

Tales of Herding Gods Chapter 1326-1330

Chapter 1326:

Qin Mu walked in front of him and took off his robe to drape over his shoulders, he smiled and said, "I also need a warrior who dares to fight and kill and even sacrifice his life for the creator race. Stay, the immemorial era is already over, and the creator still has a future."

Shu Jun looked at him with a blank gaze and muttered, "Heavenly venerate mu, you are not a true creator..."

Qin Mu smiled brightly. "Anyone who doesn't fear danger, dares to change the world, dares to create new things, opens up mountains when they encounter mountains, bridges bridges when they meet rivers, is a creator. "Shu Jun, what's the difference between the current eternal peace and the current human race and creator?"

Shu Jun's heart was greatly touched and he followed him back.

In the treasure seal, Supreme Emperor sneered. "Shu Jun, sinner of the Creator's race, you have already harmed your own race, do you still want to harm the human race?"

He laughed loudly. "In the immemorial era, you were a failure when facing me, and you were also a failure when facing the ancient gods. You have lost everything. You will still be a failure in the future!"

The corner of Shu Jun's mouth twitched, but he didn't say anything.

Qin Mu said leisurely, "Supreme Emperor, the one who truly sent the immemorial creator onto the path of extinction is actually you. If it was anyone else facing the situation back then, they wouldn't have been able to change the outcome. What I admire about Shu Jun is that he didn't escape like you did and chose to stay behind to continue fighting. "He has the responsibility, but you don't."

Supreme Emperor smiled slightly. "If you survive, you will be the victor. Heavenly venerate Mu, you don't know anything!"

Qin Mu laughed loudly and his vital qi rolled up the treasure seal and gave it to Shu Jun. "You guys are uncle and nephew, so you guys can catch up. I still have something to deal with."

Uncle Jun hugged the treasure seal and his gaze landed on the head of Supreme Emperor who was trapped.

Supreme Emperor's expression changed slightly, he sneered. "Uncle Jun, you hit me just now, so we should be even now, right? "You have to know that you are also a sinner, so you have no right to criticize me, let alone humiliate me... heavenly venerate mu! "You promised me that you wouldn't treat me as a treasure and wouldn't humiliate me!"

Qin Mu turned back and smiled. "When have I ever humiliated you? However, if your uncle wants to humiliate you, it's not convenient for me to stop him."

Supreme Emperor was furious and flew into a rage, but he couldn't jump out of the treasure seal.

Qin Mu came to the periphery of the one hundred thousand Black Mountain and saw the gods of eternal peace trying to mine another vein. He couldn't help shaking his head. "Where did the fellows of eternal peace learn to be so evil? They don't seem to be afraid of death..."

He came to the side of the mine and asked, a god immediately said, "We are only mining the mine on the periphery. The prehistoric divine weapons inside don't dare to move.". Old Master Blind was shrewd and had already drawn out an area for us to mine and avoid the divine weapons in the center of the mine. "Old Master Mute said that once we mine the periphery, we will leave the Center for Imperial preceptor to send himself to his death."

Qin Mu was very satisfied and smiled. "Grandpa Blind and Grandpa Mute still understand me. Of course, I'm not going to send myself to my death, but I have full confidence in subduing those prehistoric divine weapons!"

He gave some instructions and saw first ancestor human emperor and the rest leading Jiang Yunjian and the rest of the younger generation to rush back from the outside. These young people had captured a few primordial behemoths to be their mounts, and they were riding on the behemoths in a jubilant and majestic manner.

'perhaps eternal peace can get an army of behemoths...'

Qin Mu calculated for a moment and went to see the dragon qilin and Yan 'er. He took out the void Beast Egg, "The void Beast in great void might not be alive, so this egg might be the last void beast. If it hatches, it will be a mother beast! You all must protect it carefully and not go extinct."

The dragon qilin was overjoyed and immediately kept the Beast Egg. Yan 'er snatched it over and smiled. "The bird nest I built for that big round egg is still there, so it can hatch this void Beast Egg!"

Qin Mu watched her leave in a hurry and looked at the dragon qilin. "Fatty Dragon, where's the thing you want to show me?"

The Dragon Qilin hurriedly presented the treasure and led Qin Mu to the center of the Hundred Thousand Black Mountains. There were already palaces built there with all kinds of seals.

The dragon qilin came to the front of a palace and opened the seals and seals. He pushed open the door and smiled. "Cult master, please take a look!"

Qin Mu walked into the hall and couldn't help being stunned. He saw all kinds of dazzling treasure lights in the hall, and piles of divine gold and divine materials from the various mineral veins piled up like mountains. All kinds of divine gold and divine materials were classified into different categories and were arranged neatly!

He walked among the treasures and saw more than a dozen jars. What was in the jars should be primordial chaos primordial liquid. The aura of primordial liquid was difficult to conceal, and it spread out, making the divine gold and divine materials beside it appear incomparably moist.

He then saw the supreme incipient divine stones from the supreme incipient mine. Even though there weren't many of them, there were still more than two hundred of them!

Following that, his gaze was attracted by the supreme essence divine stones. There were more of them, about three hundred of them!

The most of them were still the supreme essence divine stones, which were piled up like mountains!

The dragon qilin stood in front of the supreme essence divine stones, proud of himself. His tail stood up like a flagpole covered in scales!

Qin Mu didn't know whether to laugh or cry. "Fatty dragon, these Taiji divine stones are all fake, none of them are real."

