

## Tales of Herding Gods Chapter 1381-1385

### Chapter 1381:

Qin Mu's clothes fluttered, and his magic power also rose rapidly. In his nineteen heavenly palaces, primordial spirits walked toward the jade platform, and their auras became stronger and stronger!

The realm of jade platform was no longer a hindrance to him!

Not only that, he even felt that his primordial spirits could cross the jade platform, enter the jade sea, cross the sea, and reach God execution platform on the other side of the Jade Sea!

If he could experience God execution platform and not die, he could even easily cross the nine prison platforms of the various heavenly palaces!

At that time, he would only be one step away from Jade Capital Realm!

In a short moment, Qin Mu's primordial spirits had already arrived on the jade platform. His cultivation and abilities had increased at a terrifying speed. This was the increase in his strength after entering Jade Lake Realm!

In the heavenly palaces, his primordial spirit stepped on the sea to cross over. The Jade Lake churned, and the wind and waves surged. His cultivation also increased in a straight line.

Even though the heavenly palace system had all sorts of shortcomings, the improvement in strength was obvious!

However, Qin Mu soon stopped in the middle of the sea and didn't continue forward.

'The heavenly palaces of the gods all imitate the heavenly courts, and the Jade platform of the heavenly courts imitates the Jade Lake of the ancestral court. Since I'm in the ancestral court, I have to go there no matter what to strive for the perfection of this realm.'

He resisted the urge to directly break through the Jade Pool realm.

The heavenly palaces created by imitating the heavenly courts only focused on strength and the improvement of the wayless realm. They were not complete.

But in the ancestral court, the Dao realm hidden in these realms could be developed. This was absolutely an unparalleled improvement, so that each realm would have no flaws!

Not only the jade pools, but also the other three heavenly gates, as well as the god-slaying platform and Jade Capital. He needed to go there.

If his abilities were too strong, so strong that he couldn't sense the Dao realm hidden in the three heaven gates and Jade Lake Jade platform, he would lose more than he gained.

He swept his gaze around, but he didn't find long Xiao and the dragon qilin. He instantly understood the reason.

'The few heavenly venerates of the Heaven Court have probably reached the ancestral court. Even though long Xiao seems to be headstrong, when he knows that the tenth heavenly venerate has descended, he will definitely look for him and get rid of him at the first moment.'

Qin Mu muttered to himself for a moment and restrained his abnormal vision before landing in front of Long Xiao's throne.

He quietly built his ancestral court's nine hell stage, which was also built on the back of the ancestral court. Apart from this nine hell stage, there was also South Heaven Gate.

"Heavenly venerate mu!"

Suddenly, the heavenly venerates descended and came to the nine hell stage. They were none other than hao, Huo, Xu, Gong, Hong, Zu, Lang, Qiang, Yan, and the other nine heavenly venerates. They looked around and frowned slightly.

"There's something strange about this place."

Heavenly venerate Xu rose into the sky and looked at nine hell stage in detail. Her expression became even more solemn.

She descended and went straight to the second stage. Soon, she came to the fourth stage of the third stage.

“What is heavenly venerate mu doing here?” Heavenly venerate Hong asked with a frown.

Qin Mu smiled. “Naturally, he’s here to break through. I want everyone to know that I’m already on Jade Lake Realm!”

Ancestral god King said coldly, “I’m already about to cultivate to the true heaven court! To cultivate to Jade Lake realm, is there something to be proud of?”

Celestial Emperor Lang Xuan said with a pleasant expression, “Heavenly venerate mu cultivating to Jade Lake realm is also something to be proud of. Heavenly venerate mu should be fifty years old this year, right? To be able to cultivate to Jade Lake realm at fifty years old and become a heavenly god, this is already a rare speed.”

Qin Mu reminded him kindly, “I just turned seventeen.”

The ancestor god King chuckled. “Fifty years old is already a long life for ordinary people. Apart from eternal peace and South Heaven, very few humans can live to fifty years old. Even for the people of eternal peace, ordinary people can only live to eighty years old. “Heavenly venerate mu is already an old man and still has thirty years to run.”

Qing tianfei smiled. “Did heavenly venerate mu meet Long Xiao?”

Qin Mu shook his head. “I’ve never seen him before.” “I wanted to take advantage of the opportunity to kill him after Empress and heavenly venerate heavily injured him. However, when I found this place, I suddenly felt the Qi circulation and broke through realm to cultivate jade lake. “I cultivated Jade Lake when I was seventeen...”

When heavenly venerate vast heaven and Qing Tianfei heard the word ‘take advantage’, they were rather unhappy.

They were the people that Qin Mu had picked up the scraps. One of them had been chased by Qin Mu for six hundred thousand miles and had no choice but to use Empress Tai Su to save his life while the other had his head captured by Qin Mu and refined into a treasure seal.

Clearly, Qin Mu also wanted to pick up long Xiao's scraps, but because he wanted to break through to the next realm, he didn't succeed.

The ancestor God king coughed and reminded, "Heavenly venerate mu is already fifty years old and has reached his old age."

Qin Mu's face turned black.

At that moment, heavenly venerate Xu flew up from nine prisons platform with a strange expression. "There's something strange inside. My Dao Heart was suppressed inside, but fortunately, my cultivation is dense, so there's no danger."

The other heavenly venerates looked at each other and walked into nine prisons platform together.

Heavenly venerate Xu looked at Qin mu and asked softly, "Why did heavenly venerate mu choose to break through here?"

