

## Tales of Herding Gods Chapter 1401-1405

### Chapter 1401:

God Emperor Langxuan waited for a moment, but Qin Mu didn't say what he saw. In the end, God Emperor Langxuan couldn't help asking, "What did you see?"

Qin Mu smiled slightly, "I saw a huge thing beneath your jade lake that was seizing the life force of the Jade Lake for its own use. "Even if you connect the eight dragon veins now, it will be destroyed again in the future. If you want to restore the Jade Lake to its peak condition, I will show you how to find that big thing. However, you have to give me 10% of the output of the Jade Lake."

Divine Emperor Langxuan's soul consciousness fluctuated. He turned into a vertical eye between his eyebrows and looked underground, he sneered, "Give you 10% ? "If I find that big thing and settle it, wouldn't it be better if I didn't Give You Anything?"? "Celestial Master Mu, you are too greedy. You extorted celestial master gong and then Imperial Concubine Yan, and Now You Want to extort me again! "Are you planning to extort ten Celestial Masters once? "You are underestimating ten celestial masters too much!"

Qin Mu was astonished. The matter of him making a deal with Celestial Master Gong and Imperial Concubine Yan in exchange for the output of their mines had actually reached the ears of divine emperor Lang Xuan.

It seemed like the forces under heavenly venerate gong and Heavenly Consort Yan had divine Emperor Lang Xuan's eyes and ears to monitor the actions of the two heavenly venerates.

However, this shouldn't be a secret among the ten heavenly venerates.

The ten heavenly venerates weren't too confident in each other, so they liked to plant spies under the other heavenly venerates. This was also one of the reasons why they could cooperate, so they didn't expose each other.

Divine Emperor Lang Xuan searched for a while, and his expression gradually became solemn.

His Eye of divine consciousness was incomparably powerful, but when he searched underground, he didn't see the big thing that Qin Mu had mentioned. He didn't even find a trace of it!

This was extremely terrifying!

A drop of cold sweat appeared on his forehead, and he flew up and continued to search through the eight Jade Mountains.

Qin Mu didn't think much of it and rushed toward Jade platform. God Emperor Lang Xuan's eye of divine consciousness could probably see through thirty-five layers of void. Apart from supreme void great overarching heaven, no other secret could escape his eye of divine consciousness.

His divine eyes could be called eye of insight, eye of insight.

His divine consciousness was omnipresent. Lang Xuan could see the deepest part of the underground of the ancestral court and also the treasures hidden in the space. However, his eye of insight was still inferior to Qin Mu's vertical eye.

Qin Mu's vertical eye had been strengthened by the Heavenly Duke and Earth count, and with the power of the divine eye and the Taiji original stone, great change eggshell, it wasn't an exaggeration to call it the number one in the world.

Even though Qin Mu couldn't unleash the power of the divine eye at the moment, he could see through everything with just the use of the divine eye itself.

More and more beads of sweat appeared on Divine Emperor Lang Xuan's forehead. He searched through the eight mineral veins, but he still couldn't find where the so-called big thing was hidden.

'it's even more important for the Jade Lake to recover to its former glory. If I don't deal with that big thing, the Jade Lake will be a big lake that can condense primordial chaos primordial liquid. Other than that, it won't have much of an effect. 'since that's the case, it's not unacceptable to give ten percent of primordial chaos primordial liquid to heavenly venerate mu...'

He looked at Qin Mu and saw him stepping onto the jade platform to comprehend the Great Dao contained in the Jade Lake, so he didn't go forward to disturb him.

The jade platform had become extremely sacred, like a sacred platform that offered sacrifices to the heavens and earth. Qin Mu walked on it like a priest that was presiding over the great sacrifice of the heavens and earth, but also like a person who was seeking the path. His steps were steady, and his expression was pious.

Divine Emperor Lang Xuan also stepped onto the platform. He was like an emperor, and his powerful aura bloomed. He was impervious to all spells and all paths.

Qin Mu carefully comprehended the baptism of the Great Dao of the Jade Lake when he ascended the stage and listened to the Dao sounds. Even though he could hear the dao sounds, he didn't have as much comprehension as Qin Mu.

He was too strong. Not only was his cultivation and abilities too strong, it was also because his mentality was too strong. He was too strong and had placed himself too high.

Qin Mu ascended the first layer of jade platform and was different from the four heaven gates and nine prison platforms. The Four Great Heaven Gates and nine prison platforms honed his dao heart. Regardless of whether it was the four great heaven gates or nine prison platforms, they were all extremely dangerous. If he couldn't go over.., he would probably die!

On the other hand, the Jade Lake nourished his dao heart. Not only did it not have any tests and tempering, it would instead nourish his dao heart and cause it to grow.

A marvelous melody came from his ears as if the Great Dao was whispering in his ears. He could feel that the Great Dao was like water, like the mother body, like the true, good, and beauty of the world.

He also felt that the Great Dao was like the earth, carrying and nurturing everything, making one's heart and mind vast.

The superior virtue was like water, and water could control all things without fighting for it.

The terrain was earth-like, and a gentleman used his virtue to carry things.

He stood on the stage and looked at the Jade Lake from afar. There was no longer the grand scene of the past, but when he stood there and looked, he seemed to see the Jade Lake that nourished all life rippling, and the water rippled like dragon scales.

He looked back and saw that the origin wood that had transformed into the earth mother had also disappeared, leaving only a huge sinkhole. However, he seemed to see the lush and verdant origin wood that protected the creator's ancestors in the immemorial era.

The earth mother was thick and virtuous, and the Jade Lake was as good as water.

He could sense thirty-six Great Dao of earth virtue and twenty-four paths of good.

After a long time, Qin Mu walked forward. The Jade Lake was the sacrificial grounds for the creator's ancestors in the immemorial era. They worshiped the heavens and the earth, worshipping the universe. Back then, the people were ignorant and didn't know where their power came from., they didn't know that they could use the jade platform to nourish their dao hearts.

They only had a simple heart. After coming here, they only felt their state of mind calm. It was as if they could come into contact with the heaven and earth and connect with the Jade Sea.

They respected the land that nurtured them and all living things. They respected the jade sea that nourished them and all living things.

They worshipped the Heaven and earth and the universe here to remember their ancestors.

At that moment, Qin Mu also seemed to have become a member of the creators who worshiped the heavens and earth in the uncivilized era of ancient times. He felt the aura of the Great Dao here with a devout form.

He walked and stopped, and the time he spent gradually grew longer. Divine Emperor Langxuan soon surpassed him and came to the eighth layer of jade platform. He looked up at the heavens and earth and the dried seabed, sighing with emotions in his heart.

By the time Qin Mu arrived, it was already a month later.

Divine Emperor Lang Xuan sensed his arrival and raised his hand to point at the dried seabed. He pointed at the mountains and rivers on the other side of the sea, full of spirit, he laughed loudly and said, "The mountains and rivers are so magnificent. Heavenly venerate Mu, which man doesn't wish to own such a land? "This is one of my ambitions to become a heavenly venerate. I must become the ruler of the entire universe and make the vast rivers and mountains, the heavens and myriad realms, and billions of stars and galaxies submit to my feet!"

His lofty aspirations surged out from his chest as he pointed at the rivers and mountains. He was impassioned and couldn't hide his excitement.

“Heavenly venerate Mu, you have extraordinary talent. If you submit to me, I will definitely give you sufficient space to display it. “I’m not as calculative as heavenly venerate vast. Since I value you highly, I will naturally value you highly! “In the future, you will have a share of my rivers and mountains!”

Qin Mu didn’t answer, and the Dao charm on his body became thicker and thicker. Suddenly, God Emperor Langxuan felt something. When he looked back, his heart couldn’t help jumping. Qin Mu had actually fallen into a marvelous state, he was vaguely connected to the Great Dao of the Heaven and earth of Jade Lake Jade platform!

