

Tales of Herding Gods Chapter 1406-1410

Chapter 1406:

‘strange, even the creator didn’t know there was such a place as Taiji land. All they could find was a fake taiji mining area. How did Empress find this place?’

Qin Mu was bewildered. The ancient gods of Taiji land were extremely strange. They were twin ancient gods. All the other divine eggs had been dug out, but only these two ancient gods had escaped.

Furthermore, these two ancient gods were extremely intelligent. Back then, Qin Mu had relied on Taisu to find this place and displayed extraordinary divine arts attainments, making the mine unable to do anything to him. Thus, these two ancient gods had directly negotiated with Qin Mu, they gave him a hundred taiji divine stones and a Taiji raw stone to tell him the location of the Great Black Wood.

If empress dowager had found this place, it would have been impossible without the guidance of the ancient gods. Only the egg-laying ancient gods could find Taiji land.

So was it goddess Tai Su or heavenly venerate Xiao who was giving advice to empress dowager?

‘Tai Su is helping heavenly venerate clear, so it’s impossible for her to give advice to empress dowager. Heavenly venerate Xiao and empress dowager have a deep grudge, so even if heavenly venerate clear is willing to give advice, empress dowager might not be willing to come to this place. ‘supreme beginning is with me, and Tai Yi wouldn’t show his face to interfere in the affairs of the world. So the only one who can give advice to empress dowager to come here is...’

Qin Mu’s expression was strange. “Only ancient god Taiji himself.”. Tai Su had found heavenly venerate vast heaven to be her assistant to seize back Tai Su’s mineral vein and help her attain Dao. “The mineral vein of ancient god Taiji is still intact. The reason why she roped in Empress Emperor was probably to find a helper among the ten heavenly venerates to help her seize the world. “These two ancient gods aren’t as indifferent and indifferent as they say.”

He quickly made his own judgment. “The one causing trouble isn’t Madam Yuan Mu, but ancient god Taiji! “These two ancient gods must have seen the opening of the ancestral court by the ten heavenly venerates and knew that their mine would be hard to protect. They didn’t know when they would be discovered, so they made preparations! “They are about to enter the human world.”

At that moment, heavenly venerate Royal’s divine weapon was staring at Jue wuchen, while Qing Tianfei was staring at her. Qin Mu was staring at the three of them at the same time.

Jue wuchen seemed to have sensed nothing as he continued to walk toward Taiji mine. Gradually, Qin Mu noticed something amiss and looked around in a hurry.

‘The place that Jue Wuchen is walking to isn’t the center of Taiji mine. According to her method, she would only deviate from the mine and not enter the real mine... That’s right, ancient god Taiji sensed that someone was following her and created a fake mine!’

Qin Mu instantly came to a realization. ‘these two ancient gods are the best at faking! and empress dowager doesn’t only have Jue Wuchen’s corporeal body that can be used, she also has her true body!’

He no longer chased after concubine Qiang Tian, Jue Wuchen, and divine weapon heavenly venerate Yu Tian. He retreated silently and rushed toward the real mine.

Taiji mine was a familiar path to him. The last time he came here, he needed to use the power of the Azure Glass Heaven stronghold to pass through the incomparably dangerous Taiji star region. This time, he was proficient in the Four Great Dao Divine Arts of absolute beginning, absolute beginning, Taisu, and Taiji. There was no danger at all when he went deep into Taiji star field.

Qin Mu followed the mining area. After a long while, he suddenly turned back and saw that he had long left the continent of the ancestral court and had come to a vast starry sky.

He turned his head back and saw that there was still a desert in front of him. He was still in the ancestral court.

This was the extraordinary part of Taiji star field.

‘these two ancient gods have vast divine arts. Emperor Tai and Madam Yuan Mu are also the local snakes of the ancestral court, but to find Taiji mining area, they would have to go through a lot of trouble. ‘moreover, they were brought by Jue Wuchen to another fake mining area created by ancient god Taiji, so I’m afraid they wouldn’t be able to tell that it’s fake.’

Qin Mu shook his head. At that moment, he saw Empress Emperor.

Just as he had expected, Empress Emperor was controlling her true body and walking in the black sand desert. The flying black sand was countless stars, and the violent winds were fierce. The black sand danced in the air, and it was incomparably dense, even denser than a rainstorm.

The sand was stars, and the violent winds swept up the black sand. When it smashed onto a person's body, it was equivalent to countless stars smashing down. If one used their own abilities to block it, it would be very difficult for them to pass through the desert.

Qin Mu's body turned into a formless and immaterial state. He allowed the black sand to land on his body and pass through his body, but it didn't hurt him in the slightest.

It was strange to say that the black sand desert was so dangerous, but the path that empress dowager had taken was calm. Black winds howled on both sides, and the black sand danced in the wind. However, the path in front of her was smooth.

'it's indeed ancient god Taiji guiding her,'Qin Mu thought to himself.

He carefully observed his surroundings, but ancient god Taiji shouldn't have noticed him. The density of the black sand that passed through his body was the same as the other places, so it wasn't targeted at him.

If they had discovered him, the two ancient gods should have been able to target him and cause more changes to Taiji star field. Even though they couldn't kill him, they could make him unable to figure out the location of the mine.

Finally, Empress Dowager came to the center of Taiji Star Field. A mountain range that looked like a dragon vein ran through the entire star field, splitting it into two.

To Qin Mu, this was a star field, but to her, it was just a desert.

What she saw was a desert.

Empress Dowager climbed up the mountain range and saw the mountains in front of her moving automatically. Some of the mountains suddenly turned from lifeless rocks into huge beasts with bodies of flesh and blood, automatically standing up to make way for her, some of the valleys bulged automatically, turning into a smooth path.

"The two ancient gods are still biased. The last time I came here, they tried to stop me in every way possible, but when empress dowager came here, she was shamelessly trying to curry favor with me."

Qin Mu couldn't help shaking his head and followed Empress Dowager into the mine.

Empress Dowager walked forward and entered the mine. She looked around, but when she saw the inscrutable changes in the mine, she couldn't help clicking her tongue in wonder.

Although she was also an ancient god, she didn't have the ability of ancient god Taiji. As one of the goddesses of the sinkhole, the empress dowager, who was the mother of the world, was also very envious of ancient god Taiji's ability.

Finally, she came to the center of the Taiji mine and saw a natural eight trigrams altar. Seven Taiji raw stones guarded an ancient god egg, emitting a quiet light that was compatible with the mine and extremely peaceful.

Empress Emperor bowed to the ancient god egg in the altar and slowly sat down. She said, "Dao brother, it's quiet here and no one disturbed you. May I know why you called me here?"

The dao voice in the egg shook and turned into a voice. It was male and female at times. She smiled and said, "I invited sister here to conspire for a major event."

Empress Emperor smiled slightly and did not immediately respond to his words. She looked around and said, "Although it's quiet here, someone seems to have come here. Even one of your raw stones is missing."

A male voice came from the egg and said with a smile, "Speaking of which, a few years ago, an uninvited guest groped his way to my place and extorted one original stone and a hundred divine stones from me."

Empress Dowager couldn't help being moved and asked curiously, "Who dares to Extort Dao Brother?"

"That person is Qin Mu and heavenly venerate mu, who are following behind my sister."

A female voice came from the egg and said with a delicate smile, "Heavenly venerate mu, there's no need to hide anymore. I've already discovered you long ago. Because I saw your spells and divine arts, I knew I couldn't stop you, so I've been enduring patiently. Please show yourself."

Empress Dowager was astonished, and she hurriedly got up. When she turned back, she saw Qin Mu walking over from not far behind her.

'his abilities aren't that great, but his methods are strange. Even I have been fooled.'

Empress Dowager was alarmed, but she greeted Qin Mu with a smile on her face.

Qin Mu returned the greeting and greeted the ancient god egg on the eight trigrams sacrificial altar before sitting down together with empress dowager.

