

Tales of Herding Gods Chapter 1426-1427

Chapter 1426:

Fang Ziyan no longer looked at the battle on God execution platform and hurriedly found a divine city. This divine city was the territory of Liao Tian concubine. When the guard saw Fang Ziyan getting injured, he couldn't help but be shocked and hurriedly went to look for a famous doctor to treat her.

The other injuries on Fang Ziyan's body were easy to deal with, but her eyes were injured and her eyes were destroyed. Even the Divine Doctor couldn't treat her, "Madam Fang will have to wait for some time. I heard that there are famous doctors who are proficient in the path of creation in eternal peace, so I can invite them to treat you, Madam," Fang Ziyan said

Fang Ziyan was enraged and shouted, "Eternal peace is full of traitors, wouldn't inviting them to treat me be a disgrace to Empress? Could it be that you can't find a famous doctor who is proficient in the path of creation in Heavenly Court?"

"I can't find one."

The Divine Doctor was rather straightforward, "Eternal Peace has the art of good fortune and also the profound skill of good fortune. Emperor's seat level techniques aren't prohibited for outsiders to learn. "However, eternal peace's profound skill of good fortune is based on Heavenly River Divine Treasure. If the people of Heavenly Court don't Cripple Divine Bridge divine treasure and cultivate heavenly river once again, who will be able to learn it?"

Fang Ziyan couldn't help but be suspicious and thought to herself, "I've seen the empress use the profound skill of good fortune and it was clearly obtained from eternal peace. Why Can't we cultivate eternal peace's profound skill of good fortune?"

"I have another method that can cure Madam Fang."

The divine physician said, "As long as I remove two divine eyes from others, I can dig out the bad eyes for her and replace them with new ones. However, the new eyes aren't the eyes of an Emperor's throne expert, so I'm afraid that your Majesty will have to refine them again before she can recover to her peak state."

Fang Ziyan shook her head. "My eyes have been tempered by me over and over again. If I want to change a new pair of eyes, I'm afraid I'll need dozens of years to cultivate them to their peak state. I'd better go and ask the famous doctor of Eternal Peace."

The Divine Doctor agreed.

Fang Ziyan waited quietly for more than ten days and felt the fluctuations coming from God execution platform becoming stronger and stronger. Her primordial spirit would often leave her body and look at God execution platform. She could see that the collision between the path of the blade and the two blood fiend divine blades was becoming more and more intense.

As time passed, the power of the path of the blade became stronger and stronger. Even here, she could clearly feel the power of the blade.

“Eternal peace is truly a strange place. It’s clearly a small place, yet its paths, skills, and divine abilities are flourishing. This Blade Dao is clearly a postnatal dao, yet it can contend against Blood Fiend.”

She was rather puzzled. Even an emperor who was proficient in the Great Dao of the innate realm wouldn’t be able to last so long on God execution platform. For example, she was an emperor who was proficient in the Great Dao of the innate realm. If she were to ascend to God execution platform.., she would only be able to last one strike at most and the second strike would kill her.

Qiang Tian concubine had once told her that the murderous aura accumulated on the god slaying platform was too strong and it was about to turn into two divine sabers. When these two divine sabers were born, they were at the level of a supreme treasure. They were the world’s number one malefic weapon and their power surpassed the Azure Heaven Glazed Pavilion.

When these two divine sabers matured, they could even kill a heavenly venerate!

Qing Tianfei’s goal was to subdue the two divine knives and use them to get rid of her strong enemies.

Even though these two divine knives had yet to mature and were only tangible, Qin Mu and the rest were actually able to hold on until now under the power of the divine knives. It was truly an anomaly.

Fang Ziyan waited for a few more days before her heart suddenly moved. ‘The Power of the two divine knives on God execution platform seems to be much weaker...’

She didn’t know if it was just her imagination, but her primordial spirit immediately left her body and observed carefully. Suddenly, the twenty-fifth Heavenly Dao of Sabers had another Heavenly Dao!

“Could it be that the heavenly venerate mu and the others’ Dao realm has increased, causing their cultivation strength to increase greatly?”

