

Tales of Herding Gods Chapter 1271-1275

Chapter 1271 – A Different Dao

Bai Yujing was stunned. They were about to catch up to Lan Yutian, so why did they turn back now?

“Celestial Venerable Yu, he...”

“He’s no longer Celestial Venerable Yu, just like me. I’m not Qin Fengqing, just like you. You aren’t South Deity.”

Qin Mu smiled. “We are all independent lifeforms and have our own independent consciousness. In the future, I will create another body for Celestial Venerable Yu’s memory, and Lan Yutian will also return his soul to Celestial Venerable Yu.”

He looked at Bai Yujing and said, “I will also create another body for you and a soul to replace South Deity’s soul.”

Bai Yujing was relieved and smiled. “You are the real Celestial Venerable now.”

Qin Mu couldn’t help but laugh. “I’m the true Celestial Venerable now? Could it be that in your eyes, I wasn’t even a Celestial Venerable in the past? White Heaven Master, what do you think of the ten Celestial Venerables of the celestial heavens compared to me?”

Bai Yujing said sincerely, “Their abilities far surpass yours, but their magnanimity is not as great as yours.”

Qin Mu laughed loudly. “No wonder Fatty Dragon likes to wag his tail. If I had a tail, I would also wag it!”

Bai Yujing smiled and followed him quickly.

The two of them turned back to look, and the lost Lan Yutian was leading his three thousand disciples towards the pass that Carefree Village had built in the Great Void. There were already divine generals leading thousands of troops there.

Qin Mu returned to Westfall Divine City and didn’t immediately create another corporeal body for Bai Yujing. He said, “I can reconstruct the divine soul, and I can also reconstruct the corporeal body. However, there’s a huge flaw in using visualization. Using the path of creation to reconstruct the corporeal body will create a mortal body. The best way is to use creation divine weapons.”

Bai Yujing’s eyes lit up. “There’s a creation divine weapon in the celestial heavens!”

When Qin Mu thought of the Patriarch Creation Palace and the Patriarch Creation Palace Master, Shi Qiluo, he felt a headache coming on. He really didn’t want to see Shi Qiluo again, so he said, “I can also create a creation divine weapon, but Eternal Peace doesn’t have enough heavenly works. If I want to create a corporeal body that’s exactly the same as yours, I will need to draw the data of your body...”

Bai Yujing blushed and said, "I'll do it myself. I learned algebra from Dao Ancestor for a period of time."

Qin Mu nodded his head and said with concern, "Drawing the data is very troublesome. If it's inconvenient for you, my attainments in algebra aren't bad. Furthermore, I'm proficient in entering the path through dreams, so I should be able to study your body thoroughly in no time..."

"I'll do it myself!" Veins popped out on Bai Yujing's forehead as her eyes widened.

Qin Mu was a yes-man and was puzzled. 'Girls are like this, what's there to be angry about? Even an existence like Heavenly Teacher is no exception...'

He quietly left the Land of the Great Void without telling anyone.

After all, there were too many people who wanted to kill him in the Land of the Great Void, and almost half of it was occupied.

At this moment, Lan Yutian also came to Founding Emperor's territory. Founding Emperor's injuries had yet to recover, but he still came out to welcome them personally.

Lan Yutian continued to do as he pleased. Founding Emperor admired him the most, so he naturally welcomed him warmly. However, he couldn't find any trace of Celestial Venerable Yu on this little fatty.

When they met at the Jade Pool Meeting back then, Founding Emperor was completely convinced by Celestial Venerable Yu. He felt that if Celestial Venerable Yu was still alive, he would bow down, no longer having the ambition to rule the world.

At that time, Celestial Venerable Yu really had the demeanor and bearing of the ruler of the world. In addition to his reputation, luck, and magnanimity, Founding Emperor was far inferior.

However, Founding Emperor couldn't see this little fatty at all.

He could only see a clear Dao heart from Lan Yutian, a vigorous desire for knowledge, and boundless curiosity.

The current Lan Yutian and the Celestial Venerable Yu of the past were actually two different people!

Of course, the current Lan Yutian was slightly fatter than the handsome Celestial Venerable Yu from back then, and his face was chubby.

Furthermore, when Founding Emperor and Lan Yutian talked, Lan Yutian never talked about the general trend of the world. He only talked about all kinds of Dao languages that didn't have any meaning, and he talked about things that were confusing.

However, if one listened carefully, they would find that the things he was talking about were all profound Great Daos. Even Founding Emperor was mesmerized by them!

"Your Majesty, do you think Celestial Venerable Yu is feigning ignorance?" Yan Yunxi asked after observing Lan Yutian for a few days.

Founding Emperor shook his head and sighed. "Back then, Celestial Venerable Yu had the heart to dominate the world, and he had a great ambition to stretch it out. However, the current Lan Yutian only has the heart to seek the path, and he has no distractions. He's pure and innocent. He's not acting dumb, he's like this to begin with. He's not stupid, but all his wisdom is used to seek the end of the Great Dao."

Yan Yunxi was stunned. All his wisdom was used to seek the Dao?