The Dragon Qilin was stunned, and he hurriedly turned around to take a look. However, these divine stones were indeed the same as the real Taiji divine stones, so he couldn't see any difference.

“The mine occupied by Divine Emperor Langxuan is a fake Taiji mine, and you’ve seen the real mine before.”

Qin Mu walked forward and picked up a taiji divine stone. With a thought, he said, “It’s a fake taiji divine stone.” The Taiji divine stone suddenly turned into a wisp of yin and yang qi and dissipated. “This is an illusion created by the ancient gods in the Taiji mine. It’s fine if it’s used to deceive god Emperor Lang Xuan, but it can’t fool me.”

The Dragon Qilin was flabbergasted.

Qin Mu smiled. “Among the items you snatched, the most valuable ones are still the supreme incipient god Stone and supreme purity God stone. “However, there’s no need to do this in the future. I have some old ties with Celestial Master Gong and can get ten percent of supreme purity God stone from her. I also had an agreement with Heavenly Consort Yan to get fifty percent of the divine stones from her mine. “In the future, they will take the initiative to send them to me.”

The Dragon Qilin lowered his head in dejection, his tail hanging down slowly.

Qin Mu smiled. “However, you have also solved a huge problem for me. If I were to snatch Celestial Master Gong’s mine personally, I definitely wouldn’t be able to pull down my face. “You went to snatch it for me. Furthermore, Celestial Master Gong knew that the void beast was controlled by Supreme Emperor and framed him, killing two birds with one stone!”

The Dragon Qilin became proud again, and his lowered tail slowly stood up.

Qin Mu praised, “Especially when you plundered the production of Celestial Emperor Lang Xuan’s Supreme Ancient Jade Lake. This makes me feel very gratified. Lang Xuan, this fellow, always gives me a bad attitude. He’s so eccentric and keeps going against me. “You did well!”

The Dragon Qilin’s tail stood up straight and danced twice.

Qin Mu continued, “There’s only one thing that you didn’t do well. Heavenly venerate Hong is the heavenly duke, and the Great Swamp he occupied is the source of the Heavenly River. You Don’t have to snatch his mines. “You can hide it from other heavenly venerates, but you can’t hide it from the heavenly duke who likes to peek. He definitely knows it was you who did it, but because of my face, he didn’t expose you.”

The Dragon Qilin's tail hung down once more.

Qin Mu was very satisfied. He put away the supreme purity divine stone and supreme incipient divine stone and placed them in his divine treasure, 'this human rearing scripture is indeed mysterious and unfathomable. Even fatty dragon himself couldn't resist it. However, fatty dragon has indeed established a great merit...'

"Fatty Dragon, I plan to return to eternal peace to look for heavenly venerate moon to treat her injuries. Do you want to return with me?" Qin Mu asked.

The Dragon Qilin hesitated for a moment before shaking his head. "This place is very good, so I'll stay here. After all, the void beasts still need to hatch. If the mother beast hatches, Yan 'er will definitely not be able to hold on by herself."

Qin Mu shook his head and thought to himself, 'Yan 'er has most likely seen fatty dragon's human rearing scriptures and is already being fed to death. She Won't be able to escape.'

He found apothecary..., apothecary muttered to himself, "Heal heavenly venerate's injuries? I haven't tried it yet... whether heavenly venerate's dao injuries can be healed by medical path is indeed a huge challenge... Wait for me for three to five days, I'll find some medicinal herbs!"

Qin Mu waited for a few days and apothecary was finally ready. "We can set off to heal heavenly venerate moon."

Qin Mu was looking forward to it. "Grandpa Apothecary, Are You Confident?"

"I'm not 100% confident."

Apothecary said indifferently, "Treating heavenly venerate's dao injuries is also a first for me, and it's also a great test for me. I need to personally see heavenly venerate Yue's injuries before I can make a decision. "I've found many poisonous objects in the ancestral court this time, so I might be able to try them on heavenly venerate Yue."

Qin Mu's expression changed slightly.

Apothecary was full of confidence and laughed loudly. “Don’t worry, don’t worry, I know what I’m doing. I’m not like you who’s a half-baked doctor, so I’m very confident every time I use the medicine!”

Qin Mu thought of his encounter and shivered a few times.

Chapter 1327:

‘If Grandpa Apothecary can’t do it, there’s still primordial beginning. As long as primordial beginning can dissolve the DAO injuries on heavenly venerate Moon’s body, it won’t be difficult for me to heal the injuries on her corporeal body!’

Qin Mu consoled himself. Even though apothecary’s performance always gave people the feeling that it wasn’t very reliable, apothecary was still the strongest sacred hand of the path of medicine in the world. Besides failing to test the new medicine on Qin Mu time and time again., he didn’t do any other evil deeds.

Qin Mu tidied up his luggage and prepared to set off. He went to look for Shujun, who had left Great Black Mountain with the head of Supreme Emperor in the treasure seal. It was unknown where he had gone. First ancestor human emperor led many human emperors and prepared to go out as well, the many human emperors looked at Qin Mu in unison and revealed hostile gazes.

“I heard that there’s a huge Tai Bodhi beast nearby. Such a huge beast is extremely rare. Back then, it was the mount of the three primordial kings, so we plan to subdue that Tai Bodhi.”

First ancestor asked Qin Mu, “Mu’er, do you want to go with us?”