"The feng shui here is excellent, and it's a natural treasure land. When I came here, I realized that there was fate between us..."

Heavenly venerate Xu had long known that Qin Mu liked to spout nonsense, so he didn't care about the truth.

Not long later, the other eight heavenly venerates rose from nine prisons platform and said, "It's indeed strange. It's a pity that we can't suppress heavenly venerate, otherwise, even heavenly venerate could be imprisoned in this place!"

Heavenly venerate vast suddenly asked, "Regarding the back of the ancestral court, how does heavenly venerate mu think we should divide it?"

Qin Mu smiled. "I naturally want a share as well."

The other heavenly venerates raised their eyebrows, and at that moment, the sky suddenly trembled violently. A divine weapon, heavenly venerate royal, descended from the sky and landed on the back of the ancestral court!

The nine heavenly venerates were flabbergasted and looked at each other in bewilderment.

“Who sent the divine weapon here?” Heavenly venerate vast asked in a deep voice.

Heavenly venerate Hong shook his head. “This divine weapon didn’t come from us, nor did it come from heavenly venerate Xiao. Could it be the divine weapon in Earth Count’s hands?”

Qin Mu looked at the Divine Weapon Heavenly Venerate Royal and was also bewildered. He suddenly said, “It could also be the eleventh heavenly venerate among the ten heavenly venerates!”

When the nine heavenly venerates heard that, their hearts trembled and they hurriedly left. They soon disappeared, and heavenly venerate Gong’s voice came from afar. “Heavenly venerate mu, the meeting of the Heaven Alliance is to discuss the fate of the back of the ancestral court. There are still other important matters to decide, so don’t miss it!”

“Meeting of the Heaven Alliance? Apart from the back of the ancestral court, there are other important matters?”

Qin Mu’s gaze flickered. “Could it be that the seal of the ancestral court has been completely removed? Something’s strange... is earth count controlling the descent of the divine weapon heavenly venerate royal, or is Madam Yuan Mu controlling it?”

After some time, the two huge beasts, one big and one small, arrived. Qin Mu opened his eyes to examine them, but he didn’t see anything special. However, he felt that one of them was a dragon Xiao and the other was a dragon qilin.

He was bewildered and opened the vertical eye in the heart of his brows to take a look. His eye could see through all changes, but he couldn’t see through the two huge beasts.

“Long Xiao indeed has some ability, no wonder he could live through the Battle of Blood Rust.”

Qin Mu smiled. “Back then, you relied on this method to avoid the detection of ancient gods like heavenly emperor, supreme beginning, and so on? You also relied on this method to hide from heavenly venerate?”

“Heavenly venerate mu is indeed a heavenly venerate and has extraordinary abilities.”

One of the older huge beasts said, "Even heavenly emperor, supreme beginning, couldn't see through me and the nine great heavenly venerates couldn't find my roots, but you could recognize me. It shows that you still have some ability to be respected as heavenly venerate mu."

Qin Mu smiled. "I haven't seen through your changes either, but my dao heart thinks it's you. Long Xiao, you should know that what I said isn't false, right?"

Long Xiao said solemnly, "Tenth heavenly venerate wants to kill me, so I do need an ally. Heavenly venerate mu, I'm here as an ally to ask for advice, so how can I protect my life and the safety of my clansmen?"

"It's very simple, go to great void," Qin Mu said resolutely.

When he was writing, he would sleep and wake up at times. His body couldn't take it anymore, so he had to rest early.

#### **Chapter 1382:**

Long Xiao was astonished. "Go to great void? The world created by the creators who escaped from the ancestral court?"

"That's right."

Qin Mu said, "That's the place. The creator created the space on the other shore, so you can bring the huge beasts there to reproduce. Of course, the Heavenly Court is attacking that place, so you need to contribute."

His divine consciousness fluctuated, and he sent the current situation of the space of the other shore into long Xiao's mind.

Long Xiao was a little hesitant. The Heaven Court was attacking the space of the other shore, so if they went there, he would probably have no choice but to join the battle with the huge primordial beast. From the situation Qin Mu had transmitted to him, if the Heaven Court wanted to destroy the space of the other shore, great void, the Void Bridge, and even the space of the other shore would definitely not be able to defend it!

Even if he and the primordial behemoth on the back of the ancestral court could run there, they would only be able to delay the time of death.

Qin Mu looked at his expression and said unhurriedly, "If you choose not to go to great void, there's still another chance, and that's to join hands with the eleventh heavenly venerate."

Long Xiao was stunned and didn't understand what he meant.

"The eleventh heavenly venerate of the Heaven Court isn't among the ten heavenly venerates," Qin Mu said. "She has one ability, and that is to forge the divine weapon heavenly venerate royal. "Furthermore, all the divine weapons, heavenly venerate royal, came from her, so she knows the weaknesses of all the divine weapons, heavenly venerate royal. "However, because she's not among the ten heavenly venerates, there will be great dangers if we join hands with her. Both you and her might be destroyed by the ten heavenly venerates."

Long Xiao's expression flickered.

The second path that Qin Mu had pointed out to him also had great risks. The ten heavenly venerates of the Heaven Court wouldn't allow him to fall into the hands of any heavenly venerate. If they joined hands with the eleventh heavenly venerate, they would also be killed by the ten heavenly venerates.

Furthermore, the path that Qin Mu had pointed out to him also harbored evil intentions.

