

HIS FAVOR 27

CHAPTER 27: ONE AGAINST TEN

But still chose to make this call.

Huo is sleeping, suddenly woke up by a ringing, open to see is an unfamiliar number, directly to hang up

This side of the yellow hair is simply to spit out the fragrance of the mouth, he endured ~, waiting for people to come a piece of the account.

Hold your breath and call again

One after another was disturbed, Huo Shi's mood is simply bad to the extreme

The direct choice to turn off the phone, and then sleep.

In the call over, only a gentle prompt female voice: "Sorry, you dialed the phone has been turned off, please dial again later, sorry, please....."

Yellow hair: "....."

Yellow hair of those friends: "....."

An Chu directly snorted out a laugh, and then spoke: "We are now also here for more than ten minutes, it looks like Huo Shi's phone can not be reached for a while, how about you guys turn me loose, I buy you dinner?"

Yellow hair a look of annoyance: "Damn old me poor you that little meal money ah"

After these words, next to a junior came to Huang Mao's ear and whispered, "Boss, we have so many people" You are not worse than your own but worse than ten brothers ah

At that, the yellow hair cough ~ two sounds, still seems to have a reluctant face open: "Hum, this is not the old man voluntarily, is your own willingness to invite, if not to wait for Huo Shi that Sun thief, I will not go"

Anchu a black line: "Okay, I have to invite you guys, okay, now you can untie me"

Yellow hair sniffed, untie the rope on An Chu's hand, but also did not forget to threaten: "No running around know it? Otherwise there is no good fruit to eat"

An Chu: "....."

They dozens of people did not go too far, but to a nearby beef noodle restaurant

As soon as they entered the door, yellow hair arrogantly shouted: "Boss, to ten beef noodles, with two beef kind..."

Said also looked at An Chu with a smug face

An Chu: "....." You are really generous

The boss obviously is not the first time to receive them, just replied: "Good, you find your own place to sit"

More than a dozen people, a table of four people, sitting at three tables, An Chu naturally sat opposite the yellow hair, yellow hair next to a black-haired little brother

Noodles have not been served, An Chu took the initiative to ask: "You and I ... Brother Huo time what hatred, can not be because the last time you sent to the police station well reformed it, look at you guys this look is not like the first time to step on the"

Yellow hair: "....." Really

The fierce opening: "You care, I just want to get Huo Shi that grandson dead"

"Don't bite a grandson's call, when he comes, beat you to doubt life when it's too late to regret" An Chu helplessly spoke

"Joke, I still can't beat him?" Seems to think really can not fight there is a sentence: "There are not so many brothers of it? Wheel warfare consume also consume him to death"

Anchu: "You are why it is necessary, when the injustice is done, not to mention that you can not beat him" In fact, An Chu still have some fear Huo Shi really can not beat so many people, only hope Huo Shi can bring a few more people over, completely forget the first time I saw Huo Shi when he was how alone to a group of people beat the shit out of

Yellow hair with a disdainful face: "old man happy, old man is more time, there is always a chance to get him"

"Your noodles are here" The boss brought the noodles to the middle of the table

"Okay, you eat it"

At that word yellow hair also no longer pay attention to An Chu, eat their own

.....

When a group of people eat and drink, and all came to the alley, ten people look at each other do not know whether to tie An Chu, eat people's mouths soft ...

An Chu simply open: "now tied what is the meaning of it, take pictures also shot, I will not run"

Yellow hair looked at An Chu: "It is best to do so"

At the same time, lying on the desk to catch up on sleep Huo Shi slowly woke up

The next second the sleepy handsome face suddenly awake, see 6 missed calls, in see the message when the whole person like falling into the ice cave

The whole person directly rushed out of the classroom and called the phone number.

The person on the other side got through and spoke anxiously

"Who are you, since the target is me, do not target a girl"

Yellow hair side leisurely pick up the phone, open: "now know the rush"

"No matter what you want, then feel free to come at me, if you hurt her, I want you to live worse than death" At this moment Huo time strong to suppress the heart of the rage panic open, he saw the little girl face mud, aggrieved tied in the corner, the heart is almost broken ...

Yellow hair laughed: "cut ~ I will do so classless thing? Green Lane, five minutes to come alone, if you dare to bring people I can not guarantee that this little girl will not be harmed"

Huo time to hear will not hurt An Chu, heart a sigh of relief, suddenly smiled, this smile as thin ice from the lake cracked, cold air overflowing, chilling, this year he really low-key, low-key to even a small gangster dare to climb to his head

At the moment, the yellow hair of the green alley, somehow suddenly felt a chill, this chill seems to be the kind of bad chill that wants him to run away immediately, yellow hair shivered to drive away these unimportant thoughts.

Three minutes, from the class to the green alley ten minutes of travel, Huo Shi only used three minutes

When Anchu saw Huo when he walked into the alley against the light, he just wanted to hold his forehead, but really is a person

The first time I saw Huo Shi come in, dozens of people immediately surrounded Huo Shi, Huo Shi's gaze swept away, saw An Chu standing quietly alone in the corner, the line of sight swept up and down to make sure no injuries before giving up

Then look at the people around, gaze cold

"It's you bunch of bastards, even dare to move the people of Laofei?"

Yellow hair was startled, the next second will rely on people to pick up confidence: "Give me on"

Huo Shi this time seems to be really angry, completely without the last dilapidated warehouse leisure and casual

The group of teenagers formed by themselves, which is better than the professionally trained Huo Shi

In an instant, they hit two people, hands clenched into fists, and smashed to everyone around them

In the beginning, An Chu was worried to look at Huo Shi, but since he found out that Huo Shi was unilaterally abusing others, he withdrew his heart.

But a short while later, the ten people were all colored, but the most colored or yellow hair, he is the boss, naturally have to bear a little more.

When all of them were beaten to the ground, Huo was like a rakshasa who grabbed Huang's collar and smashed his fist down towards his chest
