

Tales of Herding Gods Chapter 1396-1400

Chapter 1396:

Celestial Master Gong had attacked Celestial Master Yue in the same way that Celestial Emperor Langxuan, ancestral god King, Celestial Master Fire, Celestial Master Hao, Celestial Master Xiao, and the others had ambushed Celestial Master Yue and Celestial Master Ling, they had used their divine senses to interfere with Celestial Master Yue!

Celestial Master Yue's Dao of space was not unassailable. Her divine senses were the best way to interfere with her divine powers.

Heavenly venerate Yue's divine consciousness was in disorder, so her control over her divine arts wasn't that precise. In fact, she couldn't even unleash the power of the path of space, which would give others a chance to take advantage of her!

This was the reason why Qin Mu had to stop heavenly venerate gong!

Heavenly Venerate Gong's divine consciousness was powerful, and the instant it collided with Qin Mu's, his divine consciousness instantly fell into the illusion.

Heavenly Venerate Gong had unparalleled attainments in the illusion of divine consciousness. When Qin Mu had first met her in the ancestral court, he had fallen into her illusion of divine consciousness. Even when he had executed primordial stone, he hadn't been able to escape from it.

"Divine consciousness path goes first!"

Qin Mu's body still stood on the spot, and his divine consciousness burst forth to transform into a divine consciousness divine art.

Divine consciousness path went first, entering the Sixteenth Heaven of Divine Art!

His divine consciousness tore through the air and escaped from heavenly venerate Gong's divine consciousness illusion. Heavenly venerate gong let out a soft exclamation, and the instant their divine consciousness collided, they instantly communicated with each other. They both knew each other's intentions.

"Heavenly venerate gong, are you really going to make a move?"

"Heavenly venerate mu, you might have a preconceived idea and think that I'm your ally. After all, I saved you before. "However, you forgot one thing. I saved you because you saved me before. I'm just repaying your kindness. After repaying your kindness, you and I would have nothing more to do with each other. Between you and me, there's only a deal left."

Celestial Master Gong's divine consciousness rushed towards Celestial Master Yue once again. Qin Mu circulated his divine consciousness and tried his best to block it.

“Celestial Master Mu, have you really not thought about it?”

The divine consciousness of the two of them collided once again, “You should think about it,” Celestial Master Gong said. “Why can I stand among the ten celestial masters and not fall? “It’s precisely because my interests are the same as the ten heavenly venerates’, which is why I joined them. “And the reason why they can accept me is because I agree with most of what they have done.”

Qin Mu’s body trembled slightly.

Heavenly venerate gong immediately sensed the flaw in his divine consciousness and suppressed it, “I’ve also participated in most of the things they have done. “Including the things you don’t want to see. For example, the Battle of Heaven Han’s Heavenly Court, the Battle of Crimson Light Divine Empire, the Battle of High Emperor’s Heavenly Court, and the Battle of founding emperor’s Heavenly Court. “I’ve participated in all of them.”

Qin Mu finally couldn’t hold it in any longer. He stood up and rushed straight for heavenly venerate Yue, his divine treasure territory bursting forth!

“All the paths, skills, and divine arts in the world, with heavenly venerate Yue’s Dao of space as their support, can be said to be matchless supporting paths. They can greatly increase a person’s cultivation, allowing founding emperor to have the upper hand in a one versus five battle!”

Qin Mu’s divine consciousness fluctuated and collided with heavenly venerate Gong’s divine consciousness once more, “However, heavenly venerate Yue’s divine arts, paths, and skills are already outdated,” he said coldly. “In today’s world, in terms of support, no one can beat my divine treasure territory! When my divine treasure is spread out, it’s enough for them to stand in an undefeatable position and fight against ten heavenly venerates!”

“However, your cultivation is too weak!”

Heavenly Venerate Gong’s body moved and blocked his path. “Heavenly venerate Mu, stop. You are still one of us, and you will benefit endlessly!”

The speed of the two of them was extremely fast. Qin Mu’s god step pilfered the heavens, and when his speed reached its peak, he could almost ignore space. However, heavenly venerate gong was powerful, so no matter how fast he was, it was difficult for him to reach heavenly venerate Yue’s side before her.

When the two of them saw that their bodies were about to collide, heavenly venerate Yue suddenly executed a divine art and moved away from Emperor. At the next moment, founding emperor appeared in front of the two of them, and carefree sword attacked them at the same time, he laughed loudly and said, “The seven great heavenly venerates have attacked us together, and even the Great Alliance master, Heavenly Venerate Mu, has also attacked us. They have really given us face!”

Heavenly Venerate Gong’s expression changed drastically, and he hurriedly blocked founding emperor’s sword. On the other side, Qin Mu pulled out his sword, and the broken sword met with carefree sword.

Ding

The two of them had a showdown in their sword skills. Qin Mu had broken founding emperor's sword skills, but it was difficult for him to fight against founding emperor's sword path. The Broken Sword in his hand instantly shattered into pieces!

"Good sword skill! What I learned from you still can't compare to you after all."

Founding Emperor forced the two of them back and stabbed heavenly venerate Yue with his sword. Heavenly venerate Yue's body floated up and landed on the tip of carefree sword with the zither in his arms.

"Heavenly venerate mu, chief of Heaven Alliance, you have already betrayed Heaven Alliance!"

Founding emperor brandished his sword, and sword light flashed. Sword path was imprinted on the thirty-fifth void. Fire, Hong, Xu, Lang, ancestor, Gong, Qiang, Yan, and the other eight heavenly venerates rushed over, but they missed.

The founding emperor and Celestial Master Yue, who were standing on the sword, had already invaded the 35th void, avoiding their attacks.

Celestial Master Hong's white hair fluttered in the wind, and his large hand slapped toward the 35th void. The back of his hand was like the back of a turtle, and his flesh and blood bulged out. The flesh and blood on the back of his hand actually turned into all kinds of mysterious and extraordinary patterns, piercing through layers and layers of void, it went straight for the founding emperor and Celestial Master Yue, who were in the 35th Void!

The power of this strike was so powerful and terrifying that it did not diminish even after shattering layers of void. The other heavenly venerates' eyes twitched at the sight of it.

Gong, Qiang, Yan, Huo, and the other heavenly venerates also attacked at the same time. They went straight into the depths of the void through the tunnel that heavenly venerate Hong had created and blasted toward the two people in the 35th void. How terrifying was the attack power of the eight heavenly venerates, how overbearing!

If their attack was to be carried out, it was likely that both founding emperor and heavenly venerate Yue would definitely die!

However, when founding emperor used his Sword Dao to reach the 35th Void, heavenly venerate Yue's divine ability exploded. He plucked the zither strings, and a door immediately appeared in the 35th Void.

Heavenly venerate Yue opened the door and left. Founding Emperor also entered the door and looked at the divine ability of the heavenly venerate that was surging through the 35th void, he laughed and said, "Heavenly venerate mu, league master Mu, I caused a ruckus at your grand meeting today. I cut off your face with my sword, but you could do nothing about it! You Ten Heavenly Venerates and the League Master of the Heaven Alliance can't do anything to us, right?"

He turned around and walked into the door. He laughed and said, "Your Heaven Alliance, I can come and go as I want. You have ten heavenly venerates under you, but they are useless! I am ashamed of you! Goodbye!"

Boom

Intense divine arts shockwaves came from the depths of the void. The Divine Arts of the eight heavenly venerates exploded there, but they hit nothing, causing the thirty-fifth void to tremble continuously.

Qin Mu's face turned green as he took a few quick steps forward. His sleeves trembled back and he raised his head to look at the void. Founding Emperor and Heavenly Venerate Moon had already disappeared without a trace.

Xu, Hong, Huo, Yan, and the rest of the heavenly venerates were about to chase after them when heavenly venerate vast gave a cold snort and raised his palm. "There's no need to chase..."

"Don't chase after the enemy!"

Qin Mu said loudly, "Heavenly Venerates, today is a big day for the Heavenly Alliance. There's no need to haggle with Qin ni and Yue Ni. The meeting is more important!"

The few heavenly venerates also knew that heavenly venerate Yue's divine arts were vast. As long as they jumped out of their encirclement, they would have no chance of catching up to her.

