

## Tales of Herding Gods Chapter 1306-1310

### Chapter 1306, King of Divine Beasts

Lan Yutian did not have much of an impression of these secular morals and did not feel that there was anything wrong with them. Xu Shenghua, on the other hand, had the same expression all year round and did not reveal any strange expressions. The other followers were in an uproar.

“The reason why the Supreme Emperor wanted to get rid of divine emperor Lang Xuan was because Gong Fu fell and killed her and the Supreme Emperor’s son, but left behind her and Tai Chu’s son Lang Xuan.”

Tai Yi said, “It’s precisely because of this reason that the Supreme Emperor has always been unhappy with Lang Xuan. He felt that if his and Gong Fu’s son died, then Tai Chu and Gong Fu’s son must die as well.”

Xu Shenghua said, “The supreme ancient is truly chaotic.”

Tai Yi smiled and said, “It’s always been so chaotic. Look at Lang Xuan being passively beaten, but in the next moment, the one being beaten is the Supreme Emperor.”

Everyone looked up at the sky. This was the chaotic sea. With the protection of the chaotic sea and Tai Yi’s crutches, no matter how fierce the battle above was, it did not affect them at all.

It was just as the Tai di said. Celestial Emperor Lang Xuan did not completely merge the Divine Sense Dao and the innate one qi. He only managed to comprehend that one move. His Yuan Shen kept repeating the same move, it was called the divine yuan one finger.

Divine origin finger was the first absolute beginning divine art. Not to mention heavenly venerate vast heaven, even heavenly emperor absolute beginning didn’t know it. It was a pity that supreme emperor was on guard, so it was difficult for his move to be effective.

Divine Emperor Langxuan fell into a passive position. His neck had almost been chopped off by Supreme Emperor, and his injuries were getting more and more serious. Fortunately, he had a great divine art like divine origin finger, which had the ability to threaten Supreme Emperor. Otherwise, he would have been defeated even faster and more miserably!

In the depths of the void, Qin Mu executed his great divine art, Higan divine boat. He flew across the void and shuttled through the twenty-ninth layer of the void, making the pressure of the void helpless against him.

However, if he dispersed this great divine art, he wouldn't be able to stay in the twenty-ninth layer of the void anymore. If the pressure was too great, it would endanger his body.

His divine art was like Higan divine boat. He stood at the bow of the divine boat and watched the battle between Supreme Emperor and Lang Xuan, he said in surprise, "Divine Emperor Lang Xuan is really something. This move of his must be the skill that was created from the finger that godly monarch Gong Xuan used to dig out monarch Tai's vertical eye from his glabella. Combined with the innate one qi, it's really something!"

The ten heavenly venerates each had their own skills, and they all had something that made people's eyes light up!

In the front, there was heavenly venerate hao suppressing monarch Tai, and the Great Dao of the returning ruins changed from the innate one Qi to zero. It was unbelievable.

Behind him, there was divine Emperor Lang Xuan's divine origin finger, which displayed the power of Great Dao of absolute beginning for the first time. It was also overflowing with talent!

He watched with relish. When Lang Xuan was about to die under Supreme Emperor's attack, the sky suddenly became incomparably bright. The treasures of forty-nine Heavenly Dao came crashing down, and all kinds of treasures burst forth with the might of Heavenly Dao, they struck Supreme Emperor until his body swayed and his footsteps became disordered.

"Ancestral god King, Make Your Move!"

Qin Mu clenched his fists in excitement, but at that moment, the divine boat under his feet turned invisible and disappeared. Qin Mu's extreme joy gave birth to sorrow, and he was instantly crushed and turned invisible by the twenty-ninth void.

His body sank and he fell into the twenty-eighth void. His divine art burst forth, and he raised his sail to escape into the twenty-ninth void.

With the power of his divine art, he could allow himself to pass through the thirtieth void, but if the divine art dispersed, the thirtieth void would be too dangerous for him, so it would be safer for him to stay in the twenty-ninth void.

The aftershocks from the divine powers of Emperor Tai and Divine Emperor Lang Xuan were extremely weak and did not pose much of a threat to him.

However, if he fell into the 28th void, the threat to him would greatly increase.

Although the ancestor god King's 49 Heavenly Dao Treasure had beaten Emperor Tai until he was swaying, it did not threaten Emperor Tai's life. However, at the next moment, the 49 Heavenly Dao treasure beads combined and merged into a Supreme Treasure!

It was a strange treasure that used the heavenly pillar as a pole. The heavenly well, Tian Xuan, Tian gang, Tian Yuan, Tian Pan, Tian Wei, and many other treasures were attached to the heavenly pillar. It made the weapon have some parts that were thick, some parts that were thin, and some parts that were like blades, some parts were like spears.

A large hand grabbed at the center of the Heavenly Pillar. The ancestor God King's Scarlet Cape fluttered as he brandished the Supreme Treasure. His body suddenly spun as his weapon transformed. With the heavenly blade as the leader, he slashed at Monarch Tai's waist with a clang!

The supreme emperor grunted as he staggered backward, blood oozing out of his waist.

The treasure, which had gathered forty-nine heavenly dao treasures, was so terrifying that it threatened his strength!

The ancestor god King brandished the Heavenly Dao treasure and turned the blade. The hilt of the blade smashed at the Supreme Emperor. At the hilt, the heavenly bell fluttered. With a loud clang, the heavenly bell reverberated as it struck the Supreme Emperor's psyche, causing it to scatter.

