

Tales of Herding Gods Chapter 1331-1335

Chapter 1331:

The fire path of the fire heavenly venerate only needed to remove a basic fire rune, and it could cause a great change in the cultivation method and ABHIJNA, resulting in a flaw in the soul!

And from the performance of the human ABHIJNA practitioners and gods in South Heaven, no one knew that the fire heavenly venerate's cultivation method contained this fire rune!

In other words, other than heavenly venerate fire himself, no one realized that not only did heavenly venerate fire didn't have a weakness in his soul, his soul was extremely powerful!

A powerful soul also meant that his primordial spirit was extremely powerful!

If someone wanted to use their soul to deal with heavenly venerate fire, they would definitely suffer a huge loss!

'I wonder if heavenly venerate fire passed his technique to heavenly venerate clear?'

Qin Mu was in a daze. If heavenly venerate fire had passed his technique to heavenly venerate clear, this flaw would have followed heavenly venerate clear, making it impossible for heavenly venerate clear to refine his soul to an extremely powerful level through this technique, he even realized that heavenly venerate fire had this weakness.

Of course, heavenly venerate clear had other techniques and divine arts that could refine his soul, but the key was that if heavenly venerate clear thought he had grasped heavenly venerate fire's weakness, he would definitely suffer a huge loss.

"None of the ten heavenly venerates are simple figures!"

He couldn't help but sigh. Among the ten heavenly venerates, the simplest-looking ones were heavenly venerate Huo and the ancestor god King. Heavenly venerate Huo abhorred evil and the ancestor god King had a fiery temper. They were both simple-minded people.

However, how could a simple person become a ten heavenly venerate?

“Simple people are already dead.”

He calmed his mind and explained the sequence of dao patterns in the dao injuries caused by fire heavenly venerate to apothecary. Apothecary listened very seriously and recorded it down meticulously before selecting the spirit herbs he needed.

Qin Mu couldn't help saying, “Grandpa Apothecary, you have never been so careful when you concocted medicine for me in the past!”

“Your skin is thick and your flesh is thick. Furthermore, you have been soaking in all kinds of spirit herbs since you were young so you are resistant to medicine,” apothecary said to him nonchalantly.

Qin Mu was silent for a moment as he recalled his childhood. When he thought of the other people in disabled elderly village, he was filled with happy memories. However, when he recalled apothecary, he would always experience all kinds of painful experiences after trying the medicine.

At that time, his skin wasn't thick and his flesh wasn't thick. On the contrary, he was very thin and weak due to malnutrition. Granny Si carried him around to other villages to get milk to eat. Later on, she kidnapped the wife of Border Dragon City Lord and turned her into a cow to feed him milk.

At that time, apothecary had already placed him in the medicine barrel to test the medicine. In the name of strengthening his body, it made it easier for the little guy to survive.

He shook his head and threw these past events that were unbearable to recall to the back of his head. “Then the next one is heavenly venerate Xiao's sword, right?”

Heavenly venerate Xiao's sword was the second attack. It was fast and broke heavenly venerate Yue's lumbar vertebrae, piercing through her!

Qin Mu examined it carefully and found that the divine art contained in heavenly venerate Xiao's sword wasn't innate one qi, but the technique that came from heavenly venerate Yun, violet firmament jade falling technique.

From Yun Jianli, Qin Mu had seen heavenly venerate Yun's violet firmament jade falling technique. The greatest characteristic of this technique was that it was all-encompassing and had extremely strong plasticity!

Even though Violet firmament jade falling technique was vastly different from Qin Mu's overlord body three elixir technique, they both had the same characteristic, which was that they were good at absorbing the strengths of other sects and techniques for their own use.

The reason why Qin Mu could fuse eighteen heavenly palaces so quickly and raise overlord body three elixir technique to the level of the Great Heavens was related to the foundation of Overlord Body Three Elixir technique.

Violet firmament jade falling technique also had this strange characteristic. Celestial Venerable Xiao's sword contained a lot of emperor's throne techniques, so there was no sense of sluggishness between the different emperor's throne techniques!

He examined it for a long time and fell into deep thought. His expression was uncertain.

Apothecary waited quietly by the side, and Qin Mu stood up. He walked around and suddenly stopped, "Celestial Venerable Yue, I need two people to help me. One is Emperor Yun Luo, Wei Suifeng, and the other is celestial venerable Yun's descendant, Yun Jianli. They are both in eternal peace at the moment."

His divine consciousness rippled, and he sent the appearances of Wei Suifeng and Yun Jianli into celestial venerable Yue's mind.

Heavenly venerable Yue said, "Wait a moment."

Not long after, heavenly venerable Yue summoned a palace maid and ordered, "There are two distinguished guests in the peach forest outside. They are searching for a path. Go to the palace gate and take a lantern. Invite them here."

The palace maid acknowledged and walked out of the palace. She took a lantern and went into the peach forest. Two men's voices came from the Peach Forest. She said in surprise, "Strange! Strange! What is this place? Why Am I here all of a sudden?"

"Which divine being made a move to bring us here? Divine Being, please show yourself!"

The palace maid picked up the lantern and the light shone on their faces. It was already night outside, and Wei Suifeng and Yun Jianli stood in the peach forest with wary expressions.

..

A moment later, Wei Suifeng and Yun Jianli followed the palace maid to the palace. When they saw Qin Mu and apothecary, they were both astonished but didn't say anything.

Qin Mu said, "Brother Yun, big senior brother, this is heavenly venerate Yue. He's injured and needs your help."

Yun Jianli hurriedly went forward and kowtowed. "In my ancestor's teachings, if you meet heavenly venerate Yue, you must kowtow to him and thank him for his help!"

"Get up." Heavenly venerate Yue let out a faint sigh and recalled the past.

Wei Suifeng also went forward to greet him. "Heavenly venerate Yue opened seven stars divine treasure and has shown great kindness to everyone in the future!"

Heavenly venerate Yue smiled. "I only saw the flaws of heavenly venerate Imperial Emperor, Heavenly Venerate Vast Expanse, and heavenly venerate ling and only fixed them slightly. Without such great merit, there's no need for Emperor Yun Luo to be so courteous."

Qin Mu explained the sword injuries that heavenly venerate Xiao had caused and said, "Eldest senior brother has collected the most emperor's throne techniques, and brother Yun is heavenly venerate Yun's orthodox successor. You guys are the most suitable to crack the dao patterns contained in heavenly venerate Xiao's sword!"