Furthermore, there was founding Emperor Qin Ye and Heavenly Venerate Qin, so even if they caught up, they wouldn't be able to do anything to them without forming an encirclement.

The few heavenly venerates returned with uncertain expressions.

Qin Mu raised his hand and invited everyone to take their seats. "Qin ni and Yue ni are indeed extraordinary divine arts. This time, we treated them with courtesy, yet they caused a ruckus in Heavenly Alliance. They truly have wild ambitions! Heavenly venerate fire, are your injuries serious?"

Heavenly venerate fire had hundreds of sword wounds on his body, and when he heard that, he snorted coldly.

Qin Mu sighed. "I'm also injured. Everyone, it's because I, the alliance master, AM incompetent that I can't protect everyone, causing heavenly venerate fire to be injured as well."

He raised his right hand, and when the broken sword was shattered by founding emperor, his palm was also shaken until it was dripping with blood. It was a very miserable sight.

Qin Mu's right hand trembled, his voice was hoarse as he said, "Even though I'm the founder of the Heavenly Alliance, my abilities are weak, so I'm afraid it's difficult for me to take the position of Alliance Master. Today, Qin Ni and Yue ni have attacked, so I can't protect the Heavenly Alliance and am willing to resign from the position of Alliance Master!"

Two streams of tears flowed down his cheeks as he sobbed softly. However, his voice was too low, so it was difficult for others to hear what he was saying. However, it was clear that he was reluctant to give up the Heaven Alliance that he had founded. Yet for the future of Heaven Alliance, he had no choice but to give up the position of Alliance Master.

After a moment, Qin Mu roused his spirit once more, "I will protect heavenly venerable vast heaven and take over the position of Alliance Master!" Heavenly venerable clear sky was highly respected and was also the founder of five elements divine treasure. As the Alliance Master of Heavenly Alliance, he would eradicate the heavenly duke in the future and take revenge for heavenly venerable royal. Realizing the ambitions of Heavenly Alliance was just around the corner

His gaze was earnest as it landed on heavenly venerable clear sky.

The corners of heavenly venerable clear Sky's eyes twitched as he said solemnly, "The position of alliance master doesn't rely on martial strength, but on talent, merit, and reputation. I'm inferior to heavenly venerable clear sky in all three aspects. Heavenly venerable clear sky, you don't have to blame yourself and reject me."

Qin Mu had a difficult expression, he looked at heavenly venerable fire. "Heavenly venerable vast is a man of integrity. Heavenly venerable fire was the founder of Celestial Being Realm. He had five pairs of celestial beings and great merit and wisdom. He had guided the human race in the darkness time and time again, exterminating heavenly venerable cloud, bright emperor, high emperor, heavenly venerable moon, heavenly venerable ling, and the rest of the rebels. Even though heavenly venerable fire was a human, he didn't side with the human race. His noble character was admirable. "The position of the chief of the Heavenly Alliance..."

Heavenly Venerable Fire's eyes were tightly shut as he suppressed his anger. The flame wheel behind his head twisted as he said in a hoarse voice, "I'm inferior to heavenly venerable Mu."

Qin Mu looked at heavenly venerable Hong with eagerness again.

Heavenly venerable Hong smiled. "Heavenly venerable mu, there's no need to decline. I'm a great saint of the demon race. Without merit, it's hard for me to take the position of Chief."

Qin Mu looked at Imperial Consort Yan, who shook her head and said softly, "As the imperial consort of His Majesty, it's not appropriate for me to show my face in public. Heavenly venerable mu is highly respected and the position of chief is well-deserved. There's no need to decline."

Qin Mu's gaze swept across the faces of the other heavenly venerables. Ancestral god King, Divine Emperor Lang Xuan, and Consort Qing Tian shook their heads and rejected each other.

"Everyone Loves Me."

Qin Mu sighed in disappointment and shed tears again. "I can only force myself to do so and temporarily take the position of Alliance Master. If there's a day when everyone feels that their reputation is better than mine, there's no need to kill me. Just say the word and I'll abdicate and give up my position."

He looked around, his face grave, deep voice way: "Just now fire heavenly venerable said the heavenly Duke's great evil, want to crusade the Heavenly Duke, the heavenly duke and Qin Ni related.". Then today's first major event, is to set down a crusade against the heavens! Ancestor God King, you draw up the denouncement of God, calendar several days of God's sin!"

When the ancestor god King heard this, he couldn't help being stunned. He had clearly already handed over the warrant to Qin Mu, so why did he have to hand it over again?

"After scheming against fire heavenly venerate, this fellow still wants to scheme against me!"

The ancestor god King was furious, but his expression didn't change. He raised his brush to write a book on the spot and quickly wrote the demand demand letter to hand over to Qin Mu.

Qin Mu took a look and praised, "His literary talent is outstanding."

At eight thirty tonight, the otaku pig would send red packets to everyone in his book friends to wish them a happy new year, so don't miss it

Chapter 1397:

What made all the heavenly venerates let out a sigh of relief was that Qin Mu didn't make any more trouble. Instead, he read out the decree of Conquering Heavenly Duke prepared by the ancestor god King.

Qin Mu was also afraid that if he made another scene of heavenly venerate Qin and heavenly venerate Yue causing a ruckus in Heavenly Alliance, heavenly venerate vast heaven and the rest wouldn't be able to hold back the Fury in their hearts and kill him on the spot!

The ten heavenly venerates were all smart people and could see that founding emperor Qin Ye and heavenly venerate Yue had come at the behest of Qin Mu. Otherwise, even if the Heavenly Alliance assembly alarmed all the worlds., it wouldn't have spread to carefree village in the other side of the void and alarmed founding Emperor Qin Ye.

Furthermore, founding emperor and heavenly venerate Yue had come at the perfect time and cooperated closely with Qin Mu's words to undermine the prestige of the ten heavenly venerates and win over the hearts of the people of Heavenly Alliance. Every move and move of the sword had a point.

Clearly, only the 'Mole' of Heaven Alliance could have such a clear grasp of the internal situation of the ten heavenly venerates of Heaven Alliance and the direction of the hearts of the people of Heaven Alliance.

And this 'Mole' of Heaven Alliance could naturally only be the Alliance Master of Heaven Alliance.

It was fine if Qin Mu took it as he saw fit, but if he didn't take it, then the ten heavenly venerates could only take it for him. Of course, what they took was his life.

The crusade against the Heavenly Duke was naturally a huge matter, and it caused an uproar.

However, this matter had already been decided by ten heavenly venerates. Even if there were any objections, the other members of Heaven Alliance, including Dao ancestor and Great Brahma, didn't have any right to speak. They could only listen.

With ten heavenly venerates giving the order, they could only do it. If they had second thoughts, the consequences could be imagined.

Qin Mu then announced the second thing, which was the addition of a new heavenly venerate.

Creator Heavenly Palace Shi Qiluo was a person of great virtue and prestige. His Dao was profound and unfathomable, and his virtue was perfect. He had entered the Heavenly Alliance and become the eleventh heavenly venerate.

When he said this, there was another uproar. When Shi Qiluo's five big and three sturdy men came up to the stage to meet Qin Mu, heavenly venerate vast, and the other "Seniors" in the second heavenly court, they attracted even more criticism.

Many people in the heavenly court knew the name of palace master Shi Qiluo. He was a bandit who liked to flatter people and criticize them harshly. His cultivation was unknown, but he kowtowed like garlic to the people above him, he was stern to the people below, but he also liked to be greedy and ask for bribes. His reputation was disreputable and vile.

If it wasn't for his abilities, no one else would have been able to study the divine weapon of creation thoroughly, but he could control it. No one would have a good look at him.

The tenth heavenly venerate had always been the tenth heavenly venerate. There had never been a new heavenly venerate. Even if there had been, in everyone's eyes, it should have been the dao ancestor and the Great Brahma. Shi qiluo, this uncouth and uncouth man, would never have been given the chance.

However, Shi Qiluo had received the approval of the tenth heavenly venerate and became the eleventh heavenly venerate. One couldn't help but sigh, "The path of flattery. Shi Qiluo has already cultivated the Great Heavenly Court."