The hostility in the eyes of Qi Kang, Yi Shan, and the other human emperors became even stronger. They asked one after another, “First ancestor, why did you call him? With him around, does Tai Bodhi still have a share for us?”

“After we subdue Tai Bodhi, everyone will ride it and beat Human Emperor Qin Up!”

Qin Mu laughed loudly and waved at everyone. When he turned around, his expression became incomparably gloomy, giving apothecary a fright.

“You want to beat me after subjugating Tai Bodhi? Ancestors of past generations, all of you are still too young!”

They boarded eternal peace's fast ship and sailed out of the Hundred Thousand Black Mountains. Just as they left, Xu Shenghua and Lan Yutian led three thousand gods and huge beasts to the so-called sacred mountain.

Xu Shenghua, Lan Yutian, three thousand gods and a hundred huge beasts stood at the periphery and looked at the black hundred thousand Black Mountains. They were all speechless for a long time.

"That old man called Tai Yi is a liar," Xu Shenghua muttered.

Lan Yutian nodded repeatedly.

The Dragon Qilin and Yan 'er hurriedly came out to welcome them. When they saw them, they could not help but be overjoyed, but also somewhat regretful. Yan 'er smiled and said, "The cult master just left, and you arrived after him. If you had come earlier, you would have met them!"

Lan Yutian opened his mouth and caught her food in time. He said in surprise, "My brother left?"

The dragon qilin nodded and whispered, "Fortunately, you didn't meet the cult master. Otherwise, he would have tricked you into mining again without paying you."

LAN Yutian whispered, "Is there food?"

"Food? You're thinking too much!"

The Dragon Qilin curled his lips and said, "Take care of the food. My food was made by Yan 'er."

Everyone surged into the Great Black Mountain. Lan Yutian hesitated for a moment and said, "I was planning to ask my brother for a few mountain peaks. Now that he's gone..."

The Dragon Qilin's eyes instantly brightened, he smiled and said, "There are many mountain peaks here. We can't even occupy all of them! "Whichever mountain peaks you like, you can go there yourself. However, you have to build your own palaces and houses. "I have an absolute beginning divine stone here. I can lend it to you to visualize your houses and palaces."

Xu Shenghua smiled and said, "There's no need. It's better if we build them ourselves. Since we're staying at the cult master's place, it's only right to help him dig the mines and contribute."

The Dragon Qilin hesitated for a moment. He did not tell them that these great black mountains would sometimes crack at night, and that terrifying experts from the prehistoric era would crawl out from within.

“They’ll understand after one night.”

The dragon qilin thought, “On the second day, Tai Yi will appear and explain to them, and then let them repair the Great Black Mountain.”

Even so, the dragon qilin still said earnestly, “You must be careful at night. This hundred thousand black... The Hundred Thousand Sacred Mountain is good in everything, but at night, you can not walk out of the Black Mountain. There is great terror in the darkness.”

Xu Shenghua said in surprise, “Don’t go out at night? This place looks like the great ruins of the past.”

The dragon qilin thought, “It’s more than a hundred thousand times more terrifying than the great ruins! ‘heavens have mercy on us. Cult master has finally tricked two smart people to protect this territory. Previously, I was the only smart person here to take charge of the overall situation. To fight against an existence like tenth heavenly venerate, I’m still a little weak...’

His tail raised up with a whoosh and trembled. He was proud of himself in his heart. ‘I’ve actually fought against someone as Vicious and evil as tenth heavenly venerate for so many years, yet they still couldn’t snatch away one hundred thousand sacred mountains. I’m really amazing!’

Even though eternal peace’s fast ship wasn’t slow, it wasn’t as fast as heavenly venerate Moon’s lantern. Qin Mu and apothecary spent more than a month to fly from one hundred thousand sacred mountains to the crack in the sky.

During this period of time, apothecary had been thinking about all kinds of spirit pills and medicines on the ship. At times, he would hold his chin and think hard. At other times, he would write rapidly, and at other times, he would list out the detailed composition of all kinds of spirit medicines, sometimes he would use his vital qi to transform into the dao patterns contained in all kinds of spirit medicines, breaking them one by one to assemble new dao patterns.

Even though he appeared to be full of confidence and treating heavenly venerate Yue was a piece of cake, the pressure in his heart was also very great.

After all, this was the first time he had come into contact with heavenly venerable, and what he needed to heal was heavenly venerable's dao injuries. This was the first time since he had mastered the path of medicine, and it was also the most troublesome time in his life!

Qin Mu was tidying up the supreme incipient god stones on the ship and burying them in the supreme incipient mine of his spirit embryo divine treasure.

The egg of supreme incipient God jumped out from its nest on the sacrificial altar and bounced around, instructing him to bury every single god stone in the correct direction.

Qin Mu was like a hardworking little squirrel, and under his command, he finished dealing with the god stones. He then took out the supreme incipient God stone and planned to bury it in the supreme incipient God Stone as well.

When he was almost done burying it, he suddenly came to a realization. 'goddess Supreme Purity has already been born and has a grudge against me. Why would I bury these divine stones? It's impossible for her to return to her egg and hatch in my spirit embryo!'

He dug out a divine stone and took out the shell of the Supreme Purity Egg. He then raised his head and drank a mouthful of egg liquid from the edge of the shell and immediately began to use the supreme purity divine stone to refine the supreme essence liquid.

Suddenly, apothecary, who was deep in thought, opened his eyes and sniffed. "Smells so good! What medicinal herb is this?"