Wei Suifeng and Yun Jianli had long known each other in eternal peace. They looked at each other, and Wei Suifeng coughed, "Junior brother, you have searched for the geographical maps I left for you, right? Could it be that you didn't find the emperor's throne techniques that I hid?"

Qin Mu's face turned slightly red, and he wanted to muddle through, wei Suifeng sneered. "You really didn't go! The techniques of the emperor's thrones were all found by me! My imperial guards needed techniques of a higher level, which was why I risked the danger of being exposed and ran to those places to dig around. It took me a long time to dig out the treasures that I had hidden! "You haven't been there at all!"

Qin Mu mumbled, "I have something more important to do, so I got the ancestral court out."

Wei Suifeng's expression softened slightly, and he didn't argue with him about this matter, "I've passed the techniques of the emperor's throne to Emperor Yanxiu, who found some people with extraordinary talents to build dao smelling courtyard. He planned to repair these techniques and change the divine bridge into Heavenly River. "I'm also among them, and brother Yun is among them. "If you have time, you can go back and repair it together."

Qin Mu nodded his head repeatedly, his gaze erratic.

Wei Suifeng snorted and knew that he found it troublesome. In fact, Wei Suifeng himself also found it troublesome. Eternal peace reform wasn't as simple as abolishing divine bridge divine treasures, but also building wood innate divine bridge.., and all the divine arts of Emperor's throne technique needed to be greatly modified!

What was even worse was that after the reform of eternal peace in recent years, all the divine treasures had changed slightly, and there were many details that needed to be modified.

Furthermore, even the heavenly palace in the emperor's throne technique needed to be changed greatly!

Ever since founding Emperor Split Open Heavenly Court with one sword strike, some of the more daring people of eternal peace had actually started to doubt the system of Heavenly Palace. They wanted to improve the various realms of heavenly palace, and there had been many results recently.

That was how Dao Wen Academy was built, and it was filled with lawless people.

"The dao injuries left behind by heavenly venerate Xiao used the Great Dao runes of acquired Great Dao Runes!"

Yun Jianli was already examining heavenly venerate Yue's dao injuries at this moment, and the astonishment on his face became more and more intense, he cried out, "Didn't heavenly venerate Xiao cultivate the dao of innate? Why did his purple firmament jade falling technique fuse with the monarch technique of acquired Great Dao?"

"Because he's the heavenly emperor."

Qin Mu said from the side, "His innate qi controls all the Great Dao of innate heaven in the world, so he doesn't need to use purple firmament jade falling technique to fuse with the Great Dao of innate heaven."

Wei Suifeng and Yun Jianli's expressions changed drastically. "Don't tell me you mean..."

Qin Mu said solemnly, "That's right! Heavenly Emperor absolute beginning wants to unite all the Great Dao of innate heaven and all the path of acquired Heaven in one net in this life!"

Chapter 1332:

The unification of ten thousand daos?

Everyone in the palace was shocked. Heavenly venerate Xiao was the reincarnation of heavenly emperor absolute beginning. His scheme was huge. Before his heavenly emperor true body died, he had already reincarnated as a soul and turned into a young human genius named Xiao Weisu, he took heavenly venerate Yun as his master.

Later on, he inherited the mantle of heavenly venerate Yun and became the leader of the human race. That was during the later period of the Longhan era.

This meant that heavenly emperor absolute beginning had already realized that the path of the acquired realm was about to rise in the later stage of the long Han era. As such, he had taken precautions and split a soul early to become Xiao Weisu to start his plan!

The true rise of the path of the acquired realm wasn't during the later crimson light era and upper emperor era. At the end of Upper Emperor era, the path of the acquired realm started to sprout, and it truly developed during founding emperor era and eternal peace era, it became prosperous.

Among them, Saint Woodcutter's Heaven's pavilion had made a great contribution.

In other words, heavenly emperor absolute beginning had seen the scene four to five hundred thousand years later, which was why he was able to plan ahead!

'Heavenly Emperor absolute beginning isn't a pushover either. None of the ten heavenly venerates are good!' everyone thought to themselves.

With the help of Wei Suifeng and Yun Jianli, the dao patterns contained in heavenly venerate Xiao's sword were quickly sorted out. Wei Suifeng was knowledgeable and had a wide range of knowledge. He had learned the most about the path of the acquired realm from Saint Woodcutter, even the path of acquired heaven in heavenly venerate Xiao's technique wasn't a problem for him.

Yun Jianli was the Orthodox successor of Violet firmament jade fall technique. The two of them worked together and complemented each other.

After the two of them were sorted out, they had no intention of leaving. They looked at Qin Mu, apothecary, and heavenly venerate Yue with eager eyes, planning to see how they would treat their injuries.

Qin Mu was using his divine consciousness to examine the dao injuries in heavenly venerate Yue's primordial spirit. He didn't even raise his head. "When we treat them, the five heavenly venerates who left behind these dao injuries will be alarmed. I wonder who will make a move here."

The expressions of Wei Suifeng and Yun Jianli changed drastically. Wei Suifeng bowed deeply to the ground and said in a clear voice, "Heavenly venerate, we were abducted by heavenly venerate from Dao Wen courtyard. There are still some unfinished work in Dao Wen Courtyard, so I implore heavenly venerate to send us back!"

"Where righteousness lies, there's no room for refusal!"

Yun Jianli said righteously, "Since we have promised Emperor Yanxiu, we must do it beautifully! I implore heavenly venerate to send us back to Dao Wen Courtyard!"

Heavenly venerate yue said gently, "Thank you for your hard work. When you walk out of the palace gate, follow the lights in the Peach Forest. When you walk out of the Peach Forest, you will be in eternal peace capital city."

The two of them felt as if they had been pardoned and rushed out of the palace. As expected, they saw lights in the peach forest. They followed the lights and when they walked out of the Peach Forest, they saw that the lights were from lower capital city of eternal peace capital city.

The two of them let out a sigh of relief and hurriedly walked towards lower capital city. Yun Jianli couldn't bear it and said, "We left heavenly venerate mu and divine medicine king to die there. Aren't we being a little ungrateful?"

Wei Suifeng smiled. "Of course we're ungrateful! However, this second junior brother of mine likes to cause trouble, so he won't die. We might not! Let's go, we have important matters to attend to."

The two of them entered the capital.

