

His True Colors Novel Chapter 1615 - 1618

Chapter 1615

George Han is like a waste harvester, no matter what broken copper or iron, as long as he sees it, he will never miss it.

Soon, Linlong was already full.

Seeing George Han continue to scrape, Lin Long couldn't help it. Said to George Han, "Some of them have been destroyed, and they are not of much use, so there is no need to keep them."

Linlong was expecting George Han to throw away some of the waste, but after George Han heard this, he shook his head again and again.

"Although it is ruined, the material is very good. Maybe you can smelt a powerful weapon. Anyway, you don't need money, so take it." George Han said.

Linlong smiled bitterly. At this time, George Han was like a very greedy person, and he didn't want to miss it.

Due to the fierce war of the ancients, many weapons were damaged to varying degrees. It can be said that almost all of the weapons George Han picked up were defective. But in George Han's eyes, these are still treasures, because these things were used by the ancient powerhouses after all, and there is still the aura of the ancient powerhouses on them.

This alone, no matter how dilapidated it is, in George Han's eyes, it is incomparable to other weapons.

"Why didn't I see the jade sword that Chi Meng said?" George Han was almost unable to get it, but he hadn't found the jade sword that Chi Meng asked him to find, which made George Han anxious.

Although a lot of good things have been collected now, it is still unknown whether these things will be useful.

If he couldn't find the jade sword that Chi Meng wanted, according to this woman's temper, George Han knew that he might die in her hands.

"Can you use your divine power to sense the surrounding environment?" Lin Long asked George Han.

It must be a waste of time to search aimlessly. So Linlong gave George Han such a proposal.

George Han didn't know if he could work in this environment, so he could only try.

After placing all the divine soldiers under his feet, George Han began to use his divine power, but because the battlefield was filled with the power of various ancient powerhouses, once his divine power left the shield, it would be impacted. Collapsed.

After several attempts, George Han sighed helplessly.

"My supernatural power is like an ant meeting an elephant in front of these forces."
George Han said.

Linlong is not surprised. George Han is only the god realm of Xuanyuan world after all, and such a god realm cannot be called a real god realm at all. It is just the people in the Xuanyuan world themselves define this realm. .

In the vast universe, those who can truly be called the realm of gods, in addition to the true gods of the world of eight directions, are probably these ancient powerhouses who have already died.

"It seems we can only look for it slowly. If we don't find the jade sword, we can't leave."
Lin Long said.

This question does not require Linlong to remind. George Han knew it well.

Did not find Jade Sword to leave the ancient battlefield, that is a dead end.

Moving forward aimlessly, George Han still saw what he picked up during the process. And it doesn't matter how bad it is.

In George Han's words, even if the damage is severe, it can be used as a raw material to reshape.

To rebuild weapons with the damaged weapons of ancient powerhouses, in George Han's opinion, it is definitely much more powerful than the ordinary products of the world.

Just as George Han was happily scraping the spoils, a voice from a distance broke the tranquility and at the same time made George Han and Linlong tense to the extreme.

"Who are you?"

Obviously, this is a human voice.

After hearing this voice, George Han and Linlong looked at the subject at almost the same time.

The four eyes intersect. His eyes were filled with disbelief.

They couldn't believe that there were still people alive in this ancient battlefield!

And those who can survive the war of the ancients. It must be the most powerful of these ancient powerhouses!

"What to do!" George Han asked Linlong.

Linlong shook his head subconsciously, his face pale.

What can we do?

What should I do!

When encountering ancient powerhouses, if the opponent wants to kill them, they probably won't even have a chance to resist.

"Who are you guys?" The voice came again, and this time more severely, obviously with some anger. Obviously because there was no response.

George Han took a deep breath and said truthfully: "We are from Xuanyuan World, an ancient powerhouse. Let's find something."

If you want to survive in this situation, you must honestly explain, George Han dare not lie, because once the opponent sees through, his life is hard to save.

"Ancient strong?" The other party showed a trace of doubt, seeming to be persistent to the survival of other ancient strong in this world.