"In this world, there are very few people that are so pure. The ten Celestial Venerables are smart, but they are greedy for power. Most of their life experiences are in power. Celestial Venerable Yu is smart, and half of Celestial Venerable Yu's intelligence was in consolidating the power of the world and developing the Postcelestial races."

Founding Emperor paced around and said calmly, "I'm smart too, but I also need to weigh right and wrong. Wen Tiange is smart, Wen Tiange is worried about reform and the lives of the people in the world. Celestial Venerable Mu is also smart, but his intelligence is mostly used to seek a path of survival for the people of the world. There aren't many pure people like Lan Yutian, but there must be. Only such a person can allow the era to progress."

Yan Yunxi looked at Lan Yutian, who was comprehending the paths, skills, and divine arts, imparting his teachings to the disciples. Many people in Carefree Village and the masters of creation were attracted to him, and they unknowingly followed him. At that moment, he had over five thousand disciples!

Yan Yunxi hesitated. "Lan Yutian is here, we should..."

"It should be him."

Founding Emperor said with a smile, "For a person like him, we can give him whatever resources he wants and satisfy his requests. He can go wherever he wants, there's no need to care about him. If he wants to come, he can come. We will treat him with respect. If he wants to leave, he can leave. We don't have to make him stay."

Yan Yunxi nodded and said, "If he wants to take away the gods of Carefree Village..."

"Then let them go."

Founding Emperor said, "In the future, these people will return. When they return, they will make us look at them in a different light, and their achievements will be extraordinary. If I could leave, I would also follow Lan Yutian, but I can't."

Yan Yunxi was stunned. She looked at Lan Yutian and muttered, "What a strange person..."

"He's not weird, what's weird is us, Zixi."

Founding Emperor sighed ruefully. "We have been hindered by the mortal world, so we aren't as free as him. I envy him."

Yan Yunxi smiled. "I'm not envious of him."

Founding Emperor was slightly stunned.

"If everyone is like him, no one will consider the weak, but no one can be like him."

Yan Yunxi said earnestly, "He is a researcher who seeks the Dao, but he is not the leader of a race. As the leader of a race, he has more responsibilities and burdens."

Founding Emperor understood her advice and said with a smile, "Don't worry. Even though I envy him, I won't become him. I have my responsibilities. The appearance of people like us is to allow people like Lan Yutian to seek the Dao without any distractions."

Chapter 1272 – The Grand Emperor Has No Head

Qin Mu walked out of the Land of the Great Void and didn't walk far before arriving at the entrance.

He looked back and saw the Land of the Great Void under his feet.

The crumbling void was destroyed, and the Land of the Great Void was exposed to the celestial heavens. They couldn't defend it, so they could only rely on the Void Bridge to stall for time. However, they didn't know how long they could stall for.

From the entrance of the Great Void to the celestial heavens, it would take a few months with his leg strength.

The Great Void's geography was special, and it was impossible to use the Spirit Energy Mutual Shift Bridge to transmit supplies. Therefore, it would take the celestial heavens' army half a year to a year to arrive here.

However, for Celestial Venerables, they only needed a few days to travel at full speed before they could head straight for the Great Void!

This was dangerous!

In the past, Founding Emperor could use the safety of the celestial heavens to threaten the other Celestial Venerables because the celestial heavens were too far from the Great Void. It would take a long time for the Celestial Venerables to travel back and forth.

And now, the journey was much shorter. The Land of the Great Void could face the danger of being destroyed at any moment!

"Guarding the Void Bridge still requires Celestial Venerable Yue. After all, the three rooms on the other side of the Void Bridge were created by her."

Qin Mu frowned. Celestial Venerable Yue's injuries hadn't healed, and she had broken her legs. Qin Mu couldn't bear to let her face such danger.

'Tai Shi might be able to heal Celestial Venerable Yue's Dao injuries, but Tai Shi's conditions must be extremely harsh. Furthermore, he hasn't been born yet...'

He frowned. Ancient God Tai Shi had been imprisoned in Clear Sun Hall by Celestial Emperor's Grand Primordium for so many years, and he had become extremely cautious. At the same time, he was also extremely secular. He would definitely use this as a threat and offer conditions that Qin Mu couldn't accept.

It was almost impossible to persuade him to come into being and heal Celestial Venerable Yue!

"I should go to the ancestral court and see if Grandpa Apothecary's current medical skills can deal with Dao injuries."

Qin Mu made up his mind. He took out Celestial Venerable Yue's lantern and walked towards the celestial heavens. With this lantern, he would be able to reach the celestial heavens in a few days.

On the way to the celestial heavens, his heart suddenly stirred. 'I wonder how the Grand Emperor is doing...'

Both the Grand Emperor and Celestial Venerable Hao were injured, and his injuries were definitely not lighter than Celestial Venerable Hao's. In fact, they were even worse!

Heavenly Lady Qiang was also severely injured, and her injuries weren't inferior to the Grand Emperor's!

