

## Tales of Herding Gods Chapter 1276-1280

### Chapter 1276 – Rejuvenation Of All Things

Qin Mu was still trembling from the pain. The Qin word land trembled violently, and the sky became distorted.

The egg of Tai Shi was silent for a moment before saying helplessly, “Celestial Venerable Mu, stop shaking. I was dug out from the mine, and not long after I was dug out, I was suppressed by Celestial Emperor Tai Chu. I don’t have anything good on me. If you continue shaking, you won’t be able to find anything valuable on me.”

Qin Mu stopped trembling and probed, “Is the liquid in your egg delicious?”

“It’s not delicious!” the Tai Shi in the egg said stiffly.

He added, “Don’t even think about getting my egg liquid!”

“A miser.”

Qin Mu scolded him with a smile and even wanted to knock something off his body. He probed, “After you are born, can you give me your eggshell?”

The tone of the Tai Shi became even harsher. “No! I have a habit of gnawing on eggshells, so I will definitely eat them the moment I’m born! You snatched the eggshell of Tai Chu and harbored ill intentions, planning to use the eggshells to collect him. Do you think I don’t know?”

Qin Mu had a troubled expression. He shook his head and said, “Dao Brother Taishi, you are an ancient god. You are good at everything, but you are stingy. You can’t squeeze out a single drop of oil. If you don’t give me a single cent, how am I supposed to sacrifice Celestial Empress’ corporeal body to help you?”

Tai Shi hesitated for a moment before probing, “Since we are allies, I won’t lie to you. Even if you help me take back the Tai Shi mine, it will take me hundreds of thousands of years to absorb all of the Origin Stone in the mine. Only then will I be born. However, if you learn my Dao of Tai Shi, you can find some people with the same path to come to the mine and help me refine the energy in the mine, allowing me to be born early. After I’m born, we can work together. I’ll help you get rid of Tai Chu, and you can be Celestial Emperor!”

Qin Mu laughed loudly with a gloomy expression.

Tai Shi’s heart jumped, and he hurriedly asked, “Celestial Venerable Mu, what are you thinking?”

Qin Mu said ruthlessly, “I’m thinking of what weapon to use to split open your eggshell!”

The Grand Prime in the egg immediately smiled apologetically. “Aren’t you happy that you can Celestial Emperor?”

Qin Mu snorted and shook his head. "Dao Brother Tai Shi, you underestimate me too much. I did everything for you and even helped you to come into being early. You were invincible the moment you came into being. As for you assisting me in getting rid of Celestial Emperor Tai Chu, it's actually just to take revenge for you. Letting me be Celestial Emperor and you being the Grand Imperial Sire is truly a good plan. You are still not willing to give up anything and have gained all the benefits."

Tai Shi laughed dryly and calculated. "In that case, why don't we do this? If we get the Tai Shi Origin Stone, I'll lend it to you to comprehend the Dao of Tai Shi for a period of time, and you can return it to me in the future. I really don't have anything, so I can only do this."

Qin Mu gave it some thought and said, "You are just trying to gain something without risking anything of your own. The Tai Shi Origin Stone is still in the mine, so I have to help you snatch it back."

Tai Shi was speechless.

Qin Mu continued, "How about this, apart from lending me the Tai Shi Origin Stone, you also have to promise me three things. These three things won't harm you."

Tai Shi gave it some thought before agreeing and making a promise.

Qin Mu let out a sigh of relief, and the light suddenly stopped. They came to the Spirit Energy Mutual Shift Bridge outside the ancestral court.

Qin Mu examined the Celestial Venerable's seal and saw that it was still there. He thought to himself, 'Tai Su really does have some tricks up his sleeve. To be able to enter and leave the ancestral court freely without breaking Celestial Venerable's seal is indeed powerful. His divine arts are unfathomable. Tai Su has agreed to do three things for me, so the first thing is for him to help me treat Celestial Venerable Yue's injuries! However, if Grandpa Apothecary can cure her, I'll keep this matter. It might be of greater use...'

He entered the ancestral court.

Suddenly, the voice of the Tai Shi came from his third eye. "Qin brat, I remember now!"

Qin Mu turned a deaf ear to him. The egg of Tai Shi flew into a rage and shouted, "We originally agreed that since I saved you from Tai Su, you would do your best to help me take back the mine and help me search for the Tai Shi Divine Stone! Back then, you didn't have so many conditions to escape!"

Qin Mu walked into the sky of the ancestral court and looked around. When he saw that the ancestral court had become much greener, he couldn't help being delighted. "Dragon Pi controls the void beasts. These void beasts no longer swallow anything in the ancestral court. In a few years, the ancestral court will recover its vitality!"

"Why aren't you saying anything?"

The voice of the ancient god came from the egg. "Are you feeling guilty? Bastard! You said I'm trying to gain something from nothing, but you're trying to gain something from nothing! I saved your life in vain! Come, come, wait for me to come out of the egg. Let's fight for three hundred rounds!"

Qin Mu carried the lantern and hurried on his way while muttering, "These plants have taken root and germinated, so there should be numerous heaven and earth spirit roots of the ancestral court, right? This is a huge treasure ground. If I can find spirit roots like the Primordial Tree..."

