

Tales of Herding Gods Chapter 1296-1300

Chapter 1296 – Manly Strength

He was indeed pleased to be praised by a handsome man like Little Seven.

The silver-armored general was furious. “Celestial Venerable Mu, don’t think you can do whatever you want just because you’re pretty and manly!”

Qin Mu was even more pleased with himself. “Even though you are also very beautiful, you are too charming and feminine. You indeed lack some manly spirit compared to me. Little Seven, with your words, I can spare your life.”

The silver-armored general was unable to restrain his anger. The celestial palace behind him bloomed, and his primordial spirit stood in front of the Numinous Sky Hall in the celestial palace. His primordial spirit was also a white cat with a cat head and a human body. He was handsome and charming.

He had once fought Yan’er without losing, and his abilities were extremely brilliant.

He stabbed out with his spear, and the white cat primordial spirit that was standing in front of Numinous Sky Hall also stabbed out with his spear. The two spear shadows merged together, and the power contained in the spear was terrifying. However, this strike didn’t have any fluctuations in power!

Qin Mu exclaimed softly, “The divine art of Founding Emperor Era? You are a cat demon of Founding Emperor Era?”

He raised his palm, and the silver-armored general stabbed his palm with a clink. The instant the tip of the spear collided with his palm, his divine treasure realm suddenly exploded!

Buzz—

The power of the divine treasure realm expanded outward, and the small silver-armored general was blown back. His body vanished into the fog in the mine.

Qin Mu retracted his palm and looked down at it.

His palm was pierced by the silver-armored general.

The divine arts of Founding Emperor Era had an extremely obvious characteristic. Compared to other eras, the Founding Emperor Era had the spirit of a craftsman and sought perfection.

The divine arts of this era usually tried to be small and beautiful, compressing the power of the divine arts to the extreme. Before hitting the opponent, the power wouldn’t leak out and the power wouldn’t explode.

By concentrating the power of the divine art to a high degree and shrinking the area when the divine art burst forth, the divine art would have an even stronger attack power!

In reality, Founding Emperor Qin Ye's sword skill was the same.

This was the reason why he could use Carefree Sword to pierce through Celestial Venerable Huo's corporeal body and Celestial Venerable Hao's palm.

This was also the reason why Qin Mu's palm was pierced by the silver spear of the silver-armored general.

Qin Mu had also learned the paths, skills, and divine arts of Founding Emperor Era, but it was still hard for him to completely restrain his power. If one wasn't from that era, it would be hard to understand the spirit of craftsmen that the people of Founding Emperor Era strived for perfection.

There was only one possibility for a small general of the Yin Family to be able to do this, and that was that he was a strong practitioner of the demon race from Founding Emperor Era!

The voice of the white cat, Little Seven, came from the fog, and it was erratic. Sometimes it came from behind Qin Mu, sometimes it came from the top left, and sometimes it appeared under Qin Mu's feet, making it impossible for people to catch his location.

"You can fool the Heavenly Lady Yan, but you can't fool me. Even though I don't know why you are so confident and think you can enter the mine to take the raw stone, from what I know about you, you definitely have the confidence to take it!"

He was an incomparably nimble spirit cat that relied on the strangeness of the Tai Shi mine to hide his tracks. He sneered and said, "Goddess doesn't understand you and thinks you will die in the mine, but I'm different. I know you too well!"

Qin Mu didn't mind and continued to walk forward.

The voice of the white cat, Little Seven, was still drifting back and forth as though he was chattering non-stop beside his ear. "You seem to be very curious and like a silly roe deer, foolishly sending yourself to death. However, you always come back alive. It's not that you are lucky. It's that you have a sense of propriety every time you take risks. Even if your life is in danger, you still have ways to escape."

Qin Mu examined his surroundings and tried to find the Origin Stone. He said with a smile, "What escape method can I have? If I'm assimilated by this mine, won't I die?"

"Wrong! This time, your confidence is greater because you know that you won't encounter any danger!"

In the fog, a silver spear silently stabbed towards the back of Qin Mu's heart.

Little Seven, the white cat, was like an assassin, but also like a venomous snake hiding in the dark, making it impossible to guard against!

Qin Mu turned around and swung his sword, sweeping away the tip of the silver spear. In that instant, the power that burst forth from the tip of the spear made his arm slightly numb!

The moment he pushed the tip of the spear away, the primordial spirit of a huge white cat appeared behind him. It flashed its incomparably sharp claws and swung them at him!

When the primordial spirits of divine arts practitioners cultivated to the Divine Bridge Realm, they had already started to transform into corporeal forms.

When one cultivated to the realm of true god, their primordial spirit was already equivalent to corporeal form. Furthermore, it was extremely fast and possessed extremely strong power, even surpassing divine weapons!

When one reached the God Execution Stage and underwent the baptism of the God Execution Stage, their primordial spirit was basically the same as worshipping the ancient gods. Even though it wasn't as good as worshipping the ancient gods in terms of Great Dao law, its power was extremely strong.

When one cultivated to the Numinous Sky Realm, the power of the primordial spirit could easily kill existences of the Jade Capital Realm and wipe out their bodies and souls!

Just as the primordial spirit of the white cat swung down its sharp claws, Qin Mu sneered, "Little Seven, don't you know that I was once Son of Youdu? In front of me, no one dares to use their primordial spirit to attack me. You are the first."

In his divine treasure realm, Earth Count and Qin Mu slowly rose and stood horizontally behind Qin Mu.