Fang Ziyan observed carefully and calculated if the power of the two divine sabers on the god-slaying platform had decreased. After recording it down, a few more days passed.., she couldn’t help but feel a chill in her heart. “The power of those two divine knives is indeed a little weaker! Heavenly venerate mu and the other five are taking the opportunity to seize the power of the divine knives and refine the baleful Qi to take it for themselves!”

She suddenly stood up with a surging killing intent and thought to herself, “I have to report to Empress Tian Fei, or else those two divine knives will be even further away from maturity! I don’t know when I’ll be able to nurture them!”

Just as she was about to head to the Great Spirit Energy Bridge to report to Empress Qi Tian, the Divine Doctor suddenly came to report, “Madam Fang, the famous doctor from eternal peace has been invited!”

Fang Ziyan’s heart was slightly anxious as she said, “Invite the famous doctor in and quickly diagnose me. If he can cure my eyes, I’ll give him a huge reward, but if he can’t cure my head, I’ll kill him! I still have something important to see Empress, so I can’t be delayed!”

At this moment, a gentle and magnetic voice that was unique to men was heard, it caused her heart to involuntarily become calm. “Madam Fang, there is no injury in this world that I can not cure. Madam, don’t worry. Your injury is easily cured for me.”

Fang Ziyan’s heart pounded violently. She felt that this voice was extremely pleasant to the ears. She quietly left her primordial spirit and looked towards the doctor.

The doctor was tall and sturdy, full of heroic spirit. He was dressed in green, but he was wearing a bronze mask on his face. Under the mask was a pair of eyes that moved people’s heartstrings. He seemed to be able to speak, and what he said was heartwarming words of love.

“Famous Doctor of Eternal Peace, why are you wearing a mask and not daring to show your true face?” Fang Ziyan asked with a smile as the anxiety in her heart disappeared.

The Man in the bronze mask didn’t hide anything and said, “Reporting to Madam, I have an ugly appearance and I’m afraid I might scare the patient, so I used a mask to hide my ugliness.”

Fang Ziyang smiled. "You're lying. Your eyes are so pretty, so you definitely can't be that ugly. In front of me, you don't have to wear a mask. I don't trust the person wearing the mask, especially the famous doctor who treats my illness."

The bronze-masked man hesitated for a moment and said, "Madam has unparalleled eyes. Actually, it's because I'm handsome and afraid of attracting unnecessary trouble, so I often use a mask to cover myself."

He smiled bitterly and said, "I often practice medicine everywhere, and I have many debts of love, so I'm quite miserable."

Fang Ziyang was even more curious and insisted that he take off the mask. The bronze-masked man was helpless, so he could only take off the mask and said, "Madam, the heart of a doctor is the heart of a parent. Please treat me as a doctor, Madam."

When the mask was taken off, Fang Ziyang's primordial spirit felt as if it had been electrocuted. She felt that the world was nothing more than beautiful, and it was all concentrated on the man in front of her.

"Madam, I'd better put on my mask," the man said.

Fang Ziyang hurriedly stopped him and said with a smile, "You treat me while I admire the beauty. Wouldn't that be the best of both worlds? What's Your Name?"

The man stepped forward and their faces were almost touching. Fang Ziyang could clearly feel the touch of his breath and her heart couldn't help but beat faster.

"Others call me apothecary. As for my previous name, it has long disappeared with my past."

The apothecary smiled gently, he said, "The injuries in Madam's eyes are dao injuries. Dao injuries left behind by Blade Dao and murderous aura. The divine doctors of the heavenly court treat the superficial wounds but not the root. Although they have healed the superficial wounds, the murderous aura has not been removed by madam and will affect her dao heart. "However, I can remove the murderous aura for madam. I can also heal the dao injuries in Madam's eyes."

His gentleness was as sweet as honey. It entered her heart. Fang Ziyang said softly, "As you wish."

On the god-slaying platform, the saber light was like a tide and the Dao was like the sky. The two blood evil dragons were fighting around the layers of sky. They were extremely powerful, but their power was no longer as great as when they were at their peak.

A few days later, the 27th Sky Blade Domain was formed. The two blood evil dragons' power weakened even faster.

At this moment, Fang Zi Yan was immersed in the handsome pharmacist's gentle home. She was unable to extricate herself and completely forgot about this matter.

The 4th day had arrived! DARE I ASK Fellow Daoists, do you still have tickets?