"Don't change the topic!"

On Qin word land, the round egg bounced around and shouted, "Hit me if you have the guts, see if I don't shatter you into pieces!"

"If everything in the ancestral court returns to spring, will the big black tree also sprout again, and the old tree returns to spring?" Qin Mu asked in delight.

"...I'll let you have your fill!" Countless ancient runes appeared on the surface of the egg as it cried out.

Qin Mu looked around. There were many more gods and devils in the ancestral court, and they should be the direct descendants of the ten Celestial Venerables. They were trying to expand outwards on their original territories and establish more territories.

Qin Mu saw thousands of void beasts surrounding and attacking these territories. The fighting was intense.

"Fatty Dragon has done well."

Qin Mu praised him in his heart. Only when he passed by Heavenly Lady Yan's territory did the egg of Tai Shi quieten down. 'This brat is keeping his promise. He's really planning to use Celestial Empress' corporeal body to exchange for the Tai Shi Origin Stone.'

"May I trouble Heavenly Concubine to inform you that Celestial Venerable Mu has something important to discuss with you?" Qin Mu politely invited the god guarding the place to report.

After a moment, Heavenly Lady Yan's disciple Xiu Hong Su came over and said with a smile, "Celestial Venerable Mu, I thought you were going to block the door again. Just now, you were still ambushing the executioners, preparing to give the order when you enter. You will attack and kill Celestial Venerable."

Qin Mu laughed and said, "Xiu Xiu really knows how to talk, her joke is so real. Where's your teacher?"

Xiu Hongsu was originally a palace maid by Heavenly Lady Yan's side. Because she was quick-witted and her cultivation was extremely high, she was released as an official by Heavenly Lady Yan. Later on, Heavenly Lady Yan made the decision and gave her to Green Deity of the Eastern Sky as her wife. Both husband and wife were noble.

Green Deity of the Eastern Sky was a strong practitioner in Celestial Venerable Xiao's faction. Heavenly Lady Yan had betrothed Xiu Hong Su to him and married him. Her intention was worth pondering over.

“Heavenly Concubine is in the celestial heavens, and she only comes here once in a while. It seems like Celestial Venerable Mu isn’t coming in. You guys can disperse and continue mining.”

Xiu Hongsu waved her hand, but when she saw the numerous divine generals lying in ambush in the Taishi mine walking out, she made a promise and left with her ax.

The corners of Qin Mu’s eyes twitched as he looked at the majestic knife and axemen walking away.

Xiu Hongsu said, “I heard that the Great Void has changed, and Heavenly Consort has been paying close attention to the activity there, so she didn’t come. However, the ancestral court isn’t peaceful either. We mine here, and when our mining ships leave the ancestral court, they are frequently attacked by void beasts. How detestable!”

Qin Mu took out a drop of divine blood and said with a smile, “Xiu Xiu, hand this drop of blood to Heavenly Lady Yan and tell her that I have something to find her about.”

Xiu Hongsu’s expression changed when she received the drop of divine blood. However, she saw that the divine blood contained an incomparably dense cultivation of the Great Dao. With a light touch, the sound of Dao lingered and light overflowed!

“This drop of blood...” She was alarmed.

Qin Mu said indifferently, “Celestial Venerable Hao’s divine blood. I shall take my leave first and await good news.”

Xiu Hongsu’s expression changed drastically. She hurriedly took out a jade bottle and stored Celestial Venerable Hao’s blood into it. She summoned a capable general and ordered him to set off for the celestial heavens.

## **Chapter 1277 – The Ominous Mines’ Divine Artifacts**

In the imperial harem of the celestial heavens, Heavenly Lady Yan gently crushed the jade bottle. Celestial Venerable Hao’s drop of Celestial Venerable’s blood floated in front of her.

Heavenly Lady Yan opened her mouth slightly, and her breath spewed out orchids. When she exhaled, the drop of Celestial Venerable’s blood instantly changed, and the apparition of a celestial palace appeared in her blood.

Heavenly Lady Yan’s gaze flickered as she stared at the apparition of the celestial palace. After a moment, she said softly, “It seems like the rumors in the Great Void are true. Celestial Venerable Hao was indeed severely injured by the Grand Emperor. Celestial Venerable Mu ordered people to deliver this drop of Celestial Venerable’s blood to tell me that Celestial Venerable Hao was injured? It doesn’t seem like it...”

The apparition of the celestial palace gradually faded.

Heavenly Lady Yan's eyes lit up, and she said in a low voice, "He wants to tell me that Celestial Venerable Hao's blood contains his technique and divine arts. This drop of blood is the essence of Celestial Venerable Hao's blood, and it contains the apparition of a celestial palace. Could it be that he has obtained the essence of Celestial Venerable Hao's other blood and mastered the other celestial palaces of Celestial Venerable Hao?"

She put away the blood of the Earth Celestial Venerable and picked up the white cat. She instructed, "Prepare Feng Luan and prepare to head to the ancestral court."

