

His True Colors Novel Chapter 1459 - 1462

Chapter 1459

Facing Fei Lingsheng's problem, George Han could only shook his head to deny it.

Fei Lingsheng showed a very unbelievable expression, because in her eyes, George Han at this moment was too powerful to describe in words. The true god means that he has the strength to go to another world, and George Han himself said that he can open the heavenly gate at will, this kind of horrifying strength is not yet Linlong's opponent!

"How is this possible, is Linlong so powerful?" Fei Lingsheng asked unwillingly. She thought that George Han was modest and even wanted to hide his strength.

"Do you know where Linlong came from?" George Han asked.

Fei Lingsheng didn't know these inside information.

But after George Han asked this question, Fei Lingsheng guessed it.

"Could it be that Linlong also came from Tianmen World?" Fei Lingsheng blurted out.

George Han nodded and said, "Yes, in Xuanyuan World, it dare not use all of its strength, worrying that it will be discovered by the people of Tianmen World, but if it comes to life and death, you think it will still Do you retain your strength?"

At the moment of life and death, who will retain their own strength? This question has an obvious answer.

"This is why you are not sure to deal with it?" Fei Lingsheng said.

"If I want a 100% overwhelming victory, my current strength is far from enough, but at least now I am able to compete with it." George Han said.

"And Amelia Su? If she regains her strength, you two can't deal with Linlong together?" Fei Lingsheng asked.

Regarding Amelia Su, George Han didn't think about asking her to deal with Linlong. After all, it was a dangerous and uncertain thing. How could George Han want her to take risks.

But what Fei Lingsheng said was not wrong in essence. With Amelia Su's help, George Han's winning rate could be improved a lot.

"This is all for the future, let's talk about it later, how did you come to earth?" George Han asked in confusion.

Fei Lingsheng didn't know the answer to this question. When George Han fought against Linlong in the Dark Forest, her abilities couldn't help at all. She could only watch from a distance, vaguely remembering that after Tianlei appeared, she knelt on the ground because she could not bear the pressure brought by the sky thunder, and then her mind went blank, and then she didn't know how long it took to wake up on the earth.

"If I tell you, I don't know anything, do you believe it?" Fei Lingsheng asked cautiously, for fear that this answer would cause George Han's dissatisfaction.

But George Han didn't feel that Fei Lingsheng was hiding anything, because even he himself didn't know what was going on.

"Believe, because I am just like you, I don't know what happened." George Han said.

Hearing these words, Fei Lingsheng was relieved.

As a strong master in the Xuanyuan world, Fei Lingsheng had never lived so carefully, but in front of George Han, she did not dare to do anything disrespectful, because the ultimate master was in George Han's eyes, but it was only in the realm of ants, she didn't dare to look high in front of George Han.

"When are you going to return to Xuanyuan World?" Fei Lingsheng finally asked her most concerned question, because she had to cultivate first, and if she wanted to step into the God Realm, the first condition was to return to Xuanyuan World because of the earth's environment. , Is not suitable for cultivation at all.

"With your ability, you should be able to find a time and space channel back to Xuanyuan World, why are you waiting for me?" George Han asked curiously.

Dao Twelve waited for him for three full years. This is something George Han can understand. After all, he saved Dao Twelve and also explained their previous relationship with Dao Twelve, but Fei Lingsheng is different. .

There is no deep relationship between her and George Han, and it is not worth waiting for her for three years.

"Returning to the Xuanyuan world is not a difficult task for me, but how to break through the realm and reach the divine realm, only you can lead me." Fei Lingsheng said, did not hide her purpose, because she knew that in Korea it is useless to cover up in front of three thousand.

George Han smiled faintly. This is what Fei Lingsheng really calculated. It is only to reach the gods, but he can't help. The reason why George Han is so strong is related to the bones in his body. With his ordinary physical body, how could he be able to withstand the impact of such a powerful force.

But George Han didn't intend to tell Fei Lingsheng the truth. Since this woman wanted to use him, he could still use her own way. After all, Fei Lingsheng was a strong master at the extreme teacher level and had great use value.