He seemed to have fused into the Great Dao of the entire jade platform. He was clearly standing there, but he gave God Emperor Langxuan the feeling that he was as thick and heavy as the land of the ancestral court and as vast as the jade sea!

He was like the heaven and earth that God Emperor Lang Xuan had seen just now. There was the vastness of heaven, the vastness of the sea, and the vastness of the earth!

He corresponded with the Great Dao of Jade Lake Jade platform, and the Dao rhythm that had been broken when he had comprehended it with God Emperor Lang Xuan was now connected again!

This time, he actually didn’t need to connect with the Dao rhythm when Lang Xuan comprehended dao to enter the state of Dao!

God Emperor Lang Xuan revealed an expression of disbelief, and that expression turned into the killing intent and jealousy of the divine treasures in his eyes. Qin Mu’s aptitude was about the same as his. When the two of them had comprehended and discussed dao together last time, as long as their qi and vitality were connected., they could enter Dao at the same time and comprehend the profoundness of path of absolute beginning to enter absolute beginning Dao realm.

It was just that at that time, Lang Xuan and Qin Mu had some misgivings. When they remembered that they were still enemies, they couldn’t even be considered friends, let alone Dao Friends.

Thus, they had taken the initiative to cut off the path of entering the Dao and would never help each other.

And now, it was difficult for divine emperor Lang Xuan to enter the Dao, but Qin Mu had already entered the realm of entering the Dao!

‘why is he the one who obtained this opportunity and not me?’

The killing intent in his eyes became more and more intense, but he forcefully suppressed it. He took a step forward and walked out of the Jade platform, landing at the spot where the eight dragon veins had broken off.

The mine slaves and overseers had been resting for more than a month.

Everyone hurriedly kowtowed when they saw divine emperor Lang Xuan.

Divine Emperor Lang Xuan waved his sleeve and sneered, "Cut off the eight dragon veins!"

The overseers and mine slaves didn't understand what he meant. They just stood there in a daze.

The eight dragon veins had finally connected and restored the vitality of the Jade Lake. The Jade Lake gave birth to the primordial chaos primordial fluid and became one of the best treasure lands in the ancestral court, why didn't heavenly venerate mu, the infamous Qin demolish the Jade Lake? Instead, it was divine emperor Lang Xuan, the landowner, who wanted to destroy his treasure land?

Divine Emperor Lang Xuan was furious. His killing intent surged as he said sternly, "Are you all deaf? Why Don't you get over there and work?"

Only then did the supervisors come to their senses. They activated their divine whips and lashed out at the miners without any explanation. They shouted sternly, "Work! Work! Tear down those Jade Stones!"

Many of the miners quickly took action and pulled out the jade stones that were connected together. Divine Emperor Langxuan felt that it was too slow, so he lashed out at the supervisors and told them to do their work.

Finally, the eight dragon veins were cut off, and the Great Dao aura of the ancestral court's Jade Lake immediately dissipated. The eight dragon veins also immediately stopped spraying the primal purple clouds.

Divine Emperor Langxuan heaved a sigh of relief. He turned around to look at the jade stage, only to see that the Great Dao aura of the jade stage was also rapidly dissipating.

“You are the Chief of Heaven Alliance, so I can’t kill you directly. However, I can cut off your path of entering the Dao, making it impossible for you to enter the Dao.”

His gaze flickered. “If I can’t get it, don’t even think about it! Heavenly venerate Mu, don’t blame me for being ruthless...”

Just as he thought of this, his pupils suddenly constricted. Even though the aura of the Great Dao on the jade platform had dissipated, the Dao rhythm coming from it was getting stronger and stronger!

God Emperor Lang Xuan’s heart pounded wildly. Qin Mu had entered the state of entering Dao and was actually unable to be interrupted!

‘kill him! My divine vitality finger is the strongest divine art among celestial venerables. I only need one finger to kill him!’

He really wanted to kill Qin Mu with one finger, but if he killed him here, he would let the other celestial venerables grab hold of him. When the world was at peace and the ancient gods were eradicated, this would be the best excuse to get rid of him!

However, he wasn’t willing to not kill Qin Mu!

At that moment, the Dao rhythm coming from the jade platform reached its peak, and a beam of light shot out from there, lifting a figure up into the sky. He chanted in a long voice, “Divine consciousness reaches to heaven and earth, one Qi, primordial path, traveling together!”

#### **Chapter 1402:**

The killing intent in God Emperor Lang Xuan’s eyes gradually dissipated. The great divine art of Path of absolute beginning that Qin Mu had comprehended wasn’t his divine origin finger, which made him slightly at ease.

If the absolute art of Dao realm that Qin Mu had comprehended was really his divine origin finger, then he had to kill Qin Mu no matter what!

Divine origin finger was his unparalleled absolute art. If it was learned or comprehended by others, then others might know his weakness. This was something he couldn’t tolerate.

He wasn't like heavenly venerate fire, who could pass down his absolute arts and techniques to heavenly venerate vast heaven and hand over his life to heavenly venerate vast heaven. He wasn't that generous!

The power of one Qi primordial Chaos Dao traveling together burst forth, and the corners of Divine Emperor Langxuan's eyes suddenly twitched. His heart that had been relieved a moment ago immediately became tense again.

It was a divine art formed by the path of absolute beginning that perfectly combined divine consciousness and innate one qi. Wherever this strike went, everything would evaporate and turn into wisps of chaotic qi!

The form of Qin Mu's move was bowing.

He bowed forward.

Eight layers of jade platform appeared under his feet. Qin Mu stood on it and bowed. Everything in front of him turned into chaotic qi, and there was nothing left!

The power of this move was even stronger than the power of his divine origin finger, and the Dao might it contained was extremely terrifying!

Of course, Divine Emperor Langxuan was looking at the power of Qin Mu's move from the foundation of his cultivation. If Qin Mu's cultivation was raised to his level, the power of one Qi primordial chaos path traveling together.., would surpass divine essence one finger by a lot.

Right now, Qin Mu's cultivation wasn't enough to unleash the power of one Qi path of primordial chaos traveling together to the extreme, but Lang Xuan could already see the potential of this move!

The move of one Qi path of primordial chaos traveling together made him want to kill again.

However, he still suppressed his killing intent. Even though one qi path of primordial chaos traveling together was strong and surpassed his divine essence one finger on Dao realm, Qin Mu's cultivation realm was still relatively low, so Jade Lake realm was no threat to him.

The price of killing Qin Mu was too great, and it was something he couldn't bear.

In the sky, Qin Mu slowly descended and landed on the jade platform.

God Emperor Lang Xuan looked over and saw the youth's fluttering clothes slowly falling down, returning to calmness.

Qin Mu stood there with his eyes closed and his mind focused, not moving at all.

God Emperor Lang Xuan's heart jumped. 'could he still be comprehending dao? Isn't his aptitude and comprehension too good?'

Fortunately, Qin Mu wasn't comprehending the path, and there wasn't any dao charm from his body, which made divine emperor Lang Xuan heave a sigh of relief, 'The Jade Lake is mine, and heavenly venerate mu and I are only one step away from stepping into the path. If heavenly venerate mu can step into the path on the Jade Lake and comprehend the divine art of Great Dao of absolute beginning, then I can do it too!'

His heart couldn't help becoming fervent.

He already had divine origin finger, and this divine art was also a divine art that had stepped into the path!

He himself had the bloodline of both creator and Heavenly Emperor absolute beginning. As the top bloodline among demigods, he had been born with a divine art.

When he grew to adulthood, his attainments in divine consciousness and innately one qi were already extremely profound. He didn't need to comprehend them to be able to use incomparably powerful divine arts.

This was the strength of an adult demigod. Talent came with the bloodline and grew stronger with age.