'There's no Ultimate Void in the Great Void, only in the outside world. Once I'm in the outside world, the Grand Emperor's Great Overarching Consciousness Heavenly Imprint in the Ultimate Void will be able to come down. My consciousness cultivation should recover quickly, but the Dao injuries on my body will probably heal so easily in a short time... Wait a minute!'

Qin Mu suddenly became alert. 'Why did I suddenly think of the Grand Emperor? There's a reason for this, and so is my thought! My consciousness is now one of the few strong practitioners in the world. The reason why I suddenly had this thought is probably...'

The corners of his eyes twitched, and he immediately realized that he had unknowingly deviated from the path to the celestial heavens. The only thing that could influence his judgment and cause him to deviate from the path to the celestial heavens without him noticing was an existence whose consciousness was far above his!

Qin Mu made a prompt decision and executed Celestial Venerable Yue's lantern. The power in the lantern burst forth and transformed into a string of light that was dozens of miles long!

He hadn't cultivated Celestial Venerable Yue's Dao of Space, nor had he received the teachings of Celestial Venerable Yue or Bai Yujing. He had only relied on his own experience. Therefore, the length and power of the light strings weren't as spectacular as when Bai Yujing executed them!

After the lantern was activated, the heart of Qin Mu's brows flashed. With two thumps, Celestial Empress and Mistress Yuanmu's coffins flew out. With two thumps, the coffins opened up.

His consciousness burst forth, and the two ancient gods that looked almost identical took a step forward. They stepped out of their coffins, and their sleeves fluttered in the wind as divine light flowed!

At the same time, he used his consciousness to control the two goddesses of the Ruins of End and looked around vigilantly.

Even though the battle power of the two goddesses of the Ruins of End couldn't reach the level of Celestial Emperor, Grand Primordium, and Heaven Duke, Earth Count, and Mother Earth, their abilities were above the four deities of the ancient gods!

After Qin Mu used his consciousness to control Celestial Empress and her sister's corporeal body, the vertical eye in the heart of his brows opened up, and the egg of Tai Shi flew out.

He raised his right hand and lifted the huge egg with one hand.

From the moment he came to his senses to the moment he completed all of this, it was all done in an instant!

"Grand Emperor, come out and negotiate!" Qin Mu swept his consciousness around and said solemnly.

The space was silent.

This place was far from the celestial heavens and the Great Void. There was no heaven above or earth below.

Whether it was from the celestial heavens or the Great Void, they were all about the same distance.

This distance was precisely the center point that the Grand Emperor had chosen to kill Celestial Venerable Hao.

The Grand Emperor made it impossible for Celestial Venerable Hao to escape the Great Void, and it was also impossible for him to escape the Great Void.

And now, the distance Qin Mu was at made it impossible for him to escape back to the Great Void or the celestial heavens!

When Qin Mu spoke, he didn't say anything for a long time.

Qin Mu sneered. Just as he was about to head to the celestial heavens under the escort of Celestial Empress and her sister, he suddenly heard blood-curdling cries coming from the dark space. There were also mournful sounds.

"Grand Emperor, just come out and see me. Why are you acting mysterious?"

Qin Mu sneered and saw a beam of light coming from the dark space. The beam of light was getting closer. It was a strange man and woman wearing colorful clothes carrying a coffin in the sky.

The faces of the men and women were smeared with cosmetics, and their faces were snow white. However, black spots were smeared on their cheeks, and their dead fish eyes were open. There were no pupils in their eyes, and they were all white.

There were also men and women in green who were blowing their trumpets. Their music was bleak and miserable, causing people to shed silent tears when they heard it.

This was a funeral procession.

It was just that there were no stars in this vast space. For such a funeral procession to suddenly appear, their attire was so strange that it made people's hair stand on end.

"Celestial Venerable Mu, look at the name written on the coffin." The voice of Tai Shi came from the egg.

Qin Mu sneered and said loudly, "Grand Emperor, you can't do anything to me, so you are making these useless things laughable! If you want coffins, I have two of them. They are all top-grade coffins!"

The funeral procession stopped, and the strange-looking men and women turned their heads to look at him. They said in unison, "Your coffins have Celestial Empress' sister buried, and they already have a master. Our coffins are ready to bury Celestial Venerable Mu!"

Qin Mu laughed loudly. "Grand Emperor, stop acting mysterious! Show yourself!"

"Celestial Venerable Mu, I have long appeared, but you didn't notice."

A grand voice rang out, and only then did Qin Mu see an incomparably huge shadow sitting in the dark space in front of him. Because there was no starlight in the space, it couldn't light up the shadow.

That incomparably huge black shadow sat there with no head on its neck!

Suddenly, Qin Mu's feet trembled, and he lowered his head to take a look. He saw a black shadow under his feet, and the undulating fingerprints were like a mountain range that stretched into the distance.

It was a palm, the only palm of the Grand Emperor.

Unknowingly, he had been lured to the Grand Emperor's face and was walking in his palm!

"Celestial Venerable Mu, you want to negotiate? Talk about what?" A grand voice came from the headless body of the Grand Emperor.

