

His True Colors Novel Chapter 1647 - 1650

Chapter 1647

Fei Lingsheng only saw the emperor after the trail of nine turns and eighteen bends, and there were hundreds of guards along the way. It also allowed Fei Lingsheng to see the defensive strength of the imperial court.

However, these guards are still imaginary to the real strong.

Take Fei Lingsheng's own strength as an example, no one can stop her wanting to forcefully enter the imperial court.

Therefore, these guards, in Fei Lingsheng's view, in addition to supporting the scene. There is no substantive effect.

After all, the weak who can be stopped can't sneak into the imperial court.

"I don't know what the emperor is looking for?" Fei Lingsheng asked straightforwardly.

"Since Senior Fei is so direct, I won't sell it. I don't know Senior Fei, have you ever heard of George Han?" asked the emperor.

"The three words George Han have already made a lot of noise in the imperial court. I want to say that I haven't heard it. Wouldn't I open my eyes and talk nonsense?" Fei Lingsheng said lightly.

How many people did Fu Leng kill in the imperial court?

This is no longer a simple number that can be counted, and his motive for killing is all due to George Han, so the three words George Han. It has long been spread in the imperial court.

"It seems that Senior Fei knows this person." Emperor Zun said.

Fei Lingsheng frowned slightly, she just said that she had heard it and didn't express the meaning of knowing, but the emperor thought so.

"The emperor shouldn't think that there will be any conspiracy between me and this George Han?" Fei Lingsheng said, this is not in the Emperor Dragon Hall, so Fei Lingsheng will not be particularly afraid of the emperor.

"Of course not. No one can question Senior Fei's heartfeltness towards the Imperial Court. I hope Senior Fei will not think too much about it. I just want to know more about George Han." Di Zun said.

“I and him. It’s just a fate. You want to get to know him through me. You may have found the wrong person.” Fei Lingsheng said.

Although she knows George Han thoroughly, she wants to betray George Han, which Fei Lingsheng cannot do.

The current George Han, but a true god, wants him to know that he betrayed him, Fei Lingsheng can’t guarantee what he will end up with.

“I want to know. Not too much. I heard that there was a strong god in the imperial court. Is it him?” asked the emperor.

There are not many people who know about George Han being a powerhouse of the gods, and Fei Lingsheng was quite surprised that the emperor was able to receive this news.

“As far as I know. It is true, but what the facts are. I don’t know, and I dare not try to verify with him.” Loyalty. Avoid getting involved in unnecessary trouble.

“That is him, do you also know that he is a powerhouse of the gods?” Emperor Zun took a deep breath and said. Now it seems that George Han’s realm is already an ironclad thing.

“Not bad.” Fei Lingsheng said.

“Unexpectedly, my imperial court would be able to appear such a strong person. It seems that the unification of the three kingdoms is just a matter of time.” The emperor forced himself to show a smile.

But Fei Lingsheng knew that his words were just for himself.

He asked George Han to come to the imperial court. It is by no means that simple, and it depends on his performance. It seemed that before doing this, he didn’t know the true state of George Han.

“You want to deal with George Han?” Fei Lingsheng said his guess.

The emperor’s complexion froze. He was worried that Fei Lingsheng would inform George Han.

After all, it is difficult enough to deal with a powerhouse like George Han, if George Han is prepared, this is not good news for the emperor.

“How come, how can I deal with the strong of the gods, even with the formation blessing, I don’t have that strong strength.” The Emperor reluctantly explained.

Judging from the expression of Emperor Zun, Fei Lingsheng could almost confirm this matter.

It seems that although history can be overthrown and restarted, some things are destined to be unchangeable.

The former emperor had already died in George Han's hands once.

But his destiny has not changed because of George Han's rebirth.

The second death will soon fall on him.

"Don't worry, the relationship between me and him is not enough for me to inform him, and I came to the imperial court this time just to join in the fun and not to cause trouble for myself." Fei Lingsheng said.

This remark made the emperor breathe a sigh of relief, because he knew that his explanation Fei Lingsheng would never believe it.

"Nothing else, I will leave first." Fei Lingsheng said.

After the emperor nodded, Fei Lingsheng left.

Yuexia walked to the side of Emperor Zun and said softly: "Emperor Zun, do you believe her?"

The emperor smiled helplessly and said: "Even if you don't believe her, what can I do, I am not her opponent outside the Emperor Dragon Hall."

Now that Chi Meng retreats in the hall to increase the power of the formation, the emperor has no way to deal with the paying spiritual life.

So no matter if he didn't believe it, he could only watch Fei Lingsheng leave.

Chapter 1648

The Emperor Dragon Hall was a very familiar place to George Han, so when George Han came here, he realized that something was wrong here.