He possessed both the Great Dao of divine consciousness and innate one qi. When heavenly venerate longhan seven created the system of Divine Treasures and heavenly venerate Qin Mu Hao imparted the Divine Art on behalf of heavenly venerate Yu, the founder of the demigod, Lang Xuan, also cultivated the system of Divine Treasures Heaven Palace, he developed the path of divine consciousness and the power of innate one qi.

In the past, he was an innate divine art and only knew how to use it. He didn't know how it worked.

After cultivating the system of Divine Treasures Heaven Palace, he created his own divine art.

He wanted to fuse his divine sense with the innate Yi Qi, but he was unable to create such a skill. It was only after the ancient god Heavenly Monarch's death that the dao ancestor was ordered to analyze the Great Dao runes in the heavenly monarch's body, this situation was then broken.

He studied the Great Dao runes in the heavenly monarch's body and was suddenly blessed. He could not help but enter the state of Dao and created the Divine Yuan Finger.

When this finger was created, it became the strongest divine ability among the ten heavenly venerates!

At that time, Divine Emperor Langxuan did not know that his creation of the Divine Yuan finger meant that he had entered the Dao realm. He did not delve into this aspect.

All the ten heavenly venerates had entered the Dao before, and more than once. However, the Dao realm was not developed as a cultivation system. In that era, they only treated the Dao realm as a divine ability.

It was not until the founding emperor appeared that the Dao realm was pushed to the thirty-fifth heaven. Only then did the dao realm slowly become a cultivation system.

However, even today, the Dao realm had never been accepted by the people of the world. They still needed time to get used to it.

"There are high and low levels of the Great Dao, and there are also high and low levels of enlightenment. My Absolute Beginning Dao is definitely the highest Great Dao in the world, far surpassing the founding emperor's Dao of the sword! After comprehending the absolute beginning dao realm, my cultivation strength will definitely increase greatly!"

Divine Emperor Langxuan's heart was burning with passion. He ordered those supervisors and mine slaves to repair the eight dragon veins. Those supervisors and mine slaves were filled with resentment, but they didn't dare to speak. They could only obediently repair the eight mountain ranges., he thought to himself, "I had people tear it down just now, and now I want to build it up again. has the divine emperor been torn down and possessed by Qin?"

Divine Emperor Langxuan's face was beaming with joy as he walked towards the jade platform. He wanted to walk the Jade platform again and comprehend the Dao of the jade platform so that he could enter the second heaven of the absolute beginning Dao realm!

However, when he stepped onto the jade platform, he still didn't comprehend anything.

God Emperor Lang Xuan was anxious in his heart. He walked up one platform after another, but he still couldn't comprehend anything.

It was just as he said. There were high and low levels in the Great Dao, and there were high and low levels in comprehension. For example, Qin Mu's Sword Dao was only three heavens of calamity awakening, raising calamity, and facing calamity., however, just his sword dao could fight with divine knife Luo Wushuang's thirteen heavens of Knife Dao to a standstill.

Divine Emperor Lang Xuan's first heaven of the absolute beginning Dao realm was already regarded as the most powerful divine ability among the ten heavenly venerates. If he could continue to study it, the second heaven would definitely be even more powerful!

However, he had already lost the opportunity to reach the second heaven of the absolute beginning Dao realm!

The jade platform was the opportunity for him to pick up this opportunity. However, he was too powerful and suppressed the Great Dao of the Jade platform. As a result, he was unable to obtain this opportunity.

God Emperor Lang Xuan ascended the eighth layer of the jade platform, and his expression became slightly ugly.

In front of him, Qin Mu stood with his back facing him. His entire body was bathed in the primordial chaos Qi of the Jade platform, and his aura was dense.

God Emperor Lang Xuan suppressed his killing intent and walked forward, only to see Qin Mu's Qi Aura slowly rising. His cultivation was rising like a rising tide, and it was continuously increasing.

He couldn't hide his jealousy and thought that Qin Mu had obtained the benefits from stepping into the path in his Jade Lake. However, he didn't know that the reason why Qin Mu's cultivation was constantly

increasing wasn't because he had stepped into the path, but because he was recasting the Jade Lake and Jade platforms in his heavenly palaces.

Qin Mu's overlord body three elixir technique contained nineteen heavenly palaces. Just recasting one Jade Lake would bring about a considerable increase in his cultivation and magic power, let alone recasting the Jade Lake and Jade platforms in nineteen heavenly palaces?

And Qin Mu's Jade Terrace Jade Pool was compatible with the ancient jade terrace jade pool of the ancestral court. Furthermore, he had forged eight dragon veins in the jade pool!

When the eight dragon veins were completed, the wondrous feeling it brought was also incomparable!

When his first heavenly palace completed the eight dragon veins and jade pool, his jade pool was immediately filled with primordial chaos vital qi. The vital qi slowly condensed and turned into primordial chaos primordial liquid!

Of course, the rate at which the primordial Chaos Yuan fluid formed and dripped down was very slow. Furthermore, it was not the true ancestral court yuan fluid, but the increase in cultivation was obvious!

Furthermore, he had nineteen heavenly palaces. In addition, his spirit embryo ancestral court also had a jade stage and a jade sea. It was equivalent to twenty jade stages and a jade sea. The increase in cultivation was incomparable.

The benefits of rebuilding the Jade Lake Jade stage weren't limited to this.

Having so many Jade Lake jade stages meant that his vital qi recovery speed was astonishing. His battle time was longer, and the increase in his strength was also incomparably astonishing!

God Emperor Langxuan had thought that Qin Mu had used his Jade Lake to enter the path to obtain great benefits, but he hadn't expected that Qin Mu's ambition wasn't limited to this. He wanted to rebuild the Jade Lake Realm, he wanted to perfectly fuse the two systems of Dao realm and Heavenly Palace and Heavenly Court!

To Lang Xuan and the other ten heavenly venerates, this was a reform, but to the entire heaven and earth, it was just setting things right!

Suddenly, Qin Mu opened his eyes and revealed a smile. He looked at Emperor Lang Xuan in front of him and cupped his head. "Many thanks to Dao brother for protecting my path."

The corners of Emperor Lang Xuan's eyes twitched, and he squeezed out a smile. "Heavenly venerate mu comprehended the path on my jade platform. If anything were to happen to him, my sins would be huge."

Qin Mu laughed loudly, and his smile suddenly disappeared, "When I stepped into Dao just now, the eight dragon veins of jade lake were broken once, and they will definitely be broken again in the future! That big thing underground will definitely completely eradicate the dragon veins of Jade Lake and get rid of this place! God Emperor, twenty percent of the Jade Lake's output belongs to me, and I'll help you find that big thing. What have you thought about this condition?"

Divine Emperor Langxuan flew into a rage. he shouted, "You clearly said that it was ten percent of the primordial chaos primordial fluid. Why is it twenty percent now?"

As soon as he finished speaking, the ground beneath the Jade Lake suddenly shook violently. With a Loud Rumble, Divine Emperor Langxuan hurriedly turned around to look at the Jade Lake. He saw eight Jade Mountains suddenly break apart!

Each mountain range was actually broken into three to five pieces. It was as if there was a huge monster underground. It waved its sharp claws and tore apart the dragon veins of the Jade Lake!

The corners of God Emperor Lang Xuan's eyes twitched, and he executed the eye of divine consciousness in an attempt to find the source of the attack.

However, he searched the sky and earth, but he couldn't find the source of the attack.

"It's different now."

Qin Mu said indifferently, "If God Emperor had promised me before I entered the path, I would only take ten percent of the benefits. At that time, I hadn't entered the path yet, and I still had to ask God Emperor for help, so the price was a little low. But now that I've already entered the path, I don't need to ask the divine emperor for help anymore, so the price is fair and just. If the divine emperor were to hesitate any longer, my price would be a little higher."

He raised two fingers, and the third was about to be raised.

Divine Emperor Lang Xuan's expression flickered. Qin Mu's third finger was raised, but at that moment, he hurriedly grabbed his third finger, he smiled and said, "Heavenly venerate mu, alliance master Mu, twenty percent is twenty percent! You can say what's the big thing underground now, right?"