As long as he followed Qin Mu's instructions, the tenth heavenly venerate would start a war with him and the eleventh heavenly venerate. If they fought until the sky collapsed and the earth cracked, the back of the ancestral court would become the second battlefield!

"Is there a third path?" Long Xiao asked.

Qin Mu smiled slightly. "The third path is the most dangerous one. "When the tenth heavenly venerate left just now, he invited me to participate in the meeting of the Heaven Alliance. They discussed how to divide the back of the ancestral court and other important matters. "I will divide a piece of territory at the back of the ancestral court. You can join me openly and become a general under my name."

Long Xiao's expression changed drastically and he shook his head. "You can't protect yourself, so how can you protect me?"

"It's precisely because I can't protect myself that I have a chance of survival."

Qin Mu smiled. "The ten heavenly venerates aren't one entity, and each of them has their own competition. However, they also have the same goal, which is to maintain peace between them before eliminating the other enemies. "They won't fall out with the eleventh heavenly venerate, so they will give her a portion of the benefits from the back of the ancestral court. "They can give it to the eleventh heavenly venerate, but they can also give it to me because I have someone among the ten heavenly venerates."

Long Xiao frowned. "You can protect yourself, but I don't have anyone among the heavenly venerates. If I submit to you, will they be able to tolerate me?"

"If you submit to any one of the eleven heavenly venerates, you will break the balance, but if you submit to me, you won't be able to break the balance. The two of us are the weakest twelfth heavenly venerate, so we have a chance to protect ourselves."

Qin Mu said unhurriedly, "Even though the chance isn't big, we can fight for it."

Long Xiao paced back and forth, hesitating. He suddenly raised his head and asked, "Then is there a fourth way?"

Qin Mu was silent.

Long Xiao saw the situation and immediately smiled. "Heavenly venerate mu, regardless of whether there's a fourth way or not, I'm very grateful to you and still treat you as my ally! Don't worry, I will never betray you!"

Qin Mu made up his mind, he raised his head abruptly and said, "There's a fourth path.". Even though this path was difficult, it was also the best path and the easiest path to achieve. It could even preserve your ruling position and let you break away from the control of ten heavenly venerates, transcending the struggles of the world! However, this path would weaken my interests. Therefore, I want you to agree to do three things for me. "If you agree, I'll fight for this path for you."

Long Xiao hesitated for a moment and said solemnly, "Alright! I'll agree to your three requests!"

"The fourth path is for the twelve heavenly venerables to divide the back of the ancestral court and let the huge beasts move to the back of the origin world and the other worlds to build a huge beast world."

Qin Mu's gaze flickered. "The Beast World is independent of the other worlds. Long Xiao is the ruler of the Beast World and the only ancient god. "The huge beasts of the beast world can establish a summoning contract with gods or divine arts practitioners and listen to the summoning. They can descend from the Beast World to fight with divine arts practitioners or gods. "When the battle ends, the huge beasts will return to the Beast World. "In this way, all the heavenly venerates can share the power of the huge beasts and control the beast world through you, so they will all nod in agreement."

Long Xiao's eyes lit up. This path was indeed the best path. He had no conflict of interest with the twelve heavenly venerates, and he wouldn't be subdued by the twelve heavenly venerates and become their mounts. His life wouldn't be in danger either!

However, would this path be easy to realize?

"The twelve heavenly venerates each have their own interests, so this path won't harm any of them. You can also use the strength of the huge beasts to fight. As long as you are impartial, it will be the easiest to realize."

Qin Mu Sighed. "However, this path will harm my interests. Without your help, I will become the weakest side of the ancestral court. "However, it's precisely because of this that the other eleven heavenly venerates would agree to this suggestion."

Long Xiao smiled. "This path is the best!"

Qin Mu glanced at him and said, "I can help you realize this path."

Long Xiao immediately said, "I'll agree to your three requests and definitely won't go back on my words!"

Qin Mu's expression softened. "It's not that I don't trust you, but there has to be a basic contract. You and I will sign a contract with little earth count. If you violate the contract in the future, Little Earth count will take away your soul."

Long Xiao smiled. "That's how it should be."

The two of them set the contract with little earth count, but long Xiao couldn't sense where the little earth count was, 'let alone the contract with little earth count, even the contract with Earth count can't restrict me.'. 'even though Earth count can take away my soul, he also has places he can't reach. As long

as I stay in My Beast World and Earth Count can't enter, he can't do anything to me.'. "Can little earth count be more powerful than Earth Count?"

Qin Mu said earnestly, "Long Xiao, I don't want to scheme against you, but I have to warn you in advance. Little Earth count is different from Earth count. He doesn't have the restrictions of the Great Dao of Youdu, so he can go anywhere in the world. "If you break the contract, he will be your death when he reaches the Beast World."

Long Xiao's expression changed greatly, and he said carefully, "Then this little earth count is..."

Qin Mu didn't hide it and said, "He's my brother-in-law. He's savage by nature and is extremely powerful. Even I fear him a little."

Long Xiao immediately felt at ease and thought to himself, 'heavenly venerable mu is a fake heavenly venerable, so his brother-in-law isn't that powerful either. He can't do anything to me.'

"You should hide for the next few days and try your best to protect your life. I'll be waiting for your good news."

Qin Mu said, "Let the Dragon Qilin follow you. He's your foster son, so you have to take care of him."

Long Xiao agreed and said, "Don't worry. If the Beast World succeeds in the future, Long Pi will also have half of the world!" Once he said that, he laughed loudly.

Qin Mu got up and left.

