

Tales of Herding Gods Chapter 581-585

Chapter 581: Overlord Body of the Devil Race

There were numerous divine arts practitioners of Supreme Emperor Heaven gathered in Without Embroiling City, some of which had come from Eternal Peace. Among them, there were scholars of Heavenly Saint Academy. When they saw Qin Mu, Granny Si, and the rest coming to the sentry tower, they were both surprised and delighted. They came forward to greet them. “Chancellor! Teacher Si, Teacher Blind!”

There were also some that were scholars of Li River Academy, so they greeted Chancellor Ba Shan. The place became very lively.

Ba Shan chuckled. “You brats sure run fast, to have actually come here faster than me.”

He was the Grand Chancellor of Li River Academy, and he hadn’t come to find Butcher, but in search of the path for a breakthrough in Supreme Emperor Heaven. Only when he passed by Heavenly Saint Academy and saw Butcher and the rest preparing to leave that he gave chase in a hurry.

The affairs regarding Li River Academy had been handed over to Grand General who Crowns the Army Ma Dingshan. He was a great expert that was no inferior to him, and after quelling the rebellion, Emperor Yanfeng had kept his title and even conferred him as chancellor of Li River Academy to assist Ba Shan.

There were also disciples of River Tomb Academy and Surging River Academy in the area. The grand chancellor of River Tomb Academy was Eternal Peace Imperial Preceptor while the grand chancellor of Surging River Academy was High Official Su Yunzhi, with the assistance of Yuyuan Chuyun and Yuyuan Chuyu.

Su Yunzhi had even sent Yuyuan Chuyu to find Qin Mu to borrow Surging River Dragon King Dragon Rearing Sovereign and Hundred Years Mountain God Bai Xi so they would give lectures at Surging River Academy.

Qin Mu wasn’t at Heavenly Saint Academy, so it was Hu Ling’er and Si Yunxiang who had received Yuyuan Chuyu and secured lesson fees for Dragon Rearing Sovereign and God Bai Xi. They gave permission for scholars of Surging River Academy to frequently head to Surging River and Hundred Years Mountain and offer sacrifices, which moved God Bai Xi to tears.

Everyone caught up for a moment, and Qin Mu asked Butcher, “Grandpa, what was the Emperor’s Throne technique you mentioned earlier? God techniques still have a classification of levels?”

“After I crossed the divine bridge and entered the celestial palaces, I could only stand outside Southern Heavenly Gate. However, from there, I could see all the celestial palaces and some sacred grounds that had boundless ambiance and looked extraordinarily sacred. Because of that, I guessed that there are several realms within god realm, and they should be separated into those sacred grounds. The highest and most sacred of them was the Emperor’s Throne in Celestial Palace Hall of Numinous Sky!”

Everyone crowded up, and Butcher felt pressured. "I totally don't understand the realm of god, so I ain't clear how they're separated. Mute, Mute, come over, they are all staring at me like a bunch of silly roe deers! You know the most so tell them!"

Mute placed his chest on the ground and took out a pipe to take two puffs. He said leisurely, "Ah, ah, aba..."

The numerous scholars of Imperial College obviously knew the rules and immediately looked toward Deaf. He stared at Mute, and Mute let out a puff of smoke which transformed into a gate.

"The first realm of god is Outside Southern Heavenly Gate. People who reach it are known as honored gods, and this is only the first step after crossing the divine bridge. Entering Southern Heavenly Gate is the second realm, and such people are called true gods. However, only after all aspects of the body are cultivated to god realm could one endure the pressure of Southern Heavenly Gate and walk through it."

"Mute still knows the most. What happens then?" Blind said with praises.

Mute puffed out a smoke ring which transformed into Jasper Pool. Deaf then continued, "The third realm is called Jasper Pool, also known as Heavenly Pool, Jasper Terrace. People that reach it are called heavenly gods."

Mute's smoke transformed into a stage for killing. It was a sacred ground as well, but the aura of murder was extremely heavy. The crowd shivered from just a look.

"The fourth realm is called God Execution Stage, and there's great danger to it. If one cannot cross it, they will die."

Mute's smoke transformed into the fifth picture, and it was of a cluster of palaces.

"This sacred ground is called Jade Capital, the imperial city in which Celestial Emperor resides. Jade Capital is the fifth realm."

Mute puffed out another smoke ring which transformed into Numinous Sky Hall. "This is Numinous Sky Hall which Butcher had seen. The sixth realm is most likely called Numinous Sky," Deaf explained.

While everyone looked, Mute blew a puff of smoke into Numinous Sky Hall and transformed it into the Emperor's Throne. It was the seventh realm.

Ba Shan looked at Deaf, then at Mute. Full of doubt, he asked in a low voice, "Junior brother, what did Senior Uncle Mute say exactly?"

"Exactly what Grandpa Deaf said," Qin Mu whispered back.

Ba Shan scratched his head, still full of doubt. "How does Senior Uncle Mute know so much? Even the divine arts practitioners of Supreme Emperor Heaven don't seem to know much about the later god realms. How then does he know about them in such detail?"

Qin Mu looked at him with a helpless expression. "In our village, Grandpa Mute knows the most but speaks the least. He usually doesn't like to talk. I guess the secrets he knows mostly come from Paramita Ark since he's a descendant of Heavenly Works Race..."

When the night descended, all the various divine arts practitioners went to rest. Qin Mu followed Granny Si, Blind, and the rest out of the sentry post to check on the ruins of Without Embroiling City.

The battle there had to have been very bitter. Supreme Emperor Heaven had a total of sixty-four god cities in which there had been brutal battles, but most of them remained standing. There weren't many god cities that were completely destroyed by the war, but Without Embroiling City was one of such cities.

Yet even with only ruins and dilapidated walls everywhere, one could still see how extraordinary this god city had once been.

There were many remnants of divine arts left behind from the war between gods and devils lying dormant. They were like floating bubbles of multicolored sunlight, giving off a faint glow in the darkness. The remnant divine arts were very eye-catching, like lotuses gleaming in the darkness. They were growing in the debris of the battle.

The silent lotuses bloomed and attracted people who had entered the area by mistake to gather them. If anyone touched them though, the power of the divine arts left behind by the gods and devils would activate!

If it was to burst forth, it would definitely be extremely terrifying. They could shatter the bones of strong practitioners of Celestial Being Realm or Life and Death Realm without any difficulty!

The divine arts left behind in the ruins were not only in the shapes of lotuses, but everything that could come to one's mind. Their sizes weren't uniform either. There were pieces of forest, lush grasslands, ground beasts like white foxes and flyers like vermillion birds. Some even looked like treasures of gods and devils. There were things like flying swords, pagodas, and cauldron. If anyone touched them though, they'd die a miserable death.

Qin Mu looked around. The rune markings of gods and devils formed the remnants of the divine arts, so it was difficult for them to dissipate even through the passage of time. This led to the area becoming abnormally dangerous.

Qin Mu had seen similar things in the ominous land, but he had luckily avoided all of them.