Qin Mu laughed loudly and rolled up all his fingers to the side of the platform, "It's a huge thing underground," he said with a smile. "It wants to steal the Great Dao of Jade Lake and absorb the power of Jade Lake to help it revive. "This underground is a huge coffin!"! "When the coffin attacked the eight dragon veins, the coffin board opened and I saw a terrifying scene coming from the coffin. The light was extremely bright!"

Divine Emperor Langxuan looked over, but he couldn't see any coffin. He couldn't help being bewildered and asked, "Where is that huge coffin?"

Qin Mu stretched out a finger and pointed at the heart of his brows. "I'll lend you some strength so you can see it through my eyes!"

God Emperor Lang Xuan's eyes widened, and he instantly saw an astonishing scene!

#### **Chapter 1403:**

He saw Qin mu using the vertical eye in the heart of his brows to look underground, but what he saw wasn't underground. What he saw was a terrifying scene of the universe being destroyed.

Great Dao, stars, galaxies, space, and the heavens, countless living beings were reduced to dust. Even the undying divine consciousness of powerful existences was destroyed along with the destruction of the universe!

The most terrifying thing was that the layers of void were also destroyed!

The Void was everywhere, but only powerful gods could sense the existence of the void. There were even fewer gods that could enter the void. There were even fewer existences that could brand their own divine sense and great dao into the void and coexist with the void, the number was even fewer.

As for branding one's own Dao into the high-level void, it could be said to be as rare as a phoenix feather or a qilin horn. Among the current celestial venerables, only Emperor Tai and founding emperor could do this. The powerful creator leaders of the immemorial era could also do this.

Emperor Tai had turned his great dao of divine sense into the great Allheaven of divine sense and imprinted it into the 36th Void, the ultimate void.

Founding Emperor had imprinted his Dao of sword into the 35th Void. The creator leaders and many ancestors of the immemorial era had imprinted their own divine sense into the other void layers.

Back then, in order to completely eradicate the creator race, the ancient god Celestial Emperor had led the ancient gods and some powerful demigods into the void, slowly erasing the imprints left behind by the powerful creator, as the demigod primogenitor at that time, God Emperor Lang Xuan had followed the Celestial Emperor to wipe out the Creator imprint. He had a very deep impression of this.

He knew how difficult it was to wipe out the creator imprint. The Creator imprint was like a worm that had eaten into the void. It was very difficult to find it and it was very difficult to completely wipe it out.

But now, he actually saw that the 35 layers of void had completely collapsed in a short period of time, shattering the imprint of the experts that had entrusted themselves to the 35 layers of void!

Boundless fear arose in his heart, and he could not help but widen his eyes. Cold sweat broke out on his forehead, and his face was pale.

He saw the destruction of the 36th void again.

The 36th void, which was also the void where the supreme emperor entrusted his divine sense to the Great Luo Heaven, was also called the ultimate void, the Great Luo Heaven, and the Supreme Heaven. This layer of ultimate void was like an eggshell that smashed into the ground from high up in the disaster of the destruction of the universe, it was also like a ball filled with water being pierced by a needle and exploding!

God Emperor Lang Xuan trembled and trembled. The fear of the great destruction invaded him and went straight to the deepest part of his dao heart.

His Dao Heart wasn't as strong as Qin Mu's to begin with, which was the weakness of the system of Divine Treasure Heavenly Palace. Qin Mu could still remain calm when he saw the great destruction, but he couldn't.

'this kind of destruction that destroys everything, even... even celestial venerables can't withstand it...'he was terrified.

However, what was strange was that everything he saw was a still picture.

Countless galaxies were shattered, the heavens were annihilated, the void disintegrated, and the explosion of the ultimate void was still and unmoving.

It might be called a picture, but it wasn't. This was because the picture was flat, and what he saw through Qin Mu's vertical eye was three-dimensional.

At that moment, he saw the 'big thing' that Qin Mu had mentioned.

It was a coffin that had flown out from great overarching heaven in the ultimate void. It was made of some sort of divine gold and had a metallic luster. However, it had rotted due to the destruction of the universe and was covered in rust.

The surface of the coffin was branded with runes of Great Dao that Lang Xuan didn't recognize. During the great destruction of the universe, a fragment of great overarching heaven had flown over as if it was flying toward them.

What was unique about this coffin was that it was in the fragment of great overarching heaven, and there was a huge wooden altar in that fragment. The coffin sat on the altar and was erected high up.

Half of the fragment of great overarching heaven had already entered the ancestral court and was buried underground.

The reason why Divine Emperor Lang Xuan couldn't see it was because his divine consciousness couldn't see great overarching heaven.

When Divine Emperor Lang Xuan saw this scene, he was a little confused.

Qin Mu's voice sounded out, "The existence in the coffin was a strong practitioner from the previous universe year. At the moment of the Great Apocalypse, he tried to enter our universe through sacrifice. "The time he was in was extremely strange. The back end of the coffin was in his universe, but time and space didn't exist. It still remained at the moment of the Great Apocalypse, using the fragments of great overarching heaven to protect itself. "The front end of the coffin has already entered our universe, and it has already existed in our universe for a long time."

Divine Emperor Lang Xuan didn't quite understand. He looked at him with doubt and asked, "How many years has He existed in our Universe?"

"He has probably existed since the beginning of the universe."

Qin Mu didn't dare to be sure either, "He probably started to steal the primordial chaos primordial fluid of Jade Lake when the universe was created, but he should have had some misgivings at that time. He was afraid of being discovered by the ancient gods and creators, so he didn't dare to steal the power of Jade Lake Wantonly." "When the creators and the ancient gods and demigods left the ancestral court to seal this place, he would have nothing to worry about. He would have severed the eight dragon veins of Jade Lake and stolen the power of Jade Lake Wantonly."

God Emperor Lang Xuan shook his head and said in a hoarse voice, "How is this possible? How can he stay in half of the previous universe that was destroyed and the other half in our era?"

"If you erase the factor of time, it's understandable."

Qin Mu explained to him seriously, "Time doesn't exist. If you remove time, even if the universe is destroyed and born, it's just a transformation between energy and matter. The process of energy turning into matter is the process of the expansion of the universe. The process of matter turning into energy is the process of the collapse of the universe. The change of matter would cause the illusion of time passing by. He had tried to enter our era from the previous universe, but he didn't want to turn himself into the energy of the destruction of the universe, so he stole energy from our era to replace himself. "This is the reason why he stole the power of the Jade Lake. He needed to maintain the balance of mass and energy between the two universes."

Divine Emperor Langxuan was still a little confused, but he knew that someone had used this theory to achieve great success.

Heavenly venerate Ling's difficult-to-understand supernatural power was a mystery that no one could understand. After heavenly venerate Ling created this supernatural power, the ten heavenly venerates were inexplicably shocked.

Because of the unknown, he was terrified.

Almost all of the tenth tianzun were sent out to get rid of Ling tianzun. However, Ming Fangyu took the lead, and his primordial spirit entered the body of the heavenly emperor and killed Ling Tianzun above the Heavenly River, as a result, Ming Fangyu's primordial spirit and the body of the heavenly emperor disappeared without a trace.

“Divine emperor, this prehistoric expert is an existence high up in the Great Luo Heaven. His strength is above the tenth tianzun or any other tianzun. “If he enters the ancestral court, the rule of ten heavenly venerates will crumble, and he will become an existence high above.”

Qin Mu said patiently, “For the sake of his power, he can either get rid of ten heavenly venerates or subdue all of you. As ten heavenly venerates, the ruler of this era, what should you do?”

Divine Emperor Lang Xuan came back to his senses, and his gaze flickered. He smiled and said, “But I won’t let him enter the ancestral court or the Jade Lake, and I won’t let him steal the power of the Jade Lake either!”