The decree of the Heavenly Emperor was also sent to the Heavenly Alliance Assembly at the right time, and Shi Qiluo was given the title of the eleventh heavenly venerate. Everyone was happy.

Qin Mu invited Shi Qiluo to take a seat and announced the opening of the ancestral court and the back of the ancestral court, causing a commotion in all the worlds.

This matter concerned the interests of the rulers of all the worlds, and the benefits of the ancestral court and the back of the ancestral court were extremely great. They had always been controlled by the tenth heavenly venerate and Qin Mu, so no one else could get a share.

Now that Qin Mu had announced the opening of the back of the ancestral court and the back of the ancestral court, the hearts of the people naturally gathered together, and everyone was happy.

‘opening up the back of the ancestral court and the back of the ancestral court are one and the same thing as establishing the Beast World, but heavenly venerate mu has split them into two things to buy the hearts of the people. This brat is no longer someone that can be easily controlled,’ all the heavenly venerates looked at each other, they thought to themselves.

When Qin Mu announced this matter, the hearts of the people would naturally go to Qin Mu. This was the privilege of the Alliance Master.

However, even though Qin Mu could win the hearts of some people, his power and position were built on his abilities and influence. Without them, everything would be empty talk.

The rulers of the heavens weren’t fools, so they wouldn’t join Qin Mu just because of this.

The hearts of the people weren’t worth much.

Qin Mu announced the establishment of the Beast World and invited Long Xiao to explain the operation of the Beast World and the relationship between the summoners and the primordial behemoths.

This was naturally a huge event that caused a stir and made the rulers of the various heavens feel excited. Summoning the primordial behemoth to battle would definitely raise the abilities of divine arts practitioners and gods!

After these two major events were announced, the impact brought by the crusade against the Heavenly Duke was finally dispelled.

Following that, Qin Mu announced publicly that Crown Prince Ming Ya had joined Xie Wuqi and betrayed the heavenly court. There was no crown prince in the Heavenly Court today, so the Heavenly Emperor had conferred heavenly venerate Haotian as the crown prince.

This matter made everyone look at each other in dismay.

The crown prince naturally couldn't compare to heavenly venerate. Heavenly venerate was a noble person who controlled the power of the Heaven Court and divided the world. The heavens were loyal to him, and there were countless gods under him.

On the other hand, the crown prince was famous but had no power. His status was inferior to heavenly venerate, so he had to bow to heavenly venerate as if he was meeting the heavenly emperor.

The fact that heavenly venerate Haotian was the son of the Heavenly Emperor wasn't a secret in all the worlds. However, since heavenly venerate Haotian was willing to be the crown prince, it made people think about the reason behind it.

"After getting rid of the Heavenly Duke, I'm afraid that it won't be long before the tenth heavenly venerate attacks the heavenly emperor."

Someone saw through the situation, he thought to himself, "The tenth heavenly venerate wants to get rid of all the ancient gods once and for all and seize power! However, what was puzzling was that His Majesty the Heavenly Emperor couldn't see it? Why did he still make heavenly venerate Haotian the crown prince? Could it be that heavenly venerate Qin's words were true?"

Back when founding emperor had cleaved apart the heavenly court with his sword, he had once challenged the heavenly emperor and mocked him for being a puppet. The Real Heavenly Emperor had long been killed by the tenth heavenly venerate.

The information revealed in this made people's hair stand on end!

However, the power of the tenth heavenly venerate towered into the sky, and it was quickly suppressed.

Now, from Crown Prince Ming Ya's defection to heavenly venerate vast heaven becoming crown prince vast heaven, it was likely that there was a reason for this.

Qin Mu's announcement of these four important matters was very particular about the sequence. The crusade against Heavenly Duke was placed first, causing shock and showing that heavenly venerate execution had nothing to do with him.

Opening the ancestral court and establishing the Beast World were placed in the middle to buy the hearts of the people.

As for the Crown Prince, he was placed last, causing the rulers of all the worlds to ponder.

After the meeting of the Heaven Alliance ended, the fourth matter would cause the rulers of all worlds to discuss it for a long time. It would cause heavenly venerate vast being's position in everyone's hearts to decline by a lot, and it would also cause the reputation of ten heavenly venerates to fall.

Furthermore, once the news of the Heavenly Emperor's death spread, all sorts of rumors would spread at an extremely fast speed, and the image of the ten heavenly venerates would be greatly reduced.

This was a battle to attack the heart. If the order of the announcement of the four important matters was slightly changed, it wouldn't have such an effect.

Qin Mu had gone through the baptism of nine prison platforms, so his dao heart was pure and his wisdom was enlightened. That was why he could turn the tides unintentionally and turn the great situation of the ten heavenly venerates into a disadvantage with just a few words.

Dao heart and Dao realm were not valued by divine arts practitioners and gods since ancient times. However, in the future, more and more people would value dao heart and Dao realm.

There were also people who could see further, 'since the heavenly emperor is a puppet and not the real heavenly emperor, with ten heavenly venerates' victory in hand, who will be the heavenly emperor when the overall situation is set in the future? 'after all, there are eleven heavenly venerates... in the future, not only do we need to stand between the Heavenly Emperor and the ten heavenly venerates, we also need to stand between the ten heavenly venerates!'

"If we stand on the wrong side, we will never be able to recover!"

"In the future, even if the ten heavenly venerables flatten the ancient gods, the world will not be at peace. On the contrary, the battle will be even more intense and fierce! We have to make preparations as soon as possible!"

At the Grand Meeting of the Heavenly Court, the ten heavenly venerables' expressions were as warm as spring wind, but their hearts were not calm.

Unknowingly, Qin Mu had already become a difficult opponent, and this opponent had even infiltrated into their midst to call them brothers and split their benefits!

'but back then, heavenly venerable Yun, who was even harder to deal with than him, also died in our hands. The current heavenly venerable mu isn't even comparable to heavenly venerable Yun, so it would be wishful thinking if he wanted to overturn the sky with a single hand!'

The ten heavenly venerables had their own plans in their hearts, calculating the gains and losses.

After this grand meeting, all the worlds in the heavens and ten thousand worlds would see the potential of eternal peace reform and founding emperor's reform. There would probably be even more people who yearned for eternal peace reform and founding emperor's reform, trying to absorb the results of the reform.

The situation was gradually getting out of control. They had to strictly forbid the other heavens from following eternal peace and founding emperor's reform. At the same time, they had to quickly sneak into eternal peace so that their clones could absorb more of the results of the reform to prepare for the future and seize the upper hand!

In the future, even if the great momentum of the reform was overwhelming and unstoppable, they would still be at the peak of the world and the pinnacle of power because they seized the upper hand!

Eternal Peace, a small place, had already become a place that would affect their future!

"But no matter how things change in the future, it won't affect our status! We will still be the top predators of this world!"

After the Grand Meeting of Heaven Alliance came to an end, undercurrents surged. Establishing the Beast World was a big matter and it was difficult to do so easily.

The Beast World needed to unify the back of the various worlds and move the giant beasts on the back of the ancestral court to the Beast World.

In addition to the need for the ten venerables and long Xiao to open the seal on the back of the ancestral court, they also needed to open the back of the sealed worlds.

For the current heavenly court, it was not difficult to do these things.

The back of the ancestral court and the various worlds were sealed by the ancient gods of the primordial era when the Heavenly Emperor first joined forces with them. The strength of the Heavenly Court had already far surpassed that of the past.

However, to reach this step and unify the back of each world into a beast realm, only the primordial beasts could live there. They couldn't allow other races to enter, and they still needed to develop new sealing divine arts.

This wasn't difficult for tenth heavenly venerate and the sacred ones in Heavenly Court. Tenth heavenly venerate handed this matter over to Dao ancestor and Heavenly Court's Dao sect.

Qin Mu then had some free time to sit in heavenly venerate Mu's manor and cultivate, comprehending more uses of the realm of nine hell stage.

From time to time, the rulers of the heavens would come to visit, but they would all be blocked by Qin Mu's orders. He looked like he was cultivating without any competition.

When the tenth heavenly venerate established the beast world, he was excluded, but Qin Mu didn't take it to heart. As long as he grasped the summoning divine art, it wasn't a big deal even if he didn't participate in the construction of the Beast World.

