

Tales of Herding Gods Chapter 1361-1365

Chapter 1361:

'The leaf of the Dao Tree?'

Qin Mu's gaze flickered, and he sighed in his heart. It was a pity that he had almost caught the leaf.

Great Change's Dao tree must be extremely powerful, and the leaf on it must also have unimaginable abilities. If he could obtain one, he would definitely be able to refine it into the most mysterious treasure.

'but why does that leaf look familiar?'

Qin Mu muttered to himself. He had seen such a leaf in Supreme Emperor's divine consciousness great overarching heaven, but it wasn't just Supreme Emperor's divine consciousness great overarching heaven. He had also seen such a leaf in the small metal bucket that great change often carried!

When great change was lazy, he would pass the branch to them and let them use the branch to scatter the water in the bucket onto the CRACKED BLACK MOUNTAIN to repair it. The leaf on that tree branch was exactly the same as the one Yan 'er was holding!

'in other words, we often sprinkle water on the branches and leaves of the Dao Tree?'

The vertical eye in the heart of Qin Mu's brows opened up again with a grunt, and he felt regretful in his heart. 'If I had known earlier, I would have secretly plucked two leaves... if the branches and leaves came from the Dao Tree of too easy, then what water is in his bucket?'

Why was this drop of water able to suppress the chaotic Qi in his eyes, allowing his vertical eye to see through the Constitution of the Great Dao in Heavenly Duke and Earth Count's primordial spirit?

He couldn't help becoming more and more curious about the water in the small iron bucket.

Heavenly Duke said, "Heavenly Venerable Mu, test the current vertical eye again and see its power."

Qin Mu's heart moved slightly, and he once again roused his vital qi and divine consciousness to execute the vertical eye in the heart of his brows.

However, the moment he executed it, he saw chaotic qi surging out from the depths of his pupils. Soon, his vertical eye became chaotic, and he couldn't see anything clearly!

He hurriedly stopped, and the chaotic qi automatically entered the depths of his pupils and disappeared.

This vertical eye actually didn't have any power!

However, when he looked at Heavenly Duke and Earth count, he could still see the structure of the Great Dao of their primordial spirits.

The vertical eye was too strange.

Heavenly Duke and Earth count were also puzzled. Earth count had seen the power of Qin Mu's vertical eye before. Qin Mu had once used it to seal heavenly venerate Xiao, and even his divine weapon, heavenly venerate steering, had been sealed by Qin Mu, only then did heavenly venerate Xiao's arrogance disappear.

Otherwise, in the Battle of the Peach Forest, not to mention banishing heavenly venerate Xiao, it was still unknown whether heavenly venerate Yue, heavenly venerate you, and earth count would be able to escape unscathed!

Logically speaking, the materials used to re-forged the vertical eye far surpassed the previous vertical eye. The horn of origin of Earth count was stronger than the Qin continent from before, and Heavenly Duke's Heavenly Dao crystal was something Qin Mu didn't have, furthermore, Heavenly Duke and Earth count had personally strengthened and refined Qin Mu with their Great Dao, so the might of the new vertical eye would only surpass the past. However, it was clear that the new vertical eye didn't have any might!

'the problem most likely lies in the egg shell of chaos.'

The two saints knew clearly that Qin Mu loved techniques and liked to pile up the best things. However, good things might not be really useful.

If Qin Mu had used the egg shell of heavenly emperor absolute beginning, the power of this eye would naturally be many times stronger than before. However, if he had used the egg shell that was too easy, he wouldn't have been able to activate the power of the vertical eye.

What they didn't know was that even though Qin Mu couldn't unleash the power of the vertical eye, he could see through their primordial spirits just by relying on the power of the vertical eye.

If it were any other paths, skills, and divine arts, even if heavenly venerate had executed them, Qin Mu would have seen through them with a single glance!

This was the terrifying power of the vertical eye!

"Heavenly venerate mu, we have already done what we promised you. Your Place is incomparably dangerous, so we shouldn't stay here for long. It's time for us to return."

Heavenly Duke and Earth count took their leave one after another. Qin Mu sent them out of the Hundred Thousand Black Mountains, and only then did the two saints leave.

They couldn't leave the hundred thousand Black Mountains directly. They had to leave the hundred thousand Black Mountains before they could return to their own worlds.

Before Earth count left., he said earnestly, "This black mountain is an ominous land, so it's not suitable for us to stay here. In the immemorial era, countless strange events had happened here. "Moreover, this place is also one of the few places where we can't directly descend or leave. "A gentleman doesn't stand under a dangerous wall, so heavenly venerate mu should think twice."

Qin Mu thanked him and sent off Earth count.

"How could I not know about the dangers of the Great Black Mountain?"

He said in a low voice, "However, the greater the dangers, the greater the opportunities. This is something I've known since I was young. The danger of the great black mountain might not be comparable to any other place, but the opportunity contained here is also something that no one can compare to!"

This was the reason why he had stayed even though he knew the danger of the Great Black Mountain!

Qin Mu gathered Wei Suifeng, Granny Si, Prince You Ming, Yu Chudu, and the others. The Dragon Qilin, Yan 'er, and blind mute were also invited by him, "Uncle Jun, lead first ancestor, Lan Yutian, Xu Shenghua, and the rest into the back of the ancestral court. It's incomparably dangerous there, so I'll execute the summoning divine art to see if I can summon them back."