Qin Mu let out a sigh of relief and closed the vertical eye between his brows. “With the divine emperor suppressing him here, I’ll be at ease.”

Divine Emperor Lang Xuan looked at him, he smiled and said, “Heavenly venerate mu, he’s hiding under the Jade Lake. Instead of waiting for him to steal enough power to enter the ancestral court, why don’t we chase him back to his era! “I need to borrow your divine eyes to find his location!”

He smiled proudly and said leisurely, “I really want to meet this supreme expert from the previous universe year!”

Qin Mu hesitated for a moment, and God Emperor Lang Xuan smiled. “Don’t you want to get rid of this hidden danger?”

Qin Mu examined his face carefully, and god Emperor Lang Xuan smiled calmly. “I’m the tenth heavenly venerate, the ruler of this universe, so I naturally have to consider this era.”

Qin Mu let out a sigh of relief, “Since you have such intentions, I shall be the beauty of a man,” he said with a smile. “Celestial Emperor, neither you nor I are enough to come to that fragment of great overarching heaven. I have a divine art called Higan divine boat crossing. If I borrow your power, I might be able to enter that fragment of great overarching heaven.”

Celestial Emperor Lang Xuan’s heart trembled slightly, and he nodded silently. “Celestial Emperor Mu sure knows a lot.”

Qin Mu was on high alert, and he smiled. "My cultivation realm is low, so I like to blindly grasp divine arts."

Divine Emperor Lang Xuan laughed, "Your cultivation is already extremely high, so who can cultivate to your level in their fifties?"? Putting everything else aside, to be able to cultivate to Jade Lake realm and become a heavenly God in fifty years was already rare among the geniuses of the myriad worlds. "What's more, your abilities aren't limited to this."

Qin Mu also laughed. "That's easy to say, that's easy to say."

Divine Emperor Lang Xuan's magic power surged over, and Qin Mu immediately used it to execute Nirvana divine boat crossing.

Nirvana divine boat crossing was the eighth heaven of his divine art, so this move didn't have much power. It was a divine art that could enter the void. Qin Mu had entered the path and created this move in order to enter the ultimate void, he wanted to save heavenly venerable Yun's soul, which had been suppressed by Supreme Emperor.

However, his cultivation was still weak, so he couldn't enter the ultimate void. At most, he could only enter the thirtieth void of the twenty-ninth void.

However, with the help of God Emperor Lang Xuan, Qin Mu's magic power instantly soared, and his divine consciousness became incomparably powerful. With a long howl, Higan divine boat crossing erupted!

A higan divine boat swiftly formed under his and God Emperor Lang Xuan's feet. It flew out, and the bow of the boat lowered. Its speed was unimaginable as it sailed toward the bottom of Jade Lake!

At the bow of the boat, divine Emperor Lang Xuan looked at the sea bed and rubble that were rushing towards him. He hurriedly raised his hand to protect his face. However, the boat did not crash into the ground amidst the violent tremors, instead, it sailed into the layers of void space underground at the instant it made contact with the ground.

The boat flew through the layers of void space and reached the 35th void space in an instant, heading straight for the Great Luo Heaven Fragment!

Divine Emperor Langxuan's heart pounded violently. He could finally see the Great Luo heaven fragment, the altar in the fragment, and the mysterious giant coffin on the altar with his own eyes!

As fast as lightning, he looked up and saw the jade platform jade sea above the Higan ark and the great Luo Heaven fragment!

It was as if the ancestral court's land did not exist. He could even see the mine slaves and supervisors standing beside the illusory mountains, on the illusory land.

This scene made him click his tongue in wonder.

Hong —

The other shore ark collided with the great overarching heaven fragment, causing the entire ship to explode. The two people on the bow of the ship rolled and tumbled in the air. When they stabilized themselves, they saw that they had already charged into the great overarching heaven fragment, they were floating in front of the coffin.

The coffin was too big. The ancient and simple rust showed the vicissitudes of life. The lower one got to the coffin, the more rotten it was!

Even the Great Dao symbols on it had been worn away.

However, standing in front of the coffin, they felt their hearts palpitate. The power coming from the coffin was too terrifying!

Even someone as powerful as Lang Xuan felt his heart skip a beat!

It was pure dao power. The dao power was even higher than his own power. It was profound and unfathomable!

Divine Emperor Langxuan put his hands behind his back, and his soul consciousness fluctuated. He said with a smile, "Even an existence as strong as the previous universe couldn't survive the apocalypse. How pitiful."

At this moment, the huge coffin suddenly creaked, and the coffin slowly opened.

Divine Emperor Langxuan looked as if he was facing a great enemy. The Heavenly Palace appeared behind his head, and his yuan spirit was vast. He stood in the Heavenly Court, ready to use his divine yuan finger to kill the person in the coffin at any time!

When the coffin was opened, a withered dao tree was hidden in the huge coffin. There was no corpse, nor was there anyone's primordial spirit.

There was only a shriveled dao fruit on the Dao tree.

A vast spiritual sense spread out from the dao fruit, it said slowly, "An existence as small as an ant ridiculed the goshawk, who used the universe as a year to fly between the universes. It laughed at its shallow knowledge. Hehe, little friends, it's you who are pitiful."

They communicated with their divine consciousness, and even if they didn't understand each other's language, they could still understand each other's thoughts.

Divine Emperor Langxuan sneered and was about to speak when another divine consciousness came from the Dao fruit, "Little friend, when your universe epoch is destroyed, how will you escape?" He asked leisurely? With your mouth? Kneel down and worship me. Sacrifice enough sacrifices for me, and I will teach you the method of transcending and help you become the DAO. You will live until the next universe epoch in the future!"

Qin Mu's expression changed slightly, and he immediately looked at Divine Emperor Lang Xuan.

The expression of divine emperor Lang Xuan was uncertain.

#### **Chapter 1404:**

Qin Mu's heart instantly tightened. The strong practitioners of the previous universe had thrown out their greatest temptation!

Divine Emperor Langxuan's dream was to become the head of the ten celestial venerables and an existence that had attained dao. The dao fruit of the strong practitioners in the coffin had thrown out something even more valuable than his dream, which was to live until the next universe epoch!

As long as Lang Xuan followed him, not only could he become the head of the ten celestial venerables and become the Heavenly Emperor, the Great Dao would be branded into the ultimate void and he

could entrust his divine consciousness to it. Even if the universe was destroyed, he wouldn't die and live another universe year!

How Great was the temptation?

Qin Mu was truly worried that God Emperor Lang Xuan would accept this temptation and become the lackey of the strong practitioners of the previous era.

Qin Mu suddenly said, "God Emperor, since we have come to the fragment of great overarching heaven in the prehistoric era, why don't we walk around?"

Divine Emperor Lang Xuan's gaze flickered and looked over. Qin Mu's gaze also looked over.

Divine Emperor Lang Xuan nodded his head and smiled. "That's right, great overarching heaven is the place we dreamed of going to in the past. Even though this isn't the real great overarching heaven and is only a fragment, it's good to be able to experience it."

The two of them left the huge coffin and walked side by side. Qin Mu carefully observed the fragment of great overarching heaven and touched the void with his hand. He pressed his palm slightly, and a palm imprint actually appeared on the fragment of great overarching heaven, after a moment, it slowly disappeared.

He executed his vital qi again and tried to imprint a few Great Dao runes on great overarching heaven. However, it didn't take long for his imprint to disappear.

However, when his great dao runes were imprinted on it, he actually felt that his dao heart was compatible with this piece of great overarching heaven. He had a feeling that the heart of heaven was his heart!

Not only that, he also had an even stranger feeling.

When the Great Dao runes were branded on it, it made him feel that his dao would live forever, as long as the universe!

The Heaven's will was his heart, and his Dao would live forever. This was the wonderful use of the great overarching heaven.

