won't disappoint you, Celestial Venerable!"

Celestial Venerable Xu let out a sigh of relief and said in a low voice, "There should be quite a number of people looking for Celestial Venerable Hao now, right? Other than Celestial Venerable Huo and me, I'm afraid that Celestial Venerable Qin of Founding Emperor and Divine King of creation called Lang Wo will also send out their elite soldiers to take this opportunity to kill Celestial Venerable Hao. However, this is indeed the best time to kill Celestial Venerable Hao!"

Just as she had expected, Yan Yunxi received Founding Emperor's order and immediately summoned Lü Zheng, the donkey, to set off.

At this moment, numerous masters of creation's elders roared and rushed out in all directions.

Yan Yunxi retracted her gaze and saw an old bull running over. Martial Arts Heavenly Teacher Zhou Cha sat on the bull's back and said solemnly, "Heavenly Teacher Zi Xi, let me help you."

Yan Yunxi was a little unhappy when she saw a black tiger running over. Saint Woodcutter sat on the tiger's back and said, "I'll help too."

Yan Yunxi's gaze wandered around them. One of them was extremely brave, while the other was extremely intelligent. They were both people she liked, but they weren't perfect.

"Only Jiang Baigui..." She shook her head.

Bai Yujing and Qin Mu rushed towards the place where the divine weapon Celestial Venerable Yu's head had fallen. The two of them searched around, and Bai Yujing checked the techniques and divine arts he had used to travel. She asked, "Did Master Yue not teach you the art of space?"

Qin Mu shook his head. "Every time I go to see her, I don't see her. She's always hiding behind the screen. Have you seen her?"

Bai Yujing also shook her head. "I want to see her, but I don't dare. She... she was injured by Celestial Venerable Huo?"

Qin Mu recalled how he had helped Celestial Venerable Yue enter the path in her dream and said, "She was disfigured by Celestial Venerable Huo."

Bai Yujing was silent.

Suddenly, the two of them stopped and saw a strange world in front of them that was like a nightmare. There were devils in their hearts that were twisted everywhere. These devils were of all shapes and sizes and were the fear in the hearts of gods and devils.

The Land of the Great Void originally had heart devils, but they were strange. They weren't the heart devils of the people who came to the Land of the Great Void, but the heart devils of the past masters of creation.

These devils came from the battle when the Grand Emperor attacked the Great Void.

The Grand Emperor's supreme consciousness realm was broken by Yun, Ling, and Yue, and he died on the Lotus Continent. The Land of the Great Void collapsed. At that time, the masters of creation tried to restore the Land of the Great Void to its original state, but they couldn't.

Their visualization turned the Land of the Great Void into a place that would always return to its original state no matter how much it was destroyed. Even if the heart devils were killed, they would reappear.

The masters of creation couldn't survive here, so they wanted to migrate to the Paramita Void.

The heart devils now came from the crumbling void and were different from the native heart devils of the Great Void.

Boom, boom, boom. A huge corpse of a master of creation crawled out from the mountains on all four limbs. It stepped on the mountain rocks, sending them flying. Countless heart devils circled around the huge corpse.

"The void is destroyed, and the Land of the Great Void has changed again!" Qin Mu's expression was grim. The Great Void was even more dangerous than before.

The walking corpse roared, and all the devils in his heart looked at Qin Mu and Bai Yujing.

Chapter 1250 – The Great Void's Demon Territory

Bai Yujing looked at the heart devils pouncing over, and even she was slightly alarmed. She hurriedly said, "There are too many chaotic consciousnesses in the Great Void, causing these walking corpses to mutate! The bodies of these walking corpses are filled with chaotic consciousnesses and devil nature, becoming the masters of these heart devils!"

There were a lot of heart devils, and among them, there were huge walking corpses that were rumbling towards them.

When Bai Yujing led the army to the Land of the Great Void, she had dealt with the heart devils in the crumbling void and knew how strange and troublesome they were.

