

## C231 First of All the Current State of Science and Technology

Zhao Qian smiled and hugged Ren Jiaxuan, saying in a spoiled manner, "You idiot, what are you doing?" "Why did you come so late?"

Ren Jiaxuan was stunned. Zhao Qian blinked at her. She immediately understood and replied, "I just went to eat. Let's go watch a movie."

Zhao Qian nodded and walked into the cinema with Ren Jiaxuan in his arms. The shifty-eyed people behind him followed him in.

Five minutes later, Zhao Qian and Ren Jiaxuan entered the screening room and found their seats. The few people who were following Ren Jiaxuan also entered.

Zhao Qian pulled Ren Jiaxuan into his embrace and whispered, "Why are they following you?"

Ren Jiaxuan's face turned red from shyness and she whispered back, "This is a long story. I will explain it to you in detail when I have the chance." "You must help me, don't let me get caught."

"Don't worry, I admire your family's First mover Technology Co., Ltd. This favor will definitely help you." Zhao Qian replied with certainty.

Ren Jiaxuan felt a lot more at ease. She leaned against Zhao Qian's chest and watched the whole movie.

The two of them stood up and walked out. Zhao Qian asked, "Are you going home, or are you going to stay at my place?"

Ren Jiaxuan lowered her head and remained silent. The first time they met, she definitely couldn't go home with Zhao Qian. But if she did not go home

with him, where could she go? The people behind him were all following him.

Zhao Qian knew Ren Jiaxuan's worry and said, "If you don't want to come home with me, then I'll call some people to come over and beat those followers away. Then I'll take you home and you should be safe. "

Ren Jiaxuan immediately looked up at Zhao Qian and asked, "Can you really do this? "Then I'll thank you first."

Zhao Qian laughed loudly and called Yang Hu.

"Hello, Mr Hu, how are you feeling today?"

Yang Hu quickly replied, "Not bad, what orders do you have for me, Young Master?"

"I just met a friend. Someone is following her. Tell a few people to come over and educate them. I'll take her to the KFC in the People's Square and you can send someone there to find me. "

"Okay, I'll call someone right away. Young Master, be careful. If our people aren't here, don't you dare come into conflict with them. "

"Mm, got it."

Zhao Qian hung up the phone and took Ren Jiaxuan to the KFC.

The two of them ordered some French fries and started eating. Half an hour later, Yang Hu sent someone over.

They observed outside for a while, and after determining who was watching Zhao Qian, they immediately went over and kidnapped them.

Zhao Qian smiled and said to Ren Jiaxuan, "The matter has been settled. I'll

send you home."

Ren Jiaxuan was stunned. She turned her head to look, and the people following her had truly disappeared.

She immediately asked happily, "You ..." How did you do it? "

Zhao Qian laughed and replied, "It's nothing, I just know a few friends in the underworld. "Let's go, I'll take you home. I need to hurry back to sleep, I'm too sleepy."

Ren Jiaxuan immediately nodded with a smile, stood up and walked out with Zhao Qian.

"Oh right, I still don't know your name. "I've already told you, my name is Ren Jiaxuan. I'm the majority shareholder of the technology company."

Zhao Qian introduced himself to her and said: "I'm Zhao Qian, the boss of Mr Qian Entertainment company. I really admire you guys for your technology first, and I'm very interested. Whenever you are interested, let's sit down and have a chat. There might be a chance for cooperation. "

Ren Jiaxuan immediately asked, "Why are you interested in my company?"

Zhao Qian replied without hesitation, "Technology is thriving in the country. The country will definitely support technology-type enterprises, and your family's leading technology company is also a leading technology company, so of course I'm interested. "

Ren Jiaxuan nodded, but her face was soon filled with gloom.

Yang Chen called her to get on the car, and immediately drove away.

Zhao Qian asked, "Where does your family live?"

Ren Jiakuan replied, "Riverside villa area, number 58."

Zhao Qian's eyes lit up as he replied with a smile, "What a coincidence, I also live there. "I live at number 98."

Ren Jiakuan laughed again, saying, "That's right, what a coincidence. It seems like I found the right person. Since you could buy a villa there, you must be a very powerful person. "

Zhao Qian laughed out loud and asked again, "I saw your face was a bit unnatural just now, what's wrong?"

Ren Jiakuan remained silent for a while before replying, "My father has been missing for almost a year. There has been no news of him. He had written his will before he disappeared, and once he was gone, I was to inherit everything. "Even though I'm a major shareholder of technology now, life isn't easy."

Zhao Qian was more interested in technology first, so he asked Ren Jiakuan to tell him in detail about the situation of technology first.

Ren Jiakuan thought for a while and told Zhao Qian in detail.

First for science and technology, as a famous private enterprise in the Donghai City, has been the best private enterprise for six consecutive years.

Boss Ren Hai An was a very talented, reliable and capable person. In the ten years that he had led the company, he had acquired more than a thousand patents for technology.

Two years ago, Ren Hai An decided to research 5G communication and homemade chip technology. The process went smoothly. They had to overcome all obstacles in a row and finally made breakthroughs a year ago.

However, at that moment, Ren Hai'an suddenly vanished from the face of the earth. The police treated him as a missing person and did not announce his death. However, in the past year or so, he had not been able to find any information regarding him.

A nation should not be left without a ruler for a single day. Not long after Ren Hai An had disappeared, the country fell into a state of chaos, fighting for power and benefits for technology.

In support of Ren Jiaxuan's own faction, in support of the second shareholder Zhang Dacheng's own faction. Both sides were fighting to the bitter end, neither wanted to submit to the other.

Seeing that the third quarter of the shareholders' meeting was about to be held, Zhang Dacheng wanted to take advantage of this opportunity to force Ren Jiaxuan to relinquish her rights and let him officially take over for Technology.

In order to prevent Ren Jiaxuan from looking for helpers, Zhang Dacheng intentionally sent people to follow her and understand her movements. That was why that scene in the evening had occurred.

After she finished speaking, Ren Jiaxuan burst into tears. After all, she was only a young girl in her early twenties. Such a huge pressure was not something she could bear. Furthermore, she was very worried and missed her father, so she couldn't help but lose control of her emotions.

Zhao Qian quickly comforted, "Don't cry, your dad left a will for you to inherit everything before he went missing, that means he wants you to live well and protect him for the time being. If you can't just collapse on your own, how are you going to face your father? "

Ren Jiaxuan nodded as she cried. "I understand all of this, but it wasn't my fault. I was really upset."

Zhao Qian hesitated for a moment before he stopped the car. Then, he pulled up a piece of paper and wiped Ren Jiaxuan's tears. When she calmed down a little, he asked, "Then tell me the truth, will you not be able to keep your share in this shareholders' meeting?"

Ren Jiaxuan wiped her tears away as she nodded and replied, "I don't have the ability to keep my shares. Shareholders and many of the company's backbone think I'm a good-for-nothing girl, I take the helm for technology first, only to let the company collapse. If Liu were to take charge of the company, he could at least take a step forward with the company. They've forced me to give up my rights more than once, and they're definitely not going to give me another chance to breathe this time. "

Zhao Qian let out a light breath and asked: "If someone else is willing to buy your share, are you willing to sell it? How much do you want to sell it for? "

## C232 Different Paths Lead to Different Ends of the World

Ren Jiaxuan could understand what Zhao Qian meant, so she was very conflicted. In terms of personal feelings, technology was her father's hard work, so of course she didn't want to let go. But the reality was that she couldn't let go.

Seeing her hesitation, Zhao Qian said, "I think you know what I mean. Go back and think about it. This is my business card. Whether you want to sell it or not, give me an answer. "

Ren Jiaxuan took the name card and nodded lightly. "Sure, I will give you an answer as soon as possible. Let's go back. I'm a bit tired, so I want to go back early to sleep. "

Zhao Qian nodded and immediately brought Ren Jiaxuan back to the riverside villa area. Ren Jiaxuan originally wanted to go home and sleep, but she saw a few people staring at her home from a distance.

Ren Jiaxuan immediately changed her mind and said to Zhao Qian in a fluster, "Mr Zhao, let's go to your place."

Zhao Qian also saw those people, so he acknowledged her and drove past Ren Jiaxuan's house, continuing to drive towards his home.

Soon, the two of them arrived at Zhao Qian's home.

Zhao Qian asked, "Miss Ren, do you still want to go back to sleep tonight? If you go back, I won't prepare a room for you. If you don't go back, I'll go upstairs and arrange a room for you. "You can rest assured that I'll be sleeping downstairs tonight."

Ren Jiaxuan quickly replied, "Thank you, Mr Zhao. Don't misunderstand, I did

not treat you as a bad person. However, my family is under surveillance, which means that Zhang Dacheng is really prepared to do something despicable to me. I can hide here for a day, but I can't hide here for the rest of my life. What should I do? "

Apparently, the best thing for Wu to do at the moment is to let go of her stake, so that she can withdraw from the battle for technology. Zhang Dacheng wouldn't let her off easily as long as she still had a stake in the company.

But technology was his father's hard work, so she wouldn't let go so easily. Since she didn't say anything, Zhao Qian felt too embarrassed to continue asking if she was willing to sell her shares.

Zhao Qian could only politely comfort her, "Don't be too anxious. There's always a way out. Let's just take it one step at a time."

Ren Jiaxuan nodded and said, "Then I'll rest at Mr Zhao's place tonight and think about it carefully."

Zhao Qian nodded and brought Ren Jiaxuan upstairs to the guest room. He said, "You can sleep in this room tonight." "There's a bathroom inside. If there's anything else, just say it."

Ren Jiaxuan quickly bowed to thank Zhao Qian. Zhao Qian nodded and went downstairs to sleep.

Zhao Qian lay on his bed and surfed the internet for news about technology first. If Ren Hai An really died, Zhao Qian really wanted to seize the opportunity to take technology for himself.

Unlike entertainment companies, game companies, real estate companies and the like, the first products made for technology were all communications, chips and other items that could change people's lives and social development.

If Zhao Qian could take down the technology first, not only would he earn a lot of money, he would also gain a high social status. This was a great benefit that could not be bought with money.

Zhao Qian had read all the news about technology online and unknowingly fell asleep.

When he woke up, it was already nine in the morning.

Zhao Qian walked out of his room and saw Ren Jiaxuan preparing breakfast. She also saw him and greeted him with a smile, "You're up. "Hurry up and come eat breakfast."

Zhao Qian chuckled and replied, "That's embarrassing. You are a guest. How can I let you cook?"

Ren Jiaxuan giggled and replied, "I'm staying for free. I can't possibly not do anything. "Hurry up and wash your face and brush your teeth, I have something to tell you later."

Zhao Qian nodded and quickly went to wash his face and brush his teeth. Everything was settled in less than five minutes. Then, he obediently sat at the dining table and waited.

Soon, Ren Jiaxuan brought the food over and the two of them started eating.

Zhao Qian wasn't in the mood to eat. He was waiting for Ren Jiaxuan to start talking.

After a while, when Ren Jiaxuan was almost done eating, she finally got down to business.

"Mr Zhao, do you want to take over my shares?"

Zhao Qian put down his chopsticks, nodded and replied, "Honestly speaking, I do want to buy your share. As long as you offer a price, I won't bargain. "

Ren Jiaxuan nodded and asked again, "What I care about is not money, but your ability. If I want you to kick the others out of the shareholders' meeting, do you have the ability to do so? "

This was going to be difficult, Zhang Dacheng and the other shareholders could see that technology was going to develop in the future, so it was impossible for them to give up their shares. If Wu wanted to kick them out of the shareholders' meeting, he would have to buy them at a high price. In the end, he might have to spend even more money than he could to control Huaying.

Seeing that Zhao Qian was hesitating, Ren Jiaxuan asked again, "What, you don't have confidence?"

Zhao Qian laughed and replied, "It's not that I don't have confidence, I'm just considering whether it's worth it or not. If I want to buy their shares, I will definitely have to pay a huge price. "

Ren Jiaxuan's eyes suddenly turned cold. She sneered and said, "They can use methods that can't be exposed to the light. Why can't Mr Zhao do what he wants to them?" You don't have to do it legally, do you? "

Zhao Qian sat up straight and leaned back in his chair. He stared at Ren Jiaxuan, causing her to feel terrified. She quickly asked, "Why is Mr Zhao looking at me like that? Is there any dirt on my face? "

"Miss Ren, I'm not afraid to tell you the truth. I've never looked down on using illegal methods to compete with my opponent, unless he touches my bottom line." I also hate the people around me who are misguided. If Zhang Dacheng uses despicable means to deal with you, then you have to use even

more despicable means to deal with him. That dog bit you, are you going to catch him and bite him back?" Zhao Qian asked bluntly.

Ren Jiaxuan's face immediately flushed red, not daring to make a sound.

Zhao Qian's expression might not be clear enough. With his strength, no one would be willing to use despicable means to compete with him. Just a straightforward method would be enough to crush the opponent. However, with Ren Jiaxuan's cultivation level, she still couldn't accurately understand what he meant.

After a while, Ren Jiaxuan calmed herself down and said, "Since Mr Zhao doesn't agree with my method, then forget it." "I'm leaving, thank you Mr Zhao for taking me in last night."

Ren Jiaxuan went upstairs to get her bag and left Zhao Qian's house immediately.

Zhao Qian also didn't look at her, and kept his head low as he cleaned up the dishes.

Different way of thinking is different. Zhao Qian had the same idea, and Ren Jiaxuan had the same idea as well.

As far as Zhao Qian was concerned, he just wanted to make a good investment and didn't involve his personal grudge. He wouldn't use illegal means to deal with others easily.

For Ren Jiaxuan, she not only wanted to keep control of technology, but she also wanted to take revenge on Zhang Dacheng for what he had done to her.

The two of them weren't wrong, it was just that their positions were different.

Zhao Qian packed up his dishes, changed his clothes and went out for a run.

After running for about ten minutes, Wu Xiaohua called him.

