

Tales of Herding Gods Chapter 1421-1425

Chapter 1421:

On surging river, the light of the sabers rose up and five figures collided. The five of them immediately used their divine arts that had entered the path and raised their cultivation to the extreme at the first collision!

There was a saying among the divine arts practitioners in eternal peace that those who wielded sabers were all boors.

Even though this saying was somewhat biased, such as butcher who looked like a boor but was in fact a great scholar, the people who wielded sabers didn't have as many probing methods as those from the divine arts or sword arts schools.

Knives were a battle technique sect, and it was also a close combat sect. The degree of close combat was even deeper than martial arts. For example, in knife skills, there was close combat, back to back, using muscles and Qi dynamic to find the opponent's weakness and kill him in one strike.

Divine Arts and sword skills had many probing moves, but knives were close combat. If the opponent used his full strength to probe, he would be the one at a disadvantage.

Butcher, Zhe Huali, Tian Shu, and Luo Wushuang attacked Qin Mu almost at the same time. Zhe Huali had gone through battle after battle on the Western Front of eternal peace all these years.

The battlefield was different from the fighting of the martial arts world. The training of these years had allowed his knife path to become more and more profound. This was the ability honed in the slaughterhouse. Every move took one's life, and knife path became more and more profound, becoming more and more unpredictable.

At the same time, he also had the majestic aura of heavenly knife. His knife skills had the word 'strange' and also the word 'righteous'. He had also fused the algebra of Dao sect, and with Luo Wushuang's technique, he could be considered to be marvelous.

He had already reached the ninth heaven of knife path. The moment he collided with Qin Mu, he immediately felt that Qin Mu's magic power and cultivation were about the same as his, and he instantly felt at ease, 'Qin Mu, this brat, ran to the heavenly court to become heavenly venerate mu. He really has been living in luxury or slacking off.' 'my cultivation has been raised to Jade platform realm, so he's

most likely also a jade platform, about the same as me. 'back then, his cultivation was far more profound than mine!'

Luo Wushuang had already cultivated to eighteen heavens of knife path, and his cultivation realm had even reached skyscraping realm. Eternal Peace's paths, skills, and divine arts flourished, and when he came to eternal peace, his cultivation and abilities soared by leaps and bounds.

However, when his moves collided with Qin Mu's knife, he felt Qin Mu's magic power flowing endlessly like a torrential river that flowed endlessly. It was on par with his own cultivation, his heart instantly turned cold. 'So Powerful! As expected of overlord body, his cultivation has risen so quickly. He must be an expert of jade capital realm!'

He knew that Qin Mu was almost unmatched on the same realm, and only heavenly venerate could contend with him. Thus, he felt that Qin Mu's jade capital realm was enough to contend with him on skyscraping realm.

Butcher's heavenly knife collided with Qin Mu's knife, and he could feel that Qin Mu's cultivation and abilities were about the same as his.

"Mu'er has cultivated to God execution stage realm all these years, but he's not slow either. It's just that the degree of his cultivation isn't as astonishing as before. Back then, no one in our disabled elderly village could receive his moves on the same realm."

On the other side, Heavenly King Tian Shu revealed a towering emperor's might, and a heavenly palace leaped out from behind him. His primordial spirit was majestic as he sat on the emperor's throne in Soaring Heavens Treasure Hall!

With the Emperor Palace Divine Blade in his hands, all its power was unleashed. The Butcher was right when he said that he was the emperor's blade!

Heavenly King Tian Shu headed to the great void land to find his initial heart. After experiencing the bloody battle in the great void land, the barrier that trapped him was completely destroyed. He broke through during the battle and cultivated to the emperor's throne, he became another Emperor's throne realm expert in the founding Emperor Heavenly Court.

The Imperial Palace Divine Blade was a divine blade that heavenly king Shi Tian forged for him. For a long time, the power of this blade was above Tian Shu's own power. One blade cut through Tubo Horn and created a Fengdu.

One blade cut through the mountains of great ruins, sealing the strangeness and darkness of great ruins in great ruins.

And now, Heavenly King Tian Shu's power was enough to perfectly control the imperial palace!

He was the emperor of knives, and his knife was the devil knife of Youdu!

However, when Imperial Citadel divine knife collided with the Knife Qi formed by Qin Mu's vital qi, heavenly king Tian Shu's aura couldn't help fluctuating, 'so powerful, to be able to withstand 100% of my magic power, he's indeed worthy of being the heavenly venerate that even founding emperor can't forget. He managed to cultivate to Emperor throne realm in just a dozen years! "However, after I drank wine, even if I am someone that even Earth count and son of Heaven Yin are not weak, the Celestial Master will still slash me! "100% of my combat power is not my upper limit!"

He let out a long roar in anger. His movements were ghostly. At times, his body would transform into demonic qi and dissipate. At other times, he would be like a devil sun hanging high in the sky. At other times, his tendons and body would be ferocious. He had the head of a snake and the body of a human. His body was tall and sturdy. He controlled the Great Dao of Hades. At other times, he had the head of a goat and the body of a human. He was extremely small, it was hard for people to find him.

However, the power of his knife was absolute. The power of his knife skill didn't leak out at all, and it had the unique style of founding emperor era.

The Four Knife Dao Masters attacked at the same time and clashed with Qin Mu's knife. Each of them had different conclusions, and they all felt that Qin Mu's cultivation realm was about the same as theirs.

The five figures rose and fell like rabbits, each perfectly displaying their own paths in their knife skills.

Zhe Huali's evil, Luo Wushuang's dharmic powers, Tian Shu's tyranny, Devil Path, and butcher's imposing manner were all displayed!

Qin Mu, on the other hand, gathered their evil and devilish dharmic powers into one body.

He used Knife Path Heavenly Palace as the Main Heavenly Palace, and the other heavenly palaces as auxiliary heavenly palaces. One Knife Path Heavenly Palace, a divine knife formed from vital qi, moved unhindered and blocked the four great knife path experts at the same time.

Previously, he had followed the butcher to temper his dao heart of Saber Dao. Be it in terms of legislation or protecting the world, they were all to temper his dao heart of Saber Dao, and from the tempering, he comprehended the most basic divine power to enter the Dao of Saber.

Unyielding, that was why he knocked on the South Heaven Gate. It was unfair, so he had to legislate and protect. That was why he had to kill.

Sabers nourish the spirit.

Only by mastering the basic spirit of these three Blade Dao could he be considered to have officially entered the door.