He habitually stretched out his hand to pull out his sword and wanted to do what he did last time. He stabbed his divine sword into the sacrificial altar, but he found nothing. Only then did he remember that his broken sword had been shattered by founding emperor's carefree sword, and he felt slightly regretful.

'at the meeting of the Heaven Alliance, founding emperor was too merciless. He shattered my sword to show that his sword path was number one. 'otherwise, when my sword was stabbed into the sacrificial altar, it would have reminded ancient god Taiji of the fear of being controlled by me under duress. It would have saved them from playing any tricks behind my back.'

His mind jolted, he smiled and said, "The two dao brothers in the egg are really at ease. They actually invited the empress for tea but didn't invite me. Where is our friendship? The first Holy Land of the ancestral court, the great black wood of the ancestral court, the one hundred thousand Great Black Mountains, the place where no birds shit, I have taken it! I haven't thanked the two of you yet!"

The Man in the egg laughed loudly and said in a clear voice, "Heavenly venerate mu, don't try to be a good boy after taking advantage of me. You have received countless benefits from the great black wood. Do you still need me to point it out?"

The female ancient God's voice came over, and she said crisply, "To others, that is the most dangerous place in the ancestral court, but to you, it's the most sacred place. Are we right to say that?"

Qin Mu snorted and wanted to stab his sword into the sacrificial altar, 'the hearts of these two ancient gods aren't simple. Only when the sword is placed on the egg will they tell the truth, but unfortunately... I have to find the best divine gold and forge the best divine sword!' 'speaking of which, I seem to have been tricked by Grandpa Mute. He lied to me that the Broken Sword I forged is the best divine weapon...'

He was in a daze and unconsciously pulled the beard on his chin.

When empress dowager saw that he could still think of other things in such a situation, she couldn't help admiring him, 'heavenly venerate mu seems to be heartless all the time... Strange, the dao brother in the Taiji mine was born with the same background as the heartless man. How powerful are his divine arts? Why are his words a little afraid of him?'

She didn't know that the last time Qin Mu had come, he had gone through many difficulties and obstacles. If he hadn't learned the divine arts that were difficult to obtain, he would have been killed by ancient god Taiji and the mine. His corpse would have been in thousands of different postures.

Ancient god Taiji was afraid of him because he couldn't do anything to him and had been stabbed on the sacrificial altar by him.

Of course, the ancient god in the egg wouldn't tell the empress about this.

"Daoist brother, why did you summon me here?"The empress asked.

A male voice came from the egg, "A few years ago, Tai Su came to look for me. She wanted me to come out of the mountain and conspire with her, but I refused. However, she refused to let it go. She was born early and we couldn't do anything to her. In desperation, we had to tell her to look for heavenly Lord Haotian."

The empress was slightly shocked. "Another ancient god in the egg went to look for Heavenly Lord Haotian? With the support of such an ancient God, Heavenly Lord Haotian will be even harder to deal with!"

A female voice sounded out from the egg again, "This time, the ancestral court is completely open, so it's probably hard for our quiet place to be quiet. That's why we need a fellow Daoist. "Because we suffered a disadvantage from a postnatal being and were threatened by that person, we had no choice but to give up our Taiji raw stone. That's why we can't trust postnatal beings."

Qin Mu touched his nose and wanted to pull out his sword to stab it into the sacrificial altar. 'I must refine another divine sword!'

'that's why we have to find a dao friend that we can trust from the ancient gods.'

A male voice came from the sacrificial altar. "Taiji, the path of yin and yang, changes endlessly. All the ancient gods in the world are compatible with our path, and the one who complements each other is Empress."

"Empress is the path that gives birth to the ancient gods. She is the person who returns to the ruins, the place where all things end up, and also the place where all things are born."

The woman's voice came from within the egg, "Twin lotuses. One represents the Dao of destruction, the goddess of destruction who loves to see the world in chaos. The other represents the dao of life, the ancient god who nurtured all living things.". "This is the reason why ancient god absolute beginning chose you as his empress."

"Mother Yuan's sinkhole is the abyss that devours everything. Your sinkhole is the mystic female that nurtured everything. One is destroyed, and the other is born."

"With your help, our yin-yang creation can be completed. With our help, you can also mediate between life and death and fuse with Yuanmu, becoming a unique existence

"Sister, the ancestral court's reappearance in the world means that this is a world of great strife. The battles in the future will be a hundred times more intense and magnificent than the War of destruction in the immemorial era

"Facing a war that is a hundred times more destructive than the creator, everyone is at risk of dying! Including ancient gods, celestial venerables, US, and even existences that have already attained the DAO, there is a possibility of dying

"Join hands with US and make preparations. What do you think?"

The Empress's body trembled. A hundred times more devastating than the Battle of Blood Rust? How was that possible?

Chapter 1407:

Empress Dowager looked at Qin Mu, but his expression was still indifferent. It was as if he had known about this for a long time and wasn't surprised at all.

Empress Dowager composed herself and thought for a moment, "My late husband was born prematurely and was dug out by Supreme Emperor to be worshiped, so he has a huge flaw in his cultivation and abilities. Dao brother has been silent here for countless of billions of years, so he should

have cultivated to perfection and wouldn't be in the same situation as my late husband. "Why are the two of you so afraid of the future?"

The meaning in her words was actually to ask ancient god Tai Chi. They were hiding here and calmly absorbing the power of the mineral vein. After such a long time, they should have been able to be born perfectly, so why hadn't they been born yet.

However, she was, after all, the empress, so her question was rather tactful.

"Logically speaking, we can indeed be born. Such a long time is enough for us to absorb all the power and cultivation of the mineral vein."

The male voice in the egg said, "However, the ancestral court has restricted our birth."

Empress Dowager was puzzled, and Qin Mu couldn't help being curious as well. His body couldn't help leaning forward.

The female voice in the egg said, "We have been absorbing the power of Taiji mine, and it has never stopped since the universe was opened. When the creator race rose, they started to mine mine mine, and all five of them had been mined before. "There was a dao brother who was born before the creator. He left behind an empty mine and was free and unfettered. "When he was born, there was no disturbance from the mortal world. The Great Dao was pure. Once he was born, he transcended and became a dao."

The Man in the egg said, "After him is dao brother absolute beginning. "Dao brother absolute beginning has the hope of becoming a dao after him. Unfortunately, he was dug out when he was only halfway through his growth and was worshipped by the creator as a treasure. "Before he was born, he was already contaminated. "It was extremely difficult for him to become a dao master. He had to remove the creator's power of worship from his body and retrieve all the power of the absolute beginning mineral vein

"The third Daoist brother was Tai Shi. "When he was dug out, he was also treated as a great treasure and worshipped by the world. "However, he later fell into the hands of the Yu clan of the Supreme Emperor residence. After Emperor Tai was defeated, he fell into the hands of Tai Chu. Tai Chu was no longer in the state of an egg. He had a desire for power and was worried that his perfect appearance would threaten his position. Hence, he imprisoned him

"Tai Su was also a person with a hard life. She was dug out from the mineral vein by the female Xin family of the creator and brought to the Yu family. After that, she fell into the hands of the black tortoise

of the Northern Emperor and was treated as a treasure. She was refined into the azure azure sky canopy. She was bitterly searching for the path of transcending, but she didn't know that she had met someone unladylike and was brought to the previous universe by someone. She had no choice but to come into the world ahead of time

'if she wanted to become a dao, the Karma would be great. Not only would she have to take revenge for female Xin clan, Juyu clan, and being refined into a treasure, she would also have to take revenge for coming into the world ahead of time. There's also the Karma from the previous universe era that still needs to be settled.'

When Qin Mu heard this, he felt a chill in his heart.

The person that ancient god Taiji had mentioned wasn't a virtuous person, and that person was him.