In Peach Forest Palace, Qin Mu had finally completed the dao patterns of divine emperor Lang Xuan's path of divine consciousness. Apothecary had also prepared portions of spirit medicine. Qin Mu took out supreme element liquid, and the two of them looked at each other without saying a word.

Heavenly venerate Yue waited for a long time, but he still didn't say anything. He couldn't help smiling. "Two country hands, why are things so serious at the end of the day?"

Apothecary bowed slightly, "If I were to treat Mu'er's injuries, let alone five types of pills, I would have refined five hundred of them and fed them to him. In any case, it wouldn't poison him to death." "But treating heavenly venerate's injuries, I couldn't help being a little worried. I tried my best not to have any future troubles."

Heavenly venerate Yue couldn't help being filled with sympathy for Qin Mu and said with a smile, "Medicine King God, there's no need to be like this. Will consuming your medicine be worse than my condition today? If it's not bad, feel free to take action."

Apothecary agreed.

Heavenly venerate Yue looked at Qin Mu and waited for a moment before bursting into laughter. "Heavenly venerate mu, what are you so worried about?"

Qin Mu said with a straight face, "I'm thinking about these five heavenly venerates, who will return to the Celestial Heavens and who will take action against you. These five heavenly venerates are all half-dead..."

Heavenly venerate Yue jumped in fright and stammered, "They are half-dead?"

Qin Mu pondered over it. "Heavenly venerate Hao wouldn't make a move. He was heavily injured by Supreme Emperor and didn't dare to return to the Heavenly Court. Among the five heavenly venerates, his injuries were the most serious. Even if Tai Su gave him all her strength, he wouldn't be able to recover for another one to two hundred years. Furthermore, his divine weapon, heavenly venerate royal, was also smashed into pieces. Heavenly venerate fire was heavily injured by Supreme Emperor, founding emperor, and Lang 'er, so he shouldn't be able to recover during this period of time. Furthermore, he had stayed behind to guard great void, so he was most likely not in the heavenly court at the moment. "His divine weapon, heavenly venerate royal, was left in the South Pole Heaven to suppress it."

Heavenly venerable moon listened quietly, qin Mu continued, "But if heavenly venerable fire returns to the celestial heavens, he might make a move. "After that, it's Lang Xuan. Lang Xuan was heavily injured by Emperor Tai and was also heavily injured by heavenly venerable Xiao. His injuries were also extremely serious, so it wouldn't be a problem even if he returned to the celestial heavens. His divine weapon heavenly venerable royal couldn't rush here in a short period of time..."

"The divine weapon heavenly venerable royal of the ancestor god King is in Xuan Du, so he can't descend." "The injuries of the ancestor god King aren't light either. The battle with Supreme Emperor caused his treasure of Heavenly Dao to be almost completely shattered, and he couldn't refine it back in a short period of time. "Even if he makes a move, he can't do anything to us."

"The only thing I'm afraid of is heavenly venerable dawn. He had one of his hands chopped off by heavenly concubine Yan, but this fellow is an abnormal one among the ten heavenly venerables. He cultivates the Great Dao of acquired heaven, so he's extremely passionate about it."

Qin Mu frowned deeply, "He's also turning a blind eye to eternal peace reform," he said in a low voice. "It's clear that he's also interested in eternal peace reform. Eternal Peace inherited Crimson Light's creation technique, so he must have learned it as well. His injuries should have already healed by now. "What's more terrifying is that he's heavenly emperor's absolute beginning, so I wonder how far his unity of ten thousand paths has cultivated to..."

Apothecary reminded, "Heavenly venerable Xiao still has a primordial wood not far from the Peach Forest."

Qin Mu nodded, "His divine weapon, heavenly venerable royal, is beside the primordial wood." With heavenly venerable Xiao of unity of ten thousand paths, heavenly venerable royal and primordial wood, he was probably the strongest among the ten heavenly venerables! "If he makes a move, will you be able to block him, heavenly venerable Yue?"

Heavenly venerable Yue thought for a moment and summoned all the palace maids. "Take out all the lanterns I've refined over the years and hang them in the peach forest according to this formation map."

She took out a formation map and handed it to the palace maid in the lead. "After hanging them, return to the palace immediately and don't stay in the Peach Forest."

The palace maids acknowledged and went to open the Treasury in the palace. They took out a few hundred lanterns and shook them. The lanterns lit up and the palace maids carried the lanterns out of the palace to hang them on the peach trees.

Qin Mu stared at them with his eyes wide open. There were a few hundred Hu Ling 'er scratching around in his heart, and he couldn't wait to snatch some of the lanterns.

Other people didn't know the benefits of heavenly venerate Moon's lanterns, but he knew the wondrous uses of these lanterns. They were even faster than the speed of those heavenly venerates!

However, this wasn't the greatest effect of the lanterns. They were strong enough to turn into zither strings!

Qin Mu had seen Heavenly Master Bai Yuqiong before, and he had used the zither strings transformed from the lantern to cut off heavenly master Hao's finger and even his head!

Heavenly master Yue waved her sleeves, and an ancient zither flew over and landed on her knee. She smiled at the two of them. "The Five Great Heavenly Masters are all injured, and Great Emperor has helped me a lot. Why would great Emperor Be So Kind?"

Qin Mu smiled slightly and said leisurely, "There's naturally someone pushing the hand behind the scenes to borrow strength. If there wasn't this person behind the scenes... pushing the hand, I wouldn't have dared to come and heal Yue'er immediately."

Heavenly venerate Yue looked at him deeply and suddenly smiled. "Heavenly venerate mu, divine medicine king, I'm going to make a fool of myself today. The two of you can refine medicine to heal your injuries, but wait for me to play the zither and meet the heavenly venerate of the Heavenly Court."

She plucked a zither string. The zither string trembled and gave off a crisp sound. In the Peach Forest under the night sky, the lights of the lanterns suddenly became bright. Light strings shot out from the Lanterns!

The light strings of the lanterns were connected and crisscrossed. They vibrated along with heavenly venerate Yue's zither string and gave off a beautiful melody!

Chapter 1333:

Qin Mu and apothecary listened to the music of the zither and were slightly entranced, but they soon woke up.

Accompanied by the music of the zither, Qin Mu helped apothecary. He started the fire to control the temperature while apothecary threw the spirit herbs he had prepared into the pill furnace.

In the Great Hall, the music of the zither was moving and the heaven flames were raging. The huge round pill furnace was spinning on the flames.