The ancestor god King took a step forward, and the Heaven Bell retreated to the second line. With the Heaven Pillar as a weapon and the heaven pillar as a building, he used the heaven pillar as a hammer and smashed it into Supreme Emperor's head!

On the other side, God Emperor Lang Xuan came back to his senses and reconnected his neck. He then used his divine vitality to point at the heart of Supreme Emperor's brows!

When the two celestial venerables joined hands, the situation was instantly reversed. Supreme Emperor retreated repeatedly to block the attacks of the two celestial venerables, but the attacks were less and the defense was more. His body was also injured repeatedly.

Qin Mu clenched his fists in excitement and stared at the heart of Supreme Emperor's brows.

The primordial stone was there, and it wouldn't be long before it was crushed. At that time, he would be able to retrieve the primordial stone!

Suddenly, his gaze inadvertently caught sight of the void mother in the distance, and he couldn't help being stunned. He saw the void mother hiding in the seventeenth void, and countless void beasts surged into the seventeenth void like a tide.

'Supreme Emperor actually still has the strength to control these void beasts? What is he planning to do?'

Just as he thought of this, he suddenly saw the eyes of the void mother open up, revealing its huge mouth. The huge void beasts lined up neatly and walked into the mouth of the void mother!

The countless sharp teeth in the mouth of the void mother rotated automatically, slicing and swallowing the void beasts that walked into its mouth!

Qin Mu was stunned. He saw the body of the void mother expanding at a speed visible to the naked eye. It grew bigger and bigger, and the space markings on its body became clearer and clearer!

This void mother was originally just an ordinary void beast. After the Dragon Qilin had subdued it, the void mother had only grown three to five times in the past few years.

But now, in a short moment, the void mother had grown rapidly, and its aura was getting stronger and stronger!

'Supreme Emperor plans to use the characteristics of the void mother to create another adult void mother... No! He plans to create another king of divine beasts as strong as long Xiao!'

Cold Sweat broke out on Qin Mu's forehead. 'he plans to use the void mother to sneak attack Lang Xuan, ancestral god King, and the rest!'

The devouring speed of the void mother became faster and faster, and its physique became stronger and stronger. Gradually, even the seventeenth void couldn't withstand its huge physique!

The void mother's body extended to the 18th void, but its head was in the 17th void, allowing more void beasts to walk into its mouth continuously to strengthen itself.

Soon, tens of thousands of void behemoths fell into its mouth and turned into energy. The void mother seemed to think that the Void Beasts taking the initiative to feed was too slow, so it opened its mouth wide and bit down!

Thousands of void beasts and a large chunk of the seventeenth void were bitten off by him!

The other void beasts were terrified, but they didn't dare to move. They prostrated themselves and let out whimpering sounds.

The void mother opened her mouth and devoured the Void Beasts in the seventeenth void very quickly.

The void mother's physique was even larger, and her body had already arrived at the twenty-third void. This huge beast was too strong, giving Qin Mu, who was in the twenty-ninth void, an extremely oppressive feeling.

This feeling was similar to when he was facing long Xiao. Even if this female beast wasn't as strong as long Xiao, it wasn't far off!

Suddenly, the female beast stood up and shook her body. Her physique became smaller and smaller, and when she transformed into a huge beast of a hundred miles, she leaped out of the void!

Last month, God Mu remembered that his contribution fees were only two-thirds of the company's, and the external contribution fees were also half of the original contribution fees. Brothers, was this the fragrance of flowers blooming inside a wall? Tearful subscription!

### **Chapter 1307, omnipotence**

'The void mother has condensed its body to such a small size, so it's much stronger than the Void Mother I met when I first entered the ancestral court!'

Qin Mu looked at the void mother that had leaped out of the void, and his heart trembled slightly. Supreme Emperor had probably made a move this time to end the lives of one or two celestial venerables and clear the obstacles for him to rule the world again in the future!

To the current ten celestial venerables, the ancient gods were still their greatest enemy, but to Supreme Emperor, the ancient gods were nothing to worry about. The ten celestial venerables were their greatest enemy!

As the ruler of the immemorial era, he had many methods to deal with the Heavenly Duke, Earth count, and other ancient gods, but he didn't have such confidence in dealing with the ten celestial venerables.

The current strength and influence of the ten celestial venerables were far above the ancient gods. The reason why they didn't make a move was that if they forcefully eliminated the ancient gods, they would also suffer great casualties. The tenth heavenly venerable did not seem to agree with each other. No one wanted to be the one to suffer casualties.

Whoosh —

The moment the void mother leaped out of the void, its figure disappeared, like a transparent glass flying through the sky.

Its body passed through the divine abilities of the three heavenly venerable existences and came directly to the back of the ancestor god King. The ancestor god King was hacking at Emperor Tai with all his strength when he suddenly became alert. The Cloak behind his back fluttered, and with a whistle, it turned into a world of Xuandu.

When the Void Mother Beast passed through the world of Xuandu, he immediately sensed its exact location.

His world of Xuandu was refined by the Heavenly Dao. It was mixed with other great daos and similar domains. Even the heavenly Duke could not help but praise his unfilial son for being powerful.

When he sensed the void mother beast, his primordial spirit immediately exploded. A heavenly court suddenly leaped out and his primordial spirit stood in the Heavenly Court's Lingxiao Treasured Palace. With a backhand seal, he struck down!

At that moment, Supreme Emperor suddenly laughed out loud. He swept away his previous weakness and took on Celestial Emperor Lang Xuan's strike head-on. Then, he arrived in front of the ancestor god King.