In the future, no matter how his Blade Dao changed, how it evolved, what could not be abandoned, and what could not be deviated, these three spirits would be abandoned, deviated, and that was the dao of abandoning the blade.

The Butcher was unable to teach him more and give him more guidance, so he had to integrate what he had learned and comprehended,

around the surging river, the fishing boats had already stopped fishing. On the riverbank, there were fishermen and divine arts practitioners. They all stopped and watched. However, they saw the light of the saber moving freely in the river. It was like the sunlight shining on the surface of the river.

However, the light of the saber did not stick to the surface of the river. Instead, it suddenly jumped up and filled the blue sky. There was also the light of the saber moving through the river. It was like a big fish or a green dragon.

Rays of light interweaved and tore apart the sky, leaving black lines in their eyes.

Black blood instantly flowed out of the eyes of the divine arts practitioners of eternal peace. Knife wounds instantly appeared on their bodies, and they couldn't help being shocked. They immediately restrained the fishermen by the river bank so that they couldn't look anymore so as not to hurt their eyes.

The battle in the river had reached such a level. Even though the ripples of power from the battle techniques weren't as powerful as the divine arts and the range of the Divine Arts was wider, the battle

techniques that focused on knives., the spirit hidden in their moves could easily injure the dao heart and spirit of the spectators.

This was especially so for Qin Mu, butcher, and the other three who were great grandmasters who had entered the path of Knives. Their moves might not seem to have affected this area, but each and every one of them contained their path. With just a glance, their spirit, Qi, and spirit would be triggered as if they were being stabbed!

The stronger their cultivation was, the stronger their senses would be, and the heavier their injuries would be!

The divine arts practitioners were restraining the fishermen, and the dragon palaces in surging river were also migrating. Divine Dragons of all sizes swam at the bottom of the river, closing their eyes as they followed Surging River Dragon King upstream or downstream.

“Hide in the heavens in the heart of surging river, lock the doors, close your eyes, don’t look, don’t look, don’t listen, don’t feel, don’t feel!”

Surging River Dragon King was called Dragon rearing sovereign, and he was also a great expert in the river. His cultivation was profound, and he was very proud of himself in his heart as he shouted, “Amazing, right? My Master Is Back!”

The tip of the treasured sword was sharpened, and so was the knife.

Qin Mu used Qi as a knife, and his body’s essence, Qi, and spirit were sharpened by the four great experts until they became stronger and sharper. When the same divine art that had entered the path, different mental states, and different moves were executed, the knife skills would be different.

However, in the end, the five of them used the divine art that had entered the path thousands of times, but they still couldn’t do anything to Qin Mu. They actually couldn’t force Qin Mu to take another step forward and comprehend a more profound dao realm.

Three days later, there were no longer any figures on surging river. Only five figures were left standing on the surface of the river. They stood there without moving, their spirit, Qi, and spirit clashing against each other.

This scene was even more terrifying!

Knife Qi and spirit filled the surface of the river, causing the space to distort. Tens of thousands of knife Qi were like a school of fish clashing fiercely in the air.

Knives nourish the spirit.

They were clashing with spirit!

Nearby, many scholars from the former surging river school rushed over upon hearing the news. As soon as they reached the riverside, their own spirit weapons flew out of control, ringing in the air and colliding with the Saber Qi in the air.

Crash.

The spirit weapons shattered one after another in the air, shocking the scholars.

And the closer they got to the surging river, the faster the spirit weapons shattered.

The strange thing was that this kind of saber qi was harmless to humans, and it didn't harm flowers, trees, insects, or fish. It seemed to only target weapons.

“Chief Su!”

A few scholars quickly passed through the dense forest by the river bank and came to the river bank. They saw a few gods standing by the river bank and looking at the heart of the river. The leader was Su Yunzhi from the Surging River School.

What shocked these young scholars was that Su Yunzhi and the group of gods from the surging river school couldn't help but float in the air. Their divine weapons burst out waves of monstrous divine power, as if they were fighting against the Saber Dao spirit from the heart of the river.

And the divine weapons of these gods were already filled with saber marks.

The spirit of the Dao of the saber seemed to form a great spiritual brand here. This brand became stronger and stronger, spreading throughout the sky, causing the people who came here to lose control of their spirit weapons and divine weapons.

Moreover, this brand was getting deeper and deeper.

They stood by the river and could see that the heart of the river had many layers of the Dao of the saber, big and small. It was branded in layers of void, and the deepest one was already as deep as eighteen layers of void!

Dao realm was like a dome that covered all four corners of the land, giving people an incomparably shocking feeling.

“If you study with your heart, you can touch their spirit.”

Su Yunzhi said to the scholars, “This is a rare opportunity. If you want to have a deeper understanding of blade path, then seize this great opportunity.”

After another half a year, the imprints in the Void became deeper and clearer. This place had almost become a sacred ground. All the young people and gods of eternal peace, all those who learned blade or sword., all of them had to rush here to make a pilgrimage.

Around surging river, divine weapons floated in the air and surged continuously, bursting out with all kinds of divine might.

This was a trick that someone had thought of. They would use the might of the saber path here to hone their dao and the might of the divine weapons.

However, here, there were more young divine arts practitioners and gods from all over eternal peace. They sat upright and didn't move, nourishing their spirit, sharpening the will of their sabers, and sharpening their own vital qi.

A year later, on both banks of surging river, blades and swords were everywhere like a forest!

This place had already become a sacred ground. There weren't many people cultivating blades in eternal peace, and most of them were cultivating their swords and heart of the sword. Once the sacred ground of blade path was formed, it would cause a wave of people to learn it.

As for the Dome of Dao realm of blade path in the void, it seemed to have already taken form, allowing the figures of the five people in the river to be imprinted in the eighteenth void, clearly visible.

“There was an ancient imperial preceptor, Jiang baigui, who used swords to meet friends and defeated all the battle techniques and divine abilities in the world. He raised the status of sword arts to the level of the number one technique in eternal peace! From then on, Sword Dao flourished!”

“Today, the five saints of Blade Dao comprehended dao by the river and established the sacred land of Blade Dao. It is even more shocking than before! The dao of blade will also flourish!”

Another year passed, and the sky of Blade Dao suddenly trembled and appeared in the nineteenth void.

The power of the blade path spread out, covering a radius of ten thousand miles.

Two years and one month passed, and the sky of blade path covered the 20th void.

The next month covered the 21st void.

Two years and three months covered the 22nd void.

