

Tales of Herding Gods Chapter 1336-1340

Chapter 1336:

“Me?”

Heavenly Lord Xiao’s expression darkened. “How Rude. Heavenly Lord Mu, you’re so angry that you’re about to swear. I’m a little disappointed. It seems that I’ve put too much pressure on you. “Today, I’m not here to deal with you, but Heavenly Lord Yue. “After all, we’re still allies. I can use you in some ways. “But heavenly venerate Yue is not.”

His gaze fell on heavenly venerate Yue, and he stretched out a hand. With a serious expression, he said, “As long as heavenly venerate Yue is willing to submit, I can let bygones be bygones for the matter of you killing me in the past.”

He said indifferently, “Don’t say that I’m not magnanimous. I’m very magnanimous. Heavenly Duke and Earth count are unruly and unruly. I can tolerate them, and I can tolerate heavenly venerate Yu, Hao, ling, Yue, Huo, and other heavenly venerates who have created the path of cultivation after birth. If the postnatal spirit became a god, I could tolerate it too. I could even allow you to establish heavenly heavens of Heavenly Han and Heavenly Heavens of dragon clouds and give you power. Even if heavenly venerate mu was reforming in eternal peace, I would still turn a blind eye to it. “As the Heavenly Emperor of a generation, my stomach isn’t bad, right?”

His gaze was sincere, it landed on heavenly venerate Yue’s face. “If it was any other heavenly venerate, who do you think would have the stomach of the current ten heavenly venerates? Heavenly venerate Hao? “He can’t do it. If he were in my position, he would definitely kill all of you at once and cut off all reform.”

“Divine Emperor Langxuan? He can’t do it either. He doesn’t have such boldness.”

“Heavenly venerate fire? He’s just a lowly person. He’ll lick whoever is strong.”

“Heavenly venerate Hong is too weak. Concubine Yan Tian herself doesn’t dare to stand out and only dares to rely on men. Concubine Qiang Tian is supreme emperor. He even dares to destroy his own race, let alone all of you.”

“Heavenly venerate gong is too arrogant, heavenly venerate Xu is too dark in his heart, and the ancestor god King is unbridled. He’s not the material to be a heavenly emperor.”

He said leisurely, "Besides, nine heavenly venerates of Longhan, apart from heavenly venerable vast heaven and heavenly venerable fire, heavenly venerable Yun is also very talented. However, he lacks influence and heavenly venerable you is closed off, so it's difficult for him to become a great being. Heavenly Venerable Moon, you are only suitable to be the logistics while heavenly venerable Ling has a communication barrier. Even though Heavenly Venerable Qin is broad-minded, he is cautious by nature and is only fit to compete with heavenly venerable vast heaven for the world. As for heavenly venerable mu..."

He cast a glance at Qin Mu and said with a smile, "Too impulsive. Even though he's scheming, he'll sooner or later play himself to death because he's too curious."

Qin Mu's face was as black as iron.

Heavenly venerable Xiao smiled. "From the ancient times until now, there's someone with a broad mind, magnanimity, methods, responsibility, and magnanimity who can perfectly become the heavenly emperor. Feel free to look for him, but I'm the only one from the beginning to the end. "It wasn't me who dominated the universe and became the Heavenly Emperor, but the universe that chose me to become the Heavenly Emperor."

Heavenly venerable Yue's cultivation rose, and his aura became stronger and stronger. He said indifferently, "You mentioned the ninth heavenly venerable back then and the ten heavenly venerables now. Then what about heavenly venerable royal? Why didn't you mention him?"

"Heavenly Venerable Royal?" Heavenly venerable Xiao's expression sank slightly.

"Yes, Heavenly Venerable Royal!"

Heavenly venerable Yue stood in the palm of Qin Mu's primordial spirit, and his gaze was bright as he looked at heavenly venerable Xiao's face, he said word by word, "You said you had magnanimity, so why didn't you mention heavenly venerable royal? Was it because he was more suitable to be the heavenly emperor than you, so you couldn't tolerate him and killed him?"

Heavenly venerable Xiao lowered his brows and chuckled lightly. He muttered, "Heavenly venerable royal? I didn't kill him. It was heavenly venerable Hao'er and yin tianzi who made the move..."

Celestial Master Yue raised his eyebrows and was about to speak, celestial Master Xiao continued to smile. "However, Hao'er and Yin dynasty's Hibiscus dared to make a move because I instructed them to.

I even helped hao'er seal the Manchurian cloister to ensure that heavenly duke and earth count couldn't find out the cause of heavenly Lord Royal's death."

He smiled. "That was the first heaven's grand meeting. At the Heaven's grand meeting, the magnates gathered to discuss the establishment of the Longhan Heavenly Court. They respected me as the ruler of the world. "I was high and mighty. At that time, the human race was just an insignificant small clan. The Jade Lake Grand meeting was just an insignificant corner of the Heavenly Court, and the seventh heavenly venerate was just an insignificant small figure in that era. "Heavenly venerate royal was just one of the stronger ants. "However, I was afraid."

Heavenly venerate Yue clenched his fists.

Heavenly Lord Xiao said, "I have no more opponents. "The Supreme Emperor was defeated. The original stone shattered and he became a stray dog. Gong Gong died and was buried by me in the ancestral court. The Heavenly Duke has something on me that the earth mother can not handle alone. The earth count is no match for me. As for the four ancient gods, they are only worthy of one side. "However, when I saw Heavenly Lord Royal, I was afraid."