"Hello, Young Master. The transfer procedures have been completed, all of the Huaying stocks have been transferred to your name. You are now the number one shareholder in Huaying, with a share of 53%."

Zhao Qian laughed in satisfaction and praised, "Very good, you guys did well this time. I'll call your dad later and ask him to give you guys a little more year-end bonus."

Wu Xiaohua quickly thanked him, "Thank you, Young Master." These are the things that we should do. In the future, we will work diligently for Young Master."

"Yes." You're busy, so I'm hanging up."

Zhao Qian hung up the phone and ran home. He took a shower and changed his clothes before calling Wang Jing.

## C233 How Much Money Have be Lose?

Wang Jing was busy dealing with the shareholders. When she saw Zhao Qian's phone call come in, she immediately picked it up and cursed, "Bastard, you still dare to call me? Come and clean up this mess for me."

Zhao Qian laughed and replied, "Look at how rude you are. As a man, I rarely swear. Look at you, when you talk to me, you're going to swear before you even say anything. This does not fit with your cold queen's setting at all!"

The more Wang Jing heard about it, the angrier she got, and she scolded again, "Why would I be so cold! You made a mess of my company, and now a bunch of shareholders are still here questioning me."

"You're at the company, right? Wait, I, Ma Shan, will go over. I'll see who dares to make things difficult for my woman."

With that, Zhao Qian hung up the phone and immediately left.

Wang Jing's face immediately blushed because Zhao Qian said she was his woman. Although the two of them had that kind of relationship since a long time ago, it was the first time she heard Zhao Qian say that. She was both excited, nervous and shy.

Zhao Qian first went to invest in Fuhai, took the relevant materials, and then went straight to Huaying Group.

Very quickly, Zhao Qian arrived at Huaying Group, and directly went to the front desk. The lady in the front desk said: "Hello, I'm looking for Miss Wang Jing, could I trouble you to help me inform her that my name is Zhao Qian."

The receptionist immediately nodded with a smile and said, "Ok, Mr Zhao, wait a moment, I'll call Director Wang right away."

Zhao Qian smiled and thanked him. Then, he took two steps back and waited on the spot.

The receptionist immediately called Wang Jing and reported, "Director Wang, there's a Mr. Zhao Qian over here. He wants to see you. Would you like to see him? "

Wang Jing replied angrily, "Make him wait at the door. Tell him I won't go out and look for him, he's not allowed to leave."

"Alright."

After saying that, the front desk girl hung up and smiled at Zhao Qian: "Mr Zhao, sorry, I called Director Wang just now, she said to wait here." If she doesn't come out to find you, you can't leave. "

Zhao Qian knew that Wang Jing was intentionally making things difficult for him, so he went up to the girl and said: "Call her again, tell her that I brought the stock rights information to find her. If she doesn't come out to meet me personally, I'll leave immediately. She won't even have a chance to regret it. "

When the front desk girl heard the word 'shares', she immediately tensed up. She quickly called Wang Jing and told her what Zhao Qian had said.

Five minutes later, Wang Jing angrily walked out of the elevator, walked in front of Zhao Qian and asked, "Bastard, you still want to put on airs with me? Why are you so annoying!"

Zhao Qian shook the paper bag and replied, "I'll give you a chance. Say what you said again."

Wang Jing was so angry that she almost died, but she couldn't do anything about it. After all, according to the law, Zhao Qian was now the holder of

Huaying. If she did not surrender, her Huaying would change to Zhao.

Therefore, Wang Jing forced a smile and said, "Mr Zhao, welcome to our company to visit and coach us. Now, I will take you to the Conference Room to discuss it in detail.

The front desk girl looked at Zhao Qian with a stupefied expression, thinking to herself, just who is this person and what is the ownership he's talking about? He could actually order Director Wang to do something!

Zhao Qian followed Wang Jing to Conference Room, where there were five minority shareholders.

Wang Jing said seriously, "Everyone, if there's nothing else, please head back first."

"What do you mean nothing? You still have not given us an accurate answer. What happened in the Huaying Group? "

"As investors in the company, we have a right to know what happened to the company and why the share price fell so much."

"That's right. We won't leave until you explain it to us."

"You have to respect our rights and our Huaying Group."

"That's right, don't treat us like leeks, just a few words is enough to send us away."

Wang Jing was really angry, but she wanted to kick Zhao Qian's ass, so she turned to him and said, "Mr Zhao, I think it's more appropriate for you to answer their questions. What do you think?"

Zhao Qian understood what she meant and was also willing to help her solve

this problem. He smiled and replied, "Director Wang is right. I should really explain this to the investors."

With that, he took out the materials from the paper bag and placed them on the table. Then he said to the five people: "My name is Zhao Qian, I'm an investor and also a speculator. Recently, the reason the shares of Huaying have fallen so greatly is because I wanted to control the Huaying, so I deliberately suppressed the price of the Huaying. I don't think I need to explain too much to you about the fundamentals of the stock market.

Zhao Qian's words angered the five investors.

"What?" You're the one behind this! Do you have any idea how much money I lost? "

"I f \* cking don't know anything. I only know that you caused laozi to lose several million and lose a house."

"I'm in even more f \* cking trouble. Heavy Warehouse Huaying Group, I bet that this year's results will be even better." And the result? I almost fucking had to mortgage the house to make up for it. "How do you think we should settle this?"

" ... "

The few of them exchanged pleasantries, but the way they spoke was quite unpleasant to listen to.

Zhao Qian was truly angry in his heart, he was most tired of chatting with these low quality vulgar people. If you have something to say, just say it.

Therefore, he didn't want to give these people any face, and said very strongly: "If you don't have money, don't f \* \* king learn to play with stocks! "Who the f \* \* k decrees that you can only earn money by selling stocks, but

not lose money?"

Relying on their large number of people, they started criticizing Zhao Qian again.

Zhao Qian was angered, he slammed the table and shouted: "Are you f\*cking done yet? "Get the hell out of here right now, or I'll call the security guards to chase you all away!"

"Yo!" So arrogant! "Come, let me see if you can call a security guard to take a look."

"We are legal investors, what right do you have to tell the security guards to chase us away?"

"Yeah, who do you think you are? What right do you have to order the security guards of the Huaying to do something? "

"..."

Wang Jing was instantly overjoyed when she saw Zhao Qian getting swallowed by these people. She covered her mouth and snickered.

Zhao Qian suddenly slammed the table in anger, and roared: "With how he is now the number one shareholder in Huaying, what do I want people in the company to do, he has to do, otherwise I will expel him!" Do you think the security guards will listen to me? "

"Impossible!" If you want to become the owner of Huaying, you will need to spend at least a billion. Do you have that much money? "

"Hehe ..." "Forget about a billion, it would already be great if he could have 10 million."

"Director Wang, don't keep silent, say something."

Wang Jing replied helplessly, "I've already said everything I can say. Now, the control of the company is indeed in Mr. Zhao Qian's hands. Whatever he says is whatever. You should do as he says."

The five of them looked at Zhao Qian in surprise. They couldn't believe how powerful this young man in front of them was. To be able to control Huaying just because he said so, this was no ordinary strength.

"Mr Zhao, hello. My name is Wang Bo, nice to meet you." "Please take care of me from now on."

"Hello, Mr Zhao. My name is Tension. Please take care of me in the future."

"..."

A good shareholders' meeting had actually turned into a Star Chasing Conference. This made Wang Jing unhappy. She still wanted to use these people to teach Zhao Qian a lesson. Now it seemed that this plan had failed.

Zhao Qian wasn't in the mood to deal with these people, he immediately said with a straight face: "I'll give everyone 10 seconds, get lost now! After ten seconds, I will have the security guards throw whoever stays out. "

## C234 Experts to

Several shareholders looked at each other. However, no one moved.

Zhao Qian turned around and said to Wang Jing, "Call the security guards in right now and chase them all out. I am a controlling shareholder now, so you have to listen to me when I come to an agreement with you. Otherwise, I will kick you out of Huaying. "

Wang Jing was so angry that she rolled her eyes and glared at Zhao Qian, but she couldn't do anything about it, he was truly the Huaying controller right now. As the manager of the company, she had to be obedient.

However, Wang Jing did not want to make things so bad, so she quickly advised, "You guys hurry up and leave, do you really need me to call the security guards over? At that time, everyone will lose face, so what's the point? "

"Director Wang, you better think carefully. We have more than 15% of the shares. If we throw it all away at once, Huaying's share price will surely fall by at least 20%. If we are not wrong, the shares pledged by Chairman Wang to brokerages can no longer afford to continue falling, otherwise they will be forced to close down. Director Wang, do we need to go this far? "

"That's right!" Director Wang finally understood the purpose of our visit today. We don't want to do anything. We just want to know what the company plans to do next. Is that wrong? "

"Let's not talk too much nonsense. Director Wang had given me a straightforward answer. What exactly are we going to do next?" We only have one requirement and the share price cannot fall any further. It must rise by at least 30 per cent within a month. "

Wang Jing's temper was already very stubborn. These people actually wanted to threaten her based on the fact that they had a stake in her. How preposterous!

"I'm not afraid to tell you the truth. We don't have any plans to raise the price. If you want to take revenge on the company, you can come at any time. It's not that I'm looking down on you guys, it's not that you guys can't even splash a splash of water when you throw out that small amount of equity in your hands. Who do you think Mr Zhao is? "You guys might not even get that 15% of the shares in your company?"

Zhao Qian looked at Wang Jing speechlessly as a smile appeared on his face. This woman was really bad, purposely bringing the blame onto him.

However, Zhao Qian wasn't afraid. With 53% of the shares in his possession, how could he be afraid of them throwing out another 15%?

So Zhao Qian said to the shareholders: "You guys, go ahead and throw away the stock. If the stock price drops, even if it's 5 points, I'll consider it your win. You can do whatever you want. "How about it?"

"Arrogant!"

"Arrogant!"

"Arrogant!"

"..."

Zhao Qian looked at Wang Jing again and ordered, "Do you have to make me angry?"

Having dealt with Zhao Qian for so long, Wang Jing more or less understood his temper. From the looks of it, he must be truly angry. If she didn't call

security again, no one could be sure what he would do.

Wang Jing immediately stood up and shouted, "Call the security guards over!"

Three minutes later, five security guards rushed over.

Wang Jing immediately gave the order, "Throw them all out. Do not allow them to come in again, or else I will make a request of you all!"

The security guards quickly nodded their heads and invited the few shareholders out.

"Humph!" "Let's wait and see!"

"Just wait until your father's stocks are forced to close!"

"..."

The few of them left while cursing.

Wang Jing went to close the door, turned around and scolded Zhao Qian: "Bastard, are you happy now? You have to keep the stock price steady for people to throw stocks. The stocks that my dad pledged at the brokerage firm couldn't stand it any longer, so would they really be forced to close down? "

Zhao Qian laughed and asked: "Is what you said true? Then I should have waited for them to lower their share prices and for your dad's pledged shares to be sold out. At that time, if I buy from the brokerage firm at a low price, wouldn't I have even more shares? "

Wang Jing speechlessly rolled her eyes and scolded him even more angrily, "Are you still human? With our relationship, if we were to be compared to ordinary people, my father would be your father-in-law in the future. Is that

how you treat your future father-in-law? "

"Your words are quite interesting!" Although we were close, we did not confirm the relationship between a man and a woman. How did your father become my future father-in-law? Do you mean to say that you want to be my girlfriend? " Zhao Qian asked with a smile.

Wang Jing had already treated Zhao Qian as her boyfriend. No matter how cold and aloof she was, she had done this a few times already. Women would definitely be reluctant to part with their first man.

However, her personality made it impossible for her to admit it. Zhao Qian had to do it.

Therefore, she immediately denied it. "Stop dreaming! "My pursuers are lined up from here to France. Would I take a fancy to you?"

Zhao Qian replied disdainfully, "Tsk, even to France, you don't need to draw a draft just because you are bragging. Since you don't like me, how could your father become my future father-in-law? Capital markets have always been ruthless, and you don't even know that? "

Wang Jing glared at Zhao Qian hatefully and did not say another word.

Zhao Qian did not care about how she felt, and took out all of the documents, placed them in front of her, and said: "These are the materials to prove that I control the Huaying. Take a look."

Wang Jing angrily picked up the materials and quickly browsed through them. At this moment, a call came in from the hospital.

"Hello, Miss Wang. A few foreign experts have just come, saying that they have been invited to consult with Mr. Wang. We need you to come over here and sign for them. "

Wang Jing immediately stood up in excitement and asked loudly, "Really? How many experts are here?"

"Five!"

Wang Jing became even more agitated now and hurriedly replied, "I'll go over now. You guys wait for me!"

Wang Jing quickly put the documents back in the paper bag and locked it in the cabinet. Then she quickly dragged Zhao Qian out.

"I won't go, right?" Zhao Qian asked.

Wang Jing did not stop and continued to walk quickly towards the elevator. As she walked, she replied, "You have to go! I have to ask them in person if you invited them here. "

Zhao Qian was puzzled and asked: "So? Why are you asking this? "

"Humph!" What if you lied to me? These experts were not invited by you, but you still insist on saying that you invited them. You want me to owe you a favor for nothing, in an attempt to move me so that you can reach your secret. "

Hearing Wang Jing's words, Zhao Qian lost his mood for an instant and shook off her hand with all his might. But she rushed at him again and clung to his arm.

"No matter what, you have to go!" Wang Jing shamelessly said.

Zhao Qian got more and more angry, but he was still dragged away by her.

Soon, the two of them arrived at the hospital and met with the foreign

experts.

The expert from Mi Guo asked, "Excuse me, which one is Zhao Qian, Mr. Qian?"

Wang Jing burst out laughing while Zhao Qian quickly replied, "My name is Zhao Qian, but I'm not Mr. Qian but Mr Zhao."

"Oh, I'm sorry. I forgot that the surname of your Chinese is first and the name is second. Hello, my name is Alex Thomas. "The person who invited me said that he would do as you say."

Zhao Qian extended his hand and they shook hands. Zhao Qian said, "Welcome, Dr. Thomas."