Under the Flames, Qin Mu held the Heaven Flames with his palm and executed the pill furnace to control the temperature.

As the second person in the world to have “Cultivated” the Heavenly Palace of Medicine, his attainments in the path of medicine could be said to be second only to apothecary. Of course, his Heavenly Palace of Medicine was created by apothecary using spirit pills, so his attainments in the path of medicine were far inferior to apothecary’s.

Apothecary took a step forward with his sleeves fluttering in the wind. Under the illumination of the Heaven Flames, he took huge steps like a shooting star, and the secrets of pill refinement changed endlessly in his hands.

His primordial spirit appeared and sat in the sky above the pill furnace. Apothecary King’s primordial spirit was high up in the sky, and he stood tall on God execution platform. His body was tall and sturdy, and two murderous auras surrounded him like dragons!

The ten fingers of Apothecary King’s primordial spirit danced, and his vital qi turned into intertwining dao markings. The marvel of pill refinement was breathtaking.

Soon, the five types of spirit pills were refined. Apothecary shook his sleeves and put away the pill furnace.

Qin Mu clenched his five fingers, and the heaven flames vanished.

Apothecary raised his hand and blocked heavenly venerate Moon’s screen. It fell to the side, revealing heavenly venerate moon who was playing the zither.

Qin Mu and apothecary looked at each other, and they came to heavenly venerate Moon’s side. Apothecary took out the first spirit pill, and it flew up. Vital Qi rushed into the sky above Qin Mu’s head, and Medical Path Heavenly Palace appeared behind his head.

His medicine king primordial spirit also appeared in the Heavenly Palace. He was also wearing a wide robe and wide sleeves, giving off the air of an immortal.

Their medicine King Primordial Spirit made a move at the same time to stimulate the medicinal energy of the spirit pill. This time, apothecary was the main one, and Qin Mu was the assistant. He was mainly worried that apothecary's cultivation was lacking, so he was prepared to take over at any moment.

Even though apothecary had already stabilized himself on God execution stage, in terms of the density of his vital qi cultivation, he was still far inferior to Qin Mu.

The dao markings in the spirit pill flew out like a huge poem and flew towards heavenly venerate moon. The Spirit Pill also gave off a wondrous dao sound that merged with the zither sound.

The dao markings of the spirit pill came to the top of heavenly venerate Moon's head and touched the dao injury left behind by the ancestor god King. The might of the Heavenly Dao instantly burst forth and the might of the heavens was vast. However, in the next instant, the DAO markings in the spirit pill filled the Heavenly Dao Dao markings!

The dao markings of Heavenly Dao in the dao injury left behind by the ancestor god King touched the dao markings of the spirit pill. It was like blood meeting snake venom and rapidly solidified, forming lumps and rotting!

Qin Mu couldn't help feeling goosebumps all over his body when he saw this. His scalp went numb and even his bones trembled!

This kind of spirit pill wasn't a spirit pill at all but a deadly poison. It could even dissolve the dao path that others had painstakingly cultivated and was a deadly poison that could transform their Dao!

"Don't worry, this spirit pill is only targeted at the dao injuries left behind by the ancestor god King." Apothecary's voice came at the right time to dispel his fear.

Qin Mu composed himself. At that moment, apothecary took out the other two spirit pills. One of them flew up to heavenly venerate Moon's back, where heavenly venerate vast had left his dao injuries, and the other to heavenly venerate Moon's face, the dao wounds left by heavenly venerate fire.

Another vital qi shot into the sky above Qin Mu's head and transformed into two heavenly palaces. One was Xiantian Heavenly Palace, and the other was Heavenly Palace of creation.

He used Heavenly Palace of Creation to reconstruct heavenly venerate Moon's appearance and let her return to her former appearance. On the other hand, Xiantian Heavenly Palace was because heavenly venerate vast's path of returning to ruins and Xiantian one Qi were simply too strong. If apothecary's spirit pills didn't have the expected effect., he prepared a backup plan first.

The medicinal efficacy of Apothecary's two spirit pills was unleashed. Qin Mu's body swayed and three heads and six arms appeared, closely observing the changes of each dao pattern.

At that moment, apothecary took out another spirit pill to treat the dao injuries that heavenly venerate Xiao had caused!

Qin Mu frowned and said in a low voice, "Grandpa Apothecary, isn't heavenly venerate Yue as thick-skinned as me? is she really going to alarm all the heavenly venerates in one move?"

Apothecary executed the medicinal energy of the spirit pill and said solemnly, "If we alarm the other heavenly venerates, we definitely won't be able to hide it from heavenly venerate Xiao. Instead of waiting for him to make a move first, we might as well alarm all of them."

Qin Mu frowned and his body swayed. Heavenly palaces appeared behind him, forming a heavenly court that shone with divine light.

His primordial spirit split into eighteen and stood tall in the heavenly palaces, closely observing the changes of the dao patterns in heavenly venerate Moon's dao injuries.

The Spirit Pill had already begun to erode heavenly venerate Xiao's dao patterns, and the first dao pattern shattered.

The corners of Qin Mu's eyes twitched. The instant the dao patterns shattered, he sensed something waking up in the origin world!

It was like an incomparably terrifying devil monster opening its eyes in the dark night!

Heavenly venerate Xiao was alarmed!

Apothecary took out the fifth spirit pill at this moment, and the veins on Qin Mu's forehead bulged out. However, he still endured it and didn't disturb him, allowing him to treat heavenly venerate Yue's injuries with all his heart.

Heavenly venerate Yue's zither music was still leisurely and slow. When Qin Mu and apothecary treated her injuries, the dao injuries on her body would also retaliate, causing her even more pain. However, her fingers were still very steady, every finger was very powerful when she plucked the zither strings!

At this moment, the Daoists who lived in Dao sect and the people in the city at the foot of the mountain suddenly saw a strange scene.

They saw the entire peach forest blooming with various colors of light. The light seemed to float in the sky above the peach forest. The strings of light in the peach forest vibrated along with the sound of the zither in the forest. Hundreds of light strings and the sound of the zither chimed in harmony, it made the Peach Forest in the dark night seem like a dancing musical note bathed in light!

What was even stranger was that when each musical note jumped, the peach forest seemed to jump from one space to another space. Another World actually appeared in the dark night sky and was connected to the Peach Forest!

