

## Tales of Herding Gods Chapter 641-645

### Chapter 641: Power of the Divine Ring

Qin Mu could execute Heaven and Earth Mudra not because of the overlord body, but because of one sentence that First Ancestor had said, and that sentence was 'You and I are the same, orphans of Qin family.' Hearing these words made him feel the same and his frame of mind resonated with First Ancestor.

He could experience the destruction of Founding Emperor Era, and as the only orphan of Qin family in this world, he could feel the helplessness as he carried up this heaven and earth by himself.

This kind of feeling was how First Ancestor felt, and that was also how he felt.

Not only that, First Ancestor wanted to carry Founding Emperor Era and not let the era be wiped out. What Qin Mu wanted to carry was the world today, the era of Eternal Peace.

Eternal Peace may look safe now, and the people might be living happily, but Qin Mu knew very well that danger was creeping in step by step—the devil race of Supreme Emperor Heaven, the stone statues in the territory of Eternal Peace, the fake sky, and High Heavens that was above West Earth...

Even the remaining survivors of Crimson Light were also a threat!

Eternal Peace Era just had to expose the slightest clue, and they could be wiped out at any moment!

Eternal Peace—this new era that was just born—was already shaking in the wind and rain. Everything could flip around and be destroyed.

It was this kind of mental state that had allowed him to unleash the power of First Ancestor's Heaven and Earth Mudra.

Under the power of the mudra skill, Qin Mu was not only a stabilizing force, but he was also more of a stable pillar that could hold up heaven and earth. What he wanted to do was to put an end to that invisible disaster, not allowing history to repeat itself!

Even though he had this dim and depressed mental state, he didn't have the dispirited emotion that was on First Ancestor Human Emperor. They were both Heaven and Earth Mudra, but in his mudra, there was a spirit that was rousing vigorously and becoming stronger in the face of disaster!

This was what was different from First Ancestor Human Emperor!

This was also the reason why First Ancestor Human Emperor couldn't help becoming stunned when turned around and saw Qin Mu's mudra.

Qin Mu executed one move after another move of his Heaven and Earth Mudra. First Ancestor Human Emperor's mudra skill was different from all of the other mudra that Qin Mu had seen. His mudra skill

needed two hands to make a mudra, and any move required the use of both hands—one mudra as the heaven, while the other one as the earth.

The Heaven Mudra had the palm markings of clouds in the sky, and its fingerprints were the sun and moon, or the five-element star.

On the other hand, the Earth Mudra had the palm markings of rivers and mountains, and its fingerprints were the lakes and the seas.

When the Heaven Mudra vibrated, the clouds transformed. The five-element star, sun, and moon operated, and the five fingers burst forth with the power of the five elements or the sun and moon.

As for the Earth Mudra, the rivers surged forth while the mountains rose. Every fingerprint was like an ocean that had boundless power.

Finally, when the heaven fell and the earth rended, the power was even more terrifying. Earthquake, flood, hurricane, and volcano eruption were hidden in the Earth Mudra, while stars were moving to strike the ground in the Heaven Mudra.

As a result, the mudra skills transformed into mudras of destruction and their power was raised several times. However, that was the divine arts of Three Forms of Overturning Heaven. It couldn't be used easily.

After some time, Qin Mu withdrew his power, and the apparitions of the heaven falling and earth rending around him vanished.

"You have learned it, and you have already used it well."

First Ancestor Human Emperor revealed a gratified smile and said, "Use what you have learned. I anticipate my mudra to be brought to greater heights by you."

Qin Mu even had a temperament that was depressed, yet pushing forward to improve. He was affected by Heaven and Earth Mudra and couldn't instantly break out of that temperament. He needed some time to get rid of the effect of Heaven and Earth Mudra.

"Ee, this mudra skill is a bit weird!"

Qin Mu looked around and saw that the imperial garden was still complete—not a single petal or leaf was missing. The power of the Heaven and Earth Mudra that he had just executed earlier was clearly massive. Even the sky and the ground could have been shattered!

He initially thought that Emperor Yanfeng's imperial garden would be torn apart by his Heaven and Earth Mudra. However, he didn't expect the imperial garden to be completely untouched. Could it be that the terrifying power he had felt was only a kind of hallucination?

"The spirit of Heaven and Earth Mudra is to support heaven and earth so that they wouldn't fall. It is to support the lives of the people, so why would it destroy heaven and earth?"

First Ancestor Human Emperor said, "The power of this mudra will only land on the enemy's body. It will not destroy the surroundings."

Qin Mu felt slight pity towards him, and he said, "First Ancestor, your mudra skills aren't fierce enough. I can feel immense power when practicing, but it can't even damage the emperor's vegetable garden."

First Ancestor Human Emperor was speechless from anger and pointed at him, at a loss for words. After a long time, he finally said, "I fought up eight hundred floors in Crimson Light Heaven Suppressing Floor in one go. Haven't you seen the power of my mudra?"

Qin Mu shook his head honestly, and he said with a guilty conscience, "I was focused on studying the runes on the Divine Ring of Creation and never watched your fight. On the other hand, Pangong Tso kept staring at the battle, and he said it was nothing for you to defeat Chi Xi. Your realm is much higher than him, and it was only natural for you to defeat him..."

First Ancestor Human Emperor was dispirited as he hung his head down. "What I fought wasn't him, it was Crimson Light Heaven Suppressing Floor. If I wanted to fight him, he would have died in the first move. Why do I feel like I have fought eight hundred floors for nothing..."

Qin Mu hurriedly said, "First Ancestor, there's no need to be disappointed. Even though this mudra skill of yours is inferior to my sword skill, it can still be very powerful if I change it up. I guarantee that I will be able to destroy the emperor's vegetable garden. After I make some improvements to it later, it will definitely be awe-inspiring and overbearing!"

First Ancestor walked out feebly, waving his hands at him. "Do whatever you want to it, I—"

What he was about to say was overcome with a huge sigh. He felt truly helpless. After walking far away, he still wasn't at ease thinking that Qin Mu would change his mudra skill messily. When he saw Qin Mu still continuing to study the runes of creation, he let out a sigh of relief. However, he was still slightly disappointed.

"He didn't continue to cultivate my mudra skill. Is my mudra skill that insignificant?"

After a few days, the imperial court negotiated with Chi Xi, and they signed an oath of alliance. Chi Xi had turned down some of the items Qin Mu had listed, but he had agreed on most of them. However, he requested Emperor Yanfeng to establish academies and schools in the territory for the remaining survivors of Crimson Light. These academies and schools would be teaching Eternal Peace's paths, skills, and divine arts to the remaining survivors of Crimson Light.

Emperor Yanfeng agreed. He drew out a huge piece of territory in the southern border that was near to Great Ruins, allowing the remaining survivors of Crimson Light to settle down there.

Chi Xi had also agreed to give the divine ring that Qin Mu had instructed to take at all cost.

Qin Mu was overjoyed. He immediately headed to South Sea with Chi Xi to take the Divine Ring of Creation back to the capital city, afraid that he might go back on his word.

Pangong Tso felt pain in his heart when he saw Chi Xi agreeing to more than half of Qin Mu's terms and giving so many treasures of the underwater god city to Eternal Peace Empire. "Teacher, this is an alliance, not a submission. Teacher has given Emperor Yanfeng too much! There are tens of thousands of divine weapons! Not to mention that Divine Ring of Creation, it's even a treasure among treasures! How could you just give it away to Eternal Peace?"

Chi Xi sneered and said, "This Cult Master Qin is just a country bumpkin that has never seen the world before. The emperor has also never seen the world before! The same goes for you."

Pangong Tso was puzzled. "May Teacher enlighten me."

"These divine weapons are all forged by Crimson Light Era. How rich was our celestial heavens back then? Merely several hundred thousand divine weapons are nothing to us. They are just reserve weapons in one of the treasuries in the celestial palaces."

