

His True Colors Novel Chapter 1627 - 1630

Chapter 1627

Given George Han's current relationship with Linlong, he didn't need to hide it, but it was a bit difficult to explain this matter, and even George Han himself didn't understand the meaning of Pangu Axe.

"Do you really want to know?" George Han looked at Lin Long sincerely.

Linlong nodded hurriedly, with curiosity in his heart. It was already very strong, because it really couldn't understand why there was such a big change before and after Chi Meng.

Before going to the ancient battlefield, Chi Meng didn't pay attention to George Han at all, and even let George Han be her servant.

But now, Chi Meng was so obedient to George Han, from the master to the servant.

What Linlong thought was that this change might have occurred when it separated from George Han in the ancient battlefield, and George Han must have got some kind of adventure, or got something powerful.

"Actually, I don't know what it is, this thing. I owned it when I was on Earth." After George Han finished speaking, the axe mark on his forehead began to flash.

The flashing axe floated into George Han's palm, gradually returning to its original appearance from the size of a grain of rice.

Seeing this axe, Linlong's eyes showed disbelief.

George Han didn't know what this axe was. But it can be felt.

According to legend, there is a supreme artifact in the world, which is the king of all weapons. No matter what kind of weapon it is, it is incomparable, because it is in the hands of its master and has accomplished a pioneering work.

"This...this, how is it possible, how is it possible!" Linlong shook his head in disbelief. It couldn't believe that Pangu axe would appear in George Han's hands.

Its former owner, but the person who created the world of mountains and rivers, and the real first person in the universe.

How could such a magical soldier be tamed by George Han?

Seeing Linlong's expression change. George Han asked impatiently: "Do you know what it is?"

Although George Han knew the power of the Pangu Axe, he had no specific definition of what kind of artifact it was.

If Linlong knew what an axe was, for George Han, he would be able to understand the axe better.

"You... don't you know?" Lin Long said, getting such a treasure, but George Han doesn't know what it is. Isn't this the equivalent of a delicious meal in front of him, George Han just doesn't know what it tastes like? ?

"Stop talking nonsense, and quickly tell me what this is." George Han said.

"Its name is Pan Gu Axe. The dragon clan has a secret book to record its appearance. I was fortunate to have seen it when I was very young, but I didn't think about it. I was able to see its body." Lin Long said.

Pan Gu axe.

This is just a name.

But with this name, George Han probably guessed who its owner is.

After all, George Han had also heard of the story of Pangu's pioneering world.

"You mean. This axe was used by Pangu?" George Han asked.

"It's not just that simple to use. Pangu uses it to create the world. It possesses the purest power in the world. This is unmatched by anyone or any divine tool." Lin Long said.

George Han took a deep breath, although through the performance of the ancient powerhouse and Chi Meng, he had guessed that Pan Gu axe was unusual.

But George Han never expected it to be so unusual.

It is what Pangu pioneered.

If Pangu is the first person in the universe galaxy.

Then this axe is the first weapon in the universe galaxy.

"It also has a name, called the King of Ten Thousand Instruments." Linlong said.

From these four words, George Han felt a mighty domineering. The king of all weapons is above all weapons in the world.

What kind of magic weapon, in front of it. All can be called broken copper and broken iron, right?

“Chi Meng is a sword spirit, so it is so afraid of this breath, which is equivalent to seeing the power of the gods in a light realm.” George Han said.

Such a metaphor made Linlong a little disdainful.

What is a light realm, and what is a strong god realm?

Pan Gu Axe doesn't even bother to compare it with any weapon. Because it is superior, it is not qualified to compare with other weapons.

“It's not just Chi Meng, the strong man in the ancient battlefield. Isn't it also very scared? If you can control the power of the Pan Gu Axe, the entire world will be your vassal.” Lin Long said.

George Han who owns the Pangu Axe is equivalent to having an absolute power, but now this power has not been developed.

Once the power is controlled by him, then no one in the world will be his opponent.

Even the so-called true gods. In Linlong's view, he could also be easily beheaded by George Han.

George Han smiled helplessly.