At this moment, Qin Mu had already come to the big black tree. Looking around, he saw that the big black tree hadn't experienced spring. This big black tree was still burnt black, and layers of rings were like charcoal. The tree stumps were uneven, forming numerous black mountains.

Shu Jun, Jiang Yunjian, and the rest built many palaces and a manufacturing factory to refine divine weapons.

Several mines were also mined. When Qin Mu came here, the divine weapon mine he had first discovered was also mined.

Qin Mu looked at the center of the black wood. Mute, Blind, and the other Heavenly Workers were in the fourth heaven of the Glassy Sky Pagoda, refining a precious treasure.

Mute built a manufacturing factory on that treasure and smelted it on the spot.

The scale of the treasures in the various heavens of the Glassy Sky Pagoda was simply too huge. Only those like North Deity Xuan Wu, who had a huge body, could refine them effortlessly.

For the Heavenly Workers of Eternal Peace like Mute, it was much more strenuous to refine them, and the manpower required was also much greater.

Qin Mu was about to meet them when the gods that were mining the ores suddenly rushed out from the mine and shouted, "We have dug up that treasure! The treasure is showing its power, everyone be careful!"

Qin Mu's heart stirred slightly. Suddenly, the mine in the mine was enshrouded with light, and terrifying power surged out from the depths of the mine at an extremely fast speed!

The few gods that were running at the back looked like they were about to be caught up by the great power in the depths of the mine. Qin Mu's footsteps moved, and he rushed into the mine with a whoosh. His divine treasure realm spread out to face the great power that was surging over!

Boom—

His divine treasures instantly crumbled, and a vast and fierce might rushed at him, making him shudder in fear!

'My divine treasures can't be stopped! My divine treasures are shattered, and even though I won't die, the people behind me will probably have their souls dispersed and their corporeal bodies gone!'

Without thinking, Qin Mu took out the egg of Tai Shi and placed it in front of him!

Before Tai Shi could react, the terrifying might struck the egg!

Extremely terrifying pulses surged in all directions, blowing the mine to pieces. The gods behind Qin Mu instantly felt an unrivaled power sweeping over and was swept up by Qin Mu's divine treasure realm.

Qin Mu also couldn't stand still, and he was sent flying by an incomparably fierce force. In an instant, he was a thousand miles away. With a loud bang, he crashed into the world barrier of the 28th heaven of the Glassy Sky Pagoda, shaking the 28th heaven!

Clang!

The egg of Tai Shi flew over and smashed beside Qin Mu. From inside came the furious Dao language of Tai Shi.

In the distance, First Ancestor, Mute, Blind, and the rest immediately realized something was wrong and hurriedly flew over.

Qin Mu gently landed on the ground and put down the gods and miners. He felt intense pain in his limbs and bones, and he was astonished.

The things that the gods of Eternal Peace dug out were no small matter. He and Tai Shi worked together, but they were still sent flying!

'Could Grandpa Blind have seen that divine art buried deep under the mine?'

He couldn't help being bewildered. If the divine bow was formed by the strange heaven and earth of the ancestral court, wasn't the power of this divine bow too powerful?

However, if it was refined by someone, it didn't look like it.

Suddenly, the 28 heavens reversed, and the dragon qilin must have mobilized the heavens of the Glassy Sky Pagoda to help First Ancestor Human Emperor and the rest rush over.

Everyone descended, and Qin Mu also flew to the mine. He couldn't be bothered to exchange pleasantries with everyone and hurriedly looked at the mine. He saw that the mine had completely exploded, turning into a huge valley.

The valley was pitch black, and broken mountains and broken cliffs stood in great numbers. The various kinds of mineral deposits that the gods of Eternal Peace had mined were all embedded in these broken mountains and broken cliffs, and traces of mining could be seen.

"Mu'er, are you injured?" Apothecary shouted as he rode the dragon qilin over.

"No!"

Qin Mu shook his head and looked into the depths of the valley. There, divine light was dense and turbulent. He held it in his mouth but didn't spit it out. He only felt waves of terrifying might!

"Grandpa Mute, is a treasure born from heaven and earth that powerful?" Qin Mu asked.

Mute shook his head and gestured. Blind said, "Speak human language."

Mute said, "It's definitely not that fierce! The other treasures in this mine might have been born from the divine mine, but the divine bow inside definitely couldn't have been born! It's even possible that the fierce might of this divine bow had bred this divine mine, giving birth to the divine weapons in the mine!"

First Ancestor Human Emperor said solemnly, "Mu'er, Yan'er, only the three of us have the highest cultivation here. Let us go in and test the power of that fierce weapon! The rest of you stay here!"

Mute picked up the chest and rolled his eyes at him. "What's the use of you guys going? Without Heavenly Workers, the three of you won't be able to do anything to that fierce weapon even if you are tied together. You can only eat arrows!"

First Ancestor Human Emperor raised his eyebrows but didn't say anything.

Blind said with a smile, "Without my divine eyes and formation, it would be terrible if you guys met with danger."

First Ancestor swallowed his anger and said, "Follow behind us, don't barge in."

"If you guys are injured, don't you need someone to treat you?" Apothecary came forward and asked with a smile.