Two years and six months passed, and the 25th Void was covered.

The power of the blade path had already covered half of eternal peace.

The five blade path grandmasters in Jiang Xin were revered as the five ancestors of blade path.

On this day, surging river suddenly trembled. It gradually rose into the sky and floated higher and higher like a white and transparent streamer that floated from the side of the magnificent divine mountains.

Qin Mu suddenly opened his eyes. It was time.

The eleven great spirit energy mutual migration bridges of the ancestral court had been built, and the Celestial Court had started to migrate. The entire celestial court and countless gods would use the spirit energy mutual migration bridge matrix to migrate to the ancestral court!

The time to eradicate the heavens was almost up!

Chapter 1422:

Qin Mu's expression was solemn. If the heavenly court moved to the ancestral court, the next step that the heavenly court would have to deal with would be heavenly duke!

Heavenly Duke seeking death wasn't for death, but for freedom. However, based on Qin Mu's understanding of Celestial Master Hong, even though he was the reincarnation of Heavenly Duke, he was no longer a heavenly duke.

He was filled with a thirst for power, a thirst for power. After breaking free from the shackles of Heavenly Dao, Heavenly Duke Hong would become a tenth heavenly duke who had boundless power!

If Qin Mu wanted to participate in it and Save Heavenly Duke Hong, he would have to have even stronger power.

And the best shortcut at the moment was to grasp the Great Dao of the god execution stage of the ancestral court through the tempering of the god execution stage of the ancestral court!

At that time, Qin Mu would stand firmly on the realm of nine prison stage. At that time, when he faced ten heavenly venerables, he would have more or less the strength to resist!

The Heavenly River Rose Higher and higher, which represented the movement of the Heavenly Court. The situation was critical now, and there was no time to delay!

Butcher, Tian Shu, and the rest stood up and their gazes landed on him. Butcher said, "You want to go to the ancestral court now and face the world's number one ferocious knife?"

Qin Mu nodded his head.

In the past two years and six months, the five of them had raised Knife Dao to the extreme. They would first fight with Knife Dao to raise Qin Mu's understanding and comprehension of Knife Dao. After that, they would unleash their own spirit.

Knives nourish the spirit, and they would fight against Qin Mu with their own spirit. They would use their spirit to hone their spirit, and they would use the will of knives to hone Qin Mu's will. They would raise Qin Mu's Knife Dao and turn his spirit into knife light.

During this period of time, Qin Mu's comprehension of knife path had risen to the extreme. He used their spirit as a sharpening stone to sharpen himself.

He could be said to have used all his intelligence and wisdom to fuse everything he had learned in the past into knife path.

In two and a half years, his knife path had reached the sixteenth heaven and surpassed butcher. Soon, he caught up to Luo Wushuang and came to the eighteenth heaven where he had entered the path with knives.

He used his divine ability to enter the Dao to create his own dao of the blade. In the end, Butcher, Tian Shu, Zhe huali, and Luo Wushuang also improved under his mental training.

In the end, their essence, Qi, and spirit sharpened each other, imprinting layers of void space. Together, they deduced the Dao of the blade to the level of the 25th void space!

In two and a half years, the five great masters of the Dao of the blade not only improved their dao of the blade to the level of the 25th void space, but also to the level of imprinting the Dao of the blade to the level of the 25th void space. This was definitely a great breakthrough in the Dao of the blade, it could be said to be a feat that would affect the later generations of knife skills and divine arts!

However, at this step, their accumulation had basically been exhausted. Even if they could evolve to the next heavens, the time spent would also increase greatly.

Butcher said in a deep voice, "We will follow you to the ancestral court to see the world's most ferocious knife!"

Qin Mu hesitated for a moment and looked at Tian Shu, Zhe huali, and Luo Wushuang. The Ancestral Court's God execution platform was the world's most ferocious knife. Killing the strong practitioners of the emperor's throne would probably be like chopping melons and cutting vegetables. He didn't want to see his good friends risk their lives for him.

However, with his current understanding of Knife Dao, it was still very difficult for him to barge into the god execution stage and not die.

He didn't have the confidence to get past this god execution stage and didn't have any confidence at all.

If his Knife Dao could be raised to twenty-eight heavens, twenty-nine heavens, or even thirty heavens, he might still be able to get past the god execution stage.

However, that wasn't possible now.

Luo wushuang said indifferently, "I once went to the god execution stage of the Heavenly Court and didn't die. The Knife Dao of the god execution stage of the heavenly court is delicate and strict. If I go to see the god execution stage of the ancestral court, it might be very helpful to you."

Zhe huali stretched his muscles and bones and said with a smile, "I've never been to the ancestral court, so it's good for me to see the world. I'm not like you, who are extremely bold. I'm only going to take a look, and I won't go in."

Tian shu chuckled and said, "The world's most ferocious blade, could it be even more ferocious than my imperial que? This blade of mine can cut off the horn of the Earth count! I don't believe that a natural thing can be better than the Dao of the blade that we worked so hard to comprehend!"

After experiencing surging river's dao enlightenment this time, each of them had gained a lot. They had nurtured their essence, Qi, and spirit to be invincible, and trained their willpower to be like their sabers.

"The four stooges are at least comparable to Celestial Master Mu."

Butcher said calmly, "The five of us have already stepped into the peak of the Dao of the Saber. There is no other peak above us that we can climb. "The world's most ferocious blade. No matter what, the five of us have to go for it. Since you feel that you can't protect yourself, why don't the five of us climb up this god-slaying platform and give it a try?"

Tian Shu licked his lips, he said, "Our abilities have already been imprinted in the 25th Void. Even if we die, our Great Dao will not be obliterated because of our death. With this achievement, this life is enough. "Even founding emperor is only ten heavens above us."

"Thirty-five layers of void of sword path!"

Luo Wushuang was fascinated, he muttered, "If knife path can not reach thirty-five layers of void and compete with Sword Path for supremacy, what a sad thing it would be. Perhaps the god slaying platform of the ancestral court is the turning point for our knife path to take another step forward."

Qin Mu looked at them and felt the hearts of their fists and their warm emotions. All that was left in his heart was gratitude.

The so-called seeking Dao was actually just worrying about his safety.

"Alright!"

Qin Mu laughed loudly. "We Five Stooges, let's Go Together!"

Everyone laughed loudly. "Five Stooges, could it be that they can't compare to founding emperor of Sword Dao? Let's Go Together!"