Such an exaggeration. He hadn't thought about it, and the power of Pan Gu Axe was not so easy to control.

George Han tried to use the power of the Pangu axe, but was backlashed. He was able to use the breath of the Pangu axe to fake the power of the tiger, but there was absolutely no way to use the power of the Pangu axe.

“It would be great if it were that simple, I can't use it at all now.” George Han said.

“Of course.” Linlong said, taking it for granted: “It is a Pangu weapon, how can it be used casually by mortals? It is already a miraculous thing that you can make it recognize the master.”

George Han didn't have any desire to refute what Linlong said, because it was a fact. It is definitely George Han who can make Pan Gu Axe recognize the master, otherwise, such a magic weapon. How could it be possible to succumb to a mortal body?

“So, owning a Pangu axe is not a good thing for me. If this matter is known to the people in Bafang World, they may kill me to win the treasure.” George Han said.

Linlong was stunned for a moment.

After thinking about it carefully, the situation is really as George Han said.

Once the news of Pan Gu Axe reaches the Bafang World, for George Han, Pan Gu Axe becomes a bomb, and it may break George Han's body to pieces at any time.

How can the powerful people in the Bafang World allow the Bafang World to fall into the hands of others? At that time, there will be a wave of arresting George Han, and the true god of the Bafang World may appear in person. This is for George Han. It's not a good thing.

"Don't worry, I will not tell other people about this matter, and we have signed a contract, what I have done, you can easily know if you want to know." Lin Long said.

It was precisely because of this that George Han dared to tell Linlong such a big secret, otherwise, George Han would keep it forever.

Chapter 1628

"By the way, do you think Chi Meng can be trusted?" Lin Long said to George Han with a worried look, Ruo Chi Meng passed the news to the person in Bafang World to know. This is not a good thing.

George Han shook the jade sword in the handshake with confidence, and said: "Her body is still in my hands. If she dares to betray me, she will end in smoke."

Linlong nodded, grasping Chi Meng's body as if he had caught her weakness. Under normal circumstances, Chi Meng absolutely dare not betray George Han.

"I don't know what realm the people from Bafang World are. Although Chi Meng is very strong for you, she is just a sword spirit after all. And without her body, it's difficult to use her full strength. If the opponent is too strong, Chi Meng may not be the opponent either." Lin Long reminded George Han.

It had to let George Han know that he couldn't put all his hopes on Chi Meng, and he couldn't think that if Chi Meng did this thing, he would definitely be able to get it done. He also needed to plan if Chi Meng failed. How to deal with it.

"If she can't do it, I will be even more disqualified. What else can I do besides waiting for death?" George Han smiled helplessly, his current realm, and the powerhouses of the Bafang world, are not in the same dimension.

It was not that George Han put all his hopes on Chi Meng, but he now had to do so.

Whenever there is a little other choice, George Han will never escape, avoiding being looked down upon by the guys in Bafang World.

"Hey. That's true, you are still too weak now." Linlong shook his head helplessly.

George Han glared at Linlong. Said: "You and me are half a catastrophe, how can it be better. You have forgotten that I used to fight evenly with you."

Linlong said unconvincedly: "Do you know how much sleep for a thousand years has had on my strength? If it weren't the state where I was just waking up then, you would have been swallowed into the only son by me as food."

"Speaking of the result, you didn't eat me in the end." George Han also took the bar, he didn't want to admit that he was weak in front of this guy.

"That was because the space reversal saved your life." Lin Long said.

This is a fact. If there is no space crack, George Han will be reborn. He had already died under the claws of Linlong.

But what about the facts.

As long as George Han does not admit this fact, he can be regarded as non-existent.

"Don't talk about these useless nonsense, in Xuanyuan World, is there any way to make me stronger?" George Han asked Linlong. In times of crisis, spend time arguing about these meaningless things. In George Han's view, it was a waste of time.

"Not before, but now, you only need to control the power of Pan Gu Axe." Lin Long said.

The current George Han didn't need to cultivate his realm like ordinary people. But wholeheartedly conquer the power of Pan Guaxe, just do this. George Han could completely win the top of the world with Pangu axe.