Qin Mu refined supreme element liquid and said, "This is the egg liquid of supreme element egg, not a medicinal herb."

"Anything in the world can be used as medicine, let alone an ancient god in the egg."

Apothecary's gaze flickered. "Bring me a bit of egg liquid and I'll see if it can be used as medicine!"

Qin Mu took out some egg liquid and felt his heart ache, "This is the egg liquid of the egg of supreme element and it's unparalleled in the world. If you use a little, you'll use a little less. Grandpa apothecary must be careful. If it can't be used as medicine, return it to me and I'll eat it..."

“You’re just wasting heavenly treasures by eating nonsense. If it falls into my hands, it’ll be the best medicine to cure illnesses and save people.”

Apothecary sneered as he carefully observed the Tai elemental liquid. He muttered some words as he used his yuan Qi to transform into various strange dao patterns of spirit herbs. Previously, he had tried to piece together different dao patterns, but all of them ended in failure.

This time, he carefully took out a thread of the Tai elemental liquid. With a thought, the Tai elemental liquid actually changed according to his will and slowly transformed into strange dao patterns, connecting the dao patterns of spirit herbs one after another.

Apothecary suddenly burst into tears but laughed loudly. He raised his head and allowed the tears to flow down his cheeks, “My dao has succeeded –”

Qin Mu was holding the eggshell and drinking vital liquid as though he was holding an unreasonably large bowl of rice and porridge. When he saw this scene, he was very happy and hurriedly put down the eggshell and asked, “Grandpa Apothecary, how confident are you in healing heavenly venerate moon?”

Apothecary stood up in high spirits and gave off the aura of a grandmaster. He raised a finger and said, “Ten percent!”

Chapter 1328:

Qin Mu lowered his head and took out a few more Tai Su divine stones to quickly refine them to comprehend the path of Tai Su.

Apothecary didn’t take it to heart. Instead, he was in high spirits as he opened the furnace on the ship to refine spirit pills. Every time he refined a furnace of spirit pills, apothecary would open his mouth and swallow them.

Qin Mu and apothecary didn’t interfere with each other. They cultivated one another’s way, and after two days, the Heavenly Palace of path of medicine suddenly appeared behind apothecary. His primordial spirit actually crossed the Jade Lake and went straight for God execution platform.

Qin Mu took a glance at it and didn’t pay it any attention.

Apothecary didn’t make a sound and continued to refine pills and eat pills. After another three to five days, Heavenly Palace of path of healing appeared behind apothecary once more. His primordial spirit had actually come to God execution platform and ascended it!

Qin Mu was finally startled by him and stared at the scene with wide eyes.

Apothecary kept his heavenly palace and continued to focus on refining spirit pills. After another six to seven days, Qin Mu was astonished to find that apothecary's primordial spirit's cultivation had increased explosively. It had actually come to God execution platform of Heavenly Palace!

Under his astonished gaze, apothecary's primordial spirit had actually stood on God execution stage and survived the tempering of two murderous auras!

This was something that was practically impossible, yet it had happened right in front of his eyes!

Apothecary had cultivated to God execution stage realm in a short period of time and had even overcome the difficulty of God execution!

It had to be known that the highest cultivation realm in disabled elderly village was village chief and Butcher, but village chief and Butcher might not have cultivated to God execution stage realm either!

And as the existence at the bottom of disabled elderly village's cultivation realm, apothecary had always been known for his weak cultivation. He was the person with the most vicious means in disabled elderly village and was also the person who was the easiest to get rid of.

And now, his cultivation realm had probably jumped to become the number one in disabled elderly village!

After apothecary cultivated to God execution stage realm, he didn't continue to refine spirit pills. Instead, he calmed his heart and pondered for a moment before asking, "Mu'er, how many Emperor's throne techniques do you know?"

Qin Mu couldn't be bothered to refine the supreme element liquid and immediately displayed his eighteen heavenly palaces to explain to him one by one. Apothecary sat in the cabin and listened carefully.

Qin Mu was a great expert in cultivation and had extraordinary comprehension towards the various emperor's throne techniques that he cultivated. If he were to personally execute a demonstration, it could be said to be equivalent to a heavenly venerate personally explaining his comprehension to apothecary, it was naturally an extraordinary splendor, a rare grand occasion!

Apothecary kept asking questions to voice out the doubts in his heart, and Qin Mu answered them one by one.

After a long time, apothecary understood sword Heavenly Palace. He asked Qin Mu to describe the dao markings and the structure of Sword Heavenly Palace in detail for him to listen to while Qin Mu explained it in detail.

Apothecary pondered it for a long time before burying his head into refining spirit pills. When the spirit pills were about to be completed, he took out a wisp of supreme element liquid and threw it into the pill furnace.

When the pill furnace opened, a spirit pill flew out. Apothecary's palm rotated gently, and the spirit pill fell into his palm.

Apothecary's fingertips touched the Spirit Pill, and a sword cry suddenly sounded out. Sword lights burst forth from the spirit pill, and they turned into a sword heavenly palace around him, enveloping the entire ship!

The medicinal efficacy was then withdrawn, and the Sword Heavenly Palace sank into the spirit pill once more.

When Qin Mu saw this scene, he had a strange feeling in his heart. He asked with the courtesy of a disciple, "Grandpa Apothecary, Why does the path of medicine have such a performance? What is the path of Medicine?"