He turned his head to look at the divine weapon behind him, Heavenly Lord Royal, and recalled the past. After a moment, he turned his head, he continued, "Heavenly Lord Royal has talent. His talent is peerless. He opened the spirit embryo divine treasure, allowing all living beings to cultivate. He made all races remember his kindness. "He also had ambition. He made many good friends. Whether it was the demigods or the postnatal races, they all treated him as a distinguished guest. He also created the Divine Ascension technique, giving the demigods and postnatal races the hope of being on par with or even surpassing the ancient gods

"At first, I only noticed him and was very tolerant of everything he did. He was just a talented child. "Later, when Hao'er told me about his divine ascension technique, I felt a deep sense of fear."

Heavenly venerate Xiao sighed, "No matter how he spreads his god Ascension spell, he will accumulate a great force, a righteous great force. "Heavenly venerate Yue, heavenly venerate mu, you guys aren't heavenly emperors, so it's hard for you to understand this great force. "You guys have seen dynasties fighting for hegemony and dynasties changing, but have you ever seen a person's great force accumulate to the extreme, and the world will return to one heart? "The path that heavenly venerate Yu walked is this kind of path!"

Qin Mu and heavenly venerate Yue were slightly stunned. Apothecary, who was treating heavenly venerate Yue's final injuries, was also listening attentively.

Heavenly venerate Xiao said, "During the Jade Lake Feast, he already had all the conditions for this path. Reputation, reputation, supporters, and the future, he had them all. The only thing he lacked was ability! Think about it, after hundreds of thousands of years, the demigods and postnatal beings would grow stronger. With hundreds of existences on Emperor's throne realm, who would they support as their leader? "Celestial Master Royal, only Celestial Master Royal! "This is the great force he has accumulated, the great force that is fair and just!"

Qin Mu and celestial master Yue thought about it carefully. If Celestial Master Royal didn't die at that time, the demigods and humans would be at peace, and everyone would respect him as their leader. The Scene Celestial Master Xiao had mentioned would indeed appear hundreds of thousands of years later.

It would be an incomparably prosperous era, and all the ancient gods would become supporting characters!

"At that time, heavenly venerate royal didn't even need to make a move. He only needed to point at the throne of Heaven Court and say, 'I want to sit on that throne!'"

Heavenly venerate Xiao was expressionless, "I have to stand up and let him sit on it!" He said indifferently! If I didn't stand up and give way to him, there would be countless demigods and postnatal divine saints rushing up to kill me without him making a move! The Future I saw is like this! Hence..."

Qin Mu said, "Hence, heavenly grandmaster royal must die."

Heavenly Grandmaster Xiao nodded. "Heavenly Grandmaster Royal Must Die."

This was a righteous path of seizing power. It was the way of the king and the way of the Emperor. There was no need for any schemes or schemes, no need to seize power.

As long as Heavenly Grandmaster Royal was given time, he would naturally stand at the peak of power. Anyone who stood in his way would be easily destroyed and buried!

The general trend is irresistible!

Chapter 1337:

Heavenly venerate Xiao was an existence with great wisdom. He could see the future hundreds of thousands of years later in heavenly venerate Royal's body. He saw the rise of postnatal races and demigods that couldn't be stopped, and he also saw the decline of ancient gods.

He couldn't stop this trend, but for the sake of his ruling position, for the sake of the ancient gods' ruling position, he had to kill heavenly venerate royal.

As long as he didn't have Celestial Master Yu, he could still become the ruler of the world!

Qin Mu thought about it, and when he looked at all the methods of celestial masters, including existences like Heavenly Duke, Earth count, and Earth Mother Primordial Lord, they were all inferior to Celestial Master Yu.

Even the path of unity, vertical, and horizontal that Qin Mu was walking now was far inferior to Celestial Master Yu.

The path of unity, vertical, and horizontal had more schemes and plots, and more people's scheming. It wasn't as magnanimous as Celestial Master Yu.

The road that Celestial Emperor walked was the path of kings and the path of emperors. It was a pity that the ancient god Heavenly Emperor had realized his strength at the first moment and killed him.

He had been defeated because he was too outstanding, but his abilities hadn't caught up.

Heavenly Emperor absolute beginning had a huge stomach and could tolerate countless people. He could even tolerate the heavenly duke, Earth Count Emperor, and Yuanmu. He could also tolerate Qin Mu, who had repeatedly tripped him.

However, as long as it threatened his power, he couldn't tolerate it.

If it threatened his power, he would eradicate anyone, even his son!

"The dao injuries left behind by divine Emperor Lang Xuan have also healed!" Apothecary suddenly said in joy.

Heavenly venerate Yue's spirit was greatly roused, and she executed her technique with all her strength. She instantly felt that the circulation of her technique was smooth and unimpeded, and she had the confidence to take a gamble!

Heavenly venerable Xiao looked at her and shook her head. "You can no longer escape. Even if you are standing in heavenly venerable MU's domain, you can not escape from my control."

Heavenly venerable Yue took a deep breath. Her sleeves gradually fluttered as ribbons slowly moved in the air. Along with the ribbons, there were streaks of brilliant divine light.

Heavenly venerable Xiao raised her brows. The Divine artifact behind her, heavenly venerable royal, held onto the origin wood and lightly spun it. Immediately, the myriad worlds in the Yuan world shifted along with the movement of the Origin Wood's branches, leaves, and crown!

Even Earth Mother Primordial Lord hadn't been able to achieve such a formidable power back then, but heavenly venerable Xiao could!

The shift of all the heavens and ten thousand worlds in the origin world caused space to change. Heavenly venerable Xiao's goal was to disrupt space and make heavenly venerable Yue unable to escape!