The other four experts were from Germany, France, Japan and Canada. They also shook hands with Zhao Qian and introduced themselves. They all said the same thing and listened to his orders.

Wang Jing still had some doubts. With Zhao Qian's strength, it was impossible to find the experts from these developed countries.

Zhao Qian smiled and said to the five experts, "We won't waste any more time. I only have one request, please do your best to cure my friend's father."

"Don't worry, Mr Zhao, we will do our best to cure him."

The other four nodded as well.

Zhao Qian nodded with a smile and said, "Let's go see the patient now."

With that, he turned to Wang Jing and said, "Miss Wang, go and sign your name."

Wang Jing was still a little worried. She quickly pulled him to the side and whispered, "I don't have any other intentions. I just want to ask you one last time. Are these people reliable?"

Zhao Qian stopped smiling and asked: "You still don't believe me?"

## C235 Persuasion

Zhao Qian's face looked bad. Wang Jing was so scared that she quickly explained, "It's not that I don't believe you, I just don't believe in these so-called experts. What if they're just here to cheat money? "

"Deceiving money? Just send them away. " Zhao Qian replied without a care.

Wang Jing rolled her eyes and replied, "How can it be that simple!?" If they were here to cheat money, then it meant that they didn't have any medical skills. What if my father's illness worsens? At that time, the hospital would use the excuse that these experts were the culprits, and would not be responsible. "Tell me, what should we do?"

"What do we do? I can be in charge and tell you that these experts won't be swindlers, and the hospital definitely won't be like you said, or else I'll take care of them! "Hurry up and sign it, don't waste time." Zhao Qian replied snappily.

Wang Jing was still worried, so she asked, "Then promise me that you'll be responsible to the end."

Zhao Qian was really annoyed with Wang Jing for doubting him so much. Otherwise, he wouldn't have spent so much money to control the Huaying.

He suddenly took a step forward, his right arm wrapped around Wang Jing's waist, his left hand gripped her chin as he replied, "Little cutie, you are already mine, I will definitely take responsibility for you. If you dare nag me again, I'll go in and tell your father about us. I'm going to tell him you're pregnant, but I don't recognize the baby as mine. I'm pissing him off. "

"Bastard!" "How dare you!"

Wang Jing was so angry that her face turned red. She punched Zhao Qian hard in the chest.

The doctors and experts could not bear to watch any longer.

"Miss Wang, I think it's better if you treat your father's illness quickly, flirting and flirting is more important. There will be more time in the future."

"That's right. It wasn't easy to get a few foreign experts. Don't waste your time."

Wang Jing's face turned red at everyone's words. She quickly pushed Zhao Qian away and quickly went over to sign her name before bringing a few experts into Wang Lin's ward.

Wang Jing gave her father a brief explanation, asking him to cooperate with the specialist's treatment and then helped her mother out.

Zhao Qian was playing with his cellphone on the side and didn't dare to look at Wang Jing's mother.

The hospital had arranged for doctors and nurses to stand guard at the door, so that they could make amends as soon as the foreign experts needed them, or if an accident occurred.

Two hours later, the experts came out. From the looks of it, they were very tired and were all unable to stand up straight.

Wang Jing quickly asked about the situation, but the other person ignored her and went straight to Zhao Qian.

Helpless, Wang Jing could only support her mother and follow along.

Zhao Qian put the phone back in his pocket and asked, "Dear experts, how is

it going?"

"Mr Zhao, we have made a comprehensive diagnosis of Mr. Wang and agree that he can be operated on."

"Hmm, then how high is the success rate?" Zhao Qian asked with concern.

Wang Jing and the rest became nervous. Whether or not they could perform surgery all depended on the success rate.

Alex Thomas replied, "About seventy percent. As far as Mr. Wang's illness was concerned, this success rate was already very high. If he wasn't operated on, he could live for at most two more years. If you want surgery, you have to do it as soon as possible. "If we drag it out any longer, there will be no possibility of surgery."

Zhao Qian looked at Wang Jing and said, "You heard it, so consider it carefully."

Wang Jing nodded and supported her mother back to the ward to discuss with her father.

Zhao Qian continued to chat with the experts and asked, "If we have the surgery, can our medical conditions meet your requirements?"

Thomas replied very honestly, "No, we have to go to the United States, or Canada. We have state-of-the-art medical equipment that can increase the success rate of surgery. "

Zhao Qian nodded, took out his phone and called his dad.

"Hey, Dad, there's something else I need to trouble you about. If you need an operation later, you'll have to help me arrange for a change to the United States or Canada. "Is that okay?"

Zhao Fu laughed and replied, "Of course. You can call me when you're sure."

Zhao Qian nodded and hung up.

Everyone was waiting. After ten minutes, Wang Jing walked out and shouted, "Zhao Qian, bring the five experts in."

Zhao Qian immediately brought the five experts into the ward.

Wang Lin got straight to the point: "Experts, tell me honestly, what would happen if I got into trouble and got into the 30% situation?"

Wang Jing quickly translated her father's words to several experts.

Thomas replied very honestly, "You will never be able to use it until you see God. But if the operation succeeds, you can continue to live a healthy life like a normal person. "This will depend on how you choose. Do you want to have a 70% chance to win, or do you want to finish the last year or so well?"

Wang Lin was very scared. Even if the success rate was 99%, there was still a 1% chance of failure. This was an operation on the brain, and once it failed, the consequences would be unthinkable.

Seeing the Wang Family members so conflicted, Zhao Qian said, "Chairman Wang, I don't think there is anything to be conflicted about. After doing business for so long, how many times have you encountered a project that allowed you to earn money without losing anything? You don't dare to say you won't lose anything, do you? But you must have made more money than you lost, right? Think of this as a project investment, with a 70% chance of making a fortune. "Why not?"

Wang Lin asked, "Why are you here?"

"I got these experts. They only listen to me, so of course I'm here." Zhao Qian replied honestly.

Wang Lin immediately sat up straight and asked Wang Jing: "What's going on? Why would he want to help me find an expert? "

Wang Jing didn't dare to reply.

Zhao Qian was not afraid, and replied directly: "I have control of the Huaying, and you are all my employees now. As the boss, of course I have to take good care of the staff. When you're better, I'll return the authority to you. If you aren't able to recover, I don't believe in Wang Jing's abilities. Then, I'll have to change my Huaying to Zhao. "

Wang Lin was extremely excited and shouted, "You? How could you possibly have that much money to control Huaying? "

Zhao Qian did not hide anything and replied truthfully: "I pledged my company to Fuhai Investment and made them loan me 4 billion. It's enough for me to control Huaying. "

"Are you crazy? Is Fuhai crazy? Your company isn't even worth 100 million, and they're lending you 4 billion! You spent so much money to control Huaying, what are you planning to do? " Wang Lin asked in confusion.

Zhao Qian went forward and embraced Wang Jing, replying, "Is this explanation clear enough?"

Wang Jing became shy and quickly pushed Zhao Qian away, blaming him, "What are you doing? Madness! "

Although she said this, she was actually very happy in her heart. That flushed red face was clearly the beginning of a relationship.

Knowing her daughter as a father, Wang Lin could tell from his daughter's reaction that the relationship between her and Zhao Qian had already developed to a very deep degree.

However, he didn't understand. With his daughter's eyes, she shouldn't have taken a fancy to Zhao Qian. So he asked, "Jing, tell me honestly, are you in love with him?"

Before Wang Jing could say anything, Zhao Qian answered first, "Not only that! Maybe you're going to be a grandpa soon. "

With that said, the entire room fell silent.

## C236 Make a Choice

Wang Jing was so embarrassed that she almost died. She immediately covered Zhao Qian's mouth and scolded him in a low voice, "Are you crazy? What nonsense are you spouting!"

Wang Lin clutched his chest as his breathing quickened.

"Dad, what's wrong? Doctor, come and see! Zhao Qian, what are you trying to do? "My dad is in this state, yet you dare to provoke him? What is the meaning of this!" Wang Jing roared.

Zhao Qian replied calmly, "It's nothing. I just want to tell Chairman Wang that he might soon be a grandpa. If he is not properly treated, he will not be able to enjoy the happiness of the heavens. "

Wang Lin was immediately stunned, as if Zhao Qian's words made sense. If he wasn't treated properly, how could he have the chance to be a grandfather?

Wang Jing was too embarrassed to raise her head. She felt that everyone was staring at her.

Wang Lin was silent for a moment, and replied: "Stop talking rubbish with me, quickly return the shares to us, or else I won't allow you to interact with me."

Zhao Qian deliberately pretended to be angry and replied: "Hey! Old Wang, don't go too far! Be careful that I dump your daughter now, she will have a big belly, I will not accept the debt, then she will have to become a single mother. If you can afford to disgrace this person, then go ahead and confront me! "

Wang Jing immediately threw an arm at Zhao Qian and scolded, "Bastard! What do you say? "

Zhao Qian glared fiercely at Wang Jing and said, "Shut up. I'm in the middle of negotiating with my future father-in-law, why are you interrupting!?" "Old Wang, just give me a straightforward answer. Do you want me to listen to my words or do you want me to dump your daughter and make her laugh with her big belly?"

Originally, Wang Lin was quite angry, but after being threatened by Zhao Qian, he could no longer be angry. However, he felt that Zhao Qian's conditions were too poor, so he wasn't worthy of Wang Jing.

"Little bastard, don't threaten me anymore. Do you think you're worthy of Jing with this kind of condition?" Wang Lin asked.

Zhao Qian laughed and replied, "I am not worthy of her? I already control the Huaying, and I can chase all of you out with a single word. Without Huaying, who do you think you are? Why am I not worthy? If it wasn't for the fact that Wang Jing looked down upon me, I wouldn't have paid such a huge price to control my Huaying. "

Wang Lin was so annoyed that he was about to retort. Right now, Zhao Qian's one sentence can decide whether or not they can still stay in Huaying. If the Wang Family was kicked out of the Huaying Board, what would the Wang Family be?

Right now, no matter what, he had to firmly control Zhao Qian, so that the Wang family could continue to control the Huaying.

So Wang Lin said, "Okay, I'll listen to you. However, when you get married to Jing, you will have to use Huaying as a betrothal gift and give her at least 30%."

Zhao Qian laughed and replied, "Are you going to marry or sell your daughter? You asked me for a billion dollars' worth of betrothal gifts, are you

fooling around! If you say you want to sell your daughter, I can give her all the shares for a betrothal gift. Do you dare to say it? "

Wang Lin didn't dare to say anything again.

At this moment, Wang Jing's mother, Zhang Fengyun, spoke up.

"Aiya, what era is this? Children are free to fall in love, why do you care so much? Healing the sick is what you should think about for your crimes. Jing has never bothered us since she was young, why are you worrying so much? "It's completely unnecessary!"

Actually, Zhang Fengyun was hinting to Wang Lin not to worry, with Wang Jing's personality and IQ, she would definitely control Zhao Qian completely. The Huaying Group would still have the surname Wang, and would definitely not change their surname Zhao.

Wang Lin instantly understood what his wife meant and replied: "She's my daughter, shouldn't I fight for her benefits? If the two of us leave and she doesn't have a brother or brother, what will happen if she gets bullied by that Zhao fella if she doesn't have any guarantees in her hands? "

Wang Jing thought her father was really worried about her future, and she was moved to tears.

Zhao Qian immediately replied: "Don't worry, I will sign the agreement. In the future, Wang Jing will decide Huaying and I will be waiting for my share. "The condition is that you have to quickly and honestly treat her illness. Otherwise, if she worries about you all day, it will hinder us from cultivating our relationship."

Wang Lin immediately replied excitedly, "A man should keep his word, don't lie to me."

Zhao Qian went up to Wang Lin and helped him lie down, promising him, "I always keep my word and never go back on my word. Wang Jing and I are so busy, and we still need you to take care of our grandson. You say that your body isn't strong, how can you take care of it? I'm telling you, if you can't take care of your grandson, I'll call Wang Jing every day. Having a family is the same as having none, what's the use of asking her! "

"Hey! How dare you! If you dare to hit him, I'll fight you to the death! " Wang Lin roared.

"Aiyo, you want to fight me with your life on the line? Take care of yourself first. Doctor, sign for transfer, and I'll arrange for a transfer to take him and the experts to Mi. "

After saying that, Zhao Qian walked out and quickly called his father. The doctor immediately signed the agreement for Wang Lin to be transferred to the hospital.

Two hours later, the medical plane stopped at the airport. After the hospital sent Wang Lin over, the five experts and Zhang Fengyun to Mi Guo.

Watching the plane disappear into the sky, Wang Jing turned around and hugged Zhao Qian while crying.

"Wuu ... wuu ..." "Sob, sob ..."

Zhao Qian lightly patted her back and comforted her, "Don't worry, I've already arranged everything. He will be able to be operated on soon. I have also arranged for the best care over there.

"Thank you, thank you ..." Wang Jing said while crying.

"You really want to thank me?" Zhao Qian asked with a mischievous smile.

Wang Jing nodded. Wiping her tears, she answered yes.

Zhao Qian reached out his hand and wiped away her tears while saying, "Speaking of thanks, I don't have any sincerity. I have to show some actual actions."

Wang Jing guessed what Zhao Qian wanted to say. She bit her lips and whispered, "Then how do you want me to thank you?"

Zhao Qian pointed to a motel across the airport and said with a smile, "Did you see that? There was a new hotel, and he wondered if the bed inside was elastic. Let's go in and try it out."

"Don't... "Come back to the company with me right now. We need to sign the agreement as soon as possible, and you have to return the authority to manage the company to me."

With that, Wang Jing pulled Zhao Qian towards the parking lot.

Zhao Qian pulled her back forcefully and hugged her in his arms, "I helped you so much and even gave you back the management rights to the company. You didn't give me any benefits, right?"

While Wang Jing was still hesitating, Zhao Qian suddenly picked her up and carried her to the hotel across the street. She struggled a few times and quickly buried her face in Zhao Qian's arms.

