

Tales of Herding Gods Chapter 831-835

Chapter 831: Dao Sword Slashing the Celestial Dipper

Numerous old Daoists poured out of Dao Palace and stood around. They frowned when they heard the conversation.

Clear Sky Sect Master was currently seeking Dao Ancestor's opinion and now Qin Mu, Xiao Chunfeng, and the rest were ready to kill each other.

"Should we stop?"

One of the old Daoists started to feel an ache in his head and muttered, "But the main thing here is how do we stop them? They are the emissaries of the celestial heavens, the disciples of the star gods dying in Clear Sky Heaven is already the sin of our Clear Sky Sect, if we stop the emissaries from taking revenge, our crime will not be pardon. On the other hand, it's the overlord body that Dao Ancestor doesn't even dare to take his worship from, we can't beat, scold or touch him so how do we stop him?"

The other Daoists also had worried frowns. Clear Sky Sect Master wasn't here so they were completely out of ideas.

Suddenly, Yu Chen'zi said softly, "Eternal Peace Overlord Body and Celestial Heavens Xiao Chunfeng is actually considering on behalf of their own lives. They are taking this small window of opportunity when Sect Master is seeking Dao Ancestor's opinion to come out a conclusion, making it too late to change anything."

The few old Daoists hurriedly looked at him and asked, "What do you mean?"

Yu Chen'zi said, "Senior uncles, try thinking about this, if Overlord Body Qin wipes out all of the emissaries, what should our Clear Sky Heaven do?"

"Kill the scoundrel and send his head to the celestial heavens!" said a hot-tempered Daoist.

Yu Chen'zi didn't know whether to laugh or cry. "The death of the emissaries and three to four hundred disciples of the ancient gods in our Clear Sky Heaven, how grave do you think the crime would be? It would be enough for our Clear Sky Heaven to be erased from existence! When that time comes, our best course of action would be working together with the Eternal Peace Empire and rebelling!"

Everyone came to a realization.

"Xiao Chunfeng's motive is also similar. By killing Overlord Body Qin, Dao Ancestor would have no choice. This would bound Dao Sect and Clear Sky Heaven firmly and allow us to have no chance to rebel. That is because if Dao Ancestor chooses Overlord Body Qin, he will definitely kill Xiao Chunfeng and the rest as sacrifices."

Yu Chen'zi said, "What's done cannot be undone. Both of them want to come to a conclusion before Dao Ancestor makes a decision so that he doesn't have the chance to! Overlord Body Qin sends Sect

Master away to ask Dao Ancestor was to take this chance when he's not around to do what should be done. Senior Brother Xiao Chunfeng also has the same motive. This is how smart people act, they don't want to hand their lives and future in the hands of others."

Everyone had whole new level respect for him and one old Daoist asked, "In that case, what should we do?"

Yu Chen'zi muttered and said firmly, "Stopping them would mean we are choosing for Dao Ancestor so no matter what we do, it will be wrong. The only thing we can do now is to get ready to clean up the mess."

Everyone frowned and asked, "What do you mean?"

"If Eternal Peace Overlord Body is victorious and killed the emissaries of the celestial heavens, we have to be prepared to get rid of the corpses and evidence, shifting the blame to Mother Earth and clean up all relationship our Clear Sky Heaven have with them. When the celestial heavens come investigating, they would be led to Mother Earth and our punishment will be reduced to the lightest. We can then plot together with Eternal Peace and slowly develop, waiting for the time to strike."

Yu Chen'zi quickly said, "If the emissaries kill Overlord Body Qin, we will have to prepare all kinds of treasures to bribe the emissaries, asking them to plead on our behalf and reducing the sentence. We just need to do these two points well. No matter who loses or what Dao Ancestor chooses, we can deal with it calmly."

"Okay!"

Everyone praised and they hurried away to make preparations.

In front of Dao Palace, Qin Mu, Lin Xuan, and Xiao Chunfeng praised in their hearts when they noticed those old Daoists ignoring them and hurrying away instead. 'There is an intelligent person in Clear Sky Sect that has managed to see the situation clearly.'

Yu Chen'zi had guessed what they were thinking accurately. They didn't want to hand their life and benefit to Dao Ancestor's choice, thus they were going to get rid of their opponent first and force Dao Ancestor to lean towards their choice!

"This is truly a changeable situation in the sky."

Qin Mu raised his head to look at the sweeping wind and surging clouds in the sky covering the man-made sun and moon, allowing various kinds of man-made galaxies and constellations to appear. It was abnormally mesmerizing and he exclaimed in admiration. "The algebra divine art of Dao Sect is extraordinary, it's able to evolve all Dao in this world."

Xiao Chunfeng also looked at the sky and praised, "Overlord Body Qin's horizons are truly extraordinary. The reason why the celestial heavens view Dao Sect important is because Dao Sect's attainments in algebra are unmatched in this whole world, they are the best throughout the ages. The god army of the celestial heavens, including the ten guards of the celestial heavens have their weapons and formations designed by Dao Sect."

“That is why if I want to fight for the world against the celestial heavens, I have to receive the support of Dao Sect,” said Qin Mu.

Suddenly, a youth behind him roared and rose into the sky. He leaped into midair and shouted, “The one with the surname Qin, show me what is called the overlord body!”

That youth stood in the air and his body suddenly shook. His primordial spirit appeared behind him with tortoise and snake coiling around each other. The tortoise had a dragon head and the snake had a thousand pairs of wings on its back while its jaw was wide open.

That was the black tortoise.

When Black Tortoise Primordial Spirit appeared, a huge river instantly appeared in the sky and appeared under the feet of the black tortoise. The long river gave off loud crashing sounds as it surged and smacked the air.

Qin Mu looked at Lin Xuan and said with a smile, “Dao Master Lin, the disciple of North Deity Xuan Wu, do you have the confidence?”

Lin Xuan didn’t even look at North Deity’s disciple and said with a smile, “Cult Master Qin, the structure of your brain is different from others, you always have strange and marvelous thinkings yet you never do it personally, you just hand it over to us. You also always run around frequently and would not return for one to two years. After coming back to Eternal Peace this time, you were also busy so you probably have not understood the extent of our development in the paths, skills, and divine arts in Eternal Peace Dao Sect, am I right?”

Qin Mu was slightly stunned. Dao Master Lin Xuan took a step forward and slowly rose into the sky step by step. He walked towards the disciple of North Deity Xuan Wu with a smile. “Xu Shenghua once said, Computation Canon of Supreme Molecule and magnetic force, these two research directions, it is easy for the magnetic force to bear fruits from the research but the one with the greatest impact on the reform will still be Computation Canon of Supreme Molecule. Magnetic force only creates one more system of divine arts in the world but the Computation Canon of Supreme Molecule can change all of the paths, skills and divine arts in this world. It can even change the structure of divine weapons, the structures of formations! Over these years, my entire Dao Sect was focused on researching Computation Canon of Supreme Molecule! The Computation Canon of Supreme Molecule you had handed me was only the framework and over these years, my Dao Sect has elaborated on the method of calculation and improve divine art from there!”

In midair, North Deity Xuan Wu’s disciple executed the huge river with his primordial spirit and there were also five great thunderclouds that rose from the long river. With five layers of clouds and five layers of lightning, the wind, clouds, lightning and that dragon-like river crashed down on Lin Xuan with a huge momentum!

North Deity was one of the four deities, a god-king from the past, naturally born from the Great Dao. Even Di Yiyue had sought knowledge under them.

And this disciple of North Deity also had incomparably dense cultivation. He stood on the head of the flying serpent which flew in spirals, appearing and disappearing unpredictably. He executed his divine art on top of the flying serpent's head while the black tortoise below gave off a dragon roar. With its sharp claws and teeth, the sky dimmed as it ripped through the sky, and the sky turned bright again when illuminated by the lightning!

North Deity's bloodline was known for its dense cultivation and shocking defense. This person was not to be underestimated!

"What I had changed first was the Fourteen Writings of Dao Sword. Even though I had only perfected the first seven writings of Dao Sword, it is far from what the country bumpkins in the celestial heavens could be a match for!"

Dao Master Lin Xuan gave a long howl and pulled out his sword to face North Deity. His words and actions were filled with incomparable confidence. "Cult Master Qin, look at my true sword and know what you have missed over these years!"

First Writing of Dao Sword, A Dot Threading The Vast Movements, Yin And Yang Come And Go Within Two Modes!

In the sky, the black and white taiji diagram that was three hundred yards wide appeared. The yin and yang changing inside had become incomparably fine and the internal structure was completely different from the previous Dao Sword.

In the past, the First Writing of Dao Sword was known for being grand and varied. Now, his Dao Sword was both grand and minuscule thus the transformation in algebra was already complicated beyond measurement!

This was the result of Lin Xuan researching Computation Canon of Supreme Molecule dedicatedly.

When Qin Mu was comprehending the heavenly fire, he comprehended the Computation Canon of Supreme Molecule to use it to construct the minuscule structure inside the heavenly fire.

However, even though he knew Computation Canon of Supreme Molecule had a boundless future, he would never spend all his life and effort to perfect the Computation Canon of Supreme Molecule. That was why Qin Mu handed it over to Lin Xuan and Xu Shenghua.