Half a year later, the tenth heavenly venerate established the beast world. Long Xiao led the primordial beasts into the Beast World, and the first God successfully summoned the first primordial beast. When the Primordial Beast returned to the Beast World, it caused a commotion in all the worlds in the heavens.

Only then did Qin Mu walk out of heavenly venerate Mu's manor.

He looked around and saw some gods in the heavenly court summoning the primordial behemoths. They were riding on the behemoths happily.

The discussions on the streets were all about summoning the primordial behemoths and the wealth of the ancestral court. There were already quite a number of people moving to the ancestral court, preparing to settle there and exploit the wealth of the ancestral court.

There were even rumors that His Majesty the Heavenly Emperor had summoned ten heavenly venerables to discuss and prepare to move the heavenly court to the ancestral court.

Qin Mu walked toward God Emperor Lang Xuan's Lang Xuan Divine Palace, and another huge beast descended from the sky. A young god was overjoyed and cheered endlessly. He should be the one summoning the primordial huge beast.

"Long Xiao, don't disappoint me, or else when you meet my brother in the future, it will really be your death date."

Qin Mu's gaze flickered, and he came to Lang Xuan Divine Palace. God Emperor Lang Xuan came out to welcome him, and the two of them took their seats in Ling Xiao Hall. Qin Mu stated his purpose for coming and said, "I want to borrow god Emperor's ancestral court's Jade Lake Jade platform."

God Emperor Lang Xuan's gaze flickered, and he held his teacup. He glanced at the expression on Qin Mu's face and didn't let go of any changes in his expression as he sipped his tea, he smiled and said, "Heavenly venerate mu, you are a person who will stick your needle in every chink. Even the slightest bit of fishy smell will make you rush over. There must be a reason why you want to borrow my Jade Lake. What benefits do I have?"

Qin Mu smiled. "My Great Black Mountain will also let you comprehend for a few days. How about this benefit?"

Divine Emperor Lang Xuan laughed loudly and put down the Teacup, he said leisurely, "Your Poor Mountains and rivers are filled with unruly people, so why would I go to your place?" "Heavenly venerate Mu, I won't Bully You.". "I'm learning the reform in your eternal peace, so there are many difficult problems in paths, skills, and divine arts that I can't solve. It's a pity that I can't find Jiang Baigui or Emperor Yanfeng to help me solve them. "You are heavenly venerate mu, the last of the three heroes of eternal peace reform, so you can explain it to me personally!"

Qin Mu had a difficult expression, "Even though I'm one of the three heroes of eternal peace, I've already been out of date for many years. If you want to learn the best, I'll recommend a teacher to you. His name is Xu Shenghua and he will teach you. "Xu Shenghua is at the great black tree of the ancestral court..."

Divine Emperor Lang Xuan sneered. "Don't try to fool me with people who are indecent! Teach him yourself, or else don't even think about stepping into my Jade Lake!"

— on the first day of the Lunar New Year, happy year of the pig, otaku pig wishes everyone a happy new year! In the New Year, I wish everyone a happy year of the pig and all the best. The Golden Pig welcomes the new year, and the money will roll in! Yesterday, God Shepherd's memory had another silver union leader, and they were just in time to thank him for the tip!

Chapter 1398:

"Xu Shenghua isn't three or four?"

Qin Mu was stunned and only recovered after a moment, he smiled and said, "Even though Xu Shenghua's cultivation and abilities are inferior to mine, he is the one who has the best understanding of eternal peace reform. Even I am slightly inferior to him. "I guarantee he will teach you and he will definitely let you understand everything in a short period of time. What he is best at is being inclusive and expanding."

Divine Emperor Lang Xuan shook his head. "If his cultivation is inferior to yours, that means he hasn't understood eternal peace reform. Heavenly venerate mu, I know you have always been sinister and cunning, so there's no need for you and I to have these little plans."

Qin Mu was helpless and could only say, "If you don't mind my rudeness, I can teach you."

Divine Emperor Lang Xuan's gaze flickered. "You also know that heavenly venerate's horizons are extraordinary. If you dare to misinterpret it, the deal between US will be written off! "My divine vitality is invincible with a single finger. I only need to leave a divine art in ancestral court's Jade Lake, and if you dare to barge in, I'll kill you!"

Qin Mu smiled. "Don't worry, even though I'm often misunderstood by others, I'm still a good person in my bones."

Lang Xuan laughed and raised his teacup. Qin Mu also raised his Teacup, and the two of them finished it in one gulp. Qin Mu stood up and said, "Then let's set off for ancestral court now. God emperor, we'll slowly communicate on the way."

Celestial Emperor Lang Xuan smiled. "I have a batch of ships going to the ancestral court, so we'll be traveling together on the way."

Qin Mu's heart moved slightly. "Tenth heavenly venerate has already started to transport gods and devils to the ancestral court?"

"Now, the situation of the ancestral court is great. There are no more evil void beasts, and there's no supreme emperor who can control the Void Mother Beast. There are also no primordial behemoths on the back of the ancestral court, so everything is peaceful. It's the time to migrate people to the ancestral court."

Divine Emperor Lang Xuan didn't hide it from him, "Now, other than heavenly venerate Xiao's power that hasn't made a move, the other heavenly venerates have already migrated people to the ancestral court. Furthermore, the heavenly court will migrate there sooner or later. Does heavenly venerate mu not have any thoughts?"

Qin Mu was indeed tempted.

The ancestral court was filled with treasures and divine mountains. It was a place that had to be fought for in order to fight for the world!

By controlling ancestral court, he could control the world!

Even though eternal peace's current strength was weak, it would definitely become stronger in the future. If he didn't enter ancestral court, he would be cutting off his own future.

However, there was also a great danger hidden in ancestral court. It was even more dangerous than ten heavenly venerates!

The living beings that died there, no matter what race or cultivation level, would become the sacrifices of the old monsters of the previous era and speed up the process of their invasion!

"From the current situation, the peace of the ancestral court can't be maintained for long."

His gaze flickered. "The temporary peace can be maintained, but in the future, when ten heavenly venerates get rid of Heavenly Duke, Earth count, and the other ancient gods, they will definitely make a move on each other and fight for the orthodoxy of Heaven and earth. "At that time, I'm afraid that the ancestral court will also have to kill until rivers of blood flow!"

It was inevitable for the forces of ten heavenly venerates to enter the ancestral court, and it was also inevitable for the heavenly court to enter the ancestral court!

“Since that’s the case, eternal peace must also enter the ancestral court! If we lose a chance, we might lose everything. Eternal peace can not miss any chance!”

He pondered for a moment. Now that ten heavenly venerables were moving to the ancestral court, the strength of the ancestral court must be in a state of chaos. Each of them would snatch the treasure land and the place where they could rest and develop.

If eternal peace wanted to go, they had to go early.

He pondered for a moment and wrote a letter in his hand, ordering someone to send it to eternal peace and pass it to Ling Yuxiu.

After more than a month, Emperor Lang Xuan prepared a ship. It was a fleet of several hundred ships, and each ship was like floating land. There were even buildings on the ship that could support hundreds of thousands of people!

Furthermore, there was a complete ecosystem on the ship that could be cultivated. There were even gods that created the sun and the Moon. The Sun would rise and the Moon would set, revolving around the ship!

Such a ship could support hundreds of thousands of people floating in the universe for thousands of years, and it could even maintain the balance of the ecosystem!

Such a fleet could hold 150 million people, and it was enough to support the migration of all the people in the heavens!

Qin Mu couldn’t help praising heavenly venerate’s wealth. The amount of divine gold and divine materials used to build such a fleet was countless, and even the ordinary heavens couldn’t support such a fleet!

Divine Emperor Lang Xuan saw his expression and smiled. “Heavenly venerate mu, you’re still young and have a chance, so there’s no need to envy us. Right, how many people does eternal peace plan to send to the ancestral court?”

Qin Mu pondered it for a moment and said, "I've ordered people to inform Emperor Yanxiu to prepare the population. The more, the better. I wonder how many people she has prepared."