First Ancestor Human Emperor was helpless and said, "Apothecary can just follow along, no more. If there are more, I won't be able to protect you guys."

Tai Shi smiled. "Celestial Venerable Mu, are all your elders so curious? Don't they know how dangerous this place is?"

He used the Dao language of Tai Shi, and other than Qin Mu, no one else could understand him. They could only hear strange sounds coming from the egg.

Mute, Blind, and Apothecary immediately surrounded it and examined it.

"There are some patterns on it, maybe we can copy them down to refine treasures. This eggshell is really hard!" Mute knocked on the egg and exclaimed in admiration.

"There's something strange inside!" Blind stared at the egg with his eyes wide open. He wanted to see what was inside, but he couldn't see clearly.

"Can it be used in medicine?" Apothecary propped up his chin and pondered.

Qin Mu took out a lantern and handed it to Yan'er. He stuffed the egg of Tai Shi to First Ancestor Human Emperor and said, "First Ancestor, take it to protect yourself. It's sturdy."

First Ancestor was reserved. "I can protect myself."

Qin Mu stuffed it into his hands, and First Ancestor could only use his vital qi to lift up the egg of Tai Shi. From the egg came a gurgling sound that didn't seem to have any meaning. It must be the person inside the egg cursing Qin Mu.

## **Chapter 1278 – Digging Prehistory**

'The relationship between Mu'er and this egg's ancient god doesn't seem to be harmonious.' Everyone thought to themselves.

Qin Mu opened up his divine treasure realm and let Mute, Blind, and Apothecary into his own realm. He instructed, "Stand in the mine of chaos. There are two eggshells there. They are eggshells that are easy to throw away, and they can protect you."

Even though Blind and the rest were unhappy that they were being protected by him, they knew that he had remarkable abilities that far surpassed them. Therefore, they hid in the ancestral court of the divine treasures realm.

They walked down the mine and came to the valley that was blasted out.

The valley was very deep and looked like a basin. There were broken mountain ranges everywhere. Everyone looked around, and Qin Mu's heart suddenly stirred. He flew to a broken mountain and looked down.

The mountain was broken in a very flat manner, as if it had been sliced off by a sharp weapon.

Qin Mu took out the broken sword, and his heart stirred slightly. The broken sword grew back and transformed into a long sword. The sword light traveled dozens of miles and sliced towards the broken mountain!

His divine sword instantly met with great resistance, and when the sword light penetrated half of the broken mountain, it was hard to continue and couldn't slice the mountain apart!

'The person who left this mark is much stronger than me. At the very least, he's at the peak of the Numinous Sky Realm! And from the broken mountain, he shouldn't have been left behind by the masters of creation.'

He pulled back his divine sword and said in a low voice, "The masters of creation of the primordial era had rough divine arts and weren't as exquisite. However, logically speaking, the ancestral court should have been sealed by the ancient gods led by Celestial Emperor Tai Chu during the primordial era. People after the Dragon Han Era shouldn't have left these traces..."

First Ancestor Human Emperor came to the front of a rotten cliff. The cliff was tattered, and the front and back of the cliff were transparent. It was shaped like a palm print, and it was three hundred yards tall. However, what was strange was that this palm print had six fingers.

First Ancestor Human Emperor executed the Sacred Secrets of Heaven and Earth Heart and smacked towards the cliff at the side. With a loud rumble, the cliff shook slightly and a palm print appeared, but it wasn't penetrated by him.

First Ancestor Human Emperor frowned.

Yan'er came to the bottom of the cliff and scraped the cliff. She saw numerous pitch-black rocks falling down like carbon or petrified ashes.

"What happened here?" Apothecary asked.

No one answered him.

Everyone continued forward, and not long later, they finally reached the bottom of the valley.

There were even more broken cliffs and mountains here, and it was as if they had experienced an extremely terrifying battle. On the battlefield, many powerful existences fought until the sky collapsed and the earth cracked, forming a strange sight.

However, what was strange was that this was the underground battlefield of the ancestral court, buried deep underground.

They stood in the valley and looked up. They could only see the sky that was like a well. The walls of the well were as high as a thousand feet.

The valley wasn't dark, and the divine art in front of them was giving off light. Everyone followed the light, and divine light suddenly swam towards them.

"Sword Celestial Palace!"

Qin Mu gave a low shout, and those divine lights were like swimming fish in the sky. They were extremely fast, coming and going like lightning.

The divine light invaded his divine treasure realm, and sword lights burst forth from Sword Celestial Palace. They were like pearls falling on a jade plate, like raindrops hitting pear blossoms, and incomparably dense sounds rang out as sword lights collided with those flowing lights!

The sword light was like a swarm of bees, but also like a flood. It surrounded the divine treasure realm and collided with the divine light.

The celestial palace appeared behind First Ancestor Human Emperor, and instantly, the sky tilted and the earth tilted. The space swirled, and rays of divine light were destroyed in the world shattering.

Yan'er carried the lantern, and before the streams of light could reach her side, they were sent somewhere by the light.

She was the most relaxed.