Unfortunately, when he wanted to comprehend it carefully, he felt that his dao heart had become incomparably turbid and turbid. He could not sense the profoundness of the great overarching heaven at all, the feeling of Heaven's will, my heart, and my dao lasting for a long time also disappeared with the disappearance of the brand.

Qin Mu tried to brand it with his divine consciousness, but it could also be done, but it would also disappear very quickly.

An incomparably strange feeling rose in his heart. Great overarching heaven was like a piece of mud that could recover on its own, and it could be molded into different forms.

However, this was just a fragment of great overarching heaven. What was the real great overarching heaven like? Could it also be branded like this?

Divine Emperor Langxuan was also trying to explore the marvel of great overarching heaven, but even someone as strong as him couldn't make his Great Dao be imprinted here forever.

His Dao Heart was even worse, and his dao realm was even shallower. However, his strength was too strong, and the imprints lasted longer than Qin Mu's.

'ultimate void great overarching heaven is truly marvelous. I can feel that imprinting my Great Dao here will grant me eternal life. Even if I'm killed, my corporeal body, divine consciousness, primordial spirit, or even everything I own, I still won't die.'

Divine Emperor Lang Xuan sighed with emotion, "Supreme Emperor was able to die without becoming stiff because of the effect of his divine consciousness great overarching heaven.". Founding Emperor Qin Ye was still amazing. Even though Supreme Emperor had obtained his dao, he didn't know the reason for it. Only founding emperor had created a method of Dao realm that could benefit future generations."

Qin Mu smiled. "Divine emperor is envious of the reform? Envious of founding emperor?"

Divine Emperor Lang Xuan shook his head and hesitated for a moment before nodding again.

His expression was rather conceited. "Founding emperor opened up Dao realm and made up for the deficiency of the Heavenly Palace and Heavenly Court system, but he started from the point of Dao, but that doesn't mean that the Heavenly Palace and Heavenly Court System is wrong."

Qin Mu was slightly stunned and looked at him. He asked humbly, "Why do you say that, Celestial Emperor?"

"He used dao to achieve Dao and used Dao realm and Dao Heart to continuously improve himself, finally reaching the level of imprinting the ultimate void and cultivating great overarching heaven of Sword Path."

God Emperor Lang Xuan said unhurriedly, "I used my own strength to try imprinting great overarching heaven earlier, and even though I didn't succeed, I saw the hope of Achieving Dao. "The Heavenly Palace and Heavenly Court system pays attention to strength. When you cultivate to the realm of great heavenly court, you can use strength to achieve Dao!"

He was full of heroic spirit, "There's no need to comprehend any BULLSH \* t heavenly heart,"he said loudly. "There's no need to sense the existence of my dao! After I cultivate great heavenly court, my strength is incomparably tyrannical, imprinting my dao on great overarching heaven. Who cares if great overarching heaven is happy or Not!"

Qin Mu was flabbergasted. After a moment, he praised, "God Emperor is a great talent."

God Emperor Lang Xuan smiled faintly and said, "Founding emperor is also a great talent, not weaker than me."

Qin Mu laughed loudly.

God Emperor Lang Xuan also knew that this phrase wasn't weaker than me was his catchphrase, so he said it.

Qin Mu laughed for a long time before his laughter suddenly stopped. He changed his tone and asked indifferently, "When will god Emperor kill me to offer sacrifices?"

Celestial Emperor Lang Xuan smiled. "Why would celestial Emperor Mu Say such a thing? When Will I kill you to offer sacrifices to please the old monster of the previous universe era? I'm the Tenth Celestial Emperor, and I can see the possibility of using strength to achieve Dao, so why would I kill you to offer sacrifices?"

“My dao heart is transparent, so if anyone were to have even the slightest killing intent toward me, it would be reflected in my dao heart.”

Qin Mu said with a straight face, “Just now in front of that Coffin, the prehistoric existence said his suggestion and you were prepared to make a move against me. Your killing intent was reflected in my dao heart.”

“Dao realm actually has such an effect? It’s truly amazing. Founding Emperor is amazing.”

Qin Mu smiled. “Founding emperor’s sword heart is clear and bright. Even though his sword heart is strong, he might not be able to reach my level.”

Divine Emperor Lang Xuan’s heart trembled slightly. “Then why did you invite me to take a look around and check out the secrets of great overarching Heaven Just Now? Was it to use the chance to check out great overarching heaven and discover the secrets of great overarching heaven so that I could dispel the killing intent in My Heart?”

Qin Mu nodded.

Divine Emperor Lang Xuan sighed. “Dao realm can actually reach such a step. Looks like cultivating heavenly palace and using strength to achieve Dao isn’t enough. If I want to advance further, I’ll need the assistance of Dao realm. Heavenly venerate Mu, guess what method I’ll use to kill you?”

Qin Mu Thought for a moment, “It’s hard to kill me with ordinary methods. Even though my abilities aren’t as good as God Emperor’s, I have many life-saving methods. “Especially not easy divine arts. When God Emperor kills me, he still has to be wary of me pulling you into the great strangeness of material difficulties. “Therefore, the easiest way for God Emperor to destroy me is to throw me into the prehistoric times as a sacrifice.”

Divine Emperor Lang Xuan clapped his hands and praised, “It’s indeed a good method! The prehistoric universe was destroyed and there was no material left. If you were thrown into it, you would be obliterated into a ball of energy and cease to exist! Even if there was someone like you who knew soul summoning spells, they wouldn’t be able to summon the black sand in your soul. “This is indeed the best way to completely destroy you and it’s very easy to throw you into the prehistoric times. The other end of this fragment of great overarching heaven is in the great destruction of the prehistoric universe. “I just need to give you a slight push and you will fall in.”

Qin Mu was silent.

“But I won’t kill you. At the very least, not for the time being.”

Divine Emperor Lang Xuan laughed loudly and turned around to walk towards the coffin that was standing on the sacrificial altar, he said leisurely, “Your Dao Heart is transparent, but it still can’t reflect the thoughts of heavenly venerate. Heavenly venerate mu, you think too highly of yourself. “I’ve already comprehended the path of using strength to become a dao, so I don’t need to borrow the guidance of the prehistoric existence, let alone kneel down and worship him!”

The instant he turned around and left, Qin Mu also let out a sigh of relief.

In Qin Mu’s Dao Heart, the killing intent of God Emperor Lang Xuan toward him had finally completely disappeared!

From the moment he invited God Emperor Lang Xuan to explore this great overarching heaven to the moment he asked Lang Xuan when he would kill him, his every action, every word, and every action were all to completely dispel Lang Xuan’s killing intent toward him!

That was because when the existence in the dao fruit had said those words to Lang Xuan, Lang Xuan had indeed had killing intent toward Qin Mu!

It was an extremely intense killing intent!

At that time, Lang Xuan had indeed wanted to kneel down to the existence in the Dao Fruit and learn his god Ascension spell. He had indeed wanted to become the ruler of the current universe and live until the next universe epoch!

It was only then that Lang Xuan’s killing intent completely disappeared.

‘If I hadn’t gone to nine prison stage, I would probably be dead by now.’

Qin Mu smiled slightly and took a step forward to follow Lang Xuan. He was no longer in danger of losing his life.

The two of them came to the huge coffin, but it still didn’t close. Divine light was dense inside, and the dao tree in the divine light seemed to have a galaxy hanging around it.

“Senior from prehistoric times, your suggestion was very good. I’ve already thought it through.”

An obscure ancient spiritual sense came from the dao fruit. “Very good. A wise man submits to circumstances. Your universe is too outdated, and your mantras and abhijnas are too low-end. “I will teach you my absolute arts, and you will become the most powerful existence in the world in one fell swoop...”

Divine Emperor Lang Xuan straightened his back and interrupted him, he said with a smile, “Senior, I will now give you two paths. The first path is to go back to your universe and obediently die. The second path is to hand over all your insights to me and go back to your universe and die obediently. Senior, which path do you want to take?”

“You!”