Xu Shenghua was busy with establishing High Heavens Academy. He also needed to research magnetic force with Granny Si so he rarely had time to head to Dao Sect.

On the other hand, Dao Master Lin Xuan spent all his effort on Computation Canon of Supreme Molecule and over these few years, he finally let his Dao Sword undergo a world-flipping transformation.

Qin Mu raised his head and as the founder of Computation Canon of Supreme Molecule, he could see the true marvel of Dao Sword and he exclaimed to himself. 'Imperial Preceptor is right, in just a few years' time, the paths, skills and divine arts of Eternal Peace has been turned upside down. I have always been drifting outside so I had indeed missed out on a lot of reform. Luckily, it's not too late yet. After I

settle Clear Sky Heaven's matter, I need to go to the academies and Imperial College to seek knowledge again. If I don't learn, I might really be surpassed by Lin Xuan and the rest.'

In the sky, the momentum of the divine art from North Deity's disciple was huge and incomparable. Yet, it was broken through by Lin Xuan's sword in the next instant!

The entire Clear Sky Sect was looking for the thieving old Daoist and they got astonished by this sword. They raised the head to look at midair with mesmerized gazes.

Clear Sky Heaven was the branch of Dao Sect and they have also cultivated Dao Sword. However, Lin Xuan's Dao Sword had minute difference from them. From grand to minuscule, using different algebra and different details to reconstruct the grand, making it even more perfect and making Dao Sword have no flaw anymore!

Lin Xuan's Dao Sword changed once more, Binding of Five Qi and Three Aeons, Rising on the Spot, Cloud Chariots Crossing!

When this move was unleashed, all of the Daoists on the mountain and below the mountain couldn't help cheering. They were more and more mesmerized.

Dao Sword's second writing was ternary and quinary, using algebra to construct the sun, moon, and seven stars. This involved the course of the sun, moon and the five elements.

Yet when Lin Xuan executed this move, even though the move was the same, the internal structure was completely different. There were unlimited details added and if one continuously deconstructed the insides of the sword skill, they would deconstruct out countless courses of the sun, moon and five elements!

Blood light appeared in the sky. North Deity's disciple was already injured.

Five Colored Auspicious Clouds Cover, Celestial Sounds Tinkling on the Three Heavens!

The third writing of Dao Sword was already out and when Dao Master Lin Xuan executed this move, the beautiful Dao voice poured out and the head of the North Deity's disciple left his neck. His primordial spirit quickly escaped.

Dao Master Lin Xuan's Dao Sword slashed towards his primordial spirit. Behind Qin Mu, the disciples of East Deity, South Deity, and West Deity immediately pounced out and went straight for Lin Xuan who was in the sky, trying to block him.

Lin Xuan's sword skill circulated and his sword move changed again. Every manifestation of nature appeared in the sky and the cheers from the Daoists could be heard throughout the whole mountain.

Turning Heavenly Cycle Silently, Meeting Every Manifestation of Nature Shifting!

The speed at which his sword skill was changing was extremely fast. Every manifestation of nature appeared and in the next instant, they transformed into the fifth writing. Jade Cave Taking Back Myriad of Transformations, Romance on Kunlun Mountains!

Kunlun Mountain's apparition appeared in the air and Dao Master Lin Xuan stood on the mountain. The sword trembled in his hand and his sword move was like jade cave which absorbed every manifestation of nature into it. Even the disciples of East Deity, South Deity, and West Deity were sucked into the jade cave.

With the roars and screeches from the dragon, tiger, and phoenix, the three of them broke out from the hole and their body was covered with fresh blood.

What welcomed them was the sixth writing of Dao Sword, Seven Unusual Looking Golden Lotuses, Fondness of the Generous Qing Dynasty!

The three of them defended at the same time and Dao Master Lin Xuan moved along with his swords while reciting. "Drifting and homeless alone, empty anxiety, rather having exaltation—"

This was the seventh writing of Dao Sword.

After executing the seventh writing of Dao Sword, the three disciples were covered in injuries worked together to block down this move. Suddenly, the sword light pulled back and Dao Master Lin Xuan descended down like a sword light.

He had only evolved Computation Canon of Supreme Molecule to the seventh writing of Dao Sword. After the seventh writing, it would be ordinary Dao Sword that couldn't be blocked by the three great experts.

And at the same time, Qin Mu and Xiao Chunfeng soared into the sky at the same time. Both of them clashed in midair and Xiao Chunfeng blocked Qin Mu's attacks only to see Qin Mu taking off the golden willow leaf on the heart of his brows. His head shook as he revealed his three heads and six arms. Three beams of light burst forth from his three heads!

Xiao Chunfeng had just blocked down his previous move and he cried out to himself when he saw these three beams of light heading straight for the three disciples!

Chapter 832: Celestial Heavens' Librarian

North Deity's disciple already had his corporeal body severed by Dao Master Lin Xuan, leaving only his primordial spirit to escape. On the other hand, North Deity and West Deity's disciples suffered severe injuries under Lin Xuan's sword.

From the looks of it, the three of them would be unable to escape from the divine light coming out from Qin Mu's third eyes.

In Qin Mu's third eye, layers of heavens opened up and there was a total of nine heavens.

This was the Nine Heavens Eyes Awakening Skill that Blind had taught him. In the past, Qin Mu could only open up Jade Heaven's Eyes but now he could open up all nine heavens!

These nine heavens formed rings of formation in his third divine eyes and there was a total of nine layers of formation markings. In the center of the eyes was a galaxy form by the stars and in the center of the galaxy was a sun that was floating up and down.

Blind's Nine Heavens Eyes Awakening Skill had absorbed the essence of Sun and Moon Pupils that belonged to God Zi Qing, the number one divine eyes of Founding Emperor Era. Blind's eyes skill was improved but because Blind had only received the formation skills for Sun Pupil then, he had only imparted his skill with Sun Pupil to Qin Mu then.

Afterward, Blind managed to patch his skill with Moon Pupil but because Qin Mu was running everywhere, he didn't have time to learn Moon Pupil Divine Eye. If both sun and moon were combined together, the power would only be even stronger.

And now, Qin Mu was using his third divine eye to execute Nine Heavens Eyes Awakening Skill. It was different from what Blind had taught him because what the galaxy surrounded in his eye was a black sun.

The third eye in the heart of his brows was no ordinary eye. It symbolized the identity of Son of Youdu and it was similar to the vertical eye that Earth Count had. It was a devil eye transformed from the Great Dao of Youdu. It was an eye of the oblivion, one that could drive away and slay ghosts and gods.

This eye was originally sealed by Earth Count but after accidentally releasing his big brother, Qin Fengqing, this third eye had only awakened then.

At this moment, he transformed into his three-headed and six-armed form. Three straight and pitch-black beams shot out and sliced through the air.

East Deity and West Deity's disciples weren't far from him so they couldn't dodge in time. The black line pierced through the hearts of their brows. On the other hand, North Deity's disciple got killed by Lin Xuan and only his primordial spirit was left. He had avoided the battlefield and was slightly further away.

However, the black light was extremely fast so there was no time for him to react. The black light pierced through his body.

His primordial spirit was Black Tortoise Primordial Spirit and the black light pierced through his hard shell before piercing through the flying serpent as well. Where the black light had struck, darkness spread out and infected the entire primordial spirit. No matter if it was the black tortoise or the flying serpent, they were both dyed black.

Bang.

His primordial spirit exploded and transformed into countless black soul sand. With a gentle blow from the wind of Clear Sky Heaven, they quickly dissipated and couldn't be seen by the naked eye anymore.

Meanwhile, East Deity and West Deity's disciple fell from the air and landed near Dao Palace. One of them collapsed to the ground and transformed into a green dragon that stretched for three hundred yards while the other one transformed into a white tiger that was covered in light.

Both of the huge beasts struggled to get up and gave off a few angry roars before taking their last breath. Their bodies quickly petrified and they turned into two vivid stone statues. The forms of their struggles could still be seen.

On the other side, South Deity's disciple let out a sharp scream and transformed into a vermillion bird to escape, leaving a trail of flames in the sky.

Below her, Lin Xuan shouted, "That young lady, Cult Master Qin said he and your teacher go way back, he won't kill you!"

That woman in red ignored him and headed straight for the gate of Clear Sky Heaven with her extremely fast speed. She flew to where the green light was and dove in. The green light undulated and this woman was seen struggling in a net the next moment. She was caught by a heavenly net.

That vermillion bird struggled to break free from the heavenly net but she couldn't do it. At the four corners of the heavenly net were four old Daoists and each of them tugged onto a corner to trap her.

Dao Master Lin Xuan opened up his Yin and Yang Dao Eyes to look and saw the structure of the heavenly net was extremely intricate. It contained extremely profound attainments in algebra so he couldn't help exclaiming endlessly.

"Clear Sky Heaven is skilled in macroscopic algebra, their attainments in macroscopic algebra surpasses Eternal Peace Dao Sect by leaps and bounds."