"In a short period of time, I will not leave the earth, and the reason does not require me to explain to you more." George Han said.

"I have time to wait." Fei Lingsheng said. She has a life span of several hundred years, but now it's just over a hundred years. She doesn't worry that time will be wasted at all, because if you want to break through, you must stay in George Han. The opportunity is only around.

"By the way, do you have a way to gather spiritual energy, such as those in certain formations?" George Han asked. He always wanted to create an environment suitable for cultivation, but he couldn't figure out any clues. Ling has lived for a hundred years, maybe she can do it.

"Gathering spiritual energy, this is something that everyone in retreat will do. It only requires a simple formation. However, due to the scarcity of spiritual energy on the earth, even if you gather together, it will not help your cultivation. , Even for me, it's useless." Fei Lingsheng said, gathering spiritual energy is very simple, but the upper limit of the earth is like this, even if you do this, it will not help George Han in any way.

After all, he already possesses the realm of gods, such a little aura is unnecessary for him.

"It's useless for me. For ordinary people, it should be of great use?" George Han said.

"If it is someone who has never practiced before, it is indeed very useful." Fei Lingsheng said.

"That's it." George Han couldn't help but laugh. He didn't expect Fei Lingsheng to help him solve the problem that has been plagued for a long time. This is a happy thing.

And Fei Lingsheng also understood George Han's intentions. He was not for himself, but for other people.

"Where do you want to set the formation?" Fei Lingsheng asked.

"Of course it won't be here. Come back to Basin City with me. From now on, my home will be the largest spiritual formation on the entire earth." George Han said.

Fei Lingsheng thought that she would not be able to get any benefits if she worked hard, but being able to go home with George Han meant that she would be able to follow George Han at any time in the future, which was a good thing.

Chapter 1460

The trip to the islands at the headquarters of the Black Sheep Organization was a huge harvest for George Han, making him a true god, and his strength was greatly improved. This was something he hadn't expected at all.

Moreover, the current Black Sheep organization gold medal killers have all been eliminated by Fei Lingsheng, which is considered to have achieved George Han's idea of destroying the group before.

Seeing John standing trembling in the distance, George Han beckoned him.

John cautiously walked in front of George Han, bending over ninety degrees.

He once thought that George Han was dead, and even wanted to tell the situation in the crater. But now, seeing George Han alive, he didn't even have the courage to raise his head.

"In the future, the Black Sheep Organization will not have a gold medal killer." George Han said to John.

This is a huge loss for the Black Sheep Organization, because there is no gold medal killer, which means that the strength of the Black Sheep Organization will be greatly weakened. The former world's number one killer organization is now a misnomer.

But John didn't dare to have the slightest opinion on this. He didn't want to offend George Han and thus died in George Han's hands.

"Without the gold medal killer, the Black Sheep Organization still has power all over the world. It is also not to be underestimated. As long as you are useful to me, just speak up." John said.

George Han smiled, this guy is quite sensible and knows what to do.

As for whether the Black Sheep Organization is useful to George Han, George Han himself does not know this, but it is still feasible to keep the Black Sheep Organization in case of emergencies.

"I hope you can remember this sentence, otherwise, I can come and take your life at any time." George Han said coldly.

This threat is not bad news for John, at least it can show that George Han will not kill him now.

"Please rest assured, I will never forget my promise to you." John said.

"Help me arrange the boat, I want to leave here as soon as possible." George Han said.

"Yes, I will prepare now."

Having left Basin City for three years, the current George Han can't wait to go back.

I don't know what happened to Amelia Su in these three years, whether she has grown into a slim girl, and whether there will be many flies flying around.

Thinking of this, George Han's mood became even more urgent. He didn't want certain bastards to enter Amelia Su's life.

"Twelve, how is Basin City now, do you know?" George Han asked Dao Twelve.