The Heavenly Dao treasure in the ancestor god King's hand turned into a heavenly lance as it smashed down. Supreme Emperor did not Dodge or Dodge. He used his head to take the strike head-on as he sent his divine sense into the ancestor god King's Heavenly Court!

The ancestor god King suffered a pincer attack. His body suddenly turned into a stream of light as he was sucked into the heavenly court by his Yuan Shen. His body fused with his Yuan Shen as one.

At the same time, his Heavenly Dao treasure flew back and split apart, turning into 49 Heavenly Dao treasures to defend the Heaven Court. At the same time, he took on the void mother and supreme emperor's attacks head-on.

Boom —

The Divine Sense Great Allheaven descended from the sky and collided with the 49 Heavenly Dao treasures. This was an attack that contained supreme emperor's Divine Sense Dao fruit. Even heavenly venerate vast heaven's primordial spirit would be trapped by this attack!

The forty-nine Heavenly Dao treasures were smashed into pieces. There were shattered pieces of the Heavenly Dao treasures everywhere. The ancestor god King's eyes, ears, mouth, nose, and mouth spewed blood at the same time. He looked astonished. His body and primordial spirit trembled at the same time, and his divine body nearly split apart!

The Supreme Emperor's attack with the dao fruit was extremely powerful. He was severely injured in an instant!

"Dao realm. Is this the Ultimate Dao realm that the founding emperor spoke of?"

He had looked down on the Dao realm that the founding emperor had created in the past. He thought that the founding emperor's path had gone astray and was narrow. However, Emperor Tai's attack with the dao fruit allowed him to see how powerful and terrifying the Dao realm system was.

The system of the Divine Treasures Heavenly Palace was improving step by step. Every improvement had a trace to follow. The increase in cultivation strength brought by an increase in cultivation realm could be predicted and followed.

However, the terrifying part of the Dao realm was that it was difficult to enter the Dao in the early stages. Moreover, one's cultivation strength was not necessarily higher than the system of the Heavenly Palace. The time spent was also long. However, in the later stages, the benefits brought by every improvement were extremely great, when one reached the peak of the Dao realm, one would be as terrifying as the supreme emperor when one cultivated dao fruits.

Moreover, the current Supreme Emperor was not a complete supreme emperor!

The current Supreme Emperor had a physical body and divine sense, but no primordial spirit!

Even so, he was already powerful enough to crush him.

Although the ancestor god King realized how terrifying the Dao realm was, the Supreme Emperor's Dao realm was still different from the founding emperor's Dao realm. The supreme emperor's cultivation was fake, and he had relied on the sacrifice of the creator and his ancestors to cultivate to this stage.

As for the founding emperor's Dao realm, he had to improve himself step by step, improving his comprehension and comprehension of the dao, creating his own dao, and eventually refining a sword dao dao fruit.

It could be said that Supreme Emperor had crippled himself.

However, the ancestor god King was also powerful. He immediately stabilized the array formation. As long as he could withstand this strike, divine emperor Langxuan would be able to hold supreme emperor back. At that time, it was unknown who would emerge victorious!

At that moment, the mother beast pounced and passed through the ancestor god King's body. The behemoth immediately transformed from an illusion into a reality. Its massive body constantly swelled the ancestor god King.

The ancestor god King became taller and fatter like he was inflating air. Soon, he turned into a giant god that was thousands of miles tall. He was still expanding and looked extremely terrifying.

The Mother Beast crazily devoured his blood and Qi in his body. She planned to refine his blood and qi and completely devour this heavenly venerate!

“Hahahaha!”

The ancestor god King’s face was distorted, but he laughed crazily. “The heavenly duke can not do everything, but as his son, the Durin body that inherited the Heavenly Duke’s bloodline, he can do everything! I don’t have the restrictions of his rules –”

His body suddenly changed. Just a moment ago, he was still the holy and solemn god King, but now, he seemed to have turned into a devil king who did all kinds of evil in Youdu!

His body seemed to have turned into the world of Youdu. It was gloomy, terrifying, and the strange and unpredictable power of Youdu burst out. One after another, the Great Dao was like soul-luring chains, locking up the Void Mother Beast!

The chains passed through the body of the Void Mother Beast and hooked its soul!

The ancestor god King was actually planning to refine the Void Mother Beast instead!

“Oh no!”

Emperor Tai was shocked. “I might have kicked a hard rock!”! The true abilities of the tenth heavenly venerate were all hidden very deeply! However, if he used all his strength to refine the void mother beast, he would not be able to block my divine sense, great overarching heaven! This attack was enough to take his life!”

He did not want to expose his identity as concubine Qiang Tian. He once again used his divine sense, great overarching heaven, in preparation to send the ancestor god King on his way. However, Emperor Lang Xuan came from behind him. His divine essence and finger pierced through the back of his head and shot out from his forehead!

Ding.

A crisp sound rang out. The primordial primordial stone in the great emperor’s glabella exploded and flew in all directions.

Divine Emperor Lang Xuan was overjoyed. He could not care less about rescuing the ancestor god King who was about to fall into the soul consciousness Great Luo Heaven. He quickly flew over and grabbed at the fragments of the primordial stone.

The Great Emperor's soul consciousness Great Luo Heaven was also greatly weakened by the explosion of the primordial stone. The ancestor god King's Head had already fallen into the soul consciousness Great Luo Heaven. His head began to crack, and his skin flew up and shattered like pieces of paper, his face was soon badly mutilated, revealing ghastly white bones.

