

Tales of Herding Gods Chapter 1315-1320

Chapter 1315:

'using the ancestral court as the sacrificial altar and all the living beings of the ancestral court as sacrifices, this skill is truly shocking. who was the one who created it?'

Qin Mu frowned deeply. who had such magic power and wisdom to turn the ancestral court into such a state?

Based on the current situation of the ancestral court, it wasn't suitable for anyone to settle down here. It had to be sealed and no one could be allowed to come here!

If there were people, there would be disputes. If there were a few more battles of heavenly venerate, even Tai Yi wouldn't be able to stop those prehistoric existences from descending!

'The sky is collapsing, but Tai Yi is holding it up... I wonder if Supreme Emperor Is Alive or dead? It seems like his head hasn't fallen down yet...'

Qin Mu looked around, but he still didn't see Supreme Emperor's head falling down. Earth Mother Primordial Lord was still searching around, and tentacles kept dancing on the chaotic land. They were Earth Mother's roots.

It seemed like Earth mother only had time to find one fist of Supreme Emperor, and everything else had been sacrificed.

"Supreme emperor is so pitiful."

Qin Mu sighed in regret. "It's a pity that it didn't land in my hands... while fourth heavenly venerate is still chasing after Supreme Emperor's head, I'll go to the Sea of Chaos First and fish out the primordial stone!"

The Sea of Chaos was originally a mine of great change, and it was also a place that the sacrificial power of the previous universe couldn't reach. It was filled with Chaos Qi, and it was extremely heavy. It could easily assimilate other things into the Qi of chaos.

When heavenly venerate Xiao's palm fell into the ocean, it wouldn't become a sacrificial offering. It would most likely not be assimilated by Chaos Qi for a while, and the primordial stones wouldn't be assimilated either. As long as one could go deep into chaos ocean, they would be able to find the fragments of the primordial stones.

'The last time I was able to walk out of that place alive, I had to rely on the Azure Heaven stronghold. It's a pity that Taisu has already been born, and the Azure Heaven stronghold is unable to do so. However, I have the two eggshells that Daoist brother Taiyi left for me.'

Qin Mu was full of confidence. With Tai Yi's eggshells, he would definitely be able to enter the Sea of chaos and find the original stone fragments and heavenly venerate Xiao's hand.

The original stone fragments were treasures, and heavenly venerate Xiao's hand was also an incredible treasure!

He rushed toward the Sea of chaos at lightning speed. Suddenly, the earth churned, and countless roots broke out from the ground. They were like earth-drilling dragons that drilled in and out of the Earth, chasing after him crazily!

'It's Earth Mother Primordial Lord Again!'

Qin Mu executed the great divine art of crossing the resurrection shore divine boat with a thought. He stepped on a divine boat and sailed far away into the void, leaving Earth Mother Primordial Lord far behind.

Countless roots followed him into the void and passed through layers and layers of void like a group of devils dancing around. However, as Qin Mu went deeper, Earth Mother's roots gradually became more and more exhausted.

Finally, earth mother couldn't catch up in time and could only retract her roots.

Qin Mu escaped from the void and sneered. His body had already landed on the surface of the Sea of chaos.

At that moment, four loud bangs sounded out, and Qin Mu's body stiffened. Four abnormally tall figures appeared around him.

He raised his head with great difficulty and saw Heavenly Consort Yan, then heavenly venerate dawn, ancestral god King, and Divine Emperor Lang Xuan.

The four celestial masters were in tatters. Their bodies were covered in wounds, their skin was torn, and their clothes were disheveled. The Celestial Masters' divine blood kept flowing out of their wounds and landing on the chaos sea.

The four celestial masters were probably chasing after Supreme Emperor and were injured by him. However, judging from the wounds on their bodies, apart from the wounds left by Supreme Emperor, there were also wounds caused by void destruction.

The four heavenly venerates should have chased after supreme emperor all the way to the depths of the thirty-fifth layer of void, but they had been destroyed by the Void to such an extent.

Qin Mu stood in the middle of the four heavenly venerates and was obedient. He finally experienced the feeling of lava earth count being surrounded by the heavenly venerates.

Lava Earth count was Earth Count's clone and could be abandoned at any time. It didn't have much of an effect on earth count's main body, but Qin Mu couldn't be as free and easy as Earth count.

He composed himself and was about to speak when heavenly venerate Xiao suddenly covered his broken arm and said with a pleasant expression, "I've lost an arm, so I'm afraid it'll be difficult to find primordial stone. I'll give this treasure to the three of you."

He suddenly retreated and disappeared.

God Emperor Lang Xuan's face was sallow, and his aura faltered, he coughed up blood and said, "Fellow Daoist Xiao's injuries are only external, but mine are internal. Before you arrived, I was ambushed by the Supreme Emperor. My injuries were the most severe. "I also have extravagant hopes of obtaining the absolute beginning primordial stone. "Forget it, forget it. I'll leave it to you."

His figure vanished into thin air.

Concubine Yan Tian and the ancestor god King frowned. These two powerful enemies had actually retreated at the first moment. They did not search for the absolute beginning primordial stone. Clearly, they had other motives.

Ancestor god King's body suddenly emitted explosive bangs as his expression changed drastically, he exclaimed, "My heavenly dao treasure has been shattered. My cultivation level has been destroyed! Your Majesty, Forgive me for not being able to escort you into the chaos sea. I have found the primordial stone and offered it to you! I have to return to my territory as soon as possible to recuperate!"

Consort Yan Tian's expression also changed as she retreated. She sighed, "My hidden illness has relapsed. I have very little cultivation level left. I have to return to the mineral vein to recuperate from my injuries."

The ancestor god King retreated as well and sneered. "In that case, I'll let this bastard, heavenly venerate mu, have it easy! Heavenly venerate mu, you're satisfied!"

In the blink of an eye, the four heavenly venerates vanished without a trace, and Qin Mu was still the only one left on the Sea of chaos.

Cold sweat flowed down the back of Qin Mu's neck as he stood motionlessly on the Sea of chaos.

'these four brats knew that it would be difficult for them to fight against the other three, so they used the excuse of retreating. In truth, they were waiting for someone to take out the raw stone. The three of them would join hands to attack and heavily injure that person.'

His eyeballs spun around. Even though the four heavenly venerates had left, their Qi aura had locked onto the place!