At this moment, the Yuan world was dark, but those strange worlds were not all dark. Some were at the moment when the sun rose, and the people near Haotian Taoism saw the sea, three smaller suns were slowly rising from the sea.

The light of the rising sun shone from the night sky, across the sea, and the peach forest by the shore. From the Peach Forest, it fell on the Kunlun ruins mountains of Haotian Taoism, like a beautiful picture slowly unfolding!

However, as the music notes of the Peach Forest danced, the scene changed again. They saw a dark world descending. The dark mountains were like the fins on the back of a monster, shocking and terrifying.

The music notes danced, and suddenly it was daytime again. The sky was clear and blue, and there was a huge continent floating in the sky. Many gods with bird heads and human wings were flying in the sky.

Suddenly, they came to the world under the setting sun. The setting sun was bright red, and the sunset glow filled the sky. It was extremely beautiful.

The Ten Thousand Miles Peach Forest seemed to be in a jumping space. It was constantly jumping in the myriad worlds. The music notes formed by light strings and music notes formed thousands of jumping space planes, which made the people near Haotian Taoism stare straight at it.

Suddenly, an elder in Haotian Taoism looked into the darkness in the distance. He saw that in the distant land, the Yuan Wood statue was like a monster standing in the center of the Yuan World in the darkness.

And there, two long and narrow eyes were slowly opening!

Those two eyes were too big. Even though they were so far away, they could still be clearly seen!

The dao sect elder was shocked. He hurriedly rang the bell and called over the Dao sect disciples, he said in a deep voice, "The DAO Master is not here. All of you, quickly go down the mountain and head to the nearby cities. Restrict everyone from leaving the houses and the city! Everyone, close the doors and shut the doors. You must not leave!"

Many of the Dao sect disciples left one after another. The Dao sect elder also went down the mountain to restrict the nearby commoners. He glanced at the eyes that were gradually brightening in the darkness. At this moment, he saw that the stars in the sky had unknowingly become much bigger, he could not help but worry, "The Peach Forest, I'm afraid there's a big change!"

Chapter 1334:

The stars in the sky became brighter and brighter. However, although the strange stars were becoming brighter, they were flickering and flickering, appearing and disappearing at times. It was as if these stars were dancing along with the music notes in the Peach Forest, they were jumping from one world to another.

The stars were chasing after the Peach Forest. Every time the stars dimmed and disappeared, they would become brighter again. It was as if they had become even bigger, and they were even closer to the Peach Forest!

As the music notes in the Peach Forest jumped, the Taoist priests who were busy restraining people from all over the cities suddenly noticed that the giant and Yuan Mu were moving in the darkness!

Although the giant and Yuan Mu were still the same size as before and did not seem to be moving, they were only shrinking as they moved!

What was even stranger was that the giant grabbed the Yuan Mu and pulled it up. He stopped when the music notes in the Peach Forest jumped, and moved when the music notes stopped.

When the notes jumped, the sky above the peach forest lit up. When the giant and the elemental wood were illuminated, the giant and the elemental wood did not move at all.

When the notes stopped, the sky above the peach forest fell into darkness. At that time, the giant and the Elemental Wood also disappeared into the darkness. However, the Daoists could feel that the giant in the darkness was hurrying over with the elemental wood.

And the strange giant holding onto the origin wood was none other than the divine artifact that suppressed the origin world, Celestial Master Royal!

The Daoists of Dao sect felt their hairs stand on end. They quickly flew in all directions, causing everyone to lock their doors tightly.

Finally, the Bell of Dao sect rang once again. The Daoists flew back to Dao sect and sealed their mountain gates as well. They each returned to their own courtyards or palaces and locked their doors tightly.

In the city at the foot of the mountain, a child quietly pushed open the window, intending to look out. However, at this moment, he saw an incomparably terrifying scene. A giant with a huge physique was standing outside the city, in his hand was a tree that was a thousand feet tall!

His face was taller than the city tower, and the side of his face appeared above the city tower. The music notes in the peach forest danced, and light shone, illuminating his face.

The child's mouth was wide open as he watched this scene in a daze.

His mother rushed over in a hurry and dragged the devilish child back, closing the doors and windows with a bang.

Then, the sounds of spanking and the child's screams came from inside the house. The screams immediately became muffled and turned into whimpering sounds. It was likely that someone had covered his mouth.

Outside the city, the Divine Weapon Heavenly Lord's body had already shrunk to over a hundred feet tall, but he was still a little taller than the city tower. He stood there like a stone statue.

Suddenly, the music notes in the peach forest dimmed, and the city fell into darkness.

When the music notes lit up again, the giant was already standing by the side of the Peach Forest. He still propped himself up on the origin wood and stood there motionlessly.

Rustling sounds came from a sudden gust of strong wind that blew against the peach forest.

This wind came inexplicably. It was very strong, and it even blew against the sleeves of Celestial Master Royal's clothes.

The strange thing was that this gust of wind could even blow against the divine weapon, Celestial Master Royal's clothes, but it could only blow against the peach leaves outside the peach forest. However, the peach leaves inside the peach forest did not move at all.

The Divine Weapon, Celestial Master Royal, held the origin wood in his hand and did not move at all.

The stars in the sky also became brighter and brighter. They shone brightly as if they had arrived not far above the peach forest. Among them, forty-nine big stars were the most dazzling.

In the Palace of the Peach Forest, medicine master activated the medicinal efficacy of the last spirit pill. The Great Dao chain formed by the medicinal efficacy drilled into heavenly venerate Yue's glabella. The moment the Dao chain came into contact with divine emperor Lang Xuan's Spiritual Sense Dao pattern.., it was as if two spirals were entangled together. The battle was brutal!

When Divine Emperor Lang Xuan's Spiritual Sense Dao pattern was destroyed, heavenly venerate Yue's spiritual sense and Yuan Shen were also attacked. The zither sound emitted from the bottom of her hand suddenly became chaotic.

Her zither music was chaotic for half a beat, and the light strings in the Peach Forest were also half a beat slower at this moment.

When the zither music continued, light shone. The divine weapon, heavenly venerate royal, came to the depths of the peach forest with the origin wood in his hand. And that Strange Gale actually came to the peach forest. The wind blew against the peach wood, and the leaves rustled, and the peach flower petals fluttered in the wind, they danced in the wind!

In the sky, the forty-nine big stars were even more dazzling. They hung above the peach forest palace like forty-nine eyes, staring at the palace, waiting for the next opportunity.