Around 6 PM in the evening, the two of them came out of the hotel with smiles on their faces.

Wang Jing asked, "Now can you come back to the company with me to sign the contract?"

Zhao Qian nodded and replied, "No problem, let's go."

The two of them quickly returned to Huaying Group. Wang Jing quickly signed an agreement and let Zhao Qian see if there were any problems. Only after Zhao Qian nodded did she print out two copies.

The two of them signed and handprinted the agreement, and the agreement officially took effect.

At this time, Zhao Qian said, "I have faith in you and I also have feelings for you, so I did not hesitate to return the authority to you. But you have to respect me. The collaboration with Feiyu has been cancelled, otherwise I would be very sad. "

Wang Jing replied awkwardly, "But my dad has already promised Yang Cheng and signed the agreement. I'm only missing the final contract. If I go back on my word at this time, it would be too embarrassing for my dad. "

Zhao Qian pulled Wang Jing out of the company and sent her on the car, saying, "Anyway, I won't accept cooperating with Feiyu."

With that, he got into his car and drove away.

Wang Jing sat in the car in a daze. Her mind was in a mess.

It was obvious that Zhao Qian was very serious and would definitely not accept the idea of cooperating with Feiyu. Wang Jing had to choose between her father and her boyfriend.

## C237 Take Us to Make a Fortune

After thinking for a long time, Wang Jing still couldn't make up her mind. She really wanted to listen to Zhao Qian's words and end her cooperation with Feiyu. But she was worried that doing so would irritate her father and make it difficult for him to recover from his illness.

Zhao Qian returned home very quickly. Next up, he had to think of a way to pull the shares of Huaying back to their normal value. The easiest way to do that is to release good news, stimulate the secondary market, and boost share prices.

However, there wasn't any good news about Huaying, so Zhao Qian had to create his own.

After thinking carefully for a while, Zhao Qian thought of a good news that could definitely raise the price of shares. That was to make the Huaying Group cooperate with the Xingyuan, and change the game of the Xingyuan company into a movie or a TV drama.

It was an open secret that there was a rich world behind Xingyuan. As long as Huaying and Xingyuan were to cooperate, there would be unlimited imagination and the price of the shares would definitely increase rapidly in a short period of time.

In the morning of the second day, Zhao Qian directly went to the Xingyuan.

Guo Mingda quickly came out to greet him and brought him into the office of the general manager.

Guo Mingda asked very politely, "Young Master, what do you want to drink? I'll get someone to prepare it for you. "

Zhao Qian shook his head and replied, "You're welcome. I'm here to talk business, not drink. "

Guo Mingda hurriedly nodded and replied, "Understood. What orders does Young Master have? "

Zhao Qian replied straightforwardly: "I want Xingyuan to become strategic partners with Huaying Group and Mr Qian Entertainment. The three of us will work together to change Xingyuan into movies and TV dramas. Just like the previous series of Immortal Sword fire, we can also make a series of products. "What do you think?"

Guo Mingda was willing to cooperate with such a good opportunity. Besides, it was now Zhao Qian's offer to cooperate, so he didn't dare to refuse.

However, as the CEO of Xingyuan, Guo Mingda felt pressure to perform. As long as they were cooperating together, it was best to make clear how benefits were distributed.

So Guo Mingda replied, "Young Master's suggestion is very good, I am also very willing to cooperate. It's just business, brother, we have to settle the proportion of the shares first. As long as Xingyuan can take the share, I will definitely cooperate unconditionally with Young Master. "

At the end of the day, Guo Mingda was responsible for his Xingyuan, so Zhao Qian naturally admired his loyalty and dedication.

"The game's copyright is based on Xingyuan, so of course Xingyuan makes up the majority, so that's 50%. Huaying Group and I each have 25%. "Do you think so?" Zhao Qian asked.

Guo Mingda immediately smiled and nodded, "Of course. Since Young Master is so fair, I won't say anything else. "Whenever we sign on for a deal, just let me know. "

Zhao Qian nodded and asked again, "Have you been paying attention to Faang Ni's production recently?"

Guo Mingda quickly replied, "Reporting to Young Master, we're paying attention over there. I heard recently that they have reached an agreement with Huanyou and Leyou. There are also rumors that the Wang Family Estate is also preparing to invest. Capital on Wall Street in the United States is also ready to string together Flying Fish Live to work with Faang Ni Production. If all goes well, Faang Ni Producer will be able to catch up to us very soon. "

"Then what do you have in mind? We cannot just sit and watch them grow bigger and threaten the position of the Xingyuan in the industry, right? "

Zhao Qian asked again.

Guo Mingda was in a difficult position again, he knew clearly in his heart that Faang Ni's production was currently chasing after the Xingyuan fiercely. If Xingyuan was not taken as soon as possible to take effective measures to snipe through, not long later, Faang Ni's production would replace Xingyuan to become the industry's big boss.

But now, Faang Ni's creations were being sought after by quite a few people, so Xingyuan was unable to stop it. Unless absolutely necessary, some despicable means of competition would be used. Guo Mingda didn't have a good idea when it came to fighting in the open and in the open.

Guo Mingda sighed and replied, "Speaking of which, I'm ashamed. I've thought about it for a long time, but I still haven't been able to come up with a good idea. "What do you think we should do, Young Master?"

Zhao Qian chuckled and replied, "I still want to hear what kind of good idea from Director Guo. You can ask me instead."

"I'm ashamed, I'm ashamed ..." "I really can't think of anything to do. I hope

Young Master can help maintain our industry's number one position." Guo Mingda said with an embarrassed expression.

"Haha ..." Then you wait. I'll fix Faang Ni's production. "Alright, I'll be going now. Work hard."

After Zhao Qian said that, he stood up and left. Guo Mingda hurriedly sent him out, watching him drive away before returning.

Zhao Qian called Wang Jing, and said to her: "I have a deal with Xingyuan games, Huaying, Mr Qian Entertainment, Xingyuan, and conclude a strategic cooperation. Our three families have joined hands to adapt the game of Xingyuan, just like the previous deity sword series. If this news was released, it would be of great help to the Huaying Group's share price. Huaying's current share price is too low, so I need to increase it a little. "

Wang Jing smiled happily and replied, "Sure. "Then when will the contract be signed?"

"Any time is fine. When you're ready, let me know. I'll communicate with Xingyuan." Zhao Qian replied.

"Alright, I'll get someone to prepare immediately. We can sign the contract tomorrow." Wang Jing replied excitedly.

"Yes." Hanging up. "He's driving."

After Zhao Qian said that, he hung up and directly drove to Fuhai.

When his colleagues saw that Zhao Qian had returned, they quickly pulled him into the crowd for a chat.

"Zhao Qian, do you have any special relationship with the headquarters?"

"That's right! "Otherwise, how could the company dare to lend you 4 billion to play with such a big ticket when you've just arrived?"

"Tell us, if there's a chance, help us introduce ourselves."

"That's right, let's be colleagues. Bring us along too."

"..."

Zhao Qian smiled and signaled everyone to be quiet. Then he explained, "I'm afraid everyone is mistaken. I have nothing to do with the headquarters. The reason the company is willing to lend me so much money is because I'm using my company as a mortgage. "

When everyone heard this, they became even more puzzled.

What company could mortgage 4 billion? If Zhao Qian had such a valuable company, why didn't he just be a good boss and work hard for it?

Zhao Qian smiled and continued to explain: "Ah, Fuhai is rich! Also, I have a strong ability to integrate resources, so I can work here. This will be beneficial for my future development. There must be a reason why I was able to pawn 4 billion this time around. If I didn't work here, do you think the head office would give me that much money? "

Everyone nodded, feeling that Zhao Qian's words made sense. Other companies that make physical products have internal staff prices. It was understandable for Fuhai to invest in a backdoor for their own employees.

At this moment, someone asked what Zhao Qian's company did.

Since he couldn't hide it, he might as well tell them. Zhao Qian replied: "Have you seen Treading on the Sky? That's from my company. "

"The Mr Qian Entertainment is yours!"

"So you're saying that Qian Gege, who was the first to be ranked in Heaven Treading, is also you?"

"Holy sh \* t!" This is no ordinary trench! It's simply inhumane! "

"What did you think? "Why are you so willing to spend your money on that book?"

" ... "

Zhao Qian once again signaled for everyone to quiet down, and replied uniformly: "The Mr Qian Entertainment is mine, Qian Gege is also me. The reason why he spent so much money was of course to turn "Heaven Treading on the Step" into a popular IP. This was an era of traffic, with exposure and topics there was traffic, and with traffic there was money to be made. As long as this book goes viral, I can recoup the investment in a few minutes. "

"No wonder the company thinks so highly of you. So you're an investment mogul. "

"Now I understand why the company is willing to lend you 4 billion. Since you're so good at hype, there's no need to think about it, Huaying's share price will definitely soar very quickly."

"Boss, when are we going to raise the price of Huaying? Let's go in and order some goods, and bring us to a windfall. "

"That's right! If we buy the shares of Huaying right now, what price are you going to raise it to? "

" ... "

Everyone looked at Zhao Qian with anticipation. Right now, he was the God of Fortune.

## C238 Must be Laid off

Zhao Qian laughed out loud and said to his colleagues, "Everyone, don't make fun of me. I owe you 4 billion now, how can I bring you guys to earn money?"

"Aren't you being modest? You have taken control of Huaying Group, so it is impossible for you to just watch as the price of the goods is at a low point.

"Exactly! We're all colleagues, why are you so stingy? We won't buy too much. At most, we'll buy a few tens of thousands. Isn't that a drop in the bucket for you? "

"Zhao Qian, as for everyone's welfare in the embassy, you should have no problem with it."

" ... "

Actually, everyone knew that the Huaying's share price was too low, and could not reflect the value the company should have. At this point in time, as long as he had the opportunity to buy it, he would definitely be able to make money.

The reason why these people wanted Zhao Qian to tell them about their plan was just to make it safer and know when to buy and when to sell, in order to maximize their profits.

Zhao Qian didn't want to get estranged from everyone just because of this small amount of money, so he replied: "I don't know the specific plan, I'm entrusted to the brokerage to operate it. But I can assure you that the price of Huaying is too low right now. I can only say this much. You can experience it yourselves. "

"Wah!" Aren't you saying the same thing as if you didn't say anything? "

"That's not true, at least he told us a piece of information, Huaying's share price will definitely rise. If we buy now, we will definitely be able to make money. "It's just a question of how much money you can make just by looking at your own eyes."

"This is also good. Earning more or earning less depends on your ability. No one can complain."

"..."

Zhao Qian chuckled and turned around to find Wu Xiaohua.

Wu Xiaohua quickly stood up to welcome him and asked, "What would you like to drink, Young Master?"

Zhao Qian shook his head and replied, "No need, let's get down to business. You bring me the information for Donghai City Regeneration and Development Co., Ltd. I want to go and take over. "

Wu Xiaohua quickly went to settle the deal, took the rights transfer agreement and the others over and handed it to Zhao Qian.

Zhao Qian took the materials and left, and went straight to Donghai City Regeneration Resources Development Co., Ltd. When he arrived, it just so happened that Liao Bi'er was there as well.

Liao Bi'er smiled and asked, "Why have you only just arrived? I've been waiting for you for such a long time. I thought you guys only spent money and didn't want the company anymore. "

Zhao Qian chuckled and replied, "Didn't I give Director Liao some time to prepare?"

Liao Bi'er also smiled and replied, "There's nothing much to prepare. I have already informed all the employees that the company's Fuhai is now part of the investment."

Zhao Qian nodded and asked again, "Let's talk in your office."

Liao Bi'er nodded and brought Zhao Qian to her office.

Zhao Qian did not directly talk to her about taking over the company. Instead, he asked, "Can Director Liao help me with something?"

"What is it? Tell me." Liao Bi'er replied.

Zhao Qian replied straightforwardly: "I want to invest in Huanyou in my own name, but you should know my relationship with your brother already, he can't possibly sell me shares. So I want you to buy the stake from him and then sell it to me. "Don't worry, I won't ask for your help for nothing. I can pay you twice the amount."

Liao Bi'er was stupefied when she heard that. She quickly asked, "Pay twice as much? You think so highly of Huanyou? "

Zhao Qian chuckled, and replied: "I told Director Liao Ming, there's an entertainment company under my name, and recently I spent a huge sum to control Huaying Group. If I can become the second or even majority shareholder of Huanyou, I can change the game of Huanyou into a movie and TV drama. Even if only one project succeeds, I can still make a lot of money. So, I'm not looking favorably at Huanyou, but rather at my own ability to function movies and TV. "

Hearing that, Liao Bi'er asked in surprise, "The one who turned Huaying upside down was you?"

Zhao Qian nodded.

Liao Bi'er laughed out loud, clapping her hands, and asked again: "If I help you get the shares of Huanyou, then what benefits do I get?"

"Didn't I just say it? How much did you spend, I'll double it. If you spend 200 million, I'll spend 400 million to buy it back. This benefit isn't big enough? The price for Huanyou is at most five hundred million, I can still afford it." Zhao Qian replied honestly.

It did sound very nice, but everyone was greedy. Liao Bi'er wanted both cash and follow-up income. So she asked, "Can you give me some of your company's shares?"

Zhao Qian shook his head and replied, "My own company will not give any shares to anyone. If you want more of your income, you can buy more shares from your brother. You can keep a little of it for yourself besides what you gave me."

Liao Bi'er was silent. After all, this was her big brother's company. She had to think about the possible consequences.

Zhao Qian didn't say anything as he quietly waited for her to think of a reply.

After a few minutes, Liao Bi'er asked, "Are you investing alone or do you want to take away my brother's company?"

Zhao Qian laughed heartily and replied, "Director Liao, in front of you, I'm not afraid of speaking the truth. Just based on the size of the Huanyou, I'm not interested in it. To be able to move my heart, you have to at least have the market value of several billion for a company like Huaying. It's just a few hundred million, I really don't put it in my eyes. Let me tell you this, if I can't get the ownership of Huanyou, I will still continue to look for other game companies to work with. I just want to change the game that's more popular. As for who I'm working with, I really don't care."