This is the most direct way, but this way is not simple.

George Han knew the pain of being backlashed by the power of Pangu Axe, but George Han did not hesitate to become stronger.

"While there is still time, try to retreat for a while." After George Han finished speaking, he walked to the mountainside stone chamber.

George Han randomly found a quiet place in Misty Sect and began to practice in retreat.

on the other hand.

After Chi Meng left the Misty Sect, she couldn't calm down for a long time.

The same as an artifact. There is a huge gap between her and Pan Guaxe, and this gap is not quantifiable. This makes Chi Meng feel very incredible.

The legendary Pan Gu axe is really so powerful. With just a few breaths, Chi Meng was completely suppressed, making her unable to resist any thoughts.

But how could this kind of artifact fall into the hands of George Han?

With the cultivation base of other gods, like waste, how could it be possible to control the power of Pan Gu Axe.

“In the legend, Pangu axe can only be controlled by a person with the power of Pangu. It’s hard to say, he...!” Chi Meng, who said to himself, began to shake his head when he said this.

Pangu turned into mountains and rivers and became a part of the galaxy in the universe. How could it be possible to regenerate as a human?

After vetoing this possibility, Chi Meng could only think that George Han was lucky enough to get the Pan Gu Axe. Otherwise, there was no other reasonable explanation.

And now, Chi Meng can only obey George Han’s orders.

Because her breath will be naturally suppressed by Pan Gu Axe, this is a high-low-pressure system of the same kind, and Chi Meng has no way to reverse it.

And the body was still in George Han’s hands, so Chi Meng had to follow George Han’s words even more.

In the Xuanyuan world, no one can be called Chi Meng’s opponent, and in the Octagon world, Chi Meng can also deal with some people of lower realm.

But if the opponent reaches the Kongtong state, it will be a very tricky thing for Chi Meng.

Chapter 1629

In order to find George Han, Fu Leng started to kill in Xuanyuan World. To him, life in this world is like an ant. You can trample at will.

He helped Leng as he wanted. Although it didn’t take long to come to Xuanyuan World, his hands were already covered with countless blood.

No matter whether the other party knows George Han or not, as long as he can’t get the answer he wants, there is only a dead end.

Soon, Fu Leng’s name became louder in the imperial court. Almost everyone was frightened about this, and even experienced large-scale urban migration. As long as it is possible to go to Fuleng, most people in the local city. Will choose to escape.

It can be said that Fu Leng relied on his own cold-blooded methods to completely change the pattern of the imperial court.

The entire imperial court was in a panic, and even news had already been delivered to the imperial dragon palace. They hoped that the emperor could come forward to solve this trouble and let the imperial court return to tranquility.

But after receiving the news, the emperor did not show up for the first time, because he can only exert his full strength in the Emperor Dragon Palace, and there are rumors. This person came from all directions, which made the emperor even more afraid to act rashly.

Although he is the emperor of the Imperial Court, he still knows his own strength. If the opponent is really a strong man from the world of eight directions, even if he is above the Imperial Dragon Hall, he will never be an opponent.

“Emperor, if this person has completely disrupted the imperial court, you must find a way to stop his slaughter.”

“I ask the emperor to come forward personally to solve this innocent person.”

“He caused my imperial court to shed blood, and he must pay the price of his life.”

On the Emperor Dragon Hall. Numerous high-level petitions hoped that Emperor Zun could come forward and solve the trouble caused by Fu Leng.

But the emperor had a difficult look on his face.

It's not that he doesn't want to. Unwilling.

But not!

He was not convinced that he was Fu Leng's opponent.

“Who is he looking for?” Emperor Zun asked, in his opinion. Perhaps only after he found the person he was looking for, he might stop killing.

“A person named George Han, according to rumors, as long as he can find this person, he will be able to get his reward, and now some people have begun to do things for him.” A certain senior said to the emperor.

“Each of you has an eyeliner. I don't know where this person named George Han is?” the emperor asked.

None of the ministers dared to respond, if they could find George Han. I've been asking for credit in front of Fu Leng a long time ago, how can I wait until now?