Apothecary kept the Spirit Pill, "I've also comprehended the path of Medicine Heavenly Palace after coming to the ancestral hall," he said with joy. "Not long ago, I also obtained your supreme element liquid, so I've finally understood the path of medicine. Mute said that the way of man is to give more than what is needed, and the way of heaven is to give more than what is needed to make up for what is not needed. This sentence has his reason, but the way of medicine is different."

His eyes became brighter and brighter, he said, "The way of medicine is also the way of man. Giving more than is needed to make up for what is not needed. People have the pain of birth, old age, illness, death, and injury. People can not be born, and the way of medicine helps life. People grow old, and the way of medicine slows down the aging process. When people are sick, the way of medicine cures illness. When people are dying, the way of medicine saves life. When people are injured, the way of healing. When people are in pain, the way of healing is painful. "Birth, old age, sickness, and death are natural,

and humans have to go against nature. They have to find the path of going against nature from all sorts of natural principles. “Mu’er, this is the path of Medicine.”

He displayed his Heaven Palace of the path of medicine, he smiled and said, “My cultivation is insufficient, so I use the path of medicine to treat it. I use spirit pills and miraculous medicines to raise my cultivation realm. “I’m not proficient in sword arts, I don’t know sword skills, and I don’t know sword path. Thus, I use the path of medicine to refine the pills of the Heaven Palace of the sword. This way, I can temporarily own a Heaven Palace of the sword by consuming spirit pills, and my strength will increase greatly

“As the saying goes, if you master one technique, you will be able to master a hundred techniques. If you master one technique, you will be able to master a hundred techniques. The same goes for medicine path. “Mu’er, even though your cultivation and abilities are much stronger than mine and even though you are much smarter than me, I still have two things that are better than you.”

He raised two fingers. “The first is your appearance. The second is medicine path. Your Medicine Path is just the beginning, you still need to continue cultivating!”

Qin Mu bowed and said, “I naturally agree with the second point grandpa apothecary said, but I don’t quite agree with the first point.”

The two of them laughed loudly.

“In that case, how confident is grandpa apothecary in curing heavenly venerate moon?” Qin Mu asked again.

“Thirty percent.”

Apothecary raised another finger, “I can’t understand Heavenly Venerate’s Great Dao and don’t have heavenly venerate’s dao skills. If you can see heavenly venerate Moon’s dao injuries, then I have a hundred percent confidence! “Healing heavenly venerate moon, even though I’m the one to heal him, the key still depends on your eyesight!”

Qin Mu raised his eyebrows.

The fast ship came to the outside of the ancestral court and sailed into spirit energy mutual shift bridge.

Not long later, the fast ship came to eternal peace. It sailed over the sky of the origin world and headed towards the peach forest beside Dao sect.

The fast ship would take a few days to reach there. Qin Mu continued to teach apothecary the techniques of the other Emperor's thrones with all his heart. Even though apothecary couldn't learn them, he memorized the runes of the emperor's thrones and the dao patterns formed by the runes, he used all kinds of spirit herbs he had collected from the ancestral court to construct the dao patterns in the spirit pills and refined the heavenly palace with the dao patterns.

He refined a few more spirit pills, and the fast ship came to the side of Dao sect.

Qin Mu stopped the fast ship, and the two of them jumped off. Qin Mu waved his hand and put the fast ship away on the Qin continent.

Apothecary slowly let out a turbid breath and bowed to the peach forest. "Eternal Peace's idle apothecary has come with heavenly venerate mu to pay his respects to the Master of the Peach Forest!"

His current cultivation was much stronger than before and his voice was transmitted to the deepest part of the Peach Forest. After a long while, a young lady in purple took small steps out of the peach forest and greeted them gently, she said softly, "Esteemed guests, please follow me."

Qin Mu and apothecary followed the young lady into the Peach Forest. They had only taken a few steps when the peach forest experienced the changes of the four seasons. Some of the peach flowers were blooming, some of the peaches were green, some of the peach fragrance assailed their nostrils, and some of the peach leaves were withered red, there was also the snow hanging from the peach forest, which made people click their tongues in wonder.

However, Qin Mu knew that this peach forest wasn't really a peach forest. Instead, it was a unique land formed by countless peach forests of the heavens.

They didn't seem to have walked far after taking one step, but in fact, it was possible that they had walked from one world to another.

The Peach Forest represented the highest achievement in the path of space!

This peach forest was the handiwork of heavenly venerate Yue!

They came to the palace in the depths of the peach forest and followed the girl in. In the palace, the girl retreated, leaving only Qin Mu and apothecary behind.

Qin Mu looked at the figure behind the screen and said solemnly, "Heavenly venerate Yue, the strongest apothecary in the world, the medicine king who founded the Heavenly Palace of Medicine Path, I've brought him here. Are You Ready?"

The body of the woman behind the screen trembled. After a moment, she said in a low voice, "I'm ready, come in."

Qin Mu and apothecary took a step forward together and walked behind the screen. Apothecary said solemnly, "Mu'er, do you still remember? I'm thirty percent, you're seventy percent! With your eyesight, you mustn't make a mistake!"

The vertical eye in the heart of Qin Mu's brows opened, and his blood boiled!

Chapter 1329:

After the two of them walked into the screen, there was a woman sitting there with disheveled hair.

Qin Mu finally saw heavenly venerate Yue.

There was a sword wound on her waist, and it was a shocking sight. It was a sword wound left behind by heavenly venerate Xiao.