They walked deeper, getting closer to the source of the divine light. The divine light flowing in the sky was also attacking them more fiercely!

Qin Mu's Sword Celestial Palace was already hard to defend against, and he had no choice but to mobilize his eighteen celestial palaces. Even the Great Dao of Xuandu, Youdu, Yuandu, and the four poles were mobilized to defend against the invasion of the divine light.

However, there were still quite a number of divine lights that attacked his divine treasure realm and came to his front!

He stood upright in the ancestral court, and the vertical eye at the heart of his brows opened up. Wherever his gaze landed, divine lights that were rapidly passing by exploded and transformed into strands of yin and yang qi that dispersed.

Mute, Blind, and Apothecary felt their hearts jump when they saw this. They decided to hide in the Tai Shi Egg and not show their faces.

First Ancestor Human Emperor's Sacred Secrets of Heaven and Earth Heart also couldn't withstand it, so he had no choice but to execute his divine art to clash head-on with the divine light. When he couldn't block it, he raised the egg of Tai Shi up to clash with the divine light, causing angry curses to come from the egg.

And Yan'er was still the most relaxed.

Celestial Venerable Yue's lantern was truly heaven-defying. When the light shone, all techniques couldn't penetrate it, and the divine light couldn't get close at all.

"No wonder Celestial Venerable Yue is one of the few Celestial Venerables that could survive from the Dragon Han Era until now." Qin Mu was also full of admiration. He was very envious of Celestial Venerable Yue's techniques and divine arts.

Finally, they passed through the layers of divine light and arrived in front of the divine bow.

Everyone looked up, and they were all dazzled.

He saw a longbow that was thousands of yards long. Its entire body was shining with golden light, and thousands of fine lights overflowed from the bow, shooting out in all directions!

Beside the long bow was a mountain that looked like a black dragon. Qin Mu took a look and saw that this black dragon-like mountain should be the roots of the big black wood. However, it was simply too thick and he couldn't see the original appearance of the roots.

Yet between the roots and the longbow, there was actually a skeleton arm!

The skeleton arm reached out from the roots of the black wood and grabbed the back of the bow tightly!

The skeleton arm actually seemed to be growing in the black wood!

“Where did this arm come from?” Everyone was astonished.

Qin Mu went forward and planned to pluck the divine bow forcefully. Suddenly, the bowstring of the divine bow vibrated, and with a bang, a sword light came to the heart of Qin Mu’s brows!

A broken sword appeared in Qin Mu’s hand, and he raised it up to deflect the arrow. The arrow light brushed past the top of his head, and a huge hole was pierced through the Glassy Sky Pagoda. The arrow light was brilliant, and it dragged along the flames. It was ten thousand miles long, and it drew a gorgeous straight line in the sky of the ancestral court!

On the other side, First Ancestor Human Emperor went forward and executed the Sacred Secrets of Heaven and Earth Heart, gently imprinting it on the bow.

The bowstring was about to vibrate again when his palm pressed down on it. The bowstring couldn’t be pulled back, and it only gave off a hum.

The space in front of First Ancestor Human Emperor was shaken by the bowstring, and it immediately split into hundreds of pieces, slicing towards him. The speed was so fast that he couldn’t react in time!

Yan’er held the lantern and shone the light, flattening the space that had split open. The strand of hair that hung down on First Ancestor’s forehead instantly split into hundreds of strands and dispersed.

A bead of sweat rolled down his forehead and slid down his nose.

Just a little more and he would have been sliced into several hundred pieces by the power of this divine bow!

Qin Mu went forward and grabbed the divine bow with him. The two of them exerted force and wanted to lift the divine bow up, but in the next instant, their bodies trembled violently!

A grand thought from the divine bow crashed into their minds. “Have you asked me if you touched my treasure?”

When their thoughts collided, the two of them knew what that thought was trying to convey. They couldn’t help feeling astonished. “The owner of the divine bow is still alive?”

The two of them were frozen in place by the grand consciousness coming from the bow. Their bodies were stiff and motionless, and only their eyeballs could still move.

Yan’er immediately stretched out her hand to grab the divine bow, but she was also frozen by that grand thought!

At this moment, Blind walked out of Qin Mu's divine treasure realm and came forward to examine the huge skeleton hand that was holding the bow. He muttered something under his breath.

Mute walked forward and examined the withered hand in detail. When he heard Blind's words, he nodded his head repeatedly.

Apothecary went forward and took out a spirit pill. He crushed it and smeared it on the skeleton. "It's done."

Mute opened the chest and stretched out his hand to grab. Countless silver pellets floated up into the air and transformed into a huge hammer.

Mute raised his huge hammer and smashed it down. With a loud clang, the huge skeleton hand shattered!

Qin Mu, Yan'er, and First Ancestor Human Emperor felt as if a huge burden had been lifted off their shoulders. The grand thoughts in their heads instantly vanished!

### **Chapter 1279 – A Shocking Arrow**

Mute, Blind, and Apothecary were pleased with themselves and couldn't help looking at Qin Mu and the rest. Blind smiled and said, "What's the use of having a high realm? Facing such strangeness, we still have to rely on us!"