“Never heard of this person, and no one has ever seen it.”

“My subordinates have checked their scope, and there is no one named George Han.”

“me too.”

“me too.”

Before rebirth. George Han was quite famous in Longyun City, but after being reborn. George Han was completely unfamiliar to Xuanyuan World, and almost no one knew him, so it was only reasonable for the Huangting Eyeliner to not know his existence.

Facing this circumstances. Emperor Zun also had a headache.

If you can find George Han, and offer his hands. Fu Leng would also stop killing in the imperial court.

Unfortunately, it is obviously not that simple to achieve this.

At this moment, a strange figure suddenly walked into the hall.

He is young and handsome, with a graceful figure, which is definitely attractive to young women.

But at this time, he appeared in the Emperor Dragon Hall. It is definitely not suitable.

“Who are you who dare to break into the Emperor Dragon Hall without authorization.”

“Boy. Get out, this is not where you should be.”

“The emperor is now. If you are presumptuous, you are a dead end.”

Facing all the accusations, Fu Leng looked calm.

How could he see a dilapidated emperor dragon hall.

“In this world, there is no place I cannot go.” Fu said coldly.

Facing Fu Leng’s unrestrained attitude, the high-level officials were full of anger.

But Emperor Zun felt that there was something unusual in his calmness.

“Who are you?” Emperor Zun asked.

“You are not qualified to know who I am.” Fu Leng said.

Emperor Zun’s eyelids jumped. Although he had never seen the person who carried out the murder in the imperial court, he had an intuition that the person in front of him was him.

Otherwise, who else has the courage to trespass in the Emperor Dragon Hall under such circumstances?

“I just heard you talk about George Han?” Fu Leng asked.

After uttering the three words of George Han from his mouth, Emperor Zun was almost able to confirm his identity.

Such a dangerous figure, the emperor dare not take it lightly, secretly activated the formation of the Emperor Dragon Hall, in order to enhance his strength.

“Don’t do useless work, your methods are in front of me, they are vulnerable.” Fu Leng said to Emperor Zun disdainfully.

The emperor was shocked, his secret actions were actually noticed by this person.

Above the Emperor Dragon Hall, the emperor is an absolute powerhouse, and here he can also be called the absolute domain, in the absolute domain, even the powerhouse of the extreme master is not his opponent.

Chapter 1630

The emperor knew that the Supreme Master Realm was an absolute powerhouse in the Xuanyuan world, but the person in front of him came from the world of all directions.

He was able to wreak havoc in Xuanyuan World, his strength was definitely not comparable to Xuanyuan World, even though it was in the Emperor Dragon Hall. Emperor Zun also knew that he might not be his opponent.

Therefore, after listening to Fu Leng’s words, the emperor did not dare to act rashly, for fear of losing his life by accident.

“What can I do to help you.” Emperor Zun asked Fu Leng.

The senior officials of the imperial courts were a little surprised at the attitude of the emperor, this is the palace of the emperor dragon, this person’s attitude is so rampant, the emperor has to treat each other with courtesy!

“Help me find George Han, the people here don’t have to die. If I don’t find it for a day, I will kill one person a day. It’s reasonable.” Fu said coldly.

reasonable?

There is no reason to kill people above the Emperor Dragon Hall. This is simply provoking the authority of the emperor.

However, the high-level anger turned anger. After knowing that Fu Leng was a strong man from all directions, they did not dare to say a word of dissatisfaction. Recently, they have heard too much about Fu Leng's methods. I was afraid that bad luck would happen to me.

"Let me tell you, we have already investigated this person, but we haven't found a person named George Han. I am afraid it is a bit embarrassing in one day." Emperor Zun said.

"I didn't ask you to find out within a day. I only killed one person a day. If you spend two days to find him, you will only die one person." Fu Leng said.

Life was in Futian's eyes, like a mustard, he didn't care at all.

Such an attitude made the emperor feel terrified.

Where can I find someone who has no information!

And there are only a dozen people in this hall. It's not enough to kill for half a month.