Divine Emperor Lang Xuan smiled. "Even though eternal peace is rich and has sufficient financial resources, the skills to build such a turreted ship are still insufficient. "In the world today, the best ships aside from carefree village's traitors' Nirvana Ark are the huge ships of the heavenly court. "There are only two Nirvana Arks. With founding emperor's financial resources, the two Nirvana Arks have completely exhausted the foundation of the Heavenly Court. "However, there are countless turreted ships like the heavenly court!"

Qin Mu knew that he was showing off, but he couldn't refute him. After all, eternal peace couldn't even build such a huge ship.

At that moment, the guests from eternal peace rushed over to seek an audience with Qin Mu.

Divine priest came to report with a strange expression. "The newcomer is a black-faced man with many faces and hands."

God Emperor Lang Xuan took a glance at Qin Mu and smiled. "Invite eternal peace emissary over."

Qin Mu's heart moved slightly, and he instantly knew who the person was.

After a moment, Dutian Devil King with four faces and eight arms held a small jade bottle in one hand and hurried over. His other arms greeted Qin Mu and god Emperor Lang Xuan respectively.

One of his faces said, "Eternal Peace Commoner Dutian greets God Emperor Lang Xuan!"

His other face then said to Qin Mu, "Dutian pays his respects to cult master. Cult master, the Emperor asked me to bring the people of eternal peace to follow cult master to the ancestral court."

He had a total of four faces, and when he looked in all directions, he could speak to different people at the same time without any disorder.

Qin Mu smiled. "His Majesty is indeed smart to actually send you here. Divine Emperor, my people are already here, so we can set off now."

Divine Emperor Lang Xuan sized up Dutian Devil King and smiled. "Eternal peace wants to migrate a person? And it's even a devil God?"

Qin Mu took the jade bottle from Dutian's hand and smiled. "Eternal peace doesn't have such a big ship, so we can only put the people who want to migrate in this bottle. It's not as rich as divine emperor."

Divine Emperor Lang Xuan laughed loudly and boarded the ship with him.

Dutian Devil King stood behind Qin Mu and looked around. After a moment., he couldn't help saying, "Heavenly venerate, even though the huge ship of the Heaven Court is huge, it's probably inconvenient to move, right? Such a huge ship can't enter Spirit Energy Mutual Migration Bridge."

Divine Emperor Lang Xuan glanced at him, "You do have some knowledge.". "But you have underestimated the wealth of the Heaven Court.". "This time, the heavenly court intends to migrate to the ancestral court as a whole. If the heavenly court were to fly to the ancestral court by itself, God knows how many gods and demons would die of exhaustion along the way. "Therefore, the Heavenly Court's Gate of Dao has been to the ancestral court for the past few days to design and build a brand-new psionic relocation bridge in the ancestral court. "This is a big bridge."

He could not help but feel a little proud, "This bridge requires eleven psionic relocation bridges,"he said leisurely. "The eleven celestial venerables of mine will each contribute money to build one. My Bridge is about to be completed on the Heavenly River outside the Southern Heavenly Gate."

The ships slowly set sail and headed out of South Heaven Gate.

Not long after the fleet sailed, they saw countless heavenly craftsmen and gods bustling about. Shi qiluo, who created Father Heavenly Palace, was personally overseeing the operation.

Above the Heavenly River, an incomparably huge sacrificial altar stood tall!

The base of this golden-shaped sacrificial altar actually occupied the entire heavenly river!

The narrowest part of the Heavenly River was in eternal peace. It was called surging river, but it was also eight hundred miles wide. When it reached the Heavenly River in front of the heavenly court, the width of the heavenly river was even more astonishing. It was ten thousand miles wide, and the green waves were like the sea!

This altar was the base of spirit energy mutual shift bridge. It was so huge that it could be said to be majestic and majestic. Qin Mu was also terrified when he saw it!

Eight months had passed since the Heavenly Court had decided to open the ancestral court, and Heavenly Palace, the creator of the Heavenly Court, had actually built such a magnificent building in such a short time!

Spirit Energy Mutual Shift Bridge had been designed by Qin Mu and the Black Tiger God, so he knew all the data of the bridge very well.

The slightest change in the data would affect the whole body. Changing a single data would require changing all the data and recalculating them.

The creator Heavenly Palace had enlarged spirit energy mutual shift bridge by a thousand times. Just changing the data was an incomparably huge project, and they could actually calculate it in such a short period of time and even create it. The foundation of Heavenly Court., it was truly unfathomable!

The fleet of Divine Emperor Langxuan sailed to the great psionic bridge just as the eleventh heavenly venerate, Shi Qilaotong Bridge, was about to arrive. Countless runes lit up on the altar, and the entire golden altar seemed to come to life, layer after layer of buildings began to rotate in different directions!

The countless runes on the surface of the altar and inside the altar were activated. It was truly amazing!

Around the altar, there were also gods and demons who were activating their divine abilities and Dao Arts to draw the water from the Heavenly River to cool down this enormous building.

The altar created by the Heavenly Palace of the creator was too large. When the runes were in operation, the heat would be difficult to dissipate. Thus, the Heavenly River had to be used to cool down so as not to burn down this altar that had been painstakingly built.

Finally, with a loud rumble, an incomparably bright pillar of light shot into the sky from the top of the Golden Altar. The pillar of light was incomparably thick, piercing through the void, piercing through the starry sky, and disappearing without a trace.

Boom

Another violent tremor came from the other side of the space, and another pillar of light shone from the other side. Two huge funnel-shaped pillars of light formed in the sky above the heavenly river!

The two pillars of light interlocked and connected, and an incomparably terrifying tremor came from them. Around the altar, the cheers of countless heavenly craftsmen shook the sky as they shouted, "The bridge is clear, the bridge is clear!"

On the ship, Dutian Devil King was flabbergasted. He couldn't help praising the majestic power of the heavenly court and muttering, "The heavenly court is really f*cking rich..."

Qin Mu and divine Emperor Langxuan greeted Shi Qiluo from afar. The fleet then started to sail into great spirit energy mutual shift bridge.

When the fleet sailed out of spirit energy mutual shift bridge, Qin Mu realized that the other sacrificial altar was built in the ancestral court and wasn't far from the ancient Jade Lake.

The ship slowed down and sailed towards the Jade Lake. On the way, a ship slowly descended and sank into the center of more than ten divine mountains.

The turreted ship sat in the middle of the Divine Mountains, and it was as if a magnificent divine city had appeared in the middle of them. Hundreds of thousands of people walked out and sized up their new residence.

Not long after, another turreted ship landed beside a huge river.

On the way, the turreted ships continued to descend. This kind of migration was truly an eye-opener.

Qin Mu's gaze flickered, and he took out heavenly venerate Yue's lantern and gave it to Dutian Devil King. He then took out the jade bottle and gave it to him. With a move of his divine consciousness, he told him the geography of the Hundred Thousand Black Mountains of great black wood, "Go to the great black wood and let the people of eternal peace come out to exercise."

Dutian Devil King acknowledged and brought the jade bottle with him while carrying the lantern and flying into the distance.

Divine Emperor Lang Xuan smiled. "Just a small bottle, how many people can it hold?"

Qin Mu smiled but didn't answer.

Two days later, Dutian Devil King came to the one hundred thousand Black Mountains covered in dust. He saw Yan 'er and said, "Cult master ordered me to bring pot heaven bottle to migrate the population of eternal peace."

Yan 'er jumped in shock and cried out, "You brought a great heavens to migrate eternal peace's population? You brought in billions of people from Eternal Peace?"

Dutian Devil King shook his head in panic. "How is that possible? Cult master only gave us a month, and the emperor only had time to bring in three hundred million people. He only took in the population of a few hundred divine cities."

Yan 'er was speechless and said, "Release the people and don't release them all at once. Even though our one hundred thousand sacred mountain isn't small, we can't take in so many people all at once."

Du Tian smiled and said, "The others can temporarily live in Hutian bottle. In this bottle, living ten billion people is not a problem."

Chapter 1399:

Dutian Devil King used his magic power to move the divine arts practitioners and gods that were resting in Hutian bottle out first. The Divine Arts practitioners and gods of eternal peace brought many seeds of spirit herbs and grain and immediately flew back and forth among the Black Mountains, they sowed the seeds.

The Divine Arts practitioners used their divine arts of creation to let the seeds grow quickly.