"Can humans also be summoned?"

Yu Chudu was puzzled. "Summoning huge beasts is already unimaginable, so wouldn't summoning humans be even more shocking?"

Qin Mu smiled. "Junior nephew, the marvel of using it depends on one's heart. When you learn a divine art, you also have to know how to infer from one's actions. "There's not much difference between a human and a giant beast, they're both lives. "On the other hand, a summoning divine art is to establish a connection with the person being summoned. Through a strong divine consciousness, it will pull the person from another space to our current space."

Yu Chudu seemed to understand but didn't, nodding his head repeatedly.

Qin Mu said to Wei Suifeng, "Don't let your disciple teach Hua Xuanxiu. If you continue to teach her, she'll be useless."

Yu Chudu's face flushed red, and Wei Suifeng could also see that his disciple had a huge weakness in adapting to changes. He smiled and said, "Then let me teach her."

Qin Mu shook his head. "You are the same as your disciple."

Wei Suifeng's face flushed red as he said angrily, "If you are capable, teach her!"

Qin Mu, however, found it troublesome. He took a glance at Granny Si, and she understood, "I'm still teaching Little Wen Yuan and Prince Youming, but there's no harm in letting Xuan Xiu follow me. Prince Youming is too old and Little Wen Yuan is too young, so I just happen to have a companion."

Patriarch Wen Yuan's face flushed red as he muttered, "Call patriarch, don't call Little Wen Yuan... Mu'er..."

Qin Mu's expression sank. "Don't call Mu'er, call me old cult master!"

Patriarch Wen Yuan didn't know whether to laugh or cry and asked, "Old cult master, if you could summon uncle Jun and the rest back, why did you call us? Could it be that you think there will be danger when you summon them?"

Qin Mu praised in his heart, "As expected of young patriarch, your brain is really smart..."

His thoughts moved slightly and he executed his vital qi divine consciousness, shouting in a low voice, "Rise!"

His magic power revolved and he instantly visualized a huge sacrificial altar. The vital qi imprints on the sacrificial altar turned into all kinds of summoning runes!

The sacrificial altar quickly turned into a corporeal form and laid under everyone's feet.

Earth Mother Primordial Lord also knew how to summon Divine Arts, but when she executed this kind of divine art, she needed to control the roots and trees to turn them into sacrificial altars.

Qin Mu didn't need to do so and directly visualized a corporeal form with his powerful divine consciousness. It was incomparably simple and neat.

Qin Mu gave a loud shout, and an even bigger altar rose from the bottom of the huge altar. Everyone stood on the first altar and looked down. They saw that the second altar was two to three times bigger than the first one.

Suddenly, a third altar appeared from below, and it was much bigger than the second one.

Qin Mu visualized nine altars in succession, and when the nine altars were stacked together, they were as tall as mountains!

"The reason why I called all of you here is because there are countless huge beasts on the back of the ancestral court, and their abilities are unparalleled. There's also long Xiao, an existence that can fight with celestial venerables."

Qin Mu executed the nine sacrificial altars, and his summoning divine art instantly burst forth, "I'm afraid long Xiao will seize this opportunity and pull me to the back of the ancestral court! Everyone, your

divine consciousness is one with me, so I'll bring your divine consciousness through the back of the ancestral court!"

Chapter 1362:

When everyone on the sacrificial altar heard that, they released their divine consciousness and the power of their summoning divine arts burst forth. A dazzling light shot straight into the sky and disappeared from the ancestral court!

Everyone's divine consciousness was connected to Qin Mu's divine consciousness and came to another world along with the dazzling light.

On the back of the ancestral court.

In that world, everything was incomparably huge. The mountains were clear and the water was beautiful, and it was even more full of life than the front of the ancestral court.

The front of the ancestral court was still as desolate as a desert a few years ago. It was only when ten heavenly venerates had established their own territories in the ancestral court and the Void Beasts were controlled by the dragon qilin that the plants grew.

After Earth Mother Primordial Lord came to the ancestral court, her power allowed the plants to grow rapidly, and the ancestral court gradually became greener.

However, it was still far inferior to the back of the ancestral court.

The front of the ancestral court had been gnawed clean by the Void Beasts, and many of the rare herbs and rare trees that were native to the ancestral court had already been exterminated by the Void Beasts. Only the five great mineral veins and the great black wood were left in dangerous places that the void beasts couldn't enter. There were still some incomparably precious spirit herbs and forests left behind.

However, the back of the ancestral court hadn't been plundered by the Void Beasts!

When everyone's divine consciousness followed Qin Mu through the Majestic rivers and mountains on the back of the ancestral court, they saw countless spirit herbs bursting out with astonishing spirit energy.

There was a huge flower that was as tall as a person and had existed for an unknown number of years. The flower room was very deep and spirit energy fountains were gushing out from it. It was because this spirit herb had accumulated too much energy and had no choice but to release the excess energy in its body!

This spirit Herb's age must be frighteningly ancient!

Then, they saw a magnificent sight of a spirit herb that was like a vast ocean, with tens of thousands of spirit herbs spurting out spirit energy fountains at the same time!

That scene could be said to be incomparably spectacular!

Everyone's spiritual sense was unstable, and they were deeply shocked by this scene. This scene was not only something that had never happened in the myriad realms of the heavens, but even the ancestral court had never seen it before!

There were so many types of spirit herbs on the back of the ancestral court, so many that it was truly hard to find!