There were strong and weak inner demons. The main thing was whose inner demon it was.

It was fine if it was the heart devils of divine arts practitioners because their horizons and knowledge were limited. Their heart devils wouldn't be too strong.

Many terrifying creatures that seemed inconceivable to divine arts practitioners were merely so in the eyes of gods.

What was terrifying was the devil in the god's heart.

The higher the cultivation realm of a god, the stronger the heart devil would be. In the crumbling void, they even needed the heart devil of some terrifying existence to attack the void passageway. Luckily, Celestial Venerable Huo and Celestial Venerable Xu were there, and other Celestial Venerables came to kill him.

Looking at these heart devils, they were probably the remaining heart devils in the crumbling void. Most of them were the heart devils of the soldiers of the celestial heavens and the prodigals of Carefree Village. Every heart devil had extremely powerful abilities!

However, the most powerful one was probably that walking corpse!

These walking corpses were no longer purely walking corpses. What controlled them was no longer the undying obsessions of the masters of creation, but the devil nature in the void.

The devil nature entered the body of the walking corpses and controlled their corporeal bodies. In addition, the corporeal bodies of the masters of creation from prehistory were incomparably strong. They were visualized as divine gold and were definitely her strong opponents!

“Celestial Venerable Mu, you block these heart devils and help me to the side of the walking corpses. I’ll subdue them!”

Bai Yujing rushed forward quickly. Even though the heart devils were strong, Qin Mu’s divine arts should be able to handle them.

She knew Qin Mu’s abilities. In front of the main camp of the celestial heavens, Qin Mu had defeated Yu Wufei and killed Nine Yin Supremacies, displaying abilities that weren’t inferior to those of the Numinous Sky Realm.

Unexpectedly, just as she said that, Qin Mu had already rushed out and shouted, “White Heaven Master, I’m best at subduing the devil nature, help me get close to the walking corpses!”

“Is it chaotic consciousness and devil nature? That’s easy to deal with...”

Qin Mu’s eyes lit up, and he rushed towards the heart devils. “White Heaven Master, you deal with these heart devils. I’m best at dealing with the devil nature of the walking corpses!”

Bai Yujing had no choice but to follow behind him. The two of them rushed forward one after another.

The heart devils were extremely powerful, and they didn’t fear death. However, when Bai Yujing executed her Space Dao, they were teleported thousands of miles away before they could even get close to the two of them!

Qin Mu barged his way through the heart devils, and Bai Yujing continuously executed her space divine art to open up a path for him. However, in the heart devils, the incomparably huge walking corpse’s four limbs were flying as though they were flying, crushing countless heart devils as they rushed towards Qin Mu!

Bai Yujing’s heart pounded. There was no lack of extremely powerful existences among these heart devils, yet they were crushed to death by the huge walking corpse. The devil nature in this walking corpse’s body was terrifyingly strong!

Suddenly, the walking corpse exerted strength in its four limbs and leaped high into the air. It opened its bloody mouth and fell from the sky!

Bai Yujing instantly prepared to execute her space divine art, but she forced herself to hold it down and not use it. She wanted to see how Qin Mu would deal with it.

“Wherever I am, Youdu is!”

Qin Mu shouted, and with his body as the center, boundless Youdu devil qi poured out. Flames blazed above his head, and Youdu devil fire transformed into a long horn that had nine turns and eighteen bends!

His corporeal body expanded, becoming taller and bigger. It bulged out, and in the blink of an eye, he transformed into a Earth Count that was thirty thousand yards tall. He had the head of a bull, the face of a tiger, and the body of a human. His muscles were sinister.

The walking corpses in the sky pressed down, and Qin Mu executed Youdu divine art. He saw the devil qi covering a radius of thousands of miles, transforming this place into Youdu. Black qi poured out from the eyes, ears, mouth, and nose of the walking corpses, and the black qi was like thick smoke that rolled over and was swallowed by Youdu!