Liao Bi'er nodded, and after hesitating for a while, replied, "I'll give it a try. How much stock do you want? "

Zhao Qian stretched out his four fingers and replied, "The best would be no less than forty percent."

Liao Bi'er immediately shook her head and replied, "That's impossible. "My brother only has 80% of the shares, he can't possibly give me half of it."

"Then Director Liao will do his best to buy as much as he can. "Okay?" Zhao Qian asked again.

Liao Bi'er nodded, saying that she would do her best to buy more shares.

Zhao Qian nodded, opened the folder and took out the contract to take over Liao Bi'er's company. He then took out the planning book that he had prepared and asked Liao Bi'er to manage it according to the requirements of the planning book.

Liao Bi'er skimmed through them. She could accept most of the strategic approaches, but some were more difficult to accept. For example, cutting jobs.

"Aren't you afraid of arousing resistance from the workers as soon as you take over the company? At the very least, we'll have to wait for the company's morale to stabilize before we can take action. " Liao Bi'er said.

Zhao Qian shook his head and replied very seriously: "The first thing is to cut the staff, there is no room for negotiation. According to the requirements I gave you, screen the qualified staff, and cut out all those that don't qualify. I can personally pay them an extra month's salary as a subsidy for the time they're looking for a job. "

Liao Bi'er did not understand and asked, "Why do you have to cut your job even if you would rather pay such a high price? Those jobs have to be done by someone. You cut off the workers, who's going to do it? How can the company function properly? Your company is so rich, and you even want to save on this little bit of wages? "

Zhao Qian explained, "The reason for cutting jobs is not to save money, but to make room for more suitable people. The reason why your company is doing worse is not because your business is not good. Sustainable development, environmental protection, this is the theme of future development, you should have developed better. But your main problem is with the workers. "

Liao Bi'er became even more confused. Their workers were all old employees who had worked for the company for several years or even over ten years. Why did he say that the problem lay with them?

## C239 Ren Jiaxuan's Cry for Help

Liao Bi'er refused to accept that and said, "You're just finding a random excuse to lay down your staff."

Zhao Qian laughed and replied, "I will make an exception to explain it to you. In the future, you only need to carry out all of our decisions. We will bear any consequences and not implicate you. If you don't do it, you'll bear all the consequences. There are two reasons why I say employees are not good enough. First of all, the staff had become old foxes and had lost their initial passion. They work to muddle along, not to work with the company. Second, the phenomenon of ganging up in your company is too common, and the internal consumption is too serious, so naturally it is impossible to work efficiently. "

Liao Bi'er was speechless after hearing what Zhao Qian said. The two problems he was talking about happened to be the company's most serious problems.

Liao Bi'er and Chen Guangyu had already discovered these problems and thought about them. However, many of the employees in the company were Chen Guangyu's family and friends, so they were too embarrassed to do anything to him.

Year after year, things dragged on until something happened to Chen Guangyu, but none of these problems were solved.

Now that Fuhai Investment had taken over the company, they would not be merciful, and taking action against these employees was reasonable.

Liao Bi'er nodded and replied, "I understand. If we had made up our minds earlier to reorganize the staff, maybe the company wouldn't have developed like this. "

Wu continued, "So I hope that Director Liao will strictly comply with our requirements. What should be cut must not be left. If anyone fought back, they would first have to be courteous, then they'd have to fight. The money I promised will be given. If there's anyone who isn't satisfied, then call the police. Do you understand? "

Liao Bi'er hesitated for a moment before finally nodding her head.

Zhao Qian stood up and said goodbye to Liao Bi'er, "Then I'll leave first. I'll get rid of Director Liao here. I'll be back in a few days to see how it works. "

Liao Bi'er quickly asked, "But after these people are laid off, who will take over their work?"

Zhao Qian immediately said: "Let the HR Department recruit you from the labor market. This time, you have to participate in the recruitment work properly, absolutely must not be the phenomenon of rallying factions. Do you understand? "

"Understood. I will work hard to do my job and hopefully will not disappoint you. " Liao Bi'er replied.

Zhao Qian nodded and waved goodbye. Liao Bi'er personally saw him off and watched his car disappear into the distance before turning back.

A few minutes after they got out, Zhao Qian's phone rang. He took it out and saw that it was actually Ren Jiaxuan.

Zhao Qian picked up the phone and asked, "Miss Ren, what's the matter?"

Ren Jiaxuan replied anxiously, "Where are you? Can you come and pick me up now? "

Hearing her tone, it sounded like she was very scared, so Zhao Qian quickly asked, "What now? Was he being followed again? "

Ren Jiaxuan hurriedly replied, "This time, it's even more serious than the tracking. Just now, Zhang Dacheng's secretary came over to tell me that he was going to kidnap me tonight and force me to sign the share transfer agreement. Tomorrow is the shareholders' meeting of the company. At the shareholders' meeting, he will formally purchase my shares and become the controlling shareholder of the company. I'm hiding in the office right now and I'm afraid to go out. Can you come pick me up? "Please."

Zhao Qian is only interested in the first interest in technology, Ren Jiaxuan is not interested. He then replied, "This is your first internal battle for technology. As an outsider, it's not good for me to get involved." If Zhang Dacheng knew of my existence, he would definitely hurt me. I don't want to get into big trouble for no reason at all. So... "I'm really sorry ..."

With that, Zhao Qian hung up the phone. As long as Ren Jiaxuan didn't offer him a share, he definitely wouldn't get involved.

Zhang Dacheng only wanted the shares, as long as it didn't hurt her life, Zhao Qian couldn't be bothered to care.

After a while, Ren Jiaxuan called again and said, "Do you still want to buy shares in the company?"

Zhao Qian replied straightforwardly, "Of course. At any time, I want to take control of technology first. However, Miss Ren is unwilling to let go, so I can only stare and worry. "

Ren Jiaxuan hesitated for a few seconds and immediately replied, "I can sell you the shares, but you have to agree to a few conditions."

Zhao Qian immediately became spirited and asked: "What are the conditions?"

"Tell me about it."

Ren Jiaxuan's condition was very realistic. The first thing she wanted was for Zhao Qian to protect her unconditionally and ensure her safety. Zhao Qian agreed without hesitation.

The second condition was that Zhao Qian had to support her for the rest of her life. This condition is a bit too much. Zhao Qian asked, "How do you know about this? Every day, the steamed buns were raised, and every day, the big fish and big meat were reared as well. But the cost is different, the pressure is different. "

Ren Jiaxuan immediately replied, "Don't worry, I definitely won't make things difficult for you. As long as it satisfies my basic needs, it's better than being rich, but it can't be worse than being a normal person. You don't have to think too much about it. When I get married, there will be someone who will share the responsibility with you. "

As far as Zhao Qian's family business was concerned, as long as Ren Jiaxuan didn't mess around, she was destined to enjoy all the glory and wealth in her life. He just wanted to remind Ren Jiaxuan not to mess around, or else he wouldn't be able to bear the costs.

Ren Jiaxuan's third condition is that Zhao Qian must drive Zhang Dacheng away. If possible, letting Zhang Dacheng go bankrupt was for the best. This way, she wouldn't have to worry about Zhang Dacheng taking revenge on her one day.

Zhao Qian agreed without any hesitation. It was too easy to deal with Zhang Dacheng, so there was no need to consider it.

Ren Jiaxuan's fourth condition is that Zhao Qian buy her stake for a premium of 30%. Ren Jiaxuan's stake is worth at least 200 million based on her current valuation of technology. Since the premium was 30%, Zhao Qian had to pay

an extra 6 million.

However, this amount of money was nothing to Zhao Qian. As long as he could get his hands on the technology first, even tens of millions wouldn't be a big deal.

Zhao Qian immediately replied: "I can agree to all of your conditions. Is there anything else I can add?"

Ren Jiaxuan thought about it again before replying, "There's nothing else to add. I believe that with your character, you will definitely take care of me in the future. Hurry up and come pick me up for Technology right now. I'm hungry, I want to go eat. "

Zhao Qian smiled and replied, "Sure. Just you wait, I'll be right there. "

Ren Jiaxuan quickly replied, "Okay, I'll wait for you. Drive slowly, but come on. "

Zhao Qian laughed out loud and hung up the phone. Then, he sped up his pace to go to technology first.

Forty minutes later, Zhao Qian arrived at the door of the technology store. However, his external vehicle, the guard room was not allowed to enter. He even asked him to show his identity, driver's license, etc. It was completely a police interrogation.

Zhao Qian didn't want to get entangled with them, so he called Ren Jiaxuan.

Soon, the call connected.

"Hey, where are you?" Ren Jiaxuan asked.

Zhao Qian replied snappily: "I came to the door of your company, but the

guard stopped me. "Hurry up and come out. I'll wait for you at the gate."

Ren Jiaxuan immediately refused, "No, no ..." Zhang Dacheng's men are outside. If I go out like this, won't I just be like a lamb in a tiger's den? "

Zhao Qian laughed speechlessly and replied, "Just run out in one breath. If someone is chasing you, shout. In this broad daylight, in your company, everyone will definitely help you. "

Ren Jiaxuan felt that this made sense. What was there to be afraid of in their own company? She boldly rushed out. As soon as she stepped out of the door, someone followed closely behind her.

## C240 Arranged

Panicking, Ren Jiaxuan hurried to the door. The people behind her quickly caught up, their speed even faster than her.

First, the technology was very big. From the office to the main entrance, it was about 500 meters. Ren Jiaxuan ran faster and faster and tired. In the end, his legs trembled and he fell to the ground.

When the people behind saw this, they hurriedly rushed forward.

"Miss Ren, how are you?"

"Miss Ren, are you alright?"

"Miss Ren, do you need to go to the hospital?"

"Do you even need to ask? If he fell like this, he would definitely go to the hospital."

"Then let's send Miss Ren to the hospital."

"..."

The four of them exchanged words, talking nonstop.

Ren Jiaxuan beat them with her bag and shouted, "Get lost! Stay away from me! Someone come, someone come! "

It was now business time, plus Zhang Dacheng had ordered that no one was to come out before work. At this moment, no one really passed by. Ren Jiaxuan couldn't help but shout.

The four of them quickly covered Ren Jiaxuan's mouth and carried her to the main entrance, where the car was already parked and waiting.

Upon seeing this, the guard immediately rushed into the guard room. He lowered his head and pretended to write something, deliberately allowing Ren Jiaxuan to be carried away.

Zhao Qian quickly took out a baseball bat from the trunk and threw it without saying anything.

"Mm ..." "Hmm ..." "Mhmm ..."

Ren Jiaxuan kept asking Zhao Qian for help, but she could only let out a "hmm" sound.

"This has nothing to do with you, mind your own business!"

"Hurry up and get out of here, or else I'll be rude to you!"

"..."

After the four of them threatened Zhao Qian, they carried Ren Jiaxuan and left.

Zhao Qian raised his stick and swung it again. The four of them had no choice but to carry Ren Jiaxuan onto the car, leaving the two to deal with Zhao Qian.

Zhao Qian wasn't going to get entangled with the two of them. After beating them back with a series of swinging sticks, he rushed forward to hold Ren Jiaxuan hostage.

Ren Jiaxuan seized the opportunity to run away and shout for help.

"Help! "Save me ..."

She called out a few times, but when the guard room didn't respond, she turned around and was about to run over. Zhao Qian quickly pulled her back and scolded her, "Are you stupid? They're obviously on the same side, don't you see? "

Only then did Ren Jiaxuan realize that it was unreasonable for the guard to keep his head down. Even though she shouted so loudly, the guard still didn't respond. This meant that they had already been bribed by Zhang Dacheng.

Zhao Qian shouted again: "Get in my car and close the door!"

Ren Jiaxuan quickly followed Zhao Qian's instructions and got into the car.

"Bro, you really don't want anything good!"

"If you run away now, we can ignore it. If you delay our business, don't blame us for being impolite! "

" ... "

The four of them said as they surrounded Zhao Qian.

Zhao Qian said with a smile, "In broad daylight, how can there still be a law for you to rob a civilian's daughter like this?"

"F \* ck!" You've watched too many retarded TV dramas, right? "

"Why are you wasting words with him!" "Brat, why don't you just say that you need to meddle in other people's business!"

Zhao Qian nodded and replied, "If you see injustice on the road, draw your sword and help. This is what a person should have."

"Consciousness? You have to pay the price for your enlightenment! "Let's attack together!"

The four of them immediately attacked Zhao Qian at the same time.

Zhao Qian wasn't afraid. After all, he had trained in martial arts since he was young and had a baseball bat in his hand, so dealing with the four thugs was easy.

Zhao Qian smashed his arm and legs, knocking out all four of them in a few hits.

Ren Jiaxuan shouted, "Get in the car quickly! Hurry!"

Zhao Qian quickly got on the car and drove away for Technology.

Ren Jiaxuan still had lingering fear in her heart, but she was still tense.

Zhao Qian asked, "Should we go to the hospital to have a look?"

Ren Jiaxuan quickly shook her head and replied, "No need. Take me to your house. Tomorrow, when the shareholders' meeting is over, everything will be settled. "

Zhao Qian nodded and brought Ren Jiaxuan home. He took some disinfectant water from the house and applied it to Ren Jiaxuan's broken knee. After they were done, the two began to discuss business.

Ren Jiaxuan said, "Can you deal with Zhang Dacheng? As you can see today, he has a lot of authority in the company and even the doormen are afraid of him. "

Zhao Qian laughed heartily and replied, "I'm still not putting him in my eyes. "As long as you give me your shares and let me take control of the technology,

I will guarantee your safety and also expel Zhang Dacheng from the technology first."

Ren Jiaxuan nodded and continued, "Then go and make a simple agreement in your heart and write it all down. We can only sell you the shares if we sign and press our hands. "

Zhao Qian nodded and brought Ren Jiaxuan to the study room. As the two discussed amongst themselves, they typed out an agreement.