He had come out of the Great Black Wood at night and had brought the egg of Tai Su to the moment when the previous universe epoch had been destroyed. He had no choice but to raise the egg of Tai su high up in the air in an attempt to return to the world tree, and Tai Su had also been born at that time!

The birth of Tai Su had a lot to do with him.

"As for us, we have also been polluted by the affairs of the world."

The woman in the egg sighed, "After we observed the encounters of the fellow Daoists, we first became vigilant. With vigilance, we are no longer pure dao hearts. "From then on, we were one step away from attaining the DAO

"However, we didn't expect this at that time. We created a fake mine to deceive the creator, while the real mineral vein was hidden by us. In this way, we are one step away from attaining the Dao."

The Man in the egg sighed, "We mobilized the Taiji star area to kill the creator and other creatures that entered the mine to protect ourselves. With the intention to kill, we were even further away from achieving the Dao." "At that time, we didn't realize it. We thought that we had succeeded."

The woman in the egg said, "We hid ourselves. We were always on tenterhooks. We were always worried that Emperor Tai would find us and that absolute beginning would find us. "Only when absolute beginning led the other ancient gods to seal the ancestral court did we feel at ease. We felt that we could absorb the taiji mineral vein to become the Dao."

The male voice in the egg sighed. "Only then did we realize that we had long been polluted by the secular world. Even though we didn't have the disturbance of the secular world, we were getting farther and farther away from becoming the DAO. "Not only that, we also discovered another terrifying thing."

The male and female voices fell silent.

Qin Mu's heart moved slightly, and he had a terrifying guess. He opened his mouth to ask, but he endured it.

Empress Dowager was calmer than him and was still waiting quietly.

After a moment, the male and female voices in the egg overlapped, and they said in unison, "Even though the ancestral court has been sealed, we discovered that there's not only us in the ancestral court, but there are others as well!"

Qin Mu's heart trembled violently, and he thought to himself, 'as expected, it's the same as what I guessed!'

'the ancestral court was sealed, but it couldn't seal that Dao brother who had been born earlier. He was elusive and unfathomable. However, the other people in the ancestral court weren't him.'

'the others came from underground, but they didn't come from underground. They were remnants of the previous universe epoch. They came from the previous universe epoch.'

"They had already made preparations. They had already set up many traps in the ancestral court. They had even plotted against our Taiji mining area."

"When you sealed the ancestral court and left the ancestral court, we felt that a terrifying prehistoric ruin had arrived at our mining area. It had locked us down from absorbing the power of the mining area and the Great Dao, making our progress slow over the years."

There was some fear in the voice of ancient god Taiji who was in the egg. "We were born with a heart of fear and were one step away from attaining Dao. "Therefore, when uninvited guests came to the mining area, we lent out Taiji raw stones because we couldn't absorb much power from the raw stones over the past million years. We couldn't absorb much power from the mining area, so there was no harm in lending it to him for a period of time."

Qin Mu immediately opened his vertical eye at the center of his brows and looked into the underground of the mine. His divine eyes were unparalleled, and he could even see through the shards of great overarching heaven beneath Jade Lake. He could immediately see the entire underground of Tai Ji Mine.

He saw an ancient fragment of great overarching heaven eating away at the star field and devouring the mine. There was a mysterious ruin that was right below Tai Ji Mine, there were strange buildings on the ruins that were made of the best divine gold. Even though they were covered in mottled rust, the ripples of the Great Dao could still be seen flowing on the surface.

It should have been a ruin left behind by a highly developed civilization that had used supreme divine gold to build a divine city in an attempt to survive the great destruction of the universe and come to a new universe.

However, Qin Mu didn't see any living beings there as if their lives had already been destroyed. Since it was a fragment of great overarching heaven, it shouldn't be that simple.

However, Empress Dowager was unable to see this scene and didn't understand the fear of ancient god Taiji, "Dao brother, since all of you are locked up and unable to raise your cultivation and raise your cultivation, you shouldn't be able to come into the world perfectly. Since all of you have stopped growing, what is there to say about helping me?"

She said indifferently, "Please forgive my bluntness, but benefits come first. If I don't have enough benefits, why would I cooperate with you? If you can't Help Me, then forming an alliance with you and joining hands to resist the future calamity is just a joke."

Qin Mu's gaze flickered. "In that case, the two Dao brothers are planning to come into the world prematurely?"

Empress Dowager's heart trembled slightly. With his reminder, she immediately thought of the crux.

The reason why ancient god Taiji had asked her to come was probably because he wanted to be born ahead of time!

If ancient god Taiji were to be born and leave the mining area, then he could indeed be her helper!

Ancient god oviparous praised, "Heavenly venerate mu is indeed extremely intelligent. He can understand a person's elegant intentions just by hearing a string. Unfortunately, your strength is not

enough. Otherwise, we would definitely choose you as our ally and not the empress. “Your guess is right. We indeed have the intention to be born.”

The woman in the egg said, “We are trapped here. We have an empty mining area but are unable to absorb the power to comprehend the Great Dao. Our Dao Hearts have also been destroyed and invaded by the secular world. Rather than guarding the Taiji mining area all the time, we might as well be born ahead of time and walk through the secular world.”

The Man in the egg said, “The trivial matters of the secular world have destroyed our dao hearts. We have the heart of cleverness, the heart of fear, the heart of joy, anger, sorrow, and joy. We have the negative emotions of greed, fear, fear, murder, lust, power, profit, cunning, and scheming that have delayed our path to Dao. “Since it was given to us by the mortal world, we have to walk through it.”

The female voice in the egg said, “Only by walking through the mortal world can we overcome greed, fear, power, and interests. Only then can we get rid of the heart of cleverness and fear, allowing our dao hearts to return to the simplicity they were before all life appeared, thus becoming the path and freeing ourselves.”

The words of ancient god Taiji brought different emotions to Qin Mu and empress dowager. Each of their hearts had different understandings.

Empress Dowager remembered the time when she was born. It was the path of sinkhole that had given her consciousness. At that time, her consciousness was incomparably pure, and it was the most compatible with the path of sinkhole.

Her Dao Heart was her heart.

She had been born in the Lotus Flowers of great abyss of sinkhole, and it was peaceful and beautiful.

But when did all of this start to change?

Was it when the creator had discovered her, this dao-born ancient god, and felt her reproductive power, so he had worshiped her and begged her to protect him so that his race would have more children and be blessed?

Was it when the creator had tried to use her power to get rid of his enemies?

Was it when he had met her in absolute beginning and had fallen in love with her?

Or was it when he had felt the worship of the creator, the worship of all living beings, and the desire to enjoy power?

However, she didn't have the high consciousness of ancient god Taiji, so he hadn't realized it, so he had fallen into the mortal world.

Qin Mu thought of something else.

He felt that it was indeed a feasible path for ancient god Taiji to temper his dao heart in the mortal world. After all, he had also been going through many trials and tribulations in the mortal world, growing bit by bit. His Dao heart also continued to grow along the way, his Dao realm also slowly rose.

He thought of another thing, and that was Lan Yutian.

In the past, Celestial Master Yu had been disturbed by the trifles of the secular world, so his dao heart wasn't as pure as Lan Yutian's. Even though Lan Yutian was walking in the secular world now, he was more like the ancient god who had laid eggs before the birth of all life. He didn't have the heart of utilitarianism, he didn't have the desire for power or those distracting thoughts. He only had an incomparably pure dao heart.

Compared to the other ancient gods who had laid eggs other than Tai Yi, he was more like an ancient god who had laid eggs, silently absorbing nutrients in the huge mining area of the secular world to improve himself.

He was the person closest to attaining Dao.

In Qin Mu's spirit embryo divine treasure, Tai Shi also had his own comprehension. He had unknowingly stopped absorbing the power of the primordial stones and the Tai Shi mine, quietly thinking about his future path.

'even though the formation of ancient god Tai Ji was after me, their understanding of Dao is already above mine.'