Chi Xi continued indifferently, "As for the Divine Ring of Creation, this divine ring had indeed taken quite a lot of effort by my Crimson Light God Dynasty to forge. It's probably impossible to forge another one without the blueprints, and skilled craftsmen are rare here. This divine ring is merely a key to unseal my people! Now that my people have already been unsealed, there's no use leaving this divine ring behind. On the other hand, we got a huge territory! It's important that Crimson Light God Dynasty have a place to stand in our ancestral land. We can then slowly absorb and expand our territory! After learning their paths, skills, and divine arts, how can Eternal Peace defend against the gods of my Crimson Light God Dynasty?"

Pangong Tso's eyes lighted up, and he rubbed his palms while praising him.

Chi Xi said with a smile, "When standing at a different height, what you see will be different. Disciple, the previous height you were standing on is merely equivalent to the top of a chicken coop. You might think that the earthworms in the ground are good, but to the eagles in the sky, the earthworms are just scraps for the chickens."

Pangong Tso bowed down, and he said sincerely, "Teacher's teaching is right. What a joke that Qin Mu thought he has gotten his way!"

Chi Xi smiled. "That's because his horizons aren't high so he can't see far. However, Emperor Yanfeng is the great ruler of Eternal Peace Era, and never did I expect him to be also short-sighted. I hold him in contempt. This kind of emperor isn't worthy of ruling this land. Follow me to meet Emperor Yanfeng. I need to find him for some matters."

The master and disciple went into the palace to seek an audience, and Yan Zhigui came out in a hurry to welcome them. "His Majesty is in the imperial garden, observing Lord Qin who is testing the treasure. Please follow me."

Chi Xi followed him to the imperial garden. From a distance, he could see the huge Divine Ring of Creation hoisted on a fake mountain. Around them were tall walls that blocked and prevented outsiders from entering.

When they arrived, there were three to five gods who seemed to be civil officials. They were standing around the Divine Ring of Creation with Emperor Yanfeng. First Ancestor was among them as well.

On the side, the empress brought Ling Yuxiu, and other princes and princesses. She had over a dozen palace maids serving her.

In the center of the divine ring, Qin Mu took out a huge pile of calculation spirit weapons to form a huge calculation tool. He was constantly calculating something, and no one knew what he was tinkering with.

“Your Majesty.”

Chi Xi went forward and greeted him. “Since we have already formed an alliance, I will have to leave Eternal Peace to meet the Son of God. Even though I have already signed an oath of alliance with Your Majesty, I will still need to inform the Son of God. Could Your Majesty send envoys to head towards Crimson Light Floating World to meet the Son of God?”

“Yes, sending envoys is necessary.”

Emperor Yanfeng said with a smile, “After Minister Qin finishes testing the Divine Ring of Creation, I will send out a few envoys to follow Dao Friend Chi Xi towards the floating world. Dao Friend Chi Xi, please wait a moment.”

Chi Xi understood, and he stood at the side with a smile as he looked quietly at Qin Mu calculating in the ring.

Pangong Tso smiled as well. He was very pleased as he thought to himself, ‘I’ve heard Emperor Yanfeng is a muddle-headed and tyrannical fellow, wanting to chop off people’s heads at the drop of a hat. If Emperor Yanfeng discovered that the divine ring that he had spent a huge price on is useless, he would definitely chop off the head of this guy!’

In the Divine Ring of Creation, Qin Mu calculated for some time, and he finally kept his spirit weapons of calculation with a smile. “I’m a hundred percent confident now!”

Chi Xi said with a smile, “Little Friend Qin, if you want to execute the divine ring of our Crimson Light Era, you can ask me, and I’ll teach you.”

Qin Mu shook his head as he tried to light up the activation rune on the divine ring. “You don’t know. There’s no use asking you.”

Chi Xi wasn’t angry at all. He remained smiling as he said, “The activation rune isn’t that, Little Friend Qin. You have miscalculated.”

“It’s right!”

Qin Mu floated in the ring, and the runes on the Divine Ring of Creation lighted up one after another. The runes transformed continuously like flowing water while the huge rings overlapped the small rings. The divine rings spun, and they seemed different from what Chi Xi had executed before—these divine rings were actually rotating in the reverse direction!

Wrrng wrng wrng!

The speed of the Divine Ring of Creation spun faster and faster. Runes shone out in all directions and quickly landed on every single person in this vast courtyard.

Suddenly, snapping sounds rang out, and Chi Xi hurriedly looked over. He saw the bodies of Emperor Yanfeng and the rest changing rapidly. Emperor Yanfeng, who was formidable and extraordinary, had now grown a fish head!

As for the gods beside Emperor Yanfeng, some had their heads turned into a treetop, while some had their heads turned into a jellyfish. Even the empress was turned into a huge sea beast!

Chi Xi was startled, and he quickly looked at Pangong Tso. Pangong Tso was already sprawled on the ground, and he had already turned into a huge sea snake that was currently squirming!

Chi Xi hurriedly touched his head, and he cried out in surprise. His heads had also become three fish heads!

Not only that, his primordial spirit was changing as well. All the magic powers that he had cultivated diligently for the past hundreds of thousands of years were completely unable to be used!

Chi Xi was flustered as he looked at his legs that had turned into a fishtail. Among the people present, only First Ancestor wasn't assimilated aside from Qin Mu. However, his corporeal body was also transforming—fish scales and gills were growing out of his body from time to time!

It was evident that First Ancestor Human Emperor couldn't completely defend against the power of this Divine Ring of Creation too!

This wasn't a divine art that could cause significant damage to others, but instead, it was a strange power of creation. Because First Ancestor Human Emperor had learned the art of creation before, he was able to defend against it.

“This is bad!”

Chi Xi suddenly came to a realization. “No wonder Qin Mu, this rascal, had to get this Divine Ring of Creation no matter what! When this rascal took a liking to my God Execution Mysterious Knife, I should have known that this rascal is as experienced as an old expert thief!”

## **Chapter 642: Vicious Style**

Chi Xi's cultivation was profound after all, so he immediately tried to resist being assimilated by the Divine Ring of Creation. However, his consciousness gradually turned blurry, and his vital qi was unable to be used as well.

A body with three heads and six arms was a symbol of having a strong corporeal body for battle during Crimson Light Era, but against the power of creation, he was completely helpless. Soon, he transformed into a huge fish with three heads and six fins, flopping on the ground.

At this moment, other than Qin Mu who was in the center of the divine rings, only First Ancestor Human Emperor was unaffected by the power of creation. He still retained his consciousness.

Everywhere in the garden, various kinds of sea creatures and sea plants had turned the whole garden upside-down.

Luckily, before Qin Mu had tested the Divine Ring of Creation, he had already ordered people to construct high walls around them to block the rays of these divine rings. Therefore, the power of creation didn't affect anyone outside.

"Human Emperor Qin, enough!"

First Ancestor Human Emperor hurriedly shouted, "The power of this treasure is extraordinary. There's no need to test anymore. Be careful of causing irreparable damage to their primordial spirits!"

In the circular ring, Qin Mu stopped executing the Divine Ring of Creation, and the rings stopped rotating.

The scales and gills on First Ancestor gradually disappeared while the others in the garden were still flopping on the ground. They didn't recover their true form.

Qin Mu waited for a moment, but these people still haven't returned to their original form. He pondered and said, "This is a kind of seal. It will seal their corporeal bodies and primordial spirits when it landed on their bodies, and they are unable to undo it by themselves..."

He took out a brush and paper to write down his ideas.

First Ancestor Human Emperor kept hurrying him, "Undo the seal for them quickly. The longer things drag out, both the soul and the primordial spirit will be assimilated!"

Qin Mu kept his brush and paper, and let the Divine Ring of Creation rotate in the right direction. Runes for unsealing shone in all directions, and they removed all the seals of creations on everyone's bodies.

Bang, bang, bang.

Sounds of explosion rang out as everyone's corporeal bodies transformed back to normal. Even Emperor Yanfeng was looking at this treasure in fear.

