

Chapter 121 Pure Emotions

"Zhang Chao, if you want things to go well, you should keep an eye out, things won't go your way all the time." He said, "From what I can tell, the Property Management Committee is the one making all the decisions for Junran. You are the young master but you don't even have the authority to hire a simple security guard."

Shit, this old man was vicious. It looked like he already had me investigated.

The words seemed similar to what Zhao Zichen said to me before but it sounded as though the intention behind them was different. Zhao Zichen was just trying to entice me but Chen Ruhai was threatening me point blank.

It didn't matter which it was because both of them were able to guess my weakness. I was the young master of Junran, but at the same time I was nothing. There were not many employees in Junran who knew me, they only knew my manager. Actually they were just following the instructions from the Property Management Committee, it was not as though they were loyal to me.

Chen Ruhai said, "Zhang Chao, the both of us can't even see what is right in front of us. We have offended you on multiple counts, have mercy on us. If you want to fight with us till the death on this, I'm afraid that Junran might not allow you to make a scene. Whether you are there or not, Junran will still be the business tycoon of Tong City. Junran will not offend their friends in Tong City for your sake."

He knew his words had made its mark when he saw me went silent. He laughed and paced confidently before Chen Yuzhou and said, "Zhou, I did not teach you well as a child so you have made it a habit of causing me all these problems. Maybe it is a good thing now you are being corrected by Zhang Chao. But you need to know, a big boat may be steady but a small boat is quicker. Juen maybe not be as strong as Junran, but Juen and I are so close that if one flourishes the other flourishes also, but if one is destroyed then the other is destroyed as well. If one day something happens to you, your dad will get you out of it even if he has to use the entire company to do it. But Junran won't because it is too steady, it will still go on no matter who it loses."

Chen Ruhai was being extremely mean and stood in front of me and asked, "It's true that it has been ten years since Old Man Zhang passed away and Junran just gets bigger and bigger. Do you think they will still need a young Mr. Zhang? Zhang Chao, you are just a seedling, I'm telling you this out of the kindness of my heart. You can see it as me fulfilling my duty as your uncle."

I waited for him to be done only then did I answer him with one simple sentence, "You can try."

Chen Ruhai's expression changed as he frowned and said, "You are still not thinking straight..."

I laughed and said, "Alright, Mr. Chen. Every thing you said was right, I can finally think straight and understand why Chen Yuzhou's good for nothing father can be the CEO of a company. He really was quite bad in conducting business. From what I can see, you may be experienced and your methods ruthless. But, you can still try your luck. I know how Junran treats me, so I will be waiting for you to try... Xiaoxiao, let's go."

I did not give Chen Yuzhou and Chen Ruhai another chance to say anything else.

Chu Xiaoxiao had to jog to keep up with me in her high heels.

"You were so cool just now! I have never seen Chen Yuzhou's dad so humiliated before." Chu Xiaoxiao was on cloud nine, walking and laughing at the same time.

"I was cool, wasn't I? How many more times do I get to be cool, then Chen Ruhai would not give up so easily."

"Hey, I was just thinking that it may actually be a good thing if Chen Yuzhou were to never disturb us again. We can really not cross paths anymore. Do you think you were too rash?"

I caught her wrist and before she could react, I had her pinned against the wall. There weren't many people around but it was still a public area and anyone could pass by at any moment. She was obviously nervous with her face going as red as a tomato.

"Are you crazy?" Chu Xiaoxiao said exasperatedly.

I was unhappy and said, "You said just now that no matter what I did you would follow me. Why did you change your mind so quickly?"

Chu Xiaoxiao laughed and said, "You should be careful, I am saying this for your own good. Let me go, what if someone comes by now?"

I just wanted to scare her but one look at that terrified look on her face, my interest was piqued. I could not control myself with just clothes between us that I did not want to let her go.

After taking complete advantage of her, I let her go and said, "Do the both of them even speak an ounce of truth? I have interacted with them a couple of times so I have them pretty much figured out. Whatever they said today was just a stalling tactic. And when we have let our guard down, that is when these two wolves will go in for the kill."

"That's impossible, don't you think you are overthinking this?"

I replied and said, "Chen Ruhai said that I had no real power in Junran, and he is right. But this also goes to show that he had me checked out, and its not just on the surface. He had me investigated thoroughly. And by doing this, it will not be just so that he could be friends with me."

Chu Xiaoxiao was stunned and stopped for a moment before running after me.

"That's brilliant, how did you see it?" Chu Xiaoxiao said, "I only felt pity for the both of them that I did not notice anything else. But when you put it that way it makes sense."

"Being in the special forces was not a waste of time."

Chu Xiaoxiao did not say anything else, she lowered her head as thought she was deep in thought. I looked at her and knew she was conflicted, so I asked her what was she thinking about.

"Are your comrades just as smart as you are?"

I replied, "Of course, an average person will not be able to enter the Snow Leopards Special Forces. Not only must you first have good reputation, but you also have to go through hell. Not everyone will be able to go through the training that we received."

"I don't care about all of those, you must have been the best among the best. Look at what a beautiful girlfriend you have."

I almost laughed out loud as I said, "When can I show you off in front of my comrades? I want to make them jealous of me."

Even though I was the major shareholder in Lutong Advertisements, but during office hours I was the one with nothing to do. Chu Xiaoxiao was the complete opposite.

Mr. Lu and her spent the whole morning talking about business. After a while, she grew bored of me and said that she had some work to do.

I did not want her to leave, this woman was such a tease. All she did was taunt me but there was no touching, telling me all sorts of things. But the second I touched her she would get so nervous that I didn't have the heart to do anything to her.

I smothered the fire in me, any red-blooded man would tell you this. When you've reached a certain age, there are no minds that have not been tainted by distracting thoughts. But, no matter how much I needed to hold back, I would never do anything that Chu Xiaoxiao was not ready for. I wish her to be my woman willingly and I believe that the day will come.

When it was finally time to leave work, I went downstairs with Chu Xiaoxiao.

When we reached the lobby, we bumped into Lin Fang the second we stepped out of the elevator.

Seeing Lin Fang gave me a fright, who knew how long she had been standing there. With both her eyes bloodshot and swelled up like peaches, she was a picture of defeat. I have never seen her look like that in my life.

Chu Xiaoxiao was shocked as well but after a moment, she pulled me out of the escalator and asked, "What do you want?"