Qin Mu was in the center, and he was locked onto by the Qi aura of the four heavenly venerates. Even if he moved slightly, he would feel that he would disturb the Qi aura of the four heavenly venerates and cause them to attack at the same time!

'even if I can escape into the Sea of chaos in an instant, I won't be able to escape death.'

His eyeballs spun rapidly, but no matter how he calculated, as long as he moved, what awaited him would be a path of death!

The surroundings of the Sea of chaos were eerily quiet.

At that moment, the rocks on the shore cracked open, and a root drilled out of the ground. The root was gently probing and slowly spreading. Suddenly, an eye grew out of the thick root. It opened its eyes and looked around vigilantly.

Cold Sweat broke out on Qin Mu's forehead. Earth Mother Primordial Lord had also arrived!

The appearance of Earth Mother Primordial Lord at this moment was simply adding insult to injury!

More and more roots drilled out of the ground and gradually gathered together.

After a moment, earth mother primordial Lord slowly rose from the ground and looked at Qin Mu, but she didn't immediately make a move. She smiled and said, "Great mage, you have such a day? Run, why don't you continue to run?"

Qin Mu's voice was slightly hoarse, "Earth Mother, there's no life or death feud between you and me, so I advise you not to get close to me," he said solemnly. The four heavenly venerates were nearby, and their qi and vitality were entangled, waiting for an opportunity to strike. "If you get close to me or touch me, you will attract their attacks."

Primordial Lord Earth Mother revealed a doubtful expression and sized him up. She then observed her surroundings, but she didn't find any traces of the four heavenly venerates. She smiled and said, "I'll trust you this time."

Qin Mu was stunned when he saw Earth mother primordial Lord actually burrow into the ground and disappear!

'Why did Earth Mother Learn to be smarter? I even wanted to lure her out and use her corporeal body to block the attacks of the four heavenly venerates. Even if it was just for an instant, I could still escape...'

Qin Mu blinked and beads of sweat flowed down his forehead to his eyes. Earth mother actually believed his words, which was truly out of his expectations!

'this day really didn't go well. Could there be someone scheming against me?'

Just as he thought of this, ripples suddenly appeared in the Sea of Chaos!

Chapter 1316:

‘why are there suddenly waves in chaotic sea at this moment?’

Qin Mu’s hair stood on end, and he cursed in his heart. He immediately rose into the sky and executed the great divine art he was best at without any explanation. He tried to escape into the Void to avoid the attacks of the four heavenly venerates.

At the instant his body moved, the auras of the Four Heavenly venerates were instantly drawn to each other and collided!

There were different magic power and divine consciousness of the four heavenly venerates in this aura. At the instant they collided, Qin Mu immediately felt the circulation of his vital qi and divine consciousness becoming sluggish.

His resurrection divine boat divine art couldn’t take form at all and couldn’t carry him into the void!

“I’m doomed...”

Qin Mu’s heart sank and he immediately made two preparations. With a buzz, his divine treasure territory opened up. He grabbed heavenly venerate Ling’s peach wood hairpin with one hand and the chaos mineral vein in his divine treasure territory with the other.

In the chaos mine of his divine treasure territory, two eggshells of great change flew up. This was his second preparation. If he couldn’t even block great change’s divine art, he was prepared to seal himself in great change’s eggshell!

As for whether great change’s egg could block the attacks of the four heavenly venerates and protect himself, he didn’t know.

In the supreme beginning mine, the egg of supreme beginning also woke up from refining the supreme primordial stone. The sky was as round as an egg, and the two eggshells surrounded Qin Mu’s divine treasure territory!

“Heavenly venerate mu, do you need help?” He asked immediately.

Qin Mu didn't reply. At this moment, even supreme beginning was completely useless. The abilities of supreme beginning weren't strong enough to contend against the fourth heavenly venerate.

Just as he was prepared, he saw a walking stick rising up from the Sea of chaos and dispersing the chaotic qi.

The Four Heavenly Venerates didn't show themselves, but their divine arts had arrived!

Even though heavenly venerate Xiao, heavenly concubine Yan, ancestral god King, and Divine Emperor Lang Xuan had all suffered heavy injuries, their divine arts were still incomparably powerful and terrifying!

The four heavenly venerates executed their full strength in this strike, forcing the other party to retreat.

If they had appeared, it wouldn't have had such an effect!

Just as their divine arts were about to reach Qin Mu's side, the inconspicuous walking stick came to a heavy stop!

Qin Mu heard a loud boom, and the entire chaotic sea was sent flying by the walking stick!

The Divine Arts of the four heavenly venerates were like paper, shattering under the terrifying impact. The huge waves raised by the chaotic sea crushed in all directions, squeezing the void until it collapsed.

Suddenly, the figures of the four heavenly venerates appeared. They were lifted up by the waves of the chaotic sea and could not help but fly backward.

The four heavenly venerates groaned and tried their best to stabilize their bodies. However, they could not stabilize their bodies in the face of this power. They were extremely shocked. This power even surpassed the physical body of the ancient god Celestial Emperor, it surpassed the complete form of the Supreme Emperor. They even felt that this power represented a realm that surpassed the limits of the Celestial Court!

Hu —

The four heavenly venerates danced and were sent far away.

The four of them landed on the ground and didn't say a word. They turned around and left, quickly disappearing in the four directions of the ancestral court.

Underground, Primordial Lord Earth Mother didn't go far. She secretly observed the movements of the chaotic sea, and when she saw this scene, she couldn't help shuddering a few times. She immediately dived underground and fled frantically.

Gradually, the waves raised by the chaotic sea calmed down, and not long after, the ocean formed by the chaotic Qi returned to normal.

Qin Mu let out a sigh of relief and hurriedly placed Tai Yi's two eggshells back into the chaos mineral vein. He was bewildered. 'what's with this cane?'

The cane made fourth heavenly venerate retreat knowing that it was difficult, so it quieted down again and stood on the surface of the sea.

Qin Mu hesitated for a moment and walked forward to examine the cane carefully. There was nothing strange about it, as if it was carved out of ordinary wood.

There were no runes on the walking stick, and not even the aura of the Great Dao could be felt.

However, it was this ordinary walking stick that had sent fourth heavenly venerate flying and made them retreat!

"Daoist brother Great Change!"