Heavenly venerate Xiao Weisu used a sword, and his sword was Emperor Sword. At the same time, as the reincarnation of heavenly emperor absolute beginning, he was proficient in all kinds of divine arts, paths, and skills!

Heavenly venerate Yue's long hair covered her face, making it impossible to see her face clearly. There were flames fluttering under her long hair, constantly burning her face.

That was the dao wound left behind by heavenly venerate fire's fist seal.

Heavenly Venerate Fire's divine powers were world-shaking. He could kill her in the southern Emperor Vermilion Bird's ancestral land!

There was also a large hole on heavenly venerate Yue's head. Her skull had cracked open, revealing her brain matter. That was the wound that the ancestor god King had caused her.

The ancestor god King had refined the treasure of forty-nine Heavenly Dao, so he could assemble it wantonly and turn it into the most powerful treasure of Heavenly Dao!

Qin Mu went around heavenly venerate Moon's back, and there was a huge palm print on her back. It was heavenly venerate vast heaven's palm print.

Heavenly venerate vast heaven had cultivated innately one qi and Great Dao of sinkhole. Even though this print had never fused innately one qi and Great Dao of sinkhole, there were two divine arts hidden in it. The Great Dao of sinkhole turned into a great abyss and devoured heavenly venerate Moon's cultivation, it strengthened the destructive power of innately one qi.

Qin Mu took a step forward and came in front of her again. He gently parted the long hair on her forehead that covered her face.

At that moment, heavenly venerate moon raised her hand to grab his wrist and said in a hoarse voice, "No, I'm ugly..."

Qin Mu gently pushed away her palm with his other hand and said gently, "In my heart, you have never been ugly. Let me take a look."

Heavenly venerate Yue didn't stop him anymore.

He gently parted the long hair on heavenly venerate Yue's forehead and his gaze landed on her face. Her face had already been destroyed, and her skin couldn't be seen.

The Strongest Fire Divine Art in the world rampaged on her face, forming terrifying flame patterns.

Qin Mu's gaze landed on the heart of her brows. There was a deep hole in the burn mark.

The hole was caused by the impact of his divine consciousness.

Divine Emperor Lang Xuan's divine consciousness was incomparably powerful. Other than Heavenly Consort Qi and heavenly venerate gong who didn't dare to reveal their identities, he was the number one person in the heavenly court.

His divine consciousness pierced through the center of heavenly venerate Yue's brows and attacked her brain and primordial spirit!

Heavenly venerate Yue's Dao of space and divine arts of space had reached their limits. Even though her battle prowess wasn't the highest among heavenly venerates, she was in an invincible position. No one could hurt her.

The only chance to hurt her was when heavenly venerate Yue had to protect heavenly venerate ling.

Even though Qin Mu hadn't seen the battle, he could imagine the situation.

The instant heavenly venerate Yue tried to execute her divine art to send heavenly venerate ling away was the instant her flaw was exposed. At that moment, divine Emperor Lang Xuan's divine consciousness went first and pierced into the heart of her brows, disturbing her mind and consciousness, it attacked her primordial spirit.

This attack made her more vulnerable.

Thus, Celestial Master Xiao's sword took the opportunity to attack.

The sword was the fastest and only needed a simple stab. Because Celestial Master Yue's Space Abhijna was very powerful, as soon as she came back to her senses, she could immediately escape. She had to use the fastest attack to make her lose control of her body!

Therefore, Celestial Master Xiao's sword pierced into her waist, making her legs lose consciousness.

At that moment, Fire Celestial Master's fist came to Celestial Master Yue's face, while heavenly master Hao's palm print came to her back.

The two of them worked together perfectly. One at the front and one at the back, they delivered a fatal blow to Celestial Master Yue.

However, Celestial Master Yue was the most difficult to kill. Her Dao of space could shift the enemy's attack to other dimensions, rendering the enemy's most powerful attack ineffective.

The final strike was the ancestor god King's Heavenly Dao Supreme Treasure. It was the strongest strike and also a fatal strike!

In the end, heavenly venerate Yue still managed to escape, but her dao injuries could no longer be healed.

It was already a great miracle that she could survive!

Heavenly venerate Yue raised her hand and closed the long hair in front of her forehead to cover her face. She said in a low voice, "Heavenly venerate mu, this is already very good, very good. It's the best ending."

"No."

Qin Mu took out a scroll and gently unfolded it before hanging it on the screen. The heavenly venerate moon in the painting had the playfulness and shyness of a young girl.

"The you in this painting is the best ending." The vertical eye in the heart of Qin Mu's brows became brighter and brighter as he looked at the dao injuries on her body.

Apothecary went forward and examined her for a moment before saying in a deep voice, "Starting from the last strike, I need to know all the DAO markings contained in the dao injuries on the top of her head."

"This is the dao injury created by Heavenly Dao."

Qin Mu immediately executed his vital qi and used it to transform the ancestral god King's Heavenly Dao Supreme Treasure. He used the runes of Heavenly Dao to form dao markings and then used the DAO markings to construct the Heavenly Dao Supreme Treasure to recreate the exquisiteness of the ancestral god King's strike., as well as the dao injuries that remained on heavenly venerate Moon's body.

Apothecary listened carefully and observed the dao markings that Qin Mu had transformed. He said in a deep voice, "I don't understand much about Heavenly Dao, so explain the Dao marvels contained in these dao markings."