The voice in the Dao fruit flew into a rage. “You Lowly Ant, How dare you treat me so rudely. You Should Know...”

“It seems that you choose the first path.”

Divine Emperor Langxuan laughed loudly. At the back of his head in the heavenly court, his Yuan Shen suddenly attacked, his divine yuan pointed into the giant coffin. “But senior, I still want you to take the second path! You can go back and die, but you must leave your dao fruit behind, because I, Lang Xuan, have taken a fancy to your dao fruit!”

Boom —

An incomparably terrifying throbbing came from the giant coffin. The Dao Tree of the prehistoric existence swayed its branches, and the starry sky shone brightly. The incomparably terrifying power within the dao fruit erupted, actually blocking Lang Xuan’s divine Yuan Finger.

“Move!” Lang Xuan roared, and his primordial spirit pointed one finger after another. He kept pointing, and every time, it was a divine yuan finger.

This was the only move he had used to step into the Dao. If it was anyone else, they would definitely have dodged in all directions. However, the giant coffin was on the wooden altar. Half of it had entered the ancestral court, and the other half was still in the prehistoric universe era. Facing the catastrophe of the Apocalypse..., there was no way to dodge!

Godly Emperor Langxuan struck out countless times. Suddenly, the giant coffin lit up, and an earth-shattering sound came from within. The dao fruit on the Dao tree was finally knocked down by his divine Yuan Finger!

Langxuan laughed out loud. He reached out and grabbed the dao fruit in his hand. Then, he flew up and landed on the top of the coffin. He exerted strength with his feet and said sternly, "Go back and die!"

The huge coffin and the wooden sacrificial altar trembled and were pushed back to the prehistoric universe years. Because there were no dao fruits in the coffin, the sacrificial altar and the huge coffin turned into dust in the great destruction and vanished without a trace!

Divine Emperor Lang Xuan landed on the ground and raised the dao fruit. He laughed loudly. "Heavenly venerate Mu, the other heavenly venerates, the day for you to submit to me is almost here!"

Qin Mu stood at the side and smiled. "Congratulations, divine emperor."

#### **Chapter 1405:**

God Emperor Lang Xuan raised the Dao fruit high up in the air and sized it up repeatedly. His heart was filled with endless joy, and when he turned back to look at Qin Mu, he didn't seem to describe him as annoying anymore. Instead, he seemed to be a little cute.

"Heavenly venerate mu, work well under me!"

He couldn't help laughing. "I like to see you as a treacherous minister, a fool who has no choice but to suck up to me!"

Qin Mu reminded him kindly, "Divine emperor, this dao fruit contains the divine consciousness of the strong practitioners of prehistoric times. Be careful not to be possessed. "If divine emperor can really extract the Great Dao of eternal life from this dao fruit, then it wouldn't be a big deal for me to be your minister and Fool." He laughed loudly.

Lang Xuan also laughed loudly, "Even though that prehistoric existence has some consciousness hidden in the dao fruit, as long as he doesn't entrust it to the ultimate void of our universe, I can control him however I want. "If I can't reach the ultimate void, he's just a soft persimmon."

Qin Mu saw him happy, he took the opportunity to say, "God Emperor, look, I'll help you restore the Jade Lake and restore the glory of the Jade Lake from the immemorial era. I'll also help you come here to subdue the dao fruit and let God Emperor get close to the final realm. Then can god Emperor's Jade Lake..."

"No." God Emperor Lang Xuan kept the Dao fruit, and the smile on his face faded away.

Qin Mu immediately said, "What I mean is, since I've made such a great contribution, can your Majesty allow the gods under my command to come and comprehend the Great Dao of jade platform?"

"It'll cost money."

God Emperor Lang Xuan said straightforwardly, "It's useless even if you call me your majesty. You blackmailed me for twenty percent of primordial chaos primordial liquid, and the moment I think about it, my heart aches. If you want your people to enter Jade platform to comprehend, you'll have to spend money."

Qin Mu said angrily, "You don't care about your face at all?"

God Emperor Lang Xuan nodded with a smile and raised two fingers. "If you want your people to come to the jade platform to comprehend, return twenty percent of primordial chaos primordial liquid to me."

Qin Mu gritted his teeth and raised one finger.

God Emperor Lang Xuan thought about it and smiled. "You Called Me Your Majesty just now, and it sounded pleasing to the ear. Forget it, I'll leave the other twenty percent of primordial chaos primordial liquid to you."

Qin Mu let out a sigh of relief. Not to mention ten percent primordial chaos primordial liquid, even if Lang Xuan wanted twenty percent, he would have given it to him.

Primordial Chaos Primordial Liquid was a resource that could be regenerated. Even though it was incomparably precious, in his eyes, it was still far inferior to the talents of eternal peace.

Talents were the most important.

'I wonder if Xu Shenghua and Lan Yutian have finished drawing the four great heavenly gates. I have to make them come. Not only do I have to comprehend the Jade Lake and cultivate my dao heart, I also have to map out the entire Jade Lake and Jade platform!'

He thought to himself, 'once I establish the unification of Dao realm and Heavenly Palace system, I won't have to look at Lang Xuan's face in the future.'

The two of them left the fragment of great overarching heaven, and Qin Mu immediately bade farewell. God Emperor Lang Xuan was in a hurry to refine the dao fruit, so he didn't stop him.

'If God Emperor Lang Xuan refines the dao fruit and obtains the knowledge of the previous universe epoch, he'll probably become the strongest existence among the ten celestial venerables. However...'

Qin Mu left the Jade Lake and turned back to look at it, a smile appeared on his lips. 'Dao fruit isn't that easy to refine, and so what if he refines it? 'doesn't he still have to rely on himself to cultivate step by step? 'If he directly took the dao fruit and treated it as his own, he wouldn't be much different from supreme emperor.'

His heart was calm, and he was completely at ease.

The improvement of Divine Emperor Lang Xuan's abilities was a good thing. Among the ten heavenly venerables, Heavenly Venerables Hao, Tian Fei, and heavenly venerate Xiao had the highest chance of winning, but now that there was an additional divine Emperor Lang Xuan, the Muddy Waters of the ten heavenly venerables..., it would be even more muddy.

'If Heavenly Duke dies and heavenly venerate Hong obtains the greatest benefits, I'm afraid he'll have to add another heavenly venerate Hong.'

Qin Mu raised his head and looked at the sky of the ancestral court. Heavenly Duke must be looking at the ancestral court right now, right?

However, Heavenly Duke didn't come to see him.

He retracted his gaze, 'I've injected heavenly venerate Hong's dao heart into the nine Hells. If heavenly venerate Hong breaks my nine Hells Heart, even if he still has his own selfish desires, he will be more compatible with the heart of Heaven and Heavenly Dao, maintaining a portion of the heart of Heavenly

Dao. 'even if Heavenly Duke is dead, we would still be on the same path. 'If heavenly venerate Hong isn't able to break the nine Hells Heart...'

The corners of Qin Mu's eyes trembled. 'then, when Heavenly Duke dies, the person who would obtain the greatest benefits would probably not be heavenly venerate Hong! At that time, he might not be able to contend with the ancestor god King! At that time, the Muddy Waters of the ten heavenly venerates would have to include the ancestor god King and heavenly venerate Hong!'

He no longer held any hope for the heavenly duke.

The Heavenly Duke was bound to die.

At the Heaven Alliance meeting, the Heavenly Duke was destined to die the moment the denunciation of the Heavenly Duke was issued.

There was still room for maneuver before the Heaven Alliance meeting, but there was no need for that now.

He had locked up heavenly venerate Hong's Dao Heart to prepare for the worst. He could not let the ambitious and ambitious heavenly venerate Hong obtain all of the Heavenly Duke's power and steal the Heavenly Dao for his own selfish ends!

The Heavenly Dao was selfless, and Celestial Master Hong stealing the Heavenly Dao for himself was the greatest betrayal to the Heavenly Dao!