God Chi Xi was full of regret as he felt his heart bleeding. He looked at the Divine Ring of Creation and wanted to take it back very much. He also realized that this was probably Qin Mu's goal at the start. It wasn't the hundreds of thousands of divine weapons on the list!

Qin Mu would definitely not return this divine ring to him, even if he handed over Crimson Light Heaven Suppressing Floor!

The value of this divine ring had already far surpassed Crimson Light Heaven Suppressing Floor!

“Old expert thief... Truly an old expert thief...”

An old and experienced thief possessed an incomparably ruthless set of eyes that were able to differentiate what was a treasure and what was not. Even treasures that one didn't know were in their house could be dug out by him, and be bought away at an extremely cheap price or just stolen straightaway.

This kind of old thief usually possessed a different type of thought process that ordinary people don't have. With their keen senses, they could detect places that others couldn't see, and an old thief could make a dull treasure shine bright once more.

In Chi Xi's eyes, Qin Mu was obviously an old and experienced thief!

He himself didn't even see the greatest use of the Divine Ring of Creation. He had only treated it as a key to awaken his people. However, Qin Mu have thought the other way and treated the divine ring as a seal!

In reality, Qin Mu was no different from an ordinary youth. He was playful and mischievous, but the great difference was he grew up with an old thief that would never fail to steal.

Cripple was used to seeing all kinds of treasures, and his thought process was different from ordinary people. He could usually think of what others couldn't, and since Qin Mu was taught by him ever since he was young, he naturally looked like an old and experienced thief.

After testing the treasure, everyone was covered in dirt, so they left at once to change their clothing. Not long after, Emperor Yanfeng returned and asked with a smile, “Is Mister Chi Xi planning to return to the floating world? It's only proper that I send some envoys to accompany you on the trip. Sir, please wait a moment.”

Chi Xi nodded his head, and his gaze flickered. “Your Majesty, I would like to use Crimson Light Heaven Suppressing Floor to exchange for the Divine Ring of Creation. May I know if that's possible?”

Emperor Yanfeng laughed. “The weather today is perfect... Minister Qin, you have made a mess of my imperial garden. Off with your head!”

Pangong Tso revealed a look of anticipation, but Emperor Yanfeng still wore a smile. It was apparent that he had just said that casually and he was actually feeling great.

Pangong Tso was disappointed. Chi Xi took a glance at Qin Mu and said, “I felt Little Friend Qin is intelligent, so I would like him to follow me to the floating world.”

Emperor Yanfeng's heart stirred slightly as he looked at Qin Mu. Qin Mu immediately shook his head. “I won't go even if you beat me to death. I will be beaten to death if I go with you.”

Emperor Yanfeng said with a smile, “I indeed need an envoy that could control the situation after heading to the floating world. If Imperial Preceptor is here, I would ask him to make a trip, but he still has to take charge of the battle in Supreme Emperor Heaven. He can't just leave the battlefield. Other

than Imperial Preceptor, the only one who wouldn't lack the character of my Eternal Peace will be Minister Qin. Even I am inferior to Minister Qin."

Qin Mu felt refreshed and said with a smile, "Won't go."

Beside him, a little eunuch carried a brush and offered up a small booklet. Emperor Yanfeng raised the brush and dipped it into the ink, adding one more stroke on the little booklet. "You won't go even after I have flattered you?"

"What's Your Majesty writing?"

Qin Mu walked forward and saw numerous names on the small booklet. They were mostly names of officials, and his name was also among them. His name had six to seven sets of tally marks, and there was one set with four strokes.

Among the names on this page, he had the most set of tally marks.

Emperor Yanfeng hurriedly closed the small booklet. However, Qin Mu's hands were quicker—he stole the small booklet and flipped through it. There were over a dozen pages in this small booklet, and the name with the most set of tally marks wasn't his, it belonged to the empress. She had dozens of sets of tally marks.

Emperor Yanfeng quickly snatched the booklet back, and he snarled, "How dare you steal my stuff. Off with your head!" After saying that, he added another stroke on Qin Mu's name.

Qin Mu came to a realization. He took a glance at the empress who was on the side and thought to himself, 'They must have quarreled frequently, so the emperor had already chopped off the empress' head over hundreds of times. I have a hunch that the empress doesn't know about this. If she does, the chambers of imperial concubines will be in havoc.'

Emperor Yanfeng carefully kept the small booklet, and he said to Chi Xi, "Minister Qin is my right-hand man. He can't leave the imperial court easily, so may I ask Mister Chi Xi how long will you take? If the time you take is too long, I won't bear to let Minister Qin go."

Chi Xi said with a smile, "Don't worry, Your Majesty. When I had originally brought my clansmen and controlled the planet, we floated in space and didn't know where the ancestral land was. That's why we spent thousands of years to find the ancestral land. If I bring only Little Friend Qin this time, we can go and return in just a year."

Emperor Yanfeng asked curiously, "Why did you have to spend so much time in the past and it's so fast this time?"

Chi Xi replied, "In the past, there was only a star atlas that marked the ancestral land, so we still needed to calculate the course of the stars. We also needed to avoid the pursuit of our enemies. Because of this, we were delayed for a very long time. Now that I know the way, there's a fast ship in the underwater celestial palaces from my Crimson Light Era. Its speed is even faster than a planet. Therefore, the speed is thousands of times faster than before."

Emperor Yanfeng put his heart at ease, and he said with a smile, “Mister Chi Xi, please wait for a few days. Minister Qin will be leaving with you.”

Qin Mu immediately shook his head. “Your Majesty—”

Emperor Yanfeng said sincerely, “A man should read a million books and travel a billion miles. The only one that won’t bring disgrace to our empire is Minister Qin. Your mission in Crimson Light Floating World is critical. Whether or not we will be able to ally with the remaining survivors of Crimson Light will be up to your abilities. There’s no one more suitable than you. I also know that there will be many dangers and it will be difficult, but only you are capable enough.”

Qin Mu’s face revealed a huge frown as he looked at Chi Xi. Chi Xi smiled and didn’t say a word.

Behind Chi Xi, Pangong Tso did a slitting action across his neck.

After a moment, the two of them took their leave.

Emperor Yanfeng saw them walking away and said, “Minister Qin, Chi Xi isn’t the master of the house. Crimson Light Son of God is the one who can make decisions, and the oath that Chi Xi had signed with my Eternal Peace is not even bullshit. The Son of God needs to nod his head before the oath of alliance is in effect. Eternal Peace may look stable now, but it’s actually riddled with dangers. That’s why we need to confirm this oath of alliance with the floating world no matter what! When you reach the floating world, that Crimson Light Son of God will probably create trouble for the envoys of Eternal Peace, and I can’t find anyone else better than you to handle this kind of situation! These are my sincere words! I can’t personally go there, but I will let Princess Xiu go with you. If anything happens, my princess will die together with you!”

Qin Mu blinked his eyes. “I’ll go, alright?”

He looked at First Ancestor Human Emperor. First Ancestor hesitated for a moment before saying, “I can go with you.”

Qin Mu settled his heart down, and he said with a smile, “There’s nothing to worry about, Your Majesty. You can be at ease.”

Emperor Yanfeng let out a shaky breath and sighed. “I’m still not very reassured even if you guys are going. When you pass by Supreme Emperor Heaven, visit Imperial Preceptor and ask his opinion. I shall prepare several gifts for you guys to offer to Crimson Light Son of God when you visit him.”

Qin Mu nodded.

Two days later, Emperor Yanfeng prepared the gifts. They were the three basic sword forms that had been compiled into books. Qin Mu was the one who will carry them, while Ling Yuxiu was in charge of the exotic treasures.

Qin Mu, First Ancestor Human Emperor, and Ling Yuxiu prepared to leave for their journey. Chi Xi and Pangong Tso had already prepared the ship—it was a huge ship that was in the underwater city in South Sea. Chi Xi took it out from the seal, and it was an ancient flying ship that had six wings. The ship was

covered in all kinds of gorgeous runes. The bow of the ship was the head of a phoenix, while the body of the ship was imprinted with all kinds of bird runes.