The sharp claws of the white cat primordial spirit landed on Qin Mu's body. The power of this strike was too strong, but the recoil was even stronger!

The primordial spirit of the white cat gave off a miserable cry, and it was like a cat whose tail had been stepped on. The three souls and seven spirits in the primordial spirit were shaken out of its body and separated from the spirit embryo!

"You have stayed in Celestial Emperor's chambers for too long."

Earth Count and Qin Mu's huge body stood upright between heaven and earth. They stretched out their hands to grab the three souls and seven spirits that were trying to escape. Even the spirit embryo fell into the palm of Earth Count and Qin Mu.

'Even though there are many strong practitioners of Numinous Sky Realm fighting with me, they all know that using the primordial spirit in front of Son of Youdu will only lead to death. Therefore, they usually rely on the power of their divine weapons to fight me.'

Earth Count Qin Mu opened his palm, and the white cat's soul and spirit embryo trembled. Facing this behemoth, he had a natural fear, just like a mouse meeting a cat.

In an instant, his primordial spirit was stripped of his spirit embryo and soul. Even his soul was stripped into three souls and seven spirits, and every soul was separated.

Earth Count and Qin Mu squeezed his three souls and seven spirits back together and stuffed them into his spirit embryo, restoring his complete primordial spirit and putting him down.

“Little Seven, you can leave now. I promise to spare your life.”

Qin Mu retracted his realm and said with a smile, “Taking your life is as easy as lifting a hand. If you attack me again, I won’t show any mercy. Just a compliment is not worth two lives.”

Not far away, the silver-armored little general walked out of the fog with a pale face. He quickly retracted his primordial spirit and turned into a white cat to sprint down the road.

The white cat turned back and took a look at Qin Mu before disappearing into the fog.

Qin Mu smiled slightly, and the eye at the heart of his brows opened up to look around.

After being tormented by the white cat, Xiao Qi, he had already arrived at an uninhabited place in the mining area. There were no deities that had turned incorporeal and no knocking sounds. There were only balls of fog that were either thick or faint.

This was a place where no one dared to step foot.

“Celestial Venerable Mu, the Origin Stone is here!”

In the vertical eye, the egg of Tai Shi became excited. The Dao voice in the egg was also slightly hoarse. “I’ll call it out now!”

He was finally home!

Chapter 1297 – Riots In The Mine Area

Mysterious Dao runes emanated from Qin Mu’s vertical eye, and the Dao markings of the Dao of Tai Shi overflowed from his vertical eye. They were gorgeous and wonderful. Wherever they passed, the fog would gradually dissipate, and the surroundings would become clear.

The Dao markings of the Dao of Tai Shi were mysterious and hard to understand. They formed a system of their own. Even though Qin Mu had once used unchanging divine arts to reverse engineer them and had learned a lot from the Tai Shi in the egg, he still found the Dao markings that overflowed from his vertical eye hard to understand.

The fog completely dispersed, and he suddenly realized that he was in the center of a natural sacrificial altar!

This sacrificial altar was very big and had a radius of several hundred yards. It was about thirty yards taller than the rest.

The sacrificial altar was formed by flowing water and was extremely flat. He seemed to be standing on the surface of the water, and there were complicated Taishi Dao markings below the water that formed rune markings.

The imprints of all sizes lit up continuously, flickering.

He was observing the sacrificial altar when the egg of Tai Shi jumped out from his eye. Qin Mu didn't stop it.

The egg of Tai Shi was round and landed on the water surface with a thud. It spun around twice as though it was looking for a comfortable position.

Qin Mu coughed and reminded him, "Dao brother, you can't set up your nest here. This place is already occupied by Heavenly Lady Yan. If you set up your nest, you will be captured by Heavenly Lady Yan. Our main business is to find the Tai Shi Origin Stone..."

"The Tai Shi Origin Stone is here."

Tai Shi very comfortable. He snorted and said, "I know I can't stay for long. If I stay, Heavenly Lady Yan will definitely catch me. She's not like you. She has the same personality as Celestial Emperor Tai Chu. Don't worry, I'm just taking a nap and reminiscing about my childhood..."

Qin Mu looked around, but he couldn't see where the Tai Shi Origin Stone was.

He looked around and still couldn't find the Tai Shi Origin Stone. He couldn't help but say, "Dao brother, Heavenly Lady Yan is coming back soon, we need to leave as soon as possible. Where is the Tai Shi Origin Stone?"

Just as he said that, ripples suddenly appeared on the surface of the sacrificial altar. A round ball of water rose up and floated between him and the egg of Tai Shi!

Qin Mu examined it in detail and revealed a look of astonishment. He stretched his hand out to touch the water ball, but before his palm could even touch it, his fingers had already started to fade!

His palm was transforming into a pure energy body!

He was shocked and hurriedly retracted his hand.

The egg of Tai Shi rolled out from the water nest on the sacrificial altar and said, "You can't reach out your hand directly, you need to use the Dao of Tai Shi that I taught you. Try again."

Qin Mu tried to execute the Taishi runes he had condensed and circulated the Overlord Body Three Elixir Technique, covering his palm with the runes.

This time, he finally touched this water ball.

At this moment, he had a weird expression.

His palm actually passed through the center of the water ball without any obstruction!

Qin Mu waved his palm, but he still didn't touch the water ball!

He used his vital qi to try to lift up the water ball, but it was as though it didn't exist and couldn't be lifted up by his vital qi!

"There's no substance in the Origin Stone, only the shape. You can see it, but you can't touch it."