In the ten thousand Li Peach Forest, light strings shuttled back and forth, jumping even faster. The sky also became colorful in an instant. Sometimes it was day, sometimes it was night, sometimes it was pouring rain, sometimes the sun shone brightly, and sometimes it was covered in white snow for ten thousand li, sometimes it was the blazing sun, the scorching summer sun, or the beautiful spring light, or the red autumn filled the mountains.

In a short moment, the peach forest could move from one world to another, from spring to summer, and from winter to autumn!

The geography of the mountains, the Sun, the Moon, and the stars were constantly changing, but strangely, the divine weapon heavenly venerate royal, the origin wood, the strange wind, and the 49 great stars in the sky remained unchanged.

In the palace, the music of the zither became more and more rapid.

Heavenly venerate Moon's ten fingers danced, and the zither strings danced more and more rapidly, as if her ten fingers could not keep up.

Suddenly, heavenly venerate Yue stood up, and the zither flew around her. Heavenly venerate Yue stepped on the air and danced in the air.

Her legs had unknowingly healed, and she was able to stand up!

Her body moved, and so did the zither. The zither flew up, down, left, and right. Clang, Clang, Clang. A sharp zither sound rang out, and the Peach Forest Palace suddenly fell apart, leaving behind only thick stone pillars!

The stone pillars were like forests, like zither pillars.

The strings of the zither suddenly flew up and were tied to the zither pillars, one string and one pillar.

Heavenly venerate moon's figure was graceful as she shuttled between the strings and the pillars. She floated gracefully, but the zither sounds were high-pitched and spirited, carrying a cold killing intent!

Apothecary was like a small star that was flying around her. The primordial spirit of the Medicine King stood tall in the Heavenly Palace, and the Heavenly Palace of path of healing was also flying around heavenly venerate moon to ensure that the dao patterns in the healing spirit pills weren't messed up!

Weng —

Qin Mu's spirit embryo divine treasure spread out, and the hall actually looked like a vast world. The ancestral court hung in the middle, with Xuan du above and Youdu below. The four poles stood in all directions, and all the worlds in the heavens appeared.

Qin Mu's primordial spirit Rose slowly, and his body grew larger and taller. No matter which direction he looked from, he could only see his face.

He was a four-faced god.

The four-faced god King spread his palm open, and the ruins of the hall were held up by him. The strings of the zither pillar spanned a hundred miles, and the ruins of the hall turned into a zither.

Heavenly venerate moon danced among the strings of the zither pillar. Sometimes, she flew past the strings, sometimes under the strings, and sometimes around the pillars. Her long sleeves fluttered as she plucked the strings of the zither.

She seemed to have become the four-faced divine king in Qin Mu's palm, and she could clearly grasp all the details of the peach forest and the zither.

The bodies of apothecary and medicine king's primordial spirits were even smaller, but they were also like a four-faced divine king, able to clearly grasp the circulation of every bit of medicinal energy.

"Heavenly venerate mu..." a voice sounded out from the peach forest, as if it was sobbing.

Qin Mu's heart jumped. "It's time to make a move!"

The origin wood in the hand of divine weapon heavenly venerate royal suddenly fluttered, and in an instant, it pierced through the peach forest. In the sky, forty-nine huge stars fell from the sky!

He had forgotten to ask for the monthly pass in the middle of the month. Two days had already passed! Tears were streaming down his face. Was there still any more? Was there still any more? He threw a piece of paper and patted the pig's head to comfort him

Chapter 1335:

Apothecary's expression changed slightly. He could now see the wounds on heavenly venerate Yue's body, back, and even the top of his head. The dao patterns on the dao wounds could be clearly seen!

Even the dao patterns on the dao wounds could be seen clearly. At this moment, it was as if he had countless eyes. He could see the front and back of each rune clearly, he could even see the internal structure of the runes clearly!

It was actually so simple for him to treat heavenly venerate Yue's injuries.

"If I had this ability, anyone in the world would be poisoned to death!" Apothecary was overjoyed.

Heavenly venerate Yue was also in Qin Mu's divine treasure territory. At that moment, she realized that her path of space was unexpectedly smooth, and her divine arts were also surprisingly swift!

It was as if she had suddenly entered an unfathomable realm. She plucked the zither strings and unleashed her path of space to an extreme that she had never imagined before!

'this kind of wondrous usage can unleash my path of space to the extreme.'

She plucked the zither strings, and the light strings in the ten thousand miles peach forest suddenly trembled. In an instant, the light strings trembled countless times, forming countless floating spaces. They were thin and didn't have any thickness, just like the strings of space.

The strings of these spaces burst forth with different rhythms, making the entire peach forest seem to be in the ten thousand worlds at the same time. The strings of these spaces cut open the strange wind and blocked the stars in the sky, they made the roots of the origin wood unable to spread throughout the peach forest, and more and more roots were cut off!

This was the effect of Qin Mu's divine treasure's domain.

There weren't many people in the world who had cultivated their domains. There was a portion of people in Heavenly Court who had cultivated their domains, and there was also a portion in eternal peace. In addition to carefree village and Supreme Emperor, that was all.

However, everyone who had cultivated their domains had extraordinary achievements.

For example, founding emperor's sword domain was indestructible.

Supreme Emperor's supreme divine consciousness domain could solidify everything.

Then there was Luo Wushuang, butcher's knife domain, and heavenly knife domain, which all had extremely powerful might.

If one wanted to cultivate their domains, they had to have extraordinary achievements in their cultivation of the Great Dao. Domains were an extension of the system of Dao Realm.

Qin Mu's path of cultivation was different from the others. The others would open their spirit embryo step by step, opening up five elements and seven stars. On the other hand, he would use his spirit embryo to evolve the universe, opening up heaven and earth, he would evolve Xuan Du, Youdu, Yuan Du, four extreme heavens, and even the ancestral court!

He didn't have any other divine treasures. In the domain of his divine treasures, he was equivalent to the singularity of the great explosion of the universe.

The singularity didn't exist in time and space, so there was no upper, lower, left, or right. Standing in the singularity, one could see everything in the universe, regardless of whether it was the front or the back.

Thus, all the time and space in his divine treasures were like the decorative patterns on his palm. When others looked at him, they would never be able to see his back. They could only see the front, even if they flew to the top of Qin Mu's head and under his feet, they could only see the front.