He was very delighted and said to Daoist Cha who was beside him, "On the other hand, our Dao Sect have attainments that they couldn't match in Computation Canon of Supreme Molecule. If we work together, it would be fortunate for Eternal Peace's paths and skills!"

Daoist Cha hesitated for a moment and he asked, "Dao Master, it's still hard to say if Clear Sky Heaven is friend or foe, is Dao Master so sure that Clear Sky Heaven will help our Dao Sect? Our Eternal Peace Dao Sect is still established by relinquished disciples after all..."

"Cult Master Qin definitely can do it!" Lin Xuan was full of confidence.

Daoist Cha scratched his hair that was alternating between black and white and he thought to himself. 'Are you Dao Master or is he Dao Master? Isn't your confidence in Heavenly Devil Cult Master way too high...'"

In the sky above, Qin Mu and Xiao Chunfeng were rising higher and higher. Xiao Chunfeng's abilities were extraordinary and his attainments in algebra were also frighteningly high.

He was the disciple of Dao Ancestor after all, a successor of Celestial Heavens' Dao Sect. Even though he didn't receive personal teaching from Dao Ancestor, his achievements were also extraordinary.

What he had executed wasn't sword skill.

The ultimate skill that Eternal Peace Dao Sect was good in was the Fourteen Writings of Dao Sword, it was the sword skill of their sect and every Dao Master had to study and comprehend it. For the

technique, it was Precelestial Supreme Mystery Technique and it was also incomplete. Only after Daoist Cha had brought the Dao Sect's techniques of Founding Emperor Era was the technique completed.

However, no matter if it was the Fourteen Writings of Dao Sword or if it was Precelestial Supreme Mystery Technique, they were merely two kinds of techniques among the thousands of techniques.

Dao Ancestor created Dao Sect and the objective was to use algebra to interpret all things in the universe, to interpret the Great Dao of Heaven and Earth. Dao Sword was merely one of them and Supreme Mystery Technique was also only one of the techniques. It wasn't considered the best Emperor's Throne technique.

Even so, Dao Master Lin Xuan could be said to be the most outstanding talent of Eternal Peace. There were not many people of the younger generation that could be compared to him in terms of abilities.

However, what Xiao Chunfeng learned was the most orthodox technique of Celestial Heavens' Dao Sect, the complete algebra. In addition to that, he has the best teacher and was the son of Great Moon Sovereign, a half-god with an extremely high bloodline. His abilities among the same generation in the celestial heavens were also outstanding and he even surpassed the disciples of the four deities.

Both of them moved in the sky. The technique that Xiao Chunfeng had executed intrigued Qin Mu. Behind this young Daoist was a divine bridge floating in the sky which was connected to the void. His primordial spirit stood on the divine bridge.

His primordial spirit was a god in the shape of a toad. He stood up, holding a pestle used to grind medicine in one hand and a woodcutting ax in the other. In his mouth was a wooden rod.

The primordial spirit of this god activated the Great Dao of Heaven and Earth and caused the stars in Clear Sky Heaven to shine continuously, boosting the power of his divine art.

In just a short moment, Xiao Chunfeng had executed the divine art of several hundred different systems, dazzling Qin Mu's eyes!

These divine arts included the Great Dao from the three hundred and sixty stars and it even included Great Sun Sovereign and Great Moon Sovereign's divine arts!

The gods of the stars all had different attributes in the Great Dao and they even conflicted with one another. However, he could move them as he willed and it was evident that the Dao Sect in the celestial heavens had interpreted the divine arts of these Great Dao and reconstructed them once.

Not only that, Xiao Chunfeng even executed the divine art of the Great Dao of Xuandu, Youdu, and Yuandu!

He quickly realized the divine art of Youdu didn't have much effect on Qin Mu and he was even countered by Qin Mu. Qin Mu was also extremely skilled in Yuandu's magnetism divine art. He immediately used the divine art of Xuandu and the stars to fight with Qin Mu.

Both of their figures rose higher and higher. In the sky of Clear Sky Heaven, the man-made sun, moon, and stars actually had their powers activated by his spells and divine arts. Stars in the sky trembled continuously and beams of light shot down at Qin Mu!

Xiao Chunfeng was in the right place and the right time so he could be said to be like a fish in the water. If he was somewhere else, he might not have such strong powers but in Clear Sky Heaven, he was nearly invincible!

Dao Master Lin Xuan looked at the starry sky and he looked at the sight of both of them fighting in the galaxy. In Xiao Chunfeng's hands, all kinds of divine arts were in his grasp and this made Lin Xuan sighed to himself ruefully.

'This is then the true successor of Dao Sect.'

Xiao Chunfeng has stirred up his emotion the most. During this trip, he was also the one who had given him the biggest shock. It surpassed others and nearly flipped his view of the world.

Eternal Peace Dao Sect always claimed to be the orthodox sect in the world yet he never expected it to be established by the relinquished disciples from the Dao Sect in the celestial heavens, they were established to fight against the celestial heavens.

In that case, Eternal Peace Dao Sect was actually the same as its old rival, Heavenly Saint Cult. They had the same goal yet they had fought for twenty thousand years for no reason at all.

On the other hand, the fake astronomical phenomenon was forged by Clear Sky Sect, a branch of Dao Sect. This had dealt a heavy blow to his Dao heart.

Now that he saw Dao Sect's true ultimate arts and he saw the true beauty of algebra. One would well imagine the impact of true Dao Sect's inheritance had on him.

'Cult Master Qin has met a tough enemy.'

Just as he thought until here, the galaxy in the sky circulated and all of the stars swirled uncontrollably. In the center of the galaxy, the sun converged!

Next, all of the stars formed Heaven Duke's figure.

The Daoists of Clear Sky Heaven raised their heads and they gave off a frightened look. They saw that the figure of Heaven Duke seemed to be formed from light. The man-made stars were actually forming a man-made Heaven Duke!

"Who is mobilizing the galaxy?" one of the old Daoists cried out in fear.

No one replied to him.

This man-made Heaven Duke couldn't be controlled by the Daoists of Clear Sky Heavens. This caused those Daoists cultivating in the halls on the various stars to be flustered. They quickly left the stars and were messed up.

Qin Mu and Xiao Chunfeng fought their way into the galaxy and at this moment, their bodies were also messed up from the vibration from Heaven Duke formed by the stars. They couldn't stabilize their bodies and got thrown by space lifted up by the movement of the stars.

Under everyone's gaze in Clear Sky Heaven, this man-made Heaven Duke actually slowly stood up and shook Clear Sky Heaven violently. It was as if this heaven of a hundred thousand miles also couldn't handle his power and was about to crumble from being squeezed!

Dao Palace was unstable and kept swaying endlessly.

Everyone on the mountain tried their best to stabilize their bodies only to see that Heaven Duke slowly raising up his head, growing taller and taller, further and further. Heavenly Duke's eyes grew brighter and brighter while the light from the stars grew more and more dazzling.

Dao Master Lin Xuan stabilized his body and was about to find the location of Qin Mu and Xiao Chunfeng who were in the galaxy when he saw Clear Sky Sect Master walking out from Dao Palace from the corners of his eyes.

"Senior Brother Sect Master!"

Dao Master Lin Xuan was about to ask when Clear Sky Sect Master's voice rang out. "Little Friend Lin, I have already made contact with Dao Ancestor, Dao Ancestor says he wants to meet you guys before making a decision. Dao Ancestor has been waiting in the celestial heavens for some time."

Dao Master Lin Xuan's mind was blown and he cried out. "In that case, the Heaven Duke in the sky is..."

Before he could finish his sentence, two thick beams of light shot out from Heaven Duke's eyes and the light shone down. The light shone on Qin Mu and Xiao Chunfeng who were in the galaxy and another hum drone as another beam of light shot towards South Deity's disciple who was trapped in the net. The last beam of light came straight for Lin Xuan.

The light dispersed and the four of them vanished.

The Heaven Duke in the sky suddenly became scattered and transformed into countless stars to move away. They returned back to their own course.

The sky regained its calmness and the tremors in Clear Sky Heaven also calmed down.

Numerous Daoists rose into the sky and head towards Dao Palace. An old Daoist brought a young Daoist to land on the ground and he hurriedly asked, "Sect Master, where are they?"

Clear Sky Sect Master stood in front of Dao Palace and raised his head up to look at the sky. He said unhurriedly, "They have gone to Guardian Pavilion in the celestial heavens, Dao Ancestor wants to meet them there."

"Guardian Pavilion in the celestial heavens?" That old Daoist was slightly stunned.

Clear Sky Sect Master nodded his head and revealed a look of envy. "Celestial Heavens Guardian Pavilion, it's where celestial heavens collect their books, Dao Ancestor is the Pavilion Master there, keeping watch over all kinds of books for the imperial family. Strange."

He was suddenly stunned. He turned around to look at that old Daoist and young Daoist with his pupils contracting quickly. "Junior Brother Fei He, how did your speed become so fast? The other senior and junior brothers still have yet to reach Dao Palace yet you are already here."

His aura suddenly burst forth and locked onto that old Daoist. He said coldly, "You are not Fei He, who are you? Why did you steal from my Clear Sky Heaven?"