Chapter 1427:

The blood-colored murderous aura of God execution stage was refined by Qin Mu, butcher, and the other three and stored in their bodies. Their cultivation became stronger and stronger, and their comprehension of the realm of God execution stage also became deeper and deeper.

Their attainments in the path of knives also rose like the rising tide.

The path contained in God execution stage wasn't the path of knives, but the path of murderous aura in the Great Dao of Heaven and earth. At the same time, it also contained the tempering of dao heart.

Refining the baleful qi and forcefully seizing the power of blood fiend divine knife could only raise their cultivation, allowing them to have a deeper understanding of the dao of baleful qi. It couldn't raise their attainments in the Dao of Knives.

The reason why they had such a huge improvement in the Dao of knives was actually because of the improvement in their dao heart and during the process of resisting the divine knives of baleful qi, they had comprehended their own knife skills and Knife Dao, thus obtaining an improvement.

Among the five of them, apart from Qin Mu, everyone had deficiencies in the tempering of their dao hearts. If it was any other time, they wouldn't be able to enter God execution stage. Just the test of their Dao Hearts alone.., they wouldn't be able to withstand the slaughter of God execution stage.

However, Qin Mu's Dao Heart was strong enough. Surging River comprehended dao and the five of them had their essence, Qi, and spirit refined into one body. They used knife path to brand the twenty-five layers of void space, which was also led by Qin Mu's Dao Heart, he forcefully raised butcher, Zhe Huali, and the rest's attainments in Dao Hearts.

Butcher and the rest were able to stand on God execution platform by relying on surging river comprehended dao, and Knife Dao to brand twenty-five layers of heavens.

If it was Qin Mu alone, he wouldn't be able to stand on God execution platform. The power of the two Blood Fiend God execution knives was too strong, and even though his dao heart could withstand it, his corporeal body and primordial spirit couldn't be preserved. His Great Dao would also be slashed.

If he stood alone on the platform, he would only be killed time and time again, unable to comprehend.

Even though his dao heart was strong, his attainments in Knife Dao were still slightly weak. Surging River comprehended dao, and the reason why he could imprint twenty-five heavens on Knife Dao was because of the collaboration of the other four ancestors of Knife Dao. It wasn't the work of just one person.

Only when the five of them joined hands could they reach such a height and have the ability to resist God execution platform.

And now, their Saber Dao was branded in the twenty-seventh layer of the void, relying on the five of them working together to borrow the power of the god-slaying platform and gather their intelligence to raise their Saber Dao to the height of the twenty-seventh layer of the void!

They needed the five of them working together to be able to activate the power of the twenty-seventh layer of the Saber Dao.

The five smelly cobblers still could not compare to one founding emperor.

Founding Emperor used his own strength to deduce his sword dao to the thirty-fifth layer of the void and branded it into the thirty-fifth layer of the void. He was much stronger than them.

However, their knife path was still improving and was about to break through twenty-eight heavens, imprinting knife path into twenty-eight layers of void!

However, the further they went, the more difficult it became. It wasn't easy to raise it to twenty-eight heavens.

The power of the two Blood Fiend God Slayer Knives on God execution platform was still extremely strong and posed a great threat to them. Butcher and the rest still needed to do their best to resist the two knives, but even so, they were still continuously injured.

Fortunately, Qin Mu's divine treasure territory contained difficult divine arts, so he could always restore them to their peak condition before God execution platform took away their qi and blood.

Meanwhile, in the distant divine city, apothecary was taking care of Fang Ziyan's body to get rid of the murderous aura in her body. He also brought her to some treasured lands in the ancestral court to gather medicinal herbs, preparing to refine spirit pills and miraculous medicines to treat her eye disease.

With this handsome pharmacist by her side, Fang Ziyan felt that time was passing by quickly. When they returned after collecting the medicinal herbs, they saw that the rain masters, water gods, river gods, and Dragon kings from the various heavens had gathered next to the great spiritual energy mutual relocation bridge, thousands of gods controlled the flood to cool down the great spiritual energy mutual relocation bridge.

During this period of time, the Heavenly Court's Taoist school had adjusted the position of the ships that were dragging the heavenly court. The Heavenly Court was migrating again at a much faster speed.