Qin Mu spread his fingers and spread his palms out. Heavenly venerable Yue danced in his palms. Her posture was graceful and graceful, and space strings appeared one after another. These space strings were plucked by the moving all the heavens and ten thousand worlds, they gave off a chaotic zither sound.

Heavenly venerable Yue's body danced on the space strings, but no matter how she jumped, she couldn't jump out of the Ten Thousand Worlds in the heavens. She couldn't leave the origin world, and she couldn't even leave the Peach Forest!

She could feel the space she could move in getting smaller and smaller, to the point where she was only the distance of Qin Mu's palm!

Clang! Clang! Clang!

The strings of space trembled violently, and countless attacks suddenly struck heavenly venerable Xiao and divine weapon heavenly venerable royal from all directions. Heavenly venerable Xiao's body remained unmoving, and divine weapon heavenly venerable royal let out a low shout. Suddenly, his body swayed, and three heads and six arms appeared, his fists struck out in all directions, shattering heavenly venerable Yue's attacks!

He took a step forward and punched out with a majestic aura. It shattered Qin Mu's divine treasure domain and went straight for heavenly venerate Yue in the center of Qin Mu's primordial spirit palm!

His punch wasn't aimed at Qin Mu, but at heavenly venerate Yue. However, the surging and majestic power acted on the domain of Qin Mu's divine treasure, causing it to float and shatter!

In the domain, the stars were destroyed, Xuan du disintegrated, and Youdu didn't exist. Even the ancestral court had fallen into Earth, water, wind, and fire, about to be annihilated!

The divine weapon heavenly venerate imperial was too powerful. He had used origin wood to trap heavenly venerate Yue and used his unparalleled corporeal body to slaughter his way into Qin Mu's divine treasure domain. This kind of tyrannical attack made people despair!

At that moment, Qin Mu's body swayed, and a door stood up behind him. Sky bearing was connected to the Earth, and behind the door was Youdu!

Heavenly venerate Xiao raised his eyebrows, and a smile appeared on the corner of his mouth.

The door of sky bearing opened, and in the darkness behind the door, paper boats with lanterns hanging on them gathered. The number of paper boats increased, and all of a sudden, they merged into a small boat that sailed over from Youdu, it passed through the gate to heaven-bearing!

A skinny old man on the small boat raised his head, and his bony hand stretched out to meet the palm of the divine weapon, Celestial Master Royal!

Boom —

A terrifying throbbing erupted, and layers of heavenly palaces suddenly appeared behind the divine weapon, forming a magnificent heavenly court. The power of this divine weapon soared, and it actually pushed the skinny old man into the gate to heaven-bearing.

"Heavenly Lord You, although you are also a heavenly lord, you are no longer in the center of power in the Heavenly Court. You have too little contact with all sorts of divine arts and Mantras!"

Heavenly Lord Xiao remained standing there, not moving at all. He smiled and said, "You are outdated."

That Old Man was Heavenly Lord You. Just as he was about to fall back to Youdu, an incomparably huge palm reached out from behind him and lifted up heavenly lord you.

Behind that palm was a pair of huge eyes that were burning like Youdu's devil fire. A third eye then appeared and looked at the origin world through Youdu.

After that palm lifted heavenly venerate you up, it transformed into a fist that blasted through the gate of Heaven influence to meet the divine weapon heavenly venerate royal head on.

At the same time, heavenly venerate Yue flew out from Qin Mu's palm. Light strings spread out in all directions and wrapped around the crown of the origin tree. His divine arts completely erupted!

Heavenly venerate Xiao raised his eyebrows and smiled. His long body rose, and he landed on the shoulder of divine weapon heavenly venerate royal, who was staggering backward.

He gave a low shout, and a heavenly palace leaped out from the back of his head and filled it into heavenly venerate royal's heavenly palace.

There were thirty-five heavenly palaces in the heavenly palace behind Heavenly Venerate Royal's head, and when his heavenly palace was filled in, it instantly formed a perfect great heavenly palace with thirty-six heavenly palaces!

He was not able to cultivate to the heavenly court level, and he was still lacking a heavenly palace. Therefore, he could only borrow divine weapon heavenly Lord Royal's body and use his own innate heavenly palace to make up for his lack, barely reaching the heavenly court level.

By doing so, his strength would instantly reach the same level as when he was at his peak, but there was also a huge hidden danger — his physical body could not withstand it!

However, it wasn't his corporeal body that was executing the Great Heavenly Court, but divine weapon heavenly venerate royal!

This heavenly palace filled up the entire heavenly court, and in an instant, divine light burst forth. Ten thousand rays of light cried out in unison, and the light was extremely dazzling!

Apothecary felt pain in both of his eyes, and both of them instantly went blind. Panic filled his heart, and he suddenly felt himself being swept up by someone. He couldn't help flying out.

“My Eyes...”apothecary was flustered. When he sensed Qin Mu’s aura, he knew that Qin Mu had saved him at the first moment.

However, his eyes were already blind, and he couldn’t see anything outside. He could only feel that he was constantly bumping.

He had also cultivated black technique of creation, but apothecary’s black technique of creation wasn’t very brilliant. Usually, when he used black technique of creation to speed up the ripening of spirit herbs, he would at most use black technique to repair his face perfectly.

He had not tried to repair his own eyes yet.

He activated the black art and gradually felt that his eyes had regained a little of their vision. He could vaguely see that the bones of earth count’s huge palm, which had reached out from Youdu, were broken. One by one, incomparably thick fingers left his palm and flew into the air.