In the ancestral court, the eleven psionic mutual shift bridges were connected to form an enormous front bridge. The locations of the eleven psionic mutual shift bridges were determined by the precise calculations of the experts of the Taoist community.

The locations of these mutual shift bridges could be connected to each other, and the light of this mutual shift bridge was just enough to include the entire heavenly court.

On this day, countless gods of the heavenly court moved out one after another. Countless warships sailed out of the heavenly court. Thick chains were tied to the ships at one end and the heavenly court at the other end, trying their best to drag the Behemoth.

In the Heavenly Court, there were powerful existences on each of the palaces and temples. They urged the power of the palaces and the 72 temples to accelerate the heavenly court.

At this moment, the heavenly river twisted and moved with the Heavenly Court.

In the sky above the ancestral court, a corner of the vast heavenly court had been revealed from the spiritual energy shift bridge. The giant ships were all at full power, dragging the chains and trying to pull the heavenly court into the ancestral court.

It was difficult to move the giant creature in a short time with the power of the shift bridge alone. Almost all the gods in the heavenly court had been mobilized. Even so, the heavenly court was still moving slowly.

This scene was absolutely magnificent. When the shadow of the Heavenly Court shrouded the sky above the ancestral court and the shadow gradually grew larger, the starry sky above the ancestral court lost its color and the sun lost its luster.

The space of the ancestral court was even compressed and distorted. Violent turbulence spread out in all directions in the void!

As the heavenly court squeezed into the ancestral court, psionic energy spewed out from the bridges. The light was clearly visible to all living beings in the Yuan world.

The light was the spiritual energy spewing out from the ancestral court, and it was the spiritual energy and spiritual energy that had migrated out!

In the Yuan world, one could see eleven pillars of light formed by spiritual energy and spiritual energy. As the pillars of light spewed out, vast and mighty energy gathered and gradually formed stars above the original Heavenly Court, continents, and world barriers!

The magnificent heavens formed as the Heavenly Court left. The place where the heavenly court disappeared became extremely colorful.

In the ancestral court, the ten heavenly venerates stood beside their respective psionic bridge and looked up at the sky.

The heavenly court arrived at the ancestral court bit by bit. However, although the Heavenly Court's Daoist sect's calculations were ingenious, the Heavenly Court was too big, and there were still some mistakes during the transfer.

The edge of the Heavenly Court did not fully enter the transfer bridge. It was cut by the light of the transfer bridge and immediately separated from the Heavenly Court. There were also some ships that caused the heavenly court to tilt or shift slightly when they dragged the heavenly court, as a result, they were cut off by the bridge, and the pieces fell from the sky.

The pieces dragged a long flame with a tail that was hundreds of thousands of kilometers long. They fell into the ancestral court from the sky and crashed into it after more than ten days.

Even so, the pieces did not burn clean. They still crashed into the ground of the ancestral court, causing mountains to collapse and the earth to crack. Firestorms roared, and fire meteors rained down like rain. Natural disasters continued to happen.

The eleven heavenly venerates turned a blind eye to this and continued to monitor the migration of the heavenly court.

The heavenly court that had been cut off was only a tiny part of this behemoth. It was insignificant.

At this moment, the northern heavenly gate was cut open. The huge heavenly gate tilted and fell down from the heavenly court. The Majestic Heavenly Gate turned into bright stars in the sky. The stars were torn apart by the geomagnetic origin energy of the ancestral court, and thus split into dozens of pieces, they were like dozens of dazzling big stars.

Suddenly, Celestial Master Hong frowned slightly and called a disciple of Dao sect over. He said in a deep voice, "Why is the speed of relocation slowing down?"

The disciple of Dao sect quickly said, "Celestial Master, the relocation bridge is too hot. When the spiritual energy is transferred, the spiritual energy will rub against the altar and the altar will not be able to withstand it. "We are mobilizing the rain masters and water gods of the various heavens to come and cool the relocation bridge. "The DAO Master also said that we should adjust the ship now so that the Heaven Court won't be cut off too much by the bridge."

Celestial Master Hong nodded and said, "Quickly mobilize the rain masters and water gods from all the heavens and the dragon kings from the sea as well!"

The Daoist left in a hurry.

On the other side, the other celestial masters also asked about this matter. Consort Qiang Tian sent the Daoist away and thought to herself, "Mobilizing the rain masters and Dragon Kings from all the heavens will probably take more than a month..."

Just as she thought of this, another disciple suddenly came to report, "Your Majesty, Celestial Master Mu is here. He said that he is going to the god-slaying platform in your Majesty's territory."

Qi Tianfei was slightly startled and said with a smile, "This kid is rough. He is here to die. Just let him go."

That disciple hurriedly said, "There are four strange people who came with Celestial Master Mu. One of them is missing an arm, one is a drunkard, one looks like a pig butcher, and the other is a slob with a demon saber on his back and an eye on it.". "Heavenly venerate mu said that he brought a few friends and planned to ascend God execution platform together."

Concubine Gao Tian waved her hand and didn't mind, "No matter how many people he brings, they are all sending themselves to their deaths. Go back and tell heavenly venerate mu to let them ascend God execution platform. I still have to stay here to take charge of the overall situation and will go over to help him later."

That disciple immediately acknowledged and quickly left.

In front of the god execution platform of the ancestral court, there was still a hundred miles away from it. Qin Mu and butcher stopped and looked at the two incomparably terrifying divine knives of baleful qi. Their expressions couldn't help changing and they praised in unison, "What fierce knives!"

Explosions rang out around them. It was the power of the world's number one fierce knife of God execution platform. When the five great grandmasters of knife path came here, the knife wills formed by the two baleful qi collided with their knife wills!

The god slaying platform was formed naturally. For a long time, it had been absorbing the murderous aura between heaven and earth. After being nourished by the murderous aura brought about by the countless years of war in the ancestral court, it became incomparably powerful and fierce.

Fortunately, the five of them were all saber masters and were not invaded by the saber intent of the ferocious saber.

Tian Shu's face was ashen. He turned around and left. He chuckled and said, "I suddenly remembered that I still have something important to do. You guys go ahead. I'll leave First!"

Butcher pulled him back and said, "I still have a ship of fine wine here."

Tian Shu's expression was uncertain as he gritted his teeth and said, "I have to let the god of thieves steal another ship. I'll drink it afterwards!"

Butcher smiled and said, "That's easy to say. Everyone, have you all noticed it?"

Everyone looked over.