Mute Abba nodded repeatedly.

Apothecary also couldn't hide his pride and stroked his beard.

First Ancestor's face turned slightly red. He originally despised the fact that these three people had low cultivation and were useless. They would only drag them down. Never did he expect that it was these three people who had saved them.

That skeleton hand was broken, and the light around the divine bow instantly retracted, gradually revealing its true form.

Qin Mu exerted strength in his palm and plucked out the divine bow. The divine bow gradually shrunk, but it was still three yards long. There were numerous strange markings on the bow, and they looked like runes. However, he couldn't understand them.

Everyone surrounded him, but they knew nothing about the rune markings on it.

Qin Mu asked Tai Shi in the egg, but he didn't recognize him.

Qin Mu tried to pull the divine bow, and it was easily pulled back. However, as the bowstring was pulled longer, Qin Mu felt his vital qi and magic power being pulled into the divine bow!

At the same time, divine light burst forth from the divine bow, and billions of fine lights gathered to form an arrow!

Everyone felt a chill down their spines. The power of this divine bow was extremely powerful, and even among the treasures of the Emperor's Throne, it was a remarkable treasure.

Qin Mu slowly pulled back his strength, and the bowstring slowly recovered. The arrow then disintegrated into rays of light and returned back into the bow. The power in the bow then transformed back into vital qi and returned back into Qin Mu's body!

He drew his bow and no magic power was expended!

Qin Mu handed the divine bow to First Ancestor, who also gave it a try and clicked his tongue in wonder.

Everyone tried it out and exclaimed in admiration.

Mute's eyes lit up. "If I can incorporate this kind of peculiar technique into my weapon refinement, the divine weapons will have a much smaller consumption of magic power and I can fight longer!"

Qin Mu handed the divine bow to him and examined the broken arm in the root. He asked in bewilderment, "Where did this hand come from?"

Mute shook his huge hammer, and the head of the hammer transformed into a huge ax that chopped down on the pitch-black roots.

The huge ax landed on the roots of the tree, and sparks flew in all directions. Mute raised the ax with a black face, and the blade was broken.

Qin Mu executed the broken sword and slashed down. His arm was numb from the tremors, but he couldn't cut open the roots!

"This person grew in the roots."

First Ancestor Human Emperor tried, but he couldn't split the root. "When I touched the divine bow just now, that person spoke to me. He should still be alive!"

Everyone used all kinds of methods, wanting to split open the roots to see if the person was really growing inside. However, no matter what divine art they executed or what divine weapon they executed, they couldn't split open the roots.

Mute suddenly smiled and said, "We are muddle-headed. We don't need the divine bow, we still need to use our own treasures."

He took out his divine bow and pulled the bowstring with all his might. However, he could only pull halfway before he ran out of magic power.

Qin Mu received the divine bow and used all his strength to pull the bow into a full moon. Almost all of his vital qi was sucked into the bow!

A divine arrow rapidly took shape, and the light of the arrow gathered on the arrowhead!

Right at this moment, rays of light suddenly filled the sky and whooshed over, attaching themselves to the sword light of the arrow.

Those lights were the starlight of the ancestral court, and the stars seemed to be pulled over by the divine bow, getting closer to the ancestral court!

Qin Mu instantly felt the power in the divine bow becoming stronger. His arms couldn't withstand the power and couldn't help trembling.

"Crap, the power is too strong!"

He was about to pull back his power, but the starlight was still gathering. The power of the ancestral court seemed to be drawn over, forming whirlpools of all sizes above the valley!

"Leave quickly!"

Cold sweat broke out on Qin Mu's forehead, and he realized that he couldn't withdraw his vital qi. He could only grit his teeth and persevere. He hissed, "When the power of the divine bow is released, I can't control the momentum when the power is released!"

First Ancestor's expression changed drastically when he heard that. Just as he was about to say something to protect Qin Mu, he saw the three elders of Disabled Elderly Village turning around to run without any sense of loyalty. Blind shouted as he ran, "Mu'er, hold on for a while longer, wait for us to run out of this valley!"

Mute's voice was like thunder. "First Ancestor, Yan'er, the wind is blowing—"

First Ancestor hesitated for a moment. Yan'er had already carried the lantern and escaped far away. He could only put down the egg of Tai Shi and said, "Mu'er, be careful of yourself. Use this egg to protect you!"

Everyone rushed out of the valley, and they saw whirlpools of all sizes spinning frantically in the sky above the valley. The spirit energy of heaven and earth poured over and bombarded the divine bow in Qin Mu's hands!

At this moment, Qin Mu's body had already transformed into a two hundred yards tall giant that was like a mountain. The divine light around his body was brilliant, making it hard for people to look at him directly.

However, the giant was trembling.

The power of the bow in his hand grew stronger until it surpassed his control!

When this arrow was shot out, the arrowhead collided with the roots of the big black tree. The power of the arrow must have exploded in all directions, and since he was in the center of it, the danger could be imagined!

Now that the arrow was on the bowstring, he had no choice but to release it. It was no longer up to him!

Just as everyone was about to fly out of the valley, an incomparably dazzling light burst forth from the center of the valley!