He also saw the branches of the origin wood flying around under heavenly venerate Moon’s attack. The branches and leaves were fluttering.

Apothecary moved his eyes with great difficulty and saw heavenly venerate you standing on the shoulder of divine weapon heavenly venerate royal, fighting with heavenly venerate Xiao and retreating step by step.

His heart went cold. Heavenly venerate Xiao’s great heavenly court system had already been formed and was actually so powerful.

At that moment, he could focus his gaze on Qin Mu who was blocking in front of him. He dug out the vertical eye in the heart of his brows.

“Mu’er, what are you doing?”Apothecary asked, but he couldn’t hear his voice.

He only saw Qin Mu execute the vertical eye and sacrifice it in mid-air. The vertical eye instantly enlarged and the eyeball turned over, revealing half a huge eggshell.

Qin Mu held heavenly venerate Ling's hairpin and executed the divine art of not easy, placing the hairpin on the back of the eggshell!

Heavenly venerate Xiao had already suppressed heavenly venerate you, and his divine weapon heavenly venerate royal was actually about to charge into Youdu. At that moment, the eggshell behind Qin Mu's eye shone brightly!

The eggshell of primordial chaos floated up, and countless primordial runes shot out from Qin Mu's vertical eye. With a weng sound, they imprinted themselves all over the ten thousand Miles Peach Forest. Countless runes rotated, and with a whoosh, they entered Qin Mu's vertical eye.

The divine weapon heavenly venerate royal fell to the ground, and the divine consciousness magic power in heavenly venerate Royal's body whizzed out and was pulled into the eyeball!

Heavenly venerate Xiao couldn't help flying up, and he couldn't help flying toward the vertical eye!

"Absolute beginning, if you anger me, I'll beat you back to the state you were before you were born!" Qin Mu shouted out.

Chapter 1338:

An inexplicable fear rose in heavenly venerate Xiao's heart. Qin Mu's sudden attack was something he had never expected.

He had wanted to take this opportunity to subdue heavenly venerate Yue and defeat heavenly venerate you so that Earth count would know the difficulty and retreat. He didn't dare to have any other thoughts. With his current abilities, he could do it!

If he could subdue heavenly venerate Yue, defeat heavenly venerate you, and make these two great heavenly venerates submit to him, he wouldn't need to hide his identity among the ten heavenly venerates.

With his strength, making heavenly venerate fire submit to him and his illegitimate son Lang Xuan submit to him would not be a problem.

In addition to the ancient God lineage, the heavenly Duke and Earth count did not dare to compete with him. Black Tortoise, Azure Dragon, and white tiger were easily subdued. Who else would dare to oppose him?

The Supreme Emperor would only continue to hide, or else he would die if he came out.

Heavenly venerate Hao could only obediently be a son. The ancestor god King only dared to scold his father and did not dare to be impudent. He used him as a blade to restrict the heavenly duke and heavenly venerate void to restrict the earth count.

Founding Emperor Qin ye could only obediently hide in carefree village and didn't dare to show his face.

As for the Empress and Prime Minister, they could only obediently be his women and didn't dare to have any second thoughts!

The situation was great. As long as he subdued these two heavenly venerates, he would be able to return to the throne!

However, Qin Mu's strike made him feel fear. When he executed it, he felt his primordial spirit palpitating and the Great Dao humming. He couldn't help wanting to return to the eggshell.

The substances in his body were also changing, making it almost impossible for him to suppress them.

His corporeal body didn't belong to his original self and was only a reincarnation. However, his primordial spirit was one with his corporeal body. His primordial spirit and Great Dao were imprinted into Qin Mu's eye, and he flew toward it as well.

More importantly, Qin Mu had pulled back his magic power and divine consciousness from divine weapon heavenly venerate royal in one go, causing him to lose control!

Celestial Master Imperial was his most powerful weapon at the moment, and it was even stronger than his corporeal body. Losing this divine weapon immediately put him in a passive position.

"Mu'er, well done!" Apothecary was overjoyed.

Bang

Qin Mu's head suddenly exploded, and everything above his neck flew away. Blood splattered all over apothecary's face, and he was stunned.

Along with Qin Mu's head was the vertical eye, including the spirit embryo divine treasure hidden in the heart of Qin Mu's brows.

Spirit embryo divine treasure was located in the heart of the brows of divine arts practitioners and gods. Celestial Venerable Xiao Poked Qin Mu's vertical eye and head with his finger. The power of his strike was too strong, and even Qin Mu's spirit embryo divine treasure couldn't withstand it, so it exploded as well!

The instant the vertical eye and spirit embryo divine treasure exploded, countless treasures flew in the sky. There were Tai Su Divine Stones, Tai Chi Divine Stones, Tai Shi Divine Stones, and Tai Shi primordial stones!

There were also mountains of ancestral court divine gold ore, a big bow, half of an absolute beginning eggshell, two Tai Yi eggshells, and chaotic qi.

Another round and round egg of absolute incipient divine stone flew out.

Apart from that, there were the tai chi raw stone from the Divine Eye, the Shattered Qin continent, and Madam Yuan Mu's crystal coffin. When the crystal coffin was broken, Madam Yuan Mu's corpse also flew out.

Madam Yuan Mu's corpse had already given birth to a corpse demon, and it had been suppressed by Wei Suifeng's seal all this while. Now that it was free, it ran out in joy.

As for the other treasures, there were countless of them, dazzling everyone's eyes.