"If apothecary sees it, won't he go crazy?" Granny si muttered.

At that moment, Qin Mu's divine consciousness brought their divine consciousness and moved at an incomparably fast speed. This was something that uncle Jun had once worn, and he used it to search for his soul.

This was another use of soul guide.

When he said that the marvel of using divine arts lay in one's heart, he wasn't boasting. When the divine arts were used in his hands, it was truly astonishing.

Everyone's divine consciousness whizzed past the sky behind the ancestral court like a gale, following Shujun's soul.

Their divine consciousness saw an even more astonishing scene. In front of them were huge pearls that looked like moons floating in the sky. Each pearl was about a hundred miles long, and they were dazzling.

Below the pearls was a beach, and on the beach, huge sea clams opened their shells.

They were another type of primordial behemoth.

When Qin Mu and the rest's divine consciousness flew over, the sea breeze stirred up alarmed the sea clams. They saw the pearls in the sky falling down and falling into the shells. The sea clams closed up with a bang and spewed out waves of seawater, they plunged into the depths of the beach.

The bright pearls were the treasures in the bodies of these huge beasts.

When their divine consciousness flew over the mountains on the back of the ancestral court, they even saw huge beasts fighting and destroying the world. Those were adult huge beasts that had probably lived on the back of the ancestral court for tens of thousands of years, their tendons and bodies had been refined to be incomparably tyrannical, and it was as if two martial arts emperors had used pure brute force to clash, shattering the heavens and earth!

On the back of the ancestral court, there were many huge beasts with such battle prowess!

Suddenly, Qin Mu's divine consciousness stopped, and so did everyone's.

Everyone was bewildered, and they noticed why Qin Mu had suddenly stopped.

They had actually seen the primordial God that had been born on the back of the ancestral court!

It was a dragon vein of the ancestral court that was undergoing transformation!

The mountain range was like a crouching dragon that stretched for tens of thousands of miles. It was too old, and its spirit energy had connected to the mountain, allowing the mountain range to be nourished by spirit energy and spirit energy unknowingly, giving birth to a body of flesh and blood.

Its body was also covered in all kinds of spiritual medicines. It was constantly nourished by these spiritual medicines, nurtured by the Great Dao of Heaven and earth on the back of the ancestral court, and unknowingly gained sentience.

Today was the day it transformed and became a primordial God!

Everyone saw that the mountain rocks were transforming into flesh and blood. The foot of the mountain that was buried deep in the ground had become a dragon claw. When the Dragon Claw was raised, the earth shook and the mountains shook, and the dragon body slowly bulged.

This ancient god Divine Dragon was about to take form!

“The back of the ancestral court is truly filled with treasure!”

Everyone was dazzled and amazed. This was the first time they had seen the birth of an ancient god from heaven and earth. It could be said to be an eye-opener.

At this moment, dozens of adult immemorial behemoths suddenly flew over. They actually attacked the ancient god Dragon that was in the process of transforming. In a short moment, they shattered the divine dragon that was the ancestral court’s dragon vein!

These immemorial behemoths should be kings among the behemoths, and their abilities were formidable. Killing the ancient divine dragon was as easy as blowing away dust.

Everyone was stunned, and the powerful divine consciousness of an immemorial behemoth discovered them. With a roar, Qin Mu immediately knew that something was wrong, and he immediately executed his divine consciousness to escape.

Behind them, dozens of beast kings were chasing after them, but fortunately, Qin Mu’s divine consciousness was also incomparably powerful, and he soon threw them far away.

‘the back of the ancestral court is a little strange. Why are these huge beasts killing the ancient gods that were born on the back of the ancestral court...’

Just as Qin Mu thought of this, he suddenly stopped his divine consciousness. Everyone’s divine consciousness swept over, and they saw a towering heaven gate in front of them!

It was two incomparably huge immemorial mountains that were completely crimson in color. They were filled with flames, and the flames automatically formed all kinds of mysterious patterns that kept changing.

The mountains were grand and majestic, appearing in front of them like two doorframes of a door.

Each side of the two mountains had an arc-shaped bulge. The higher they went, the steeper and more precipitous it became. When they reached the peak, a lone peak pierced straight into the clouds!

On the other side, it was incomparably precipitous. It was perpendicular to the ground, and there wasn't a single extra mountain.

They were symmetrical to the left and right, and the door in the middle was slender and long, like a line of sky.

Between the two mountains, a strange power condensed and filled the door with blazing path fire.

The further they went in, the fiercer the path fire became!

This path fire was extraordinary. It was the true fire of the Great Dao formed by the two mountains!

“South Heaven Gate!”

Everyone's divine consciousness fluctuated and couldn't suppress the shock and excitement in their hearts. This was the true South Heaven Gate of the ancestral court!

When they heard Qin Mu say that there were four great heaven gates in the ancestral court, they had some doubts. They never expected to see the true South Heaven Gate on the back of the ancestral court. Only then did they know that what Qin Mu said was true.

“Strange!”

Qin Mu's divine consciousness fluctuated, and he pondered over it. “Why is South Heaven Gate of the ancestral court on the back of the ancestral court? Could it be that the four great heaven gates aren't necessarily on the front of the ancestral court?”

He had originally thought that the four great heaven gates, the ancient Jade Lake, and the ancestral court, the Jade Capital, were all on the front of the ancestral court. Uncle Jun must have known the

whereabouts of these places, which was why he had used his divine consciousness to find uncle Jun and summon him back to the front.