Qin Mu bowed deeply to the ground and said sincerely, "Thank you for your help. The primordial stone should have fallen into Daoist brother's hands, right? I can rest assured now that the primordial stone is in your hands."

He waited for a moment, but there was still no fluctuation or reaction from the walking stick.

Qin Mu smiled. "Since Dao Brother doesn't want to talk, I Won't disturb you anymore. Farewell." After he said that, he turned around and left.

After a moment, the Sea of Chaos split open, revealing a passageway. Xu Shenghua, Lan Yutian, and the rest walked out. Old Man Taiyi waved his hand, and the walking stick flew back.

Lan Yutian asked in bewilderment, “Why did big brother speak to the walking stick just now?”

Old Man Taiyi had a strange expression and explained, “He took me as a walking stick and thought I had turned into a walking stick today.”

The two of them were bewildered and didn’t know why Qin Mu would have such a strange thought.

However, they didn’t know that Taiyi had a ‘yi’. It was impermanent and could transform into anyone or anything. Therefore, when Qin Mu saw the walking stick scare away the four heavenly venerates, he thought it was because Taiyi had turned into a walking stick, that was why he spoke to the walking stick in such a manner.

The old man, Great Change, leaned on the walking stick, he smiled and said, “You guys have seen the dangers of the ancestral court and obtained the raw stones. You should be going to meet heavenly venerate mu at the Hundred Thousand Sacred Mountain. There are plenty of such wood at heavenly venerate Mu’s place. The Hundred Thousand Sacred Mountain is filled with such divine wood.”

Xu Shenghua and Lan Yutian thanked him profusely. Xu Shenghua asked, “May I ask fellow Daoist, how do I get to the Hundred Thousand Sacred Mountain?”

“The Hundred Thousand Sacred Mountain is right there. All of you keep walking in that direction. The Sacred Mountain is extremely unique, divine, and extraordinary. You will recognize it the moment you see it!”

Old Taiyi casually pointed with his finger. Everyone looked in the direction he pointed, but they did not see anything. When they turned their heads around, Old Taiyi had already disappeared.

“What an extraordinary person,” Xu Shenghua praised.

1

They continued to move forward. The more they looked at the geography of the mountains and rivers in the ancestral court of Xu Shenghua Monastery, the more astonished they became. They couldn’t help stopping to study the direction of the geography, “The geography of the mountains and rivers here

seems to contain the paths and skills of Earth Mother Primordial Lord. There are thirty-six types of Great Dao in Primordial City, and all of them can be found in the ancestral court!”

Lan Yutian didn't notice this and only noticed it after he said it. The two of them studied it and exchanged information, and their footsteps slowed down unknowingly.

On the other side, Qin Mu rushed all the way to the one hundred thousand Black Mountains. When he saw the Black Mountains in sight, the space in front of him suddenly shook, and he stopped. With a sneer, his divine consciousness burst forth!

Boom

His divine consciousness exploded the space, and the one hundred thousand Black Mountains in front of him vanished without a trace. In their place was an incomparably huge head. It had long hair and the back of its head was facing him.

“Supreme Emperor, your injuries are too severe. You laid down an illusion to lure me, but I actually saw through it.”

Qin Mu revealed a smile and said indifferently, “You are so heavily injured, yet you still dare to look for me? Aren't you afraid that I'll kill you?”

“Hahaha, heavenly venerate mu, you really think too highly of yourself!”

Supreme Emperor's incomparably huge head turned around. His face was covered in injuries, and a huge hole had appeared on his forehead, he smiled and said, “This little injury of mine is nothing. As long as I have the primordial stone, it won't take long for me to recover. Heavenly venerate mu, take out the remaining one-fourth of the primordial stone and I'll spare your life!”

“I've already given that primordial stone to heavenly venerate Xiao.”

Qin Mu said with a smile that wasn't a smile, “Furthermore, if you spare my life, I'm afraid the current you won't be able to do it. Supreme Emperor, I chased after heavenly venerate Hao for six hundred thousand miles and he was saved by Tai Su. That's his good fortune. Today...”

He slowly pulled out the broken sword and said indifferently, “I'm afraid you won't have such a good life.”

Chapter 1317:

Supreme Emperor's head was like a mountain, giving Qin mu the feeling of a hundred thousand Black Mountains. Of course, that was because Supreme Emperor's divine consciousness was interfering with his thoughts and consciousness, creating an illusion for him.

Supreme Emperor wasn't famous for his divine consciousness illusions. His attainments in them were far inferior to Celestial Master Gong's. His divine consciousness rippled, causing the void to shake. This was also the reason why Qin Mu could see through him.

"Heavenly venerate mu, you are becoming more and more arrogant."

Supreme Emperor's long hair was in a pile. He had natural curly hair, and it was long. When it was curled up, he was furious, and the pile of curly hair fluttered in the wind, "In my lifespan of billions of years, you are just a little grasshopper that can only jump from spring to autumn..."he said indifferently

Before he could finish his words, Qin Mu's divine treasure domain erupted!

The domain of his divine treasure roared and expanded. Supreme Emperor sneered, and his wavy hair fluttered like huge snakes. Even if Qin Mu's divine treasure domain expanded to its limit, it would only cover his head.

Supreme Emperor's head took up nearly half of the space in Qin Mu's divine treasure domain. In front of this huge head, Qin Mu's floating heavenly palace and Heavenly Court also seemed insignificant. They were like tiny cities floating in front of him.

Qin Mu's main body, on the other hand, seemed even more insignificant.

A smile appeared on Supreme Emperor's face as he looked at the shadows of ancient gods in the domain, he sneered. "This is your domain, not bad at all. However, I'm the one who created it! From ancient times until now, among the billions of cultivators, I'm the first to create a domain. I'm the Pioneer!"

"You dare to use your supreme divine consciousness domain in front of me?"

Qin Mu laughed loudly and rose into the sky. The Broken Sword in his hand returned to its original form, and sword lights flickered as he stabbed toward Supreme Emperor!

He had used his sword path domain!

Sword path domain was one of the domains in his divine treasures. At that moment, the sword domain erupted, and the gods in it unleashed their magic power and path paths. The Heavenly Dao of Xuan Du, the Great Dao of Youdu, and the Great Dao of Yuan du., with the addition of ancient God Four Extreme Heavens, Heavenly Yin, returning ruins, and the other ancient gods of the heavens, the power of his sword reached its peak!