Qin Mu explained in detail, and apothecary listened while dispensing the medicine.

Heavenly venerate Yue sat there quietly. She saw a middle-aged man and a youth cooperating very closely, and a glimmer of hope couldn't help appearing in her heart.

After apothecary finished dispensing the spirit medicine, Qin Mu took out the egg of supreme element, and apothecary took out a trace of supreme element liquid from the eggshell.

"Yue, will anyone find you here?" Qin Mu asked.

Heavenly venerate Yue was slightly stunned, and he immediately understood what he meant, "There are some people who don't want me to recover completely. If mister apothecary can really heal my injuries, then there will indeed be people who will stop me. "However, don't worry, there aren't many people in this world who can hurt me, even if I'm already crippled."

Apothecary wasn't in a hurry to concoct medicine. Instead, he placed the ingredients he had concocted to the side, "When I heal the Dao injuries on your body, it's very likely that the person who left behind the dao injuries will be alarmed. Why Don't we investigate all the dao injuries and treat them together?"

Heavenly Venerate Moon's heart moved slightly and he smiled. "If the five heavenly venerates — hao, Huo, Xiao, Lang, and ancestor — attack me together, I won't be able to withstand them."

Apothecary frowned and looked at Qin Mu.

Qin Mu pondered for a moment and said, "I'll explore all the injuries first. I'll first have a decision in my heart and then see how to treat them."

Apothecary nodded and said, "Mu'er, the injuries on heavenly venerate Yue's back heart and face were inflicted at the same time and need to be treated at the same time. Can you see through them?"

Qin Mu executed the vertical eye in the heart of his brows to the extreme and his gaze landed on the dao injury left behind by heavenly venerate vast heaven. "The Great Dao of sinkhole and innate one qi, I'm not inferior to heavenly venerate vast heaven!"

“Then what about heavenly venerate fire’s sacred fire?” Apothecary asked as he sized up heavenly venerate Moon’s face.

Qin Mu’s heart sank, and the corners of his eyes twitched.

Apothecary noticed the expression on his face and frowned slightly.

He knew that Qin Mu wasn’t omnipotent.

Only village chief and him knew that overlord body was just a white lie.

Qin Mu said solemnly, “I have done research on heavenly fire and haven’t done any research on heavenly venerate fire’s sacred fire, but I’m proficient in Dao sect algebra and entering the path in Buddhist dreams. Furthermore, I have divine eyes that are stronger than Grandpa Blind, so it won’t take me long to see through his sacred fire!”

Chapter 1330:

Apothecary’s gaze was filled with some worry, but he quickly concealed it.

Qin Mu was able to break through the dao injuries left behind by the ancestor god King and heavenly venerate vast heaven because he understood the Great Dao of the other party. Regardless of whether it was Heavenly Dao, innately one qi, or Great Dao of sinkhole, he had studied them deeply.

However, he didn’t understand heavenly venerate fire’s Great Dao.

What he understood was Heavenly Fire Great Dao of Mystic City and Vermilion Bird Sacred Fire Great Dao of South Pole Heaven.

However, both of them belonged to innate flames, while heavenly venerate fire’s fire was acquired flames, representing the highest achievement of acquired flames.

It was probably impossible to break the dao injuries left behind by heavenly venerate fire in a short period of time!

Apothecary looked at Qin Mu, who was focused on evolving the dao patterns in the dao injuries left behind by heavenly venerate vast heaven. He was very serious.

Qin Mu had been so serious and meticulous when he was young. He had learned knowledge from the nine elders of disabled elderly village and was often hit by deaf.

Qin Mu was already an adult now. Sometimes, he looked frivolous, and sometimes, he was as serious as a student.

When he was frivolous, he would often risk his life to fight. When he was as serious as a student, he would often save the people he cared about.

Apothecary understood Qin Mu very well.

After a long time, Qin Mu transformed the dao injuries left behind by heavenly venerate vast heaven into dao markings and explained them one by one. Apothecary listened quietly. The dao injuries left behind by heavenly venerate vast heaven gave him a huge challenge!

The dao injuries left behind by heavenly venerate vast heaven were even more complicated than the strike of the ancestor god King's Heavenly Dao. The Great Dao of primordial qi and sinkhole was even harder to crack than the Great Dao of Heavenly Dao!

His heavenly palace had achieved great success in the Dao of medicine, but the Dao of medicine belonged to the acquired Dao, while the Heavenly Dao, the innate Yi Qi, and the Great Dao of the sinkhole belonged to the Innate Dao.

Whether or not he could cure heavenly venerate Yue might seem like a prescription, but in reality, it was a battle between the Dao of Medicine and the Dao of the innate.

Although the spirit herbs produced by the ancestor court were very mystical, many of them contained the dao of the innate. and the Dao of medicine combined these incoherent principles to form a counter to the Dao of the innate, or even disintegrate it, from there, the goal of curing the sick and saving the people could be achieved.

To Heavenly Dao, innate one qi, and Great Dao of returning ruins, Apothecary's path of medicine belonged to poison, but to heavenly venerate moon, it belonged to medicine.

Qin Mu once again parted the long hair on heavenly venerate moon's forehead and observed heavenly venerate fire's sacred flame in detail.

This time, he used even more time.

Just as apothecary was worried, Qin Mu didn't understand heavenly venerate fire, so he spent even more time on heavenly venerate fire's dao injuries.