That old Daoist suddenly laughed loudly and carried the little Daoist to leave before he was locked on by the qi activity. His speed stunned Clear Sky Sect Master.

Clear Sky Sect Master stretched out a finger and his flying sword soared into the sky like a beam of light. Even though his flying sword was fast, it was getting further and further away from that old Daoist.

Clear Sky Sect Master felt his hair standing on ends and shouted, "Senior and junior brothers, stop him! He is the thief!"

Countless divine arts and divine weapons in various colors chased after that old Daoist and it was a grand and magnificent sight. However, they were all left in the dust by that old Daoist.

"Seal Clear Sky Heaven!" Clear Sky Sect Master shouted.

At the entrance of Clear Sky Heaven, a heavenly net spread out only to see a figure flashing past, passing through the net as though it was a shadow. The Daoists guarding there caught nothing.

"Ghost, it's a ghost!" cried out many of the Daoists.

Chapter 833: Reconstructing Celestial Heavens

"There's no need to chase him anymore!"

Clear Sky Sect Master called back those old Daoists that were prepared to give chase and shook his head. "That person's speed is too fast and he is good at transformation. He's able to change his face as and when he likes so even if we can chase after him, we also won't be able to recognize him. Just leave this matter at that, there's no need to look into this or make it publicly known. Who is going to find Junior Brother Fei He, that old thief had disguised himself as Junior Brother Fei He so Fei He must have been tied up somewhere by him. I'm not sure where he's being stuff in."

There were Daoists that immediately left to search for Fei He's location while the other elders came quickly to Clear Sky Sect Master. They asked, "The astronomical phenomenon had transformed into Heaven Duke and activated the formations earlier, what is going on?"

"It's naturally the work of Dao Ancestor."

Clear Sky Sect Master said, "Eternal Peace Overlord Body, the emissary of the celestial heavens, they all want to get rid of each other and leave no choice for Dao Ancestor, but who do you think Dao Ancestor is? How would he let these two juniors decide his fate? This is not what a wise person would do."

Everyone's heart trembled. "What Sect Master mean is?"

"Dao Ancestor seized them to the celestial heavens was naturally to make his own decision. We don't have to worry about Clear Sky Sect's future and fate, Dao Ancestor will arrange it for us."

Clear Sky Sect Master said, "We just need to think of how to deal with the aftermath."

One of the Daoists hurriedly said, "Yu Chen'zi has already brought some men to prepare, he said that he would be preparing for both cases."

Clear Sky Sect Master listened to the details and couldn't help exclaiming in admiration. "Yu Chen'zi has done very well. The celestial heavens have outstanding people, such a small country like Eternal Peace could also have so many outstanding talents. It's lucky that our Clear Sky Heaven also have a younger generation that is comparable to them, we aren't falling behind by too much."

Outside Clear Sky Heaven, Daoist 'Fei He' brought the little Daoist to fly quickly and soon enough, they were tens of thousands of miles away from Clear Sky Heaven. He kept changing continuously and he was sometimes a man and sometimes a woman, he was sometimes old and sometimes young. He could even transform into the form of half-gods and would take out numerous sets of clothing which made the little Daoist flabbergasted.

Not only was this elder full of changes, but he was also even skilled in the art of creation, changing his appearance over a dozen times.

"It should be safe now, the Daoists of Clear Sky Heaven won't be able to catch up."

That elder changed back to his original appearance and he walked around Celestial Venerable Yu with his hands behind his back. He examined him with an honest-looking face and as what Qin Mu had expected, this elder was none other than Cripple.

Celestial Venerable Yu was feeling uneasy.

"Truly a good sapling."

Cripple praised and said, "You learn everything fast and you are even faster than Mu'er that little rascal. Come, let us be petty thieves and steal throughout the world!"

Celestial Venerable Yu hurriedly shook his head. "I want to find my brother..."

"Why do you want to find him?"

Cripple shook his head and was slightly unhappy. "This brat was very interesting when he was young, he's not as fun when he grew up. I teach him Heaven Pilfering Sun Switching Hands and thought that he could one day steal throughout the world with me, becoming a grandpa and grandson duo. Now, look at

him, running out to play every day and not bringing me along. Furthermore, he doesn't steal as well, after learning from Butcher, his head is full of muscles now. Let's go, I shall show you my treasure vault! Let me tell you, I become so rich these few years, that even Emperor Yanfeng will have to call me Lord Thief. Can you fly? Let me teach you how to step on the wind..."

Light flickered and Qin Mu was situated in the flowing light. He was slightly stunned. 'This is... teleportation divine art? It seems a little more intricate than Teacher Woodcutter's teleportation divine art, it also seems like a shift in space... Could Dao Sect and Founding Emperor have an unclear relationship?"

Teleportation divine art was imparted by Saint Woodcutter to Heavenly Saint Cult and the light which Qin Mu and the rest were in was a shift in space. It was even more intricate than teleportation divine art and the algebra was even more exquisite.

Both of them had similar points so that was why Qin Mu suspected Woodcutter had seen before the space shift from Dao Sect.

He was originally a little flustered but now he had calmed down. He quickly sorted out his thinking and thought to himself. "Heavenly Teacher Fisherman said that the older generations were all scheming and crafty... En, wise and sensible, that is indeed the case. This space shift divine art was definitely executed by Dao Ancestor by borrowing the power of the astronomical phenomenon. He doesn't want me and Xiao Chunfeng to decide the stand of Dao Sect for him, thus he had captured us to make his decision personally."

When the light faded away, Qin Mu saw the light gradually retreating. Xiao Chunfeng, the young woman in red, and Dao Master Lin Xuan also appeared from the retreating light.

The woman in red revealed a look of fear and put up her guard.

Xiao Chunfeng coughed and said, "Yu Hongxiu, there's no need to worry, Dao Ancestor is the one that had summoned us."

Dao Master Lin Xuan praised and said, "When Dao Ancestor was mobilizing the Heaven Duke formed from the aspect of the celestial bodies, the algebra used is truly incomparable."

Qin Mu examined his surroundings and realized that they were located in a vast construction made of jade. This construction was built with bricks of jade and roof beams that were extremely high. Looking upwards, one could see six corners so it should be a hexagonal building.

Looking out, one could faintly see that there were thousands of palaces and halls outside that was a dazzling sight.

"It's extraterritorial celestial heavens outside?"

Qin Mu's heart stirred. He wanted to walk out of this jade building to see if it was still the Dragon Han Celestial Heavens from back then but he held himself back.

He continued to examine this building. The building was hollow and there was a pillar that required a dozen people to hug stabbed in the center of the building. Steps swirled around this pillar and looking down from upwards, one couldn't see how many floors there was in this building.

There were rows of bookshelves at all six walls on every level and they were also carved from fine jade. On every floor, there were several jade bridges that were between the jade pillar so one could walk to the six walls through the jade bridges to read the books.

However, the weird thing was that this library was empty. When they suddenly appeared here, no one came to ask anything.

They looked out and saw that there was no one in the surroundings as well. It was very empty.

"This is... Guardian Pavilion of the celestial heavens!"

Xiao Chunfeng's gaze wavered and he said with softly, "Guardian Pavilion, this is the supreme sacred ground where the celestial heavens collect their books, the books that are guarded here are all top secrets of the celestial heavens! Strange, why did Dao Ancestor summon us here? Isn't he afraid that the celestial heavens would discover that he had actually summoned the rebels of the lower bound here as well?"

Yu Hongxiu calmed down her emotions and endured her pain. "Dao Ancestor has summoned us so why hasn't he shown himself?"

Qin Mu asked in concern, "Sister Hong Xiu, are your injuries fine? I'm skilled in the art of healing, after getting treated by me, you will be able to bounce around soon enough."

Yu Hongxiu snorted and left further away from him. She moved closer to Xiao Chunfeng.

Dao Master Lin Xuan walked forward and said kindly, "Senior Sister Yu, Cult Master Qin is known as the divine physician in Eternal Peace, he was even known as the sacred hands of gynecology when he first started out. His reputation has spread throughout the heaven."

Yu Hongxiu gritted her teeth and sneered. "Both of you have ill intentions!"

Qin Mu shrugged. He climbed up on the jade steps and came to the bookshelves on the second level of Guardian Pavilion. He took out a book randomly.

The book was forged from jade and split into long strips that were strung together with a golden string. It was like books strung together with bamboo writing slips but what was carved on it weren't writings, it was runes.

Lin Xuan, Xiao Chunfeng, Yu Hongxiu also walked forward. Xiao Chunfeng and Yu Hongxiu were slightly further away from them and they also took out a jade scroll to take a detailed look.

"These strange runes..."

Yu Hongxiu shook her head. She didn't recognize those runes so she put it back.

“These are basic runes of Great Dao that are constructed by algebra, they belong to the heavenly spirits runes of the heavenly cycle stars. The runes in my scroll belong to Leader Star.”

Xiao Chunfeng said, “Could the other scrolls be the Great Dao runes of other Heavenly Spirits Gods?”

“No.”

Qin Mu shook his head and said, “This scroll of mine is also the runes of Leader Star.”