Butcher smiled and said, "These two murderous auras have been connected to the spirit for a long time. They're going to turn into two peerless divine sabers! If we can subdue them, these two sabers can probably be called Supreme Treasures!"

Everyone's hearts trembled and they hurriedly looked at the two baleful qi, but they couldn't see anything.

The vertical eye in the heart of Qin Mu's brows opened and also looked at the two baleful qi. His body couldn't help trembling slightly and he praised in a low voice, "What handsome two divine knives!"

Chapter 1423:

The last time Qin Mu came here, he didn't have a deep understanding of the path of knives and didn't dare to take a closer look at the god execution stage of the ancestral court. Now that he had a deeper understanding of the path of knives, he looked at the god execution stage, he discovered many things that he had never discovered before.

They were knives that were like two swimming dragons, swimming in the baleful aura. These two divine knives had a peerless fierce might and absorbed the baleful aura that had gathered over a long period of time, making them psychic!

Not only that, the two sabers naturally contained the Great Dao of the god-slaying platform. Logically speaking, they should have formed creatures similar to ancient gods, but for some reason, they had formed two divine sabers.

The Saber Qi that they felt came from these two divine sabers!

However, these two sabers were still in the process of forming. They had form but not substance. If the five stages of the formation of the universe were to be considered, the innate five taunts, these two sabers belonged to the very beginning stage.

Butcher's understanding of knife path was higher than the others, so he could sense the two knives in God execution platform first, but the others couldn't.

Qin Mu's divine eyes were unparalleled, so he could also see them.

The five of them walked toward God execution platform. Heavenly King Tian Shu was swaying while gulping down fine wine. He was timid, and only by drinking could he restrain the cowardice in his heart.

The other heavenly kings of the founding emperor often mocked Tian Shu. They said that before he drank, Tian Shu massaged the founding emperor's shoulders and back. After he drank, he squinted and let the founding emperor massage his shoulders and back.

Originally, Tian Shu was at the back of the five of them. However, as they drank, Tian Shu ran to the front of the five of them. He stretched out his hand and tore off the clothes on his body, revealing his chest, he laughed and said, "Qiang Tian concubine, this woman is beautiful, but it's a pity that I haven't been able to get close to her... uh, this woman is alone in the empty room. Let her come out and give me a good time..."

The disciple of Qiang Tian concubine was an existence at the throne realm. Her name was Fang Ziyang. When she heard this, she couldn't help but furrow her brows and force herself to endure, she thought to herself, "This shifty-eyed guy seems to be the rebel Tian Shu, the guy who dares to fight with son of Heaven Yin. Celestial Master Mu Looks Gentle and refined, but how did he get involved with such a Rebel?"

Her cultivation realm was extremely high, and she led the way in front. The blade energy of the god-slaying platform posed a great threat to her. The closer she got to the god-slaying platform, the more unbearable it became for her.

The blade energy from the god-slaying platform not only invaded her body, but also invaded her dao heart, causing a great disturbance to her dao heart.

What was even more terrifying was that countless blade energy invaded her primordial spirit, causing her primordial spirit to feel as if it was being stabbed by thousands of blades. She would feel a stabbing pain from time to time.

Furthermore, the baleful qi in the knife Qi made her lose her mind. The invasion of the baleful qi caused her temples to throb all of a sudden, and her blood qi surged up. She wanted nothing more than to hack the drunkard beside her to death!

However, that drunkard Tian Shu still kept moving closer to her, asking her when Consort Qiang Tian would come to entertain old master Tian.

“If it wasn’t for the face of heavenly venerate mu, I would have chopped you up into minced meat and braised you...” Fang Ziyan had a smile on her face, and her pearly teeth were chattering loudly.

Her dao heart still couldn’t compare to Qin Mu, butcher, and the rest. Even Tian Shu was much stronger than her.

Tian Shu was as timid as a mouse when he was sober, but after being drunk, Tian Shu’s Dao Heart was clear and his devil nature was stimulated. He was fearless, and his dao heart reached twenty-five heavens.

When they were ten miles in front of God execution platform, Fang Ziyan couldn’t take it anymore. She hurriedly took out the protective talisman that concubine Liao Tian had given her and hung it around her neck.

The amulet emitted a miraculous dao rhythm and dispersed the saber power of the god-slaying platform, preventing the power of the two ferocious sabers from entering her body.

When she arrived at the huge god-slaying platform, the amulet given to her by concubine Qi Tian also seemed to be unable to take it and let out a soft sound.

Fang Ziyan was terrified and hurriedly said, “We have arrived at the god-slaying platform. Heavenly venerate mu, I can only send you here! This god-slaying platform is extremely dangerous. Heavenly venerate, be careful.”

Just as she was about to leave, Tian Shu glanced sideways and saw a palace next to it. This god-slaying platform was completely bare. Even the soil of the ancestral court had been sliced into pieces by the Saber Qi. There were no plants or mountains, this palace could actually be preserved in such a dangerous place. He could not help but click his tongue in wonder and immediately wanted to barge in.

“This must be the sleeping quarters of Empress Qiang Tian. It’s warm and fragrant!”

The Drunken Heavenly King dragged the imperial palace divine saber and barged into the palace gate. he shouted, “The heaven’s imperial concubine is a rare beauty. Come out quickly and let Master Tian have a good time! Hehe, if the heaven’s imperial concubine can sleep, why can’t I Sleep?”

Fang Ziyan could not hold it in any longer and exploded with anger. She caught up and said sternly, “You dare to break into the Empress’s Sleeping Palace?”

Suddenly, an earth-shattering sound came from the palace. Tian Shu fell and flew out. It was obvious that there was an extremely powerful seal in the palace that sent Tian Shu flying back towards Fang Ziyuan.

Fang Ziyuan was slightly relieved. She raised her hand towards Tian Shu's back and used 80-90% of her strength, she thought to herself, "This fellow is a traitor. I'll give Celestial Master Mu some face and not kill him, but at the same time, I'll teach him a lesson. "As long as he is slightly injured, he will be sucked dry by this god-slaying platform. Even if Celestial Master Mu blames him, he can't blame me..."

Just as her palm was about to land on the back of Tian Shu, Tian Shu's imperial palace divine saber suddenly turned and struck Fang Ziyuan's chest.

The jade talisman on Fang Ziyuan's chest let out a soft ding sound and suddenly shattered!

Fang Ziyuan was astonished, and her killing intent instantly reached her body. Knife marks immediately appeared on the surface of her skin, and they were from the Knife Qi of God Execution Stage!