Heavenly venerate fire's paths, skills, and divine arts were extremely profound, and he didn't have a corresponding collection in the Guardian Pavilion. The paths, skills, and Divine Arts in the Guardian Pavilion were all targeted at the ancient gods, and the Great Dao runes of heavenly venerate fire didn't repeat much with the Great Dao runes of the ancient gods.

Qin Mu kept staring at heavenly venerate moon, and he could face it calmly. He held his breath and didn't speak.

After an unknown amount of time, Qin Mu slowly closed his eyes. Layers of dreams emerged from the heart of his brows and expanded outwards, quickly enveloping the entire hall.

In the dream, countless tiny Qin Mu yawned and stretched, waking up from their dreams.

Heavenly venerate Yue looked at this scene curiously. She wasn't unfamiliar with it, but the last time she saw Qin Mu execute this kind of technique was more than forty thousand years ago.

At that time, Qin Mu had entered her dream to search for a way to survive.

This time, it was Qin Mu who entered the dream again to search for a way to cure her.

Qin Mu of all sizes in the dream had solemn expressions as he mumbled in a language that others couldn't understand. Small flames spouted from his mouth, and heavenly venerate Yue observed him for a long time, one of the small Qin Mu actually visualized a flame wheel behind his head.

The other tiny Qin Mu also imitated it one after another and each of them created a flame wheel. They were still mumbling with solemn expressions, but no one knew what they were talking about.

"They are imitating heavenly venerate of fire!"

Heavenly venerable Yue didn't know whether to laugh or cry. In Qin Mu's dream, these little fellows were actually imitating the appearance of heavenly venerable of fire. Furthermore, they were imitating him more and more accurately.

The tiny Qin Mu was studying the Great Dao runes in the dao injuries left behind by heavenly venerable fire bit by bit. He was experimenting with the functions of each rune, trying to form divine arts, and some were even trying to deduce heavenly venerable fire's techniques.

"Ma Ha!"

Suddenly, a tiny Qin Mu let out a miserable cry and turned into a small person on fire, sprinting frantically in the dream.

Heavenly venerable Yue jumped in fright and was about to rescue the petite person when he saw the other Petite Qin mu catching fire as well. The small people on fire quickly ignited the layer of dream realm and burned it to ashes.

The other dream realms were still fine and hadn't been ignited. Numerous Petite Qin Mu disguised as heavenly venerable fire walked around with a solemn expression, discussing the profoundness of heavenly venerable fire's paths, skills, and Divine Arts.

Suddenly, another tiny qin mu spewed fire from his eyes, ears, mouth, and nose. The fire started burning in his body and instantly burned him into ashes!

The other tiny qin mu gloated over his misfortune and pointed at him while laughing loudly. All of a sudden, true fire ignited in their bodies and burned them completely.

Layer after layer of dream realms were burned into ashes, and each layer had a different way of dying. Heavenly Venerable Moon had been lonely in the peach forest for too long, so he didn't feel bored when he saw the tiny qin mu tossing and turning in these dreams.

When the dreams were burned, new ones were born, and the cycle repeated itself, deducing the meaning of the fire dao markings.

After a few days, more and more fire runes were sorted out, and the frequency of the tiny Qin Mu's deaths in the dreams became higher and higher. There were traces of innate path that could be traced., the innate path of ten heavenly venerable had been developed from the Great Dao runes of the ancient gods, but heavenly venerable fire's path and innate fire had only taken up half of it.

It was extremely difficult to deduce the essence of his Great Dao of fire, and his understanding of the Dao of fire was even above that of the Vermillion Bird of South Emperor!

After a few more days, Qin Mu finally finished analyzing the fire runes contained in his dao injuries, and his expression was a little dazed.

Apothecary planned to prepare some medicine for him to recuperate his divine consciousness, but Qin Mu shook his head and refused. However, his expression was still a little dazed, "My divine consciousness can still hold on, but after studying fire heavenly venerate's Great Dao runes, I saw many truths from them, but there are some things I can't understand," apothecary said with a smile

"You have a great heavenly venerate by your side, so why do you have to think so hard? Just ask her directly."

Qin Mu pondered for a moment and told Moon heavenly venerate about the confusion he had encountered while comprehending fire heavenly venerate's Great Dao runes, "Heavenly venerate fire's Great Dao runes are extremely exquisite, and he uses heart flames to refine vital qi. His cultivation might be extremely vigorous, but I once sensed a flaw in his disciple, so he couldn't refine his soul. "However, from the basic runes of his path of fire, he can refine his soul."

Heavenly Venerate Moon's heart moved slightly, and he asked, "What do you mean?"

Qin Mu stretched out his hand and gently waved it in front of him. Rows of fire runes appeared and burned in the air, "His sacred fire first originates from his heart fire, which cultivates vital qi. When cultivated to a certain extent, it can evolve into soul fire. Logically speaking, his soul should be incomparably powerful!"

Heavenly venerate yue frowned and carefully observed the fire runes arranged by him. He then gently waved it and one of the runes was destroyed. "After taking this rune, can heavenly venerate fire still refine his soul?"

Qin Mu carefully observed it and shook his head. "I can't."

"Then, are there any fire runes that I've destroyed in my dao injuries?" Heavenly venerate Yue asked.

"Yes!"

Qin Mu said solemnly, "This is the strangest part! Among the paths, skills, and divine arts that heavenly venerate fire imparted to his disciples, this fire rune doesn't exist."