The egg rolled to his feet and said, "If you want to touch it, you have to change its form."

Just as he said that, the shape of the water ball changed. Qin Mu touched this strange raw stone, and when he touched it, it was as if he was holding up a crystal ball. However, what was weird was that he couldn't feel any temperature, as if he didn't touch anything.

"It doesn't despise you," the egg said.

Qin Mu saw his palm slowly turning incorporeal. Even the runes of the Tai Shi couldn't protect his corporeal body completely. The places that weren't protected were affected by the Tai Shi Origin Stone and turned into pure energy.

"How should I take this Origin Stone away?" He couldn't help but feel troubled.

If he brought this strange stone with him, all substances would cease to exist wherever he passed by. He would only have the shape but no substance, turning into all kinds of strange energy bodies. Even people who got close to him would fade into the void!

More importantly, the energy bodies were extremely unstable. If there were such energy bodies everywhere, it would definitely cause a huge explosion!

The egg of Tai Shi smiled. "You don't have to worry about that. I can take it away and absorb the power of the Origin Stone. In the future, the influence of the Origin Stone will slowly weaken."

Qin Mu nodded. The Tai Shi Origin Stone was truly dangerous. Bringing it with him was simply a great killing weapon. If he couldn't control the Origin Stone, he would probably explode along the way. If he wasn't careful, he would be assimilated into an energy body!

When he was on the ghost ship, he had used the Dao of Tai Shi to clash with Celestial Venerable Ling's unchanging divine art, and he had already experienced it once.

"This Origin Stone might be the most dangerous one among the five mines!"

Just as he was about to put away the Tai Shi egg and the Tai Shi Origin Stone, the Tai Shi egg suddenly jumped on the sacrificial altar and said, "Celestial Venerable Mu, take the sacrificial altar with you!"

Qin Mu hesitated for a moment and tried to release his magic power to store the sacrificial altar into the vertical eye at the heart of his brows. Unexpectedly, just as his magic power poured out, he tried to shake the sacrificial altar. In the next instant, the entire mine suddenly boiled!

The mine trembled, and all of the Tai Shi Divine Stones shone brightly. Waves of strange energy surged towards the Tai Shi Altar!

Wherever the light passed, everything turned into nothingness. Even the ancient gods in the mining area instantly faded away, their corporeal bodies and primordial spirits completely vanishing!

Qin Mu felt a chill down his spine and hurriedly blocked the egg in front of him. He then realized that the light was coming from all directions. Unless he could tunnel into the egg, he definitely couldn't block it!

"Crap... That's right, the Tai Shi Origin Stone!"

He immediately shrunk his body and entered the Tai Shi Origin Stone with a whoosh, transforming into a tiny Qin Mu that sat upright in this Origin Stone that looked like a water ball.

Countless divine stones shone on the Tai Shi Origin Stone in an attempt to refine this fellow who had caused chaos in the mine.

"Dao Brother Tai Shi!" Qin Mu shouted loudly.

The egg of Tai Shi hurriedly utilized the Tai Shi Origin Stone. With a loud boom, the Origin Stone shone brightly as though it was fighting against the divine stones!

The two lights collided, and world-shaking waves swept in all directions. A beam of light shot straight into the sky, appearing extremely dazzling in the ancestral court!

Meanwhile, in the mining area, the miners who had dodged the light from the divine stone didn't even have the chance to escape before they were caught up by the second wave of light. One by one, they faded into the void and transformed into a formless state with energy!

Little Seven, the white cat, was outside the mine. He suddenly turned back and saw the light in the mine rushing over like a flood. He couldn't help but explode and escape with a scream.

At the same time, Xiu Hongsu was also alarmed and hurriedly activated the Heavenly Venerate treasure that was suspended high above the mine.

The power of the Celestial Venerate treasure suppressed down, and with a hum, the power was assimilated by the light. It didn't release any power at all.

Xiu Hongsu saw that the situation wasn't looking good and frantically escaped outside. She cried out bitterly in her heart, 'When Celestial Venerate Mu entered the mine, such a strange thing happened! Could he really be like the legends, becoming the Demolisher Qin wherever he goes?'

The speed of the light was extremely fast, and it covered the entire mountain. The other gods in the mine were also fleeing in a panic, but some of them were slower, so they were caught up by the light and quickly transformed into energy bodies!

Xiu Hongsu turned her head back to take a look, and her eyes almost popped out. In just a short while, nearly half of the gods in the mine had disappeared!

"Why don't you go and tear down your big black wood? Black-hearted Celestial Venerate!" She couldn't care less about her image and scolded him.

Finally, everyone escaped from the mine. The light only reached the edge of the mine and didn't spread out.

Xiu Hong Su raised her head with a black face and saw a pillar of light rising into the sky at the center of the mine. The pillar of light didn't disperse for a long time, and even the sky was fading!

In the depths of the sky, the seal of the ancient gods also faded, revealing a huge hole in the sky that connected to the outside world!

"Axe Hand!"

Xiu Hongsu said sternly, "Hide well and wait for Celestial Venerable Blackheart to come out of the mine. Then, use your knives and axes to chop him into pieces! If there's even a small piece of meat, I'll leave it to you!"

The white cat said, "Senior Sister Xiu, do you think Celestial Venerable Mu will be able to survive the explosion?"

Xiu Hongsu sneered, "It's best if he dies inside!"

Finally, the light slowly dissipated.