The power of divine consciousness great overarching heaven was simply too tyrannical. Even if Supreme Emperor couldn't use his full strength, the corporeal body of heavenly venerate wouldn't be able to withstand it.

Qin Mu, who was high up in the twenty-ninth void on the ground, immediately roused his vital qi and executed overlord body three elixir technique. He sprinted down from the void and unleashed his divine arts. Stepping on the divine boat, he transformed into numerous shadows that swept through the layers of void, he planned to snatch the flying primordial stones.

At the same time, in the Sea of chaos, supreme yi said calmly, "Fellow Daoists, look, there will be a change soon."

Lan Yutian and Xu Shenghua were already beaming with joy. When they heard that there would be a change, they couldn't help asking in bewilderment, "Dao brother, what other changes can there be?"

The Old Supreme Yi didn't say anything.

Divine Emperor Langxuan shook his sleeves and was about to put all the primordial stones into his sleeves when purple light suddenly burst forth and purple clouds descended. It was as if the heaven had suddenly collapsed.

"Celestial Master Yun—"Celestial Emperor Langxuan was shocked and called out in a hoarse voice.

He had been hit. He pounced forward and pieces of absolute beginning stones flew past him.

He turned around in the air, but what he saw was not Celestial Master Yun. Instead, Celestial Master Xiao reached out his hand with a smile on his face and grabbed at the scattered pieces of the absolute beginning stones.

Celestial Master Xiao had just grabbed all the pieces of the original stones in his hand when his expression changed drastically in the next moment. His hand that was holding the original stones suddenly broke at the wrist and his hand fell from the sky.

The thing that cut off his hand was a hairpin. The hairpin was extremely sharp and contained the power of the Great Dao of the ultimate!

In the distance, Concubine Yan Tian put away the hairpin and inserted it into her hair bun. She raised her hand and shook it. The square cauldron that had suppressed the Taishi mineral vein soared into the sky and surrounded Celestial Master Xiao with a swoosh!

A lotus flower suddenly appeared under Celestial Master Xiao's feet. He stomped heavily and the lotus flower fell into the square cauldron. The lotus flower and the cauldron fell together.

Below them was chaos ocean!

Below the lotus flower and the cauldron was heavenly venerable Xiao's right hand, which was still holding onto the primordial stone!

The land around Chaos Ocean suddenly churned, and incomparably thick roots shot into the sky. They were like thousands of tentacles, and they intertwined with each other as they wrapped around heavenly venerable Xiao's right hand.

This series of changes made everyone who was hiding in chaos ocean flabbergasted. Their mouths were agape, and they couldn't say a word.

At the same time, Qin Mu was still on the boat when heavenly venerable mu stood at the bow of the boat with a gloomy expression. "I woke up so early and rushed to the evening market! Bad Luck!"

### **Chapter 1308, Instigator**

In the Sea of chaos, Tai Yi had a kind look on his face. He smiled at Xu Shenghua and Lan Yutian, who were stunned, and said, "Interesting, right? However, there are still some fellow Daoists who haven't made a move yet."

Everyone was already somewhat numb from the shock. They raised their heads and looked up. From their point of view, the tentacles above the Sea of chaos were incomparably thick and dark. The bark on the surface was like dragon scales, it reflected the unpredictable situation of the Sea of chaos.

“Earth Mother, how Dare You Take My Things?”

Although Celestial Master Xiao’s palm was broken, he snorted angrily from inside. He punched down with his fist, and the countless roots of earth mother turned into an altar. On the altar, Earth Mother’s real body slowly rose up and took this attack head-on!

The terrifying fluctuations in the sky above the Sea of chaos surged in all directions. However, when it blew into the Sea of chaos and met Tai Yi’s walking stick, it immediately became calm and undisturbed.

In the sky, the countless roots of Earth Mother Yuan Jun broke off and fluttered in the air. They fell from the sky and smashed into the chaos sea. Not long after, they were assimilated by the chaos sea and turned into wisps of Chaos Qi in the sea.

Xu Shenghua’s gaze fell on Tai Yi’s walking stick and revealed a surprised expression. “This walking stick seems to be much more powerful than origin wood. What kind of wood is it made of?”

Tai Yi noticed his gaze and said with a smile, “There are many pieces of wood in heavenly venerate Mu’s house, but they have all been burnt by me. Don’t tell him that I have another one here, or else he will plot to take mine again.”

Xu Shenghua was at a loss. “There are many pieces of wood in Cult Master Qin’s house? When did he become so rich and overbearing? This fellow clearly looked like he was penniless and wanted to snatch good things from everyone he saw. “At this moment, he’s probably plotting to snatch the wealth of others...”

Old Tai Yi smiled. “Look quickly, there’s a fellow Daoist about to stir up trouble again! However, the culprit is still on the way.”

At this moment, Qin Mu was still rushing over on his boat. He was moving as fast as lightning and was secretly complaining that he had hidden too high and shouldn’t have hidden in the twenty-ninth void.

Heavenly venerate Dawn’s right fist caused Earth Mother’s body to sink down. Just as she was about to fall into the Sea of chaos, the sacrificial altar suddenly shattered into pieces. Countless roots shrank and tunneled into the ground before disappearing.

Earth Mother Primordial Lord had suffered a huge loss because she only had one soul left and her cultivation had been whittled away by Qin Mu, so she had no choice but to avoid the sharp edge.