Chapter 1273 – A Funeral On The Spot

This ancient giant sat in space. Even though he had no head, even though he was missing an arm, even though he was covered in wounds, he was still alive and incomparably powerful!

As long as the Great Overarching Consciousness Heaven that was ensconced in the Ultimate Void was still around, he would never die!

His voice was filled with coldness and mockery. “Celestial Venerable Mu, don’t forget what you promised me. I have already done what you promised to do. You should return the Tai Chu Origin Stone to me!”

“Return! I’ll let you live!”

“Not returning! I’ll let you have your funeral today!”

Qin Mu felt a little guilty. Even though he had thought of all kinds of scenarios when the Grand Emperor wanted the Tai Chu Origin Stone and even thought of all kinds of countermeasures, he still felt a little weak when facing this invincible overlord of the primordial era.

“Grand Emperor, our agreement is to stop Celestial Venerable Hao and prevent him from descending into the Great Void! Have you done it?”

Qin Mu raised his head and looked at the headless body of the Grand Emperor. He said loudly, “You didn’t do it! Celestial Venerable Hao is still staying in the Great Void, safe and sound. He’s very happy there! Since you didn’t complete the agreement, how dare you ask for the Tai Chu Origin Stone?”

The Grand Emperor said coldly, “I’ve injured Hao Tian, and his injuries won’t heal for more than a hundred thousand years. He’s a cripple now, and it’s useless for him to stay in the Great Void. No matter what the outcome is, you have achieved your goal. Hand over the Tai Chu Origin Stone.”

Qin Mu sneered. “He was saved by another egg-born ancient god, Tai Su, and he has already recovered nine celestial palaces. You dare to say he’s a cripple? You didn’t fulfill your promise...”

“You can go to your funeral now.”

The Grand Emperor said indifferently, “The appearance of Tai Su is an accident. I have already done what I promised you, but you are going back on your word. I will send you to the grave to retrieve the Origin Stone from your corpse. It will be ten thousand times easier than fighting Celestial Venerable Hao!”

Qin Mu took out Celestial Venerable Ling’s hairpin with a whoosh and laughed. “Grand Emperor, don’t forget that Celestial Venerable Ling’s unchanging divine art countered your abilities! You want to die with me?”

“Mutual destruction? Hahaha, Celestial Venerable Mu, you think too highly of yourself and Celestial Venerable Ling.”

A voice came from the Grand Emperor’s chest, and he said leisurely, “In your incomparably narrow vision, you probably think that Celestial Venerable Ling’s divine art is able to restrain me. Once you learn Celestial Venerable Ling’s divine art, you can bargain with me. You probably think that you can rely on a mere ancient god egg to back you up and make you talk cheerfully with me. You’re wrong.”

The unparalleled giant stood up and held Qin Mu in his palm. He carried the corporeal body of the egg of Tai Shi and Celestial Empress' sister as well as the funeral procession, walking through the endless space.

"You are gravely mistaken."

"Not only are you wrong, Celestial Venerable Yun and Celestial Venerable Ling are also wrong."

His footsteps were huge, and when he walked, he was countless times faster than the circulation of the stars. The space under his feet crumbled continuously. 'Where have heroes been since ancient times? They are all illusions. Celestial Venerable Yun is dead, Celestial Venerable Ling is trapped by her own divine art, and Celestial Emperor Tai Chu was also taken away by me. His reincarnation only dares to be a coward?'

"Do you think Celestial Venerable Yun killed me? Did Celestial Venerable Ling kill me?"

"It's a pity that they're all dead. Only I'm still here."

"I live high up in the Great Overarching Consciousness Heaven. You guys spent so much effort to beat me to death, but what you injured was only a part of me. You guys couldn't hurt my source at all."

"You still think I'm afraid of Celestial Venerable Ling's unchanging divine art? You think I'm afraid of a mere sister of Celestial Empress, a mere ancient god in an egg?"

Even though he didn't have a head, Qin Mu felt a pair of cold eyes staring at him. They were looking at the egg of Tai Shi, Celestial Empress and Mistress Yuanmu's corporeal body.

His gaze was filled with mockery.

Facing an existence like the Grand Emperor, the pressure was simply too great.

In Qin Mu's hand, the egg of Tai Shi whispered, "Celestial Venerable Mu, based on my experience of being suppressed by Celestial Emperor Tai Chu for so many years, I'll give you a warning: admit defeat."

Tai Shi said earnestly, "I really can't beat him. I can't beat him at all. Back then, among the five great mines of the ancestral court, three of the five eggs were dug out by the masters of creation. Tai Yi escaped long ago, and Taiji left behind a fake mine to escape. If we could beat him, would we be dug out by the masters of creation to bask in the sun? Celestial Venerable Mu, you know how to be a coward for a moment. You can take revenge in the future."

Qin Mu muttered to himself for a moment and said, "Grand Emperor, you and I can indeed fall out. I can destroy your current corporeal body, and Celestial Empress' sister can also destroy your consciousness. Old Brother Tai Shi can also make it impossible for you to break the divine art I left behind. Of course, I will also die in your hands. However, we still have a second option."