Heavenly venerate Xiao pointed at Qin Mu's head and vertical eye, and only then did he let out a sigh of relief. He withdrew his magic power and divine consciousness and stretched out his hand to grab his eggshell, 'no matter what, I must get my eggshell... heavenly venerate Mu's other treasures aren't bad either. This brat has plundered so many treasures! And that fellow Daoist in the divine egg is also with him...'

His divine consciousness and magic power surged toward heavenly venerate royal, the divine weapon that had collapsed behind him, while his palm enveloped all the treasures that had exploded in Qin Mu's head.

Just as he was about to succeed, the world suddenly spun. All of Qin Mu's treasures were moved by heavenly venerate moon and hidden in the depths of the space. For a moment, heavenly venerate Xiao couldn't find where they were hidden.

His divine consciousness and magic power were about to rush into heavenly venerate Royal's body when heavenly venerate you, who was originally standing on his shoulder, immediately pasted a yellow paper on the back of his heart.

Celestial Master you gave a light shout, and the yellow watch paper split into two, two into four, and four into eight. In an instant, the divine weapon celestial master royal was pasted all over, and his entire body was covered in yellow watch paper.

Celestial Master Xiao's divine consciousness and magic power were unable to drill into it, and his heart jumped. He immediately knew that he had been plotted against by Qin Mu, and he had completely lost the upper hand.

Whoosh

Earth count's severed hands came smacking over, and the severed fingers that had been flying in the sky rolled back to his palm.

Heavenly venerate Xiao's face was gloomy, and he let out a long howl as he raised his hand to meet Earth Count's hand.

Heavenly palaces appeared behind his head, and they linked together to form a huge heavenly court!

There were thirty-five heavenly palaces in this heavenly court, and the Heavenly Court that was formed by thirty-five heavenly palaces allowed his magic power to soar. Even though it wasn't as strong as divine weapon heavenly venerate royal, it was still no small matter, it was definitely not inferior to the strength that heavenly Lord Haotian had displayed during the battle with the Supreme Emperor!

However, the moment he collided with the palm of the Earth count, he still felt an invincible power coming from it, forcing him to take two steps forward.

He took advantage of the momentum and rushed toward the origin wood. As long as he had the origin wood in his hand, it was equivalent to him using the Earth Mother Yuanjun at his peak as a divine weapon.

The reason why the Earth Mother Yuanjun was unable to display his own strength was not clear to even the Earth Mother Yuanjun himself, but Heavenly Lord Xiao knew it very well.

The Earth Mother Yuanjun was a huge tree that was born in the ancestral court. The Heaven and earth spirit root was watered by the creators with the primordial chaos primordial liquid from the ancient jade pool. It absorbed the Heaven and earth spirit energy from the ancestral court, giving birth to life and becoming the Earth Mother.

She was blessed by the heavens and was a god born from the most powerful heaven and earth.

However, it was also because the origin wood was too tall and huge that the creators in the ancient times had the custom of worshipping the origin wood. Hence, they worshipped this origin wood and gathered the worshipping power of millions of creators into the Earth Mother's body.

Therefore, although the Earth Mother was born from heaven and earth, it had also absorbed the worshipping power of the creator and became impure. This was the biggest reason that restricted the earth mother itself.

The Heavenly Emperor was also restricted like this in the past. Although this worshipping power could allow the recipient to grow quickly and obtain great power, it would also cause the recipient's Great Dao to be impure and even affect their consciousness, it would affect their own judgment.

For example, heavenly emperor absolute beginning was wise and divine back then. After he received the sacrificial power, he slaughtered his own race.

However, heavenly emperor absolute beginning, who was an ancient god that gave birth to eggs, also received the sacrificial power from the absolute beginning divine stone and the absolute beginning raw stone from the absolute beginning mineral vein. If the origin wood fell into his hands, he would be able to unleash the power of the origin wood to the extreme, it was even more tyrannical than the earth mother's own strength!

If the Earth Mother's strength was fully unleashed, she would definitely not be weaker than an existence like the Duke of Heaven and earth count!

Just as his palm was about to grab the origin wood, earth count and heavenly venerate you's attacks followed closely behind. In the shadow under heavenly venerate Xiao's feet, heavenly venerate you was like a mirror of him, walking with him.

When the two of them took their first step at the same time, heavenly venerate Xiao's palm had already touched the body of the origin tree. However, in the next moment, he discovered that his primordial spirit had fallen into Youdu, coming to the side of heavenly venerate you.

Heavenly venerate you held a lantern in his hand. The light from the lantern shone brightly, and a pillar of light smashed onto heavenly venerate Xiao's primordial spirit!

Boom!

An incomparably terrifying ripple spread out from Youdu. All the demon gods and Demon Kings in Youdu were abnormally frightened and fled in all directions. At the center of that terrifying ripple, heavenly venerate Xiao's primordial spirit roared and blocked heavenly venerate you's attack head-on, he forced himself out of Youdu and returned to his own body.

However, celestial master Yue's zither strings greeted him.

Celestial master Yue's zither strings had already wrapped around the tree body. The other end of each zither string was connected to celestial master Yue's ten fingers. The first zither string was plucked. Before Celestial Master Xiao could react, this zither string had already brushed past his throat.

He did not feel any pain.

Chapter 1339:

The first zither string flew out from the back of his neck, followed by the second, third, and fourth!

Ten zither strings consecutively sliced through celestial master Xiao's throat, forehead, lower neck, eyes, chest, waist, vital gate, hip bone, knee joint, and ankle joint!