Long Xiao asked, "Pi'er, is little earth count really celestial venerable Mu's elder brother? How is his ability compared to the other celestial venerables?"

The dragon qilin said, "He is a little more powerful than Celestial Master Mu, but he is far inferior to Celestial Master Mu. However, he has a savage nature."

Long Xiao smiled and said, "This agreement between Little Earth count is also very exaggerated." Therefore, he did not take it to heart.

**Chapter 1383:**

‘even though long Xiao is very shrewd, he’s not very clever. He’s just a little clever, so I have to guard against him.’

Qin Mu walked towards South Heaven Gate of the ancestral court, ‘He’s good at divine consciousness and corporeal body strength, but he’s the same as the creator in the immemorial era. He can’t refine a soul, and his soul is very weak when compared to his corporeal body and divine consciousness. If he goes against his promise, then it’ll be the time of his death. “However, I didn’t expect that Madam Yuan Mu would suddenly send a divine weapon, Celestial Master Royal, to the ancestral court because of the benefits from the back of the ancestral court.”

The Divine Weapon, Celestial Master Royal, had arrived at the back of the ancestral court and attracted the nine heavenly venerates, but so far, there had been no war.

It was not difficult for Hao, Hong, Huo, and Lang to destroy the divine weapon, Celestial Master Royal. If the nine of them worked together, even an existence like Duke of Heaven and earth Bo would not be able to withstand it. They would definitely die.

Although Madam Yuan Mu’s divine weapon, heavenly venerate royal, was powerful, it could not withstand it.

The reason why they did not make a move was that they did not know who madam Yuan Mu was. Moreover, Madam Yuan Mu had only allowed the divine weapon, heavenly venerate royal, to descend. Her true body had not appeared. They were also worried that after destroying the divine weapon, madam Yuan Mu would seek refuge with founding emperor, the Duke of Heaven, and the others to increase the enemy’s strength.

More importantly, Madam Yuan Mu didn’t have any fundamental conflict with them, and they weren’t mortal enemies that wouldn’t rest until one of them died.

Since that was the case, why not share some benefits with Madam Yuan Mu in exchange for an ally?

After going through nine prison stage, Qin Mu’s Dao Heart became more and more transparent, and his judgment of the world became clearer. In a short time, he had sorted out the cause and effect, and even calculated the changes in the future.

The realm of nine prisons platform indeed had a miraculous effect. It allowed him to see clearly and have a more precise control over himself and the world.

'nine prisons platform realm will definitely shine brilliantly among the gods in the future and become an extremely important realm! However, it will also be the realm with the highest death rate. It might not be inferior to the death rate of God execution platform, or even higher! "But then again..."

Qin Mu had a strange expression. Nine prisons platform was ranked behind God execution platform realm. Before Jade Capital Realm, he had already cultivated nine prisons platform realm, but his cultivation realm had just reached Jade platform realm.

In that case, what realm was he at now?

'this can only mean that even the Heavenly Palace Dao realm system isn't perfect. It hasn't been able to explain my realm perfectly. Even the Perfect Heavenly Palace Dao realm system is only a part of my realm.'

"If I reach the end of the Heavenly Palace Dao Realm System, is there still a road ahead? What should I do?"

He stopped and thought quietly. After a moment, he continued to walk forward, he thought to himself, "The Heavenly Palace Dao Realm System is currently built on the foundation of the ancestral court and the Great Dao of the innate realm. Other than these, there is also the creation and development of the Postnatal Dao. There is still much to be done on the acquired Great Dao. Saint Woodcutter's acquired Great Dao, the road of the acquired surpassing the innate, is also an extremely important path

However, the ancestral court is the key to the perfect combination of the Dao realm system and the Heavenly Palace system. No matter what, I must have a firm foothold in the ancestral court

He came to the ancestral court's South Heaven Gate. Xu Shenghua, Lan Yutian, Wei Suifeng, Granny Si, Prince youming, and the first ancestor were all drawing and studying, planning to draw the South Heaven Gate and the Dao fire in the gate in detail.

Xu Shenghua and the rest came to the Dao Flames of South Heaven Gate to draw the dao markings of the DAO Flames. The Dao Flames targeted the primordial spirit, vital qi, divine consciousness, and Great Dao runes. As long as they didn't release their primordial spirits, there was no danger.

However, Qin Mu still saw the primordial spirits of Shu Jun, Wei Suifeng, Granny Si, Crown Prince You Ming, first ancestor, and the rest leaving their bodies to temper themselves in the DAO Flames.

When their primordial spirits couldn't withstand it, they would immediately return to their corporeal bodies to avoid the burning of the path fire.

Qin Mu clicked his tongue in wonder. He had never expected them to use such a simple method to avoid the power of the path fire.

However, this was still extremely dangerous because the pressure of South Heaven Gate didn't only come from the path fire. The pressure of South Heaven Gate itself was also extremely strong. If their corporeal bodies hadn't cultivated to the level of true gods, they would definitely be crushed.

Of course, the corporeal bodies of these people were all extremely strong, especially that of Shu Jun. . His corporeal body had even reached the level of Emperor's throne.

Qin Mu walked forward. When Wei Suifeng saw him, his primordial spirit immediately left his body and walked in the Dao Fire. He was very proud of himself.

Qin Mu smiled and didn't mind.

If Wei Suifeng and the rest could also pass through South Heaven Gate safely, he would also be happy for them.

'but it's very difficult,'Qin Mu thought with a smile on his face.