After all, the back of the ancestral court was the territory of a terrifying creature like long Xiao. If he barged in rashly, he would definitely clash with long Xiao, who commanded all the ancient behemoths on the back of the ancestral court and had great power.

He was only doing this to save people. There was no need for him to offend such an existence.

And now, it seemed that if the four great divine gates were on the back of the ancestral court, they would also have to enter the back of the ancestral court with their real bodies!

Chapter 1363:

‘If I can avoid conflict with an existence like long Xiao, I’d better try my best to avoid it.’

Qin Mu couldn’t help feeling worried. Long Xiao was too powerful. When primordial Lord Earth Mother summoned him, the nine heads covered the sky. The scene was truly shocking, and Qin Mu didn’t want to offend such a powerful existence.

He continued to move and followed the aura of Shu Jun’s soul.

The aura of Shu Jun’s soul became clearer and clearer, and Qin Mu’s spirit was greatly boosted. He and Shu Jun were also clearer and clearer, and he could already clearly sense Shu Jun’s exact location.

‘He’s still alive as expected!’

Qin Mu was slightly at ease. He could sense that there were many people with Shu Jun, and they should be Lan Yutian, Xu Shenghua, first ancestor, and the rest.

As long as these people were still alive, he would have a way to get them out of the back of the ancestral court and make a long-term plan.

Whoosh —

Qin Mu led everyone's divine consciousness to approach Shu Jun and the rest. As long as he got close, he could immediately use his divine consciousness to form a summoning divine art that would sweep them away and summon them to Great Black Mountain!

At that moment, Shu Jun's divine consciousness suddenly came into contact with Qin Mu's divine consciousness. In an instant, Shu Jun understood his reason for coming and his divine consciousness was filled with panic. "Heavenly venerate mu, quickly leave —"

Qin Mu was slightly stunned and didn't understand what he meant. Just as he was about to ask, Uncle Jun's divine consciousness fluctuated violently. "Long Xiao is here and has trapped us all! He has long noticed you all and is waiting for you to walk into his trap!"

Qin Mu was astonished, and he immediately pulled back his divine consciousness!

Suddenly, the void trembled violently, and an incomparably terrifying divine consciousness wave crossed over the Instant Qin Mu and uncle Jun's divine consciousness came into contact with each other, separating their divine consciousness!

The divine consciousness didn't have a physical object and was just a thought. However, this terrifying divine consciousness was like a physical object, like a mountain that connected heaven and earth, standing in front of Qin Mu and the Rest's divine consciousness.

Shua —

An incomparably bright light shone, and Wei Suifeng, Granny Si, Prince You Ming, and the rest felt as if their divine consciousness had met a blazing sun and started to melt rapidly.

They seemed to have seen an incomparably spectacular and terrifying scene. Nine dragon heads that filled the heaven and earth filled their divine consciousness 'vision', causing their divine consciousness to continuously collapse!

Long Xiao, that incomparably terrifying primordial creature whose strength was close to Supreme Emperor, just the appearance of his divine consciousness was enough to make them unable to withstand it!

"Great Luo's supreme divine consciousness!"

Qin Mu imitated Supreme Emperor's supreme divine consciousness domain and burst forth. When the domain was unleashed, everything instantly became incomparably slow, as if time was condensing!

Long Xiao's incomparably terrifying divine consciousness was also affected. The process of invading his supreme divine consciousness domain was stretched out endlessly, and he was unable to destroy their divine consciousness in one go!

Of course, time didn't exist. This was only an illusion created by the supreme divine consciousness domain. It was the suppression of the divine consciousness of the intruders.

The pressure was also mutual. Qin Mu's supreme divine consciousness domain was only a fake supreme divine consciousness domain. His Great Dao of divine consciousness hadn't cultivated to the level of supreme emperor, so he restricted long Xiao's divine consciousness from invading. At the same time, the pressure on him also increased explosively!

His supreme divine consciousness domain let out crackling sounds, and terrifying cracks appeared in the void of the domain, pressing down on his divine consciousness until cracks appeared!

Long Xiao was so strong that he couldn't be suppressed!

However, Qin Mu finally obtained a chance and immediately sent the divine consciousness of Wei Suifeng, Granny Si, and the rest back to the Great Black Mountain.

Everyone woke up from the sacrificial altar of the Great Black Mountain, and their divine consciousness returned to their corporeal bodies. Granny Si, Patriarch Wen Yuan, and the rest immediately examined Qin Mu's corporeal body, but they saw that his primordial spirit was still there, but his divine consciousness hadn't returned!

"This is bad, could heavenly venerate Mu's divine consciousness have been trapped by that invincible creature?"

"This is bad, that creature is too terrifying!"

..

Everyone panicked, and Wei suifeng said solemnly, "Everyone, don't Panic! If my junior brother can send us back, he will definitely be able to escape on his own. The reason why he didn't come back directly is probably because he wants to see long Xiao."

Granny Si, Patriarch Wen Yuan, and the rest let out sighs of relief. They hadn't thought of this, so they lost their sense of propriety.

Since Qin Mu could send them back, he would definitely be able to escape on his own.

"This brat, isn't his guts a little too big?"

Granny si gritted her teeth and said angrily, "We should spank his ass!"