He couldn't help but sigh, he felt that he had benefited greatly. "The Empress Empress has occupied my taishi mining area. Even if I can borrow heavenly venerate Mu's hand to take it back and completely

absorb the power of the mining area, I still can't reach perfection, achieve the dao, or transcend. "I also need to be like ancient god Taiji and walk around the world to Hone my dao heart. Only then can I reach Daoist brother Taiyi's level."

They each had their own gains and comprehensions, but the things they comprehended were different.

Ancient god Taiji who was in the egg said, "This time, we invited Empress because our strength isn't enough to break the divine egg. Please help us."

Empress Emperor stood up and said solemnly, "We should help you."

Qin Mu also stood up and said seriously, "Dao brothers in the egg, how will you treat me after you are born? I want to know your positions."

Empress Dowager looked at him, killing intent flashed through her beautiful eyes. "Heavenly venerate mu, the current you and our ten heavenly venerates are like grasshoppers on the same rope. You should be clear of your own weight and correct your position. Don't have too many thoughts. Otherwise, you will only invite trouble for yourself. Sinkhole is one of the few places in the world that can wipe you out. The Great Dao of sinkhole is also one of the few Great Dao that can crack divine arts that are difficult to deal with!"

Qin Mu laughed loudly and his killing intent surged. "If the two dao brothers want to become enemies with me in the future, I will definitely fight to the death today! Think About It!"

He turned around. "Empress, if you feel that the divine arts of sinkhole can obliterate me, you might as well give it a try!"

Chapter 1408:

Empress Dowager's killing intent rose, and Qin Mu could feel it. He said indifferently, "Empress dowager, you have the killing intent, and you are one step away from attaining Dao."

"Heavenly venerate mu, when you attain Dao in the future, you will also become Dao through words!"

Empress Dowager raised her hand and pointed, and a great abyss of sinkhole appeared above Qin Mu's head, cold Way: "My return to the ruins of the eye of the sea, I do not know how many sacred, how many heroes, You Mu Tianzun is not the first, will not be the last!" I will fill the sea eye with you today. If you can survive a hundred years, I will spare your life!"

Qin Mu's battle intent towered into the sky. He stretched out a finger and gave it a light stroke. Boundless water appeared and filled the air. In an instant, a jade sea appeared between the two of them, pulling them further and further apart, qin Mu stood on the Jade platform by the jade sea and looked at the emperor's back with a cold gaze.

The light behind him shone brightly, and heavenly palaces appeared. Primordial spirits sat in all the heavenly palaces, and when they stood on the jade sea, only extreme load heavenly palace wasn't complete.

'If my primordial spirit crosses the Jade Lake and passes through God execution platform, I'll enter the realm of nine prison platform. Will I be able to fight celestial venerable and not die?'

A brilliant light flickered in his eyes, and a terrifying belief began to stir in his heart. He wanted to fight against heavenly venerable head-on!

Empress Emperor wasn't personally descended by heavenly venerable Yan, so if heavenly venerable Yan had personally descended, he wouldn't have such a bold thought.

Empress Yan's abilities were unfathomable, but Empress Emperor was only an ancient god. Even if she was controlled by her primordial spirit, she couldn't compare to all of her battle prowess.

If Qin Mu crossed two realms in a row, even if these realms weren't complete, his cultivation would still soar, and the increase in his abilities would be astonishing. Under such circumstances, would he be able to contend against heavenly venerable?

Since he had cultivated Jade Lake, he needed a chance to show off. He needed to see his cultivation, his abilities, and his dao realm!

The two of them were on the verge of exploding!

Empress Emperor was about to make a move when ancient god Taiji in the egg suddenly sighed and said in unison, "Both of you, calm down!"

The primordial spirits of Qin Mu's heavenly palaces had already reached the edge of the jade lake, allowing his cultivation to continue rising. His primordial spirit walked toward the god execution platforms of the heavenly palaces.

Ancient god Taiji's words made him stop his primordial spirit. Empress Emperor raised her eyebrows and held back her anger.

Ancient god Taiji said, "Empress, Celestial Master Mu, take a step back and open up the sky and sea. A step further and blood will flow all over the ground. There's no need to be angry over this small matter. "Celestial Master Mu, after we were born, we went through tempering in the secular world to Hone Our Dao Hearts. "We promise you that we will never become enemies with Celestial Master Mu in the future. Are you satisfied with this promise?"

Qin Mu dispersed his killing intent and battle intent and laughed loudly. He bowed deeply to the ground. "Thank you for your kindness, Dao Brothers. I'm eternally grateful! I hope the two of you will not forget what I said today!"

"I don't dare to forget," ancient god Taiji's male and female voices overlapped in the egg.

"With your words, I can be at ease."

Qin Mu took a step back and gave the empress a glance before turning around to leave. "Empress, I'll wait for you outside."

Empress Emperor ignored him and asked, "When does dao brother want to be born?"

Ancient god Taiji was slightly surprised by Qin Mu's departure, but since the matter at hand was related to whether or not the two of them could be born, he didn't take it to heart, "Our strength isn't enough to break the eggshell, so we ask the empress to take action and cut open the eggshell to help us come out. The ancestral court is probably not far away from the chaos, so it's naturally best for us to come out as soon as possible," he said

"Alright!"

Empress Emperor turned around and walked out of the mine. "My true body will come very soon. When that time comes, I'll need the help of the two of you to open the returning ruins and bring it to the mine. I'll need to borrow the power of the twin lotuses to break open the eggshell."

Ancient god Taiji immediately said, "Don't worry, Empress. I still have some tricks up my sleeve. However, heavenly venerate mu..."

“You two don’t need to worry about his matter. You promised not to deal with him, but I didn’t.”

Empress Emperor’s figure disappeared from the mine and walked into the sand that filled the sky of Taiji star field. Qin Mu walked to the other half of Taiji star field, and white sand danced in the sky. Empress Emperor’s figure also quickly disappeared into the depths of the white sand, her voice came from afar.

“A person has to know his own limits. He should know the immensity of Heaven and earth. I Can’t go back on my words. I said to fill the eye of the sea, so I let him fill the eye of the sea! I said to suppress him for a hundred years, so I suppressed him for a hundred years!”

Ancient god Taiji in the egg sighed.

“For heavenly venerate mu to be able to survive in such a dangerous place like the great black wood, it means that his cultivation is already extraordinary. There’s no need to worry too much about him.”

The woman in the egg said, “Moreover, he threatened us and forced us to hand over a raw stone and a hundred divine stones. It’s only natural that he was suppressed for a hundred years.”

The Man in the egg said, “What you said makes sense. However, for him to be able to survive in the great black wood, it means that he has already obtained the approval of that Daoist brother. “This is something that we have to consider. We have to at least give that Daoist brother some face. Moreover...”

He thought for a moment and said, “I Can Sense Dao brother Tai Shi’s aura from him. Just now, there was a moment where his aura came from him.”

“You’re worrying too much.”

The woman in the egg laughed. “It’s fine if you’re worried about Dao Brother Tai Yi, but what’s the point of worrying about Tai Shi? Tai Shi’s fortune wasn’t abundant, and it was far inferior to ours. He was the second ancient god egg to be dug out, only second to Tai Shi, and he didn’t have Tai Shi’s fortune. Tai Chu was more mature. Although he was born early, he was also worshipped by the creator. He was powerful and had power. What does Tai Shi have? After he was dug out, he was suppressed by Tai Chu. Even if he joined Celestial Master Mu, Celestial Master Mu was just an insignificant character

The Man in the egg said, “After all, they both came from the ancestral court’s lode and were born with five innate daos. We can’t underestimate them.”

“Tai Shi is too far away from the Dao. We are much closer to the Dao than he is. It will be difficult for us to reach the DAO if we are too cautious. There is no need to worry too much.”