Qin Mu examined the ship in detail, and he was shocked. The head of the ship was a real phoenix head, and it has blood and flesh. The wings and feathers were also real phoenix feathers!

Moreover, the ship's body was imprinted with all kinds of bird runes that were actually skins of divine beasts and divine birds. On the skins were natural runes of the divine beasts and divine birds!

"In that case, these six wings..."

His heart was filled with wonder and shock when he realized that the six wings on this ship were wings of gods, and they were definitely not from ordinary gods!

Crimson Light Era had used the bodies of gods to forge divine weapons. From this point, one could see the style of this era from its history!

Barbaric, wild, and violent!

Not only this ship, but even God Execution Mysterious Knife could also show the vicious style of this era!

God Execution Mysterious Knife was made from the head of an overlord on Emperor's Throne!

This trip to Crimson Light Floating World would definitely not be an easy journey!

### **Chapter 643: Heaven Duke's Xuandu**

Ling Yuxiu ran out from the ship's hold. She had found something strange with the ship. She said with a soft voice, "The one that herds cows, the dragon bones of this ship are truly the bones of a dragon!"

Qin Mu was stunned. He followed her into the ship's hold and saw that the dragon bones of the ship were the huge skeletal frame of a dragon. That means when the ship flew, the dragon bones would move left and right like a snake.

Not only that, he even saw the enormous ribs of the dragon forming the main body of this ship!

When he touched the body of the ship, he found that it was moist and the skin wrapped around it was from the skins of gods and devils.

"They used the flesh and blood of gods to make this ship, and the heads of gods to make treasures. Crimson Light Era is indeed a bit too barbaric."

Qin Mu and Ling Yuxiu shuddered. At that moment, the flying ship had already set sail towards Spirit Energy Mutual Shift Bridge. When Qin Mu came to the deck, he saw Pangong Tso studying the deck. Qin Mu also examined the deck in detail. He raised his head to look at Pangong Tso, and Pangong Tso did the same thing. They both knew what each other was thinking as they cried out in unison, "Skin-wrapped bone plates!"

The entire deck on the ship was made with skin-wrapped bone plates. Countless gods had been killed just to make this ship!

“Mister Chi Xi, isn’t the way your Crimson Light Era handled things a little too overbearing and terrifying?”

First Ancestor Human Emperor had examined the ship as well, and he shook his head. “To make such a ship, several thousand gods must have died.”

Chi Xi smiled. “Your Founding Emperor Era only lasted twenty thousand years, right?”

First Ancestor Human Emperor was slightly stunned. He nodded his head. “Not even twenty thousand years.”

Chi Xi said, “You won’t know what Crimson Light Era has experienced when you guys haven’t even gone through twenty thousand years. There is no limit to the lifespan of a god and twenty thousand years is enough to give birth to millions of gods. These gods are immortal, and therefore, as the dynasty thrives, there would be more and more gods. Crimson Light God Dynasty has a history of a hundred thousand years, so the number of gods had already reached an extent that it was hard for heaven and earth to withstand any longer. The universe and land that your Founding Emperor Era had ruled over were far inferior to the level that Crimson Light Era has reached. Also, your territory was two to three times smaller than Crimson Light God Dynasty and yet, even with such a large territory, it was still unable to provide for so many gods. When the talents of the later generations had no more space to improve, they started rebelling and creating havoc. When they created havoc...”

His expression was calm, and his voice held boundless murderous intent. “We killed them naturally! Hehe! Killing several thousand gods to create such a valuable treasure was, of course, value for money.”

First Ancestor Human Emperor frowned. “Isn’t that against ethics?”

“Against ethics? When your Founding Emperor Era had been wiped out, how many people died? Isn’t that against ethics too?”

Chi Xi scoffed and said, “For example, those taotie sacks on your body, aren’t they treasures made from killing taotie beasts?”

Qin Mu shook his head. “My two taotie sacks were made by Grandmaster. Grandmaster gave them to me.”

Pangong Tso’s face turned black.

Chi Xi said, “Killing a god to make a treasure is something that happens in every era. The destruction of my Crimson Light God Dynasty happened three hundred and fifty thousand years ago, and after that, it was the rise of High Emperor Era. High Emperor Era lasted three hundred thousand years and was the longest lasting era in history. It was also the most flourishing era. The reason why the remaining survivors of Crimson Light Era hid so long in the floating world, and didn’t come searching for the ancestral land was mainly because we were afraid of being captured by High Emperor Celestial Heavens and be made into treasures!”

Qin Mu recalled his previous time travel. Bai Po'er and her brother didn't look like anyone who would kill people and turn them into treasures. However, from his encounter in Bent Mountain Shrine, Bent Mountain God must have killed a taotie divine beast, and turned it into treasures and a shrine.

His heart stirred slightly. He took out Sun Jade Eye and Moon Jade Eye from his taotie sack and asked, "Senior Chi Xi, these two treasures should also be treasures from High Emperor Era, am I right?"

Chi Xi looked at them. "They should be. If they are truly treasures of High Emperor Era, then these two eyes aren't made from jade. Instead, they are real eyes of a god, the eyes of a taotie."

Qin Mu jumped in shock. When he touched the jade eyes, he clearly felt the texture of jade. He couldn't see that they were made of blood and flesh at all. 'Could High Emperor Era be as vicious as Crimson Light Era? But, from how Bai Po'er and the rest handled matters, they didn't look vicious at all. In that case, how did High Emperor Era deal with the problem of having too many gods?'

At that time, the flying ship had passed through Spirit Energy Mutual Shift Bridge, and they came to Supreme Emperor Heaven. When they reached Li City, Qin Mu disembarked the ship to make inquiries. Eternal Peace Imperial Preceptor had not yet returned.

'Imperial Preceptor must be cultivating alongside Saint Woodcutter in the devil race's Luofu Heaven.'

They then came to Luofu Heaven. There were no people in this world in destruction. On the sacrificial altars, gods were guarding there without resting at all.

Qin Mu came to the sacrificial altar where Saint Woodcutter was, and First Ancestor also couldn't help becoming excited. When Saint Woodcutter saw him from afar, he immediately turned around and avoided him.

First Ancestor Human Emperor became depressed.

Chi Xi looked at Saint Woodcutter and sneered.

Qin Mu walked up to the altar and expressed his reason for coming. Saint Woodcutter said, "Your junior brother is currently cultivating in seclusion, so he won't be coming out for quite some time. You will need to wait a year and a half for him to come out from seclusion."

Qin Mu shook his head. "We couldn't wait that long. Since junior brother is in seclusion, can Teacher tell us what we need to take note for our trip."

Saint Woodcutter took a deep look into his eyes, and he revealed a smile. "Follow the local customs and conditions, observe what others do, and follow what they do. If you can't beat them, take down that willow leaf on your forehead."

Qin Mu said with a smile, "The people of Crimson Light Era are all fierce and overbearing. I'm afraid I would need to kill if I follow their customs."

“That’s why I told you to take down your willow leaf if you can’t beat them. Besides, even if you create a huge trouble, isn’t there still Earth Count?”

Qin Mu’s face became as black as charcoal.

Saint Woodcutter had his back facing First Ancestor Human Emperor. He said leisurely, “Also, you can’t trust an army deserter. An army deserter that has escaped once will escape again.”

Qin Mu turned his head and saw First Ancestor standing at the bow of the ship without saying anything.

Saint Woodcutter summoned Ling Yuxiu over and said with a smile, “Lass, you are much better than your father. When you become the empress in the future, treat your people well and treat my disciple well. Take his advice seriously.”

Ling Yuxiu took a glance at Qin Mu and said delightedly, “I will.”

“Good child. Your cultivation is the weakest, so let me gift a little something to you.”

Saint Woodcutter remained smiling as he suddenly swung his ax up to hack at the forehead of Ling Yuxiu.