In the sky above heavenly venerate Dawn's broken right hand, the battle between the lotus and the square cauldron was still ongoing. The two treasures of heavenly venerate burst forth with incomparably terrifying power as they tried to suppress each other, they took away celestial master Xiao's right hand and the primordial stone in his hand.

Suddenly, a beam of rainbow light came from the sky. The light was like a pillar, pouring in from the hole in the seal of the ancestral court. It turned into a huge palm print, covering the lotus flower and the square cauldron with a loud bang, pressing down on the two treasures at an even faster speed, they fell into the chaotic seal!

"Heavenly Duke!"

The celestial masters and Imperial Emperor who were fighting in the sky were shocked. They all tried to stop the Heavenly Duke's attack from Xuan Du.

At this moment, Youdu's demonic qi suddenly gushed out and drowned the chaotic sea in an instant. In the demonic qi, a earth count slowly rose up. The vertical eye between his brows opened and stopped the falling heavenly master Xiao's right hand. He swung his whip with a swoosh, he wrapped this heavenly master's right hand and pulled it toward the ocean formed by Youdu's demonic qi.

"Heavenly Duke, Earth count, are you also unable to endure the loneliness and are you determined to interfere in the affairs of the World?"

Celestial Emperor Xiao repelled concubine Yan Tian and descended from the sky, he sneered and said, "However, the seal is still there. You are unable to descend with your true bodies and are no match for me. If your true bodies descend, you will be bound by the Great Dao and that will be the time of your death. Why Don't you retreat quickly?"

He came with anger and even used a hidden method to force concubine Yan Tian to retreat. It was clear how powerful he was. However, when he was on his way to kill the earth count, Celestial Emperor Xiao suddenly charged at him from the side. Celestial Emperor Xiao felt a chill in his heart and the two of them collided in the air, they separated.

Emperor Tai sneered and abandoned him as he rushed to the earth count below. "The banshee is not bad."

Celestial Master Xiao sneered and also rushed to the Earth count. "Your wife, I Sleep."

1

Emperor Tai was furious. He chased after the earth count and fought with him. As the Earth count was not in his real body, he struggled to put away the Underworld River Whip and tried to return to Hades.

1

Boom —

The ocean formed by the Demonic Qi of Youdu shook violently. The Supreme Emperor and Celestial Master Xiao descended and blew up the demonic qi ocean. The two celestial master level experts' imposing manner shook the demonic qi ocean and split it apart, revealing the chaotic sea below.

Below the chaotic sea, Xu Shenghua, Lan Yutian, and the others looked up. They could only see the sturdy legs of these gods and demons, which were like pillars supporting the sky.

They stepped on the surface of the Sea of chaos, but their pressure didn't fall on the Sea of Chaos, but on Tai Yi's walking stick.

Xu Shenghua looked at the walking stick and saw that it was slightly bent under the pressure.

"Daoist brother, are you saying that this walking stick came from Celestial Master Mu's family?"

Xu Shenghua asked, "Celestial Master Mu's family has a lot of this kind of wood?"

The old man, Tai Yi, said with a smile, "It's all over the mountains and plains. If fellow Daoist Xu wants it, ask heavenly venerate mu for a few mountains. Heavenly venerate mu is very generous and will definitely not refuse."

Xu Shenghua was greatly moved.

Lan Yutian was also moved. He said, "I want a few mountains too."

"Heavenly venerate mu will definitely give them to you. Don't worry, don't worry." The old man, Tai Yi, said with a kind smile.

Boom! Boom! Boom!

Another few violent tremors rang out as the Earth Count's demonic qi sea completely exploded. Concubine Yan, ancestor God King, Divine Emperor Lang Xuan, and the others had arrived. The Celestial Master's divine light swept out, causing the demonic qi sea to completely evaporate and cease to exist!

The Lava Earth count stood in the middle of the celestial masters with the Underworld River Whip in his hand. On the other end of the whip was celestial master Xiao's right hand.

Even though the earth count had always been calm, had always been scheming, and had always been powerful, he was completely at a loss at this moment. He stood there looking rather awkward.

It was impossible for him to escape into Youdu.

The place where he stood was Youdu. However, now that the demonic Qi of Youdu had been dissolved, the Sea of chaos was under his feet. It could be said that he was completely blocked and had nowhere to go.

This lava earthen count was only his avatar. He did not have the terrifying combat strength of his main body. He could only be killed with a single strike when facing the Tigers and wolves around him.

Suddenly, the Sea of chaos stirred again. It was the void mother that had descended. It was leaning closely behind Supreme Emperor as it stared vigilantly at the ancestor god King and the earthen count.

It had nearly been refined to death by the ancestor god King. Fortunately, the ancestor god King had fought head-on with Supreme Emperor, allowing it to escape from the ancestor god King's body. However, its strength had been greatly reduced as a result.

Under the chaos sea, everyone was uneasy. Now, five celestial master-level existences had gathered on the surface of the sea, and the void mother could barely be considered half of them.

There was also the Earth Mother Primordial Lord hiding in the dark, glaring at them like a tiger watching its prey. The Heavenly Duke was also watching closely, and he could attack at any time.

Furthermore, there was a lava earth count in the middle. Although it was surrounded by all the terrifying existences, its cultivation base and strength were also extraordinary.

With so many powerful existences gathered here, could Tai Yi's walking stick made of dead wood really hold on?

Whoosh

Suddenly, a bright light flashed in the sky, and Qin Mu finally rushed out of the Void and appeared above Chaos Sea.