Even if the hundred thousand Black Mountains were full of crops, they would not be able to support hundreds of millions of people. It was already the limit for this piece of Big Black Wood to support tens of millions of people.

Moreover, in addition to food, there was also the need to raise livestock.

The ancestral court could tame ancient behemoths, and it could also hunt powerful behemoths. However, this also required powerful divine arts practitioners and gods to explore the wilderness.

In the front of the ancestral court, there were also ancient behemoths summoned by Earth Mother Primordial Lord that were thriving and growing stronger day by day. On the back of the ancestral court, Long Xiao had also left behind many behemoths and didn't migrate to the beast world with them.

The ancient behemoths were extremely dangerous and terrifying. Let alone humans who were born weak, even gods and devils who faced the ancient behemoths would appear extremely insignificant in terms of strength and physique.

"We still need to expand our territory and build a bigger divine city."

Dutian Devil King mobilized the divine arts practitioners and gods of eternal peace to move more people out of the pot heaven bottle, "The territory can not accommodate so many people at the moment," he said to Yan 'er. "Furthermore, the hundreds of divine cities in eternal peace are all too small. It's still fine if we face one behemoth, but two to three behemoths can destroy the city."

Yan 'er was building a bird nest and smiled when she heard that. "There are many disciples of the giant beasts under Lan Yuntian, so we can ask them for help."

"Disciples of the Giant Beasts?"

Dutian Devil King was stunned. It was hard for him to imagine the situation of the giant beasts listening to Lan Yuntian's lecture. "Even the giant beasts can understand Saint Blue's lecture?"

Yan 'er moved a few dragon sparrow eggs over and placed them in the bird nest. These dragon sparrow eggs had a strange appearance, and the markings on the eggshell weren't entirely dragon sparrow markings, but qilin markings.

The eggshell's surface was rough, and from the outside, it looked like a qilin egg. The qilin egg was rough, but the Dragon Sparrow Egg's patterns were extremely delicate.

Yan 'er wove a wreath on top of it and drew a few smiling faces, she said, "Young master said that although the Giant Beast's head is big, it is not smart. However, if it can cultivate with Lan Yutian and gain wisdom, it might be able to establish a giant beast civilization in the future. "Some behemoths have already learned how to use divine abilities!" His wife had followed long Xiao, the leader of the Beast World, to the Beast World to prepare for the Behemoth civilization. "The cult master said that Long Xiao was a man without foresight and was unable to establish a behemoth civilization, so he asked my wife to prepare for it."

Dutian demon king sized up the dragon sparrow eggs, only to see Yan 'er bring a gigantic void beast egg and place it in the center, turning it into a giant dragon sparrow that sat on it.

“Fatty Dragon actually got married before the cult master.”

Dutian thought to himself, “When did this fellow Get Married?”? He didn’t inform his old friend. That’s right, they were pregnant before marriage, and they did the good deed before getting married. What kind of thing would the son of the Dragon Sparrow and Dragon Qilin Hatch? Furthermore, why is there such a huge meat egg here?”

The egg of a void beast was a meat egg, and its shell was a layer of flesh. It was different from the eggs of ordinary birds, so he had never seen it before, so he naturally didn’t know.

In Lang Xuan’s fleet, there were fewer and fewer ships. Each ship landed on the ground, and the places they chose to land were all places of wealth.

On the main ship, God Emperor Lang Xuan humbly asked Qin Mu for advice and told him about the problems his reincarnation had encountered while studying in eternal peace.

Qin Mu answered everything he knew, but he also encountered many things that he didn’t understand. Every time at this moment, Lang Xuan would suspect that Qin Mu was intentionally hiding something.

He had wronged Qin Mu. Even though Qin Mu often returned to eternal peace to learn the results of the reform, eternal peace was changing rapidly today. All kinds of divine arts, paths, and skills were being developed, and many new paths, skills, and divine arts were being developed in different directions, it could be said that the hundred schools of thought were in full bloom.

After Qin Mu returned to eternal peace, the time he could learn was too short. He would often choose the results that were beneficial to him to learn. As for the other results, no matter how good they were, he had to give them up.

The most cutting-edge results of the reform in eternal peace were concentrated in academic palace academy, while the most cutting-edge ones were concentrated in Dao Wen Academy. Just learning the results of these few places alone would take a long time, what’s more, new results were being produced all the time.

“Emperor Yanxiu has gathered all the gods in the world who are proficient in the path of primordial spirit and creation to study the technique of Heavenly Palace’s creation. He intends to let the Heavenly

Palace recover quickly after it is destroyed.”. Emperor Yanxiu and the Eternal Peace Gods created the twelve volumes of three skills, which were called Heavenly Palace creation chapter. “I’m a little puzzled about heavenly gate creation chapter.”

Qin Mu had never heard of Heavenly Palace creation writings before, so he said, “Show Me Heavenly Palace creation writings.”

Emperor Lang Xuan hesitated for a moment, and the two horns on his forehead turned slightly red. He took out heavenly palace creation writings. There were a total of three techniques and twelve volumes, and they were astonishingly thick.

Ten heavenly venerates had suppressed Eternal Peace’s reform in name, but they had long sneaked into eternal peace to secretly learn the results of the reform. They had even copied the secret techniques that eternal peace had just created.

Even though Lang Xuan’s skin was thick, he still felt a little guilty for taking out eternal peace’s technique in front of Qin Mu, one of the three heroes of reform.

After all, he was also one of the heavenly venerables who had suppressed the reform. During Eternal Peace Calamity, his power had invaded eternal peace, causing huge casualties.

Qin Mu flipped through Heaven Gate Creation Chapter in detail and pondered over it. Lang Xuan couldn’t help being suspicious, and the guilt in his heart was completely thrown away, the horn on his forehead also returned to its normal color. ‘does this fellow really not know or not know? His appearance doesn’t look like I’m asking him for advice. Instead, it looks like he stole eternal peace reform from me...’

When he was ashamed, his face didn’t turn red, but his horns did.

Qin Mu tried to answer, and God Emperor Lang Xuan quickly found a few flaws. The two of them stared at each other, and Qin Mu was slightly embarrassed.

After a moment, God Emperor Lang Xuan sighed. “Heavenly venerate mu, you and I should talk about our own comprehensions and communicate with each other.”

Qin Mu immediately nodded, and his face turned slightly red, he explained, “My techniques and divine arts can also make the Heavenly Palace recover quickly after it’s destroyed, but my techniques are

different from the Heavenly Palace creation chapter. However, we can still communicate through analogy.”

Divine Emperor Lang Xuan said expressionlessly, “That’s right, that’s right. Heavenly venerable mu who established the path of Divine Arts is naturally extremely powerful.”

The two of them talked about their own comprehensions and interacted with each other. Qin Mu was quick-witted. Lang Xuan was a heavenly venerable after all, and he was also one of the few intelligent people in the world. To be able to become ten heavenly venerables, he had experienced the tempering and elimination of time., wisdom was naturally no trifling matter.

They cooperated and quickly solved the problems in Heavenly Palace creation chapter.

The more they talked, the more excited they became. They actually discovered the inadequacies in Heavenly Palace creation chapter, and the discussion became even more intense.

The main ship had already arrived at Jade Lake and landed.

The divine general guarding the ship immediately came to report. When he saw Emperor Lang Xuan and Qin Mu Discussing Dao, the two celestial venerables were both in high spirits. They spoke one after another, and they even started to evolve all kinds of runes. It was very intense.

The divine general didn’t dare to disturb them and immediately retreated, he was bewildered in his heart. ‘master always called Celestial Emperor Mu Qin Huo. He said more than once that this fellow had come to the celestial heavens and destroyed his divine palace, killing countless disciples. He even forced his most valued disciple, eldest senior brother Chang Xi Ting, to escape from the celestial heavens. ‘why is master so tacit with him now?’

Divine Emperor Lang Xuan and Qin Mu discussed for two to three days before they finally understood the contents of Heavenly Palace creation chapter. On top of that, they had also developed hundreds of different divine arts on the basis of Heavenly Palace creation chapter. The power of each divine art was extremely extraordinary.

Not only that, the two of them had also sorted out five different creation techniques. Even though the foundations of these techniques were inferior to Emperor’s throne techniques, if they continued to study them in depth to raise their foundations., they might even be able to produce five emperor’s throne techniques in the future!