The moment the knife Qi touched her skin, the killing intent had already invaded her body, injuring her primordial spirit and Dao Heart!

The moment her dao heart was damaged, the Qi and blood in her body instantly went out of control and gushed out from the wounds on her body. They were drawn by the killing intent of God execution stage and rushed toward it!

"We've been ambushed!"

Fang Ziyuan instantly knew something was wrong and quickly glanced at Qin Mu and the rest. She only saw Qin Mu, butcher, Zhe Huali, and Luo Wushuang watching from the side with cold eyes. When she tried to ambush Tian Shu, the four of them didn't help her.

Not only that, even the drunken Tian Shu seemed to have sobered up by seventy to eighty percent as he stared at her without blinking.

"They want to break my jade talisman and take the opportunity to see the power of the god-slaying platform!"

Fang Ziyan had more wounds on her body and her qi and blood flowed faster. With an angry shout, the Heaven Palace appeared behind her.

Her immortal soul was sitting on the throne of the Heaven Palace's Jade Capital's Lingxiao Hall. At this moment, her heaven palace was filled with saber lights, especially in the Lingxiao Hall. The saber lights were like a tide, causing her immortal soul to be riddled with wounds!

Fang Ziyan mobilized all the power of her heaven palace to forcefully resist the knife might of God execution stage. She retreated and rushed into the distance!

The Qi and blood that surged out of her body was like a long rainbow that was held back by God execution stage. Even though Fang Ziyan had run a hundred miles, she still couldn't stop it from devouring her qi and blood.

She ran for a thousand miles, and only then was God execution stage unable to devour her qi and blood. She couldn't help heaving a sigh of relief, and her vision suddenly turned black. She almost fainted on the ground.

Qin Mu and the rest's gazes followed her figure closely. Only when God execution stage stopped devouring her qi and blood did they retract their gazes.

Tian Shu was incomparably calm. How could he still look like he was drunk and babbling nonsense?

"The knife might of God execution stage first broke through the skin of Fang Zi Yan and then destroyed her dao heart. Her dao heart collapsed and her qi and blood lost control. Her cultivation would rapidly decline and her qi and blood would be devoured by God execution stage."

He said in a deep voice, "Enter the god-slaying platform, and you must not suffer any injuries!"

Chapter 1424:

Zhe Huali raised his head and looked at the god slaying platform. After the two streams of evil aura devoured the qi and blood of the fragrant purple smoke, the evil aura became even more intense, he said, "My dao heart can be protected, but my cultivation is insufficient. The first person to be injured on the god slaying platform is me. "With my cultivation, it would only take an instant for the god slaying platform to plunder my qi and blood. My primordial spirit would be severed, and my body and Dao would be destroyed! "However, in terms of the evil of the Dao of the saber, the divine saber of the god-slaying platform is inferior to mine!"

Butcher also made his own judgment, he said, "With my attainments in the Dao of the saber, I can ascend this divine platform to ensure that I will not be injured by the Saber Qi. "However, when I reach the platform, the moment the two divine sabers move, I will be beheaded and executed. "My strength is insufficient. If I have sufficient strength, I might be able to fight!"

Luo Wushuang said in a deep voice, "I have only one arm, and I have a huge weakness in defense. If I can't ascend the god-slaying platform, my physical body will be damaged. Although I can maintain my dao heart, my strength will deteriorate very quickly. "However, when I reach the platform, I might be able to block one of the Divine Sabers."

Tian Shu said, "Judging from the speed at which Fang Ziyán's aura is weakening, I will also be damaged when I face the two divine sabers. "I will die on the stage within a breath's time. "But as long as I can block them, I will be able to stand firmly on the stage."

The five of them were all veterans. From the moment Tian Shu pretended to be drunk and teased Empress Qi Tian, the other four understood his intention. They understood and allowed Tian Shu to tease Fang Ziyán.

Fang Ziyán's Dao Heart was not as good as theirs. After being tricked by the protective jade talisman given to her by Empress Qi Tian and being attacked by the god-slaying stage, the five of them took the opportunity to estimate the attack power and attack method of the god-slaying stage, they also calculated their own shortcomings and strengths.

Only by knowing oneself and the enemy could one win a hundred battles.

The more they knew about the god-slaying platform, the greater their chances of winning over the god-slaying platform.

Although Fang Ziyán was an existence at the Emperor Throne Realm and was the disciple of the destruction heaven concubine, she had little experience in the jianghu. Compared to the five of them who were rolling in the mud, she was much inferior. Especially when her dao heart was suppressed by God execution platform, she had easily fallen into Tian Shu's calculations.

The four of them analyzed their own pros and cons and looked at Qin Mu together.

Qin Mu's gaze flickered. "With the help of the four of you, we can cross God execution platform and obtain the Great Dao of God execution platform. It's stable now."

Weng —

His divine treasure domain suddenly spread out, and the four of them stood in it. Instantly, they felt that their gazes could actually see up, down, left, and right in front of them at the same time. From any angle, they were facing them head on!

At the same time, Qin Mu used Knife Path Heavenly Palace as the main body and the other heavenly palaces as support. He gathered his Qi to form a knife, and his dao heart was firm. He executed knife of protection, and everyone's will formed a city. Their breaths were linked together, and their magic power was linked!

Zhe huali, butcher, and Luo Wushuang instantly felt their cultivation and magic power increase exponentially. In an instant, it was as if they had the magic power of an Emperor's throne!

Heavenly King Tian Shu felt his magic power decrease slightly, but it didn't drop by much. It still allowed him to maintain his emperor's throne realm.

The four of them were astonished. This magic power was clearly not heavenly king Tian Shu's magic power, but Qin Mu's!

It was truly inconceivable that Qin Mu's magic power was actually so profound!

The one who had the biggest impact was still Zhe Huali. He had originally thought that Qin Mu's cultivation and magic power wasn't much different from his, but he hadn't expected the difference to be so great. It was so great that it was hard to catch up to him!

This was also a matter of course. The path he had taken was still eternal peace's normal path of cultivation. Even though the seven divine treasures had combined into one to refine heavenly river divine treasure, Qin Mu had already jumped out and only had one spirit embryo divine treasure, it contained the ancestral court, Xuan Du, Yuan Du, Youdu, four extreme heavens, and even the ten thousand worlds of the heavens!