Shu Jun told him the location of the other three Great Heaven Gates. Qin Mu asked Wei Suifeng for heavenly venerate Yue's lantern and left with it.

Of the other three Heaven Gates, North Heaven Gate was located at the back of the ancestral court, facing South Heaven Gate from afar.

As for East Heaven Gate and West Heaven Gate, they were located at the front of the ancestral court.

After two days, he came to North Heaven Gate and saw the world of ice and snow all around him. The cold wind was biting cold and the sky was filled with dark clouds. Lightning was like rain as it continuously hacked down on North Heaven Gate!

There were traces of blood all over Northern Heaven Gate and Lightning was rolling around in it. There should have been a large-scale battle in ancient times and many people had died.

Qin Mu came to Heaven Gate and placed his corporeal body in the middle of it. Only then did his primordial spirit leave his body to comprehend the logic contained in it.

After more than ten days, he comprehended the logic contained in Northern Heaven Gate once.

The Great Dao contained in North Heaven Gate was something he had rarely come into contact with in the past and was very mysterious. Qin Mu used a few more days to completely comprehend the principles contained in North Heaven Gate before leaving and returning to the front of the ancestral court.

He found East Heaven Gate, which had purple qi and blazing sun. This heaven gate was extremely strange. A Purple Sun revolved around the top of this heaven gate, and a stream of Purple Qi shot out from the sun and poured into the gate.

At the center of the two mountains of Heaven Gate, the Purple Qi formed a purple eye. When Qin Mu walked into the gate, the purple eye shot out purple qi path chains and pierced through his primordial spirit.

Qin Mu had also stayed in this heaven gate for more than twenty days. He felt that his comprehension of dao realm had become deeper, but he still couldn't let his dao realm advance any further.

He carried the lantern and went back to West Heaven Gate.

The surroundings of West Heaven Gate were all Golden Mountains of divine gold. The golden qi pervaded the air, and the arrangement of the mountains looked like a huge formation. Tens of thousands of rays of golden light shot into West Heaven Gate from the top of the mountains, it formed a strange phenomenon of tens of thousands of rays of golden light crisscrossing inside West Heaven Gate.

Qin Mu had also comprehended for over twenty days in this Heaven Gate, and only after he had comprehended it thoroughly did he walk out.

Among his nineteen heavenly palaces, the four great heavenly gates had been re-cast. Four Great Heavenly Gates had also been erected in the ancestral court, and his cultivation was even more vigorous.

Not only that, he also felt that his understanding of Dao realm had taken another step forward. He only felt that his understanding of the twenty-sixth heaven of Dao realm had taken another step forward. However, he still lacked something when he wanted to enter Dao again.

‘are the four great heavenly gates formed naturally or are they relics from the previous era?’

Qin Mu pondered over it for a moment and shook his head before returning to the Hundred Thousand Black Mountains of the ancestral court. He had just arrived at the Hundred Thousand Black Mountains when an envoy came forward to present the invitation. He bowed and said, “Heavenly venerable mu, the ten heavenly venerates have joined hands to invite the chief of the Heavenly Alliance, Heavenly Venerate Mu, to head to the hall of the Heavenly Alliance and host the meeting of the Heavenly Alliance!”

Qin Mu opened the invitation and indeed saw the signatures of the ten heavenly venerates. However, heavenly venerable Xiao should be his disciple waiting to sign it.

“How many people are there in Heavenly Alliance today?” Qin Mu closed the invitation and asked.

“There are thirteen thousand people.”

The messenger said, “Apart from heavenly venerables, there are also emperors and the leaders of all worlds.”

Qin Mu’s body trembled slightly. The Heavenly Alliance he had founded had now become a colossus that ruled all worlds!

Now, he wanted to overthrow this colossus!

#### **Chapter 1384:**

There were thirteen thousand people present.

They should be the leaders of all the worlds, and they were all members of the Heaven Alliance. It could be said that the Heaven Alliance was the largest power in the world!

Even the Heaven Court was only the ruler in name. The one who truly ruled all the worlds was still the Heaven Alliance!

A million years ago, when Qin Mu had returned to the early years of Dragon Han and proposed the creation of the Heaven Alliance to Heavenly Venerate Ling, he had wanted to overthrow the heaven court so that the postnatal beings, especially humans, would have the right to survive, there would no longer be tragedies like heavenly venerable Yu's, so people would no longer continue the miserable lives of long Han era.

Heavenly Venerate Ling, heavenly venerable Yun, and heavenly venerable Yue had the same goal in establishing the Heaven Alliance.

The Heaven Court had always been there and hadn't been overthrown, but the Heaven Alliance had already become the ruler of the Heaven Court. It was just that this era wasn't much better compared to long Han era.

On the other hand, the Heaven Alliance had evolved into a ruler that was harder to deal with and harder to overthrow than the Longhan Heavenly Court back then!

He put away the invitation. Heavenly Master Yun, the five founding elders of the Heaven Alliance, was dead. Heavenly Master Yue had just recovered from his injuries, but he had already become a traitor. Heavenly Master Ling was reincarnated between life and death, and founding emperor had become a traitor.

Only he, Heavenly Master Mu, could still appear in the Heaven Alliance.

"Therefore, I have to go no matter what!"

On the Heavenly River, numerous ships and ships sailed from all over the heavens toward the heavenly court. Ever since Heavenly Master Mu had designed the psionic bridge, the heavenly river had not been so lively for a long time.