“Mine too.” Lin Xuan put down the scroll in his hand.

Xiao Chunfeng moved quickly and opened up the other scrolls. He saw that the runes on the scrolls were all runes of Leader Star. Leader Star Sovereign was a god of the stars and was also an ancient, he was born from heaven and earth, born from the Leader Star.

There should only be a hundred types of basic runes but the number of runes recorded on these jade scrolls was simply way too much. This made Xiao Chunfeng slightly at a loss. “Are these Leader Star Sovereign’s divine arts that are recorded on the jade scrolls? Aren’t there way too many divine arts...”

Qin Mu’s heart stirred and he suddenly waved his hand. His vital qi flew out and all of the jade scrolls on the bookshelves flew up. The scrolls open up as they swirled around the jade pillar and the runes on the jade scrolls faced the translucent jade pillar.

The jade pillar refracted the light and reflected the runes on the jade scrolls. The runes gradually lighted up and a scarlet dragon heavenly god actually appeared inside the jade pillar. It looked fierce and fiendish, vivid and lifelike.

“So I see!”

Qin Mu swept his sleeve and all of the jade scrolls returned back to the bookshelves.

He came to the third level and repeated what he had done. The runes of every jade scroll shone towards the jade pillar and the figure of Strength Star Sovereign appeared.

The runes on the fourth level belonged to Knowledge Star while the fifth floor belonged to Leisure Star. Qin Mu climbed quickly and reached three hundredth and sixtieth levels. He aimed the jade scrolls here towards the jade pillar.

Xiao Chunfeng’s body trembled violently as he looked at the apparition of the ancient god that had appeared in the pillar. That was his mother, Great Moon Sovereign.

This caused his heart to become flustered. “The runes on these jade scrolls are just enough to form a star god, what is Dao Ancestor trying to do by using runes to reconstruct the star gods?”

Qin Mu continued to walk upwards and on the three hundredth and sixty-first floor, it was Great Sun Sovereign. It was also the rune structure of Great Sun Sovereign.

Qin Mu looked at the Great Sun Sovereign in the jade pillar and he burst into laughter. "No wonder Great Sun Sovereign had died so easily, looks like he had been studied thoroughly, that's why another Great Sun Sovereign could be created after he died!"

Dao Master Lin Xuan, Xiao Chunfeng, and Yu Hongxiu quickly followed after him and their heart skipped a beat when they heard what Qin Mu had said. Xiao Chunfeng laughed and said, "Overlord Body Qin, what nonsense are you spouting? When had Celestial Heavens' Great Sun Sovereign died? He is clearly living well!"

Qin Mu took a glance at him and didn't say a word.

The higher they went up Guardian Pavilion, the more astonished they were. After reaching the three hundredth and sixty-first floor, the position of the ancient god carved on the jade scrolls would be higher. For example, there were Purple Star God, Heavenly Emperor God.

Finally, Yu Hongxiu gave a sharp cry. She saw the runes from the jade scrolls forming the shape of her master in the jade pillar, it was the figure of South Deity Zhu Que!

Qin Mu said calmly, "South Deity is not the only one, the other three deities are probably lined up as well!"

Everyone continued to climb up and as expected, they saw the jade scrolls of North Deity, East Deity, and West Deity.

"Now that all four deities are present, what could be above?" Xiao Chunfeng suddenly felt fear and his legs started to shiver. He stopped and didn't dare to walk up anymore.

Qin Mu took a glance at him and shook his head. "Celestial Heaven's trash."

Xiao Chunfeng was furious. "Don't underestimate the celestial heavens!" After saying that, he gritted his teeth to follow him.

"This is Goddess of Heavenly Yin."

"This is Celestial Empress, I saw her corpse before... Hmm? That's not right, it's Celestial Empress' sister."

"This is then Celestial Empress."

Finally, they came to Mother Earth's level. Qin Mu looked at Mother Earth that was in the jade pillar and he sighed ruefully. He said with a smile, "No wonder Mother Earth would die in Yuandu, so it turns out your secrets have already been unveiled, there's nothing for you to hide anymore."

Xiao Chunfeng and Yu Hongxiu were terrified. They looked at the Mother Earth inside the jade pillar and didn't dare to think of the story within.

Qin Mu shook his head and continued to climb.

On this level, he saw Heaven Duke.

The jade scrolls on this level seemed to be lacking and Heaven Duke's figure wasn't completely constructed. However, this kind of structure was also close to completion.

"Heaven Duke is not far from dying," said Qin Mu suddenly.

Xiao Chunfeng and Yu Hongxiu's eyes were filled with fear. They wanted to turn and run but there were still several levels to the top of Guardian Pavilion. These few levels held a lethal attraction to them and made them subconsciously wanted to climb up these few floors.

Qin Mu climbed up another level and the runes in the jade scrolls belonged to Earth Count. However, much of the runes were lacking. The structure of Earth Count was also incomplete. There were many more missing areas when compared to Heaven Duke.

"If we continue to go up, it should already be Celestial Emperor of the ancient gods, right?" Qin Mu said with a smile.

Xiao Chunfeng and Yu Hongxiu almost fainted. Dao Master Lin Xuan's voice was hoarse and he said with a chuckle, "Cult Master, you are joking now. Why would Celestial Emperor let Dao Ancestor reconstruct himself? Could he want to kill himself to replace himself?"

Qin Mu said with a smirk, "Hard to say."

After a moment, the three of them looked at that celestial emperor of the ancient gods and were speechless for a long time.

Yu Hongxiu finally gave out a soft groan and fainted. Xiao Chunfeng's face was deathly white and his body was shivering. He didn't dare to say a word.

Qin Mu raised his head and saw that there was still one more level in Guardian Pavilion. He muttered to himself, "Basically, all of the ancient gods have been reconstructed so what could the level above be used for?"

His curiosity was incomparably exuberant. The others already didn't dare to climb anymore yet he continued to climb with great excitement.

After a moment, the corners of Qin Mu's eyes twitched randomly as he looked at the youth inside the pillar in a daze.

"Dao Ancestor, what exactly are you trying to do?" he muttered.

Chapter 834: Dao Ancestor's Celestial Heavens

Qin Mu controlled numerous jade scrolls to fly around the jade pillar and the runes on the jade scrolls projected themselves into the jade pillar to form the shape of a youth. As the jade scrolls moved, the youth in the jade pillar also slowly turned his body as well.

Qin Mu could clearly see the internal structure of this youth's head as well as the internal structure of all kinds of organs.

Qin Mu shifted the position of those jade scrolls and he could even see magnify the organs of the youth's body and examine even finer structures.

This youth was Celestial Venerable Yu.

Qin Mu stood in front of the jade pillar and carefully examined the Celestial Venerable Yu that was in the pillar. The Celestial Venerable Yu projected out by the jade scrolls gave him a wrong feeling.

The projection of Celestial Venerable Yu was not like the other ancient gods. For the other ancient gods, the runes of their Great Dao were first constructed using algebra as to recur the Great Dao. On the other hand, Celestial Venerable Yu's corporeal body was directly constructed using algebra.

These jade scrolls weren't used to form another Celestial Venerable Yu, they were merely used to form another body of Celestial Venerable Yu.

Qin Mu carefully examined the runes on the jade scrolls and as what he had expected, these runes weren't runes of the Great Dao, they were runes of creation.

On the previous levels of the jade building, the runes on the jade scrolls were all runes of the Great Dao. They were rune markings formed when Dao Ancestor used algebra to deconstruct the Great Dao of the ancient gods.

The runes of the Great Dao of Algebra was different from the runes of creation. The Great Dao of Creation was also a Great Dao created by the races after the beginning of the world, it wasn't the structure of algebra.

Qin Mu felt that he was an expert in this field and the runes on the jade scrolls wouldn't stump him.

'Why is Dao Ancestor using these runes of creation to reconstruct Celestial Venerable Yu's corporeal body?'

He sank into deep thoughts. The quantity of these runes of creation was obviously not like the runes of Great Dao from the other levels. When Celestial Venerable Yu had just died, his cultivation was only just on the celestial palace and he had just become a god.

And yet Dao Ancestor placed the runes of creation on the highest level and even put Celestial Venerable Yu above Celestial Emperor. What was the meaning of this?

Qin Mu looked down and he saw this jade pillar leading straight down to the bottommost level. Layers of jade steps spiraled around the jade pillar while the six walls of the jade pillar were the rows and rows of bookshelves with the jade scrolls placed neatly.

Qin Mu muttered to himself irresolutely. Dao Master Lin Xuan and Xiao Chunfeng were still climbing towards the top while Yu Hongxiu was still knocked out.

Suddenly, his heart stirred and his vital qi suddenly burst forth. He sprinted down the jade pillar!

Xiao Chunfeng was alarmed as he thought he was about to land a fatal blow on him but he saw Qin Mu's vital qi flowing into every level. Qin Mu swept up all of the jade scrolls on those bookshelves and unscrolled them. Countless jade scrolls opened up and turned to face towards the jade pillar!

In these several hundred levels, there was a huge amount of jade scrolls, so much that they were uncountable. Now, all of them had actually opened up!