When he thought about it, God Sang Ye had to have spent quite some effort to clear out a safe zone in such a place so he could build a sentry post. It now provided a place for the divine arts practitioners of Supreme Emperor Heaven to rest their feet.

Granny Si, Blind, and the rest studied the divine arts in detail, looking pretty entranced. Blind's divine eyes could break down the marvel of all the divine arts, and he explained them to everyone.

Their path of cultivation was very different from divine arts practitioners like Qin Mu and Xu Shenghua. To Granny Si, Butcher, Deaf, and the rest, there was no need to witness divine arts in fights. They just

needed to examine their remnants, and they would see their marvel without trouble. They could then absorb the essence of the divine arts to make up for what they were lacking.

“The divine arts of these gods and devils are still rough and require improvement.” Granny Si checked the one before her carefully and shook her head. “Because the divine arts practitioners of Eternal Peace had no way to become gods for twenty thousand years, we instead used that time to improve all kinds of divine arts until they were incomparably exquisite. We created new ones all the time, so our divine arts are much more exquisite than those of Supreme Emperor Heaven.”

“Yet their cultivation methods are more powerful than ours, and their techniques can train all aspects of their corporeal body,” Blind said after another examination. “For gods and devils to execute such rough divine arts and be able to unleash such inconceivable power, their corporeal bodies, primordial spirits, and the density of their vital qi have to be much stronger than those of people from Eternal Peace. Mu’er, don’t underestimate them just because you are the overlord body.”

Qin Mu nodded solemnly and said respectfully, “Don’t worry, Grandpa Blind. I won’t underestimate anybody.”

Hu Ling’er hesitated for a moment, but didn’t make a sound.

Blind and the rest had just come to Supreme Emperor Heaven, so they still didn’t know what Qin Mu had done. After the battle in Li City, he was already the strongest divine arts practitioner of Seven Stars Realm in Supreme Emperor Heaven. He had even experienced running a hundred thousand miles while killing almost all of the devil god disciples of Seven Stars and Six Directions Realm. No random strong devil practitioner of Celestial Being Realm would dare to fight with him recklessly.

As long as one went to ask around, they would know about Qin Mu’s fame.

Suddenly, he went still as he looked at a shadow in the ruins. It moved around in the ruins as though the divine arts there had no effect on him.

“Mu’er, what are you looking at?” Deaf asked curiously.

Qin Mu’s body trembled slightly, and he suddenly left everyone to run toward the shadow. The elders of Disabled Elderly Village were shocked as there were divine arts left behind by gods everywhere. If he was to touch any one of them by accident, he wouldn’t be able to handle the consequences.

If a chain reaction was invoked and all of the divine arts in Without Embroiling City exploded, then even they might not barge in recklessly.

Blind hurriedly gave chase while shouting, “You guys stay here, I’ll find him!”

Qin Mu activated Nine Heavens Eyes Awakening Skill all the way to avoid the remnant divine arts while getting closer and closer to the shadow.

It appeared faintly discernible in the restricted area as though it was flowing sand, scattering and gathering from time to time. However, the shadow also seemed to have noticed him, for it suddenly stopped.

Qin Mu avoided the last remnant of the divine arts between them and stopped in front of the black shadow, looking at the other party with his eyes bright and face full of excitement.

The black shadow was also staring at him with curiosity.

Neither of them could see the other's appearance, only the body which was like black sand.

Qin Mu stretched out his hand, and the shadow did the same. The two palms touched, then without any resistance passed through each other.

Qin Mu's body trembled, and he froze as he looked at the figure silently.

Blind quickly came to his side and pulled him away while saying solemnly, "Mu'er, this shadow should be a remnant of a divine art by some god or devil. Why are you so careless? Why did you barge into this restricted area?"

Rustling sounds that sounded like a monster whispering in the darkness reached them, and the two of them looked at the shadow in astonishment.

It was the shadow's voice!

"Grandpa Blind, he isn't a remnant of a divine art, but a person." The astonishment hadn't dispersed from Qin Mu's face when he muttered, "Like me, he can travel in the darkness of Great Ruins. He is like me... only a devil blending with the darkness can be seen by a person in Supreme Emperor Heaven! I think I might have encountered the overlord body of the devil race! Strange, why did it appear in Great Ruins..."

Chapter 582: Maker of the Darkness

The time of Great Ruins hadn't matched that of Supreme Emperor Heaven, and because its algebra was too bad, the suns' cycles didn't even consist of twenty-four hours. Because of that, the day and night times of Supreme Emperor Heaven weren't accurate.

After Qin Mu had destroyed one of the suns, Eternal Peace Imperial Preceptor forged a sun which used the twenty-four-hour cycle of Eternal Peace Empire.

However, Imperial Preceptor had an obsessive-compulsive disorder, so he tried to perfect everything. The moment the sun lit up, it matched the sun of Eternal Peace. This meant that the moment the darkness descended on Great Ruins was also matched without a second's difference.

It was night time in Great Ruins at that moment.

There were only two ways to travel in the darkness of Great Ruins. Otherwise, the person would die miserably from either a curse or being eaten by monsters in the darkness.

The first way to not fear such fate was to have abilities akin to those of a god.

The second way was to have been born in Youdu, like Qin Mu had done.

The first method required for a strong practitioner to use their god's aura to force back the darkness. The second method, however, required to have an unusual birth, like that of Qin Mu's, so when he entered the darkness, the curse and the monsters weren't able to hurt him.

With the first method, the strong practitioners that entered the darkness of Great Ruins wouldn't be able to see Supreme Emperor Heaven, and the people in Supreme Emperor Heaven wouldn't be able to see them either.

But with the latter, they would be able to walk through Supreme Emperor Heaven and the people there would be able to see them as a shadow, something made of black sand. Qin Mu had gotten to know Sang Hua through this method.

However, even though the latter could allow one to see people of Supreme Emperor Heaven, they couldn't communicate or pass any useful information.

Still, upon seeing another person that could walk through the darkness of Great Ruins, Qin Mu couldn't help becoming shocked.

'King Yama and Earth Count said that I'm the first lifeform that was born in Youdu, so could it be that there were other people born in Youdu after me? Why didn't Earth Count mention that?'

Puzzled, he examined the shadow while being examined by the other as well. The person seemed to be thinking of something.

The two of them circled each other, trying to find some clues.

Qin Mu stopped and that shadow also stopped. It then turned its head around to say something, but the words weren't clear.

'He should have someone beside him!' Qin Mu's heart trembled slightly. 'But that person isn't walking in the darkness. He's forcing the darkness back, so I can't see them.'

The shadow suddenly turned and leaped as though he was flying before vanishing.

Qin Mu didn't give chase since the other party was in Great Ruins. If he wanted to hide, there were many ways, and he could just vanish by entering a ruin.

'Overlord body of the devil race... How did he appear in Great Ruins? Impossible. He definitely has a devil god level existence beside him, but if a devil god wanted to pass through Spirit Energy Mutual Shift Bridge, they would have definitely been discovered.'

He was confused and muttered, "Could there be other ways to enter Great Ruins?"