The psionic bridge connected all the heavens, all the heavens, and even the furthest four extreme heavens. They were all connected by the psionic bridge, and they could travel to and from the heavenly court in the shortest amount of time, saving God knows how much time.

Celestial Master Mu had designed the psionic bridge, allowing the heavenly court to rule over all the heavens to an unprecedented height!

In the past, every time the Heavenly Court's divine might descended upon the other heavens, it would be a destruction there. The powerful divine might would crush the world barrier, causing the spiritual energy and spiritual energy of the heavens to drain away.

But now, they only needed the psionic bridge to descend, and it was even faster, making it almost impossible for the various heavens to betray them.

As for the various heavens, they were also more in contact with each other. In just a short ten years or so, business had reached an unimaginable level of prosperity.

It could be said that in the seventeen years since Celestial Master Mu had entered the Heavenly Court, the volume of business and trade of the various heavens had reached the volume of business and trade of more than a hundred thousand years ago.

This time, the rulers of the myriad worlds had rushed to the heavenly court by boat from the Heavenly River instead of directly using the spiritual energy mutual shift bridge. The main purpose was to show off their status and status.

After all, those who were qualified to participate in the Heaven Alliance meeting were all rulers of the universe, so it was natural for it to be lively.

However, it was also because of the frequent business transactions that led to the phenomenon of currency concentration. Especially in recent years, resources and wealth began to gather in the hands of the God families that controlled the trade of the various gods.

And the total wealth of the universe began to gather in the origin world.

In the Heavenly Court and the Jade Lake, there were sacred places everywhere. There were ships coming and going, and all kinds of sacred and joyous conversations. All kinds of delicacies were served like flowing water. There were toasts and exchanges, and beautiful women were as common as clouds.

Every time the Heaven Alliance held a grand meeting, it was held on the Jade Lake, and the Heaven Alliance Hall was also on an island in the jade sea.

It was rumored that that was the place where the Heaven Alliance was founded. It was said that after heavenly venerate ling bade farewell to heavenly venerate mu and heavenly venerate Qin, he met heavenly venerate Yue and heavenly venerate Yun on the Jade Lake. The few of them founded the first Heaven Alliance there, they drafted the most ancient rules of the Heaven Alliance.

At this moment, in the side Hall of the Heaven Alliance Hall, the Second Heavenly Master, Meng Yungui, was flipping through the files sent by the various heavens.

Below him were tens of thousands of heavenly court Daoist priests. The files around each of them were piled up like a mountain. There were two to three Daoist priests proficient in algebra in each of the heavens who were counting the business information sent by the heavens for nearly ten years, after sorting out the statistics, they sent the data to Meng Yungui for him to read.

The files around Meng Yungui had already piled up to the point of drowning him. The Celestial Master suddenly split into eight, divided into eight bodies. Then, with a shake of his body, each of the avatars grew three heads and six arms, four heads and eight arms. His palms flew up and down, his eyes read quickly.

Tens of thousands of Taoists from the heavenly court and Meng Yungui locked themselves in the side hall. It took them more than ten days to read the business information sent by the heavens.

Meng Yungui clapped his hands and said in a deep voice, "Thank you, my colleagues. You have worked hard. Go and rest."

The Taoists bowed to him and walked out one by one. Only the old Taoist master and Meng Yungui were left in the hall.

The old Taoist master looked kind and smiled, "What did Celestial Master Meng Find?"

Meng Yungui rubbed his scarlet eyes and stretched his back. He said with a serious expression, "A great disaster."

The old Taoist master was astonished, he smiled and said, "Now that the great void has calmed down, carefree village and the creator are suppressed in the void at the other end of the Void Bridge. There's no chance of them making a comeback. The situation is great. Why did Celestial Master Meng Say such a sad thing?"

Meng Yungui glanced at him and said seriously, "Teacher, you are my first teacher. Your skills are so good that I can see it. How can you not see it?"

He flicked his sleeve and countless scrolls flew into the air and opened.

The old Daoist master of the Heavenly Court looked at the scrolls and saw that Meng Yungui had drawn the traces on the scrolls with a red brush.

He looked carefully and saw that the places marked by Meng Yungui were the trends of the heavenly coins in the various heavens.

The heavenly coins were the currency of the heavenly court. They were issued by the Heavenly Court's heaven-reproducing palace. Every heavenly coin had a unique imprint of the Heavenly Court. No one could imitate it.

The amount of heaven coins was not fixed, especially in recent years. The Heaven Court issued more heaven coins to trade with the various heavens, and they bought all kinds of divine materials, elixirs, and weapons from the various heavens, they even bought slaves.

And the trade between the various heavens also used heaven coins.

"Teacher, do you see anything?" Meng Yungui asked.

The old Daoist master of the Heavenly Court shook his head with a smile.

"Most of the heavenly coins in the universe have the same phenomenon, and that is the outflow of heavenly coins."

Meng Yungui said in a deep voice, "In the past, there was also the outflow of heavenly coins from the various heavens. That was because the heavenly court had created too many heavenly coins. The various heavens earned too many heavenly coins from the heavenly court, which devalued the value of the heavenly coins in the various heavens."

The old Taoist master of the Heaven court smiled and said, "Therefore, we pushed up the land price and house price of the Heaven Court. We kept pushing up the price and attracted the heaven coins from the Heaven Court. We let the gods and demons in the Heaven Court buy them with Heaven coins. This way, the heaven coins in the Heaven Court would be less. "And the wealth would be gathered in the hands of the Heaven Court. If the heaven coins in the Heaven Court were less, the heaven coins would be worth more."