He took a glance down and turned around to leave.

"Instigator!" Supreme Emperor raised his head to look at him and gave a cold snort.

All the heavenly venerates present had no way to back down, so in the face of this situation, they had no idea what to do.

If they really started a war, many heavenly venerates would die!

Suddenly, Qin Mu turned back and shouted, "Brother Earth count, what are you waiting for? Throw away the primordial stones! Throw them into the sea!"

Earth count came to a realization and released Underworld River Whip. Heavenly venerate Xiao's right hand fell into the Sea of chaos along with the primordial stones in his hand.

On the surface of the sea, everyone's faces trembled, but no one acted rashly. They could only watch as the primordial stones fell into the sea.

### **Chapter 1309, United against a common enemy**

In the Sea of chaos, Xu Shenghua and Lan Yutian watched as heavenly venerate Xiao's hand, which was holding the primordial stone, fell down and landed in front of them. In that hand, the gem light of the primordial stone emitted from the gaps between his fingers.

Neither of them moved. Instead, they looked at Old Tai Yi.

Old Tai Yi smiled and said, "This primordial stone is the primordial stone. It contains the Dao of the primordial. Even Heavenly Emperor Tai Chu himself was unable to comprehend the true primordial."

He suddenly stopped at this point and did not continue speaking.

The two of them were still staring at him, waiting for him to continue speaking.

Although heavenly venerate Xiao's right hand was broken, two fingers quietly extended out at this moment. The other three fingers were still tightly clutching the raw stone fragment. The two fingers were like legs, allowing the right hand to stand up, they walked out along the seabed of the primal chaos sea.

Clatter.

A piece of the original stone fell, and the two fingers hurriedly stopped. The fingers searched around, and finally found the original stone. They carefully picked up the original stone and kept it in their palms, they continued to walk out with two fingers.

Xu Shenghua and Lan Yutian could not endure it any longer. They could not help but shift their gazes to the heavenly venerate's right hand, and then turned their heads to look at Old Tai Yi.

Lan Yutian's three thousand followers and a group of immemorial behemoths stared at the Celestial Master's right hand curiously. They watched as the celestial master kept walking out and dropping gemstones from his palm.

The behemoths were kind-hearted. They moved their butts and let the Celestial Master walk past them. They did not stop him.

The Celestial Master's right hand finally reached the space supported by the crutch. Just as he took a step, the chaotic air pressure came down. With a bang, the Celestial Master's right hand was pressed to the ground, the absolute beginning original stone fragments in his palm scattered all over the ground.

Heavenly venerate Xiao's right hand struggled for a moment, but how terrifying was the weight of the chaotic sea?

His right hand clashed head-on with the Earth Mother, Yuan Jun. . He forced the earth mother back and was whipped by the earth count. The magic power in his right hand was exhausted, and he could not fight against the chaotic sea at all. Now that he was pressed down, he could not escape.

The old man could see that Xu Shenghua and Lan Yutian were still staring at him. He sighed helplessly, "You are Dao Seekers. Why do you have to know the disadvantages of attaining Dao? If you have good or bad intentions, you will not be pure when you attain Dao."

Lan Yutian thought for a moment and said shyly, "Elder is right. I have been taught bad by my brother. He always makes me be more careful."

Xu Shenghua probed, "Then, Daoist brother, if we take this primordial stone and comprehend the Great Dao inside, will it do us any harm?"

Lan Yutian was stunned and quickly looked at Tai Yi.

Tai Yi was helpless, he could only say, "There are disadvantages. First, the Supreme Emperor wants to kill you. This primordial stone is his item for attaining Dao. Without it, his cultivation strength will never reach its peak. 'secondly, Heavenly Emperor of primordial beginning wants to kill all of you. 'this origin stone is also his item for attaining Dao. Even though he has attained dao, he hasn't attained dao yet. He has to collect all the origin stones and all the divine stones. 'therefore, apart from getting rid of all the people who have obtained the origin stones, he also has to get rid of all the creators.'

'cult master (Big Brother) still has foresight,' Xu Shenghua and Lan Yutian thought at the same time.

If Qin Mu hadn't kept telling them to be more cautious, they would probably have taken the original stone in their hands happily and offended supreme emperor and heavenly emperor for no reason.

Great change asked, "In that case, fellow Daoists, do you want to take the original stone or not?"

Lan Yutian looked at Xu Shenghua.

He knew that Xu Shenghua was his big brother's fellow Daoists and always had ideas. Sometimes, when Qin Mu couldn't make up his mind, he would specially go to West Earth to ask him for advice.

Xu Shenghua pondered for a moment, "Take.". "We take the raw stone only to take its path and comprehend the path of absolute beginning through the raw stone. We don't take its energy or borrow its power. "With that, no matter if it's supreme emperor or heavenly emperor absolute beginning in the future, as long as they want the raw stone back, we will return it to them."

Lan Yutian thought about it and praised, "My brother said that it's better to teach a man to fish than to teach a man to fish. When he taught me cultivation, he only taught me the principles of cultivation and didn't teach me the specific divine arts, paths, and skills. This is the reason."

The old man, Tai Yi, sighed, "Celestial Master Mu is right.". "However, you have to observe his words as well as his actions. Although Celestial Master Mu's words are good, he didn't only learn how to fish, but he also wanted to snatch other people's fish. "You can't learn from him."

The two agreed and went forward to the right hand of the Celestial Master who was lying on the ground. They each picked up a few pieces of the original stone.

