Chapter 2404

Elliot: “May be Layla doesn’t listen to me, but she listens to you always. Do you have the heart that your daughter will leave us at that time? You don’t want to and I also don’t want to. So you usually have to instill this idea in her. In the future, she must not find a boyfriend from abroad, nor from outside the province.”

“Husband, don’t think so much.” Avery patted Elliot’s Shoulder, “My daughter is still young, and the marriage event is still early!”

“Wife, you are my reassurance.” Elliot said and felt much better.

Avery: “Haha, it’s useless to be anxious about this kind of thing. Sometimes the more you are afraid, the more you will come. So it’s best not to think about anything until it doesn’t happen.”

Elliot: “Well.”

.....

Neighboring City.

After the mother-in-law took Siena home, Siena took out a candy from her schoolbag and handed it to her mother-in-law and

said, “The teacher gave it to me.”

The mother-in-law took the candy and asked, “Why did the teacher give you candy? Did the teacher give it to other children too?”

“Because no one is playing with me, the teacher is afraid that I will cry.” Siena put down her schoolbag, and said, “I didn’t cry today. They don’t play with me, I’m not so sad anymore.”

The mother-in-law tore the candy wrapper and fed the candy into Siena’s mouth.

The mother-in-law: “Siena, there will definitely be brave children who will be friends with you.”

“Mother-in-law, won’t you let me eat candy? It will cause tooth decay.” Siena reminded.

“It’s okay to eat candy occasionally. Because you are working too hard now. Mother-in-law loves you.”

The mother-in-law held

Siena’s hand and walked towards the dining room,

“Miss has gone to Avonsville, and she may have to work there. In the future,

the two of us will live together.”

Siena: “Oh, mother-in-law, can you take me out to play often?”

“Yes! But the temperature is too cold to play outside.” The mother-in-law brought the cooked food to the table. “Can you eat enough at school?”

Siena thought for a while, then shook her head: “I don’t dare to add food. I’m afraid that if I eat too much, the other children won’t have enough.”

“Silly child, just take care of yourself. How can you do it when you are hungry?” Mother-in-law took chopsticks and served Siena

with vegetables. “You are easy to suffer like this.”

“Mother-in-law, I am not afraid of losing. As long as I can be with my mother-in-law every day after school, I will be very happy.”

Siena showed a bright smile.

“You silly girl. Let me take good care of you before the Miss leaves, and the Miss also cares about you very much.” The mother-in-

law sat down in the dining chair and looked at Siena, “I really hope I can live in such a peaceful and quiet life.”

“Why not? Who would like me when I look like this? Bad people will be scared when they see me.” Siena took a deep breath and smiled to cheer herself and her mother-in-law.

“The scar on your face is used to scare bad people. Siena, don’t feel inferior. It’s useless to look good, you have to be strong inside. You must always remember that you are no worse than anyone. Others scold you and laugh at you. but it can’t affect you. You will definitely live better than those who laugh at you in the future.” Mother-in-law encouraged. Siena nodded and started eating.

.....

11 o’ clock at night.
Avery received a message from Katalina.
Avery was actually ready to go to bed. Before going to bed, she picked up her phone and checked the time. While looking at the time, she saw the message from Katalina.
Sister Avery, my mother chatted with me just now and said that Norah came to Avonsville. Let me pay attention. I don’t think she should come to trouble me anymore. But I am worried that she will hurt you. So let me tell you, you will be prepared in the future.
Avery read the message and immediately replied:
[OK, thank you for reminding me. We will pay attention. Are your parents resting? Did they feel better after they moved in?]

Katalina: [I really thank you and Mr. Foster tonight. Thank you even more for giving us the house. This gift is too expensive, I don't think I can accept it, but Aqi said he has promised to accept it. He is really too straight. If I were polite again, I would be so hypocritical.]