The moment she said that, everyone's eyes turned bright. Prince youming coughed and said, "Fellow Daoist Si, you have to keep your word. You Can't say you'll hit him, but you won't hit him."

Wei Suifeng, Yu Chudu, and the rest nodded their heads in agreement. "As an existence who has entered the path of Divine Arts, you can't go back on your word."

The dragon qilin also wagged his tail in excitement. He wanted to speak, but he was afraid that Qin Mu would notice. The little green sparrow on his forehead raised its wings to express its agreement.

Granny Si was still reluctant to fight, so she could only say, "We'll talk about it when he comes back..."

Suddenly, the nine-layered sacrificial altar trembled violently, and a vast and deep divine consciousness went straight to the Great Black Mountain from another dimension. It pulled Qin Mu's corporeal body up from the sacrificial altar, and even the nine-layered sacrificial altar was pulled up, preparing to fly into another dimension!

The bodies of everyone on the sacrificial altar were unstable, and crown prince youming and Wei Suifeng were the first to react. They stretched out their hands and grabbed onto Qin Mu's leg, preventing him from being pulled into the back of the ancestral court!

They were astonished. The owner of this divine consciousness was none other than long Xiao. This terrifying creature had actually followed the trail of Qin Mu's divine consciousness and tried to summon Qin Mu's corporeal body to the back of the ancestral court!

Even if Wei Suifeng and crown prince Youming were existences of great circle of Emperor's throne realm, they couldn't resist long Xiao's terrifying divine consciousness. Their bodies were pulled up and couldn't help floating in the air.

"Hold him back!"

Wei Suifeng roared furiously and his primordial spirit burst forth. The heavenly palace behind him floated and his primordial spirit rose from the Emperor's throne with a loud bang. He mobilized all his magic power.

On the other side, Crown Prince You Ming's black tortoise primordial spirit also floated in the air and used all its strength to hold Qin Mu's body back.

The others also made their moves and finally pulled Qin Mu's corporeal body down to land on the nine-layered sacrificial altar!

However, what shocked them was that the nine-layered sacrificial altar actually flew into another space!

The Instant Qin Mu's feet landed on the sacrificial altar, his eyes suddenly opened and his primordial spirit flew up with a whoosh. He landed behind him and shouted, "Divine Treasure Domain!"

His primordial spirit became incomparably vast. The instant it landed on the sacrificial altar, all the runes on the nine-layered sacrificial altar lit up. The runes on the summoning sacrificial altar reversed and countless runes changed at the same time, summoning in the opposite direction, they tried to pull their divine senses back!

Seeing this, everyone heaved a sigh of relief. Their strength, together with the nine-layered altar, was on par with long Xiao's summoning. The two sides were in a stalemate in the air, and they were struggling to suppress each other's strength.

"Use the azure glazed sky pillar!"

Mute shouted angrily. Blind, Prince You Ming, Wei Suifeng, and the others all came to their senses. The azure glazed sky pillar, the number one treasure of the past, instantly exploded with power, and all the treasures in the twenty-eight heavens exploded with power, it pressed down on the nine-layered sacrificial altar and instantly suppressed long Xiao's summoning.

The nine-layered sacrificial altar crashed to the ground, and everyone was finally at ease.

The glazed Azure Heaven stronghold was indeed the number one treasure. In addition to blind mute leading eternal peace's heavenly craftsmen to continuously rebuild it, the power of this treasure had surpassed that of the past by countless times.

Even though it didn't have the Supreme Essence Divine Egg as the center, and its transformation was slightly lacking, its power had increased by countless times.

Qin Mu's primordial spirit was still muddle-headed, so it was clear that he hadn't retracted his divine consciousness.

Everyone looked at each other, and their expressions became solemn.

On the back of the ancestral court, Qin Mu's divine consciousness condensed and transformed into Qin Mu's appearance. He floated in front of Long Xiao's divine consciousness, his clothes fluttering in the wind. He smiled and said, "Long Xiao, divine king Boyang's mount, can we talk about it?"

"Divine King Boyang's Mount?"

Long Xiao's divine consciousness suddenly burst into laughter, a mocking expression appeared on his face. "Young creator, you are wrong. The three great divine kings of ancient times are not Boyang, Shujun, and Gong Gong, but Long Xiao, Shujun, and Gong Gong. Divine King Boyang is my mount!"

He had saved two chapters with great difficulty, but he had used them up again after two days of business trips in Nanjing. The otaku pig had to work hard to save the chapters again, and he still had to go out in two days. Furthermore, the year of the pig was also approaching. Speaking of the year of the pig, if you don't vote for the god of herding otaku, you won't enjoy pork during the new year either.
HMPH

Chapter 1364:

Qin Mu was stunned and cried out, "Divine King Boyang is your mount?"

His mind went blank. At the instant he was in a daze, Long Xiao's divine consciousness once again attacked his supreme divine consciousness domain, causing it to be destroyed even more severely.

'that's right. Divine King Boyang indeed wants to subdue me and take me as his mount, but his abilities are inferior to mine, so how can he subdue me?'

Long Xiao's divine consciousness continued to destroy his supreme divine consciousness domain, getting closer and closer to Qin Mu's divine consciousness origin, "However, on the surface, I still let him, making the foolish creator think that I'm his mount. "However, in reality, he listens to my every word. His race worships me, making my abilities stronger and stronger. "And his abilities are getting farther and farther away from me."