Ling Yuxiu jumped in surprise, but she couldn’t feel any pain. Saint Woodcutter hacked several times, hitting Ling Yuxiu’s head over and over again. When he was finished, he stowed his huge ax and said, “Child of Ling family, remember today’s words. You may all go.”

Ling Yuxiu was rather puzzled. She turned around and returned to the flying ship with Qin Mu.

Chi Xi looked at Saint Woodcutter’s back and sneered. “Dao friend, let us challenge each other if we have the chance in the future!

Saint Woodcutter didn’t turn around, but he waved his hand in response. The flying ship rushed into outer space and quickly vanished.

In the starry sky, a flying ship flapped its three pairs of wings and streaked across the dark sky. Without any resistance in this vast sky, the flying ship flew faster and faster. The speed of the ship was actually raised to an unimaginable extent, moving as fast as a lightning bolt.

They quickly passed through an asteroid belt, and huge chunks of asteroid crashed on the ship. However, the runes on the ship flowed, and those mountain-sized stars were instantly reduced to powder.

Chi Xi took out a star compass to determine their bearing. The star compass shone brightly as it showed a gorgeous star atlas. He said, “Half a year later, we will reach Crimson Light Floating World. For the next half a year, you can move anywhere, but you cannot leave this ship.”

Qin Mu examined the projection of the star atlas and saw that the path of the stars was extremely strange. Star clusters were actually swirling around a certain place, but that place was completely empty—there was only dazzling light there.

“Senior Chi Xi, what is this place?” He pointed at a black hole-like place.

Chi Xi looked at it, and he raised his eyebrows, “Youth from the countryside, you have never even walked out of the ancestral land, so you naturally don’t know the marvel of the universe.”

First Ancestor took a look and said, “That’s the place that is the relative opposite of Youdu. It’s where Heaven Duke resides. It’s extremely mysterious.”

Ling Yuxiu also hadn’t heard of Heaven Duke before, and she listened together with Qin Mu. She asked, “Heaven Duke is the relative opposite of Youdu? Since Earth Count is in charge of reaping the souls, what does Heaven Duke do?”

Before First Ancestor Human Emperor could reply, Chi Xi explained, “Heaven Duke is the ancestor of gods, and he controls the operations of the astronomical phenomenons. He is fair and selfless. The stars you’re seeing in the sky all have Heaven Duke behind them. All the stars in every world are controlled by Heaven Duke. This god is no inferior to Earth Count, and with the aspect of the celestial bodies projecting millions and millions of bodies, he is truly powerful!”

First Ancestor Human Emperor said, “Heaven Duke can enter any world at will, but the sky of Eternal Peace is fake. Eternal Peace doesn’t have real astronomical phenomenons, so Heaven Duke can’t go there.”

Pangong Tso had never heard of this before, and he unknowingly became entranced. He suddenly said, “Does this mean that all the sun, moon, and stars we are seeing are all fake?”

“Not entirely.”

First Ancestor Human Emperor said, “When it’s morning in Great Ruins, the sun you see is real. Sometimes, you can also see the moon and a few scattered stars in the morning, and those are real too.”

Pangong Tso was stunned. He muttered, “If the sun, moon, and stars seen from Great Ruins are real, and the ones outside are fake, what’s the seal in Great Ruins for?”

Qin Mu threw him a glance. “It’s sealing the people outside Great Ruins of course. Hasn’t Grandmaster ever been curious why there are only four great spirit bodies among the people outside Great Ruins, while the spirit bodies in Great Ruins are strange and varied?”

Pangong Tso was dejected. “Sealing us, hehe, it’s to seal us... What have we done wrong to be sealed?”

The people outside Great Ruins always looked down on the people of Great Ruins and called them abandoned people.

Pangong Tso was originally the grandmaster of the prairie and the founder of Rolan’s Golden Palace, so he held even more disdain for the people of Great Ruins. He frequently seized the strange beasts and the people of Great Ruins to cultivate his shaman spells. Listening to First Ancestor’s words now, they had completely shattered his belief and pride!

After living ten thousand years, it was only now that he realized he was one of the abandoned people!

The people abandoned by gods!

“Why do they still have to seal us after breaking our divine bridge? Why didn’t they allow us to become gods...”

He couldn’t believe Qin Mu, but he had no doubts for First Ancestor Human Emperor’s words. That was because this existence was the first generation human emperor, the man who had led the ancestors of all races out from that calamity!

Pangong Tso’s ancestor was also one of them!

Anyone could lie to him, only First Ancestor Human Emperor wouldn’t.

The flying ship was leaving a trail of light as it flew, and it remained in the starry sky for a long while. God Chi Xi turned back to look and frowned. “Even though this ship is fast, it isn’t unmatched in the world. Enemies would probably discover the traces left behind by the treasure ship. We need to borrow a path from Heaven Duke and head to the floating world as soon as possible. We can’t let the enemies discover the location of the floating world!”

Qin Mu’s spirit was roused. “Borrowing a path from Heaven Duke? Does this mean that we can see this majestic existence now?”

“It’s still early. The journey from here to where Heaven Duke is located will take more than a month!”

The flying ship moved like flickering light and passing shadows. Qin Mu and Ling Yuxiu were currently dual cultivating their primordial spirits when, all of a sudden, the flying ship jolted and slowed down. The two of them pulled their primordial spirits back and walked up on the deck. They saw a large-scale god city floating alone in the starry sky, and there was still a sun orbiting around it.

This god city was dilapidated. It had gone through a terrifying battle, getting destroyed in the process.

The flying ship flew over this god city, and Qin Mu looked down. He saw numerous tall statues of gods that had fallen over in the city, and these god statues had three heads and six arms. They must have been sculptures of Crimson Light Era.

Not long after, they came to a shattered star, and there were also numerous structures on it. The structures had the style of Crimson Light Era.

As they walked, the dilapidated god city floated quietly in the starry star. They could still see countless corpses floating limply on this path they were taking.

To find a place for them to settle down, the strong practitioners of Crimson Light Era had left behind countless gods to protect their clansmen. Most of them had died in battle here.

'No matter how barbaric Crimson Light Era's customs were, they had still fought to death for the survival of their clan.' Qin Mu sighed ruefully in his heart.

Finally, the flying ship sailed into an empty zone, a world formed by light.

The flying ship sailed into the light, and everyone actually couldn't see their own shadows. This light was shining from all directions, and there was no shadow to be cast!

Qin Mu turned around to look at where they had come from, and his body trembled violently. He actually saw Great Ruins that was shrouded in darkness!

It was as though Great Ruins was right in front of him!

However, he couldn't see Eternal Peace Empire that was outside of Great Ruins!

He couldn't see Eternal Peace, he couldn't see West Earth, and he couldn't see South Sea, North Sea, and West Sea!

Those places were covered by the fake aspect of the celestial bodies, so they couldn't be seen.

Other than Great Ruins, he also saw Supreme Emperor Heaven and Luofu Heaven!

He raised his head, and he suddenly felt like he had discovered a whole new world. Countless stars shone in the sky and worlds of all sizes were either bright or dark. They all appeared on the heavenly screen, and some of the worlds were even in destruction!

Looking from this angle, these worlds had all become very small and were very close to them. However, Qin Mu knew these worlds were actually very far—those fine starlights were actually huge suns!

"This is Xuandu, the place where Heaven Duke resides. It's the relative opposite of Youdu," First Ancestor Human Emperor said gently.

Qin Mu hurriedly swept his gaze around and asked, "Where is Heaven Duke?"

"Right beside us."

Chi Xi turned his head around and saw that the trail of light behind the flying ship had been covered up by the light here. He let out a sigh of relief and said, "We are currently sailing past one of his eyes. After flying one to two more days, you will be able to see his entire eye."

#### **Chapter 644: Heaven Duke who had Fallen into the Seal**

"Eye..."

The few youths on the flying ship couldn't help becoming astonished and they tried to look into the depths of the light. They tried to have a clear view of Heaven Duke's eyes and yet they could only see light and nothing else.