The former George Han fought against the Emperor in the Emperor Dragon Hall and successfully killed the Emperor. At that time, he knew very well what was in the Emperor Dragon Hall.

But this time, the formation power of the Emperor Dragon Hall was obviously much stronger than before. In other words, the emperor was able to use the strength of the formation to enhance his own strength.

"It seems that Chi Meng really wants to use Emperor Zun to deal with me." George Han smiled faintly, and did not feel any threat because of this situation.

No matter how much enhancement the formation technique can bring to the emperor. After all, George Han was a god realm, the only god realm in Xuanyuan world, which was unmatched by anyone.

Even if Chi Meng could use the formation method to force the emperor's realm to the god realm, the emperor would burst into death because of his inability to withstand this power.

It is necessary to know that George Han not only undergoes Tianlei body refining, but also with the help of the femur bones, can George Han withstand the mighty power of the gods. It is impossible for an ordinary body to do this.

"Indeed, if the ancient gods fell into the hands of someone like you, she would definitely not be convinced." Lin Long said naturally.

As an ancient god soldier, his former master was an ancient powerhouse, and the gap between him and George Han was not even a little bit. Being controlled by George Han was naturally something Chi Meng resisted.

"Although she is a product of ancient times, her IQ is still a bit low after all." Lin Long said with a smile, in its opinion, Chi Meng's best choice. It is forbearance, because George Han has something that can suppress her, it is absolutely irrational to fight against George Han at this time.

"This has nothing to do with IQ. I have seen many arrogant people. Like her, you don't know how to cry without seeing a coffin." George Han smiled.

At this time, Chi Meng was like the rich second generation George Han had dealt with.

Those rich second generations knew that George Han was not easy to deal with, but out of face, they would try their best to find trouble for George Han, and in the process, they would always fantasize about stepping George Han under their feet.

Until they were trampled by George Han, and even their lives were threatened, they would cry and regret.

In front of George Han weeping bitterly, not a few people kneeled down and begged for mercy. He has become accustomed to such images.

"Hey." Linlong sighed, Chi Meng was called not being immortal. Honestly obedient, nothing happened, I have to come up with these moths. Don't you add to yourself?

"Under the suppression of Pan Gu Axe, she will never be able to turn over in her life, and Xuanyuan World wants to find your opponent, isn't this a joke?"

After hearing Linlong's words, George Han couldn't help laughing.

“In fact, she understands the truth, but she doesn’t want to give up, she doesn’t want to give in.” George Han said.

“If this is in the world of Bafang, she might be able to escape your control, but is it in the world of Xuanyuan. It is purely whimsical.” Lin Long said.

These words reminded George Han that Chi Meng had different intentions. This was for George Han. It is an unstable bomb that may explode at any time.

In Xuanyuan World, Chi Meng could not find someone to deal with George Han.

But after going to Bafang World, where the strong are like clouds, it is not a place where George Han can casually go wild.

“You reminded me, is there any way to completely control her?” George Han asked Linlong.

Linlong glanced at George Han’s forehead unconsciously. There is the location of the hidden Pan Gu Axe.

“The best way for Chi Meng to be completely obedient is to make her recognize the master. But you already have a Pan Gu Axe, I don’t know if this matter will work.” Lin Long said uncertainly.

George Han frowned. He hadn’t thought about having the Jade Sword all the time. The main reason for bringing it with him was to give Amelia Su to Amelia Su. How to give it to Amelia Su?

As if seeing George Han’s worries, Lin Long said: “Don’t worry, after acknowledging the Lord. It’s not impossible to dissolve this relationship, and it won’t affect your giving the jade sword to Amelia Su.”

“If this is the case, then there is no problem, I will try my best.” George Han said.

An artifact that opened up the world and an ancient artifact, both were the same master. George Han didn’t know if it would work, or whether it would cause some kind of rejection between the two.

But such a good gift, George Han must give Amelia Su, so-called no matter what, he has to try it.

After entering the Emperor Dragon City, George Han soon had many spies watching in secret. This should have been arranged by Emperor Zun early in the morning, fortunately, he would monitor George Han’s behavior as soon as possible.

“It seems that the formation of the Emperor Dragon Palace hasn’t been completed yet. Give her a few more days.” George Han found a shop and stayed at random, not eager to find the Emperor.

To make Chi Meng give up his heart, it must be when she has the utmost confidence. Give her the heaviest blow.

Imperial court.

The emperor had received the news that George Han had entered the Emperor Dragon City for the first time, but he did not make any other arrangements other than keeping those eyeliners on George Han, because the Emperor Dragon Palace had not yet been completed. Chi Meng didn't show up either, he didn't dare to mess around easily.

"Emperor, if he is a real god, he should be able to feel the changes in the Emperor Dragon Hall?" Yuexia said to the Emperor. These days, the power of the Emperor Dragon Hall is gradually becoming stronger. Can feel it, not to mention George Han who possesses a god realm.