Now that Qin Mu had placed heavenly venerate Yue and apothecary on his palm, he had placed his divine treasure's domain on their paths. As a result, apothecary and heavenly venerate Yue also temporarily possessed this unimaginable ability.

Forty-nine huge stars fell from the sky and avoided the zither strings that were jumping in the sky. Suddenly, the stars trembled violently and turned into forty-nine Heavenly Dao celestials. Behind one of

them floated the heavenly principle, which was like a douluo., a heavenly well was suspended behind one of the Celestials. One of the Celestials sat on the Heavenly Xuan. The Heavenly Xuan was like a chariot. There were heavenly acupoints, Heavenly Abyss, and Other Heavenly Dao celestials. The Heavenly Dao behind them also appeared!

One after another, the celestials descended from the sky to resist the zither music.

On the other side, the strange wind whistled and swept up peach branches, peach leaves, and peach flowers. Those flowers, branches, and leaves formed a torrent. As the zither music whistled, countless flowers, branches, and leaves rushed to the front of the palace ruins. The branches and leaves flew and danced, they gathered together and formed the figure of Divine Emperor Langxuan.

The zither music came from all directions and cut divine emperor Langxuan into pieces. However, the shattered Langxuan was broken and gathered together. The petals, branches, and leaves on his body scattered and gathered again.

He did not come in his real body, but his divine sense.

His real body was severely injured by Supreme Emperor, and he had to return to the Heavenly Court to recover. Supreme Emperor had injured him too badly, and it would be difficult for him to recover to his peak state in a short time.

He was best at dealing with heavenly venerate Yue. Back then, he was the first one to attack heavenly venerate Yue, and only then did the other heavenly venerates have the chance to severely injure her.

His divine sense could be said to be the nemesis of the Dao of space.

“Heavenly venerate Yue, you have lived for so long, more than 40,000 years, right?”

Divine Emperor Langxuan walked over, he said in a clear voice, “Back then, you should have died together with heavenly venerate ling. You survived because you were disabled, disabled. Only when you were crippled could the heavenly venerates be at ease. But now, you want to recover? You’re clearly courting death.”

No matter what he did, he could not get close to the palace ruins. He could not help but frown slightly as he looked up at the sky.

In the sky, the forty-nine Heavenly Dao celestials each shouted. The forty-nine Heavenly Dao were like long rainbows that fixed the light strings. The power of the zither music was greatly reduced.

But even so, divine emperor Langxuan still could not get close.

The forty-nine Heavenly Dao celestials suddenly turned into long rainbows and descended from the sky along with the long rainbows. They landed on the ground and turned into Heavenly Dao celestials. These Heavenly Dao celestials all had the same faces, the faces of the ancestor god King.

These celestials were the Great Dao incarnations of the ancestor God King.

Because he was severely injured by Emperor Tai, he had no choice but to return to the heavenly court to recuperate. His true body could not be used.

“Heavenly venerate Yue.”

“Stop healing your injuries and recover your crippled body. You still have a way to live, otherwise, don’t blame fellow Daoists for being heartless.”

Heavenly venerate Yue turned a deaf ear.

Suddenly, the Heavenly Dao gods could sense that the injuries of Heavenly Dao in heavenly venerate Yue’s body were healing rapidly. They couldn’t help opening their eyes at the same time, and their gazes landed on Qin Mu’s palm and apothecary, who was flying around heavenly venerate Yue.

“You’ve broken my Heavenly Dao, you’re destined to suffer a calamity!”The forty-nine Heavenly Dao Gods said in unison.

Apothecary’s heart tightened, and he hurriedly touched the bronze mask on his face. It was still there, and he let out a sigh of relief. “Fortunately, I was afraid that Mu’er would feel inferior, so I didn’t take off my mask. Otherwise, these fellows would have seen my true face...”

“Heavenly venerate Xiao, ancestor god King.”

God Emperor Lang Xuan suddenly said, “Even though there are only the three of us today, you shouldn’t have forgotten the scene back then, right?”

“Yes,” god Emperor forty-nine Heavenly Dao nodded, and his divine weapon heavenly venerate royal said, “Even though heavenly venerate fire was the first to attack back then, heavenly venerate Moon managed to dodge his attack. Instead, you were the first to succeed.”

God Emperor Lang Xuan smiled slightly and suddenly burst forth, shouting, “Do it!”

Whoosh

His body suddenly disintegrated, and countless peach blossoms, leaves, and branches danced in the sky. The peach blossoms, leaves, and branches shattered in the sound of the zither, but divine emperor Lang Xuan’s divine sense had already rushed straight into Qin Mu’s divine treasure territory!

At the same time, the forty-nine Heavenly Dao divine men all made their moves, and in an instant, they formed the world of Xuan Du, encompassing Qin Mu’s divine treasure territory!

The sound of the zither burst forth, and the ten thousand Miles Peach Forest seemed to boil. Countless cross-sections of space interweaved in the sound of the zither. Heavenly venerate moon stroked the zither, and all kinds of zither sounds burst forth at the same time. Five notes and twelve melodies, Gong Shang Jiao Zheng Yu, Yellow Bell Great Lu Tai Tuan, they all burst forth at the same time!

The world of Xuan du transformed by the Heavenly Dao celestials was instantly destroyed, and the Celestials flew up before being chopped into pieces by the sound of the zither!

Countless broken limbs danced in the sky, and the ancestor god King’s voice could be heard shouting angrily, “Heavenly venerate Xiao, your grandpa –”

His Broken Heavenly Dao was like a seven-colored stream of light that rushed into the sky and rushed out of the Peach Forest. It jumped back and forth among the stars in the sky and soon disappeared.

Divine Emperor Lang Xuan’s divine consciousness rushed into the domain of his divine treasure and went straight for the heart of heavenly venerate Yue’s brows. However, no matter how he rushed, he was still facing Qin Mu.

He was getting closer and closer to Qin Mu, but what welcomed his divine consciousness was Qin Mu’s palm.

Qin Mu's five fingers spread open, and Supreme Emperor's divine art appeared in his palm. It was great overarching supreme divine consciousness.

Divine Emperor Lang Xuan's divine consciousness surged and broke through one great overarching heaven, but there was still a second great overarching heaven behind him.

He continued to rush forward and broke through one great overarching heaven after another. He broke through a hundred great overarching heavens consecutively and finally caught Qin Mu off guard. However, at that moment, he saw a hairpin in Qin Mu's hand.

Peach Wood hairpin.