Ren Jiaxuan read it carefully a few times. After confirming that there were no problems and no conditions that needed to be added, she signed and pressed her hand.

Zhao Qian also immediately signed and pressed his fingerprint, and the agreement officially went into effect.

Now that they have reached the most crucial part of the share transfer, Zhao Qian asked: "You should think about it more carefully. If you want any conditions, you can put them forward first. I have never taken advantage of anyone. Think carefully, we can sign an agreement again. "

Ren Jiaxuan shook her head and replied, "There's nothing much to consider. I've already thought it through clearly. Give me 400 million and I'll sell you all the shares. From now on, you'll take care of me for the rest of my life.

Zhao Qian laughed and asked, "The responsibility of taking care of you for a lifetime is a little heavy. Do I need to give myself up? "

Ren Jiaxuan speechlessly rolled her eyes, then burst out laughing and replied, "Brother Sir looks pretty good. If you are willing to sacrifice yourself, I can consider it when I need it."

"Big sister doesn't look too bad either. When do you need it? When are you

going to tell me? I'll be ready at any time."

"Haha ..."

Zhao Qian took out a share transfer agreement and the two signed their handprints, waiting for tomorrow's shareholders' meeting to officially hand it over.

Ren Jiaxuan looked around and asked with a smile, "Don't you have a partner?"

Zhao Qian nodded and replied, "I guess there is one. You still haven't seen your parents, so you can't be considered an official couple. "

"Wah!" Is your family so strict? You still need to meet your parents, and they can only agree to continue dating? " Ren Jiaxuan asked.

Zhao Qian was silent for a few seconds, and then replied: "How so? This is my respect for my parents. After all, I was looking for someone to marry. Marriage is a matter for two families. If my parents don't like it, I'll force them to marry me. In the future, three generations of my family won't be able to live well. That's not right, my grandfather is still here, he shouldn't be able to live well in the fourth generation. To not harm three generations by taking a wife, that is the lesson learned from countless predecessors. "

Ren Jiaxuan burst into laughter. In her heart, she felt contempt for Zhao Qian. She felt that he was just a mummy. Everything had to be approved by his parents, so she had no opinion at all. This kind of man, even if he gave it to her for free, she wouldn't accept it.

Zhao Qian still had to deal with tomorrow's matter, so he said to Ren Jiaxuan, "You should sleep in the same room as before. Go clean up yourself, I'm not going to help you."

Ren Jiaxuan nodded with a smile and got up to go to her room.

Zhao Qian locked the door and immediately called Yang Hu.

"Hello, Young Master, what can I do for you?" Yang Hu asked.

Zhao Qian didn't go straight to the point, but asked about his injuries first. Yang Hu quickly replied, "Thank you for Young Master's concern, I'm almost fully recovered now. I'll be out of the hospital in a few days, and I'll go home and rest."

Zhao Qian quickly warned, "Don't try to show off. If the doctor doesn't want you to leave the hospital, you can't. We don't need that much money, do you understand?"

Yang Hu was so happy that it was like he ate honey. He hurriedly replied, "Sure, I'll listen to Young Master. Is there something Young Master wants me to do?"

Zhao Qian hurriedly became serious and replied, "That's right, I do have something for you to do. Get someone to investigate the second-in-command of Technology, Zhang Dacheng. I need to get some information on him as soon as possible.

Yang Hu quickly replied, "Understood. I'll send someone to deal with him right now. As long as he has a clue, we'll be able to get it soon."

Zhao Qian continued to instruct: "OK. If nothing unexpected happens, he will definitely invite guests for dinner tonight. Better get hold of him tonight. "Also, pick out a few good brothers and wait for me at the technology entrance at 8 o'clock tomorrow morning."

"Understood!"

"Yes." You should get some rest, and hang up. "

Zhao Qian hung up the phone and let out a sigh. With this arrangement, there shouldn't be any problems.

## C241 Who Exactly Are You

Soon, the sky turned dark. Zhao Qian went upstairs and knocked on Ren Jiaxuan's door, asking, "What will we have for dinner tonight? Should I go out to eat, or should I order takeout? "

Ren Jiaxuan yawned and replied, "I think it's better if we order takeouts. I was too sleepy to go out. A bowl of noodles would do. I can't eat much. "

Zhao Qian saw that she was too thin, so he replied, "Let's eat some meat. You look much thinner than the average girl. If this goes on, your body will have problems sooner or later. You still need me to take care of you for the rest of your life, so I think I can choose a tomb for you now. "

Ren Jiaxuan immediately woke up from her stupor and kicked Zhao Qian. She reproached, "Do you know how to speak? You need a cemetery! "Humph!"

Zhao Qian laughed and replied, "You're right, I do need a cemetery. This is something that everyone needs, and will need to be used sooner or later. "

Ren Jiaxuan rolled her eyes and looked at Zhao Qian, but didn't take his words. Instead, she asked, "Tomorrow, Zhang Dacheng will definitely cause trouble. Are you ready?"

Zhao Qian made an OK gesture and replied: "It's done, don't worry. "Then I'll order any takeout."

Ren Jiaxuan nodded, turned around and walked towards the bed. As she walked, she said, "Just help me get a bowl of beef noodles. I'll listen to you and have some meat."

Zhao Qian smiled and went downstairs to order takeout.

Half an hour later, someone rang the bell. Zhao Qian opened the door and took a look. It was Sir, who was wearing a take-out outfit.

"Hello, the takeout that you called has arrived. Please open the door and take a look."

Zhao Qian nodded, opened the door and walked out. However, when he walked a few steps closer, Zhao Qian noticed that something was wrong with the delivery man. He was actually wearing a pair of shiny leather shoes. Which delivery man would wear such good shoes for delivery?

Regardless of whether he was worried or not, Zhao Qian stopped immediately for safety reasons and shouted to Sir, "I suddenly remember that I have something to do. You should put your things on top of the lion at the door. I'll go get it myself later. "

With that, Zhao Qian turned around and left.

The take-out Sir quickly shouted, "Handsome, you just opened the door and took it in, it won't take up much of your time. If I lost it at the door, I'd have to take responsibility. It's not easy for me to work so hard to run back and forth, so please forgive me. "

Zhao Qian ignored him and returned to his room to quickly watch the surveillance footage around the villa. As he expected, the person who sold it was not the delivery boy, but Zhang Dacheng's person. Two of the four people he beat up earlier in the day were hiding near the green belt he sold at the mansion.

"This Zhang Dacheng is quite capable to be able to find this place." Zhao Qian couldn't help but sigh.

However, when he thought about it carefully, he felt that something was wrong. He had always kept a low profile. It was impossible for Zhang Dacheng

to know him, so how could he find him here?

Just as she was thinking, Ren Jiaxuan ran over in a flurry.

Zhao Qian quickly asked, "What's wrong?"

Ren Jiaxuan replied nervously, "Just now, Zhang Dacheng called me. He said that it's useless for me to hide here, he has sent people to stand guard outside, so I can't escape. If I go out now, they won't hurt us. If I don't go out and they rush in, neither of us will have a good ending. "

Zhao Qian comforted her, "Don't be afraid, they won't be able to charge in."

After saying that, Zhao Qian quickly closed all the windows and called Yang Hu.

After a while, Zhao Qian made two phone calls. Yang Hu felt that the situation must be serious and quickly asked: "Young Master, is there any trouble?"

"Yeah, there are a few thugs surrounding my place. You can call a few people over to bring them all back. Don't let it out until eleven tomorrow morning. "

Zhao Qian instructed.

Yang Hu quickly replied, "Understood! I'll get someone to go right now. "Young Master must not come out until they arrive."

Zhao Qian acknowledged and hung up the phone. Then, he comforted Ren Jiaxuan, "Don't worry, I've called some people over. They won't appear again until the shareholders' meeting is over tomorrow."

Ren Jiaxuan found it hard to believe and asked, "Is what you said true? What if they call the police? "

"They didn't get a chance to call the police." Zhao Qian said casually.

Ren Jiakuan was very curious about Zhao Qian. What kind of person was he to be so powerful? She laughed and asked: "Mr Zhao, now that we are considered friends, tell me the truth. What do you do in the end? How can there be so much money and so much power? "

Zhao Qian glanced at Ren Jiakuan and replied coldly, "Don't ask me what you shouldn't ask, you can't tell me what I don't want you to know." I won't hide what you should know from me. Do you understand? "

Ren Jiakuan quickly nodded and replied, "Oh, I understand." Then I'll go back to my room. When can I eat? I'm a little hungry. "

"I'll take you out to eat after I've taken everyone out. You'll go to your room and don't show your face no matter what you hear. Do you understand? "

Zhao Qian warned.

Ren Jiakuan nodded and turned back to her room.

After a while, the people outside did not hide any longer and directly went over to knock on the door, calling for the people inside to hurry up and leave.

Zhao Qian poured a cup of tea, pulled a chair over and sat five meters away from the door. While drinking the tea, he listened to their blind comparison.

"Kid, you said that you live in such a good villa, if you don't cherish your life, why must you get involved? Do you know who that woman is? "

Zhao Qian shook his head.

"F \* ck!" You dare to save me even if you don't know? She is our boss's lover. Does the lover know what she means? After stealing our boss's money, our boss was so angry that he ordered her to be taken back at all costs. Didn't you say that you were creating trouble for yourself by protecting her? "

Zhao Qian drank a mouthful of tea and replied with a smile: "It's not easy for you people to be hired as helpers! He still had to think of a way to cheat, as well as earn a lot of money. However, no matter how hard it is, you can't do anything illegal. How sad your parents would be if they knew. If you go to jail, who's going to take care of them? You're all married and have children..."

Zhao Qian purposefully talked nonstop in order to stall for time. The people outside could not stand him being so long-winded. They were so angry that they kicked at the door.

After about ten minutes of this delay, a line of vans arrived. The car stopped in front of Zhao Qian's house. More than 20 people rushed out of the car and quickly surrounded Zhang Dacheng's men.

Zhao Qian finished all the tea in his cup and ordered, "Take them all away, we can't let them leave until 11 tomorrow morning."

With that, he pulled the chair back. The moment he entered, he saw Ren Jiaxuan staring at him with a face full of astonishment.

"What's wrong? Why are you looking at me like that?" Zhao Qian asked in confusion.

"You ... Who the hell are you? The underworld? Why did he call so many people? What are you going to do with them? Kill them all?" Ren Jiaxuan asked nervously.

Seeing Ren Jiaxuan so nervous, Zhao Qian couldn't help but want to tease her. His face darkened and he sneered, "Since you found out, I can't let you live. I don't want the police to come knocking on my door. In any case, the share transfer agreement has already been signed. It's useless for you to keep it.

Ren Jiaxuan was frightened out of her wits. She turned around and ran up the

stairs as she shouted, "Help! "Save me ..."

Zhao Qian smiled as he chased after him, continuously shouting: "Stop! If you can't run away, just obediently accept your death! "

## C242 Rob

Ren Jiaxuan was rather scared by Zhao Qian. She dived into the room and wailed loudly, "Don't come over, I'm calling the police."

Zhao Qian laughed and replied, "How old are you? Is it hard to tell if the other person is serious or just joking?"

"You called so many people over at one go, you're even stronger than Zhang Dacheng. Of course I'm scared. You're even trying to scare me, how would I know who you are!" Ren Jiaxuan complained.

"Then you are too stupid. Hurry up and come out to eat. "I'm going to change my clothes. If you still don't come out when I'm done changing, I'll go eat by myself."

With that, Zhao Qian went back to his room to change.

Ren Jiaxuan held her cell phone and hesitated, unsure of what to do.

Call the police. What if Zhao Qian isn't a bad guy? It wasn't easy for her to find someone who could protect her for the rest of her life, so she couldn't offend him just like that.

But if they didn't call the police, what if Zhao Qian was a bad guy? Wasn't she like a lamb in a tiger's den?

No matter how she thought about it, Ren Jiaxuan just couldn't understand and didn't go out.

Zhao Qian went out to eat dinner by himself without waiting for her. Halfway through her meal, Wang Jing called.

Zhao Qian picked up the call and asked with a smile: "Sister, what are you looking for me for?"

Wang Jing snorted coldly and replied, "If there's nothing else, I won't be able to look for you."

Zhao Qian was confused and quickly replied, "Yes, of course. It's better if nothing happens. From your tone, it seems like you have something on your mind. Speak, what is it? "

"I'm fine!" When a person is bored, he wants to find someone to scold. Just do what you need to do, I'll just scold you for a bit. " Wang Jing replied irrationally.

Zhao Qian was really shocked by her ridiculous excuse. He couldn't help but laugh and ask: "You aren't upset because you're here, are you?"

"You don't need to care? Why would a man's mouth be so broken? Why ask so much? I told you to stop talking, don't you understand? "You said your mouth is so broken and you like to meddle in other people's business ..."

Wang Jing couldn't stop talking for five minutes in a breath. She didn't say that she was tired, but Zhao Qian was really tired from listening.

"Enough?" Zhao Qian asked tentatively.

"No!" I'll drink some water to calm myself down and we'll continue! " Wang Jing replied in an unreasonable tone.

Zhao Qian chuckled, drank the last mouthful of soup, wiped his mouth and replied: "OK, you rest for a bit before continuing. I'm going to pay for it.

"Waiter, pay up."

After buying the bill, Zhao Qian got up and left. As he walked, he listened to

Wang Jing's explanation. When he got in the car, he said, "I'm going to drive, so hang up. I'll call you later. "

"Hanging up what?" Don't you know how to skip it? You drive your car, and I'll go on with my phone call, without interfering with each other! " Wang Jing said rudely.

Zhao Qian chuckled again, he was sure that her elder aunt was here, and he was annoyed. Therefore, he did not say anything, just pressed his phone on a hands-free button and drove home.

Wang Jing did not listen to her along the way. Zhao Qian finally understood a problem. She had always complained about her being alone and no one accompanied her.