Tai Shi said softly, "Don't drag me into this. I was only brought here by you..."

The Grand Emperor stopped in his tracks and sneered. "Celestial Venerable Mu, I admit that you have this ability, and I also admit that the fellow in the egg has this ability. However, if your second choice doesn't satisfy me, I'll sacrifice this body to let you die on the spot!"

Qin Mu let out a sigh of relief and said seriously, "I can give you half of the Tai Chu Origin Stone that I got. You only completed half of the task to stop Celestial Venerable Hao, so in fairness, I can only give you half."

The Grand Emperor snorted.

Qin Mu hurriedly said, "Grand Emperor, do you think it's worth it to kill me and bury your strongest corporeal body in history?"

The Grand Emperor sneered. "I think it's worth it. My Ming Fangyu's corporeal body was destroyed by Founding Emperor Qin Ye's sword because of you. This time, my corporeal body's head is gone, and so is my arm. Do you think I still can't bear to part with this corporeal body? Using this broken body to exchange for your life and obtain the Tai Chu Origin Stone is worth it!"

Qin Mu laughed loudly. "With the Tai Chu Origin Stone and without the unrivaled Grand Emperor of the masters of creation, what's the use of getting the Origin Stone? How about this, Grand Emperor, I won't haggle with you. I'll give you three-quarters of the Tai Chu Origin Stone in the heart of my brows, and I'll only leave a quarter. Give me Celestial Venerable Hao's heart in exchange!"

The Grand Emperor muttered to himself.

Qin Mu smiled and said, "I saw you take out Celestial Venerable Hao's heart with my own eyes. You didn't destroy this treasure, did you? It's not very useful to you. Using it to exchange for a quarter of the original stone is still your advantage!"

The Grand Emperor calculated for a moment, and a huge heart flew out from the void, beating continuously. It was a divine heart, the heart of a Celestial Venerable!

Qin Mu opened his third eye and circulated his magic power. A hexagon-shaped crystal slowly flew out from the heart of his brows.

After a moment, Qin Mu raised his hand and grabbed the Origin Stone.

The Grand Emperor said, "You don't have the magic power to cut open the Origin Stone, give it to me!"

Qin Mu ignored him and pulled out his sword. The Tai Chu Origin Stone was sliced open by his sword with a clink!

The Grand Emperor's heart jumped.

Qin Mu threw three-quarters of the raw stone to the Grand Emperor and kept the other quarter. He swept Celestial Venerable Hao's heart with his consciousness and said, "Farewell."

The Grand Emperor laughed loudly and placed the Origin Stone on his neck. His incomparably dense consciousness burst forth and revolved around the Origin Stone. The Origin Stone visualized and instantly burst forth with boundless energy that surpassed the amount of energy that Qin Mu could unleash when controlling the Origin Stone!

The head of the Grand Emperor was actually forming rapidly!

It wouldn't be long before his strongest corporeal body recovered from its injuries and grew a head and arms!

Chapter 1274 – Luring The Trouble Away

Qin Mu's expression was grim. Under the protection of Celestial Empress and her sister's corporeal body, he carried the egg away.

The egg of Tai Shi whispered, "How strong will the Grand Emperor be when he gets the Origin Stone?"

"I don't know. However, in order to get rid of the Grand Emperor, all the ancient gods worked together. In the end, it was Divine King Gong Yun who shattered the Tai Chu Origin Stone in the heart of his brows."

Qin Mu put away the corporeal body of Celestial Empress and her sister and pondered. "Even so, the Grand Emperor didn't die. It was only when Celestial Venerable Yun plotted against him that his corporeal body was finally killed."

Tai Shi was silent for a moment before saying, "In that case, now that he has the Origin Stone, is there anyone who can subdue him..."

Qin Mu flipped his palm, and the raw stone appeared in his palm. He stared at it and said in a low voice, "Yes. The raw stone in my hand isn't complete to begin with. The portion I gave to the Grand Emperor only took up half of the original stone. The Grand Emperor isn't at his peak. That person can still restrain him."

The Grand Prime in the egg was slightly stunned, but Qin Mu didn't say who it was. Instead, he stuffed the egg back into the Qin word land.

A day later, Qin Mu arrived at the Northern Heavenly Gate of the celestial heavens.

Outside the Northern Heavenly Gate, a huge army formed by the devils was ready to set off. In the lead was a dark celestial palace that was completely shrouded in darkness. Even light couldn't disperse the darkness.

"Celestial Venerable Mu!"

The owner of the dark celestial palace was the Primordial Realm's Demon Ancestor Mahakala. When he saw Qin Mu, he hurriedly came to welcome him.

Qin Mu didn't enter his dark celestial palace. Instead, he stood outside and asked, "Where is Mahakala going?"

Even though Mahakala had some grudges with him, he still treated him with respect and was rather polite. He said, "Celestial Venerable, the celestial heavens has sent an order for me to hurry to the Land of the Great Void. I've heard that a devil tide has erupted there, wreaking havoc in the world and causing the devils in my heart to dance wildly. As I'm the ancestor of the devils, I have a way of restraining the devils in my heart, so the celestial heavens ordered me to quell the rebellion."