"Three years ago, I had asked John to set his eyeliner in Basin City to observe what happened next to Amelia Su. Everything was originally normal, but recently, a boy appeared and chased her, so you won't wake up. I am really worried about what will happen." Dao Twelve said.

When George Han heard these words, his expression changed instantly.

There is a guy who doesn't have long eyes who dare to soak his future wife. It's just looking for death!

"Can't you fly now?" Fei Lingsheng asked George Han. Even in the Extreme Master Realm, he has the ability to fly for a short time, and George Han is already a real God Realm, in Fei Lingsheng's view, This is something that is completely impossible for him.

George Han shook his head and said, "This is too far away from Cloud City, and flying consumes too much power."

If he could fly back, George Han would have done this a long time ago. Why would he need to remind him? It's a pity that this is not a realistic thing, unless there is spiritual energy that allows him to continuously absorb it, but it is a pity that the earth environment, Reiki is scarce, how could it be possible for him to continuously absorb it.

"How about other things, how is the development of Fengqian Commercial Building?" In order to relieve his inner anxiety, George Han could only ask other questions about Dao Twelve.

"The construction of the new city is very smooth. It shouldn't take long for the market to open." Dao Twelve said.

George Han's estimate is within three years. Although the amount of construction in the new urban area is very large, the large sum of funds can be used to speed up the process. This time is considered reasonable.

That night, John prepared a boat for the three thousand and three people to leave.

George Han's heart could not wait to fly back to Basin City, so he did not delay, and the group of three directly boarded the boat.

John watched the ship disappear in the vast sea in the harbor, and then he straightened his stooped figure.

The Black Sheep Organization has fallen to the point it is today, which John never expected. Without the gold medal killer, the Black Sheep Organization's international influence will inevitably decline, and there will be no gold medal killer in the future. This is for John It was a big blow.

But on the other hand, his legs are already healed, which means he can leave the headquarters island, which is also a good thing.

"It's just that there must be gains and losses. Although it is not a good thing for the Black Sheep Organization, for me personally, the result is good, George Han, I hope you can still remember me." John said to himself Said to himself.

Chapter 1461

A few days later, George Han and his party finally returned to Basin City, this familiar place, which gave George Han the feeling that even the air was sweet.

Of course, the main reason is that Amelia Su is here, otherwise, for him, everything on the earth has nothing to miss.

"Twelve, you take her back to the mountainside Villa." George Han said to Dao Twelve.

The spirit formation is to be built in the mountainside Villa. The sooner this matter is, the better, but now he wants to see Amelia Su first, so he can only confess this matter to Dao Twelve.

"I see." Dao Twelve said.

George Han left the airport and took a taxi to the school.

Although he has a faster way to use it, flying in this broad daylight will inevitably be seen by people. This is not yet the whole world-shattering big news. George Han does not want to be the focus of the media.

"Only Amelia Su can make him so excited." Fei Lingsheng said with a helpless smile, George Han's powerhouse in the gods, Amelia Su is simply the happiest among women, because she has the strongest The protection and care of the reader is something other women have no chance to experience.

"Don't you like my brother too?" Dao Twelve smiled.

Fei Lingsheng looked calm and said, "Do you think I'm still a little girl? The word "love" doesn't mean anything to me."

Fei Lingsheng's remarks didn't make the slightest falsehood. Although she envied Amelia Su, she would never like George Han because of it. After all, her pursuit is to become stronger, and she also understands that no one can do it. Replace Amelia Su's position in George Han's mind.

Dao Twelve knew that Fei Lingsheng was over a hundred years old, but he didn't want to think about it because it felt too weird. Fei Lingsheng's appearance was just a girl in her twenties, so she couldn't. Think of her as a centenarian.

George Han came to the school and waited restlessly for the school to end.

It was finally time for the students to rush out from the school gate, but when the last school left, George Han still did not see Amelia Su, which made his mood very complicated.

The school gate is already closed, and Amelia Su could not be still in the school, but she did not come out of the school gate, where would she go?