There were many secrets in Great Ruins; Qin Mu had once even entered High Emperor Era. He had also gone to Youdu from Ghost Valley and even visited Fengu thrice. This showed that Great Ruins indeed link to other worlds.

'God Sang Ye and the rest referred to Great Ruins as Founding Emperor Celestial Heavens, so there are still numerous secrets waiting for me to be discovered... En, I can ask Official Sovereign of Youdu!'

Qin Mu roused his spirit, and his body trembled. A Gate of Heaven Influence appeared behind him, and the door slowly opened. The devil qi of Youdu poured out, making the darkness darker.

Blind frowned slightly, but after thinking about it, he didn't stop Qin Mu. 'Mu'er is always full of ideas. Might as well not bother him and see what he plans to do.'

Qin Mu composed himself, and the drawn-out cadence of Youdu devil language came from his mouth. He only chanted it and didn't execute Soul Guide.

After a moment, a lamp shone from within Gate of Heaven Influence. When Blind looked into the gate, he saw a small boat sailing over from the darkness. The light had come from the lantern at the bow of the boat.

"Messenger of death!" Blind was astonished, and Divine Spear Long Tuo behind him gave a low dragon roar as it became incomparably nervous.

"Grandpa Blind, Senior Long Tuo, there's no need to be nervous. This is Benevolent Saintly King Equal to Heaven of Youdu, a big shot in Youdu. He is referred to as Youdu Official Sovereign," Qin Mu explained.

Blind stared with his eyes wide open and his heart trembling violently. 'Mu'er has even hooked up with Youdu? And even the official sovereign of Youdu? Just a few days of not seeing him, and this brat has become so much more capable!'

Even so, he still didn't dare to relax. Long Tuo changed into his spear form and coiled around him, ready to strike at any time.

"You again..."

A paper boat sailed out from Gate of Heaven Influence, and the lantern was taken down. The elder on the boat was expressionless as he hid behind the light which he shone on Qin Mu's face. The elder's voice was emotionless when he spoke. "Don't create trouble and use Youdu language for no reason; it's not good for you. Be careful of touching the seal or one day it will be too late for you to regret."

Qin Mu hurriedly gave an apologetic smile and said, "Official Sovereign, I have invited you this time..."

Elder Messenger of Death shook his head and said, "You didn't invite me, your words forced me to come without giving me a choice. Did you create more trouble again? What is it? Speak your mind. As long as it doesn't touch the rules of Youdu, I can help you solve whatever you want, but if it's too difficult, then farewell."

Blind's eyes lit up, and he looked at the face of the elder behind the lantern. But no matter what, he couldn't see the appearance of the official sovereign, making him astonished.

His cultivation had already improved by a lot, and he had also crossed the divine bridge to stand outside Southern Heavenly Gate. The power of his divine eyes had also naturally increased, yet he was still unable to see the face of the official sovereign. This showed that his abilities were immeasurable.

‘Mu’er is actually friends with Benevolent Saintly King Equal to Heaven!’ Blind exclaimed to himself in admiration. ‘Mu’er is indeed like me, with friends everywhere in the world. He didn’t forget my many years of teaching.’

Qin Mu voiced his two guesses. “May I ask Official Sovereign, after I was born, was there a second lifeform that was born in Youdu? And was that person also born from the womb?”

Elder Messenger of Death sneered. “After one Qin Fengqing, how would we dare to let a second Qin Fengqing be born? One such a fiendish and mischievous fellow is already tormenting us more than enough. After you were born, Earth Count examined all realms of Youdu so there would be no second one!”

Qin Mu was puzzled. “In that case, why could this shadow enter the darkness of Great Ruins like me?”

“You mentioned two guesses, but you don’t know about the third possibility,” Elder Messenger of Death said. “The darkness in Great Ruins is a curse and also a seal. It wasn’t born from nothing, but was created by someone. The maker of the darkness in Great Ruins can naturally walk through it.”

Qin Mu’s body trembled and his mind was blown!

Elder Messenger of Death was right. The maker of the darkness in Great Ruins could certainly enter the darkness without being harmed by it!

Just then, he’d had the misconception of meeting his own kind so he’d guessed it was an overlord body from Youdu and didn’t consider other options. But now that he thought about it, the shadow should have been a youth. His speed wasn’t very fast, making it obvious that his cultivation hadn’t reached the god realm yet.

If the shadow youth was related to the maker of the darkness in Great Ruins—maybe was his successor—and was proficient in the curse and seal of the darkness, he would definitely have a method to not be harmed by the darkness after entering it!

“I’ve solved your question for you.” Elder Messenger of Death boarded his paper boat and hung the lantern on the bow. He turned the boat and said coldly, “Don’t speak Youdu language for no reason! I was doing a job, collecting Huo Chaluo’s soul, when I heard your voice. My own soul was almost scared out by you! If you create any more trouble, just wait for your comeuppance after dying!” After he said that, he pushed the little boat to sail back into Gate of Heaven Influence.

Qin Mu hurriedly waved his hand and said with a smile, “Official Sovereign, after I die, I’ll bring good food and toys for you!”

“I don’t need them!” a stiff voice said from within Gate of Heaven Influence.

“Mu’er, you sure have a knack for making friends. They’re all around the world, even in Youdu,” Blind praised sincerely. “I can see this Benevolent Saintly King Equal to Heaven likes you very much.”

“This is all thanks to Grandpa Blind’s teachings. I have listened to them and upheld myself as a humble person, only then was I able to receive the favor of Official Sovereign,” Qin Mu said humbly.

“You don’t have it!” The voice of Elder Messenger of Death came from far away and sounded very faint.

Qin Mu and Blind pretended they had never heard anything and flattered each other. At this moment, they were both glowing with vigor, and Qin Mu shut the Gate of Heaven Influence before pondering. ‘Why would the disciple of the maker of darkness appear in Great Ruins? For what matter would they enter it?’

Blind put away his Divine Spear Long Tuo back and walked in the direction of Granny Si and the rest. He said calmly, “Because of Eternal Peace’s reform, all kinds of monsters are coming out. Numerous stone statues and meteorological weapons have popped up everywhere, even if they show no signs of activity for now.

“The divine weapons have been taken away by Imperial Preceptor to be sealed up, so it’s natural that there are people coming out to take a look. You don’t have to worry too much. Great Ruins are safe and won’t be in any danger. On the other hand, Eternal Peace needs to be more careful.”

Qin Mu placed this matter aside temporarily.

Beside the disciple of the maker of the darkness should have been a god. It was just that Qin Mu didn’t know if it was a god or a devil. The two were a danger, whatever the case.

However, Eternal Peace was no longer what it was in the past. It had numerous experts, and there were a few gods that stayed behind to guard it. Emperor Yanfeng was also in the capital, so there shouldn’t be too many problems.

...

“The two figures we saw were very strange.” In the darkness of Great Ruins, a youth similar in age to Qin Mu stopped and said to a towering god beside him. “That youth examined me, seemingly astonished by my appearance, but he didn’t find it weird, as though he had seen such a thing before. Sun Sovereign, that person is somewhat suspicious.”