In the depths of the mine, the egg of Tai Shi asked with a trembling voice, "Celestial Venerable Mu, are you still alive?"

"I don't know..."

Qin Mu was astonished. He sat in the center of the Tai Shi Origin Stone, and all kinds of strange markings of the Tai Shi Great Dao appeared on his body. Those were the markings left behind by the light of the countless Tai Shi Divine Stones in the mine.

These Dao markings were very bright. Other than the imprint of the divine stone, there was also the imprint of the Origin Stone.

What was even stranger was that these imprints were gradually seeping into his body. Qin Mu felt that his substance was disappearing and becoming pure energy!

He didn't even know if he was alive or dead!

"Hehe, this situation is like when the ghost ship exploded, but it's even worse..."

Right at this moment, in his Spirit Embryo Divine Treasure, his spirit embryo trembled. The Dao markings imprinted on his body by the various divine stones seemed to have received a call, and they immediately stopped corroding his corporeal body and rushed towards his Spirit Embryo Divine Treasure.

Those gorgeous Dao markings came to the ancestral court of the Spirit Embryo Divine Treasure and swarmed towards the Tai Shi Mine.

Qin Mu was astonished. He immediately felt that he was transforming from an energy body into a corporeal body!

Yet the most marvelous transformation was still in his Spirit Embryo Divine Treasure.

The Dao markings in his divine treasures ancestral court entered the Grand Prime mine.

This Tai Shi mine was formed by Qin Mu using the Tai Shi Dao he had comprehended. Even though it looked like it, it didn't have much use.

However, when these Dao markings poured into the mine, Qin Mu discovered that his Spirit Embryo Mine was undergoing a marvelous transformation.

The mine was actually slowly becoming complete. Not only that, in his mine, there was even an altar that was like water slowly taking shape!

"This is too marvelous!"

Qin Mu immediately told this discovery to the egg of Tai Shi and said excitedly, "Dao brother, there's no need for you to hatch in the mine. Bring the Origin Stone to the mine of my divine treasure and hatch it here to absorb the Origin Stone!"

The egg of Tai Shi was stunned and muttered, "That mine of yours is fake, it probably can't hatch me..."

"Then let's do it a few more times!"

Qin Mu roused his vital qi and triggered the rebellion of the divine stones in the mine again. He said with a smile, "Imprint a few more times and refine the fake into the real!"

Chapter 1298 – The Arrival Of Heaven Duke

Hong Su and the white cat waited until everything was calm. Just as they were about to return to the mine, a strange light burst forth from the depths of the mine again!

"Celestial Venerable Mu! This fellow isn't dead yet?"

Hong Su gritted his teeth, but there was nothing he could do.

In the Tai Shi Mine, she had already suffered three losses and was already a bird startled by the mere twang of a bow. Now that the mine had exploded so violently, even an Emperor's Throne like her would die if she barged in!

"How did he survive?" She was both resentful and puzzled.

The mine exploded twice, each time more intense than the last. Even with her abilities, she couldn't withstand it. If she was at the center of the explosion, she would definitely be assimilated, and there would be no chance for her to escape. How did Qin Mu survive the explosion?

Suddenly, the white cat said, "Could it be that Celestial Venerable Mu really found the Origin Stone?"

Hong Su was astonished.

She didn't know much about the raw stone. She had seen it three times, but every time she saw it, she would immediately realize that she was about to be assimilated, so she could only run for her life.

She was only guessing if the Origin Stone could block the explosion of the mine.

Not long later, the mine's second explosion finally subsided. Hong Su bit her lower lip. "Celestial Venerable Mu should stop this time..."

The mine erupted for the third time, and light rushed into the sky, shining outside the ancestral court. They even saw many void beasts lying in the sky, hanging upside down, looking curiously at the huge hole in the sky.

A curious void beast popped its head into the light pillar in the mine. Swoosh, that void beast pulled its head back. Its head was already gone, and there was nothing on its thick neck.

The other void beasts fled in panic.

The headless void beast actually didn't die and also escaped with the other huge beasts. This made the void beasts panic even more, and they scrambled to escape in all directions.

"Divine King, I've always been unable to understand you."

Heavenly Lady Yan and Ancestral God King chatted cheerfully as they searched for Mother Earth's whereabouts. Heavenly Lady Yan's gaze flickered, and she said, "As the oldest god king and the leader of the half-gods, it's natural for you to want to get rid of Heaven Duke and replace him. However, Heaven Duke is your father after all. Can you really kill him? Not only can't I see through him, I'm afraid even Celestial Venerable Hao can't."

Ancestral God King waved his hand, and the stars in the sky twinkled. It was as if countless eyes were helping him observe the movements of the ancestral court. He said indifferently, "Celestial Venerable Hao? He's already heavily injured and can't even protect himself."

Heavenly Lady Yan had also heard the news. Celestial Venerable Hao fought with the Grand Emperor and caused the Great Void to collapse. Qin Mu then took the chance to kill him and chase him for 600,000 miles. Celestial Venerable Hao escaped in a sorry state. Although this matter didn't spread out on the surface, there were no walls in the world that didn't leak out. It still reached her ears.

"How powerful is Celestial Venerable Hao?"

She said with a smile that wasn't quite a smile, "Don't tell me you think Celestial Venerable Hao will be defeated just like that and never recover?"

"Of course not. I accept Celestial Venerable Hao wholeheartedly."