'Great Change said that Heavenly Guild would succeed and break free from the shackles of the Heavenly Dao. What does that mean exactly?' He thought with a frown.

In front of him, an intense light suddenly shot up into the sky. Qin Mu walked forward and saw that it was the territory of Heaven Consort Gao. Another great spirit energy mutual shift bridge had been built, and the Daoists of Heavenly Court's Dao sect were packing up with hurried expressions, they were heading to another location.

Numerous ships of Heavenly Court flew out from this new spirit energy mutual shift bridge. They were filled with gods and devils under Qing Tianfei's command and Divine Arts practitioners of various races. They used this spirit energy mutual shift bridge to migrate to the ancestral court.

These ships flew in all directions to find a suitable settlement.

Qin Mu looked at the sky. There were already three spirit energy mutual shift bridges connecting the heavenly court. When all the spirit energy mutual shift bridges were built, they would be able to pull the heavenly court into the ancestral court!

The Heaven Court originally lived in the sky above the origin world, but after it flew out of the origin world and returned to the ancestral court, Qin Mu was filled with emotions.

“Divine Weapon Celestial Venerable Royal!”

Qin Mu’s heart jumped when he suddenly saw a divine weapon celestial venerable royal walking out from the Spirit Energy Mutual Shift Bridge. That Divine Weapon Celestial Venerable royal had a tall and imposing body. He looked at the territory of Qi Tianfei from afar and sneered.

“This should be Madam Yuan Mu’s divine weapon heavenly venerate royal, right?”

Qin Mu’s gaze flickered. The most eye-catching sacred ground in front of the ancestral court had already been taken away by the heavenly venerates, so there weren’t many treasures left for Madam Yuan Mu.

Could it be that Madam Yuan Mu’s divine weapon heavenly venerate royal had come out to stir up trouble and snatch the territory from the hands of other heavenly venerates?

‘Madam Yuan Mu couldn’t have taken a fancy to Supreme Emperor’s territory, right?’

However, what exceeded his expectations was that heavenly venerate royal didn’t make a move on heaven imperial concubine Qi’s territory. Instead, he soared into the sky. At the instant she flew up, a great abyss of returning ruins suddenly appeared in the sky and devoured heavenly venerate royal!

‘acting so sneakily, this little girl Yuan Mu must be up to something again!’

Qin Mu became excited and opened the vertical eye between his brows. He looked at the void and observed the movements of heavenly venerate royal.

At that moment, he suddenly saw a figure soaring into the sky in Empress Qi's territory. However, it didn't cause any ripples and didn't give off any aura. It silently sneaked into the void and chased after divine weapon heavenly venerate royal.

"It's that little girl from Supreme Emperor... Ptui! It's that little girl from Empress Qi!"

Qin Mu became even more excited. Empress Qi was the reincarnation of Supreme Emperor and she had also discovered Madam Yuan Mu's movements. She was secretly tracking Madam Yuan Mu!

He looked at Qi Tian Concubine's territory, which was the god execution stage of the ancestral court. The baleful Qi there was extremely heavy, and it could be said to be the place with the heaviest baleful Qi in the entire universe. Looking from afar, he saw two blood baleful qi rising into the sky and intertwining together, they were even bigger than the biggest tornado in the world!

The two baleful qi and blood red were incomparably sharp. Qin Mu couldn't help shuddering when he saw them from afar.

"How on earth did the murderous aura of God execution stage form? Why is the murderous aura so heavy?"

He really wanted to go in and experience God execution stage, but just at the periphery of Qi Heavenly Consort's territory, he could feel that the murderous aura seemed to be a threat to the Great Dao of Heaven and earth. Coming here., he only felt the Great Dao runes in his body shattering one by one and being cut into two!

"The god execution platform of the ancestral court can't be that Strong!" Qin Mu couldn't help shuddering a few times.

His primordial spirit also felt incomparably sharp power attacking him like countless extremely sharp knives that could slash down at any moment!

What was even more terrifying was that the god execution platform could slash dao heart!

The God execution platform of the Heavenly Court was the land of God execution. It could slash the corporeal body and primordial spirit of the god of disobedience, but not dao heart.

Luo Wushuang was known as the number one divine knife of the Heaven Court because his knife skills were outstanding and he had stepped into Dao realm. He had entered the god execution platform of the Heaven Court with one knife each, and in the end, he had relied on his knife path to walk out of the god execution platform safely.

However, Qin Mu suspected that if Luo Wushuang had gone to the god execution platform of the ancestral court, he might not have been able to pass just the test of Dao Heart.

Even though Luo Wushuang's dao heart was strong, he had yet to cultivate to the height of twenty-four heavens of Dao realm.

'The Power of God execution platform is no trifling matter! It Can't slash my dao heart, but it might slash my corporeal body or primordial spirit.'

Qin Mu retracted his gaze, and there were actually two blood-colored knife lights dancing in his pupils. It took him a moment to destroy them.

'this god execution platform should have been formed by absorbing the baleful Qi in the world, and its power is too strong. It must have killed an existence that was abnormally strong in the immemorial era and absorbed too much blood!'

He had originally planned to pass through the god execution platform after cultivating the jade stage. Once he cultivated the god execution platform, he would be a great expert of the nine hell stage realm and he would be able to go to Jade Capital. After all, he had already passed the prison lock Dao Heart stage and walked out of the nine hell stage alive.

However, he had underestimated the ancestral court's God execution platform.

The Four Heavens Gate, jade stage, nine hell stage, and other places would not grow on their own. However, the god execution platform could actually grow on its own!

In the immemorial era, there must have been leaders of all races and creators who had sent prisoners of war or traitors here to let God execution platform behead them. Fresh blood had fed the god execution platform to become stronger and stronger, to the point that even though it was the fourth realm of Heavenly Palace realm., but its might could even kill a few strong practitioners on Emperor's thrones as easily as chopping vegetables!

The danger level of this god execution platform far surpassed that of nine prisons platform!

“Motherf \* CKER Supreme Emperor, agreeing to let me enter the god execution platform to temper myself, he really has bad intentions!” Qin Mu cursed loudly.

With his current abilities, he could only contend against existences on the emperor’s throne realm. However, what he relied on was the profoundness of Divine Arts. He was proficient in all kinds of unpopular paths, skills, and divine arts, such as the path of absolute beginning, the path of Taiji, the path of absolute beginning, the path of Tai Su., as well as heavenly venerate Ling’s Not Easy Divine Arts.

His corporeal body and magic power weren’t strong enough to be on par with the strong practitioners on emperor thrones, and his primordial spirit hadn’t reached the level of the strong practitioners on emperor thrones either.

Supreme Emperor had allowed him to enter God execution platform to temper himself, so it was clear that he wanted to use the might of God execution platform to slash him!

“MOTHERF \* CKER Supreme Emperor!”

Qin Mu cursed again and suddenly executed one qi birth of sinkhole. However, he only executed half a move before a great abyss of sinkhole appeared. He walked into it and vanished.

“Yuanmu, Supreme Emperor, I want to see what you guys are up to!”

After a long while, Qin Mu looked around with his vertical eye in the heart of his brows and finally found traces of Qi Tianfei. Qi Tianfei had tracked down heavenly venerate royal, the divine weapon of Madam Yuanmu, and they came to a black desert.

Qin Mu looked around and was bewildered. ‘this should be the Taiji star field that the Taiji mine belongs to. What is Madam Yuanmu doing here?’

At that moment, he saw divine weapon heavenly venerate royal.

The Divine Weapon Heavenly Venerate Royal was hiding in the divine art of sinkhole and hiding in the void. Qin Mu was puzzled. ‘this little prodigal Yuan Mu seems to be tracking someone as well...’

At that moment, he saw a peerless beauty strolling in the black sand desert towards the Taiji mine.

Jue wuchen!

“It’s empress dowager!”