Beside him, a god with three legs blazed with fire. The wings behind his back made him look like a moving sun. His voice rumbled when he said, “Young Master Qi is overthinking. I have come down from the sun to assist you in finding that youth called Qin Mu, but may I ask what has this person done?”

“News from Youdu say that he is a devil born in Youdu who was later exiled to Eternal Peace. The higher-ups view this as important, but they can’t send the celestial troops and generals down to the lower bound, so they sent me to seize him.

“The higher-ups don’t trust the devils, and Lu Li certainly has her own plans. She wants to seize this Qin Mu and become one of the overlords in Youdu. The other reason the higher-ups sent me is to activate the meteorological weapons and plunge Eternal Peace into disaster as soon as possible.”

The three-legged Sun Sovereign frowned. “The meteorological divine weapons were all taken by Eternal Peace Imperial Preceptor and no one knows where they were hidden.”

Young Master Qi was unconcerned and just smiled leisurely. “Isn’t this Qin Mu that’s born in Youdu the biggest meteorological divine weapon? Once we break his seal, he will destroy Eternal Peace by himself. This task couldn’t be more simple.”

Sun Sovereign’s body trembled violently, and he praised with heartfelt emotion, “Young Master Qi is wise!”

Chapter 583: The Opening of the Third Eye

Qin Mu continued to explore the ruins of Without Embroiling City with Granny Si and the rest. All of them had something in which they were proficient in so what they could see from the remnant of divine arts was different. Everyone discussed it together, and Qin Mu benefited quite a lot.

Even though he had comprehended his technique and entered the path, every aspect of his body was much inferior to those of Granny Si, Blind, and the rest.

This was mainly because his technique cultivated all aspects of his corporeal body, primordial spirit, and vital qi, so he was definitely not as fast as Blind, Mute, and the rest who specialized in a single field. He also didn’t have the time to research and study everything as in depth as they did.

However, when Blind and the rest discussed, it was beneficial to everybody since they could improve themselves by accepting criticism from outside. On top of that, they were all strong practitioners that had reached the extreme in a certain field.

From the divine arts left behind by the gods and devils of Supreme Emperor Heaven, they also saw what they were lacking and could verify with one another.

“Granny, I have already combined all of the cultivation systems of Supreme Emperor Heaven and comprehended the Overlord Body Three Elixir Technique that could train the whole body!”

Qin Mu sent out his vital qi so that it would form the inner structure of the human body. He showed the path of vital qi circulation of the divine eyes, the brain, the dantian, the four limbs, the bones, the spirit embryo, the five elements, and the six directions and the seven stars without any restraint.

Granny Si, Blind, Butcher, Mute, and the rest were instantly lured over and examined the structure of the human body in detail.

The more they looked, the more astonished they became.

There was a hidden space in Qin Mu’s divine eyes which exhibited the circulation structure of the divine eyes. There were also different structures of vital qi circulation in the brain which were used to

strengthen their power. No matter if it was hands, legs, skin, or even the five viscera and six bowels, all of them had detailed paths of vital qi circulation.

Meanwhile, in the divine treasures, the vital qi circulation followed each marvel. The combination of the spirit embryo and soul borrowed the flow of vital qi to strengthen the primordial spirit. The vital qi in Five Elements Divine Treasures was separated into five elements while the Five Elements Gods sat in their shrines in the five stars. The vital qi everywhere moved according to a different circulation path.

In Six Directions Divine Treasure, earth qi of the land was flowing at a great speed, transforming into earth magnetic force.

Seven Stars Divine Treasures controlled five element stars, sun, and moon, unifying all of their strength to support the primordial spirit.

Not only that, the fusion of Qin Mu's spirit embryo and soul was inseparably close with the corporeal body. In this way, it formed his vital qi circulation throughout the whole body. When the vital qi in the primordial spirit used the same path of circulation, he could cultivate his primordial spirit at the same time as he cultivated his corporeal body!

The path of circulation of Qin Mu's technique was a three-dimensional structure, and it was extremely exquisite. In every organ of the corporeal body, profound theories were hidden, forming the three-dimensional technique system. The cultivation method of any organ could easily be taken out and used as a technique to cultivate a certain aspect to god realm!

What was even stranger was that Qin Mu had unified these incomparably detailed techniques with the method of fusing the primordial spirit and corporeal body like he was separating the wheat from the chaff. Complicated techniques which should have been impossible to fuse together were fused into one by him.

This was Qin Mu's greatest feat!

"This Overlord Body Three Elixir Technique of Mu'er is really matchless!"

Granny Si, Cripple, and the rest exclaimed in admiration, feeling like the clouds had parted and they finally got to see the sun. In the past, they had cultivated one aspect diligently and pushed them to the god realm. They had run out of road forward, and they didn't know how they were supposed to cultivate the other parts of the body at the same time.

"Mu'er, this technique is difficult in that it's complicated during circulation. When cultivating according to normal techniques, we would need dozens of different techniques to achieve what he was able to simplify into his technique."

Butcher sighed in admiration. "The most crucial point is that he managed to fuse his primordial spirit with his corporeal body. The five element stars correspond with the five viscera and six bowels, the sun and moon correspond with his eyes, and the six directions land transformed from the spirit embryo corresponds with his dantian. In this way, he unified all the techniques."

Granny Si nodded. "This is then the most exquisite point of Overlord Body Three Elixir Technique. Without this kind of method to fuse the primordial spirit and corporeal body, he wouldn't have been able to unify the techniques. Mu'er, did you learn it from the gods and devils of Supreme Emperor Heaven?"

Qin Mu's face turned dim, and he shook his head. "I comprehended this method from First Ancestor Human Emperor."

"First Ancestor Human Emperor?" Everyone in Disabled Elderly Village was instantly full of energy, and they praised the man endlessly. "The senior indeed has remarkable abilities. This kind of cultivation method solved the huge problem that has been plaguing us for years!"

As he listened to them, Qin Mu felt even more depressed.

Butcher and Granny Si were right. The reason why his Overlord Body Three Elixir Technique could become such a success was because of the fusion of the primordial spirit and corporeal body who had become as inseparable as if they were one.

And it was something which he had learned from First Ancestor Human Emperor.

He had chosen defeating First Ancestor Human Emperor to be his goal, which was why he had entered Supreme Emperor Heaven and worked so hard. He comprehended diligently and learned the strong points of the gods and devils there.

Yet he had never expected that the thing that would allow him to have a huge breakthrough would still be something from First Ancestor Human Emperor.

He wanted to defeat him, but even if they were on the same realm, it was very very difficult.

However, he had a way!

"Granny, Grandpa Butcher, this is only half the circulation path of my Overlord Body Three Elixir Technique," Qin Mu said suddenly.

The elders were busy observing the shape of the vital qi human body in detail and learning what was useful to them. Butcher was slightly stunned when he heard Qin Mu's words and cried out, "This is only half of Overlord Body Three Elixir Technique?"

Qin Mu nodded, and the vital qi human body in front of him instantly changed. Divine treasures of the devil path appeared, and the circulation path split into two, displaying the technique of the devil path.