He smiled proudly. "I became the god, Protector, and guardian of his race. My prestige in his race even surpassed divine king Boyang himself! He became the leader of the Three Kings because of my abilities!"

Even though Qin Mu was shocked, he still tried his best to maintain the circulation of his supreme divine consciousness domain, "In that case, you are the ancestor of human rearing scriptures. If the Dragon Qilin met you, he would definitely suck up to you and be completely convinced by you. "Since you have such formidable power and can even control god King Boyang, why didn't you become a god King Yourself and let Boyang step forward instead?"

Long Xiao smiled. "Little creator, you are very interesting. "In that primordial era, the creators were the rulers of the world after all. They ruled the ancient gods and created batches of ancient gods. Powerful beasts like us are still too weak in front of them. "I could only choose to be the controller behind the scenes, controlling god King Boyang to fight for the right to survive for my race."

He laughed and said, "Therefore, when the great calamity fell and the ancient gods rebelled, the creator was exterminated, but my race survived."

His laughter was filled with joy, he said leisurely, "The ancient gods led the demigods and ruled over all the worlds in the universe. They fought to the death for a piece of territory. They fought to the death and suffered countless casualties. "As for us? "We don't need to expend any effort and don't need to hurt a single soldier. We can rule the back of all the Worlds!"

His nine huge heads looked at Qin Mu in his divine consciousness domain from different angles, searching for the flaws in his supreme divine consciousness, he smiled and said, "Who do you think is the real winner? It's me, US incomparably stupid and brainless behemoths!"

"Under my rule, the behemoths lived happily on the other side of the world!"

"Under my rule, our descendants prospered and prospered!"

“Under my rule, we occupied half of the world!”

“Under my rule, no other race could step into our territory!”

“Young creator, do you want to be my mount?”

..

Qin Mu looked at the prehistoric ruler in a daze. His eyes weren't the light of a huge beast that didn't have much thought or wisdom. On the contrary, he had endless wisdom.

“That fellow, Shu Jun, still wants to subdue you and make you his mount. Now it seems that it's already burning incense for our ancestors that he didn't become your mount.”

Qin Mu couldn't help sighing with emotion. He shook his head incessantly at the thoughts and actions of the big headed youth, Shujun, and didn't agree with him.

Shujun's current abilities couldn't catch up to that of his previous life. If he met Long Xiao, he would probably be easily subdued and become long Xiao's mount.

“It's not that I can't subdue Shujun, but I don't like him.”

Long Xiao's head smiled. “He doesn't have the qualifications to become my mount. Among the three kings of the immemorial era, his abilities are about the same and can't be compared to Boyang. He's also ugly.”

His other head raised high and stared at Qin Mu with interest, “But you are different. You are prettier than him, and more importantly, you have the potential to become another supreme emperor. As my mount, apart from looking good, you are also stronger!”

His third head smiled leisurely and said, “Even though Shu Jun isn't qualified, he brought two people worth looking at. One is called Lan Yutian and the other is Xu Shenghua. Both of them can become my steed. As for you, you are the third!”

Qin Mu suddenly burst into laughter, and his divine consciousness trembled violently, “Long Xiao, you are facing a great calamity, yet you are still dreaming of Spring and autumn! “If I Were you, I wouldn’t be looking for an outstanding and good-looking steed. Instead, I would be looking for allies to avoid a calamity! But you are still foolishly and stubbornly doing things that don’t make any sense. “As the leader of the Three Kings of ancient times, where did your wisdom go?”

Long Xiao’s nine heads looked at him together, but Qin Mu’s expression didn’t change.

“Since this is your first offense, I’ll give you a chance to explain.”

Long Xiao said unhurriedly, “You said that I’m facing a great calamity, so where did my calamity come from?”

Qin Mu smiled slightly. “You can occupy the back of the ancestral court because you are the only strong practitioner here. However, the void beasts in the ancestral court have already gone extinct, so there is no longer any threat to the outside world. Therefore, the seal of the ancestral court will definitely be completely opened by ten heavenly venerates and become an open space! “When the seal of the ancestral court is removed, do you think your world of peace can still be preserved?”

Long Xiao narrowed his dragon eyes and smiled. “Tenth heavenly venerate? Tenth heavenly venerate is only a junior of the later generations...”

Qin Mu sneered. “A junior of the later generations? Aren’t you too arrogant? Among the ten heavenly venerates, one of them is supreme emperor. How do you compare to him?”

Long Xiao’s expression changed slightly.

“One of the ten heavenly venerates is absolute beginning, how do you compare to him?”

Qin Mu continued, “Absolute beginning and supreme emperor are only members of the ten heavenly venerates. Even existences like Earth Mother Primordial Lord can not be ranked among the ten heavenly venerates. “Can you imagine how terrifying the battle prowess of the ten celestial venerables is? “You are the ruler of the back of the ancestral court now, but when the seal of the ancestral court is completely broken in the future, you will either be a prisoner or meat on a platter, waiting to be slaughtered!”

He said indifferently, “Long Xiao, if you don’t want to be ruled by the ten celestial venerables and don’t want your descendants to become food on a platter, then you need a collaborator and an ally. And Me!”

He smiled proudly. "The ally you are looking for is your hope for the future! "My Ally is the Heavenly Duke, the Earth count, hundreds of other ancient gods, and many powerful heavenly venerates as well as the creator who lives in the Great Void!"