It wouldn't be long before heavenly court would completely move to the ancestral court. At that time, Heavenly River would change its path again, and the grand situation of the ancestral court in the immemorial era would be replayed!

Apothecary refined the spirit pills and applied medicine on Fang Ziyan. He said softly, "Madam only needs to rest for a day or two to recover. I have left eternal peace for a period of time, so I have to go back."

Fang Ziyan was reluctant to part with him and held his hand. "Even though I was conferred the title of Madam by the Imperial Court, my late husband has already passed away for a long time. If Mister Doesn't mind..."

Apothecary pulled out his palm without batting an eyelid. "Madam, I owed too many romantic debts in the early years, and now I only want to practice medicine everywhere to make up for the debts. Madam has feelings, but I can't bear it."

Fang Ziyan was at a loss and let him leave.

After another two days, the dao wounds in Fang Ziyán's eyes disappeared. She opened her eyes and looked around listlessly. She felt that the magnificent landscape of the ancestral court had lost its color.

At this moment, she suddenly noticed the god-slaying platform and her pretty face couldn't help but change color. She saw that the murderous aura of the god-slaying platform was far less powerful than before, and the scale of the murderous aura had shrunk by nearly half!

"Oh no, I have a heart full of love, but I am heartless. I was only thinking about spending time with that pharmacist, but I forgot about the proper business!"

Cold sweat broke out on her forehead. From Afar, she could see that the dao of the Saber on the god-slaying platform was like the sky, branded with thirty layers of void. Layers upon layers, it actually held the two blood fiend divine sabers inside, trying to capture and refine the two divine sabers!

And although the two divine sabers could break through the 30th layer of the Dao of the saber, they didn't have the same terrifying power as before, and could no longer threaten the five people on the platform.

The power of thirty heavens of knife path was unparalleled. The five people stood on the stage, and whenever they combined their strength to execute their battle skills, their power would surge to the heavens, making the two divine knives unable to act ferociously.

'If I let them continue, I'm afraid they will devour and refine those two divine knives, turning them into the knife Qi in their bodies!'

Fang Zi Yan immediately flew up and rushed towards Great Spirit Energy Mutual Shift Bridge.

On God execution platform, Qin Mu had already seen through the Great Dao contained in it and modified his god execution platform.

He had nineteen heavenly palaces, and not only did he have to reconstruct the god execution platforms of the nineteen heavenly palaces, he also had to reconstruct the god execution platforms in the ancestral court of his spirit embryo divine treasure.

When these twenty God execution platforms were erected, he felt his cultivation increase once again, and his dao heart became even more mellow.

However, after the god execution platforms of the ancestral court were erected, the changes that they brought were slightly beyond his expectations. When they were formed, they actually absorbed the baleful Qi from his body!

The more killing sins one created, the more baleful qi would be wrapped around one's body. For example, back then, earth mother primordial Lord had massacred millions of gods and Devils in Mystic City, causing baleful qi to wrap around one's body and affect one's Dao Heart.

Earth Mother Primordial Lord's Dao and morals had been completely corrupted, and he had died at Qin Mu's hands in the end. It was the baleful aura that had taken effect.

Ever since Qin Mu had left great ruins and entered eternal peace, he hadn't caused much killing sins, and his hands hadn't been stained with much blood.

It could be said that he hadn't caused many killing tribulations in the past few decades. Even though his cultivation was strong, his hands were the cleanest among all existences with his cultivation.

However, there were countless lives that had died at the hands of his brother Qin Fengqing. Just when Qin Fengqing was still an infant, he had already devoured countless souls, and Qin Mu's consciousness had yet to be born!

Back then, when the two of them were still one, Qin Mu's baleful aura had been wrapped around his body, and all these lives had to be counted on him.

Qin Mu was proficient in the Great Dao of Youdu, so the baleful aura couldn't affect his consciousness. However, it wasn't a good thing to have so much baleful aura wrapped around him.

Now, the moment God execution stage was formed in the ancestral court of his divine treasures, all the baleful qi gathered on it and turned into two bloody baleful knife lights that entangled endlessly!

Not only that, the baleful qi of the god execution stage of the ancestral court of concubine Qiang Tian was also devoured and refined by the god execution stage of his ancestral court to strengthen his body!