Everyone's heart trembled violently; they were speechless.

Divine treasures of the devil path—this wasn't something that humans could cultivate!

There were actually two kinds of divine treasures in Qin Mu's body which were unified by him. The two corresponded with each other, and the vital qi in them also circulated similarly!

Blind turned his head and looked at Qin Mu. His eyes were fast as lightning, and Qin Mu didn't hold back. He opened up his divine treasures of the devil path to let him check them out. He exhibited his Overlord Body Three Elixir Technique, but it wasn't showing off. He was truly sincere about wanting to help the people of Disabled Elderly Village to comprehend his technique and break through as soon as possible, without straying into the wrong path as much as possible.

Everyone also surrounded him and examined him in detail. They studied for a long time, but even Butcher didn't manage to gain anything.

"I can't learn it." Having suffered a setback Butcher shook his head, "I'm not the overlord body. You guys won't be able to learn it either. That old fellow Village Chief was right—Mu'er is the one and only overlord body."

Even if Qin Mu showed the methods of his techniques, they couldn't learn anything. This was because they had no divine treasures of the devil path.

Blind examined the youth for a long time before settling his gaze full of suspicion at the willow leaf-shaped mark on the heart of Qin Mu's brows. "Mu'er, even though your techniques are extremely exquisite, the technique inside your divine eyes seems to be incomplete."

Qin Mu nodded and told them about how he was cut off by the devil experts when he was comprehending his divine eyes. Blind smiled and said, "I see. However, you have one more eye, so not completing the technique of the divine eyes might have been a good thing. I can help you complete the technique of your divine eyes! Give me some time, and I promise I'll open this eye in the heart of your brows!"

He was excited and eager to get into action.

Qin Mu had always had suspicions about the eye that had suddenly appeared at the heart of his brows. "This eye might not be due to the technique. Since it had appeared so suddenly, I'm afraid there would be danger in me opening it."

Everyone went forward and looked at the eye in the heart of his brows. Apothecary checked it carefully and shook his head. "This is a devil eye that is refined from the Spirit Embryo Divine Treasure of the devil path, so it shouldn't be much of a problem. You can just open it. If Blind can't complete the divine eyes technique, I can help you force it open."

Everyone threw him to the side and continued to examine the vital qi human body, comprehending the marvel of it.

In a little while, they returned to the sentry post and went to comprehend by themselves, tidying up their own techniques. Qin Mu show of the circulation system of his technique had brought them greater benefits than what they had gained from observing the ruins of Without Embroiling City. It allowed them to see a shortcut to break through their bottleneck!

Granny Si's algebra wasn't extremely great, and her advancement was the slowest. She could only seek knowledge from Blind and the others, so everyone had gathered together to combine all their strong points and discuss various ideas with one another. Hu Ling'er had followed Deaf to learn calligraphy and

painting for a time, so she had also learned algebra from Blind, in which she was quite accomplished. Because of that, she mixed among them and learned their techniques.

Chancellor Ba Shan also joined, and everyone advanced even faster.

When the sky grew bright once more, everyone finished with many benefits.

When Qin Mu was done with breakfast, he saw that Granny Si, Blind, and the rest had discussed their ideas the whole night. They were polishing the gathered strong points of everyone which they had forged into the foundation of a technique, so he didn't disturb them and just called Hu Ling'er over to eat.

"Cult Master, I want to eat Water Element Divine Vitality Pills." The dragon qilin bit his basin and brought it over. "I want half a bucket!"

Qin Mu was beyond overjoyed and praised him, "Fatty Dragon has really grown up. Let me give you one bucket!"

The dragon qilin was also overjoyed. When Qin Mu finished refining spirit pills, he turned around to the green bull. His eyes lit up, and he asked with a smile, "Bull Three, what pills do you eat?"

The green bull also hadn't slept the whole night, having cultivated Ancestral Dragon Supreme Mystery Technique. However, he was still full of vigor. He walked over and bowed. "Little old master, I don't eat spirit pills. Cultivation that relies on spirit pills results only in excess fats."

Qin Mu smiled at him. "Spirit pills can raise your cultivation quickly, and if you cultivate diligently, you can refine the excess medicinal energy in them. Ancestral Dragon Supreme Mystery Technique consumes a lot of energy, so if you don't make it up with spirit pills, you will damage your corporeal body, and it'll wither, posing a threat to your life. You have the bloodline of the green dragon which has the wind and lightning attributes, en... I'll prescribe you Wind Lightning Sun God Pills! Wait a moment!"

The green bull was delighted and hurriedly said, "Little cow is moved to tears. If little old master can add some fragrance of flowers, that would be even better."

Qin Mu nodded and matched herbs to create Wind Lightning Sun God Pills. He then asked for some flowers and grass from the green bull and refined the pills. An unusual fragrance assaulted his nostrils.

The green bull tasted pill and was overjoyed. He praised Qin Mu endlessly, then immediately went to cultivate.

The dragon qilin felt his blood run cold and hurriedly finished all of the Water Element Divine Vitality Pills before going away to cultivate. But as he did so, he suddenly came to a realization. 'That's not right! Cult Master seems to have grabbed hold of my weakness. He first imparted Ancestral Dragon Supreme Mystery Technique to the green bull and now even refined pills for him. This is forcing me to work hard! Could it be... my Human Rearing Scriptures!'

He took out Human Rearing Scriptures in a hurry and let out a sigh of relief. 'I am too paranoid.'

Qin Mu and Hu Ling'er sat down to eat breakfast, and he took out a small booklet through which he flipped leisurely. Hu Ling'er hurriedly said, "Young master, after you finish reading it once, you must burn it. You can't let him know that I had copied it."

Qin Mu nodded and continued to flip through the pages with a sneer. "This Fatty Dragon, to play me like this me. Luckily I've discovered it early, or I would have become his medicine boy! Ling'er, don't worry, I won't betray you."

Suddenly, Blind's voice rang out full of delight. "Mu'er, I have patched all the incomplete parts of your divine eyes! Come and try to cultivate them!"

Qin Mu put down his bowl and chopsticks. He hurriedly went over, and Blind used his vital qi to exhibit the circulation path of his technique. He said with a smile, "The few of us did some research and we feel that this is the way to awaken your third eye. Look at it first and see if there's anything missing."

Qin Mu checked it carefully. The path of the divine eyes that Blind and the rest had completed made up for what his divine eyes were lacking. On top of that, they had even added a vital qi circulation technique for the third eye.

He calculated carefully and shook his head. "Grandpa Blind, I can't see anything missing."

He recorded the vital qi circulation path and instantly executed Overlord Body Three Elixir Technique according to it.

Everyone looked nervously at the heart of his brows, waiting for this eye to open.

Qin Mu executed Overlord Body Three Elixir Technique, and dragon roars reverberated from his vital qi coming to the heart of his brows. Suddenly, from the willow leaf-shaped mark, a drop of black blood flowed out.

Then, the eyelids retracted to both sides, opening the eye.

Chapter 584: The Doomsday of Without Embroiding City

At the heart of Qin Mu's brows, the willow leaf-shaped eye gradually opened. From the gap, dazzling light in the shape of butterfly wings leaked out.