He flicked his sleeve and slapped the void, the void surged. "Behind me is a huge empire that is no less powerful than your behemoth world. My soldiers have divine powers that are more than a million strong? "My battleship fills the sky and can fill the back of the ancestral court to the point where you can't see the Sun! "My soldiers can use their divine weapons to shatter countless heavens!"

He stretched out his hand. "Cooperate with me and be my ally. You will have a way to survive in the future!"

Long Xiao's nine heads narrowed their eyes to size him up. Qin Mu's expression was calm, and he said indifferently, "I've given you the opportunity, so you should seize it."

Long Xiao muttered to himself, and his heads circled around him, he suddenly smiled and said, "Everything is just words, there's no proof. Since you have such strong power, then if you become my mount, won't the power you control belong to me?"

His nine heads burst forth with their divine consciousness and broke through Qin Mu's supreme divine consciousness domain in one go!

The supreme divine consciousness domain was shattered, but Qin Mu's divine consciousness had already vanished without a trace!

Chapter 1365:

Long Xiao raised his nine heads to search for Qin Mu's tracks, but he couldn't find his divine consciousness. Only the last bit of his divine consciousness remained.

Long Xiao captured this bit of divine consciousness, that divine consciousness immediately turned into a loud voice. "Long Xiao, I don't want to completely fall out with you, so please don't go overboard and give yourself a way out. "My people, please let them go. I will definitely repay you in the future!"

Long Xiao snorted and wiped out Qin Mu's divine consciousness.

"A mount actually dares to bargain with me and ask me to release the spoils of war."

He retracted his divine consciousness, and one of the heads opened its huge eyes to see Shu Jun, Lan Yutian, Xu Shenghua, first ancestor, and the rest trapped in a huge cage of divine consciousness.

Everyone looked tired. They were either sitting or standing as they looked around. All around them were unusually powerful ancient beasts that stood there like stone statues, protecting long Xiao.

They had followed Shu Jun to the back of the ancestral court this time because they had originally planned to subdue Long Xiao. Even if they couldn't subdue long Xiao, they could subdue some rare beasts.

On this trip, everyone was full of confidence. After all, they were all top-notch figures in eternal peace, and they had first ancestor, human emperor, who had already cultivated to skyscraping realm. Furthermore, there was also Shu Jun, the local tyrant, the past human emperors were all veterans of the martial arts world.

In addition to people like Lan Yutian and Xu Shenghua who were all knowledgeable and talented, they believed that they could ride on the back of the ancestral court and be invincible.

Ever since Qin Mu had passed on the creator's divine consciousness cultivation method to eternal peace, the cultivation of divine consciousness had become a compulsory course for eternal peace divine arts practitioners and gods.

There were many techniques in eternal peace, so by fusing their divine consciousness with the eternal peace cultivation system, their divine consciousness attainments had improved by leaps and bounds. Subduing the huge beasts wasn't a problem for them.

However, when they reached the back of the ancestral court, they were surrounded and attacked by a group of huge beasts a few days later. They were in a sorry state.

They tried to subdue the huge beasts, but to their horror, they discovered that the divine senses of the huge beasts were powerful. Not only could they resist their divine senses, even powerful existences like Shu Jun had met with strong enemies.

Only then did they know that things weren't good. Fortunately, the past human emperors were all old and eccentric people. Back then, they had galloped everywhere, and regardless of whether it was their schemes or their methods, they were all top-notch existences.

They led the group to wander around the back of the ancestral court, dodging the encirclement of the giant beasts time and time again. With the local snake, Shu Jun, as well as the strongest divine sense among the group.., they had actually survived in this dangerous place.

However, not long ago, their group was completely wiped out because long Xiao had personally made a move!

Although Shu Jun's divine sense was powerful, it was a world of difference compared to long Xiao's divine sense. It collapsed at a touch!

First ancestor human emperor was powerful, but when long Xiao's mighty divine sense surged over, he could not use his strength at all and fell to the ground.

As for the past human emperors who were experienced in jianghu, their experience was useless. Long Xiao swept his divine sense over them, and everyone fell unconscious.

Only Xu Shenghua and Lan Yutian's divine abilities were unique. They resisted for a moment, and then lost their resistance.

It was because they had resisted long Xiao's divine sense for a moment that long Xiao saw them in a different light. He felt that their cultivation was not high, but their abilities were extraordinary. They were worthy of being nurtured.

When they reached adulthood, they would be able to become his two great mounts. They would definitely be awe-inspiring.

"That little creator said that the seal on the back of the ancestral court is about to be broken. The tenth heavenly venerate will definitely invade. Hehe, he has really underestimated me."

Long Xiao slowly closed his eyes, he thought to himself, "If the seal on the ancestral court is broken, then the other worlds will also be broken! "In those worlds, my descendants will be endless. In the origin world, Xuan Du, Youdu, and all the worlds in the universe, there are my people on the back. "That is, it is hard to say who is the rightful ruler of Heaven and earth! "Perhaps those celestials, demons, and other living beings will become my people's mounts and slaves

"As for me, I only need to nurture these two little fellows and wait for them to grow up to become celestial venerables. In this way, I can have two celestial venerables'mounts. How can ten celestial venerables compete with me?"

His snoring gradually rose, “As a mount, Shujun’s grade is a little low, but he has potential. However, riding him is a little embarrassing. I used to ride godly King Boyang...”