Ancestral God King sighed ruefully and said, "What I admire the most about him is that he dared to ally with Celestial Venerable Yun to get rid of his father. Truth be told, the reason why I left Xuandu back then was because my father was too weak. He clearly saw the rise of the Postcelestial lifeforms in the future, and he would definitely lay his hands on the ancient gods and half-gods, destroying the glory of the half-gods and ancient gods. However, he was indifferent and didn't interfere at all."

"My father is old. As Heaven Duke, he doesn't interfere with everything in the world and works hard to be fair and just. Hehe, how is there fairness in this world? I want to change everything!"

He raised his head to look at the sky with a deep gaze. "Back then, when Celestial Venerable Mu killed the first ancient god, I made up my mind to change everything. I couldn't let these lowly people steal the orthodoxy of heaven and earth! I originally thought that the ancient gods could work together with the half-gods to get rid of these insects. However, to my disappointment, the ancient gods that were willing to work together with me were all useless people, and the powerful existences among the ancient gods were like Father. From then on, I knew..."

He sneered and said, "The ancient gods and the half-gods aren't the same kind of people! Although the half-gods are born from the ancient gods, they aren't of the same race. Instead, the ancient gods will become the obstruction of the half-gods! Back then, we half-gods worked together with the ancient gods to get rid of the masters of creation and seize the orthodoxy of the world. This glory doesn't just belong to the ancient gods! Since the ancient gods aren't fighting for it, then let power belong to the half-gods! Therefore, I've made up my mind that as long as they block my path, even my father will have to be eliminated!"

He smiled and said, "Father is old, it's time for him to abdicate and give up his position. If he doesn't, we can only let him die in office!"

Heavenly Lady Yan chuckled and was about to say something when she suddenly raised her head to look at the sky. She saw a pillar of light blasting towards the sky!

Her expression changed slightly.

Ancestral God King also looked over and said in doubt, "Heavenly Consort, that seems to be your territory."

Heavenly Lady Yan nodded, her expression flickering.

Ancestral God King's gaze flickered, and he said with a smile, "Congratulations, Empress! It looks like your mine has produced a huge treasure. There are five types of raw stones in the five great mines of the ancestral court, and the Grand Emperor has obtained one of them. He has dominated the universe for billions of years! Now that Empress has also obtained one, your position in the future will be stable."

Heavenly Lady Yan harrumphed, and her mind was in a mess. She saw the light transforming the sky and the seal of the gods, connecting the ancestral court to the outside world!

The light dissipated.

Heavenly Lady Yan composed herself and thought to herself, 'To create such a huge commotion, it seems like Celestial Venerable Mu took advantage of my absence to find the Origin Stone and caused a ruckus in the mine. Such a ruckus can't even be stopped by the seal created by the gods using the dark side of the various worlds. He will definitely find it hard to resist and die in my mine!'

Just as she thought that, another pillar of light suddenly shot into the sky and lit up the sky!

Heavenly Lady Yan was stunned, and Ancestral God King was also stunned. He muttered, "Goddess, are there two raw stones in that mine of yours?"

Heavenly Lady Yan didn't reply and suddenly flew away. She was furious. 'Celestial Venerable Mu isn't dead. Instead, he's messing around in my mine!'

Just as she moved, there was a third riot in the Tai Shi Mine area erupted!

Heavenly Lady Yan's expression became even darker as she gritted her teeth. "Does he think this is his home? If there's any damage to the mine, I'll take you to fill the eye of the Ruins of End and let you enjoy the same treatment as Divine King Bo Yang!"

Ancestral God King's heart stirred slightly. 'Heavenly Lady Yan is in such a hurry to rush over, it seems like something big has happened in her mine. Someone might have infiltrated her mine and found that stone...'

He was about to follow when he suddenly felt something. He raised his head to look at the sky and saw a huge hole that was a thousand miles in radius where the seal of the ancestral court had been broken.

That huge hole could be seen beyond the sky, and beyond it, the stars were shining brightly, transforming into a snow-white eyeball.

The eyeball was incomparably huge, and even the huge hole in a radius of a thousand miles couldn't contain the pupil of this eyeball. At this moment, the pupil was right beside the hole, staring at the ancestral court.

Heaven Duke!

With the seal of the ancestral court broken, Heaven Duke could finally see the ancestral court and even enter it!

In the sky, beams of starlight shone down from the huge hole.

"Father!"

Ancestral God King stopped, and his gaze met with Heaven Duke's gaze. He was alarmed and dispelled the thought of tracking Heavenly Lady Yan. 'Heaven Duke is here, so has Earth Count also reached the ancestral court? F*ck, who was the one that triggered the mine riot?'

Chapter 1299 – Causing Trouble, Settling It

In the center of Tai Shi Mine, Qin Mu stood on the sacrificial altar and was about to activate the fourth rebellion when he suddenly saw the treasure of the Celestial Venerable that was suspended high above the mine burst forth with abnormal activity.

Heavenly Lady Yan's unique treasure was a cauldron with a simple and unadorned atmosphere. It was square and had its mouth facing down. The cauldron spewed out rays of light that severed the void and earth, forming an independent space and time around the mine, preventing people from entering or leaving.

"Heavenly Lady Yan is here!"

Qin Mu's heart stirred slightly, and he immediately gave up on the idea of stirring up the mine. He put away the Tai Shi egg and the Tai Shi Origin Stone and walked out honestly.

Heavenly Lady Yan arrived outside the mine. Her expression was calm, but her eyes couldn't hide her anger.