"How pretty!" Granny Si couldn't resist crying out in admiration. Yet even though the butterfly wing-shaped markings were gorgeous, there seemed to be something extremely terrifying hidden within them.

Butcher, Blind, and the rest came forward to check it in detail. Qin Mu was executing his technique, and the vertical eye gradually opened wider and wider. It looked like Qin Mu's head was becoming a huge butterfly!

Of course, this butterfly had grown in front of his forehead.

Suddenly, Butcher and the rest felt terrifying pulses as though there was some terrifying monster waking up in the abyss, gradually opening its blood-red eye!

“What is that?”

Butcher, Blind, and Mute were the first to come back to their senses after releasing waves of divine might!

They had sensed a threat, and their bodies had reacted on instinct. Butcher’s speed was the fastest, and with a clear cry, his divine knife soared up and made a circle before hanging still in the air.

Mute was next, and a beam of flames rushed into the sky from the forging furnace behind him. The flaming pillar swirled furiously and scorched the air scarlet red.

Blind’s speed was slightly slower. Divine Spear Long Tuo rattled as it shook and transformed into a black dragon coiling around his body, waiting to strike while accumulating power.

Next was Granny Si who had also involuntarily released her aura. Countless stars had appeared behind her, forming Great Overarching Heavenly Stars Forcefield to fight against the terrifying pulses!

Boom!

Cripple turned and ran, creating a hundred miles distance between them. Only then did he realize something. ‘It seems to be coming from Mu’er’s body and not from some terrifying monster...’

Zhnng!

Ba Shan drew his knife and looked around in alarm while shouting, “Where’s the monster?”

He was also a great master. Even though his knife skills weren’t comparable to those of strong practitioners like Butcher, he had still created a faction of battle spells and was also extremely sensitive to the danger.

Deaf and Apothecary had blank expressions. It was especially so for Apothecary who had completely no idea what had just happened.

Deaf’s cultivation had not yet reached the god realm. He had only cultivated to the middle of Divine Bridge Realm so he hadn’t even started on the patching process. His problem was that he was intoxicated with the path of painting and paid no attention to the affairs of the world, so his reaction was somewhat slow.

Apothecary had finally broken through his Life and Death Wall two years ago, but he was still on it. He didn’t view his cultivation highly, so it rose very slowly.

Only after Qin Mu had spread out Secrets of Magpie Bridge, Secrets of Mysterious Guide, and Secrets of Divine Crossing that he began focusing on cultivation. However, he still had many women around him who delayed the advance in his cultivation.

The two of them were the slowest, but they also soon realized that something was wrong. The pulses that had suddenly went past them seemed to come from an incomparably terrifying monster that was gradually waking up. Yet the source of them was the third eye that Qin Mu was currently opening!

Everyone looked toward the heart of his brows. Light was still bursting forth from it, becoming more and more gorgeous. Within it, a black figure could be seen.

It was very tiny as though it was a baby. However, it was stepping on light and slowly walking out of the depths of Qin Mu's third eye. As he walked, it was also continuously growing and becoming bigger. Soon, it filled up Qin Mu's whole third eye!

"Mu'er, stop executing Overlord Body Three Elixir Technique!" Butcher shouted loudly as though he was facing a great enemy. "There's something weird in your eye! Stop quickly!"

Yet it was already too late. The black figure had already filled up Qin Mu's vertical eye and was about to walk out.

"I feel like I'm filled with power..." Delirious ravings came from Qin Mu's mouth. "Power to destroy everything!"

When he said that, the elders of Disabled Elderly Village felt their blood run cold. They could hear two voices speaking at the same time!

They had overlapped while coming out from Qin Mu's mouth.

Kacha!

The sky vibrated violently as the light coming out from the third eye distorted space. Terrifying power leaked out and caused the space to be unstable. Cracks began to appear continuously among the rumblings of thunder!

Because of the devils' actions, the space of Supreme Emperor Heaven was not too stable to begin with, and it could easily be torn open. However, it wasn't something that ordinary divine art practitioners could do; one needed to at least have the power of a god.

Yet the power from Qin Mu's eye was actually causing the space in the surroundings to crumble continuously. The densely-packed cracks stretched without end!

There dozens of divine arts practitioners within the sentry post of Supreme Emperor Heaven. When they saw cracks spreading out, they fled in a hurry. The dragon qilin who was training diligently hurriedly raised his head and also jumped away when he saw a crack rushing toward him.

The crack tore apart the land on which he'd been standing moments earlier, and instantly, a long ditch that stretched for over ten miles appeared. It was still growing deeper and deeper!

The dragon qilin shuddered, and Hu Ling'er leaped onto his head. She shouted, "Fatty Dragon, run! Young master is revealing his true form!"

The dragon qilin scrambled away in a hurry, leaving world-shaking explosions behind himself. Hu Ling'er turned back to take a look and saw the green bull also escaping for his life. Behind him was the sentry post which was three hundred yards tall and covered a hectare.

The explosions were from the sentry tower.

It was distorted by the cracks in space and split into countless pieces. Each chunk of rubble was floating in a different piece of shattered space!

Soon, more explosions rang in the air as the divine arts left behind by the gods and devils in the ruins of Without Embroiling City were touched. It resulted in a chain reaction as they burst forth one after another. Fireworks bloomed in the shattered space and looked abnormally beautiful. The sight was indescribably pretty.

Hu Ling'er didn't have the time to admire it. Her gaze was fixated on the butterfly wing-shaped light. It left her slightly disappointed. "Young master isn't a fox spirit, but a butterfly spirit..."

Qin Mu stood on the ground that was crumbling around him non-stop, making him sink down. The same thing was happening under Butcher, Blind, and the rest until fire-red magma was beneath them!

The ruins of Without Embroiling City sank underground. Huge rocks and dilapidated walls fell into bubbling magma that burst in flames.

Everyone tried their best to stabilize themselves. Butcher, Mute, Blind, Granny Si, and Ba Shan worked together to fight against the torn space, protecting Apothecary and Deaf while Cripple just kept shuttling to and fro among the shattered space, trying to get close.

Everyone was astonished by the events.

Blind stretched his hand out to grab Divine Spear Long Tuo. The spear moved along with his body, and in an instant, he struck out with countless spear images, blocking the dangerous power in the space surrounding them. He shouted, "Butcher, help me reach him so I can seal the eye!"

Butcher grabbed his Heaven Knife and rushed to his side. "Granny, Mute, you guys protect the others!"

The two of them allied together and closed in on Qin Mu step by step. However, with the space being split apart continuously, crossing the distance between them and Qin Mu wasn't an easy task.

The two of them tried their best to rush forward, past the strange power breaking the space around them. Butcher suddenly looked down and saw the entire Without Embroiling City sinking into the magma. There was only a sea of fire below them.

Incomparably strange devil qi suddenly poured out from it. The devil qi was different from the one in the devil territory of Supreme Emperor Heaven. That one was only a kind of spirit qi that was contaminated by devil nature while the devil qi from the sea of fire was more primordial, ancient.