It seemed that this was the reason why she complained so much. It wasn't because her aunt had been in a bad mood.

Zhao Qian stopped in front of his house, picked up his phone and asked seriously: "Sister, are you free tomorrow night? We'll eat together and watch a movie. "

"I'm not free!" Wang Jing refused.

"Not free? I'll go look for you at Huaying tomorrow then. I need to see what you're busy with every day, so you won't even have time at night. "

"Don't come! I don't want to see you! "Humph!"

Wang Jing hung up the phone after she said that. It seemed like Zhao Qian had guessed right, she was blaming him for not accompanying her. I'm going to ask her to go to the movies tomorrow night.

Zhao Qian chuckled, opened the electric door and drove in. As soon as he

entered the room, he saw Ren Jiaxuan looking at him with a resentful expression.

"What does this expression mean?" Zhao Qian asked with a smile.

Ren Jiaxuan grumbled, "You came back just like that? You're not bringing me any? "

"You don't want to eat it yourself, blame me?" Zhao Qian replied.

Ren Jiaxuan couldn't take it anymore and complained, "As a girl, isn't it normal for me to be scared? What is a man like you trying to compete with me for? It's good for you to bring me a bowl of noodles. You actually ignored me! "

Zhao Qian laughed and replied, "That's how I will respect your opinion. I will be satisfied with what you say to eat. If you say no, I definitely won't force you. "

Ren Jiaxuan sat beside Zhao Qian, glaring at him. She thought it would embarrass him to go out and buy her food. However, she was thinking too much.

Zhao Qian just got up and went back to his room, not caring about her at all.

Ren Jiaxuan knocked on the door angrily a few times and scolded, "Zhao Qian, you are such a bastard! I wish you a single life! "

After cursing, she could only order takeout.

Just as Zhao Qian was about to go to bed after showering, Ren Jiaxuan knocked on the door.

"What?" If you have anything to say, say it tomorrow.

Ren Jiaxuan quickly replied, "The takeout is almost here. Come out and help me get it." "I'm afraid there are still bad people outside. You don't want me to be taken away by Zhang Dacheng either, right?"

Zhao Qian opened the door and purposely said, "You're really bold, actually daring to order takeout. Aren't you afraid that Zhang Dacheng will poison you from the outside?"

Ren Jiaxuan immediately replied in fear, "That's impossible, right? I only ordered the noodles, and he didn't make it.

Zhao Qian shook his head and replied, "Just now, they were able to pass themselves off as a delivery boy and come over to take care of me. Now, can't they poison you in your takeout?" "Wait, I'll go get it for you."

With that, Zhao Qian walked out. Ren Jiaxuan froze on the spot, unable to recover for a moment.

After a while, Zhao Qian came in with a takeout and put it on the table, then shouted, "What are you standing there for? Hurry up and see if this beef noodle soup is poisonous? Oh, that's not right.

Ren Jiaxuan walked over angrily and replied, "I'm not eating anymore!"

"Hmm? Why aren't you eating? Would it be easy for the take-out clerk to bring it all the way here? How can you disappoint someone? Here, hurry up and eat. I'll feed you."

Zhao Qian said as he opened the lunchbox to feed Ren Jiaxuan.

But she didn't dare to eat it. She was so scared that she quickly retreated, pointed at the noodles and said, "You ..." "You take a bite and show me. "If you're not poisoned, I'll eat more."

Zhao Qian rolled his eyes and replied, "You took me for a eunuch to try my luck! However, since you're so pitiful, I'll give it a try for you. "

Zhao Qian ate all the beef in one go, then patted his belly and said, "Aiya, this beef noodles is so generous. "Crack ..." "I'm full."

After saying that, he threw the chopsticks onto the lunchbox, rubbed his stomach, and burped as he returned to his room in satisfaction.

Only then did Ren Jiaxuan react and scolded, "Zhao Qian, you're a bastard! It's just a few pieces of beef, and you even tricked me! "

Zhao Qian laughed out loud and replied: "Clean up after eating. I hate girls that don't care the most. Don't force me to kick you out. "After tidying up, hurry up and go to sleep. There's still a tough battle to fight tomorrow."

Ren Jiaxuan stomped her feet in anger and shouted, "Ah ..." "I hate you! "

She was furious. It was almost ten o'clock, and she still hadn't eaten. She was so hungry that she had no choice but to sit down and eat the noodles.

After finishing the noodles, Ren Jiaxuan tidied up the living room and didn't go to bed until it was almost 12 o'clock.

At eight o'clock the next morning, Zhao Qian and Ren Jiaxuan went out on time. Yang Hu's men were already waiting outside the gate.

Seeing that there's someone waiting outside again, Ren Jiaxuan was so scared that she quickly hid behind Zhao Qian and whispered, "What do we do? Here they come again. Let's call the police. "

Zhao Qian chuckled, turned around and pulled her in front of him, and comforted her, "Don't be afraid, go out and try. See if they dare to touch you."

Ren Jiaxuan immediately shook her head and replied, "No, I don't dare."

"Why wouldn't I dare? You go out and try it! "

After saying that, Zhao Qian forcefully pulled Ren Jiaxuan and walked out. The people outside didn't have any reaction, as if they didn't see them.

"Did you see that? I told you it was all right. "Wait, I'll go drive!"

After saying that, Zhao Qian turned around and returned to the garage to drive. But before he even drove out, there was already a commotion from outside.

Ren Jiaxuan ran in screaming and shouted, "Zhao Qian, quickly save me! Help! "Save me ..."

Zhao Qian hurriedly ran over to take a look. It turned out to be Zhang Dacheng's men who came to snatch Ren Jiaxuan. Yang Hu's men had already started their fight with them, and the fight between the two parties was extremely intense.

## C243 Small Tricks

Zhao Qian blocked Ren Jiaxuan behind him, comforting her not to be afraid. There were already people bleeding. How could she not be afraid?

Ren Jiaxuan quickly said, "Why don't we call the police?"

Zhao Qian shook his head and rejected Ren Jiaxuan's suggestion. Most of Yang Hu's men were retired soldiers, how could it not be easy to deal with a few scumbag thugs? There was no need to call the police.

Ren Jiaxuan was very scared. She did not want to be captured by Zhang Dacheng's men. So she hid in Wu's garage.

After a while, the battle outside ended. Zhang Dacheng's men were all subdued. Yang Hu's men cleaned up the battlefield before leaving with Zhang Dacheng's men.

Zhao Qian turned around and returned to the garage. He said to Ren Jiaxuan, "Stop hiding, it's over. Get in the car, we're going to go for technology now. "

Ren Jiaxuan quickly got in the car. Zhao Qian drove out, and she even looked around to make sure that there was no one else around.

From the looks of it, Zhao Qian was not simple. Ren Jiaxuan then asked tentatively, "Mr Zhao, may I ask, what exactly do you do? How can there be so many subordinates? "

Zhao Qian looked at Ren Jiaxuan but didn't reply. He just quietly drove.

Ren Jiaxuan did not dare to ask any further. After all, Zhao Qian was someone who could call his men over.

Very quickly, the two of them left the villa area. Just as they got onto the main road, they were stopped. There was a car accident in front and the road was blocked.

Zhao Qian did not hesitate and immediately turned back. He rushed towards Technology from the other direction.

But when they reached the main road, they were blocked and there was a car accident.

Ren Jiaxuan grumbled, "Why are you so unlucky? There were accidents on both sides of the road. We won't make it in time."

Zhao Qian chuckled and said, "Don't worry, no one can stop me from going for technology first."

"But these two roads are blocked. If we take the other roads, it will definitely be too late." Ren Jiaxuan replied.

Zhao Qian calmly took out his phone and called Yang Hu.

Yang Hu picked up the phone and quickly asked, "Young Master, will there be trouble again?"

Zhao Qian acknowledged and immediately ordered: "I'm going to go for technology now, but my house is blocked on both sides. You can arrange for a helicopter to come over. I need to get to Technology as soon as possible."

Yang Hu quickly replied, "No problem, I'll call Huo Xin right now and ask him to fly over to pick you up."

"Well, I'll wait at home now and tell him to hurry up. Dead."

Then, Zhao Qian hung up and went back home.

Ren Jiaxuan was truly frightened by Zhao Qian's words. He actually managed to get a helicopter here.

Ren Jiaxuan couldn't help but laugh when she thought about the awesome task she'd gotten onto the leaderboard in a daze.

An hour later, the helicopter stopped in front of Zhao Qian's house. Zhao Qian told Ren Jiaxuan to get on the helicopter quickly.

Yang Hu told Huo Xin not to speak, he just needed to focus on flying the plane. Therefore, after Zhao Qian went up, he didn't even dare to look back.

Zhao Qian instructed, "Go for the technology first."

Huo Xin acknowledged and immediately flew off to save the technology.

Ren Jiaxuan asked curiously, "Handsome, don't you need your helicopter to take off? How did you get here so quickly? "

Huo Xin felt really troubled. Yang Hu told him not to say anything, but since Ren Jiaxuan had already asked, it wasn't appropriate for him to not say anything.

Zhao Qian guessed that Huo Xin wouldn't dare to say anything, so he answered for him, "Under normal circumstances, I would have to report this to the Aviation Authority or something, but after going through that set of procedures, I think it will be next year. So most of the people who have private planes in the country are "Black Fly". "

"What does 'Black Fly' mean?" Ren Jiaxuan asked curiously.

Zhao Qian explained: "It's to fly secretly without reporting to the aviation authority. If you get caught, you pay a fine. Usually twenty or thirty thousand

was enough, and anyone who could afford a plane didn't care about that amount. With just twenty or thirty thousand words, we can waive so many formalities. Naturally, they would be willing to do so. "

Ren Jiaxuan nodded in realization, feeling even more curious about Zhao Qian's identity. Since he knew so much about helicopters, he must not be an ordinary person.

At this time, the shareholders' meeting for Technology has already begun. Zhang Dacheng wanted to end the battle quickly, so he said loudly: "Miss Ren's absence from the shareholders' meeting means that she has given up her rights as a majority shareholder. I suggest we join forces and force her to give up her stake. Or, at least, force her to accept the dividends, not the management of the company. What do you think? "

First, most of the technology was controlled by Zhang Dacheng. Whatever he said, everyone else would agree.

If you had to blame something, blame it on Ren Jiaxuan being a girl who didn't know anything. The old guys who fought alongside Hai An the whole way naturally wouldn't submit to her. They all wanted to drive her out first and take away her ownership.

Zhang Dacheng wanted to become a major shareholder of the company, so everyone used him to chase Ren Jiaxuan away. After Ren Jiaxuan was chased away, everyone sat down to discuss how to share the shares that originally belonged to Ren Hai An.

However, there were still people who were loyal to the Ren Family. They immediately stood up to oppose Zhang Dacheng's proposal, asking him to wait a little longer. With such an important matter, it was impossible for Miss Ren to forfeit. She must have met with some sort of delay.

The people supporting Zhang Dacheng immediately expressed their

dissatisfaction.

"For her to be late for such an important meeting, it means she doesn't care about the company at all. How could such a person be worthy of being a major shareholder in the company? If the company is in her hands, sooner or later it will go to waste. "

"That's right!" All of us were there, except for her. Is that possible? It must be that she doesn't want to come, and she doesn't want the shares in her hands anymore. "

"Who cares what happens to her. If she doesn't come, then let's just hold a shareholders' meeting and vote on her proposal. "

" ... "

The supporters of the Ren Family immediately retaliated.

"Bullshit!" First of all, technology is one of Director Ren's hard work, how could Miss Ren give up control so easily? "

"That's right, Zhang Dacheng is still thinking of ways to seize control." He could see that technology had a bright future ahead of it. Could Miss Ren not see that? How could she leave a mountain of gold behind? "

"Anyway, if Miss Ren doesn't come, we won't start the shareholders' meeting. No matter what you vote for, we will not accept any of it! "

" ... "

Both sides quarreled intensely. In the end, only Zhang Dacheng was able to take charge of the situation. He shouted, "Stop arguing!"

Everyone quieted down.

Zhang Dacheng continued, "Since we can't reach an agreement, I will be in charge. If Ren Jiaxuan didn't arrive within ten minutes, it would be considered as her forfeiting. We don't need her to vote on any of our agreements. "How about it?"

The people who supported Zhang Dacheng were definitely willing, so they immediately shouted in support.

The supporters of the Ren Family were a little hesitant. They looked at each other, but no one dared to say anything.

However, in the end, there were still people who nodded their heads in agreement. As long as someone did something like that, everyone else would do it. Everyone who supported the Ren Family nodded their heads and agreed with Zhang Dacheng's suggestion.

Zhang Dacheng laughed out loud in joy. With this, he was sure that he was going to be the new owner of the technology.

Both sides of Zhao Qian's house were in a car accident. It wasn't an accident, but a man-made accident. It was Zhang Dacheng who sent his men to stop the traffic and prevent Ren Jiaxuan from arriving on time. He could argue with that now.

Zhang Dacheng felt that if he waited another ten minutes, he would be able to legitimately control technology first.

## C244 Come with Me and Take Back Everything That Belongs to Us

Time passed by quickly. Soon, ten minutes had passed. Zhang Dacheng happily chatted with his allies around him.

"Director Zhang, you've stabilized today!"

"Haha ..." We've been planning for so long, we're definitely going to make it.  
"

"After Director Zhang gets it, don't forget about us old friends."

" ... "

Zhang Dacheng laughed out loud, patted his chest and assured everyone:

"Don't worry, I definitely won't forget the help you've given me. As soon as I got the management of technology first, I immediately increased the capital to dilute Ren Jiakuan's equity. When the time comes, all of you can use your money to invest, and I'll bring all of you along to make a fortune together. "

"Haha ..." "Then I'll thank Director Zhang first."

"I'm going to follow Director Zhang from now on."

"With CEO Zhang's capabilities, he'll definitely be able to take the lead and bring the technology to the next level. He'll definitely be able to make a lot of money."