The black smoke billowed and was extremely dense. The devil nature that had accumulated in the Great Void over the past million years was numerous. Now, it had escaped from the crumbling void and accumulated in the bodies of the walking corpses.

There weren't many walking corpses, so every one of them had a vast amount of devil nature.

Qin Mu transformed into Earth Count and frantically refined the devil nature. He sneered and said, “Before I became Celestial Venerable Mu, I had a nickname, Son of Youdu. How dare you be so arrogant in front of me...”

“Be careful!” Bai Yujing cried out from behind.

Qin Mu hurriedly raised his head and saw a huge foot on his head.

Boom—

The huge body of that walking corpse pressed down, smashing the ground and the void until they cracked. Mud and mountain rocks rose up like waves and flooded in all directions.

Bai Yujing hurriedly condensed space into a sword and slashed down, splitting the waves and splitting the wind into two!

‘The sword skills that Zi Xi imparted to me are indeed marvelous and extraordinary... That’s right, Celestial Venerable Mu!’

Bai Yujing came back to her senses and hurriedly went forward. She saw the corpse of the walking corpse piled up there like a dozen mountains pressing down on the ground. There was no breath left, and the devil qi and devil nature in his body must have been dissolved.

Meanwhile, the Earth Count that Qin Mu had transformed into was already gone.

“Celestial Venerable Mu...”

Bai Yujing was depressed, but she immediately felt a sense of satisfaction in her heart, as if she couldn't wait for Qin Mu to be killed.

Right at this moment, Qin Mu's weak voice came from below the walking corpse. “White Heaven Master, lend a hand...”

Bai Yujing hurriedly moved the corpse of the walking corpse away and saw that it was three thousand yards deep. The Earth Count that Qin Mu had transformed into was sprawled out in a huge human-shaped imprint. His face was covered in blood, and he couldn't move.

The horns on his head were also broken into seven or eight pieces.

Bai Yujing hurriedly pulled him out, and Qin Mu executed Overlord Body Three Elixir Technique. His corporeal body recovered quickly, and he said, “I said I'm best at dealing with the devil nature. Look, killing the walking corpses is easy for me, right?”

Bai Yujing nodded and said, “There are still footprints on your face...”

Qin Mu wiped away the footprints and said, “However, if we meet this kind of thing next time, I think we should avoid it first. It's not that I'm afraid of this kind of thing, it's just that the devil nature is useless to me. This is my brother's food, and he will definitely be very unhappy if I snatch his food.”

Bai Yujing nodded and said, “I understand. Celestial Venerable Mu, there are footprints on your clothes too.”

Qin Mu visualized clear water and washed away the footprints and bloodstains on his body. He then used his vital qi to dry his clothes and said, “I love my brother very much and have given in to him since I was young.”

Bai Yujing understood and said, “Celestial Venerable, there's no need to say anymore. I understand. We have to hurry. I saw a few groups of people flying through the sky just now. They should be looking for Celestial Venerable Hao.”

Qin Mu didn't explain any further, and the two of them avoided the walking corpses along the way. Qin Mu had originally planned to fly into the sky to find Celestial Venerable Hao, but there were flying monsters everywhere in the sky. Those heart devils gathered like dark clouds, but their speed was extremely fast. In an instant, the clouds dispersed and gathered like lightning.

Not only that, those huge walking corpses were also crawling on top of the devils in their hearts, being carried by countless devils in their hearts.

This place was like the devil territory, where devils danced.

As they walked on the ground, they saw three to four groups of gods searching for Celestial Venerable Hao being attacked by the heart devils led by the walking corpses. People died miserably one after another.

Qin Mu had a grim expression. He even saw a few existences on the Numinous Sky Realm being torn into pieces before being eaten up by the devils in the heart!

'The place where Celestial Venerable Hao fell shouldn't be far away!'