To control so many jade scrolls, even Qin Mu, someone who had cultivated to the peak of the divine arts practitioner also couldn't help feeling a little strained.

At this moment, the runes that were glowing on the jade scrolls shone onto the jade pillar and instantly, the apparitions of ancient gods instantly appeared in the jade pillar.

At this moment, the lights shone upon each other and a pillar of light shone upward from the inside of the jade pillar.

Hmmm—

All of the light struck into Celestial Venerable Yu's body that was at the top and an incomparably dazzling light burst forth from the jade pillar!

Qin Mu covered his eyes. After a moment, he got used to the intense light and looked at the jade pillar.

The apparitions of ancient gods formed by runes on the jade scrolls passed through the refractions by the marvelous structures inside the jade pillar and turned into spots of light in Celestial Venerable Yu's body. The spots of light gradually converged and formed Spirit Embryo Divine Treasure.

After Spirit Embryo Divine Treasure was formed, Five Elements Divine Treasure was formed afterward. On each of the five elements stars, there was an apparition of ancient gods.

What formed next was Six Directions Divine Treasure where Mother Earth and Primordial Tree formed in the light. There were dragon veins, phoenix nests, mountain gods, river gods and small ancient gods all of shapes and sizes.

Next was the Seven Stars Divine Treasure where the sun, moon, and stars appeared. Great Sun Sovereign and Great Moon Sovereign appeared on the sun and moon respectively while the three hundred and sixty star gods appeared on the stars and constellations in the galaxy.

On the other hand, Heaven Duke's apparition was constructed by the stars, constellations, and galaxy to form Celestial Being Divine Treasure!

Qin Mu looked again and it was Life and Death Divine Treasure below. Youdu appeared and Earth Count was located in the darkness below Yuandu.

Next was Divine Bridge Divine Treasure, a divine bridge that led straight to the celestial palace!

Qin Mu looked at the celestial heavens and his heart trembled violently. He saw more spots of light formed by rune markings which formed an incomparably vast celestial palace in the heart of Celestial Venerable Yu's brows.

That was not a celestial palace, there were thirty-six celestial palaces!

There were not just thirty-six celestial palaces, there was also seventy-two throne halls!

This is a complete celestial heavens!

However, the complexity of this celestial heavens seemed to be beyond his imagination. It was constructed by the runes of every ancient god's Great Dao and even Celestial Emperor was only an ancient god sitting on the throne in Numinous Sky Hall!

Not to say the celestial heavens, even the seven great divine treasures were very different from the divine treasures of the divine arts practitioners in the world.

The divine treasures inside Celestial Venerable Yu's body contained all kinds of runes from ancient gods such as Heaven Duke, Earth Count, and Mother Earth, so the complexity was far above the divine treasures of divine arts practitioners.

However, even if the divine treasures were that complex, it was still insignificant when compared to the celestial heavens!

One could well-imagine how complex the celestial heavens that Dao Ancestor had constructed inside Celestial Venerable Yu's body was.

If this kind of technique was imparted out, it wasn't overturning the current cultivation system of the world, it was a massive perfection!

'Is Dao Ancestor sorting out these things in Guardian Pavilion to be used by the strong practitioners of the celestial heavens?'

Qin Mu was stunned.

This sight in Guardian Pavilion was a great shock and yet it wasn't as simple as perfecting the cultivation system of divine treasures and celestial palaces.

These ancient gods that had their secrets fully grasped would be replaced in the future if they were disobedient!

Heaven Duke, Earth Count, it would probably be the same for them.

Yet one thing that puzzled Qin Mu was, why Celestial Venerable Yu?

'The rune markings on the highest level can transform into anyone but why Celestial Venerable Yu?'

He was slightly puzzled.

And with Celestial Venerable Yu's soul being incomplete and a portion of his soul is hidden in this extraterritorial celestial heavens, Qin Mu couldn't understand this action of Dao Ancestor.

'Celestial Venerable Yu's soul was missing his memory so could Dao Ancestor be creating another Celestial Venerable Yu and planned to input this memory into this new body? However, would that celestial emperor in the celestial heavens allow him to do that?'

'Or could it be because that celestial emperor felt that Celestial Venerable Yu's corporeal body is the most perfect so he plans to reincarnate into this body?'

'It could also be that this cultivation system of the celestial heavens wasn't perfect so that celestial emperor needed Celestial Venerable Yu's memory and intelligence to perfect this celestial heavens!'

'Is this Dao Ancestor's idea or is it that celestial emperor's idea?'

His head gradually started to ache because Dao Ancestor's attitude was simply too puzzling.

He had met the disciple of Ancient God Celestial Emperor, Yan Qiling, once before and the information she had revealed was that Dao Ancestor was assisting Celestial Emperor. Ancient God Celestial Emperor was different from the celestial emperor of the extraterritorial celestial heavens and they seemed to be enemies that would not back down until one of them dies!

Dao Ancestor was standing on the side of Ancient God Celestial Emperor and he was also the Pavilion Master the Celestial Heavens' Guardian Palace, assisting the celestial emperor of the extraterritorial celestial heavens to establish such a grand library!

Now, Dao Ancestor had summoned into Qin Mu and the rest into Guardian Pavilion to show them the plan of the extraterritorial celestial heavens' celestial emperor!

'Is Dao Ancestor good or evil? Is he neutral or biased? Or could he be...'

Qin Mu had a weird expression. 'A shit-stirrer?'

Dao Master Lin Xuan and Xiao Chunfeng came to his side and looked at the sight in the jade pillar. Both of them were also shocked and froze in place. They stood there, unable to say a word.

"Senior Brother Xiao!"

Qin Mu beamed and said, "Have you seen the cultivation systems of the divine treasures and the celestial heavens in Guardian Pavilion before?"

Xiao Chunfeng shook his head in a daze.

"In that case, have you heard about it before?" Qin Mu continued to ask.

Xiao Chunfeng shook his head once again.

“You have not heard before or seen before, in that case, do you think anyone in the celestial heavens has cultivated this kind of system before?”

Qin Mu slowly guided him to the answers he wanted and asked, “People who cultivate this kind of cultivation system would definitely be incomparably strong and be known as invincible. He would definitely be someone like me and even made you feel that he is an overlord body, that he is another Qin Mu, a person that you look up to and cannot hope to reach. Have you met such a person before?”

Xiao Chunfeng returned back to his senses and looked at him with a weird expression.

Dao Master Lin Xuan also secretly felt that Qin Mu was rather thick-skinned. Who would praise themselves like that?

However, Qin Mu wasn't wrong when he said those that cultivated this kind of cultivation system would be invincible in the same realm and made people have no hope of catching up.

If there was truly a person that had cultivated according to this kind of cultivation system, from the seven realms in the divine treasure to the seven realms of the celestial heavens, there would definitely no one who could be a match on the same realm!

If there were others than could cultivate to the realm of Celestial Heavens, they would even be the first from the past to the present. They would be invincible and even surpass the ancient gods!

The only pity here was that there was only the structure of the divine treasures and the celestial heavens here, there was no technique.

There were countless jade scrolls in Guardian Pavilion and runes of Great Dao on the jade scrolls were more than what they could count. Tidying all of these runes into one technique that unites all would definitely be an incomparably massive project!

Lin Xuan even suspected if there was a technique that could contain such a massive cultivation system!

‘Furthermore, this kind of cultivation system isn't perfect.’

He looked at Qin Mu. Xiao Chunfeng didn't know about the imperfection in this kind of cultivation system but Qin Mu definitely knows about it.

This first point was that this cultivation system still had Divine Bridge Divine Treasure.

And Divine Bridge Divine Treasure had already been replaced by Celestial River Divine Treasure that Qin Mu had created. Celestial River Divine Treasure was better.

The second point was still in the cultivation system of divine treasures. That seven great divine treasures were isolated from one another and they didn't transform into one complete divine treasure. Even the Primordial Tree rooted in Six Directions Land was also not complete. It couldn't be connected to the divine bridge.

If it was Qin Mu's Celestial River Divine Treasure, he could perfectly solve this point.

The third imperfection laid in the algebra that Dao Ancestor had used to construct the ancient gods.

What Dao Ancestor used was macroscopic algebra like Computational Canon of Supreme Mystery, Computational Canon of Mysterious Lady, it was missing microscopic algebra like Computational Canon of Supreme Molecule and that was something that Qin Mu had created, the Computational Canon of Supreme Molecule that Eternal Peace Dao Sect had perfected!

Without Computational Canon of Supreme Molecule, the Great Dao of the ancient gods which Dao Ancestor had deconstructed was imperfect.

With these three points, this cultivation system of celestial heavens which Dao Ancestor had constructed was imperfect.

There should still be more imperfections within but Dao Master Lin Xuan could only think of these three points currently.

"Now I know the intention of Dao Ancestor for summoning us here."

Suddenly, Xiao Chunfeng sighed and he became moody. He laughed at himself and said, "So I see. Now that I know the secret that lies in Guardian Pavilion, I can't stay in this celestial heavens anymore. If I want to live, I have to leave. Otherwise, when the secrets get out, I will definitely die."

He smiled bitterly.