" ... "

Zhang Dacheng couldn't help but smile when he heard everyone flattering him.

The faces of those who supported Ren Jiaxuan turned ugly. It was almost ten minutes and she still wasn't here. It seemed that she didn't dare to come.

Zhang Dacheng looked at his watch. Ten minutes have passed, so he immediately stood up and said loudly, "Everyone, ten minutes are up. It's not that I don't want to give her a chance, it's that she doesn't want the company. She was very self-aware and knew that she could not manage the company well. No, perhaps it would be the best choice for her. I've always done things fairly, and now we're going to vote on whether Ren Jiaxuan should be deprived of management. "

The moment Zhang Dacheng finished speaking, his supporters immediately raised their hands in support.

Those who had supported Ren Jiaxuan also raised their hands after some hesitation. They didn't want to support Ren Jiaxuan, they just wanted to keep control of Ren Hai An.

Now that Ren Jiaxuan was so scared that she didn't dare to come over, they didn't think too much about it. At the end of the day, self-interest was still the top priority.

In the hands of Zhang Dacheng, the company would definitely develop better than in the hands of Ren Jiaxuan. Only if the company develops well can they, the shareholders, make money.

Soon, almost everyone was in favour of stripping Ren Jiaxuan of her control. Only one person did not raise his hand. He was the CEO of the company, Chen Daxi.

Wu was just a high school graduate back then. Ren Hai An appointed him Deputy Manager. He did a good job and became the CEO of the company.

Considering Ren Hai An's kindness, Chen Daxi definitely would not support Zhang Dacheng.

Everyone looked at Chen Daxi, waiting for him to raise his hand. However, they were disappointed. In the end, he did not raise his hand.

Zhang Dacheng's face looked bad, and he asked coldly: "Chen Daxi, what do you mean by this? Ready to go against all of us? Do you not want to stay at the company? "

Chen Daxi also sneered and retorted, "If the company argues yours, is this still technology? If it wasn't for technology, why would I stay? I only do things for Director Ren, not trash. "

Zhang Dacheng was furious. Just as he was about to insult Chen Daxi, the others rushed to stand up for him.

"Chen Daxi, do you really f \* cking think you're a big shot? When Director Ren is around, you can ignore us! "Now that he's gone, don't f \* cking put on airs!"

"Who do you think you are? That amount of shares in your possession isn't even enough to fill the gaps between our teeth! Waiting for CEO Zhang to control the company and increase the capital to dilute the shares, that amount of shares in your hands doesn't count at all. Do you think you can still act so arrogantly in the company? "

"If you behave and be a dog for Director Zhang, we can still let you continue to be CEO. If you don't listen to me, you can only pack your things and get out of here! There are many people in this world who are stronger than you, and you can easily find a large group of people to replace you! "

" ... "

Zhang Dacheng smiled sinisterly, he felt that he had won. Now that everyone in the company was supporting him, this Chen Daxi who didn't know what was good for him had no choice but to scam.

Chen Daxi was not afraid at all and countered: "It is true that people gather together. You scum, I disdain dancing with you. I'm just not doing anything. I'm a true scholar, where would I not be able to get something to eat? Why do you have to be with a bunch of scum, and lower this father's standards!"  
"Bah!"

With that, Chen Daxi got up and left.

"Hey!" "F \* cking dog, you're courting death!"

"F \* ck, don't care about him, just f \* ck off. We can find another obedient person to be CEO. "

"That's right!" If not, Director Zhang could take the time to become CEO at the same time. With Director Zhang's capabilities, he will definitely do better than this dumb dog. "

"..."

Zhang Dacheng had a smile on his face, but he hated Chen Daxi very much in his heart.

No matter what, he had to teach Chen Daxi a lesson. He had to let this thing that didn't know good from bad know what it meant to be a wise man.

Chen Daxi angrily walked out of the Conference Room. At this time, a helicopter flew over.

A few seconds later, his cell phone rang. He took it out and saw that it was from Ren Jiakuan.

Chen Daxi quickly answered the phone and asked, "Hello, Miss Ren, what happened over there?"

Ren Jiaxuan quickly replied, "It's nothing. Open the staircase. I'll be going down from the roof later."

Surprised, Chen Daxi asked, "Are you in this helicopter?"

"Yes!"

"That's great! I will welcome you right now! "

Chen Daxi hung up the phone, hurried to the security room to get the key, and went up to the rooftop to open the door to the staircase.

Ren Jiaxuan and Zhao Qian got off the helicopter and hurried downstairs.

Chen Daxi quickly reported the situation within Conference Room to her and asked her if she had thought of a good countermeasure.

Ren Jiaxuan shook her head and replied, "I didn't think about it. I'm not going to be a major shareholder in technology now, he is. "

Chen Daxi stopped walking.

Ren Jiaxuan and Zhao Qian also stopped and asked him what was wrong.

Chen Daxi felt very sad and replied: "Miss Ren, technology is Director Ren's hard work first, yet you just gave it up like that? I was trying to keep control of the company. As the daughter of CEO Ren, how could you do such a thing? "

Ren Jiaxuan retorted, "Then what is the result of your struggle?"

Chen Daxi shook his head in embarrassment and replied, "Not good. They reached a united front and all supported Zhang Dacheng. I can only do it so that I don't mix with them and I can't change the outcome. "

"Isn't that fine? With our abilities, we won't be able to protect the company. However, Zhao Qian is different. He has the ability to protect the company. And he promised to protect me for the rest of my life. As long as you are loyal to my father, he will protect you. We don't need to be afraid of Zhang Dacheng's group. " Ren Jiaxuan replied.

Chen Daxi looked at Zhao Qian in surprise. He felt that other than being a little handsome, he didn't seem like a big shot.

Zhao Qian smiled as he stretched out his hand and said, "Hello, my name is Zhao Qian."

Chen Daxi hurriedly replied, "My name is Chen Daxi, before, I was a CEO of Technology, but now I'm not."

"Haha ..." It is very rare for you to be willing to work with Zhang Dacheng and others for the sake of Director Ren. Don't worry, the CEO position is still yours. No one else can take it away from you. "Let's go, let's follow us in and take back everything that belongs to us." Zhao Qian replied confidently.

Ren Jiaxuan also gave Chen Daxi a look of affirmation.

Chen Daxi nodded heavily, and with a grunt, he brought the two of them back to Conference Room.

## C245 Who Is in Favor Who Is in Opposition

Inside the Conference Room, Zhang Dacheng was giving his speech and imagining the future to his supporters.

"Within three years, the turnover of the company has doubled. Within five years, the annual net profit will be at least over 100 million, within 10 years, to become a top domestic company and enter the top 100. As long as you follow me, you will definitely be able to earn a lot. "Everyone..."

Before Zhang Dacheng could finish speaking, Conference Room's door opened and Chen Daxi walked in.

Everyone quickly looked over. Seeing that Chen Daxi had returned, everyone started to curse.

"Motherf \* cker, little scarlet man, you still dare to come back!"

"Didn't he leave already? What did he come back for? Are you prepared to kneel down and waggle your tail to beg for your life? "

"Haha ..." If he knew that would happen, why did he do it earlier? You were so ambitious just now, and now you have voluntarily come back to be a dog. "

" ... "

Zhang Dacheng chuckled and asked, "Chen Daxi, why are you back?"

Chen Daxi stuck out his chest and shouted, "Welcome Director Zhao and Miss Ren!"

Everyone was puzzled. What Director Zhao?

Zhao Qian and Miss Ren walked in, and the Conference Room immediately became quiet.

Chen Daxi closed the door and chased after them.

Zhao Qian and Ren Jiaxuan walked up to Zhang Dacheng and confronted each other.

Chen Daxi walked up to Zhang Dacheng and said in an unfriendly tone, "What are you standing there for? Hurry up and go down! Miss Ren and Director Zhao are here, is this the place where you can stand? "

At this time, the people below the stage started shouting.

"Chen Daxi, what the hell are you doing?" What Director Zhao? Who is this person? "

"This is a shareholders' meeting, not our company's shareholders. Who allowed him to enter?"

"Get out of here!" What bullsh \* t Director Zhao, I'm still CEO Huang, and he's still Director Hong! "

" ... "

Zhang Dacheng signaled for everyone to quiet down and intentionally pretended to be confused. He smiled and asked: "This handsome guy, I've never seen him before! Who are you? "

Zhao Qian chuckled and took a step forward. He purposely knocked Zhang Dacheng off the stage.

"What are you doing?"

"You're courting death!"

"F \* ck, I brought back the Little Red Beard, a thing that doesn't know the meaning of death!" How dare you be disrespectful to Director Zhang! "

" ... "

The fact that Zhao Qian was able to bring Ren Jiaxuan here showed that he wasn't simple. Zhang Dacheng knew clearly in his heart that he met a strong opponent this time.

Using force would not solve the problem, so he could only be reasonable.

"This handsome brother, you are not a shareholder of our company, please leave quickly! Otherwise, I'll call the police to arrest you! " Zhang Dacheng threatened.

Zhao Qian took out the share transfer agreement and loudly said, "Miss Ren has already transferred all the shares to me, this is the transfer agreement. If you don't believe me, you can come over and verify it. "From now on, I have the final say on technology!"

Everyone was shocked and quickly squeezed over to check the share transfer agreement. It had the signatures and handprints of Zhao Qian and Ren Jiaxuan.

Zhang Dacheng was furious and scolded, "F \* ck, you slut! I've talked it over with you, but you won't resell it to me. But now it was given to him! What? Look at how handsome he is! "

With Zhao Qian's backing, Ren Jiaxuan showed no fear as she walked forward and slapped Zhang Dacheng. After enduring for so long, he could finally vent his anger.

This slap not only stunned Zhang Dacheng, it also stunned his supporters.

Was this Ren Jiaxuan tired of living? How dare he hit Director Zhang?

Zhang Dacheng quickly reacted and raised his hand to hit Ren Jiaxuan.

Zhao Qian was quick to react and quickly went forward to grab his wrist.

"Director Zhang, right? How can you hit a woman when you're such a big old man? How about this, I play with you? "

With that, Zhao Qian pushed Zhang Dacheng away.

Now that the situation was complicated, those who supported Zhang Dacheng no longer dared to speak. What if this kid had some ability? He definitely couldn't afford to offend him.

Zhang Dacheng refused to admit defeat and immediately shouted: "So what if you transferred? All of us have come to an agreement to strip you of your managerial authority. The shares in your hands will only be paid, and you can no longer dictate to the management of the company. "

Ren Jiaxuan did not say anything. After all, these matters were not something that a girl like her could deal with. Moreover, she was no longer a major shareholder in the company, so there was no need for her to deal with Zhang Dacheng.

Now, everything was up to Zhao Qian.

Zhao Qian chuckled and replied, "You guys are really awesome. Sitting together and scheming a bit, you want to deprive the majority of the shareholders in the company of control? Why are you guys so awesome? The laws of the country are your own, aren't they? Have you studied corporate law? Have you studied the articles of association? All of you don't have as

many shares as I do, and you still want to bypass me and come to a separate agreement? Pigs are smarter than you! A bunch of idiots! "

Everyone was scolded by Zhao Qian, so they didn't dare retort. They knew in their hearts that the shareholder ratio did not depend on the number of people to speak.

Ren Jiaxuan had transferred 50.5% of the shares to Zhao Qian, so the others couldn't possibly have more than him. It could be said that he had the final say in any decision. Even if the others joined forces, it would still be of no use, because their shares added up to less than 50%.

Zhang Dacheng was still unwilling to give up, so he immediately encouraged everyone to join hands to fight against Zhao Qian. The worst thing that could happen would be to tear the company apart and forget about it.

If Zhao Qian was easily scared by their words, then why would he come out and mess around.

"You two can just amuse yourselves. In any case, as long as I don't nod my head, any agreement you make is null and void. I want to remove Zhang Dacheng from his position as vice president of the company, and all of you, so that you are not allowed to hold any positions in the company. After I finish my words, who's in favor of it, and who's opposed to it? "

As soon as Zhao Qian finished speaking, Chen Daxi and Ren Jiaxuan immediately raised their hands in approval. Zhang Dacheng and the rest immediately expressed their opposition. Those who had originally supported Ren Jiaxuan and had betrayed her were now hesitating.

Zhao Qian chuckled and said, "You really dare to raise your hand? What I have said is an order, do you have the right to object? "Chen Daxi, send me the order, the entire company will be on holiday for half a day, let's go to the plaza and prepare for a meeting!"

Chen Daxi quickly replied loudly, "Yes! I'll go arrange it now. Please wait a moment, Director Zhao. "

With that, Chen Daxi ran out. He went to each of the departments to inform them, and everyone immediately stopped what they were doing and gathered in the square.

Twenty minutes later, everyone was seated in the square, including the cleaning lady from the logistics department.

Chen Daxi quickly ran back to Conference Room and loudly reported to Zhao Qian: "Report to Director Zhao, all employees gather at the square. Please enlighten me, Director Zhao. "

Zhao Qian nodded, smiled and said to Zhang Dacheng and the others, "Let's go and participate together. "Heh heh heh ..."

With that, Zhao Qian walked out, followed by Chen Daxi and Ren Jiakuan.

"Director Zhang, what do we do now?" Could it be that he will admit defeat just like that? "

"What can we do if we don't admit defeat? More than half of his shares, we can't compete against him no matter what! "

"If I admit defeat just like that, that would be too useless. Director Zhang, if we can't do it, then we'll destroy the company. We can't get it, and we absolutely can't let him get it. "

"Yes!" At most, it will just dissipate in one hit, and all the jade and stone will be burned to ashes. No one can think of anything good about it. "

"Director Zhang, don't hesitate. Let's do it this way!"

"That's right! "Let's do it this way ..."

"..."

Everyone bitterly tried to persuade Zhang Dacheng to choose to perish together. He could not resist the encouragement from everyone and nodded in agreement.

"Humph!" "Let's go, let's go out and let him know who is the master of this technology first!"

Zhang Dacheng said fiercely and immediately led everyone out.