Ling Yuxiu muttered, "If this ship has to sail two days to be able to see the entire eye of Heaven Duke, how big is Heaven Duke's true body exactly?"

"Should be on par with Earth Count."

Qin Mu said, "I had seen Earth Count's true body before and his horns were formed by worlds that in destruction. Just his horns alone were vast and boundless beyond imagination. Natural born gods like this have remarkable abilities that ordinary humans can never imagine."

Chi Xi said, "If you can see the full appearance of Heaven Duke, you will be able to see how many suns are hidden in his body."

The flying ship sailed in Heaven Duke's gaze which was shining intensely. Even though the speed of the ship was fast, Heaven Duke's eye was simply too huge. After sailing for two days and two nights, Qin Mu and the rest turned their heads back and they finally saw the outline of this eye.

This eye that gave off boundless light and completely blocked their vision made their flying ship looked insignificant when compared to it.

Yet they were still unable to see the full appearance of Heaven Duke.

Qin Mu looked at this eye and he was in astonishment. Suddenly, that golden willow leaf on his eye seemed to be blown off by a gust of wind and actually fell off the heart of his brows.

He was alarmed and hurriedly grabbed hold of the golden willow leaf. At this moment, he suddenly felt something tunneling into his vertical eye in the heart of his brows.

What had tunneled in was a trail of light which vanished after entering his eye.

Qin Mu was bewildered and he moved his primordial spirit around to search but he couldn't find any abnormality in his third eye.

"Could I have seen wrongly?" He exclaimed in his heart as he picked up the golden willow leaf to stick back on the heart of his brows.

Meanwhile in the depths of his third eye, among the layers of seals, a vast and boundless land floated in the darkness and this piece of land was his jade pendant. The path of the unbroken chains of peaks formed a 'Qin' word.

In the sky above the huge land, the voice of a great buddha was resounding and the lingering buddha voice was trying to suppress that fierce existence that was being suppressed in the land.

Right at this moment, a ray of light shone in and lighted up the land in the darkness. The light then moved around the sky without stopping and circled round and round the Qin word seal.

In the center of the Qin word seal, an incomparably huge baby was lying there in utter boredom. He grabbed onto his toe and sent them into his mouth, giving off cries of a baby while playing around.

This baby was Qin Fengqing and he pulled out his toe from his mouth. He took a glance at the light that was surrounding him and he suddenly showed a fierce look, revealing his mouth full of razor-sharp teeth. "Big fella, what are you looking at? I'll eat you if you continue looking!"

"I'm naturally looking at you."

That light shrunk into a ball of light and an ancient voice came from the light. "Interesting lifeform... Youdu could actually give birth to a fierce spirit like you, it shows that Earth Count's control on Youdu has become weaker."

Qin Fengqing stood up. He jumped and clapped his hands as he tried to grab this ball of light.

That ball of light avoided him and said, "I'm Heaven Duke of Xuandu, a god that's like Earth Count. You can't do anything to me. I'm just here to take a look at you, this interesting little fellow..."

Qin Mu licked his lips in excitement, "As big as Old Man Earth Count? How long will I have to eat to finish eating you? As he said that, he continued to hop around and catch that ball of light. He jumped higher and higher until he got smacked back down by the seal.

Heaven Duke's voice came from that ball of light, "So you are a stubborn little brat, no wonder you would get sealed. I'm only here to see you, I'm taking my leave now."

Qin Fengqing was still jumping around and chased him relentlessly as he wanted to eat him. That ball of light flew out and at this moment, the vein lines of a willow leaf appeared outside the heaven and blocked his way of retreat. At the same time, trails of devil light and devil qi came out from this land and sealed the sky!

"Crap! I've fallen into the seal!"

The ancient voice came from that ball of light. "To seal him, Earth Count really splurge his fortune, to actually use his horn to seal him. When that willow leaf is covered on that eye, it will activate the power of Earth Count's horn! I'm merely a clone, I don't have the magic power to break out!"

As he said until here, buddha rays shone brightly in midair and linked together with the golden willow leaf and the horn of Earth Count.

This clone of Heaven Duke was instantly suppressed and he fell onto the Qin word seal, transforming into elder wearing a white robe. He had white eyebrows, white beard and white hair that was fluttering in the wind. He raised his head to look at Qin Fengqing and muttered, "There's also the seal of Brahma... that's right, it's Brahma who had connected the golden willow leaf and the horn of Earth Count together, allowing the golden willow leaf to have the effect of activating Earth Count's seal, making me trapped here..."

Qin Fengqing was ineffably excited as he pounced at the elder in white.

On the flying ship, Qin Mu suddenly felt the heart of his brows swelling up. It was slightly painful so he hurriedly covered the heart of his brows.

“What happened to you?” First Ancestor asked in concern.

“The heart of my brows suddenly hurts.”

Qin Mu felt the pain becoming more and more intense. His palm also trembled from the vibrations and First Ancestor Human Emperor said in a hurry, “Place your hand down and let me take a look!”

Qin Mu placed his hand down and First Ancestor Human Emperor immediately saw something that seemed to be rolling around under the golden willow leaf on the heart of his brows. It would make the willow leaf bulge up from time to time and it even seemed to be moving continuously.

“Heaven and Earth Mudra, Flipping Heaven and Earth!”

First Ancestor Human Emperor gave a shout and his mudra gently pressed on the heart of Qin Mu’s brows. His mudra passed through the leaf and struck straight into Qin Mu’s third eye, transforming into a huge palm print that flipped the heaven and earth. This mudra smacked down the clone of Heaven Duke that was trying to break out of the seal.

When this mudra landed, heaven wasn’t heaven and earth wasn’t earth. The Qin word land was flipped and the clone of Heaven Duke gave a grunt as he got squashed.

First Ancestor Human Emperor pulled his palm back and he asked in concern, “How do you feel now?”

Qin Mu said in astonishment, “It’s no longer painful, it’s really not painful anymore!”

First Ancestor Human Emperor said with a smile, “This is the marvel of Heaven and Earth Mudra, cultivate more and don’t let down my teachings.”

Qin Mu gave a sound of acknowledgment before running to cultivate his primordial spirit with Ling Yuxiu. First Ancestor Human Emperor gave a sigh of relief and he had a solemn expression.

Inside his third eye, Qin Fengqing ran over excitedly to grab the legs to Heaven Duke’s clone to smash around randomly. He smashed this elder in white until he was muddle-headed before he straightened him to take a bite.

“Ee, no flavor?”

Qin Fengqing was skeptical and he saw that portion he had chewed off was a ball of light. He couldn’t taste any flavor and thus he threw the elder in white to one side. He had lost interest in him.

The elder in white got up and rubbed his waist. He felt pain and soreness in his limb but as he was a ball of light, he could recover very fast after being bitten!

“Why don’t we play catching?”

Qin Fengqing was suddenly interested again. He clapped his hands and ran over with his short stumpy legs as he said with a baby voice, “You shall hide and I shall catch, if I catch you, I shall pull apart your arms and legs! Since you can grow them back, we can play this for a very long time!”

“Heaven Duke’s light will cover up the light trail that our flying ship leaves behind, in this case, we won’t have to worry about being detected by the celestial heavens.”

Chi Xi looked behind him and he let out a sigh of relief. “Now the pursuers won’t be able to track us down.”

Pangong Tso couldn’t help being skeptical. “Are there really pursuers?”

First Ancestor nodded his head. “This is a great chance to find the remaining survivors of Crimson Light God Dynasty, the celestial heavens won’t let this chance go. When we left Luofu Heaven, we were already being watched. Your cultivations are a little weak so you guys didn’t sense anything but I can also feel a pair of gaze currently staring at us. Until we entered Heaven Duke’s Xuandu did we finally shake off that pair of gaze.”

Chi Xi said, “That person that was chasing us should be Great Sun Sovereign.”

First Ancestor was astonished. “It’s actually him? Even though I don’t know much about this Great Sun Sovereign, I have also heard before of the speed of the Great Sun Sovereign from that extraterritorial celestial heavens is extremely fast. Furthermore, he also have many gods under him. If he chases us, we will probably find it hard to shake him off.”