Hong Su and the white cat hurriedly went forward, and the white cat, Xiao Qi, leaped into her arms. Hong Su whispered, "Goddess, Celestial Venerable Mu, he..."

Heavenly Lady Yan raised her delicate eyebrows, and Hong Su immediately shut up, not daring to say another word.

Heavenly Lady Yan looked around and saw numerous gods lying in ambush. They were clearly waiting for Qin Mu to come out to kill. She couldn't help shaking her head. "With me around, there's no need for this."

Hong Su waved his hand and dismissed the executioners.

Heavenly Lady Yan examined them, and her expression sank. She saw that not many people had escaped from the mine, and about half of them had died there.

"Celestial Venerable Mu, I asked you to retrieve the Origin Stone, yet you actually caused such a huge trouble. Do you really think I'm made of paper?"

She sneered and walked into the mine.

The white cat couldn't help becoming excited. It raised its head in her arms and licked its paws, thinking to itself, 'Goddess is angry. Even I can't coax her! Celestial Venerable Mu, you won't be able to escape this time!'

Hong Su caught up with Heavenly Lady Yan and said carefully, "Empress, Celestial Venerable Mu is the highest senior elder of the Heaven Alliance after all. If he dies at your hands, I'm afraid it won't be appropriate, and he will be attacked by other Celestial Venerables. If you really want him to die, let me do it."

Heavenly Lady Yan didn't express any opinion and continued to walk forward. However, she saw that the people who didn't escape from the mine had already turned into void bodies. They had no corporeal bodies and consciousness. They were all muddle-headed.

Among them, there were even quite a number of female disciples whom she had painstakingly taught!

Heavenly Lady Yan's expression became even darker, and she continued to walk forward. After all, her cultivation was incomparably astonishing, and even the strangeness of the mine couldn't do anything to her.

The two humans and cat went deep into the mine and came to the depths of the mine. Suddenly, light burst forth in front of them, and they saw someone executing a divine art.

They rushed forward and saw Qin Mu in front of a human figure that had already transformed into a body of energy. He was executing a divine art on that apparition, and the god that had already turned into a phantom was actually slowly recovering his corporeal body!

Heavenly Lady Yan revealed a look of astonishment and raised her hand to stop Hong Su who was about to kill Qin Mu. She said in a low voice, "Don't disturb him, let's see how he does it."

Qin Mu's hands moved up and down, and the Dao voice in his body rang out. His hands pulled out the yin and yang qi, and he executed the path of yin and yang to transform into a taiji diagram that incorporated the apparition of the god into the diagram.

After a moment, the god materialized from the void and looked around in a daze. He then looked at his hands and touched his body, feeling slightly lost.

Qin Mu wiped away the sweat on his forehead and said with a smile, "Brother, you have already come back to life!"

The god was puzzled. "When did I die? I was originally alive and well, so why did you bring me here? I still need to mine..."

Pa, pa, pa!

Applause rang out, and a voice said with a smile, "Great Wizard, your skills are marvelous, as expected of being indestructible. This divine art has broken the boundary between life and death. I now understand why Heaven Duke and Earth Count must protect you."

That god hurriedly looked towards the source of the voice, and his expression changed drastically. He hurriedly bowed and said, "This criminal pays his respects to Heavenly Consort!"

Qin Mu looked over and said with a smile, "So it's Goddess, you gave me a scare. Goddess, I have a lot of things to do here, and I still have to help these gods recover their corporeal bodies and primordial spirits. I can't talk much."

Heavenly Lady Yan gently said, "Celestial Venerable Mu is extremely righteous. I'll thank you on behalf of these people and won't disturb you any further." After she said that, she carried her cat and left with Hong Su.

Hong Su and Xiao Qi wanted to say something but held themselves back.

When they reached the main hall of the side palace, Hong Su finally couldn't hold it in any longer and said, "Goddess, the trouble was caused by Celestial Venerable Mu. Why must you be polite to him?"

"Because he is the Invincible Great Wizard."

Heavenly Lady Yan said, "He experienced three explosions in the mine and didn't die. He could also revive those people that had already turned into void bodies. Even Heaven Duke and Earth Count couldn't do this kind of ability, and neither could I. When he displayed his abilities, he was telling me that he could create trouble and settle it. He had the ability to tear down and rebuild, so it's more useful to keep him alive."

Hong Su and the white cat, Xiao Qi, were still puzzled. Heavenly Lady Yan was so furious just now, so how could she let Qin Mu off just because he showed his divine art?

'Celestial Venerable Mu's reputation of being indestructible is well deserved. He's right, in the future, the ten Celestial Venerables might not win. I should place my bets on both sides.'

Heavenly Lady Yan said softly, "In that case, there's no harm in letting him get the Origin Stone. Don't think too much, you don't understand the magnanimity of a Celestial Venerable's."

The two of them fell silent.

Qin Mu was very attentive as he healed all the gods that had turned into void bodies in the mine. He was so tired that he was gasping for breath.

Heavenly Lady Yan attended to him attentively and gathered everyone to kowtow and thank Qin Mu. It was very lively.

Little Seven, the white cat, was jealous, but he also knew that no matter if it was his status or cultivation, he couldn't be compared to Qin Mu. His place in Heavenly Lady Yan's heart was also surpassed by Qin Mu.

He was very smart, so he accepted this fact.

"Did Celestial Venerable Mu get the raw stones in the mine?" Heavenly Lady Yan personally sent Qin Mu out of the mine and asked.

Qin Mu hesitated for a moment and nodded his head. "I have indeed obtained that Origin Stone."