The surface of the Sea of chaos was still silent.

Although the magma earthen count had thrown away the pieces of the original stone and the right hand of the heavenly venerate, he was still surrounded by the heavenly venerates. Everyone was still in a stalemate.

The magma earthen count suddenly sighed and dispersed the mana of this avatar. Immediately, it turned into a pile of stones that were destroyed and refined by the Sea of chaos, turning into wisps of chaotic qi.

In the face of such a situation, his avatar was completely useless. If he continued to be trapped here, his wisdom would be laughed at, so he might as well give up this body.

Everyone remained motionless. Celestial Master Xiao, Celestial Master Yan, ancestor God King, and Divine Emperor Lang Xuan were silent.

Cold Sweat broke out on the supreme emperor's forehead.

He suddenly realized that after the earth count gave up on this avatar, his situation had turned bad.

"Celestial Master Mu seems to have tricked me again!"The corners of his eyes twitched.

Suddenly, celestial master Xiao said calmly, "We are celestial masters after all."

"Yes, no matter what, we are celestial masters after all,"said concubine Yan.

The ancestral god King and Divine Emperor Langxuan nodded and said, "We are celestial masters after all. Although we have grudges and feuds, we have to be united in the face of external enemies."

Supreme Emperor suddenly laughed out loud, "Well said. We are celestial venerables after all. We should stick together and share a common enemy!"

The other four celestial venerables fell silent as if they had been stabbed in the heart.

Supreme Emperor was too sinister. One sentence showed that he was among the ten celestial venerables. It could not help but arouse the suspicion of everyone. Although Celestial Master Xiao knew Supreme Emperor's true identity, Celestial Master Xiao would not say that Supreme Emperor was the Heaven Consort.

Because if celestial master Xiao exposed his identity as supreme emperor, then Supreme Emperor would also expose his identity as heavenly emperor absolute beginning. Both sides would suffer!

The balance of interests would allow them to maintain a tacit understanding, just like how Heavenly Consort Yan would not expose Celestial Master Xiao and Heavenly Consort Xiao would not expose her identity.

The ancestor god King said lightly, "Supreme Emperor must die. Supreme Emperor is absolutely not allowed to exist among the ten heavenly venerates. Dao brothers, what do you think?"

"We agree," said heavenly venerate dawn.

Concubine Yan Tian and the ancestor god King smiled.

"We agree!" "We agree!"

The Supreme Emperor took a step back as his feet landed on the Void Mother Beast's back. He laughed and said, "You juniors want to take my life too? I have dominated the ancient times, but no one dares to go against me!"

The moment his feet moved, the Four Heavenly Venerates, Dawn, Yan, ancestor, and Lang, attacked at the same time, pincer-attacking the Supreme Emperor!

At the same time they attacked, the Void Mother Beast under Emperor Tai's feet leaped back into the void and flashed through the layers of void with Emperor Tai!

In front of Emperor Tai, the bodies of the four celestial masters twisted the void. One by one, their powerful bodies broke through the layers of void, shattering and shattering like a mirror!

### **Chapter 1310: Sacrifice to all living beings**

The fourth heavenly venerate's will formed a city, and the powerful void seemed to not exist in front of them. When the gods and demons entered the first void, they would be assimilated by the void. Even the creator with a strong cultivation could not enter the multiple void.

Only the creator elder with a certain cultivation level could entrust his divine sense into the depths of the multiple void after his death and become an ancestral spirit.

As for the gods and devils of other races, only when their divine consciousness entered the Dao and comprehended the existence of the space markings could they enter the multiverse.

There were very few people like Qin Mu who could enter the thirtieth void. In the era when the creator ruled the universe, there weren't many such existences.

Qin Mu had relied on him to comprehend the dao of innate one qi and divine consciousness, and he had already come into contact with the Dao of absolute beginning, so it wasn't difficult for him to enter the void.

However, the fourth heavenly venerate had relied on his powerful corporeal body. The strength of their corporeal bodies made void space not only unable to assimilate them, but it was even crushed to smithereens by their corporeal bodies!

This was the terrifying aspect of heavenly venerate existences!

However, Supreme Emperor knew that heavenly venerates also had their limits!

This limit had long been groped out by heavenly venerable Yun, heavenly venerable Ling, and heavenly venerable Yue.

The Void Bridge in the Great Void was the bridge built in the 35th level of void space. The bridge was built by the three heavenly venerables and the great void creator together. Heavenly venerable Yue also built three rooms at the end of the bridge.

The bridge was built extremely precipitously. If one wanted to cross it, one would have to withstand the crushing pressure of the 35th level of void space. Even if the heavenly venerable was not careful, he would be destroyed. The heavenly venerable fire, heavenly venerable void, and founding emperor were all trapped there, they were almost destroyed by the void.

The 35 layers of void was the limit of a Celestial Master. As long as the Supreme Emperor brought the void mother into the 35th layer of void, he could make the four celestial masters retreat!

The sound of thunder could be heard from the depths of the void. Along with the lightning in the depths of the void, standing in the ancestral court, one could even see a huge shadow being illuminated in the depths of the void.

The bodies were incomparably huge, and when they moved, cracks appeared in the surrounding space, spreading out in all directions like a spiderweb!

Their movement speed was also fast. When the shadows were illuminated and dimmed down, they were already far away when they were illuminated again.

On this day, blood suddenly flowed out from the sky.