Supreme Emperor was expressionless as he looked at the sword light flying over. He indeed didn't dare to use his supreme divine consciousness domain. If he did, he would die.

Qin Mu had already cultivated heavenly venerate Ling's not easy divine art. If he used his supreme divine consciousness domain, his domain would instantly turn into a sharp weapon that could attack him and trap him to death.

However, what he knew wasn't just his supreme divine consciousness domain!

His other body, Qi Tian consort, as one of the ten heavenly venerates, didn't cultivate divine consciousness!

Ever since heavenly venerate Yun, ling, and Yue had killed him in great void, he had realized that there was a huge flaw in his divine consciousness. Therefore, after he had transformed into Qi tian consort, the path he had taken wasn't the old path of divine consciousness becoming the dao.

In fact, the path he had taken was the same as the other heavenly venerates. He had used the identity of Empress Qi to gather all the divine arts, paths, and skills in the world to cultivate vital qi as his main focus, studying the dao of innate state to become himself.

On this path, he was already one of the ten people with the highest achievements in the world!

His long hair fluttered in the wind like huge dragons as they met Qin Mu's sword domain. The sword domain instantly erupted, and countless crisp sounds of steel clashing rang out!

The long hair was cut off by Qin Mu's sword domain and fell off his head!

The long hair that fell off twisted, and they suddenly transformed into ferocious black dragons that pounced at Qin Mu with bared fangs and brandished claws!

Even more of supreme emperor's long hair flew over like long dragons dancing in the air. They were incomparably sharp, blocking Qin Mu's sword domain head-on and even turning defense into offense. The strands of long hair were like the sharpest sword in the world, the fiercest dragon, and the sharpest spear.., they attacked Qin Mu and pierced through his sword domain!

Qin Mu held the sword in one hand and pressed his other hand on the heart of his brows. The vertical eye on the heart of his brows opened, and the black dragons that had transformed back into black hair instantly fell down from the sky.

"Not Easy Divine Art?"

Supreme Emperor frowned. The divine art that Qin Mu had executed was not easy divine art, and it directly returned his hair back to its original form!

'could it be that I can't use any divine consciousness divine art in front of this brat?'

Qin Mu's sword light had already arrived in front of him, and it cut through his long hair. It was about to pierce into the hole in the center of his brows!

"I won't waste any more words with you!"

Supreme Emperor suddenly opened his mouth and roared. The terrifying sound wave shattered the space, and Qin Mu's sword domain instantly shattered!

It wasn't just sword domain that shattered. There were also Xuan du, Youdu, and Yuan du!

The gods in Qin Mu's divine treasure domain collapsed one after another. The starry sky was destroyed, the Earth evaporated, and earth, water, wind, and fire spewed out. It was like the sign of the end of the world!

Qin Mu faced his fierce might, but he revealed a smile. The sword light in his hand suddenly dispersed, and his corporeal body expanded crazily!

His corporeal body was entangled like a giant that had split open the heavens and earth. His spirit and body were one, and his god and body were one. He was facing the roar of Supreme Emperor's head head head on!

On the surface of his body, his tendons and flesh were constructed into various runic patterns. A large bell was suspended above his head. The sound of the bell shook, and the power of creation was extraordinary. It allowed the shattered divine treasure domain to instantly recover and complete, and the destroyed gods were resurrected one after another!

The 15th Heaven of the divine ability, the power of creation had been unlocked!

His entire divine treasure domain suddenly shrank in an instant and entered his body. Gods of all sizes lived in all the apertures of his body!

The Eighteenth Heaven of Divine Arts, death of God of crimson light!

The era of crimson light was divided into the era of crimson emperor and the era of bright emperor. One primordial spirit created the strongest primordial spirit while the other created the corporeal body, creating the strongest corporeal body.

At that moment, the techniques of bright emperor and crimson emperor were displayed to the fullest on his body!

Qin Mu's corporeal body was huge, and when he stood in front of Supreme Emperor's head, his body wasn't the slightest bit smaller than supreme emperor's head. The crisp sounds of metal clashing could be heard, and incomparably thick arms drilled out from under Qin Mu's armpits!

His head actually turned into three heads and six arms. Bam, Bam, Bam. In an instant, countless fists landed on Supreme Emperor's face, sending his incomparably huge head flying backward!

Supreme Emperor's head rumbled, and he was beaten senseless. Suddenly, Qin Mu's feet came to a stop, and a divine boat appeared under his feet. It crossed the sky and chased after him.

Resurrection divine boat crossing!

At the bow of the boat, the layers of heavenly palaces were crisscrossed behind Qin Mu. The heavenly palaces were arranged and combined, and in an instant, they turned into a heavenly court that was resplendent in gold and jade.

Qin Mu's Qi and blood instantly rose to their limits. Blood light shone on half of the sky, dyeing it scarlet red!

The Shadows of countless ancient gods appeared in the sky, fighting and killing. It was like a fierce battle between the heroes of the era of Long Han, replaying the tragic scene of the struggle for supremacy in the world!

Supreme Emperor looked at the blood-red sky and saw that Qin Mu's heavenly court had split into three. The situation of the three heavenly courts in the era of long Han was actually reenacted!

"This is a divine art of creation, it was actually refined to such an extent by him!"

Supreme Emperor's heart trembled. Qin Mu's move was the seventeenth heaven of the divine art that had entered the path, yet long Han was fighting against him!

Long Han was fighting against each other, and the killing intent of this great divine art filled the sky. It seemed to have gathered all the fierceness of the struggle for supremacy of long Han into one move. Long Han, Xiao Han, long Xiao, the three great heavenly courts were fighting for the legitimacy of the heavenly emperor, and there were countless schemes and tricks.., all of them converged in one move!

That era was magnificent and tragic. There were nine heavenly venerables teaching the way to the world, Heavenly Emperor absolute beginning controlling the power and toying with all living things, earth count reincarnating as Ah Chou, dragging Youdu to battle the heavenly court, Yun, Ling, and Yue Taixu beheading supreme emperor.., there were heavenly venerables plotting against Heavenly Emperor execution, heavenly venerables Haotian scheming against crown prince Xie Wuqi, the empress of the Emperor dying in the returning ruins, Heavenly Venerables Ling Banishing Ghost Ship Yulin Army, and the Dragon and Han swallowing Xiao Han and long Xiao..