Heavenly Lady Yan's gaze flickered. "You were able to revive those illusory bodies because of the Origin Stone, right?"

Qin Mu laughed loudly and shook his head. "Goddess, the system of divine treasures and celestial palaces is good in everything, but your comprehension of the Dao is far inferior to the system of Dao Realm that Founding Emperor Qin Ye created. Goddess has cultivated the system of divine treasures and celestial palaces for too long, so your comprehension of the Dao isn't deep. The method I used wasn't the Tai Shi Origin Stone, but the Dao of Taiji and the unchanging substance. If Goddess cultivated the Dao Realm, you wouldn't have seen wrongly."

Heavenly Lady Yan's heart trembled slightly. "Tai Shi Origin Stone? Celestial Venerable Mu knows the name of this stone?"

Qin Mu was astonished, and he knew he had said something wrong. He gave a laugh and said, "I was just randomly named, Goddess, there's no need to take it to heart."

Heavenly Lady Yan smiled. "Celestial Venerable Mu is too kind. Please send my regards to that Dao brother in Clear Sun Hall. I won't send you off."

Qin Mu looked at her deeply, and Heavenly Lady Yan smiled.

"Celestial Empress is truly a clever woman."

Qin Mu turned around and left with large strides. He waved his hand from afar and said, "Goddess, don't forget our deal!"

Heavenly Lady Yan bowed slightly in return and said, "Tell that Dao brother not to worry, I have fifty percent of the divine stone here. We can still trade with him in the future!"

"What an intelligent woman."

Tai Shi sighed ruefully. "She deduced many things from a sentence of yours, and she's definitely going to eat me!"

Qin Mu smiled. "If I offend you and make a deal with you, who benefits more? Celestial Empress will make the best choice."

Heavenly Lady Yan saw them off and thought to herself, 'Dao Realm? It's not that I don't want to, but Dao Realm is even harder than divine treasures and celestial palaces...'

Chapter 1300 – Qin Mu Entering The Dao

In the ancestral court of Qin Mu's Spirit Embryo Divine Treasure, the egg of Tai Shi was safely planted in the mine.

There was really a sacrificial altar in this mine. It was almost identical to the sacrificial altar in the true Grand Prime mine. It was also made of water.

The egg of Tai Shi stood upright on this sacrificial altar. It was round, and beside it was a smaller Tai Shi Origin Stone that was also round.

“Even though it’s a little small and fake, it’s better than nothing!” Tai Shi said excitedly.

He began to mobilize the power in the mine to try and refine the Tai Shi Origin Stone.

Qin Mu was slightly disappointed. ‘If I could do it a few more times, I might really be able to refine the fake into the real thing. Furthermore, just refining the Tai Shi Mine isn’t enough. If I could also forge the Tai Shi Mine, Tai Su Mine, and Taiji Mine a few more times...’

Suddenly, Qin Mu felt an indescribable vibration coming from his divine treasures and ancestral court. It was the egg of Tai Shi mobilizing the mine to refine the Origin Stone!

Instantly, Qin Mu felt all kinds of Great Dao profundities flooding in, making him intoxicated. He unknowingly fell into a state of comprehension.

His footsteps still didn’t stop, but there was a strange Dao rune emanating from his body!

When the egg of Tai Shi refined the Origin Stone, it was like he was refining the Origin Stone as well!

However, Qin Mu didn’t receive the Great Dao energy from the Origin Stone. He only received the Dao and reason of the Dao of Tai Shi. Even so, it was still much better than him comprehending it by himself!

A huge mountain beast with six legs discovered him and rushed towards him. However, when this huge beast rushed to Qin Mu’s side and opened its bloody mouth, it didn’t manage to bite Qin Mu.

It was as if it couldn’t touch Qin Mu. Qin Mu seemed to have no corporeal body and actually passed through its mouth.

Something even stranger happened, and Qin Mu seemed to not notice it as he walked through its body.

Shanta was shocked and didn’t understand what was going on. He fled in a panic.

Qin Mu walked into the forest.

Ever since Mother Earth came to the ancestral court, the ancestral court had become much more forested. The vegetation was verdant, and there were numerous herbivorous behemoths, Kui Qis, which fed on the forest. If they lowered their heads, they could uproot a towering tree and eat it whole.

Qin Mu walked in the forest, and he saw heads that were the size of small mountains stretching down from the sky. The Kui Qi bit down on the huge trees, and some of the Kui Qi bit him as well. Some of the Kui Qi’s huge feet landed on him and stepped on him.

However, no matter how powerful these huge beasts were, they couldn’t touch him at all.

He kept walking in the direction of the black wood. The realm of entering the path was too marvelous. He was immersed in the vast sea of the Dao of Tai Shi, sensing everything about it.

At this moment, Tai Shi in the egg also felt something strange. The speed at which he refined the Tai Shi Origin Stone had unknowingly increased, and it was becoming faster!

The speed of refinement far surpassed the speed he refined in the mine!

‘That’s right, Celestial Venerable Mu is also borrowing me to comprehend the Dao of Tai Shi when refining the Origin Stone! He comprehended the Dao of Tai Shi and fed it to the Tai Shi mine in his spirit embryo, making it more complete!’

In the egg, Tai Shi thought to himself, ‘This is equivalent to me refining the Origin Stone with him! No, it’s even better than the two of them working together! In that case, the time for me to be born will be much earlier!’