Celestial Master Xiao's skull flew up, and the rest of his body was blasted apart by the violent qi and blood before forcefully closing back together.

In the gate of heaven-bearing, Earth Count's palm slammed down fiercely, shattering his flesh into a paste!

Heavenly venerate Yue heaved a sigh of relief, and earth count in Youdu also heaved a sigh of relief. Heavenly venerate you came to the tree from Youdu, and upon seeing this, he also heaved a sigh of relief.

At this moment, heavenly venerable Xiao's flesh and blood squirmed and regenerated. He reached out his hand and grabbed the origin wood, lifting it up. At this moment, an incomparably terrifying power erupted from the origin wood, causing the heavens to tremble and the myriad worlds to roar!

There were more than ten thousand worlds in the Yuan world. No matter how dull the living beings in these worlds were, they could sense that this night (sky) was unusual.

The heavens they were in were moving rapidly. The stars were in chaos, the earth trembled, volcanoes spewed, hurricanes howled, the seas churned, and tsunamis were incessant!

What they did not know was that this was the shocking destruction caused by a celestial master using great mana to manipulate the origin wood. The movement of the origin wood caused the heavens to be in chaos!

Whoosh —

The attack of the origin wood sent Celestial Master You Flying. He was in mid-air, vomiting blood non-stop!

Celestial Master Xiao succeeded in his attack and used the origin wood as a sword to stab at Celestial Master Yue.

Celestial Master Yue retreated rapidly. Her body leaped through space after space. In an instant, she passed through layers of heavens to avoid the attack of the origin wood. However, what shocked her was that the space of the myriad worlds in the heavens was in chaos, no matter how many worlds she passed through, the crown of the origin wood was still in front of her.

Shua Shua Shua —

The countless branches of the origin wood were like swords that expanded crazily as they stabbed at her. Heavenly venerable Yue executed her space divine art, and it was like a hurried zither melody that collided with the crown of the origin wood!

However, the sword skill that heavenly venerable Xiao used came from eternal peace. It was a sword skill that had been modified by Eternal Peace Imperial preceptor and Qin Mu. From sword fourteen to sword nineteen, there was everything!

Even if heavenly venerate Yue was proficient in the path of space, it would still be difficult for her to block such a swift and changeable sword skill.

Boom!

Her body crashed through the heavens and flew past them. Behind her were millions of green sword lights that were like dancing flood dragons in the sky, their length could stretch across the heavens and was incomparably astonishing!

Heavenly venerate Yue turned her head. With a chi sound, an origin wood branch pierced through her cheek, leaving a wound.

Seeing that she could not withstand it, the earth count's attack came behind heavenly venerate Xiao. The huge hand turned into a fist and was about to smash heavenly venerate Xiao into pieces again!

Heavenly venerate Xiao pulled back the origin wood. The roots of the origin wood gathered together like an enormous black hammer and met the Earth Count's fist with a hammer.

The power of the two exploded. Earth count, who was in the distant Youdu, frowned. His huge fist floated and turned into pieces of land that cracked open.

"Old brother, if you don't descend with your true body, you're no match for Earth Mother and me! Fighting with you across the boundary is boring. Why don't we have a real fight!"

Heavenly venerate Xiao roared. The roots of the origin wood became a hammer that pierced through the gate of sky bearing and smashed fiercely at Earth count.

The third eye between Earth Count's brows opened, and he was truly enraged. The countless continents formed by his right hand flew back and formed a palm. He stretched out his hand and grabbed, and the Styx that had disappeared for a long time reappeared.

Earth count shook the Styx Whip, and just as he was about to fight with him, another divine weapon, heavenly venerate royal, who was floating in Youdu, suddenly opened his eyes and looked at him.

Earth count was shocked. "My daughter noticed this!"

He was on guard against Heavenly Master Royal's divine weapon, Heavenly Master Xu. The origin wood sledgehammer had already smashed down fiercely.

Just as Heavenly Master Xiao was about to succeed, heavenly master Yue suddenly appeared in the sky above Heavenly Master Xiao. On his head and feet, he was like a rapidly falling fairy. His clothes fluttered in the wind, and he waved his ten fingers. Clang, Clang, Clang. Light strings interweaved into a net in all directions, this place was completely sealed.

More light strings interweaved and interweaved, forming countless spatial sections that looked like a maze.

"Heavenly venerate Xiao, I banish you today!"

Heavenly venerate Yue's palm landed on the first string. The first sound of the zither was heard. Suddenly, all the light strings vibrated at the same time, and the five notes and twelve tones exploded at the same time!

Countless spatial sections were in chaos. The violent spatial turbulence swept up heavenly venerate Xiao along with the origin wood with a whoosh and sent them into the depths of the space!

Swoosh! Swoosh! Swoosh! Thick roots shot out from the chaotic space and took root on the land of the Yuan world. The zither music in the chaotic space was chaotic, but it could not completely push the origin wood into the chaotic space.

Celestial Master Xiao stood on the origin wood and ran along the roots. Just as he was about to jump out of the chaotic space, Celestial Master You suddenly appeared in front of the chaotic space entrance with a lantern in his hand. The lantern shone on Celestial Master Xiao.

The terrifying power hit Celestial Master Xiao's primordial spirit and forced it out of his body!

Celestial Master Xiao roared and forcefully pulled his primordial spirit back.

Celestial Master you clenched his teeth and urged the lantern with all his might. The light became brighter and brighter, but Celestial Master Xiao's primordial spirit forcibly withstood the impact of the lantern and approached his body step by step.

On the roots, Celestial Master Xiao's body also took a step forward, following the thick roots step by step.