"Not bad." George Han said firmly. Because from the beginning to the end, he never doubted Chi Meng's identity, not an ancient powerhouse. How is it possible to know where the ruins of the ancient battlefield are?

"How is it possible, no one survives except me." The voice was getting closer.

A figure in the distance gradually appeared within George Han's sight.

And he is not coming.

The man sat cross-legged and flew off the ground in this position.

Soon, the man came to George Han, looking old and weak.

With his white hair and beard, it is almost impossible to see his true appearance.

George Han and Linlong walked on thin ice.

Because this is an ancient powerhouse, it is also possible to kill them with a word of disagreement.

“I didn’t lie, she is really an ancient powerhouse, if she didn’t tell me the entrance of the battlefield site, how could I come here.” George Han said.

This made the man frowned. It is indeed impossible to know the entrance of the battlefield if it is not for someone who has some knowledge of the ancient war.

But the war of antiquity that year survived. He is the only one, he can be very sure of this, how could anyone leave the battlefield alive?

“You know. What’s his name.” the man asked.

George Han didn’t dare to hesitate, and quickly replied: “Chi Meng, she said her name is Chi Meng.”

The man laughed suddenly, as if he had a sudden realization.

As he approached, a jade sword came from the sky and fell straight on the top of the man’s head.

Seeing this scene, George Han was frightened and thought he was attacked by others.

It wasn’t until the jade sword hovered over that person’s head that George Han knew that he did it himself.

And seeing Yujian, George Han knew that this was what Chi Meng asked him to find.

“She asked you to come, is she looking for this sword?” the man asked.

“Yes, this jade sword should be what she wants, which is why she asked me to come to the ancient battlefield.”

Chapter 1616

The person laughed suddenly, and the smile made George Han and Linlong’s hair terrifying.

After a while, the talent said to George Han: “She is not an ancient powerhouse at all.”

George Han was stunned.

Not an ancient powerhouse.

But her strength is very strong, and she has such a deep understanding of the ancient battlefield. What is it if you are not an ancient powerhouse?

George Han doubted the truth of what the person in front of him was saying, but he didn't dare to question him, for fear that he might upset this guy and accidentally lose his life.

The current George Han finally felt what it means to be cautious.

In the face of such a strong man, faced with a situation that may lose his life at any time. Saying any word requires careful consideration and caution.

"She is not an ancient powerhouse, who else can she be?" George Han asked in confusion.

"She is just the sword spirit of this sword. This sword is her body." The man explained.

Sword spirit!

George Han was stunned.

He had never heard of such a thing.

Just a sword, how could it become a human being?

Linlong opened his mouth and explained to George Han at this time: "The legendary sword creature can be born after reaching a certain strength, and possessing the sword spirit indicates that this sword is transcendental and a real artifact."

"The sword spirit recognizes the master. The combination of human and sword will greatly improve the strength of the master of the sword."

George Han understood that a sword with a sword spirit is more powerful, and a person who can have this weapon will be more powerful.

This couldn't help making George Han feel a little moved.

If he can make this jade sword recognize the master, then his strength will surely advance by leaps and bounds. For George Han, who is in urgent need of strength improvement, this is a huge good opportunity.

Of course, George Han also knew that it was definitely not so easy for the sword spirit to recognize the master.

He could easily die in Chi Meng's hands. How could Chi Meng put him in his eyes?

"Your dragon clan bloodline is very pure, how is the dragon clan now?" the man suddenly asked Linlong.

Linlong didn't dare any neglect. He lowered his head and said: "The dragon race has long lost its former glory, and now it is just a strange beast in the world of eight directions."

"The dragon clan has turned into a strange beast. I think the strength of the dragon clan back then was equal to that of the human clan, dividing the world into eight directions." said the man.

Linlong knows the glorious history of the dragon clan very well, but it is a pity that this is the case today. The dragons are no longer in the eyes of the human race, they are proud to tame the dragons. Even the dragons are used as playthings, as mounts.

"Since the dragon's heart disappeared, the dragon has been in a slump. There is a saying in the dragon. You can rejuvenate the dragon by finding the dragon's heart." Linlong said.