Just the magic power contained in the spirit embryo divine treasure alone surpassed his by countless numbers. In addition to Qin Mu having nineteen heavenly palaces, the four great heavenly gates in the heavenly palaces were all built according to the Great Dao of the ancestral court, and it was the same for Jade Lake and Jade Terrace, he had also created a new realm, nine prisons platform.

Apart from that, there was also absolute beginning, absolute beginning, Tai Su, and Tai Chi. The Four Great Dao had been refined into four great mineral veins, and the power of their magic power was so vigorous that even Lan Yutian was much inferior to him on the same realm, as for the ten heavenly venerables, they were even further apart.

If they were to talk about it purely in terms of magic power, Qin Mu would have long surpassed an ordinary emperor seat strong practitioner.

“Fortunately, this brat is still slightly weaker than me in Knife Dao.” Zhe Huali was satisfied.

“It’s stable!” Luo Wushuang said in a deep voice.

Butcher nodded, “It’s stable.”

Zhe huali revealed a confident smile, “We can definitely pass God Execution Stage!”

Tian Shu’s eyes shone brightly, “We can fight!”

The five of them executed their magic power to raise their dao hearts and shouted in unison, “Dao realm, twenty-five heavens!”

The five voices overlapped together, thick and powerful. The twenty-fifth heavens of their dao of knives burst forth and overlapped together, forming five huge Knife Dao domains. They were all different and made up for their shortcomings, they covered Qin Mu’s divine treasure domain together!

Qin Mu took a step forward and walked towards God execution platform.

When he reached the first step, the five of them felt the pressure increase greatly. The pressure of God execution platform came crashing down and collided with their twenty-fifth heavens of Dao realm. It was as if they had entered a terrifying battlefield, countless divine knives came attacking from all directions and collided with their Knife Dao Domain!

At the periphery of the twenty-fifth heavens, countless knife lights appeared. It was Qin Mu, butcher, and the rest’s will of Knife Dao colliding with the baleful Qi of God execution stage. The knife lights were incomparably dense and rang non-stop.

Even so, butcher, Zhe Huali, Tian Shu, and Luo Wushuang still held their knives and didn't move. They used their mental wills to collide with the baleful Qi of God execution stage.

Qin Mu ascended the second step, and the pressure increased by a notch. The five of them still held their knives and didn't move.

Qin Mu climbed up one step at a time. One step led to another. When they reached the ninth step, the baleful aura of God execution platform began to invade the Ninth Heaven of their Dao realm, and its power was astonishing!

There were a total of twenty-five steps on God execution platform. When Qin Mu reached the last step, the baleful aura of God execution platform had already invaded their twenty-fifth Heaven Knife Dao Domain, and the baleful aura was about to reach their bodies!

The five of them suddenly pulled out their knives, and their bodies crisscrossed. Knife lights crisscrossed, and they blocked the two baleful aura divine knives that were attacking them from the sky!

Dang Dang Dang Dang, five loud sounds rang out in succession. The bodies of the five of them trembled violently, and their footsteps couldn't help moving. They all retreated in different directions.

The Knife Qi that was formed from the baleful aura in their bodies rampaged. The baleful aura of the two divine knives was extremely powerful, and the instant they collided with their divine knives, it actually invaded their bodies!

Countless blade lights burst forth from their bodies, killing their primordial spirits, Dao Hearts, and corporeal bodies!

The strength of the two divine knives on God execution platform had exceeded their expectations!

Chi Chi Chi!

Qin Mu, butcher, Tian Shu, Luo Wushuang, and Zhe Huali's footsteps were in a mess. Countless wounds on their bodies exploded, and blood splattered everywhere!

In front of Qin Mu, a drop of blood flew past the vertical eye in the heart of his brows. There were actually tens of thousands of scarlet blade lights flying out from that drop of blood. They were like a crystal that was constantly rotating and expanding, changing endlessly!

“Not Easy Divine Art!”

Qin Mu shouted out and all the divine blood that flew out from their bodies suddenly flowed back. The wounds on their bodies also healed in an instant, qin mu shouted out, “Refine the baleful Qi in your bodies! These two knives have yet to take form, so we can seize their baleful qi and cultivate our knife path!”

The five of them moved their bodies and once again formed a formation. They each executed their magic power to refine the baleful qi in their bodies.

The two incomparably thick baleful auras in the sky were shaken until they were somewhat scattered. Within the baleful aura, two blood-red saber lights were like two evil dragons. Their bodies were covered with reverse scales that were like saber rays, suffused with a terrifying dao might, the two evil dragon divine sabers spun gently and charged downwards. The dragon scales expanded outwards, like countless divine sabers attacking them!

Chapter 1425:

The five of them saw dazzling blood-red light everywhere. The power of the ancestral court’s god slaying platform was fully unleashed, and they heard loud and noisy fighting sounds, as if there were billions of people fighting and killing each other.

The blood-red light in front of them turned into countless figures. There were creators and ancient gods who fought desperately in the Sea of blood, and the corpses piled up into mountains in the Sea of blood!

It was a scene like hell!

This was the baleful qi, the baleful Qi of blood!

It was the desire of all living beings to kill gathered together. The baleful qi gathered together, and the Qi and blood of the dead gathered together to form a terrifying baleful qi!

Their eyes could no longer see the two divine blades condensed from baleful qi. It was as if they were fighting against the endless desire to kill that had existed for billions of years. The incomparably dense baleful qi corroded their dao hearts, it filled their hearts with the desire to kill.

“Defend Your Dao Heart firmly. Don’t be influenced by the Blood Fiend!”

Butcher said loudly, “If you are influenced by the Blood Fiend, you will easily be assimilated by the blood fiend and become a part of the god slaying platform!”

As soon as he finished speaking, Zhe Huali’s entire body exploded. His boundless qi and blood surged out from his body and transformed into the blood fiend. It turned into a blood fiend evil dragon that swam around and attacked everyone!

The Butcher was shocked. He knew that although Zhe Huali had been training the will of the Dao of the saber with them, his cultivation was still shallow and his dao heart was not stable. He had been assimilated by the Blood Fiend and died an unnatural death!

As soon as Zhe Huali died, Luo Wushuang immediately felt sorrow from the bottom of his heart. He liked this disciple the most. Although he had expelled Zhe Huali from the sect, in his heart, he still regarded Zhe Huali as his most beloved disciple.

At this moment, the sorrow in his heart turned into anger and anger turned into evil. He swung his blade angrily. As the blade light slashed towards the two evil blood dragons, his body suddenly exploded and turned into the evil blood qi. His entire body melted into blood, he turned into an evil dragon and charged out while shaking his head and tail!