Celestial Master Yue landed in front of the entrance of the Space Cave. His skirt spread out in all directions, and he sat on the ground. The ruins of the palace flew over and shrunk into a guqin.

Celestial Master Yue played in front of the cave, and countless attacks rained on celestial master Xiao's body and Yuan Shen.

Celestial Master Xiao Shrieked and suddenly appeared with three heads and six arms. His Yuan Shen also appeared with three heads and six arms. His body and Yuan Shen were broken and gathered together, one piece after another. Both Celestial Master Yue and Celestial Master you were shocked!

'even if the red emperor and the bright emperor combined, they might not be able to do this!'the two of them thought to themselves at the same time.

Heavenly venerate Xiao blocked the attacks of the two heavenly venerates and walked out step by step.

"Where's Earth Count?"Heavenly venerate Yue asked loudly.

Heavenly venerate you gritted his teeth. "He's blocked by heavenly venerate void!"

Heavenly venerate Yue's heart sank. Earth count couldn't descend with his true body, so he couldn't help them. With just the two of them, they might not be able to banish heavenly venerate Xiao. He might even kill his way out of the chaotic space and heavily injure them!

"Mu'er, don't go!"

Apothecary's voice sounded out, and heavenly venerate Yue and heavenly venerate you were astonished. Suddenly, they saw the Headless Qin Mu flying over, and the peach wood hairpin in his hand pointed at heavenly venerate Xiao who was about to rush out of the chaotic space.

Heavenly venerate Xiao was astonished, and he quickly retreated. The roots of the origin wood were quickly retrieved from the land of origin world.

He was sent into the chaotic space along with his primordial spirit and origin wood, and his whereabouts were unknown.

Heavenly venerate Yue let out a sigh of relief and stood up to put the ancient zither to one side. With a wave of his sleeve, the hole in the chaotic space instantly disappeared, and the space returned to its original state.

Qin Mu still pointed at the hole in the chaotic space with an awe-inspiring air, but there was no head on his neck.

Apothecary hurriedly flew over to check Qin Mu's neck and grumbled, "Your neck is filled with dao injuries left behind by heavenly venerate Xiao, and you're still running around!"

"I'm Fine!"

Qin Mu stiffened his neck and a voice came from his chest. "Yue'er, where's my eggshell? Give me the eggshell and I'll send heavenly venerate Xiao back into the egg!"

"Heavenly venerate Xiao has already been banished by heavenly venerate Yue."

Apothecary said helplessly, "Furthermore, don't talk to the air. I'm here and heavenly venerate Yue is behind you. This injury of yours is a little difficult to treat..."

Chapter 1340:

Heavenly venerate Yue went forward to check on Qin Mu's injuries, only to see that his head had disappeared and only his neck was left. Furthermore, there were dao markings left behind by heavenly venerate Xiao's strike on the wound, continuously destroying his bodily functions. His injuries were extremely serious!

His primordial spirit had even lost his head, and just like him, his neck was also covered with Dao injuries!

Apothecary was swiftly suppressing Qin Mu's dao injuries. The current Qin Mu was only strong on the outside but weak on the inside. With heavenly venerate Xiao's dao injuries, he couldn't even use heavenly venerate Xiao's divine art.

Forcing heavenly venerate Xiao back just now was just a bluff.

Even if he could use heavenly venerate Xiao's divine art, his dao injuries would still be there, and his head would still explode.

He had to get rid of his dao injury before he could execute the divine art of not easy to recover his spirit embryo divine treasure or use the profound skill of creation to grow his head.

"Divine Medicine King, is heavenly venerate Mu's injury dangerous?" Heavenly venerate Yue asked in a low voice.

"He won't die."

Apothecary examined the wound on his neck carefully and said with some difficulty, "It's just that I don't understand the DAO markings left behind in heavenly venerate Xiao's dao injury, so I Need Heavenly Venerate to guide me."

Heavenly venerate you went forward and shone the lantern on Qin Mu's neck. He saw that Qin Mu's throat was still breathing, so he relaxed. "I won't die. Heavenly venerate Yue, where did you banish heavenly venerate Xiao to?"

Heavenly venerate Yue analyzed the dao markings in Qin Mu's dao wound in detail, "Back then, my cultivation had some achievements and I wanted to test the art of space, so I ran around everywhere. I even liked to use space divine arts to test everywhere. "One time, I accidentally opened up a space, and I found a maze-like place. "I was trapped there for a hundred years, and finally escaped unintentionally. "I called it the chaotic space. "I sent Celestial Master Xiao there."

She was a little embarrassed, he said, "Although I used space to establish my dao, the strangeness of that place was beyond my expectations. It was hard for me to escape for a while. "Heavenly venerate Xiao's current strength surpasses mine by an unknown number of times. He also has the corporeal body of Earth Mother Primordial Lord, so it's much easier for him to use the roots and branches of earth mother to break through the maze. "However, if he wanted to leave from there, he would need one to two decades."

"There's such a place?" Qin Mu exclaimed in astonishment.

“The universe is magnificent and strange, so there are many secrets that no one knows about. There are many strange ruins in that place, and when I came to that chaotic space back then, I was also very puzzled.”

She couldn't help being angry. “Heavenly venerate mu, you're already like this now, yet you're still curious about such a dangerous place. Don't you know death?”

Qin Mu raised his hand to touch his head, but heavenly venerate Yue slapped it. “You forgot that you have no head now!”

Qin Mu placed his hands on his waist, and heavenly venerate Yue was fuming with anger. When she saw the situation, she couldn't help laughing out loud.