It was Youdu devil qi!

It was obvious that the monster in Qin Mu's body had awakened and torn the barrier between the world of the living and the world of the dead, connecting reality to Youdu!

The two elders slowly closed in on Qin Mu until they were only three to six yards away. However, this distance seemed incomparably far, and the two of them pushed through only with extreme difficulty. Butcher's knife and Blind's spear were both fixed in the air by a strong power which they couldn't fight!

Their corporeal bodies creaked from the power pressing on them from all directions. Blind's body became even smaller, and Butcher also became much shorter.

The two of them nearly became round as balls. Butcher roused all his strength to pave the way for Blind, and blood leaked out from the corner of his mouth. Blind used that moment to stab with Divine Spear Long Tuo toward the third eye of Qin Mu with trembling hands.

He was a formation expert and his art of sealing was extremely high. However, his spear could not touch the heart of Qin Mu's brows.

"Mu'er, wake up!"

Blind gritted his teeth and pushed Divine Spear Long Tuo forward with difficulty. The skin on both of his hands had started to rip, and droplets of blood seeped out from the ripped skin that was being vaporized.

"Butcher, I can't hold on any longer..." A mouthful of blood poured out from Blind's throat as he spoke with difficulty.

The dragon head of Divine Spear Long Tuo also let out a cry. "My lord, I also can't hold on much longer..."

The tip of the spear had already started to break down, and Blind's hands were shaking bad. The flesh and blood on his arms were also falling apart.

Right then, Qin Mu raised his palm and grabbed the jade pendant on his chest, tugging it off.

"Don't throw..." Blind said in a soft voice with difficulty.

Qin Mu's expression was indifferent. He opened his fingers and let the jade pendant fall into the sea of fire below.

Despair filled everyone's hearts. Cripple traveled rapidly through space to grab the jade pendant, but it was already too late.

At that moment, magma suddenly churned as two sharp horns with nine bends rose from it to reveal a majestic god with the head of a bull and the eyes of a tiger.

Cripple hurriedly avoided him while crying out, "Earth Count!"

"Earth Count, you are ruining my plans again!" Qin Mu said with anger.

Earth Count grabbed the jade pendant and sent it up with a pointed finger. The jade pendant touched the heart of Qin Mu's brows and sealed the devil eye.

The pendant vanished then, having entered Qin Mu's third eye.

The abnormalities in the surroundings suddenly stopped, and the torn space returned back to normal. The magma Earth Count's body crumbled, falling back into the boiling magma.

Qin Mu also fell, and Blind hurriedly threw Divine Spear Long Tuo. It swam while changing into the skeletal frame of a black dragon to catch the youth. It then soared into the sky and landed outside the ruins of Without Embroiling City.

Blind spat out a mouth of blood while Butcher, Granny Si, and the rest took in a deep breath before coming out from the ruins and landing on the ground.

Qin Mu had fainted with his third eye shut. Cripple ran over in a hurry and looked at the fainted youth with lingering fear.

"The thing in his eye, it's still there? Why don't we open his eyelid to check..."

Everyone glowered at Cripple, and he hurriedly shut up.

Granny Si muttered to herself for a moment before saying, "Even though that weird thing in the eye was sealed by Earth Count, we still have to make sure..."

She stretched out her trembling hand to open up the eyelid of the third eye. Yet before she could reach it, it opened up by itself.

Astonished, Granny Si fell back, while Qin Mu sat up. He looked at her with bewilderment. "Granny Si, why are you guys all crowding around me?"

Chapter 585: Enemy

Butcher, Blind, and Mute crowded up to look at his eyes with bright and emotion-filled gazes. They observed his third eye without blinking.

Suddenly, they heard a loud boom and saw Cripple having run a hundred miles away. When he turned back and saw Butcher and the rest still surrounding Qin Mu, even he who usually had an astonishingly thick skin couldn't help blushing in shame and running back.

Everyone knew he was timid yet they didn't make fun of him. Instead, they were all focused on examining Qin Mu's eyes.

His eyeball rolled around, and he muttered, "Granny, grandpas, what are you guys looking at?"

Granny Si looked at his vertical eye with extreme attention, but she didn't discover any abnormalities within it. She could only see that the pupil had a butterfly pattern. The vein lines were also different, their structure like that of butterfly wings. Furthermore, they were moving and changing continuously.

"Mu'er, do you really not remember what happened just now?" Granny Si asked.

Qin Mu pondered over it with some bitterness, then his eyes suddenly lit up. "I remember!"

Everyone couldn't help becoming nervous when the youth began speaking again with a smile. "I executed Overlord Body Three Elixir Technique. When I circulated to the third eye according to the divine eye technique that Grandpa Blind had completed, I felt a wave of boundless power flooding through me as though I was omnipotent. Then..."

He scrunched his brows and sank back into deep thoughts. There was blankness in place of what had happened after. It was as though he had lost a part of his memories.

This wasn't the first time it had happened. In Fengdu, when King Yama had unsealed his jade pendant, it had happened once. Afterward, when Fu Riluo had unsealed his jade pendant, it had happened again.

This time was unrelated to the jade pendant, yet he had lost some memory as well.

"Jade pendant... Where's my jade pendant?"

Qin Mu suddenly felt his scalp crawl, and he hurriedly stood up. He searched his body, his limbs going cold. In a trembling voice, he said, "My family heirloom is gone... Bah, it's not a family heirloom. The jade pendant crafted by Earth Count to suppress my devil nature is gone! Granny, Grandpa Blind, have you guys seen my jade pendant... Grandpa Cripple, you must be the one who took it! Stop playing or a curse will come! Return it to me quickly!"

Cripple shook his head. "I didn't steal your jade pendant, but the curse has indeed come."

Qin Mu trembled violently, and he froze in a daze. Only now did he notice a huge pit in front of him.

Where Without Embroiling City had once stood, there was an incomparably huge abyss. Boiling magma covered the ground there.

The sea of fire was terrifyingly vast.

"The power of this curse had to have been terrifying. It's a hundred times worse when I had fallen into Fu Riluo's grasp..." Qin Mu muttered.

"Mu'er, Earth Count had shown up and placed your jade pendant in your third eye," Granny Si said while walking over. "You should get your bearings first. Let us go over there to discuss some matters."

Qin Mu nodded with a blank expression.

Granny Si took a glance at Blind who was instantly alerted. He was about to flee, but Butcher and Mute squeezed him between themselves. One grabbed his left arm and the other his right.

“What are you guys doing?” Blind was brought away by them without his feet even touching the ground. He cried out, “We are all from the same village, so what do you guys want to do? Leave some face for me! Mu’er, Mu’er...”

Butcher and Mute brought him away with faces full of smiles. Qin Mu turned around and wanted to ask what was happening, but Granny Si smiled gently at him. “Mu’er, we’re going to discuss some things. You don’t have to follow, just rest up for now. Cripple, Deaf, let’s go. Ba Shan, follow us as well.”

Everyone left.