"The heart of the dragon. If I remember correctly, it was brought to the ancient battlefield by your ancestors because of the ancient battle. Dragons also participated." said the person.

These words made Linlong excited.

The reason why it has tolerated so many years in Xuanyuan World, and the reason it wants to find the ancient battlefield. It is because the legend of the dragon heart is in the ancient battlefield.

Only by regaining the heart of the dragon can it be possible to revitalize the dragon!

This is the only hope for the dragon to stand up.

He knows the heart of the dragon, and he probably knows the whereabouts of the heart of the dragon. How can Linlong not be excited?

"Do you know where the dragon's heart is?" Linlong asked impatiently.

"If I remember correctly, the dragon clan powerhouse back then fell to the northern border of the battlefield, and the heart of the dragon clan should also fall in the northern border." said the person.

Northland!

Linlong looked north. Unconsciously want to go north.

But it was held back by George Han.

"What do you want to do?" Lin Long gritted his teeth and asked George Han.

For Linlong, the heart of the dragon is right in front of him. It must be found immediately before it has a chance to revitalize the dragon clan.

If George Han wants to stop it. It will desperately fight with George Han.

“What are you anxious about? With your strength, walking out of my shield is a dead end.” George Han said.

Linlong realized that George Han was not trying to stop him, but to protect him.

Leaving George Han’s protection circle, its physical body would probably be torn apart by those forces.

“Don’t worry, I will definitely take you to the Dragon Heart.” George Han promised.

Linlong can only choose to believe in George Han, because recklessness costs his life.

“Do you want this sword?” the man asked George Han.

George Han nodded subconsciously, no matter what, he would take the jade sword away, even if he couldn’t let Chi Meng recognize the master and return the jade sword to her, he could save his life.

“If the senior is willing, can you give it to the junior?” George Han said.

“Of course, I am already a dying person. To me, this sword has no meaning.” The man said.

George Han felt a little uneasy, because he promised too much.

And many years have passed since the War of the Ancients, how could he be checkmate now?

Chapter 1617

“Don’t you believe me?” The man asked George Han hesitantly.

George Han Yuguang looked at Linlong, and if he didn’t answer this question, he would lose his life.

But George Han did not believe him in his heart. I always feel that there is fraud in this matter, how could he be so kind?

“If I can kill you, I will have a way to seize your physical body and use your physical body to continue living, but unfortunately I can’t do it.” The man said with a bitter smile, looking a little helpless.

From these words. George Han could feel his killing intent, but he could clearly feel his helplessness.

He didn't want to, but couldn't.

It is difficult to say, does it have anything to do with his axe?

This shield is born from the axe. The manic and extremely lethal force that can block the ancient battlefield, perhaps because of this, he can't hurt himself.

But George Han still had some doubts, how could this axe be so powerful, even the ancient powerful would be afraid of it.

"Why didn't you kill?" George Han asked in a deep voice.

When these words were spoken, Lin Long couldn't wait to let George Han swallow it back. Isn't he irritating the other party?

"Because you have the strongest thing in the world." The man said.

The strongest in the world!

George Han shook his heart.

This axe is just what he got on the earth. How could it be the strongest in the world?

But he didn't say it like a joke.

And George Han could feel his killing intent, if he hadn't been able to do it, George Han would have been fatal.

George Han had many questions to ask, but it was a pity that Linlong was there, and George Han didn't want it to know too much, so he could only bury his doubts in his heart.

"Is there anything I can do for you?" George Han asked.

"Do you want to have the power of the ancient powerhouse?" the man asked.

Have the power of an ancient powerhouse!

This means that George Han will no longer be afraid of the Bafang World. After he goes to the Bafang World, he will not be an ant, and he can even be above the Fu family.

have to say. George Han's heart moved, but reason still prevailed.

There is no pie in the sky in this world. And this person doesn't look like a good person, how could he be so kind?

“You still want to kill me.” George Han said coldly.

Since the other party wants to kill, they can't kill. George Han no longer had any worries about what he said, and directly said what he wanted in his heart.