Chi Xi executed the star atlas again and he said, “If we avoid the suns on the way, we should be able to shake off this star sovereign.”

Qin Mu and Ling Yuxiu’s primordial spirits danced together in the air and Qin Mu’s primordial spirit asked curiously, “I’ve seen Sun Sovereign before, his abilities aren’t very high, he got slashed to death by my Grandpa Butcher in one knife. Where is this Great Sun Sovereign from?”

First Ancestor Human Emperor explained patiently, “Great Sun Sovereign is different from Sun Sovereign. Sun Sovereign is merely a little pawn and he’s an ordinary god from Founding Emperor Celestial Heavens, he was a god of Sun Herd Tribe. He later betrayed and became the dog of the extraterritorial celestial heavens. On the other hand, Great Sun Sovereign is rumored to be a god born from the sun who is incomparably powerful. There are Golden Crow Spirit Body, Fire Dragon Spirit Body, Fire Crow Spirit Body, they are all cultivating according to the form of Great Sun Sovereign. After cultivating to a god, the stance of a battle that was shown as their primordial spirit and corporeal body fuse would be the form of Great Sun Sovereign. The form of Sun Sovereign should also be the form of Great Sun Sovereign.”

The two of them kept their primordial spirits back into their bodies and Qin Mu’s heart was slightly shaken. He cried out, “An ancestral god like Saturn Sovereign?”

First Ancestor Human Emperor said, “You know Saturn Sovereign? Saturn Sovereign is one to two ranks lower than Great Sun Sovereign. However, she isn’t on the level of an ancestral god, she’s not as strong as and as ancient as Great Sun Sovereign. Great Sun Sovereign is one of the big shots in the extraterritorial celestial heavens and Saturn Sovereign can only be considered a big shot of a place.”

Qin Mu and the rest seemed to understand and yet not understand.

After the flying ship left the eyes of Heaven Duke, trails of light followed the traces of light left behind by the ship to rush into Xuandu. Yet over here, the traces of the flying ship had disappeared.

“These fishes that had slipped the net are truly crafty.”

The light paused and transformed into a god with bird wings, human body, and three legs. The bird head had three eyes and on the forehead was a vertical eye that contained boundless flames. It was like a sun hidden in the eyes.

On his legs were the scales of a dragon and while his wings had black phoenix feathers. When covering his body, it was like a long black robe that hung to his feet.

This god was extremely huge but in comparison to Heaven Duke, he was insignificant. He raised his head to look into Heaven Duke’s eye and asked loudly, “Heaven Duke above, may I ask if you have seen a ship passing by this place?”

Heaven Duke who was in Xuandu was very busy and he was supervising the operations of all the stars in the various worlds. After a moment, a ball of starlight appeared and transformed into a person of light whose face couldn’t be seen clearly. His voice rumbled like thunder, “I’m supervising the stars of the heavens and I had not seen it. There are numerous celestial soldiers and generals on the numerous stars in my Xuandu, you can ask them.”

Great Sun Sovereign apologized and said, “Sorry for disturbing Heaven Duke, I seek your forgiveness.” After saying so, he flapped his wings to leave.

That person of light also dispersed.

Not long later, light shone brightly from the stars on Heaven Duke’s body as tens of thousands of gods flew out from these suns. Numerous suns seemed to link up into lines from the divine rays given off from the gods flying as they searched for the ship in all directions.

“Caw caw caw—”

Those were Fire Crow Gods that had filled the entire sky. They had a crow’s head and a human’s body. On their back grew fire red wings and they carried a quiver on their backs. They grabbed onto vermilion red bottle gourds in their hands while their three bird claws grabbed onto huge bows. Their speed was extremely fast.

## **Chapter 645: Breaking the Fire Crow Formation**

The voyage of the flying ship took over ten days to finally sail out of Xuandu. Qin Mu turned his head back and he still couldn’t see the complete features of Heaven Duke and he couldn’t help feeling slight pity.

Qin Mu looked at the far away sun and the flying ship was currently sailing at the edge of the sun. Even though the sun was very far from them and was about several million miles, it still looked very close.

Long solar prominences were spewed out from the sun and they were a million miles long. Some of them looked like the wings of a bird while some of them long like circular-shaped ears.

Being so close to this sun, Qin Mu even felt the strange rays coming from the heat waves of the sun. When the rays hit his body, he felt pain as though the rays were piercing through their bodies.

Meanwhile, the wind from the sun was also incomparably scorching. As the wind from the sun came rushing over at a terrifying speed, Qin Mu's heart stirred and he executed Overlord Body Three Elixir Technique. He was mainly trying to borrow the wind of the sun and the rays of the sun to cultivate his corporeal body. All colors of buddha rays appeared behind his head and there was also dragon-shaped rays. He had fused Eight Voices of Ancestral Dragon and the buddha voices into one.

With this kind of cultivation method of having the dragon and buddha as one and the power of the rays and wind from the sun, this resulted in him improving at a godly speed.

'He just doesn't want to cultivate my Sacred Secrets of Heaven and Earth Heart...' First Ancestor Human Emperor was depressed.

On the other side, Ling Yuxiu saw the situation and also she also executed Ancestral Dragon Supreme Mystery Technique and used Eight Voices of Ancestral Dragon to temper her body. She blocked down the power of the wind and rays of the sun. On the other hand, Pangong Tso executed Anasrava Fighting God Technique to temper his corporeal body too.

Chi Xi corrected the star atlas and he borrowed the orbit of the sun. The flying ship flew half a round around the sun and Chi Xi raised the sails. The sails bulged from the wind and rays of the sun, increasing the speed of the ship instantly.

Qin Mu raised his head to look and he saw that the sails were sewed y the skin of gods. There were also numerous markings and when the rays of the sun hit on the surface, they couldn't penetrate through the skin, thus borrowing the power to raise the speed to the maximum.

Not only that, this flying ship was also flapping its wings and flames flowered out to raise the speed of the ship higher and higher!

Suddenly, over a dozen trails of flames appeared in the starry sky and the flames in the darkness seemed to be very faint. It was like red lines shooting towards the sun.

"Dao Brother Chi Xi, which kind of god can chase up to this ship of yours?" First Ancestor Human Emperor looked at the red lines that had entered the sun and he suddenly asked.

Chi Xi came to the end of the ship and he looked into the distance. "There are many people that can chase up to this ship, for example, the strong races that are the phoenix race, the dragon race, the vermilion bird race. Other than that, some of the gods under the Great Sun Sovereign also can as they could borrow the sun to fly at extremely fast speeds."

First Ancestor Human Emperor said, "In that case, the ones coming should the gods under Great Sun Sovereign, I wonder if Great Sun Sovereign is among them."

The three heads of Chi Xi stared intensely at the red lines that were tunneling into the sun. He saw that these red lines moving quickly on the surface of the sun and the terrifying solar prominences were actually increasing their speed!

“Great Sun Sovereign is not around them.”

Chi Xi raised his Crimson Light Heaven Suppressing Floor and sneered. “If Great Sun Sovereign is among these gods, he would already have mobilized the power of the sun to strike us!”

The two of them stood at the aft of the ship and they saw the speed of the red lines becoming faster and faster. Chi Xi had a nervous expression but First Ancestor Human Emperor was slightly calm.

Suddenly, trails of red light shot out from the sun and went straight for the flying ship.

“Be careful!”

First Ancestor Human Emperor shouted, “Hide in the building first and locked the doors and windows!”

Qin Mu hurriedly pulled Ling Yuxiu into the building of the flying ship and before Pangong Tso could even enter, Qin Mu had already closed the door.

Pangong Tso sneered and his body suddenly became a shadow to slip into through the door crack.

And at this moment, even more red lines were flying towards the sun and the red lines were streaks of fire. In every fire was a god that was rushing into the sun and flying along the sun surface at an unimaginably fast speed!