The two of them still couldn't stop themselves from sitting and discussing the Dao. Lang Xuan simply threw out all his doubts and discussed them with Qin Mu.

It had been a long time since he had been so excited. He had a feeling that his potential had been triggered, as if he had returned to his youthful days in the early years of Dragon Han. There were all sorts of unknowns that he needed to explore and develop himself.

They discussed it more and more deeply, and even after dozens of days, they were still in a heated discussion. Even though they were mentally exhausted, they were still excited.

The content of their discussion was no longer limited to the content of eternal peace reform. They had already discussed the path of divine consciousness and innately one qi.

Qin Mu's research on divine consciousness and innately one Qi was extremely profound, and divine emperor Lang Xuan was the son of absolute beginning and Gong Fu. He had an extremely deep comprehension of these two great daos, and after comprehending them for more than a million years, his realm was naturally profound as well.

The discussion this time was even longer, and they had developed all sorts of theories, divine arts, and usage of divine consciousness and innately one qi.

After an unknown amount of time, when the two of them were talking about being in high spirits, each of them had their own comprehension. A kind of wondrous dao rhythm spread out from their bodies, which was a sign that they were about to comprehend dao!

Suddenly, the two of them quieted down and looked at each other warily, forcefully suppressing the trend of entering Dao.

It was only at this moment that they suddenly remembered that they were not fellow Daoists, but enemies!

Outside, the divine general quietly walked in again, intending to see if the two of them were still discussing the DAO. However, he saw the two of them standing there, staring at each other's every move. The dao charm on each other's bodies grew stronger and stronger.

Each of their bodies was wrapped with the innate one qi. Their divine senses were bursting out and they were on the verge of stepping into the Dao.

However, their accumulation was not enough to support this step into Dao. If they could join each other's comprehension, they could enter the state of stepping into Dao.

However, the strange thing was that even though they could enter the state of stepping into Dao at the same time with just a slight touch of their dao charm, they stopped.

"Han Feng, how long have Celestial Master Mu and I Been Here?" Lang Xuan suddenly asked.

The divine general immediately said, "It's been three months since master and heavenly venerate mu discussed dao here."

"Three months?"

The corners of Divine Emperor Lang Xuan's eyes twitched. "It's actually been so long?" It was rare for me to discuss Dao with others for so long, and this was the first time. Heavenly venerate mu, you are indeed worthy of being a heavenly venerate. I've never discussed Dao with other heavenly venerates so deeply. "You are very amazing."

Qin Mu nodded. "You too."

"But we aren't friends, much less fellow Daoists," divine Emperor Lang Xuan said.

Qin Mu nodded. "The DAO is different, but we don't conspire together."

Divine Emperor Lang Xuan nodded. "If I don't conspire with you, you don't have to conspire with me either."

The dao rhyme in their bodies slowly dissipated, and it became weaker and weaker until it finally disappeared completely.

They walked out at the same time, and divine emperor Lang Xuan said, "Since we've already reached Jade Lake, I'll keep my promise. I'll allow you to comprehend this Jade Lake."

"Many thanks," Qin Mu said stiffly as he walked down the ship.

God Emperor Lang Xuan stood on the ship and looked at his back. He was filled with emotions when he suddenly said, "Heavenly venerate mu."

Qin Mu turned back to look at him and asked with a smile, "God Emperor, what's the matter?"

God Emperor Lang Xuan paused for a moment and shook his head. "Nothing. It's just that I suddenly had an illusion that I could have a friend, but when I suddenly thought of reality, the illusion was extinguished. You can go and comprehend it."

Qin Mu nodded, "I also had that moment of illusion before. If you and I could comprehend it wholeheartedly, what height could we deduce the paths, skills, and divine arts to? Could we deduce the true path of absolute beginning and how many types of absolute beginning divine arts we could deduce?". "But when I thought about it carefully, I still felt that it was impossible."

Divine Emperor Lang Xuan squeezed out a fake smile. "It's indeed impossible. Let's face reality."

"It's indeed impossible."

Qin Mu turned around and walked into the Jade Lake.

God Emperor Lang Xuan placed his hands behind his back and looked at his back. He smiled faintly. "I don't need fellow Daoist..."

He paused for a moment as if he had deepened his belief. "That's right! There's no one in this world that I can trust, so I don't need fellow Daoist!"

Happy Birthday to fallen Moon Night Wu Hen, Zhang Mou, and the two Alliance Masters!

It's the New Year and everyone is busy, but don't forget to vote for the shepherd

Chapter 1400:

'Lang Xuan's talent is extremely high and not inferior to mine. It's a pity that he's not my dao friend. Sooner or later, the two of us will meet.'

Qin Mu stood on the Jade platform and looked at the jade sea. He thought to himself, 'The Aptitude of tenth heavenly venerate isn't bad, and their current realm isn't a fluke. If only the intelligence of these people could be used on the righteous path, that would be great.'

In his heart, regardless of whether it was Lang Xuan or heavenly venerate Hao, they had both contributed in the past. The revolution of the Dragon and Han dynasty had been led by them, and they were the ones who had ended the rule of the ancient gods.

However, after they overthrew the ancient gods, they chose to become them.

They stood high above and did their best to maintain their rule. All hope of change was wiped out by them.

For the sake of their ruling position, they could do anything, even if it was their children killing their parents, their compatriots killing each other, or even doing all kinds of evil things!

The reason why they didn't destroy eternal peace wasn't because of their pity, but because of their ruling position!

This was an irreconcilable conflict between them and eternal peace. This kind of conflict would definitely erupt in the future!

Qin Mu cast away the distracting thoughts in his heart and sized up the jade platform and the Jade Lake.

The layout of the ancient Jade Lake and the Jade Lake of the heavenly court was basically the same, but there were still differences in the details. Because the Jade Lake of the Heavenly Court was where Empress Dowager lived, the layout of the Jade Lake had been slightly changed.

Even though the ancient Jade Lake still maintained its original layout, there was no primordial chaos primordial liquid in the Jade Lake, and primordial chaos primordial liquid was the greatest treasure of the ancient Jade Lake.

Now, Divine Emperor Langxuan had set up various arrays in the primordial jade pool to draw in the spiritual energy of Heaven and earth. He was using this precious land to refine the primordial chaos primordial liquid.

There was already quite a lot of primordial chaos primordial liquid in the Jade Pool. It occupied a small pond with a circumference of more than a hundred feet.

This was quite a lot, but compared to the jade pool of the primordial era, this little primordial chaos primordial liquid was only a drop of water in the sea.

The Jade Lake of ancient times covered an extremely vast area, and there were exposed seabed everywhere. The seabed had already dried up, and in some places, mountain ridges could be seen.

Qin Mu frowned. The spirit gathering formations laid down by divine emperor Lang Xuan were everywhere, so it was already difficult to see the original landscape.

‘The Jade Lake can be used as a realm, so there must be something special about it. It’s similar to the four great heaven gates and nine prison stage. So where exactly is this place?’

He rose into the air from the jade platform and flew over the dry seabed to inspect his surroundings.

After a long while, Qin Mu returned and flew toward the jade platform with a doubtful expression.

He didn’t discover the wonders of the Jade Lake.

However, the Jade Lake Realm in the Heavenly Palace system existed, which meant that the Jade Lake definitely contained a wondrous great dao of heaven and earth. Earth Mother Primordial Lord had become the spirit root of heaven and earth because of the use of the Jade Lake.., it was probably not just because of the primordial chaos primordial liquid.

Suddenly, Qin Mu was slightly stunned and stopped in the air, his clothes fluttering in the wind.

His gaze landed on the jade platform.

The form of the ancient jade platform was almost exactly the same as the jade platform of the Heaven Court. It was clear that the jade platform of the Heaven Court was also built according to the specifications of the ancient jade platform. However, the ancient jade platform was formed naturally. This jade platform was made entirely of beautiful jade, and the beautiful Jade was called Jade. This natural jade platform actually had steps, railings, and a vast platform that allowed one to look at the Jade Lake and descend to the Jade Sea.