Listening to the two of them, Lin Long was frightened, and he didn't know where George Han had the courage to be so straightforward.

“You have to give me your own power, this will inevitably not avoid our contact, you can take this opportunity to kill me. Right.” George Han continued.

The man sighed and shook his head again. Looks very helpless.

“You are quite clever, it seems that I really have nothing to do with you.” The man said.

“You give me the jade sword, I can promise you that I will come back again in the future. If you can, I will save you. If you die, I will bury your body and let you go into the soil for safety.” George Han said .

“There are countless ancient powerful corpses in the wilderness. It seems that it is a good result to be able to enter the soil for security.” After finishing. The man threw the jade sword to George Han.

This was also his desperate choice, not to kill George Han. Even less can't take George Han's physical body, for him it can only do so.

George Han who owns the Pangu Axe may not be his opponent in terms of strength, but he has no way to resist the power of the Pangu Axe, because Pangu Axe has already recognized the master, and its power will protect George Han.

“Thank you.” George Han said sincerely.

After getting the jade sword, George Han had completed the task, and he also knew that Chi Meng was just a sword spirit.

This is for George Han. I couldn't help but have other thoughts in my heart.

Such a powerful magic weapon, but also a sword. It is definitely suitable for Amelia Su.

More importantly, George Han still knew a little bit. That is, Chi Meng couldn't hurt her at all.

This ancient powerhouse must be afraid of his axe, let alone just a sword spirit?

“He is afraid of you, why?” As he walked north, Lin Long couldn't help but ask George Han from his curiosity, because he couldn't figure it out, an ancient strong man, even if he was seriously injured. It's impossible to fear the gods of Xuanyuan World.

The strength between the two is not on the same level at all. In Linlong's view, he only needs to move his little finger to wipe out George Han.

"It's so difficult that you want him to kill me? If I die, can you still have a way to survive?" George Han said lightly.

Linlong naturally understood this truth, but what he asked was why he was afraid of George Han, but George Han did not answer the question.

"If you don't want to tell me, just say it straight, don't have to make a roundabout." Lin Long said.

"Then I'll be straightforward. I really don't want to tell you, so you don't have to waste your thoughts." George Han said.

Linlong was helpless and could only say: "Even the ancient powerhouses are jealous of you. It seems that the future Bafang world will tremble because of you?"

Chapter 1618

The Pangu axe was acquired by the earth, and George Han had never expected it to be so powerful. As to whether it can help him gain a foothold in the world of all directions, this is also an unknown matter.

However, through the attitude of that person's ancient powerhouse, George Han could probably also feel the power of Pan Gu Axe, which can be regarded as giving him a hope.

After all, in his current state. It is completely ineligible to go to Bafang World.

But with the power of Pan Gu Axe, George Han can be considered as an extra guarantee.

"I don't pursue a strong state, as long as I can protect Amelia Su and rescue my daughter." George Han said, this is his only goal.

When Linlong heard this, he somewhat despised George Han, because he knew that protecting Amelia Su requires a strong ability, but he showed that he didn't have a strong pursuit of realm. Isn't he still standing as a bitch? ?

"Why do you have so many adventures in your life? From an ordinary person in the blue world to a strong man in the Xuanyuan world, there will even be opportunities to dominate the world in the future." Lin Long asked puzzledly, in it It seems that such a fate happened to an ordinary person, which is really strange.

about this issue. George Han thought about it, even before he got the Pangu Axe, George Han thought about it.

There are billions of people on earth, why did he get the bones?

Moreover, he not only possesses the god realm strength of Xuanyuan World, but also a powerful battle axe, these are not like simple coincidences.

“Why, it’s so difficult that I have any amazing identity, a certain strong person reincarnated?” George Han said with a smile.

According to Amelia Su’s experience, this situation is not impossible, but George Han feels a bit nonsense.

“Of course it is possible, and it is very possible, otherwise, luck will not fall on an ordinary person.” Linlong said.

George Han said jokingly: “Then you are going to talk about it. I might be someone who reincarnated. You should know a lot about the legends of those strong men?”