Meng Yungui nodded, he said, "The heaven coins are gathered in the hands of the Heaven Court, and the Heaven Court will destroy a portion of the heaven coins. "The heaven coins in circulation are becoming less and less, and the land prices of the Heaven Court have a price but no market, so they will naturally fall. As a result, the value of these houses and land will rapidly decline, and the wealth accumulated over hundreds and thousands of years in the various heavens will be reduced to nothing."

The old Daoist master of the Heaven court smiled and said, "The various heavens become poor again, and the Heaven Court will once again create more heaven coins. They will buy divine materials, divine gold, divine herbs, divine weapons, ships, and even buy the mines, land, and population of the various heavens! "Thus, the various heavens have once again become busy with the Heavenly Court's heavenly coins. "We only need to use this method to plunder the accumulated wealth of the various heavens once every thousand years. Then, we can make the various heavens work for the heavenly court continuously

"And the Heavenly Court doesn't need to pay anything. At most, they need to create heavenly coins and destroy them."

Meng Yungui sighed and said, "But now, this method doesn't work anymore."

He waved his hand, the rows of words on the scrolls of the various heavens lit up. "Teacher, please take a look. "These scrolls are the numbers of the wealth of the various heavens flowing into eternal peace empire in origin world every year. "And these numbers are the heaven coins flowing out of Eternal Peace Empire in origin world."

The Old Dao Master of Heavenly Court focused his eyes and looked over. After a moment., he smiled and said, "Eternal Peace Empire in origin world is earning money from the various heavens. They buy raw materials from the various heavens and then sell the refined daily spirit weapons to these heavens, earning quite a bit."

Meng Yungui took out another batch of files and said, "This is the heavenly coins eternal peace empire earned from Heavenly Court."

Old Dao master looked at them carefully and muttered, "Eternal peace also earns quite a lot of heavenly coins from Heavenly Court every year. However, it's not difficult to solve it. Heavenly master Meng only needs to follow the same method and absorb eternal peace's heavenly coins to plunder eternal peace's wealth."

"This is the hardest part."

Meng Yungui sighed. "The country bumpkins of eternal peace don't buy the land and houses of our heavenly court at all!"

He was so excited that his face turned red. "They only bought a house once in the past ten years, and that was to buy real estate for the country Bumpkin Heavenly Master Mu! "This is war, a war against heavenly court against Heavenly Court! "These country bumpkins want to use heavenly coins to destroy heavenly court and Heavenly Court!"

#### **Chapter 1385:**

"Heavenly master Meng is too serious."

Old Dao master smiled. "Most of eternal peace empire is simple and isn't used to spending money lavishly. "This small country has just risen and is used to saving money. "Isn't it easy to turn their wealth into flowing water? "Let the goods-producing heavenly palace continue to create money and create more heaven coins, and their wealth will naturally depreciate. "How much heaven coins we create, isn't it up to the Heaven Court?"

Meng Yungui didn't know whether to laugh or cry. "Teacher, the Heaven Court can indeed create more money, but this money will only depreciate the value of the heaven coins in the various heavens, making their value lower and lower! "Furthermore, these heaven coins will eventually flow to the origin world and into eternal peace! "In the end, the poor people in all the heavens and ten thousand worlds won't be able to live on, so there's only one path."

He said coldly, "That is to rebel

"First, it is the rebellion of the gods of the universe and the rulers of the universe! "The gods of the universe are rich now, and the rulers are even richer. However, if they don't rebel with the gods of the universe in the future, they will be killed by the Rebels! "There is no other way

"And the rebellion of the gods of the universe and the rulers is the rebellion of the Heavenly Court!"

Meng Yungui sneered. "When that happens, the universe and the universe will revolt together. This wave is enough to make the heaven extremely anxious! "No matter how strong the heaven is, can it kill all the rebels in the universe? "When that happens, the people will be angry, and the emperors will have no choice but to rebel. If the heavenly venerate wants to maintain his ruling position, he must withdraw one person and kill him to apologize to the world!"

The old Daoist master of the heavenly court said calmly, "Heavenly master Meng, who do you think will be pushed out to kill him to apologize to the people of the world?"

“This person must have an extremely high position. At the very least, he must be a heavenly venerate. Even...”

Meng Yungui could not help but shiver. He said in a hoarse voice, “It might even be his majesty the Heavenly Emperor!”

The old Daoist master said calmly, “Do you think the tenth heavenly venerate will be happy or sad to push his majesty out to kill him?”

Meng Yungui was stunned and a deep fear suddenly rose in his heart.

Old Dao master looked at him with a smile, he said earnestly, “Heavenly master Meng, I know that you are in his position and are scheming, but you still can’t see the current situation clearly. Eternal Peace Empire was heavenly venerate Mu’s territory. Heavenly venerate mu intended to build a country and gather the wealth of the heavens, but tenth heavenly venerate was also indulging him. No matter how much wealth eternal peace obtained, their strength still couldn’t catch up to Heavenly Court. “When do you think eternal peace will be able to force all the worlds in the heavens to rebel?”

Meng Yungui said solemnly, “In less than a hundred years.”

“A hundred years? That’s too much. In my opinion, they will definitely rebel within fifty years.”