"What do you mean?" The Emperor asked suspiciously.

"I mean, he knew this, but he still dared to stay in Emperor Dragon City, maybe..." Yue Xia didn't finish speaking, but the Emperor had already guessed what he was going to say next.

The power of the Emperor Dragon Hall is getting stronger.

But George Han didn't have the slightest fear.

This may well show that George Han, who possesses the realm of God, did not take this matter seriously.

This is also a side view. The Emperor wanted to use the formation to defeat George Han, simply wishful thinking, because George Han didn't care at all.

"I believe she will have other ways to help me." Emperor Zun said.

Chi Meng was able to kill the powerhouses in the world of eight directions, so in the eyes of Emperor Zun, her ability was more than that.

And this matter was what Chi Meng asked him to do. Chi Meng wanted George Han to die, so Emperor Zun believed that Chi Meng would definitely not only strengthen the formation of the Emperor Dragon Hall.

If she had other ways to help herself, Emperor Zun would be more confident.

Chapter 1649

Three days later, the formation of the Emperor Dragon Hall was completed.

Chi Meng finally showed up.

When Chi Meng stood in front of the emperor, the emperor still looked respectful, because he knew it. Her own destiny is completely in the hands of this woman, and without her help, this time I am afraid it would be more difficult.

Facing the mighty power of the gods, the emperor had no confidence in his heart.

“He has arrived?” Chi Meng asked the emperor.

“I have been here for several days and have been living in an inn in the city. I did not leave.” Di Zun said.

“The formation of the Emperor Dragon Hall can raise your strength to the gods. Although the time is short, there is my secret help. There is absolutely no problem for you to deal with him.” Chi Meng said confidently.

Hearing the word God Realm, Emperor Zun was eager to try.

Because that was the realm in the legend, the emperor wanted to know what it would feel like after reaching this realm.

And Chi Meng promised to help him secretly, which made Emperor Zun more confident in dealing with George Han.

“Please rest assured, I will not humiliate my mission.” Emperor Zun said firmly.

Chi Meng nodded lightly.

One thing she didn't tell the emperor was that this kind of forcible ascension realm was still a god realm. This is the strength that the emperor's body cannot bear at present, so even if he can kill George Han, it will bring huge sequelae to the body, and it is even possible to die in the process.

Of course, to Chi Meng, the emperor's life and death are irrelevant, so naturally there is no need to tell the emperor about this matter.

After all, Emperor Zun was just a tool for Chi Meng to use. Whether he was alive or dead afterwards, it was not Chi Meng's concern.

“I'm now. Go to the Emperor Dragon Hall to meet George Han?” Emperor Zun asked.

“Go.” Chi Meng said, she couldn't wait to see George Han die. Then regained his body from George Han.

Emperor Zun glanced at Yuexia.

Yuexia understood her heart and left the imperial court.

The inn where George Han is located.

He already felt the completion of the Emperor Dragon Hall array. This also means that the emperor should come to the door soon.

“After finishing this matter, I will go to Bafang World. Do you have any good suggestions?” George Han asked Linlong.

“Unless you can persuade Chi Meng to help and open the Heavenly Gate silently, otherwise, you will go to the Bafang World. It is definitely a dead end, what better advice can I have.” Lin Long said very straightforwardly.

George Han smiled helplessly. This little thing’s mouth is really poisonous, of course, what it says is the truth.

If George Han wanted to be safe, he had to go to the Eightfold World without the Fu’s lineage. Otherwise, if Fu Leng died, they would definitely be counted on George Han.

Murder pays for life. George Han understands such a simple truth.

“If she can help, what do you think I should do in Bafang World?” George Han said.

Linlong thought about it very seriously, and said, “In addition to the three major clans in the Bafang world, there are many other sects. You can use these sects to hide your identity. Join in and observe the Fu clan secretly. A pulse of movement, and then improve your strength.”

“That’s not a good suggestion.” George Han said, joining the sect and called the sect disciple. This can really conceal George Han’s identity, but it means that George Han will experience another The long latent process of the field.

“This is the only way, and in the process. You can also search for news about the Pangu tribe. Once you find them. You have the opportunity to control the power of the Pangu axe. Only then will you be able to face the Fu family directly.” Linlong said.

George Han nodded unconsciously, Linlong’s words convinced him.

This is indeed not a good suggestion, but it is the only way. Although George Han is reluctant, he can only do so.

The current George Han does not rely on recklessness to do things. He needs to consider many factors. Otherwise, if he loses his life, everything becomes empty talk.

Temporary tolerance can be exchanged for Liu Yinhuaming, which is also acceptable to George Han.