The woman in the egg said, “With Tai Shi’s help, he will not die even if he is suppressed in the sinkhole. What is a hundred years of suppressing him to extort us for the divine stones? “He has offended Empress Tai Su. Empress Tai Su hates him to the core. Just this alone will make it difficult for him to reach the Dao in his life. There is no need to worry too much about him.”

“That’s true.”The male voice in the egg no longer spoke, quietly waiting for concubine Yan Tian to arrive.

Empress Emperor traveled through the white sand desert. Ancient god Taiji still took care of her. The white sand was made up of dead stars, and it was highly condensed. It was suffused with terrifying geomagnetic elemental energy, distorting space, and greatly reducing the speed of material changes.

Material changes caused the illusion of time passing. In this place, material was almost static, and the speed of change was extremely slow, giving people the illusion that time was frozen.

The change of matter in the white sand was slow, which was why a massive amount of energy was gathered. When the energy exploded, it would give birth to an incomparably terrifying sword qi!

This sword Qi crossed the void of the universe and could pass through many galaxies, destroying planets and stars. It was extremely powerful!

In the white sand desert of the Taiji star field, this sword Qi was everywhere, making it impossible to guard against.

If it was under normal circumstances, empress dowager wouldn’t have been willing to step into such a dangerous place so easily.

Fortunately, with the help of ancient god Taiji, she didn’t need to expend too much energy to deal with the white sand desert. She just needed to move forward.

In front of her, the wind and sand filled the sky. Empress Dowager could faintly see a tall figure. It was Qin Mu.

Compared to other adults, Qin Mu was tall and looked young. His face still had the childish air of a youth, but the beard on his chin was extremely stubborn. It would always pierce through his stubborn face.

Qin Mu had already stopped in the white sand desert, and his aura became stronger and stronger.

Empress Dowager raised her eyebrows slightly. The youth stood tall in the desert, and the terrifying white sand whistled past. The terrifying sword Qi of the universe actually passed through his body, but it didn't cause any damage to him.

It was the Dao of primordial beginning!

Unknowingly, Qin Mu had always been in his twenty-fourth heaven of Dao realm, in the state of primordial beginning questioning Qing Ming.

In this state, ten thousand spells couldn't invade and ten thousand paths couldn't harm him. Even in such a dangerous place like Taiji star field, he was still safe and sound!

This was the invincible place of innate state!

There were five great daos in innate state, and great changes were called Chaos, chaos, and boundless nothingness. Primordial was formless and formless, and innate Qi could change with divine consciousness.

Primordial had form but not substance, and Tai was formless and corporeal. Taiji yin and Yang transformed everything into life.

These were the five oldest and most primitive great dao of innate state. If one could grasp one of them, he would be able to stand in the invincible position of innate state!

Qin Mu was executing a great divine art that he had comprehended from the path of Tai Shi. Even though it was just a way to show it, under such circumstances, if he wanted to hurt him, he would have to use a divine art of five great grades, or his abilities would be much stronger than his.

However, Divine Arts were divine arts, and the Great Dao was the Great Dao.

Divine Arts had flaws in their transformations. Unless one had attained dao, there wouldn't be any flaws. Otherwise, heavenly emperor primordial wouldn't have died, and ancient god Taiji wouldn't have had to hide in all directions. Primordial beginning wouldn't have had many misfortunes, and Tai Su wouldn't have appeared in the world ahead of time.

"Empress Emperor, it's not convenient for us to help you, please forgive us." Ancient god Taiji's voice suddenly came into Empress Emperor's ears.

Empress nodded lightly and said indifferently, "There's no need for the two of you to help us."

The moment her voice fell, the white sand desert around them suddenly calmed down. The white sand didn't rise, and everything was calm.

Weng —

Qin Mu's spirit embryo divine treasure domain suddenly spread out, and the corners of Empress's eyes twitched. She saw that Qin Mu's back was still facing her just now, but at this moment, he was actually facing her. Qin Mu didn't turn around at all., yet she could see Qin Mu's face, which made empress dowager find it hard to understand.

"Pretending to be mysterious!"

Empress Dowager gave a cold snort and raised her hand to point. A great abyss of returning ruins appeared above Qin Mu's head. It was ten thousand miles long and was like a cone-shaped crack, swallowing Qin Mu whole!

This was the black mare!

Empress Dowager turned around and walked away. "You can't withstand a single blow."

At that moment, a world-shaking bang came from the great abyss of returning ruins. It was like a huge devil swallowing something that couldn't be digested. It was stuck in its throat and couldn't be eaten or spat out.

Empress Dowager frowned and stopped to turn around. She saw Qin Mu standing in the great abyss of returning ruins, his body unmoving. No matter how terrifying the great abyss of returning ruins was, it couldn't do anything to him.

“Empress, don’t forget that your corporeal body has always been in my hands.”

In the great abyss of returning ruins, Qin Mu stretched out a hand, he clenched it tightly. “I have already seen through all the secrets of your corporeal body! I have already used microscopic algebra and macroscopic algebra to build an incomparably detailed model of your corporeal body.”

He smiled proudly. “I know your body better than you!”

“Stinky Man!”

The empress sneered and said, “It seems that I will not only cut off your hands, but also your head!”

Chapter 1409:

At this time, Yantian Imperial concubine is rushing to Taiji star field, into the black sand desert, and the Heaven Imperial Concubine, Divine Weapon Royal Tianzun also followed absolute no dust to the depths of the desert.

Qing Tian Fei and divine weapon royal heavenly venerate were both heavenly venerate level existences. Even Jue Wuchen had no way to detect them. They only saw Jue wuchen walking into a magnificent mining area. The mining area was ever-changing, which made the two heavenly venerates click their tongues in wonder.

When they walked into the mining area, they saw that this mining area was full of the magnificence of the Taiji Dao. Yin and Yang were born, and there was no end to them.

The Taiji Dao could transform living things in heaven and earth, such as immemorial behemoths, flowers, grass, insects, plants, insects, humans, gods, demons, and monsters. Even ancient gods could be created.

It could also transform lifeless things in the universe, such as rivers, mountains, oceans, Thunderclouds, Lightning, Sun, Moon, and stars. It was the miracle of creation.

Even Qi tianfei and Shi Qiluo, who controlled the divine weapon, were dazzled. They praised the power of the ancient Taiji gods and the profoundness of the Taiji mine.

However, they didn't know that this was just a fake mine that was set up by the real mine to block their eyes.

Among the oviparous ancient gods, the ancient Taiji gods were the most fickle. Even heavenly venerates would find it difficult to detect the profoundness of this fake mine.

However, after following Jue Wuchen for so long, concubine Qiang Tian and divine weapon heavenly venerate never came to the depths of the mine. They could not help but feel anxious and suspicious.

Divine weapon heavenly venerate was just about to test the power of this mine when Jue Wuchen's clear and refreshing voice suddenly sounded. "Empress Guixu has come to pay a visit to dao brother. Please Show Yourself!"

Divine weapon heavenly venerate immediately endured it. However, he saw that the changes in the mine gradually calmed down, and a passage appeared under Jue Wuchen's feet.

Jue wuchen strode into the depths of the mining area.

The two heavenly venerates continued to follow her for a long time. Just as they were about to lose their patience, the willow suddenly brightened. A magnificent natural altar appeared in front of them. There were eight Taiji raw stones protecting a divine egg.

The two heavenly venerates put up with it again. They watched as Jue wuchen bowed to the divine egg and sat down.

Jue wuchen and the Divine Egg exchanged pleasantries. Just as the two celestial venerables were about to reveal themselves, the conversation suddenly changed. When they talked about the general trend of the world, the divine egg blew on the conch, causing the sky to darken and the earth to darken, the two celestial venerables held themselves back again.

At this moment, the two celestial venerables suddenly felt a strong fluctuation of a divine ability. They were both shocked. Even the Taiji mining area shook slightly in the fluctuation, like a scroll being blown by the wind, it shook a bit.

"No! The real Taiji mining area was born at the beginning of the universe. Not to mention the fluctuation of the divine power, even if the heavenly venerates attacked, they wouldn't be able to shake it!"