Qin Mu muttered to himself for a moment.

As an Emperor's Throne Realm existence in the Primordial Realm, Mahakala's cultivation and abilities were extremely high. Furthermore, he was the ancestor of the devil race born in Youdu. He was born with the devil nature and devil qi of Youdu, so he had extraordinary abilities against the devils in the heart of the Great Void.

The celestial heavens had sent him to the Land of the Great Void because they saw him as a devil among devils.

Mahakala examined Qin Mu's expression. After a moment, he said, "Celestial Venerable, you know the Land of the Great Void like the back of your hand. I'm on my way here, may I know what you have to teach me?"

Qin Mu said, "There's indeed a piece of advice. You just have to deal with some heart devils at the back, there's no need to go to the frontlines. Son of Heaven Yin is fighting Son of Youdu in the Great Void. That Son of Youdu has remarkable abilities, and you are no match for him. If you go to the frontlines, you will definitely be harmed."

Mahakala expressed his thanks and said, "I will remember Celestial Venerable's words."

Qin Mu nodded and watched him lead the devil army away.

Not long later, Qin Mu came to Celestial Venerable Xiao's celestial palace.

The disciple guarding the gate quickly found Celestial Venerable Xiao and offered up the Tai Chu Origin Stone. "Celestial Venerable Mu ordered me to give this treasure to Celestial Venerable, saying that it was something I borrowed back then. Now that it's returned to its original owner, I hope Celestial Venerable doesn't take offense."

Celestial Venerable Xiao held the Origin Stone and said in astonishment, "He actually has such a kind heart and is willing to return this treasure to me? Could this brat have been enlightened?"

Celestial Venerable Xiao was also very happy that he had regained the Origin Stone. He put it away and said with a smile, "However, he still deducted some of it. He still has some selfish motives. What he stole back then wasn't just this. Where's Celestial Venerable Mu?"

That disciple said, "Celestial Venerable Mu has already left. Before he left, Celestial Venerable Mu asked me to tell you that the Grand Emperor has revived and snatched the remaining raw stones from him."

Celestial Venerable Xiao's face was as black as iron. With a shake of his hand, he threw out the Origin Stone in his hand and scolded angrily, "I was wondering how this fellow could be so kind, but it turns out that he was the one who lured the disaster onto me! Bastard! Damn it! Kill all nine generations!"

He was so angry that he laughed and scolded endlessly.

That disciple shrunk his head, not knowing what method Celestial Venerable Mu had used to make his master so furious.

Celestial Venerable Xiao stood up and paced back and forth with a grim expression.

He walked to the Tai Chu Origin Stone and hesitated for a moment before picking it up.

He had to get the Tai Chu Origin Stone no matter what. Even if he had to fight with the Grand Emperor, he wouldn't hesitate!

Qin Mu had sent the rest of the raw stones over because he wanted to create a conflict between him and the Grand Emperor. He wanted to use him to suppress the Grand Emperor. Even though he had seen through Qin Mu's plan, he had no choice but to go against the Grand Emperor according to Qin Mu's wishes.

"Rascal, you schemed against me. How ruthless, how evil!"

Celestial Venerable Xiao suddenly laughed and waved his hand to dismiss the disciple. He said in a low voice, "The Tai Chu Origin Stone has to be gathered no matter what. However, when the Origin Stone shattered, the other Origin Stones were nowhere to be found. These Origin Stones must have fallen into the hands of those old friends. They are also scheming against me, not wanting me to become the real Tai Chu and limit my power..."

He raised his head, and his gaze flickered. He said in a low voice, "The true Tai Chu is equivalent to my power and the power of the Grand Emperor. How can it be limited by a mere system of divine treasures and celestial palaces? How can it be limited by a mere Celestial Heavens Realm? It's a pity that part of the power of the Origin Stone and consciousness belongs to the masters of creation and the Grand Emperor. Even if I find all the Origin Stones, I won't be able to reach perfection. The Grand Emperor even schemed against me and made the masters of creation sacrifice me, cutting off my method of refining the Origin Stone to absorb its power. He couldn't let me grow into a true Tai Chu..."

"I've been thinking of a solution all these years, and I've found a way to kill all the masters of creation and let their consciousnesses return to heaven and earth."

Celestial Venerable Xiao looked at the Origin Stone in his hand. "Capturing the Grand Emperor, refining the Grand Emperor and Great Overarching Consciousness Heaven, these are the second. Gather all the Origin Stones and refine the Origin Stone, these are the third. If I can do these three steps, I will be the real Tai Chu."

He couldn't hide his excitement as he muttered, "The grudge between me and the Grand Emperor has lasted from the primordial era until now. Now that part of the Origin Stone is in my hands and the other part is in his, the time for us to settle our grudge is probably close! I'm really looking forward to it..."

Qin Mu returned to the Primordial Realm from the celestial heavens and Eternal Peace.