The Butcher felt a chill in his heart. Suddenly, his eyes turned blood red and returned to darkness. He immediately knew that when his dao heart was unstable, he was invaded by the evil blood and was blinded by it!

He did not panic in the face of danger. The blade light covered all directions. At this moment, he heard Heavenly King Tian Shu’s angry roar, followed by the sound of his skin exploding.

Butcher’s heart sank. Although his eyes could not see, he had already “Seen” heavenly king Tian Shu’s body explode and his qi and blood turned into blood fiend.

“This god-slaying platform is a hundred times more terrifying than the five of US imagined!”

Heavenly King Tian Shu was the only one among them who had cultivated to the throne realm. Even though he had only cultivated to the throne realm a few years ago, his cultivation was extremely profound and his attainments in devil nature were extremely deep, otherwise, he wouldn't have become the mortal enemy of Son Yin.

Blood Fiend also contained devil nature. However, the devil nature of Blood Fiend had crushed Tian Shu's devil nature and caused his desire to grow crazily, thus destroying his dao heart!

This blood fiend was simply too strong!

"I must not let Mu'er suffer any damage."

When this thought appeared in Butcher's mind, the desire to protect his dao heart burst forth. Since ancient times, there had been countless people who wanted to protect their relatives, friends, and companions. Their baleful aura had also gathered here.

When Butcher had this thought, these baleful aura invaded his body. Butcher instantly felt his dao heart shattering in the baleful aura. His body and primordial spirit were affected by the baleful aura and disintegrated.

"Mu'er, let's Go!" His corporeal body exploded and he roared at Qin Mu before turning into a blood dragon.

Weng —

Qin Mu's divine treasure territory rotated, and butcher, heavenly king Tian Shu, Luo Wushuang, and Zhe Huali woke up one after another. Time seemed to return to the moment before they were killed by the two blood fiend divine knives.

The four of them still had lingering fear in their hearts, and the baleful aura in their bodies was still stirring.

The two blood fiend evil dragons pounced over once more, and qin mu shouted loudly, "Refine the Blood Fiend Qi, Dao realm as one, Slash!"

Butcher, Zhe Huali, Tian Shu, and Luo Wushuang waved their knives, and their essence, Qi, and spirit gathered together. With Dao realm overlapping, they waved their knives down!

Dang —

On God execution stage, three world-shaking knife lights burst forth, and the knife lights shattered. They swept out in all directions, turning into countless knife rain that swept through everything with God execution stage as the center!

Countless saber lights collided and shattered in the air, turning into even finer saber lights. They spread out in all directions at an extremely fast speed, forming a terrifying saber light storm!

Soon, the saber light storm hit the bedroom of the heaven's concubine below. Even the heavenly king of Tian Shu found it difficult to enter this bedroom because the door was sealed by the heaven's concubine. However, under the destruction of this storm.., the entire sleeping palace was stained with blood under the blade lights. The blood evil invaded the sealed palace of concubine Liao Tian, causing it to be riddled with holes!

The seal of concubine Liao Tian exploded. Even the seal of a heavenly venerate was eroded by countless flying knives that collided within the seal, weakening the power of the seal.

A thousand miles away, Fang Ziyang raised her head and saw the storm of blade lights sweeping over. She forcefully suppressed her injuries and flew up. However, she was swept away by the storm in the next moment.

In the storm, Fang Ziyang rolled and tumbled. Her heavenly palace was instantly riddled with holes, and her corporeal body was also covered in wounds.

Fortunately, her vitality was strong, so she forcefully rushed into the distance in the storm. She finally broke away from the storm and staggered in the air. Her heart was filled with shock and anger. 'these five fellows don't want their lives anymore!'

Suddenly, an incomparably majestic voice came from a thousand miles away. "Dao realm cleaves open the heavens, sending Great Dao into the Void!"

Fang Ziyang hurriedly turned her head back and saw that on the incomparably majestic God execution platform, twenty-five layers of void had opened up, and the Dao of knives that had been entrusted to

the twenty-five layers of void burst forth from the void, connecting with the knives of Qin Mu and the rest!

The Dao of knives in the twenty-five layers of void spun crazily, becoming one with the knives in Qin Mu and the Rest's hands. They transformed into a long knife that was stunning beyond compare, clashing with the two Blood Fiend Dragons!

"Merging of battle skills?"

Fang Ziyan had just thought of this when incomparably bright knife lights were transmitted into her eyes. Her eyes instantly turned pitch-black and two rows of black blood flowed down from her eyes. She couldn't help being astonished and the knife lights and storm whizzed over and swept her up.

"Knife Cleaves Bright Moon ring!"

"Seeking Dao cleaves clear sky!"

"But I have to take care of it with my long knife and not teach the ghosts and gods to provoke the world!"

..

In the storm, Fang Ziyan heard loud and bold shouts one after another. It was as if a warrior was holding a saber and fighting between heaven and earth.

She did everything she could to protect herself in the storm and leave this place. She was terrified and uneasy. "Lunatics! They are all lunatics who don't care about their lives!"

On the god-slaying platform, the saber lights collided again and again. Suddenly, Fang Ziyan felt an extremely powerful throb. She immediately sent her primordial spirit out and looked over with her primordial spirit. She saw that the god-slaying platform had become extremely bright, it was a phenomenon caused by the Great Dao of God execution platform being stimulated!

In the sky, the two blood fiend evil dragons crossed their necks and cut down, shattering twenty-five layers of void and wiping out all the marks. The five figures on God execution platform turned into nothingness in the blood light!

'even heavenly venerate mu is dead?'

Fang Ziyan was astonished and thought to herself, 'if Empress Tian Fei knew about this, she would probably be worried to death. After all, heavenly venerate mu is the chief of the Heaven Alliance, if he dies here...'

However, she didn't know how Happy Qing Tianfei would be if she heard the news of Qin Mu's death. She would be dancing and singing.

However, before Fang Ziyan's thought could fade away, she saw the light circulating on God execution platform. Qin Mu and the rest had recovered from the state of destruction.

Fang Ziyan was flabbergasted and only then did she remember that Qing Tianfei had once been angry and scolded a scoundrel. She went forward to ask who the scoundrel was and Qing Tianfei said it was heavenly venerate mu.

At that time, Fang Ziyan did not know why concubine Qiang Tian would say that Celestial Master Mu was a scoundrel. However, when she saw the scene on the god-slaying platform, she finally understood what a scoundrel meant.