Old Dao master said indifferently, “You are proficient in algebra, strategy, and calculation, but you haven’t reached the limit yet. “Ten heavenly venerates can’t wait a hundred years. They hope that in fifty years, they can get rid of heavenly emperor, all the ancient gods, and all the obstacles! “As for eternal peace, can it grow into a colossus that can contend with Heavenly Court in fifty years?”

Meng Yungui opened his mouth but didn’t say anything. He then shook his head and said, “No.”

Old Dao master continued, “Then after ten heavenly venerates depose heavenly emperor, they can level eternal peace without wasting any strength.”

Meng Yungui couldn’t help but shiver.

The Old Dao master smiled. "Heavenly Master Meng, you have to figure out what's on your mind. You can turn a blind eye to this matter. In the future, when the world changes, you can also protect yourself. "You have to know that when ten heavenly venerates kill the Heavenly Emperor, they also need a portion of experts to apologize and offer sacrifices to the heavens. "Do you want to become that sacrifice? "The path of Heavenly Masters is very dangerous. In history, there have been more than ten heavenly masters who sat on your position. "Some of them died inexplicably."

Cold Sweat rolled down Meng Yungui's forehead, and he did not dare to speak.

The old Daoist master patted his shoulder and turned to walk out of the side hall, leaving Meng Yungui sitting in his seat dejectedly.

After a moment, the old Daoist master came to the side Hall of the Jade Lake small building. He bowed to an old Daoist and said, "Daoist ancestor."

The old Daoist was the Daoist ancestor of Dao sect. He was playing chess when he raised his head and said leisurely, "Is it done?"

"Meng Yungui has a deep understanding of Haotian Taoism's three samadas and is very knowledgeable. He can see the general trend of the world in the next fifty years."

The Old Dao Master of the heavenly court praised, "However, I have already let him know how powerful he is. He will hide it and not report it."

The dao ancestor played chess and said with a smile, "If he insists on reporting it, then he will have to ask the great monk to clean his memory."

On the other side, he was playing against the Brahma Heavenly King and Buddha, he chuckled and said, "Meng Yungui is a genius of the Dao sect and has the potential to become the number one celestial master in the future. It's not surprising that he can see through the means of Celestial Master Mu. "If you are still worried, I can let him enter a dream and let him forget this experience."

"There's no need for that."

The dao ancestor stared at the chess board and waited for him to put down the chess piece, he smiled and said, "He knows how powerful he is. He won't report it to the tenth heavenly venerate. "Moreover, the tenth heavenly venerate does have the intention to rebel. They are about to cultivate to the heavenly court and have also cultivated to the divine weapon heavenly venerate royal. They definitely

won't push the heavenly monarch out. "If they want to become the real heavenly monarch, they also need a reason to get rid of the heavenly monarch, even if this heavenly monarch is just an imitation."

The Brahma heavenly king stared at the chessboard. After a moment, he flicked his sleeve and said, "I lost, I lost! Your algebra is too strong. I Can't Beat You!"

He looked at the hall of the Jade Lake small building, he said with a sigh, "Back then, this was the place where heavenly venerate mu waited for heavenly venerate royal to pass down his skills. Heavenly venerate mu passed down his godly skills to the whole world and made supreme merits. "Today, there are not many gods and demons who come here to remember his achievements. It's so quiet that only the two of us old bones are left here to play chess."

The dao ancestor stood up and said in a low voice, "I still remember heavenly venerate mu fiddling with my compass. Even now, I still remember that God's finger."

The Brahma Heavenly King said with a smile, "I still remember how he filled my alms bowl with panaceas. I asked for Panaceas, but I only cultivated. He gave me so many, but he didn't know that I only needed two or three. "Thus, I directly gave him the immeasurable calamity scripture and only gave it to him to use. I didn't teach him any techniques. "However, I don't know if he has comprehended Buddha Path Heavenly Palace."

The two of them looked at each other and smiled.

At that moment, Qin Mu came to Father Creation Heavenly Palace through Spirit Energy Mutual Shift Bridge. Shi qiluo welcomed him and said with a smile, "Heavenly venerate mu, please wait for a moment. Can you come to my palace to have a small meeting?"

Qin Mu's expression changed drastically. He really didn't want to be alone with him, so he was about to decline when Shi Qiluo clenched his fist that was as big as a small mountain, and his knuckles crackled.

Qin Mu could only walk into the heavenly palace with him. The two of them sat down, and Shi Qiluo sighed. "Heavenly venerate mu, Ai Jia has been exposed. I'm afraid all ten heavenly venerates know my identity."

Qin Mu couldn't help laughing. "Empress, Why Do You Call Yourself Ai Jia?"

Shi Qiluo rolled his eyes at him with hidden bitterness, "I've lost my husband, and my reincarnated husband has also been exiled by you, so of course I call myself Ai Jia,"he said sorrowfully. "Heavenly

venerate mu, you have to think of an idea for him, or else tenth heavenly venerate will have to use Al Jia as a sacrificial knife in this heavenly alliance meeting!”

Qin Mu said solemnly, “Even though I’m Alliance Master, I Can’t protect myself. This time, I’m afraid even I will have to...”

Shi Qiluo grabbed his hand and shook it back and forth, almost breaking him apart. “Help me, I’ll give myself to you...”

“Stay!”

Qin Mu’s expression changed drastically and he immediately said, “Let me think... I’ve thought of it, let go of Me First!”

It’s time to beg for a monthly pass at the end of the month. Brothers and sisters, it’s almost new year, those who have monthly passes should hurry up and vote. The otaku pig will be on the table for you to eat during the new year! ~ ~