A huge ball of light rotated at the bottom of the valley and expanded, quickly filling up the entire valley!

Everyone who had just flown out of the valley was instantly thrown into disarray. They were swept up by this terrifying force and flew in all directions!

Even though Apothecary had cultivated the celestial palace of healing, his cultivation was still the weakest. He was instantly riddled with holes by this terrifying power!

Within this light, there were actually countless arrows!

Luckily, the marvel of the celestial palace of healing was inconceivable. His wounds healed quickly, but there were even more injuries on his body!

Finally, the storm subsided, and everyone landed on the ground in a sorry state. The dragon qilin sprinted over, but when he saw that Yan'er wasn't injured, he let out a sigh of relief.

"Cult Master is still down there!" the dragon qilin couldn't help exclaiming when he didn't find Qin Mu.

At the bottom of the valley.

There were arrows formed by light everywhere on a cliff. These arrows were deeply embedded into the indestructible cliff, and only a human-shaped area had no arrows.

In front of the cliff, Qin Mu stood there with a divine bow in his hand. The front of his body was filled with arrows, and even his face was filled with arrows.

As for the egg of Tai Shi, it had unknowingly slipped behind Qin Mu and didn't block him.

Thud.

Qin Mu collapsed on his back, and the feathers on his body trembled slightly.

These arrow feathers were formed by light, and soon, the light dimmed, and the arrow feathers gradually vanished.

The egg rolled back and carefully probed, "Celestial Venerable Mu, are you still alive?"

"He's not dead yet, he just can't catch his breath..."

Tai Shi relaxed.

After a moment, Qin Mu stood up again and looked at the divine bow in his hand. His expression suddenly changed drastically, and he threw the divine bow aside.

This divine bow was too strange.

However, after he threw the divine bow out, he regretted it again and picked it up. "I can use it when I shoot others from a distance, but if I use it at a close distance, I'll definitely die."

He composed himself and looked forward. He saw that the huge black wood root that had buried the skeleton arm had already been blown apart by the divine bow, revealing the upper body of a skeleton that was missing an arm.

The owner of the divine bow was indeed growing in the roots of the big black wood.

What was strange was that the roots of the big black wood were actually fresh!

The roots of this unimaginable tree were still alive!

Suddenly, the skeleton in the root raised its head and looked straight at Qin Mu. "Seize my treasure and destroy my resurrection. Tonight, I will take your life!" After saying that, the skeleton also fused with the root and vanished.

### **Chapter 1280 – Boarding A Pirate Ship**

Qin Mu quickly walked forward and examined the exploded root. He saw that there was nothing abnormal about it.

"Who have I offended? I met with such a situation the moment I returned. Not only did I get shot by so many arrows, he even came to take my life..."

He couldn't help but shake his head. The world was difficult, and the human heart was not what it used to be.

The egg of Tai Shi rolled around the root and examined it. "That person has indeed vanished. Strange, truly strange!"

Qin Mu carried the divine bow on his back and was about to leave when his heart suddenly stirred. He saw a little girl with two braids bouncing over. She came to the tree roots that the divine bow had pierced through and examined them. She shook her head in a mature manner and swung her braids like a rattle drum.

"You, you..."

The girl with the twin braids shook her head and sighed. "You caused this trouble the moment you came back. What should we do now?"

Qin Mu examined the girl suspiciously and probed, “Tai Yi?”

Tai Shi’s egg also recognized this girl and asked with a smile, “Old Dao brother, why did you transform into this appearance?”

“It’s just convenient to meet people.”

The girl said, “Celestial Venerable Mu, you shot through the roots and angered that person. You even opened up a path for him. That person will be able to crawl out of the roots tonight. When he does, he will retrieve his divine weapon and kill you!”

She couldn’t help but shake her head and sigh. “He had planned to crawl out ever since the universe was created. After crawling for billions of years, he only managed to crawl out one arm. You are good, opening the passage for him the moment you come up. He will be able to come up tonight!”

Qin Mu felt a little guilty and probed, “This brother is the existence of the previous universe? He first sent his bow over and wanted to squeeze his way through the past until now?”

The girl nodded solemnly.

“How did he squeeze out from the tree?”

Qin Mu was puzzled and asked for guidance, “I know about substitution of matter, but why does he have to squeeze into this universe through the roots of the big black wood?”

“Because, when the previous universe was destroyed, only this tree was immortal.”

The girl sighed too easily and said, “The substance of this tree is unchanging, be it in this universe, the previous universe, or the previous universes. Thus, a passage was left behind, allowing the creatures of the past universe to crawl here through this tree.”

Qin Mu understood a little.

This situation was similar to Celestial Venerable Ling’s unchanging substance divine art. They both transmigrated through the unchanging substance.

“In that case, why did this tree die?” Qin Mu saw First Ancestor and the rest rushing over and continued to ask.

“I chopped it.”

That little girl said loudly, “After I chopped it down, I even set a fire.”

Qin Mu and Tai Shi felt their blood run cold.