The gurgling divine blood was like a huge waterfall that flowed down from the depths of the sky, forming a blood waterfall that hung in midair.

Qin Mu didn't walk too far. When he saw this blood waterfall, he noticed something smashing down from the sky. It was like a planet crashing into the earth, raising gusts of strong winds and meteors.

Wherever that thing crashed, the earth shook and mountains shook, and volcanoes spewed out. Even though the ancestral court was far stronger than the other places, it was still unable to withstand such a collision.

When Qin Mu arrived there, many flames burst forth from the sky, and huge fireballs left long trails of flames as they fell from the sky.

Qin Mu looked at the first huge pit and saw a huge fist inside.

It was Supreme Emperor's fist, but he didn't know which heavenly venerate had chopped it down, causing the mountains to collapse and the earth to crack.

'Supreme Emperor's corporeal body is one of the most powerful corporeal bodies in the immemorial era after all. Only Heavenly Emperor's absolute beginning can be on par with him. This fist might be able to be kept and refined into a treasure...'

Just as he thought of this, countless roots flew out from the magma-like earth and dragged Supreme Emperor's fist away!

"Earth Mother!"

Qin Mu immediately rushed forward and was about to snatch supreme emperor's hand when the sky suddenly brightened up and turned Snow White. Another thigh fell from the sky, and it was even more astonishing when the fist landed on the ground, the violent winds and huge waves sent him flying!

"Supreme Emperor's thigh!"

Qin Mu stopped moving and all sorts of items fell from the sky. Boom, Boom, Boom, boom, they smashed everything in a radius of ten thousand miles into the ground. The surface of the ground floated on the magma like a pot of red braised meat. The bubbles pushed up pieces of meat, making them gurgle, the surface of the ground trembled continuously.

'Supreme Emperor is really miserable. He was dismembered by the four celestial venerables...'

He couldn't help feeling pity in his heart. The strongest existence in the immemorial era had actually ended up like this when facing the four celestial venerables.

He then became happy again and flew through the Sea of fire to search for the body of Supreme Emperor.

Suddenly, a huge body descended from the sky and crashed into the magma of the Sea of fire, rolling and tumbling.

Qin Mu flew forward, and it was the Void Mother Beast!

The head of the Void Mother Beast disappeared. It was unknown whether it had been killed by the heavenly venerate, but its corpse fell down from the sky.

“The Void Mother is dead? Doesn’t that mean that the void beast is going extinct?”

He could not help but be stunned. The void mother had devoured all the void beasts in the ancestral court, and only then had it grown to its current state. The death of this void mother at the hands of the fourth heavenly venerate meant that the void mother in the ancestral court was extinct!

“There is still a void beast in Lang ‘Xian. I wonder if that Void Beast is still alive? If that void beast is also dead, then the void beast will really be extinct!”

He sprinted towards the corpse of the void mother, and suddenly, a void beast egg rolled out from the body of the void mother and landed in the magma.

Qin Mu’s heart stirred slightly, and his magic power surged out to sweep up the void Beast Egg and put it into the heart of his brows.

The last egg was born from the void mother, and the corpse sank into the magma and disappeared.

Qin Mu was about to fish up the corpse of the void mother when he suddenly stopped. His expression was solemn, and he saw the corpse of the void mother shriveling at a speed visible to the naked eye. Beast blood was rapidly flowing out!

‘the existence of the previous era has actually extended their sacrificial power to this place?’

He couldn’t help feeling goosebumps all over his body. The huge corpse of the mother beast had turned into a huge skeleton in the magma in just a short moment. Not long after, the energy in the skeleton had also been exhausted and collapsed!

His heart sank, and he immediately flew up to rush toward the bodies of the other supreme emperors.

He came to the place where Supreme Emperor's Arm had fallen, and there was only a broken bone left!

'Supreme Emperor's bones have also disappeared. There's no flesh or blood at all!'

Qin Mu's expression was solemn as he raised his head to look at the blood waterfall in the sky. It was the place where Supreme Emperor's divine blood had fallen.

He executed his teleportation divine art, and in the next moment, he traversed ten thousand miles to appear at the place where the blood waterfall had fallen.

His clothes fluttered in the wind, and the cloak on his back fluttered as he slowly landed on the ground. The place where the blood waterfall had fallen didn't form a blood lake or sea. Instead, the ground was extremely clean, without a single trace of blood!

'looks like the ancestral court is indeed not suitable to be a battlefield...'

Qin Mu looked around, "The entire ancestral court is the sacrificial altar of the existence of the previous era," he muttered. "Any life that dies here will become an offering for them to come to this world and this era. Can the Great Black Mountain still be defended?"

He thought about it carefully for a moment. In the entire ancestral court, there were probably only five mineral veins that weren't sacrificial altars that existed in prehistoric times. Only the five mineral veins could still remain independent, and the other places were probably invaded by the power of the previous era.

"Speaking of which, after I came to the ancestral court, other than the five mineral veins, I didn't find any bones anywhere else! Whether it's the bones of the giant beast or the creator's bones, they have all disappeared!"

He let out a breath of turbid air. He originally thought that the Creator's bones were devoured by the Void Beasts, but now that he thought about it, that was probably not the case.

Regardless of whether it was humans or beasts, as long as they entered the ancestral court, they would become the sacrificial offerings for the existences of the previous era!

The ancestral court was equivalent to a huge altar!

In other words, the ancestral court was a huge dinner plate. The people who entered this place were all food on the plate, waiting for the prehistoric existences to enjoy it!