He was originally loyal to the celestial heavens but now he had no choice but to betray the celestial heavens.

The more secrets he knew, the more danger he was in.

Now that he knew Guardian Pavilion's secret, if Dao Ancestor told this to Celestial Emperor, he would definitely die without a word!

It was the same for Qin Mu and Lin Xuan as well.

They had to keep this secret. If they couldn't, Dao Ancestor didn't need to kill them, there would naturally be someone to kill them.

Dao Ancestor had summoned them here to perfectly solve the problem of choosing a side.

He wouldn't stand on Qin Mu's side or Xiao Chunfeng's side. He just needed to summon both of them over so that they would have no more difference in factions. He made both of them stood there obediently.

'This is what Village Chief calls old and experienced.' Qin Mu sighed ruefully.

Only now did he understand how childish it was for him to plan to get rid of Xiao Chunfeng and forcing Dao Ancestor to take his side.

This kind of old and experienced person could easily solve their selfish calculations.

“Senior Brother Xiao, what do you plan to do after going back?” Qin Mu looked at the frowning Xiao Chunfeng and asked with a smile.

“I plan to go back to Clear Sky Heaven and help Clear Sky Heaven get rid of the bodies, shifting the blame to Mother Earth. Anyway, another small matter doesn’t really matter to her.”

Xiao Chunfeng gave another sigh and said, “I will then fake my death and leave the celestial heavens. I won’t contact my mother and hide as far as I can... Dao Ancestor is truly too ruthless by doing this!”

Qin Mu said with a smile, “You plan to study this kind of cultivation system? You want to make a comeback in the future when you have the abilities to?”

Xiao Chunfeng said indifferently, “My cultivation, abilities, wisdom, and intelligence are no weaker than you, I naturally have such an ambition. Now that Dao Ancestor still hasn’t sent us back, I shall memorize all of the runes in the jade scrolls here, farewell!”

He hurried down the building.

Dao Master Lin Xuan saw him down and he only said then, “Cult Master Qin, that person in the jade pillar is your Brother Yu.”

Qin Mu nodded. “It’s hard to explain. Let’s not talk about this first, let us go down first and memorize the runes on the jade scroll!”

Dao Master Lin Xuan sighed and said, “Even if you say, I really don’t dare to listen. The things in this building are already terrifying enough.”

He walked down with Qin Mu and whispered. “This Xiao Chunfeng didn’t see that when you clashed with him, you didn’t use your primordial spirit.”

Qin Mu took a glance at him.

Dao Master Lin Xuan said with a smile, “Don’t look at me like this, I know your true abilities. Even though you always say you are a line superior to me, I always the line you mean is a straight line, moreover, it’s probably a vertical straight line.”

Qin Mu wanted to be humble and Lin Xuan continued. “Other people think that you are bragging but they don’t know that you are actually too humble. The divine treasures of the god path plus the divine treasures of the devil path, in addition to that, fourteen divine treasures merging as one with the celestial river passing through every one of them, your abilities are already non-human. I wouldn’t be surprised if you can beat a devil god to death with your bare fists.”

Qin Mu let out a sigh. "Dao Master Lin knows me well. My humbleness is learned from Eternal Peace Imperial Preceptor. He always says he is a straight line so as the overlord body, I have to be a line higher than the others on my age."

Lin Xuan was silent for a moment before saying sourly, "If you continue to speak like this, you will get beaten to death."

Chapter 835: Long Time No See

There were several hundred floors in Guardian Pavilion and every floor had countless jade scrolls. There were also a huge number of runes on every scroll so it was a difficult task to remember all of these runes.

'To do a good job, the best tools are needed. If we were to memorize them one by one, how long will we have to take?'

Qin Mu sat on the steps and he stared at Lin Xuan, Xiao Chunfeng, and Yu Hongxiu hurrying to and fro, trying to memorize the runes in the jade scrolls. Yu Hongxiu had already come back to her consciousness but she still had to rest for half a day in order to return back to her normal mental state.

She also knew the intentions of Dao Ancestor and planned to fake her death as well after leaving this jade building, thus she began to memorize the runes along with the rest.

Memorizing the arrangements of the runes on one floor was already a terrifying amount to memorize. The arrangements of these runes could construct the structure of an ancient god's Great Dao so one could well imagine how complicated it was. It was very difficult to achieve this just by memory alone.

Even if they were people with outstanding intellect, it would still take them ten days to half a month just to memorize one floor.

Moreover, the runes of the ancient god's Great Dao at the bottom level were still considered simple. When it comes to the level of the four deities, the amount to memorize was dozens to hundreds of times more than the levels at the bottom.

When it comes to Heaven Duke, Earth Count, Mother Earth, and Celestial Emperor, the amount to memorize would probably increase several folds again.

Just by memorizing them and not making any mistake, one would probably have to stay here for a few hundred or even a few thousand years. Qin Mu would never stay here for so long.

The most crucial point was still that Guardian Pavilion was an extremely important construction in the celestial heavens so anyone from the celestial heavens could drop by anytime. Dao Ancestor wouldn't let them stay here for so long.

The longer they dragged this out, the greater the danger they would be in.

This also meant that they had to memorize all of the runes in the building in just a few days and leave.

Qin Mu rested his checks in his palms and fell into a daze.

Dao Master Lin Xuan, Xiao Chunfeng, and Yu Hongxiu were all in a frenzy as they quickly browsed through the jade scrolls to memorize with everything they had. The three of them would sneak glances over from time to time and yet they saw Qin Mu still sitting there without an ounce of panic.

The three of them were bewildered.

Not long later, Xiao Chunfeng came to his senses. 'It's impossible for me to memorize all of the runes in Guardian Pavilion with such a short time, I'm not that intelligent nor do I have such a strong memory. Therefore, I want to choose the best and that is the runes of Celestial Emperor's Great Dao. The best solution for me would be to memorize the runes of Celestial Emperor's Great Dao!'

Once he came to his senses, he immediately left this building and headed for the top.

At the same time, Dao Master Lin Xuan also came to his senses. 'I can't memorize so many floors so I have to extract the basic runes of these ancient gods and turn them into serial numbers, arranging them into one, two, three, four, five... In that way, I just need to memorize the several hundred runes and then memorize the arrangements of the serial numbers. In that way, I will be able to memorize the rune system of an ancient god's Great Dao in the fastest time!'

He was slightly excited and immediately started to number them.

Yu Hongxiu's eyes started to turn blurry and she suddenly came to her senses as well. 'I'm learning from South Deity, I'm also a vermilion bird half-god, what's the point of me memorizing the runes of other ancient god's Great Dao? Because of the different characteristics, cultivating their runes would only make me spend twice the effort for half the result!'

She immediately headed for South Deity's floor.

The three of them got busy while Qin Mu continued to sit on the steps of the first floor, lost in his thoughts.

The three of them had no time to straighten him out so they went on with their own work. Not only later, they peeked at Qin Mu when they took a break and saw that he had already stood up. He took out a bunch of calculation tools, brush, ink, and paper. He was writing and painting, activating his calculation spirit weapons to calculate some difficult questions.

The three of them rested for a moment and they went off to memorize their runes of the Great Dao.

When their brains couldn't handle it anymore, they took a break again and now they saw Qin Mu setting up a smithy and taking out a pile of divine metal. He raised the fire in the furnace and stuffed a crystal of heavenly fire in the furnace fire to smelt the divine metal.

The three of them were puzzled but they didn't have time to care about him. They rested for a moment before going back to what they were doing.

Clang, clang, clang.

Sound of hammering metal came from the bottom of the building and the three of them were more and more puzzled. They popped their heads out and saw Qin Mu forging the god statue of an eight-armed devil god. He summoned a spirit for that god statue that came to life. The god statue grabbed eight huge hammers and began to hammer a huge chunk of divine metal.

Meanwhile, Qin Mu executed devil fire divine art, god fire divine art, and yin water divine art to continuously temper that chunk of divine metal.

The three of them kept quiet and continued to memorize diligently.

Sometime later, when Qin Mu was still forging, the hammering sounds was so noisy that the three of them couldn't concentrate.

Yu Hongxiu couldn't take it any longer and she hardened her heart. She popped her head out and shouted upward, "Senior Brother Xiao, the one with the surname Qin has gone crazy, he doesn't want to learn and he's not letting us learn as well. Let us get rid of this guy!"

Xiao Chunfeng was also rather irritated by the noise. He hesitated for a moment before shaking his head. "We can't. You aren't a match for Lin Xuan and even though I'm no weaker than him, if he works together Lin Xuan, I will also die."

Quite sometime later, Lin Xuan's head was also swelling from the noise and shouted downward. "Cult Master Qin, settle down a little! You're too noisy!"

Xiao Chunfeng popped his head out from above and he cried out. "Dao Friend Lin, we are both from Dao Sect so we are senior and junior brothers, why don't we work together to get rid of this Lunatic Qin! Sharpening the ax will not interfere with the cutting of firewood, by getting rid of this Lunatic Qin, we can memorize even faster!"

Yu Hongxiu also popped her head out and nodded repeatedly, "This guy is not putting in any effort and not letting us memorize, how nasty! Let us get rid of him first then we can learn in peace!"