It was an ordinary hairpin that heavenly venerate moon, who liked peach blossoms, had created for heavenly venerate ling.

"Langxuan, your divine consciousness can break heavenly venerate moon's path of space, but heavenly venerate Ling's divine art of not easy can break your divine consciousness."

Qin Mu shook the peach wood hairpin, and Divine Emperor Langxuan's divine consciousness instantly crumbled into pieces!

At the instant his divine consciousness crumbled, he heard the ancestor god King's Cry, and his heart was a little confused. 'heavenly venerate Xiao, why didn't he make a move?'

Qin Mu kept his hairpin, and in a short instant, the ancestor god King and Divine Emperor Lang Xuan both suffered a huge loss. One of the forty-nine Heavenly Dao divine beings was beheaded, and the other's divine consciousness was sliced off.

They wouldn't come here again for a short period of time.

There was only one person left now.

Qin Mu looked at the Peach Forest, and his divine weapon heavenly venerate royal stood there unmoving, his hands propping up the origin wood.

Heavenly venerable Yue's zither music surged, and the space strings formed by the light strings jumped around him. However, they were all blocked by the origin wood.

Heavenly venerable divine weapon divine armament's gaze was gloomy, and there seemed to be flames dancing in his eyes as he looked at Qin Mu and heavenly venerable Yue.

He seemed to be able to see through Qin Mu's divine treasure domain and accurately catch the flaws of Qin Mu and heavenly venerable Yue.

"Heavenly venerable vast's dao injuries have been healed!"

Apothecary's voice sounded out, and he said, "Heavenly Venerable Fire's dao injuries have also been wiped out! In a moment, the dao injuries left behind by heavenly venerable Xiao and divine emperor Lang Xuan will also be healed!"

In Qin Mu's eighteen heavenly palaces, god King creation immediately made his move and reconstructed heavenly venerable Yue's appearance.

Heavenly venerable Yue's spirit was greatly roused. She could feel that the dao injuries that restricted her cultivation were gradually losing their power, and her cultivation was returning to its peak bit by bit!

At that moment, the sound of footsteps came from outside the peach forest and gradually approached.

"The reason why I haven't made a move is because I have already taken control of the overall situation and the life and death of the three of you."

In the darkness, a figure passed through the messy intersecting light strings as if it didn't have a physical body. The space strings were indestructible, but when they cut through his body, they didn't hurt him in the slightest.

He was like a ball of Qi without a physical body!

"I am not being arrogant. In fact, it is because the origin wood is in my hands."

The figure got closer and closer, the voice became clearer. "The Earth Mother Yuan Lord is an incompetent person, but her physical body is a supreme treasure born from the ancestral court. It is just

that she does not know how to use it. "This origin wood root is rooted in the Yuan capital. Its roots and roots are all over the earth. Its branches and leaves lift up the heavens in the sky. "Therefore, even if your ten thousand miles peach forest is connected to all the heavens, it's useless to me. It's easy to break."

After saying the word "Break," heavenly venerate royal, who was holding the origin wood, suddenly shouted and activated the power of the origin wood!

Heavenly venerate Moon's expression changed slightly. She immediately felt the ten thousand miles peach forest connecting the heavens and the ten thousand worlds disintegrating. The Peach Forest that she had worked hard to build for more than forty thousand years was destroyed in an instant!

The Peach Forest was destroyed, and the origin wood roots were like tentacles that extinguished the lanterns one by one.

Back when heavenly venerate Hao invaded the Yuan world, Earth Mother Yuan Lord, who had just been resurrected, went to stop him. Because heavenly venerate Xiao was by his side, heavenly venerate Hao did not want to be injured, nor did he want to reveal his true strength. Therefore, after severely injuring Earth Mother Yuan Lord, he left.

However, Earth Mother Yuan Lord was killed by heavenly venerate Xiao. The roots and the origin wood fell into heavenly venerate Xiao's hands, and the Yuan world fell into heavenly venerate Xiao's control.

Celestial Master Xiao became a big winner, planting the primordial wood and building the Heavenly Palace, leaving behind the Divine Weapon Celestial Master Royal.

At that time, even Qin Mu had fallen into his scheme and summoned his soul, but he couldn't stop eternal peace calamity from erupting. In the end, he had no choice but to give up his identity as Youdu's divine son and dig out his third eye to become a soulless person.

Celestial Master Xiao had always been a big winner, except for the time when he had transformed into Chu Xiao and was assassinated by Heavenly Master Yun, Heavenly Master Hao, Heavenly Master Yue, and the rest during the wedding.

After heavenly venerate divine weapon heavenly venerate royal finished all of this, he remained unmoved.

At that moment, that figure walked to the front of heavenly venerable divine weapon heavenly venerable. Compared to heavenly venerable divine weapon heavenly venerable, his body wasn't tall. Heavenly venerable divine weapon heavenly venerable royal was a giant, and he looked like an ordinary adult.

This figure was heavenly venerable Xiao.

He had delicate features and was refreshing. Furthermore, both of his hands were complete. It was clear that he had indeed cultivated the profound skill of creation that eternal peace had improved and could recover his corporeal body.

"Heavenly venerable Xiao's sword injury has already been removed!" Apothecary's voice came over with joy.

Heavenly venerable Xiao raised his brows slightly and looked at apothecary who was wearing a bronze mask. He smiled and said, "So it's eternal peace's jade-faced gentleman, Medicine King God. I've listened to your lecture in eternal peace before."

Apothecary's expression changed drastically, and he cried out bitterly in his heart.

Heavenly venerable Xiao's gaze landed on heavenly venerable Yue again, he smiled. "Heavenly venerable Yue, even if you recover, you won't be able to escape the myriad worlds in the heavens. 'Earth mother is useless, but I'm not useless. 'you can use the path of space to cut off Earth Mother's roots and restrict her movements, but I don't care. 'Origin Wood isn't my corporeal body, so I'm invincible because I'm not reluctant to part with it.'

Heavenly venerable Yue fell silent, and the zither music stopped.

Heavenly venerable Xiao's gaze landed on Qin Mu again, and he said indifferently, "Heavenly venerable mu, I pinched you once in Eternal Peace Tribulation, but you might not be willing to accept it. Now that I've pinched you again, are you convinced?"

"I'm convinced, Your Grandpa."

Qin Mu spat out a mouthful of Phlegm and smiled. "When have I ever been convinced?"