Supreme Emperor was a person who had personally experienced that period of time. The feeling that Qin Mu's move gave him made him feel as if he had returned to that era of Great War, an era where even the Giants who had dominated the primordial lands could fall at any moment!

Chapter 1318:

Boom

Qin Mu's dragon and Han fought over this great divine art and heavily struck Supreme Emperor's head. It crashed into the void and vanished from the sky of the ancestral court.

The resurrection divine boat under Qin Mu's feet dispersed and his body stood erect in the sky. His three heads looked in all directions and the vertical eye in the heart of his brows opened. His three eyes were focused on the movements in the void.

"Supreme Emperor, you aren't afraid, are you?"

His voice was like gangrene that was attached to the bone, and it followed closely behind Supreme Emperor's head as it passed through layers of void space, entering Supreme Emperor's ears with incomparable clarity, "As the strongest emperor of the immemorial era, you have been dealt with by heavenly venerate Yun, heavenly venerate Ling, heavenly venerate vast, and the Four Heavenly Venerates Lang, Xiao, Yan, and ancestor. "Your Life is a life of failure. Run."

Supreme Emperor's head swept through the layers of void with a gloomy expression. He could clearly hear Qin Mu's voice and could also clearly see Qin Mu's figure.

His head was changing, and his flesh and blood were growing.

His technique was the strongest technique in the world, great overarching supreme divine consciousness!

Even if he didn't have primordial stone, he could still forcefully repair his corporeal body. However, using divine consciousness to repair his corporeal body was far inferior to primordial stone. His injuries were extremely serious, and his divine consciousness was even more severely injured, using divine consciousness to repair his corporeal body would leave him with a huge hidden danger.

"Continue to escape."

Qin Mu's voice still rang out. "This isn't difficult for you. "After all, you have been running for a million years, and you don't even dare to turn into a man. You only dare to turn into a woman and hide in the heavenly emperor's harem, forcing a smile on your face. "The Grand Supreme Emperor, the first heavenly emperor who ruled the universe, actually turned into a woman and relied on the heavenly emperor's harem to compete with the Heavenly Emperor's concubines for favor, selling smiles to survive..."

Supreme Emperor's expression became even gloomier. Suddenly, his curly hair spread out and pierced through the Void, locking his head in place.

He stopped in the twenty-seventh layer of the void, and his hair extended in all directions like a sea urchin, locking him in place. His supreme divine consciousness circulated at full speed, and the remaining divine consciousness was used to visualize his corporeal body!

Without a corporeal body, he felt that he wouldn't be able to fight against a celestial venerable like Qin Mu who had established his path with a divine art. He had to use his complete corporeal body.

In the early years of Dragon Han, the reason why Qin Mu had been conferred the title of Celestial Venerable was because of his divine art establishing his path!

In the past, Qin Mu had still looked very green, but now, his name had come true. His divine art had already achieved establishing his path, becoming a true celestial venerable mu!

Such an existence was worthy of respect, and it was also worthy of Supreme Emperor's battle!

Flesh and blood grew under his neck, and soon, his chest grew out, and his four limbs grew out.

Supreme Emperor kept visualizing, using his last divine consciousness to forge a new corporeal body.

"You became Heaven Consort Qi, so you might have made some achievements, but you did it all by relying on your face, your figure, and your smile, right?"

Qin Mu's voice was extremely vicious, it entered his mind. "You've hidden your whole life, when will you dare to fight openly like a man? Could it be that you've forgotten that you're a man after being a woman for so long?"

Supreme Emperor's expression was cold as his head gradually shrunk. He tried his best to make his body no different from a normal creator.

Qin Mu didn't speak anymore.

The corners of Supreme Emperor's eyes twitched. At that moment, he felt Qin Mu's gaze. It passed through the twenty-seventh layer of void and landed on his body, finding his exact location.

Supreme Emperor closed his eyes and executed great Luo's supreme divine consciousness. Instantly, all kinds of lights shone in the twenty-seventh layer of void, and gods appeared one after another, imprinting themselves into the orifices of his body.

This method was very similar to Qin Mu's divine body of bright red, but compared to Qin Mu, he was the real deal!

Qin Mu had learned great Luo's supreme divine consciousness, so he could combine it with the path of Creation to refine the divine body of bright red!

However, no matter how strong Qin Mu's divine art of creation was, it was impossible for him to return to the ancient times and see those ancient gods that had already died!

Even though there were many ancient gods in the apertures of Qin Mu's body, only the Great Dao runes of the three hundred and sixty-five ancient gods were complete. He had never seen the other ancient gods before.

That was because those ancient gods had already died and been exterminated before the Dragon Han!

In the Battle of the immemorial era, there had been a huge number of creators who had died, but the ancient gods that had died accounted for more than half of all the ancient gods. At that time, there had been a total of more than one thousand nine hundred ancient gods!

"I was revered as Supreme Emperor, and I didn't just rely on the sacrifice of the creator to obtain it. I was revered as the strongest corporeal body, and I also didn't rely on the sacrifice of the creator to obtain it. Instead, I relied on my intelligence and my foundation to obtain it!"

He suddenly roared and his long hair was pulled back from the void.

He stood in the 27th layer of the void. His curly long hair was pulled straight and fell on his shoulders. His muscles were ferocious and filled with boundless strength.

He exposed his chest. This was the most perfect physical body of the creator. His muscles were perfect in algebra and carried a shocking beauty. It was his pride.

He was the most beautiful man in the prehistoric creator race. He was also the most intelligent and powerful person. Bo Yang's vicissitudes, Gong Gong's beauty, and Shu Jun's heroism were nothing in front of him!

He used his masculinity, his strength, and his intelligence and charm to conquer the creator of the prehistoric era. He made the Three Kings submit, the ancient gods worship him, and he became the Supreme Emperor!

Ever since the end of the prehistoric era, when he had been defeated by Heavenly Emperor absolute beginning, he had rarely used his intelligence and strength to fight with his full strength. He used to scatter his strength, and it turned into a great Hong and a bright rain, he had turned into Qing Tianfei, and he had used schemes and plots to seize power.

And now, he would recreate the masculinity of the creator, the beauty of masculinity, to defeat Qin Mu, to defeat this little brat!

He waited quietly for Qin Mu's arrival.