Qin Mu laid beside the window and he tried his best to execute Nine Heavens Eye Awakening Skills, opening all the way to Jade Heaven’s Eyes to look at the red lines chasing the ship. He could roughly make out the appearance of the gods that were blazing with flames and they had scarlet red feathers.

When those gods flew closer, he could then finally see their appearance clearly. These gods grew long black crow head and their bodies were covered in flowing flames. In their hands was a huge bottle gourd each while they carried bows on the claws of their three legs too!

“This speed is so much faster than Grandpa Cripple!”

Qin Mu was astonished and he could soon see that these fire crow gods weren’t as fast as they seemed. It was because there was no air in space, there was no resistance and in addition to that, they had secret skills that could borrow the power of the sun to raise their speed, thus it was so astonishing.

If it was in a place like Eternal Peace, even if these fire crows were faster than Cripple, they couldn’t be much faster.

However, the most frightening point was still that there were too many fire crow gods. There were only over a dozen before and now, there were several thousand red lines that were just flying into the sun!

It was apparent that these fire crow gods had strange communication methods and they were currently informing their other comrades, as a result, the fire crow gods in the vicinities kept pouring in endlessly.

The dozens of fire crow gods in front were already very close to the ship but they had yet to reach the distance where they could execute divine art. These fire crows then grabbed an arrow out from their quiver and stretched their bows with their three legs. The arrows transformed into flowing light to shoot at the flying ship!

The fire crows had three legs and three claws so the speed at which they pulled the bow was inconceivably fast. Even though there were only over a dozen fire crow gods, in a split second, every god had managed to shoot out several hundred arrows. In that instant, the arrows came raining down like a swarm of locusts!

At the aft of the ship, God Chi Xi lifted up Heaven Suppressing Floor and the treasures in the floor shone brightly. Divine weapons flew out to block down the rain of a million arrows!

And at this moment, those fire crow gods opened up their vermilion red bottle gourds and the divine fire of the sun poured out from the bottle gourd to rush at the flying ship, shrouding the entire ship in a split second.

Chi Xi roared and threw up Heaven Suppressing Floor. Heaven Suppressing Floor instantly became incomparably huge and hung in the sky above the flying ship. Under the roof of the building, huge bells started ringing and vibrated the divine fire, making the fire unable to come close to the ship.

Those fire crows gods took this chance to rush up onto the ship and suddenly, six divine knives flew out from Heaven Suppressing Floor. Chi Xi wielded the divine knives and he moved as though he was flying, going one round around the entire ship in not even a breath's time. Swinging his knives repeatedly, dozens of heads fell onto the ground.

And at this moment, several hundred fire crow gods came flapping their wings over and the arrows were becoming incomparably concentrated as they fired off in unison. Chi Xi executed Heaven Suppressing Floor again but there were numerous divine weapons that got shot down and fell onto the deck.

The power of Heaven Suppressing Floor was greatly reduced. Even though this was a remarkable treasure that suppressed the palace, Chi Xi's cultivation still wasn't enough to unleash the true power of this treasure.

Several hundred fire crow gods opened up their bottle gourds and divine fire came spewing over. Behind them were several thousand fire crow gods that were closing in rapidly.

First Ancestor frowned. These fire crow gods were clearly using the battle formations used in war and since Chi Xi was only an executioner of Crimson Light Era, he didn't have any experience in dealing with battle formation as he never went onto the battlefield before.

On the other hand, First Ancestor was also an army deserter on the battlefield and even though he had learned methods to deal with battle formations before, he had never used any of the methods before. He also had no experience.

Against the battle formation of the fire crow gods, both of them were slightly at a loss.

The bunch of fire crows gods first shot a rain of arrows before setting fire to burn the ship, tiring Chi Xi out from trying to guard this and that. While he was trying to block the attacks of the fire crow gods on this side, the fire crow gods on the other side reached and started attacking the wings of the ship. There were also numerous fire crows that came to the bottom of the flying ship and grabbed onto the ship to fly backward, planning to drag the ship away.

Some fire crows then flew to the masts and tried to break off the masts.

God Chi Xi was truly frantic and he shouted, "Dao friend, this is a fire crow formation, I can't break it, come and reinforce me!"

First Ancestor Human Emperor was also helpless. He had never face such a kind of situation before.

The fire crow army of several thousand made him felt no matter how he dealt with each other, there was no way to stop the outcome of the flying ship being destroyed!

Qin Mu opened the window and he shouted, "First Ancestor, Heaven and Earth Mudra, Revolving Heaven Turning Earth and Unchanging Heart!"

First Ancestor Human Emperor came to his senses and his hands crossed each other to execute his Heaven and Earth Mudra Skills. Instantly, space shifted and when his mudra burst forth, this entire flying ship became heaven and earth. Sometimes, the heaven was above and the earth was below while sometimes the heaven was below and the earth was above. The speed of the fire crows was astonishing to begin with and no one would find the chance to attack them. Now that all of these fire crow gods were situated in a space, they started to fall everywhere. Bunch of fire crows spun around without end and the flying ship shook them off.

God Chi Xi was also giddy from being thrown around and he hurriedly hugged onto a mast in shock.

Qin Mu shouted, "Go up the mast!"

First Ancestor Human Emperor leaped up and landed on the mast with one leg.

Qin Mu's voice came from the building. "Sun Coiling Around Midheaven Flows Forever!"

First Ancestor Human Emperor immediately executed this move from Heaven and Earth Mudra and instantly, the space rotated and countless fire crow gods were moved by the power of his mudra skills. They tried to stabilize their bodies but they were pulled apart by a terrifying force, making them cawed loudly.

A flood of fire crows formed around First Ancestor Human Emperor and they swirled furiously around him.

"What's next?" First Ancestor Human Emperor asked loudly.

Qin Mu's voice rang out. "Collapse of Heaven and Earth Sorrow Autumn Phoenix!"

First Ancestor Human Emperor instantly executed this mudra and the heaven fell and earth rended. Terrifying forcefield was collapsing towards him palm and the fire crow gods that filled the sky was moved by his palm force. They collided with one another in midair to pile up into a huge round ball.

“Opening Pure Land with Eight Trigrams and the Heaven and Earth, Determining Five Elements of Earth Water Wind Fire.”

First Ancestor Human Emperor executed these two mudra skills without thinking. With two mudras in four palms, the eight trigrams and heaven earth diagram squashed the ball of flesh formed by the thousands of fire crow gods in the center. Next, fire, water, wind and earth burst forth and the power of the fire elements snapped the bones and tendons of countless fire crows. Their bodies were vibrated into pieces, crushed into pieces, sliced into pieces and incinerated. Next, as a gust blew over, the thousands of fire crows turned into dust to fly behind the ship.

First Ancestor Human Emperor was stunned for a moment and he couldn't believe what he had done. “I've broken the formation?”

And at this moment, Ling Yuxiu and Pangong Tso's astonished cry came from the building and First Ancestor Human Emperor was alarmed. He hurriedly dropped down to have a look and saw a fire crow god that had escaped from his Heaven and Earth Mudra tunneling into the window of the building.

When Qin Mu had guided him to break the formation, he had opened the window and this fire crow god must have taken the chance to slip through the window, planning to lay his hands on Qin Mu and the rest!

First Ancestor Human Emperor hurriedly rushed in before he could even rush into the window, two trails of blood light burst forth from inside and they had an incomparably terrifying air of murder. First Ancestor hurriedly moved back in a hurry. The fire crow god in the building had its head severed!

Qin Mu carried the case and stood there in a daze. He seemed to still be at shock at the power of God Execution Mysterious Knife.

First Ancestor hurriedly rushed in and touched him everywhere while asking worriedly, “Did it attack you in return? If your head chopped off?”

He was frightened as he raised a trembling finger. He wanted to push Qin Mu's head but he was scared a gentle push might cause Qin Mu's head to fall off his neck.

Suddenly, Qin Mu smacked his hand away and praised. “What a powerful case, what a powerful sword!”