Qin Mu counted and found that there were eight hundred steps of the Jade steps on the jade platform. Every hundred steps, there would be a platform. If he walked up the steps, he would be able to reach these jade platforms.

What was strange was that the side of these jade platforms facing the sea was extremely steep. It was a jade wall, and there were strange markings under it that were connected to the mountains on the seabed. These mountains were actually Jade Mountains as well.

The mountains went straight to the center of the seabed, and the eight mountain ranges connected to the eight layers of jade platforms. The eight jade mountain ranges were connected as one at the bottom of the sea.

The jade platforms faced the sea, and each layer was huge. Even the top layer was hundreds of miles long.

This should be the place where the creator of the ancient times used to sacrifice the sea. The creator of the ancient times had a huge body, so this place could accommodate hundreds of thousands of creators of a tribe!

Qin Mu looked at the eight Jade Mountains in the center of the Jade Sea and then looked at the jade stage, revealing a puzzled expression.

‘The jade stage and the jade sea should be one. In the ancient times, there must have been a natural great dao that appeared here, making this place a natural sacred ground. That’s why the creator offered sacrifices to this place. ‘what kind of change could cause the Great Dao of the Jade Lake and the jade sea to dissipate?’

He examined it carefully and was suddenly slightly stunned.

He saw eight jade mountain ranges that were actually broken!

Qin Mu flew forward and saw that the places where the eight mountain ranges were broken were all in the same place.

The eight mountain ranges were like dragons. Their tails were in the middle of the Jade Sea, and their heads were under the jade platform. Their branches were like four limbs, and each leg had five dragon claws.

The place where they were broken was at the waist of the dragon's vein. It had been cut in half by someone, and the broken parts were even.

Other than the broken part, there were also the gods under God Emperor Lang Xuan Mining Jade Mountain to collect beautiful jade.

Qin Mu's eyes widened, not knowing whether to laugh or cry.

The gods under God Emperor Lang Xuan didn't think about how to repair jade mountain, but actually wanted to take advantage of the Broken Mountain to mine jade ore!

He rushed over and saw the broken surface of Jade Mountain was flat. However, the strange thing was that the power that had cut off Jade Mountain didn't come from the outside world, but from underground. It was as if some kind of power had erupted from Jade Mountain and shattered him!

When the gods that were mining the jade ore saw him, they immediately stopped and looked at him.

These gods were dressed in ragged clothes and had shackles on their legs. They should be prisoners who had been demoted to mine slaves because they had committed a huge crime.

"It's heavenly venerate mu!"

A supervisor recognized Qin Mu and couldn't help turning pale, he cried out bitterly in his heart, 'this is bad, why is this devil here?'. The last time he came to Lang Xuan Divine Palace, he had taken out a primordial wood and smashed the divine palace into flat ground, tearing it apart completely! He had almost killed all the disciples of the divine emperor in the palace and even scared away Chang Xi Ting, an existence on the emperor's throne realm! 'could he be here to tear down the Jade Lake of the ancestral court?'

'how could the Jade Lake withstand his torment? Speaking of which, why didn't the Supreme Treasure of the Divine Emperor Kill this fellow?'

They trembled with fear, and their faces were ashen. They didn't dare to make a move on Qin Mu, and someone wanted to inform him. However, Qin Mu's gaze suddenly swept over, and that person instantly collapsed to the ground, not daring to move.

Qin Mu waved his hand, and the supervisors looked as if they had lost their parents, but they didn't dare to go forward.

Qin Mu's expression sank, and he waved his hand again.

The supervisors moved their feet with great difficulty as if they had gone up to kill their heads. They walked toward him.

Qin Mu's expression was gentle as he tried his best to put on a friendly expression. He said with a smile, "How many jade mines have you guys mined? Take them out..."

Plop, plop.

Suddenly, the group of supervisors knelt on the ground, one of them shouted, "Heavenly venerate mu, we aren't afraid of death! However, we have elders and children, please spare our lives! Quick, quick! Bring out all the jade mines for heavenly venerate! "Heavenly venerate, you should hurry up and leave after taking the divine mines. We will also wrap up tenderloin and run for Our Lives!"

Qin Mu was astonished and didn't know whether to laugh or cry. "You guys pave out these jade mines and connect these mountain ranges."

The group of supervisors didn't seem to hear him clearly. The supervisor from before even shouted, "... we will never reveal that heavenly venerate mu was the one who robbed us. If we lose the divine mines, the divine emperor will also execute us, so we have to run for our lives..."

Qin Mu could only repeat it once more before they heard it clearly. The supervisor said in delight, "Heavenly venerate isn't here to rob us? Heaven has eyes, and heavenly venerate has changed his character, so he won't Rob Us..."

Qin Mu's expression sank, and he shouted, "I was invited by your family's divine Emperor Langxuan, so stop nagging and quickly do it!"

The supervisors rushed over in a hurry and ordered the mine slaves to take action together. They spread the divine jade that they had mined between the eight mine veins, and Qin Mu said in a deep voice, "Don't be idle, quickly go and help."

Those supervisors smiled apologetically. “Heavenly venerable might not know this, but these mine slaves are very crafty. They have to be whipped before they can work. If no one whips them, they will be lazy and slippery!”

Qin Mu snatched the whip and whipped several supervisors. When the other mine slaves saw this, they cheered.

All the supervisors were whipped until they were dripping with blood, and they hurried to work.

Qin Mu waited quietly as the jade mountain ranges gradually closed up. After a long time, the last mountain range was finally connected.

Weng!

As the last piece of jade fell, the Great Dao of Heaven and earth suddenly rumbled. The multicolored light in the sky descended with a Weng sound like the aurora of the polar region, swimming along the mountain range like a dragon!

Not only that, the multicolored light of Great Dao also surged out from the bottom of the eight mountain ranges and connected with the multicolored light of Great Dao in the sky.

The dao sound reverberated like a bell, a zither, a flute, a flute, and a drum. The Great Dao mingled with the sound.

When the supervisors and many mine slaves saw this scene, they could not help but be stunned.

One of the supervisors muttered, “The sun has risen from the west. Celestial Master Mu is not here to tear down the Jade Lake, but to rebuild it... is the sky really changing?”

Divine Emperor Langxuan and the gods on the main ship were also alarmed. They flew up from the ship and looked from afar.

Suddenly, an even more shocking scene happened. The dragon head of the eight mountain ranges near the jade platform actually spewed out streams of purple gas, and the purple gas surged toward the jade platform!

The entire jade platform was suffused with an inexplicable aura of Great Dao. All kinds of natural runes on the jade platform lit up, filling the entire jade platform with a strange dao rhythm. The dao rhythm was long and melodious, and it rang out from the jade platform!

What was even stranger was that primordial chaos primordial liquid was actually dripping down from the jade platform. Drop by drop, it fell into the Jade Sea!

Divine Emperor Langxuan looked at this scene in astonishment. He was the land owner of this place, yet he didn't know that the Jade Lake had such a change!

Qin Mu had only just arrived, but he had already created such a shocking scene!

"Jade Lake, this is the real Jade Lake, my Jade Lake..."

He muttered to himself and couldn't help walking toward the jade platform. "This is primordial chaos primordial liquid, which is faster than the primordial liquid produced by the formation I laid down. This place will be the treasure ground for me to cultivate to supreme..."

His gaze suddenly landed on Qin Mu, and killing intent couldn't help flashing across his eyes. He had killing intent toward Qin Mu.

He had occupied this place for so long and had never discovered the secrets of the Jade Lake. Yet the moment Qin Mu came here, he had made the ancient Jade Lake return to its former glory. He couldn't help being tempted by killing intent!

"Heavenly venerate mu is a great threat!"

He couldn't help coming to Qin Mu's side, but he saw that he didn't go to the jade platform to collect primordial chaos primordial liquid or comprehend the Great Dao. Instead, he was looking underground with interest.

God Emperor Lang Xuan stood beside him and looked down. "What is heavenly venerate mu looking at?"

The vertical eye in the heart of Qin Mu's brows had already opened. He looked underground and smiled. "I'm looking at what exactly destroyed these eight mountain ranges and severed the life force of Jade Lake."

Divine Emperor Lang Xuan couldn't help asking, "Then did you see it?"

"I saw it." Qin Mu nodded.