Without the Tai Chu Origin Stone, he felt that his consciousness had lost its original nimbleness. Even though his consciousness cultivation was still there, the power and intensity of his consciousness explosion was much weaker than before.

'The longer I use the Tai Chu Origin Stone to cultivate, the deeper my relationship with Celestial Emperor Tai Chu will become. It might not be a bad thing to give this Origin Stone away.' He let out a shaky breath, but he still felt a little regretful.

"I still have a piece of the Taiji Origin Stone. Since I don't have the Tai Chu Origin Stone, I wonder how it will be used to replace the pupil of the eye?"

He made up his mind and immediately took out the Taiji Origin Stone, planning to stuff it into the opening of the Qin word land.

There was a huge hole in the center of Qin word land that was like the pupil of an eye. The Tai Chu Origin Stone that was originally stuffed inside was now empty, and the power of his divine eyes had also been greatly reduced.

The ancient god in the egg of Tai Shi said with a smile, "You just got rid of the Tai Chu Origin Stone, and you're planning to use the Tai Chu Origin Stone again? The ancient god in the Tai Chu Origin Stone mine hasn't been dug out. He has absorbed the power of the mine over the years and is very powerful. You can use his Origin Stone to raise your strength, but you will probably form a grudge with him!"

"Dao Brother Tai Shi, what you said makes sense."

Qin Mu gave it some thought, and a burst of magic power flew out. It swept up the egg of Tai Shi and stuffed it into the opening of the Qin word land.

The egg of Tai Shi was stuck at the opening and couldn't move. He said angrily, "Celestial Venerable Mu, you are setting a grudge against me!"

Chapter 1275 – Taiji Divine Eyes

Qin Mu turned a deaf ear to him and opened the vertical eye in the heart of his brows. However, he couldn't see anything clearly. He knew that it was the ancient god Tai Shi who was playing tricks in the egg, so he could only take the egg.

Only then did the egg of Tai Shi let out a sigh of relief. It rolled on the ground for a few weeks, moving away from the gap in Qin word land so that it wouldn't get stuck again.

"The ancient gods in the taiji mine have a good relationship with me, and we have a good chat. They will use the taiji stone they gave me to raise the power of my divine eyes, so they won't blame me, right?"

Qin Mu consoled himself and thought of the Taiji Origin Stone. He rolled it up and stuffed it into his vertical eye to block the opening.

“Celestial Venerable Mu, you are courting death!”

Tai Shi cried out, “The ancient gods in the taiji mine are cunning, much more cunning than I am. Among the five great mines, it’s easy to come into being early. The other ancient gods’ eggs have all been dug out, and he’s the only one who doesn’t have them. You can imagine how sinister and cunning he is. You actually dared to use his Origin Stone!”

Qin Mu tried to execute the Taiji Origin Stone and closed his eyes. He only used his third eye to look around, and everything instantly became weird.

No matter if it was mountain rocks, trees, rivers, clouds, or even plants, humans, insects, birds, and beasts, they all became a strange sight of yin and yang intertwining!

Qin Mu was astonished. He gently raised his palm to pinch a leaf that was floating in the air. Even though the leaf was still in the shape of a leaf in his eyes, the essence of the leaf had already become Yin and Yang qi.

With a thought, the leaf suddenly dissolved into a wisp of yin and yang qi.

Qin Mu opened his eyes. The leaves no longer existed, and there were no traces left behind. Not even ashes were left.

He then executed the vertical eye at the heart of his brows and waved his hand gently. The mountain rock in front of him that was two to three people tall suddenly vanished, turning into wisps of yin and yang qi that vanished in the world.

“This Taiji Origin Stone is even stronger than the Tai Chu Origin Stone!”

He couldn’t help becoming excited. With another flick of his finger, a huge tree suddenly transformed, and the yin and yang qi that formed the tree transformed into a giant octopus. Its tentacles stretched out, and it flew away quickly.

Tai Shi sneered and said, “You’re finished, you’re finished. You stole the power of taiji and planted the karma deeply. That ancient god won’t let you off.”

“They treat me very well.”

Qin Mu said excitedly, “Don’t talk nonsense!”

“Very good to you?”

The Tai Chu in the egg sneered. “If he treats you well, why would he bewitch you to go to the big black tree?”

Qin Mu was slightly stunned. He shook his head and said with a smile, "The black wood is the number one sacred ground of the ancestral court. It's easy to defend and hard to attack, and the void beasts don't dare to enter it easily. There's also the ancient god, Tai Yi, overseeing it. There are many mines there, so it's a wise decision for me to choose that place!"

The egg of Tai Shi swayed back and forth, seemingly speechless at him. It didn't know how to wake him up.

"Taiji Tai Chu doesn't have a difference in power. It can only be said that the Tai Chu Origin Stone isn't suitable for you. It's more compatible with you."

Tai Shi threw away the previous topic and said, "The Tai Chu Origin Stone is more suitable for the Grand Emperor. That's right, why are you asking the Grand Emperor for Celestial Venerable Hao's heart?"