“Although it seems to me to be an inferior solution, I still have to thank you, don’t worry, I will definitely help you revitalize the dragon clan.” George Han said.

This is the deal between George Han and Linlong.

Although Linlong has gained the heart of the dragon clan, it is still very difficult to bring the dragon clan back to the top with its own strength.

After all, the dragons in the Octagonal World had been enslaved for too many years, and Linlong couldn't even find a helper of his own.

"The bridge of friendship between humans and dragons may be between you and me." Lin Long said.

George Han raised his eyebrows and said, "I'm here, and I have to pick up customers. After waiting for so many years, I finally waited."

After George Han finished these words, Yuexia just stepped into the inn, and almost everything was under George Han's control.

Chapter 1650

Before the moon went down to find George Han, George Han had already appeared before the moon.

"Let's go." George Han said directly.

This gave Yuexia a vague premonition, because George Han seemed to have everything ready, and he showed fearlessness. Obviously confident.

In other words, he still doesn't fear the emperor even when he understands all the circumstances, then this battle of life and death is probably dangerous for the emperor.

Yuexia did not speak, and led George Han directly. To the Huanglong Hall.

Above the hall, the emperor had already waited, and silently urged the formation to enhance his strength.

This feeling of strength gradually becoming stronger. The emperor was very obsessed, but once he left the Emperor Dragon Hall, he would be beaten back to his original form.

Upon reaching the hall, George Han looked at the familiar face and couldn't help but smile.

Unexpectedly, the emperor who had died once could still stand in front of him.

And this time, the emperor would die in the hands of George Han in the same way, which made George Han a little bit dumbfounded.

Such a cruel thing. How could it happen to the same person twice?

“I never dreamed that I would kill someone a second time.” George Han said with a smile.

Emperor Zun didn't quite understand what George Han's remarks meant, and said to George Han in an accusing manner: “George Han, do you know how many innocent lives have been implicated because of you.”

George Han did not deny this.

The entire Misty Sect, if it weren't for him, it wouldn't be helped by the cold to destroy the Sect.

But as the founder of Misty Sect, Chi Meng watched all this happen without stopping. Is it so difficult that she is not responsible?

Of course, this is not a responsibility. Emperor Zun just wanted a reasonable reason to deal with George Han.

“You want to kill me, you don't need to make any excuses. She is willing to help you, but also wants me to die. In this case, just order it.” George Han said lightly.

He didn't sense that Chi Meng was nearby, which made George Han a little strange. Is it difficult for her to have such confidence in Emperor Zun, she was not staring at the scene.

Just relying on the power of Emperor Zun alone would never pose a threat to George Han.

The emperor did not expect George Han to speak so thoroughly. Moreover, George Han's expression of fearlessness also made the emperor feel a little nervous.

He knew it was a dead end. But it still came, which can only explain one thing, that is, he is not afraid of himself at all.

“Are you so confident?” Emperor Zun gritted his teeth and said.

“Although she has improved the power of the formation so that you can temporarily reach the God Realm. But I am a real God Realm, so how can I be afraid of your opportunistic God Realm? And with your current body, it is impossible to bear it. The powerful power of the gods, so even if I don't fight you, you will be backlashed by this power, do you think. Do I need to be afraid of you?” George Han said with a smile.

This is very reasonable, and the emperor can't help feeling a little nervous.

indeed. George Han is a real god, but he is a temporarily strengthened god, there is no comparison between the two.

The last few words of George Han made the emperor even more nervous.

He knew the consequences of being backlashed by power.

However, Chi Meng said that he would help in secret, which barely gave the emperor more confidence.

Everything is open. There is no need for so much nonsense.

The emperor urged the formation with all his strength, and his strength increased at a speed that the naked eye could reach.

This experience. It has already happened to George Han, so he was not surprised at all. And this time, George Han was already a real god, and he didn't put the Emperor in the slightest.

What is more worthy of George Han's attention is Chi Meng in secret.

Although she didn't appear, with her heart that wanted to kill George Han, this matter would definitely not be that simple.

The realm of the emperor quickly soared to the god realm. For the emperor who had never felt such a strong feeling before, at this time, he felt as if he could destroy the world with his fingers.

"This is the feeling of the gods, it can be so powerful." The emperor said to himself.

This was like a joke in George Han's ears.

Can it be so powerful?

It has been a long time since George Han became a true god, but he never thought how powerful the god was.

What Emperor Zun said could only mean that he had never seen the world.

"The power in your eyes is nothing but ants for some people." George Han sighed and said, mocking the emperor as well as sarcastically himself.

"George Han, your death date has come, I advise you not to do unnecessary resistance." Emperor Zun said to George Han with an imposing manner.

George Han couldn't help rolling his eyes and said, "You have died in my hands once, but you forgot it. Since I can make you die the first time, I can make you die the second time."