In the spiritual sense cage, Shujun said in a deep voice, “Heavenly venerate mu hasn’t been captured by him. Please rest assured, everyone. Heavenly venerate mu will definitely save us!”

First ancestor human emperor gently touched the spiritual sense cage. Unexpectedly, just as his palm touched the cage, the spiritual sense that formed the cage rapidly materialized, trapping his palm in it. He was about to be materialized by the cage!

First ancestor hurriedly pulled his palm back, his heart still palpating with fear.

The cage that materialized just now immediately turned transparent.

The divine sense cage seemed to have no physical form. It was just a transparent space that was enveloped by divine sense. However, this cage had locked them tightly, preventing them from leaving.

“If we use our fastest speed, will we be able to escape from the cage?” Jiang Yunjian suddenly asked.

Human Emperor first ancestor’s heart stirred as he looked at Shu Jun., shujun shook his head and said, “We won’t be able to escape. Long Xiao’s spiritual sense is too strong. It’s even stronger than my spiritual sense when I was at my peak! His spiritual sense cage was ever-changing. It could be condensed into the sturdiest physical form at any time, or it could evolve into the most vast void. “No matter how fast you are, you won’t be able to escape.”

Jiang Yunjian’s eyes flashed, he said, “My master has been learning from the godly thief for a long time. His ability in the underhand changing of the heaven and the Sun makes the godly thief feel ashamed of himself. “If his speed is so fast that even the spiritual sense cage can’t change in time, he can break out of the cage and escape from this place.”

First ancestor and uncle Jun looked at Lan Yutian together, lan Yutian said, “I don’t know where the limit of the change of the spiritual sense cage is. First, I need to detect the limit of its change so that I can calculate its speed and change pattern. and...”

He was a little shy and said shyly, “My attainments in algebra are not high...”

“My attainments in algebra are not bad.”

Xu Shenghua smiled and said, “Dao Master Lin Xuan’s attainments in algebra are on par with mine.”

First ancestor human emperor said in a deep voice, “Alright! Then I’ll Test the limit of the transformation of this divine sense cage!”

He took out the yuming sword, took a few steps back, and suddenly charged at the divine sense cage with all his strength. Soon, his speed was raised to the limit, and he crashed into the divine sense barrier!

His speed was like a fleeting shadow as he ran madly within the Divine Sense Barrier. However, at the same time that his body moved, the divine sense cage immediately began to change rapidly!

The cage looked very thin, but when he entered the cage barrier, he immediately saw the boundless void spreading rapidly, and space extending endlessly!

Not only that, when space was born, it began to materialize, making him feel as if he had entered an increasingly dense substance!

His speed became slower and slower. He could even feel that the cage was assimilating his physical body and primordial spirit, allowing him to become one with the cage!

First ancestor roared furiously, summoning all of his mana and pouring it into the yuming sword. The yuming sword flew out from his hand, riding the wind and waves at an even faster speed. It shot forward, trying to break through the limits of the changes in the spiritual sense cage!

In just a short instant, the Yuming Sword’s speed had even reached the extent of crossing space. It was as if he had ignored space, almost breaking through the cage.

However, in the next moment, the speed of the spiritual sense Cage’s change caught up to Yuming Sword, making yuming sword’s speed become slower and slower.

Right at this moment, countless gorgeous algebra runes danced around Xu Shenghua, calculating and operating at a speed that could not be observed by the naked eye. Countless runes were like countless

calculation spirit weapons that were activated at the same time, and as the processing center of these algebra data, he could actually grasp all the data at the same time and gather them together.

“Found it!”

Xu Shenghua’s divine sense fluctuated as he transmitted the results of his calculations to LAN Yutian’s mind.

Lan Yutian’s eyes widened. He immediately stepped out and rushed into the divine sense cage. His speed had reached an unbelievable level at this moment!

Cripple had taught him all the skills he had in his life, including the Thieving Heaven Temple, and he had done it even better than LAN Yutian.

He flew forward, ignoring the changes in matter and the changes in the spiritual sense cage. In an instant, he caught up with first ancestor human emperor.

First ancestor human emperor’s body had almost completely fused with the spiritual sense cage. However, he immediately felt his body and primordial spirit shake violently, and he broke away from the fusion at an astonishing speed!

He looked around in surprise. Everything around him seemed to have slowed down, including the changes in long Xiao’s spiritual sense.

He watched as Lan Yutian supported his back and caught up with the bright jade sword.

First ancestor grabbed the bright jade sword, and countless dazzling lights rushed toward them. In the next moment, they rushed out of the spiritual sense cage.

First ancestor saw the enormous stone statues opening their eyes in surprise. He slowly turned his head to look at them, and then he saw long Xiao’s eyes slowly opening.

He was inexplicably excited. At that moment, a dragon scale appeared in front of them. It was one of long Xiao’s scales. The two of them collided with the scale, and their bodies pierced through it.

Lan Yutian brought first ancestor to a stop, only to see Shu Jun, the previous human emperors, and the others beside them.

The people in the cage fell silent.

Lan Yutian could indeed break through the spiritual sense cage, but long Xiao was too strong. They could not escape at all.

“Can Celestial Master Mu Really Save Us?” Shu Jun murmured.

At this moment, in the center of the seal on his back, the head of the Supreme Emperor revealed a strange smile.

“Long Xiao, an innocent baby. After subduing him, he has subdued the most powerful force in the world...”