Whoosh —

The paramita divine boat traversed through the void and appeared in front of him. Qin Mu's clothes fluttered as he stood at the bow of the divine boat. Only when the divine boat came to a stop did his fluttering clothes calm down.

"Celestial Emperor Mu," Supreme Emperor said with a deep and deep voice.

Qin Mu bowed slightly. "Supreme Emperor."

"Please!"

"Please!"

Supreme Emperor shouted out, and the more than one thousand nine hundred ancient gods in his body mobilized their power at the same time. They made his body float and flash, crushing the twenty-seven layers of void until it was destroyed!

At the next moment, he came in front of Qin Mu, the overlord of the immemorial era, the one and only emperor. His domineering aura was all in a single punch!

He threw a punch!

Boom!

The two fists collided, and the two huge figures separated from each other and fell backward. They crushed the void, creating thunder and lightning in it!

There was blood light in the Lightning, and it was the blood that burst forth from the skin of their bodies!

“Sinkhole one Qi birth!”

Qin Mu let out a long roar in anger and stopped his body. He then rushed forward like a stream of light, and a sinkhole great abyss appeared under his feet. The innate one Qi above his head was connected to the Great Abyss, and a lotus flower with two roots appeared in the Great Abyss, the innate one Qi above his head turned into a lotus flower, and his body spun rapidly. His three heads and six arms punched out countless times in an instant!

Monarch Tai roared and charged at him, “A mere sinkhole Mao Shen was not even able to withstand a single blow from me!”

Chapter 1319:

Primordial Qi birth was the twelfth heaven of Qin Mu’s divine art that had entered the path. The most powerful part of this move was that it devoured the strength of the enemy, causing the lotus flowers in the Great Abyss to sway, it could then swallow the strength of the enemy’s divine art into the Great Abyss, turning it into innate qi that would fall from the lotus flowers on top of his head and feed back to his body.

The inborn one Qi grew stronger, and the power of the divine art grew stronger, causing even more damage to the enemy.

This was a divine art he had created based on heavenly venerate clear heaven’s means in great void Devil region. It could be said that he had absorbed heavenly venerate clear heaven’s wisdom.

However, Qin Mu wasn't heavenly venerate clear heaven after all. He didn't have the bloodline of heavenly emperor absolute beginning and Empress Yuanmu, but his research on the inborn one qi and the path of returning ruins wasn't inferior to heavenly venerate clear heaven's in the slightest. In fact, he had even surpassed heavenly venerate clear heaven's wisdom!

He had obtained the Great Dao runes in the guardian pavilion of Dao ancestor. The runes in the guardian pavilion used algebra to analyze the Great Dao of the ancient gods, which included the Great Dao runes in Heavenly Emperor Primordial Qi's corporeal body.

Qin Mu had also obtained the corporeal bodies of Empress and Madam Prime Minister, so he had a thorough understanding of the Great Dao of the corporeal bodies of the two ancient gods. At the same time, he had used microscopic algebra to make up for the shortcomings of Dao ancestor.

However, with this point, heavenly venerate vast heaven's understanding of innately one qi and the path of returning ruins might not be able to compare. Furthermore, the eggshell of the Heavenly Emperor was in the center of his brows, so he had even started to come into contact with the path of absolute beginning!

If they were to fight on the same realm and used innately one qi and the path of returning ruins, heavenly venerate vast heaven would have the advantage of his bloodline, and the power of his divine arts would be extremely tyrannical, qin Mu, on the other hand, would have the advantage of having a deeper understanding of the dao of absolute beginning and sinkhole, so he might not be weaker than heavenly emperor Hao.

At the instant the two of them collided, Supreme Emperor immediately felt his own power pouring out and being devoured by the great abyss of sinkhole under Qin Mu's feet!

Under this situation, he would definitely become weaker and weaker!

Bang Bang Bang!

Their fists were like light and lightning, and their speed was extremely fast. Their bodies moved even faster, and in the blink of an eye, they had struck from one end of the Void to the other!

Qin Mu relied on his three heads and six arms, and the speed of his attacks was dazzling. In an instant, countless fists poured down. Every time Supreme Emperor received a punch from him, he felt the power in his body drain away, he was devoured by the other party.

His power flowed into the other party's fists and arms, into his body, through his legs, and into the great abyss of returning ruins.

When he reached great abyss of returning ruins, he immediately lost the ability to sense his own power. He should have been devoured and refined by great abyss, turning into innately one qi.

Ever since he had resurrected, he had obtained a connection with his other body, Qi Tianfei. He had used his incomparably dense cultivation to open his divine Treasure Heavenly Palace, becoming an existence of thirty-four heavenly palaces in a single leap, making up for his lack of vital qi.

However, in the battle with fourth heavenly venerate, his heavenly palace had almost been completely destroyed. Now, the Essence Qi in the shattered heavenly palace was flowing out crazily and surging into Qin Mu's body!

At that moment, he no longer had the means to control the loss of essence qi.

Boom!

He was struck by Qin Mu's move once more, and his majestic body continuously crashed through layers of void, falling from the twenty-seventh layer to the tenth layer. Blood kept spurting out of his eyes, ears, mouth, and nose.

He raised his head to look, but the void that had been smashed through had yet to close. Qin Mu rushed down crazily from the hole in the seventeenth layer, and his body spun. Countless fists flew out, forming a huge object formed by countless fists, it was like the most precise machine that filled his vision!

At that moment, Qin Mu used his martial path divine art. The martial path primordial spirit and martial spirit of the old farmer Zhuo Cha, one of the four great heavenly masters of founding emperor, were unleashed to the fullest under his fists!

Supreme Emperor raised his hand to wipe away the blood at the corner of his mouth and immediately changed his move. Dozens of tattered heavenly palaces suddenly flew out from behind him. All of his heavenly palaces had been beaten to a pulp by the fourth heavenly venerate, and his body's vital essence was constantly being lost.

However, it was as if he couldn't feel how heavy his injuries were. With a loud shout, he saw all the heavenly palaces collapsing at that moment!

His aura instantly weakened rapidly!

Qin Mu saw the advantage and was about to execute Guixu yiqi to seize his cultivation and magic power when a new heavenly palace rose from the collapsed Heavenly Palace!

Qin Mu's heart jumped, and he immediately sensed danger. His diving momentum instantly stopped, and he flew back, rising up from the numerous holes in the void that had yet to close!