Qin Mu examined the scenery of Eternal Peace and determined the direction. Without batting an eyelid, he said, "I'm just afraid of the Grand Emperor, and I don't want to embarrass Celestial Venerable Mu, so I asked for something from him. At least it's an exchange, not coercion."

Tai Chu didn't believe him, but since Qin Mu didn't say it, he couldn't guess what he was thinking.

Qin Mu saw the true body of Mother Earth, Gongsun Yan, from afar. That Primordial Tree was even more lush and covered an even wider area. It stood in the east of the Primordial Realm and was extremely eye-catching.

The Mother Earth Celestial Palace on the crown of the Primordial Tree had already been built. Most of the soldiers in the palace were from Eternal Peace. The celestial heavens had conferred Gongsun Yan as Virtuous Earth Sovereign, and she was in charge of half of the Primordial Realm. However, there were many people in the Primordial Realm who were unconvinced.

Eternal Peace had used Gongsun Yan's name to attack these rebellious countries. Now that the territory was expanding, the area was several times larger than before.

Qin Mu looked around at the local customs, and he saw that the Heavenly Workers of Eternal Peace were constructing flying bridges in the territories that had been conquered. They were laying out roads, building factories, and mining ore veins. They were trying to use the philosophy of Eternal Peace to guide the people of these new territories.

"The emperor's expansion is too fast, and the number of soldiers in Eternal Peace has yet to catch up. We need to stop and use some time to groom the new young strong practitioners, otherwise, the empire will be unstable."

Qin Mu walked into Eternal Peace's capital city and said to Ling Yuxiu, "The Land of the Great Void is already hard to protect, and it won't last long. If we attract too much attention now, it will attract the suppression of the celestial heavens."

Ling Yuxiu acknowledged.

Qin Mu took out the blueprints that looked like they were filled with sweat bulls and said, "These blueprints are creation divine weapons and are extremely complicated. Does Eternal Peace have enough Heavenly Works to forge this divine weapon?"

Ling Yuxiu looked at the blueprints that had piled up into a mountain and couldn't help being astonished. She flipped through them and frowned. "Such a complicated blueprint requires countless celestial designers to forge it! It's impossible to forge it in a short period of time!"

Qin Mu probed, "How long do you need?"

"Just for the Heavenly Workers to comprehend these blueprints, they would need over a dozen years. The time taken to refine them would be even longer."

Ling Yuxiu calculated for a moment and said, "The various manufacturing factories also need to start work to forge other divine weapons and sell them to the celestial heavens. We don't have that many people. If we want to forge them, we will need to spend a hundred years."

"A hundred years is too long, I can't wait that long!"

Qin Mu said resolutely, "There aren't many people who can use the Heavenly Works of the manufacturing factory, so let's invite Dao Sect and get those Daoists to come down the mountain to help! Also, Xu Shenghua of West Earth, invite him over to refine the creation divine weapon together."

Ling Yuxiu hesitated. "The situation is so urgent, even Xu Shenghua has to be invited?"

Qin Mu nodded and said, "In a hundred years, the Great Void won't even be able to last ten years under the upheaval of heaven and earth. After the Great Void is pacified, the ten Celestial Venerables will definitely lay their hands on Heaven Duke. After Heaven Duke dies, Earth Count won't be able to hold on by himself, and the other three deities of the ancient gods won't be able to. If it takes a hundred years to forge the creation divine weapon, Eternal Peace won't be able to do anything against the unified celestial heavens!"

Ling Yuxiu was astonished and immediately ordered people to invite Xu Shenghua and Dao Master Lin Xuan.

Qin Mu let out a sigh of relief and said, "I need to return to the ancestral court and won't stay here for long. If I can't even protect Eternal Peace in the future, the ancestral court might be the last resting place of the human race."

Ling Yuxiu nodded her head silently and said, "Be careful on the way."

Qin Mu immediately moved and rushed to the ancestral court through Spirit Energy Mutual Shift Bridge.

The egg of Tai Shi was indescribably excited. "After entering the ancestral court this time, we will first seize the mine of Tai Shi. We will split the profits, one for you and one for me!"

Qin Mu couldn't help laughing. "Dao brother, Heavenly Lady Yan is Celestial Empress. She's occupying your territory, so how can I be her opponent? I'll take nine and you take one."

Tai Shi was furious, and the egg flew up in anger.

Qin Mu laughed and said, "I have no use for your mine, so there's no need to worry. It's just a joke. However, I'm indeed no match for Heavenly Lady Yan. It will take a lot of effort to take over the mine."

The egg of Tai Shi quieted down and asked, "What are your plans?"

Qin Mu muttered to himself, "We can't beat her, so we can only exchange. I have her corporeal body here, so I might be able to exchange it for the treasures in the Grand Prime's mine. However..."

His face was full of pain. Even though the egg of Tai Shi was hidden in his vertical eye, he could still feel Qin Mu's pain that made the Qin word land tremble.

The egg of Tai Shi was silent for a moment before saying, "I can teach you the Dao of Tai Shi as compensation."