“Don’t go overboard, no need to be rough. We meet regularly, and you all took part in creating the technique for the divine eyes. When I taught it to Qin Mu, you guys were all on the side, nodding in approval... You guys really beat me... Cripple, you dare to beat me? Ba Shan, I’m your senior uncle, our relationship is the best... You guys are biased! Qin Mu caused the trouble, so why don’t you guys beat him? Mu’er, Mu’er, save me!”

Feeling suspicious, Qin Mu took out a mirror to examine the eye in the heart of his brows. It looked normal; he couldn’t see anything special about it.

‘What exactly is the use of this eye?’ he wondered.

After a moment, everyone returned to the side of the abyss satisfied. Blind’s face was bruised and his clothes were disheveled.

Qin Mu turned his head back and said in astonishment and delight. “Granny Si, I executed Overlord Body Three Elixir Technique just now and finally discover the secret of this third eye!”

The hair on Granny Si and the rest’s bodies stood up on ends. They were about to escape, but when Qin Mu executed Overlord Body Three Elixir Technique and nothing terrifying happened, they let out sighs of relief, secretly ashamed.

Qin Mu was full of excitement as he showed them what he’d noticed. “When I execute this vertical eye I can see the boundless Youdu, what is below everyone’s Life and Death Realm. I think I can use this eye to tear the Youdu of the Life and Death Realm to snatch my opponents’ life away!”

Butcher gave a cough and said, “Mu’er, killing people with a stare isn’t too good, is it? It’s damaging to the natural order of things and is harmful to the secret virtue. It’s still better to slay them with a knife. This eye of yours, it’s best not to use it.”

Granny Si, Blind, and the rest nodded repeatedly. Cripple then said, “If you could stab them in the back, it would be even better than staring them to death with your third eye.”

Qin Mu was puzzled. “Isn’t it the same?”

“Of course it isn’t the same. If you use this eye, I’m afraid—” Ba Shan said in his loud voice.

Butcher placed his knife on Chancellor Ba Shan's neck with a solemn face, and he immediately shut his mouth.

Qin Mu looked at them suspiciously.

...

"Fu Riluo, do you feel it?" Lu Li sensed the terrifying energy coming from Qin Mu's third eye which caused the space to distort. She then said in a low voice, "This is the power of the son of Youdu! I can assist you in coming to rule Supreme Emperor Heaven, but you need to assist me in getting him! If I get my hands on him, what kind of power will I have?"

Fu Riluo looked in the direction of Without Embroiling City with a grave expression. He could also feel the terrifying pulses that burst forth from Qin Mu when he lost control. "Huo Chaluo is dead. Could it be related to him? Tian Fenggou, don't disappoint me..."

Away from them, devil gods from Youdu were leading a Youdu monster army toward Li City. When Qin Mu lost control, the bodies of the devil ancestors had frozen. They looked in the direction from which Qin Mu's aura was coming in fear.

The monster army of Youdu also started rioting. They were extremely terrified and didn't dare to move forward. Instead, they all turned to flood back, trampling each other.

In an instant, the Youdu monsters were everywhere, and some monsters disliked their comrades for running slow. They laid their weapons on them, and the devil army erupted with chaos!

On top of that, the devil ancestors turned back to flee, running away in all directions. They wished for nothing more than to return to the depths of the darkness in Youdu.

They held deep fear for Qin Mu who'd lost control. Even though they were muddle-headed and didn't have much intelligence, they could never forget the large baby that had massacred and eaten their comrades!

Suddenly, Lu Li screamed loudly, and ineffably strange Youdu language came from her mouth. The devil ancestors calmed down and stopped running away. They restrained the Youdu monsters and killed all the deserters.

Not much later, the magma clone of Earth Count appeared and sealed Qin Mu. Once the terrifying aura vanished, the Youdu monsters stopped fleeing in all directions. They reorganized the army and continued to head east.

...

In the world of the devils, Saint Woodcutter and twenty-five gods from Great Ruins raised their heads to look at the sky. They could sense the abnormal movements coming from Supreme Emperor Heaven even in Luofu Heaven where they were staying right then.

“It’s the devil nature suppressed by the jade pendant that has erupted.” Saint Woodcutter let out a shaky breath and said in a low voice, “Luckily I didn’t undo the seal on the jade pendant directly. I heard he was born in Youdu and knew something was wrong...”

“Who is the one that Heavenly Teacher is talking about?” one god asked..

Saint Woodcutter felt a slight headache. “My little disciple... Let’s not talk about him and continue.”

The twenty-five gods became busy again, forging huge, pyramid-shaped sacrificial altars in Luofu Heaven.

...

In Li City, Brilliance Injured City, and the rest of the places, Eternal Peace Imperial Preceptor, True God Pang Yu, and the rest of the gods could also sense the terrifying pulses. They flew into the air and looked in the direction from which they came in astonishment.

“Looks like the direction of Without Embroiling City! It’s at the sentry post!” God Sang Ye cried out. “Crap! Cult Master Qin and those strange Dao friends are still there!”

At the same time, light flashed in Spirit Energy Mutual Shift Bridge. A youth and a three-legged god with wings walked out, and they immediately sensed the out-of-control, violent aura. Astonishment appeared on their faces.

“Why did that Qin Mu lose control now? If he starts to massacre the people here, it won’t be easy to lure him into Eternal Peace...” Young Master Qin’s gaze flickered, but soon Qin Mu’s violent aura vanished, and he let out a sigh of relief. He smiled and said, “That’s right, good boy.”

Suddenly, Sun Sovereign cried out, “Young master, I can sense my hand!”

He raised his right arm which was missing a hand!

“That Heaven Knife that chopped off my right hand is in Supreme Emperor Heaven! He is actually not dead yet!” Sun Sovereign’s expression changed slightly, and he sneered, “I cut him in two, and he still survived!”

...

Beside the abyss of Without Embroiling City, Butcher’s heart stirred slightly, and he clutched his taotie sack. It was slightly smaller than Qin Mu’s and not as exquisite, but it could store a lot of items inside.

In his taotie sack, a hand bone was bouncing up and down continuously as though it wanted to fly out and return to its owner.

On Butcher’s back, Heaven Knife vibrated and let out a cry.

“I’m leaving,” Butcher said loudly while tightening his clothes. “One of my old friends has arrived. It’s time for me to settle this grudge once and for all. Ba Shan, don’t follow me. Stay right here.”

Chancellor Ba Shan's tiger eyes lighted up and he sneered. "Teacher, you're still thinking of leaving me behind? It's that god that cut you at the waist, right? Back then, you fell in shame and crawled away with your upper body into Great Ruins. You made me look for you for so long while crying your name! If you want to meet him alone, bring me so I can at least pick your corpse for you! Even if you get cut up again, I want to see you take your last breath before giving up."

Butcher's hand trembled, and he resisted the urge to chop his own disciple into half.

"Grandpa Butcher, your body is fine while your old friend is missing a hand, right? So you aren't the one at a disadvantage, he is. Even if you don't go look for him, he himself will come to find you. Why then waste the energy looking for him instead of just staying here and waiting for him to come?" Qin Mu suggested in a hurry.