Linlong thought for a while, then shook his head and said, “I don’t know, but if this is the case, your identity will be revealed sooner or later.”

This is also the reason why George Han didn’t delve into this matter. If he really was the reincarnation of a certain strong man, sooner or later, it would come to light. It’s just a mediocre harassment to struggle with this issue now.

The two continued their journey north, silent for a while on the way.

After a long time, George Han asked Linlong: “If you get the heart of the dragon clan, you will return to the world of eight directions, right?”

“There is no doubt that the heart of the dragon clan can bring the dragon clan back to its peak. And I want to liberate all the clan people and make them no longer slaves.” Linlong said firmly, this is its only pursuit in life. For this matter, Linlong had tolerated in Xuanyuan World for almost a thousand years.

Now that the Dragon Heart can finally be obtained, it naturally wants to accomplish its goal.

“I can help you get the Dragon Heart.” George Han said.

These words made Linlong notice a slight strangeness. The place where the Dragon Clan’s Heart was, was told by the ancient powerhouse, and there was no need for George Han’s help.

And George Han deliberately said this, obviously for his purpose.

“George Han, what do you want to do?” Linlong questioned George Han.

“When you come back to the Octagonal world, is it so difficult that you don’t need allies? Similarly, I also need them, so our alliance can bring a lot of benefits to each other. Why not do it?” George Han smiled.

“You don’t want to use the dragon clan, I won’t let the dragon clan be a slave.” Linlong gritted his teeth and said, it was the purpose of getting the heart of the dragon clan. It is to liberate the dragon clan.

As for George Han’s so-called ally, in Linlong’s eyes, it was George Han who wanted to enslave the entire dragon clan.

He wanted to control the dragon clan in his own hands. This power could compete with the Fu clan, but this was definitely not something that Linlong would accept.

“How can I let the dragons be slaves. We are friends, isn’t it difficult?” George Han asked.

“Of course not. Anyone who wants to benefit from the dragon clan is not qualified to be called a friend.” Lin Long said without hesitation, and showed his dislike of George Han.

When George Han heard this, he immediately stopped, his expression no longer full of kindness, but solemn.

“Without me, can you really get back the heart of the dragon clan?” George Han said coldly.

Linlong was stunned.

There is no George Han. It is difficult to move in this battlefield, and the manic power is enough to tear it apart.

Not to mention getting the Dragon Heart. It is almost impossible for it to survive.

“George Han, don’t do such despicable things, let me despise you.” Lin Long said disdainfully.

“If I don’t help you, am I being mean? This is not my duty.” George Han said.

These words left Linlong speechless.

There is no interest entanglement between it and George Han, and it is not George Han’s relatives or friends, and George Han is indeed not obliged to help him.

But without the help of George Han, it was impossible for it to get the heart of the dragon clan, and Linlong knew this very well.

“What do you want?” In this case, Linlong had to make a compromise because it needed George Han’s help.

George Han raised the corners of his mouth, showing a faint smile, and said, "Can I trust you? Is the Dragon Race a race that cares about promises?"

"The dragons were once known as the supreme gods. We absolutely keep our promises." Linlong said.

George Han looked at Linlong questioningly. He believed what Linlong said, but he didn't believe Linlong himself.

If this guy fails to speak after getting the Dragon Heart. At that time George Han could not blackmail him.

"How can you believe me?" Lin Long asked George Han when he saw George Han doubting himself.

"You become my strange beast, and I can trust you." George Han said.

Lin Long was furious over time. It wants to liberate the entire dragon clan, but George Han wants it to become a pet at this time. How can this be something that Linlong can accept!

Moreover, the reason why Linlong hides in Xuanyuan World has a lot to do with not wanting to be a human alien beast, but at this time he wants it to do so!

"George Han, you also said that you don't want to enslave the dragon clan. I didn't expect you to be such a despicable villain." Linlong gritted his teeth.

"Temporary slavery can be exchanged for the liberation of the entire race. Isn't it enough for you to make trouble? And I can promise you that in three years, I will cancel the contract between us." George Han said .

In three years, George Han intends to use these three years to conquer the world of all directions!