Dao Master Lin Xuan shook his head and said, "Stop talking nonsense, Cult Master Qin always has his own idea when he does something, there's definitely a reason for him to be doing so. I'm just asking him to be quieter."

Qin Mu was still there hammering away. That eight-armed devil god statue had already been reduced to scraps and thrown into the taotie sack by him. He was doing it personally now and his speed wasn't slow as well.

Lin Xuan looked down and saw that Qin Mu was forging a mirror. He was hammering runes of creation into the mirror to expand more and more space inside the mirror.

"What is he doing?" Dao Master Lin Xuan took a look and couldn't understand so he continued to memorize the runes.

Another one to two more days later, they got used to the hammering sounds and even though it was noisy, it couldn't affect them anymore.

Suddenly, the hammering stopped and the three of them were driven mad. They popped their head out and Yu Hongxiu stared with her eyes wide open. She was about to say something when Dao Master Lin Xuan roared angrily, "Scumbag Qin, why aren't you hammering anymore? If you don't hammer, we can't calm down!"

Yu Hongxiu couldn't resist and burst out into laughter. "This Dao Master Lin is always so mature and earnest, I didn't expect his temper to be even more explosive than mine."

Qin Mu was currently sweeping the ground and he cleaned everything up without leaving a trace. He raised his head and said, "I'm done hammering. Wait a moment, I'll come up after I finish sweeping the floor."

After a moment, he lifted up a mirror with his vital qi and went up the second floor. The three of them looked at him and saw Qin Mu using his vital qi to sweep up the jade scrolls. The jade scrolls opened up and shone towards the mirror.

Next, Qin Mu placed the jade scrolls back to their original positions and climbed up to the third level.

They saw him repeating the same actions again and not long later, he climbed up to the floor where Lin Xuan was on.

Dao Master Lin Xuan looked towards the mirror and was astonished. He saw jade scrolls that were opened up in the mirror and the runes of the Great Dao could be seen clearly on the scrolls.

These jade scrolls were arranged neatly in rows and he could check the rune markings on the jade scrolls anytime.

"Stop memorizing."

Qin Mu arranged the jade scrolls from the bookshelves in the air and shone the mirror at them. He said with a smile, "Even if I give you a hundred years, you can't memorize every single level. Moreover, if you memorize wrongly, you also won't know where you are wrong at."

Dao Master Lin Xuan looked into the mirror and saw another row of jade scrolls. He saw that the runes on the jade scrolls were exactly the same as the runes on this level, there was no mistake at all.

The only difference was that the jade scrolls in the mirror were flipped.

"When I go Dao Sect to seek knowledge, I will give you a copy."

Qin Mu continued to walk up and left the dumbfounded Lin Xuan on the spot. "After you calculate it again with Computational Canon of Supreme Molecule, give me another copy."

Lin Xuan came back to his senses and stumbled after him. He looked at him with a depressed expression as he imprinted rows after rows of jade scrolls from the bookshelves.

“Does this mirror uses the world inside the painting by Heavenly Painting Art Saint?” he couldn’t resist asking.

“That’s right.”

Qin Mu said without even turning his head. “There’s also my Grandpa Mute’s forging skills, as well as Crimson Emperor and Light Emperor’s art of creation. I even use magnetism divine art from Granny Si to overlap part of the space inside the mirror.”

Dao Master Lin muttered with his lifeless eyes. “Wonderful, how wonderful...”

“That’s right.” Qin Mu turned back and gave a kind smile.

Dao Master Lin Xuan found his kind smile to be unexplainably annoying and wanted to just punch him ruthlessly on the face twice.

Soon, Qin Mu came to the level where Yu Hongxiu was on and imprinted South Deity Zhu Que’s runes right in front of the girl in red before walking up to the next level.

Yu Hongxiu had a blank gaze and followed behind Dao Master Lin Xuan in a daze. She followed them up to the upper levels.

“Is Eternal Peace’s Overlord Body Qin always so quirky?” she couldn’t resist asking Lin Xuan.

Lin Xuan said helplessly, “He’s always like this. The structure of his brain is different from us, I...”

He shook his head and smiled bitterly, “I also don’t know how his brain grows, maybe the brain of an overlord body has a unique structure.”

Finally, Qin Mu came to the level where Xiao Chunfeng was on and Xiao Chunfeng opened his mouth wide when he saw Qin Mu imprinting all of the runes from the jade scrolls into the mirror.

Bathump.

Xiao Chunfeng collapsed on his butt and his limbs were weak. He hung his head down dejectedly.

Dao Master Lin Xuan stretched his hand out to him and gave him a warm smile. “It’s okay, you will get used to it, there is still a long time.”

Qin Mu stretched his lazy back and said with a smile, “I’m finally done, as for the runes of creation on the topmost level, I think there’s no need for them. Now that we have imprinted these runes down, Dao Ancestor should be sending up back to Clear Sky Heaven soon...”

Just as he said until here, human voices suddenly came from outside and they were gradually closing in. They could only hear a loud and clear voice speaking. “Is Guardian Pavilion still considered peaceful these days?”

“Guardian Pavilion is a forbidden ground inside a forbidden ground, who dares to sneak their way in here?” another elderly voice said with a chuckle.

“Hmm, that’s is true.”

That loud and clear voice said, “Now that the creation divine weapon is constructed, His Majesty’s intention is to retrieve the runes first and create that body.”

That elderly voice asked doubtfully, “Is it still too early to make it? There are still many runes that are not yet perfected and we still haven’t found thirty-six different celestial palaces...”

The sound of the door opening came from the bottommost floor and two long shadows appeared in the sight of Qin Mu and the rest.

Qin Mu made a hush action and signaled for the others to move back. The four of them hurriedly moved to a corner in the jade building so they wouldn’t be found out.

Qin Mu secretly looked at the two shadows and saw that one of the shadows was extremely gorgeous. Behind the head was layers and layers of flame-shaped vein lines.

“His Majesty’s intention is to first manufacture it and the rest of the runes could be slowly perfect in the days to come.”

That shadow with the flame-shaped vein lines walked into the building and his loud voice rang out. “It’s just that Heaven Duke and Earth Count aren’t that easy to deal with, they are too stubborn and too conceited...”

Qin Mu’s heart skipped a beat and cold sweat broke out on his forehead. ‘Celestial Venerable Huo! He is Celestial Venerable Huo!’

Xiao Chunfeng, Lin Xuan and Yu Xiuhong revealed looks of despair. The visitors were now heading up the building and soon, they would come to the very top!

When that time comes, the four of them would have no place to escape to and no place to hide!

“Why isn’t Dao Ancestor sending us back?” Xiao Chunfeng gripped his fists tightly and his body was trembling slightly.

Qin Mu frowned. Now that Celestial Venerable Huo and the other person had already started to climb the steps, Dao Ancestor probably doesn’t have the time to send them away!

If Dao Ancestor was to execute his divine art now, he would definitely be detected by Celestial Venerable Huo!

One had to know that Celestial Venerable Huo was one of the nine celestial venerables, the founder of Celestial Being Divine Treasure. He was even more ancient than Dao Ancestor!

His abilities were probably even above Dao Ancestor!

Qin Mu gritted his teeth and suddenly turned around. A pitch-black Gate of Heaven Influence silently appeared at the top and there was no fluctuation of vital qi at all.

Qin Mu's gaze twinkled and he signaled to Dao Master Lin Xuan.

Lin Xuan walked forward and Qin Mu moved his hands quickly. His various kinds of finger skills had a myriad of changes and they suddenly retracted as he tapped his index and middle fingers on Lin Xuan's forehead. He sealed his corporeal body and primordial spirit together before pushing him backward.

Lin Xuan's body fell involuntarily into Gate of Heaven Influence and he fell into Youdu.

Qin Mu looked at Xiao Chunfeng and Xiao Chunfeng hurriedly walked over. He did the same thing and sent him into Youdu.

Yu Hongxiu hurriedly walked forward and Qin Mu cast his spell once again. This time, he heard the voice from below again. "The two ancient gods are ancient yet they are stubborn and only swallow ancient learning without digesting it. They cannot see the general trend."

Those two voices moved closer to closer to the top at a steady pace. "Each of them has their own thinking. Heaven Duke is still fine, Earth Count is the slightly cunning one. Luckily for us, the daughter of Earth Count is still in the celestial heavens and now Son of Youdu is also born. They are the cruxes to getting rid of Earth Count..."

Qin Mu's heart jumped and his vital qi became messed up. Right at this moment, incomparably terrifying waves came assaulting from below and filled the entire Guardian Pavilion!

"Someone had infiltrated in!" Celestial Venerable Huo's voice rang out.

Qin Mu's expression changed drastically and he stretched out his hand to tap on the heart of Yu Hongxiu's brows before pushing her into Youdu!

And at this moment, Celestial Venerable Huo's figure appeared at the very top and he sneered. "How dare you infiltrate Guardian Pavilion, what guts! You can't escape in front of me!"

Qin Mu sighed softly and turned around. He revealed a smile and said, "Celestial Venerable Huo, long time no see."