Thinking hard, George Han also discovered one thing. Not only did he not see Amelia Su, but also Qi Yiyun was not seen. Could these two people become invisible in Chengdu, or fly away with their wings?

"f*ck!" George Han suddenly cursed inwardly.

Three years have passed. How could Amelia Su still study in this school?

George Han rushed to Amelia Su's house in a hurry. Since the school couldn't find anyone, then her house would definitely not run out.

But in fact, George Han was disappointed again.

The original Amelia Su's house had been sold to others, and a complete stranger opened the door.

"Who are you looking for?"

"This... isn't this the Su Family?" George Han asked in confusion.

"You're talking about the former homeowner, they moved long ago." After speaking, the man closed the door.

George Han rushed to the air again, the complexity of his mood can be imagined.

But Amelia Su's move is also justified. After all, Wilson Su is now in charge of all of Su's company, and his identity is really inappropriate to live in such a dilapidated community.

There was no way, George Han could only use his spiritual sense to search Basin City. Only in this way could he find the place where Amelia Su was faster.

After all, I couldn't wait for a long time, George Han didn't want to waste a little bit of time.

When Divine Sense spread throughout Basin City and George Han searched for his familiar aura, Fei Lingsheng, who had just arrived at the mountainside Villa, felt this power and unconsciously showed a sigh.

Although she could do the same, her strength was never as strong as George Han, and her coverage would not be as wide as George Han.

"The strong are different, and the ways of finding people are so different." Fei Lingsheng said with a wry smile.

"What?" Dao Twelve felt inexplicable at what Fei Lingsheng said suddenly.

"You don't understand it, but you will understand in the future. When George Han created the spirit formation, there must be a chance for you to practice." Fei Lingsheng said.

Sword Twelve had already guessed this point, and he also hoped that he could become strong. Only in this way, would it be possible to follow George Han to another world in the future.

Knock on the door.

Qi Yiyun quickly opened the door.

When she saw the twelve swords, her expression did not change, but her eyes were obviously searching outside the door.

"I haven't seen you for three years, I didn't expect you to grow a lot taller." Dao Twelve said to Qi Yiyun.

Qi Yiyun did not see George Han's figure, but his expression did not show the slightest loss, and said: "I am not a dwarf, of course I will grow taller."

Facing this kind of thorns, Dao Twelve smiled helplessly.

When the two walked into the living room, Amelia Su was also in the living room, Dao Twelve said: "He will be back soon."

Chapter 1462

Where there is Amelia Su, there must be George Han.

What Dao Twelve said was not wrong. George Han came back as soon as he sensed that Amelia Su was in the mountainside Villa through his spiritual sense.

Although Qi Yiyun warned herself countless times in her heart that she must calm down after seeing George Han, but when George Han really appeared, she couldn't hide her excitement at all.

It wasn't until George Han walked towards Amelia Su head-on and didn't care about her at all that Qi Yiyun calmed down because of the loss.

"You have changed and become the same as before." Walking to Amelia Su, George Han couldn't help but said, looking at Amelia Su's familiar appearance.

Amelia Su now has a long appearance, almost exactly the same as Amelia Su before George Han was reborn.

Amelia Su and Qi Yiyun didn't understand these words, except that Dao Twelve and Fei Lingsheng understood the meaning, so Amelia Su showed a confused expression.

"What is the same as before?" Amelia Su asked strangely.

George Han shook his head, did not explain too much, he would tell Amelia Su later about the rebirth.

At this moment, Amelia Su's cell phone rang suddenly.

George Han obviously noticed an impatient expression on her face, and intuitively told George Han that this call should have been from the stalker man.

Dare to harass Amelia Su, in the eyes of George Han, he has committed a capital crime.

"I can help you solve this trouble. If you don't want to see him, I can make him disappear in Basin City forever." George Han said to Amelia Su.

Amelia Su didn't take this person to heart, but just thought he was a bit annoying, and it wouldn't be enough to let him disappear.

"You still care about your own troubles, now you have more troubles than mine." Amelia Su said with a smile.