The two heavenly venerates were alert. At this moment, a second fluctuation came. This fluctuation was even stronger, as if the heavenly venerates were attacking with all their strength!

Divine weapon heavenly venerate royal let out a long cry. He released all of his power without holding back. Immediately, this mining area was shattered. Mountains collapsed, and the sun and moon disintegrated, countless beasts, gods, and other strange phenomena turned into wisps of yin-yang qi and scattered!

“You are indeed fooling me!”

Divine weapon heavenly venerate royal stood up and saw a black sand tide rolling over. Soon, countless black sand became incomparably huge in his eyes. In an instant, they turned into planets, and the black sand desert turned into a magnificent galaxy, billions of stars!

He was actually in a vast galaxy, and planets were dancing in front of him, blocking his vision completely!

Meanwhile, Chi Tian concubine also found that she had fallen into a chaotic galaxy. Looking around, she could no longer see any trace of divine weapon imperial heavenly venerate or Jue Wuchen.

“What an ancient Taiji God! His hands and eyes are so powerful!”

Chi Tian concubine couldn't help but exclaim, “He can toy with a heavenly venerate before he comes into the world. If you come into the world, how great would it be? Such a method can not trap a heavenly venerate. You should just die in the eggshell so that you do not come into the world and wreak havoc like Tai Chu!”

She strode forward and swept her powerful divine sense in all directions, pushing away the stars. If there were too many stars, she would directly step into the void. No matter how powerful ancient god Tai Chi was, he could not touch the void.

Tai Chu was ranked before tai chi. The Dao of Tai Chu was divided into divine sense and innate qi. Divine sense was good at entering the void. As the reincarnation of Emperor Tai, Qing Tian concubine was good at divine sense. The dangers in the Tai Chi Star Field were of no use to her.

Only when ancient god Tai Chi came into being and entered the Dao realm would the 35th heaven pose a threat to Emperor Tai. However, it would not pose a threat to Emperor Tai's dao fruit.

Only when ancient god Tai Chi achieved the Dao and branded the ultimate void could he pose a fatal threat to Emperor Tai.

Just as ancient god Tai Chi said, they were too far away from the Dao. They needed to come into being and enter the mortal world to temper themselves in order to attain the DAO. Otherwise, even if they were ancient god oviparous, there were many existences in this world that could threaten their lives.

Gao Tian concubine flew through the Starfield to search for the real mining area. On the other side, the divine weapon, Heavenly Lord Royal, was devoured by the great abyss of the ultimate. A large crack was moving rapidly in the Starfield. Wherever it passed., even the stars were devoured.

As the eleventh heavenly lord, Madam Yuan Mu's ultimate divine ability was truly powerful. Even the Taiji Starfield could not stop her.

The two heavenly lords suddenly discovered something. In front of them was a mountain range that spanned across the starfield and suppressed countless planets!

This mountain range was extremely shocking and gave people an unimaginable shock!

The fluctuations of the heavenly Lord's divine ability came from there. This time, the fluctuations were even clearer. The two heavenly lords immediately realized that this fluctuation was the divine ability of Tian Concubine Yan!

"Could it be that imperial concubine Yan is trying to kill ancient god Taiji?"

The two were shocked at the same time. They hurriedly rushed toward the mountain range. When they reached the peak of the immeasurable mountain range, they looked around. Suddenly, the vast starfield turned into a desert again. Countless stars disappeared, only rolling sand was left.

The strange thing was that on one side was the black desert, and on the other side was the white desert.

The terrain of this mountain range was complicated, and the mountain range was constantly changing. Even the two heavenly venerates couldn't find Heavenly Consort Yan for a moment.

At that moment, a small divine art fluctuation suddenly came over. The two heavenly venerates hurriedly looked over, and they saw white sand dancing in the sky. Two figures were sprinting in the white sand desert, fighting each other!

Behind the two of them were heavenly palaces that were shining with divine light. Even if the wind and sand were strong, it would still be difficult to block the light from their heavenly palaces.

“Empress!”

“Sister, that Little B * Tch!”

The two heavenly venerates immediately recognized that one of them was empress. The one who was fighting with her surprised them. It was actually Qin Mu, heavenly venerate mu!

At that moment, Qin Mu was rapidly traversing through white sand desert. There were sinkhole great abysses in front of him and behind him. They were like holes that could swallow everything, swallowing everything.

That was the divine art of the Empress!

Under his feet was the spirit embryo divine treasure territory, which spread out and moved with his movements.

In front of him, there was a distance of three hundred yards, and Empress Empress was also rapidly traversing through it. All Kinds of divine arts were scattered between her fingers and palms.

Suddenly, eighteen primordial spirits flew up from Qin Mu’s nineteen heavenly palaces and circled around the primordial spirits of the Main Heavenly Palace. Their postures were all different, and their battle intent towered into the sky. It was as if eighteen great emperors were circling around the heavenly emperor, and the ancient gods of the heavens appeared from the myriad worlds of the heavens, they fought and massacred each other, and their bodies were ferocious as they displayed the image of a war god!

But the Dragon and Han fought!

From this divine art, Madam Yuan Mu and supreme emperor could actually see the incomparably majestic and bloody side of the battle between the three great heavenly courts in the era of Dragon and Han. They could see the shadow of the battle where Yun Lingyue had plotted to ambush and kill Supreme Emperor, they could see the shadow of the postliminary divine saint and the demigod who had ambushed and killed Heavenly Emperor absolute beginning. They could see the images of the emperors

of the era of dragon and Han. They could see the great armies of the three great heavenly courts crusading, and the bloody battle towered into the sky!

This divine art was the seventeenth heaven of Qin Mu's dao realm, and it displayed the bloody battles of the Dragon Han era to the fullest!

Boom

Qin Mu and the Empress collided with a loud bang, unleashing the power of this divine art to its limits. However, when he and the Empress came into contact, Qin Mu fell back, and he was practically lying on his back on the ground as he stepped on the desert to quickly retreat, he dispelled the Empress's power.

The next moment, a huge abyss appeared behind him, and the Empress walked out. Her long sleeves fluttered in the wind, turning into a huge mouth of the abyss that went straight for Qin Mu's head!

Qin Mu's retreating momentum had yet to stop when all eighteen primordial spirits returned to their respective positions and sat on their respective God execution platforms. The blood and evil qi coiled around them, but they couldn't hurt his primordial spirits in the slightest.

Without him realizing it, he had already crossed Jade Lake and advanced to the realm of God execution platform!

All the heavenly palaces suddenly retracted and flew into the heart of his brows in unison.

Qin Mu's corporeal body instantly became incomparably bright. The power of the imprints of ancient gods were activated in all the orifices of his corporeal body, raising the strength of his corporeal body to the extreme!

At that moment, the positions of the heavenly palaces in the Heaven Court at the heart of his brows changed. They became the main body of Heavenly Palace of Creation, and the other heavenly palaces complemented each other.

In an instant, his strength unified!

His corporeal body expanded rapidly, and his muscles became malevolent. His strength instantly rose to an unparalleled height!

Divine body of crimsonbright!

His body that was almost stuck to the desert immediately bounced up. The domain of his divine treasures made it meaningless for the empress to appear behind him. Qin Mu punched into the sleeve of the Empress and rammed into the Yellow Dragon. No matter how great abyss of returning ruins tried to strangle him.., it couldn't destroy the power of his punch!

As the Eighteenth Heaven of his dao realm, death of crimsonbright divine body didn't only unify his path of creation, but also his martial path and battle skills. Ancient gods were famous for their strong corporeal bodies, and they also naturally grasped Great Dao, however, martial path was an absolute art that specialized in close combat!

He was like a great emperor of martial path. In close combat, he could tear apart dragons and ravage phoenixes, and his overlord body could reach the heavens. At the same time, he also possessed the indestructible body and immortal primordial spirit of Emperor Crimsonbright!