Even though Qin Mu was in the midst of comprehending the Dao and didn’t feel anything, his speed wasn’t slow. With his current speed, he could cross the mountains and rivers of the ancestral court in three to five days to reach the big black tree.

Right at this moment, heaven and earth suddenly trembled, and the sky became incomparably bright. Numerous unique treasures hung in the sky, and they were all treasures of the Heavenly Dao. They had overflowing power and continuously bombarded downwards!

The ground trembled, and Mother Earth appeared. She activated the core of the Primordial Tree to defend frantically.

At the same time, Ancestral God King’s body was thirty thousand yards tall, and his body was enshrouded in divine light. He walked over slowly with an umbrella, his expression grim.

The sky instantly darkened.

Wherever he passed, the treasure of the Heavenly Dao would follow him like a shadow and follow closely to his left and right, forming another Xuandu world in the ancestral court!

This Xuandu world was much smaller than the real Xuandu, but it was extremely condensed, covering an area of ten thousand miles!

The heavenly might of the ancestral court was vast, and the treasure of the Heavenly Dao hung high in the sky. It bombarded Mother Earth continuously, giving her no way to escape!

“Mother Earth, you killed my disciple, so it’s time to send you on your way today.”

Ancestral God King’s tone was indifferent as though he was talking about an insignificant matter, as though he was just executing an ant that had angered him.

“Junior!”

Mother Earth flew into a rage and shouted sternly, “How old are you? When I became famous, I stood tall in the ancestral court. My canopy covered the sky, and I was the biggest tree in the ancestral court! Even the masters of creation respected me, worshiped me, and built sacrificial altars around me! I experienced ten great disasters and countless small ones. You can’t kill me!”

She defended with all her might, but suddenly, she gave a shrill cry. Countless huge beasts rushed over and crashed into the world of Xuandu of Ancestral God King, causing the entire Xuandu to shine brilliantly. It was in imminent danger.

The power of the primordial beast was too strong!

As Mother Earth, she controlled these huge beasts and attacked the Xuandu world at the same time. Even Ancestral God King found it difficult!

“Mother Earth, you do have your methods, but they are all useless in front of me.”

Ancestral God King held the umbrella, and it seemed to be a complete heaven and earth. The umbrella bones grew longer and wider, transforming into the 49 Great Daos that supported the Xuandu world, making it unbreakable.

When Mother Earth saw this, despair filled her heart. She suddenly raised her head and shouted, “Heaven Duke, are you still going to care about your son?”

Ancestral God King sneered. “Even if my father descends to the ancestral court, he won’t be able to descend too much power. He has to leave his main body behind to protect Xuandu. If his clone descends, what can he do to me? Father, do you dare?”

He roared into the sky.

Suddenly, the world of Xuandu split open, and a white light descended from the sky. When it landed, it transformed into Heaven Duke with white eyebrows and white eyes. He sighed and said, “Evil child, stop. Do you really want me to deal with you?”

Ancestral God King laughed loudly and suddenly sealed the world of Xuandu. He burst forth with all his strength and said sternly, “Father, I’ll give you a path on your body today. I’ll give you a path on your true body another day!”

He opened his cape and took a step forward. When his scarlet cape fluttered open, celestial palaces appeared under it. They floated and formed a celestial heavens!

Ancestral God King’s magic power surged, and his true body moved out to attack Heaven Duke and Mother Earth at the same time!

Heaven Duke and Mother Earth tried their best to resist, but they were soon injured. Mother Earth said angrily, “Heaven Duke, useless old thing, is this all you have?”

The clone of Heaven Duke looked ashamed and said, “I still have helpers. The seal of the ancestral court has been broken, and Earth Count has also come to the ancestral court! Dao friend, Dao friend, aren’t you coming up to help?”

The moment he finished speaking, the ground trembled, and boiling magma poured out. Youdu devil qi spewed out and transformed into a world of darkness. A magma Earth Count swirled and rose from the magma and devil qi.

Ancestral God King punched Lava Earth Count in the face, and Lava Earth Count tumbled out of the magma and was sent flying.

“You three old things, attack together!” Ancestral God King laughed loudly.

The magma Earth Count couldn't help becoming angry, and he swept his long whip over!

The four powerful existences used all their methods and fought non-stop in Ancestral God King's Xuandu world. Earth Count, Heaven Duke, and Mother Earth's footsteps were extremely fast, and their attacks shook heaven and earth. However, they couldn't break through Ancestral God King's Xuandu world and escape!

“Father, Uncle, Aunt, my Xuandu world is tougher than you guys think, right?”

Ancestral God King laughed loudly. “This is what I have comprehended over the years. I have long escaped from the Heavenly Dao, and I have learned something even better! None of you will be able to escape, and you will only have the fate of being refined and swallowed by me!”

“You unfilial son!” Heaven Duke was so angry that his beard trembled.

At this moment, Qin Mu walked into the world of Xuandu and passed through the four people.

The corporeal bodies of the four gods expanded, and the power of their divine arts was boundless. However, when Qin Mu walked through these divine arts, he didn't seem to have touched anything.

The four of them stopped and stared blankly at this tiny human.

Ancestral God King's mind was blown, and he was at a loss. His unbreakable Xuandu world had actually been walked in by Qin Mu, and it was as if he hadn't touched anything!

That was an achievement he was proud of, an achievement he dared to fall out with Heaven Duke. Yet Qin Mu had walked in just like that!

Qin Mu seemed to feel nothing and paid no attention to the four majestic gods as he walked forward at a steady pace.