The girl said too easily, "Daoist Tai Shi, at that time, you guys were still ignorant and didn't have any consciousness. The masters of creation weren't born either. I realized that as long as this World Tree existed, there would be endless disasters, so I cut it down and burned it. I just didn't expect this World Tree to still be alive."

Qin Mu took a look at the egg of Tai Shi, thinking that it was also looking at him.

'This time, Celestial Venerable Mu shot an arrow, causing the root of the disaster to be revealed.'

The little girl stroked her braids and muttered, "Tonight, the strong practitioners of the past era will climb up and take back the divine bow, killing Celestial Venerable Mu."

Qin Mu's face turned pale, and he suddenly laughed. "Dao Brother Tai Yi, don't you have that kind of miraculous water? Can you fetch a bucket of water and patch up the roots?"

"Do you think that water came from nowhere?"

The girl rolled her eyes at him and said, "There's only this small bucket of water every day. I've already used up all of it today."

Qin Mu's expression turned bitter.

The little girl turned to leave and said, "Tonight, you will stay here with the bow and wait for that prehistoric existence to descend. When the earth quakes and the mountains tremble, it will be when he tries to descend. When the earth quakes and the mountains shake, you will count to ten and pull out the bow to shoot an arrow there. If he doesn't come out by daybreak, he won't be able to come out."

Qin Mu was worried and immediately said, "Dao brother, you..."

"Don't worry, I'll come over tonight to help." The girl quickly disappeared.

Qin Mu tightened his grip on the divine bow and composed himself. He was at ease. "Tai Yi is the oldest ancient god after all, and he has already transcended. He's not as weak as Tai Shi. With him around, we will definitely be able to pass safely tonight."

First Ancestor, Mute, and the rest rushed over. Blind asked with concern, "Mu'er, are you injured? Let Apothecary take a look at you!"

Qin Mu rolled his eyes at them and told them what had happened. Everyone was astonished.

Qin Mu revealed a hopeful expression and asked, "Who wants to guard here with me tonight?"

Blind turned to leave and said, "We also have business. Mute, let's go and continue refining the treasures in the Glassy Sky Pagoda."

Mute caught up with him and said, "That's right. There are too many treasures in the Glassy Sky Pagoda, and I'm afraid it will take a few years to completely refine them. Apothecary, don't you have spirit pills to refine?"

Apothecary hurriedly followed after him and turned his head back. "Fatty Dragon, Yan'er, come and help me start a fire! Yunjian, you rascal, what are you joining in the fun for? Your godfather is courting death, do you also want to die?"

The dragon qilin hesitated for a moment before shaking his head and tail to follow, leaving Qin Mu where he was.

Yan'er stuffed Celestial Venerable Yue's lantern into Qin Mu's hands. "Take care, young master!" She then slipped away.

Qin Mu looked at First Ancestor, Yi Shan, Qi Kang, and the rest of the human emperors and revealed a delighted expression. He said with a smile, "Human Emperor, with the future of all races as your responsibility, you shall bear the future of the human race..."

"We are the previous human emperors, we no longer have this responsibility."

Human Emperor Qi Kang patted his shoulder and said earnestly, "It's time for you to take in a disciple and throw your burden on your disciple's shoulders. Back then, these old things did the same thing... Let's go, let's go, don't disturb Mu'er's cultivation!"

First Ancestor Human Emperor walked at the back and came in front of Qin Mu. He gave it some thought and sighed. Shaking his head, he followed the human emperors.

Qin Mu stood there blankly. After a long time, he sighed and said in a low voice, "A friend in need is a friend. Only Dao Friend Tai Shi is a true friend. Follow me."

The egg of Tai Shi struggled with all its might, trying to escape. However, Qin Mu's palm held onto him tightly, preventing him from escaping. He said angrily, "Qin brat, you are the one who caused this trouble. You can take it on yourself, why drag me along? I have yet to be born, I don't have such a great ability!"

"Only you treat me the best," Qin Mu said sincerely.

The egg of Tai Shi really couldn't escape, so it could only accept its fate and say, "I'll just accompany you. It's also good to see the strong practitioners of a universe."

Qin Mu was at ease. He looked around and chose a high ground.

He came to a broken mountain and sat in a lotus position. He placed the egg of Tai Shi beside him and waited quietly.

When Tai Shi saw this, he knew what this fellow was planning to do. When he couldn't resist any longer, he would push himself out to take on the attack of an expert from the previous universe.

"I seem to have made the worst choice. I should have worked together with Tai Su to get rid of this little brat. Even if I had come out in advance, I wouldn't have to be so alarmed and fearful..."

He had a bitter resentment in his heart. “Now that I’m on a pirate ship, I can’t get off.”

Time slowly passed.

Finally, night fell.

The hundred thousand mountains of the big black tree were peaceful, but outside the big black tree, the earth was shaking and mountains were shaking. There were sounds of collapsing everywhere, and it was a magnificent sight of the universe being destroyed!

Qin Mu became nervous. Suddenly, the mountains in the valley trembled violently!

He suddenly stood up and unleashed his divine treasure realm without any explanation. His corporeal body expanded, and he stretched out his hand to grab the divine bow. Taking in a deep breath, he pulled the divine bow open!