In the emperor's sleeve, his palm flew out like a spirit snake and collided with his fist. The incomparably powerful corporeal body of the ancient god was displayed to the fullest!

Her true body had died early and had been assassinated by Madam Yuan Mu in the early and middle period of Dragon Han. She had been suppressed on the ghost ship, but after she had gotten her corporeal body from Qin Mu, she had used her cultivation to raise the power of her true body, it was no small matter!

However, she hadn't been able to gain any advantage in a head-on collision with Qin Mu. His corporeal body and primordial spirit were highly unified, and his divine sense and vital qi had condensed into one body. His corporeal body was compact, and all kinds of ancient god imprints transformed into the power of his corporeal body.

At the instant of the collision, the ancient god imprints shone brightly in all the orifices of his corporeal body. They transformed into two thousand ancient gods that flew around him before entering his orifices.

Every time the power circulated, the Dao voice in his body would rumble. Even the wind and sand of the white sand desert couldn't block the Clear Dao voice.

Empress Dowager's gaze was cold. Her figure was like a dance, and her long sleeves fluttered like a spirit snake. Her sleeves were like the great abyss, and from time to time, her delicate hands would come out of her sleeves. Every strike was beautiful, but the killing intent was hidden deep within.

The two of them collided once more, and they retreated.

Whoosh

Nineteen heavenly palaces flew out from the back of Qin Mu's head and turned into a huge heavenly court. He cupped his hands forward and bowed.

Empress Dowager's expression changed slightly, and she hurriedly flew up to dodge his strike.

When Qin Mu bowed down, the countless white sand in front of him was instantly annihilated, turning into wisps of chaotic qi.

However, the instant empress dowager dodged, she realized that no matter where she hid, Qin Mu's spirit embryo divine treasure territory would make her face him head-on.

With Qin Mu as the center, all the white sand in the surroundings returned to chaos amidst the violent tremors, turning into chaotic Qi that gushed forth!

When Concubine Qiang Tian and divine weapon celestial emperor Yu who were standing on the Taiji mine saw this move, their expressions couldn't help changing. "What a great divine art!"

"A divine art that can't be avoided is much stronger than divine origin finger that only has one move when divine emperor Lang Xuan comes and goes!"

This divine art was the twenty-sixth heaven of Dao realm.

One Qi mixed origin path traveling together, Qin Mu's strongest divine art!

Chapter 1410:

Facing the torrent of chaotic qi that came from all directions, empress dowager hurriedly retreated. Qin Mu's one Qi primordial chaos path divine art was extremely fast, and it soon caught up to her!

Empress Dowager continued to retreat, and an abyss suddenly opened up behind her. She retreated into the Abyss, and the Abyss closed up. Empress Dowager's figure instantly disappeared.

The next moment, the power of one Qi primordial chaos came crushing over, and the great abyss of returning ruins in the depths of space was instantly crushed. Empress Emperor, who was hiding in the divine art of returning ruins, didn't expect it. She was astonished to see that Qin Mu's strike had actually crushed the returning ruins, it surged toward her.

"Since you can't Dodge it, then take it head-on! I don't believe that your cultivation of God execution platform can contend with my ancient God's magic power!"

Empress Dowager raised her hand to block it head-on, and her magic power completely erupted. The moment they collided, she felt her magic power and her Great Dao being assimilated by this divine art, transforming into the path of absolute beginning to increase the power of this strike!

Empress Dowager was astonished and hurriedly withdrew her palm. She took out a hairpin from her hair. It was refined from Guixu Abyss iron, so she poured her magic power into it and shot it out with a shake of her hand!

Chi —

The hairpin broke through the wind and waves and broke through Qin Mu's strike. It slashed apart the power of the strike and went straight for Qin Mu.

The speed of the hairpin was extremely fast, but even the primordial iron of sinkhole was constantly being worn down by Qin Mu's strike. It turned into a Qi of chaos, and when it came in front of Qin Mu, the primordial iron had already been worn down until only an iron needle was left, it flashed past the heart of Qin Mu's brows and stabbed into his brain.

Boom!

A loud sound rang out, and the iron needle exploded in Qin Mu's head. It turned into a great abyss of sinkhole and instantly devoured and refined Qin Mu's head.

Qin Mu's headless body swayed, but he didn't fall to the ground. However, his neck shook, and three heads grew out. Four arms with three heads and six arms crawled out from under his armpits.

At that moment, the power of one Qi primordial path traveling together was exhausted. Empress Dowager walked out from the Qi of chaos. Her clothes were tattered, revealing her pure white skin. Her naked body was faintly discernible.

Empress Emperor's face was green with killing intent. She walked toward Qin Mu and sneered. "Heavenly venerate Mu, this great divine art has exhausted your cultivation, right? How much magic power do you have left?"

The divine light above Qin Mu's head shot into the sky and transformed into a huge heavenly court. The three heads laughed in unison. "I have plenty of magic power, please take a look, Empress!"

Empress Emperor's pupils constricted, and she saw that Qin Mu's primordial spirit had actually left God execution stage in all the heavenly palaces of the heavenly court. Each of them took a step forward to the next realm.

What she couldn't understand was why Qin Mu could cross Jade Lake and enter God execution platform in such a short period of time, and why he could directly cross the realm of God execution platform and enter the next realm!

However, what she couldn't understand even more was that Qin Mu's next realm was actually not jade capital city. Logically speaking, the next realm after God execution platform should be jade capital city, but Qin Mu's heavenly palace.., between God execution platform and Jade capital city, there was actually a huge heavenly prison!

Heavenly Prison was a place where heavy criminals were imprisoned in the heavenly court. It was full of brambles, and anyone who entered would find it hard to escape. The prisoners there were criminals who had committed the most heinous crimes, so killing them on God execution platform would be letting them off easy, that was why they had to be imprisoned in heavenly prison to let them suffer endless suffering and torture.

Heaven prison wasn't considered a realm in the system of Heaven Palace. When the primordial spirit of a God came here, it didn't raise their cultivation at all. In the period of dragon and Han in history, after the system of Heaven Palace was spread out.., countless gods had already tested heaven prison, but it didn't have the slightest effect.

When it came to Qin Mu, his primordial spirit had entered heaven prison, and his cultivation and abilities immediately began to grow crazily!

It was clear that Heaven Prison had been opened up to a realm by her.

What made it even more difficult for her to understand was that even though Qin Mu had nineteen Heaven Palaces and Heaven Prison realm was equivalent to Yujing realm, he was still an extremely long distance away from her. Be it primordial spirit, corporeal body, or magic power.., they were all inferior to her, and heaven moat couldn't describe them.

However, Qin Mu's corporeal body, primordial spirit, and magic power weren't much inferior to hers, so she couldn't understand where Qin Mu's power came from.

However, she could still see some clues from Qin Mu's body. The other divine arts practitioners and gods cultivated seven great divine treasures, and even the divine arts practitioners and gods of eternal peace cultivated seven divine treasures, it was just that he had changed the Divine Bridge Divine Treasure to Heavenly River Divine Treasure that was more reasonable and more compatible with the Great Dao of the universe.

However, she couldn't find these divine treasures on Qin Mu's body.

Even though his divine treasure had the name spirit embryo divine treasure, it was completely different from the spirit embryo Divine Treasure of the other divine arts practitioners and gods.

Qin Mu only had a single divine treasure, and it actually had Xuan du, Youdu, Yuan Du, four extreme heavens, as well as the ancient gods of the heavens. There were vast stars and resplendent galaxies, forming the layout of the universe.

Even great abyss of sinkhole had them!

More importantly, the ancestral court was at the center of his spirit embryo divine treasure.

What was even more terrifying was that his ancestral court actually had a back!

Compared to the other divine arts practitioners and gods, his foundation was like Heaven and earth!