Supreme Emperor's Heavenly Palace was remodeling at a terrifying speed, and the aura of the Heavenly Palace gave Qin Mu a very familiar feeling. It was none other than divine consciousness great overarching Heavenly Palace!

Supreme Emperor knew that he didn't have much of his cultivation left. If his magic power was scattered into other heavenly palaces, it would definitely be difficult for him to resist Qin Mu's divine arts. He might as well destroy the other heavenly palaces and gather the energy of all the heavenly palaces., remodeling divine consciousness great overarching Heavenly Palace!

Only in this way could he gather all his power to kill Qin Mu in the shortest amount of time!

The instant his divine consciousness great overarching Heavenly Palace was formed, the Phantom of his primordial spirit shook and appeared on the emperor's seat of great overarching Heavenly Palace's Ling Xiao Treasure Hall. It was sitting in a dangerous posture!

The primordial spirit projection of Supreme Emperor!

Emperor's might rushed into the sky and pierced through layers of void space. The Emperor sat on the throne of the Hall of Supreme Heaven Palace and ruled over the world, commanding all the heroes. He had his own imposing manner.

Supreme Emperor had been the ruler of the primordial age for hundreds of millions of years, and his emperor's might was even above that of heavenly emperor's primordial age!

The corners of Qin Mu's eyes twitched. This emperor's might gave people the feeling that he could be an enemy, and even his dao heart was affected.

Even though Supreme Emperor wasn't a complete emperor's throne realm and didn't have a complete primordial spirit, the pressure he felt was incomparably terrifying!

At the same time as his body retreated explosively, he immediately executed his divine art, paramita divine boat crossing, and he passed through layers of void at an even faster speed. With two loud bangs, he rushed into the twenty-ninth void.

At the same time, another divine art of his burst forth, allowing him to enter a realm where he could forget everything and everything in a short period of time. His body was illusory and real, making it impossible for anyone to attack him, making it impossible for Supreme Emperor's aura to lock onto him!

"Heavenly venerate Mu."

Supreme Emperor raised his head and looked up at Qin Mu who had already arrived at the twenty-ninth void. His gaze passed through the layers of closed void, where Qin Mu stood at the bow of the divine boat. His cape spread out like wings, it covered the divine boat.

The Robe and Cape on his body weren't ordinary items, but were the clothes of Emperor Yun Luo, Wei Suifeng. It was also an emperor's robe, and when it was spread out, it was extremely gorgeous. Looking up from the bottom, the stars swirled around, and the stars were like clouds.

Qin Mu's divine art of divine body of Crimsonbright had made his corporeal body incomparably strong. He was also thirty thousand yards tall and incomparably astonishing. The divine art of the paramita divine boat appeared to be quite small under his feet, but it could barely accommodate his body.

However, Supreme Emperor was extremely far away from him, so when he looked up, he could only see Qin Mu standing on the divine boat. His robe and Cape were like a nebula, and they weren't much bigger than usual.

The two of them were separated by eleven layers of void, and they seemed to be standing still.

"If we divide them by the realm of Divine Treasure Heavenly Palace, your current realm should have reached the peak of Ling Xiao. Amazing, very amazing."

Before Supreme Emperor finished his words, his figure had already arrived at the twenty-ninth void. The two of them were up and down, and they were very far apart. In each other's eyes, the other's figure had already become very huge.

“You didn’t walk through the system of Divine Treasure Heavenly Palace, but relied on your intelligence to achieve this step. This is the most admirable part. Therefore...”

Supreme Emperor’s body moved again, and he came in front of Qin Mu in the next moment. “You can be proud even if you die under my divine arts of divine consciousness great overarching heaven!”

Qin Mu’s hair stood on end, and his body moved. The divine boat under his feet rushed into the higher void, and at the same time, all kinds of divine arts erupted.

Great Dao rises from the ancestral court!

Good fortune unfurls!

Divine consciousness path moves first!

All sorts of great divine arts poured out like they didn’t care about their lives as they welcomed the approaching divine consciousness great overarching heaven. In great overarching heaven, Supreme Emperor’s divine consciousness path flower had already bloomed, and the Dao fruit was still green.

At this moment, Qin Mu saw the tree in great overarching heaven clearly.

It was the world tree.

It was also his current territory in the ancestral court. The great black tree was only the complete great black tree that had yet to be cut down and burned!

Chapter 1320:

‘at the end of Dao realm, in great overarching heaven, is one’s own Great Dao blooming dao flowers and forming dao fruits on the world tree?’

Qin Mu didn’t have time to think too much. The divine art in his hand changed, and the Dragon and Han fought against each other, bursting forth with the vastness and fierceness of the era of Dragon and Han. The divine body of crimson light allowed his corporeal body and primordial spirit to be as one, and his spirit and body became one with his body.

The path of the upper emperor was completed, and eternal peace began to fight for the path of the Empress. The power of a great divine art burst forth, and it made him feel as if he had walked through the history of a million years from Dragon and Han in a short moment, he had experienced the tragic and stirring history of the ancestors of generations!

His spirit, Qi, and spirit reached an unprecedented peak at that moment!

Even so, any divine art of his that came into contact with Supreme Emperor's divine consciousness, great overarching heaven, was immediately routed and disintegrated without any power left.

Divine consciousness, great overarching heaven, could be said to be the most perfect divine art Qin Mu had ever seen. It was even more perfect than heavenly venerate vast heaven's innate one qi and Great Dao of sinkhole. It was even more outstanding and inconceivable!

The power of Dao Flower Dao fruit gave people an irresistible feeling.

Only now did he understand why heavenly venerate clear heaven's primordial spirit was trapped in divine consciousness great overarching Heaven's divine art and couldn't escape!

Supreme Emperor's understanding of the path of divine consciousness had completely surpassed an existence like heavenly venerate clear heaven. Heavenly Venerate Clear Heaven's Dao realm hadn't reached Supreme Emperor's level, so he couldn't rely on his own path to break it. In the end, he could only use brute force. Heavenly venerate clear heaven at that time didn't have such power at all.

'If I were to be trapped inside, I'd probably be even worse off than heavenly venerate vast heaven. My corporeal body and primordial spirit would be dissolved, turning into Supreme Emperor's path of divine consciousness!'

Qin Mu let out a long howl, and his body had already entered the thirtieth layer of the void.