Heavenly venerate you gave her a glance and coughed. “Yue, we'd better hurry up and tidy up the dao patterns in his dao injuries. The longer we drag this out, the more dangerous it will be for him.”

Heavenly venerate Yue hurriedly steadied her mind and said solemnly, “You can't blame me for this. You have to blame heavenly venerate mu. He always makes me laugh.”

Heavenly venerate you put on the ghost face mask at the back of her head and rolled her eyes before pushing the ghost face mask to the back of her head.

The two heavenly venerates had profound eyesight after all, so they quickly sorted out the dao markings of the dao injuries heavenly venerate Xiao had left behind. However, they only knew a little about the Great Dao runes contained in them.

The two of them talked in detail with Qin Mu, and he analyzed the DAO markings bit by bit. Suddenly, his voice sounded very unhappy. “Heavenly venerate Xiao has also learned microscopic algebra!”

Heavenly venerate Yue and heavenly venerate you didn't know the meaning of his words, so they didn't take it to heart.

Qin Mu fell silent. Heavenly venerate Xiao had learned microscopic algebra and reconstructed his Great Dao runes, which made his cultivation so powerful that he could even fight against Earth count, Moon, and heavenly venerate you alone.

All of this was the effect of eternal peace reform!

'heavenly venerate Xiao being able to grasp microscopic algebra in such a short time means that he has been staying in eternal peace and has been wholeheartedly studying the results of eternal peace reform. However, he couldn't stay in eternal peace forever because he still had to stay in heavenly court. He even had to make a trip to ancestral court or great void from time to time.'

Qin Mu pondered over it for a moment and came to a conclusion. 'when I summoned his soul, his soul wasn't absorbed into heavenly venerate Xiao's body. Instead, his soul reincarnated and became another person, sneaking into eternal peace to secretly learn the reform.'

Heavenly venerate Xiao Learning Eternal Peace's reform wasn't out of his expectations. In fact, Qin Mu couldn't wait for ten heavenly venerates to learn the results of eternal peace's reform.

As long as eternal peace's reform was useful, ten heavenly venerates wouldn't descend calamity to destroy eternal peace until it was a threat to them.

However, what made Qin Mu wary was that heavenly venerate Xiao had always had an identity in eternal peace. Furthermore, over the past ten years, this identity of his had probably climbed to the middle or upper echelons of eternal peace!

In time, he would be like a parasite, controlling the power of eternal peace. He might even take over the magpie's Nest!

'He wants to stealthily steal the results of Eternal Peace's reform, just like how the demigods stole the power of the ancient gods in the past, just like how ten heavenly venerates stole the power of the heavenly emperor. No matter how the world changes, the power of the rulers of the past will never fall to the side!'

Qin Mu thought to himself, 'If the power of eternal peace doesn't belong to the people of eternal peace but falls into the hands of parasites like heavenly venerate Xiao, eternal peace reform will fail. 'If that's the case, eternal peace will just be another dragon and Han Revolution...'

Apothecary coughed and reminded him, "Mu'er, continue to analyze the DAO markings."

Qin Mu composed himself and continued to listen to heavenly venerate Yue and heavenly venerate you explain the form of each rune while he analyzed the profoundness of these great dao runes.

After a long while, the three of them worked together to analyze the dao injuries left behind by heavenly venerate Xiao. This time, the dao injuries left behind by heavenly venerate Xiao weren't that serious. In his haste, he exploded Qin Mu's head and didn't have the time to use his full strength.

Apothecary had already made his calculations and immediately prepared the medicine.

He refined spirit pills and immediately healed Qin Mu's injuries. Qin Mu's dao injuries were slowly disappearing.

After a long while, Qin Mu only felt an itch on his wound. He immediately executed overlord body three elixir technique and his neck grew. Soon, a head grew out and the vertical eye in the heart of his brows appeared once again. However, this time, there was no land of Qin in the vertical eye, there was no primordial eggshell, Tai Ji raw stone, and the like.

Heavenly Venerate Moon had sent back the treasures that he had dropped. Everything was there, except for the land of Qin that heavenly venerate Xiao had shattered and the corpse of Madam Yuan Mu.

At that time, the situation was urgent. Heavenly venerate moon had only thrown the treasures that Qin Mu had dropped into another dimension and hadn't sealed them. However, a corpse demon had been born from Madam Yuan Mu's corpse, and the corpse demon had seen the advantage, it had planned to sweep Qin Mu's treasures away and escape, but it had been scared off by the egg of supreme beginning.

Qin Mu didn't see the Qin continent in his vertical eye, so he could only place the treasures in his divine treasures and throw them into the ancestral hall.

The egg of supreme beginning came to the sacrificial altar of the supreme beginning mine in his ancestral court and settled down peacefully.

Qin Mu stood up and pondered for a moment, he then asked solemnly, "Heavenly venerate you, can you find a person who was born nineteen years ago in eternal peace? There should be the word 'Xiao' in his name, and his cultivation realm should have reached the realm of venerate god or even higher!"

Heavenly Venerate You's heart stirred slightly, and he took out the book of life and death. "I can look for him."

Not long later, heavenly venerate you said, "I found two gods of eternal peace. One is called Xiao Tianji, and the other is called Xiao Chujue."

Qin Mu looked at the two eternal peace gods in the Book of life and death and sniffed their souls. He then took out the divine bow of the strong practitioners of the prehistoric era and pulled it open with all his might, pointing the arrow to the east!

In the east, the sun rose and the sky became bright.