If all the other people's divine treasures were added together in his spirit embryo divine treasure, they would probably be a drop in the ocean. This was because Qin Mu's heavenly palace was built on top of the ancestral court and only occupied a small corner of it.

'heavenly venerate mu is the same kind of person as us. He kept it for himself and didn't spread his cultivation system to eternal peace.'

Empress Dowager sneered and thought to herself, 'you talk about how bright and great you are, but you are actually a person who benefits himself. It's just that you are more exquisite and hypocritical!'

However, she didn't know that it wasn't that Qin Mu didn't want to spread his cultivation system. However, the reason why his cultivation system was successful was because after he dug out his soul and eyes and gave them to Qin Fengqing., he had used tribulation sword to forcefully destroy his Heavenly Palace and Divine Treasures, turning them into chaos!

Facing the danger of even his undying divine consciousness being completely destroyed, he had taken the opportunity to open up chaos and reenact his spirit embryo divine treasure, thus reviving his soul.

His soul and spirit embryo were equivalent to the ancient gods in his body.

To reach his level required an extremely great opportunity that others couldn't imitate. Forcefully cultivating his cultivation system would only result in death, and there was absolutely no possibility of success.

In contrast to his cultivation path, the path that Lan Yutian was walking now was safer and easier to walk. As long as Lan Yutian opened up his path and spread it out, the others wouldn't have to take Qin Mu's dangerous path, they could also cultivate the ancestral court.

Even though this path of cultivation wasn't as strong as Qin Mu's, it was still no small matter. If they could cultivate it to the peak, they would also surpass the current heavenly venerate.

The only problem was that the requirements for comprehension were extremely high, and there were only a few who could cultivate to the peak.

Qin Mu's cultivation realm rose to the level of nine hell stage, and his cultivation rose by leaps and bounds. Empress Dowager immediately felt that it was a huge problem. Suddenly, she relaxed again.

That was because at that moment, she could sense the aura of returning ruins.

Ancient god Taiji had finally made his move and pulled the space infinitely closer, bringing the distance between returning ruins and Taiji star field closer and closer!

The Empress Dowager was an ancient god of Dao life, but just like the ancient gods she had worshiped, the closer she got to the birthplace, the stronger she became. Other ancient gods of Dao life were like her, such as Earth count and Heavenly Duke, they were the strongest in their respective birthplace, Hades capital.

Now that the sinkhole was getting closer, the empress dowager's battle prowess was also increasing!

At the same time, Divine Weapon Heavenly Lord Royal's heart stirred slightly. He also sensed the arrival of the sinkhole and could not help but be overjoyed. He also felt that his strength was increasing!

Divine Weapon Heavenly Lord Royal was under the control of Madam Yuan Mu's Yuan Shen. Her Yuan Shen was the same as empress dowager's. They both came from the sinkhole and came from the same source.

As the sinkhole approached, her strength would naturally continue to increase!

Consort Qiang Tian also sensed the aura of the sinkhole at the first moment. Her expression could not help but change slightly. She hurriedly raised her head and saw a long and narrow abyss appearing in the sky above the Taiji star field. It was dark and unfathomable.

This abyss was extremely far at the beginning. From Afar, it looked like a half-closed eye.

However, the Abyss was gradually becoming bigger. It was not that the Abyss was getting bigger, but that the Abyss was getting closer!

This abyss was surrounded by mountains formed from the iron of the Ultimate Abyss, and there were also dead stars floating around it. Some of the stars were tattered and pulled by the Abyss that had suddenly appeared, revolving around the abyss.

In the abyss, two large flowers were slowly emerging from the darkness.

"Oh no, the two little bitches have actually summoned the ultimate!"

Even Qing Tianfei's expression couldn't help changing slightly at this moment. She felt that this was a thorny matter. What she didn't expect was that it wasn't the empress and Prime Minister who had summoned sinkhole, but ancient god Taiji who had used his power to pull the space closer!

Qin Mu could also sense the aura of sinkhole, and his expression couldn't help changing as well.

He had forcefully raised his cultivation in order to test his abilities and see if he could contend against heavenly venerate, and he wasn't here to throw his life away.

The sinkhole Abyss was a place that even heavenly dukes feared. It was a place where ten thousand daos would be obliterated. The appearance of this abyss meant that the Empress's strength would skyrocket. The closer she got, the stronger she would become.

He had to test his own strength before the Empress's strength reached its peak. He didn't want to kill the empress, nor did he have the ability to do so. All he wanted to do was fight the Celestial!

He let out a long howl, and his body burst forth. At that moment, all the power in his body burst forth!

He took the first step forward, and his hands held up the sky and Earth. He formed a hand seal and transformed into the first heaven of Dao realm, the four seals of heaven and earth!

The four seals of heaven and earth formed a domain around him, and four faces of gods and Devils appeared. They looked in all directions with joy, anger, sorrow, and joy.

Qin Mu took a second step forward, and a gate of Heaven and earth appeared behind him. The gate connected heaven and earth, connecting to Heaven and earth. The upper part of the gate connected to profound city, and the lower part of the gate connected to Youdu. The Heaven and earth borrowed strength from each other.

This was the second heaven of Dao Realm.

He took a third step forward, and the Heavenly River flowed. The four extreme heavens appeared, surrounding the gate of Heaven and earth as well as the four seals of heaven and earth.

He took a fourth step forward, and the heavens of Great Allheaven gathered together. Above his head, Great Allheaven was like a canopy.

He took the fifth step, and purple flowers flew out, splitting into two, two into four, and four into eight. In an instant, the sky was filled with paintings.

The sixth step was Youdu chasing the wandering soul, and the seventh step was immemorial jade platform establishing xuandu..

Qin Mu took twenty-six steps in an instant, and the twenty-six Heavenly Dao realm stacked together, making his aura unparalleled. It was as fast as lightning and thunder, and he left a trail of thunder sounds in the white sand desert, with boundless might, he came in front of empress dowager with a crushing might!

“Heavenly venerate mu, you really don’t know death!”

Empress Dowager couldn’t contain her anger. Her clothes had already been tattered by Qin Mu’s one Qi path of chaos, and it was difficult for her to hide her jade body. Now that Qin Mu was confident that he had stepped into an inexplicable realm, he actually dared to make a move at the moment of returning ruins’ arrival.., he was truly courting death!

“If you want to die, I’ll Grant You Your Wish!”

Empress Dowager’s aura rose crazily, and she actually increased the speed of returning ruins’ arrival to meet Qin Mu’s strike!

At that moment, Madam Yuan Mu was controlling divine weapon heavenly venerate royal to run in Taiji mine. She had already sensed Empress Yan’s location, and at the same time, she couldn’t be bothered to watch the battle between Qin Mu and empress dowager, she chased after the divine weapon heavenly venerate royal.

At that moment, an earth-shattering throb came over, and the two heavenly venerates couldn’t help looking at it. They saw empress dowager spurting out blood and flying backward. Her jade-like body pressed down on the white sand desert and slid backward rapidly!

The gazes of the two heavenly venerates couldn’t help becoming dull. Qin Mu’s body leaned forward and slid down diagonally. His speed was as fast as flowing light, and in an instant, twenty-six great divine arts shot out like arrows, bombarding empress dowager’s body!

In just a short moment, Empress Dowager had slid hundreds of miles, and Qin Mu had executed his great divine arts to the last strike. He cupped his hands and bowed!

Boom

Empress Dowager's jade-like body flew in the air, and the space around her suddenly exploded, turning into a ball of chaotic qi. The surging chaotic qi waves spun and exploded, creating a huge hole in Taiji star field!

"Bastard Little Thief!"

Empress Dowager's furious voice sounded out, and she rushed out from the chaotic qi waves. Her clothes were almost completely gone, and when she raised her head to look, she saw Qin Mu Leap Forward. Resurrection Ark appeared beneath his feet, carrying him away and escaping.

Empress Dowager killed her way over in her fury, but where could she find that little thief?