"Me?" George Han was stunned, and said: "What can I have trouble with, it's not bragging. In this world, no one dares to trouble me."

This is really not bragging, but anyone who dares to trouble George Han will not die enough unless he has nine lives.

"In the three years since you left, many prominent people came to Basin City. I hope you will treat them. These people are still in the city hospital. I heard from Grandpa that these people are better than each." Amelia Su explained to George Han.

At the time, George Han used miraculous means to rescue the old man of the Su family. This incident was revealed by some doctors on the spot, which shocked the entire medical community. At the same time, George Han's methods of resurrection were widely spread among the people. After hearing this news, those high-ranking and critically ill people flocked to Basin City one after another, hoping that George Han could treat them.

In the past three years, the number of patients who have entered Cloud City has reached three digits, and just as the Su family said, none of these people have a simple background. If you pick one out, they are all able to treat ordinary people. People are scared of heart disease.

"Prominent status?" George Han smiled coldly, and said: "No matter how powerful they are, what does it have to do with me? Can they force me to treat them?"

The Su family's old man was cured because George Han didn't want to cause more troubles for him to solve the problems in the Su family.

This does not mean that George Han is willing to be a famous doctor who saves the world.

And what he saves depends on his mood, not his identity.

Besides, in this world, what kind of identity could threaten George Han, and his ability, could he still be afraid that ordinary people would fail?

"Grandpa told me that if you don't treat these people, I'm afraid it will cause a lot of trouble. This is probably a disaster for you." Amelia Su said.

Looking at the worried expression on Amelia Su's face, the corners of George Han's mouth rose slightly, which was obviously related to him.

"When is the time, you are still in the mood to laugh." Amelia Su said in confusion facing George Han's smile.

"Of course I am in the mood, if you care about me so much, can I not laugh?" George Han said.

For Qi Yiyun, these remarks are painful.

After George Han entered the Villa, he didn't even look at her directly, but Amelia Su's little concern could make him so happy.

"You should think about how to solve these things quickly." Amelia Su reminded.

Before I could think about it, the doorbell of the Villa rang.

There are very strict rules in the Villa area of Yunding Mountain. It is impossible for neighbors to visit the door.

So when the doorbell rang, George Han guessed that it was probably those so-called distinguished people who had come.

After giving Sword Twelve a wink, Sword Twelve went to open the door.

What is unexpected is that there is not only one person outside the door, but more than a dozen people are crowded, and these more than a dozen people are obviously not a group.

“George Han.”

“Where is George Han, we want to see him.”

“George Han, come out quickly, my master needs you for medical treatment.”

The noisy sound came from outside the door to the living room, and those people rushed to hold their own names, as noisy as a vegetable market.

“They came too fast, too.” Amelia Su said with a look of astonishment. Not long after George Han entered the house, those people had actually received the news.

“It’s not surprising, they must have bought the security of the Villa area, and they will naturally receive the news as soon as possible.” George Han said.

The worry on Amelia Su’s face was getting heavier and heavier, because her grandfather had talked to her very carefully several times, and it was because of this thing every time. He hoped that Amelia Su could tell George Han to handle these things carefully.

Whoever treats the disease first has to be judged by his status. Otherwise, if he offends some people, George Han’s life will definitely be difficult.

“What do you do now?” Amelia Su asked.

George Han didn’t intend to help those people with their illnesses. Otherwise, this mountainside Villa would not be turned into a clinic. There are so many patients in the world who have to run towards this place. George Han didn’t want to be the savior.

“Look at me.” After speaking, George Han walked towards the door.

Amelia Su followed closely.

Qi Yiyun was stunned. She didn’t know if she was qualified to join in the fun. After all, she was in this home, almost no different from an outsider.

After walking to the door, George Han said in a cold voice, "What are you arguing about, do you treat my house as a vegetable market?"

When the voice fell, more than a dozen people outside the door instantly became quiet.

George Han continued: "Go back and tell your master that I will not treat them. No matter what their background is, it has nothing to do with George Han."