If you haven't found it for half a month, wouldn't all the senior officials in the imperial court have to die here, and this will not make the imperial court chaotic?

"These are all important figures in my imperial court, please be able to keep people under the knife." The Emperor said in a pleading tone.

At this time, the emperor had completely put down his figure, he didn't think his identity could have any deterrent in front of Fu Leng.

After all, he is a strong man from the world of all directions, how could he see him in his eyes.

"Are you bargaining with me? You have such qualifications?" After speaking, Fu Leng suddenly raised his hand.

He didn't see any special actions. All the high-ranking officials suddenly flew up in the sky. Without any warning, there was a burst of blood in the air, and there was no whole body left!

Fu Leng was definitely the first person to kill at the Emperor Dragon Hall.

But in the face of his behavior, no one dared to scold him.

Scared!

fear!

Various negative emotions derive from the hall.

And the emperor. Through Fu Leng's method just now, he understood the gap between himself and Fu Leng even more, if he dared to do something with Fu Leng. The end is exactly the same, and there is no chance to resist.

"Don't worry, I will find this person as soon as possible." Emperor Zun assured Fu Leng.

"I'm waiting here. Don't expect to escape. No matter where you go, I can find it and let you die in the most painful way." After finishing speaking, Fu Leng walked towards the throne.

This is a position where only the emperor is qualified to sit, but he sits upright.

Seeing this kind of scene, the emperor did not dare to have any opinions, and could only explain to those high-level officials that they could find George Han.

Because the emperor knows it. The only way to solve this matter is to find the person he wants.

"Emperor, this person is so cruel. Even if he really helps him find someone, will he let us go?" After leaving the Emperor Dragon Hall, a certain senior asked the Emperor.

Others looked at Emperor Zun one after another, hoping that he could think of a better way in this matter.

"I am not his opponent. I think you should also know what Bafang World means. Only the legendary God Realm can go to the Bafang World, and my strength cannot be compared to the God Realm. So we have no other choice." Zun Shen said.

Before, he tried to fight Fu Leng in vain, and even felt that he still had the power to fight.

But after seeing Fu Leng's methods, the emperor realized that he was not worthy of being Fu Leng's opponent, let alone the power of a battle.

"Stupefied we can only watch being killed?" someone said very unconvinced.

"I advise you, with his ability. No matter where you hide in Xuanyuan World, he will definitely be able to find it, and he also made it very clear. If anyone dares to escape, let him die in the most painful way. Do you want to try it?" The Emperor reminded. ,

He knew what these guys were thinking about.

Facing the devil is terrible, so the best way is to escape.

But Fu Leng, the demon, obviously couldn't escape.

"I will send all my staff to track down George Han's whereabouts."

"I will too. I don't leave my hands alone. Otherwise, I don't know who will die tomorrow."

In this way, George Han became the most famous wanted criminal in the entire imperial court. In just one day, the three-year-old children in the imperial court also knew the name of George Han.

For a time, George Han three characters. It has become the most discussed name in the imperial court.

Basin City.

After the Twelve Sabres lived in Longyun City, in addition to spending most of their time every day to improve their cultivation, the other thing was to feel the new life in this different world.

Mo Yang and Liu Fang adapt very quickly. And also quickly fell in love with Longyun City this place.

There are no tall buildings.

There is no car on the road.

People no longer hold a mobile phone in their hands.

Such a brand-new life experience is extremely fresh for the Moyang couple.

Life was calm and unwavering.

But after the wanted order for George Han was passed to Longyun City, the three people's mood became much heavier.

Home.

The three of them got together and were relatively silent, because they didn't know where to start or how to help George Han.

"The situation is really not optimistic. The whole country is looking for him. I don't know what he did." Liu Fang said with a worried look. George Han gave her a brand new life. This kind of favor Liu Fang Always keep in mind.

"It may be the wife or daughter of Emperor Zun who slept, otherwise, how could the power of the whole country be used." Mo Yang said.

Liu Fang glared at Mo Yang and said, "When is it, are you still in the mood to make a joke?"

Mo Yang curled his lips and said, "I'm not kidding, maybe this is the case."