In the thirtieth layer of the void, his corporeal body and primordial spirit had been greatly suppressed. It was an incomparably dangerous void, and he had basically reached his limit.

His corporeal body began to crumble and turn illusory, his skin leaving his body.

And at that moment, as eternal peace fought to use this move, his essence, Qi, and spirit had also reached an unprecedented peak. He broke through again and again, surpassing his limits again and again!

Tai Su suddenly opened the chaotic pod!

He suddenly became somewhat clumsy, and the divine ability in his hand became very clumsy. He was trembling as he used the twenty-second layer of divine ability.

Tai Su suddenly opened her chaos pod, and when this move was executed, her path of Tai Su turned into a round egg that fell into divine consciousness great overarching heaven.

When this divine art had just arrived in great overarching heaven, the round egg suddenly burst open, and her path of Tai Su gushed out, turning into a goddess. Her palm split outwards, and the entire divine consciousness great overarching heaven became extremely turbid.

The path of Tai Su had form and substance. Goddess Tai Su pointed at the sky with one hand and the ground with the other. Clear Qi floated up, and turbid qi sank down.

Divine consciousness great overarching heaven instantly became sluggish.

Qin Mu's body was still retreating and floating towards the height of the thirtieth void. He found it difficult to control his body, as if the Void was turning him into an illusion and floating him even higher.

His arms flew up and down, and his vital qi transformed into all kinds of Great Dao runes, but it was even more clumsy.

His mudra was finally formed, and the vertical eye in the heart of his brows opened. Two rays of light shot out from his eyes, one black and one white. He executed the twenty-third divine art of Dao realm, Taiji evolving into yin and Yang movement!

Weng —

The gaze shot into divine consciousness great overarching heaven, and the Yin and yang qi revolved around goddess Tai Su, destroying the Dao flower and causing the dao fruit to fall off. Divine consciousness great overarching heaven collapsed and disintegrated.

Astonishment and disbelief appeared on the face of Supreme Emperor. He gritted his teeth and moved closer, slapping his palm at Qin Mu.

Qin Mu's body continued to rise into the sky, approaching the thirty-first layer of void. That layer of void was a place that he absolutely couldn't reach. If he reached there, his corporeal body and primordial spirit would definitely be completely turned into nothingness and cease to exist.

But now, he was fighting Supreme Emperor with all his strength and had reached a critical juncture. He couldn't control his body at all.

There seemed to be a terrifying power supporting him in the void, making him continue to rise.

This was somewhat similar to his divine art, great overarching heaven, which was to borrow the power of the Void to imitate great overarching heaven and turn the gods into nothingness, turning them into a thin piece of paper without any thickness.

And to the thirtieth void, the power of the void will be so strong that even he can not contend with the degree!

The emperor's palm force came to his body, the emperor is not to kill him, but to put him into the 31st layer of the Void, let the Void will obliterate him!

He broke the emperor's consciousness of the Great Luo Tian, although let the emperor shocked, but also let the Emperor See the hope of killing him.

His body had already started to flatten, and his corporeal body had started to lose its thickness. He could no longer control himself as he floated higher.

At that moment, Qin Mu executed his divine art even more clumsily. This divine art was crooked, and it was completely unlike the ugly divine art that celestial venerables like him could execute.

As a celestial venerate who had established the path of his divine art, Qin Mu's divine art had always combined the beauty of the atmosphere and the path, but this divine art didn't have the beauty of the great path at all!

Yet at that moment, the clear voice of the path sounded out. It was as if millions upon millions of lives and gods had appeared at that moment and were calling out the same name in unison.

Path of ultimate beginning.

Form without substance.

On the twenty-fourth heaven of divine arts entering the path, the form of ultimate beginning questioned Qing Ming!

Qin Mu's palm struck out and met Supreme Emperor's palm. When their palms collided, Supreme Emperor revealed a smile.

Immediately after, the smile on his face froze, and it turned into astonishment.

The astonishment on his face became denser and denser. He saw the flesh and blood on his palm peel back, and the material that made up his palm seemed to have turned into countless particles that were flying away from him.

The same thing happened to his arm as well. The fine particles could be seen with the naked eye, and they flew backward like fog. Soon, they spread to his shoulders, chest, other arm, and feet!

He stood there and felt that his body was still there. His body was still complete, but there were no bones, no flesh, and blood!

The body below his neck had turned into a transparent form that only had a body and no matter!

His vital qi, his divine consciousness, great overarching Heaven Palace, and his seven great divine treasures had all turned into a strange state that had no form or substance!

Only his head had not been assimilated by Qin Mu's palm because it was his true body.

After all, Supreme Emperor's corporeal body had gone through countless tempering, and he had also gone through the worship and refinement of countless creators. Even though Qin Mu's great divine art was extremely exquisite, it couldn't melt his head in a moment.

Even though it couldn't melt his head, the vital qi in his head had been dissolved, and his divine consciousness became unstable. It became weaker and weaker!

Suddenly, Qin Mu's palm clenched into a fist and punched into the hole in the heart of Supreme Emperor's brows. This punch was majestic and majestic, and the Martial Path was all-conquering. It turned his brain into a paste and dispersed his divine consciousness!

Supreme Emperor's head fell from the thirtieth void. With a rumble, it smashed through the twenty-ninth void and the twenty-eighth void. Huge holes appeared in layers after layers of void.

Supreme Emperor's eyes were dim, and his vision was hazy. He could faintly see Qin Mu's body turning invisible and rising into the thirty-first void.

'heavenly venerate mu is still dead, and I'm still alive...'He thought to himself.

At that moment, he saw Qin Mu who had risen into the thirty-first void take out a huge round egg from the center of his brows.

Supreme Emperor revealed a bewildered expression.

Boom Boom Boom

His head smashed through layers of the void and descended from the sky, smashing into the land of the ancestral court. After that, it rolled a few times and landed on a wasteland, scaring the primordial beasts away.

Just as his head stopped rolling, he heard loud rumbles coming from the depths of the void. A beam of fire descended from the sky and crashed into his body. Countless pieces of rubble flew in all directions and expanded in the sky, they turned into floating land that was blown into the distance by the strong winds.

Amid the smoke and dust, Supreme Emperor saw Qin Mu's tattered body not far away. He touched the ground with one knee and placed his palm on the ground.

"Five mines great seal!"Qin Mu raised his head abruptly, and his three eyes shone brightly.
